

HOMELESS MANAGEMENT INFORMATION SYSTEM (HMIS) REPORTING REQUIREMENTS

Organizations receiving funding from the City of Austin for homelessness prevention and homeless intervention services are required to utilize the local Homeless Management Information System (HMIS) to track and report client information for individuals who are at risk of homelessness or who are homeless. A high level of data quality is required. The Ending Community Homelessness Coalition (ECHO) currently serves as the local HMIS administrator.

Requirements Include:

- All settings for client records will be in accordance with HMIS policy in order to reduce duplication of records and improve service coordination
- HMIS user licenses must be purchased for staff entering data into City-funded programs (may use City funds for licenses)
- Organizations must have an ECHO HMIS Memorandum of Understanding
- Data quality report(s) submitted monthly with a rating of “Excellent” or “Acceptable”
- Participation in Annual Point-in-Time Count, Annual Homeless Assessment Report (AHAR), and other required HUD reporting
- Participation in the required annual training for each licensed user as well as attendance at required City-sponsored training(s) regarding HMIS and Contract Database System

Periodic reporting to the City will include levels of compliance with all requirements listed above as well as any feedback regarding the HMIS system.

If data quality reports fall below minimum standards, payments may be withheld until reports improve to “Excellent” or “Acceptable” ratings.

These requirements also pertain to all Subcontractors serving people who are homeless under this agreement.
