Carry-Ons: *Art and Design On The Go*

Focusing on the intersection of art and design produced concurrently within the Austin community, *Carry-Ons* highlights a number of local contemporary artists and designers. Identifying commonalities in formal and stylistic properties between sculptures and design pieces, this exhibition is inspired by art works that have the potential to travel.

The entire exhibition can be seen along the airside concourse in the Pylon cases, as well as the West and East Airside Galleries. Carry-Ons features interdisciplinary artists Adam Palmer, Brad Tucker, Dan Lam, David Head Jr., Donya Stockton, LAND, Lisa Choinacky, Mandy Steinback, Mason McFee, Mike Reddy, Phillip Niemeyer, and Ron Geibel, *Carry-Ons* thematically unifies these artists and their works through their emotive resonance to be "carried on".
