austin
MOTION
2016 MOBILITY BOND

August 29, 2019

To Stakeholder, Property Owner, or Resident:
(para español, lee abajo)

Jane Doe
1234 Austin Street
Austin, TX ZIPCODE

Whether you drive, roll, or walk, the Austin Transportation Department (ATD) works to improve your transportation options. Neighborhood bikeways are streets with lower speeds and volumes of auto traffic where the safety and comfort of people bicycling, walking, and playing is a priority.

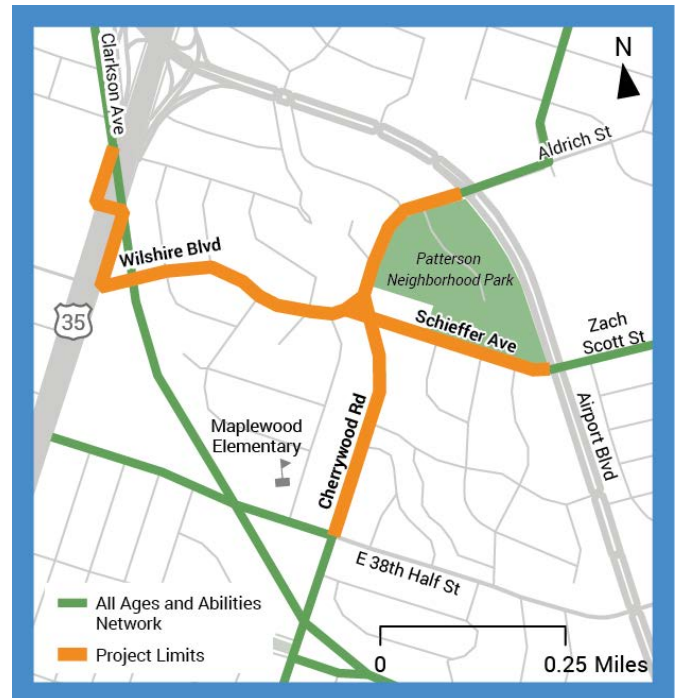

Neighborhood bikeway projects can include:

- Pavement markings alerting people driving to expect people bicycling in the street and help to guide people along the bikeway route
- Improved crossings of major streets
- Wayfinding signs to guide people to local and regional destinations
- Speed reduction tools

Neighborhood bikeways are designed to provide calm, low-stress bikeway connections as part of the expanding all ages and abilities bikeway network. Funding for these changes has been identified from the 2016 Mobility Bond Bikeways and Sidewalks Programs. You are receiving this notification because you live on and/or own property adjacent to a proposed neighborhood bikeway or are otherwise registered with the City as a stakeholder in the area.

The following streets are proposed neighborhood bikeways in the Cherrywood neighborhood: Wilshire Boulevard, Cherrywood Road, and Schieffer Avenue. A preliminary design will be available at the project open house for you to review and provide feedback. The proposed changes include:

- New and modified speed reduction devices (e.g., speed humps or speed cushions)
- Improvements for crossing IH-35 near Wilshire Boulevard by foot and by bike to connections into the Hancock neighborhood
- A new sidewalk on Wilshire Boulevard from IH-35 northbound frontage road to Schieffer Avenue that will require spot parking restrictions to avoid large trees
- Tightened corners at intersections for slower motor vehicle turns and shorter crossing distances

Project Open House

Casa Abierta del Proyecto

ATD welcomes your ideas! Feedback from the people who use the street often results in project outcomes that better reflect community needs. Please come by for additional information about this project and provide feedback:

Tuesday, September 24 / martes 24 de septiembre

7:00 to 8:00 PM (Drop in anytime!)

**Maplewood Elementary - Cafeteria
3808 Maplewood Avenue**

If you cannot attend this open house, please visit the project website for updates and to complete the online survey:

austintexas.gov/cherrywoodbikeways

The comment period will be open through Sunday, October 27, 2019. The materials presented will be available online starting at 6pm on September 24.

If you have questions, please contact:

Dylan Johnstone

(512) 974-7021

dylan.johnstone@austintexas.gov

Las ciclovías del vecindario son calles con velocidades y volúmenes de tráfico de vehículos de motor más bajos donde la seguridad y la comodidad de las personas que andan en bicicleta, caminan y juegan en la calle es una prioridad. Los proyectos de ciclovías del vecindario pueden incluir marcas en el pavimento para alertar a las personas que conducen que deben esperar gente andando en bicicleta, intersecciones mejoradas de las calles principales, señales para guiar gente en bicicleta a destinos locales y regionales, y herramientas de reducción de velocidad (como topes o reductores de velocidad). El proyecto propuesto incluye cambios en Wilshire Boulevard, Cherrywood Road y Schieffer Avenue y mejoras para cruzar IH-35. Un diseño preliminar estará disponible en la reunión pública del proyecto el martes 24 de septiembre de 7:00 a 8:00 p.m. para que lo revise y envíe sus comentarios. Favor de contactar Sophia Benner para preguntas, comentarios, o traducción de materiales de proyectos en línea al 512-974-7853 o sophia.benner@austintexas.gov. El periodo para comentarios estará abierto hasta domingo el 27 de octubre de 2019. Visite el sitio web del proyecto para más información: austintexas.gov/cherrywoodbikeways
