

MPOX (MONKEYPOX)

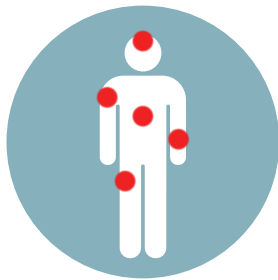

FESTIVAL SAFETY

Monkeypox is in the Austin-Travis County community.
Here's what you can do to stay safe while enjoying this festival season.

- Being fully clothed and limiting close and/or intimate contact is a safe way to celebrate. Choose settings where you'll have more space!
- Limit your close and/or intimate contact to people you know well. Close contact includes sharing items like drinks and blankets!
- Be aware of symptoms! Along with rash, symptoms include:

Fever

Headaches and muscle aches

Chills

Swollen lymph nodes

- Stay home if you're feeling sick.
