

City of Austin: Site Plan Metric Report

This report provides regular updates on volume and performance of the site plan review process. It includes metrics at a high level and breaks them down by each phase of the process to provide a comprehensive view. Data is provided by month and by Fiscal Quarter (FQ). Measures marked with an asterisk (*) are considered lagging measures. This means they are reported in the time period in which the permit is issued. However, they incorporate review work completed during previous periods. Durations are measured in calendar days.

Count of Site Plan Applications Received

Count of Site Plan Permits Issued

Percent of Applications Passing Completeness Check on Initial Submission

Average Number of Days Spent in Completeness Check

Average Days in Initial Review Cycle

Average Days in Update Review Cycles

Total Days in Formal Review*

Breakdown of Days for Staff and Applicant During Formal Review*

End to End Process Duration: Average Days from Application to Permit Issuance*

Average Number of Review Cycles per Permit Issued*

Development Services Department (DSD) Data Disclaimer
DSD's database is continuously updated, so reports run at different times may produce different results. Care should be taken when comparing against other reports as different data collection methods and different data sources may have been used.
