## **BASIS FOR RECOMMENDATION**

***1. The proposed zoning should be consistent with the purpose statement of the district sought.***

- Planned unit development (PUD) district is the designation for a large or complex single or multi-use development that is planned as a single contiguous project and that is under unified control
- The purpose of a PUD district designation is to preserve the natural environment, encourage high quality development and innovative design, and ensure adequate public facilities and services for development within a PUD

The proposed change to the existing PUD is consistent with the purpose statement of the district sought

***2. Zoning changes should promote compatibility with adjacent and nearby uses.***

The proposed addition of pedestrian oriented uses will be compatible with existing uses allowed

## **EXISTING CONDITIONS**

The subject properties is an existing PUD including a bank, offices, and a parking garage

**ENVIRONMENTAL REVIEW – SIGN OFF**

1. The site is not located over the Edwards Aquifer Recharge Zone The site is located in the Johnson Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code It is in the Desired Development Zone
2. Impervious cover is not limited in this watershed class, therefore the zoning district impervious cover limits will apply
- 3 This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s f cumulative is exceeded, and detention for the two-year storm At this time, no information has been provided as to whether this property has any pre-existing approvals, which would preempt current water quality or Code requirements
- 4 According to flood plain maps, there is flood plain within the project area
5. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment

Site Plan - SUE WELCH 974-3294
--------------------------------

FYI - This site is located in the Old West Neighborhood Plan

Transportation - EMILY BARRON 974-2788

1. No additional right-of-way is needed at this time
2. The trip generation under the requested zoning is estimated to be 1,871 new trips per day, assuming that the change to permit pedestrian oriented uses on the 1<sup>st</sup> floor develops. This calculation does not include the existing development and only takes in the most intense use, retail which is the highest trip generating proposed use. A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 additional vehicle trips per day [LDC, 25-6-117]
3. Capital Metro bus service is available along 5<sup>th</sup> Street and 6<sup>th</sup> Street
4. 5<sup>th</sup> Street and 6<sup>th</sup> Street are classified in the Bicycle Plan as a Priority 1 bike routes
5. There are existing sidewalks along 5<sup>th</sup> Street and 6<sup>th</sup> Street
6. Existing Street Characteristics

#### Description

WW 1. The site is served with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or utility adjustment are required, the landowner at own expense, will be responsible for providing. Also, the utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The utility construction must be inspected by the City. The landowner must pay the associated City fees.

The landowner must pay the tap and impact fee once the landowner makes an application for a City water and wastewater utility tap permit.
