

AIRPORT BOULEVARD CORRIDOR DEVELOPMENT PROGRAM APPENDIX E

FEBRUARY 2014

Airport Boulevard
FM 969 (East MLK)
North Lamar/Burnet
East Riverside Drive

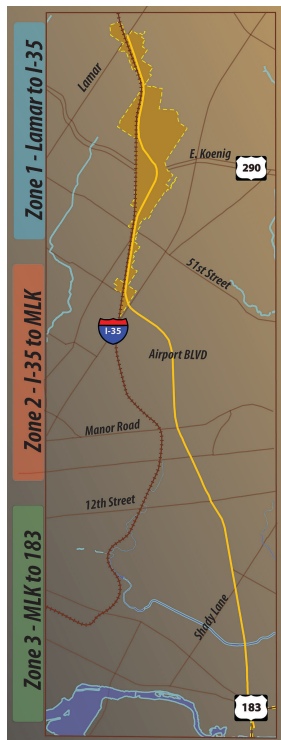

Austin Transportation Department Mobility Corridor Studies

Fact Sheet • Fall 2011

Airport Boulevard

The corridor study area includes the entire length of Airport Boulevard, from Lamar Boulevard to U.S. 183.

The Airport Boulevard corridor study is being conducted as part of the larger **Airport Boulevard Initiative**, which is also developing a community vision, standards and tools to guide the revitalization of the corridor between Lamar Boulevard and I-35. More information on the combined project can be found at airportboulevard.com

Key Dates • Upcoming Events

September 13: Kickoff Reception

Our Lady's Maronite Catholic Church, 1320 E. 51st St.
5–6 pm or 8–9 pm (same info both sessions)

Contact Information

City of Austin

Alan Hughes, P.E., Project Manager
Austin Transportation Department
512-974-7186 • alan.hughes@ci.austin.tx.us

Kimley-Horn and Associates

Joe Willhite, AICP, Project Manager

What is a corridor study?

City of Austin voters approved funds in November 2010 for four corridor studies to identify short-, medium- and long-term transportation improvements to improve safety; increase mobility and accessibility for drivers, pedestrians, bicycles and transit users; and improve quality of life for the users and neighbors of these corridors.

Key Elements

Each corridor study will include the following components:

- Collecting data and **assessing current conditions** on the corridor
- Analyzing each corridor to identify key issues and needs and defining the **community vision** for that corridor.
- Defining and prioritizing **short-term** solutions (typically those that can be implemented in the existing rights-of-way). These could include changes to intersections, medians, parking, signals, sidewalks and bike lanes, transit service, and more.
- Designing, costing out and evaluating **medium-term** solutions, generally involving redesigning and rebuilding the current roadway.
- Identifying and recommending **long-term** solutions, including changes to ordinances and policies, land-use planning, and improved ways to manage traffic and mobility.

How can I participate?

Each corridor study will include multiple opportunities for public engagement, including:

- Stakeholder meetings with directly affected individuals and groups (property owners, neighborhood associations, etc.)
- Public open-house meetings at the beginning, middle and end of the process, including a session especially for corridor business owners
- Print and electronic notices and progress updates
- Online content at www.AustinSMP.com

City of Austin Mobility Corridor Study

What is a corridor study?

City of Austin voters approved funds in November 2010 for corridor studies to identify short-, medium- and long-term transportation improvements to improve safety; increase mobility and accessibility for drivers, pedestrians, bicycles and transit users; and improve quality of life for the users and neighbors of these corridors.

Airport Boulevard — from Lamar Boulevard in the north to US 183 in the south — is one of the corridors being studied.

Key Elements

Each corridor study will include the following components:

- Collecting data and assessing current conditions on the corridor
- Analyzing each corridor to identify key issues and needs and defining the community vision for that corridor.
- Defining and prioritizing short-term solutions (typically those that can be implemented in the existing rights-of-way). These could include changes to intersections, medians, parking, signals,

sidewalks and bike lanes, transit service, and more.

- Designing, costing out and evaluating medium-term solutions, generally involving redesigning and rebuilding the current roadway.
- Identifying and recommending long-term solutions, including changes to ordinances and policies, land-use planning, and improved ways to manage traffic and mobility.

How can I participate?

Each corridor study will include multiple opportunities for public engagement, including:

- Stakeholder meetings with directly affected individuals and groups (property owners, neighborhood associations, etc.)
- Public open-house meetings at the beginning, middle and end of the process, including a session especially for corridor business owners
- Print and electronic notices and progress updates
- Online content at www.AustinSMP.com

Vision and Design: Check Out Our Progress Oct. 1 and 3

Saturday, October 1 • 10 am-noon
Open House and Presentation:
Work in Progress Check-in

George Washington Carver
Museum and Cultural Center,
[1165 Angelina Street](http://1165-Angelina-Street)

As part of the [Imagine Austin release party](#), our two-hour drop-in session will include a brief presentation (11:00 AM) and a display of design sketches, drawings and illustrations that envision what the future for Airport Boulevard could look like. Meet the Airport team, discuss design options, and weigh in on the emerging vision for how redesign and redevelopment can make upper Airport a more vibrant and attractive place to live, work, shop and enjoy.

Monday, October 3 • 5:30-7:30 pm
Review Forum: A Master Plan
for Airport Boulevard

Our Lady's Maronite Catholic Church,
[1320 E 51st Street](http://1320-E-51st-Street)

After this week's intensive design workshop, the Airport team will unveil a conceptual master plan for Airport Boulevard. The presentation will include mobility and transit recommendations for the full length of Airport Boulevard (Lamar to US 183), as well as a highly illustrated and detailed master plan for Upper Airport (Lamar to I-35).

What Happens Next?

The intensive design work being done this week, and the resulting master plan, will provide the basis for the next phase of work on Airport Boulevard: creation of the implementation plan. The end result will be a comprehensive blueprint for coordinating public infrastructure investment, crafting economic development policy, and creating new development regulations that will guide the Airport Boulevard for generations to come.

Summary of Survey Responses

November 11, 2011

1. Which category best describes your business?

Retail Business Owner	Service Business Owner	Restaurant	Mixed Retail and Service	Bank
5	5	3	4	2

2. What form of transportation do you use to get along Airport Blvd?

Car	19
Walk	1
Motorcycle	1
Bicycle	0
Other	0

3. Which other business do you travel to along Airport Blvd?

Retail	1
Restaurant	5
Service/Retail – auto	2
Multiple (Business Related)	5
Banks	1

4. Which other business do you travel to along Airport Blvd?

Bike Lanes	3
Less Bike Traffic	3
Sidewalks	4 (specifically toward 183)
Crosswalks	2
Landscaping	1
Improved lighting	2

5. Which locations in the corridor present safety problems?

- Intersection under I-35 headed north traffic merges with 45th Street left turn lane (over RR tracks) now with new metro rail closings congests I-35 headed south.
- At 4300 near the fire station – dangerous traffic around emergency vehicles
- Too many buses and bike lanes at the corner of Airport and Oak Springs (2)
- 2200 area has too many traffic lights

Summary of Survey Responses

November 11, 2011

- Light at Airport Blvd. and 38th ½ , add turn signal on Airport Blvd.
 - Plants in median at 3800 obstruct view
 - Under the bridge at 183 is too narrow
 - Car traffic at Tillery
 - Metro Blocks traffic (between 4 and 5pm)
 - In front of McDonald's, people jaywalk instead of using the light
6. What additions do you think could improve safety?
- Add more pedestrian crossing areas near north Lamar intersection
 - Better timing at lights
 - Add turn lane from Manor to Airport
 - Better Landscaping and sidewalks
 - More traffic lights
 - Move bus stop at Oak Springs west or add bus stop side lane so it doesn't stop traffic
 - Add a median at 1100 acre
 - Better streetlight maintenance near Springdale.
 - Add left turn signal at Airport and Aldrich
 - Level out pavement into the Hamilton Electric driveway (3800 Airport)
 - Add medians, as long as it doesn't deter car access.

Austin Transportation Department

505 Barton Springs Road, Suite 800
Austin, TX 78704
(512) 974-1150

Please join us Wednesday, **November 30, 7:30 to 9 a.m.** for a **business stakeholder meeting** to review and provide feedback on the **Airport Boulevard Mobility Corridor Study**.

Airport Boulevard is one of Austin's key transportation corridors, and the Austin Transportation Department is conducting a **Mobility Corridor Study** to identify ways to improve the boulevard for all users — drivers, pedestrians, bicycles and transit riders.

In September and October, in conjunction with the city's Upper Airport Boulevard planning initiative, we met with members of the community to identify needs and present initial concepts for near- and long-term improvements to Airport Boulevard. At this upcoming meeting, we will provide an update on progress, initial recommendations, as well as gather feedback to be considered for the final draft Corridor Study, which is anticipated to be complete in early 2012.

This Wednesday morning **stakeholder meeting will be** specifically focused on the needs of businesses and property owners along Airport Boulevard. There will also be **community open house** the day before, Tuesday, November 29, from 6 to 8 p.m that is open to anyone interested in learning more about the Airport Boulevard study.

Both meetings will be held at **Center 61**, which is at 2921 East 17th Street — the PeopleFund building at the MLK MetroRail station. We'll follow up with Airport Boulevard businesses by phone and e-mail between now and then to provide more details and confirm attendance.

Please make plans to join us for these important meetings. If you have further questions, don't hesitate to contact me at 512-974-7186 or alan.hughes@austintexas.gov.
