Presents

Safety and Insurance Requirements for City of Austin Construction Projects

Monday March 23, 2015
One Texas Center - Suite 1045

505 Barton Springs Road, Austin, TX 78704

9:00 - 10:00AM

Safety and health on all construction projects for the City of Austin must be part of every operation, and is the responsibility of each contractor, subcontractor, and every employee on the jobsite regardless of level. Our presenters, seasoned insurance and safety experts who have helped many companies comply with the City's insurance and safety programs, will provide participants with an overview of the City's Rolling Owner Controlled Insurance Program (ROCIP) and safety requirements on all construction projects for the City of Austin. Participate in this interactive seminar, and you'll learn about the ROCIP program, contractors' and subcontractors' required safety duties, and the rules by which they are to meet obligations and perform the work they agreed upon.
