Zoning Public Hearing CITY OF AUSTIN RECOMMENDATION FOR COUNCIL ACTION

AGENDA ÎTEM NO.: Z-4 AGENDA DATE: Thu 08/18/2005 PAGE: 1 of 1

SUBJECT: C14-05-0107 - East Congress Neighborhood Planning Area Rezonings - Conduct a public hearing and approve an ordinance amending Chapter 25-2 of the Austin City Code by zoning and rezoning property locally known as the East Congress Neighborhood Planning Area, bounded on the north by Ben White Boulevard, on the east by IH-35, on the south by Stassney Lane and on the west by Congress Avenue (Williamson Creek; East Bouldin Creek; and Blunn Creek Watersheds). The proposed zoning change will create a Neighborhood Plan Combining District (NPCD) covering the entire area. Under the proposed East Congress NPCD, "Small Lot Amnesty" special use and "Impervious Cover and Parking Placement Restrictions" and "Prohibiting Parking in the Front Yard" zoning regulations are proposed for the entire neighborhood planning area. The "Neighborhood Mixed-Use Building" special use is being proposed for tracts 105, 108, 110-115, 117, 120-121, 125-126, 128, 142, 144-147 and 150-151. The "Neighborhood Urban Center" special use is being proposed for tracts 105, 108, 110-114, 117, 120-121, 125-126, 128, 145-147 and 150-151. The proposed zoning change will also change the base district zoning on 36 tracts of land and the City Council may approve a zoning change to any of the following: rural residence (RR) district zoning; single family residence large lot (SF-1) district zoning; single family residence standard lot (SF-2) district zoning; family residence (SF-3) district zoning; single family residence small lot (SF-4A) district zoning; single family residence condominium site (SF-4B) district zoning; urban family residence (SF-5) district zoning; townhouse & condominium residence (SF-6) district zoning; multi-family residence limited density (MF-1) district zoning; multi-family residence low density (MF-2) district zoning; multi-family residence medium density (MF-3) district zoning; multifamily residence moderate-high density (MF-4) district zoning; multi-family residence high density (MF-5) district zoning; multi-family residence highest density (MF-6) district zoning; mobile home residence (MH) district zoning; neighborhood office (NO) district zoning; limited office (LO) district zoning; general office (GO) district zoning; commercial recreation (CR) district zoning; neighborhood commercial (LR) district zoning; community commercial (GR) district zoning; warehouse/limited office (W/LO) district zoning; general commercial services (CS) district zoning; commercial-liquor sales (CS-1) district zoning; commercial highway (CH) district zoning; industrial park (IP) district zoning; major industrial (MI) district zoning; limited industrial services (LI) district zoning; research and development (R&D) district zoning; development reserve (DR) district zoning; agricultural (AG) district zoning; planned unit development (PUD) district zoning; historic (H) district zoning; and public (P) district zoning. A conditional overlay (CO), planned development area overlay (PDA), mixed use (MU) combining district overlay; neighborhood conservation combining district (NCCD); or neighborhood plan special use (NP) may also be added to these zoning base districts. Planning Commission Recommendation: To grant the request. Applicant: City of Austin. Agent: Neighborhood Planning and Zoning Department. City Staff: Kathleen Welder, 974-2856 and Wendy Walsh, 974-7719.

C14-05-0107 - East Congress Neighborhood Planning Area Rezonings

PLANNING COMMISSION RECOMMENDATION:

July 26, 2005: APPROVE NEIGHBORHOOD PLAN AND ASSOCIATED REZONINGS VOTE: 7-0 (D. SULLIVAN - 1st, J. M. CORTEZ - 2ND; C. MEDLIN - ABSENT)

AND THE FOLLOWING CHANGES:

AMENDMENT #1: Increase permitted residential density on Tract 203 from 12 units/acre to 17 units/acre.

VOTE: Approve (J.REDDY - 1st, J. M. CORTEZ - 2nd; C. MEDLIN - ABSENT)

AMENDMENT #2: Amend the future land use map to show mixed-use for the tract next to St. Elmo, Industrial and Terry O. Initiate zoning for the tract to allow height of 90 feet and LI-PDA zoning.

VOTE: Approve (J.M. CORTEZ - 1st, J. REDDY - 2nd; C. MEDLIN - ABSENT)

AMENDMENT #3: Remove impervious cover restriction in North Bluff area VOTE: Approve (J. REDDY - 1st, D. SULLIVAN - 2nd; C. MEDLIN - ABSENT)

AMENDMENT #4: The zoning for the four lots that abut mixed-use zoning on South Congress and Stassney should be changed as follows: Tract 18 to go to staff recommended SF-5, Tract 24 to leave existing SF-2 zoning in place and change future land use map to single-family, Tract 22, 23A, and 30 to go to staff recommended zoning but with conditional overlay that requires 30 foot natural vegetative buffer.

VOTE: Approve (D. SULLIVAN - 1st, K. JACKSON - 2std; C. MEDLIN - ABSENT)

East Congress Neighborhood Planning Area

0.5 0 0.5 Miles

STAFF RECOMMENDATION

The proposed zoning change creates a Neighborhood Plan Combining District (NPCD) covering the entire area.

For each of the 36 tracts, the attached chart lists the existing zoning, proposed zoning, owner name, and street address. A description of the zoning base district follows the list.

BACKGROUND

At the direction of the Austin City Council, Neighborhood Planning staff began working to develop a combined neighborhood plan of the South Congress Combined in March 2004. Following a kickoff meeting, staff and residents, property owners, business owners, and representatives of area institutions have been attending meetings and developing the plan for 17 months.

The plan's goals, objectives, and action items were developed at numerous South Congress Combined Neighborhood Planning meetings. The Neighborhood Plan will be considered concurrently with the subject rezoning case.

The proposed zoning change creates a Neighborhood Plan Combining District (NP) covering the entire area. The purpose of the NP is to allow infill development by implementing a neighborhood plan that has been adopted by Council as an amendment to the City's Comprehensive Plan. The NP may modify the base district of an individual parcel within the neighborhood to allow for the following special uses – Small Lot Amnesty, Cottage Lot, Urban Home, Secondary Units, Corner Store, Residential Infill, Mixed Use Building and Neighborhood Urban Center; and design tools – Parking Placement and Impervious Cover Restrictions, Garage Placement, and Front Porch Setback.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

The Staff's basis for recommendation is derived from the goals and objectives for land use as described in the South Congress Combined Neighborhood Plan:

GOAL ONE

Enhance the existing single-family neighborhoods and retain the affordability of these neighborhoods.

Objective 1.1

New development should be compatibly scaled when adjacent to residential uses.

Objective 1.2

Prevent commercial encroachment into neighborhoods.

Objective 1.3

Preserve the character of single-family neighborhoods.

Objective 1.4

Limit the negative effects of industrial and commercial land uses on adjacent neighborhoods.

Objective 1.5

Retain the scenic nature the North Bluff Drive/Crow Lane area.

Objective 1.6

Preserve affordable housing options.

GOAL TWO

South Congress Avenue should become a more vibrant accessible mixed-use corridor and a destination for nearby residents and the citizens of Austin.

Objective 2.1

Create incentives and programs to promote a pedestrian-oriented corridor.

Objective 2.2

Improve the infrastructure along South Congress Avenue to make it pedestrian friendly.

Objective 2.3

Commercial and mixed-use development along South Congress Avenue should not adversely affect adjacent neighborhoods.

GOAL THREE

Focus mixed-use development and commercial uses along major commercial corridors and in specialized districts.

Objective 3.1

Encourage quality redevelopment along the eastbound frontage road of Ben White Boulevard.

Objective 3.2

The frontage road of Interstate Highway 35 should continue as a "motor mile."

Objective 3.3

New development along Stassney Lane between Interstate Highway 35 and South Congress Avenue should be more pedestrian-friendly.

Objective 3.4

Stassney Lane from South Congress Avenue to South 1st Street should transition from the larger-scaled commercial areas east of South Congress Avenue to more neighborhood-scaled areas to the west.

Objective 3.5

The intersection of the Stassney Lane and South 1st Street should become a neighborhood-serving commercial area.

Page 6

Objective 3.7

The intersection of William Cannon Drive and the frontage road of IH 35 should serve the needs of travelers as well as those of residents.

Objective 3.8

The intersection of William Cannon Drive and South 1st Street should become more pedestrian-friendly.

Objective 3.9

The commercial corridor along South 1st Street between Ben White Boulevard and St. Elmo Road should retain its relatively modest scale and allow for a variety of local-serving uses.

Objective 3.10

The intersection of Stassney Lane and South 1st Street should become a mixed-use intersection.

Objective 3.11

Promote low-intensity mixed-use development along South 1st Street between Blueberry Hill and Bramble Road.

Objective 3.12

The St. Elmo Industrial District should be preserved and enhanced where appropriate.

EXISTING CONDITIONS

Zoning and Land Use

Existing Land Use:	·	Existing Zoning:	
Single Family	30 %	Single Family	43 %
Higher Density S.F.	<1 %	Higher Density Single Famil	y 1%
Multi-Family	8 %	Multi-Family	6%
Mobile Home	1 %	Mobile Home	<1%
Commercial	22 %	Commercial	23 %
Office	<1 %	Office	2 %
Industrial	11 %	Industrial	19 %
Civic	4 %	Public	1 %
Open Space	4 %	Planned Unit Development	5 %
Undeveloped	20 %	· -	

Impervious Cover

The maximum impervious cover limits for the proposed zoning districts are as follows:

LI, Limited Industrial Services	80 %
CS, Commercial Services	95 %
CS-1, Commercial – Liquor Sales	95 %
W/LO, Warehouse Limited Office	70%
GR, Community Commercial	90 %
LR, Neighborhood Commercial	80 %
LO, Limited Office	70 %
MH, Mobile Home	N/A
MF-4, Multifamily Residence Moderate - High	Density 70%
MF-3, Multi-family Residence (Medium Dens	ity) 65 %
MF-2, Multi-family Residence (Low Density)	60 %
SF-6, Townhouse & Condominium Residence	55%
SF-5, Urban Family Residence	55%
SF-3, Family Residence	45 %
SF-2, Single Family Residence - Standard Lot	45 %
P, Public va	ries (refer to the Land Development Code)

The maximum amount of impervious cover is determined as the more restrictive figure of the zoning district and watershed class.

Environmental

The site is not located over the Edward's Aquifer Recharge Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development Classification	% of Net Site Area	% with Transfers
Single-Family	50%	60%
(minimum lot size 5750 sq. ft.)		
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

In the Water Quality Transition Zones, impervious cover is limited to 30%.

According to flood plain maps, there is no FEMA flood plain in, or within close proximity of, the neighborhood area. There may be City Of Austin floodplain associated with drainages or tributaries within the neighborhood area, and the area of any given drainage should be calculated to determine whether transition zone exists within the neighborhood area. If

C14-05-0107 Page 8

transition zone is found to exist within a project area, allowable impervious cover within said zone shall be limited to 30%.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any preexisting approvals which preempt current water quality or Code requirements.

Portions of the neighborhood area are located in the Blunn Creek and East Bouldin Creek Watersheds of the Colorado River Basin, which are classified as Urban Watersheds by Chapter 25-8 of the City's Land Development Code. Impervious cover is not limited in this watershed class. These areas are required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm.

There is no water quality transition zone associated with the portions of the neighborhood area located within the Urban Watersheds.

Transportation

Additional right-of-way (ROW) necessary for future roadway improvements within the proposed zoning may be required during the subdivision review process or the site plan review process.

Since the rezoning of this area is being initiated by the City of Austin through the neighborhood planning process and does not reflect a specific development proposal, no trip generation calculations are provided on a tract-by-tract basis for any proposed land uses as would typically be provided.

A Traffic Impact Analysis (TIA) will be required during the site plan review stage for any proposed land use that would generate over 2,000 vehicle trips per day. Additional ROW, participation in roadway improvements, and/or limitation on development intensity may also be recommended based on review of the TIA.

Abutting Streets

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Bus Route
Stassney Lane	Varies	Varies	Arterial	Yes	No	Route #76
IH-35	400 feet	Varies	Arterial	No	No	No
William Cannon Drive	120 feet	2 @ 36 feet	Arterial	Yes	Route #33	Route #80
South First Street	90 feet	Varies	Arterial	Yes	Route #10	No
Congress Avenue	120 feet	Varies	Arterial	No	Route #13	Route #47

Water and Wastewater

The area is served with City of Austin water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustment are required, the landowner, at own expense, will be responsible for providing. Also, the water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The utility construction must be inspected by the City. The landowner must pay the associated City fees.

Compatibility Standards

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district/use will be subject to compatibility development regulations.

Purpose Statement For Zoning Base Districts And Other Derinitions

SF-2 <u>Single-Family Residence district</u> is the designation for a moderate density single-family residential use on a lot that is a minimum of 5,750 square feet. An SF-2 district designation may be applied to a use in an existing single-family neighborhood that has moderate sized lots or to new development of single-family housing on lots that are 5,750 square feet or more.

SF-3 <u>Single-Family Residence district</u> is intended as an area for moderate density single-family residential use; with a minimum lot size of 5,750 square feet. Duplex use is permitted under development standards which maintain single-family neighborhood characteristics. This district is appropriate for existing single-family neighborhoods having typically moderate sized lot patterns, as well as for development of additional family housing areas with minimum land requirements.

MF-2 <u>Multifamily Residence Low Density district</u> is the designation for a multifamily use with a maximum density of up to 23 units per acre. An MF-2 district designation may be applied to a use in a multifamily residential area located near single-family neighborhoods or in an area for which low-density multifamily use is desirable.

MF-3 <u>Multifamily Residence Medium Density district</u> is intended to accommodate multifamily use with a maximum density of up to 36 units per acre. This district is appropriate for multifamily residential areas located near supporting transportation and commercial facilities, generally in more centrally located areas, and in other selected areas where medium density multifamily use is desirable.

MF-4 <u>Multifamily Residence Moderate-High Density district</u> is Intended to accommodate multifamily and group residential use with a maximum density of 36 to 54 units per acre, depending on unit size. This district is appropriate for moderate-high density housing in centrally located areas near supporting transportation and commercial facilities, in areas adjoining downtown Austin and major institutional or employment centers, and in other selected areas where moderate-high density multifamily use is desirable.

MH <u>Mobile Home Residence district</u> is intended to provide locations for development of mobile home residence parks and mobile home subdivisions, with standards that ensure a residential environment and compatibility with adjoining family residence neighborhoods.

LO <u>Limited Office district</u> is intended for offices predominately serving neighborhood or community needs, which may be located within or adjacent to residential neighborhoods. Site development regulations and performance standards are intended to ensure that uses will be compatible and complementary in scale and appearance with a residential environment.

LR <u>Neighborhood Commercial district</u> is intended for neighborhood shopping facilities which provide limited business service and office facilities predominately for the convenience of residents of the neighborhood.

GR <u>Community Commercial district</u> is the designation for an office or other commercial use that serves neighborhood and community needs and that generally is accessible from major traffic ways.

W/LO <u>Warehouse Limited Office district</u> is intended predominately for office and warehousing activities promoting trades and similar businesses not necessarily requiring high visibility and having low or moderate trip generation.

CS <u>General Commercial Services district</u> is intended predominately for commercial and industrial activities of a service nature having operating characteristics or traffic service requirements generally incompatible with residential environments.

CS-1 <u>Commercial-Liquor Sales district</u> is intended predominately for commercial and industrial activities of a service nature which typically have operating characteristics or traffic service requirements generally incompatible with residential environments, and specifically includes liquor sales as a permitted use.

Li <u>Limited Industrial services district</u> is the designation for a commercial service use or limited manufacturing use generally located on a moderately sized site.

P <u>Public district</u> is the designation for a governmental, civic, public service, or public institution use. A P district designation may be applied to a use located on property used or reserved for a civic or public institutional purpose or for a major public facility, regardless of ownership of the land on which the use is located.

NPCD <u>Neighborhood Plan Combining District</u> is a combining district, or zoning overlay, that is used to implement a neighborhood plan that has been adopted by City Council and to allow certain special "infill" options. The term <u>infill</u> refers to "filling In" vacant parcels of land within a neighborhood. These infill options are only available when approved as part of a Neighborhood Plan Combining District (NPCD). Each adopted Neighborhood Plan area is able to establish its own NPCD.

Attachment

For some of the Infili options, their location. Last be specified, but other Infili proposals & be applied neighborhood-wide. The Infili options available in the NPCD are: Cottage Lots, Urban Homes, Secondary Apartments (Garage Apartment or Granny Flat), Small Lot Amnesty, Residential Infili, Neighborhood Mixed Use Buildings, Neighborhood Urban Center, and Corner Stores.

PUD <u>Planned Unite Development District</u> is intended for large or complex developments under unified control planned as a single contiguous project. The PUD is intended to allow single or multi-use projects within its boundaries and provide greater design flexibility.

PDA <u>Planned Development Area</u> combining district is intended for combination with selected commercial and industrial base districts, in order to modify base district provisions as necessary to allow for appropriate industrial and commercial uses or to reflect the terms of a Planned Development Area agreement following annexation of properties subject to such an agreement.

Neighborhood Special Uses/Neighborhood Design Tools/Prohibiting Parking in the Front Yard

Neighborhood Special Uses

The following special uses are being recommended as part of the South Congress Combined Neighborhood Plan. They are <u>optional</u> uses granted in addition to the uses allowed in the base-zoning district. They may be applied area or subdistrict wide or to a specific site.

Small Lot Amnesty (area or subdistrict wide)

Small lot amnesty means permitting construction of new single family homes or major renovation of existing single family homes on existing single family lots that do not meet current minimum standards.

The Small Lot Amnesty would permit existing lots that have a minimum of 2,500 square feet to be developed with new single-family homes. Special site development standards would apply to ensure new homes are compatible with existing homes. This applies only to existing lots.

Cottage Lot (area or subdistrict wide)

The Cottage Lot special use permits new, detached single-family homes on lots with a minimum area of 2,500 square feet and a minimum width of 30 feet. If chosen, the cottage lot is permitted in SF-3, SF-5, SF-6, and MF-1 through MF-6 zoning districts.

Urban Home (area or subdistrict wide)

The Urban Home special use permits new, detached single-family homes on lots with a minimum area of 3,500 square feet and a minimum width of 40 feet. The urban home is permitted in SF-3, SF-5, SF-6, and MF-1 through MF-6 zoning districts.

Secondary Units (area or subdistrict wide)

The Secondary Apartment special use permits a second dwelling unit 850 square feet or less in size on a lot with a minimum area of 5,750 square feet. If chosen, this accessory unit is permitted in SF-1 through SF-3, SF-5, SF-6 and MF-1 through MF-6 zoning districts. Currently, a second unit with similar regulations as the secondary apartment is permitted city-wide on lots at least 7,000 square feet in the SF-3, SF-5 through MF-6 zoning districts. Choosing the secondary apartment special use opens up the opportunity for homeowners with lot sizes between 5,750 square feet and 7,000 square feet and those in the SF-1 and SF-2 zoning districts to build a second unit.

Corner Store (area or subdistrict wide)

The Corner Store special use permits a small retail use on a residentially zoned property within a neighborhood. If chosen, the corner store is permitted at intersections in the SF-3 through SF-6 and MF-1 through MF-6 zoning districts. Only small-scale local-serving commercial uses are allowed. A Corner Store may not be approved within 600 feet of another Corner Store and operating hours are limited to 6am to 11pm.

Residential Infill (specific site)

The Residential Infill special use requires a diversity of housing types and open space and permits a limited amount of neighborhood compatible retail development. If chosen, this special use is applied to specific properties of at least two acres in the SF-3, SF-5, SF-6 and MF-1 through MF-6 zoning districts. For a proposed Residential Infill development, a development plan showing the location of land uses and the layout of streets, lots and open space must be approved by the Planning Commission.

Mixed Use Building (specific site)

A Mixed Use Building is a structure located in a commercial zoning district that has commercial or retail uses on the ground floor and residential units on one or more upper floors. The standards for the Mixed Use Building require pedestrian-oriented design. For example, buildings must be built closer to the street, and parking must be located to the rear of the building. A Mixed Use Building may contain dwelling units in not more than 50% of the gross floor area of the ground floor.

Neighborhood Urban Center (specific site)

Neighborhood Urban Center refers to the redevelopment of an existing retall or commercial center, or development of a vacant site, into a mixed use, pedestrian and transit-oriented center. The Neighborhood Urban Center would permit residential, multi-family, commercial and retail uses on certain sites with commercial zoning.

Residential Uses Commercial Uses Open Space 25% of Total Building Area 10% of Total Building Area 10-20% depending on total site area

Neighborhood Design Tools

The following design tools are being recommended as part of the South Congress Combined Neighborhood Plan. Once adopted, the "Parking Placement and Impervious Cover Restrictions" and Garage Placement" design tools are <u>mandatory</u> for all new residential construction and whenever there is a change of use (e.g., from single-family use to two-family use). The "Front Porch Setback" design tool is <u>optional</u>.

Parking Placement and Impervious Cover Restrictions

The parking placement and impervious cover restrictions limit the number of parking spaces and the amount of impervious cover to be constructed in the front yard. Any single-family, two-family, or duplex use is subject to the following requirements:

- 1. No more than forty percent (40%) of the required front yard may be impervious cover (this may be waived if a circular driveway is needed for traffic safety purposes).
- 2. No more than 4 parking spaces may be located in a front yard, or, in the case of a corner lot, no more than 4 parking spaces may be located in the front and side-street yards combined.

Garage Placement

This option sets guidelines for developing and/or redeveloping lots in established neighborhoods where existing development emphasizes residential façades and minimizes the parking structure aesthetics dominating single-family residential use of a property. It also allows for attached parking structures without width limitations to be constructed so that parking structure dominated development does not occur. This option allows for a side entry parking structure, which will accommodate residential design along the front wall.

For a Single-Family, Two-Family, or Duplex Residential Use:

- 1. Garages and carports must be located flush with the front façade, or behind the front façade of the house.
- If a garage or carport is located less than 20 feet behind the front façade of the house, its width may not exceed 50% of the width of the house.

No maximum width is established for garages or carports that are 20 feet or more behind the front façade of the house, or for those that have side or rear entrances.

Front Porch Setback

Covered and uncovered Front Porches (defined as open-sided porches connected directly with the front entrance to a residence, and with a permanent, exterior flooring material) shall henceforth be allowed to within 15 feet of the front property line. Roof overhangs and porch steps may extend an additional 24" toward the front property line. Structural columns (but not walls) are allowed within the footprint of the porch.

Prohibiting Parking in the Front Yard

Parking of automobiles on unpaved areas in the front yard will become prohibited.

Conditional Overlays and PDA Requirements for the South Congress Combined Neighborhood Planning Area Rezonings

Conditional Overlays

For tract 4b vehicular access from the Property to Radam Lane is prohibited. All vehicular access to the Property shall be from other adjacent public streets or through other adjacent property to the west and south of the property.

For tracts 8a, 8b, 9, 10, 14, 15, 16, 19, 119, 120,128, 135, 200, 211, 212, 240, 241 a 30-foot wide vegetative buffer shall be established and maintained along property lines adjacent to a property used or zoned family residence-neighborhood plan (SF-3-NP) combining district or more restrictive.

For tract 28 outdoor storage areas shall be screened by a 6-foot high solid fence.

For tract 28 the following uses are prohibited:

Adult-oriented businesses
Transitional Housing
Agricultural Sales and Services
Automotive Sales
Art and Craft Studio (general)
Maintenance and Service Facilities
Transportation Terminal
Automotive Rentals
Automotive Washing (of any type)
Building Maintenance Services

For tract 113 the maximum height of a structure shall not exceed forty feet.

For tract 131, 231, 232, 28, 266a, a site plan or building permit for the property may not be approved, released, or issued, if the completed development or uses of the Property, considered cumulatively with all existing or previously authorized development and uses, generate traffic that exceeds 2,000 trips per day.

For tracts 23a, 31, 113, 200, 206, 207, 209, 211, 212, 217, 219, 220, 221, 222, 224, 225, 226, 227, 230, 231, 235, 259, 260, 265 the following uses are prohibited:

Pawn Shop Services
Automotive Washing (of any type)
Automotive Sales

For tract 126 development on the property may not exceed **23 dwelling units** per acre.

Altachment 4

For tract 126 vehicular access from the property to Suburban Drive is prohibited. All vehicular access to the Property shall be from other adjacent public streets or through other adjacent Property.

For tract 131 a 6-foot high fence and vegetation shall provide screening along the northern and southern Property lines abutting adjacent residential development as required under Section 25-2-1066.

For tract 142 prohibit all residential uses except single-family detached.

For tract 145 all occupants in a development must have access to South Congress Avenue.

For tract 203 vehicular access from the property to Glen Meadow Drive Is prohibited. All vehicular access to the Property shall be from other adjacent public streets or through other adjacent Property.

For tract 203 the maximum number of residential units on the Property is 12 units per acre.

For tract 205 the following uses are prohibited:

Auto Sales Pawn Shop Services

For tract 225 the following uses are prohibited:

Automotive Washing (of any type)
Automotive Sales

For tract 225 pawn shop services are a permitted use and may not exceed a building footprint of 4,500 square feet.

For tracts 231, 232 there shall be no vehicular access from the property to Eberhart Lane or Circle S Road. All vehicular access to the property shall be from other adjacent public streets or through other adjacent property.

For tract 242 the following uses are prohibited:

Administrative Business Offices Medical Offices (both) Off-site Accessory Parking Plant Nursery Printing and Publishing

,

To those of you who are preparing to force your "good ideas" down our throats,

I am writing to express my opinion on your actions. First off, let it be known that I object to what you are doing. Secondly I question your authority to attempt what you are planning.

For the record, I love Austin and want to see it grow in a positive, eco/people friendly direction. I don't feel assaulting people's property rights via zoning wars is the way to achieve the desired change.

Rezoning the houses along S. 1st and Congress is unjust to those who own homes and live along those streets. Do not think the residents of Sweet Briar will not stand alongside our neighbors and fight these changes just because some of us don't live along those streets. Rezoning those areas will cause homeowner's to be forced out of their homes. Businesses will always be able to out pay private homeowners meaning in essence you will be inadvertently forcing these people out of their homes. That is not justice. Shame on you and your arrogant views which place the "interests" of the city over that of the people who make up this city.

Secondly, governments all across the land routinely commit tyrannical acts that violate people's constitutionally guaranteed rights. I'm sure that you can point to some administrative statute somewhere that you believe gives you the authority to do what you are doing. My question to you is, Show me in the U.S. or Texas Constitution from where you derive your authority? The Founding Fathers never intended for the government to micromanage the citizens of this country in the way that you are seeking to. If you have any respect for liberty and freedom I urge you to realize that and cease your incursion into our sovereign private property rights.

KEEP YOUR "GOOD IDEAS" OFF OF OUR RIGTHS!!!

Jeremiah Griffin-Concerned citizen and lover of LIBERTY

(write me back)

Plan:

Area

Location:

Ben White Boulevard on the north; IH-35 on the east; William Cannon Drive on the south; and South First Street on the west, Williamson Creek; East Bouldin Creek; West Bouldin Creek; Blunn Creek Watershed, Includes the Sweetbriar, West Congress and East Congress

Neighborhood Planning areas NPA

Owner/Applicant:

City of Austin

Agent:

Neighborhood Planning and Zoning Department

Request:

Conduct a public hearing to consider adopting the South Congress Combined Neighborhood Planning Area, encompassing the Sweetbriar, West Congress and East Congress Neighborhood Planning

areas.

Staff Rec.:

RECOMMENDED.

Staff:

Mark Walters; 974-7694; Alex Koenig; 974-3515; Kathleen Welder, 974-2856, mark.walters@ci.austin.tx.us; alex.koenig@ci.austin.tx.us;

kathleen.welder@ci.austin.tx.us Neighborhood Planning and Zoning

Mark Walters and Alex Koenig presented the plan and staff recommendation.

Commissioner Sullivan asked about using CH zoning instead of LI-PDA. Mr. Walters said that under CH zoning, the impervious cover must decrease as the height is increased. Mr. Walters said that PDA could be added to the CH zoning, if desired.

PUBLIC HEARING

FOR

Chris Allen, the architect for the owners of tract 203 on Stassney, said that his clients found out that the project may not be feasible because water quality ponds are required on both sides of the property due to site topography. Due to the site constraints, he would like to see the units per acre increased from 12 to 17 to make the project feasible and to provide affordable housing. They are also looking into meeting green building standards and adding photovoltaic panels and making hardwood tree line along the streetscape.

Commissioner Sullivan asked if the neighborhood planning team has seen this revised proposal. Mr. Allen said that the neighborhood saw the original proposal and he received positive review. Commissioner Sullivan clarified that the issue is to increase the number of units allowed per acre.

Commissioner Riley asked what the original reasoning was on the conditional overlay and Mr. Allen said that it appears that was a Planning Commission addition instead of a neighborhood request. Mr. Allen explained that with an increase in the number of units, the houses would become attached instead of detached, with garages.

Ron Thrower, speaking on behalf property owner, suggested for the tract adjacent to St. Elmo, Industrial and Terry O, an unidentified tract in the plan, and not notified as a tract to be rezoned, giving it a transitional height of 90 feet, an increase from the 60 feet, and LI-PDA zoning.

Facilitator: Katie Larson 974-6413; katie.larson@ci.austin.tx.us

Commissioner Sullivan asked if there is a notification problem for this tract, and Mr. Walters said that a rezoning case would have to be initiated for this, however the Commission could approve of the change on the future land use map, so that a plan amendment would not be required as part of the zoning case.

Jim Bennett said he attended a majority of the meetings occurring for the East Congress portion of the plan and represents some of the East Congress property owners. The stakeholders support the plan.

Kelth Smith, an owner of a Smart Housing subdivision in the North Bluff area, said he wanted to be on record saying he cannot offer a 2 car garage to buyers with that garage restriction. Commissioner Riley clarified that his concern is with the garage placement design tool. Mr. Smith said that the lots of his property are 40 feet wide. A 2 car garage is 20 feet wide, and so not practical to meet design option if wanting to provide a 2 car garage, which is what the market wants. The preliminary plan and the final plat have been submitted to the City for review.

Mr. Walters clarified that the garage placement option would not be applied in this area, however the impervious cover and parking placement restriction option would be applied, which would limit his ability to provide 2 car garages. Mr. Walters said that that option could be removed from North Bluff area. Commissioner Riley asked for the impetus for choosing the option, and Mr. Walters explained that the neighborhood residents did not want paved front yards. Mr. Walters said that they could create the Oak Bluff subdistrict to remove that option from the subdivision. Commissioner Riley asked Mr. Smith to reconcile that the neighborhood wants to reduce impervious cover in the front yard and his plans to provide 2 car garage, and its associated impervious cover in the front yard. Mr. Walters said that the impetus for recommending the impervious cover restriction was to limit in existing neighborhoods, not for new construction.

Commissioner Cortez asked Stuart Hersh about the design of other Smart Housing homes. Mr. Hersh said that there are some built without garages. He said that what he has heard is that to construct affordable housing west of I-35, the market units are built to what the market wants to help underwrite the affordable housing units.

Daniel Geurkink, owner of tract 242, said that he has heard North Bluff and Congress Avenue was the last stagecoach stop. He likes the diversity of housing and commercial planned for in this neighborhood. Commissioner Riley pointed out that he is across the street from the Oak Bluff subdivision just discussed, and asked what his opinion is regarding the design of the houses. Mr. Geurkink said that his understanding is that the Smart Housing subdivision is a self-contained neighborhood so is not really part of the North Bluff area. He said that what will affect the character of the area is the greenspace. They need greenspace in the area. Commissioner Riley said that regardless of the Smart Housing project, if other projects come into the neighborhood, would he want to see restrictions on impervious cover. Mr. Geurkink said he would like to see public greenspace that allows people to gather. Impervious cover in the front yard is less of an issue for him.

AGAINST

Facilitator: Katie Larsen 974-6413; katie.larsen@cl.austin.tx.us

Darel Hendrix, resident at 304 Red Bird Lane, said his concern is with tracts 18, 24, 23A and 30 and wants to know the rationale. He explained that they fought against a condominium project to reduce the number of units about 20 years ago. He is concerned that the proposal would allow a large condo project that they had fought against.

Mr. Alex Koenig, NPZ staff, said that their recommendation was based on creating a buffer between the mixed-use on Congress and the single-family detached housing. Staff did talk to residents in the greater area, and perhaps did not reach out as much to residents in that particular area, but staff recommended the zoning based on their professional judgment.

Mary Rocamora, resident at 305 Mockingbird Lane, said she is against SF-5 zoning on tract 18. Little Turtle Creek runs through that area, and so SF-5 is not really appropriate because of the location of the floodplain and increased traffic. Cottage homes and urban homes, can be allowed in SF-3, and she said they can live with SF-3. She does not think townhomes and condos should be a transition for a neighborhood that is perfectly fine. She is trying to defend her neighborhood.

Stuart Hersh with NHCD said he could speak to the curb and gutter issue raised by Ms. Rocamora. He said new construction on existing roadways are not required to provide curb and gutter on public streets. Commissioner Sullivan pointed out that there are some plats that state sidewalks are not provided until the street is converted to curb and gutter.

NEUTRAL

Tracy Soso asked if there will be a buffer zone between the commercial zoning on South First and the homes behind it. She also asked if North Bluff will be improved.

Wendy Walsh said that there are no immediate plans to improve North Bluff and she explained that compatibility standards will be triggered by the single-family uses and zoning.

Commissioner Sullivan pointed out that the City is putting together a bond package. In putting together the list of projects to do with the bond money, they will look at neighborhood plan requests. There will also be public hearings for citizens to submit their ideas, such as making improvements to North Bluff.

Commissioner Sullivan pointed out that North Bluff is still very rural in character. Mr. Geurkink said that traffic comes across I-35 and then to North Bluff, which has increased traffic on that road. He said he would like to see sidewalks on North Bluff, but not a four lane road. He would like North Bluff to keep its character and not become a through street.

MOTION: CLOSE PUBLIC HEARING VOTE: JR-1st, JMC-2nd; CM-ABSENT

MOTION: APPROVE NEIGHBORHOOD PLAN AND ASSOCIATED REZONINGS, WITH FOLLOWING CHANGES:

AMENDMENT #1: Increase permitted residential density on Tract 203 from 12 units/acre to 17 units/acre. VOTE: Approve (JR-1st, JMC-2^{std}; CM-ABSENT)

Facilitator: Katie Larsen 974-6413; katie.larsen@ci.austin.tx.us

AMENDMENT #2: Amend the future land use map to show mixed-use for the tract next to St. Elmo, Industrial and Terry O. Initiate zoning for the tract to allow height of 90 feet and LI-PDA zoning. (JMC- 1^{a} , JR- 2^{ad})

AMENDMENT #3: Remove impervious cover restriction in North Bluff area (JR-1st, DS-2nd)
AMENDMENT #4: The zoning for the four lots that abut mixed-use zoning on South
Congress and Stassney should be changed as follows: Tract 18 to go to staff recommended SF-5, Tract 24 to leave existing SF-2 zoning in place and change future land use map to single-family, Tract 22, 23A, and 30 to go to staff recommended zoning but with conditional overlay that requires 30 foot natural vegetative buffer. (DS-1st, KJ-2nd)
VOTE: 7-0 (DS-1st, JMC-2nd)

Commissioner Cortez said he is concerned about allowing single-family homes on Stassney Lane, so would be in favor of Tract 203 having GO-MU residential density to avoid single-family homes being built and facing away from Stassney.

In regard to amendment #2, Commissioner Sullivan said that it is still less intense that MF-1.

Commissioner Sullivan said in regard to amendment #3 that there will be additional impervious cover on the smaller lots.

5. Rezoning:

C14-05-0105; C14-05-0106 and C14-05-0107 - South Congress

Combined Neighborhood Planning Area Rezonings

Location:

Ben White Boulevard on the north; IH-35 on the east; William Cannon Drive on the south; and South First Street on the west, Williamson Creek; East Bouldin Creek; West Bouldin Creek; Blunn Creek Watershed, Includes the Sweetbriar, West Congress and East Congress

Neighborhood Planning Areas.

Owner/Applicant:

City of Austin

Agent:

Neighborhood Planning and Zoning Department

Request:

The proposed zoning change will create three Neighborhood Plan Combining Districts (NPCD). The proposed zoning change also implements the land use recommendations of the South Congress Combined Neighborhood Plan for a total of 117 tracts (564.41 acres). The Planning Commission may recommend and the City Council may approve a zoning change to any of the following: Rural Residential (RR); Single-Family Residence - Large Lot (SF-1); Single-Family Residence—Standard Lot (SF-2); Family Residence (SF-3); Single-Family - Small Lot & Condominium Site (SF-4A/B); Urban Family Residence (SF-5): Townhouse & Condominium Residence (SF-6): Multi-Family Residence - Limited Density (MF-1); Multi-family Residence - Low Density (MF-2); Multi-family Residence - Medium Density (MF-3): Multi-family Residence - Moderate-High Density (MF-4); Multi-family Residence - High Density (MF-5); Multi-family Residence - Highest Density (MF-6); Mobile Home Residence (MH); Neighborhood Office (NO); Limited Office (LO); General Office (GO); Commercial Recreation (CR); Neighborhood Commercial (LR); Community Commercial (GR); Warehouse / Limited Office (W/LO); Commercial Services (CS); Commercial-Liquor Sales (CS-1); Commercial Highway (CH); Industrial Park (IP); Major Industrial (MI): Limited Industrial Services (LI); Research and Development (R&D); Development Reserve (DR); Agricultural (AG); Planned Unit Development (PUD); Historic (H); and Public (P). A Conditional Overlay (CO), Planned Development Area Overlay (PDA), Mixed Use Combining District Overlay (MU); Neighborhood Conservation Combining District (NCCD); or Neighborhood Plan Special Use (NP) may also be added to these zoning base districts.
