

SIP SAFELY

Austin

The City of Austin wants you to have a safe nightlife experience and encourages you to protect yourself and others from drink spiking.

- Never leave your drink unattended
- Watch your drink being poured
- Be cautious about taking a drink from someone you don't know
- Use a drink cover
- Watch out for others in your party

Know the signs of someone who may be a victim of drink spiking and call 9-1-1 or take them to an emergency room:

- Inability to clearly communicate
- Poor coordination or vision
- Hallucinations/paranoia
- Confusion/disorientation
- Nausea/vomiting
- Unconsciousness

If you suspect someone is a victim of drink spiking, notify bar staff and call 9-1-1 to report the incident to the police.

Together we can stop the spike.
