Reflective of the City’s desire to be responsible stewards of the planet’s resources, the City of Austin’s budget document uses paper made from 100% recycled post-consumer fiber, is acid- and lignin free, and Green Seal® and Forest Stewardship Council (FSC) certified. Additionally, the typeface is Ecofont®, designed specifically to use less toner. The Office continues to look for ways to bring additional environmentally-responsible practices into the production of the Budget document.

Mayor, Mayor Pro Tem, and Members of the City Council:

I am pleased to submit for your consideration the Fiscal Year 2012-13 Proposed Budget, which represents the culmination of more than eight months of sustained effort on the part of City staff. This document details a financial plan that:

- Is balanced and structurally sound, not only for the upcoming fiscal year but also over the long-term;
- Was developed through an open and transparent process that values the priorities and participation of Council, staff, stakeholders, and citizens;
- Maintains the world-class standard of service delivery that our residents, business owners, and visitors deserve and have come to expect; and
- Values and rewards our employees for the exceptional work they perform on behalf of the community each and every day.

This Budget upholds a commitment to structural balance, in both the near- and long-term, and is the product of a comprehensive multi-year effort to ensure that we utilize the City's resources in the most responsible and cost-effective way possible. Council and staff have approached the economic crisis of the past several years as an opportunity rather than an excuse. Through a combination of disciplined decision-making, creative problem solving, and simple hard work, we have maintained or expanded core service delivery while restraining spending growth, to become leaner, smarter, and more efficient as an organization, resulting in greater value for our citizens. Over the last three years, our efforts have included:

- Working proactively to improve the long-term financial health of the Employee Retirement System, including establishing a second-tier, lower-cost pension plan for new civilian hires;
- Implementing enhanced employee wellness programs, which has allowed us to hold year-over-year cost growth of health insurance to 3% in FY 2012-13, as opposed to 8% in the previous year;
- Renegotiating labor contracts with sworn personnel to reduce staffing costs;
- Postponing civilian market studies and associated pay adjustments for over two years and placing a moratorium on employee wage increases in FY 2009-10;

- Implementing a rigorous hiring review process for non-public safety positions;
- Repurposing positions to higher-demand service areas and eliminating 178 non-essential vacant positions; and
- Cutting or eliminating \$10.5 million in services, including library and pool hours, supervised after-school playground sites, funding for the LBJ fire academy, and the Trail of Lights.

Three short years ago, the forecast for FY 2009-10 projected an annual budget shortfall of \$29.6 million, even assuming adoption of the rollback tax rate, and the outlook for the out-years was similarly forbidding. As a result of the aggressive and proactive steps we have taken together, the accompanying document represents the third consecutive annual budget that includes a tax rate below the rollback threshold. Moreover, the outlook for the future is bright; for the first time in my tenure with the City, financial staff presented Council with a five-year forecast that did not project a short-fall in revenue. The City's reserve funds are healthy and growing, putting us in good standing with the financial rating agencies that consistently reaffirm the City's AAA credit worthiness. To our common credit, we have achieved this structural stability while avoiding a single employee layoff and while maintaining or expanding the core services most valued by our residents and stakeholders.

It is City staff's ongoing commitment to provide Council with extensive information and more opportunity for input, well in advance of decisions being made, in order to promote an open, inclusive, and transparent budget process. The \$3.1 billion budget before you today was developed in accordance with this standard. Budget development began in October, when staff presented Council with the results of our Annual Citizen Survey. Incorporating this feedback from our community, the City's annual business planning, conducted in December and January, resulted in several significant departmental reorganizations and other refinements. The City Council Policy Retreat, which took place in February, provided Council with the opportunity to define broad policy objectives on a number of timely and important topics. This was followed by the publication of the Annual Performance Report, City Dashboard, and an update to the Horizon Issues forecast in March, a comprehensive list of Unmet Service Demands in April, and a detailed Menu of Potential Budget Reductions in May. Finally, staff presented the annual economic outlook and five-year financial forecast to Council over the course of three work sessions in late April and early May. Each year, we strive to provide you with this high-quality and relevant budget information as early in the process as possible, in order to allow you a maximum of time and data in establishing funding priorities and policy guidelines.

We likewise have an equally strong commitment to providing residents and other stakeholders with ever-greater access to and opportunity for participation in the budget process. Over the course of the spring, representatives from the City's Budget Office and departmental staff presented budget forecasts at fifteen public meetings held by the City's various Boards and Commissions and solicited input from board members, residents and stakeholders. Leveraging the City's considerable

technological resources, we expanded the *SpeakUpAustin!* Web forum, facilitated an online budget question-and-answer application, and conducted an online budget priorities survey. In support of these initiatives, the City launched a promotional campaign that included newspaper advertisements in both Spanish and English, social media alerts, e-mail notifications on departmental and Public Information Office distribution lists, and announcements and links on the City's newly redesigned website. In the weeks ahead, as we work toward budget adoption, the community will have many additional opportunities to monitor or become involved in the process, including three Council work sessions and seven public hearings on the budget, tax rate, and utility rates.

The Budget includes a proposed increase in the property tax rate of 2.18 cents, from 48.11 to 50.29 cents per \$100 of taxable value, which, as noted above, is below the maximum rollback calculation for the third consecutive year. In addition to the increase in electric rates recently approved by Council, rate increases are needed for the City's water, drainage, transportation, and resource recovery utilities in order to maintain the financial sustainability of these enterprises. While affordability is always a paramount concern, the recommended increases are both prudent and necessary if the City is to continue investing in core service areas such as public safety, health and human services, parks and recreation, infrastructure improvements, energy reliability and water quality.

In closing, I want to recognize the entire workforce and applaud their ongoing commitment and dedication to making the City of Austin the most livable and best-managed city in the nation. As a result of their hard work, Austin continues to set the standard in municipal service delivery—exceeding national norms in 41 of 46 service areas and outpacing the national average for overall quality of services by nineteen percentage points. Without the ongoing commitment of our employees to promoting best management and livability, these impressive survey results would be unattainable. As always, I want to thank you, the City Council, for your hard work, commitment and ongoing support.

Sincerely,

A handwritten signature in black ink, appearing to read "Marc A. Ott". The signature is fluid and cursive, with a large initial "M" and "A".

Preface

Preface

The Budget consists of two volumes:

- **Volume 1**—Includes the Executive Summary, an operating budget-in-brief of all City funds, a General Fund budget-in-brief, and departmental discussions in the major service areas of public safety, community services, infrastructure, and utility and major enterprises. Departmental discussions are discussed alphabetically within the major service areas and include an overview of revenue and funding, a summarized program and activity organizational chart, missions and goals, a message from the department director, budget and revenue highlights, significant changes, detailed activity pages with requirements and performance targets, and a summary of inputs by program, activity, and funding sources. The City's summary of personnel and the financial summaries of all budgeted funds are also included in this volume.
- **Volume 2**—Departmental discussions continue with the internal services and support services departments. This volume also includes discussion of other non-departmental funds, debt, the capital budget, grants, a discussion of financial policies and other supporting documents to the budget, such as the fee schedule, budget ordinances, economic outlook and statistical information on Austin and its economy.

Electronic copies of the budget can be found on the City of Austin website at www.AustinTexas.gov/finance and in the Austin Public Library catalogue. A cd-rom copy may be requested from the Budget Office by calling (512) 974-2610.

Other References

Several reference materials in addition to the budget can be accessed on the City's website Austin Finance Online at www.AustinTexas.gov/finance. These include a tutorial on the City's budget planning process, the Economic Outlook and Financial Forecast, which contains supplemental information on the local economy as well as projections of future revenue and expenditures, an update of departmental Horizon Issues, the 2012-13 Menu of Potential Budget Reductions, the Unmet Needs Report and the 2010-11 Annual Performance Report. The 5-year Capital Improvements Plan, published by the Capital Planning Office, is available online at <http://austintexas.gov/departments/cip-plans>. Capital funding authorization for the next fiscal year is shown in the Capital Budget section contained in Volume 2. The City's website also posts Council budget questions and answers throughout the budget process.

Financial Policies

The Austin City Council has adopted a comprehensive set of financial policies to govern the financial management of the various City funds. The City Council developed financial policies to ensure that the City's financial resources are managed in a prudent manner. The City maintains the goal of a structurally-balanced budget to achieve long-term financial stability for the Austin community.

The City's financial policies dictate that current revenue, which does not include the General Fund beginning balance, will be sufficient to support current expenditures (defined as "structural balance"). Unreserved fund balances in excess of what is required shall normally be used to fund capital items in the operating and capital budgets.

A complete copy of the financial policies is contained in Volume 2 along with the City's current compliance status for each individual policy. The City of Austin is in compliance with 93 of the 98 financial policies, as approved. Unless otherwise noted, the FY 2012-13 Budget has been used to determine the current status of the financial policies.

Basis of Budgeting and Accounting

Governmental funds, which include the General Fund, are budgeted on a modified accrual basis. Revenue is recognized as soon as it is measurable and available. Revenue is considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. Encumbrances are recognized by governmental funds in the year of commitment since they represent a commitment of funding for goods or services.

Preface

Proprietary funds, which include enterprise, internal service, and fiduciary funds, are budgeted on a full accrual basis, with the exception of compensated absences and debt service payments. For these two items, the City budgets for the payments that are expected to be paid during the fiscal year. Encumbrances are recognized by enterprise and internal service funds in the year of commitment since they represent a commitment of funding for goods or services.

Except for the differences noted above in debt service payments and compensated absences, the basis of accounting and budgeting in the City of Austin are the same: modified accrual for governmental funds and full accrual for proprietary funds. However, the fund structure of the budget differs from the Comprehensive Annual Financial Report (CAFR) of the City. As an example, the Austin Energy fund in the budget reflects only the operating activities of the electric utility, while the Austin Energy fund in the CAFR reflects the operating activities, capital project activities, debt service activities and reserve account activities. Therefore, these amounts are not comparable between the two documents.

Executive Summary

City of Austin Proposed Budget

Executive Summary

Fiscal Year 2012-13

Austin is flourishing. Employment is strong—nearly 23,000 jobs created in the last 12 months; housing activity is robust; and more and more businesses are choosing Austin as their home. Our hard work during these last four years—and commitment to staying the course on budget discipline—is paying off. Other communities around the country are still dealing with the impact of the recession on their financial position by cutting services and investments in their communities. The Austin approach of balancing the budget by not relying on one-time solutions, while at the same time making key investments in our community, our infrastructure, our economy, our sustainability, and our employees is providing a 21st century “best-managed” model for cities all around the country. These efforts will continue in FY 2012-13 with a structurally balanced budget totaling \$3.1 billion, including \$742.5 million for the General Fund, which will allow us to continue to provide high-quality public safety, health, library, parks, water, energy, infrastructure, development and other services to the citizens of Austin.

Austinites clearly feel good about the services they receive. In 41 of 46 categories surveyed, Austin is at or above the national average. In fact, in 14 of those areas, we are *10% above* the national average, including 26% above national average for customer service and 13% above for value citizens receive for their taxes/fees. The proposed tax rate of 50.29 cents per \$100 valuation, 2.18 cents above the current tax rate, balances the tax impact to property owners with the need to invest in this community and continue providing the services Austinites have come to expect. This is the third year running that the proposed tax rate is below the rollback rate. In FY 2012-13 the associated tax bill for a median priced home is estimated at \$897 per year, or \$1.67 more per month than the current tax bill, a 2.3% increase. And because of the transparent budget process we have in place—that was enhanced this year by the addition of a Council Policy Retreat in February—and the conversation in the community that occurs as a result of this process, we are confident that citizens will continue to see the value in providing key services and investments.

A key component to Austin’s approach is to continually look towards and plan for the future. This past year, new businesses in technology, energy, healthcare and financial services have made Austin their home. By diversifying our economy now, we are creating a strong framework for Austin’s future—a future that many people and families will want to be part of. And with the adoption of the Imagine Austin Comprehensive plan, a blueprint for how this community will grow into the future, we are well prepared to welcome these new Austinites to our community.

We have likewise invested in the long-term financial sustainability of our two major utilities, Austin Energy and Austin Water. After 18 years without a rate increase, Council approved a new rate structure for Austin Energy in June 2012 that will ensure the financial sustainability of the utility for future generations. The Austin Water Utility is also

recommending a rate increase, as well as a new rate structure, that will significantly reduce revenue volatility while maintaining strong price incentives that encourage conservation of this limited resource. Both of these efforts were conducted with the transparency that has come to define our financial processes; engaging the community on the front-end of major recommendations. Austin Energy conducted a 6 month public process and supported Council in their work sessions. The proposed rates for the Austin Water Utility were similarly developed over a 7 month public process, including 15 public meetings of a Joint Committee of staff, board and commission members and citizens. At the heart of these Utilities and their new rate structures is a commitment to sustainability, conservation and affordability.

While this budget reflects a resurgent economy, it does not lose sight of our sustainable budget goals, and does not rely on one-time revenue to support on-going costs. This Austin model that we have had in place for the last four years has served us well. We have maintained reserve levels and our AAA bond ratings, yet at the same time made key decisions and investments that benefit not only our current residents, but those that will come. Austin exists in a rarefied space. Our struggle moving forward will be to continually raise the bar on what is possible, while continuing to move ever closer towards the Imagine Austin vision of a community where the necessities of life—and all that makes Austin the most livable city in the country—are affordable and accessible to all.

Best Managed City

To achieve our vision of making Austin the most livable city in the country and to support City Council’s policies and initiatives, the employees of the City—whether they be executives, managers, or front-line service providers—have the singular mission of making the City of Austin the best managed city in the country. City staff is committed to creating a work environment that fosters creative thinking and innovation throughout the organization; thereby better positioning the workforce to more effectively respond to new challenges as well as new opportunities. Being the best managed is about everybody in the organization doing the best they can, every day, to provide the best services possible to the community.

Since establishing our Best Managed mission, the question “How will we know that we’ve achieved it?” has been frequently asked. The answer: “We’ll never declare that we’ve reached that goal, but rather others will do it for us.” This year, we can clearly see our hard work and determination are being noticed, evidenced through the exceptionally high satisfaction marks we received from our citizens on our annual community survey. Over the last three years, resident satisfaction with overall city services has steadily improved, and in 2011 Austin outpaced the national average for large cities in 41 of 46 service areas measured. Our overall quality score of 65% was 19% higher than our peer cities’ average, and our customer service score of 69% was 26% higher. Overall satisfaction with city services rated #1 among 13 comparable cities with populations greater than 500,000 leading the survey team to conclude that *“The City of Austin is setting the standard for performance among large U.S. cities.”*

Additional highlights of recent Best Managed Initiatives are listed below.

Imagine Austin. In June 2012, the City Council unanimously voted to adopt Imagine Austin, the City's comprehensive plan for Austin's future. The plan defines where the City is today and where we want to go, setting a context to guide decision-makers for the next 30 years. This plan took more than two years to develop with tens of thousands of Austinites helping to shape it throughout the public process. There were four rounds of public input, including five surveys, 21 public meetings, 189 Meetings-in-a-Box, 57 traveling team events, 112 speaking events, and over 100 meetings of the 38-member Citizens' Advisory Task Force. The result is a plan that adheres to the six core principles established by citizens: 1) Grow as a compact, connected city, 2) Integrate nature into the city, 3) Provide paths to prosperity for all, 4) Develop as an affordable and healthy community, 5) Sustainably manage water, energy and other environmental resources, and 6) Think creatively and work together. This plan's success will be monitored annually with the performance metrics integrated into the document and formally assessed at least every five years, as required by the City Charter. It's a flexible plan and will be updated regularly so that we can continue to ensure that the community's priorities and values are sustained as the city and region grow.

Building for the Future. The Imagine Austin Comprehensive Plan will guide how and where future development occurs citywide. Complementing Imagine Austin is the Downtown Austin Plan, which was adopted by the City Council in December 2011. This plan serves the critical role of creating the best implementation strategy for development in the high-profile and vibrant downtown area. During the past year, City staff has made progress on important downtown projects such as the Waller Creek Tunnel and Downtown Wastewater Tunnel, and we are well-underway with the New Central Library Project, with the schematic design phase embracing cutting-edge approaches to ensure that Austin's next central library will truly be a "Library for the Future."

The City also continues to make progress on critical facility and infrastructure projects citywide. In November 2011, we opened the state-of-the-art Austin Animal Center, which will support our efforts for continued and long-term success as a No-Kill community. We continue to coordinate the redevelopment of the old Mueller airport site, with more than 250 single- and multi-family housing units being built or started last year, including more than 200 affordable homes. Several transportation projects were completed, including the reconstruction of the East Seventh Street corridor, Brazos and 32nd Streets, the Pfluger Pedestrian Bridge extension, and the South Congress makeover incorporating new bicycle lanes and reverse angle parking, an award winner for Best Internal Project by the Texas Public Works Association. And perhaps most notably, construction of Water Treatment Plant 4 is progressing on schedule and anticipated to begin operating in 2014. When complete, the initial phase of construction will result in a 50 million gallon per day water treatment facility which will provide clean, reliable, and affordable water for both current and future generations of Austinites.

Engaging Communities. Austin set the standard for community engagement with our public input process of the Imagine Austin Comprehensive Plan, with our efforts being cited by the Alliance for Innovation, the National League of Cities and the Texas Transportation Institute as a "best practice." Recent budget cycles have provided an unprecedented level of stakeholder involvement through surveys, focus groups, budget work sessions, town hall meetings, public meetings with the City's boards and commissions, online question and answer forums for both citizens and council members, an online discussion forum (SpeakUpAustin!), and a City Council Policy Retreat. Austin Energy opened a customer-focused service center in North Austin to provide walk-in

assistance to customers and to serve as a community resource. The Code Compliance department established a Community Outreach Office to identify and connect resources and assistance programs with persons cited for code violations. Through a collaborative process with the community, the City redesigned the AustinTexas.gov website and many departments have developed and improved upon their public access websites as a way to better communicate and engage. The City of Austin is committed to increasing transparency and providing opportunities for public input.

Greening Austin. Austin is leading the way in environmental protection and innovation. The City's goal for reducing emissions from City government operations are the world's most ambitious—a 100% reduction by 2020. Achieving this goal will require innovative thinking and the implementation of new green initiatives. The Sustainability Office made significant progress toward this goal last year. All City facilities are now powered by the GreenChoice renewable energy program, ranking Austin #2 on the U.S. Environmental Protection Agency's Top 20 Local Government list for green power purchasers. The newly-online Webberville Solar project is helping to bring Austin Energy one step closer to meeting its goal of 35% renewable power by 2020. The City completed one of our flagship green infrastructure projects, the Lundelius McDaniels Biofiltration Pond for stormwater treatment, that treats polluted stormwater runoff with native vegetation and soil before it enters the Barton Springs recharge area. The Austin Public Library diverted 130 tons of discarded materials out of landfills through the work of Recycled Reads, the APL bookstore. The Austin Resource Recovery department re-blended more than 8,000 gallons of Austin Reblend paint for re-use and won numerous awards for its innovative reality TV show, Dare to Go Zero, in which four families tried to reduce their weekly waste stream to zero pounds. And the Austin Water Utility has been expanding its reclaimed water program, most recently at the Austin-Bergstrom International Airport, providing an alternative water source for irrigation and cooling that should conserve 25-35 million gallons of potable (drinking) water annually while also reducing operating costs.

Keeping Austin Safe. Public safety is one of the fundamental roles of a local government and the highest priority of our citizens. Our public safety departments continue to work hard to improve, innovate and keep our community safe. Last year's response times for life-threatening and emergency calls for Fire, Emergency Medical Services, and Police were all better than the Council approved targets. EMS reached 92% of its Priority One calls in urban areas within 10 minutes, Police's emergency call response time was less than 7 minutes, and Fire completed 86% of its calls within eight minutes. Austin's violent and property crime rates have also been decreasing over time. The Austin Police Department was awarded Impaired Driving Mobilization Department of the Year by the Texas Department of Transportation and launched the RAIDS Online crime-mapping tool to allow the public an interactive map and database to become better informed about crime activity in their neighborhoods. Our fire department has been working to enhance cooperation with regional emergency response and responded fully to the Pinnacle and Labor Day wildland fires. Wildfire community education has been a citywide effort, with the Parks and Recreation Department recently developing a "shaded fuel break" along the southwest boundary of Circle C Metropolitan Park to help reduce the wildfire risk of nearby homes. Austin is a StormReady Community of the National Weather Service, and the community outreach plan, Disaster Ready Austin, is now implemented, ready for when emergencies and disasters strike.

Pulling Together. City staff understand community needs and community responsibility, often working with civic groups to better our city. Our departments worked with community partners to adopt 100% tobacco-free policies, increased client access to

primary care by 30% at the Refugee Health Screening clinic by partnering with Lone Star Circle of Care, and launched Car-Share Austin in partnership with the car-share providers car2go and Zipcar. The Austin Police Department partnered with the Greater Austin Crime Commission in the Guns4Groceries gun buyback program, and Neighborhood Housing partnered with the nonprofit Foundation Communities on the development of M Station Apartments, a 150-unit rental community with affordable units.

Sustaining Healthy Finances. Maintaining sound financial and economic development policies within the City organization allows for a high-level of services to the community. Because of our policies, the City's bond ratings for General Obligation bonds continues to be AAA for all three bond rating agencies, Moody's (Aaa), Standard & Poor's and Fitch Investors. In addition, our combined utility system revenue bonds were upgraded in June 2012 to Aa1 based on positive findings by Moody's of our sound financial practices, and the Aviation Department improved its Standard & Poor's credit rating from "A-" to "A", which will assist with the airport's long-term sustainable growth plans and ability to secure funding at lower borrowing rates. We also took advantage of a competitive construction business climate, achieving 13.5% savings in bids vs. estimates for the City's construction projects, and we exceeded portfolio benchmarks for the year, earning \$4.5 million in interest earnings. The average yield on the Investment Pool portfolio was 0.38 percent compared to the U.S. Treasury Bond benchmark rate of 0.15 percent.

City Performance and the City of Austin Dashboard. The idea behind an organizational dashboard is to provide a summarized snapshot of performance for the most important services that a city provides so that these measures can easily and frequently be reviewed by city staff, Council and citizens. The Dashboard measures, 21 of the most critical indicators of the City's success, were selected in collaboration with a citizen panel comprised of graduates from the CityWorks Academy. The Dashboard includes indicators from each of the major service areas presented in this budget document, Public Safety, Community Services, Infrastructure, and Utilities/Major Business Enterprises. A fifth category of Economic and Financial Health is also included. Taken collectively, these 21 indicators give City Management, City Council, and the residents of Austin a tool for quickly assessing how well the City of Austin is performing.

The table on the following page lists the City Dashboard measures along with their proposed targets for 2012-13. Of the 19 dashboard measures with targets set for FY 2010-11, eleven – or 58% – met their targets. Fifteen, or 79%, either met, exceeded or came within 3% of their targets. Seventeen, or 81% of the Dashboard measures, improved or maintained performance overall during the 5-year timeframe from FY 2006-07 to FY 2010-11.

For FY 2012-13, these Dashboard measures, as well as the other measures tracked by city departments, will continue to have targets set that are both challenging—reflecting our commitment to “raising the bar”—and realistic based on available resources. Setting targets, tracking and analyzing data, and discussing and making decisions off of the outcomes are beneficial processes for the City organization and critical to improving City services and delivery.

City of Austin Dashboard Measures

Measure Name	2006-07	2007-08	2008-09	2009-10	2010-11	2011-12 Estimate	2012-13 Target	2011 Goal Met?	
Citywide Dashboard: Public Safety									
Violent crime rate per 1,000 population	5.40	5.22	5.23	4.76	4.49	4.36	4.45	✓	
Property crime rate per 1,000 population	63.41	59.45	62.45	57.55	54.33	53.31	53.79	✓

Impact of the Budget on City Employees

Wages and Other Compensation. The City's workforce is its greatest asset and continued investments in this area are essential to the pursuit of being Best Managed. City employees played a crucial role in balancing the FY 2009-10 Budget by renegotiating labor contracts and agreeing to forego planned pay increases. These concessions continue to save tax dollars today through lower base wages. The FY 2012-13 Budget includes wage adjustment of 3% for both uniformed and civilian personnel, helping them to keep pace with the rising cost of living. The Budget also includes a continuation of the Service Incentive Pay program, which allows for an annual lump-sum payment to civilian employees based on tenure. In agreement with the approved terms of our contracts with uniformed personnel, funding is also included for increases associated with step and longevity pay for sworn staff. In FY 2011-12, we returned to reviewing the salaries of our workforce compared to the market. This program had been placed on hold for three years until the City's revenue showed sustained improvement. As part of the FY 2011-12 Budget, City Council approved implementation of the market study effective April 1, 2012. Full-year funding for the market increases are included in the FY 2012-13 Budget.

Medical and Dental Insurance. The City's efforts over the past few years to make changes, implement policy and initiate programs aimed at keeping health insurance costs down are beginning to have an impact. In FY 2012-13, City contributions to the Employee Benefits Fund are budgeted at only a 3% growth rate. This increase is 5% less than the 8% increase implemented in the FY 2011-12 Budget.

The City is continuing to cover 100% for employee PPO medical coverage, while increasing the charge introduced in 2012 for employee-only enrollees in the higher cost HMO by \$2.50 per pay period for a total of \$5.00 per pay period. Employees with dependent coverage will see a 5.4% increase in premiums. Coverage for retirees without Medicare will increase by 8% and with Medicare by 2%. Plan design changes due to healthcare reform include covering 100% of the costs for generic birth control and female sterilization.

The City will continue to cover 100% for employee dental coverage. Employees with dependent coverage will see a 9.8% increase. The Table of Allowance for the Dental Assistance Plan will increase. The City will introduce a Health Reimbursement Account to incent healthy behaviors for employees and retirees.

Improving the Financial Health of the Employees' Retirement System. The City of Austin is the plan sponsor of three employee pension systems: the Employees' Retirement System (ERS), the Police Retirement System, and the Firefighter Retirement System.

ERS is the largest pension system and provides retirement benefits for civilian employees, as well as EMS personnel. Over the past several years, primarily as a result of enhanced benefit levels and substantial investment losses, additional City contributions to the ERS have been necessary to improve the funded status of the system and lower the amortization period of the unfunded liability. Since 2005, the City's contribution has increased from 8% of salary to 18%. Combined with the requisite employee contribution of an additional 8% brings the combined City/employee contribution rate to 26% of salary. In addition to increasing City contributions to the ERS, a new lower cost benefit

tier went into effect January 1, 2012. This new benefit tier only applies to employees hired on or after that date and increases the age and service criteria necessary to reach retirement eligibility. It also decreases the pension multiplier, which is used to determine the final pension amount paid to future retirees. These two changes will, over time, substantially improve the long-term financial health of the ERS.

Consistent with the City's approved collective bargaining agreements with sworn Police and Firefighters, additional City contributions to the Police and Firefighter Retirement Systems have also been included in the FY 2012-13 Budget. Both Systems will receive an additional 1% City contribution beginning the first pay period of the fiscal year. The Firefighter Retirement System will receive a further 1% increase starting in September 2013.

General Fund Highlights

Animal Services. The Animal Services Office's (ASO) budget for FY 2012-13 totals \$8.2 million and 94.5 FTEs. This includes funds to convert a part-time veterinarian position to full-time and the operation of a portion of the Town Lake Animal Center (TLAC) as an overflow shelter facility. The additional hours of veterinary care will have a direct impact on ASO's ability to maintain or improve upon its live-outcome rate and the funding for TLAC operations will help to alleviate a shortage of large-dog kennels at Austin Animal Center and allow ASO crucial flexibility in responding to surges in shelter intake.

Austin Public Library. The Austin Public Library operates 20 branch libraries, the Faulk Central Library, and the Austin History Center. Along with planned expenditure increases to maintain these facilities, the FY 2012-13 Budget includes funding for 12 new FTEs and dedicated funding for temporary employees to alleviate the growing burden on current Library staff. These additional resources will provide critical support to the entire library system.

CIP Highlights – Library's capital budget includes \$6.2 million in new appropriation, per the approved funding plan, for the new central library. Design will continue in FY13. Expected spending in FY 2012-13 is \$3.3 million for the library and other library building improvements.

Emergency Medical Services. The Emergency Medical Services' (EMS) budget for FY 2012-13 provides funding for 448.5 uniformed personnel, 84 non-uniformed positions, and the operation of 35 full-time ambulance units and 5 demand units. This amount includes funding for six new paramedic positions for a demand unit at the Medic 5 Station, annualizing staffing costs added mid-year of FY 2011-12 for operation of the Mueller station, and implementation of a new National Curriculum stipend under the existing Meet and Confer agreement. The budget also includes one-time funding for ambulances and equipment for the Mueller and Medic 5 Stations and the replacement of cardiac monitors, stretchers, Automatic External Defibrillators, and stair-chairs. EMS' FY 2012-13 revenues are \$30.9 million, an increase of \$1.5 million over the FY 2011-12 Budget. The change in revenue is primarily due to an increase in the transport fees and in the reimbursement amount from the Travis County Healthcare District.

Fire. The budget of the Austin Fire Department (AFD) maintains funding for 1,083 firefighters for the continued operation of 45 fire stations. The department recently learned that it may be awarded a Staffing for Adequate Fire and Emergency Response (SAFER) federal grant. This grant would allow the department to achieve four-person staffing on the remaining three aerial trucks in addition to three rescue units in FY 2012-13. Additional overtime is also included in AFD's budget to cover the cost of back filling sworn positions due to the unusually high number of sworn vacancies. Funding is also included in the budget for the annualized cost of 3 inspector positions added mid-year 2012 and 5 new non-sworn staff that will provide needed support in the areas of community outreach, payroll services and administration of the personal protective equipment maintenance program.

CIP Highlights – The FY 2012-13 spending for AFD is \$1.0 million for the continued effort to add women's locker rooms to various fire stations. There is a new appropriation being added to Fleet's CIP for AFD pumper trucks in the amount of nearly \$2.9 million.

Health and Human Services. The Health and Human Services Department's (HHSD) budget for FY 2012-13 is comprised of \$39.3 million from the General Fund, \$20.3 million in grants and \$1.9 million from the Sustainability Fund. Combined these funds support 417.5 FTEs. The HHSD budget includes funding for 3 previously grant funded positions. One of these position, a Public Health Nurse, serves 2,887 unduplicated clients annually at the South Austin Neighborhood Center, providing blood-pressure and blood-sugar screening as well as educational outreach regarding diabetes and hypertension. The other two positions are a Toxicologist and a Community Development Manager that were previously funded by the Public Health and Emergency Preparedness grant. Transferring these positions to the General Fund ensures they will be appropriately and consistently funded and allows remaining grant funds to be redirected to other programmatic staff. The Social Services Contracts Program is budgeted at \$25.5 million for FY 2012-13, including an increase of \$841,000 to provide full-year funding for the mental health interlocal agreement with Austin/Travis County Integral Care (ATCIC).

Municipal Court. The Municipal Court's budget for FY 2012-13 includes funding for an additional two Case Managers. These positions will increase the Downtown Austin Community Court's ability to provide services to repeat offenders, both by serving offenders who appear on the docket and by outreaching to and engaging offenders in the community before they are arrested and brought to court. Additional funding is also included in the Juvenile Case Manager fund for the implementation of a pilot program for Juvenile Class C cases through an interlocal agreement with Travis County.

The Municipal Court is projecting a \$2.2 million decrease in revenue collections in FY 2012-13. The decrease in revenue is attributable to a steep decline in the number of traffic citation cases filed at Municipal Court. There are two primary factors contributing to the drop. First, newer technology allows officers to verify insurance at the time of the traffic stop eliminating the need to issue a citation for failure to maintain insurance. Second, APD has shifted resources to higher priority enforcement in an effort to reduce traffic fatalities. The decrease in traffic violations is projected to be partially offset by an increase of \$0.5 million in revenue from parking fines resulting with the newly expanded parking hours.

Parks and Recreation. The Parks and Recreation Department's (PAR) budget for FY 2012-13 includes funding for staff, contractals, and commodities to maintain and operate the City's 23 recreation centers, 43 pools, and numerous metropolitan and neighborhood parks. The budget includes funding for 4 new FTEs related to parks grounds maintenance, 6 FTEs for the opening of the new Asian American Resource Center, 2 FTEs for the operation of the Carver Genealogy Center, 1.5 FTEs to enhance services at the Mexican American Cultural Center and one position to improve contract compliance and management. The budget also includes a \$0.6 million increase for preventative maintenance contracts that is needed for the Department's aging facilities and one-time critical funds of \$388,600 for park maintenance and recreational equipment and furniture and fixtures for the Asian American Resource Center.

CIP Highlights – PAR's capital budget for FY 2012-13 includes \$10.2 million in new appropriation and a spending plan of \$30.1 million. The majority of spending will be from the City's 2006 Bond Program and covers improvements to the Conley-Guerrero Senior Activity Center, renovation of Bartholomew pool, trail improvements near the Shoal Creek Greenbelt, improvements at Auditorium shores, a new play-scape at Dove Springs Park and many other projects including critical rehabilitations for various facilities.

Planning and Development Review. The Planning and Development Review Department's (PDR) budget for FY 2012-13 maintains funding for existing services, and adds annualized costs associated with an FY 2011-12 budget amendment that increased certain development fees and added 11 FTEs to improve the development review process. The budget also includes funding for three additional positions to begin work on implementing the Imagine Austin Comprehensive Plan by overseeing the rewrite to the City's Land Development Code CIP project.

CIP Highlights – PDR's capital budget includes \$2.0 million for consulting costs associated with rewriting the City's Land Development Code. This will be a multi-year project and is scheduled to begin October 2012. Another \$1.5 million is included for the Great Streets Redevelopment Program. This program is supported by partial funding for private sector implementation of downtown Great Streets improvements and supplemental funding for downtown Great Streets capital improvement projects. PDR's Spending for FY 2012-13 is expected to be nearly \$1.3 million for planning, zone code update and Great Streets projects.

Police. The Austin Police Department's (APD) budget for FY 2012-13 includes funding for 1,740 officers to maintain the sworn staffing ratio of 2.0 officers per 1,000 population. This includes funding for 22 new officers in FY 2012-13 and the annualized cost of 47 officers added mid-year FY 2011-12. The budget also includes funding for the promotion of ten officer positions to higher ranks. Twelve communication positions and two Victim Witness Counselors, previously funded by grants, are being transferred to the General Fund in order to maintain these critical programs despite the loss of the grant funds. Additional operating budget items include a decrease in the cost of the booking interlocal agreement with Travis County and continued funding for the City's share of the costs for the Austin Regional Intelligence Center.

CIP Highlights - APD's capital program will see \$2.9 million in spending for the continued implementation of the Digital Vehicular Video System and installation of network infrastructure and audio/video equipment.

Enterprise Highlights

Austin Convention Center. The Austin Convention Center (ACC) is responsible for operations and maintenance of the City's Convention Center and Palmer Events Center. The primary funding source for the Convention Center is hotel occupancy tax, which accounts for \$37.2 million, or 61%, of the Convention Center's total revenue in FY 2012-13. For the 3rd year in a row the ACC Budget does not include any new positions.

With plans underway to open two Convention hotels in 2015, a new opportunity will exist for ACC to host larger conventions and to host multiple events simultaneously. In order to meet the significantly increased demand, additional space on the south side of the Convention Center will be needed to offer a more competitive meeting room package. The current meeting room package features small to mid-sized meeting rooms and needs larger rooms that can be divisible, if desired, by operable walls. ACC is currently working with the City of Austin's Department of Public Works on possible options to add or retrofit space.

CIP Highlights - ACC's FY 2012-13 Capital Budget contains \$9.0 million in new appropriations transferred from Convention Center funds for building improvement projects with \$3.3 million in spending. The work plan focuses on projects which will help to better serve customers, including the rebuilding of escalators, repairing and upgrading the garages, and upgrading electrical capacity in the pre-function areas of the Convention Center. Renovations to the Palmer Events Center will also have spending.

Austin Energy. Austin Energy is the City of Austin's municipally-owned and operated electric utility providing retail electric service to over 400,000 metered customers in its 437 square mile service area (206 square miles in the City of Austin and 231 square miles in Travis and Williamson counties).

Over the past four years, Austin Energy (AE) budget has not been structurally balanced – meaning that available funds were not sufficient to cover requirements. As part of the long-term strategy to strengthen the financial position of the Utility, the City Council approved in FY 2011-12 the first base rate increase in 18 years. The new rate plan, set to take effect on October 1, 2012 is projected to generate \$71.0 million in new revenue annually. This additional revenue will maintain the Utility's long-term financial stability while allowing it to remain responsive to its customers needs.

A second component of the long-term financial strategy is continued cost containment efforts. In FY 2012-13, these efforts include stringent limits on workforce growth, reducing controllable contractual and commodities expenses, and deferring capital spending and reducing project scopes when feasible and cost effective.

AE's budget for FY 2012-13 totals \$1.28 billion in revenue, including a \$10.9 million transfer from the Strategic Reserve Fund, with requirements totaling \$1.27 billion. Fuel costs, budgeted at \$414.2 million, are passed through to the customer with zero profit added. Fuel cost fluctuations will impact fuel revenue in a similar manner; natural gas prices have been volatile over the past decade and are the main driver of Austin Energy's fuel cost fluctuations.

CIP Highlights – AE's capital budget for FY 2012-13 includes \$177.4 million of new appropriations to support infrastructure improvements. These new and existing appropriations support the FY 2012-13 Capital Improvement Spending Plan of \$220.8 million. The Capital Improvements Spending Plan includes: \$46.5 million for Power Production projects, \$5.2 million for non-nuclear decommissioning related to the Holly Power Plant, \$12.8 million for Alternative Energy projects, \$76.5 million in Distribution projects, \$44.7 million for Transmission projects, \$4.5 million for Customer Billing and Metering projects, and \$30.6 million for other utility-wide support projects. The \$220.8 million FY 2012-13 Capital Improvement Spending Plan is funded with \$152.0 million issuance of commercial paper and \$68.8 million of transfers from operations (internally generated cash) and beginning cash balances.

Austin Resource Recovery. The primary focus of Austin Resource Recovery (ARR) in FY 2012-13 will be on the implementation of its Master Plan in support of the City Council's Zero Waste goals.

A key component of reducing waste is to encourage recycling through price incentives. For FY 2012-13, the ARR is recommending a rate of 16 cents per gallon for the 24, 32, and 64 gallon carts, and a 25 cent per gallon rate for the 96 gallon cart. The per-gallon rate system creates a financial incentive for customers to decrease their trash volume by recycling more items and downsizing their trash cart capacity.

Another significant change is renaming of the Anti-Litter fee to the Clean Community Fee. This fee supports litter abatement, street cleaning, and hazardous waste disposal services provided by ARR as well as activities provided by the Code Compliance Department. The FY 2012-13 Budget includes an increase in the fee of \$1.00 per month for residential customers and \$4.50 per month for commercial customers.

ARR's budget for FY 2012-13 includes an additional 10 positions to support increased resource recovery efforts related to the Department's various Zero Waste activities as mandated in the recently approved Austin Resource Recovery Master Plan. ARR is also making significant investments in public education in FY 2012-13 related to the new single use bag regulations and recycling requirements at special events. A total of \$2.4 million and 4 FTEs are included in the budget for enhanced marketing, outreach and educational activities.

CIP Highlights - ARR's capital budget includes a total appropriation of \$14.5 million for capital equipment; primarily for the purchase of compressed natural gas vehicles as part of a multi-year conversion effort from diesel and additional support vehicles for the collection of organic materials at all residential units. ARR will also continue spending on environmental remediation projects at the Harold Court and Loop 360 Landfills. The total spending planned for FY 2012-13 is \$21.8 million

Austin Transportation. The Austin Transportation Department (ATD) will assume the street banner hanging and removal program from Austin Energy in FY 2012-13, requiring two new positions. A new Ground Transportation Officer and a part-time administrative position are included in the budget to support valet parking enforcement.

CIP Highlights - ATD also reinvesting pay station and parking revenue back into the downtown area via a \$2.5 million transfer to the capital budget that will provide

increased funding for studying urban rail, implementation of the second phase of wayfinding, and various other downtown and transportation initiatives.

Austin Water Utility. The Austin Water Utility (AWU) provides water, wastewater, and reclaimed water services to over 212,000 customers within Austin and surrounding areas. AWU's budget for FY 2012-13 includes revenue of \$514.8 million from the sale of water, wastewater, and reclaimed water service along with other miscellaneous revenue. Total requirements for operations and maintenance, debt service, and transfers total \$517.5 million. As part of an overall strategic plan to meet basic core services while continuing to integrate environmental consciousness and sustainability into all of the Utility's operations, AWU's budget includes funding for 26 new FTEs. Thirteen of these positions are related to Water Treatment Plant 4. The other 13 positions will be part of an overall strategic plan to meet basic core services while continuing to incorporate and integrate environmental consciousness and sustainability into all Utility operations. Those 13 positions can be broken down into four categories: managing a growing system and staffing new facilities; enhancing water conservation, reclaimed water, water accountability and water quality; planning for the future; and ensuring solid business practices.

On the revenue side, AWU is proposing a two-phase change to customer rates for FY 2012-13. The first phase, effective November 1, 2012, will implement a 6.0% system-wide increase for wastewater service and a 10.8% system-wide increase for reclaimed water. The second phase of the rate proposal, effective February 1, 2013, will implement the rate recommendations of the Joint Subcommittee on AWU Financial Planning. The proposed changes include eliminating the current Revenue Stability Fee, redesigning the fixed-revenue structures for all customer classes, integrating new volumetric rate block intervals, and creating a new water revenue stability reserve fund to offset revenue shortfalls. The combined impact of the proposed water and wastewater rate changes on a typical AWU residential customer is projected to be \$6.77 per month.

CIP Highlights - Austin Water Utility's Capital budget includes \$42.5 million in new appropriations and reallocations to fund new vehicle purchases, wastewater facilities improvements, and expansion of the existing reclaimed water system. Specifically, Water Treatment Plant 4 will continue to be a major priority in FY 2012-13 as AWU works to bring the plant to substantial completion by the spring of 2014. The CIP spending for the department is planned to be \$258.6 million.

Aviation. Austin Bergstrom International Airport's (ABIA) budget for FY 2012-13 of \$86.6 million and 351 FTEs will enable it to continue providing excellence in customer service—Austin style. Driven by 3.5% projected growth in passenger traffic, Aviation projects landing fees and terminal-lease revenue to increase by 5.7% in FY 2012-13, while non-airline revenue is expected to increase by 16.5%. At the same time, the Department projects holding airline cost per enplaned passenger—a key indicator and an important metric in the airport industry—to \$8.94, a 2.4% increase over its FY 2011-12 target. Providing quality facilities while controlling costs is critical to maintaining a reasonable cost per enplaned passenger.

CIP Highlights - Aviation will continue its ongoing efforts to make improvements to its airside, landside, and terminal areas with an increased appropriation of \$24.5 million. The FY 2012-13 spending plan of \$60.6 million will focus on terminal and other airport

facility improvements, such as terminal expansion, freight and garage elevator refurbishment, roadway safety and security upgrades, and overflow parking lot improvements.

Code Compliance. The Code Compliance Department has historically been funded through transfers from Austin Resource Recovery Fund and the General Fund. Beginning in FY 2012-13, the Code Compliance Department will be funded primarily by a portion of the revenue generated from the Clean Community Fee (previously the Anti-Litter Fee). The FY 2012-13 Budget includes an increase in the fee of \$1.00 per month for residential customers and \$4.50 per month for commercial customers to support both Austin Resource Recovery and Code Compliance activities. Specifically for Code, the increase in revenue generated through the higher fee will support the addition of 8 new FTEs that help the Department meet the community's expectations of service and responsiveness and allow for implementation of a proactive Multi-Family Inspection Program. The Department's budget includes funding for another 9 FTEs needed to effectively enforce the Private Waste Hauler Ordinance. Administration of this program is transferring from ARR to the Code Compliance in FY 2012-13.

Economic Growth and Redevelopment Services. In FY 2012-13, the Economic Growth and Redevelopment Services Department (EGRSO) will focus its efforts on promoting economic growth, attracting corporate business, promoting sustainable growth in the Desired Development Zone, assisting locally-owned small businesses, and continuing to support creative development through arts and music. In support of these efforts and in collaboration with numerous other City departments, EGRSO is opening a new one-stop-shop Special Events Center in FY 2012-13. When complete, the new Center will greatly streamline the permitting process for special events in Austin.

Neighborhood Housing and Community Development. The Neighborhood Housing and Community Development Department (NHCD) provides housing, community development, and small business development services to benefit eligible residents. The primary funding source for these services and staff support are federal grant awards. In FY 2012-13, NHCD is receiving \$1.8 million less in federal CDBG and HOME grants. This loss is substantially offset by \$1.3 million in one-time grant funds from the Neighborhood Stabilization Program, Lead Hazard Reduction, and the Sustainable Community Challenge grants awarded in the prior year. To further mitigate the drop in CDBG and HOME grant funds, NHCD will begin charging the personnel costs for five previously grant-funded positions to the Housing Trust Fund. An increase of \$0.5 million in the transfer from the Sustainability Fund is also included to fully fund public facilities, such as the African American Cultural and Heritage Facility, and to provide ongoing maintenance and support to the Urban Renewal Agency. Though these corporate and department actions have minimized the negative impact to services in FY 2012-13, NHCD anticipates that grant funding will continue to be a challenge in future years. The department will be addressing this challenge, which includes a review of current grant programs and other funding options, prior to the FY 2013-14 budget process.

CIP Highlights – NHCD expects to expend nearly \$4.5 million on various projects, primarily funded through previously appropriated funds from the 2006 GO Bond program to make eligible repairs through sub-recipients to eliminate health and safety hazards and/or provide improved accessibility for low and moderate income homeowners.

Public Works. The Public Works Department (PWD) is responsible for providing preventive street maintenance, street repair, transportation planning, and transportation enhancement programs, as well as managing the city's bicycle and pedestrian infrastructure and maintenance of the city's off-street right-of-way. One of the City's annual goals is to maintain 80% of the street inventory in fair to excellent condition, which requires providing preventive maintenance to ten percent of the street inventory annually. Due to the department's commitment to achieving this goal, it is estimated PWD will finish the year at 81% and is projecting 82% for FY 2012-13.

Public Works operations are largely funded through the Transportation User Fee. An increase of \$0.51 per single-family residence is proposed to support the existing and new initiatives. In FY 2010-11, Public Works began a cyclic tree maintenance program and has initiated improvements to the center islands, medians, and other structures. The next initiative is to further manage and enhance the right-of-way appearance and condition. Funding for 4 new positions is included in the budget to address this through a more aggressive tree planting program and replacement of irrigated areas with more drought tolerant plantings. Another focus is increasing career progression opportunities for Street and Bridge staff. Three positions will supplement the career training and progression program for street and bridge operations. These positions will focus on developing skills testing and verification, recordkeeping, and certification of Street and Bridge equipment operators.

The Public Works Department has the organizational mission to provide an integrated approach to the development, design, construction, and maintenance of the City's infrastructure systems and facilities.

CIP Highlights - The Department's FY 2012-13 capital budget includes a total appropriation of approximately \$2.0 million sidewalk improvements and technology projects. Other significant highlights for capital projects continuing or scheduled for completion are the Boardwalk Trail at Lady Bird Lake, the Neighborhood Partnering Program, and the street reconstruction project for 3rd Street. Public Works combined with Austin Transportation Department has an estimated spending plan for FY 2012-13 at \$87.7 million.

Watershed Protection. The Watershed Protection Department (WPD), was established in 1991 to maintain and improve water quality, reduce the impact of flooding, create stable stream systems and maintain the City's drainage infrastructure. The primary source of funding for the Watershed Protection Department is a monthly drainage fee assessed to City of Austin utility customers. A 7.7% increase to the base billing unit (equivalent residential unit) is proposed for FY 2012-13. Primary cost drivers for WPD in FY 2012-13 include basic personnel costs of \$1.0 million, transfers and other requirements which include a \$1.9 million increase to the Enterprise Capital Improvements Program and a \$1.4 million transfer for City Administrative Support. Additionally, contractual costs for service agreement contracts also increased by \$400K due to the increase prices of asphalt, concrete, drainage materials, sand and gravel. There are no new FTE for FY 2012-13.

CIP Highlights - WPD's capital budget for FY 2012-13 includes a total new appropriation of \$31.4 million. This appropriation includes funding for the Waller Creek Tunnel, erosion control, flood control improvements, localized drainage improvements, water quality

remediation/protection projects, vehicle purchases, and database and GIS projects. The appropriation also includes 2006 General Obligation Bond funding for Watershed Protection Master Plan projects as well as Urban Watershed Structural Control funds from the water quality fee-in-lieu program. WPD will continue making progress on numerous projects related to creek flood hazard mitigation, stormwater pond safety, localized flood hazard mitigation, stormwater treatment, and stream restoration. WPD's FY 2012-13 spending plan is \$50.9 million.

Internal Service Highlights

Support Services Departments. Departments within the Support Services Fund provide assistance to the City of Austin and its citizens. These services include providing objective analysis of the adequacy of the City's management systems, maintaining the financial integrity of the City government, providing a liaison between the City and other governmental entities and legislative bodies, managing the City's human resources, and overseeing the implementation of all programs and services. Significant changes to the Support Services FY 2013 Budget include the following:

Contract Management Department (CMD) and Office of Real Estate Services. These two departments are moving into the Support Services Fund from the Capital Projects Management Fund (CPMF) to better align CMD with the City Purchasing Office within the Financial Services Department, allowing for greater consistency in the City's overall procurement function. As a result, requirements are increasing by \$7.3 million and 78 FTEs have been added. The increase to Support Services is offset by a commensurate reduction in the CPMF.

Small and Minority Business Review (SMBR). A one-time increase of \$1.2 million is included in the budget for a legally-mandated disparity study. The disparity study examines business utilization in Austin-Round Rock MSA to determine statistical disparities by race, ethnicity and gender classification. It also examines the effect of remedial race- and gender-based efforts by the City of Austin. This study is used to guide SMBR's program development and City WBE/MBE purchasing policies. According to State Code, a disparity study must be conducted every 5 years. The last study expires December 31, 2013.

Building Services. The growth in both the number and age of City facilities has outpaced the Building Services Department's capacity to manage and maintain these facilities. To begin addressing this issue, five new positions are being added in FY 2012-13, the first part of a 3 year plan to bring staffing levels into alignment with work load.

Law Department. The new Ethics and Compliance team is being expanded by four positions. The team will build on the platform provided by the Integrity Office, formally housed in Management Services, and focus on public information, open meetings, financial disclosure, and document retention.

Financial Services Department (FSD). FSD's budget for FY 2012-13 includes 4 new positions to improve financial reporting, enhance internal control activities and support the implementation of a new contract monitoring activity.

Human Resources Department (HRD). HRD is adding personnel to support the anticipated conversion of EMS to civil staffing, the Banner records program, and the growing employee retirement system.

Communications and Technology Management (CTM). The Communications and Technology Management Department (CTM) supports the City's major technology infrastructure and initiatives, from providing a reliable and secure network to conduct business to spearheading the use of new technologies to improve productivity and effectiveness. The Department provides critical installation and maintenance of several public safety communication systems and devices, as well as provides training and help desk services to City employees.

CIP Highlights – CTM has a total new appropriation for FY 2012-13 at \$50.4 million and spending plans at \$17.7 million. This is for projects addressing both ongoing technology maintenance and replacement and funding for new initiatives and major projects. To ensure the City is effectively managing its information technology (IT) infrastructure, funding is also included in the total appropriation to conduct a citywide IT Assessment study. While the scope of work has yet to be determined, the ultimate goal is to survey the existing IT framework including resources, policies, practices and goals, factoring in business needs and resource availability, to produce an organization-wide plan that can help guide and inform the City's future IT decisions.

Two major capital projects are included in the Department's FY 2012-13 budget: \$32 million for component replacement of the Greater Austin/Travis County Regional Radio System (GATRRS) and \$11.8 million to upgrade the City of Austin Telecommunications Network (COATN). Construction of GATRRS began in 2001. Infrastructure equipment—microwave radios and antennas, voice radio repeaters, and dispatch consoles—is approaching obsolescence. For the system, which is the communication backbone for the areas' public safety agencies, to stay functional and reliable, these three major component groups have to be replaced. Additionally, the current fiber optic network, COATN, cannot support current and future telecommunications projects due to a lack of capacity to transmit large amounts of data and lack of adequate bandwidth. The proliferation of video web streaming, training, video teleconferencing, and event monitoring have surpassed the existing system's capabilities. To ensure adequate bandwidth resources for many years to come, system hardware needs to be upgraded, an initiative that is currently being pursued by the Department.

Conclusion

Our adherence to structurally balanced budgets, while making critical investments that will benefit Austin now and in the future, is setting the standard for what a best managed 21st century city should be. A fundamental component of the Austin model is the active engagement of our citizens. The benefits of this approach are two-fold: hearing from

citizens about their needs, but also informing citizens about the resources needed to keep providing the high-quality services that they demand. And the citizens have told us that we are providing high quality services, in fact the results of the annual citizen satisfaction survey tell us that we “continue to set the standard for customer service among top U.S. cities.”

This year’s proposed budget, and associated property tax rate of 50.29 cents per \$100 of taxable value, allows the General Fund to cover \$38.7 million in cost drivers as well as investing \$5.9 million in unmet service demands. This budget enhances public safety by adding 22 new police officers to maintain a ratio of 2.0 officers per 1,000 residents and also includes annualized costs for 12 paramedics added in FY 2011-12 to staff the new Mueller station and 6 new paramedics for an additional peak-demand unit. The Fire Department recent award of the SAFER grant will allow the department to achieve four-person staffing on the remaining three aerial trucks as well as three rescue units. Users of our libraries, parks, and community centers will likewise experience markedly better service with the addition of 25.5 positions to these services areas. And finally, the 3 additional positions included in the budget of the Planning & Development Review Department, in addition to the 11 added during FY 2011-12, will provide the City with the resources needed to implement the Imagine Austin Comprehensive Plan and to serve as a catalyst for development activity and economic growth throughout the City.

In accordance with our model of planning for the future, we will continue to make key infrastructure investments throughout the City. The FY 2012-13 General Government CIP appropriations total \$87.9 million and Enterprise Government CIP appropriations total \$299.4 million. These investments are critical to maintaining quality of life for our residents, and for creating a reliable infrastructure back-bone for businesses. The City of Austin closely follows its financial policies in order to maintain the highest bond ratings among all three agencies. Our Government Obligation Bond rating is Aaa with Moody’s and AAA with the Standard & Poor’s and Fitch Investors bond rating agencies. Our adherence to structurally balanced budgets, maintaining reserves, and making wise investment choices are at the heart of these ratings.

A community is ultimately defined by its people. But it can be highly influenced by the actions of local government. We have been good stewards of our citizen’s tax dollars—always remaining cognizant of the importance of keeping Austin affordable, but continuing to make the needed investments to maintain Austin as the most livable city in the country, a truly unique place that businesses and families want to call home.

Adopted Budget Reconciliation

Adopted Budget Reconciliation

The Austin City Council made several changes to the FY 2013 Proposed Budget during its consideration on September 11, 2012. These changes, which are described below, have been incorporated into the FY 2013 Approved Budget document.

General Fund:

- **Ad Valorem Tax Rate**-Council adopted a rate of 50.29 cents per \$100 valuation.
- **Revenue**-Amend the proposed budget to increase revenue associated with Plaza Saltillo fee changes in the amount of \$21,731.
- **Transfers In**-Increase the transfer in from the Sustainability Fund for the PARD Roving Leader Program in the amount of \$95,535.
- **Fire**-Amend the proposed budget to create the Wildfire Mitigation Division by adding 3.0 FTEs.
- **Health**-Increase funding by \$200,000 for the Council for At Risk Youth.
- **Health**-Direct staff to fund \$73,000 for the River City Youth Foundation within the existing Social Services Contracts unallocated budget and direct the City Manager to identify funding options for an additional \$73,000.
- **Health**-Add appropriations in the amount of \$76,634 for Social Service Contracts for permanent Supportive Housing Services.
- **Health**-Amend the proposed budget by increasing appropriations for Early Childhood Services in the amount of \$154,159.
- **Parks and Recreation**-Add 1.0 FTE to provide increase in maintenance for Umlauf Garden.
- **Parks and Recreation**-Increase maintenance at Plaza Saltillo by adding \$21,731 and 0.5 FTE.
- **Parks and Recreation**-Amend the proposed budget by increasing appropriations for the PARD Roving Leader Program in the amount of \$95,535 and adding a 1.0 FTE.
- **Police**-Amend to the proposed budget by reducing police overtime in the amount of \$200,000.
- **Transfers Out**-Reduce the transfer to the Support Services Fund in the amount of \$230,793.
- **Budget Stabilization Reserve Fund**-Amend the proposed budget for the purchase of equipment for the Austin Fire Department to create the Wildfire Mitigation Division in the amount of \$87,033.
- **Budget Stabilization Reserve Fund**-Increase transfers to the Critical-One Time Fund in the amount of \$250,000 for a one-time payment for Social Service Contracts for the Healthy Families Travis County Program.
- **Budget Stabilization Reserve Fund**-Increase transfers to the Critical-One Time Fund in the amount of \$84,057 for investments in Early Childhood Services.
- **Budget Stabilization Reserve Fund**-Increase transfers to the Critical-One Time Fund for the Roving Leader Program in the amount of \$124,300.
- **Budget Stabilization Reserve Fund**-Amend to increase transfers of \$248,385 to the Critical-One Time Fund for wildfire mitigation efforts consistent with the Community Wildland Protection Plan (CWPP).
- **Budget Stabilization Reserve Fund**-Transfer an additional \$100,000 to the Critical-One Time Fund for equipment associated with Urban Forestry Division in the Parks and Recreation Department.
- **Critical-One Time Fund**-Amend the proposed budget to increase appropriation in the amount of \$87,033 for equipment associated with the Wildfire Mitigation Division within the Austin Fire Department.
- **Critical-One Time Fund** -Increase amount by \$250,000 for a one-time payment for Social Services Contracts for the Healthy Families Travis County Program.
- **Critical-One Time Fund** -Amend to appropriate \$124,300 for the Roving Leader Program within the Parks and Recreation Department.
- **Critical-One Time Fund**-Increase appropriation in the amount of \$84,057 to fund additional Early Childhood Development Programs in the Health Department.
- **Critical-One Time Fund**-Amend the proposed budget in the amount of \$248,385 for wildfire mitigation efforts consistent with the CWPP for the Fire Department.
- **Critical-One Time Fund**-Increase appropriations by \$100,000 for equipment associated with Urban Forestry Division in the Parks and Recreation Department.

Adopted Budget Reconciliation

Support Services Fund:

- **Transfers In**-Amend the proposed budget by reducing transfers into the Support Services Fund from the General Fund in the amount of \$230,793.
- **Audit**-Amend the proposed budget by adding 1.0 FTE in the amount of \$126,628 and adding \$30,000 for training.
- **Building Services**-Reduce appropriations in the amount of \$212,371.
- **Financial Services**-Reduce appropriations in the amount of \$60,152.
- **Management Services**-Reduce appropriations in the amount of \$62,190.
- **Management Services**-Amend the proposed budget of the Telecommunications and Regulatory Affairs Office to increase appropriations by \$143,958 for gap funding and expansion of the Austin Free Net.
- **Transfers Out**-Amend the proposed budget by reducing transfers to Communication and Technology Management Fund in the amount of \$196,666.

Enterprise / Other Funds:

- **Austin Energy**-Amend the proposed budget of Austin Energy to increase appropriations in the amount of \$3,500,000 for the Solar Program.
- **Austin Resource Recovery**-Increase transfers to the Environmental Remediation Fund in the amount of \$287,000.
- **Austin Water Utility**-Amend the proposed budget by increasing transfers to the Environmental Remediation Fund in the amount of \$287,000.
- **Austin Water Utility**-Amend the proposed budget by decreasing Water Service Revenue in the Customer Assistance Program by \$900,000 to provide for water volumetric rate discounts.
- **Austin Water Utility**-Amend the proposed budget of Austin Water Utility by increasing transfers out to the Sustainability Fund in the amount of \$383,465.
- **Communications and Technology Management**-Reduce appropriations in the amount of \$196,666.
- **Communications and Technology Management**-Amend the proposed budget and add 2.0 FTEs to form an Innovation Office and direct the City Manager to reallocate \$250,000 within the Communications and Technology Management Department by reducing the budget for the Citywide IT Strategy Assessment from \$1 million to \$750,000.
- **Code Compliance**-Amend the proposed budget of the Code Compliance Department Fund by increasing revenue in the amount of \$352,392 and by increasing expenditures in the same amount and adding 3.0 FTEs for the Short Term Rental Program.
- **Environmental Remediation Fund**-Amend the proposed budget of the Environmental Remediation Fund by increasing transfers in by \$861,000 and increasing transfers out to the Rosewood CIP Project.
- **Housing**-Amend the proposed budget of the Neighborhood Housing and Community Development Department to increase the transfers in from the Sustainability Fund by \$287,930 and increase appropriations in the amount of \$287,930.
- **Public Works**-Amend the proposed budget of the Transportation Fund to increase appropriations by \$570,845 for more equitable programs related to the transportation system that supports the Imagine Austin Plan.
- **Public Works**-Amend the proposed budget of the Parking Management Fund by decreasing the transfer to the Great Streets CIP Program in the amount of \$783,019.
- **Sustainability Fund**-Amend the proposed budget of the Sustainability Fund to increase transfers in from Austin Water Utility in the amount of \$383,465.
- **Sustainability Fund**-Amend the proposed budget of the Sustainability Fund to increase transfers out to the Neighborhood Housing and Community Development Department in the amount of \$287,930.

Adopted Budget Reconciliation

Enterprise / Other Funds:

- **Sustainability Fund**- Amend the proposed budget of the Sustainability Fund to increase transfers out to the General Fund in the amount of \$95,535 to fund the Parks and Recreation Department Roving Leader Program.
- **Watershed Protection**-Amend the proposed budget by increasing appropriations in the amount of \$648,293 for drainage and erosion control purposes.
- **Watershed Protection**-Increase transfers to the Environmental Remediation Fund in the amount of \$287,000.

Grant Funds:

- **Fire**-Amend the proposed budget of the Austin Fire Department Special Revenue Fund by increasing appropriations in the amount of \$5,010,000 and by adding 36.0 Firefighter FTEs for the Staffing for Adequate Fire and Emergency Response (SAFER) Grant from the U.S. Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA).
- **Health**-Increase appropriations in the amount of \$186,000 for the Emergency Solutions Grant from the Department of Housing and Urban Development.
- **Municipal Court**-Amend the proposed budget of the Municipal Court Department Special Revenue Fund by adding 2.0 FTEs for the Emergency Solutions Grant from the Department of Housing and Urban Development.

Capital Improvements Program (CIP):

- **Austin Resource Recovery**-Amend the proposed capital budget of the Austin Resource Recovery Department by increasing transfers in from the Environmental Remediation Fund in the amount of \$861,000 and by increasing appropriations by the same amount for the Rosewood CIP Project.
- **Parks and Recreation**-Amend the proposed capital budget of the Parks and Recreation Department by increasing appropriations for the Barton Springs Pool CIP Project in the amount of \$71,689.
- **Planning and Development Review**-Amend the proposed capital budget of the Planning and Development Review Department by decreasing appropriations for the Great Streets CIP Program in the amount of \$783,019.

Fines, Fees and Other Changes:

- **Austin Energy**-Amend the proposed fees, fines, and other charges to be set and charged by Austin Energy to include the Time of Use-Thermal Energy Storage Rider as written in Attachment E. This Rider shall be inserted in the Approved Budget document immediately following the Thermal Energy Rate Storage rate schedule.
- **Austin Energy**-Amend the proposed fees, fines, and other charges to be set and charged by Austin Energy to delete the phrase "less GreenChoice sales" from the following sentence: "The PSA shall be the resulting sum divided by projected service area sales, less GreenChoice sales, for the twelve month period following the effective date of the PSA." in the Power Supply Adjustment rate schedule.
- **Austin Energy**-Amend the proposed fees, fines, and other charges to be set and charged by Austin Energy to add the phrase "and credits;" to the end of the following cost statement: "ERCOT transmission service charges" in the Regulatory Charges rate schedule.

Adopted Budget Reconciliation

Fines, Fees and Other Changes:

- **Austin Water Utility**-Amend the proposed fees, fines, and other charges to be set and charged by Austin Water Utility to include a separate fee section under the Water Service Rates for the Customer Assistance Program to provide for water volumetric rate discounts, adding the following fees:

<u>Customer Assistance Program (CAP)</u>	<u>FY2011-12 Approved Fee</u>	<u>FY2012-13 Approved Fee</u>
0 – 2,000 Gallons	\$0.00	\$1.00
2,001 – 6,000 Gallons	\$0.00	\$2.25
6,001 – 11,000 Gallons	\$0.00	\$3.90
11,001 – 20,000 Gallons	\$0.00	\$7.50
20,001 – Over Gallons	\$0.00	\$12.25

- **Code Compliance**-Amend the proposed fees, fines, and other charges to be set and charged by the Code Compliance Department to include the following fees for the Short Term Rental Program:

<u>Short Term Rental</u>	<u>FY2011-12 Approved Fee</u>	<u>FY2012-13 Approved Fee</u>
License	\$0	\$235 per year

- **Parks and Recreation**-Amend the proposed fees, fines, and other charges to be set and charged by the Parks and Recreation Department pertaining to Plaza Saltillo in the following manner:
 - Add a \$150 per day maintenance fee
 - Add a rental fee of \$150 for 4 hours
 - Reduce the electricity fee from \$150 per day to \$50 per day
 - Delete the \$200 per day minimum fee

Financial Policies:

- **General Fund**-Amend the General Fund Financial Policy #3 to read: “To improve financial planning, non-emergency amendments to the Adopted Budget shall be accomplished in one mid-year Council Meeting except in cases where the amendments are fully offset by new revenue resulting from the initiative and there is no discretion on how the revenue is spent.”
- **Austin Water Utility**-Amend the proposed budget by adding back the existing language of the Austin Water Utility Financial Policy related to voter approval of revenue debt.

All Funds Budget in Brief

All Funds Budget-in-Brief – 2012-13

The City of Austin Budget has two primary components: the Operating Budget, which encompasses daily activities, and the Capital Budget, which includes major improvement projects. Departmental budget discussions are found throughout Volumes 1 and 2 and a more detailed discussion of the Capital Budget is in Volume 2. This section is intended to provide a high-level citywide operating summary. A General Fund Budget-in-Brief follows this section.

Where does the money come from: Revenue in the City of Austin

The City of Austin is a unique municipal operation because of its multi-faceted revenue sources that reflect the many businesses that make up the City corporation. Although most citizens associate property taxes with city government, as a revenue source for the City of Austin property taxes account for only 14% of total revenue. The various utilities which the City operates as enterprise funds, such as Austin Energy, Austin Water Utility, and Aviation, make up 72% of the projected \$3.1 billion in revenue.

FY 2012-13 Major Funding Sources by Revenue Type—Citywide Operating Budget in Thousands

Taxes (Property, Sales, Hotel/Motel Occupancy, Vehicle Rental Tax)	\$646,010
Fees, Fines, Permits, Licenses, Inspections	\$81,801
Charges for Services & Goods	\$252,691
Utility Charges (electric, water, wastewater)	\$1,749,507
Interest & Other	\$179,471
Net Transfers In and Billings to Departments or Agencies	\$144,254
TOTAL AVAILABLE FUNDING	\$3,053,734

With a property tax rate of 50.29 cents per \$100 dollars of valuation, property tax revenue is anticipated to be \$417 million. Other tax revenue projections include \$164 million for city sales tax, \$51 million for hotel/motel occupancy taxes, and \$13 million for other taxes such as vehicle rental and alcoholic beverage taxes. The \$82 million projected for fees and fines includes \$35 million in franchise fees for cable, gas, and telecommunications usage, \$22 million for parking, traffic, and other fines, and \$25 million in permits, licenses, and inspections, including \$20 million in collections by the City’s One Stop Shop for development. Charges for services and goods of \$253 million include revenue collected for emergency medical services, convention center services, garbage and recycling collection, drainage and transportation user fees, and airport usage fees. Sales by the City’s electric utility, Austin Energy, are anticipated to reach \$1.25 billion, which includes base revenue of \$757 million, \$414 million in fuel revenue, and \$81 million in transmission and other revenue. Water and wastewater sales charges by Austin Water Utility are projected at \$497 million.

All Funds Budget-in-Brief – 2012-13

Total citywide revenue for FY 2012-13 is projected to be \$3.1 billion. More information on the types of fees, utility rates and other service charges collected by the City can be found in the City of Austin 2012-13 Fee Schedule, located in the Supporting Documents section of Volume 2.

The chart below shows the \$3.1 billion in anticipated revenue broken out by property and sales tax collections and large enterprise departments. Austin Energy’s electricity sales make up 42% of the total budget. Austin Water Utility comprises 17% of the budget. Property, sales, and alcoholic beverage tax collections represent 20% of the total budget.

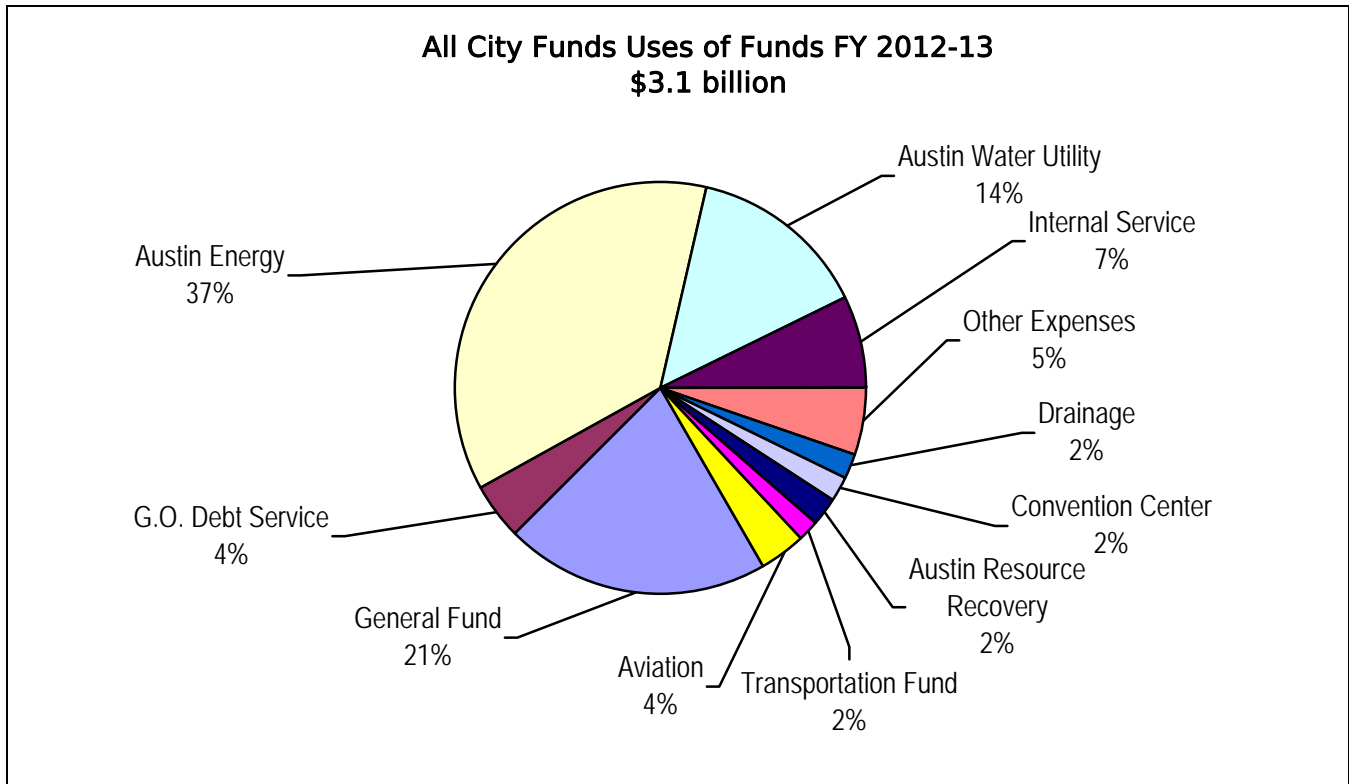

More information on departmental revenue can be found within the departmental sections of Volumes 1 and 2. General Fund revenue is detailed in the General Fund Budget-in-Brief that follows this section.

Where does the money go: Expenditures in the City of Austin

The Operating Budget is divided into funds for fiscal and accounting purposes. The chart on the following page gives a broad overview of the major expenditures. It is evident from this Uses of Funds chart that the City’s enterprise departments, which contribute most of our revenue, also account for most of the expenditures of the City’s \$3.1 billion budget. Austin Energy accounts for 37% of the FY 2012-13 Budget and Austin Water Utility accounts for 14%. The functions that most people associate with city government, services like police, fire, parks and libraries, are included in the General Fund, which is 21% of the citywide operating budget.

All Funds Budget-in-Brief – 2012-13

The funds that are budgeted can further be classified into several categories, including the General Fund, Reserve funds, Enterprise funds, Debt Retirement and others. The \$3.1 billion budget is the net expenditures of all the budgeted funds found in the Financial Summaries section of Volume 1. The amount is reduced by transfers made from one fund or department to another. Transfers are used to pay for such items as debt requirements and services performed by one department for another. The city-owned Austin Energy and the Austin Water Utility also transfer funding to the General Fund. This transfer reflects payments that private utilities would otherwise have to make in the form of property taxes, franchise fees and dividend payments to shareholders. This transfer amount is \$105 million from Austin Energy and \$34.5 million from Austin Water Utility. Information on the funds, their purposes, and their category classifications can be found at the beginning of the Financial Summaries section of Volume 1. More detailed information on departmental expenditures can be found within the departmental sections of Volumes 1 and 2.

FY 2012-13 Expenditures by Fund Category–Citywide Operating Budget in Thousands

General Fund	\$742,654
General Fund and Enterprise Reserve Funds	\$68,599
Enterprise Funds (i.e. Austin Energy, Austin Water Utility, Aviation)	\$2,222,553
Internal Service Funds (i.e. Support Services, Employee Benefits)	\$444,745
Special Revenue Funds (i.e. Hotel/Motel Occupancy Tax)	\$128,998
Debt Retirement Funds (i.e. GO Debt, Utility debt service)	\$566,147
Less transfers made between other city operating funds	(\$1,054,211)
TOTAL EXPENDITURES	\$3,119,485

Another way expenditures can be categorized is by expense category, such as personnel, contractuals or commodities. These three expense types each represent approximately one-third of the \$3.1 billion net operating budget, or \$1 billion each.

All Funds Budget-in-Brief – 2012-13

FY 2012-13 Expenditures by Expense Type–Citywide Operating Budget in Thousands

Personnel (i.e. wages, health insurance, overtime, retirement, taxes)	\$1,134,332
Contractuals (i.e. rent, electricity, contracted services)	\$1,028,992
Commodities (i.e. office supplies, fuel, asphalt, library books)	\$1,088,420
Non-CIP Capital (i.e. vehicles, equipment)	\$18,322
Expense Refunds (Reimbursements of work performed for other depts.)	(\$136,120)
Indirect Costs and Transfers Out to other city funds	\$1,039,750
Less transfers made between other city operating funds*	(\$1,054,211)
TOTAL EXPENDITURES	\$3,119,485

*includes health insurance costs shown in the Personnel expenditures and contractual costs charged by Internal Service funds to other city operating funds

Personnel Summary

The FY 2012-13 operating and grant budgets include funding for 12,331 full-time equivalent positions, or FTEs. Detailed personnel changes can be found within the departmental sections of Volumes 1 and 2, and a more-detailed personnel summary is located in Volume 1 at the beginning of the Financial Summaries section. A summary table is below:

FY 2012-13 Personnel Summary (in FTEs)

General Fund (i.e. Police, Fire, EMS, Library, Parks and Recreation)	5,840
Internal Service Funds (i.e. Financial Services, Info. Technology)	1,317
Enterprise Funds (i.e. Austin Energy, Austin Water Utility, Aviation)	4,848
Grant Funds (i.e. Health and Human Services, Neighborhood Housing)	326
TOTAL CITYWIDE FTEs	12,331

Further discussion on the City’s grant funding can be found in the Grants section of Volume 2. In FY 2012-13, the City projects to receive \$49 million in grant funding, primarily through federal and state grants. The bulk of the grants go to the Neighborhood Housing and Community Development and the Health and Human Services departments.

All Funds Budget-in-Brief – 2012-13

All Funds Summary

The table on the following page summarizes citywide revenue and expenditures by both revenue or expense types and fund category. That is followed by a more detailed all funds summary, including two years of prior year actuals, FY 2011-12 budgets and current year estimates and the approved budget of each budgeted fund. Detailed budget and financial information for each fund is located in the Financial Summaries section of Volume 1. The fund summaries are in alphabetical order after presentation of the General and Support Services Funds, with all Convention Center-related funds at the end. The change in fund summary balances for all funds in the aggregate is projected to be negative eight percent. The General Fund is structurally balanced, with projected revenue matching expenditures.

General Fund Budget in Brief

General Fund Budget in Brief – 2012-13

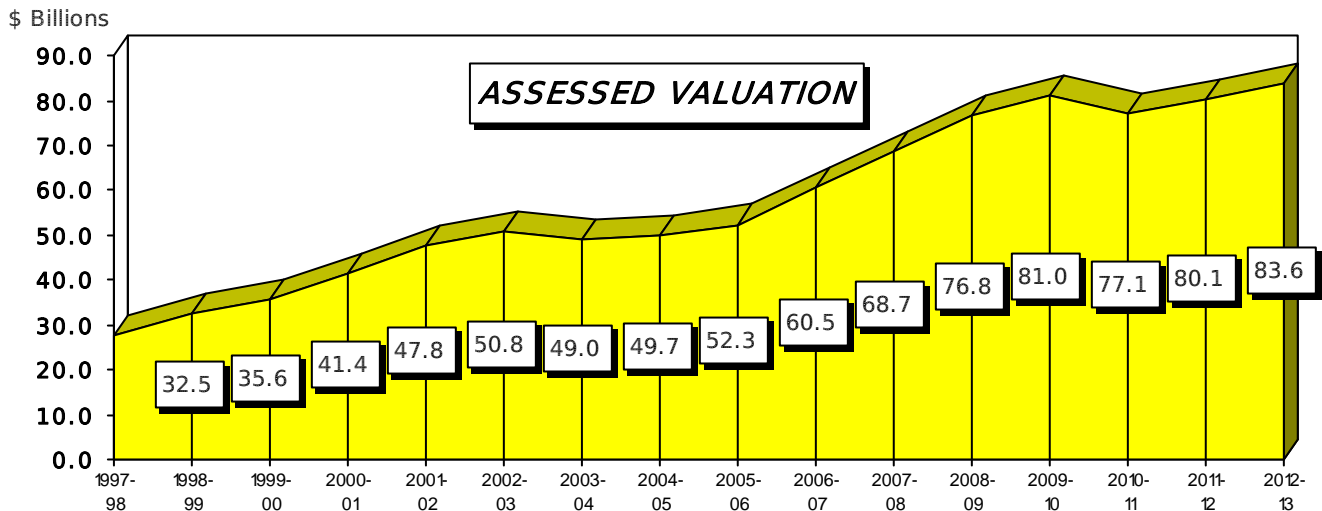

The General Fund is the general operating fund for the City of Austin. It is funded by taxes, fees, fines, permits, licenses, charges for services and interest income and provides funding for the general government services such as public safety, health and human services, parks and recreation, and the City’s library system.

General Fund Revenue

The FY 2012-13 Budget for the General Fund totals \$742.7 million, an increase of \$48.6 million from the FY 2011-12 Amended Budget, primarily resulting from a 2.18 cent increase in the tax rate and projected growth in sales tax revenue.

Property Tax Revenue. The City’s General Fund receives 42.2% of its total revenue, \$313.3 million, from property taxes, its most stable source of revenue. This Budget sets the overall tax rate at 50.29 cents per \$100 of assessed property valuation, a 2.18 cent increase over the current tax rate of 48.11. Of the overall tax rate, 38.21 cents per \$100 of assessed valuation will be collected and deposited into the City’s General Fund to pay for ongoing operations and maintenance costs. The revenue from the remaining 12.08 cents will be deposited into the Debt Service Fund to make debt payments related to General Obligation debt.

General Fund Budget in Brief – 2012-13

The proposed tax rate is based on the certified tax rolls from the Travis Central Appraisal District, the Williamson Central Appraisal District, and the Hays Central Appraisal District. The Budget reflects an assessed valuation of \$83.6 billion, which represents an increase of 4.4% when compared to last year's valuation. New construction is valued at \$2.9 billion and is primarily the result of continuing expansion in personal property, such as manufacturing equipment, associated with the Samsung fabrication plants.

Total property tax valuation is classified by appraisal districts into five property types: single family, multi-family, commercial, personal property, and land. Single family consists of residential homes and condominiums. Multi-family contains residential multi-unit apartments, and duplex, tri-plex and four-plex housing. The commercial category is comprised of commercial and industrial property, while personal property tracks tangible, moveable property used for business purposes. Finally, land consists of property acreage and vacant lots. The following chart describes the FY 2012-13 certified valuation of each property type and the corresponding change in value from the previous year.

PROPERTY TYPE	VALUATION	SHARE	CHANGE	% CHANGE
SINGLE FAMILY	41,050,945,279	49.1%	451,179,544	1.1%
MULTI FAMILY	11,115,107,527	13.3%	1,204,221,686	12.2%
LAND	1,599,889,485	1.9%	(46,925,162)	(2.8%)
COMMERCIAL	20,237,453,773	24.2%	1,356,724,330	7.2%
PERSONAL PROPERTY	9,575,130,835	11.5%	524,034,647	5.8%
TOTAL	83,578,526,899		3,489,235,045	4.4%

The property tax rate consists of two parts, the debt service rate and the operating rate. Revenue generated through the debt service rate is dedicated to paying the City's debt accumulated through general obligation bonds, which provide funds for infrastructure projects such as building new police and fire stations and libraries and purchasing or improving parks. Revenue resulting from the operating rate is dedicated to paying for City services and funding tax-increment-financing projects. The property tax rate is established annually during the City budget process.

Historically, the property tax rate is related to the amount of taxable property value. For the last twenty years, the rise in property values has enabled the property tax rate to decrease, while still generating sufficient revenue growth to cover increasing costs. However, since 2009, the property tax rate has climbed from a low point of 0.4012. The growth in the rate has been required to compensate for the decline in property values experienced nation-wide and to bring in enough revenue to maintain fiscal stability.

2013	0.3821	0.1208	0.5029

*Property tax rates per \$100 of taxable value.

At 0.5029, the proposed tax rate is 4.1% above the effective tax rate—the rate that allows the same level of revenue to be collected as in the prior year on properties taxed in both years. However, revenue realized from the effective tax rate is typically not sufficient to maintain a balanced budget in an environment of increasing cost drivers, such as employee bargaining agreements, health insurance and pension costs, and population growth. The community has consistently provided feedback encouraging the City not to cut back on services. As in prior years, we weighed this feedback, along with the need to ensure the City's sustainable future financial health, carefully in crafting the FY 2012-13 Budget.

2011 PROPERTY TAX BILLS: MAJOR TEXAS CITIES

2011 Median Home Price

General Fund Budget in Brief – 2012-13

The City of Austin is setting the standard by providing above-average customer service, livability, and value received for taxes and fees paid. At the same time, the City has the lowest tax rate of any of the major Texas cities and, based on median home sale price, one of the lowest tax bills of any of these cities. In 2011, the median home value in Austin was \$182,198, which yielded a property tax bill of \$877. The 2012 median home value is \$178,327. With the proposed tax rate of 50.29 cents per \$100 valuation, the resulting tax bill would be \$897 per year, or about \$75 month, an increase of \$1.67 per month over the prior year.

Property Tax Summary

Fiscal Year	Current Collections	% of Levy	Delinquent Collections	Total Collections
2002	216,090,741	98.4%	2,216,426	218,307,167

General Fund Budget in Brief – 2012-13

Late or Unpaid Property Taxes. Each year, the property tax payment due date is January 31. All taxes paid after this date are subject to delinquent penalty and interest charges. Delinquent tax bills are assessed a 6% penalty with additional penalties accruing each month until July when the total penalty reaches 12%. Interest accrues at 1% a month until the taxes are paid. Property taxes remain due for each tax year they are billed until they are paid. Delinquent taxes are remitted to the City when payment is received by the tax collector. The FY 2012-13 Budget for delinquent taxes is \$1.4 million and for penalty and interest due is \$1.3 million.

Sales Tax Revenue. Sales tax is levied on the sale, lease, or rental of all taxable goods and services within the Austin city limits. Certain foods and drugs as well as governmental purchases are exempted from the sales tax. Sales tax is collected by businesses at the time of the sale and paid periodically to the Texas Comptroller of Public Accounts. The Comptroller then remits the portion due to the locality where the business is located. In the City of Austin, the State collects 8¼ cents for every dollar spent on retail sales. Of this amount, the State keeps 6¼ cents, 1 cent is paid to the City and 1 cent is paid to the Capital Metropolitan Transportation Authority.

Sales tax collections are volatile since they are directly related to the well-being of the local economy. The chart below tracks the growth in Austin's sales tax collections over the past decade. The drops in growth correspond to economic contractions in 2002 and 2009. In 2004 and 2010, as the local economy strengthened, sales tax collections recovered. Given that economic growth is cyclical, prudent sales tax projections require thoughtfulness and restraint. What is known is that sales tax revenue will drop again; what is unknown is when. To ensure that ongoing services and costs are not added to the Budget on the basis of a cyclical peak in a variable revenue source, projections for sales tax revenue should remain cautious. In FY 2012-13, sales tax revenue is budgeted to grow by 3.5%, or \$5.6 million, over projected FY 2011-12 collections and total \$164.2 million.

Utility Transfers. The General Fund receives annual transfers of funds from Austin Energy and Austin Water Utility at 12% and 8.2% of average revenue, respectively. These transfers serve as payments in lieu of property taxes, dividends, or return-on-equity-type payments commonly paid to municipal governments by investor-owned utilities. The transfers are calculated based on a rolling average of actual revenue from the last two years and estimated revenue in the current year. The transfer from the electric utility remains at \$105 million in FY 2012-13, the same as the FY 2011-12 Budget. The transfer for the Austin Water Utility is increasing by \$2.6 million to \$34.5 million. In FY 2012-13, transfers from these two utilities total \$139.5 million.

As part of Council's review of the rate increase for Austin Energy, the General Fund transfer policy was changed to help to address some of the challenges faced by Austin Energy with respect to anticipated changes in its business model as the industry evolves. The rating agencies have a favorable view of the City's existing annual transfer policy largely due to its historical stability, both in terms of the methodology and percentage. The rating agencies have been particularly pleased to see that as General Fund revenue has increased over time, the relative amount of the transfer has remained fairly constant. However, historically included in the

General Fund Budget in Brief – 2012-13

revenue amounts used to calculate the transfer was revenue received for fuel. This revenue is purely pass-through, collected from customers to directly offset the cost of fuel, and is not kept by the Utility. To ensure that the transfer to the General Fund is only based on revenue kept by AE, the formula has been revised to remove fuel revenue. Since that change would have substantially reduced the amount of the transfer, the transfer rate was increased from 9.1% to 12%—the maximum authorized by the City’s financial policies. As a final measure, a floor was adopted that ensures a minimum transfer of \$105 million, in order to avoid financial hardship for the General Fund.

Franchise Fees. Franchise fees are assessments charged for a company’s use of the city’s rights-of-way. Three major franchises exist in Austin: telecommunications, gas, and cable. These fees generally increase on an annual basis as growth in services and customer base cause the franchise holders’ revenue to rise. However, in FY 2012-13, the City is projecting to receive \$0.5 million less than was budgeted in FY 2011-12, for total franchise revenue of \$33.3 million.

Building and Development Fees. Building and development revenue comes from a variety of fees and charges for permits, the largest subcategories being single and multi-family residential development and commercial development. The budgeted revenue for development is \$14.1 million, an increase of \$4.3 million above the FY 2011-12 Budget. The uptrend in permitting activity which began in FY 2010-11, fueled by the shrinking pool of available homes and continued influx of new residents, is expected to persist. Growth continues to be largely driven by multi-family permitted units, although permitting activity for single family homes is showing increased signs of strength, as evidenced by increased construction across the city.

Other Revenue. Remaining revenue from fines, charges, interest and other sources is stable at \$76.8 million, a decrease of \$1.3 million from the FY 2011-12 Budget primarily attributable to decreases in traffic and other fines and in interest income. There are partially offsetting revenue increases in Emergency Medical Services and other taxes.

General Fund Requirements

Total requirements for the General Fund in the FY 2012-13 Budget are \$742.7 million, which is \$48.7 million higher than the FY 2011-12 Amended Budget. General Fund departmental operating expenditures total \$645.8 million for FY 2012-13, representing 87% of the total General Fund budget. The services usually associated with City government are budgeted in the General Fund: public safety—the City’s police, fire, and emergency medical services; public health and human services; urban growth management; public recreation and culture; and other services, such as municipal court.

As shown in the chart below, public safety functions account for nearly two-thirds of the General Fund. Austin’s public health expenditures include environmental health, animal services, family health services and funding to local agencies to provide social services. The Planning and Development Review Department is tasked with guiding the City’s growth and development, first through a planning process in anticipation of growth, and secondly through oversight of development as it occurs. Libraries and parks and recreation programs make up the public recreation and culture category. The cost of administrative services, such as accounting and payroll, as well as support of other City funds, is included as transfers.

General Fund requirements include an increase in the contribution to the Employee Benefits Fund for healthcare of 3%, or \$1.6 million, which is well below the 8% increase implemented in the FY 2011-12 Budget. Also included is a 3% cost-of-living adjustment for non-uniformed personnel in the amount of \$3.9 million and \$1.0 million for the annualized cost of market salary studies implemented in FY 2011-12 for non-uniformed staff.

Other FY 2012-13 impacts to the General Fund include the annual true-up of transfers to other funds and departments such as Support Services; Communications and Technology Management; Combined Transportation, Emergency and Communications Center; and Wireless to cover the cost of services provided to General Fund departments. The increase in the cost of fuel is a moderate \$0.3 million, while the increase for vehicle maintenance is projected to be \$1.1 million—a reflection of the increasing cost of parts, a growing fleet and greater skill-set required to service newer automotive technology. The contribution to the Employee Retirement System (ERS) for non-civil service employees is increasing by \$3.3 million, from a 16% contribution to 18%, per the supplemental funding plan for ERS approved by Council to approve the long-term financial health of the plan. Finally, the transfer to the Economic Incentives Reserve Fund to maintain the City’s obligation for established incentive agreements remains fairly level at \$13.0 million.

General Fund Budget in Brief – 2012-13

The continuation of contracts that include salary increases of 3%, the fiscal impacts of step and longevity pay, and an additional 1% contribution to the police and fire retirement systems, collectively increase the three public safety departments' budgets by \$13.5 million. In FY 2012-13, the **Police Department** will add 22 officers and 10 promotional ranked positions at a cost of \$1.4 million, per the Council policy of maintaining an officer staffing ratio of 2.0 officers per 1,000 citizens. The annualized FY 2012-13 cost for the 47 police officers added over the past fiscal year is \$1.7 million. In **EMS**, the budget is increasing by \$0.6 million for the annualized cost of opening the Mueller station in FY 2011-12, and by another \$0.6 million for an additional demand unit with six full-time equivalents. In the **Fire Department**, funding is included in the budget for the annualized cost of 3 inspector positions added mid-year 2012 and 5 new non-sworn staff that will provide needed support in the areas of community outreach, payroll services and administration of the personal protective equipment maintenance program. In addition, 3 new non-sworn positions are being added to support the creation of the Wildfire Mitigation Division.

Funding is included for two case managers to enhance the **Downtown Austin Community Court's** services to repeat offenders, both by serving offenders who appear on the docket and through outreach to and engagement with offenders in the community before they are arrested and brought to court. The **Planning and Development Review Department** is adding three positions. Two will work on implementing the Imagine Austin comprehensive plan adopted by Council on June 15, 2012, which calls for re-examining the complicated Land Development Code through a transparent public process that will begin in FY 2012-13. A third position will work in the One Stop Shop researching State Code Chapter 245 project vesting and underground storage tanks as part of development review.

The **Health and Human Services Department's** budget includes an increase of \$1.5 million previously budgeted in the Sustainability Fund for contracts associated with workforce development and homeless services, and for the African American Youth Center. An additional \$0.8 million is being added for the annualized cost of the Austin/Travis County Integral Care interlocal agreement. The Department is also adding funding for three positions currently funded by grants that are expiring. Finally, \$425,000 was added by Council to fund the Council for At Risk Youth and social services contracts for permanent supportive housing and early childhood services.

Building on Council's direction to become the first no-kill municipal animal shelter in the country, the **Animal Services** program, along with its 94 FTEs and \$7.5 million was pulled out of Health and Human Services to become a separate department. In FY 2011-12, Animal Services has achieved no-kill status by maintaining an average live-outcome rate of 90%. To address staffing and facilities needs resulting from caring for a larger animal population, a part-time veterinarian is converting to full-time, the budget for temporary employees is

General Fund Budget in Brief – 2012-13

increasing, and funding for food and utilities to operate the Town Lake Animal Shelter as an overflow facility is being added.

With a satisfaction rating of 74% in the 2011 Austin Citizen Survey—eight points above the national average—the **Parks and Recreation Department** (PAR) ranked #1 compared to other large U.S. cities in the category of overall quality/satisfaction with parks and recreation. With an eye toward maintaining this high level of citizen satisfaction, additional resources are being added to PAR’s budget in FY 2012-13. Four full-time equivalents and \$0.4 million are needed to address routine maintenance and upkeep associated with new park grounds and trails being added to the system and an additional \$0.7 million will be used to address ongoing maintenance issues at existing buildings and parks. The new Asian American Resource Center is anticipated to be completed in April 2013 and the Budget includes six FTEs and the resources necessary to operate the facility. In addition, 2.5 new positions are being added to provide for increased maintenance for the Umlauf Garden and Plaza Saltillo and to staff the Roving Leader Program.

Finally, the **Library** is adding 12 new FTEs and dedicated funding for temporary employees to alleviate the growing burden on current Library staff. These additional resources will provide critical support to the entire library system.

General Fund Reserves

The General Fund maintains three reserve funds: a contingency reserve, an emergency reserve and a budget stabilization reserve. This Budget maintains the contingency reserve at 1% of departmental expenditures, or \$6.5 million. The emergency reserve remains fixed with a balance of \$40 million. If funds are appropriated from either of these two reserves during the course of a year, they must be replenished during the following year. A third General Fund reserve is the budget stabilization reserve. These funds may be appropriated to fund capital or other one-time costs, but such appropriations should not exceed one-third of the total amount in the reserve. In FY 2011-12, expenditures of \$13.1 million were appropriated to help replace and maintain capital assets in good working order, leaving a balance of \$34.2 million in the reserve fund. A healthy General Fund surplus generated in FY 2010-11 due to the combined effects of better-than-anticipated sales tax, property tax and development revenue, as well as some departmental savings, along with FY 2011-12 sales and property tax receipts that are projected to exceed budgeted levels, will serve to add to the budget stabilization reserve and provide sufficient funds for capital replacement in FY 2012-13.

In FY 2012-13, use of the budget stabilization reserve is proposed at \$13.5 million to help fund critical capital equipment needs for the General Fund. This is expected to leave the budget stabilization reserve at the end of FY 2012-13 at \$41.4 million, higher than the budgeted reserve in FY 2011-12. In total, all three reserves represent 11.8% of total spending requirements in the General Fund, a \$7.2 million increase in reserve levels relative to FY 2011-12. The City’s goal is to continue replenishing reserve balances as the economy recovers, while providing for the investments needed in equipment and infrastructure.

Emergency Medical Services Mission and Goals for 2013

Mission

Austin-Travis County EMS changes the lives of the people we serve. We preserve life, improve health, and promote safety. We are engaged in and accountable to the community we serve.

Goals

Achieve community customer service satisfaction rate of at least 90 percent in 2013.

Respond to life threatening priority one calls within 9 minutes and 59 seconds 90 percent of the time in urban areas of the community in 2013.

Achieve at least a 13 percent community discharge-alive rate of patients with cardiac arrest from cardiac causes in 2013.

Deliver at least 32 percent of patients with cardiac arrest from cardiac causes to an appropriate medical facility with a pulse in 2013.

Deliver time critical patients (Trauma Alerts, Stroke, and Cardiac (STEMI) Alerts) to appropriate hospitals within an average of 60 minutes of EMS system activation in 2013.

Maintain a twelve-month collection rate percentage on patient bills of at least 45 percent in 2013.

Achieve Commission on the Accreditation of Ambulance Services Accreditation by 2013.

Emergency Medical Services

Message from the Director

Austin-Travis County EMS (A/TCEMS) is faced with an assortment of future challenges. Growth of vertical development, continued increases in traffic and population density and growth in Travis County all pose challenges for A/TCEMS. Despite this, the A/TCEMS Department has steadily improved response times, trauma care performance, heart attack care, stroke care, and survival from cardiac arrests.

As challenges have increased A/TCEMS has found solutions that enhance its ability to operate more effectively and efficiently. In early 2010, A/TCEMS fully implemented its electronic patient care reporting system (ePCR) and this system has begun to revolutionize how A/TCEMS gathers patient care information, processes invoices, improves quality of care, and gives back information to the industry. Since FY 2009-10, A/TCEMS has added 4 full-time units and 2 demand units to its service territory and these resources help in addressing the continued demand for services. In FY 2011-12 EMS began building its Community Health Paramedic Program. This program, which focuses on frequent users, is another step in the evolution of patient care. The FY 2012-13 budget includes funding for one additional demand unit at the Medic 5 Station.

A/TCEMS is also addressing the challenges by embarking on a journey to balance the department's financial resources, performance measures, and ultimately its organizational model to better meet community needs and expectations. This organizational redesign involves three primary areas: operational effectiveness and efficiency; sustainable revenue streams and billing/collections; and financial modeling. The changes that the department has made to date and the changes needed over the next few years will be molded into a strategic plan that will be reviewed annually and aligned with the department's budget and business plan. The strategic plan will be evaluated annually to make sure that the vision and strategies continue to serve the needs of the community.

A handwritten signature in black ink, appearing to read "Ernie Rodriguez".

Ernie Rodriguez
Executive Director
Austin-Travis County Emergency Medical Services Department

Budget Highlights

Revenue

The FY 2012-13 EMS budget includes \$30,869,080 in fee revenue, which represents an increase of \$1,493,080 over FY 2011-12 Amended Budget. The change in revenue is primarily due to an increase in transport fees, an increase in the reimbursement from the Travis County Healthcare District, and a decrease for revenue from Travis County per the interlocal agreement between the City of Austin and Travis County for the provision of emergency medical services in the county. Revenue from transport fees is projected to increase \$1,500,000 over FY 2011-12 Amended Budget amount.

Cardiac Arrest Patient Treatment Performance

The most effective measures for EMS paramedic intervention in cardiac arrest patients are “Percent of Cardiac Arrest Patients Delivered to a Medical Facility with a Pulse,” and “Percent of Cardiac Arrest Patients Discharged from the Hospital Alive.” Patient survival to discharge from the hospital is the ultimate goal of why emergency medical services exists and represents a standard that is becoming more prevalent throughout the emergency medical service industry. The “Percent of Cardiac Arrest Patients Discharged from the Hospital Alive” measures the ultimate outcome of the patient while “Percent of Cardiac Arrest Patients Delivered to a Medical Facility with a Pulse” is one of the best indications of the direct effectiveness of pre-hospital emergency care. While these measures include variables and interventions beyond the initial treatment provided by EMS, such as variances in patient populations, preexisting medical conditions, and in-hospital patient care management, they do reflect important indications of performance.

The general trends in CPR point to less emphasis on advanced procedures in the field and more emphasis on good chest compressions, rapid defibrillation, and rapid transport. EMS is also striving to increase CPR training throughout the community through its Take 10 CPR Program. This program provides short but intensive training to citizens on the fundamentals of CPR, and having more people trained in CPR, the chance for survival improves, leading to better patient outcomes.

Response Time Performance

The chart below illustrates the overall improvement in Priority One Response Time percentage since the beginning of FY 2008-09. FY 2009-10 represented EMS’ first time at achieving 90% in the urban areas. The improvement in FY 2009-10 was attributable to the combination of the implementation and use of the dynamic Move Up Module, which positions units in real-time for optimizing coverage; a daily operations review of prior day calls in order to analyze root causes of late calls and exceptions; and continued maximization of resources to ensure coverage at peak demand times. FY 2010-11 continued to reflect better response time, and the addition of 4 new full-time units and 2 new demand units funded in FY 2010-11 and FY 2011-12 provided EMS

with resources to continue the effort to respond to growth in demand for services, including improvement in the suburban areas of the county.

New Units and Staffing

For FY 2012-13, EMS will be receiving funding to staff one demand unit at the Medic 5 station. This new demand unit will help address the current high volume of workload at Medic 5. The total amount of additional funding to EMS for this demand unit is \$581,787, which includes \$515,344 in salaries and benefits for 6.0 full-time paramedics and \$66,443 in contractuales and commodities.

The addition of a demand unit at Medic 5 will help EMS with striving to maintain response time compliance and also help reduce the significant workload being experienced at Medic 5. Crews working Medic 5 are on a call 70% - 80% of their entire shift, and this level of workload can be detrimental to paramedics and the patients they serve. Recent scientific studies show a correlation between emergency medical services worker fatigue and injuries, medical errors, and safety compromising behavior. The studies have shown that the odds of injury and medical error were twice as high for workers with high levels of fatigue. Examples of error included protocol deviation, failure to secure a patient’s airway, patient drops, and medication errors. By adding an additional demand unit at Medic 5, EMS will be able to maintain a high level of care to patients as well as maintain response time compliance in the face of continued growth in demand for service.

In FY 2012-13 EMS will also begin operating a new full time unit at the new Mueller Redevelopment Area. A new EMS facility, funded by the 2006 Bond Program, will be completed by September 2012, and the unit operating from that facility will become operational in FY 2012-13. The new facility is located just off Airport Blvd and will provide EMS with a stand alone three-vehicle bay station, living quarters, and office space for a full time (twenty-four hours a day) unit. This unit will help address continuing demand for services and will be especially helpful in providing service to East and Central Austin.

The combination of the additional demand unit and the implementation of the new Mueller Unit will help EMS with maintaining response time compliance in FY 2012-13. Demand for EMS services continues to grow, and year-over-year growth in EMS incidents has been accelerating over the past few years. By adding these new units EMS response time performance will improve and as a result patient outcomes ultimately would improve as well.

Community Health Paramedic Program

The FY 2011-12 EMS budget includes funding for 2 new positions and equipment for the Community Health Paramedics Program. The Community Health Paramedics Program allows trained EMS staff to visit and work with patients who frequently use EMS, and through diligent case management identify healthcare resources to help the patients meet their healthcare needs and improve the quality of their life. This program is an innovative approach to medical care that provides a mutual benefit to the patient, who gets the appropriate level of healthcare services, and to EMS, as it reduces 911 calls made by those patients. An analysis of the first group of patients treated under the Community Health Paramedics Program revealed a 79% reduction in

their use of EMS services and a second group of patients decreased their use of EMS services by 41%. Although these first groups of patients represent small sample sizes, the program has a high potential for success.

One-Time Critical Items

The Budget includes funding in the One-Time Critical Capital Fund in the amount of \$2,351,496 for cardiac monitors, two ambulances and equipment for Mueller Station and the new demand unit at Medic 5 station, Stryker Power Pro Stretchers, Automatic External Defibrillators (AEDs), and Stairchairs.

Emergency Medical Services

Significant Changes

General Fund

Revenue Changes Dollars

The Budget includes an increase in transport and aid-at-scene revenue due to an anticipated increase in billable trips and process improvements in the billing process.	\$1,500,000
The Budget includes a decrease for revenue from Travis County per the interlocal agreement between the City of Austin and Travis County for the provision of emergency medical services in the county.	(\$394,100)
The Budget includes an increase in revenue from the Travis County Healthcare District (Central Health) for provision of emergency medical services to enrollees of the Medical Assistance Program.	\$300,000
The Budget includes an increase of \$10,000 for permit fee revenue from franchise applications for non-emergency transportation providers.	\$10,000
An increase in standby service revenue is anticipated due to rising demand from sponsors of public events.	\$71,880
The Budget includes an increase of \$10,500 in revenue from photocopies, a decrease of \$5,000 in revenue from the EMS Public Education Program, and a decrease of \$200 in Interest Income.	\$5,300

Expenditure Changes FTEs Dollars

Citywide	
The Budget includes \$185,403 for salary increases associated with civilian wage adjustments in FY 2013. An additional \$97,955 is included in the Budget for increased City contributions for health insurance.	\$283,358
The Budget includes \$34,832 for wage adjustments associated with implementing the City's recently completed market study.	\$34,832
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level.	\$3,066,376
Due to rising fuel costs and anticipated maintenance for vehicles the budgets for both of these contractuels are increasing by \$130,366 and \$181,034 respectively.	\$311,400
Meet and Confer	
Per the Meet and Confer agreement \$778,582 is included in the Budget for a 3% base wage increase for uniformed employees.	\$778,582
The Budget includes a \$274,134 increase for the implementation of a new National Curriculum stipend under the Meet and Confer agreement.	\$274,134
Operations	
The Budget includes an increase of \$640,111 for salaries and benefits for 12.0 FTEs to annualize funding for Mueller station approved in FY 2011-12.	\$640,111
Funding is included in the Budget for a new demand unit at Medic 5 station. The full year cost of adding 6.0 full-time EMS Paramedic positions is \$515,344. An additional \$66,443 is included for contractuels and commodities.	6.00 \$581,787

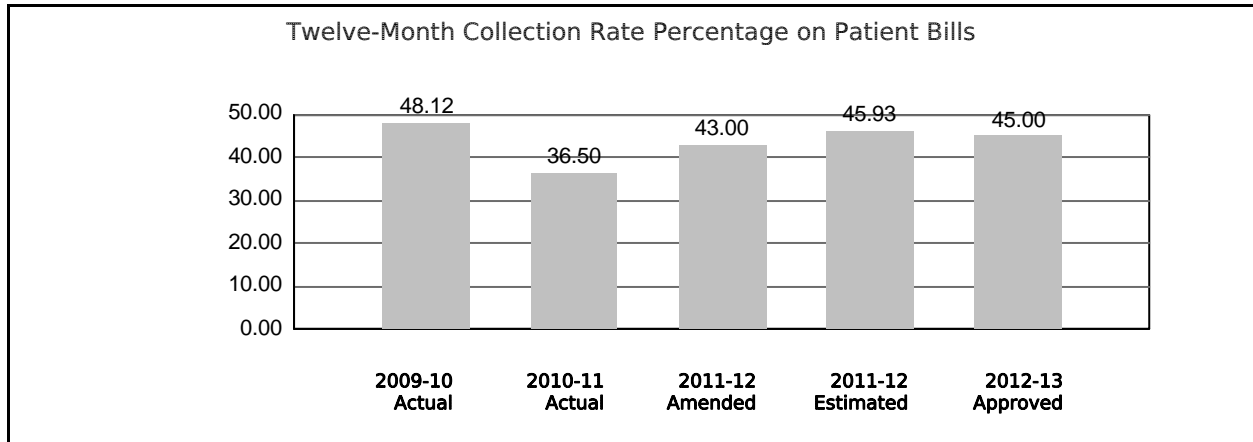

Expenditure Changes	FTEs	Dollars
One Clinical Specialist is reallocated from Operations to Support Services to manage business analysis and research functions.	(1.00)	(\$119,455)
The Budget reallocates one Operations Manager to Professional Practices and Standards to manage quality assurance functions.	(1.00)	(\$141,049)
One Operations Manager, two Operations Supervisors, and one Paramedic are reallocated to Community Partnerships and Special Events to consolidate support functions.	(4.00)	(\$501,260)
The Budget reallocates one Paramedic from Support Services to Operations to reflect the discontinuation of recruitment responsibilities.	1.00	\$77,460
An increase of \$165,662 for drugs, medical supplies, and medical equipment is included in the Budget to reflect higher usage rates and general inflation of medical supply prices.		\$165,662
The Budget includes an increase of \$51,880 in overtime to provide standby services for the Formula One race in November 2012.		\$51,880
A decrease in the amount of \$17,040 is included in the Budget for one-time commodities costs for new unit at Harris Branch station.		(\$17,040)
Community Partnerships and Special Events		
An increase of \$15,004 is included in the Budget for rental expenses for One-Stop Shop office space at the One Texas Center.		\$15,004
The Budget reallocates one Stores Specialist from Professional Standards and Practices to maintain standby fleet readiness.	1.00	\$51,006
One Operations Manager, two Operations Supervisors, and one Paramedic are reallocated from Operations to consolidate support functions.	4.00	\$501,260
Professional Practices and Standards		
The Budget reallocates one Operations Manager from Operations to manage quality assurance functions.	1.00	\$141,049
One Stores Specialist is reallocated to Community Partnerships and Special Events to maintain standby fleet readiness.	(1.00)	(\$51,006)
An increase in the amount of \$340,774 is included in the Budget to address structural deficit that impacted five ACC cadets, the Deputy Medical Director, and one Patient Account Supervisor.		\$340,774
The Budget includes a decrease of \$29,336 for one-time start-up costs for the Community Health Paramedic Program.		(\$29,336)
Billing Services		
The Budget reallocates one Customer Care Program Manager from Support Services to manage billing functions.	1.00	\$112,544
Support Services		
One Customer Care Program Manager is reallocated to Billing Services to manage billing functions.	(1.00)	(\$112,544)
The Budget reallocates one Clinical Specialist from Operations to manage business analysis and research functions.	1.00	\$119,455
One Paramedic is reallocated to Operations to reflect the discontinuation of recruitment responsibilities.	(1.00)	(\$77,460)

Emergency Medical Services Budget Detail by Activity

Program: Billing Services

Activity: Billing Services

The purpose of the Billing Services activity is to facilitate insurance reimbursement, offer payment plans, and manage medical records for the EMS Department, to extend patient care and reduce the cost of EMS operations.

Fire

Mission and Goals for 2013

Mission

The central mission of the Austin Fire Department is the preservation of life and property.

Goals

Deliver comprehensive safety and medical first responder services of the highest quality.

- Maintain rapid overall response, with arrival of first unit on scene within 8 minutes of call receipt by AFD or EMS dispatch center for at least 85% of emergency incidents.
- Prevent death from cardiac arrest by obtaining a return of spontaneous circulation after application of CPR and/or automated external defibrillators for at least 42% of patients.

Support and maintain a safe, healthy, well-trained and high performing workforce.

- Minimize time lost from work by maintaining a lost time injury rate less than 5.2.

Prevent fire deaths and property loss through fire prevention, public education, and emergency response.

- Reduce fire deaths to zero.
- Ensure at least 82% of structure fires are confined to room of origin.

Recruit, hire, and train the best qualified and most skilled workforce, one that is representative of the community we serve.

- Increase the diversity of incoming cadet classes.
- Maintain at least 95% of Combat Operations positions fully staffed.

Hold ourselves accountable to the community for demonstrable results.

- Achieve at least 90% satisfaction levels among City survey respondents reporting contact with AFD in the past year.

Austin Fire Department

Message from the Director

The Austin Fire Department is committed to creating safer communities through prevention, preparedness, and effective emergency response. While this is the department's central mission, we also say that, "Our mission goes beyond our name." We are committed to serving our community as efficiently, effectively, and compassionately as possible.

Firefighter Coitt Kessler is an example of our commitment to the community. Coitt was named "Firefighter of the Year" by the Veterans of Foreign Wars (VFW) at both the local and state level; he is now in contention for the VFW's national award. Coitt was honored for his work as a founding member of the Emergency Services Pipe and Drum Association, and for starting the St. Baldrick's event where firefighters shave their heads in honor of St. Patrick's Day to raise money for children fighting cancer. An example of our ability to work more efficiently can be seen in the award presented to Austin Fire Department computer programmer Chas Randal by the Public Technology Institute. Chas was recognized for our "added time sign-up" system that streamlines the daily selection of off-duty Firefighters to fill in for those who are on leave.

We are pleased that 89 percent of the residents responding to the City's 2011 community survey indicate they are satisfied with the overall quality of fire services. Further, our success in saving the lives of cardiac patients is demonstrated by 45 percent experiencing spontaneous return of circulation after CPR and/or the application of an Automated External Defibrillator (AED).

We have 45 fire stations placed around the city, and we currently have 1,083 uniform and 75 non-sworn personnel. Since January 2012, we have started two academy classes, adding 39 probationary Firefighters and 45 cadets to our ranks.

In September 2011, Travis County saw six major fires that consumed nearly 7,000 acres and destroyed 57 homes, not to mention the extensive damage done in Bastrop County. The tragic events of September remind us all of the ongoing threat posed by wildfire. The Wildland Taskforce in Travis County is a partnership of agencies that customized a national 2012 public education campaign called "Ready, Set, Go!" for the Central Texas area. The program tasks homeowners with action steps on how to protect themselves and their property during a wildfire, and outlines steps for a safe evacuation if one is ordered. In addition, the Austin Fire Department will be the first in the State to have all firefighters certified in managing wildfires.

The Austin Fire Department appreciates the support we receive from Austin citizens. We continue toward our goal of becoming the best fire department in the country.

Respectfully submitted,

A handwritten signature in blue ink that reads "Rhoda Mae Kerr".

Rhoda Mae Kerr, Fire Chief

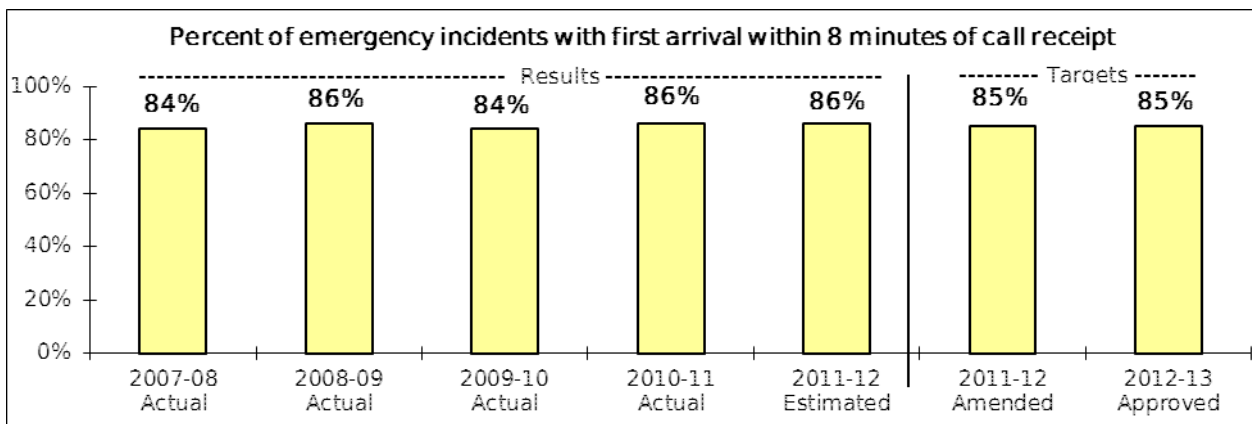

Budget Highlights

The FY 2012-13 Budget for the Fire Department includes the personnel, tools, and equipment to provide fire/emergency response and fire prevention services to achieve the goals and objectives of the department.

Fire / Emergency Response

The FY 2012-13 Budget includes continued funding for 1,083 Firefighters to support 45 fire stations throughout the city. The department recently learned that it may be awarded a Staffing for Adequate Fire and Emergency Response (SAFER) federal grant that would allow four-person staffing of the three remaining aerial apparatus as well as three rescue vehicles in FY 2012-13.

Call volume is expected to increase to 84,000, surpassing last year's record of 81,982 incidents. The percent of calls that are medical in nature are estimated to be 71% this year and 70% in FY 2012-13. AFD estimates for FY 2011-12 that the first fire unit will arrive within 8 minutes of call receipt for 86% of emergency incidents.

AFD estimates that 44% of cardiac arrest patients in FY 2011-12 for whom AFD crews perform CPR and/or apply an Automated External Defibrillator (AED) will experience a return of spontaneous circulation, thereby increasing their odds of surviving to hospital discharge.

AFD has concluded its annual contract for compensated fire protection service with Emergency Service District (ESD) 9. The department will recognize a yearly savings. In its place, the departments have engaged in a more equitable and standardized Auto Aid response agreement. Additionally, the FY 2012-13 Capital Budget includes \$2.9 million in appropriation for Fleet to replace 6 fire engines that have reached end of useful life.

Emergency Prevention

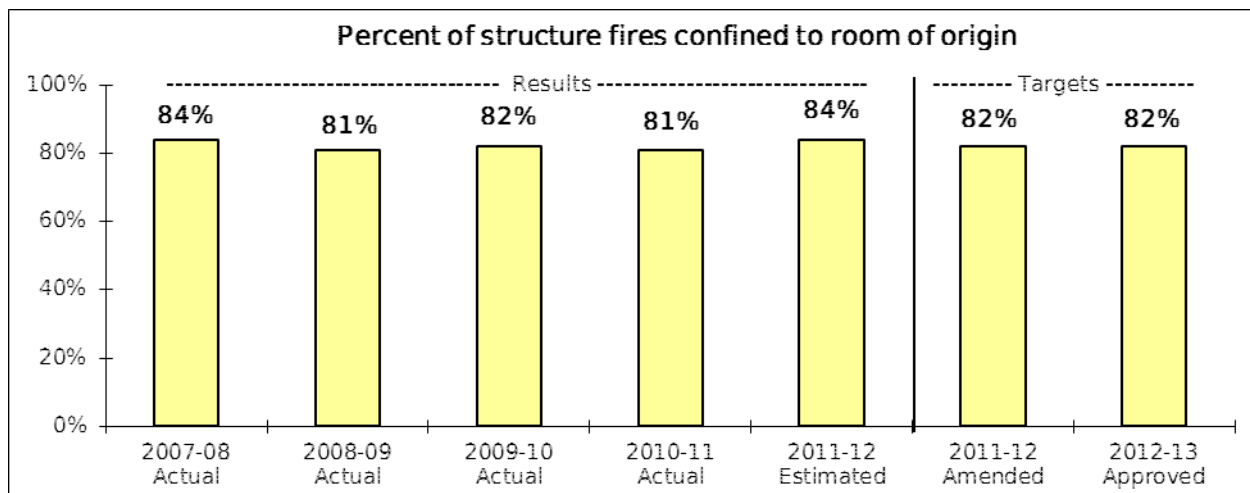

The FY 2012-13 Budget includes continued funding for Emergency Prevention and Public Education programs. Prevention activities play a key role in reducing the odds that Austin residents and visitors will perish in fires. Public Education activities play a key role in helping the residents understand and implement fire prevention measurements. For FY 2012-13, AFD continues to set a target of zero fire deaths.

One Firefighter position was reduced in the Public Education activity for FY 2011-12 due to budget cuts. This resulted in a reduction of public education events. However, a Program Coordinator FTE is being added in FY 2012-13 that is expected to increase the number of community events, with a new performance measure established to track that.

Another key area of public education efforts include wildfire prevention. In FY 2011-12, AFD responded to a record number of wildfires and anticipates wildfire to be a continuing risk in Central Texas. AFD will continue to use major fire events as opportunities to communicate a fire prevention message to the community and high risk groups.

Both Prevention and Operations activities contribute to another departmental key indicator, the percent of fires confined to room of origin. This measure is projected to reach 84% for FY 2011-12, with the majority of the increase occurring for single family/duplex residences, while remaining level for other property uses. For single family/duplex residences alone, the FY 2011-12 result is expected to be 80%, compared to 76% in FY 2010-11 and 71% in FY 2009-10.

One Stop Shop

An estimated 25,000 building inspections are projected to be performed in the upcoming fiscal year. The section also coordinates and organizes the issuance of permits for builders, developers, and property owners; performs inspections of buildings at various stages of construction; ensures that compliant commercial building plans are reviewed in a timely manner; and provides comprehensive land use review services to ensure compliance with local rules and regulations. The division is located in the One Stop Shop to better facilitate and coordinate with other departments involved in the permitting, inspection and review process. A

June 2012 budget amendment added three engineering FTEs for increased development review activity. They are reflected in the FY 2012-13 Budget as annualized costs.

Operations Support

Operations Support provides dispatch services to the City of Austin and surrounding Emergency Service Districts. Operations Support also covers employee safety and wellness. In FY 2012-13, AFD plans to increase fitness interventions by 1,200, almost double the current level. Interventions include fitness assessments, private consultations with firefighters regarding fitness, and training activities that are specific to a firefighting crew.

Also included the FY 2012-13 Budget for Operations Support are the functions of recruiting, hiring, and the required training of cadets and firefighters. AFD has created a Medical Operations unit, staffed by a Battalion Chief and four Captains, of which three are current Field Medical Officers (FMO), plus a Firefighter. The Captains and Firefighter position were transferred from the Wellness section to the new unit and the Battalion Chief was transferred from headquarters support. Together, they will provide oversight and guidance to the approximately 50 Battalion Medical Instructors in Combat Operations section to reinforce best practice and procedure.

A new unit, Community Relations, is also being created in Operations Support and includes the new Program Coordinator position noted above. This position, along with a Fire Specialist assigned from Recruiting will provide recruiting and customer responsiveness support as an ongoing community liaison.

Also included are continued maintenance support of breathing air systems, rescue tools, and apparatus. The Budget includes two new FTEs to support increased Personal Protective Equipment (PPE) maintenance as well as contract resources to outsource the inspection and repair of firefighter bunker gear in accordance with the State of Texas’ adoption of National Fire Protection Association code 1851 (NFPA 1851) prescribing specialized tests. AFD also plans to relocate its supply warehousing activities from a shared space with EMS to a dedicated, larger space at the Rutherford Lane in FY 2012-13, and has received the transfer of a Stores Specialist position from the Purchasing Office, to help with inventory and deliveries.

The Budget includes an additional funds to meet the Texas Commission on Fire Protection (TCFP) increase in yearly dues to \$85 per firefighter. The Budget also includes expansion of TCFP certifications for inspectors, EMT renewals, and other certifications.

Support Services

The Purchasing, Human Resources, Payroll, IT Support, Public Information Office, Facility, and Administration units of the Support Services activity have a net increase of 16 civilians and 3.75 sworn FTEs in FY 2012-13. Civilians are primarily transfers from other units within the department, primarily Combat Operations, to reflect their duties as support for the department as a whole rather than one unit. The sworn positions include Assistant Chief positions formerly accounted for in fractions over separate units. They are now being shown as whole positions supporting the entire department as well. Separately, a System Support Technician position is being transferred to CTECC to match the position’s reporting structure. The Budget also includes two new Administrative Specialists to support administration of the growing department, one a transfer from the Housing department to support the Chief’s executive team and a second position to provide payroll support. The department will also recognize a savings from elimination of a contract for telephone data switch considered outdated and no longer needed.

Customer Satisfaction

Customer satisfaction is a fundamental measure of AFD's performance and an outcome dependent on the contribution from all sections in the department. In the most recent survey, 89% of AFD customers expressed satisfaction with timeliness of emergency response and 91% expressed satisfaction with the quality of services. AFD remains strongly committed to a high level of service.

Revenue

For the FY 2012-13 Budget, the department is forecasting a net revenue increase over the FY 2011-12 budgeted amount. Fee revenues are projected to increase 3 to 4 percent, partly from increases in fees commensurate with increased firefighter salary costs for providing the inspection services, and partly from increased development trends. The department also collects revenue from a service coverage agreement between the City of Austin and the City of Sunset Valley for fire service coverage. The amount, which is calculated based on property value confirmed later in the budget process, may vary from a budgeted amount, which is projected to remain flat. Historically, the revenue has been between \$400,000 and \$500,000.

Employee Salary and Benefits

The FY 2012-13 Budget includes a 3% base wage increase, an additional 1% retirement contribution increase, plus step increase for all sworn positions in the amount of \$4.1 million per the City Council approved contract. The Budget also includes a 3% wage adjustment for non-sworn positions and a market rate adjustment. The Budget also includes an insurance contribution increase for all positions. Non-sworn positions are also receiving a reallocation for contributions to the pension system of \$0.4 Million. This contribution was previously shown at the General Fund budget level.

Additional Budget

Due to an unusually high number of persistent vacancies in sworn positions, a \$0.5 million increase in the overtime budget is required for the FY 2012-13 Budget. An additional \$150,000 is also needed in backfill costs to cover an extended two weeks of cadet training per class. The Austin Fire Department has scheduled two cadet classes to be begin in FY 2012-13 with one class of 40 Fire Cadets scheduled to graduate late in the fiscal year.

Items Approved by Council at Budget Adoption

- Amend the proposed budget of the Austin Fire Department to add three (3) FTEs in order to create the Wildfire Mitigation Division.
- Amend the Critical-One Time Fund adding \$87,033 for the purchase of equipment and services for the Austin Fire Department to create the Wildfire Mitigation Division.
- Amend the Budget by increasing appropriations in the Critical-One Time Fund in the amount of \$248,385 for one-time wildfire mitigation efforts consistent with the CWPP.
- Amend the budget of the Austin Fire Department Special Revenue Fund by increasing appropriations in the amount of \$5,010,000 and by adding 36 new full-time equivalents for the Staffing for Adequate Fire and Emergency Response (SAFER) Grant from the U.S. Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA).

Municipal Court

Mission and Goals for 2013

Mission

To provide fair, efficient, and accountable service to the public by impartially administering justice so that the quality of life is enhanced.

Goals

Provide Exceptional Customer Service

- Increase the customer satisfaction as indicated by the City's Citizen survey by 1% to 81% by reorganizing the customer services activity.
- Maintain or exceed 90.3% customer satisfaction as indicated by internal customer surveys by implementing process improvements identified by the new quality assurance activity.

Provide Effective and Impartial Administration of Justice

- Meet or exceed the budgeted compliance rate of 92% by enhancing collection services.
- Decrease the current average of 260 days to terminate cases through enhanced collection efforts.
- Set 97% of cases on dockets within 60 days by reorganizing the master docket.
- Increase the percentage of warrants produced within 30 days of case eligibility by committing additional resources.
- Meet or exceed the budgeted percentage of 98% for cases initiated within five business days from receipt or less by working on a interface for license and weight citations.

Promote Organizational Health

- Exceed 80% of overall job satisfaction as indicated by the Listening to the Workforce survey by enhancing training opportunities.

Improve the Quality of Life in DACC jurisdictional areas

- Continue efforts to achieve a goal of 40% of frequent offenders who complete rehabilitative recommendations.
- Continue efforts to achieve a goal of 70% offense reduction for frequent offenders engaged in targeted case management.
- Continue efforts to achieve a goal of 70% completion of court-mandated community service restitution hours assigned to offenders.
- Maintain or exceed a goal of 300,000 square feet of abated graffiti throughout the City of Austin.

Municipal Court

Message from the Director

The Municipal Court and the Downtown Austin Community Court constitute the judicial branch of the City of Austin municipal government. They provide all magistration services for the Travis County jail and handle class 'C' misdemeanor cases filed by a number of City departments, Austin Independent School District (AISD) and the Texas Alcoholic Beverage Commission. Cases that are filed in these courts include: traffic, city ordinance, state code, parking, and red light camera violations. It is anticipated that 340,036 new cases will be filed in the Austin Municipal Court in FY 2012-13.

The Courts provide a number of options other than fine payment for defendants to address their citations. Some options include driving safety, deferred disposition (probation) for motor vehicles and bicycles, payment plans and community service. For those pleading "not guilty", jury or judge trials are arranged. A Teen Court program is another option for juveniles.

The Downtown Austin Community Court (DACC) was established in 1999 to improve the community's quality of life and public order through effective and creative sentencing of public nuisance-type violators such as aggressive solicitation, public intoxication, simple assault, disorderly conduct and possession of drug paraphernalia. It operates within a defined geographical jurisdictional area.

In addition to the downtown courthouse, court services are available at two substations, at the DACC location on 6th Street, by mail, by fax, and online.

Challenges for FY 2012-13

The Court's vision is to be the most effective, efficient and impartial municipal court in Texas. It, along with the City's aspiration to be the best-managed city in the country, has created an environment of innovation and continuous improvement with which to address current and upcoming challenges. The courts have identified the following areas on which to concentrate over the next couple of years:

- * Designing, construction and relocating to a new main courthouse to be located on St. Johns Ave;
- * Service efficiencies that are economical in the long run but require up-front resources, whether time, money or both, and a number of inter-departmental or outside entity projects or programs that will require Court resources;
- * Refocus on the handling of repeat offenders at DACC who require extensive resources; and
- * Technological upgrades or replacement will be needed for the telephone system and case management computer program. The telephone system is not customer or service friendly and Municipal Court has been notified that its current case management system will only be supported for another two to three years.

The current courthouse facility was constructed in 1953 and no longer has adequate space for Court operations and staff. In 2006, Austin voters approved funding for a new courthouse as part of the 2006 Bond Program and a building on Interstate 35 at St. Johns Avenue was purchased in 2007. The Municipal Court and Northeast Substation project currently has staff completing conceptual plans to evaluate options under consideration for the most appropriate use of space to meet City and departmental needs. The Municipal Court in partnership with Austin Police Department has a total of \$23 million from the 2006 Bond Program.

Conclusion

Overall, Court has made every effort to identify needs to meet its goals and objectives that focus on exceptional customer service, organizational health, and providing effective and impartial administration of justice.

Rebecca Stark
Clerk of the Municipal Court

Municipal Court

Message from the Director - DACC

The Downtown Austin Community Court (DACC) works collaboratively to address the quality of life issues of all residents in the downtown Austin community through the swift, creative sentencing of public order offenders. In FY 2008-09, DACC identified a group of individuals designated as frequent offenders. A frequent offender is defined as an individual who has had 25 or more legal cases with the court and has had at least one active case in the last two years; 76 frequent offenders have cycled through the Community Court since the courts implementation in October 1999. To engage these offenders, DACC implemented the Targeted Case Management program (TCM) in FY 2010-11, with the goal of providing wraparound services in collaboration with other community efforts, such as the Ending Community Homeless Coalitions' 100 Homes Campaign, Road to Recovery (formerly named Project Recovery), a three-way partnership between DACC, Austin Travis County Integral Care and Travis County Criminal Justice Planning, Partnership Housing, a four-way partnership between DACC, Caritas, Foundation Communities and the Downtown Austin Alliance, as well as the City of Austin's continued efforts to secure additional permanent supportive housing for individuals with the highest needs.

Through the above mentioned partnerships and the development of a continuum of intense, wraparound services available to individuals with the highest needs, the department has been successful in decreasing the amount of cases acquired by frequent offenders who were actively engaged in case management, and will permanently house a total of 20 individuals at Foundation Communities by the end of FY 2011-12.

The FY 2012-13 Budget has been developed to address the needs of frequent offenders, the majority of which are homeless and are dealing with medical, mental health and substance abuse issues; many of them also having extensive criminal histories. Progress continues with the Targeted Case Management program which will allow DACC to reach the goal of stabilizing and housing the priority group of 280 frequent offenders, as well as addressing the needs of individuals that may become frequent offenders if the Court does not proactively engage them in the community before they are arrested or cited.

In conclusion, the Downtown Austin Community Court will continue towards its goal of becoming the Best Managed Community Court in the nation by fulfilling its mission to collaboratively address the needs of all residents in downtown Austin and surrounding communities. The Court will continue striving towards success in intensively serving and stabilizing repeat offenders through the improvement of a robust rehabilitation program and by working closely with stakeholders to improve the safety and quality of life for defendants, the community, and the citizens of Austin alike.

P. Valdez III, LMSW

Peter Valdez
Court Administrator, Downtown Austin Community Court

Budget Highlights

The Municipal Court is organized into five programs, Judiciary, Downtown Austin Community Court (DACC), Municipal Court Operations, Support Services, and Municipal Court Special Programs. The Special Programs include the Building Security Fund, Juvenile Case Manager Fund, Technology Fund and the Traffic Safety Fund.

General Fund revenue totals \$17.3 million in FY 2012-13. The revenue which includes all fines along with some costs and fees, is a net decrease \$2.2 million from the FY 2011-12 Amended Budget of \$19.6 million. Partially offset by parking revenue increases of \$0.5 million, this decline is largely attributable to a \$2.7 million decline in traffic citation cases filed at Municipal Court. Parking fines reflect an increase due to more parking citations associated with expanded parking hours. General Fund expenditures are projected to increase \$1.5 million over the current fiscal year for a total of \$14.3 million. This budgetary requirement includes salary increases associated with wage adjustments, implementation of the market study, anticipated changes in the City's contribution for health insurance, an increase in the City's contribution to retirement benefits and an increase of 2.0 case manager positions in the DACC.

Judiciary

The Judiciary Program is comprised of a Presiding Judge and 7.0 Associate Judges. There are also 15.0 Substitute Judges who work on an "as needed" basis and 3.0 positions that provide clerical support. Judges preside over scheduled appearance and trial dockets as well as providing magistration at the Travis County jail on a 24/7 basis. 71,000 cases are set on appearance dockets annually and 26,500 are set on trial dockets. At least 42,000 cases are seen on a "walk-in" basis annually. An estimated 102,095 Class 'C' misdemeanors, higher charge and search warrants will be issued in FY 2011-12.

Downtown Austin Community Court (DACC)

The Downtown Austin Community Court (DACC) provides offenders with the means and encouragement to discontinue their criminal behavior through rehabilitation and community service restitution, for the harm caused to the community. DACC concentrates on public nuisance/quality of life violations. DACC was originally designed in 1999 to address 5,000 cases per year. Currently, the Court addresses approximately 8,000 new cases annually.

In January 2012, the Court produced its first evaluation of the Targeted Case Management program, the purpose of which is to provide intensive case management to DACC's frequent/repeat offenders. The evaluation indicated that those who were involved in case management reduced their frequency of offense by 66.3% and jail bookings by 35.6%. Through a cooperative agreement with Caritas, Foundation Communities, and the Downtown Austin Alliance (DAA), the Community Court was provided with 20 Foundation Communities housing units utilizing funding from the DAA and a Housing and Urban Development grant. This funding has allowed the case managers to place frequent offenders into permanent supportive housing, an intervention that has demonstrated to be effective with individuals who are coping with homelessness, addiction and mental illness.

The Budget includes 2.0 Case Manager positions. These case managers will enhance the case management program by adding an outreach case management component. The outreach case managers will have the ability to actively engage frequent offenders in the community; the objectives include decreasing the number of arrests among the frequent offender population and constant client contact which will assist the case manager in developing rapport with the homeless individuals in need of assistance.

Though much of DACC's focus is on improving the lives of homeless individuals, the Court also provides community service opportunities to all its defendants, as well as defendants from Municipal Court and probationers from the Travis County Probation Department. The DACC Community Service Restitution Program (CSR) consists of 6.0 FTE crew leaders who supervise defendants sentenced to complete community service hours as part of their court order. CSR projects include: trash pick-up, graffiti abatement, assisting with Code Enforcement issues, collaborating with the Austin Police Department to clean homeless camps and assisting other City departments as needed. The CSR crews will abate roughly 300,000 square feet of graffiti and complete an estimated 37,000 hours of community service in FY 2011-12. The Court has purchased a new vehicle each year to replace older vehicles with more than 100,000 miles. The FY 2012-13 Budget includes the final 6th vehicle in the plan.

Municipal Court Operations and Support Services

The Municipal Court Operations program provides customer services, administration of civil cases, courtroom support, warrant processing, magistrate support, collection services, and updating case files. There are over 340,000 new cases filed annually. 225,000 customers are seen annually at the front counters to handle their cases. There are also more than 300,000 phone calls and 200,000 pieces of mail. Personnel also perform data entry, monitor and update case files and prepare warrants for judicial consideration along with numerous other daily duties. A total of \$31.0 million is projected to be collected for FY 2012-13: \$17.3 million for the City's general fund, \$3.7 million for special purpose funds and an additional \$10.0 million is projected to be collected on behalf of the Austin Independent School District and the state.

The graph below reflects how Municipal Court tracks its effective performance in managing casework by comparing the number of cases terminated to the number of cases filed. Compliance includes payments or credits applied to fines as well as dismissals and acquittals. Cases are administratively terminated when all court compliance efforts have been exhausted. In some years, the compliance rate can exceed 100% because Court has cases unresolved from prior years that, when court successfully locates and obtains closure can bring the rate higher than 100% when added to closure of current year cases.

Support Services include administration, accounting, budget, information technology, human resources and facilities. These services are provided for both courts and court users.

Quality Assurance activity has been created to review cases, correct errors, train Court personnel and development or revise work processes so that cases are processed accurately and efficiently. The core services will be to analyze documents rejected by Judges and resolve errors; review cases processed for accurate updating; research Court activities and plan corrections and improvements; design procedures to meet new Court requirements; recommend improvements to Court's current case management software system; train personnel on case processing procedures; analyze case processing functions to find improvements and plan for future case management software features.

Municipal Court Special Programs

The Austin Municipal Court has four special purpose funds: Court Building Security Fund, Court Technology Fund, Juvenile Case Manager Fund, and the Traffic Safety Fund. Revenue in each fund is obtained by collecting court costs upon conviction or deferred sentencing of Class 'C' misdemeanor cases. Revenue in each fund has declined as a result of fewer citations filed at the Court. The other programs expenses remain relatively unchanged but of note, there are continued "savings" in the Technology Fund for a new case management system that will be needed in the future and a number of minor personnel cost changes.

Other Funds

Municipal Court Building Security Fund

The purpose of the fund is to provide funding to enhance courthouse security. Revenue is derived from a \$3 security fee authorized under Article 102.017 of the Code of Criminal Procedure paid by a defendant convicted of an offense or receiving deferred disposition. The revenue collected is directly related to the number of convictions and deferred dispositions resulting from Class 'C' misdemeanor cases filed. The primary requirement of the fund is to enhance courthouse security. Use of the funds collected is limited to security personnel, security enhancements and training.

Municipal Court Juvenile Case Manager Fund

This fund provides for the administration of juvenile dockets and to assist with the provision of alternative sentencing for youth. The case manager program is designed to hold youth offenders accountable for their actions and enhance public safety. Revenue is derived from a \$4 fee authorized under Article 102.0174 of the Code of Criminal Procedure paid by defendants convicted of fine-only misdemeanors. Prior to FY 2011-12, the funding could only be used for juvenile case manager salaries and benefits. Legislation in 2011 expanded its permitted use to supplies and services. The Budget includes salary increases associated with wage adjustments, implementation of the market study, anticipated changes in the City's contribution for health insurance and an increase in the City's contribution to retirement benefits. Also included in the Budget is \$150,000 for the implementation of a pilot program for juvenile Class C cases through an interlocal with Travis County.

Municipal Court Technology Fund

The purpose of the fund is to provide funding to enhance court technology. Revenue is derived from a \$4 technology fee authorized under Article 102.0172 of the Code of Criminal Procedure paid by a defendant convicted of a misdemeanor offense or receiving deferred disposition. The revenue collected is directly related to the number of convictions and deferrals resulting from Class 'C' misdemeanor charges. The primary requirement of the fund is to finance the purchase and maintenance of technological enhancements and the resulting maintenance for municipal courts. Use of the funds collected is limited to court technology. During FY 2012-13, funds will be used for projects within the Municipal Court Technology Plan. There are continued "savings" in the fund for a new case management system that will be needed in the future.

Municipal Court Traffic Safety Fund

Currently there are 10 cameras operational at key intersections across the City. The City's portion of the revenue from the \$75 penalty for each violation (as well as a \$25 late fee for violations not paid with 30 days) may be used to fund traffic safety programs. State law requires half of the net revenue generated by a Red Light Camera Program be sent to the state. The City must deposit its share of net revenue into a special account used only to fund traffic safety programs including pedestrian safety programs, public safety programs, intersection improvements and traffic enforcement. Expenditures and revenues have been projected to increase due to recommendations to relocate or add up to 5 cameras. The Austin Police Department studies crash data and makes these recommendations for additional cameras.

Item Approved by Council at Budget Adoption:

- Amend the proposed budget of the Municipal Court Department Special Revenue Fund by adding 2.0 new full-time equivalents for the Emergency Solutions Grant from the Department of Housing and Urban Development.

Municipal Court Significant Changes

General Fund

Revenue Changes	Dollars
The Budget includes a decrease in revenue of \$2,656,757 for penalties associated with traffic fines including: warrant, deferral, special expense, and service fees. This decrease is due to the significant decrease in the number of traffic cases filed at the court.	(\$2,656,757)
The Budget includes an increase in parking revenue of \$547,551 due to an increase in the number of citations filed as a result of the extended parking hours.	\$547,551
The Budget includes a decrease in revenue of \$132,287 due to a significant decline in misdemeanor cases filed at the court.	(\$132,287)
The Budget includes an increase in revenue of \$19,467 due to the increase in City Ordinance cases filed at the court.	\$19,467

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$245,235 for salary increases associated with wage adjustments in FY 2012-13. An additional \$37,004 is included in the Budget for increased City contributions for health insurance. Wage adjustments also include \$10,588 for substitute judges.		\$292,827
The Budget includes \$326,189 for wage adjustments associated with implementing the City's recently completed market study.		\$326,189
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level.		\$720,121
An increase of \$1,047 for maintenance and a decrease of \$1,547 for fuel has been included in the Budget.		(\$500)
Municipal Court Operations		
Lease costs increase \$3,238 for the South Substation located in the Cherry Creek Plaza.		\$3,238
An increase in lease costs of \$3,958 for the DACC is included in the Budget under a new lease agreement.		\$3,958
Downtown Austin Community Court		
The Budget includes 2.0 Case Manager FTEs who will add an outreach case management component to the community. Also included is funding for setup costs.	2.00	\$141,269

Municipal Court Juvenile Case Manager Fund

Revenue Changes	Dollars
The Budget includes a decrease in revenue of \$164,750. This decrease is due to the significant decline in the number of cases filed at the court.	(\$164,750)

Expenditure Changes	FTEs	Dollars
Municipal Court Special Programs		
The Budget includes \$10,858 for salary increases associated with wage adjustments in FY 2012-13. An additional \$2,763 is included in the Budget for increased City contributions for health insurance.		\$13,621
The Budget includes \$6,399 for wage adjustments associated with implementing the City's recently completed market study.		\$6,399
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$18,092
Included in the Budget is \$150,000 for the implementation of an intervention pilot program for juvenile Class C cases through an interlocal with Travis County.		\$150,000
A decrease of \$7,500 for interdepartmental charges is included in the Budget.		(\$7,500)
Accrued payroll increases by \$911 and workers' compensation by \$4,327 in FY 2012-13 Budget.		\$5,238
The Budget includes an increase in contractuels for translators and other miscellaneous charges.		\$3,200

Municipal Court Security Fund

Revenue Changes	Dollars
The Budget includes a decrease in revenue of \$128,576 due to the significant decline in the number of cases filed at the court.	(\$128,576)

Expenditure Changes	FTEs	Dollars
Municipal Court Special Programs		
Included in the Budget is a decrease in expenditures of \$171,215. Funding available for Court Services Officers has been reduced due to a significant decline in revenue. In addition to reduced revenue, expenses have to be further reduced to cover prior year deficit.		(\$171,215)

Municipal Court Technology Manager Fund

Revenue Changes	Dollars
The Budget includes a decrease in revenue of \$169,727 due to the significant decline in the number of cases filed at the court.	(\$169,727)

Expenditure Changes	FTEs	Dollars
Municipal Court Special Programs		
Included in the Budget is an increase of \$34,848. This increase is required for case management consultant services, software enhancement upgrades and one-time interface costs associated with electronic ticket writers.		\$34,848

Municipal Court Traffic Safety Fund

Revenue Changes	Dollars
The Budget includes an increase in revenue of \$445,815. This increase is projected due to the relocation of existing cameras and installation of additional cameras.	\$445,815

Expenditure Changes	FTEs	Dollars
Municipal Court Special Programs		
The Budget includes \$1,033 for salary increases associated with wage adjustments in FY 2012-13. An additional \$614 is included in the Budget for increased City contributions for health insurance.		\$1,647
The Budget includes \$2,021 for wage adjustments associated with implementing the City's recently completed market study.		\$2,021
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$1,765
Included in the Budget are increases of \$207 for accrued payroll, \$325 for workers' compensation and \$1,800 for bilingual pay.		\$2,007
An increase of \$474,677 is included in the Budget due to the relocation and installation of 5 additional cameras.		\$474,677

Grants

The following change was approved by Council at Budget Adoption:

Two new full time equivalents for the Emergency Solutions Grant from the Department of Housing and Urban Development were added to the Downtown Community Court to support rehabilitation efforts.	2.00	\$0

Mission and Goals for 2013

Mission

The mission of the Police Department is to keep you, your family and our community safe.

Goals

Reduce the violent crime rate by 1%.

Reduce the property crime rate by 1%.

Improve traffic safety.

- Reduce traffic fatality rate by 1%.
 - Reduce serious-injury collision rate by 3%.
 - Reduce DWI-related fatality rate by 3%.
-

Demonstrate professionalism and skills competency among police employees.

- Reduce the rate of citizen complaints by 2%.
 - Increase the percentage of residents who are satisfied with the overall quality of police services by 2%.
 - Increase the average number of training hours per employee by 2 hours.
-

Use Intelligence-Led Policing to increase efficiency in service delivery.

- Maintain a 7:00 response time to emergency and urgent calls.
- Increase the percent of Part I crimes cleared by 2%.
- Reduce the Part II crime rate by 1%.

Police

Message from the Director

The Austin Police Department (APD) continues its mission to keep you, your family and our community safe. Our vision of being the safest big city in America is built around a strong commitment to neighborhood-based policing. The emphasis includes continued efforts to reduce crime, improve service delivery, increase attention to traffic safety and quality of life initiatives, and improve efficiency and effectiveness through professional development, process improvements, technology changes and volunteerism.

The Austin Police Department provides quality police services to the citizens of Austin, Texas, in a variety of ways. Officers assigned to patrol and field operations respond to calls for service, provide traffic control, and assist citizens in solving neighborhood problems to enhance their quality of life. Highway Enforcement officers conduct investigations of serious injury collisions, special traffic initiatives, abandoned vehicle removal, and DWI enforcement. APD has a number of specialized units committed to keeping Austin safe, including the Gang Suppression unit, Auto Theft Interdiction unit, Child Abuse unit, Financial Crimes unit, High Tech Crime unit, Homicide unit, Special Events unit, and Training and Recruiting units. The department also has civilian support units including Forensics, Crime Analysis and Crime Records, Human Resources, Financial Management and 9-1-1 Communications as well as units that provide community outreach through the Police Activities League and Police Explorer Post, Citizens' Police Academy, Blue Santa and the National Night Out Program.

The department seeks to align its budget to address a number of horizon issues. Those goals include proactively responding to crime trends and maintaining quality police services in a changing environment; addressing the support services workload that corresponds with increased numbers of officers; upgrading technology so that police employees can effectively meet the increased demand for service; reducing risk by enhancing the training of police employees; ensuring police employees have access to high quality equipment and reliable vehicles so they can focus on customer service; and improving police facilities to support the efficient provision of services and encourage community access to police operations.

The Austin Police Department is committed to the use of best practices to reduce crime, enhance citizen safety, manage traffic safety, and to provide professionally trained staff so that Austin makes strides toward being the best managed city in the nation.

—APD Collective Set of Guiding Principles—

Our Vision

To be respected and trusted by all segments of Austin's diverse community.

Our Mission

To keep you, your family and our community safe.

Our Values

I CARE

- I**ntegrity - the cornerstone of police work-without it public trust is lost.
- C**ourage - to make the right professional decision.
- A**ccountable - to the community, the department and coworkers.
- R**espect - of the community, the department and most importantly, self.
- E**thical - professional actions and decision making.

A handwritten signature in blue ink, which appears to read "Art Acevedo".

Art Acevedo, Chief of Police

Budget Highlights

The FY 2012-13 Budget for APD includes requirements to maintain current operations, add positions, and fund changes for service tenure and contract obligations. Contractual and commodity accounts remained relatively consistent with the exception of increased costs anticipated for fuel and maintenance. The total General Fund budget for Police for FY 2012-13 is \$283,874,598 which includes 1,740 sworn and 641.25 civilian full-time equivalent positions.

Twenty-two additional sworn positions are added in April 2013 to maintain the City of Austin's police-staffing ratio of 2.0 officers per 1,000 residents. Cadet classes will be held to fill these new positions, as well as any vacancies that occur through attrition during the fiscal year.

The Budget also includes the conversion of eight 911 call takers and four 911 dispatchers in Communications from grant funding to the General Fund. These positions were added in 2010 through an American Recovery and Reinvestment Act grant. The grant is expiring and these positions will remain with the department to continue to work toward improving response times to emergency calls for service. Two Victim Witness Counselor positions are also being converted to permanent General Fund positions due to reduced grant funding in the Victim Services area.

One civilian position was transferred from Central Purchasing to assist with implementation of a new uniform contract administered within the department.

Neighborhood-Based Policing

During Fiscal Year 2011-12, City Council approved the reclassification of an additional Assistant Chief in order to further prepare the department to address future population growth and to provide a single executive point of contact to citizens living in each of the four patrol regions. Neighborhood-based policing, comprised of patrol, patrol support, community partnerships, specialized patrol, and traffic enforcement, represents 57% of the FY 2012-13 Budget.

Each of the four patrol regions use directed patrols and tactical teams to supplement regular patrols to address emerging crime "hot spots" quickly and to prevent ongoing crime issues. Hot spots and other emerging trends are identified using the CompStat process to link call volume and crime patterns. Patrol support staff such as district representatives and detectives is often used in crime reduction/prevention strategies as well.

Community Partnerships encompass a wide variety of activities such as the Citizens Police Academy, Shop with a Cop, Blue Santa, National Night Out, Austin Bright Cyclist campaign, Crime Watch Safety Fairs, AISD

Reading Programs, Middle School Soccer competitions, PAL Basketball Clinics and Boxing Camps, and Police Explorer Competitions. The Citizen’s Police Academy is a fourteen-week program that is designed to give the public a working knowledge of the Austin Police Department. Each session consists of fourteen consecutive Tuesday night classes at City of Austin facilities. The instruction is comprehensive and each week separate areas of the department are covered.

Officers use the Bright Cyclist campaign to inform cyclists of bicycle laws. The goal of the campaign is to raise awareness and reduce the number of cyclists riding without proper lighting. Last year, the City piloted the Austin Bright Cyclist program, reducing the number of citations issued to cyclists for riding without a light from 158 to 90 within one year.

Austin Explorers are youth ages 14-20 in the 9th grade or higher who are mentored by police officers in various areas of law enforcement. In May of this year, the Austin Explorers brought home awards from the 23rd Annual Texas Law Enforcement Explorer Advisors Association (TLEEAA) state competition in Waxahachie. Over 120 teams from around Texas participated in this event, which included several different scenarios involving practical application of law enforcement knowledge and investigative skills. APD’s Explorers won first place in white collar crime investigations, first place in robbery in progress and second place in intoxicated driver scenarios.

There have been 31 traffic fatalities in Austin through the end of May. The Highway Enforcement unit has worked several initiatives in an attempt to reduce traffic related fatalities including a pedestrian initiative as well as several no-refusal initiatives aimed at intoxicated drivers.

The Special Events unit will be moving to One Texas Center to provide a one-stop shop for permitting for the City. Funding for the office location is being provided in the FY 2010-13 Budget.

Investigations

Investigations for FY 2012-13 account for 16% of the department’s budget and include Centralized Investigations and Organized Crime. Centralized Investigations focuses on crimes such as homicide, robbery, sex crimes, property, high tech, auto theft, burglary and domestic violence. Organized Crime focuses on criminal activity related to gangs, narcotics and human trafficking.

The table below is an example from a CompStat report used by the department to assess monthly and yearly trends in violent crimes such as homicides, robberies, and aggravated assault with and without family violence. The table shows that through the week ending May 24th, violent crime is down 7% citywide for the calendar year 2012 compared to the same period in 2011. The table also shows 41.6% of the cases for 2012 have been cleared.

CITYWIDE - VIOLENT CRIME								
	LAST	CURR	% Change	2011 YTD	2012 YTD	YTD % Change	2012 Cases Cleared YTD Total	% of 2012

Total Violent	251	247	-2%	1436	1338	-7%	556	41.6%

The Organized Crime Division participated in a two-year long Federal Task Force investigation that was partially concluded this year when 16 members and associates of the Texas Mexican Mafia were sentenced on federal drug charges. The Texas Mexican Mafia is a prison gang that has expanded criminal operations outside of the Texas Department of Criminal Justice (TDCJ) in communities across Texas. The criminal activities of this organization consist of murder, murder for hire, extortion, robbery, burglary, engaging in organized crime, aggravated assault, and other weapons and narcotics violations.

During the month of March, three significant drug seizures were made. First, during a traffic stop, 16.4 kilos of powder cocaine cut for retail sale were found hidden in a truck. The cocaine had an estimated street value of \$6.4 million. A separate organized crime division investigation resulted in four suspects being arrested with approximately 6.6 lbs. of tar heroin with an estimated street value of approximately \$1.5 million. This single seizure of tar heroin is one of the largest seizures in APD history. The last seizure resulted from a burglary of residence call. Patrol officers were assisted by the gang suppression/major crimes unit for the investigation that resulted in the seizure of 565 pounds of marijuana, a ½ ounce of powder cocaine, and several guns.

The FY 2012-13 Budget includes funding for upgrading 10 of the 22 new sworn personnel positions from the rank of Officer to the rank of Detective in April 2013. These detectives will be deployed strategically throughout the Investigations program with the goal of improving caseload per detective and increasing the number of cases solved.

Operations Support

Operations Support accounts for 16% of the FY 2012-13 departmental budget and includes functions such as air operations, communications, special operations, strategic support, forensic sciences, and victim services. The police department provides services throughout the city's land, streets and water areas.

The air operations unit is an integral part of patrol support and has proved to be an important resource in tracking criminal activity. On several occasions the air unit has deployed to track suspects in burglaries and assaults that would otherwise not have been located. The photo at left is an actual case of aggravated assault suspects hiding in a heavily wooded area. The photo shows the k-9 and officer approaching. This photo was taken with the night vision equipment on Air1. Air support guided the officers via radio to the suspects who were apprehended.

The Austin Regional Intelligence Center (ARIC) and the Real Time Crime Center (RTCC) are working in conjunction to detect, prevent and respond to criminal and terrorist activity. ARIC continues to partner with ten public safety agencies in Hays, Travis and Williamson counties.

ARIC focuses on regional public safety data analysis across multiple law enforcement jurisdictions which RTCC focuses on activity within Austin city limits. The FY 2012-13 Budget includes funding to sustain ARIC after the loss of Urban Area Security Initiative (UASI) status and associated grant funding.

During the first five months of calendar year 2012, officers have been dispatched to 145,485 calls for service of which 14,406 were considered hotshot and urgent priority. The response time for hotshot and urgent priority calls was 7 minutes and 31 seconds (7:31) for that time period.

A significant change in the FY 2012-13 Budget is the decrease in funding related to the anticipated renewal of the Travis County Central Booking Agreement which expires at the end of the current fiscal year. This agreement pays Travis County to provide booking services for City of Austin arrestees. In recent years the costs have increased; however, projections for next year show the costs decreasing by approximately \$160,000 due to a reduction in APD's share of the total bookings into the center.

Professional Standards

Professional Standards includes functions such as recruiting, training, and internal affairs and amounts to 6% of the total budget. APD is currently on a schedule to start an academy every four months so that attrition related to officer vacancies doesn't impact services to our citizens. An academy started this past April with 70 cadets, and plans are to start another academy in August with 50 cadets.

Community Involvement

During FY 2011-12, the department has continued to participate in the drug take-back initiatives which provide a free method to properly dispose of expired, unused and unwanted prescription drugs and over-the-counter medicines.

Greater Austin area first responders stepped behind the counter with Ronald McDonald and members of the 100 Club of Central Texas to serve customers for the Club's Annual Good Friday Fundraiser. The fundraiser benefits families of fallen first responders who are seriously injured, or killed in the line of duty; 10% of all sales went to the 100 Club.

APD also partnered with Capital Metro to provide free service on six Night Owl routes that traveled to and from 6th and Congress and neighborhoods throughout the city for New Year's Eve. This effort was a safer alternative for those who wanted to celebrate the New Year in Austin's entertainment district.

Capital Budget and One-Time Critical Equipment

A continuing capital budget project in FY 2012-13 is the implementation of the Digital Vehicular Video System that was approved by Council in FY 2011-12. \$2.9 million is slated in the spending plan for installing network infrastructure and audio/video equipment. This system allows fully-integrated, solid-state digital video and audio capture, storage, transfer, and video management. File transmission takes place via wireless networks and each vehicle will have a minimum of two cameras that can record and be viewed simultaneously.

The FY 2012-13 Budget also includes \$541,400 for one-time critical equipment, including replacement body armor, tasers, and patrol vehicles for new officers.

Item Approved by Council at Budget Adoption

The Council reduced the Police overtime budget by \$200,000.

Police

Significant Changes

General Fund

Revenue Changes Dollars

The Budget includes an increase of \$20,225 in revenue from wrecker towing incidents.	\$14,086
Revenue from alarm permits is also increasing \$148,000.	\$148,000
The Budget includes a decrease of \$61,000 in revenue from sales of reports due to a lower demand for accident reports.	(\$61,000)
The Department projects a net decrease of \$146,063 for revenue collected from police sources such as facility rental, scrap metal sales, and other permits.	(\$146,063)

Expenditure Changes FTEs Dollars

Citywide

The Budget includes \$818,705 for salary increases associated with wage adjustments for non-uniformed employees in FY 2012-13. An additional \$660,113 is included in the Budget for increased City contributions for health insurance for uniformed and non-uniformed employees.	\$1,478,818
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% for payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level.	\$2,291,767
The Budget includes \$216,834 for wage adjustments associated with implementing the City's recently completed market study.	\$216,834
Fleet maintenance charges are increasing by \$662,059 and fleet fuel charges department-wide are increasing by \$113,716 to keep up with a growing fleet and rising costs.	\$775,775

Meet and Confer

The Budget includes full-year funding for the third year of the modified FY 2008-09 Meet and Confer contract in the amount of \$6,383,605, which includes a 3% general wage increase and a 1% pension increase for uniformed employees.	\$6,383,605
The Budget also includes Step increases related to service tenure for existing officers in the amount of \$2 million.	\$2,000,000

Investigations

An increase of \$3,114 in expense reimbursements from Health and Human Services Department is included in the Budget to fund the salary and retirement increases for the Animal Cruelty Officer.	(\$3,114)
The Budget also includes an increase of \$270,029 for rent at the City's Rutherford Lane campus.	\$270,029
An additional increase to the Budget includes half-year funding for the upgrade of 10 of 22 sworn positions from the rank of Officer to the rank of Detective. Remaining funding will be included in the FY 2013-14 Budget.	\$195,982

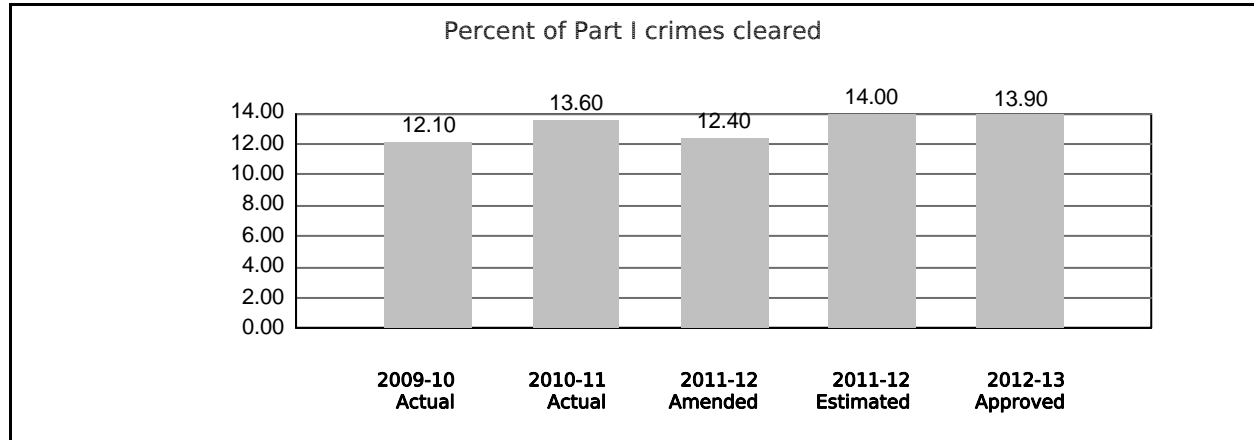

Expenditure Changes	FTEs	Dollars
The Budget includes an increase of \$1,839,968 for the annualized costs of 47 sworn positions added in FY 2011-12.		\$1,839,968
Neighborhood-Based Policing		
Funding is included in the Budget to meet the staffing ratio of 2.0 officers per 1,000 residents. The half-year cost for funding the 22 positions, who will be hired in April 2013, is \$1,178,912.	22.00	\$1,178,912
The Budget includes a reduction of \$133,950 to back out the one-time equipment expense for 47 new sworn officer positions added in FY 2011-12.		(\$133,950)
The Budget includes adding \$123,160 for One Texas Center rent for the Special Events permitting center.		\$123,160
The Budget also includes an increase in expense reimbursement from Aviation for sworn personnel cost increases for Airport Police.		(\$380,968)
Overtime in regional patrol is reduced \$59,009.		(\$59,009)
Operations Support		
Due to a change in Austin's share of the costs, the Budget includes a decrease of \$157,383 for the booking contract with Travis County.		(\$157,383)
The Budget includes an increase for the conversion of four 911 dispatchers and eight call takers to General Fund positions after the end of the American Recovery and Reinvestment Act grant period.	12.00	\$646,746
Two Victim Witness Counselor positions are converted to the General Fund due to the reduction of grant funding. The positions are funded by repurposing grant match funding for the Victim Services unit.	2.00	\$0
The Budget also includes an increase for sustaining the funding of the Austin Regional Intelligence Center after the loss of Urban Area Security Initiative grant funding.		\$204,201
Support Services		
One Accounting Technician is being transferred from the Corporate Purchasing uniform store to assist in administering the new uniform contracts.	1.00	\$51,342
The Budget includes the reduction of one-time funds added on the dais in FY 2011-12 for a Patrol Utilization Study.		(\$100,000)
Transfers and Other Requirements		
The General Obligation Debt Service payment is also increasing by \$3,591 to pay for the Evidence Storage Warehouse.		\$3,591
The following change was approved by Council at Budget Adoption:		
Council reduced the Police overtime budget by \$200,000.		(\$200,000)

Police Budget Detail by Activity

Program: Investigations

Activity: Centralized Investigations

The purpose of the Centralized Investigations activity is to investigate and solve property and violent crimes that require a particularly high level of expertise to Area Commands, victims, suspects, external members of criminal justice agencies, and the public in order to protect victims and the public and deter criminal activity.

Animal Services

Mission and Goals for 2013

Mission

To prevent animal homelessness and promote humane, compassionate treatment of animals by enforcing regulations, providing a safety net for lost or homeless animals, and achieving live outcomes for at least 90% of sheltered pets.

Goals

Maintain and sustain a live outcome rate of 90%.

Increase the number of animals spayed or neutered in the community from 5,019 to 7,000 by 2014.

Improve collaborations with community partners by increasing the number of total live-outcome animals transferred to placement partners from 25% to 30% by 2015.

Animal Services

Message from the Director

The Animal Services Office (ASO) operates the first no-kill municipal shelter in the nation and the largest municipal animal shelter in Central Texas. Maintaining no-kill status means that ASO will not euthanize any adoptable companion animal that enters the center.

ASO has been successful because it has increased the animal foster program, worked closely with partners to transfer animals out of the center, and increased the number of animals adopted. ASO also recognizes the importance of preventing the growth of the animal population and has increased spay-and-neuter and owner education programs as part of this effort. Maintaining no-kill status will require ASO and the City's sustained commitment and represents the paramount challenge faced by ASO. Other unanticipated challenges have also recently emerged as a result of ASO's move from Town Lake Animal Center (TLAC) to the new Austin Animal Center in November 2011. The Austin Animal Center is 6,000 square feet larger than TLAC and is configured much differently, which has necessitated a significant change in ASO's workflow and operations. In addition, the ratio of kennels for cats and dogs has changed, resulting in a shortage of space for sheltered dogs.

Although ASO has been successful at reaching the no-kill goal, it has been at a greater cost than what was anticipated by Council, City management and staff, and community advocates. Overcoming the barriers to no-kill has resulted in increased operational costs, primarily in the form of overtime and temporary-employee expenses.

As we move forward into FY 2012-13, ASO will continue to work hard to sustain the recent success of reaching no-kill status.

Abigail Smith,
Chief Animal Services Officer

Budget Highlights

The Animal Services Office (ASO) has developed a FY 2012-13 budget of \$8.2 million and 94.5 FTES, which provides the resources necessary to provide comprehensive animal services and animal control programs and to achieve its mission and goals. Animal Services primary goal is to sustain its no-kill status by maintaining a 90% live-outcome rate for adoptable companion animals. The program has been successful thus far due to the commitment made by both the staff and the community partners.

Animal Services

Beginning in FY 2012-13, the Animal Services Office is an independent City department, having been transferred from the Health and Human Services Department (HHSD). ASO has three primary service activities: Shelter Services, Animal Protection, and Prevention Services. The operations of these activities work together to provide a comprehensive Animal Services program.

FY 2011-12 was year three of the City's No Kill Implementation Plan, which has added a combined \$1,349,557 and 7 FTEs to Animal Services' budget, over and above annual increases attributable to base cost drivers. In accordance with this plan, ASO launched five new initiatives during the past fiscal year. Spay/neuter and PARVO prevention services have been added to the menu of resources available at the City's five free rabies clinics, resulting in thousands more animals being altered and nearly 100 receiving an additional vaccination against the deadly PARVO virus. The Foster Program for kittens was expanded exponentially from the previous year, resulting in hundreds of neo-natal kittens being saved and adopted out to new families, including nearly 100 feral kittens that were rehabilitated in foster care. The 60 kennels being operated by ASO had yielded nearly 200 live outcomes as of July, 2012, and four other off-site adoption locations are being used to provide more exposure for the City's adoptable pets.

ASO's FY 2012-13 budget includes a base transfer of \$7.5 million and 94.0 full-time equivalents from HHSD. As a result of a review of unmet service demands, the City Manager authorized additional funds to allow the conversion of a part-time veterinarian position to full-time and the operation of a portion of the Town Lake Animal Center (TLAC) as an overflow shelter facility. The additional hours of veterinary care will have a direct impact on ASO's ability to maintain or improve upon its live-outcome rate and the funding for TLAC operations will help to alleviate a shortage of large-dog kennels at Austin Animal Center and allow ASO crucial flexibility in responding to surges in shelter intake.

As noted above, ASO's primary goal and most important key indicator is its live-outcome rate. This performance measure continues to show the department's success in meeting and sustaining no-kill status. In FY 2012-13, the methodology for calculating percent of live outcomes has been refined to reflect only companion animals and prior year data has been recalculated in accordance with this revised methodology.

Revenue

ASO's General Fund revenue for FY 2012-13 is projected at \$947,000, a net decrease of \$91,000 from FY 2011-12 levels. There are four components of this projected decrease:

- Funding received according to the terms of an interlocal agreement with Travis County is expected to be \$23,000 less than in the previous year.
- The animal rescue fee, which was historically charged to community partners for animals transferred from the shelter and generated only nominal revenue, is being eliminated.
- Projected revenue from animal identification fees is being reduced due to operational changes. All adopted animals receive a microchip before leaving the shelter and this cost will be accounted for through adoption charges. The only remaining animal-identification revenue will be generated from rabies clinic attendees and owners reclaiming their pets.
- Adoption fees are being changed from a flat-rate structure to a sliding scale which, although projected to generate 20% less revenue, will provide ASO with increased flexibility to increase live outcomes.

Animal Services

Significant Changes

General Fund

Revenue Changes	Dollars	
Revenue is decreasing due an expected decrease in funds received according to the terms of the Austin-Travis County interlocal agreement.		(\$23,210)
The animal rescue fee, which was historically charged to community partners for animals transferred from the shelter and generated only nominal revenue, is being eliminated.		(\$12,096)
Animal adoption fees are changing from a fixed-rate structure to a sliding scale as part of an effort to promote live outcomes. As a result, animal adoption revenue is budgeted to decrease.		(\$50,430)
Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$105,383 for salary increases associated with wage adjustments in FY 2012-13. An additional \$29,165 is included in the Budget for increased City contributions for health insurance.		\$134,548
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level.		\$329,671
Fuel and fleet maintenance charges are budgeted to increase in FY 2012-13.		\$24,467
Department-wide		
In FY 2012-13, the Animal Services Office is separating from the HHSD budget. This separation results in \$7,478,131 and 94.0 FTEs transferring to the new office.	94.00	\$7,478,131
To more accurately reflect current staffing patterns, a \$57,237 reduction in vacancy savings is budgeted.		\$57,237
In the fall of 2011, the new Animal Services Center opened for operation. The FY 2012-13 Budget includes a reduction of the one-time moving, marketing, and increased personnel expenses related to the move, as well as the cost of cat carriers to transport the cats from Town Lake Animal Center to the new shelter.		(\$75,000)
Animal Protection		
The Animal Services Program reimburses the Austin Police Department for the detective who investigates animal cruelty violations. The Budget includes an increase resulting from wage adjustments for this reimbursed position.		\$3,114
Shelter Services		
The Budget includes an increase to fund the conversion of a part-time veterinarian position to full-time.	0.50	\$58,025
Additional funding is included in the Budget for the operation of a portion of the Town Lake Animal Center (TLAC) as an overflow shelter facility. This increase will support the hiring of three temporary employees and cover food and utility expenses.		\$162,456

Mission and Goals for 2013

Mission

The mission of the Austin Public Library is to provide easy access to books and information for all ages, through responsive professionals, engaging programs, and state of the art technology in a safe and friendly environment.

Goals

Provide clean, safe facilities.

- 80% of citizens responding to the Citizen Survey will rate their satisfaction with cleanliness of library facilities as satisfied or very satisfied.
 - 83% of library staff responding to the Listening to the Workforce survey will indicate that the department demonstrates adequate concern for employee safety.
-

Provide easy access to information and services.

- Circulation per capita will reach at least 6.27.
 - Web hits will reach at least 20,600,000.
 - Program attendance will reach at least 130,000.
-

Improve services based on customer input.

- Data from the Counting Opinions customer satisfaction survey database will be reviewed annually to guide decision-making.
 - 75% of citizens responding to the Citizen Survey will rate their overall satisfaction with the quality of city libraries as satisfied or very satisfied.
-

Develop a well-trained, customer-oriented workforce.

- 70% of library staff responding to the Listening to the Workforce survey will indicate that training has helped improve on-the-job skills.
- 75% of library staff responding to the Listening to the Workforce survey will indicate they have used skills learned in training offered by the department.

Austin Public Library

Message from the Director

The Austin Public Library's vision is to help make Austin a dynamic creative center and the most livable city in the country. We are committed to providing easy access to books and information for all ages, through responsive professionals, engaging programs, and state-of-the-art technology in a safe and friendly environment. In 1926, the Austin Public Library opened in a rented room at 819 Congress with 500 donated volumes and a volunteer Librarian. Since that time, the Austin Public Library has seen the appointment of 4 subsequent Library Directors and has grown to encompass 20 branch libraries, the John Henry Faulk Central Library and the Austin History Center. We circulate over 4.6 million items a year and more than 3.5 million customers visit our libraries. We have completed the Schematic Design phase of the New Central Library project, ensuring throughout the process that Austin's next central library will truly be a library for the future. The Design Development phase is currently in process and the completed package will be presented to the City Council on September 27, 2012.

The Austin Public Library's customers have access to a wide variety of resources, programs and services to meet their needs. The Austin Public Library has fewer staff per service hour than almost all of our peer libraries; however, we continue to be a model for leading edge programs and services, many of which have received state and national recognition. The Library's used bookstore, Recycled Reads, has become a model for other libraries across the country and has been featured in the Texas Library Journal. It is an active participant in the City of Austin Zero Waste Plan ensuring that obsolete materials are handled in an environmentally responsible way. In the past year, 210,000 books and materials were sold or recycled. Since its opening, more than 130 tons of material has been diverted out of landfills.

Over the past year, every library division and work group selected a best managed project that would transform the service they provide, including the library's over-arching project to create a state of the art website with the goal of making the interface as simple to use as Google, with access to library and city resources and services, databases, and Internet sites. Other functionality will include online payment of fees, video and mobile phone apps. The library was able to secure a contract to implement this project and the new site should go live in the fall of 2012. The Library launched the addition of downloadable materials—the ability to stream and download books with a library card—to our collection to immediate success. We are currently circulating over 13,000 downloadable books and audiobooks per month. We plan to add both downloadable music and video formats in the upcoming months.

Despite these milestones, the Austin Public Library will face some important issues in the coming years. The area that presents the greatest challenge for us is building and maintaining sustainability for the library system. The two core areas in which sustainability is critical to the library's future are our collections and our facilities. Continued investment in our materials budget is critical to growing and sustaining our collection. Additionally, as our twenty-four facilities have aged, the need for upkeep has increased accordingly.

Austin is becoming a major urban area and the criminal activities typically experienced in similar areas of our nation are being felt by staff and customers and in our building inventory. Library management responded by installing both interior and exterior security surveillance cameras at all locations by the end of 2012.

Meeting evolving customer needs and keeping pace with shifts in customer demographics is also a challenge. Activities, products, and services have exploded in the digital world and customers expect the library to provide access to information in digital formats while maintaining traditional library service. Our goal is to achieve a balance between the two.

Regardless of the challenges, the Austin Public Library is focused on the future and on our goal to become the best managed library in the country. Every area of the library continues to develop and implement processes to improve systems and services to enable the Library to be as effective and efficient as possible. As a result, Austin Public Library continues to be acknowledged for its leading edge programs and services.

Budget Highlights

Materials Management Services

The Materials Management Services program is responsible for providing quality library collections to customers so they can access and borrow material to meet their informational and recreational needs. This includes materials selection and acquisition services as well as cataloging and processing services. The Austin Public Library offers information and materials in a variety of formats to enable citizens to continue their learning experience. To assist the Library with its continuing recycling efforts, the FY2012-13 Budget includes funding for one new administrative position for the Recycled Reads bookstore. In FY 2010-11, the City invested \$500,000 in the materials budget. In the FY 2012-13 Budget, a base increase of \$85,121 is included for the system-wide materials budget and \$11,746 is included for the system-wide database budget, bringing the funding for materials from the operating budget to \$2,800,590. In FY 2011-12, the library received \$800,000 in capital funds to begin purchasing materials for the New Central Library. In FY 2012-13, an additional \$1.2 million in capital funds will be appropriated, bringing total funding appropriated to date for all materials for the new library to \$2.0 million. Funding from operating and capital funds combined will create a projected amount of \$4.85 for materials expenditures per capita, an increase of 12% from the FY 2011-12 Approved Budget. Exclusive of the capital expenditures, materials expenditures per capita is projected at \$3.40.

Public Services

The Public Services program is responsible for providing circulation of materials, reference services, youth services and the resources of the Austin History Center to the Austin area community in order to meet their information and reading needs. Circulation at all library locations has been steadily increasing since 2004 and is projected to reach over 5.1 million items in FY 2012-13. Public Internet computers continue to be an important resource for customers who are without computer access at their home or workplace. Over 763,000 customers used public Internet stations last year, and almost 21 million virtual visits were made to the Austin Public Library's web pages. The Library is projecting over 3.5 million visits in FY 2012-13. Over the last several years, the Library has experienced cuts in staffing levels that greatly impact optimal service delivery. To ease the burden of staffing shortages and to assist with meeting the continued rise in demand for Library services, the FY 2012-13 Budget includes funding for the addition of eight essential public service positions and funding in the amount of \$150,000 for temporary employee costs.

Support Services

The Support Services program is responsible for providing operational, administrative and managerial support and the tools necessary for the department to produce more effective services. A key division in Support Services is our Information Technology division. Technology is a rapidly evolving field and the Library must keep up with these changes. Expenses for Information Technology hardware and hardware maintenance contracts continue to annually increase. These funds cover critical contracts for switches, our automated computer-signup/tracking system, printer maintenance, server warranties, express checkout machines, security sensitizers and de-sensitizers, security gates, and RFID (Radio Frequency Identification) equipment. These funds are also used to purchase equipment like receipt printers and barcode scanners which have little or no warranties but are absolutely critical to our core business. Similarly, costs to support software, software licenses, and software maintenance contracts continue to rise. These funds support software that protects the core operating system configuration files on workstations and servers, our backup and server software, website, e-mail filtering and user security software. The most critical item in this category is SIRSI Symphony, the software that manages the technical and public services aspects of our integrated library management system. The FY 2012-13 Budget includes increased funding in the amount of \$121,354 to fund these critical infrastructure needs as well as the addition of one essential Graphic Design position to assist with web maintenance and graphic design.

Custodial needs continue to increase as the number of visitors to our libraries increase. The current staff of 13 is inadequate to meet the cleaning needs of 23 library facilities. An adequately sized custodial staff is critical to the success of the Library; therefore, funding for two new building and grounds positions is included in the FY 2012-13 Budget.

Capital Budget

The FY 2012-13 Capital Budget includes a total appropriation of \$6,200,000 for the New Central Library. Of the new appropriation, \$5 million from the 2006 bond program is for the further development of the New Central Library Project. The remaining \$1.2 million is from a General Fund transfer for the new library’s materials budget. The total materials budget for the new Central Library has been established at \$4 million, with \$2 million remaining to be funded in future budget cycles.

Library

Significant Changes

General Fund

Revenue Changes Dollars

The Budget includes an increase in revenue of \$51,820 from library fines due to improved collection methods for overdue materials. This is slightly offset by a decrease of \$8,205 in revenue for miscellaneous fees due to decreased customer demand. \$43,615

Expenditure Changes FTEs Dollars

Citywide

The Budget includes \$530,968 for salary increases associated with wage adjustments in FY 2013. An additional \$108,431 is included in the Budget for increased City contributions for health insurance. \$639,399

The Budget includes \$376,890 in wage adjustments associated with implementing the City's recently completed market study. \$376,890

The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level. \$1,489,729

Materials Management Services

The Budget includes base cost increases in the amount of \$85,121 for system-wide materials, \$41,200 for cataloging and processing, and \$11,746 for electronic databases. \$138,067

The Budget also includes an increase in the amount of \$20,218 for a software contract to upgrade the Library's online catalog. \$20,218

One new Administrative Assistant position is included in the budget to support the ongoing activities within the Library system. 1.00 \$47,519

Public Services

The Budget includes a net decrease in funding for three projects funded at the St. John Community Center in FY 2011-12. Funding still remains in FY 2012-13 for ADA compliant automatic door opening systems. Total project costs are shared with Health and Human Services and Parks and Recreation. (\$16,071)

As a result of projected rate increases for water and wastewater services, the Budget includes an increase of \$17,395. \$17,395

Also included in the Budget is an increase of \$3,150 to replace funding lost from the termination of the Interlibrary Loan grant. \$3,150

The Budget includes \$150,000 in dedicated funding for temporary employees. \$150,000

Funding for eight essential positions is included in the budget. These positions will offer critical support to existing Library staff. 8.00 \$378,427

Expenditure Changes	FTEs	Dollars
Support Services		
An increase of \$8,988 is included in the Budget to maintain a departmental inventory of information technology hardware and hardware maintenance contracts, as well as \$44,670 to fund increases to information technology software maintenance contracts and increases for the renewal of annual software licenses.		\$53,658
Included in the Budget is an increase of \$2,439 for projected rate increases for water and wastewater services.		\$2,439
An incremental increase of \$6,380 is included to reflect \$19,481 for preventative fleet maintenance offset by a decrease of \$13,101 for fuel.		\$6,380
Also included in the Budget is an increase of \$28,329 to replace funding lost from the terminations of the Interlibrary Loan grant		\$28,329
The Budget includes funding for two custodial positions and one Graphic Designer.	3.00	\$161,010
Department-wide		
The Budget includes an incremental increase of \$7,282 for terminal pay for six employees scheduled to retire in FY 2012-13.		\$7,282
Also included in the Budget is an increase of \$214,000 to reduce the department's vacancy savings amount to zero.		\$214,000

Mission and Goals for 2013

Mission

The mission of the Austin/Travis County Health and Human Services Department (HHSD) is to promote and protect the health of our community through the use of best practices and community collaborations.

Goals

Achieve Public Health Accreditation by 2014.

Reduce the years of potential life lost due to preventable conditions:

- All City department locations to be tobacco free by 2013;
- 95% of individuals identified as HIV/AIDS positive to be linked to services;
- 100% of clients presenting for STD care to be offered an exam and/or tested within two business days.

Minimize public's exposure to health and environmental hazards:

- Conduct 2.0 inspections per fixed food establishments each year;
- 100% of all food establishments to prominently display their permit for public viewing by 2013;
- Identify, review and update 100% of emergency plans annually.

Promote a healthy community by addressing the needs of vulnerable households:

- 75% of households served to maintain housing or transition into housing annually;
- 75% of self-sufficiency-managed households to report a reduction or elimination of income barriers.

Improve maternal, child and adolescent health outcomes from preconception through adulthood (ages 0 to 22):

- 75% of adolescents to report an increase in protective factors such as mentoring, leadership, positive peer association and community involvement;
- Increase number of sex education and skills development encounters provided to youth ages 12-17;
- 89% of Women enrolled in WIC during pregnancy to subsequently breastfeed their children.

Health and Human Services

Message from the Director

Every day, in every part of our community, the Austin/Travis County Health and Human Services Department (HHSD) protects residents from infectious diseases and environmental threats, and educates these residents about the benefits of healthful behaviors in avoiding chronic diseases. HHSD offers a variety of services to the community through direct service provision and in partnership with community organizations to achieve the Department's mission to promote and protect a healthy community through the use of best practices and community partnerships. HHSD's major specific accomplishments in FY 2011-12 include the completion of the critical health indicators report and the community health assessment and a Departmental reorganization that builds the infrastructure to operate a comprehensive public health department.

In FY 2012-13, the HHSD programs and activities will align with the new organizational structure, creating a budget that better reflects the services provided. In FY 2012-13, the new Community Services Program will focus primarily on the direct services offered through HHSD, including services offered at the neighborhood centers, the day-labor site and through the African-American Quality of Life program. The new Environmental Health Services Program encompasses the work of our sanitarians, regulation-enforcement teams, inspectors, and staff who permit the fixed and mobile food establishments and pools in the community. The services provided by the new Maternal, Child & Adolescent Health Program focus on improving preconception health and access to prenatal care, while providing positive developmental opportunities for youth in our communities. Finally, the new Disease Prevention and Health Promotion Program encompasses the remaining public health services provided by the Department, including Communicable Disease, Vital Records, Community Health, and Epidemiology and Health Statistics.

As a vital component of its effort to promote the public safety of our community, in FY 2011-12 HHSD has provided over 45,000 immunizations and vaccines; 18,000 STD tests (as well as care and treatment for those who tested positive); issued over 12,000 food, pool and temporary events permits; and conducted approximately 2,000 disease surveillance investigations. The department will continue to address the needs of the community through the FY 2012-13 Budget, which includes funding for increased operational costs and expanded services. The department will continue to focus on the changing demands of Austin and Travis County residents and will work in collaboration with our community partners to address the burden of disease as identified by the community health indicators report and the service gaps identified through the community health assessment process.

HHSD staff are committed to providing comprehensive services that match the needs of the community. The framework that is in place will allow for improved services and collaborations in HHSD's efforts to make Austin the healthiest community in the nation.

A handwritten signature in black ink that reads "Carlos Rivera".

Carlos Rivera, Director

Budget Highlights

The Health and Human Services Department (HHSD) has developed a budget that includes the resources to provide public health protection and prevention services, social services, youth development and employment services, and support services, and to achieve the goals and objectives of the department. HHSD's FY 2012-13 General Fund-supported budget totals \$39.3 million and 204.75 FTEs. In addition, the Department's budget includes \$20.3 million in grant funding, supporting 213 FTEs, and \$1.9 million from the Sustainability Fund to support contracts with partners providing workforce development services.

Social Services Contracts

The Social Services Contracts program includes funding for myriad service areas including: basic needs, child and youth services, homelessness, behavioral health, HIV, community planning efforts, and workforce development. Through the Social Services Contracts Program, which includes \$25.5 million in contracts to service providers, HHSD anticipates that 3,700 homeless persons and 2,461 workforce development clients will receive services. The Department will receive \$841,000 to maintain the mental health interlocal agreement with Austin/Travis County Integral Care (ATCIC); however, \$253,000 in FY 2011-12 one-time funding for the substance abuse contract has not been included. The Social Service Contracts program receives funding from the General Fund, Sustainability Fund and various grants. In FY 2012-13, \$1.3 million formerly provided by the Sustainability Fund will be sourced from the General Fund. This reallocation does not affect the total \$25.5 million appropriation.

Community Services

The Community Services program both provides direct services to clients and links them to other services available throughout the community. In FY 2012-13, it is anticipated that 68,000 individuals will receive basic needs services at the neighborhood centers. The Department's budget is being reduced by \$18,000 to reflect the removal of one-time expenditures related to maintenance costs for St. John's Neighborhood Center, a shared facility with Library, Parks and Recreation, and the Austin Independent School District (AISD).

As a result of a review of unmet service demands, the City Manager authorized the addition of a Public Health Nurse position to the Department's General Fund budget. Originally grant-funded, this position was supported last year with one-time funding from the Sustainability Fund. This nurse serves 2,887 unduplicated clients annually at the South Austin Neighborhood Center, providing blood-pressure and blood-sugar screening as well as educational outreach regarding diabetes and hypertension.

Disease Prevention and Health Promotion

The Disease Prevention and Health Promotion (DPHP) program provides an array of services through the Communicable Disease, Community Health, Epidemiology & Health Statistics, and Vital Records activities. These activities focus on services that screen for and prevent illnesses and other health issues. Other services provided by the DPHP program include the issuance of birth and death certificates; testing for many communicable diseases; counseling; educational outreach and testing for HIV, STDs, and chronic diseases; and public health emergency- preparedness activities and education. DPHP will receive \$12.5 million in combined General Fund and grant funding to continue these services in FY 2012-13.

As a result of the City Manager's review of unmet service demands, this program's Toxicologist and Community Development Manager positions will be transferred to the General Fund, necessitating a \$170,000 increase in personnel funding. These core infrastructure positions have been funded by the Public Health and Emergency Preparedness grant, which has experienced continued reductions since 2009. Transferring these positions to the General Fund ensures that they will be appropriately and consistently funded and allows the Department to use remaining grant funds to support other programmatic staff. Specifically, a Marketing Representative B position and HHSD Program Coordinator position will be able to again be funded by this grant.

Revenue related to Medicaid reimbursements is expected to decrease \$111,000 in the coming fiscal year due to increases in community resources such as "minute clinics" that provide immunization services and in the number of clients visiting their primary care providers for these services. HHSD is also amending its immunization fee structure from a visit- to a dosage-based model. For non-Medicaid clients who can afford it,

adult immunizations will cost \$25 per dose, as opposed to \$10 per visit; the fee for children’s immunizations will change from \$10 per visit to \$10 per dose. The new fees remain below the average charged by both private sector providers and other local health departments.

Environmental Health Services

The Environmental Health Services program focuses on providing protection and enforcement services to the public in order to minimize environmental and consumer health hazards. This program anticipates issuing 12,000 permits in FY 2012-13. The program will continue to strive to complete 2.0 inspections per fixed food establishment annually; however, continued population growth and increases in the number of establishments represent challenges for the program, as demand has outpaced current resources.

Revenue associated with the Environmental Health Services program is projected to increase by \$46,000 in FY 2012-13 due to customer participation in the food-handler audit process that helps establishments ensure compliance with food handler registrations.

Maternal, Child and Adolescent Health

The Maternal, Child and Adolescent Health (MCAH) program was created to allow the Department to focus on one of the community’s most vulnerable populations, mothers and children. The Women, Infants and Children (WIC) program provides supplemental nutrition for pregnant women, new mothers and young children and anticipates serving 420,000 participants in FY 2012-13. Other activities include graffiti removal and community youth development services, childcare programs, and sexual-health education programs.

Animal Services

Animal Services has been transferred from HHSD and will be an independent department in FY 2012-13. HHSD’s budget is decreasing by \$7.5 million and 94.0 full-time equivalents to reflect this reorganization.

Support Services

The Support Services program is the administrative arm of HHSD and includes the office of the director and the human resources, accounting, information systems, budget and analysis, records management, contract compliance, courier services and facility expense units. The budget is increasing by \$14,000 to fund annualized expenses associated with the creation of a deputy director position in FY 2011-12. In addition, the Department’s vacancy savings obligations are being reduced by \$85,000 to help address personnel infrastructure needs, including an assistant director for the Support Services and Maternal, Child and Adolescent Health divisions.

Department-wide Grant Support

HHSD's operations are currently supported by over \$20 million in grant funding. As the City's personnel and insurance costs increase, however, grant funding seldom keeps pace. Several of the Department's statutory functions are primarily funded by grants and require General Fund grant support to offset personnel cost increases. The FY 2012-13 budget includes a \$322,000 increase in grant support for positions in the Tuberculosis, Immunizations, WIC, HIV Surveillance, and Sexually Transmitted Disease programs.

Other Revenue

HHSD General Fund revenue for FY 2012-13 is projected to be \$6,989,764, which is a net decrease of \$1.4 million from the budgeted FY 2011-12 level. While it reflects the revenue impacts discussed above, this net decrease is primarily driven by the transfer of Animal Services and its \$1 million of associated revenue. Other fee and revenue adjustments include the elimination of the permitting fee for vending machines and the institution of a \$5 fee for an additional copy of an immunization record.

Items Approved by Council at Budget Adoption

- Appropriate \$200,000 from the General Fund for the Council for At Risk Youth;
- Direct staff to fund the River City Youth Foundation in the amount of \$73,000;
- Appropriate \$76,634 from the General Fund for Social Service Contracts for Permanent Supportive Housing services;
- Increase appropriations from the General Fund in the amount of \$154,159 for Early Childhood services;
- Appropriate \$250,000 from the Critical One Time Fund for a one-time payment for a Social Service Contract with the Health Families of Travis County program; and,
- Appropriate \$84,057 from the Critical One Time Fund to fund additional Early Childhood Education programs.
- Increase appropriations by \$186,000 in the Health and Human Services Department Special Revenue Fund for the Emergency Solutions Grant from the Department of Housing and Urban Development.

Health and Human Services

Significant Changes

General Fund

Revenue Changes Dollars

The Budget includes a net decrease of \$643,940 in revenue related to the interlocal agreement with Travis County. \$627,790 in budgeted revenue is transferring to the new Animal Services Office; the remainder is a net decrease based on the cost model calculation for the interlocal agreement.	(\$643,940)
Revenue from animal-related fees is decreasing by \$387,456 due to the transfer of the Animal Service Office.	(\$387,456)
Estimated revenue from sources within the Environmental Health Services program are being adjusted based on historical data and projected demand, including temporary food booth permit, food establishment permit, mobile food vendor permit, licensing inspection, food manager training, food handler permit, food sampling permit and after hours/weekend inspection revenue.	\$45,754
The Disease Prevention and Health Promotion program is projecting a \$115,784 decrease in revenue, primarily as a result of reduced Medicaid and Medicare reimbursements.	(\$115,784)
The Budget includes a revenue decrease of \$254,918 from The Vital Records program, primarily due to the decrease in demand for birth and death certificates and the state mandate for funeral directors to order death certificates directly from the state.	(\$254,918)
The Health and Human Services Department (HHSD) is amending its immunization fee schedule from a visit- to a dosage-based model. For non-Medicaid clients who can afford it, adult immunizations will cost \$25 per dose, as opposed to \$10 per visit; the fee for children's immunizations will change from \$10 per visit to \$10 per dose. The Department is not budgeting any revenue impact from this adjustment, as the effect of the increased fees may be offset by reduced demand.	\$0
The Department is eliminating its permitting fee for vending machines. It is also instituting a \$5 fee for each additional copy of an immunization record. The net impact of both changes is projected to be negligible.	\$0

Expenditure Changes FTEs Dollars

Citywide	
The Budget includes \$421,530 for salary increases associated with wage adjustments in FY 2013. An additional \$61,499 is included in the Budget for increased City contributions for health insurance.	\$483,029
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level.	\$1,142,984
The Budget includes \$37,622 for wage adjustments associated with implementing the City's recently completed market study.	\$37,622

Expenditure Changes	FTEs	Dollars
Department-wide		
To account for faster growth in City personnel costs than in grant awards, HHSD is budgeting an additional \$322,446 in grant support for FY 2012-13.		\$322,446
The Budget reflects a \$64,079 increase associated with terminal pay to account for anticipated retirements in FY 2012-13.		\$64,079
Department commodity costs such as paint, cleaning supplies, office supplies, small tools, and computer maintenance continue to increase as a result of inflationary pressure. HHSD's budget for these items is increasing to keep pace with expenditures.		\$36,065
The Budget includes an increase of \$85,000 to eliminate the vacancy savings associated with essential positions that are anticipated to be filled in FY 2012-13.		\$85,000
As a result of a review of unmet service demands, the City Manager approved additional funds to provide for the cost of professional registrations and memberships.		\$8,300
Animal Services		
In FY 2012-13, Animal Services is becoming an independent department, resulting in a net transfer of 94.0 FTEs and \$7,478,131 in funding to the new Animal Services Office.	(94.00)	(\$7,478,131)
Community Services		
A Public Health Nurse position, funded last year through one-time support from the Sustainability Fund, is being added to the Department's General Budget in accordance with the City Manager's review of unmet service demands.		\$86,892
The Budget includes a reduction of \$18,092 in one-time maintenance funding for St. John Community Center.		(\$18,092)
For FY 2012-13, five employees are being transferred to the Community Service Block Grant (CSBG): 2 Neighborhood Liaisons, 1 Social Worker, 1 Community Job Counselor, and 1 Community Worker. These positions were funded by the Sustainability Fund in FY 2011-12; therefore, there is no impact to FY 2012-13 General Fund requirements.	(5.00)	\$0
Disease Prevention & Health Promotion (DPHP)		
As a result of a review of unmet service demands, the City Manager has approved the transfer of a grant-funded Toxicologist position and a partially grant-funded Community Development Manager position to the Department's General Fund budget in FY 2012-13.	2.00	\$170,339
An HHSD Program Coordinator and a Marketing Representative B position are being transferred to the Public Health and Emergency Preparedness grant. These positions were funded by the Sustainability Fund in FY 2011-12; therefore, there is no impact to HHSD's FY 2012-13 General Fund requirements.	(2.00)	\$0
The Budget includes a reduction equal to the one-time cost associated with software system upgrades for the TB Clinic's digital X-ray system.		(\$10,000)
Environmental Health		
HHSD's budget is decreasing as a result of reduced rental allocations for Department-occupied space at Rutherford Lane and One Texas Center.		(\$69,311)
Maternal, Child & Adolescent Health		
The Budget includes additional funding to reflect the transfer of the Holly Neighborhood Youth Programs to HHSD from Austin Energy.		\$95,020

Expenditure Changes	FTEs	Dollars
Social Service Contracts		
Funding for contracts with agencies providing basic needs and homeless services, and for the African American Youth Resource Center, will come from the General Fund, rather than the Sustainability Fund, in FY 2012-13.		\$1,467,510
The Budget includes the removal of a one-time increase in FY 2011-12 appropriations of \$253,265 to extend funding to the Austin Travis County Integral Care (ATCIC) substance abuse contract.		(\$253,265)
To restore full-year funding for the ATCIC Main Interlocal agreement, HHSD is budgeting an additional \$840,581 in FY 2012-13.		\$840,581
FY 2011-12 HHSD received one-time funding of \$250,000 for a contract with Southwest Keys, which is being eliminated from the FY 2012-13 Budget.		(\$250,000)
Support Services		
During FY 2011-12, an HHSD Assistant Director position was reclassified to Deputy Director. This change requires an additional \$14,048 to fund the annualization of personnel costs.		\$14,048
HHSD is eliminating one-time FY 2011-12 funding for six months of utility costs at the Town Lake Animal Center.		(\$53,500)
The following changes were approved by Council at Budget Adoption:		
An additional \$200,000 is being appropriated for a Social Service Contract with the Council for At Risk Youth.		\$200,000
An additional \$76,634 is being appropriated for Social Service Contracts for Permanent Supportive Housing services.		\$76,634
An additional \$154,159 is being appropriated for Social Service Contracts for Early Childhood services.		\$154,159

Health and Human Services Budget Detail by Activity

Program: Animal Services

Activity: Animal Services

The purpose of Animal Services is to prevent homelessness and promote humane, compassionate treatment of animals by enforcing animal regulations, providing a safety net for lost or homeless animals and achieving live outcomes for at least 90% of sheltered pets.

Neighborhood Housing & Community Development Mission and Goals for 2013

Mission

The purpose of the Neighborhood Housing and Community Development Department is to provide housing, community and small business development services to benefit eligible residents so they can have access to livable neighborhoods and can increase their opportunities for self-sufficiency.

Goals

50 percent of all rental units produced under housing gap finance programs will assist households at 50 percent of median family income (MFI) or below.

50 percent of all units produced will have affordability periods of 30 years or more.

60 percent of all units produced under home ownership opportunity programs will assist households at 60 percent of median family income (MFI) or below.

100 percent of units produced under home ownership opportunity programs will result in an affordability period of 10 years.

60 percent of jobs created or retained will be held by low or moderate income individuals.

Neighborhood Housing and Community Development

Message from the Director

The Neighborhood Housing and Community Development Office (NHCD) provides housing, community development, and small business development services to benefit eligible residents so they can have access to livable neighborhoods and increase their self-sufficiency. NHCD's 2012 budget includes \$15.1 million, which is comprised of local, state and federal dollars, and includes entitlement funds made available through the U.S. Department of Housing and Urban Development. These funds include Community Development Block Grant (CDBG) and HOME Investment Partnership funds (HOME). NHCD provides services annually for residents and households in prioritized areas of investment including rental, homebuyer, homeowner, commercial revitalization, and small business assistance. Many of these services are administered by the numerous nonprofit partnerships funded through local and federal funding, including affordable housing providers whose agencies development quality housing for Austin's low-income households.

MLK Station, Foundation Communities (2012)

While federal entitlement funds prove necessary to address the need in Austin, the need far outpaces resources, particularly as the City of Austin faces a decline in federal funding allocation among entitlement dollars. The City has seen a decrease in almost \$3.6 million in CDBG and HOME combined in two years. This reality for Austin and other communities has forced new business models and the recognition that business must be done differently to address the need of low-income residents. While federal funding has declined, poverty levels have increased in Austin. In 1990, the poverty level was slightly below 18 percent. In 2000, the rate dropped to just above 14 percent; however, in 2010, the rate climbed to just over 18 percent. Within poverty, some groups are disproportionately represented, especially in the areas of race and ethnicity, age, and education. The Community Action Network has found that 27 percent of all Hispanics, 21 percent of all African Americans, 10 percent of all Asians, and 10 percent of all Anglo (non-Hispanic whites) live in poverty in the City of Austin. NHCD has continued to pursue a strategic approach to increase revenue and seek grant opportunities responsive to Council and community priorities. The department has been awarded state and federal funding to support financial empowerment initiatives; community development; healthy homes and home repair; planning; and permanent supportive housing. Through a concerted effort, NHCD has increased its grant revenue in FY 2011-12 by \$7.4 million with no new full-time employees (FTEs). Employees have been reassigned to new activities through to support these grants. In addition, the NHCD has shifted operating expenses to the Housing Trust Fund, with its FY 2012-13 allocation dedication to operational expenses.

Efforts to prioritize policy goals like the creation of 350 units of permanent supportive housing by 2014 while maintaining program and investment commitment to the entire housing continuum (housing opportunities from very low income to moderate income) have required the NHCD to seek systems change in order to address the community's need while realizing critical funding constraints. To date, the City through its partnerships with Travis County, the Ending Chronic Homelessness Organization (ECHO) and numerous social services providers, affordable housing providers have achieved 238 units toward the overall goal. Resources will continue to be the No. 1 barrier to addressing this priority and others surrounding affordable housing. NHCD recognizes there must be change in our business practices, customer service delivery models, and funding strategies to meet the needs of the community. Deeply committed to the task of meeting these demands, our team is finding its way through new financial

climates. We remain dedicated to our mission to offer quality services, increase access to livable neighborhoods and increase individual self-sufficiency.

Elizabeth Spencer,
Director, NHCD

Budget Highlights

NHCD directly administers a variety of programs to serve the community's housing, community development, and economic development needs and provides grant funding to various agencies and non-profit organizations. The FY 2012-13 Budget for NHCD includes a total budget of \$15.1 million and 52 full-time equivalents (FTE).

Revenue

The City estimates receiving \$9.1 million in new grant appropriations from the U.S. Department of Housing and Urban Development (HUD). The Community Development Block Grant (CDBG) will provide \$6.7 million, a decrease of 2.7% over FY 2011-12 due to reduced federal funding. Another \$2.4 million will come from the HOME Investment Partnership Program (HOME) which is \$1.6 million less, a 39.5% decrease, than the FY 2011-12 award and also due to federal budget reductions. The other source of revenue supporting NHCD and its services come from transfers. The local revenue source is a \$3.5 million transfer in from the Sustainability Fund, an increase of \$0.5 million to address grant funding reductions, and a \$0.6 million General Fund transfer to the Housing Trust Fund. All these sources are supporting NHCD, the Housing Trust Fund and the University Neighborhood Overlay (UNO)–Housing Trust Fund.

There have been a number of changes in the federal and state funding sources, which serve as crucial sources of revenue for community development and housing programs. Altogether, these funds in FY 2012-13 will comprise 60.3% of the department’s budget. However, federal funding awarded by the U.S. Department of Housing and Urban Development (HUD) has seen a steep decline over the past two years – with a net reduction of \$3.6 million combined in both Community Development Block Grants (CDBG) and the HOME Investment Partnership Program (HOME) in the past two years.

Housing

NHCD continues to focus its funding on providing affordable housing and related services to families earning 80% or less of the median family income, which is currently \$59,900 for a family of four. Housing services offered by the department include: tenant based rental assistance, architectural barrier removal, tenants rights assistance, homebuyer counseling, down payment assistance, emergency home repairs, home rehabilitation services, lead abatement services, developer incentives and developer assistance for rental housing developments and single-family developments. Funding of a total amount of \$0.4 million is being allocated to this program for the FY 2012-13 Budget.

Budget Highlights

Community Development

In addition to housing development services, the department also administers various small business, commercial revitalization and social services programs. The Community Development program includes \$0.7 million in total funding for FY 2012-13. NHCD will continue to support the following small business services: Community Development Bank, Micro-enterprise Technical Assistance, and Commercial Revitalization. Social services funded by the department are administered by the Austin/Travis County Health and Human Services Department and provide level funding for child care, youth services and services for seniors. In July of 2012, the newly restored and renovated African American Cultural and Heritage Facility (AACHF) is expected to open. The Budget includes an increase of \$0.1 million to annualize funding for the operation and maintenance of the AACHF, including one existing administrative position to staff the facility. NHCD also provides staffing, annual operating expenses such as legal fees, insurance, maintenance, and property disposition, and maintains all property for the Urban Renewal Agency. These expenses are ineligible for grant funding which required an additional \$0.1 million of local funding.

Grant Reductions

NHCD is receiving \$1.8 million less in federal funding in FY 2012-13 for the Community Development Block Grant (CDBG) and HOME grant. This required a financial reallocation of resources for the department to continue providing existing services. To ensure services were not negatively impacted, the Sustainability Fund is increasing its transfer by \$0.5 million to maintain positions and service levels. The Housing Trust Fund is also funding the personnel costs of five positions NHCD otherwise would be unable to support. Additionally, a net total of \$7.4 million was awarded in FY 2011-12 in new, one-time grant funding to help the department manage the impact from the ongoing grant reductions. Though these actions have minimized the negative impact to services in FY 2012-13, the department anticipates that grant funding will continue to be a challenge in FY 2013-14. More sustainable sources of funding for future years will need to be identified or programs and services may need to be reduced. The department, in conjunction with the corporate Budget Office, is planning to conduct a comprehensive review of its grant funded programs including funding options prior to the FY 2013-14 budget process.

Prior-Year Grant Funding

As mentioned above, due to a federal funding reduction experienced for the past two years, the department has taken a number of actions in order to fund existing programs, initiatives and personnel while expanding on programs in response to community needs. These actions have resulted in \$7.4 million in grant revenue for the department added in FY 2012. These opportunities and/or awards are summarized below:

- Award of \$1.6 million in Neighborhood Stabilization Program-Program Income funding made available through Texas Department of Housing and Community Affairs (TDHCA). These funds will be used for single-family construction for ownership and rental housing, providing for an alternate funding source to offset decreased federal funding.
- Award of \$5.5 million from HUD for new program dollars, including the Challenge Grant award for \$3.0 million and the Lead Hazard Reduction Grant for \$2.5 million. NHCD is administering these grant funds with no new full-time employees (FTEs). Staff has been reassigned to other program areas.
- Award of \$0.3 million from the U.S. Department of Health and Human Service for the Assets for Independence Demonstration program. The program will assist the department in furthering its financial empowerment initiative through the administration of an Individual Development Account (IDA) program.

As mentioned above, NHCD was awarded \$3.0 million for the Sustainable Communities Challenge Grant in November 2011 to be used as a 3-year planning grant for the Colony Park Sustainable Communities Initiative. This proposed Master Planned 208-acre development will incorporate best practice strategies for energy-efficient building design, water conservation and zero waste technology and standards to create a model sustainable and livable mixed-use, mixed-income community in East Austin. The project will include completion of a Master Plan, resulting in rezoning; engineering for subdivision and site planning for review and approval by the City of Austin; infrastructure construction plans and architectural design and plans

Budget Highlights

for new sustainable residential and commercial development. Through its outright ownership of this 208-acre tract of land, the City of Austin is in a unique position to mold this pilot project to be completely responsive to the Challenge Grant livability principles and to promote the community vision.

Capital Budget

The FY 2012-13 Budget does not include General Obligation (GO) Bonds due to successful rate at which the overall funds were committed since the launch of the Affordable Housing GO Bond Program. Funding approved by citizens in the 2006 GO Bond Election has provided a substantial increase in the City's ability to further housing affordability. NHCD has allocated roughly \$6.5 million for the past two fiscal years to help finance development that have created or retained affordable housing for both rental and ownership opportunities. These funds have also assisted hundreds of low-income homeowners with home repair services.

To date, NHCD has dedicated \$53.5 of the \$55.0 million to specific projects of the GO Bonds, with \$1.5 million expected to be dedicated in late summer. It is clear, however, there are still significant unmet housing needs for low- and extremely low-income households. In response to a serious community need identified, a home repair program was created using GO Bond funds to perform roof replacements and minor repairs on homes owned by low-income residents. Repairs are performed by community based non-profits. These repairs are critical to preserving the city's affordable housing stock.

Other Funds

Housing Trust

The Housing Trust Fund, established on April 20, 2000, is dedicated to preserving and creating reasonably priced housing in the city of Austin. It is managed by the Austin Housing Finance Corporation (AHFC), a part of NHCD. Per an FY 2000 resolution, the City Council dedicates 40% of all City property tax revenue (excluding TIFs) generated from developments built on City-owned lands to the Housing Trust Fund within the defined Desired Development Zone for affordable housing. The FY 2012-13 Budget includes a beginning balance of \$1.2 million and a \$0.6 million transfer in from the General Fund. The department anticipates \$1.3 million in expenses based on the estimated number of projects. Another \$0.5 million in personnel costs for five positions performing work on these projects are also included in the Budget.

University Neighborhood Overlay (UNO)–Housing Trust

The UNO Housing Trust Fund is also managed by the AHFC. The UNO District was established by Council on September 2, 2004 to increase the amount of rental housing that is available to households at or below 50% of the median family income in the area generally west of the University of Texas campus. In FY 2011-12, two requests were received from developers concerning this funding. This led to an increase in fees paid by developers bringing the total revenue to \$0.1 million. Expenses of \$0.3 million are also included in FY 2012-13. Budget does not include any planned projects, though funding will be available in the event a development does occur.

Item(s) Approved by Council at Budget Adoption

- Amend the proposed budget of the Neighborhood Housing and Community Development Department to increase the transfers in from the Sustainability Fund by \$287,930 and increase appropriations in the amount of \$287,930.

Neighborhood Housing & Community Development Significant Changes

NHCD Fund		
Revenue Changes	Dollars	
The Budget includes an increase of \$481,569 in the transfer from the Sustainability Fund in order to fully fund FY 2013 expenditures.		\$481,569
Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$36,375 for salary increases associated with wage adjustments in FY 2013. An additional \$5,526 is included in the Budget for increased City contributions for health insurance.		\$41,901
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$28,237
The Budget includes \$2,487 for wage adjustments associated with implementing the City's recently completed market study.		\$2,487
Community Development		
This program budget is decreasing a net of \$58,995 largely due to the reallocation of the Commercial Revitalization and Preservation funding to Support Services program.		(\$58,995)
The African American Cultural and Heritage Facility is opening in FY 2012. To annualize funding for the facility, one Administrative Senior position is transferring in from the Community Development Block Grant and additional ongoing operating costs are also included in the Budget.	1.00	\$93,100
Staffing and maintaining the Urban Renewal Agency, including outside legal counsel fees, insurance and property maintenance, requires an increase of \$116,000 in local funding for the Budget.		\$116,000
The Budget also includes ongoing funding for general building maintenance, including \$31,682 for the upkeep of the Connelly-Yerwood house.		\$31,682
Housing		
One position in the amount of \$80,104 is transferring to the Support Services program due to federal grant funding reductions in FY 2013. The personnel costs will be funded through the Housing Trust Fund resulting in zero budget impact to the Department through an expense refund of the same amount.	1.00	\$0
Support Services		
Budgets for planning activities for commercial revitalization and preservation, foreclosure prevention and Spanish homebuyer services are increasing by a total of \$148,572. A net reduction of \$162,387 for decreases to the Housing Authority of the City of Austin interlocal agreement and interdepartmental charges.		(\$13,815)
The educational travel Budget is increasing \$14,673 program wide.		\$14,673
One Administrative Specialist position is transferring to the Austin Fire Department (AFD) for the FY 2013 Budget. This is offset through a decrease in expense refunds of the same amount based on the full-time work this position was providing AFD during the prior year Budget.	(1.00)	\$0

Expenditure Changes	FTEs	Dollars
Four positions in the amount of \$385,060 are transferring to the Support Services program due to federal grant funding reductions in FY 2013. The personnel costs will be funded through the Housing Trust Fund resulting in zero budget impact to the Department through an expense refund of the same amount.	4.00	\$0

Housing Trust Fund

Revenue Changes	Dollars
The Budget includes an increase of \$237,101 in the transfer from the General Fund based on estimate of property values.	\$237,101

Expenditure Changes	FTEs	Dollars
The program requirements are decreasing to bring the budget back in line with historical spending levels based on the estimated number of projects. This is partially offset with an increase in personnel costs of \$92,354 for one position that will be fully funded by the Housing Trust Fund through an expense refund.		(\$554,333)
Four positions are transferring to the Neighborhood Housing and Community Development Office due to federal grant funding reductions in FY 2013. Their personnel costs of \$465,164 will be fully funded by the Housing Trust Fund through an expense refund.		\$465,164

University Neighborhood Overlay - Housing Trust Fund

Expenditure Changes	FTEs	Dollars
The program requirements are increasing based on a higher number of anticipated developments occurring than in the previous year.		\$49,513

Grants

The Community Development Block Grant (CDBG) award is decreasing in the amount of \$185,108 for the FY 2013 Budget. This amount has been offset by the reduction of public services, administrative funds, and debt service due to refinancing of the east 11th and 12th Street Section 108 loan. In addition, four positions have been transferred to the Neighborhood Housing and Community Development Department due to this decrease in federal grant funding.	(4.00)	(\$185,108)
The HOME Investment Partnership grant award is decreasing in the amount of \$1,587,962 for the FY 2013 Budget. This includes one position being transferred to the Neighborhood Housing and Community Development Department due to this decrease in federal grant funding.	(1.00)	(\$1,587,962)
The African American Cultural and Heritage Facility is opening in FY 2012. One Administrative Senior position is transferring in from the Community Block Development Grant to provide staffing for this facility.	(1.00)	(\$53,321)

The following change was approved by Council at Budget Adoption:

Increase the transfers in from the Sustainability Fund to the Neighborhood Housing and Community Development Fund by \$287,930 and increase appropriations in the amount of \$287,930.		\$287,930

Parks and Recreation

Mission and Goals for 2013

Mission

To provide, protect and preserve a park system that promotes quality recreational, cultural, and outdoor experiences for the Austin community.

Goals

Provide safe and accessible parks and facilities to all citizens:

- Ensure a 70% average patron safety rating.
- Reduce the number of reported employee injuries by 10%.

Provide diversity and sufficiency of recreational opportunities for the community:

- Maintain the customer quality rating of athletic programs at 95%.
- Increase the number of registered participants in senior programs by 1% annually.
- Increase the percent of users satisfied with recreation services by 2% annually.
- Increase youth participating in out of school time activities by 1% annually.
- Increase the participants enrolled in outdoor activities by 1% annually.

Design and maintain environmentally sustainable parks and facilities:

- Increase the number of public trees planted to 5,000.
- Maintain the percent of participants who indicate an increase of environmental awareness at 95%.
- Decrease PARD's average annual carbon footprint by 5% over five years.

Foster collaboration, coordination, and partnerships throughout the community:

- Achieve 5 newly developed public/private partnerships.
- Increase the number of participants in needs assessment activities by 1% each year.

Parks and Recreation

Message from the Director

The Parks and Recreation Department (PARC) remains committed to providing quality programs, parks, and facilities for the Austin community. Parks not only contribute to a higher quality of life, but they encourage people to spend time outdoors and exercise. Parks also increase the value of homes that are located within a radius around a park. Finally, parks create a large positive economic impact to a city, especially where events, festivals, trails and off-leash areas are created.

For FY 2012-13, the Department will continue its implementation of the citizen input planning process of community issues, as well as the assessment of community desires, opportunities and demands as they relate to service delivery. The Department will also continue to focus on creating public-private partnerships, high quality service delivery through program standardization, better contract compliance management and the Youth and Families Initiative. As part of the Youth and Families Initiative the Parks and Recreation Department, along with the Health and Human Services Department and the City of Austin Youth and Family Services Coordinator, are collaborating to comprehensively and systematically analyze the numerous youth and family programs offered by the City of Austin departments. This analysis includes the categorization of service, documenting program outcomes, mapping service areas, determining services gaps, and determining costs of services and subsequently determining return on investment. Future work associated with this initiative will include the establishment of youth service values as they relate to program quality and program capacity.

The FY 2012-13 Budget addresses the following three key areas: Park & Facility Maintenance; Community Services; and Planning & Development. The key additions to the operating budget include the Asian American Resource Center, Genealogy Center, Nash Hernandez Building remodel, Krieg Field facility expansion, Austin Nature Center security system, facility maintenance requirements, and the addition of parks and trailheads in the Northwest, Northeast, and South Districts.

The Department also will complete an array of capital and acquisition projects in FY 2012-13, which include the Del Curto Neighborhood Parks, Copperfield Neighborhood Park, Southern Walnut Creek Trail, Allen Park, Roy G. Guerrero Metropolitan Park, Alderbrook Neighborhood Park, Parker Lane Neighborhood Park, Trail Head at Auditorium Shores, Bartholomew Pool, North Austin Recreation Center (YMCA), Park Ranger Headquarters at Zilker Caretaker Residence, and the Conley-Guerrero Senior Activity Center Renovations.

As we enter FY 2013, the Parks and Recreation Department will continue to streamline business processes along with managing our limited resources in an innovative and creative fashion. Parks and Recreation is the foundation of what builds community, defines culture and enhances the quality of life for our city. Therefore, we will strive to continue to maintain a safe, high-quality physical environment while strengthening youth and family recreational opportunities.

Sara Hensley, Director

Budget Highlights

Parks and Facilities

The Grounds Maintenance Division focused on core services of park maintenance and operations during 2012. Due to the drought and extreme heat, staff was redirected to remove brush and trim trees in the parks and in many of our greenbelts and open spaces to reduce the amount of fuel to mitigate the threat of wild fire. In total, staff cleared over fifty sites and removed over 150 cubic yards of brush.

Department staff also supported many special events such as Cinco de Mayo and Juneteenth by setting up equipment and performing general cleaning. Staff also spearheaded several volunteer days such as "It's My Park Day," and supported numerous "Adopt a Park" agreements with man power and equipment.

The Community Recreation Centers Division is actively supporting the establishment of community gardens at the various recreational facilities. The first of these community gardens was created at Dove Springs Recreation Center where staff and volunteers built two (8 feet x 4 feet) raised beds. These gardens have been filled with organic materials and constructed with garden friendly supplies as outlined in the City of Austin community garden guide. The Department recognizes the importance and the need for community gardens on public land. Such gardens provide

individuals and families with the opportunity to grow their own nutritious and affordable food, contribute to healthy lifestyles by encouraging physical activity, connect urban dwellers with nature and the source of their food, and create opportunities for community bonding through commitment to a common interest. The gardens also provide invaluable habitat for native wildlife, including songbirds, butterflies and other pollinators. Future community gardens are planned for Gus Garcia Recreation Center and the Oswaldo "A.B." Cantu-Pan American Recreation Center. They are expected to be complete by the end of 2012.

Golf Enterprise

As a result of improved course conditions and a warm weather pattern, the Golf Division has seen an increase in rounds and revenue over the past 12 months. Completed improvements include a renovation and repair to the Lions Golf Course liner, wet well and pump system; tree management at multiple courses; and cart path repairs at Roy Kizer Golf Course. The Morris Williams Golf Course closed in early February and will undergo a complete greens, tees and fairways renovation. The project is being completed by Golf Division staff. The construction of a new two-story clubhouse and cart barn will coincide with the golf course renovations. While it was predicted the closure of Morris Williams would impact total revenue, to date the increase in play at the other City courses has resulted in no significant impact to the overall operating fund. The Golf Division will also undertake an irrigation replacement project at Hancock Golf Course in the summer of 2012, making it possible to utilize reclaimed water for irrigation. This improvement will be completed with Golf Division staff and will significantly reduce the use of potable water and result in improved playing conditions for this historic golf course.

Grants

Despite limited budgets at the State and Federal level, many of PARD's grant programs are expected to continue during FY 2012-13. Some of these programs include the Kid's Café, which provides meals to students during out-of-school months, as well as the Senior Transportation Program, which provides rides to meal sites, stores, social events and medical appointments. Anticipated grants from the Institute for Museum and Library Sciences will provide funding for professional development and support at the Carver Museum Genealogy Center and conservation and care for the collection at the Elizabeth Ney Museum. An additional anticipated grant will support programs that provide wildfire mitigation in parkland and preserve sites in Austin.

Key Performance

According to the 2011 Austin Citizen Survey, in the category of 'overall quality/satisfaction with parks and recreation,' the Parks and Recreation Department ranked #1 when compared to other large U.S. cities. The Department has enjoyed a satisfaction rating of 74%, eight points above the national average among large cities in a national comparison. Austin also achieved a national #1 ranking in 'satisfaction with parks and recreation programs/facilities' as well as a higher satisfaction rating for the 'number of walking/biking trails,' and 'overall satisfaction with city swimming pools.'

Additionally, in the 2011 City of Austin Citizen Survey, 70% of respondents were satisfied with the recreation services the Parks and Recreation Department offers. This equaled our goal set for fiscal year 2011 at 70%. This result is a decrease of 1% from last years’ survey result, and is a decrease of 5% from FY 2008-09. Our goal for 2012 is 73%.

To create a better product for our citizens, the Department has an organized initiative to establish centralized programs (i.e. centralized standards and best practices applied across the entire Departments’ programs and services). The key areas of focus are to: 1) provide set standards; 2) provide consistent training; and 3) provide equitable resources. The goal is to create a uniform set of standards and practices across the various programs and recreation services to realize uniform levels of quality across the city.

Budget Additions

In the FY 2012-13 Budget, more than \$0.6 million in funding has been included for additional preventive maintenance contracts and repairs at some of the City’s oldest and most in need recreation centers. This funding will allow for repairs of flooring, roofing and siding, as well as for American with Disability Act (ADA) compliance for sidewalks and entry doors at the following East Austin recreation centers: Rosewood, Dove Springs, Givens, Virginia Brown, Cantu Pan-American, Dottie Jordan, and Alamo. The Budget also includes one Contract Administrator position in Support Services to provide additional contract compliance oversight for the Department.

Additionally, the FY 2012-13 Budget includes \$220 thousand in funding for specialty camps and recreational programming in the History Arts and Nature Division to meet community demand for programs at the Austin Nature Center, the Dougherty Arts Center and the Mexican American Cultural Center. The Budget also includes 1.5 positions and funding to implement the Latino Arts Program at the Mexican American Cultural Center. The additional personnel and supplies will allow the Center to offer more services to community members.

The Asian American Resource Center (AARC) is scheduled to open in April 2013 in Northeast Austin. Funding for the center includes six full-time positions, temporary personnel, and equipment and supplies. Full-year operating funding will total \$0.65 million. The AARC mission is to provide a place where members of Austin’s Asian-American community can proudly express their cultural background and house their economic and educational interests, while reinforcing the City’s reputation for ethnic diversity. The vision is to build a resource center that will increase commerce and showcase the best of Asian culture, allowing the community to educate, congregate, and celebrate its heritage. The intent of the AARC is to provide much needed classrooms, library/information center, community activity center, assembly hall cultural exhibition and display spaces celebrating all Asian cultures under one roof, plus serve as an economic and educational catalyst for the region.

The George Washington Carver Museum & Cultural Center (GWMCC) is preparing to open the Genealogy Center housed in the historic library building that was relocated to East Austin on the GWMCC campus. The

\$150 thousand operating budget funds 1.5 full-time positions and supplies. It will serve as the physical resource to the community on genealogy research and preservation focusing on, but not limited to, persons of African descent. The Center will be a portal of comprehensive information and resource of reference materials on the history of persons of African descent. The Center will serve as a place to explore, excite and educate the importance of your ancestral linkage. It will also be a place to network, preserve, and celebrate community heritage. It will be open to anyone seeking to learn more about whom they are and where they came from. It will have programming that will focus on seniors and the intergenerational experiences.

The Nash Hernandez facility located in Central East Austin is a City-owned building that was formerly occupied by the Austin Fire Department and Labor Relations. Once completed, the renovated building will house the Aquatics and Program Administrative staff for PARD.

The FY 2012-13 Budget includes funding for several new or expanded park areas:

- Alderbrook (Lamplight) Park is a 2-acre park acquired with 2006 Bond funds for the infill park acquisition and development plan. Services include trails, picnic areas, and restrooms.
- South Walnut Creek Park and Trailheads are located from Jonny Morris Road/Daffan Lane to Govalle Neighborhood Park. This 7-mile creek system is one of the longest in the Austin area with numerous parks along its banks. The objective is to link these spaces into a contiguous greenway trail system.
- Allen Park is a 15-acre site acquired from Travis County. The City will take over operations of the park in October 2012.
- The expansion of services to the Yett Creek Park will include a 40-acre dog park, trail, and picnic area.
- Del Curto is a 2-acre park which has been enhanced to include a playscape, picnic area, walking trails, drinking fountains, and basketball courts.
- Parker Lane is a 2-acre high profile park that was acquired in 2012 with 2006 Bond funds for infill park acquisition and development. Amenities include trails, picnic areas, and playgrounds.
- FM 969 (John Trevino Jr. Metro Park at Morrison Ranch) is a former cattle ranch that was purchased to acquire land along the Colorado River for preservation and recreational purposes.
- Copperfield Neighborhood Park is a 9-acre park which occupies a portion of tracts that make up the Walnut Creek Greenbelt.

Capital Budget and One-Time Critical Equipment

In April 2012, the Trail Foundation completed the renovation of Johnson Creek to give it the beauty and functionality that the trail and its enthusiasts deserve. This project is a high-priority multiphase enhancement because it is a key gathering place and a major trailhead. Auditorium Shores and Butler Park at Town Lake Metropolitan Park plan will be moving into phases 3 and 4 of construction. Plans include a new trailhead, new restroom facilities, workout areas, parking expansion and gazebo/pavilion. In addition, a replacement off-leash area will be built on the west end of Auditorium Shores. Amenities will include play areas, water access and mulched areas.

The Aquatic Division accomplished major renovations to the historic Deep Eddy Pool in 2012. Deep Eddy Pool was constructed nearly 100 years ago and until this year, has only received minor repair work. By hosting several community meetings and gathering stakeholder input, a design for the facility was developed. The facility was reopened in time for the summer season and has been enjoyed by many residents and visitors. The Aquatic Division also completed the renovation of Rosewood Pool. Rosewood pool was constructed in 1932 and received a major facelift which includes the replacement of the pool deck, return lines, and tiles. Additionally, the Aquatic Division worked diligently to ensure that all swimming pools were upgraded with ADA access.

The FY 2012-13 Capital Budget includes a spending plan of \$30.1 million, the majority of which is from the City's 2006 Bond Program. This spending includes improvements to the Conley-Guerrero Senior Activity Center, renovation of Bartholomew pool, trail improvements near the Shoal Creek Greenbelt, a new playscape at Dove Springs Park and many other projects. There is also a capital grant from the Texas Parks and Wildlife Urban Outdoor Recreation program for \$1 million for improvements at Auditorium Shores. The Budget also includes \$388,600 for one-time critical equipment including vehicles and brush chippers for park maintenance, recreational equipment for facilities, and furniture and fixtures for the Asian American Resource Center.

Items Approved by Council at Budget Adoption

- Amend the proposed budget by adding a 0.5 FTE and increasing appropriations by \$21,731 for maintenance at Plaza Saltillo and increasing PARD's revenue budget by \$21,731 for fee changes at Plaza Saltillo.
- Amend the proposed budget by increasing appropriations in the amount of \$95,535 for the PARD Roving Leader Program, and adding 1.0 new FTE.
- Amend the proposed budget for the Parks and Recreation Department by adding 1.0 FTE to provide for increased maintenance for Umlauf Garden.
- Increased appropriations for the Barton Springs Pool CIP project in the amount of \$71,689.

Parks and Recreation

Significant Changes

General Fund

Revenue Changes

Dollars

The Budget includes a \$109,356 decrease in revenue from the elimination of the Trail of Lights 5K Run; a \$71,181 decrease in Softball slow pitch league and Softball field rental play, and a \$98,913 decrease in PARD registration fees and various other charges. PARD expects an increase in revenue of \$194,527 from facility rentals, entry fees, and boat concession sales. (\$84,923)

The following items were approved by Council at Budget Adoption:

The Budget includes an increase in venue rental revenue from changes in the Plaza Saltillo fee schedule. \$21,731

Expenditure Changes

FTEs

Dollars

Citywide

The Budget includes \$765,026 for salary increases associated with employee wage adjustments in FY 2013. An additional \$168,790 is included in the Budget for increased City contributions for health insurance. \$933,816

The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level. \$2,222,762

The Budget includes \$648,324 for wage adjustments associated with implementing the City's recently completed market study. \$648,324

There is a decrease of \$15,296 for fuel and an increase of \$213,599 for vehicle maintenance. \$198,303

Community Services

There is a decrease of one-time costs from FY 2012 for PARD's portion of the St. John Community Center Maintenance Interlocal Agreement with Austin Independent School District. (\$10,137)

Full-year funding is added for contractals and commodities needed for maintenance and turf management at the Krieg Field expansion including seeding, fertilization, sodding, and field preparation for 11 newly-renovated softball fields, 4 newly-added volleyball fields and 1 new multipurpose field. \$15,000

The Budget includes partial-year funding for 6 positions to staff the new Asian American Resource Center slated to open in April 2013. Three Cultural Arts positions are needed for the facility that includes a language book library, classrooms, activity center, and cultural exhibition space. Also added is an Event Coordinator, an Administrative Specialist, and a Building Grounds Assistant, funding for temporary employees and for commodities and contractals to run the center. 6.00 \$493,925

The Budget also includes funding for the installation and annual maintenance of a new fire protection and security system for the Austin Nature Center Wildlife Building. \$4,200

Funding is allocated for staffing the Genealogy Center in the newly-renovated historic building at the Carver property, slated to open January 2013. Full-year funding includes a Museum Site Coordinator, an Administrative Specialist and related commodities and contractals. 2.00 \$149,593

Expenditure Changes	FTEs	Dollars
The Budget also includes full-year funding for Phase I implementation of the Latino Arts Residency program at the Mexican American Cultural Center. One Cultural Arts Coordinator and a part-time Exhibit Specialist are included, as well as funding for supplies.	1.50	\$138,581
The Budget includes additional funding for the History Arts and Nature Division to bring specialty programming up to demand levels at the Austin Nature Center, the Dougherty Arts Center and the Mexican American Cultural Center. Funding includes temporary personnel and supplies.		\$219,650
Additional funding is required in the Aquatics Division for pool operations, including chemicals and utilities.		\$37,500
PARD is renovating the Nash Hernandez building to house Aquatics and Program administrative staff. Funding is required for a part-time Building and Grounds Assistant for 11 pay periods. Commodities and contractals are also needed to supply and service the facility.	0.50	\$40,732
The Budget includes \$20,000 for wages for temporary employees to staff the new multipurpose facility addition at Turner Roberts Recreation Center.		\$20,000
Midnight Basketball is increasing \$40,000 to expand the program from eight months to year-round.		\$40,000
Parks, Planning, Development & Operations		
The Northwest District Parks Grounds Maintenance requires the addition of two Parks Grounds Assistant positions along with commodities and contractals to maintain new amenities including 8 miles of Southern Walnut Creek Trail and trailheads, 2 acres at Alderbrook Park, 15 acres at Allen Park and the addition of an off-leash dog area at Yett Creek Park.	2.00	\$189,993
The South District Parks Grounds Maintenance requires the addition of one Parks Grounds Assistant position along with commodities and contractals to maintain new amenities at a 2-acre pocket park at Parker Lane and another 2-acre pocket park at Del Curto. The increase includes maintenance of walking trails, picnic areas, playgrounds, basketball courts, restrooms, drinking fountains, as well as trash removal, mowing, and tree care.	1.00	\$76,534
The Northeast District Parks Grounds Maintenance requires the addition of one Parks Grounds Assistant position along with commodities and contractals to maintain new amenities for a 65-acre park located near FM 969, and the 9-acre Copperfield Park. Includes maintenance of trails, picnic areas, playgrounds, multi-purpose fields, restrooms, drinking fountains, parking lot, mowing, and tree care.	1.00	\$82,584
Increased funding is required on existing City contracts for maintenance of park facilities. Funding will cover increased costs for inspections and maintenance which is required by adoption of State and local code requirements. These include \$12,938 for backflow prevention inspection, \$10,990 for electrical systems inspection, \$78,000 for fire protection systems inspection, and \$50,000 for boiler inspections and maintenance.		\$151,928
Additional funding for facility maintenance and repair contracts is included for some of the City's oldest recreation centers in East Austin. Rosewood \$123,000; Dove Springs \$55,000; Givens \$145,000; Virginia Brown \$40,000; Cantu Pan-American \$45,000; Dottie Jordan \$20,000; Alamo \$50,000; and \$22,000 for permits and fees.		\$500,000
The Budget includes the annualized cost of adding 1 Landscape Architect II for community projects in an FY 2011-12 budget amendment from the dais.		\$25,966
The Budget also includes an increase for purchase of lake buoys and signs for lake areas.		\$5,000
The Budget includes a reduction in rent at the Rutherford Lane facility.		(\$7,539)

Expenditure Changes	FTEs	Dollars
Support Services		
One System Support Technician position is being transferred from PARD to Communications and Technology Management.	(1.00)	(\$85,932)
One Contract Administrator is added to the Budget for enhancing contract compliance.	1.00	\$88,037
The following items were approved by Council at Budget Adoption:		
The Budget includes 0.5 Parks Grounds Specialist for assisting with facility rental set-up and maintenance at Plaza Saltillo.	0.50	\$21,731
Council added 1.0 Maintenance Worker for the Umlauf property maintenance. Funding is absorbed in the Facility Maintenance budget.	1.00	\$0
Council increased the Budget for 1.0 Recreation Program Specialist, temporary staff, commodities and contractuels for the Roving Leader program.	1.00	\$95,535

Golf Enterprise Fund

Revenue Changes	Dollars
The Budget includes an increase in revenue from the following sources: an increase of \$94,049 in Golf green fees from various facilities; an increase of \$48,980 from food concessions; an increase of \$29,711 from various other charges; an increase of \$21,553 from Golf cart rentals; an increase of \$10,149 from range sales; an increase of \$8,979 from athletic sales; an increase of \$2,084 from muni lease fee surcharge; an increase of \$1,704 in PARD annual fees, and a decrease of \$14,904 in other concession sales.	\$202,305

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$48,832 for salary increases associated with wage adjustments in FY 2013. An additional \$10,131 is included in the Budget for increased City contributions for health insurance.		\$58,963
The Budget includes an increase of \$30,381 for fuel and a decrease of \$2,677 for vehicle maintenance.		\$27,704
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$15,745
The Budget includes \$23,890 for wage adjustments associated with implementing the City's recently completed market study.		\$23,890
Golf		
The Budget includes \$56,000 for pay increases for temporary employees at the Clay Kizer Pro Shop to align with the Golf industry. Additional revenue generated will help sustain the increase in temporary payroll.		\$56,000
The Budget also includes \$139,920 for operations of the Hancock Pro Shop. The Golf Division assumed the daily operations of the pro shop in February 2012.		\$139,920
Due to an increase in the rate of reclaimed water, the Budget includes \$12,000 at Jimmy Clay and Roy Kizer Golf Courses.		\$12,000
To help maintain a high quality golf course for the public, the Budget also includes \$108,800 for temporary employees to assist in maintaining the 200-acre Morris Williams Golf Course including mowing, aerification, fertilization, weed control, and manicuring the golf course.		\$108,700

Expenditure Changes	FTEs	Dollars
The Budget includes \$18,000 for pay increases for temporary employees at the Morris Williams Pro Shop to align with Golf industry. Revenue generated will help sustain the increase in temporary payroll.		\$18,000
Transfers and Other Requirements		
The transfer to the Communications and Technology Management Fund is decreasing by \$35,257 in FY 2012-13.		(\$35,257)
The Budget includes an increase of \$2,185 for Administrative Support Services, a decrease of \$2,286 for Workers Compensation, and an increase of \$6,151 for Accrued Payroll.		\$6,050
There is an increase of \$129,721 to repay debt used to purchase approximately 300 replacement Golf carts.		\$129,721

Austin Transportation Mission and Goals for 2013

Mission

The mission of the Austin Transportation Department is to deliver a safe, reliable and sustainable transportation system that enhances the environment and economic strength of the region while conducting business in a customer focused and transparent manner.

Goals

Establish Austin as having the safest transportation system in the state.

- Conduct road safety audits for the top 25 accident locations within Austin each year and investigate all fatal crashes and implement appropriate solutions.
- Maintain the number of incidents in work zones within the right-of-way at zero.
- Facilitate and plan special events without major incidents or injury to guests.

Optimize roadway throughput for all roadway users by coordinating system improvements.

- Increase the percent of residents "satisfied" or "very satisfied" with the traffic signal timing on major city streets to more than 44%.
- Perform maintenance on 10% of traffic sign inventory annually.
- Re-stripe 50% of center line miles on arterials and collectors annually.
- Reduce travel time by at least 5% at key intersections and arterials addressed.
- Reduce the percentage of per capita use of private automobiles by increasing the use of alternative modes of transportation.

Institute a proactive approach to transportation planning, traffic engineering, and traffic control.

- Reduce the number of device-oriented, e.g. (signs, signals, meters) citizen requests by 10%.
- Increase the percent of residents "satisfied" or "very satisfied" with the traffic flow on major city streets from 27% to 39%.
- Perform preventative maintenance on all school zone-indicator signals.

Austin Transportation

Message from the Director

Your Austin Transportation Department (ATD) serves the citizens of Austin as their advocate for improved mobility throughout our region. In the past year, ATD has sought to strengthen its focus on regional multi-modal mobility issues that affect the current and future health of our community. We have continued to refine our strategic approach towards addressing our significant transportation challenges within the Austin region.

Since our establishment in FY 2008-09, we have sought to analyze and understand our city's significant mobility challenge – routinely identified by the Greater Austin Chamber of Commerce as the top challenge to the long-term sustainability of this region. Working with our partner transportation agencies within the Capital Area Metropolitan Planning Organization, we have helped the community to understand that our region suffers from a severe deficit in mobility capacity. Simply put, our region's transportation infrastructure (roads, transit, pedestrian and bicycle networks) are not sufficient to meet current travel demands nor are they sufficient to meet our future demands as our population doubles over the next 30 to 40 years. This deficit in mobility capacity, directly contributes to the increasing unaffordability of our community due to the increasing pressure on close-in real estate markets to meet the increasing demands, thus leading to sprawl.

ATD is pursuing a strategic approach to meeting our region's mobility needs. We know that the identified capacity deficit creates a ring of congestion surrounding our community's core (central Austin, the University District, Capitol Complex, and Downtown Austin). We also know that within that core area, the ability to widen existing roadway infrastructure is severely limited due to existing land use developments, cultural resources, and a lack of community support. ATD's approach is to advocate for projects that complete the regional mobility grid in the outer transportation network to better allow trips not destined for the core to travel around the community, avoiding those portions of the network that demonstrate our greatest capacity deficit. At the same time, ATD will continue to advocate for mobility projects that focus on moving people rather than simply vehicles, into and out of our region's core in a manner that reflects our community values as identified in the Imagine Austin Comprehensive Plan. This means focusing our efforts on infrastructure projects that emphasize the use of transit, van and carpool, pedestrian, and bicycle options for reaching centrally located activities.

In the past year, we have worked to deploy the 2010 Mobility Bond Program, advancing a number of significant corridor development efforts such as the IH 35 Corridor Project, which has received statewide and national recognition. Likewise, we have developed corridor plans for Airport Boulevard, Riverside Drive, and Lamar/Burnet. We are also successfully working with the Union Pacific Railroad to finally bring quiet zones to the MOPAC rail corridor so that our surrounding neighborhoods will be less impacted by freight activities.

In addition to the Bond Program, ATD is the City of Austin's lead in developing an Urban Rail proposal for our community. This past year, we worked with our regional partners (Lone Star Rail and Capital Metro) to develop an update to the regional high capacity transit system known as Project Connect. Specifically on Urban Rail, we brought to Council a recommendation on prioritized elements of an Urban Rail system plan. In the coming fiscal year, we will continue our work to refine the plan and will complete the formal alternatives analysis and environmental process necessary to apply for Federal New Starts grant funding.

In the following pages, budget highlights for ATD's FY 2012-13 Budget are provided. With this budget, ATD anticipates continued improvements throughout the transportation portfolio, including in our signal/arterial management, parking management, right-of-way and event management programs; as well as in our more traditional roadway signs, markings, project development and traffic engineering responsibilities.

Robert Spillar, P.E.
Transportation Director

Budget Highlights

Revenue

The Austin Transportation Department (ATD) draws its operating funds from four revenue sources: Transportation User Fees (TUF), Right-of-Way Management (ROW) fees through the One Stop Shop, management and enforcement of parking policies, and a General Fund transfer for non-TUF eligible activities.

For the FY 2012-13 Budget, revenue is increasing by a total of \$1.0 million, mainly due to the reallocation of the General Fund transfer from the Public Works Department. Revenue based on greater private development construction and fees derived through the ROW Management group are increasing for the FY 2012-13 Budget. A new barricade inspection fee will increase revenue while offsetting the transfer of valet parking operations revenue into the Parking Management Fund.

Traffic Management

One of ATD's FY 2012-13 goals is to increase the percent of residents "satisfied" or "very satisfied" with the traffic signal timing and traffic flow on major city. Traffic flow, as illustrated in the below chart, has a national goal of 39% which ATD is working toward. One of the major initiatives will be a continuation from FY 2011-12 of retimed downtown traffic signals, which will result in reducing roadway congestion, resulting in enhanced mobility, improved safety and reduced fuel consumption and environmental costs. Additional increases in the Traffic Management program include increased costs of \$0.2 million for materials such as thermoplastic markings and propane fuel needed for installation.

The FY 2012-13 Budget also includes the reclassification of one full-time Managing Engineer position, which will be used to move the Transportation Department towards a state-of-the-art Arterial Operations focused organization. This will allow the division to be strategic and proactive rather than remain a reactive signals-only organization. Additionally, the street banner program is transferring from Austin Energy to ATD in FY 2012-13. To implement this program, two new positions are being added in the amount of \$0.1 million to install and remove these banners.

Support Services

The Support Services program provides the administrative, financial and human resources support to the department. To enhance these services, the Budget for FY 2012-13 includes the addition of one full-time Business Process Consultant to assist with long range and strategic business planning efforts. Also included is one full-time Public Information Specialist to assist with community engagement and information on transportation issues. A total of \$0.1 million is needed for the personnel costs for these new positions.

Capital Budget

The ATD Capital Improvement Program (CIP) seeks to improve mobility for the citizens and visitors of the city, maintain our city traffic signal system, and effectively operate the parking management program. The Capital Budget for FY 2012-13 includes a total appropriation of \$2.5 million. This includes funding for Urban Rail planning, implementing wayfinding, and other citywide transportation initiatives.

Other Funds

Parking Management Fund

This fund realizes all its revenue from pay stations, parking meters, and transportation permitting from taxicabs, chauffeurs and limousines. In the FY 2012-13 Budget, total parking revenue is increasing approximately \$0.5 million based largely on revenue from parking fees and the Car2Go program.

Additionally, revenue realized by the fund is to be reinvested back into the transportation system and in the downtown area. A total of \$2.5 million is transferring to the Capital Budget to provide increased funding for studying urban rail, implementation of the second phase of wayfinding, and other various downtown and transportation initiatives. To assist with these transportation initiatives, \$0.2 million is included in the FY 2012-13 Budget for 2.50 temporary employees. These temporary employees will provide community outreach, develop communication materials, and create graphic designs for public documents for both urban rail and Project Connect, the multi-jurisdictional effort to coordinate transportation issues,

The FY 2012-13 Budget also includes increasing administrative and program support including one new Ground Transportation Officer position and one part-time Administrative Specialist position and related costs in the Vehicles for Hire unit to assist with valet parking enforcement. The FY 2012-13 budget also includes the purchase of one SUV hybrid vehicle for the Ground Transportation Officer and two replacement vehicles in the Parking Enforcement program. Lastly, funding of \$0.2 million for two Environmental Program Coordinator positions, which transferred from Austin Energy Department in FY 2011-12 for the Clean Air Program, is now being included in the FY 2012-13 Budget.

Item(s) Approved by Council at Budget Adoption

- Decrease the transfer in the Parking Management Fund to the Great Streets CIP in the amount of \$783,019.

Austin Transportation Significant Changes

Transportation Fund

Revenue Changes Dollars

The Budget includes an increase of \$102,448 for revenue from increased after hours inspection fees, new capital improvement project barricade inspection fees, license agreement revenue and general permitting and inspection. \$102,448

The Budget includes an allocation of \$850,629 for revenue from the General Fund transfer being reallocated to the Austin Transportation Department based on an analysis of Transportation User Fee eligible projects. \$850,629

Expenditure Changes FTEs Dollars

Citywide

The Budget includes \$200,864 for salary increases associated with wage adjustments in FY 2013. An additional \$36,533 is included in the Budget for increased City contributions for health insurance. \$237,397

The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. \$129,341

In previous years, the Public Works Department budgeted the entire supplemental pension funding for the Employees' Retirement System for the Austin Transportation Department (ATD). This funding is being reallocated to ATD for the Budget, thereby reducing the total pension budget. \$555,188

Traffic Management

This Budget includes an increase of \$44,772 for the annualized costs of adding a new markings crew added in the prior year Budget. \$44,772

Included in the Budget is an increase of \$166,000 for the purchase of additional thermoplastic markings material and propane fuel needed for its installation. This increase annualizes the materials cost of the markings crew added last year. \$166,000

A total of \$98,642 will be reimbursed by the Parking Management Fund for markings installation related to striping parking spaces. (\$98,642)

For the Transportation Engineering activity, the Budget includes a reduction of \$45,000 for prior year retirements and additional reductions for the one-time purchase of minor tools, equipment and computer hardware. (\$86,000)

The Budget also includes an increase in expense refunds for work associated with reviewing street parking signs and markings for compliance with all codes and ordinances. (\$108,642)

The Traffic Signs activity is assuming the tasks for installing and removing street banners from Austin Energy. The street banner function requires two new positions for implementation. 2.00 \$117,255

Expenditure Changes	FTEs	Dollars
The Traffic Management Program has a net reduction of \$223,000 for a one-time expense for security improvements at the service center on Toomey Road and reduction in capital for prior-year vehicle purchases.		(\$223,000)
The Traffic Signals program is reclassifying an Engineer C position to a Managing Engineer position for a net impact of \$22,972.		\$22,972
The Budget reflects the backing out of costs for replacing computer hardware and one vehicle purchased in the prior year.		(\$55,566)
Transportation Project Development		
The Budget includes a decrease in CIP reimbursements of \$65,000 for work related to the 2010 Strategic Mobility Bond.		\$65,000
Personnel savings for this program are decreasing due to the program anticipating no vacancies occurring during the FY 2013 Budget.		\$58,143
One Stop Shop		
The One Stop Shop includes an interdepartmental charge for services provided to the Parking Management Fund		(\$60,000)
The Budget includes a decrease of \$35,000 for a vehicle purchased in the prior year.		(\$35,000)
This Budget also includes an increase of \$85,908 in lease costs for the co-location of the Office of Special Events with other City departments to streamline the City event planning and logistics.		\$85,908
Support Services		
The Support Services program has an increase of one position for a Business Process Consultant to assist with long range and strategic business efforts. This position will be reimbursed from the Parking Management Fund for 50% of the position cost.	1.00	\$48,101
This program also includes one new Public Information Specialist to assist with community engagement and information on transportation issues.	1.00	\$71,713
The Budget also includes a reduction of \$6,000 for prior year computer hardware purchases.		(\$6,000)

Parking Management Fund

Revenue Changes	Dollars	
The Budget includes an increase of \$58,640 for revenue from parking pay station and meter revenue based on prior year collections from pay stations.		\$58,640
The Budget includes an increase of \$358,400 for revenue from the Austin Car Share program.		\$358,400
The Budget includes an increase of \$10,000 for revenue from interest earned.		\$10,000
The Budget includes an increase of \$58,541 for revenue from an increase in transportation permits for limousine licenses.		\$58,541

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$53,757 for salary increases associated with wage adjustments in FY 2013. An additional \$14,122 is included in the Budget for increased City contributions for health insurance.		\$67,879
The Budget includes \$2,959 for wage adjustments associated with implementing the City's recently completed market study.		\$2,959
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$33,363
Parking Enterprise		
Included in this Budget is the addition of one new Ground Transportation Officer position and uniform costs in the Vehicles for Hire unit to assist with valet parking enforcement.	1.00	\$49,880
This Budget includes the addition of a 0.5 Administrative Specialist and related computer and office costs to assist with the vehicles for hire and valet parking program.	0.50	\$31,195
Based on the work in public information services needed for urban rail and Project Connect, \$200,000 for temporary employees is included in the Budget.		\$200,000
Terminal pay for an anticipated retirements, two replacement vehicles and budgets for increased telephone communications costs due to an increase of 150 pay stations are included in the Budget. This is partially offset with a reduction in expenses for consultants and spare meter parts.		\$163,500
The Parking Management program also has an increase of \$48,101 to reimburse 50% of the cost for a Business Process Consultant position in the Austin Transportation Department.		\$48,101
Interdepartmental charges are increasing by \$295,828 for engineering, signs and marking support provided to the Austin Transportation Department.		\$295,828
A net reduction in interdepartmental charges of \$221,027 is included in the Budget for two positions related to the City's Clean Air program that transferred from Austin Energy to the Transportation Department in the FY 2012 Budget and two temporary public information positions working on urban rail.		\$221,027
Cost for fleet and fuel products for the Fund are increasing by \$53,311.		\$53,311
Department-wide		
The Budget includes funding increases for the creation of two new capital improvement projects; \$1,000,000 is for Transportation Initiatives citywide and \$300,000 is for Downtown Initiatives to implement way-finding.		\$1,300,000
The annual other requirements for Administrative Support, CTM Support, Accrued Payroll and Compensation Program are decreasing a net total of \$139,814.		(\$139,814)
Transfers and Other Requirements		
The transfer for the Great Streets program is increasing based on proposed pay station and meter revenue for the downtown core area.		\$783,019
The following change was approved by Council at Budget Adoption:		
The transfer for the Great Streets program is decreasing in the amount of \$783,019.		(\$783,019)

Planning and Development Review

Mission and Goals for 2013

Mission

The purpose of the Planning and Development Review Department (PDRD) is to provide planning, preservation, design, comprehensive development review and inspection services to make Austin the most livable city in the country.

Goals

Implement the Imagine Austin comprehensive plan including a comprehensive revision to the Austin Land Development Code.

Complete neighborhood plans for all urban core planning areas by 2016.

Implement all urban core neighborhood plans through rezoning by 2016.

Ensure a more compact and well-designed city through planning initiatives such as the Downtown Plan, the Waller Creek District Master Plan and the East Riverside Corridor Master Plan.

Provide the public with a single One Stop Shop location for development needs to promote efficient use of citizen and City staff time and resources.

Planning and Development Review Department

Message from the Director

The Planning and Development Review Department (PDRD) is responsible for the City's comprehensive planning activities, current planning, historic preservation demographics, design services, and the One Stop Shop that supports land development consultation, review, and inspections services. The department provides these services over a 620 square mile planning area to a wide variety of customers including property owners, neighborhood and environmental organizations, business owners, City departments and other governmental agencies. PDRD provides support to ten boards and commissions, not including additional support for a variety of City Council or Commission appointed subcommittees or task force groups. The department also provides support for land use related city code amendments and rule postings; training of developer agents, neighborhood representatives and staff through its land use academy, and maintains support to multiple PDRD land use related web sites and electronic media.

In FY 2012-13, PDRD will begin implementing and monitoring the Imagine Austin Comprehensive Plan. One of the priority program's which will be initiated during the year will be a revision of Austin's development regulations and processes to promote a compact and connected city. In addition, staff will begin working on one combined neighborhood plan (for 3 planning areas) and continue implementation efforts for adopted neighborhood plans. The department continues to work on the Airport Blvd Form Based Code Project and the Downtown Wayfinding Project, implementation of the Downtown Austin Plan and the East Riverside Corridor Plan, and completion of the Phase II amendments to Subchapter E design Standards.

The department is in the process of implementing phase one of a fee study to insure the fees are covering the costs to provide the service was completed in 2012. Through a budget amendment in June 2012, the City Council approved revenue increases to various development fees as well as added eleven new staff members to improve the efficiency and timelines in the Development Assistance Center, Plan Review, Inspections and Technology Information Services. During the first quarter of FY 2012-13, the department will begin phase two of the fee study addressing fees related to Subdivision Review fees and Site/Subdivision Infrastructure.

A handwritten signature in blue ink, reading "Gregory A. Shorsong". The signature is written in a cursive style and is centered within a light blue rectangular box.

Budget Highlights

Comprehensive Planning

The Comprehensive Planning Program is organized to develop, maintain, and implement the citywide comprehensive plan, more detailed neighborhood plans and other small area plans. It also provides planning support services such as GIS mapping and demographic/economic projections and analysis to other divisions within PDRD and other City of Austin departments.

The Budget includes resources to begin implementation, evaluation, and monitoring of the Imagine Austin Comprehensive Plan, including the annual report required by the City Charter. In FY 2012-13 the department is adding three new positions, a Development Services Division Manager, a Planner Senior and an Administrative Assistant which will help ensure the new Code relates to the adopted plan, coordinate with other City Department's process and procedures, and make sure all interested stakeholders are part of the process. The Budget also includes funding to begin a neighborhood plan for three planning areas and to continue the implementation and maintenance (amendments) of the 45 adopted neighborhood plans.

Current Planning

The Current Planning Program is organized to process zoning text and map amendments; promote and coordinate historic preservation; and develop and maintain the City's three-year municipal annexation plan (MAP). This division also oversees amendments to the City Code regarding land use and site development regulation. The historic preservation program continues to facilitate implementation of local historic districts, process historic zoning cases and demolition permits, and amend the historic zoning process as directed by City Council. The annexation division also continues to process annexation requests, start on new MAP annexation areas and continue work on Municipal Utility District (MUD) proposals. FY 2011-12 saw a significant number and size of MUDs approach the City as candidates for limited purpose annexation. The coming year is expected to be much more modest.

One Stop Shop

The One Stop Shop (OSS) was created to serve as a central location where the community could address all of its development needs including review, permitting, and inspections. The OSS is comprised of several divisions located within the same building at One Texas Center designed to work together to ensure that development in Austin meets both long and short term planning goals. Depending on the complexity of the project and the experience of the applicant, the development process can begin in the Development Assistance Center, where a broad spectrum of technical staff provides specific guidance on their project. A more experienced applicant can apply directly to the Land Use Review division which consists of site plan, subdivision, transportation, drainage/water quality, notification and environmental review staff.

Some projects require the construction of public infrastructure such as water, wastewater, drainage facilities, streets, and sidewalks so that the site can be used as ultimately intended. The Site/Subdivision Inspection Division ensures that all infra-structure is built according to plans and specifications. The number and type of projects that are inspected can vary with the general economy of the region. As the economy improves the projects tend to be larger and generate more revenue.

A considerable portion of the One Stop Shop activities are coordinated with Watershed Protection Department (WPD) due to their similar goals of environmental health and safety. Watershed Protection is funded through the Drainage Utility Fund whereas PDRD is funded primarily from the General Fund. Overlapping activities are shared between the two funding sources which are expense refunded. In FY 2012-13 a number of positions formerly paid for by WPD will be paid for by the General Fund, including 4.2 FTEs, two fiscal surety personnel, and associated support services. These costs are mostly offset by an increase to the WPD expense refund for increases to salary, insurance, and pension contributions, for the coordinated activity still funded by the Drainage Utility Fund.

Fee Study

Phase 1 of a study of the department’s development review related fees was completed and presented to Council in June 2012. One significant finding was that many of the development fees reviewed were below the cost to provide those services and in need of adjustment. Council adopted the consultant recommendations to begin adjusting them by 25% annually until they reach the recommended levels. The impact of this implementation in year 1 will be approximately \$1.3 million in additional revenues in FY 2012-13. The City Council also approved adding eleven new positions to address the needs in Development Assistance Center, Plan Review, Inspections and Technology Information Services. The eleven positions added to PDRD include four Plan Examiners, an intake Planner, three field Inspectors, a Planner Senior, and two IT Program Analysts.

The overall number of commercial building plan submissions has increased 33% over last year. The number of commercial building plan reviews completed within the Code mandated review period of 21 days has fallen since last year. The 4 plan reviewers will assist with the ongoing challenge of the timely processing of commercial building plan applications. With the additional staff, the department has changed its goal from 65% to 90% in FY 2012-13.

Building inspections have also increased by 16% since FY 2010-11. It is anticipated that as commercial plan reviews are completed the number of both building permits and inspections will increase. To address this increase workload the City Council also approved in the June 2012 budget amendment 3 additional Inspectors who will assist the department in maintaining the target of 95% for inspections performed within 24 hours.

The additional Planner Senior will assist in the Development Assistance Center to address the 79% increased case load per planner from 2009 levels and an increase of 63% over the past 5 years related to customer walk-in traffic for zoning, subdivision and transportation consulting services.

During the next year, PDR will also start converting to the new web-based AMANDA 6 version of the permit, review and inspection management software application. The 2 IT Program Analyst will assist with this conversion, as well as, future technology enhancements that includes electronic plan review, online applications, and online payments.

Urban Design

The Urban Design activity is organized to design and construct public spaces that create economic, environmental and community value. The focus of urban design is on the form and organization of buildings and the public spaces between them, rather than on the design of individual structures.

During FY 2012-13, the Urban Design Program is focusing on the Downtown Wayfinding project, the Airport Boulevard Form-Based Code project, and implementation of the Downtown Austin Plan (DAP), the East Riverside Corridor Plan, the TOD Station Area Plans, and North Burnet/Gateway Master Plan. The Urban Design Program also works with the Waller

Creek Conservancy to advance efforts to revitalize the Waller Creek District. Other major urban design program projects include: coordination of Downtown Great Streets streetscape improvements for 2nd, 3rd and Colorado Streets, streetscape improvements in the University Neighborhood Overlay (UNO) area and along Core Transit Corridors, completion of the Phase II amendments to Subchapter E Design Standards, and completion of the South Congress Improvement Project.

Capital Budget

The FY 2012-13 Capital Budget includes approximately \$1.5 Million for the Great Streets Redevelopment Program which provides partial funding for private sector implementation of downtown Great Streets improvements and supplemental funding for downtown Great Streets CIP projects. The Capital Budget also includes \$2.0 Million for consulting costs associated with the Land Development Code rewrite called for in the Imagine Austin Comprehensive Plan. This project is schedule to begin October 2012.

Item Approved by Council at Budget Adoption:

- Amend the Budget by decreasing appropriations for the Planning and Development Review Great Streets CIP Program in the amount of \$783,019

Planning and Development Review

Significant Changes

General Fund

Revenue Changes Dollars

The Budget includes an increase of \$1,778,897 for revenue from increasing development activity related to Building Safety licenses, permits, and inspections. This also includes \$1,289,492 for revenue from fee adjustments made in the June 14, 2012 Fee Schedule amendment adopted by Council. \$3,068,389

Increased development activity is also anticipated to result in an increase of \$876,946 in revenue from Zoning, Subdivision, and Site Plan fees plus an additional \$7,000 in charges for services for general government revenue. \$883,946

Expenditure Changes FTEs Dollars

Citywide

The Budget includes \$652,871 for salary increases associated with wage adjustments in FY 2013. An additional \$96,394 is in the Budget for increased City contributions for health insurance. \$749,265

The Budget includes \$118,039 for wage adjustments associated with implementing the City's recently completed market study. \$118,039

The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. This amount also includes a budget reallocation from the fund level to the department level. \$1,783,741

Also included is an increase in fleet maintenance charges of \$49,022 offset by a decrease of \$21,634 in fuel charges. \$27,388

Capital Area Metropolitan Planning Organization

The Budget includes an increase in expense refunds for annualized costs associated with wage, insurance and pension adjustments. (\$146,412)

One Stop Shop

The Budget includes annualized costs for 11.0 FTEs added in the June 14, 2012 budget amendment regarding adequate staffing for development review. \$687,340

The Budget includes \$290,594 associated with 4.2 FTEs previously reimbursed by the Watershed Protection Department (WPD) offset by an increase in expense refund of \$442,675 for annualized costs associated with wage adjustments and insurance for coordinated activity with WPD. (\$152,081)

Also included is an increase for Support Services provided by the WPD for annualized costs associated with wage, insurance, and pension adjustments. \$49,499

Support Services

The Budget includes a new Division Manager of Development Services \$108,370, a Planner Senior \$83,647, and Administrative Assistant \$50,873, for implementing the Imagine Austin comprehensive plan and related Land Development Code work. 3.00 \$242,890

The Budget also includes the transfer of two Fiscal Surety FTEs from WPD to match their reporting structure. 2.00 \$133,775

The Budget includes \$149,690 for increased rent costs for One Texas Center. \$149,690

Public Works

Mission and Goals for 2013

Mission

The mission of the Public Works Department is to provide an integrated approach to the development, design, construction, and maintenance of the City's infrastructure systems that support an exceptional quality of life in an environmentally sustainable manner.

Goals

Maintain and improve the quality of Austin's streets.

- Increase the street inventory in Fair to Excellent condition to 80% by 2018.
- Provide preventive maintenance on 10% of the roadway inventory annually.

Ensure a safe and efficient multi-modal transportation system.

- Program 100% of bicycle, pedestrian and road projects in the approved annual schedule.
- Increase accessibility and connectivity of existing sidewalk infrastructure by adding 14,000 linear feet of sidewalks and 100 curb ramps annually.
- Provide crossing guard coverage for all designated school crossings 100% of the time.

Implement Capital Improvement Program (CIP) projects on time, within budget, and with high quality.

- 80% of projects managed by Public Works will be completed in accordance with the accepted baseline schedule.
- Non-user requested change orders will make up less than 5% of total construction contract awards.

Ensure quality design and construction of infrastructure.

- 90% of projects managed by Public Works will pass the one-year warranty inspection without significant construction deficiencies.

Public Works

Message from the Director

Your Public Works Department (PWD) provides a wide array of services, projects and maintenance activities for Austin's residents and businesses. Our four primary service areas are street and bridge maintenance and repair; design and delivery of capital improvement projects; neighborhood connectivity activities including planning and construction of bicycle and pedestrian facilities and implementation of the child safety program including school zone improvement projects and the provision of crossing guards for neighborhood schools. Service delivery in these areas are challenged by an aging and expanding roadway infrastructure, continued growth of the city of Austin's geographic area, and uncertainties in the costs of materials. PWD will continue to implement creative, innovative, and sustainable strategies to address the City's needs for mobility, safety, and facilities development that obtain the best value for the resources available. In recognition of these efforts, PWD has received 15 major regional, state, and national awards over the past 18 months. PWD will enhance its Child Safety services with the consolidation of all Safe Routes to School assets within the department.

The efforts to provide street and bridge improvements and maintenance of the Right-of-Way (ROW) draw from the City's Transportation Fund. PWD is recommending a small increase in the Transportation User Fee for FY 2012-13, which is the primary funding source for the Fund. The additional resources will enable the department to improve its maintenance of the public right of way through both traditional and innovative means. Several new approaches to traffic calming are being fielded in partnership with the Transportation Department. Partial depth reconstruction, an economical method to extend the lifespan of our roadways, was tested in FY 2011-12 and will be more fully implemented in the coming year. Additional uses of reclaimed and recycled materials, along with added emphasis on emissions reductions will continue to reduce the environmental impact of our operations. The result of these efforts is that PWD has reached its goal to reduce the number of unsatisfactory pavements to under 20% five years ahead of schedule.

FY 2012-13 will be a strong year for capital construction. PWD will continue work on several iconic projects. The boardwalk at Lady Bird Lake, started late in FY 2011-12, will be in full construction mode. Initiation of work on the new Central Library is currently forecasted for late in the fiscal year. Repairs to Barton Springs Pool will be made, preserving this piece of Austin for generations to come. PWD will also continue its Accelerate Austin program to rebuild our infrastructure. Utilities replacements, flood control efforts, and facility construction will also continue. Our Neighborhood Partnering Program is also hitting its stride, with over thirty active community generated projects in the pipeline. PWD's requirements to support the Capital Improvement Program are funded by capital project revenues, which are managed through the Capital Project Management Fund (CPMF). Due to the sustained level of activity, PWD is requesting two additional staff resources to provide expanded project cost estimating and project control activities.

The Child Safety Fund (CSF) receives revenues from vehicle registrations and from traffic violations that occur in school zones, and provides the funding source to pay for crossing guards and school zone safety improvements. The FY 2012-13 Budget includes a pay increase of 3% for the crossing guards that work at various schools in Austin. The increase is recommended to help reduce the staffing turnover rate that the program experiences and retain the experience necessary to keep our children safe traveling to and from school.

Howard Lazarus, P.E.
Public Works Director

Budget Highlights

Revenue

The Public Works Transportation Fund derives revenue from the Transportation User Fee, Utility Cut Repair charges, the General Fund and miscellaneous other revenue. The total revenue for FY 2012-13 is expected to increase \$3.7 million primarily from an increase in the Transportation User Fee. This fee increase would raise the rate for a single-family home by \$0.51 per month. This approved fee increase is partially offset by a reallocation of the transfer from the General Fund to the Austin Transportation Department of \$0.9 million. Additionally, revenue from utility cut repairs is increasing due to an increased workload in the number of required repairs and transfers in from the Parking Management Fund for support services and various downtown initiatives.

Street Preventive Maintenance

A significant accomplishment in this program is that Public Works is estimating it will achieve its longstanding goal of 80% of lane miles in fair to excellent condition in the current year; six years earlier than the established goal. The FY 2012-13 Budget will continue to maintain this condition level. Public Works is adding an additional type of preventive maintenance called street rehabilitation. Street rehabilitation is a large scale maintenance approach which is less than full street reconstruction but more than a total pavement overlay. This additional type of maintenance will allow Public Works to continue to expand and select the most appropriate type of street maintenance to use based on the actual street conditions. PWD estimates ten lane miles will receive this maintenance treatment in FY 2012-13.

Right-of-Way Maintenance

Since assuming the responsibility for maintenance of plantings in the right-of-way from the Parks and Recreation Department in FY 2010-11, Public Works has begun the work of implementing a cyclic tree maintenance program and has initiated improvements to the center islands, medians, and other structures. In FY 2012-13, the Department will initiate a more aggressive tree planting program and replacement of irrigated areas with more drought tolerant plantings. Additional uses of rain gardens and other innovative features will support a more sustainable approach to right-of-way maintenance. This includes the addition of four positions and associated commodity and contractual costs of \$0.3 million.

Support Services

The Support Services program provides administrative, financial and human resources support department-wide. A strong area of focus for Public Works is the establishment of career ladder for field staff within the street and bridge division. The FY 2012-13 Budget includes three positions, including necessary program expenses, in the amount of \$0.4 million to supplement the career training and progression program for street and bridge operations. These positions will focus on developing skills testing and verification, recordkeeping, and certification of Street and Bridge equipment operators.

Capital Budget

The Public Works Department mission is to provide an integrated approach to the development, design, construction, and maintenance of the City’s infrastructure systems and facilities. The FY 2012-13 Capital Budget includes a total appropriation of approximately \$7.3 million, of which \$5.3 million is for various street improvement projects and \$1.1 million is for sidewalk improvements. Other significant capital projects continuing or scheduled for completion are the Boardwalk Trail at Lady Bird Lake, the Neighborhood Partnering Program, and the street reconstruction of 3rd Street from Congress to Brazos and San Jacinto to Trinity.

Other Funds

Capital Projects Management Fund

The Capital Projects Management Fund (CPMF) is an internal service fund that accounts for the project delivery costs of engineering, construction and inspection costs for approximately 70 percent of the City of Austin Capital Improvement Program. Austin Energy provides for the engineering and construction of the generation and transmission systems for the utility. The CPMF is completing a restructure in FY 2012-13. The Contract Management Department and Office of Real Estate Services are relocating out of the CPMF into the Support Services Fund. This realignment will focus the CPMF on capital project delivery activities. The Construction Inspection division is adding four positions for FY 2012-13. This includes three Construction Inspectors for anticipated inspection workload increases due to the number of capital projects and one Engineering Associate C to focus on ongoing training activities for the division. Additionally, an Engineering Associate A is transferring to the Contract Management Department as a part of the reorganization of the CPMF.

Child Safety Fund

The Child Safety Fund derives its revenue from traffic violations in school zones and from vehicle licensing fees collected by Travis County for school zone safety programs. The Fund provides crossing guards for school zones and also provides traffic safety education for all K-12 grade levels. The Fund includes a minor increase in revenue for FY 2012-13 for an anticipated increase in the number of vehicle registrations based on population growth, however, is offset with a decrease in revenue from traffic citations. The Child Safety Fund is also receiving 3 positions from a transfer from the Health and Human Services Department. These positions were previously funded by the Safe Routes to School federal grant program, which are no longer available. The integration of public health education and related initiatives will ensure a cohesive and comprehensive treatment of child safety. The transferred staff will also develop grant applications to various organizations for additional child safety programs.

Item(s) Approved by Council at Budget Adoption

- Increase appropriations in the Transportation Fund by \$570,845 for more equitable programs related to the transportation system that supports the Imagine Austin Plan.

Public Works

Significant Changes

Transportation Fund

Revenue Changes

Dollars

The Budget includes an increase of \$2,987,601 for revenue from an increase in the Transportation User Fee and an increase in the customer base based on population growth.	\$2,987,601
The Budget includes an increase of \$667,059 for revenue from the expected increase in workload on Utility Cut projects for the Austin Water Utility.	\$667,059
The Budget includes a decrease of \$1,665,385 for revenue from the General Fund transfer being reallocated from Public Works Department to the Austin Transportation Department to support non-Transportation User Fee eligible programs and activities.	(\$1,665,385)

Expenditure Changes

FTEs Dollars

Citywide

The Budget includes \$358,651 for salary increases associated with wage adjustments in FY 2013. An additional \$78,999 is included in the Budget for increased City contributions for health insurance.	\$437,650
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.	\$241,731
The Budget includes \$51,785 for wage adjustments associated with implementing the City's recently completed market study.	\$51,785
In previous years, the Public Works Department budgeted the entire supplemental pension funding for the Employees' Retirement System for the Austin Transportation Department (ATD). This funding is being reallocated to ATD for the Budget, thereby reducing the total pension budget.	(\$555,188)

Minor Construction and Repair

One position has been reallocated to the Street Preventative Maintenance Program in order to meet changes in workloads, duties and work types.	(1.00) (\$64,978)
In FY 2012, there are non-cost of living salary increases as a result of reclassifications of non-supervisory field positions amounting to personnel costs of \$79,860.	\$79,860
The overtime budget is decreasing \$300,000 and reallocated to the temporary employee and asphalt materials budgets for a net impact of zero.	\$0
Personnel costs and benefits associated with temporary employees are increasing to assist this staff working to diminish the backlog of unrepaired utility cuts while permanent staff handle the day-to-day workload.	\$387,148
Budgeted commodities are increasing a net \$161,655 largely due to an increase in the asphalt materials, based on need and increased cost.	\$161,655
Expense Refunds are increasing a net \$354,741 due to a decrease in interdepartmental charges and refunds, along with an increased reimbursement of CIP charges and department overhead distribution.	(\$354,741)

Expenditure Changes	FTEs	Dollars
The Non-CIP budget is decreasing due to the removal of completed one-time capital purchases from the prior year budget.		(\$212,000)
Right-of-Way Maintenance		
Four new Street and Bridge Operations Technician positions are included in the FY 2013 Budget to form a new street tree maintenance and planting crew.	4.00	\$225,563
Positions added in FY 2012 included an increase in personnel savings due to the positions being hired during the middle of the year. These savings are being eliminated from the FY 2013 Budget.		\$63,327
An overall net increase in contractals largely for rental equipment, other equipment, grounds maintenance and interdepartmental charges for estimated work to be completed to support the new street tree maintenance and tree planting crew is included in the Budget.		\$113,400
An interdepartmental expense refund from Austin Resource Recovery (ARR) has been included in the FY 2013 Budget to inspect and notify ARR of obstruction in blind corners and obstructions in the right-of-ways.		(\$200,000)
One-time purchases of capital items from the prior year budget have been removed from the FY 2013 Budget.		(\$151,000)
Street Preventative Maintenance		
One position has been reallocated from the Minor Construction and Repair program in order to meet changes in workloads, duties and work types.	1.00	\$64,978
One position is being transferred in from the Support Services program in order to meet the business processes needs relating to the implementation of a work order system. This is partially offset with the transfer of one position to Support Services to meet the technological improvements needs relating to a work order system.		\$35,871
Salaries and related personnel costs are increasing for departmental reclassifications of non-supervisory field positions. Based on positions filled in the current year, these reclassifications total \$170,098 including benefits.		\$170,098
Positions added in FY 2012 included an increase in personnel savings due to the positions being hired during the middle of the year. These savings are being eliminated from the FY 2013 Budget.		\$137,018
Personnel costs for seasonal and temporary employees have been added based on the department's estimated workload.		\$93,639
One-time capital costs completed in the prior year for vehicles, replacement rollers and solar arrow boards are being removed from the Budget.		(\$147,000)
The prior year Budget included \$1,500,000 for a first-time pilot street rehabilitation project to be done by contract. For FY 2013, this is being deferred to evaluate the effectiveness of the pilot project.		(\$1,500,000)
The Budget includes a total net decrease of \$1,069,939 in contracted services for asphalt overlay street preventative maintenance due to the increased cost per contracted lane mile while maintaining the condition class of lane miles in fair to excellent condition at 80% or greater.		(\$1,069,939)
Street Repair		
Personnel cost increases resulting from department initiated position reclassifications of non-supervisory field staff in the prior year are included in the Budget.		\$131,813

Expenditure Changes	FTEs	Dollars
Support Services		
The Non-CIP Capital category has decreased due to eliminating one-time purchases made in the prior year budget.		(\$113,000)
The Support Services program is increasing by 3 positions for \$192,370 to provide training, certification and administration of a new career progression initiative for the Street and Bridge Operations field staff. Also included are increases in office rental, utilities, educational materials, program management services and various office supplies for this new program.	3.00	\$442,140
Transfers and Other Requirements		
The transfer to the Sustainability Fund is eliminated from the FY 2013 Budget.		(\$518,828)
The FY 2013 Budget includes an increased transfer of \$880,000 to the Public Works Technology CIP to continue with the Department's multi-phase work order tracking and infrastructure management technology project. This is partially offset with a decrease in the transfer to CIP for Public Works facilities made in the prior year.		\$185,000
General Obligation Debt Service transfer is decreasing \$164,348 due to departmental debt being retired.		(\$164,348)
Transfers for CTM Support, CTECC, Workers' Compensation, UCSO Billing Support and Trunked Radio are increasing by a net total of \$232,680 for the Budget.		\$232,680
The transfer for City Administrative Support is increasing based on the reorganization of the Capital Projects Management Fund.		\$1,569,699

Capital Projects Management Fund

Revenue Changes

The Budget includes an increase of \$20,000 in revenue from CIP project charges based on the estimated number of projects for the upcoming fiscal year.	\$20,000
---	----------

Expenditure Changes

Citywide		
The Budget includes \$463,516 for salary increases associated with wage adjustments in FY 2013. An additional \$58,330 is included in the Budget for increased City contributions for health insurance.		\$521,846
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$277,385
The Budget includes \$12,474 for wage adjustments associated with implementing the City's recently completed market study.		\$12,474
In previous years, the Public Works Department budgeted the entire supplemental pension funding for the Employees' Retirement System for the Contract Management Department (CMD). This funding is being reallocated to CMD for the Budget, thereby reducing the total pension budget.		(\$388,925)
Capital Projects Delivery		
The Budget includes 4 new positions in the Construction Inspection division. Three positions are new Inspectors to help with a general increase in workload. Additionally, one new position, an Engineering Associate C, is added to act as a division-wide trainer for all inspection activities.	4.00	\$316,709

Expenditure Changes	FTEs	Dollars
Five new Ford Escape Hybrids are being purchased for the Construction Inspection division at an estimated cost of \$32,000 each. This is partially offset with a reduction of one-time capital costs from the prior year.		(\$218,000)
Support Services One vacant Engineer Associate A position is transferring to the Contract Management Department as part of the reorganization of the Capital Projects Management Fund.	(1.00)	(\$73,087)
Department-wide A reduction in the minor computer hardware spending is included in the Budget.		(\$76,879)
Transfers for Workers' Compensation, Liability Reserve, City Administrative Support and Trunked Radio are decreasing for the Budget. This decrease is partially offset by a \$59,626 increase in the Communications and Technology Management transfer.		(\$83,205)
The Budget includes a net increase in personnel and contractual costs for skill based pay, bilingual pay, cell phone stipends and rent for office space .		\$140,848
The Budget includes a net increase in Fleet maintenance costs that are partially offset by reduced fuel costs based on department consumption for FY 2013.		\$21,471

Child Safety Fund

Revenue Changes

The Budget includes an increase of \$135,000 for revenue from greater parking citations and vehicle registration fees associated with a general increase in the population.	\$135,000
---	-----------

Expenditure Changes

Citywide The Budget includes \$6,084 for salary increases associated with wage adjustments in FY 2013. An additional \$1,228 is included in the Budget for increased City contributions for health insurance.	\$7,312
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.	\$4,458
The Budget includes \$818 for wage adjustments associated with implementing the City's recently completed market study.	\$818
Child Safety A Public Health Educator I, Public Health Educator II and Administrative Senior positions are transferring to the Fund from the Health and Human Services Department to work on child safety education and programs.	3.00 \$195,704
The Budget includes a \$110,000 increase in the crossing guard budget to cover new locations in addition to the increased costs associated with a pay increase for crossing guards.	\$110,000
The Budget includes a reduction of capital equipment for the purchase of a replacement van in the prior year.	(\$32,000)

The following change was approved by Council at Budget Adoption:

Increase appropriations by \$570,845 in the Transportation Fund for more equitable programs related to the transportation system that supports the Imagine Austin Plan.	\$570,845
---	-----------

Public Works

Budget Detail by Activity

Program: Bicycle and Pedestrian Infrastructure

Activity: Bicycle & Pedestrian Infrastructure Mgmt.

The purpose of the Bicycle and Pedestrian Infrastructure Management activity is to plan and construct bicycle, pedestrian and road projects where appropriate and to work with TxDOT, Travis County and CAMPO on multi-modal facilities.

Watershed Protection

Mission and Goals for 2013

Mission

The purpose of the Watershed Protection Department is to protect lives, property, and the environment of our community by reducing the impact of flooding, erosion, and water pollution.

Goals

Reduce flood impacts to life and property.

- Continue to increase flood protection of threatened structures through creek and drainage system improvements.
- Continue to alert the public of imminent flood hazards and enhance efforts to educate the public about flood hazards.
- Maintain or improve the City's participation requirements in the National Flood Insurance Program and Community Rating System.

Create a stable stream system that decreases property loss from erosion and increases the beneficial uses of waterways.

- Prepare design for 4,000 linear feet of stream channel repairs in FY 2013.

Maintain and improve water quality.

- Construct water quality controls to reduce stormwater pollutants from 6,700 acres by FY 2013. Conduct business inspections and spill response to recover a total of 750,000 gallons and 500 cubic yards of pollutants in FY 2013.
- Maintain or improve baseline levels of the Environmental Integrity Index (water, sediment and recreational quality, aquatic habitat and physical integrity) in 100% of watersheds evaluated.

Provide adequate assessment and maintenance of drainage infrastructure.

- Complete 1,500 feet of stream channel stabilization to provide increased erosion protection to property in FY 2013.
- As the inventory continues to increase, continue to maintain residential ponds so that 90% are functioning properly through FY 2013.
- Complete assessment of ten miles of storm drain infrastructure through FY 2013.

Maintain 100% of activities in compliance with Federal and State permits and regulatory requirements.

Watershed Protection

Message from the Director

Fiscal year 2010-11 marked the ten year anniversary of Council's unanimous adoption of the Master Plan. This six-month study examined 17 watersheds in the City of Austin to determine where the most severe problems were. A large part of the outcome was to integrate our missions to protect lives, property and the environment by reducing the impact of flooding, erosion and water pollution, so that when we looked at a project to prevent flooding, we also looked how it might also improve water quality and prevent erosion. Over the last ten years, we have invested almost \$250 million in projects designed to address problems identified in the Master Plan. Below is a list of just some of our accomplishments over the last decade:

- Increased flood protection for 625 structures and roadways,
- Bought out 350 homes in floodplains,
- Stabilized 24,300 linear feet of eroded stream channel,
- Completed 25 water quality projects, including wet and biofiltration ponds and rain gardens, and
- Acquired 3,300 acres of land and rights to 8,340 acres for water quality protection.

In addition to Master Plan projects, we continue our work on a number of other important fronts. The department provides national leadership in the protection and enhancement of the many "ecosystem services" provided by healthy streams, riparian areas, and lands. This leadership is achieved through such initiatives as sustainable integrated land management, riparian zone restoration, invasive plant species management, Integrated Pest Management, endangered species protection, pollution prevention and spill response, and watershed education programs. In fact, education as a method of prevention has been a critical part of our work. Programs include Earth Camp and Earth School, which reached almost 5,700 AISD fifth graders; very active flood safety awareness outreach; Scoop the Poop; and Trash Travels/Let's Can It Austin! anti-litter outreach.

The Environmental Protection Agency recently announced Austin as one of only 10 cities in the United States selected to participate in its new initiative to promote green infrastructure. Austin was selected as a partner and model for this new program because of its leadership in finding innovative ways to include green infrastructure in its projects. Green infrastructure helps remove pollutants from stormwater before it reaches our creeks and waterways. For example, the department unveiled the first public rain gardens last spring. These two rain gardens were part of a larger project in Stacy Park that also restored a badly eroded stretch of Blunn Creek, which was quickly becoming a public safety hazard.

In order to continue our work on the Master Plan, other Capital Improvement Program projects, as well as our operating programs, we have proposed a 7.7% increase to the drainage fee. We have and continue to look at our operating and capital expenditures with a focus on ways to get more "bang for the buck". However, we have increased the fee only once in the last six years and find it necessary to do so again in order to maintain our current service levels. This fee increase would resume the series of increases we proposed in previous presentations to Council but deferred due to the economic climate. We look forward to another year of successes and leadership in our work and, as always, appreciate the support of Austin's citizens.

A handwritten signature in black ink that reads "Victoria Li".

Victoria Li, Director

Budget Highlights

The mission of the Watershed Protection Department is to protect lives, property and the environment by reducing the impact of flood, erosion and water pollution. The Drainage Utility was established by the Austin City Council in 1991 to manage and fund the ongoing maintenance and repair of the City's creeks, drainage systems and water quality programs.

The department will continue its efforts to streamline and reduce costs related to the work of the Department, including 1) expanded use of strategic partnerships with other city departments and governmental and private entities; 2) improved methodologies for project prioritization, phasing, cost estimating and post project performance reviews, along with continuation of the Value Engineering activity; and 3) review and update of the Drainage Criteria Manual. No new full time equivalents have been added. The majority of the budget increase is for baseline expenditures such as health insurance, wage adjustments, and supplemental retirement funding. The Drainage Utility's transfer to its Capital Improvement Program (CIP) will increase by \$1.86 million in FY 2012-13 to \$21.0 million.

Flood Hazard Mitigation

The purpose of the Flood Hazard Mitigation program is to: 1) reduce existing flood hazards to protect lives and property and 2) maintain regulatory code and design criteria for new development to help prevent future flood hazards. The Watershed Protection Department continues to update its Master Plan problem scoring for the Creek Flood Hazard Mitigation activity based on new floodplain models, survey data, and completed projects. The Localized Flood Hazard Mitigation activity continues to work toward the creation of a comprehensive assessment of storm drain infrastructure needs citywide, an effort that will take several years. Historically, the Localized Flood Hazard Mitigation activity has relied on reported flooding and complaints to prioritize capital improvement projects. The comprehensive assessment will enable staff to more objectively evaluate the capacity of the existing system and to identify the priority of the needed improvements.

The number of structures and roadways with increased flood protection project completed is an annual count of the number of structures and roadway crossings with reduced risk of creek or localized flooding due to completed flood hazard improvement projects. For FY 2011-12, the department estimates that it will exceed its goal due to earlier than anticipated completion dates for some projects. For FY 2012-13, the department proposes to complete one project that will protect 20 structures from flooding.

Stream Restoration

The purpose of the Stream Restoration program is to create a stable stream system by implementing localized stabilization and stream channel restoration projects on affected citizens' and public property in order to decrease property loss from erosion and increase beneficial use of waterways. This program, which added a Landscape Architect II position and experienced staff turnover in FY 2011-12, has a performance goal of 4,000 linear feet of stream channel repairs designed for FY 2012-13. Budget increases to this program include funding for an Engineer C position that was previously funded with CIP dollars.

In FY 2012-13, the department's recently formed Green Infrastructure Team will continue to focus efforts on advancing the application of "green" infrastructure technologies and Low Impact Development approaches through further technology development, sustainable maintenance strategies, regulatory policies that encourage rather than impede application of green infrastructure, and education and outreach both to the public and the professional community.

Watershed Policy and Planning

The Watershed Policy and Planning program coordinates the integration of flood, erosion and water quality activities for City staff and policy makers so they have the information to design, prioritize and implement cost effective integrated solutions that include capital projects, and watershed programs and regulations. The program also provides direction and oversight of citywide environmental compliance for programs, policies, initiatives and regulatory standards. The group includes a special focus on growth management with respect to watershed and environmental protection. The FY 2012-13 Budget includes monies to re-purpose temporary staff that were working on CIP projects that have been completed. These four staff members will assist existing staff with special projects.

Infrastructure and Waterway Maintenance

The Infrastructure and Waterway Maintenance (IWWM) program is responsible for maintaining the storm water conveyance system, which consists of creeks and waterways, pipelines and structural controls. There are three activities within the program: Field Operations Management, Storm Water Management, and Drainage Pipeline Management.

The FY 2012-13 Budget includes additional funding for the provision of vegetation control to newly constructed or annexed water quality and detention ponds (residential or city) per state and city requirements. Specifically, the monies will fund vegetation control activities for additional ponds accepted for routine maintenance by the City. The IWWM program has encountered increases in service agreement contracts associated with construction materials due to increased prices of asphalt, concrete, drainage materials, sand and gravel. As a result of these increases, funds have been added to the FY 2012-13 Budget. The budget has also been increased to fund four temporary flaggers associated with major pipeline projects.

Water Quality

The purpose of the Water Quality Protection program is to protect and improve water quality in Austin's creeks, lakes and aquifers for our community and aquatic life by preventing, detecting, evaluating and reducing water pollution.

The Water Quality Protection program budget has been increased to secure, prepare, and advertise for caves at the Village of Western Oaks for education outreach, and to fund five temporary employees needed to perform salamander surveys. These increases were offset by a \$100,000 reduction in one-time advertising expenses for the anti-litter campaign and video for the 3-D Splash exhibit.

Support Services

The FY 2012-13 Budget adds temporary funds to the Support Services program to implement an internship program within the department. The budget also includes the transfer out of two full-time equivalents to the Planning and Development Review Department. These positions work in the Fiscal Surety Office.

Waller Creek Tunnel

As feasibility studies began in 1996, the Watershed Protection Department (WPD) has directed the Waller Creek Flood Control Tunnel Project. Teams representing each of WPD's core missions (flood control, erosion control and water quality) have worked on the project, with Flood Hazard Mitigation program staff investing a significant amount of time to review the hydrologic and hydraulic models that serve as the basis for tunnel design. Although the project is still in construction phase, WPD IWWM staff are currently preparing for the tunnel's "go-live" date in FY 2013-14. They are developing a plan and budget for additional staff/equipment and will be participating in operations and maintenance manual development as well as the facility startup/commissioning process. The operational expenses for the tunnel will be reflected in the department's future FY 2013-14 Budget.

Revenue

The primary funding source for the Drainage Utility is the monthly drainage fee assessed to City of Austin utility customers. This fee is projected to provide approximately 98%, or \$64 million, of the department's \$65 million revenue projected for the upcoming fiscal year. The FY 2012-13 Budget reflects a 7.7% increase to the base billing unit (equivalent residential unit), residential growth patterns in keeping with the City Demographer's projections, and minimal growth in commercial accounts. Other revenue sources for the department include interest income and development revenue. The FY 2012-13 Budget for interest income was lowered to reflect current trends in interest rates.

Tax exempt religious organizations may request exemption from the drainage fee per section 15-2-15 (2) of the Drainage Ordinance. The department works closely with the Religious Coalition to Assist the Homeless (RCAH) as the exempted drainage fees are directed to this umbrella organization for grant-making purposes. In FY 2011, \$615,995 in drainage fees were collected by the organization. In turn, the RCAH granted \$585,150 to the following 12 organizations to benefit homeless individuals: A New Entry, Inc.; Caritas; Casa Marianella; Foundation for the Homeless; Front Steps; Green Doors; LifeWorks; Mary House Catholic Worker; Project Transitions; Salvation Army; Texas Reach Out; Saint Louise House; and Trinity Center of Austin. Grant amounts ranged from \$10,000 to \$126,000.

Capital Budget

The FY 2012-13 Capital Budget includes a total new appropriation of \$31.4 million. This appropriation includes funding for the Waller Creek Tunnel, erosion control, flood control improvement, localized drainage improvements, water quality remediation/protection projects, vehicle purchases, and database and GIS projects. The appropriation also includes 2006 General Obligation Bond funding for Watershed Protection Master Plan projects as well as Urban Watershed Structural Control funds from the water quality fee-in-lieu program.

Items Approved by Council at Budget Adoption:

- Amend the proposed budget of the Drainage Utility fund by increasing transfers to the Environmental Remediation Fund in the amount of \$287,000.
- Amend the proposed budget of the Drainage Utility by increasing appropriations in the amount of \$648,293 for drainage and erosion control purposes.

Watershed Protection Significant Changes

Drainage Utility Fund

Revenue Changes	Dollars
------------------------	----------------

Residential and commercial drainage fee revenue is anticipated to increase by \$5,219,904. The Budget includes an increase of \$2,497,060 from the residential fee due to a projected fee increase and \$476,656 for growth. Non-residential revenue is projected to increase by \$2,085,524 for a projected fee increase and \$160,664 for growth. Growth in the customer base is associated with development and annexations.	\$5,219,904
Interest income is projected to decrease based on actual collections and the current trend in interest rates.	(\$325,000)

Expenditure Changes	FTEs	Dollars
----------------------------	-------------	----------------

Citywide

The Budget includes \$533,715 for salary increases associated with wage adjustments in FY 2013. An additional \$61,660 is included in the Budget for increased City contributions for health insurance.	\$595,375
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.	\$365,584
The Budget includes \$32,388 for wage adjustments associated with implementing the City's recently completed market study.	\$32,388
Fleet maintenance costs increase \$109,824 and fuel costs decrease by \$5,081.	\$104,743

Stream Restoration

Included in the Budget is \$80,000 to fund a Engineer C position that was previously funded with CIP funds. Additionally, terminal pay budgeted in FY 2012 in the amount of \$40,000 is backed out.	\$40,000
---	----------

Flood Hazard Mitigation

Decreases for one-time costs of \$80,000 for office re-configurations and \$40,000 for terminal pay budgeted for eligible retirees in FY 2012 are included in the Budget.	(\$120,000)
---	-------------

Infrastructure and Waterway Maintenance

Ongoing costs of \$20,000 to provide vegetation control to newly constructed or annexed water quality and detention ponds per State and City Land Development Code requirements is included in the Budget. An additional \$10,000 for vegetation services to increase Central Market maintenance payments per Developer agreement is included.	\$30,000
An increase of \$167,234 in the service agreement contracts associated with materials due to increased prices of asphalt, concrete, drainage materials, sand and gravel is included in the Budget. Also, additional temporary employee costs of \$191,505 are required for assistance with major pipeline and storm drain cleaning projects.	\$358,739

Watershed Policy and Planning

The Budget reduces Water Treatment Plant #4 project funding from Austin Water Utility for an Environmental Program Coordinator.	\$93,773
---	----------

Expenditure Changes	FTEs	Dollars
An increase of \$45,905 is included to continue full operating funding of 4.0 GIS temporary employees.		\$45,905
Water Quality Protection		
Elimination of \$100,000 in advertising for the litter campaign & video for the 3-D Splash exhibit viewed by over 1,300 AISD students through the Earth Camp is included in the Budget.		(\$100,000)
An Increase for temporary funding in the amount of \$51,108 to cover 5.0 ongoing employees needed for salamander surveys at both Barton Springs and Jollyville is included in the Budget.		\$51,108
The Budget includes \$27,000 for securing, preparing and advertising for caves at the Village of western Oaks Cave for educational outreach with Earth Camp and the annual Austin Cave Day.		\$27,000
Support Services		
The Budget includes funding for terminal pay for eligible retirees.		\$15,000
Increased expense refunds from the Planning and Development Review Department for human resources, safety and financial services support is included in the Budget.		(\$113,460)
Software maintenance agreements for additional licenses are included in the Budget.		\$30,000
The Budget includes the transfer of Fiscal Surety duties, including 2.0 FTEs to the Planning and Development Review Department.	(2.00)	(\$131,395)
Transfers/Other Requirements		
The department will increase its transfers by \$1,390,041 for City Administrative Support, \$42,339 for accrued payroll, \$2,250 for CTM requirements, \$1,123 for CTECC support, and bad debt will increase by \$3,433.		\$1,439,186
The transfers for trunked radio and wireless services will increase by \$22,330 and flood control services provided by the Parks and Recreation Department will decrease by \$45,279.		(\$22,949)
Workers' compensation and UCSO billing support obligations are projected to increase by \$45,915 and \$3,035 respectively.		\$48,950
Funding for the Sustainability Fund is not included for FY 2012-13.		(\$644,676)
The transfer to the Enterprise Capital Improvements Program is increased by \$1,860,000.		\$1,860,000
Interdepartmental charges associated with personnel increases such as, salaries, insurance and retirement for positions in the Planning Development and Review Department are increased.		\$601,104
The Budget includes a net decrease of \$111,300 for General Obligation debt service for the Crystal Brook project and the North West Austin MUD #1 settlement.		(\$111,300)
The following changes were approved by Council at Budget Adoption:		
Transfers out to the Environmental Remediation Fund increase by \$287,000.		\$287,000
The Budget includes increased appropriations in the amount of \$648,293 for drainage and erosion control purposes.		\$648,293

Watershed Protection Budget Detail by Activity

Program: Brownfields

Activity: Brownfields

The purpose of the Brownfields activity is to provide incentives and information to Brownfields property owners so they can cleanup and ultimately redevelop their Brownfields property.

Watershed Protection Budget Detail by Activity

Program: Flood Hazard Mitigation

Activity: Watershed Management

The purpose of the Watershed Management activity is to protect lives and property from flood hazards by promoting sound watershed management to citizens, the development community, and City staff. This is accomplished by 1) creating and maintaining floodplain engineering models and maps and coordinating the City's participation in the National Flood Insurance Program and Community Rating System; 2) providing floodplain information to the public; 3) reviewing floodplain development applications and processing floodplain variance requests; and 4) providing opportunities for private/public partnership funding for regional drainage improvements as an alternative to private development providing on-site detention to mitigate flood hazard increase.

Services

Drainage system infrastructure cleaning, inspection, construction and rehabilitation; complaint investigation; storm event response; installation repair and replacement of concrete drainage infrastructure; field engineering and utility location activities.

Watershed Protection Budget Detail by Activity

Program: Infrastructure & Waterway Maintenance

Activity: Field Operations Management

The purpose of the Field Operations Management activity is to maintain natural waterways and engineered channels utilizing best management practices that support the three missions of the department; reduce flood hazards, improve water quality and provide erosion control and streambank stabilization. Field Operations Management activities serve to protect lives and structures, while promoting sustainable, natural resource protection and conservation efforts.

Watershed Protection Budget Detail by Activity

Program: Infrastructure & Waterway Maintenance

Activity: Storm Water Management

The purpose of the Storm Water Management activity is to maintain residential and city-owned storm water treatment facilities (water quality and detention ponds, biofiltration areas, rain gardens, etc.) to ensure proper functionality, providing water quality improvement, flood protection, and downstream erosion control. The activity also provides on-going vegetation maintenance and removal of trash and debris along the shoreline and in the open waters of Lady Bird Lake, to provide for improved visual water quality and community use of the natural resources.

Services

Citizen complaint response and investigation; inspection and maintenance of water quality and detention ponds; maintenance of vegetation and debris removal along shoreline and open water within Lady Bird Lake; compliance with TCEQ regulations and inspection of commercial storm water management facilities.

Watershed Protection Budget Detail by Activity

Program: Stream Restoration

Activity: Stream Restoration

The purpose of the Stream Restoration program is to create a stable stream system by implementing localized stabilization and stream channel restoration projects on affected citizens' and public property in order to decrease property loss from erosion and increase beneficial use of waterways.

Watershed Protection Budget Detail by Activity

Program: Water Quality Protection

Activity: Surface, Groundwater and Endangered Salamander Protection

The purpose of the Surface, Groundwater and Endangered Salamander Protection activity is to maintain, restore, and improve Austin's creeks, lakes, and aquifers. The activity also provides restoration of native riparian and aquatic vegetation. The activity also provides environmental impact assessment and mitigation recommendations for development review, capital projects, WPD programs, and other jurisdictions in order for the City to make informed protective decisions on water-related policy and projects. This activity also provides monitoring, project assessment, habitat management/restoration and captive breeding of endangered and rare salamander species.

Austin Convention Center Mission and Goals for 2013

Mission

The central mission of the Austin Convention Center Department is to provide outstanding event facilities and services to our customers so they can have a positive experience.

Goals

Achieve an overall customer satisfaction survey target of 4.53 (scale).

Continue the financial success of the department whereby total revenue exceeds requirements.

- Maintain a minimum ending balance equivalent to 60 days of total requirements.
-

Continue to add to the local economy through Austin's hospitality industry.

- Actual Hotel Occupancy Tax Collections in FY 2013 to meet or exceed actual collection in FY 2012.
-

Invest in the workforce.

- Average 26 hours of training per FTE.

Austin Convention Center Department

Message from the Director

The revenue outlook for the Austin Convention Center has improved markedly since FY 2009-10. FY 2010-11 saw our revenues increase by 18% over FY 2009-10. As of April, revenues increased by 7% over the same period last year. This positive trend in revenues is expected to continue through the remainder of FY 2011-12. FY 2012-13 also looks optimistic with an improving economy, the inauguration of Formula 1 racing, the convening of the State Legislative session and the aggressive approach to short term booking. Continued growth is projected in Hotel Occupancy and Vehicle rental collections.

Booking efforts during the first half of FY 2011-12 have been very successful resulting in the Austin Convention Center hosting 85 events, of which 17 were conventions and 4 new businesses to Austin representing 14,273 total room nights. South by Southwest was the largest in Austin history and utilized the Palmer Events Center as part of the Interactive portion of SXSW for the first time. The success contributed to increased revenues for ACCD.

At the beginning of FY 2011-12, the Austin Convention Center was awarded the Leadership in Energy and Environmental Design-Existing Building (LEED®-EB) Gold certification. We are the only Convention Center in Texas, and among only two in the country, to be awarded the prestigious certification. The award is in keeping with Austin Convention Center's commitment to supporting and encouraging sustainable practices to protect and improve the environment. The Austin Convention Center has continually reduced its carbon footprint and will attain neutrality much earlier than the target date. Another accolade was award to ACCD in December, 2011; for the 15th consecutive year, The Facilities & Destinations publication awarded the Austin Convention Center its Prime Site Award of Excellence. Providing an award-winning meeting venue furthers the City's vision of being a community rich in creative culture.

During FY 2011-12, as part of our social media initiative to increase visibility and access to our facilities and services, the Department established a Facebook page and enhanced our retail operations at the convention center with the addition of a retail gift/convenience store and a movable retail kiosk. ACCD is renowned as being a leader in technology, and our innovative iPad mobile solution deployed for the Exhibit and Technology services is being used as a model for innovative and successful use of this technology by the manufacturer of the product.

In order for the Department to continue to maintain its reputation as a premier meeting destination, we must continue to maintain and upgrade our facilities and seek ways to further enhance our high level of customer service. More meeting rooms are needed on the South side of the building in order to attract larger conventions which will now be possible with the opening of two new proposed convention hotels in FY 2014-15. Future renovations to the Palmer Event Center may also be required in order to compliment the new PEC booking strategy to maximize building occupancy and revenue at this facility.

We are proud to have a staff that is committed to serving the community and providing excellent customer service to our customers.

Mark Tester, Director

Budget Highlights

The Austin Convention Center Department (ACCD) maintains and operates the Austin Convention Center, Palmer Events Center, and three parking garages. The Department offers clients a variety of facilities and services with a mission to provide exemplary customer service.

Conventions and trade shows held at the Austin Convention Center (ACC) facilities are a mechanism to attract out-of-town visitors to the City of Austin and to stay in local hotels. The Austin Convention Center's ability to host these types of events directly benefits Austin's economy and helps build and support Austin's creative culture. The money spent by visitors to Austin translates into increased retail sales for local businesses which in turn generates additional sales and hotel tax revenue for the City of Austin.

* Does not include interest.

The Austin Convention Center is projected to receive 61% of its total revenue from the Hotel Motel Collections. During the first half of FY 2011-12, the improving economy increased convention business and activity led to a robust 9% increase in year to date occupancy tax collection. Current collection trends in hotel tax remain very strong and have led to an increase of 11.6% in the estimated hotel tax collection in FY 2011-12 as compared to budget. Hotel tax collections are expected to perform well in FY 2012-13 and a 3% increase above FY 2011-12 estimated levels is projected.

The FY 2012-13 operating expenses have increased over the FY 2011-12 budget primarily due to costs associated with citywide employee benefits, such as health insurance, wage adjustments, and the City's additional contribution to the employee's retirement system. Funding for building maintenance and capital purchases for operations are included in the budget. The budget does not include any new full time equivalent (FTE) requests.

ACCD continues to realize operational savings from previously implemented cost reduction strategies which include energy savings programs, a redesigned work schedule, utilization of staff for in-house services and using volunteers to help with custodial and recycling services. When possible, in-house maintenance staff is utilized as opposed to contracting out. Projects are closely scrutinized and the scope downsized if possible. Work schedules continue to align with the event schedules to decrease overtime and temporary employee costs. The department is pushing towards the reuse/repurpose of items. Cost containment efforts will continue in the upcoming budget year, as strides are made to operate as efficiently as possible.

The convention business remains extremely competitive, and it is important that the facilities be well maintained and information technology and building upgrades continued. Attracting clients and meeting the facility and services needs is essential to the positive financial health of ACCD. In order to maintain a high level of customer service, surveys of clients and users are conducted on a routine basis and compiled by an external City department. The survey results are used to continually monitor the quality of service and ensure that the needs of our customers are being met. The customer satisfaction survey identifies each activity area within the department and requests the customer rate each activity. The department has historically received high ratings as depicted in the following graph.

The following combined funds ending balance key indicator measures the financial position of the Convention Center. It is important that an appropriate level of funding be maintained to provide for any unexpected financial needs. The FY 2011-12 estimated ending balance has increased above budget due to a higher beginning balance resulting from additional FY 2010-11 savings, increased revenue projections, and identification of current year operating expenditure savings. The FY 2012-13 ending balance is projected to be at \$15.7 million. Staff will continue to proactively manage operational revenue and expenditures to maximize the ending balance.

* The Convention Center Combined Funds Ending Balance does not include the Venue Project or the Palmer Events Center (PEC) Combined funds.

Capital Budget

The Convention Center Capital Budget will receive \$9.0 million in new appropriations transferred from Convention Center Fund in FY 2012-13 for building improvement projects. The workplan focuses on projects which will help to better serve our customers, such as rebuilding of escalators, repairing and upgrading the garages, and upgrading electrical capacity in the pre-function areas of the Convention Center.

One of the department’s key horizon issues has been the need for a new convention hotel to help maximize economic impact to the City. With plans underway to open two convention hotels in 2015, a new opportunity will exist for ACC to host larger conventions and to host multiple events simultaneously. In order to meet the significantly increased demand, additional space on the South, or original side of the Convention Center, may be needed so that a more competitive meeting room package can be offered. The current meeting room package features small to mid-sized meeting rooms and needs larger rooms that can be divisible, if desired, by operable walls. ACCD is currently working with the Department of Public Works on possible options to add or retrofit space.

Austin Convention Center

Significant Changes

Convention Center Combined Funds

Revenue Changes	Dollars
The Budget includes an increase in contractor revenue primarily for food and beverages operations.	\$538,525
Revenue from the Hotel Occupancy Tax allocation will increase for FY 2012-13 by \$3.3 million for the Convention Center.	\$3,349,844
The 2012-13 Budget includes an increase in revenue from the Venue Project Fund's Hotel Occupancy Tax allocation.	\$1,488,670
Based on event schedule and fee changes there will be an increase of \$60,000 in facility revenue.	\$60,000
The Budget includes a decrease in revenue from Convention Center and Venue Project funds interest earnings.	(\$82,429)

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$317,297 for salary increases associated with wage adjustments in FY 2013. An additional \$60,853 is included in the Budget for increased City contributions for health insurance.		\$378,150

Austin Energy

Mission and Goals for 2013

Mission

The mission of the Austin Energy Department is to deliver clean, affordable, reliable energy and excellent customer service.

Goals

Austin Energy is proactive in developing an understanding of its customers by monitoring indicators and conducting customer surveys.

- Increase customer satisfaction above 83% on the American Customer Satisfaction Index (ACSI).
-

Austin Energy will create and sustain economic development by providing contract opportunities for local businesses, attracting new businesses, and supporting the development of a clean energy industry.

- Increase Minority and Women Owned Business Enterprise (MBE/WBE) participation for construction contracts to 12.9% for MBE and 12.6% for WBE.
-

Austin Energy will pursue best operating and maintenance practices for its electric delivery system and power plants to ensure availability and reliability, which supports its Excellent Customer Service Strategy.

- System Average Interruption Duration Index (SAIDI) at 60 minutes or less.
 - System Average Interruption Frequency Index (SAIFI) at 0.8 interruptions.
 - System Average Transmission Line Performance Index of 4.1 faults.
-

Maintain strong financial position in support of the Utility's Risk Management strategy and achieve improved credit ratings as measured by bond ratings agencies.

- Achieve the "AA" credit rating on separate lien electric utility system revenue bonds on the Standard & Poor's rating.
-

Supporting the Energy Resource Strategy, this strategic objective is addressed by the Austin Energy long-range energy resource plan and other emerging energy technology and energy-focused programs.

- 35% of renewable energy in generation portfolio by 2020.
 - 15% of energy efficiency by 2020.
 - 200 Megawatts (MW) of solar generation by 2020.
 - 800 Megawatts (MW) of peak demand savings by 2020.
-

This energy resource plan is designed to be flexible and dynamic. As circumstances change, the City must maintain the flexibility to modify elements to respond to a range of factors, including economic conditions, customer load, fuel prices and availability, infrastructure build-out, technological development, law and regulations, policy direction, and customer needs. The plan will be adapted and modified to manage risk, maintain system and service reliability, achieve policy goals, and meet customer demand for excellence.

Austin Energy

Message from the General Manager

Austin Energy, the City of Austin’s municipally owned and operated electric utility, provides retail electric service to more than 417,000 metered customers. As the eighth largest public power utility in the country, Austin Energy serves Austin, 14 surrounding Travis County communities, a portion of unincorporated Travis County and a 15 square mile area of Williamson County. The utility has built a balanced generation portfolio of coal, nuclear, natural gas and renewable energy totaling more than 3,100 megawatts (MW).

Webberville Solar Farm

The renewables are secured through-term power purchase agreements for the annual output of 461 MW of wind-generated power, 30 MW of solar and 100 MW of biomass. Austin Energy owns electric delivery assets that include 620 miles of high voltage transmission lines, 11,000 miles of distribution lines, and 68 substations.

The Austin-Round Rock metropolitan area is one of the most vibrant and attractive urban areas in the country. The area has added more than 300,000 new residents over the past 20 years and consistently rates in the top 10 for best place to live and to operate a business. As a result, Austin Energy enjoyed growth in electric sales that averaged about 6% during the 1990’s – a pace sufficient to fund system expansion, additional generation, renewables, energy efficiency and Green Building without base-rate increases. Beginning in the early 2000’s the economy had several disruptions that created a need for rate changes by 2006.

That need was amplified by an electric utility industry undergoing significant change. This includes legislative and environmental regulations affecting generation resources and a growing recognition of the role energy efficiency and demand management can and should play in resource planning. Today’s reliability and security compliance requirements are much more stringent and smart grid development represents both an opportunity and a necessity for greater system efficiency and customer service. Operationally, the shift by the Electric Reliability Council of Texas (ERCOT) from a zonal market to a nodal market on December 1, 2010 has impacted operations, power pricing and wholesale sales.

Since FY 2007-08, Austin Energy has steadily increased its effectiveness in addressing the growing cost of materials and services and reduced growth in electric sales. This focus has included stringent limits on workforce growth (no new positions added since FY 2008-09), slowing replacement hiring to gain vacancy savings, and reducing controllable contractual and commodities expenses. In capital spending, Austin Energy continues to carefully defer projects and reduce project scopes where possible. Additionally, in the FY 2012-13 Budget, funding for capital projects will include a higher percentage of debt funding to conserve cash. The goal is to achieve an annual debt ratio for capital projects over the next five years closer to 65% versus the current 50%, while maintaining an overall long-term debt/equity ratio goal of 50% debt and 50% equity.

Over the past four years Austin Energy budgets were not structurally balanced; that is, available funds were not sufficient to cover requirements. This FY 2012-13 Budget includes a City Council approved rate increase of \$71 million in revenue. This increase, the first base rate increase in 18 years, will help put the utility back on track toward financial stability. The new rate structure updates the cost to serve the various customer classes, moves the utility forward in the recovery of fixed costs through fixed charges and promotes energy efficiency. The new rate structure also improves transparency and provides a more reliable funding approach for Council approved community benefits while accomplishing the goal of keeping rates affordable. The Austin Energy FY 2012-13 Budget recognizes a changing utility industry while supporting innovation, improved customer service and the community priorities and direction set by Council. It provides additional resources necessary to enable Austin Energy continued success in the *delivery of clean, affordable, reliable energy and excellent customer service.*

A handwritten signature in black ink that reads "Larry Weis".

Larry Weis
General Manager

Budget Highlights

Austin Energy is committed to its mission of “*delivering clean, reliable and affordable energy and excellent customer service*” to over 415,000 metered customers. Long-term objectives of the utility continue to include financing the needs of Austin Energy’s Resource, Generation and Climate Protection Plan to 2020 while remaining a leader in renewable energy and energy efficiency. The FY 2012-13 Budget includes Austin Energy’s first base rate increase in eighteen years in order to help keep the utility financially stable and able to continue to provide the programs necessary to keep Austin Energy a leader in renewable energy, energy efficiency and reliability of service as well as to adapt to electric utility industry changes.

Rate Restructuring

Since FY 2008-09, Austin Energy’s total available funds have not been sufficient to cover total requirements. Although significant cost reductions were made, operating reserves were drawn down for funding. To continue to provide reliable electric service, revenue sufficiency for the utility must be assured into the future. Planning for an electric rate review began in May 2010 following presentation of the utility’s FY 2011-2015 Financial Forecast which showed deficits in each forecast year. Third party expertise was contracted to assist in the planning, analysis and development. A cost of service study, cost analysis and rate development were completed in early FY 2011-12 with a new rate design approved by City Council on June 7, 2012. Highlights of the rate review and restructuring include: (1) a system average 7% rate increase, (2) moving the residential two-tier rate structure to five tiers to promote energy efficiency, (3) a community benefit charge to increase funding for the Customer Assistance Program (CAP) to recover energy efficiency program cost and service area street and traffic lighting cost, and (4) a regulatory charge to recover transmission costs and regulatory fees. This rate increase and restructuring will help Austin Energy achieve a balanced budget in FY 2012-13 and improve the financial stability of the utility.

The table below reflects the average residential customer bill impact for FY 2012-13. The FY 2011-12 versus FY 2012-13 rate comparison is based on an average residential customer using 1,000 kilowatt hours (kWh) of energy. The FY 2012-13 monthly bill includes the impact of Council approved rate increase set to take effect on October 1, 2012.

Average Residential Customer Bill Impact Unbundled 5-Tier Inclining Block Energy Rate

	Energy kWh	FY 2011-12 Rate	FY 2012-13 Rate	\$ Change	% Change
Average Monthly Bill	1,000	\$95.94	\$102.47	\$6.53	6.8%

Revenue

For the FY 2012-13 Budget, revenue, including transfers, totals \$1.28 billion, which represents a \$145.3 million or 12.8% increase compared to the FY 2011-12 Budget of \$1.14 billion. Of the variance, revenue from sales of electricity (base or non-fuel) increased by \$30.1 million as a result of a projected increase in the number of billed customers and energy sales, and new rates effective October 1, 2012. Two new revenue sources as a result of the rate review and restructure are the Community Benefit revenue of \$32.4 million and Regulatory revenue of \$80.2 million. The Community Benefit revenue will fund the Customer Assistance Program (CAP), energy efficiency and street and traffic lighting. The Regulatory revenue will fund Austin Energy’s additional costs related to the ongoing Texas electric transmission grid build-out (replacing the Transmission Rider) as

well as fees for operation in the Electric Reliability Council of Texas (ERCOT) grid. Austin Energy has no control over these state-wide costs.

Other revenue changes are an increase in fuel revenue of \$5.3 million or 1.3% due to increased sales and the different mix of renewable fuels added to the portfolio such as biomass, wind and solar. Fuel and ERCOT net settlement cost are passed through to the customer with no profit added and beginning in October 2012, Fuel Revenue will be renamed as the Power Supply Adjustment. Other revenue is increasing by \$1.6 million primarily due to an increase in chiller revenue related to new customers in the downtown area of Austin.

Requirements

Total requirements of \$1.27 billion for the FY 2012-13 Budget represents a \$50.8 million or a 4.2% increase from the FY 2011-12 Budget of \$1.22 billion. The FY 2012-13 Budget includes cost containment efforts in operations and maintenance by deferring information technology projects and a comprehensive pole inventory as well as other maintenance deferrals in software and equipment. Other reductions and deferrals occurred in the capital spending plan to help ensure stability of the utility’s financial position while the new rate structure and revenue is being implemented. For the fourth consecutive budget cycle, no new FTEs were added. Other major decreases in requirements include \$7.7 million in the cash transfer to the capital improvements program (CIP) due to more projects being debt funded, and \$1.4 million in bad debt expense due to better collection practices.

Major increases include \$23.9 million in operating costs for the nuclear and coal plants, \$14.0 million for increased transmission costs related to the ongoing Texas electric transmission grid build-out, \$2.8 million in maintenance costs at the Decker and Sand Hill generating plants which had been deferred in prior years, and \$1.6 million for additional costs at the chiller plants to serve new customers. Other budget increases are due to built-in cost drivers. Wage adjustments, supplemental retirement contribution increases, health insurance and the transfer for City administrative support and technology support account for \$8.7 million of the increases.

In addition, the FY 2012-13 Budget includes an increase of \$5.3 million in fuel expenses and Electric Reliability Council of Texas net settlements due to increased sales and the different mix of renewable fuels added to the portfolio such as biomass, wind and solar. Fuel and ERCOT net settlement cost are passed through to the customer with no profit added. Fluctuations in these costs will impact the Power Supply Adjustment in a similar manner.

Capital Budget

The FY 2012-13 Capital Budget includes \$177.4 million of new appropriations to support infrastructure improvements. These new and existing appropriations support the FY 2012-13 Capital Improvement Spending Plan of \$220.8 million. The Capital Improvements Spending Plan includes:

- \$46.5 million for Power Production projects including:
 - \$23.3 million for combined heat and power projects
 - \$9.2 million upgrades for Decker Power Station and Sand Hill Energy Center
 - \$7.2 million for Fayette Power Plant upgrades
 - \$6.8 million for the South Texas Project

- \$5.2 million for non-nuclear decommissioning related to the Holly Power Plant

- \$12.8 million for Alternative Energy projects including:
 - \$7.4 million solar installations on City facilities
 - \$2.2 million community solar substation at Webberville
 - \$2.1 million other energy saving equipment at City facilities
 - \$1.1 million replace chillers at city facilities

- \$76.5 million in Distribution projects including:
 - \$15.9 million for residential and commercial system upgrades
 - \$14.0 million for distribution substations including completion of Bullick Hollow, Air Products, Parmer, and Carson Creek
 - \$9.7 million for relocation and other improvement projects
 - \$9.0 million for streetlight projects including “Dark Sky”

Carver Library Solar PV

- \$8.7 million for information technology and meter related projects such as an outage management system and meter data management
 - \$6.9 million for downtown network projects
 - \$6.3 million for system reliability improvements
 - \$5.0 million for growth related projects
- \$44.7 million for Transmission projects including:
 - \$31.7 million for transmission substations including completion of the Dunlap, Parmer, Air Products and Mustang Ridge substations
 - \$11.2 million for the transmission circuit upgrades including \$6.1 million for Dunlap substation cut-in and easements
- \$4.5 million for Customer Billing and Metering projects including:
 - \$2.2 million for upgrades to the Customer Information Billing System replacement
 - \$1.0 million for telephony replacements
- \$30.6 million for other utility-wide support projects including:
 - \$12.0 million for the completion of the System Control Center (SCC)
 - \$11.4 million for various information technology projects
 - \$3.7 million for various security improvements and facility upgrades
 - \$3.5 million Longhorn Dam Rehabilitation

Transmission Upgrades at the Burleson Substation

The \$220.8 million FY 2012-13 Capital Improvement Spending Plan is funded with \$152.0 million issuance of commercial paper and \$68.8 million of transfers from operations (internally generated cash) and beginning cash balances.

Key Performance Indicators

The City Council adopted the Austin Climate Protection Plan (ACPP) in 2007 to build a more sustainable community. Every City department was subsequently tasked to create action plans intended to ensure that departmental operations were consistent with the ACPP. Austin Energy developed its Resource, Generation, and Climate Protection Plan to 2020 (the Resource Plan) to meet these objectives. The Resource Plan is a resource planning tool that brings together demand and energy management options over the planning horizon. Developing the Resource Plan involved extensive analysis of the expected risks, costs, and opportunities to meet the future demand for electricity services. The Resource Plan goals were based on Austin Energy's current understanding of technology and of national, state and local energy policies. The Resource Plan also benefited from substantial input from citizens, customer groups, utility advisory commissions and a Council appointed Taskforce.

On April 22, 2010, City Council approved the Austin Energy Resource, Generation, and Climate Protection Plan with resource and timeline goals of achieving 35 percent of annual energy supply from qualifying renewable sources in addition to 800 MW of energy efficiency measures by 2020. Council delayed implementation of the flexible, dynamic Resource Plan until an affordability "matrix"—a method to measure the plan's affordability—was identified. On February 17, 2011, the City Council approved the Resource Plan including an affordability goal. The affordability goal, intended to make the Resource Plan as predictable as possible, calls for Austin Energy to keep system rate increases to 2% or less per year. In addition, the goal is to maintain AE's current all-in competitive rates in the lower 50% of Texas rates overall. The affordability goal will apply immediately upon implementation of Austin Energy's revised rates to be implemented in October, 2012.

This Resource Plan is designed to be flexible and dynamic. As circumstances change, the City must maintain the flexibility to modify elements to respond to a range of factors, including economic conditions, customer load, fuel prices and availability, infrastructure build-out, technological development, law and regulations, policy direction, and customer needs. Therefore, as conditions change, the Resource Plan will be adapted and modified to manage risk, maintain system and service reliability, achieve policy goals and meet customer demand for excellence in all aspects of service.

Austin Energy will review the Resource Plan annually and issue a report on performance against goals. Austin Energy will reassess the Resource Plan in a public forum every two years. Every major resource decision and Resource Plan change will be taken before the City Council for review and authorization.

A bond rating is a measure of a utility’s ability to repay its debt in a timely fashion. Austin Energy consistently receives high bond ratings which keeps the cost of borrowing low and helps to keep rates affordable.

Debt	Fiscal Year	Ratings		
		Fitch, Inc.	Moody’s Investors Service, Inc.	Standard and Poor’s
Utility revenue bonds – prior lien	2009	AA- Stable	A1 Positive	AA Stable
	2010	AA- Stable	A1 Positive	AA Stable

	2010	AA- Stable	A1 Positive	AA Stable
	2011	AA- Stable	A1 Stable	AA Stable
	2012	AA- Stable	Aa2 Stable	AA Stable
Utility revenue bonds – Electric separate lien	2009	AA- Stable	A1 Positive	A+ Positive
	2010	AA- Stable	A1 Stable	A+ Positive
	2011	AA- Stable	A1 Stable	A+ Positive
	2012	AA- Stable	A1 Stable	A+ Positive

System Average Interruption Duration Index (SAIDI) defines the average outage duration for each customer served during the fiscal year. The Public Utility Commission of Texas-defined standard for Austin Energy is average outage duration of 60 minutes. Austin Energy exceeded these standards in FY 2010-11. These indicators are directly influenced by the type and magnitude of weather events and line clearance cycle.

Austin Energy is proactive in addressing customer needs and regularly monitors customer satisfaction through customer surveys. The nationally recognized American Customer Satisfaction Index (ACSI) measures, then averages, the satisfaction levels of Austin Energy’s three major customer segments – residential, commercial and key account (large commercial) based on the measurement of key deliverables such as value and customer service.

Items Approved by Council at Budget Adoption:

- Increase appropriations in the amount of \$3,500,000 for the Solar Program.

Austin Energy Significant Changes

Austin Energy Fund

Revenue Changes	Dollars
Service area (base) revenue increases as a result of a projected increase in the number of billed customers and energy sales, and new rates effective October 1, 2012.	\$30,132,689
Austin Energy's new approved rates include a new revenue category for Community Benefit Revenue that is collected from customers for Energy Efficiency Services, Street and Traffic lighting and the Customer Assistance Program.	\$32,398,276
Fuel Revenue increases by \$5,307,474 primarily due to increased energy sales and the different mix of renewable fuels added to the portfolio such as biomass, wind and solar.	\$5,307,474
An increase in Wholesale Transmission Revenue is included in the Budget based on updated projections from the Electric Reliability Council of Texas (ERCOT).	\$2,575,076
A decrease for the Transmission Rider Fee (no profit) which was a cost recovery method for increased costs associated with the Texas grid build out. These costs will be recovered in FY 2012-13 through the Regulatory Fee.	(\$17,173,022)
AE's new approved rates include a new revenue category for Regulatory Revenue that replaces the Transmission Rider Fee in part and recovers transmission costs and other ERCOT fees. Austin Energy has no control over these state-wide costs.	\$80,221,849
Other Revenue increased in the FY 2012-13 Budget due to higher Chiller revenues, partially offset by lower non-operating revenues.	\$1,562,938
Interest Income Revenue is down due to lower cash balances and low interest rates.	(\$577,237)
A transfer in from the Strategic Reserve Fund is included in the Budget.	\$10,900,000

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$3,832,500 for salary increases associated with wage adjustments in FY 2012-13. An additional \$504,500 is included in the Budget for anticipated changes in the City's contribution for health insurance.		\$4,337,000
The Budget includes \$9,029 for wage adjustments associated with implementing the City's recently completed market study.		\$9,029
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$2,361,304
Department-wide		
An adjustment to personnel costs is included in the Budget to reflect vacancy trends. The change will decrease the budget (\$1,144,637) by increasing the personnel savings amount equal to 6% of payroll.		(\$1,144,637)

Expenditure Changes	FTEs	Dollars
An increase of \$463,874 in janitorial costs is included in the Budget to account for costs associated with replacing outside contractors with City of Austin employees through the Building Services Department. The total AE janitorial budget is \$1.0 million.		\$463,874
Electric Service Delivery		
An increase in vehicle leasing in order to offset the need to purchase new vehicles is included in the Budget.		\$193,460
The Budget includes an increase to overtime to reflect a decrease in demand.		\$286,819
A decrease in Software Maintenance contracts due to delay of the video wall project for the new System Control Center is included in the Budget.		(\$54,658)
Customer Care		
A decrease in billing costs for printing, supplies and postage is included in the Budget to reflect historical lower overall demand within the Customer Care Business Unit.		(\$1,823,794)
A decrease in bad debt expense results from better collection practices.		(\$1,376,201)
City departments (Austin Water Utility, Austin Resource Recovery, Drainage Utility and the Transportation Department) for their share of costs for Austin Energy's Customer Contact and Billing & Revenue Measurement area. The increase to other City departments decreased Austin Energy's Operating Budget.		(\$1,672,308)
An increase for temporary employees and temporary contractual services is included in the Budget.		\$980,205
An increase in postage charges is included in the Budget.		\$154,638
Power Supply & Market Operations		
An increase in Austin Energy's share of operating costs for the South Texas Nuclear Plant and Fayette Power Plant (both jointly owned facilities) is included in the Budget.		\$23,907,090
An increase in Decker Power Station maintenance of plant equipment is included in the Budget.		\$1,482,679
An increase in overtime is included in the Budget.		\$208,294
The Budget includes a decrease for temporary employees.		(\$199,351)
Distributed Energy Services		
An increase in Energy Efficiency programs is included in the Budget for new program development.		\$1,597,065
A decrease in the Solar Rebate and Incentives program is included in the Budget. The rate review includes a net metering rate alternative for customers with solar installations, thus reducing the need for these rebates.		(\$630,000)
An increase in temporary employees and temporary contractual services is included in the Budget.		\$554,754
Support Services		
An increase of \$657,771 is included in the Budget for the transfer to Communications & Technology Management (CTM).		\$657,771

Expenditure Changes	FTEs	Dollars
Recoverable Expenses		
An increase in Transmission Cost of Service is included in the Budget based on Austin Energy's share of the Electric Reliability Council of Texas (ERCOT) transmission grid costs.		\$14,045,103
A reclassification in ERCOT administrative fees is included in the Budget (from fuel to regulatory).		\$10,855,000
Fuel		
An increase in fuel costs due primarily to increased sales and the different mix of renewable fuels added to the portfolio such as biomass, wind and solaris included in the Budget.		\$5,307,474
Transfers & Other Requirements		
A decrease in debt service requirements based on the FY 2012-13 Capital Improvement Program Spending Plan is included in the Budget.		(\$1,939,286)
A decrease in the transfer of current revenue for the Capital Improvement Program (CIP) based on the FY 2012-13 Electric CIP Spending Plan is included in the Budget.		(\$7,655,000)
An increase in Accrued Payroll \$259,735 and Workers' Compensation \$255,197 is included in the Budget.		\$514,932
An increase in the Administrative Support transfer is included in the Budget.		\$1,374,573
A decrease in non-fuel and other operating expenses due to cost containment efforts is included in the Budget.		(\$1,989,056)
The following change was approved by Council at Budget Adoption:		
Amend the proposed budget of Austin Energy to increase appropriations in the amount of \$3,500,000 for the Solar Program.		\$3,500,000

Austin Energy Budget Detail by Activity

Program: Customer Care

Activity: 311 Citywide Call Center

The purpose of the 311 City-Wide Call Center activity is to provide uncomplicated access to City of Austin services and information.

Austin Resource Recovery Mission and Goals for 2013

Mission

The mission of Austin Resource Recovery is to provide excellent customer services that promote waste reduction, increase resource recovery, and support the City's sustainability efforts so that zero waste goals may be achieved.

Goals

Provide reliable integrated waste management services.

- Increase the average pounds of recycled materials collected per customer account per pickup to 26 lbs.
- Decrease the average pounds of garbage collected per customer account per week to 26 lbs.

Implement Master Plan initiatives in order to achieve Zero Waste goals.

- Increase the percent of waste stream diverted from the landfill through ARR Curbside Collections and Household Hazardous Waste Operations to 42%.

Provide educational programs to the community on responsible waste management.

- Promote Zero Waste by increasing the number of contacts through presentations given and events attended to 12,000.

Increase customer satisfaction in the citizen survey for Residential Garbage Collection Services to 90%.

Decrease the lost time injury rate per the equivalent of 100 employees to 0.

Austin Resource Recovery

Message from the Director

The Austin Resource Recovery Department (ARR) provides a broad range of services, including curbside collection of trash recycling, yard trimmings, and brush and bulk items, as well as street sweeping, litter abatement, household hazardous waste collection and resource recovery. To provide these services in a professional and efficient manner, ARR employs 398 staff members and operates five different facilities throughout the city.

After the City Council adopted the Austin Zero Waste Strategic Plan in January 2009, ARR developed a Department Master Plan that identifies resources available and existing gaps in service and infrastructure needed to achieve Zero Waste. The Austin City Council adopted the Department

Master Plan on December 15, 2011; the Master Plan will serve as the Department's implementation plan with recommended financing mechanisms to invest in infrastructure and to guide future budgets.

As the City aspires to be the Best Managed City in the country, our FY 2012-13 departmental activities will focus on customer service, employee safety, quality assurance and the greening of our operations. Of the many initiatives planned, perhaps the most significant is the Department's partnership with Balcones Resources and Texas Disposal Systems for the processing of Single Stream Recyclables beginning October 1, 2012. ARR staff has analyzed our collection vehicle routes to implement operational efficiencies in preparation for hauling recyclables to each facility. To reduce our carbon footprint, we have utilized updated routing software and GPS systems to develop more energy-efficient routes, reducing the overall vehicle mileage traveled by 10 percent.

The City-managed waste hauling and recycling contract for the Central Business District (CBD) has been expanded this fiscal year to provide recycling opportunities to participating downtown businesses. This recycling expansion will continue through the next fiscal year, and the participating businesses will serve as models for other commercial properties while ARR initiates Phase 2 amendments to the Universal Recycling Ordinance (URO) and evaluates methods to recover food waste and other organics from the waste stream.

In partnership with community stakeholders, ARR plans to expand the *Recycle Right* campaign to encourage residents to more effectively recycle and compost at home. ARR staff has piloted various recycling and composting efforts at City-sponsored events and is drafting an ordinance to require recycling and organics collection at special events.

ARR will strive to exceed industry standards in service delivery and implement innovative programs to advance our journey toward Zero Waste while lowering our carbon footprint. Internally, ARR will continue to explore compressed natural gas, hybrid, and electric vehicle technologies in preparation for replacing our aging fleet of collection trucks.

The Zero Waste Strategic Plan impacts the community at large. Throughout FY 2012-13, the Department will engage external stakeholders in implementation of the URO. As we begin the implementation of our Master Plan, the Department will research the composition of the waste stream from numerous sources to help identify what areas of the City need diversion assistance. In addition, staff will identify areas of the City where recycling participation is low and target public education efforts to those areas of need. ARR is leading the community on the journey toward Zero Waste.

Handwritten signature of Robert Gedert.

Robert Gedert, Director

Budget Highlights

The Austin Resource Recovery Department (ARR) provides weekly collection of trash and yard trimmings, bi-weekly collection of recyclables and semi-annual collection of brush and bulk items. In addition, ARR provides an array of other citywide services, including dead animal collection, street sweeping, daily cleaning and litter control management of the downtown Central Business District, special events waste management, illegal dump clean ups, a household hazardous waste collection facility and a resource recovery facility. The FY 2012-13 Budget—with projected revenues of \$72.7 million and expenditures of \$81.9 million—will allow ARR to continue to provide these services while maintaining a high level of customer satisfaction.

Pay As You Throw Rates

One of the main principles of the Zero Waste concept is to focus on reducing waste and increasing recycling. In an effort to encourage residents to further embrace this concept, ARR is proposing an adjustment to the current rates to charge a per gallon rate. ARR is recommending a rate of 16 cents per gallon for the 24-, 32-, and 64-gallon cart rates, and a 25 cent per gallon rate for the 96-gallon cart. The per-gallon rate system is intended to create a financial incentive for customers to decrease their trash volume by recycling more items and downsizing their trash cart capacity. The rate increase, coupled with planned annexations and customer growth projections, is expected to generate around \$3.5 million in revenue that will be fully utilized to support the Department's operations and Zero Waste initiatives. This increase is partially offset by a revenue decrease of \$343,000 in extra trash sticker charges, a direct result of the success of the Department's education and outreach efforts regarding increasing customer participation in Single Stream Recycling. Additionally, as a result of a legal review of the current fee structure, commercial rates will decrease to match the new cart rate structure. The financial impact from this change is an estimated decrease of \$1 million for FY 2012-13.

Clean Community Fee

As part of the FY 2012-13 Budget process, Austin Resource Recovery, in conjunction with the Code Compliance Department (CCD), proposed and approved a name change to the Anti-Litter fee that appears on customers' monthly bills and funds litter abatement, street cleaning, hazardous waste disposal, and Code Compliance activities. Renaming of the fee will provide a more transparent description to the community of the goal and value of programs supported by revenues collected. Revenues from this fee currently support both Austin Resource Recovery and the Code Compliance Department; to that end, an additional step is being taken to separate the fee between the two departments such that each has their own fee revenue funding. The FY 2012-13 Budget includes a \$1.00 per month increase in the Residential Clean Community Fee and a \$4.50 per month increase in the Commercial Clean Community Fee. ARR will receive a \$0.40 per month increase from the Residential Clean Community Fee, while CCD will receive a \$0.60 per month increase. For the Commercial Clean Community Fee, ARR will receive a \$2.30 per month increase, while CCD will receive a \$2.20 per month increase. ARR is projecting a total decrease of \$7.2 million in funding for FY 2012-13 from the Clean Community Fee as a result of the reallocation and fee increase. The Department will also be eliminating the recurring transfer to Code Compliance in FY 2012-13 and beyond as a result of the fee split. For FY 2012-13, this represents a decrease of \$9.6 million.

Internal Quality Assurance and Safety Measures

Historically, the Department has received laudable customer satisfaction survey results, 82%, 85% and 85% in from the 2009 through 2011 surveys, respectively. However, being "best-managed" means taking the extra steps necessary to outperform past achievements. The goal for FY 2012-13 is for 90% of citizens responding to the City of Austin Citizens Survey to rate their satisfaction with the quality of residential curbside garbage collection as either satisfied or highly-satisfied. Achieving that goal will require significant investment in internal quality controls and external customer service. Therefore, the Department is adding \$141,523 in funding for two positions to support and assist current staff with these initiatives.

Employee safety is another critical concern within the Department. To ensure staff has resources available to prevent injuries and accidents, ARR is enhancing its safety management program by adding \$127,000 for personnel costs related to safety training and educational and safety awareness materials.

Zero Waste Performance and Initiatives

Zero Waste is the guiding principle for the way in which ARR provides services. The Zero Waste Strategic Plan provides the policy foundation while the new Department Master Plan will provide implementation strategies for future programs and services. The Master Plan, adopted by Council in December 2011, details infrastructure, policies, and program changes needed to achieve Zero Waste, as well as provide future planning for the Department’s other core services.

The key performance indicator *Percent of Waste Stream Diverted by ARR Curbside Collections and Household Hazardous Waste Operations* illustrates the waste diversion success of ARR Recycling, Yard Trimmings and Household Hazardous Waste (HHW) collections. This measurement includes materials collected at the curb by ARR and received at the HHW site that are recycled or composted instead of landfilled. The calculation divides the total tons of materials collected and diverted from the landfills by the total tons of materials collected by the Department’s operations. The percent of waste stream diverted from the landfill is anticipated to increase by at least 2% in FY 2012-13. As a result this successful shift towards increased recycling collection and decreased trash collection is reflected in internal budgetary adjustments. Included in the FY 2012-13 Budget is an increase of \$914,000 to address the increased demand on recycling services and a decrease of \$343,000 for trash collection-related services. The Austin Resource Recovery Department is also adding funding in the FY 2012-13 Budget for four new FTEs to address the increased resource diversion goals.

Public Education to Increase Recycling Participation

The Department will engage in more direct and extensive public education programming in FY 2012-13. In response to community feedback that education would help improve recycling rates and community awareness about Zero Waste, the Department’s budget reflects a significant increase in investments for advertising, school education programs, community awareness campaigns and technical assistance for businesses.

The Department will initiate a series of new public education campaigns, which will focus on educating residents on the right materials to place in the blue cart, increasing recyclables collected, and reducing contamination rates. Staff will concentrate on using new social marketing opportunities similar to those used for the Department’s *Dare to Go Zero* reality television show.

The recently adopted Single Use Bag Ordinance requires significant investment in public education regarding the new bag regulations. Department’s efforts to educate local citizens on reusable bag options will be coordinated with local retail store consumer education efforts. Additionally, the Department will be challenged to educate visitors regarding recycling requirements at special events. In order to support these efforts, the Department is including an increase of \$1.1 million for consultant costs. An additional \$693,000 increase is allocated to consumer education campaigns, advertising and publication, and promotional materials related to these efforts.

Implementation of the Universal Recycling Ordinance

Implementation of the first phase of the Universal Recycling Ordinance requires increased ARR staffing to support the local service providers regarding implementation strategies, signage and coordination of services. The FY 2012-13 Budget includes funding for a Public Information and Marketing Manager to provide support for the Universal Recycling Ordinance implementation. Multi-family settings will require extensive tenant education as well as technical assistance to the on-site property management. Reporting requirements and signage will be issues that require cooperation and support by the stakeholders, and the Budget also includes \$73,000 for educational material and promotional items related to the implementation of the ordinance.

The second phase of the Ordinance requires consensus from stakeholders in the food service industry and among service providers. The collection and processing of food organics may require the service providers to invest in specialized equipment and composting permits. To assist in this transition, the Department will continue to sponsor pilot projects to test innovative methods of collection and processing as well as investigate best practices.

The Department will invest in hiring and training technical assistance staff, including partnering or contracting with private entities, to provide tenant education, apartment complex assistance, restaurant and food service assistance and commercial office building tenant education. To that end, the FY 2012-13 Budget includes three new FTEs and \$216,859 to assist in recruitment and development of Zero Waste businesses and infrastructure and with the implementation of the Event Recycling Ordinance,

New Diversion Program Implementation

The Master Plan provides a cohesive framework of programs for promoting and implementing services that address the policies and goals of the City of Austin while minimizing environmental impacts and enhancing resource conservation opportunities. The implementation of the first wave of diversion elements within the Master Plan will impact the FY 2012-13 Budget. Some of these elements include:

- Evaluating efficiencies in the brush and bulk waste collection program;
- Initiating a waste composition study through a partnership with the University of Texas;
- Repurposing the Todd Lane Recycling Center to provide new resource recovery services and an expanded Household Hazardous Waste collection program;
- Piloting glass and tire recycling projects to build local reuse options for shredded glass and tires;
- Redesigning and launching a new business recycling assistance program including enhancement of the existing recognition program for businesses that are aggressively pursuing Zero Waste goals;
- Development of a Recycling Economic Development Program to entice recycling enterprises to locate to Austin and consume locally generated recyclables;
- Development and consideration of two City ordinances requiring recycling and composting by local businesses and event recycling for select events in Austin; and
- Exploration of land reuse at the closed FM812 Landfill, including a stronger gas capture system, gas-to-energy, a solar cap and an eco-industrial park on the unused land adjacent to the landfill.

Capital Budget

The FY 2012-13 Capital Budget includes of a total appropriation of \$14.5 million for capital equipment. These funds provide for vehicle and equipment improvements, upgrades and replacements for Austin Resource Recovery Programs. Noted efforts include a multi-year conversion from diesel trucks to compressed natural gas (CNG) vehicles and the additional vehicle purchases to support the collection of organics at residential units. Other funds totaling \$7.1 million that were appropriated in prior budget cycles will be allocated to improvements at Austin Resource Recovery's Harold Court site and for the assessment and cleanup of the historical landfill site Loop 360.

Items Approved by Council at Budget Adoption

- Amend the proposed budget of the Austin Resource Recovery Fund by increasing transfers to the Environmental Remediation Fund in the amount of \$287,000.
- Amend the transfers in to the Austin Resource Recovery Capital Improvements Program from the Environmental Remediation Fund in the amount of \$861,000 and increase appropriations by the same amount for the Rosewood CIP Project.

Austin Resource Recovery Significant Changes

Austin Resource Recovery Fund

Revenue Changes	Dollars
------------------------	----------------

Austin Resource Recovery is decreasing the revenue from the Clean Community Fee by \$9,591,680 due to a reallocation of the fee generated through Code Compliance and Austin Resource Recovery. This revenue decrease is offset by an increase in the Clean Community Fee, which increases the revenue projections for Austin Resource Recovery by \$2,384,385. The drop in revenue is further offset by a full reduction in the transfer from Austin Resource Recovery to Code Compliance in FY 2012-13. (\$7,207,295)

The Budget includes an increase of \$3,474,205 for revenue from residential customer collection fees due to a rate increase related to trash carts, customer growth, and annexations. \$3,474,205

Included in the Budget is a decrease of \$1,000,972 for revenue from commercial customer collection as a result of planned rate reductions. (\$1,000,972)

Due to a projected increase in the amount of recyclable materials collected and an increase in the commodities market prices, the Budget includes an increase of \$643,866 for recycling revenue. \$643,866

The Budget includes a decrease of \$350,000 in revenue from the Waste Hauler program, which is being transferred to Code Compliance in FY 2012-13. (\$350,000)

The Budget includes a decrease of \$342,512 from extra trash stickers and trash carts revenue because of an estimated increase in customer participation in Single Stream Recycling. (\$342,512)

A decrease of \$20,571 in revenue for account adjustments and decreases in interest revenue is included in the Budget. (\$20,571)

Expenditure Changes	FTEs	Dollars
----------------------------	-------------	----------------

Citywide

The Budget includes \$575,139 for salary increases associated with wage adjustments in FY 2012-13. An additional \$122,172 is included in the Budget for increased City contributions for health insurance. \$697,311

The Budget includes \$427,870 for wage adjustments associated with implementing the City's recently completed market study. \$427,870

Also included in the Budget is an increase of \$1,301,355 in Fleet fuel charges and Fleet preventative maintenance costs. \$1,301,355

The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system. \$410,196

Landfill Closure

Included in the Budget is an increase of \$917,722 due to the transfer of the Landfill Closure Program from the CIP Fund to the Austin Resource Recovery Operating Fund. \$917,722

Expenditure Changes	FTEs	Dollars
Collection Services		
Included in the Budget is a decrease of \$363,160 in temporary employees due to changes in the hiring process.		(\$363,160)
The Budget includes an increase of \$495,410 in Single Stream Recycling material processing expenses due to contractually-obligated increases and a projected tonnage increase.		\$495,410
Included in the Budget is a decrease of \$193,309 in trash collection service contracts and a decrease of \$40,484 for landfill fees due to a decrease in tonnage, a decrease of \$61,802 in radio/telephone costs and maintenance expenses, a decrease of \$35,136 in laundry related supplies, and a decrease of \$13,011 in small tools, safety equipment, and software.		(\$343,742)
The Budget includes a decrease of \$45,000 for vehicle parts, a decrease of \$44,787 in unscheduled vehicle repairs, and a decrease of \$17,125 for equipment rental charges to align the budget with historical spending levels.		(\$106,912)
Austin Resource Recovery is budgeting an increase of \$50,000 due to a new organic composting pilot contract, an increase of \$42,049 due to a mattress recycling pilot contract, and an increase of \$14,028 in postage due to expanded use of direct mail and notifications. This increase is partially offset by a decrease of \$12,258 in educational training fees and travel expenditures.		\$93,819
Waste Diversion		
The Budget includes funding for one additional Solid Waste Operator Specialist position to staff the expanded Resource Recovery Center, one Economic and Business Development Liaison who will assist with recruitment and development of Zero Waste businesses and infrastructure, and one Administrative Specialist to assist with the Event Recycling Ordinance implementation.	3.00	\$216,859
Included in the Budget is a decrease of \$67,560 in temporary employees due to changes in the hiring process.		(\$67,560)
Austin Resource Recovery is budgeting an increase of \$1,080,000 in contracted consultant costs due to the upcoming Plastic Bag Public Education and Zero Waste campaigns.		\$1,080,000
Also included in the Budget is an increase of \$30,000 in hazardous material disposal costs due to projected increases in material collected at Reuse Centers, an increase of \$5,000 in trash and recycling services, an increase of \$276,855 in contracts for two new Reuse Centers, and an increase of \$12,544 in interdepartmental charges to the Public Works Department.		\$324,399
The Budget includes an increase of \$179,800 in postage due to calendar mail outs and direct mail campaigns, an increase of \$295,000 in advertising and publication due to seasonal advertising, TV media, guerrilla marketing, and Zero Waste workshops, and an increase of \$218,400 in printing costs associated with the Organics Collection Program and direct mailings to promote additional materials now acceptable for Single Stream Recycling.		\$693,200
Included in the Budget is a decrease in various services, including a decrease of \$32,133 in water, wastewater, and electrical services, a decrease of \$17,416 in citywide training and fees, a decrease of \$10,111 in travel-related expenses, a decrease of \$4,000 for maintenance services for existing software, and a decrease of \$16,150 in vehicle parts and rental equipment to align the budget with historical spending levels.		(\$79,810)
An increase of \$73,400 for education material and signage for the Universal Recycling Ordinance is included in the Budget.		\$73,400

Expenditure Changes	FTEs	Dollars
Support Services		
The Budget includes funding for a new Contract Compliance Specialist to address the increase in the number of contracts and Interlocal agreements received by the Department, a new Financial Specialist to replace a position previously transferred to Quality Assurance, a Human Resource Supervisor and Advisor due to support the current staff with workers' compensation activities, and a Public Information and Marketing Manager to provide support for the department's Zero Waste activities.	5.00	\$433,021
As part of revised hiring processes, the Budget includes a decrease of \$98,268 for temporary personnel.		(\$98,268)
The department is including an increase of \$79,900 in the Budget for advertising and publication contracts related to the Clean Austin Program and free brush drop off points, and an increase of \$153,685 is budgeted for postage charges related to direct mail campaigns, community mailings and calendars.		\$233,585
Included in the Budget is \$554,640 for the purchase and implementation of a new Integrated Solid Waste Data Management and Electronic Fleet Management Software System.		\$544,640
The Budget also includes a decrease of \$128,500 for janitorial and security services, a decrease of \$22,220 for legal and training fees and travel, a decrease of \$74,365 for office rental space, and a decrease of \$18,493 for small tools to align the budget with historical spending levels.		(\$243,578)
Austin Resource Recovery is including an increase of \$29,418 for contracted services for truck wash grit disposal, as well as an increase of \$81,908 for other interdepartmental services. This increase is partially offset by a decrease of \$3,900 for vehicle parts and a decrease of \$6,962 for vehicle preventative maintenance.		\$100,464
Included in the Budget is an increase of \$100,211 for promotion of department-wide education campaigns and pilot projects throughout the City. To support these activities, \$18,000 is included in the Budget for training at an Employee Development Day.		\$118,211
Operations Support		
Included in the Budget is funding for one Administrative Specialist and one Waste Diversion Planner Senior to support and assist with key departmental initiatives and efforts.	2.00	\$141,523
Austin Resource Recovery is including an increase of \$285,760 in temporary employees due to an increase in cart delivery activities, route audits for revenue recovery, and a higher demand for account billing information verification.		\$285,760
The Budget includes an increase of \$9,950 for charges related to container painting and a quality assurance survey, an increase of \$10,000 in equipment for maintenance of downtown containers, and an increase of \$59,400 in interdepartmental charges for cart storage at another City facility.		\$79,350
Also included in the Budget is a decrease of \$1,834,929 in funding for trash cart purchases. Trash carts will be purchased using the capital budget to better align the department's accounting practices.		(\$1,834,929)
Transfers and Other Requirements		
The Budget includes an increase of \$130,248 for citywide administrative support and an increase of \$15,820 in the transfer to the Communications and Technology Management Fund.		\$146,068
The Budget also includes an increase of \$536,136 in the transfer of General Obligation (GO) Debt Service payments for the purchase of additional equipment to support the initiatives in the Austin Resource Recovery Integrated Master Plan.		\$536,136

Expenditure Changes	FTEs	Dollars
Austin Resource Recovery is including an increase in the transfer to the Austin Resource Recovery CIP Fund of \$1,400,000 for reimbursement of consulting services contracted in prior fiscal years. This increase is partially offset by a scheduled decrease of \$824,734 in the transfer to the CIP Fund to cover Landfill Closure and Post Closure Care.		\$575,266
The Budget includes an increase of \$70,355 for Workers' Compensation and an increase of \$57,195 to UCSO (CIS) Billing Support.		\$127,550
The Budget includes a decrease of \$48,229 in the transfer to the Sustainability Fund, and an increase of \$42,200 for Accrued Payroll.		(\$6,029)
Austin Resource Recovery is decreasing the transfer to the Code Compliance Fund.		(\$9,591,680)
The following change was approved by Council at Budget Adoption:		
The Approved Budget includes an increase of \$287,000 in the transfer to the Environmental Remediation Fund to provide support for the Rosewood CIP project.		\$287,000

Austin Water Utility

Mission and Goals for 2013

Mission

The mission of the Austin Water Utility is to provide safe, reliable and high quality water services to our customers so that all community needs for water are met.

Goals

Strengthen customer value and stakeholder relationships:

- Minimize loss of water. Maintain real loss volume of treated drinking water below 10%.
- Reduce customer service complaints. Keep customer complaint rate below 1%.
- Improve customer confidence. Increase customer satisfaction survey results to an average of 75%.

Protect the environment through sustainable practices:

- Reduce greenhouse gas emissions through the City's Climate Protection Plan. Maintain average annual carbon footprint below target of 6,347.
- Reduce combined single-family and multi-family water consumption per capita per day. Work to reduce per capita daily combined residential water consumption to 86 gallons.
- Reduce growth of non-residential potable water demand relative to projection. Work to reduce water consumption per capita per day to 156 gallons.

Protect the public health and safety by providing high quality water services:

- Maintain quality of water and wastewater system. Maintain zero notices of violations or enforcement actions.
- Reduce the number and volume of Sanitary Sewer Overflows. Keep number of reported wastewater repeat overflows per 100 miles of sewer lines below 1.
- Improve pressure, capacity, velocity, fire protection, and valve shutout capability within water distribution system. Keep peak day water usage as a percentage of water treatment system capacity at 80%.

Maintain strong financial position to ensure improved cost structure and competitive rates:

- Maximize utility revenue from all available sources. Keep dollar amount of revenue recovery from accounts with meter problems, needing wastewater averaging rate changes, or leak and other adjustments above \$1 million dollars.
- Reduce operations and maintenance costs. Keep O&M spending to 98% of budget.
- Minimize utility debt. Keep percentage of cash contributed to CIP above 20%.

Optimize life cycle cost of existing and future assets:

- Improve effectiveness and efficiency of Capital Improvement Program project delivery. Maintain CIP funds spent compared to budget at 90%.
- Achieve approved service levels at optimal life cycle costs, minimal environmental impact and maximized social value. Reduce kWh per MG across entire utility to 2,475 target.

Austin Water Utility

Message from the Director

The Austin Water Utility (AWU) provides retail water and wastewater services to a population of approximately 900,000 inside and outside the city limits. AWU also provides wholesale services to about twenty customers, including the communities of Rollingwood, Sunset Valley, Manor, Westlake Hills, two water control and improvement districts, five municipal utility districts, and several water supply corporations and private utilities. AWU draws water from the Colorado River into two water treatment plants that have a combined maximum capacity of 285 million gallons per day. Drinking water is pumped from the plants into Austin’s water distribution system, which has a total reservoir storage capacity of approximately 167 million gallons. AWU also operates a collection system that brings wastewater to two major treatment plants where it is treated before being returned to the Colorado River. A biosolids facility at Hornsby Bend receives sludge generated by the treatment processes at AWU’s wastewater plants and uses it to create compost. This facility has gained national recognition for its management of the waterways and lands, leading to its recognition as a national birding sanctuary. In addition, AWU manages the City’s wildlands and Balcones Canyonlands Preserve (BCP), which conserve habitat for endangered species. AWU also promotes water conservation through educational and incentive programs.

Reliable water and wastewater service are essential to the health and welfare of the community, and continued investment in the utility system is a prerequisite for economic growth and prosperity in the future. The Utility has been recognized for the excellence of utility services and management practices, but the Utility faces important challenges in continuing to serve the community. These challenges include financial stability, staffing to address core service functions, implementation of our capital improvement program, and the revenue and cost impacts as a result of increased water conservation awareness.

Current projections for the Utility’s financial condition show increases in costs exceeding the increases in revenue. The Utility is proposing increases in rates and changes to our rate structures for FY 2012-13 to ensure adequate funding of the water and wastewater operations and capital needs, while meeting Council and community conservation values, addressing sustainability issues, and meeting all financial policies.

While the Utility is proposing a rate increase for FY 2012-13 to close this gap, it is important for the ratepayers to know that the Utility has taken significant steps to control costs and enhance revenue. In the preparation of the FY 2012-13 Budget, the Utility continues to develop budget spending targets which have significantly reduced the increase in controllable operating costs. The revenue recovery effort to review billing anomalies continues to increase the amount of revenue collected.

The AWU is confident we will meet all of the challenges we face. We continue to be a leader in our industry and will adapt to changing conditions. Our vision is to be recognized as the best water utility in the nation, in a city that is the best managed city in the nation. Our team is committed to achieving these lofty goals, while providing safe, reliable, and high quality water services to our customers.

Greg Meszaros, Director
Austin Water Utility

Budget Highlights

The FY 2012-13 Budget for the AWU addresses major operating and capital improvement issues while allowing the utility to continue to provide high quality service. The Utility continues to focus on a reliable water supply, quality customer service, and appropriate investment in infrastructure while minimizing rate increases. However, the next fiscal year continues to present challenges for the Utility to address revenue volatility due to extreme weather patterns and the recent success of water conservation initiatives.

The projected cost increase needed to cover operating requirements, debt service, and transfers out is higher than projected increases in base revenues, necessitating increases in water, wastewater, and reclaimed water rates. The FY 2012-13 Budget projects total available funds of \$513.9 million and total requirements of \$518.2 million.

Revenue

According to the Lone Star Sierra Club, the City of Austin has one of the most aggressive water conservation programs in Texas, and AWU aspires to lead the state, and the nation, in innovative ways to sustain our natural resource. Water conservation initiatives could prolong the “trigger” to purchase additional water under the existing Lower Colorado River Authority (LCRA) supply agreement and defer the need to expand capital infrastructure in the long term, a goal the Utility genuinely supports. However, more than 80% of the Utility’s costs are fixed and conservation activities create revenue volatility that is unsustainable in the short term.

Subsequent to the FY 2011-12 Budget approval, the City Council passed Resolution No. 20110922-052 which directed the City Manager to work with a Joint Committee of the Water and Wastewater Commission, Resource Management Commission, and the Impact Fee Advisory Committee, with input from the public, to develop recommendations for short-term and long-term financial plans to strengthen the financial stability of the AWU. The FY 2012-13 Budget includes implementation of the recommendations from the Joint Committee regarding the current Revenue Stability Fee, changes to the volumetric rate block structure, and the creation of a new water revenue stability reserve fund.

The FY 2012-13 Budget also includes an increase in the number of residents participating in the Customer Assistance Program, from approximately 4,900 in FY 2011-12 to 18,000 by the end of the FY 2012-13.

Rates

AWU is proposing a two-phased change to the current rates for FY 2012-13 in order to implement the recommendations from the Joint Committee. The first phase will be effective November 1, 2012, and include a 6.0% increase for wastewater service and a 10.8% system-wide reclaimed water increase.

The second phase of the rate proposal will be effective February 1, 2013, and includes the following changes to the water rate structure: eliminate the current Revenue Stability Fee and redesign the fixed revenue structures for all customer classes; integrate new volumetric rate block intervals that more accurately reflect actual customer

Dowser Dan educates school kids about Water and water conservation.

usage; and create a new water revenue stability reserve fund to offset revenue shortfalls.

A new tiered minimum fixed water charge for the residential customer class will be based on the customer’s monthly consumption, with lower users paying a lower charge and higher water users paying a higher charge. The new monthly tiered minimum water charge is intended to promote conservation and will model the 5 tier volumetric rate block structure by assigning a tiered charge for each block. The amounts of the tiered minimum water charge will start at \$2.00 for block 1 and increase to \$12.55 for blocks 4-5. The multifamily and commercial customer classes will be assessed a meter-sized-based fixed charge, while the large volume and wholesale customer classes will be assessed a minimum water charge based on annual fixed revenue targets for each class.

The AWU has a residential 5 tier inclining block rate structure as a means to encourage conservation through water pricing, and changing the volumetric rate block intervals will provide further incentive for customers to conserve this essential resource. The new volumetric rate block intervals will ensure that the bottom 10% of residential water customers based on volumes purchased remain in the first tier and pay a discounted rate, while the top 10% of residential water customers based on the volumes purchased remain in the fifth tier and pay a premium rate.

The AWU also proposes to create a new water revenue stability reserve fund that will be funded by a volumetric reserve fund surcharge per 1,000 gallons of water used, as well as excess operating cash balances. A new financial policy stipulates that the reserve fund can only be used to offset revenue shortfalls in excess of 10% from the budgeted level.

The table below reflects the estimated average residential customer annualized bill impact for FY 2012-13. The FY 2011-12 versus FY 2012-13 rate comparison is based on an average residential customer using 7,727 gallons of water and 4,699 gallons of wastewater per month with a 5/8” meter. In addition, the water service rate includes a 1% transition to cost of service for the residential customer class. City Council approved a Cost of Service recommendation in FY 2009-10 to transition the residential class to the actual cost of service over a 5 – 7 year period.

Average FY 2012-13 Residential Customer Bill Impact

	Current 2012 Rates	Approved 2013 Rates	\$ Variance	% Variance
Water Service	\$28.82	\$30.14	\$1.32	4.6%
Water Stability Fee	\$4.40	\$0.00	(\$4.40)	0.0%
Water Tiered Fee	\$0.00	\$5.95	\$5.95	0.0%
Water Reserve Fund	\$0.00	\$0.65	\$0.65	0.0%
Wastewater Service	\$39.45	\$42.70	\$3.25	8.2%
Total Revenue	\$72.67	\$79.44	\$6.77	9.3%

Notes:

1. Includes a 1% transition to cost of service for the residential customer class.
2. Assumes wastewater increase in November 2012 and water increase in February 2013.

Staffing Plan

The FY 2012-13 Budget includes 26 new Full Time Equivalent (FTE) as part of an overall strategic plan to meet basic core services while continuing to incorporate and integrate environmental consciousness and sustainability into all Utility operations. Below is a breakdown of the staffing proposal:

- **Managing a Growing System & Staffing New Facilities**
 - Positions for the operations and maintenance of Water Treatment Plant 4 (13 FTEs)
 - AWU Electrician II positions to provide electrical diagnostics, maintenance, repairs and installation on motors and motor controls, substation switchgear, electrical distribution systems and lighting systems (2 FTEs)
 - Treatment O & M Tech Senior position to support operations and maintenance of five newly constructed facilities (1 FTE)
 - Project Coordinator position to coordinate facility projects and assist in the development of long term plans for facility infrastructure maintenance and replacement (1 FTE)

- Enhance Water Conservation, Reclaimed Water, Water Accountability & Water Quality
 - Scheduler Analyst position responsible for developing, scheduling and monitoring maintenance schedules and activities for the treatment plants as well as providing work order quality control and quality assurance (1 FTE)
 - Water Meter Technician Senior positions to support meter related work demand increases generated by Reclaimed Water and Revenue Recovery Programs (2 FTEs)
 - Engineer C position to provide engineering support for the Renewing Austin Water Main Replacement program (1 FTE)
 - Engineer C position for the Regulatory Support division to handle permitting and compliance with air and hazardous wastes regulations (1 FTE)
- Planning for the Future
 - Engineer C position for the System Planning division to support and expedite the Capital Improvement Program (CIP) Management program, plan development, on-going CIP Project Action Reviews (CIPPAR) for director approval, performance measurement, and coordination with Budget Office and Capital Planning Office (1 FTE)
- Ensure Solid Business Practices
 - Occupational Health & Safety Coordinator position to develop and implement safety programs throughout the Utility to address higher risk employee safety concerns (1 FTE)
 - Utility Emergency Management Coordinator position responsible for the design, development, coordination, implementation and maintenance of the utility's emergency response plan (1 FTE)
 - Facilities Supervisor position for the Wildland Conservation division to supervise 6 employees and coordinate facility actions (1 FTE)

Since FY 1995-96, Austin Water Utility has increased the number of new customers served by 60,000 or 40%. In that same time period, the total number of positions has increased by 13. Additionally, over 700 miles of new water lines and over 500 miles of new sewer mains have been added. New responsibilities have also been added to the department including: Water Conservation, Wildland Conservation, Liquid Waste Haulers Program, and HVAC maintenance from Austin Energy.

The Austin Water Utility has identified additional staffing requirements over the next five years. Over the next several months, the Utility will continue to analyze, prioritize and justify its additional staffing requirements. We expect to provide a report to Council in FY 2012-13 detailing our proposed staffing plan so Council can consider it prior to our FY 2013-14 forecast and budget.

FTEs vs. Customer Growth

During FY 2009-10 significant revenue shortfall resulting from primarily wetter than normal weather conditions, Austin Water Utility implemented cost containment efforts including increasing our position vacancies. Our vacancies increased to a high of over 140. Since earlier in 2012, we have aggressively initiated the hiring of our vacant positions. Over the months of May and June, the Utility has hired over 60 positions. Within the next several months, it is expected our number of vacancies would level out between 50 and 75 positions, which is generally our minimum levels due to turnover and retirements.

Key Performance Indicators

The following graphs indicate the anticipated impacts of the Budget on key indicators. Both water and wastewater qualities exceed state standards.

One way of assessing drinking water quality is to examine its turbidity, or the relative clarity of a liquid. Turbidity is measured in Nephelometric Turbidity Units (NTU) and it is an excellent measure of plant optimization to ensure maximum public health protection. NTUs of 1.0 or less generally are not detected by the naked eye. Per the Safe Water Drinking Act, the permit level for drinking water Turbidity is less than 0.3 NTUs 95% of the time.

One way of assessing the quality level of treated wastewater effluent is to compare the actual level of Biochemical Oxygen Demand (BOD), in milligrams per liter, to the permitted level mandated by the Environmental Protection Agency (EPA) and the Texas Commission on Environmental Quality (TCEQ). In 2007, there was a change in the reporting for BOD in order to be in compliance with EPA parameters based on Quality Assurance/Quality Control (QA/QC). Values less than 2.00 are considered less reliable due to the accuracy of the tests. Therefore, values less than 2 will be reported as < 2.00 mg/L. Austin’s wastewater treatment measures have historically been well below the permitted level of 10.00 mg/L.

Water Conservation

New initiatives in the Water Conservation program for FY 2012-13 include funding to assist with water-saving repairs in low-income homes, additional rebates to reduce water use in landscaping and irrigation systems, and funding for research to verify conservation savings and explore new conservation technologies. Water conservation helps preserve environmental flows in the Lower Colorado River, saves money for customers by reducing usage, helps delay the need for additional capital infrastructure, and postpones payments to the LCRA for additional water under the existing supply agreement. Conservation is a priority of the Utility and an important community value. Following is a graph showing historical gallons per capita per day (GPCD). Since 2008, mandatory water restrictions for all customer classes have been in place based on recommendations of the Water Conservation Task Force. As seen in the following graph, the GPCD has dropped over the last 5-6 years. Even in 2011, when the city of Austin experienced the hottest and driest summer on record, the GPCD was the 3rd lowest ever.

Capital Budget

The Capital Improvement Program provides funding for capital projects necessary to serve new growth, ensure system reliability, comply with regulatory requirements, and accommodate roadway improvements in our service area. With an estimated \$3.0 billion in fixed assets, AWU is a very capital-intensive enterprise, which requires continuous investment in extensive above and below ground infrastructure. The five year Capital Improvement Program (CIP) spending plan for FY 2013-17 is \$1,017.4 million. AWU has carefully evaluated each CIP project to determine the impact of any project reprioritizations. The five year CIP spending plan is designed to balance investments in rehabilitation and/or

Water Treatment Plant 4 Construction Site

replacement projects to reduce risks associated with aging infrastructure with investments in major infrastructure system improvement projects to support growth and development. The spending plan for FY 2012-13 is \$258.6 million, or 25.4 percent of the 5-year spending plan. However, only \$2.25 million in new appropriations is being requested which is for vehicle purchases and \$40.28 million in reallocations which is for wastewater improvements and reclaimed water projects. This year's appropriations request is much less than previous years because of three factors. First, major on-going projects such as WTP4 received full appropriations in prior years. Of the \$258.6 million in planned spending for next fiscal year, \$124.2 million or 48.0% is for WTP4 and the related Jollyville Transmission Main. Secondly, the Utility has worked diligently the last three years to close completed projects and move remaining appropriation balances to other projects. Thirdly, we are requesting that unused appropriation for the Austin Clean Water Program to be reallocated to the Wastewater Utility current revenue fund and the new Reclaimed Water Utility commercial paper fund.

These CIP expenditures are necessary to ensure the ongoing integrity of the City's water and wastewater systems. The program is financed largely by the issuance of short-term commercial paper that is later refinanced with long-term debt serviced by AWU's revenue. Additional funding is provided by transfers from operating accounts, and subdivision fees. The FY 2012-13 Budget includes transfers of \$58.4 million from the operating funds to the capital improvement program as cash funding of the projects to reduce issuance of additional debt.

Items Approved by Council at Budget Adoption

- Increase transfers out to the Environmental Remediation Fund in the amount of \$287,000.
- Decrease water service revenue in the Customer Assistance Program by \$900,000 to provide for water volumetric rate discounts.
- Increase transfers out to the Sustainability Fund in the amount of \$383,465.

Austin Water Utility

Significant Changes

Austin Water Utility Fund

Revenue Changes	Dollars
Water service revenue is increasing by \$26,767,466 due to the combined impact of 1) an increase in base revenue of \$14,567,466 from revised projections related to customer growth and the elimination of Stage 2 Water restrictions in FY 2013, and 2) an increase in revenue of \$12,200,000 resulting from the 5.0% water rate increase.	\$26,767,466
Wastewater service revenue is increasing by \$15,453,773 due to the combined impact of 1) an increase in base revenue of \$2,253,773 from revised projections related to customer growth and the change to a 3-month wastewater average policy, and 2) an increase in revenue of \$13,200,000 resulting from the 6.0% wastewater rate increase.	\$15,453,773
Reclaimed Water Service revenue is increasing by \$551,907 due to an increase in reclaimed water use by UT Austin and commercial customers once capital improvements are completed. The increase is also due to a 15.0% system-wide base reclaimed water rate increase, which generates \$140,000 of the increase.	\$551,907
New Water Revenue Stability Reserve Fund Surcharge is to be implemented in February 2013 and will collect \$3,809,300 through a volumetric charge per 1,000 gallons for all customer classes through the remainder of the fiscal year. Revenue from this surcharge will be placed into a separate reserve fund to be used for future water revenue shortfalls according to a new AWU financial policy.	\$3,809,300
Miscellaneous revenue is increasing by \$2,488,164. This is primarily due to the \$1.9 million Build America Bonds (BAB) interest subsidy, with the remaining amount generally due to an inflationary fee increase of 2%.	\$2,488,164
Interest income is decreasing by \$56,574 due to a further decrease in interest rate assumptions for FY 2012-13.	(\$56,574)
Transfers in from Capital Recovery Fees increased by \$500,000 due to the projected impact of revised impact rate fees.	\$500,000
Transfers in from the Reclaimed Utility Fund of \$1,920,000 are transfers from the water and wastewater utility funds to the new reclaimed water utility fund to cover reclaimed utility costs that are not recovered through reclaimed service revenue.	\$1,920,000
The following change was approved by Council at Budget Adoption:	
Decrease water service revenue in the Customer Assistance Program by \$900,000 to provide for water volumetric rate discounts.	(\$900,000)

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$1,892,118 for salary increases associated with wage adjustments in FY 2013. An additional \$323,752 is included in the Budget for increased City contributions for health insurance.		\$2,215,870
The Budget includes funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$1,343,524

Expenditure Changes	FTEs	Dollars
The Budget includes \$639,337 for wage adjustments associated with implementing the City's recently completed market study.		\$639,337
In the Budget, fleet maintenance charges are increasing by \$407,310 and fleet fuel charges department-wide are decreasing by \$36,385.		\$370,925
Department-wide		
A decrease in vacancy savings is included in the Budget which is attributed to a lower Utility-wide vacancy rate of 5%.		\$1,176,342
The Budget includes an increase in overtime to meet the increased demands for services.		\$291,591
An increase in temporary employees is included in the Budget.		\$284,066
Treatment		
The Budget includes 13 new Full Time Equivalent (FTE) positions for the operations and maintenance of Water Treatment Plant 4: 1 Treatment Superintendent; 2 Treatment O & M Supervisors; 8 Treatment O & M Tech Senior; 1 Stores Coordinator; and 1 Engineer C.	13.00	\$1,058,675
A new Scheduler Analyst position responsible for developing, scheduling and monitoring maintenance schedules and activities for the treatment plants as well as providing work order quality control and quality assurance is included in the Budget.	1.00	\$97,606
The Budget includes a new Utility Emergency Management Coordinator position. This position will be responsible for the design, development, coordination, implementation and maintenance of the utility's emergency response plan.	1.00	\$102,832
Two new AWU Electrician II positions are included in the Budget to provide electrical diagnostics, maintenance, repairs and installation on motors and motor controls, substation switchgear, electrical distribution systems and lighting systems.	2.00	\$159,033
The Budget includes a new Treatment O & M Tech Senior position to support operations and maintenance of five newly constructed facilities.	1.00	\$76,224
A transfer in of a 0.5 FTE position to the Treatment program area from the Support Services program is included in the Budget.	0.50	\$27,439
The Budget includes a transfer of an Administrative Supervisor position to the Management Services Department.	(1.00)	(\$66,055)
An increase of \$101,449 for testing services is included in the Budget to comply with new State mandates.		\$101,449
The Budget includes an increase of \$500,000 for the sludge hauling contract.		\$500,000
A decrease of \$975,893 in electrical services is included in the Budget due to projected reductions in flows.		(\$975,893)
The Budget includes a \$250,000 increase for a generator maintenance contract.		\$250,000
An increase of \$364,605 in non-CIP capital for laboratory equipment is included in the Budget.		\$364,605
Pipeline Operations		
The Budget includes 2 new Water Meter Technician Senior positions to support meter related work demand increases generated by the Reclaimed Water and Revenue Recovery Programs.	2.00	\$134,572

Expenditure Changes	FTEs	Dollars
An increase in Interdepartmental charges for street cut repairs is included in the Budget.		\$1,334,703
Engineering Services		
The Budget includes a new Engineer C position to provide engineering support for the Renewing Austin Water Main Replacement program.	1.00	\$121,520
An increase of \$176,017 is included in the Budget for the Cleaning and TV Inspection contracts for pipeline maintenance.		\$176,017
Water Resources Management		
The Budget includes 1 new Engineer C position for the System Planning division to support and expedite the Capital Improvement Program (CIP) Management program, plan development, on-going CIP Project Action Reviews (CIPPAR) for director approval, performance measurement, and coordination with Budget Office and Capital Planning Office.	1.00	\$121,520
Environmental Affairs & Conservation		
The Budget includes a new Engineer C position for the Regulatory Support division to handle permitting and compliance with air and hazardous wastes regulations.	1.00	\$121,520
A new Facilities Supervisor position is included in the budget for the Wildland Conservation division to supervise six employees and coordinate facility actions for all buildings, roads, fences, gates, wells, and fire breaks.	1.00	\$79,518
Support Services		
The Budget includes a new Occupational Health & Safety Coordinator position to develop and implement safety programs throughout the Utility to address higher risk employee safety concerns.	1.00	\$92,690
A new Project Coordinator position is included in the Budget to coordinate various facility projects and assist in the development of long term plans for facility infrastructure maintenance and replacement.	1.00	\$92,690
The Budget includes a transfer of a 0.5 Admin Associate position from Support Services program to the Treatment program area.	(0.50)	(\$22,753)
An increase is included in the Budget to provide security guard services at the Water Plants.		\$565,000
The Budget includes an increase of \$140,000 for completion of the Customer Care & Billing integration services.		\$140,000
Transfers & Other Requirements		
An increase of \$180,298 is included in the Budget for legal fees.		\$180,298
An increase in interlocal water services is included in the Budget to purchase wholesale water from Riverplace per the Glenlake inter-local agreement.		\$295,000
The Budget includes an increase of \$126,359 in Accrued Payroll, an increase of \$172,631 to the Workers' Compensation Fund, a reduction of \$50,000 to the Liability Reserve Fund, an increase of \$322,169 for CTM Support and an increase of \$1,123 to the CTECC Emergency Operations Center.		\$572,282
The Budget includes an increase of \$4,009,803 for Administrative Support.		\$4,009,803
The Budget also includes an increase of \$1,940,048 for Billing & Customer Care.		\$1,940,048

Expenditure Changes	FTEs	Dollars
Revenue Bond Debt Service requirements are expected to increase by \$15,518,312 due to the net impact of changes to payment schedules for existing debt.		\$15,518,312
The budget includes a reduction of \$200,171 in General Obligation Debt Service, \$125,546 in Commercial Paper Debt Service, and \$3,934 in Water District Bonds.		(\$329,651)
There is also an increase of \$8,500,000 to Capital Improvement Program Funds, raising the percent of cash-funded CIP to assist meeting the goal of funding at least 20% of capital spending in cash.		\$8,500,000
The transfer to the General Fund is increasing \$2,628,828, maintaining the 8.2% transfer policy per City Council.		\$2,628,828
The transfer to the Radio Communications Fund is increasing by \$22,961.		\$22,961
Transfers are increasing by \$5,516,300 to the new Revenue Stability Reserve Fund as part of the new rate structure recommended by the joint sub-committee and by \$1,920,000 to the Reclaimed Utility Fund to increase available funds.		\$7,436,300
The Budget is decreasing by \$169,062 due to a decrease in AWU's contribution to the Sustainability Fund.		\$162,062
The following changes were approved by Council at Budget Adoption:		
Increase transfers out to the Environmental Remediation Fund in the amount of \$287,000.		\$287,000
Increase transfers out to the Sustainability Fund in the amount of \$383,465.		\$383,465

Austin Water Utility Budget Detail by Activity

Program: Engineering Services

Activity: Collection Engineering

To provide the necessary engineering, project management, and technical support to the Collection pipeline infrastructure in order to reduce wastewater overflows and to transport raw wastewater safely through the collection system to the treatment plants.

Percentage of High Hazard assemblies tested YTD	86.90	83.70	96	96	96
Percentage of industrial users with surcharges assessed	99.60	98.70	98	98	98

Services

Water Quality surveys/investigations; Backflow assembly testing; Private fire hydrant maintenance; Pretreatment Ordinance enforcement; Regulation of Sanitary sewer industrial users; Review of Site plans and pretreatment design plans and specifications; Implementation of pretreatment and interlocal agreements with other political subdivisions

Bold/Italicized Measure = Key Indicator

Austin Water Utility Budget Detail by Activity

Program: Environmental Affairs and Conservation

Activity: Water Conservation

To provide conservation services to Austin water customers to reduce water usage in order to slow the increase in peak day demand and defer the start date of water payments to the LCRA. To reduce Austin's peak day water use by 1% per year until 2017 through conservation and reuse.

Dosage of ferric per MG of water treated	New Meas	52	60	60	60
Dosage of chlorine per MG of water treated	New Meas	34	35	35	35
Dosage of lime per MG of water treated	New Meas	976	950	950	950
<i>Drinking Water Quality: Turbidity</i>	<i>0.09</i>	<i>0.07</i>	<i>0.10</i>	<i>0.10</i>	<i>0.10</i>
kWh per million gallons of water treated	New Meas	1,804	1,800	1,800	1,800
Services					
Water treatment; Sludge disposal; Process control; Regulatory documentation					

Bold/Italicized Measure = Key Indicator

Austin Water Utility Budget Detail by Activity

Program: Water Resources Management

Activity: Systems Planning

To provide analysis of the wastewater collection and water distribution systems for Utility management in order to insure adequate infrastructure capacities are available and to identify areas for system improvement.

	2009-10 Actual	2010-11 Actual	2011-12 Amended	2011-12 Estimated	2012-13 Approved
Requirements					
Austin Water Utility Fund	2,134,595	2,238,684	2,377,759	2,434,903	2,924,021
Total Requirements	\$2,134,595	\$2,238,684	\$2,377,759	\$2,434,903	\$2,924,021
Full-Time Equivalents					
Austin Water Utility Fund	21.00	23.00	23.00	23.00	25.00
Total FTEs	21.00	23.00	23.00	23.00	25.00
Performance Measures					
Number of hydraulic studies completed	168	193	100	100	100
<i>Peak day water usage as a percentage of water treatment system capacity</i>	<i>68</i>	<i>77</i>	<i>80</i>	<i>80</i>	<i>80</i>

Services

Management of Asset Management Program and CIP Management Program; Water supply planning; Hydraulic analysis and system modeling, identification of system deficiencies; Proposals for new facilities; Long range facility plans and area studies; Strategies for water and wastewater system operation; Land use assumptions and CIP for state impact fee requirements; Forecasts of demand by small areas and system-wide.

Bold/Italicized Measure = Key Indicator

Austin Water Utility Budget Detail by Activity

Program: Water Resources Management

Activity: Utility Development Services

To review centralized, decentralized, and alternative water and wastewater development proposals; process service extension requests; review subdivision plats, preliminary plans, site plans, and zoning cases; enforce the private lateral program; and manage the on-site wastewater service program for developers and individuals in order to ensure adequate levels of service and compliance with the regulatory requirements of a public utility.

	2009-10 Actual	2010-11 Actual	2011-12 Amended	2011-12 Estimated	2012-13 Approved
Requirements					
Austin Water Utility Fund	1,004,555	1,097,523	1,163,575	1,176,852	1,289,389
Total Requirements	\$1,004,555	\$1,097,523	\$1,163,575	\$1,176,852	\$1,289,389
Full-Time Equivalent

Total FTEs	11.00	12.00	12.00	12.00	12.00
Performance Measures					
Number of on-site sewage facilities (OSSF) for wastewater services reviewed and approved	New Meas	44	60	60	60
Number of Service Extension Requests (SER) reviewed and approved	86	94	65	65	65

Services

Engineering review for subdivision plats, preliminary plans, zoning and site plans, service extension requests, and on-site facilities applications for service; engineering review for centralized, decentralized, and alternative wastewater collection systems; enforcement of the private lateral program; service extension request process administration through Water and Wastewater Commission and Council; plan review, inspections and complaint follow up for on-site sewage facilities

Austin Water Utility Budget Detail by Activity

Program: Water Resources Management

Activity: Utility Strategic Resources

To provide effective customer management to wholesale and industrial customers; effectuate wholesale, developer, and settlement agreements in the best interests of the City and the AWU; and assist AWU management in the implementation of business process improvements.

	2009-10 Actual	2010-11 Actual	2011-12 Amended	2011-12 Estimated	2012-13 Approved
Requirements

Mission and Goals for 2013

Mission

We provide safe, secure, and efficient air transportation facilities and services that support and improve the quality of life and the economic prosperity of Central Texas.

Goals

Provide Customer and Community Value:

- At least 47% of customer survey participants rank overall satisfaction "Excellent."
-

Achieve Operational Excellence:

- Lost time injury rate of 1.00 or less.
-

Be recognized as a leader in airport Environmental Stewardship:

- Collect 180 tons of recycling materials in the terminal.
-

Maintain Economic Sustainability:

- Airline Cost per Passenger less than or equal to \$8.94.
- Non-Airline Revenue per Passenger greater than or equal to \$11.79.

Aviation

Message from the Director

Excellence in customer service—Austin style is the business strategy of Austin-Bergstrom International Airport. Together, the Aviation Department, airlines, tenants and travel community continually work to ensure passenger safety and a convenient, friendly travel experience.

In FY 2012, ABIA was highly ranked for customer service by Airports Council International's (ACI) 2011 Airport Service Quality (ASQ) passenger survey, and for the sixth consecutive year earned a ranking in the top five airports in North America. In addition, ABIA's consistently high ASQ ranking earned the airport a place in the first ACI's Director General's Roll of Excellence, a designation earned by only 14 airports worldwide. This recognition is an indication of ABIA's commitment to customer satisfaction, its strong ties with business partners, and the pride the Department takes in its public service.

ABIA has experienced a steady increase in passenger traffic in FY 2011-12; during the first seven months of the fiscal year, passenger traffic increased 3.8% over the prior year. It is anticipated that similar growth will be sustained in FY 2012-13; an overall increase of 3.5% is projected for passenger traffic at ABIA in FY 2012-13.

At a time when many other U.S. airports are losing air service routes, Austin's strong economy helped to bring new routes and service to ABIA in FY 2011-12. This includes: Southwest Airlines adding nonstop service to Ronald Reagan Washington National Airport and Portland, Oregon; Delta launching nonstop service to John F. Kennedy (New York); US Airways announcing a nonstop flight to Philadelphia International Airport starting September 2012; and AirTran Airways, a subsidiary of Southwest Airlines, starting service at ABIA with the launch of its new nonstop service to Cancun. In addition, ABIA is gearing up for the 2012 Formula One races.

As part of striving to make Austin the best-managed city in the country and creating a sustainable future, the Aviation Department's strategic focus includes the following: customer and community value, operational excellence, environmental stewardship, and economic sustainability. ABIA is committed to developing the airport in a way that meets the needs of the present without compromising the needs of future generations and has recently completed its first Sustainability Report, which will help to communicate to the community and business partners ABIA's strategies for a sustainable future. The Aviation Department continues to seek out creative ways to reduce costs, increase non-airline revenue, and improve the efficiency and effectiveness of its operations.

With a staff that is committed to serving the community, the airport will continue providing excellent customer service, "Austin style".

Jim Smith, Executive Director

Budget Highlights

Austin-Bergstrom International Airport (ABIA) operates as an enterprise fund of the City of Austin and is self-sustaining; it does not receive tax revenue, thus functioning without burdening the City's budget or its taxpayers. Austin's airport has operated in this fashion since 1982. Funding to finance operating expenses and development is generated by fees and rent paid by airlines, concessions and passengers; in addition, ABIA receives grants, including Federal Airport Improvement Program (AIP) grants. In order to comply with Federal regulations and to ensure ABIA is eligible to receive AIP funds, all revenue generated by the airport is retained by the airport for the capital or operating costs of the airport.

Revenue

In its FY 2012-13 budget, exclusive of grants and transfers in, the Airport Fund receives 43.1% of its total revenue from airlines and 56.9% from non-airline fees, such as parking, concessions, rentals and other fees. Landing fees and terminal-lease revenue are projected to increase 5.7%, while non-airline revenue is expected to increase 16.5%. Passenger traffic is projected to increase by 3.5% in FY 2012-13 and non-airline revenue is expected to increase \$1.33 per passenger, which is approximately 12.7% higher than the FY 2011-12 budgeted amount. Aviation's goal is to generate at least \$11.79 of non-airline revenue per enplaned passenger in FY 2012-13.

Airline cost per enplaned passenger is another of the Aviation Department's key indicators and an important metric in the airport industry. This measure is a function of airport costs and enplanement trends. The Department's FY 2012-13 budget includes airline costs of \$21.4 million in landing fees and \$21.9 million in terminal rent and other fees. The airlines' landing fees are based on the estimated landed weight of commercial and cargo carriers and are set to recover the City's costs for the construction, operation, and maintenance of the airfield. Terminal rents are paid by the airlines and are intended to recover the capital, operating, and maintenance costs associated with the airlines' use of the terminal. The FY 2012-13 goal for airline cost per enplaned passenger is \$8.94, a 2.4% increase over the FY 2011-12 goal of \$8.73 primarily due to 7.0% growth in the Department's operating expenses. Providing quality facilities while controlling costs is critical to maintaining a reasonable cost per enplaned passenger.

Requirements

There are four new positions included in the Aviation Department's FY 2012-13 budget: a Safety Management System Manager for the Operations Division, an Airport Maintenance Coordinator for the Building Maintenance Division, a Business Systems Analyst for the MaxAdmin Division, and a Network Systems Administrator for the Information Technology Support Division.

To ensure adequate funding for debt-service coverage, a \$7.8 million transfer from the Airport Capital Fund to the Operating Fund is budgeted. Debt Service requirements total \$18.5 million, a decrease of \$553,000 from the prior fiscal year. Aviation's projected revenue in excess of requirements, \$21.8 million, is to be transferred to the Airport Capital Fund and used for capital improvement projects.

The Budget includes a \$455,000 increase in the contribution to the Employees' Retirement System; it also includes \$592,000 for annualized costs associated with wage adjustments to be implemented in FY 2012-13. An increase of 3.0%, or \$112,000, for medical insurance is included as well.

Capital Budget

The FY 2012-13 Capital Budget includes \$24.5 million for ABIA Capital Improvements. The focus of Aviation's Capital Improvements Program is to address terminal and other airport facility improvements. The major construction project for ABIA beginning in FY 2012-13 is the \$6-million Consolidated Rental Car Facility. This project will be bond funded and the debt will be serviced by Rental Car Customer Facility Charges. The airport terminal has been open for thirteen years and has gently aged. \$1.3 million will be expended on refurbishing the airport's freight and garage elevators to modernize and replace outdated elements of the elevator systems, upgrading and replacing the terminal dry pipe fire protection system, and ongoing electrical improvements to ensure the continued efficient operation of the terminal building necessary to meet the requirements of its tenants. Landside projects will include internal parking garage ramps—as part of the larger Consolidated Car Rental Project—which will provide connectivity between the third floor of the garage and the first two floors, and \$2 million in roadway improvements. Airside projects total \$2.7 million and include the design of a new taxiway alpha extension that will improve aircraft taxiing times and reduce aircraft air emissions.

Other Funds

Airport Capital Fund

The Airport Capital Fund was established in September 1989 by an ordinance authorizing the issuance of \$30 million of Airport System Prior Lien Revenue Bonds for new airport development. As specified in the ordinance, the Airport Operating Fund is required to transfer the excess of available funds over total requirements, less a reserve for future operating expenses, to the Airport Capital Fund on an annual basis. These funds may be used only for lawful purposes related to the Airport System, including expenditures associated with the Airport Capital Improvements Program (CIP).

Total available funds of \$21.9 million are projected for FY 2012-13. The major source of available funds is a projected transfer of \$21.8 million from the Airport Operating Fund. Interest income of \$154,000 is also projected. A transfer to the ABIA CIP fund will provide \$22.1 million in funding for capital projects associated with improvements at the airport. Additionally, a \$7.8 million transfer to the Airport Operating Fund is anticipated to assure adequate funding for debt-service coverage.

Aviation

Significant Changes

Airport Fund

Revenue Changes	Dollars
The Budget includes an increase in airline revenue due to higher rental and landing fees.	\$2,340,000
Due to projected passenger growth of 3.5% and parking rate increases that took effect in May 2012, the Budget includes an increase in parking revenue.	\$5,972,000
Other concessions revenue, including rental car, food and beverage, news and gifts, and advertising, is budgeted to increase as a result of the 3.5% passenger growth projection.	\$2,119,000
The Budget includes a decrease in interest income due to market conditions.	(\$136,000)

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$591,598 for salary increases associated with wage adjustments in FY 2012-13. An additional \$111,645 is included in the Budget for increased City contributions for health insurance.		\$703,243
The Budget includes an increase for wage adjustments associated with the implementation of a market study.		\$118,280
The Budget includes supplemental funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$455,037
Facilities Management, Operations and Airport Security		
An Airport Maintenance Coordinator position is included to coordinate, plan and provide oversight to all ABIA maintenance activities.	1.00	\$76,224
A Business Systems Analyst position will have a key role in the progression of the Department's Enterprise Asset Management System (Maximo) by assisting with the software integration, testing, training and implementation phases.	1.00	\$88,037
The Budget includes a Safety Management System Manager position to implement the Airport Safety Management System (SMS) required by the Federal Aviation Administration (FAA).	1.00	\$97,603
The Budget includes an increase in Airport Police Department (APD) reimbursement expenses for costs associated with salary increases.		\$378,996
Due to rising prices and growing customer demand, expenses for household cleaning supplies are increasing.		\$144,050
Funding is included for overtime and holidays worked for the security division.		\$113,000
The Budget includes additional funding for painting supplies and for maintenance of airport runways.		\$137,000

Expenditure Changes	FTEs	Dollars
Additional funding is included for interdepartmental service costs due to increasing firefighter wages and benefits.		\$244,483
The five-year checkpoints and K-9 grant agreements between the Homeland Security Transportation Security Administration (TSA) and the Aviation Department will end in FY 2012-13, decreasing grant reimbursements.		\$625,890
Additional funding is included for temporary employees and overtime and holiday pay in the building maintenance division.		\$103,206
The Budget includes funding for City increases in drainage and transportation fees.		\$118,736
Airport Planning and Development		
The Budget includes funding for an internship position in the Planning and Engineering division.		\$34,000
Additional funding is included for interdepartmental charges for Public Works services.		\$100,000
Support Services		
Additional funding is included for software maintenance, small tools and minor equipment.		\$77,710
The Budget includes funding for overtime and on-call pay in the Information Systems division.		\$31,500
Air service development funding is increasing in FY 2012-13.		\$60,000
Additional funding is included for advertising and printing expenses.		\$55,000
The Budget includes an increase for 2 part-time internship positions in the Finance area.		\$41,600
Funding is included for costs associated with anticipated special events.		\$179,016
A Network System Administrator position is being created to provide support to all wireless systems, such as the Ground Transportation Management System (GTMS), Airport Security and Operations Control System (ASOCS) and Asset Management System (Maximo).	1.00	\$88,037
The Budget includes an increase in funding for airline incentives to attract new air service.		\$124,500
Transfers/Other requirements		
The City administrative support and the Communications Technology Management transfers are increasing by \$639,992 and \$99,756, respectively.		\$739,748
Funding is included for an increased Operating Reserve transfer.		\$673,050
Transfers to the workers' compensation and accrued payroll funds and the allocation for trunked radio services are increasing by \$58,252, \$31,035 and \$43,438, respectively.		\$132,725
Aviation is budgeting a decrease in debt-service requirements due to lower interest rates and early retirement of debt.		(\$552,558)
An increase is included in the Budget for the contribution to the Airport Capital Fund, which reflects the excess of available funds over total operational requirements.		\$5,288,353

Aviation Budget Detail by Activity

Program: Airport Planning & Development

Activity: Planning, Design and Construction

The purpose of the Design, Construction and Planning activity is to design and construct facilities for users of the airport to ensure a safe and secure environment.

Code Compliance Mission and Goals for 2013

Mission

The mission of Code Compliance Department is to provide quality education and enforcement of codes and ordinances to our citizens so that Austin will become a more livable city.

Goals

Increase investigative staff responsiveness for Code Compliance complaints.

- Obtain an average initial complaint response time of 2 working days for all cases.
-

Provide information to violators on how to meet compliance requirements.

- Attain non-judicial compliance or transfer case to appropriate judicial process on all cases within 80 days from when complaints are first reported.
-

Obtain an average number of cases per inspector of 260 cases.

Maintain an average of 40 hours of training per investigative FTE per fiscal year.

Decrease the percent of employees that reported an injury requiring medical attention from 2.9% to 0%.

Code Compliance Department

Message from the Director

The mission of the Code Compliance Department (CCD) is to provide quality education and enforcement of codes and ordinances for our citizens so that Austin will be a more livable city. CCD investigates reports from members of the community of property conditions, building activities, zoning and structures thought to be in non-compliance with City codes throughout Austin. City codes establish minimum building, maintenance, and zoning standards.

Challenges that continue to impact CCD are the City's growth and trend towards urbanization. These issues, coupled with aging housing stock, result in increasing requests from the community for investigations of code violations. For FY 2012-13, CCD will receive 22 additional staff positions and resources that will help the Department better reach published goals and meet the community's expectations of service and responsiveness. CCD is also planning on organizing additional outreach campaigns in order to educate citizens and developers on the City's code and compliance process. The campaigns will focus on the importance of voluntary compliance and partnering with members of the community to protect the health, safety, welfare, and quality of life of Austin citizens.

In FY 2012-13, CCD will increase its focus on proactively monitoring multi-family property conditions and continue to investigate all reported concerns. CCD will also proactively investigate ongoing construction and maintenance activities to ensure work is conducted under a permit and in accordance with City codes. CCD is planning to implement an administrative hearing process to expedite the compliance process and provide property owners a non-criminal alternative to the Building and Standards Commission and the court system.

Responsibility of administrating and enforcing the Private Waste Hauler Ordinance will be conveyed from the Austin Resource Recovery Department to CCD in FY 2012-13. This transfer will result in an increased focus on the compliance of private haulers with the ordinance and the identification of illegal dumping activities, the abatement of illegal dumpsites, and enforcement throughout the city.

During budget adoption the City Council approved funding for the establishment of the Short Term Rental Program. CCD will perform the enforcement of the program including registration, invoicing, fee collection and licensing.

CCD is committed to improving existing programs and implementing proactive initiatives to help Austin become the Best Managed City.

Carl Smart
Code Compliance Director

Budget Highlights

The ongoing focus for the Code Compliance Department (CCD) is centered on five core areas – Dangerous Buildings and Housing, Zoning Violations, Nuisance Abatement, Multi-family, and Commercial property inspections. CCD will continue to conduct field inspections within the community to determine compliance with City codes. With the passage of the 2009 International Property Maintenance Code (2009 IPMC), Council provided the community with an update to the current internationally-approved building and maintenance standards and a means to monitor and ensure compliance of commercial operations.

Revenue

As part of the FY 2012-13 Budget process, CCD, in conjunction with the Austin Resource Recovery Department (ARR), is proposing a name change to the Anti-Litter fee that appears on customers' monthly bills and funds litter abatement, street cleaning, hazardous waste disposal, and Code Compliance activities. Renaming of the fee will provide a more transparent description to the community of the goal and value of programs supported by revenues collected. Revenues from this fee currently support both ARR and CCD; to that end, an additional step is being taken to separate the fee between the two departments. The FY 2012-13 Budget includes a \$1.00/month increase in the Residential Clean Community Fee and a \$4.50/month increase in the Commercial Clean Community Fee. CCD will receive \$0.60/month from the Residential Clean Community Fee increase whereas ARR will receive \$0.40/month increase. For the Commercial Clean Community Fee, CCD will receive a \$2.20/month increase whereas ARR will receive a \$2.30/month increase. CCD is projecting a \$2.4 million increase in funding for FY 2012-13 from the Clean Community Fee as a result of this fee increase. The Department will also be eliminating the recurring transfer from ARR in FY 2012-13 and beyond as a result of the fee split. For FY 2012-13, this represents a decrease of \$9.6 million. CCD is also requesting a \$0.15/month increase in the Private Waste Hauler Container Fee. Total revenue in FY 2012-13 is increasing by \$2.2 million.

Case Investigations

The purpose of the Case Investigation activity is to provide investigations and inspections for neighborhoods so they can have a higher degree of compliance with City Codes. CCD is moving from a generalized inspector methodology to a specialized inspector focus. The FY 2012-13 CCD Budget for Case Investigations includes an increase of \$609,792 for salaries and benefits for 8 new Code Compliance positions. Four of these new Code Inspector positions will help bring the Department's performance measures closer to published goals and help meet the community's expectations of service and responsiveness.

The remaining four Code Inspector positions are included to implement a proactive Multi-Family Inspection Program. More than 50% of residential properties in Austin are designated as rental. The specialized inspectors will focus on addressing the more complex technical and zoning investigations that are unique to this property class. Development of this program will allow CCD to proactively focus on addressing the increasing number of issues associated with the aging multi-family housing stock.

The addition of a Commercial Investigation Unit will address work without permit issues and will be expanded to include investigations on commercial properties as required by the 2009 IPMC. The addition of this unit will ensure that minimum building standards are met and the safety of existing and future property holders is maintained.

The Neighborhood Code Officer Program will focus on residential neighborhood complaints such as high weeds and other nuisance related violations. The Department expects a faster initial response rate on these types of complaints and a more efficient resolution to these concerns.

Licensing & Registration Compliance

The Licensing and Registration Compliance activity includes two units: the Licensing and Registration Compliance unit and the Private Waste Hauler and Illegal Dumping. The purpose of the Licensing and Registration Compliance unit is to ensure Billboards, Hotels, Motels, Boarding and Rooming Houses, and Mobile Home Parks are properly licensed and in compliance with City Code.

The purpose of the Private Waste Hauler and Illegal Dumping unit is to ensure compliance with City code and reduce the increased amount of illegal dumping occurring throughout the City. The Waste Hauler Ordinance was amended in June 2012 to include additional requirements of the haulers and to expand the scope of regulation to include Recycling haulers in addition to the waste haulers.

The expansion of the Private Waste Hauler Program consists of adding more cameras in the field to monitor common or potential dump sites and to gather evidence necessary to prosecute offenders. Six field positions will be added to this program in FY 2012-13. Their duties will include increasing the community’s knowledge of the Waste Hauler Licensing requirements and penalties associated with the violation of the ordinance, identifying potential camera locations, ensuring the abatement of dumpsites, identifying non-licensed haulers, and preparing cases. Three administrative positions (one Financial Specialist, one Program Specialist, and one Outreach Coordinator) will be added to the program in order to focus on outreach and the administration of the licensing program. As these program expansions are realized the number of vehicle and container licenses is expected to increase and the number of illegal dumping sites is expected to decrease.

Departmental Support Services

The purpose of the Departmental Support Services activity is to provide administrative and managerial support to the department in order to produce more effective services. In FY 2012-13 CCD is implementing an administrative hearing program to expedite the resolution of compliance cases. The current hearing process includes the Building and Standards Commission and potentially the court system, which can take an extended period of time. The new administrative hearing process will afford CCD and property owners the potential to resolve compliance cases more quickly and with less expense through mediation at the department level. An Attorney Senior position and a Program Coordinator position are included in the FY 2012-13 Budget to administer the program.

Items Approved by Council at Budget Adoption

- Amend the proposed budget of the Code Compliance Department Fund by increasing revenue in the amount of \$352,392 and by increasing expenditures in the same amount as well as adding 3 new FTEs for the Short Term Rental Program.

Code Compliance Significant Changes

Code Compliance Fund

Revenue Changes	Dollars
The Budget includes an increase of \$12,032,027 for revenue from a portion of the Commercial and Residential Clean Community Fee (formerly known as the Anti-Litter Fee). Out of this amount, \$9,591,680 represents a transfer of revenue from the Clean Community Fee from Austin Resource Department. The remaining \$2,440,347 represents an increase in revenue from CCD's portion of the Clean Community Fee increase.	\$12,032,027
The Budget includes a decrease of \$9,591,680 in the transfer from the Austin Resource Recovery Fund. CCD will receive a portion of revenue from the Commercial and Residential Clean Community Fee.	(\$9,591,680)
The Budget includes a decrease of \$872,583 in the transfer from the General Fund.	(\$872,583)
The Budget includes an increase of \$817,700 for revenue from the Private Waster Haulers Program.	\$817,700
The Budget includes a decrease of \$50,436 for revenue from Code Compliance Fines based on prior year actual amounts received.	(\$50,436)
The Budget includes a decrease of \$89,651 for revenue from Hotel/Motel and Mobile Home License Fees based on prior year actual amounts received.	(\$89,651)
The Budget includes a decrease of \$74,270 for revenue from Weed Lot Clearing and Administrative Fee due to a decrease in the projected number of weed lot cases.	(\$74,270)
The Budget includes a decrease of \$16,201 for revenue from Billboard Registration Fee due to a decrease in the annual fee in FY 2011-12.	(\$16,201)
The Budget includes an increase of \$976 for revenue from Interest and \$393 from Other Revenue.	\$1,369
The following change was approved by Council at Budget Adoption:	
The Budget includes an increase of \$352,392 for revenue from the Short Term Rental Program.	\$352,392

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$142,242 for salary increases associated with wage adjustments in FY 2013. An additional \$21,183 is included in the Budget for increased City contributions for health insurance.		\$163,425
The Budget includes additional funding for the Employees' Retirement System that is equivalent to 2% of payroll for non-civil service employees to help improve the funded status of the pension system.		\$72,315
The Budget includes \$14,611 for wage adjustments associated with implementing the City's recently completed market study.		\$14,611

Expenditure Changes	FTEs	Dollars
The Budget includes an increase of \$18,973 for fleet preventive maintenance and a decrease of \$2,895 for fleet fuel.		\$16,078
Case Investigations		
The Budget includes an increase of \$609,792 and eight new Code Compliance Inspector positions to the Case Investigations Program.	8.00	\$609,792
An increase of \$31,265 for rent at the One Texas Center and a decrease of \$25,388 for rent at the Rutherford Lane Campus are included in the Budget.		\$5,877
An increase of \$61,544 in office supplies is included in the Budget.		\$61,544
The Budget includes a decrease of \$263,056 in various commodities and contractals to reflect the reorganization of the department.		(\$263,056)
One Code Compliance Inspectors C, one Adminstrative Specialist, one Research Analayst, one Staff Attorney, one Assistant Manager, and one Program Coordinator are reallocated to Departmental Support Services to reflect the reorganization of the department.	(6.00)	(\$535,968)
The Budget reallocates four Code Compliance Inspectors C, one Code Review Analyst, one Assistant Manager, and half of one Division Manager to Licensing & Registration Compliance to reflect the reorganization of the department.	(6.50)	(\$574,288)
Licensing and Registration Compliance		
The Budget includes an increase of \$686,903 and five new Code Compliance Inspectors, one Inspector Supervisor, one Financial Specialist, one Advertising and Outreach Coordinator, and one Program Specialist.	9.00	\$686,903
An increase of \$395,054 in contractals and commodities is included in the Budget for the new Waste Hauler Program and to reflect the reorganization of the department.		\$395,054
The Budget reallocates four Code Compliance Inspectors C, one Code Review Analyst, one Assistant Manager, and half of one Division Manager to Licensing & Registration Compliance to reflect the reorganization of the department.	6.50	\$574,288
Departmental Support Services		
One Code Compliance Inspectors C, one Adminstrative Specialist, one Research Analayst, one Staff Attorney, one Assistant Manager, and one Program Coordinator are reallocated to Departmental Support Services to reflect the reorganization of the department.	6.00	\$535,968
The Budget includes a decrease of \$240,000 to back out one-time costs for the case database migration from Code Compliance Track Case Management System to the AMANDA system.		(\$240,000)
An increase of \$207,724, one Attorney Senior, and one Program Coordinator to the Support Services Program are included in the Budget.	2.00	\$207,724
The Budget includes an increase of \$111,976 in contractals and commodities to reflect the reorganization of the department.		\$111,976
An increase of \$145,454 in computer hardware is included in the Budget for new and replacement purchases for desktop computers, toughbooks, and laptops.		\$145,454
Transfers and Other Requirements		
The Budget includes an increase in transfers out in the amount of \$57,090 for General Obligation Debt Service, \$11,204 for Workers' Compensation, and \$107,389 for City Administrative Support.		\$175,683

Expenditure Changes	FTEs	Dollars
An increased transfer of \$13,297 for communication and technology support, \$1,123 for support of the Combined Transportation and Emergency Communication Center, and \$352 for trunked radio are included in the Budget.		\$14,772
The Budget includes an increase of \$11,501 for Accrued Payroll.		\$11,501
The following change was approved by Council at Budget Adoption:		
Increase funding in Licensing and Registration Compliance by \$352,392 and adding 3 new FTEs for the Short Term Rental Program.	3.00	\$352,392

Mission and Goals for 2013

Mission

The mission of the Economic Growth and Redevelopment Services Office (EGRSO) is to create a cultural and economic environment that enhances the vitality of the community in a manner that preserves Austin's character and environment.

Goals

Create 500 new jobs through economic development efforts with a renewed emphasis on low income and blue collar jobs.

Offer classes through International Programs that will assist 35 businesses to export or enter into new markets.

Perform 550 venue sound evaluations to decrease noise impact to neighboring communities.

Create 20 new jobs through the Family Business Loan program.

Repair or restore three pieces of the public art collection per year.

Economic Growth and Redevelopment Services

Message from the Director

Austin was named as one of the seven cities worldwide competing for the Top Intelligent Community Award by the Intelligent Community Forum; Austin was ranked No. 2 by MovieMaker Magazine; Austin was recently ranked the 3rd most prosperous metro in the nation making it one of the biggest labor markets to have regained jobs during the recession; known as the “Live Music Capital of the World,” Austin also boasts the world famous SXSW, ACL and numerous other music festivals and events. Texas was ranked as the top exporting state in 2011 for the 10th year in a row, according to data released by the U.S. Department of Commerce, a clear sign of Texas’ (and Austin’s) continued role as a leader in the global market.

Maintaining this impressive list of accolades and accomplishments will require the City of Austin’s Economic Growth and Redevelopment Services Office (EGRSO) to continue to be a leader by pursuing programs and initiatives that leverage our cultural economic and business assets. EGRSO will continue to grow small business and new technology companies, strategically redevelop underutilized downtown assets, and utilize the strengths of the music, cultural, technology and international division to grow digital and alternative media investments in Austin. The International Division will have an enhanced role in seeking new platforms to promote Austin and further transform business cultures within a global marketplace through key international relationships initiated during FY 2011-12. In 2013, EGRSO seeks to deploy new economic vitality techniques to improve the city’s economic sustainability and create jobs for the nearly 25,000 City of Austin residents who remain unemployed despite great strides in our economic recovery.

New Technology

Part of the answer is technology. EGRSO is planning to manage the nation’s first supercomputing tool for sustainable places and to assist with implementing portions of Imagine Austin. EGRSO is creating a return-on-investment business platform that improves the performance of implementation scenarios.

In this context EGRSO is going to use a new analytic and supercomputing technology to implement citywide redevelopment activities. EGRSO is seeking new federal resources to fund this redevelopment and will deploy those resources to facilitate small business expansions. In adapting to the changing 21st century economic conditions, EGRSO is continuing to make incremental improvements to existing economic systems that support technology, trade, entrepreneurship and city rebuilding. We strive to make Austin a model for job and tax creation, city management, environmental quality, innovation and creativity in the global marketplace.

New Public Resources

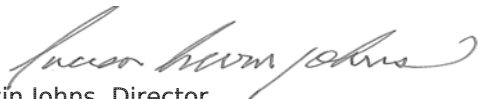

EGRSO is also focusing on attracting federal resources for redevelopment and small business expansion. Federal resources include grants, low interest loans, and federal tax credits to accelerate city rebuilding efforts.

New Trade Activity

EGRSO is working to attract foreign direct investment and trade to Austin. We are expanding our efforts to reduce the barriers inhibiting small- and medium-sized business export growth and to promote Austin in international markets as a top destination for investment. We are placing particular emphasis on attracting industrial development to the 3,700 industrial-zoned acres near Austin-Bergstrom International Airport (ABIA).

EGRSO will continue its traditional award-winning programs through Cultural Arts, Redevelopment/Downtown Initiatives, International Programs, Economic Development and Small Business Development Programs, all of which provide a variety of economic opportunities. Challenges in the future include increasing blue and green collar employment for the unemployed and under employed; greater work load due to new initiatives and increasing customer demand; keeping pace with the increasingly global economy; and updating the Art in Public Places Ordinance to address donation/loan policy and decision policy. EGRSO plans to press forward with new initiatives with a total budget of \$11.7 million in FY 2012-13.

On behalf of all EGRSO staff, I thank you for allowing us to help keep the city of Austin’s economy moving forward.

Lucien Kevin Johns, Director

Budget Highlights

EGRSO is aggressively working to help maintain Austin's economic vitality through international economic development efforts, attracting corporate business relocation and expansion, promoting and facilitating sustainable growth in the Desired Development Zone, assisting locally-owned small businesses, and continuing to support creative development through arts and music. In FY 2012-13, EGRSO will have a budget of \$11.7 million and 47.0 FTEs and be comprised of the following six core divisions.

International Economic Development Program

Since FY 2008-09, the International Economic Development Program has assisted 286 businesses expand into new international markets through the International Trade Education Series. International delegations assisted by the program have generated over \$6.5 million in economic impact from FY 2008-09 through FY 2010-11. Our office hosted over 120 global delegation and consular visits in 2011 and 2012. In FY 2012-13, EGRSO will continue to bring a renewed departmental focus to our international economic development strategy that leverages existing departmental strengths and external partnerships to provide effective solutions for enhancing Austin's international business ecosystem. Together with Redevelopment Services and Economic Development Services, the International Economic Development Program will also continue to pursue solutions that will improve the flow of cargo to and from Austin, including the development of an international trade district/intermodal logistics hub. Austin has the opportunity to be an international business city where trade, finance, technology and multi-lingual populations combine to enable local businesses to thrive in the global economy. Austin's recent designation as the world's first city to become an International Association of Science Parks full member is expected to pay dividends for local technology companies in 2013 further advancing these goals.

Economic Development Division

EGRSO's Economic Development Division is continuing to work with community Chambers of Commerce partners to recruit new companies to Austin while focusing on existing businesses. The goal of these efforts is to create jobs, increase the city's tax base, diversify the local economy, and assist with recruiting businesses to relocate or expand in Austin. The EGRSO budget continues to support opportunities in clean energy, biotechnology, digital media and wireless industry sectors, in addition to, showcasing emerging technology industries in Austin to out-of-state investors and venture capitalists. So far in 2012 our efforts produced agreements with U.S. Farathane and Apple. EGRSO is optimistic that these two companies will generate 3,900 jobs.

Redevelopment Division

The Redevelopment Division is rebuilding key assets of the city and administering public-private redevelopment agreements that support mixed-use project development and downtown redevelopment. Currently, several projects have entered active design and construction phases requiring increased levels of developmental involvement. Projects include but are not limited to: Mueller Redevelopment (a nationally recognized benchmark for new urbanist communities and public/private projects including 1.4 million square feet of commercial, retail, and institutional space, \$850 million investments in new infrastructure and vertical development projects, and home to 3,300 jobs, 45 employers and nearly 1,500 families); recently finalized Green Water Treatment Plant (an estimated \$540.0 million agreement with Trammel Crow); ABIA area inland

port; Gables Park Plaza Phase II; the Federal Courthouse; 501 Congress Avenue; Seaholm; and RBJ Senior Residential Center (a project without an agreement). EGRSO is well versed in developing various partnerships using a variety of financing mechanisms that result in the implementation of large catalyst projects that translate vision into reality.

Small Business Development Program

Small Business Development Program (SBDP) fosters job creation and economic growth by providing information, education, one-on-one technical assistance, annual highly visible special-topic informational events, and innovative technology resources that help Austin's small businesses grow and prosper. SBDP's budget for FY 2012-13 meets the evolving needs of small businesses with current funding levels, and includes three valuable new resources implemented in FY 2011-12: *The Family Business Loan Program*, a public-private partnership that provides low-cost loans for small business expansion and job creation; *The Entrepreneur Center*, a dedicated state-of-the-art small business training facility with access to meeting rooms for small business owners where SBDP expects to train approximately 2,000 small business owners annually; *locallyaustin.org*, SBDP's online small business map, which will provide a variety of beneficial new features for users and participating businesses. SBDP is also supporting EGRSO's Global Commerce Strategy by adapting existing services to educate Austin's small businesses on doing business internationally. New initiatives will be implemented in FY 2012-13 with existing staff though the demand for SBDP's services is expected to rise further as the economy continues to recover and new business startups increase.

Cultural Arts Division

Arts, culture, and creativity are critical to the identity, economy, and quality of life in Austin and key to Austin's reputation as a creative center in the global marketplace. The Cultural Arts Division continues to partner with the community to implement the CreateAustin Community Cultural Master Plan, provide *Take it to the Next Level* creative industry workshops, manage more than 80 active multi-year Art in Public Places projects, and administer the Cultural Arts Fund with a total Budget of \$6.7M projected in FY 2012-13 for cultural contracts—funded from a dedicated 1.05 cents of every nine cents of the Hotel/Motel Occupancy Tax—all in an effort to strengthen Austin's arts, culture and creative industries. A recently completed economic impact analysis shows that Austin's creative sector generates over \$4.3 billion in annual economic activity, with tourism contributing to over half of the city's tax base. The Cultural Arts Division will develop a cultural tourism plan to ensure that the creative sector continues to be a vibrant contributor to Austin's economy.

Music Division

The Music Division aims to enhance the economic vitality and cultural excellence of Austin's music industry. In 2012, the economic impact of music on Austin's economy grossed over \$1.6 billion dollars, employing an estimated 18,148 people, with music city tax revenue totaling more than \$38 million. The Music Division contributes to Austin's music industry by partnering with various music-based community businesses and organizations, coordinating over 24 music-focused programs and 166 live music performances, while strengthening the network between music professionals, musicians, and community members. In addition, the Music Division performs an integral role in the event permitting process collaborating with event organizers in the review process which resulted in over 5,000 amplified sound investigations and 500 outdoor music permit evaluations this year. Providing assistance to live music venues and sound mitigation measures plus streamlining the event permitting process are key to maintaining a balance between Austin's live music districts and residential development which is crucial to providing higher level of service to enhance music tourism, which contributed over \$806 million dollars to Austin's economy in 2010.

Economic Growth and Redevelopment Services

Significant Changes

Austin Energy Fund

Expenditure Changes	FTEs	Dollars
Citywide		
The Budget includes \$117,864 for salary increases associated with wage adjustments in FY 2012-13. An additional \$14,120 is included in the Budget for increased City contributions for health insurance.		\$131,984

Funds Subject to Appropriation

The City of Austin has set up a series of funds to keep track of what it spends for separate activities. A fund is a fiscal and accounting entity that records cash, revenue, expenditures and balances relating to specific activities. The City of Austin uses funds that can be divided into the following categories: General, Enterprise, Internal Service, Special Revenue, Debt Retirement and Capital Projects. Below is a list of the funds that are budgeted for the upcoming fiscal year.

General Fund and General Fund Reserves

The General Fund is the general operating fund for the City of Austin. This fund accounts for revenue and expenditures for general government services. The General Fund is supported by taxes, fees, fines, permits, licenses, charges for services and interest income. The General Fund also includes transfers from other funds including Austin Water Utility and Austin Energy. Reserve funds are maintained according to the City's financial policies to keep a healthy fiscal climate.

Enterprise Funds and Enterprise Reserves

Enterprise funds account for the acquisition, operations and maintenance of the City's facilities and services that are entirely or predominantly supported by user charges. They may also be funds for which the City has decided that the revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. All activities necessary to provide services are accounted for in these funds including, but not limited to, administration, operations and maintenance. The two largest enterprise funds are the Austin Energy and Austin Water Utility Funds.

Austin Energy Fund

The Austin Energy Fund is the operating fund for the electric utility. The primary source of revenue is the sale of electricity to customers. Revenue supports operations and maintenance of the electrical distribution system.

Austin Water Utility Fund

The Austin Water Utility Fund is the operating fund for the water and wastewater utility. The primary revenue source is from water and wastewater sales. The revenue supports treatment, collection and distribution of water, wastewater, and reclaimed water.

Other **enterprise funds** are as follows:

- Airport Fund – The operating and maintenance fund for the Austin-Bergstrom International Airport. Revenue sources include airline fees and non-airline revenue such as parking and concession fees.
- Austin Resource Recovery Fund – Accounts for activities of the Austin Resource Recovery department, including garbage, recycling and hazardous waste collection and zero waste initiatives;
- Code Compliance Fund – Used to account for expenditures of the City's code compliance efforts, including property abatement, zoning, and dangerous housing and buildings code compliance;
- Convention Center Funds – Account for convention center and public events activities;
- Drainage Utility Fund – Accounts for drainage and watershed protection activities;
- Golf and Golf Surcharge Funds – Account for golf activities;
- Parking Management Fund – Accounts for parking and transportation permitting activities; and,
- Transportation Fund – Accounts for transportation, streets, and traffic management activities.

The **enterprise reserve funds** are as follows:

- Airport Capital Fund – Accounts for funds used for the Airport Capital Improvements Program (CIP);
- Austin Energy Repair and Replacement Fund – Accounts for extensions, additions and improvements to the electric system;
- Austin Energy Strategic Reserve Fund – Provides emergency funding for unforeseen events in Austin Energy;
- Austin Water Revenue Stability Reserve Fund – Provides emergency funding in case of revenue shortfalls;
- Convention Center Marketing and Promotion Fund – Accounts for promotion of concession and catering products and services at the Convention Center; and,
- Convention Center Repair and Replacement Fund – Funds the acquisition, replacement, maintenance and repair of catering and concession equipment and furnishings within the Convention Center.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department to other City departments and other agencies on a cost-reimbursement basis. The internal service funds are:

Funds Subject to Appropriation

- Capital Projects Management Fund – Includes project management of the City’s capital projects;
- Combined Transportation, Emergency, and Communication Center – Accounts for the operation of shared emergency communications and transportation management for the region;
- Communications and Technology Management Fund – Includes information technology efforts of the City;
- Employee Benefits Fund – Includes the health, dental and life insurance costs of City employees and retirees;
- Fleet Services Fund – Includes vehicle and equipment services;
- Liability Reserve Fund – Provides coverage of the City’s major claims liabilities;
- Support Services Fund – Includes the activities of the various support service departments;
- Vehicle Acquisition Fund – Used to purchase replacement vehicles for general government departments;
- Wireless Communication Services Fund – Includes communication support activities; and,
- Workers’ Compensation Fund – Accounts for workers’ compensation costs.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes. Included in the special revenue funds are Federal, State, and other grant funds. Also included are the following funds.

General Government

- Municipal Court Building Security Fund – Provides funding to enhance courthouse security;
- Municipal Court Juvenile Case Manager Fund – Accounts for the collection of fees associated with fine-only misdemeanor charges and provides funding for the administration of juvenile dockets; and
- Municipal Court Technology Fund – Provides funding for technological enhancements to Court operations.

Public Safety

- Police Asset Forfeiture Funds – Account for the collection of contraband awarded to the agency by the courts. Funds may only be used to increase law enforcement resources; and,
- Municipal Court Traffic Safety Fund – Collects fees associated with red light camera program penalties.

Transportation, Planning, and Sustainability

- Child Safety Fund – Accounts for certain fines and fees used to provide school crossing guards at city schools; and,
- Environmental Remediation Fund – Accounts for the remediation of sites, which affect ground and surface water quality or public health and safety.

Recreation and Culture

- Cultural Arts Fund – Records activities for cultural project purposes; funded by a portion of the hotel occupancy tax.

Urban Growth Management

- Austin Energy Performance Contracting Fund – Accounts for conservation measures that reduce energy consumption;
- Economic Incentives Reserve Fund – Provides incentive grants and other economic incentive agreements established on the grounds that they provide higher levels of employment, economic activity and stability;
- Neighborhood Housing and Community Development Fund – Accounts for economic development, affordable housing and neighborhood revitalization efforts;
- Neighborhood Housing - Housing Trust Fund – Accounts for preserving and creating reasonably priced housing in the city of Austin; and,
- Neighborhood Housing - University Neighborhood Overlay (UNO) Fund – Created to provide rental housing development assistance within the University Neighborhood Overlay.

Other

- Austin Cable Access Fund – Collects payments by cable companies and disburses funds to Access Television;
- Business Retention & Enhancement Fund – Accounts for funds to retain and enhance downtown businesses;
- City Hall Fund – Used for funding and expenditures associated with the City Hall Parking Garage;
- Hotel/Motel Occupancy Tax Fund – Accounts for hotel/motel occupancy tax revenue and transfers the revenue to participating funds;

Funds Subject to Appropriation

- IH-35 Parking Program Fund – Accounts for revenue, operations, and maintenance requirements for two parking lots located under the IH-35 overpass between East 6th and 8th Streets;
- Mueller Tax Incrementing Financing Fund – Accounts for property tax revenue collected in the Mueller Tax Increment Financing reinvestment Zone No. 16;
- Music Venue Assistance Program – Provides low-interest loans to qualifying music venues to assist with implementing sound mitigation technologies and reduce the number of sound-related complaints;
- One Texas Center Fund – Accounts for revenue and debt service of the One Texas Center Building;
- Palmer Events Center Town Lake Park Venue Project Fund – Accounts for the levy of a short-term motor vehicle rental tax;
- Rutherford Lane Facility Fund – Accounts for revenue, expenditures and debt service requirements of the Rutherford Lane facilities;
- Section 108 Family Business Loan Program – In partnership with the U.S. Department of Housing and Urban Development, supports and stimulates business development by providing low-interest loans to qualified Austin small business owners;
- Sustainability Fund – Provides resources that help the City of Austin build a more sustainable economy, environment, and equitable infrastructure;
- Tourism and Promotion Fund – Accounts for the promotion of tourism in Austin as both a leisure and business destination. Funded by a portion of bed tax receipts;
- Waller Creek Tunnel Reserve Fund – Provides reserve funding for the Waller Creek tunnel project;
- Waller Creek Tunnel Tax Increment Financing Fund – Accounts for property tax revenue that is collected in the Waller Creek Tax Increment Financing Reinvestment Zone No. 17; and,
- Wildland Conservation Fund – Accounts for the City and County’s management of preserve systems.

Debt Retirement

Debt retirement funds are used to account for the accumulation of resources for, and the payment of, general long-term debt.

- General Obligation Debt Service Fund – Used for payments of principal, interest and related costs of general obligation or tax-supported debt;
- Airport Revenue Bond Redemption Fund – Used to pay debt for airport construction;
- Airport Variable Rate Bond Debt Service Fund – Used to pay debt for the airport rental car area;
- Combined Utility Revenue Bond Redemption Fund – Used to pay debt for utility bonds;
- Hotel Occupancy Tax Revenue Bond Redemption Fund – Used to pay debt for the Convention Center and Waller Creek expansion with funds from Venue Project Fund;
- HUD Section 108 Debt Service Fund – Used to account for HUD loans for construction costs; and,
- Town Lake Park Venue Project Bond Redemption Fund – Used to pay for debt associated with the Palmer Events Center Town Lake Park Venue Project.

Capital Projects Funds

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds and trust funds. Below are the groups of funds that account for the activities related to the capital improvement projects:

- 1984:* Funds authorized September 8, 1984, for various purposes;
- 1985:* Funds authorized January 19, 1985, for cultural arts; Authorized July 26 for parks and recreation; Authorized September 26 for art in public places; and Authorized December 14 for various purposes;
- 1992:* Funds authorized August 10, 1992, for various purposes;
- 1997:* Funds authorized on May 3, 1997, for radio trunking;
- 1998:* Funds authorized November 3, 1998, for various purposes;
- 2000:* Funds authorized November 7, 2000, for street improvements and land acquisition;
- 2006:* Funds authorized November 7, 2006, for various purposes;
- 2010:* Funds authorized November 2, 2010, for mobility projects, including roadway, signals, intersections and pedestrian/ADA improvements; and,
- Other:* Funds established for various purposes that use funding sources other than authorized bonds.
