Close contact with COVID-19 infection

Exposed - Quarantine

If you:
- Have been boosted
- Completed the primary series of Pfizer or Moderna vaccine within the last 6 months
- Completed the primary series of J&J vaccine within the last 2 months

Yes

- Wear a mask** around others for 10 days.
- Test* on day 5, if possible.

If you develop symptoms get a test and stay isolated.

No

You test positive - Isolate

Everyone, regardless of vaccination status.
- If you test positive for COVID-19, isolate for 5 days.
- If you have no symptoms after 5 days, you can stop isolating.
- Wear a mask** around others for 5 additional days.
- If you have a fever, continue to stay isolated until your fever resolves.

If you:
- Completed the primary series of Pfizer or Moderna vaccine over 6 months ago and are not boosted
- Completed the primary series of J&J over 2 months ago and are not boosted
- Are unvaccinated

- Isolate for 5 days.
- After that continue to wear a mask around others for 5 additional days.
- If you can’t quarantine you must wear a mask** for 10 days.
- Test* on day 5 if possible.

If you develop symptoms get a test and stay isolated.

*Tests
- PCR or Rapid Antigen

**Masks
- Masks should fit snugly and cover your nose and mouth.
- Visit CDC.gov for more information.

Note
- Practice wearing a mask**, washing your hands and watching your distance for the full 10 days following your last exposure, even within your household.
