This declaration of intent is submitted in accordance with Treasury Regulations. The Water and Wastewater Utility requests approval of an Official Declaration of Intent to Reimburse acquisition and construction costs of the FY 2005-2006 Capital Improvement Projects. The Water and Wastewater Utility reasonably expects to incur debt as one or more series of obligations through October 2006, with an aggregate maximum principle amount equal to \$180,000,000 for the purpose of paying for costs incurred from October 1, 2005 through October 31, 2006, which are associated with Water and Wastewater Utility Capital Improvement Projects. All costs to be reimbursed will be capital expenditures within the meaning of Section 1.103-18(c)(2)iii of the Treasury Regulations.

A city must have budgeted for and provided a source of funds in order to enter into a contract. For the City to spend money today, but reimburse itself from the issuance of debt obligations in the future, a reimbursement resolution is required by state and federal law. The resolution must contain certain information and protects the tax-exempt status of the future issuance. Failure to adopt a qualified declaration of official intent will prohibit the city from reimbursing the cost with the proceeds of tax-exempt obligations. Reimbursement bonds generally must be issued no later than 18 months after the later of, the date the expenditure was made, or the date that the project with respect to which the expenditure was made, is placed in service.
