Mission and Goals for 2017

Mission

The mission of the Communications and Technology Management (CTM) Department is to provide an excellent customer experience and deliver innovative business technology solutions so that our business customers can deliver city services to residents of the community and the region.

Goals

Deliver world-class customer service to customers by making it faster and easier to complete IT tasks while having a positive experience with CTM:

- Maintain overall customer service rating at 90% or better.
 - Successfully close 90% of Level 3 Help Desk tickets in 5 days.
-

Strategically expand One City IT with high-quality, high-value shared services and partnerships to improve performance and efficiency:

- Successfully negotiate one Public Private Partnership or Shared Services agreement annually.
 - Develop a lifecycle management plan to reduce supported legacy applications in the inventory by 5%.
-

Innovate by unlocking the full potential of the current workforce while building the workforce needed for tomorrow:

- Expand mobile services to departments to provide access to City data and apps via mobile devices by 5%.
 - Transformative solutions that change how a department or the City performs an action will comprise 10% of all projects.
 - Develop a Data Governance program to support Open Government and Master Data Management and provide an increase in the number of visitors to the City's Data Portal.
-

Improve employee satisfaction by increasing interdepartmental coordination and investing in tools and resources to encourage productivity and job growth:

- Improve the employee satisfaction rate by 5% through clear communication of IT Strategies and employee empowerment.
 - Support employee development to enrich and retain staff by increasing investment in employee training by 5%.
-

Communications and Technology Management

Message from the Director

Communications and Technology Management (CTM) provides a broad array of information technology (IT) services to City of Austin departments. CTM manages three major programs: Communications and Technology Management, the Combined Transportation, Emergency and Communications Center (CTECC) and Wireless Communication Services. Additionally, CTM's customer base includes other governmental entities that are members of the Greater Austin/Travis County Regional Radio System (GATRRS), and the partners of the Combined Emergency Transportation and Communications Center (CTECC).

Ever-increasing demands for information drive requirements for technology support, system upgrades, increased data storage and bandwidth, project management, public safety support, web services and interoperability of communication services. CTM has worked to meet these demands while sustaining and improving service, and maintaining or lowering costs.

During FY 2015-16 CTM continued implementation of transformational upgrades and replacements of the City's core technology foundation, including piloting Microsoft Office 365—which provides innovative and collaborative ways for departments to work—and continuing the PC Lifecycle project. In addition, CTM continues to upgrade the City of Austin Telecommunications Network (COATN), ensuring adequate bandwidth for existing needs and future innovation. Continuation of the upgrade of public safety mobile data computers; the Greater Austin/Travis County Regional Radio System; and the Voice over Internet Protocol (VoIP) telephone system upgrade, which is over 90% complete, also took place, along with many other projects to keep critical technologies up to date.

Other projects for FY 2015-16 included installation of a second Internet connection, which prevents single points of failure in both systems and communications; establishment of an open-data portal to enhance the City's Open Data Initiative; implementation of a two-factor authentication system and storage encryption to protect critical public safety systems and data; deployment of a new public web portal for AMANDA, which allows citizens to apply for some permits online and pay fees via credit card; completion of the initial phase of electronic plan review; and implementation of an enterprise service bus (ESB) system, another foundational project, which will provide multiple City departments the ability to design and implement data interchanges between software systems.

During FY 2016-17, CTM will continue to implement major technology upgrades and replacements, including expansion of Office 365, implementation of Google Fiber, replacement of the CTECC Video Wall, and planning for the relocation of the City's main data center. Further upgrades to the AMANDA Case Management System are planned, along with continued improvements in cyber security and data management and analytics. Replacement of the Municipal Court Case Management System and a new Electronic Health Management System are also planned, along with implementation of APD body-worn cameras which incorporate modern and emerging technology advances.

Technology projects, both citywide and department specific, were once again prioritized through the IT Governance process, to be implemented as funding and resources are available. For FY 2016-17, the governance process has again focused on identifying IT infrastructure foundations and enterprise IT business solutions that most efficiently and innovatively meet the most critical and the broadest range of business needs Citywide. And to make most efficient use of available budget and resources, CTM will continue to leverage existing solutions wherever possible.

CTM is committed to delivering an enhanced customer experience, building one City IT and enabling a flexible workforce.

Stephen Elkins, Chief Information Officer

Budget Highlights

The Communications and Technology Management (CTM) budget for FY 2016-17 reflects requirements for its major functional areas: Communications and Technology Management; the Combined Transportation, Emergency and Communications Center; and Wireless Communication Services. This includes 322 FTEs housed in six locations within the city of Austin. In addition to the fund-specific operating budget requirements noted below, each fund includes increases for employee salaries and benefits. Each fund's budget also includes contributions to the capital improvement plan for replacement of critical infrastructure.

Communications and Technology Management (CTM) Fund

CTM is the City of Austin's principal information technology (IT) department and focuses on the delivery and operations of vital IT infrastructure network and telecommunications services, continuous service improvement, and solutions to enable customer success. CTM works in partnership internally and with other departments' IT groups to deliver and sustain technology solutions across the City. CTM's services include business application services, enterprise architecture and infrastructure management, including 24/7 Service Desk support, financial and administrative services, and project management services such as corporate IT training. The CTM fund receives revenue primarily from the General Fund and enterprise funds based on a cost allocation model.

The CTM budget supports ongoing initiatives in FY 2016-17 in addition to increasing the budget for software and hardware maintenance contracts and market study wage adjustments. These include continuing the Windows Operating System upgrade; the Microsoft Enterprise License Agreement, which will be expanded to include Austin Public Library employees; Microsoft Office 365; and the PC Lifecycle project, which replaces City-owned PCs on a five-year rotating cycle. The budget also continues to support the Open Data Initiative, as well as infrastructure investments including Google Fiber implementation and upgrades to provide wireless access in downtown and East Austin. CTM will also be implementing a tool to track City-owned PCs and laptops, as well as refreshing the City intranet site. CTM will be transferring one position to the Building Services Department to assist with electronic building security and access, and will be eliminating one position in response to a request from the City Manager to find savings for other funding priorities.

Since FY 2010-11, CTM has employed an IT Governance practice for reviewing departmental requests for resources for hardware and software to improve business processes. From the projects that were submitted for evaluation by the two IT Governance committees, made up of department directors and department information officers respectively, \$5.5 million in funding was approved for the CTM fund for FY 2016-17. This amount includes \$2.3 million to relocate the City's data center. The remaining funding will address replacement of the File Transfer Protocol (FTP) system; continued upgrades of the AMANDA Permitting System, Municipal Court case management system, and the Enterprise Document and Imaging Management System (EDIMS); as well as technology projects for Austin Transportation and the new Central Library. It also includes implementing the enterprise service bus and Single Electronic Health Management systems, Security Information Event Management, MicroStrategy Business Intelligence Analytics, and Distributed Denial of Service Attack (DDoS) mitigation. These IT Governance projects will add eight positions: five for the City data center relocation, two for the FTP system replacement, and one for the EDIMS upgrade.

CTM continues to focus on improving customer service for all stakeholders. The graph below shows that in FY 2014-15, 96% of customer stakeholders taking a satisfaction survey were satisfied with CTM's service. The goal for this measure is set annually at 90% satisfaction, and CTM estimates it will exceed the goal again in FY 2015-16.

Combined Transportation and Emergency Communications Center (CTECC)

The budget for CTECC supports requirements for the City of Austin, as well as its partner agencies—Travis County, Capital Metro and the Texas Department of Transportation. In FY 2016-17, the CTECC budget will support market study wage adjustments and ongoing operations, including expansion of Digital Vehicular Video and Public Safety Storage, an upgrade of the Emergency Operations Center audio/visual system, and enhancements to the Computer Aided Dispatch (CAD) system. There will also be increases in the budget for new initiatives including the body-worn cameras project for APD, which has an associated supporting staff position, and replacement of the CTECC Video Wall. The IT Governance process has also approved expanding the Regional Mutual Aid system,

including one added support position. This system allows the Austin Fire Department and Austin/Travis County EMS to collaborate with other local emergency aid agencies to dispatch the closest available unit to respond to emergencies, decreasing response time.

Wireless Communication Services

The Wireless Communication Services Fund continues to maintain a high measure of reliability for users of the Regional Radio System within Austin/Travis County, Williamson County and other jurisdictions. The Wireless Communications program will increase service to public safety vehicles for installation and repair of voice radios, mobile data computers, data radios, sirens, emergency lighting, and automatic vehicle location devices. The Wireless budget will support ongoing operations in FY 2016-17 in addition to increases in the budget for implementing market study wage adjustments. There will also be an increase for the body-worn cameras project for APD and increases to properly account for the costs of materials the Wireless division uses for equipment repairs.

The Wireless Communication Services Program will continue to increase in scope as the Wireless division and the State of Texas execute the Statewide Interoperability Plan for Radio Services. Because this is a public safety system, it is critical that CTM maintains operations at 99.99%. To meet this measure, Wireless field operations will continue to perform ongoing routine monitoring and maintenance of system components and monitoring of the alarm system for network failures.

Communications and Technology Management

Significant Changes

Communications and Technology Management Fund

Revenue Changes	Dollars	
Transfer from the General Fund and net transfers from other City departments are increasing to match the expenditures required for FY 2016-17.		\$3,430,684
Increase for revenue from external agencies in support of the Greater Austin Telecommunications Network (GAATN) and interest income.		\$175,080
Expenditure Changes	FTEs	Dollars
Citywide Cost Drivers		
Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.		\$760,988
Department Cost Drivers		
Decrease to account for FY 2015-16 CIP transfers and for critical replacement projects funded in FY 2015-16.		(\$9,010,069)
Increases for hardware and software maintenance contracts in support of existing systems.		\$2,557,839
An increase that includes transfers to CIP for critical replacements including servers, storage, voice over internet protocol, a data load balancer, network and building security, and audio visual equipment at City Hall.		\$2,020,000
Increases for the Microsoft software licensing agreement for Office 365 and licenses for Austin Public Library staff.		\$1,173,279
Increases for Capital Area Council of Governments (CAPCOG) digital elevation data services and associated contractor services.		\$350,000
To better align budgetary structure with organizational workflow, transfer of an IT Security Analyst position to Building Services to support physical security and photo identification badging in FY 2016-17.	(1.00)	(\$131,279)
Reduce expenditures by eliminating one position in response to the City Manager's direction that departments examine their respective budgets to find savings for other priorities.	(1.00)	(\$106,737)

New Investments

Increase for prioritized IT Governance projects including the AMANDA case management system upgrade, Second Internet Connection, the Single Electronic Health Management system, the Extract-Transform-Load Tool (ETL) project, a Security Information Event Management system, Right-of-Way Management system (GIS ROWMAN) replacement, Library PC Reservation and Digital Services, Real Estate Inventory system, Special Events permitting projects, replacement of the File Transfer Protocol (FTP) system, Distributed Denial of Service Attack (DDoS) mitigation, Enterprise Document and Imaging Management System (EDIMS) upgrade.

8.00 \$3,133,655

Increase to relocate the City's data center.

\$2,332,108

Increase for an asset management tool for City-owned PCs and laptop computers.

\$175,000

Combined Transportation, Emergency, and Communications Center Fund**Revenue Changes****Dollars**

Transfer from the General Fund and net transfers from other City departments are increasing due to changes in costs associated with the Emergency Operations Center, the use of Computer Aided Dispatch, and other Public Safety IT systems.

\$1,591,497

Overall decrease in Interlocal Agreement revenue from Travis County, Texas Department of Transportation, and Capital Metro due to a decrease in shared expenditures.

(\$571,274)

Expenditure Changes**FTEs****Dollars****Citywide Cost Drivers**

Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.

\$134,679

Department Cost Drivers

Net decrease for CIP transfers and critical replacement projects.

(\$1,515,000)

Increases for hardware and software maintenance contracts for CTECC and Public Safety IT systems.

\$583,332

Increase for Austin Energy facility management services including the replacement and improvement of building systems.

\$400,000

Increase for relocation of the equipment, systems, and telecommunication services at the 9-1-1 Backup Center used for Computer Aided Dispatch.

\$240,000

Additional funding for PC Refresh of computers used by public safety agencies including Travis County, Texas Department of Transportation, and Capital Metro and an increase to enhance the capabilities of the Computer Aided Dispatch system used to coordinate emergency response with regional public safety agencies. Offset by increased department revenue.

1.00 \$631,485

New Investments

Net increase for purchase and support of body cameras for Austin Police Department Officers including three months of funding for an IT Network Administrator Senior.

\$76,811

Wireless Communication Services Fund

Revenue Changes

Dollars

Transfer from the General Fund and net transfers from other City departments are increasing to match the expenditures required for FY 2016-17.

\$1,361,374

Increase in revenue from wireless maintenance for City departments and interest income.

\$932,068

Decrease in revenue from external agencies.

(\$412,860)

Expenditure Changes

FTEs

Dollars

Citywide Cost Drivers

Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.

\$114,475

Department Cost Drivers

Net increase in one-time transfers to CIP for the critical replacement of emergency response recording servers, service monitors, Digital Vehicular Video Power Cells, Greater Austin/Travis Regional Radio System (GATRRS) infrastructure, and an antenna array for backup radios.

\$599,825

Implement accounting adjustment to cost of goods sold budget to provide department with additional billing capacity. Offset by increased department revenue.

\$507,000

New Investments

Net increase for purchase and support of body cameras for Austin Police Department Officers.

\$24,500

Increase to outside repair contracts.

\$502,000

Program: Wireless Communication Services

Activity: Wireless Infrastructure and Public Safety

The purpose of Wireless Infrastructure and Public Safety is to provide proactive two-way radio system infrastructure installation, removal, and maintenance services to the Wireless Communications Services Office's customers so they can experience reliable area-wide radio communication. This activity also provides equipment tracking and support, scheduling and assistance to staff and wireless users so they can perform efficiently.

Fleet Services

Mission and Goals for 2017

Mission

The mission of Fleet Services is to provide our customer departments with safe and reliable vehicles and equipment in a timely, cost-effective and environmentally responsible manner so that they can complete their missions.

Goals

Fleet Services will strive to keep 95% of all City vehicles operational and available at all times.

Fleet Services will strive to achieve and maintain a 95% or higher on-time completion rate for preventive maintenance on City vehicles.

Fleet Services will work toward achieving carbon neutrality by:

- Converting 85% of the fleet to Alternative Fuel Vehicles (AFV) and hybrid (electric) vehicles; and
 - Increasing the fleet's ratio of alternative fuel to traditional fuel issued to 80% by 2020.
-

Fleet Services

Message from the Director

The Fleet Services Department provides a full range of fleet services to City of Austin departments in support of their missions, making Austin the best-managed City in the country.

Our services include managing the full life cycle of all vehicles and equipment including acquisition, fueling, maintenance, repair and disposition. In FY 2014-15, Fleet technicians routinely repaired breakdowns and provided maintenance for various types of equipment in 8 facilities located across the city that handled 50,208 work orders, which is an increase of 9.6% over the previous year. These work orders consisted of 145,304 jobs, which is an 11.5% increase over the previous year. The City of Austin's fleet consists of approximately 6,200 on and off road units, in 480 equipment classes, ranging from lawn mowers to fire trucks to heavy off road construction equipment.

Fleet is responsible for providing fuel services to City departments. This entails the maintenance and monitoring of 43 fuel sites located around the city and dispensing over 5,000,000 gallons of fuel per year.

The Department strives to be "Second to None", which directly contributes to our commitment to public service and being the Best Managed city. To achieve this goal, we continue to address items in a consistent manner while sustaining strong business practices. The Fleet Services FY 2016-17 Business Plan consolidated various units, added one new program, and created three activities to better manage departmental operations. The Department's operating structure was flattened in order to provide significantly improved transparency and financial accountability.

The Fleet Services Department received the National Association of Fleet Administrators Fleet Management Association Sustainable Fleet Accreditation. As the only fleet in the State of Texas and one of the first fleets in the nation to receive this accreditation, the City of Austin successfully demonstrated a credible sustainability plan and made progress toward reducing the total emissions and the negative environmental impact made by the extraneous carbon fuel usage.

The Fleet Services Department remains committed to providing service levels that are directly in line with the City of Austin's mission of being the Best Managed City in the country. The Fleet Services Department addresses this city-wide mission by enforcing strong fiscal accountability and maintaining positive working relationships while providing exceptional service in a safe, efficient, environmentally responsible and ethical manner. As we move forward into FY 2016-17, we remind ourselves that our customers require our services and that the Fleet Services Department keeps the city moving forward to better establish an increased sense of community with the citizens of Austin.

The Budget presented represents Fleet Services' efforts to maintain existing service levels, while mitigating risks associated with our business.

Gerry Calk, Fleet Officer

Budget Highlights

The Fleet Services Department provides a full range of fleet services to City departments in support of their missions serving the citizens of Austin. Fleet Services manages an Internal Service Fund budget of \$55.1 million and 218 full-time equivalents (FTEs). The Service Centers comprised the largest share of Fleet's operating budget at 49.2%, followed by Operational Services (Fuel) at 28.5%, Vehicle Services at 7.3%, with Support Services, Transfers, and Other Requirements comprising 15%.

Fleet Services is responsible for the acquisition, maintenance, fueling and disposal of vehicles and other related equipment utilized by the City. Fleet Services' goal is to have the maximum amount of vehicles and equipment available to customers in order to minimize downtime for customer department operations. Minimal downtime is also a factor in determining the size of fleet required to maintain operations. Fleet's goal for FY 2016-17 is 95% availability and based on year-to-date performance the current year estimate for FY 2015-16 is 94.4%.

Personnel

The City of Austin fleet has experienced a 34% growth in fleet size since 2006. In order to properly and safely manage our growing fleet, essential staffing for conducting operations, support, administration and the delivery of fleet services must be provided. Therefore, the Budget includes annualized costs for two positions added in FY 2015-16 and an increase of \$554,147 for the addition of six new positions in FY 2016-17. Additionally, as a result of the departmental reorganization, five and a half administrative positions were moved from Service Centers into the Departmental Support Services activity.

CNG Facility Improvements

Fleet Services plans to purchase and install additional equipment and controls for the Compressed Natural Gas (CNG) fuel facility located at Todd Lane. These new additions will decrease the likelihood of unplanned outages, as well as allowing for continued operations in the event of interrupted service. Accessibility issues with the CNG facility will also be addressed by expanding the entryway that leads to the fueling station. The required budget increase is \$1.3 million.

Service Center Programs

The Service Center Program includes the addition of Materials Control activity (previously budgeted in two programs, the Support Services Program and the Service Center Program) and consolidation of the Preventive Maintenance, Scheduled Maintenance, and Unscheduled Maintenance activities. Total requirements for the Service Center Program in FY 2016-17 are \$27.4 million, an increase of 2.5% from FY 2015-16. This increase is primarily due to the reorganization and base-cost drivers. The cost for parts and services related to fleet maintenance has begun to trend upward. Therefore, Fleet is projecting an increase of 8.3% in the incremental maintenance charges to keep pace with cost inflation and fleet growth.

Vehicle Services Programs

FY 2016-17 requirements for the Vehicle Support Services Program are approximately \$4.1 million, a decrease of 2.0% from FY 2015-16. The budgetary decrease reflects the relocation of the fuel activity to the newly created Operational Services Program.

The Vehicle Support Services Program includes the following activities:

- Fleet Programs (Accident Repair Coordination, Rental Pool, and Taxi Service)
- Vehicle Life Cycle Management (Make Ready, Acquisitions, and Auction)

In FY 2014-15, Fleet Services returned to the use of alternative diesel fuel. Our contract with the vendor was amended to include language to help ensure testing processes are a solid part of the delivery process. The temporary stop of alternative diesel fuel in FY 2013-14 was to resolve issues relating to fuel filters that were clogging, which resulted in refuse vehicles becoming inoperable. The department temporarily switched from biodiesel to conventional diesel, resulting in a fluctuation of alternative fuel issued. Upon reimplementation of alternative diesel fuel, the department has a FY 2015-16 performance measure target of 45% and has a target goal in FY 2016-17 of 71% of alternative fuel issued as a percentage of all fuel issued.

Operational Services Program

FY 2016-17 requirements for Operational Services Program is \$15.9 million.

Fuel is traditionally Fleet's most volatile commodity and the most difficult to forecast. Even though Fleet uses the Department of Energy's Energy Information Administration (EIA) forecasted fuel prices along with historical costs and usage as the basis for our projected fuel prices, instability in the world markets can create the potential for significant fluctuations. Fleet continually monitors the future activity of this commodity and adjusts the projection as warranted. Based on current EIA data and our analysis of historical costs and usage, the current budget includes a decrease of \$2.5 million for fuel costs. Fleet also maintains a \$3.0 million Fuel Reserve established in FY 2009-10 to be used in the event a significant fuel-related loss occurs in a given fiscal year.

Fleet Services

Significant Changes

Fleet Services Fund

Revenue Changes	Dollars	
Normalization of fuel revenue due to the removal of the prior year rebate to user departments.		\$1,722,621
Increase in maintenance revenue for the service of City vehicles.		\$3,182,899
Expenditure Changes	FTEs	Dollars
Citywide Cost Drivers		
Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.		\$652,172
Additional funding for Communications and Technology Management support.		\$121,710
Department Cost Drivers		
An increase for the third and final phase of the incentive pay allowances for the Technician Certification Program.		\$112,934
A decrease in fuel expenditures due to a drop in the forecasted cost of fuel.		(\$2,500,000)
Removal of \$100,000 for the one-time funding necessary for the purchase of Fleet Rental Pool vehicles.		(\$100,000)
New Investment		
Security improvements at service facilities.		\$88,582
Funding for the transfer to the Fleet Capital Program for compressed natural gas equipment and site improvements, which will decrease the likelihood of unplanned outages, as well as allow for continued operations in the event of interrupted service.		\$1,250,000
Funding for the transfer to the Fleet Capital Program for the replacement of lubrication systems at service facilities which will interface with Fleet's management software ensuring greater inventory control.		\$210,000
A reorganization of the operational costs of the Fleet Maintenance and Repair, Materials Control, and Fuel Management activities to more accurately track and manage the parts, tools and equipment, and fuel costs associated with Fleet Services daily operations.		\$0
Addition of five (5) Equipment Technicians and one (1) Service Center Supervisor to support our customer departments in public health and public safety.	6.00	\$554,147

Volume II
Support Services

Support Services Fund

Purpose and Nature of Fund

Departments within the Support Services Fund provide assistance to the City of Austin and its citizens. These services include providing objective analysis of the adequacy of the City's management systems, maintaining the financial integrity of the entire City government, providing a liaison between the City and other governmental entities and legislative bodies, managing the City's human resources, and overseeing the implementation of all programs and services. Support Services departments include:

- Building Services – (162.08 FTEs) Manages facilities owned and leased by the City of Austin.
- Communications & Public Information – (25.00 FTEs) Provides communications consulting and media relations tools and resources that enhance the City's engagement with residents, the media, and employees to promote transparency, facilitate informed decisions, and encourage active participation in City government.
- Financial Services – (247.50 FTEs) Safeguards the financial integrity of the City and provides comprehensive and integrated financial management services to City departments and other customers so that they can accomplish their mission.
- Government Relations – (4.00 FTEs) Supports, promotes, initiates and monitors legislation that strengthens and protects the City's interests.
- Human Resources – (112.50 FTEs) Secures, develops, and maintains the City's human resources including personnel services, civil service, Equal Employment Opportunity Compliance, and risk management services.
- Labor Relations Office – (6.00 FTEs) Negotiates and administers labor contracts with public employee unions.
- Law – (97.00 FTEs) Provides a variety of general and specialized legal services, collects delinquent accounts, and files cases involving bankruptcy, workers' compensation, and other claims.

- Management Services – (62.23 FTEs) Comprises the City Manager’s, Police Monitor, Innovation, Sustainability, and Homeland Security and Emergency Management Offices.
- Mayor and Council – (59.00 FTEs) Provides leadership and policy direction for the City.
- Office of Real Estate Services – (35.00 FTEs) Provides leasing, property acquisition and sale, and land management services to City departments to support operational needs.
- Office of the City Auditor – (26.50 FTEs) Promotes transparency, accountability and continuous improvement through audit and investigative services.
- Office of the City Clerk – (27.00 FTEs) Ensures that all City records are accurately kept in compliance with City ordinances and state and federal law, and conducts City elections.
- Office of the Medical Director – (9.00 FTEs) Provides comprehensive medical oversight to the Austin/Travis County Emergency Medical Services and the Austin Fire departments.
- Small and Minority Business Resources – (29.00 FTEs) Promotes and develops business opportunities for small, minority-owned and women-owned firms.
- Telecommunications and Regulatory Affairs – (15.00 FTEs) Ensures the City receives fair compensation for the private use of public rights-of-way, promotes wider access to the Internet and computer technology, and protects consumers from utility rate increases and predatory lending practices.

Factors Affecting Revenue

The Support Services Fund receives revenue from the General Fund and enterprise funds based on an annually updated cost allocation plan. The purpose of the plan is to allocate, as precisely as possible, the cost of services that the support departments provide to each of the service-receiving City departments. Each support department is analyzed to determine the primary service(s) it provides; statistics are developed to form the basis of allocation for each identified function, ensuring the allocated costs are representative of the level of service provided to each service-receiving department; and a calculation is performed to determine each service-receiving department’s equitable share of the support services department’s costs.

In the aggregate, therefore, the Fund’s revenue needs are a function of Support Services departments’ expenditure requirements and total allocations to service-receiving departments correlate with these requirements. The relative share of individual fund contributions made by specific service-receiving departments change annually based on updates to the statistics used to compute the allocations. In FY 2016-17, the total available funds are \$119.0 million.

Factors Affecting Requirements

The FY 2016-17 requirements of \$122.8 million increased 5.3%, or \$6.2 million, from the FY 2015-16 Amended Budget. Some of the most significant budget changes include:

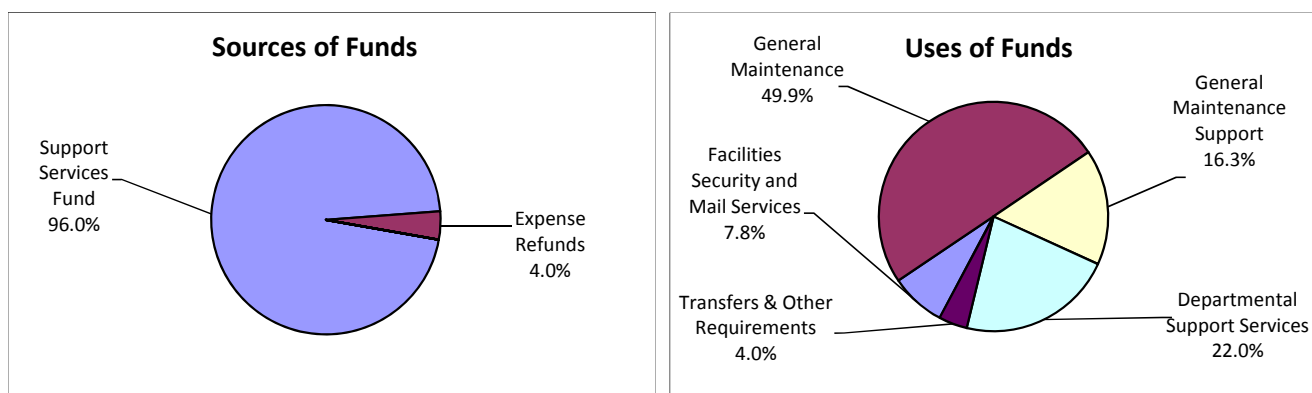

- Funding Citywide personnel items such as wage adjustments, citywide markets and increases in health insurance costs at an amount of \$3.3 million, and an additional \$309,349 for the full annualized cost of positions added in FY 2015-16;
- Adding a net \$750,000 to fund November 2016 City Council elections, representing the \$1.4 million cost of these elections less the \$650,00 cost of the May 2016 Transportation Network Companies special election;

- Changing the funding mechanism for interoffice mail services and direct service provision in Law and Purchasing which decreases the expense refunds collected from service-receiving departments by \$436,157;
- An additional \$268,682 for the cost of three FTEs and software necessary for the Office of the City Clerk to enforce recently expanded campaign finance reporting and disclosure requirements;
- Funding of \$326,898 for three FTEs in the Human Resources Department tasked with publicizing and enforcing the recently passed Fair Chance Hiring ordinance;
- Reducing the Government Relations Office budget for lobbying contracts by \$250,000 and expenditures across all Support Services departments by \$178,044 as part of the City Manager’s initiative to identify savings that could be repurposed to other funding priorities;
- Including \$231,467 for the full annualized cost of the City’s recently created Equity Office;
- Increasing the Law Department’s budget by \$194,292 to reflect the transfer of the claims processing function and its three FTEs from Municipal Court;
- A combined net increase of \$141,631 across all Support Services departments as a result of annual vacancy savings realignment in accordance with established City policy;
- Funding of \$139,680 for two contract compliance positions in the Purchasing Office to conduct living wage compliance reviews;
- Transferring one FTE and its \$88,913 cost from Communications and Technology Management to Building Services and reclassing this position to Security Coordinator;
- The addition of one unfunded FTE—a Human Resources consultant to focus on criminal background investigations—\$50,000 to the Human Resources Department budget for the cost of a pay disparity study, and \$148,836 for the increasing cost of the City’s Property and Boiler insurance policy;
- Reducing the Innovation Office budget by \$60,137 to reflect the elimination of a vacant Administrative Assistant position;
- Adding \$50,000 for the cost of an Emergency Management Strategic Plan to be commissioned by the Office of Homeland Security and Emergency Management; and,
- Funding of \$35,394 for the conversion of a temporary Contract Compliance Manager position in the Building Services Department to full-time.

Building Services Mission and Goals for 2017

Mission

The mission of the Building Services Department (BSD) is to provide services that support reliable, efficient and sustainable City facilities so that departments can accomplish their missions.

Goals

Improve communication with customers:

- Provide safe, attractive and efficiently managed facilities that achieve an annual customer satisfaction rating of 85%.
-

Be good stewards of tax dollars:

- Achieve a facilities cost of ownership per square foot of \$10 for core buildings by 2018.
 - Improve the scheduled versus unscheduled maintenance ratio from 30% to 60% by 2020.
-

Improve energy efficiency of City buildings:

- Achieve an EPA Energy Star Portfolio Manager score of 85 for core managed properties by 2020.
-

Building Services

Message from the Director

The mission of the Building Services Department (BSD) is to provide reliable, efficient, and sustainable City facilities so that departments can accomplish their missions. Our services include: custodial, carpentry, plumbing, HVAC, locksmith, electrical, project management, security, property management, and mail services. BSD provides these support services directly to an estimated 2.4 million square feet of City buildings spanning approximately 300 square miles across the City. Building Services is organized based on the following activities: Facilities Security and Mail Services, General Maintenance, General Maintenance Support, and Support Services.

Significant growth in the City's facility portfolio, aging buildings, deferred maintenance, and space shortages are all drivers necessitating a transformation of Building Services from a fix-on-failure maintenance shop to a proactive facilities/asset management organization. Benefits of this shift will include improved planning and asset reliability, operational efficiency, and ultimately a systematic approach to managing operations and costs with a focus on Total Cost of Ownership Management.

Efforts to achieve this transformation will continue into FY 2016-17. In 2013, the Strategic Facilities Governance Team was established with Building Services, Real Estate Services, and Financial Services to link citywide facilities issues and develop strategic approaches and solutions. Progress in these efforts continues with improvements to work system design, data collection, and implementation of action plans for citywide facility issues.

Other achievements include:

- New Department Key Performance Indicators (KPIs) to better measure building and department performance were introduced in FY 2015-16 at 7 locations. These measures will better enable Building Services to track energy efficiency, costs by building, planned vs. unplanned maintenance, and customer satisfaction.
- Certification of BSD's Custodial Program by Green Seal, a non-profit organization that uses science-based programs to create a more sustainable world. This certification is the first of its kind for a municipality in the United States and confirms BSD's progress to more efficient and sustainable operations.
- BSD has completed the first phase of Lean 5S deployment which is demonstrated by each BSD core property now having at least one 5S project completed and functioning. Lean 5S is a systematic approach to improving workplace organization with the goal of achieving better workflow efficiencies, workforce safety, and waste reduction.
- BSD has implemented an internal process for handling obsolete materials from multiple City of Austin properties that are managed by BSD staff. The intent is to ensure proactive and systematic disposition processes using City-approved policies for re-distribution, recycling or auction.
- One Texas Center Awarded 7th consecutive Energy Star certification and ranks in the 94th percentile.

Building Services' FY 2016-17 budget reflects a balance to meet the City Manager's affordability goals and maintain the momentum of continuous improvement. Initiatives to improve measurement and analysis and increase the ratio of scheduled (proactive) vs. unscheduled (reactive) maintenance as well as to improve facility conditions through a reduction of deferred maintenance will continue to be priorities. Continuing to reduce deferred maintenance will also require funding the Capital Rehabilitation Fund for facility repairs and rehabilitation in order to eliminate this backlog and prevent it from increasing.

Eric Stockton, Building Services Officer

Budget Highlights

The Building Services Department (BSD) budget includes requirements of \$17.5 million and 162.08 full-time equivalents (FTEs). Building Services provides custodial, carpentry, plumbing, HVAC, electrical, security, locksmith, property management, space planning, and light remodeling services. Building Services has four activities: Facilities Security and Mail Services, General Maintenance, General Maintenance Support, and Support Services.

Facilities Security and Mail Services

The Facilities Security and Mail Services division includes requirements of \$1.4 million and 15 FTEs. In FY 2016-17 BSD will receive 1.0 FTE to support a transfer of the ESAS access badge system from CTM. The Security and Mail Services activity consists of the following services.

Security Program—Staff maintains security systems and services at select City facilities to prevent unauthorized entry and to oversee installation, maintenance, and certifications of fire sprinklers and alarm systems. This program also includes operation and oversight of City mail services. In FY 2016-17 BSD received a Security Coordinator position and \$36,000 in contractals to address demand. The department continues to refine and standardize emergency response and security policies throughout all City sites.

Mail Services—A staff of three provides mail services to 54 City customers from multiple departments. Services include delivery of incoming mail and pick up of outgoing mail on a daily basis. Services also include the processing of mail pieces such as inserting and sorting of official City mail. In FY 2014-15, mail services processed over 2 million pieces of mail for the City of Austin.

General Maintenance

The General Maintenance division includes requirements of \$8.8 million and 118.35 FTEs. In FY 2015-16, BSD received \$600,000 in preventative maintenance funding to support its transformation from a reactive to a proactive maintenance work environment. The funding in contractals and commodities helped to implement electrical, plumbing, and HVAC preventative maintenance initiatives. The intent is to shift the Ratio of Scheduled to Unscheduled Maintenance from 9% to 40% and to be able to forecast a more accurate Facilities Cost of Ownership per Square Foot. The General Maintenance activity consists of the following services:

Custodial—Staff provide cleaning services to ensure City facilities meet or exceed sustainable cleanliness standards. For the past few years staff has worked towards achieving Green Seal certification, a strenuous process requiring specific green initiative standards regarding cleaning products, training, and recycling. In FY 2015-16, BSD was able to achieve this certification and Green Seal standards have been implemented.

Electrical—Staff provide electrical service installations, maintenance of current electrical systems, efficiency retrofits, and maintenance of generators and UPS's.

HVAC—Staff provide commercial mechanical system maintenance, installation, and repair services to support reliable, sustainable, and energy efficient facilities.

General Maintenance—Staff provide building and equipment maintenance, repairs, remodeling, plumbing, and locksmith services.

BSD key indicator Customer Satisfaction with Building General Maintenance Services is tracked by surveying our customers on a monthly basis. BSD has experienced a drop in customer satisfaction due to a change to the survey that increased the number of rating levels on the survey and less-than-optimal staffing levels at some City facilities. BSD will improve customer satisfaction by reallocating staff based on survey results and improving our survey system to provide better feedback to managers.

Although BSD performs maintenance services across all general government facilities, the level of service provided varies between each individual location. The department has identified 7 sites (Municipal Building, Rutherford Lane Campus, Technicenter, City Hall, One Texas Center, Building Services Headquarters, and the Public Safety Training Center) to be used during the upcoming fiscal year to introduce two new performance measures: Building Performance and Total Cost of Ownership. Total Cost of Ownership is a typical asset management standard used to describe the total cost required to operate a building. This information is vital to managing the City's building infrastructure and benchmarking against other facility management organizations to identify areas requiring improvement and innovation.

General Maintenance Support

The General Maintenance Support division includes requirements of \$2.9 million and 12.73 FTEs. In FY 2016-17 BSD received funding to convert a temporary Contract Compliance Manager to full-time. The General Maintenance Support activity consists of the following services:

Safety Program—Staff provide training, inspections, accident investigation and wellness services to ensure that City facilities and personnel meet City safety standards.

Project Management—Staff manage and coordinate capital replacement projects as well as oversee larger projects which require a combination of trade services. They also oversee several contracts such as roofing, painting, flooring, graffiti removal, fencing, and parking lot maintenance. In FY 2016-17 BSD will receive \$65,000 to cover the rising costs for contracted maintenance services.

Property Management—Staff provide oversight of core facility maintenance needs and operations as required by tenant needs, acting as a liaison for the Department.

Hazardous Materials Mitigation—This program was transferred from Public Works to BSD in FY 2015-16. Staff ensure processes are followed, standards are adhered to, and resources are available for the purpose of minimizing and/or eliminating the possibility of exposure to hazardous materials or fibers such as asbestos, lead, or other airborne hazards by maintenance personnel, tenants, or the public.

Support Services

The Support Services division includes requirements of \$3.9 million and includes 16.00 FTEs. Support Services staff provide human resource administration, budgeting, accounting, purchasing, and minor technology support.

In recent years, business intelligence resources have been added to Building Services to strengthen management, planning, analysis, and data collection. The Maintenance Edge work order management system and the Integrated Workplace Management System (IWMS), which is used to manage facility maintenance records and facility inventory detail, will enable BSD to measure and analyze maintenance and facility operations with greater accuracy and identify opportunities for improvement. Once fully mature, these systems will contribute valuable data to the Strategic Facility Governance Team assisting with efforts to shift the City to a strategic, Citywide facility asset management approach.

Mission and Goals for 2017

Mission

The mission of Communications and Public Information is to provide communications consultation, tools, and resources that enhance the City's engagement with residents and employees so that they can make informed decisions and actively participate in City government.

Goals

Foster positive relationships with local and national media, and provide timely, proactive, and responsive information to media inquiries.

- Facilitate 800 media contacts/inquiries.
- 100% positive rating of media relations services (CPI annual media survey).

Create opportunities for the community to engage in the decision-making processes of the City of Austin.

- Facilitate 100 community engagement events or activities.
- Maintain video coverage of 550 meetings with 550 meetings accessible online.
- 35% of residents access ATXN programming.

Actively promote the projects, programs and initiatives of the City of Austin.

- 65% of users find information easy to find on City website (CPI annual communications survey).

Effectively coordinate internal communications activities within the City of Austin workforce.

- 90% of employee respondents reporting knowledge of specific City issues (Listening to the Workforce survey).
-

Communications and Public Information

Message from the Director

In our first full year under the new 10-One City Council, the Communications and Public Information Office (CPIO) has played a growing strategic role in rethinking and re-evaluating the methods Austin uses to communicate and engage with our increasingly diverse community. The district-level feedback and the new governing body's focused interest on community engagement has presented both challenges and opportunities that the department has embraced and actively adapted to throughout the year. The department continues to outpace our large city peers in terms of satisfaction with communication, but we see significant room to continue our innovation and leadership in redefining what government communications and engagement can – and should – be. A big part of that is providing the continued project management, leadership and policy guidance to all departments that have communication and engagement responsibilities.

A significant driver of our work over the past year revolved around recommendations from the Council's Task Force on Community Engagement. We found this nine-month process to be a refreshing and productive opportunity to work side-by-side with community members in developing ideas and priorities for future initiatives. While some recommendations will require significant investment, there were quite a few that CPIO was able to take up even before a final report was complete. Much of this centered on continuing our development of and experimentation with alternative engagement strategies that blend traditional methods with virtual and online methods for greater reach.

A second driver has been the department's deep involvement with City initiatives to better involve and serve parts of Austin that may have been traditionally overlooked or uninvolved. CPIO has been actively involved with the City's three Quality of Life commissions, has been helping to develop a more meaningful strategy on translation and interpretation, and had a lead role in executing (and continuing) the new Spirit of East Austin initiative. There remains much to do in relation to these efforts, but we feel that there is now a solid foundation that we can build upon in future years.

Finally, there have been some significant multi-year projects initiated in the past year that have real transformative potential for the department and the organization:

- Realizing the continued, rapid evolution of our work in the digital space, we have realigned recruitment and resources with a stronger focus on user-based design, digital engagement and leveraging both traditional and emerging social channels. This has been concurrent with the launch of new efforts to redesign the City's Intranet (CitySpace) and Internet (Austintexas.gov) sites on a new hosting platform and with a renewed focus on usability.
- With continued growth in demand for service, the department launched a transition to a modern, online project intake and tracking system that will improve internal customer service and departmental coordination and efficiency.

In the coming year, a significant focus will be on completion of the above projects, as well as targeted implementation of recommendations from the Task Force on Community Engagement where resources can be effectively aligned. The department is continuously focused on service improvement and discovering new and innovative methods for fostering the relationship between our government and our residents. It's something we've internalized, and we intend to continue our work toward being the standard-bearer for Best-Managed practices in effective government communications.

Doug Matthews
Chief Communications Director

Budget Highlights

The Communications and Public Information (CPIO) department's mission is to provide communications consultation, tools, and resources that enhance the City's engagement with residents and employees so that they can make informed decisions and actively participate in City government. CPIO's FY 2016-17 Budget totals \$3.5 million and 25 FTEs. CPIO consists of four divisions: Communications, Departmental Support Services, Video Production Services, and Web Services and Graphic Design.

Video Production Services

ATXN continues to play a critical role in our ability to inform and involve our residents in City activities. While coverage of meetings remains the core focus of the team, they now provide significant support in the City's overall communications efforts. In addition to meetings coverage, their role includes provision of public service announcements (PSAs) and issues-driven coverage, on-demand/streaming access to video, and the widespread integration of video into many of the City's communications, social media and engagement initiatives. The FY 2016-17 Budget includes an increase of \$33,970 to support community radio broadcasts of Austin City Council meetings. With the City Council's new committee structure, we anticipate an overall increase in meetings coverage that will be fully realized in FY 2015-16.

Web Services and Graphic Design

The Web Services and Graphic Design division has primary responsibility for the organization's visual and content brand and image. That includes the City's Web properties, printed collateral and other communications materials designed to support the City's programs and initiatives. The division partners with Communication and Technology Management (CTM) to support the continued development of the City's Internet and Intranet tools and applications, and provides ongoing training and support for effective use of the City's Content Management System (CMS). The division also has primary responsibility for the approval, tracking and management of 150+ social media properties across all City departments.

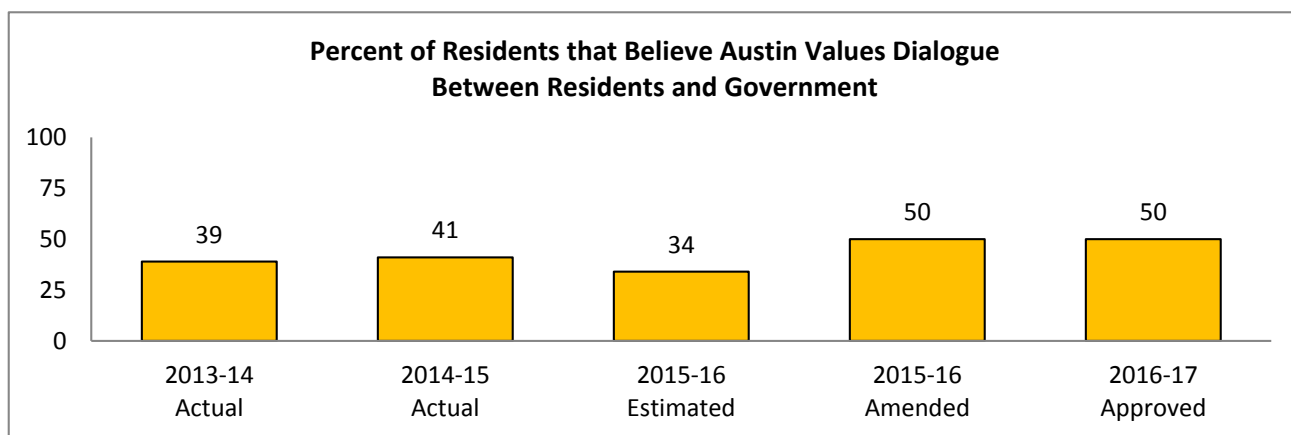

Media Relations

The Media Relations division continues to provide media guidance and support across the organization, to include additional support and training across new Council offices. The division also has primary responsibility for many of the City’s social media channels, which continue to grow in number, complexity, and activity. The City’s Twitter account, managed by the Media Relations division, surpassed 60,000 followers in FY 2014-15 – more than any other Texas city. A key performance factor not directly reflected in this measure is the increasing complexity of many of the issues handled by the division, as more local media outlets continue to turn to more investigative-style reporting that consumes a greater amount of attention from the team.

Community Engagement

Community engagement continues to play a critical role in the overall CPIO communications strategy, recognizing the value and importance of meaningful dialogue with residents. Over the past three years, the division has placed a focus and emphasis on extending connections with minority and foreign-language populations, as well as others that might have limited access to government. At the same time, we have been working to provide a common standard for engagement across the organization that helps to ensure that participants on both sides of the dialogue find value in their participation. To support these initiatives, the FY 2016-17 budget includes \$250,000 for translation and interpretation services.

Mission and Goals for 2017

Mission

The mission of the Financial Services Department is to maintain the financial integrity of the City and to provide comprehensive and integrated financial management, administration, and support services to City departments and other customers so that they can accomplish their missions.

Goals

Maximize the City's return on investments in accordance with the adopted investment policies, achieving an annual yield that is equal to or exceeds the one-year constant-maturity Treasury Bill rate.

Provide accurate and timely financial information to departments, management, and Council by realizing 100% or more of budgeted General Fund revenue, responding to 65% of Council budget questions within 5 days, and delivering financial reports within 55 days of the close of the accounting period.

Continue to incorporate sustainability as a key influencing factor in the way the City procures its goods and services by increasing the use of sustainability criteria in solicitations by 5% per year. Additionally, incorporate sustainable business practices within Financial Services.

Receive a "clean-opinion" from the City's independent external auditors on the Comprehensive Annual Financial Report (CAFR).

Provide efficient and quality professional and construction procurement contracting services by visiting 100% of construction sites within 15 days of the first payment to the contractor, ensuring 80% of professional service and alternative delivery procurements for construction projects schedules are met, and maintaining the average number of calendar days between invitation for bid issuance and contract execution at 133 days or less.

Provide coordination, planning, and oversight for the Capital Improvements Program (CIP) to align capital investments with organizational policies and objectives by reviewing 90% of planned projects in the City's Long-Range CIP Strategic Plan for alignment with the Imagine Austin Comprehensive Plan.

Financial Services

Message from the Director

Austin's regional economy remains strong. Austin is consistently recognized as a top-tier city described as the most inventive, creative, wired, educated, physically fit, and loved cities in which to live and work. Consequently, Austin's diverse economic base and quality of life continue to fuel steady growth and attract employers and new citizens.

The City Council and City management continue to focus on maintaining conservative and financially responsible budget practices including structurally balanced budgets, expenditure controls, and the strategic use of one-time resources to fund non-recurring expenditures. These financially conservative budget practices, together with the robust Austin economy, have been fundamental to maintaining the City's "AAA" bond rating on its general obligation debt. Maintaining this highest possible rating ensures lower interest rates on debt, thus reducing costs to our taxpayers.

The Financial Services Department (FSD) performs seven major financial functions through the Budget, Capital Contracting, Capital Planning, Controller's, Performance Management, Purchasing, and Treasury Offices. In the 2015-16 Budget, the Capital Contracting Office (previously reported separately as the Contract Management Department) and the Capital Planning Office (previously reported in Management Services) were transferred into FSD, and the Office of Performance Management was created.

FSD's ongoing dedication to the highest level of financial transparency is illustrated in the financial documents found on the **Austin Finance Online (AFO)** web portal www.austintexas.gov/finance. AFO provides a gateway to financial documents including budgets, performance reports, audit reports, Official Statements related to bonds issued by the City, the **Contract Catalog**, **eCheckbook**, and **Vendor Connection**. The **Contract Catalog** provides details on active City purchasing contracts, **eCheckbook** discloses the City's expenditure and payment data, and **Vendor Connection** provides vendors an online tool for doing business with the City.

The Comprehensive Annual Financial Report (CAFR) is prepared by the FSD Controller's Office in accordance with generally accepted accounting principles (GAAP) for local governments and provides detailed information on the City's financial position. The CAFR audit satisfies provisions of Article VII, Section 16 of the City Charter, which requires an annual audit of all accounts of the City by an independent Certified Public Accountant.

Recent accomplishments and awards include:

- Distinguished Budget Presentation Award (29th consecutive year), Government Finance Officers Association (GFOA)
- Certificate of Excellence in Performance Measurement (14th consecutive year), International City/County Management Association
- Achievement of Excellence in Procurement Award (2015), National Procurement Institute
- Certificate of Achievement for Excellence in Financial Reporting for 2014 Comprehensive Annual Financial Report (8th consecutive year), Government Finance Officers Association (GFOA)
- Platinum Level (highest attainable level) Leadership Circle Award, Texas Comptroller of Public Accounts
- Certificate of Distinction through GTOT's Investment Policy Certification Program, Government Treasurers' Organization of Texas (GTOT)

The Financial Services Department remains committed to our mission of ***maintaining the financial integrity of the City and providing comprehensive and integrated financial management, administration, and support services to City departments and other customers.***

Elaine Hart, CPA
Chief Financial Officer

Budget Highlights

The Budget for the Financial Services Department (FSD) includes requirements of \$34.1 million and 247.5 FTEs, which will enable the Department to maintain or exceed all current service levels and achieve its goals and objectives.

Budget Office

The Budget Office plays a critical role in the effective financial management of the City through its efforts to provide timely and accurate information to the Austin City Council, City management, and Austin's citizens. The City's FY 2015-16 Annual Budget received the Government Finance Officers Association (GFOA) award for Distinguished Budget Presentation for the 29th straight year, a testament to the Budget Office's ongoing commitment to excellence. The Budget Office's continuing Citywide initiative to present data-driven reporting on departmental performance also earned it the International City/County Management Association's Certificate of Excellence in performance management in July of 2015. For FY 2016-17, the Office's budget is decreasing by \$0.1 million due to the transferring of a position and corresponding funding to the newly created Office of Performance Management within FSD.

Capital Contracting Office

The mission of the Capital Contracting Office (CCO) is to administer the procurement of construction and construction-related professional services and to execute and manage related contracts essential for the delivery of efficient capital improvements, resulting in improved quality of life for all city of Austin residents. During FY 2016-17, CCO is monitoring the implementation of a Citywide living wage, which requires that all employees be paid at a minimum of \$13.50 an hour. Additionally, the Office is focusing on enhancing the Grants Oversight Program to ensure compliance with requirements for the Capital Improvements Program (CIP), and the Office is prioritizing a review of the recently implemented Consultant Rate Review Process to ensure that it is achieving the desired outcomes and consultant expectations are being met. Finally, CCO has two major technology enhancements on the horizon. The first enhancement is the development and implementation of an online system that allows contractors access to download capital project solicitation documents, thereby reducing the need for internal paper reproduction of documents. The second enhancement is the transition of all capital contract documents to the City's Electronic Document Management System, which will transform the records management of procurement and contract files to a more secured and accessible electronic format.

Capital Planning Office

The Capital Planning Office (CPO) was established in 2010 to improve coordination of Citywide long-range strategic capital planning for more efficient project delivery and to ensure strategic alignment of planned capital investments with the Imagine Austin Comprehensive Plan and other City priorities. CPO annually updates the Long-Range CIP Strategic Plan, which covers a minimum 10-year horizon and identifies ongoing future capital needs and strategic opportunities for capital investment. The Office received the Public Technology Institute "2013-14 Technology Solutions Award" for the Strategic Capital Investments geographic mapping analysis and the Texas Chapter of the American Planning Association "Long-Range Planning" award. CPO is also responsible for coordinating the voter-approved bond program development process and overseeing implementation of bond programs to ensure community expectations are being met. CPO is adding one new Planner III position in FY 2016-17.

Controller's Office

The Controller's Office produces the City's Comprehensive Annual Financial Report, manages the City's external financial audit, provides fiscal information to City management, processes payments to vendors on behalf of City departments, and manages the City's payroll system, ensuring that its employees are paid accurately and timely. Committed to excellence, the Controller's Office has received the GFOA Certificate of Achievement in Financial Reporting annually since 1992 with only one exception. In spring of 2016, the City's financial system for procurement, payment, billing, and reporting processes was upgraded, an effort that required a significant investment of staff time to review, test, and train to ensure a successful implementation. In FY 2016-17, the Controller's Office is continuing to work on several initiatives, including an online payment project that allows citizens to make payments for City services over the web, and a business intelligence application that allows City staff to design and run reports for the analysis of financial and project management information. The FY 2016-17 Budget includes contractual increases of \$170,504 in software support for Advantage (accounting) systems, Banner (payroll),

and the City's audit contract, and an increase of \$12,000 to remove the expense refund from the Capital Area Metropolitan Planning Organization (CAMPO) for auditing services.

Office of Performance Management

The City Manager created the Office of Performance Management (OPM) in December 2015, highlighting the City's efforts in transparency, data-driven decision making, continuous improvement, and its award-winning Managing for Results program. This newly formed Office was funded in the FY 2015-16 Budget and staffed with positions borrowed from other City departments, plus two reallocated within FSD. Several service functions, including departmental business planning and training, the annual community survey, measure assessments and reporting, and Citywide benchmarking, have transferred from the Budget Office into OPM. Additional services of the Office include departmental performance reviews, continuous improvement and training, strategic planning, and an expanded role in open data and transparency. In the FY 2016-17 Budget, OPM has a staff of five, including two reallocated within FSD, two transferred from Public Works, and one transferred from Management Services.

Purchasing Office

The primary mission of the Purchasing Office is to procure goods and services for the City of Austin. The Office continues ongoing efforts to improve opportunities for the vendor community, including small and minority businesses. Integrated into Austin Finance Online in FY 2011-12, Vendor Connection provides vendors with unprecedented access to their contractual information with the City, streamlines the City's vendor solicitation process, and mitigates some risk associated with policy and ordinance changes that might lead vendors to be unresponsive to solicitations, which could result in less competition and higher prices for goods and services. The Office is adding two new positions to conduct Citywide living wage compliance reviews of prime and sub-contractors participating in City contracts.

Treasury Office

The Treasury Office operates two primary activities: Cash and Investment Management and Debt Management. A bond rating is a measure of an entity's perceived ability to repay its debt, and in assigning a rating to the City of Austin's debt issues, ratings agencies consider the performance of the local economy, strength of the City's financial and administrative management, and various debt-ratio measurements. In January 2008, Standard & Poor's Rating Group (S&P) raised both its standard long-term and its underlying rating on the City's General Obligation (GO) debt to "AAA," its highest classification. In April 2010, Fitch Ratings and Moody's Investors Service recalibrated their ratings on this debt from "AA+" to "AAA," and from "Aa1" to "Aaa," respectively. All three rating agencies continue to assign the City of Austin's GO debt their highest possible ratings. While an "A" rating assigned to revenue bonds indicates good credit risk, the City of Austin's revenue bonds have continued to maintain ratings higher than "A".

City of Austin's Bond Ratings

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
GO Bonds - Moody's	Aaa	Aaa	Aaa	Aaa	Aaa
Combined Utility Revenue Bonds - Moody's	Aa1	Aa1	Aa1	Aa1	Aa1

The City's overall investment performance remains comparable to the established benchmark One-Year Constant Maturity Treasury. The daily collected bank balance at the City's depository has remained below the target balance because of the continued efforts of Cash and Investment staff and constant fine-tuning of financial models.

Financial Services

Significant Changes

Support Services Fund

Expenditure Changes	FTEs	Dollars
Citywide Cost Drivers		
Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.		\$1,136,554
Reduce internal services transfers to Communications and Technology Management and Accrued Payroll.		(\$581,774)
Reduce expenditures related to community initiatives in response to the City Manager's direction that all General Fund and Support Services departments examine their respective budgets to find savings for other funding priorities.		(\$53,134)
Department Cost Drivers		
Increase budgeted rebate from procurement card program, based on projected usage increase, and remove contract for contract monitoring training to improve contract monitoring Citywide which will be provided by City staff.		(\$121,000)
Increases for accounting and payroll systems software maintenance, external auditing, and Travis County contracts.		\$170,504
The transfer of one position from Management Services and two positions from the Public Works Department to the Office of Performance Management. The cost of these positions, \$408,410, is offset by funding received in the FY 2015-16 Budget to create a City performance review process.	3.00	\$0
New Investments		
Nine months of funding for one Planner III position and additional contractals and commodities to assist the Capital Planning Office with bond oversight and development.	1.00	\$89,052
Nine months of funding for two Contract Compliance Specialist Senior positions to monitor living wage compliance.	2.00	\$139,680

Government Relations Mission and Goals for 2017

Mission

The mission of the Government Relations Office is to communicate and promote the interests of the City of Austin to other local governments, to the State of Texas, and to the Federal Government of the United States.

Goals

Support, promote, initiate and monitor legislation that strengthens and protects the City's interests.

- The City will have an 90% success rate for key bills during Legislative Sessions and any special session.
-

Government Relations

Message from the Director

The Government Relations Office (GRO) advances the City of Austin's legislative goals, interests, and relationships with state and federal governmental entities. This effort is done in coordination with the City Council, other City departments, other local governmental entities, and community partners. The City's most important legislative priorities include protecting the taxpayer from unfunded mandates and preserving the City's local authority so that the residents of Austin determine the goals of their city government. In addition, GRO works to maximize the taxpayers' return on their investment in our community by leveraging additional state and federal resources.

At the federal level, GRO has focused on key priorities, including the Onion Creek Flood Control and Ecosystem Restoration Project. Looking forward, GRO will increase its efforts to obtain flexible financing mechanisms for transportation and to develop innovative approaches to reducing Austin's traffic congestion and making Austin the most livable city in the nation. At the state level, GRO will continue to defend against increasingly harmful legislation aimed at limiting the ability of municipalities to serve their communities.

For the 85th Legislative Session, GRO will also seek the passage of legislation that further enhances the City's ability to be the best-managed city in the country by providing effective and efficient services to its residents. GRO provides the following services to the City in order to achieve these goals:

- Inform and advise City leadership and departments of issues that may impact the City and develop, review and recommend appropriate legislative responses;
- Direct and plan legislative strategies for issues that directly impact the City's ability to provide services to its residents;
- Coordinate communication to effectively inform and articulate the City's legislative goals;
- Assist departments in the implementation of new legislation by regulatory agencies;
- Provide assistance to departments seeking state and federal grants; and
- Strengthen relationships and communications with state and federal officials and entities.

Brie L. Franco
Government Relations Officer

Budget Highlights

The Government Relations Office (GRO) is responsible for monitoring all state and federal legislation to determine what impact bills might have on the City of Austin. Once a bill is identified as pertinent to the City, office staff and consultants advocate the City's position to the legislative body.

During FY 2014-15, the Government Relations Office monitored 2,082 bills in the legislative process. GRO and its partners were successful in preventing the passage of many harmful bills that would have limited the authority of the City in a negative way. The most notable bills to not pass were related to ending home rule annexation authority, lowering the rollback rate and appraisal cap to limit the amount of revenue raised to pay for City services, and preempting local City ordinances for tree protection or single-use plastic bag bans. This chart shows the Office's success at the state level in ensuring that legislative outcomes are positive for the City.

The Government Relations Office FY 2016-17 Budget includes requirements of \$1.4 million and 4.00 positions. Lobbying activities constitute a core activity of the Office, with \$475,000 of the Government Relations budget allocated to contractual agreements related to lobbying activities, a decrease of \$250,000 from the FY 2015-16 Budget. The FY 2016-17 Budget also includes an increase in personnel costs related to wage adjustments and health insurance.

Human Resources Mission and Goals for 2017

Mission

The mission of the Human Resources Department is to attract, engage, develop, support, and retain the best workforce in the country to serve our community.

Goals

Provide training to 100% of identified departments on corporate initiatives annually.

Maintain Employee Benefit Plan competitiveness and affordability.

- Conduct annual health assessment for 45% of workforce.
 - Maintain employee satisfaction with benefits programs at 82%.
-

Conduct market reviews for 30% of positions annually.

Human Resources

Message from the Director

This year the Human Resources Department, primarily focused on the City's workforce, also became an integral business partner on several major initiatives. Human Resources staff facilitated community stakeholder meetings, researched and presented to Committees and Council, and worked to implement the City's first Fair Chance Hiring Ordinance. Staff also focused on the changing demographics of Austin and worked with several Quality of Life Commissions to provide detailed information on demographics and work plans to expand representation of underserved populations. Human Resources staff focuses on ensuring equity and diversity, including the development of the workforce and the City's ability to remain competitive in the job market.

FY 2016-17 demonstrated changing priorities and the need to be flexible as a Support Services department. Our primary focus will always be our ability to attract, engage, develop, support, and retain the best workforce in the country to serve the Austin community. Continuing our endeavors to ensure an inclusive workforce, we have stretched to be able to directly connect with our Austin residents. This focus will continue as we build new opportunities to work in the community with our employment specialists, focus on recruitment in new areas, and develop pathways for young adults to work for the public sector.

The City is committed to making our comprehensive benefits program available to assist employees in being physically and mentally healthy. To meet the challenge of maintaining cost-effective and sustainable benefits, the City has undertaken strategies to manage costs and improve employee engagement. In FY 2015-16, there were increases in medical and pharmacy costs, not only for the City, but also for other local and state public employers. Human Resources staff work diligently to ensure costs for healthcare remain affordable for employees. During the FY 2015-16 budget process, the City expanded the premium surcharge to include spouses that use tobacco, introduced a \$5 per pay period premium for the Preferred Provider Organization (PPO), medical coverage for temporaries employed over one year, and a pharmacy tier 2 & 3 co-insurance cost share. Medical plan enhancements included coverage for Applied Behavior Analysis and Transgender Reassignment Surgery, which will continue in FY 2016-17. Our data also continues to show that an employee engaged in our Healthy Connections Wellness program manages health better, makes better healthcare choices, has shorter hospital stays, and generates lower medical claims costs.

Human Resources staff continually explore ways to provide competitive wages in line with our target labor markets, as well as Pay for Performance (PFP) using various rewards and recognition programs when overall City funding allows. This helps attract and retain employees at all levels. The City's pay program considers: affordability; external competitiveness; internal comparability; consistency balanced with flexibility; recognition; and transparency and engagement. Falling unemployment rates, steady turnover, and an increasing number of employees eligible for retirement make employee succession planning and development a crucial function. Incorporating new and changing technologies are at the heart of the City's Talent Acquisition and Organizational Development divisions. These divisions promote the City as an employer of choice, with a focus on stellar customer service, and assist departments with hiring and retaining top talent.

Finally, a new Human Capital Management (HCM) system remains a need for the City. The current system, which is over 18 years old, is augmented by many databases, applications, and spreadsheets. A cross-departmental team has completed an assessment of the needs and developed a comprehensive list of system requirements. A new system is needed to provide automation of many manual paper-based processes, including timekeeping, and to allow for better monitoring of processes for greater consistency and compliance with policy.

A handwritten signature in black ink, appearing to read "Joya Hayes".

Joya Hayes
Interim Human Resources Director

Budget Highlights

The FY 2016-17 Budget for the Human Resources Department (HRD) includes funding for personnel and equipment necessary to achieve the goals and objectives of the Department and the City.

Human Resources Management Services

The FY 2016-17 Budget for HRD maintains core services and supports key initiatives intended to ensure the City of Austin has the best workforce to serve the Austin community. Although the City of Austin has sustained a relatively low turnover rate of around 8.2%, the low unemployment rate locally and the resulting competitive employment environment have created challenges to maintaining critical staffing levels. An increase in turnover Citywide impacts the City's ability to fill vacancies in a timely manner. As Austin continues to grow, the City must be mindful of the vigorous job market, and continue to be competitive as an employer to attract specialized talent and retain skilled personnel. HRD continues to implement employee engagement strategies to create and communicate a strong employer-of-choice brand with a focus on the City's Total Rewards package. In addition, through workforce planning and development, HRD is working with departments on development strategies to ensure that we have the right talent available to meet the community's rapidly growing needs. In recent years, HRD has established annual Executive and Management Academies for developing a pool of internal potential candidates to compete for future management and executive vacancies. HRD has also strengthened partnerships working with City employee affinity groups and Quality of Life Commissions to guide hiring strategies to ensure diverse populations know about and apply for City jobs. The Approved Budget also includes \$170,000 in one-time funding to increase the number of youth participating in the Emerging Leaders Summer Internship Program.

The HR Quality Assurance team continues to work to ensure the policy and procedure guidance on HR processes is clear and consistently administered across the City. In FY 2016-17, the Quality Assurance Division plans to continue its oversight to departments and support more consistent HR practices and standardized processes. The division will help ensure compliance with Municipal Civil Service rules through administrative oversight and performing quality reviews.

The Corporate Safety Office endeavors to decrease the number of employee injuries through policy direction, consultation and reporting of safety performance metrics. Departments were required to design and implement Accident Prevention Plans unique to their department and roll out the plans to department employees. This heightened sense of safety has increased emphasis on accident prevention and reduced injuries and Workers' Compensation costs. HRD tracks and reports the number of lost time injuries, per the equivalent of 100 employees, occurring during the year. Lost time injuries are all

injuries where any lost time from work has occurred, not including the time off on the day of the injury. The rate has fluctuated minimally over the past several years, remaining under the industry average.

The Equal Employment/Fair Housing Office (EE/FHO) continues to strengthen marketing, communications, and networking efforts to increase public awareness of the EE/FHO as the agency that enforces City ordinances and federal laws prohibiting discrimination because of race, color, religion, national origin, sex, age, disability, sexual orientation, and gender identity. In FY 2015-16, the EE/FHO established new procedures to fulfill the Austin City Council ordinance related to Fair Chance Hiring. This work will continue into FY 2016-17 and this budget includes additional funding for 3 new positions, associated one-time costs, and marketing and outreach to ensure widespread knowledge about the Ordinance.

Employee leave management, which includes Council approved Parental Leave and Leave Bank Programs, as well as the Family Medical Leave Act, is managed by the Employee Benefits Division in Human Resources. The addition of a Business Process Consultant, Sr. will support leave management for the approximately 13,000 employees and serve as the subject matter expert for other Human Resources professionals to contact.

Finally, the addition of a position to assist with criminal background investigations (CBI) will allow the department to keep up with the demands of processing CBIs while maintaining acceptable service levels. Between FY 2012-13 and FY2014-15 there was a 40% increase in CBIs processed for applicants, employees, volunteers, and contractors. Since HRD centralized the CBI process for Vulnerable Populations and Financial Responsibilities in 2007, there has been a 306% increase in the number of CBIs processed. This additional position will assist with processing and record management for the more than 10,000 CBIs processed each year.

Other Requirements

Labor Relations Mission and Goals for 2017

Mission

The mission of the Labor Relations Office is to negotiate and administer labor contracts for the City with its various public employee unions so that the City's departmental missions are achieved.

Goals

Monitor and ensure proper interpretation, application, and implementation of labor contracts by responding to 100% of all contract requests for assistance within 3 business days.

Provide timely coordination of the alternative dispute resolution process by responding to ombudsperson requests within 5 days.

Labor Relations

Message from the Director

In 1995, the Texas Legislature amended Chapter 143 of the Texas Local Government Code to allow the City of Austin to negotiate and enter into written agreements with firefighters and police officers regarding wages, salaries, rates of pay, hours of work, and other terms and conditions of employment. In 2007, the Legislature extended the same right to negotiate with emergency medical services employees. In 2008, the City established the Labor Relations Office (LRO) to provide a consistent team of negotiators and staff to manage its public safety labor contract negotiations and administration.

Since 1995, the City of Austin has collectively entered into 13 contracts and 4 contract amendments with the public safety employee associations (Austin Police Association, Austin Firefighters Association, and Austin-Travis County EMS Employee Association). Most recently, in 2015, the Austin Police Association and the City agreed to negotiate amendments to the current Agreement to establish a framework for public safety needs during the spring festival season for future years. And in 2016, the Austin-Travis County EMS Employee Association and the City agreed to amendments to the current Agreement to adopt new promotion procedures and job related certification opportunities aimed at improving the hiring and retention of qualified medics.

When not in negotiations, the Labor Relations Office:

- Assists in the administration of the public safety labor agreements to ensure contract compliance;
- Assists the public safety departments and the employee associations resolve contract issues/grievances;
- Serves as a liaison between management and the public safety employee associations;
- Advises management of critical issues that may potentially impact current management/labor relations and/or future contract negotiations;
- Regularly meets with the public safety department-heads to discuss any unforeseen or unintended impact on operations caused by the current labor agreements, and potential changes to future agreements;
- Assists City management and City department directors with significant personnel investigations, special projects (e.g. implementation of Municipal Civil Service), revision of personnel policies, and other employee relations issues; and
- Works to maintain a positive relationship with the public safety employee associations and their leadership.

The three current public safety labor contracts will expire September 30, 2017. In FY 2016-17, the Labor Relations Office will engage in negotiations with the Austin Police Association, the Austin Firefighters Association, and the Austin-Travis County EMS Employee Association to extend those contracts. In years past, our enhanced collaboration with the Public Safety Chiefs and Union Leadership has resulted in contracts that were fiscally responsible and mutually agreed to by all three Public Safety Associations. Highlights of past agreements include: increased management flexibility in hiring new public safety employees, resolution of litigation filed by the Austin Firefighters Association related to the Department of Justice hiring consent decree, creation of a first ever pay-step plan for EMS personnel, and more public transparency in the administrative investigations of the Austin Police Department serious injury and officer-involved shooting cases. The continued success of LRO will ensure a cohesive approach to negotiations and fiscal responsibility in the public safety labor contracts.

Deven Desai, Chief Labor Relations Officer

Budget Highlights

The Labor Relations Office (LRO) is responsible for representing the City of Austin's interests in contract negotiations with bargaining units and association representatives from the Austin Police Association, Austin Firefighters Association, and Austin-Travis County EMS Employee Association. In addition, LRO works with Austin Police Department, Austin Fire Department, and Austin-Travis County Emergency Medical Services to ensure contract compliance. The Labor Relations Office has been able to resolve numerous civil service grievances without costly arbitrations.

Included in our Budget is a third-party ombudsperson to assist City of Austin employees and administrators in resolving grievances and workplace environment issues. The Labor Relations Office Budget for FY 2016-17 is \$1,023,084 and 6.0 full-time equivalents. This Budget includes an increase in personnel costs related to wage adjustments and health insurance.

Labor Relations Significant Changes

Support Services Fund

Expenditure Changes	FTEs	Dollars
Citywide Cost Drivers		
Additional funding to cover the cost of a 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.		\$28,650
Department Cost Drivers		
Reduce expenditures in training fees related to professional development by \$1,489 and professional memberships by \$750 in response to the City Manager's direction that all General Fund and Support Services departments examine their respective budgets to find savings for other funding priorities.		(\$2,239)

Law

Mission and Goals for 2017

Mission

The mission of the Law Department is to serve the City by providing exemplary legal services to city leaders and employees so that they can govern lawfully with the highest level of integrity.

Goals

The Law Department will focus on specific client needs and will provide legal advice to the client that is

- timely at an 85 percent client satisfaction rate and
- clear, relevant, and communicated effectively at a 98 percent client satisfaction rate.

Evaluate outside counsel costs for effective and efficient use of funds each fiscal year by implementing a contract monitoring system and by maintaining the average outside counsel services below \$400 per hour.

Provide 80 sessions of legal risk management training to City employees, officials and appointees, which will result in reduced legal liability.

Increase Law Department employee skills and expertise by providing 8 hours of relevant substantive in-house continuing education.

Law

Message from the Director

The Law Department represents the City, its officers and employees, in all legal matters and proceedings. The Department drafts, approves, or files written legal objections to each ordinance before it is acted on by the Austin City Council. Additionally, the Law Department is responsible for preparing or reviewing all other documents, contracts, and legal instruments in which the City may have an interest.

The Law Department structure consists of seven activities. These include:

- (1) General Litigation and Affirmative Litigation Division represents the City in federal and state court in civil litigation matters. General Litigation attorneys defend against actions that seek monetary, equitable, or declaratory relief. The Affirmative Litigation component represents the City as a plaintiff in federal court, state court, and before administrative agencies on a wide range of topics, including code enforcement, nuisance and restitution claims, and environmental threats.
- (2) Criminal Prosecution Division prosecutes all class “C” misdemeanor cases for the City of Austin and the State of Texas in Municipal Court. Typical cases include violations of state statutes and city code regulations pertaining to traffic, parking, or environmental concerns.
- (3) Open Government, Ethics, and Compliance provides guidance and training for City Council, employees, and board/commission members. The guidance relates to open meetings, public information, records management, ordinances regulating lobbying and campaign disclosures, ethics policies, required financial filings, and election matters.
- (4) General Counsel provides legal research and advice, consultation, training, and document preparation and review services to City departments, offices, and functions covering a range of legal subject matter areas, including employment and labor relations, public safety, and telecommunications.
- (5) Land Use and Real Estate provides legal services related the City’s land use and real estate function. The activity focuses on legal matters related to land sales and acquisitions, planning and zoning, development issues, code compliance, and enforcement of and compliance with local environmental laws.
- (6) Municipal Operations focuses on general municipal law questions, including governance and the powers of a home-rule city. The lawyers focus on contracting, taxes, open government, purchasing, and other general legal functions, obligations, and restrictions unique to municipal government.
- (7) Public Information provides citizen access to public information and ensures City compliance with all aspects of the Texas Public Information Act.

In FY 2015-16, the Law Department focused on improving our Citywide system for handling Public Information Act requests, and in FY 2016-17, the Department plans on issuing a request for proposals for a new software system prior to year-end. Additionally throughout FY 2015-16, the Law Department led a highly competitive process that resulted in the City’s designation as a Pioneer City by the Open Government Partnership (OGP), a 70-country international initiative for transparency and inclusive governance. Austin was the sole U.S. city selected, and one of only 14 chosen worldwide, as a result of work undertaken by the Law Department to implement legislation for an online message board and conduct open government symposia and civic hackathons. In FY 2016-17, the Law Department plans to partner with the Office of the City Clerk and the Innovation Office for the purposes of implementing OGP pilot programs to address overarching municipal challenges such as affordability or transportation issues.

Above all, the Law Department remains committed to our mission of providing exemplary legal services to City leaders and employees so that they can govern lawfully with the highest level of integrity.

Anne Morgan
City Attorney

Budget Highlights

The Budget of the Law Department includes \$12.8 million and 97.0 FTEs, which will enable the Department to maintain all current levels and achieve its goals and objectives. The Budget includes an increase of \$0.2 million for costs associated with Citywide transfers, wage adjustment, insurance, Citywide market study, and the transferring in of three departmental positions to assist with complaint processing from the Municipal Court Department.

Client Satisfaction

One of the Department's key indicators, client satisfaction, is tracked by an annual survey of the Law Department's clients at the end of each fiscal year. Since FY 2010-11, the survey has been administered in partnership with the Office of the City Auditor. In FY 2016-17, the Law Department expects clients to report that advice provided by City attorneys is clear and relevant at a 98 percent satisfaction rate and timely at an 85 percent satisfaction rate. The lower rate in timeliness since FY 2014-15 is due to an increase in workload and shifting issues.

Furthermore, one of the Department's key strategies to improve client satisfaction is to develop more in-house experts on emerging legal issues so that the City continues to benefit from the combination of high-quality products and affordable rates that only in-house legal counsel can provide. As the key indicator graph below illustrates, in-house attorneys are more cost-effective than outside legal counsel.

Law

Significant Changes

Support Services Fund

Expenditure Changes	FTEs	Dollars
Citywide Cost Drivers		
Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across-the-board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.		\$292,627
Reduce internal services transfers to Communications and Technology Management, Accrued Payroll, and Wireless Communications.		(\$330,787)
Reduce expenditures in books and subscriptions in response to the City Manager's direction that all General Fund and Support Services departments examine their respective budgets to find savings for other funding priorities.		(\$19,902)
Department Cost Drivers		
The transfer of three positions from the Municipal Court Department to the Law Department to assist with complaint processing.	3.00	\$194,292

Mission and Goals for 2017

Mission

The mission of the Management Services Department is to ensure that all City Council priorities, policies, and programs are successfully implemented and effectively managed.

Goals

Implement and execute the policies set by the City Council and perform the duties and responsibilities specified in the City Charter to ensure economic, environmental, and cultural prosperity throughout the community by developing a financial plan and the annual budget by the dates established.

Provide thorough and timely assistance to the Mayor and Council by ensuring that 100% of the time Council Member questions are answered and distributed by noon the day prior to the posted Council meeting and to City staff by ensuring that 100% percent of changes and corrections documents are distributed to staff on time.

Respond to 100% of citizen contacts to the Office of the Police Monitor within 5 business days and conduct 200 outreach meetings/educational forums annually.

Annually update 20% of Homeland Security and Emergency Management plans and procedures that are required to be updated 100% every 5 years.

Management Services

About the Department

As the team charged with carrying out Council’s policy direction, the Management Services department has the responsibility for setting the standard on what it means to be best managed. The roles included in Management Services are reflective of that responsibility: the City Manager’s Office, Office of the Police Monitor (OPM), Office of Homeland Security and Emergency Management (HSEM), Sustainability Office, Innovation Office, and the Agenda Office. In addition, beginning in this budget year, the newly created Equity Office will be formally established.

Being best managed is not only defined by what we do – it’s also defined by how we do it. This year, we continue to place a strong and unwavering emphasis on building an ethical work culture in Austin. We have said on many occasions that we – as public servants – have a binding contract with our community to maintain the public trust. Without that, we can’t be effective.

The **Agenda Office** supports the work of the City Council and is tasked with effectively managing the City’s legislative process. Since going to the 10-1 Council structure, the Agenda Office has continued to maintain a 100% on several key performance measures. When the new council took office on January 6, 2015, one of their first acts as a full body was to institute a new Council Committee process. This process was designed to increase public engagement, assure a more deliberative and thoughtful process, and increase the efficiency of City Council meetings. The Agenda Office has created a workflow process to support the committee structure, which has been successful in capturing the spirit of the Council Committee ordinance. As the Agenda Office adapts to present and future needs, it serves as a bridge for the community and provides support to carry the city forward toward a shared vision of making Austin the most livable City in the country.

The **City Manager’s Office** strives to make Austin the benchmark City for best practices, innovation and inspiration. Some key initiatives the City Manager’s Office supports include Imagine Austin, Quality of Life, Sustainability and community outreach. Imagine Austin lays out a vision for how the City can grow in a compact and connected way, not only by addressing issues of land use but by investing in our creative economy and advancing healthy, affordable living. Quality of life initiatives involve evaluation and community engagement, with the goal of improving conditions for Austin’s African-American and Hispanic populations. An Asian-American Quality of Life study was completed and presented to the City Council’s Health and Human Services Committee in FY 2015-16. Following the election of the new 10-1 Council in 2014, the number of newly generated customer assistance forms (CAFs) nearly doubled, and as a result, FY 2015-16 was projected to produce 1,200 CAFs. However, as Council and their staff became more acclimated with City processes during this fiscal year, they were more discerning in the number of constituent concerns entered in the system, resulting in the estimated amount being modified to 900 CAFs. In FY 2016-17, the City Manager’s Office transferred a position to the newly-created Office of Performance Management. The associated funding remained with the City Manager’s Office for management and community initiatives. Marc Ott resigned as City Manager in August 2016, and the City Council appointed Elaine Hart as Interim City Manager in September 2016. Vacancy savings associated with the City Manager position has been included in the FY 2016-17 budget.

The City of Austin **Office of Homeland Security and Emergency Management (HSEM)** plans and prepares for emergencies, educates the public about preparedness, develops volunteers, manages grant funding to improve homeland security and public safety capabilities, coordinates emergency response and recovery, supports planned events, and works with public and partner organizations to protect our whole community. HSEM co-manages the Austin/Travis County Emergency Operations Center (A/TCEOC). In addition, HSEM adopts a 24/7 readiness posture in response to all hazards, special events, dignitary visits and severe weather events. HSEM coordinated the full scope of emergency management response and recovery for two major federally declared disasters affecting Austin in 2015: the Memorial Day Flood and the Halloween Flood, which resulted in damage to more than 100 municipal sites. HSEM continues to manage about 40 ongoing projects for infrastructure, emergency protective measures and debris removal submitted for federal reimbursement following the 2013 Halloween Floods. HSEM successfully coordinated emergency management for a record-breaking SXSW festival in 2016. In 2017, among its key major initiatives, HSEM will continue to maintain Austin’s standing as one of only three Texas cities (and of just fifteen cities total nationwide) accredited by the Emergency Management Accreditation Program, which includes an evaluation of 64 nationally recognized standards. HSEM will also continue participating in climate and infrastructure resilience efforts to protect the long-term health and viability of the community.

The **Office of Sustainability** provides leadership, influences positive action through engagement, and creates measurable benefits for Austin in the effort to achieve a thriving, equitable, and ecologically resilient community. The Office works to achieve community-wide net-zero greenhouse gas emissions by 2050, a resilient and adaptive city, a healthy and just local food system, resource-efficient strategies for municipal operations, and tangible projects that demonstrate sustainability. The Office is currently working on implementation of strategies to achieve a 2020 interim target for greenhouse gas emissions reduction community-wide, recommendations to improve access to nutritious food in high priority neighborhoods, and sharing data about key performance indicators for sustainability through an online dashboard. Program highlights include awarding more than 100 grants to support sustainability projects at local K-12 schools, recognizing 186 businesses through the Austin Green Business Leaders program, and implementing catalytic projects as part of the Seaholm EcoDistrict to encourage future sustainable development and district-scale sustainability. For FY 2016-17, the Office has a City operations carbon footprint goal of 53,519 metric tons with a long-term goal to be carbon neutral by FY 2019-20. Currently, the Office of Sustainability works with departments to reduce our collective carbon footprint; when the carbon footprint target is not met through direct reductions, the Office will purchase third party verified carbon offsets retroactively to reach the 5% annual reduction target (from FY14 into the future). The FY 2016-17 budget includes \$30,000 in funding for carbon offsets.

The **Innovation Office** enables the creation of unique and creative solutions to civic challenges that contribute to Austin being the best-managed and most livable city. To do this, the Innovation Office team works as an internal consultancy, helping diverse and inclusive teams examine challenges and opportunities to surface better ideas and solutions that make a lasting,

positive impact. This work focuses on three general areas of innovation: internal management, open government, and public service delivery. In addition, the Innovation Office forges relationships between the City, universities, community, businesses, and the technology community to co-create unique and creative solutions to local challenges. In January 2016, the City Manager requested the development of a program to identify and initiate project ideas from city employees to help the City innovate and better serve Austin residents. The “City Manager’s Idea Accelerator” solicited project ideas that have the potential to enhance productivity, boost outcomes for Austin citizens, improve delivery of public services, and enhance transparency and openness. The Idea Accelerator also serves to engage City employees and provide opportunities for recognition and professional development. The FY 2016-17 Budget includes \$100,000 for the implementation of the Idea Accelerator which includes funding for temporary staff, technology fellows and innovation micro-grants. In response to a request from the City Manager that all departments consider opportunities for savings, the Innovation Office has identified one unfilled position that will be eliminated.

The **Office of the Police Monitor** (OPM) was created and developed to promote mutual respect between the Austin Police Department (APD) and the community it serves. The OPM works with the Austin Police Department Training Academy to educate officers and supervisors on the complaint process and OPM’s role with APD and the community. The OPM continues community outreach work by pursuing the multilingual communities of Austin in an effort to educate and reach more residents. The OPM currently has marketing material and informational brochures in Spanish, Vietnamese, Thai and Mandarin. As a result, the OPM has seen an increase in the number of non-English speakers filing complaints and contacting the OPM office for assistance with APD. Moving forward, the OPM will expand efforts to provide marketing material in more languages. The OPM is increasing its outreach efforts through the placement of posters and informational brochures in different languages in libraries and other community locations. The OPM is also working with APD to gain access to additional data which will allow the OPM to enhance its efforts to analyze patterns and trends of APD’s contact with the community. The OPM is confident that engaging in honest dialogue over issues and incidents that impact the community and law enforcement will continue to enhance public confidence, trust, and support in the fairness and integrity of the Austin Police Department.

The **Equity Office** will formally be established this fiscal year. Grant funding of \$75,000 was identified in the FY 2015-16 budget to establish an equity assessment tool. The Chief Equity Officer recruitment and selection process is currently underway, with onboarding of the Chief Equity Officer slated to occur in the fall of 2016. The hiring process included community engagement meetings to develop the job profile, and town hall meetings for the public to provide feedback on the top candidates. In addition, a consultant was hired to perform an equity assessment of the City, including an inventory of the City’s current equity practices. This inventory will help to identify any gaps and will ultimately provide a citywide internal equity tool – a set of questions posed when policies, programs or budget decisions are initiated or modified. Within the City, an Equity Core Team comprised of Department Directors and Executive Management was established to serve as the primary departmental contact with the Equity Office. In some cases, they’re the early adopters or change agents that will carry the equity work into their departments, under the supervision of their Department Director. The FY 2016-17 budget includes funding for three positions, including the Chief Equity Officer.

Management Services

Significant Changes

Support Services Fund

Expenditure Changes	FTEs	Dollars
<p>Citywide Cost Drivers Additional funding to cover the cost of 2% Pay for Performance and \$0.29 across the board wage increases in FY 2016-17, increase the living wage to \$13.50 per hour, annualize the cost of a Citywide market study approved in FY 2015-16, and increase City contributions for health insurance by 8%.</p>		\$215,834
<p>Department Cost Drivers Reduce expenditures and eliminate one position in the Innovation Office in response to the City Manager's direction that all General Fund and Support Services departments examine their respective budgets to find savings for other funding priorities.</p>	(1.00)	(\$75,390)
<p>As part of creating the Office of Performance Management, one position is being transferred from Management Services to the Financial Services Department. Funding for the position in Management Services will be redirected to management and community initiatives.</p>	(1.00)	
<p>Increase to annualize Equity Office costs.</p>		\$231,467
<p>A Strategic Plan will be conducted during the first quarter of FY 2017 by the Office of Homeland Security and Emergency Management. The Strategic Plan is a requirement of the Emergency Management Accreditation Program (EMAP). It was last completed in 2011.</p>		\$50,000
<p>Vacancy savings resulting from the resignation of the City Manager.</p>		(\$175,000)
<p>Decrease in transfers for Accrued Payroll and Communications and Technology Management (CTM) support.</p>		(\$148,828)

Beginning in FY 2014-15, certain administrative and personnel cost centers have been allocated to individual departments. In prior years, these expenditures were budgeted for in aggregate at the Support Services Fund level.

Mayor and Council

About the Department

The City of Austin has a Council-Manager form of government established through the City Charter. The Mayor and Council department was created in Article II of the Austin City Charter. On November 6, 2012, citizens voted to change when and how the City Council is elected. The approved propositions moved the Council elections from May to November in even numbered years and increased the number of Council members from 6, elected at-large, to 10, elected within districts. The Mayor continues to be elected at-large. Finally, the Council terms were lengthened from 3 years to 4. The full year impact of these changes is reflected in the FY 2015-16 Budget.

Article I, Section 2 of the City Charter states the Council can enact legislation, adopt budgets, determine policies, and appoint the City Manager, who shall execute the laws and administer the government of the City. The Council meets in regular session on most Thursdays in Council Chambers at City Hall. Special meetings of the Council can be called by the City Clerk upon written request of the Mayor or two members of the Council. All meetings are open to the public except as authorized by the laws of the State of Texas.

The City of Austin's vision of being the most livable city in the country means that Austin is a place where all residents participate in its opportunities, its vibrancy and its richness of culture and diversity. Austin residents share a sense of community pride and a determination that the City's vision is not just a slogan, but a reality for everyone who lives here. Local government plays a critical role in determining a city's quality of life. When Austin is viewed by others, it receives high marks. Austin's rankings reflect a City Council that keeps its vision in the forefront while planning for the future.

City Council policy priorities support its vision to be the most livable city and provide an organizing framework for planning and service delivery. In recent years, with input from residents, the City Council has adopted several plans that guide the City through the challenges of modern times. Examples of these plans include the Imagine Austin Comprehensive Plan (2012), the Austin Resource Recovery Master Plan (2011), and the Climate Protection Plan (2007).

To further delve into comprehensive topics and to better guide policy decisions, in 2015, the City Council passed Ordinance 20150129-026, which amended Chapter 2-5 of the City Code to implement a new Council Committee structure. Four City Council members sit on each Council Committee and membership on each committee is designated by the Mayor through a one-year appointment, including the designation of a chair and vice chair for each committee. In the creation of each Council Committee, it was the intent of the Council to have broad subject areas to have the ability to illuminate every policy matter before the City. The committee's vote is only advisory to the full council. The ordinance specifies 10 standing committees:

- Audit and Finance Committee
- Mobility Committee
- Public Utilities Committee
- Austin Energy Utility Oversight Committee
- Health & Human Services Committee
- Public Safety Committee
- Planning and Neighborhoods Committee
- Open Space, Environment, and Sustainability Committee
- Housing and Community Development Committee
- Economic Opportunity Committee

Council also created a City Council Transition Working Group and the Regional Affordability Committee. The impact of the new Council Committee structure is reflected in the FY 2016-17 Budget.

Mission and Goals for 2017

Mission

The mission of the Office of the City Auditor (OCA) is to provide audit and investigative services that foster transparency, accountability, and continuous improvement in Austin city government.

Goals

Achieve a high level of satisfaction from our primary customer, the City Council, for issued audit products and integrity services as measured by responses to a customer satisfaction survey.

- City Council satisfaction rating for Audit Services maintained at 4.0 or better out of 5.0.
- City Council satisfaction rating for Integrity Services maintained at 4.0 or better out of 5.0.

Improve accountability, transparency, and encourage a culture of continuous improvement in City operations and service delivery.

- Percent of recommendations verified as implemented by management.
- Percent of prior year investigations completed where needed corrective action occurs at 80% or better.

Maintain the competency of OCA staff.

- Percent of professional staff that have satisfied Government Auditing Standards continuing professional education requirements maintained at 100%.
- Percent of professional staff involved in professional organizations maintained at 40% or better.

Promote continuous improvement of OCA systems and processes.

- Percent of accepted Quality Assurance Review recommendations implemented at 100%.
-

Office of the City Auditor

Message from the Director

The Office of the City Auditor (OCA) seeks to assist the City Council in establishing transparency, accountability, and continuous improvement in Austin City government. To do so, we conduct performance audits, special request projects for the City Council, fraud investigations, and other integrity-related projects.

In FY 2015-16, OCA worked to respond to stakeholder needs by:

- Shifting the organization's strategic focus to more complex performance audits, yielding greater impact on improving City operations and focusing on program outcomes;
- Issuing several key audits including our audits of the City's affordable housing development practices, code enforcement investigations, transportation effectiveness, and language access practices;
- Conducting investigations of fraud, waste, and abuse in response to allegations received through our fraud hotline and other reporting methods;
- Updating our investigative report practices to incorporate feedback received from employees and management; and
- Reviewing and recommending changes to City Code related to OCA's role, as part of our continuing discussions regarding the City's Code of Ethics.

In FY 2016-17, we will continue to identify and complete audits of high-risk areas for the City, respond to requests for information from the City Council, and conduct investigations. We will also pursue opportunities for continuous improvement such as:

- Identifying and implementing changes to improve our audit, special request, and investigative reports;
- Developing and implementing strategies to increase engagement with Austin residents;
- Improving the balance of effectiveness and efficiency during audits and investigations; and
- Continuing to refine our risk-based approach for identifying the most valuable audit topics for City Council and Austin residents.

Corrie E. Stokes, City Auditor

Budget Highlights

Audit

OCA's ultimate customers are the citizens of Austin, while our primary customers are the Mayor and City Council, who are the elected representatives of the citizens. OCA administers an annual survey to Council Members to determine their satisfaction with OCA services. This measure conveys the level of satisfaction for OCA's primary customer with the primary output of the audit activity. It is OCA's goal to achieve a Council Satisfaction rating of four with its audit products.

City management and departments are also customers for OCA services. We strive to help departments improve service delivery by designing practical audit recommendations. Management has an opportunity to agree or disagree with recommendations made in OCA audit reports.

Integrity Services

The City Auditor's Integrity Unit (CAIU) is a guiding force for citywide performance accountability and integrity. The majority of CAIU's work involves investigations of fraud, waste, and abuse, which includes obtaining testimony and providing litigation support. CAIU conducts multiple integrity-related projects each year to help improve accountability and transparency in the City, and it provides information to City employees and the public on recognizing and reporting fraud, waste, and abuse.

OCA administers an annual survey to Council Members to determine their satisfaction with OCA's integrity services. The graph below conveys the level of satisfaction for OCA's primary customer with the primary output of the integrity services activity. It is OCA's goal to achieve a Council satisfaction rating of four with its integrity services.

Office of the City Clerk

Mission and Goals for 2017

Mission

The mission of the Office of the City Clerk is to promote an environment throughout Austin city government that encourages efficiency, compliance, and transparency by implementing progressive policies and procedures that foster effective sharing of information with the City Council, City staff, candidates, voters, media and citizens.

Goals

Complete the seven deliverables identified in the Records and Information Management Program by the end of fiscal year 2017.

Add six new departmental projects to the City's Enterprise Document Imaging and Management System (EDIMS) by the end of fiscal year 2017.

Collaborate with Hays, Travis, and Williamson Counties to conduct accessible elections that comply with election laws 100% of the time.

Ensure City Code is updated within 30 days of submission to the publisher.

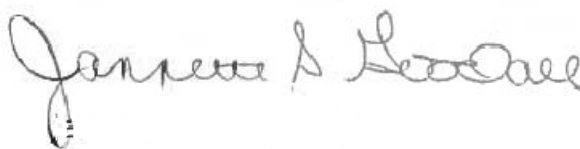

Office of the City Clerk

Message from the Director

The Office of the City Clerk (OCC) is responsible for managing the City of Austin elections, providing records management consulting and training services to all departments, managing the City's Enterprise Document and Imaging Management System (EDIMS), contracting for off-site storage services for inactive City records, serving as a liaison to the boards and commissions, managing Council-approved records, updating the Municipal Code and technical manuals, administrating lobbyist registrations, processing liquor licenses, supporting Council meetings, and maintaining the Council Meeting Information Center, minutes of Council meetings and proclamations.

The department is also working on:

- Preparing for the November 2016 municipal election.
- Completing Phases II and III of the Campaign Finance Data Initiative; the "Covered Transfer" Campaign Fund reporting requirements and revisions to the Lobbyist registration requirements.
- Working with the Agenda Office to implement a new agenda management system.
- Partnering with Communications and Technology Management on developing a solution to support on-line filing for financial reporting forms required to be completed by City Council and candidates for the City Council, and providing this data to the public in a downloadable format.
- Implementing the Enterprise Document Imaging and Management System (EDIMS) in the Aviation Department, Public Works Department, Human Resources Department, Capital Contracting Office and Library.
- Continuing to work with City departments on implementing the responses to the 2013 Council Resolution 20130523-073 to ensure departments are in compliance with the City's Records Management Ordinance and the Texas Local Government Records Act.

Jannette S. Goodall
City Clerk

Budget Highlights

The budget for the Office of the City Clerk (OCC) includes \$4.9 million and 27 positions which will enable the Department to maintain all current service levels and achieve the goals and objectives of the Department.

Austin Records Management

This budget includes resources to continue the storage of City records at the offsite records center under the current contract with Iron Mountain.

The demand for records and information management consulting services and training for City departments continues to increase. Our consulting services include the design and implementation of records management policies and procedures, development of records control schedules, preservation of vital and historical records and implementation of the Enterprise Document Imaging and Management System (EDIMS). The 10-Step Program and the Records Management Certificate program build the skills of personnel in the departments who are charged with the responsibility of managing the City's institutional memory. The City implemented the 10-Step Program to guide departments through a series of manageable steps in order to comply with state and local laws. The Program includes checklists, deliverables, and specific tasks to be completed for each step, and requires departments to annually evaluate and report their progress. The 10-Step Program has received national recognition as a best practice approach for municipal governments on managing public records. The chart shows the percent of deliverables completed by City departments, including records control schedules, vital records lists, and disaster recovery plans.

Elections

The FY 2016-17 Budget includes \$1.5 million for election-related expenses, a \$750,000 increase from FY 2015-16. Due to the timing of municipal elections, which now occur in the month of November instead of the month of May, costs for elections are incurred over two fiscal years. This budget includes funds for the November 2016 General Election, the December 2016 Run-Off Election, and the January 2017 Inauguration. Election expenses primarily consist of translation services and deposits required for the County Election Divisions.

Support Services

The City Clerk's Office continues to expand the Council Meeting Information Center and the Boards and Commissions Information Center to increase transparency in City government. Combined, these sites are expected to have over 6 million hits in FY 2015-16, an increase of over 50% from FY 2014-15. In addition, the Clerk's Office continues to manage the administration of the Council On-line Message Board, the Boards and Commission appointment and training requirements; Council Meeting support; Campaign Finance including implementing the electronic campaign finance data initiative authorized by Council; and handling speaker registration for Council Meetings. The FY 2016-17 Budget includes \$10,000 for publishing a City-wide administrative manual consisting of rule postings through MuniCode.

The FY 2016-17 Budget also includes additional resources to implement new campaign finance disclosure and lobbyist registration requirements. These resources include three positions to help build, implement, and manage these initiatives: an Assistant City Clerk, IT Applications Developer Senior, and Public Information Specialist.

Office of the Medical Director Organization by Program and Activity for 2017

Office of the Medical Director

Office of the Medical Director

Transfers and Other Requirements

Other Requirements

Office of the Medical Director

Mission and Goals for 2017

Mission

The mission of the Office of the Medical Director is to provide comprehensive medical oversight to the Austin-Travis County EMS system providers in order to assure safe and effective delivery of care to the public.

Goals

Provide 12 hours of continuing medical education to Emergency Medical Services providers.

Review 70% of high-risk/low frequency clinical events annually to monitor performance of Emergency Medical Service providers.

Update the Clinical Operating Guidelines 2 times per year in accordance with clinical research and best practices.

Office of the Medical Director

Message from the Director

The Office of the Medical Director (OMD) is responsible for comprehensive medical oversight of all out-of-hospital emergency care provided in the Austin-Travis County Emergency Medical Services system (ATCEMS). The ATCEMS system is comprised of 37 organizations with over 2,000 providers and interfaces with 18 medical receiving facilities within the ATCEMS service area. Through an interlocal agreement, OMD also provides medical direction to the Texas Department of Public Safety and its operations across Texas.

OMD is responsible for the development of the Take10 chest compression-only, cardiopulmonary resuscitation (CPR) for non-medical persons. This novel ten-minute CPR program was created in Austin to allow laypersons to train their friends and neighbors in the life saving skill of CPR. The program won an International City/County Management Association (ICMA) Innovation award in 2014. Through the help of community partners, OMD hopes to improve the survival outcomes in cardiac arrest by training citizens in compression-only CPR.

OMD supports Austin's vision of being the most livable city by focusing our efforts toward making ATCEMS nationally known as the Emergency Medical System that other communities wish to emulate. We strive to utilize the latest clinical evidence to provide innovative, patient centric out-of-hospital care to our community in a safety-oriented environment for both patients and providers. In the process, we hope to provide meaningful contributions toward advancing the science of out-of-hospital medicine.

Dr. Mark Ackrell, Interim Medical Director

Budget Highlights

OMD is responsible for provider credentialing, performance improvement, clinical education (both continuing medical education and initial education offerings), clinical policy and procedure development, and infection prevention. The Department also serves as the primary liaison between the medical community and ATCEMS. OMD's Budget for FY 2016-17 is \$1.7 million and 9.0 full-time equivalents, which will enable the Department to maintain all current levels of service and achieve its goals and objectives.

Continuing medical education is a key component of any emergency medical services system. Therefore, our physician medical directors teach a minimum of six in-person training hours each year to ATCEMS system providers. The remainder of the hours created by OMD is disseminated through web-based presentations and non-physician OMD staff presentations. Our training topics are selected from a review of the medical literature, advances in medicine that improve the outcomes of our patients, and changes in out-of-hospital care, or through our performance improvement process. The graph below illustrates our key performance indicator, the number of continuing education hours that OMD provides each year to our ATCEMS system providers.

Office of Real Estate Services

Mission and Goals for 2017

Mission

The mission of the Office of Real Estate Services is to practice exceptional stewardship on behalf of the citizens of the city of Austin. We achieve this by exercising diligence and expertise, and ensuring that all capital matters with real estate interests are conducted with the utmost efficiency, effectiveness, and professionalism.

Goals

Provide quality real estate services in support of CIP project delivery and other City initiatives in accordance with statutory requirements.

- 100% of properties will be acquired on time.

Provide timely leasing, property, and land management services to City departments to meet operational needs.

- 98% of real estate transactions will be processed on time.
-

Office of Real Estate Services

Message from the Director

The Office of Real Estate Services (ORES) recognizes that its mission is to practice exceptional stewardship on behalf of the citizens of the City of Austin. In FY 2016-17, ORES will continue to provide critical real estate services for City of Austin departments in order to meet their capital project needs, including acquisitions, leases, and condemnations; and will continue to facilitate the release of easements and the vacation of public right-of-ways to private property owners.

With the City's economic and population growth in recent years, the department continues to see increased requests from the City Manager's Office and City Council for services that require research, cost estimates, management services, and maintaining and servicing unfunded projects and/or initiatives. Site selections, site evaluation and assessments, feasibility studies, preliminary appraisals, and historical research and analysis are just a few examples of the requests submitted to ORES. During FY 2016-17, the department will undertake several large projects to include Reclaimed Water and the Bergstrom Expressway. Additionally, as current space needs continue to grow, the number of leases may increase as City Management makes key facility decisions which could include purchasing new space and exiting existing leases.

Due to the recent flood events of 2013, realignment of staff has been necessary to accelerate and expand ORES' buyout acquisition and relocation services within the city of Austin jurisdiction. Buyouts and relocations will continue during FY 2016-17 in the Onion Creek and Williamson Creek flood plains.

ORES is dedicated to providing best managed City services to City of Austin departments and capital projects, in alignment with the Imagine Austin Comprehensive Plan and the ORES Good Partner Initiative, community needs, and beyond.

Director, Office of Real Estate Services

Budget Highlights

The Office of Real Estate Services' (ORES) mission is to practice exceptional stewardship on behalf of the citizens of the city of Austin. We achieve this by exercising diligence and expertise, and by ensuring that all capital matters with real estate interests are conducted with the utmost efficiency, effectiveness, and professionalism. ORES' FY 2016-17 Budget totals \$4.6 million and 35 positions. ORES consists of three divisions: Departmental Support Services, which includes the Office of the Director; Leasing, Property and Land Management; and Real Property Acquisition.

ORES acquires and leases real property for public purposes and for use by City government. We also handle the lease of City property to third parties and occasionally make properties available for sale through a public bid process. There has been an increased demand for professional real estate services associated with requests for surveys, rent studies, reports and consultations related to City building and land needs. The department also administers the release of public easements on private property and applications from third parties to use portions of public right-of-way for a private purpose. ORES also processes applications for street and alley vacations within the City's jurisdiction. The graph below depicts the number of transactions processed, which includes the total easement releases and street, alley, and right of way vacations, by the Property and Land Management division. The Budget includes a slight increase for this performance measure from 140 in FY 2015-16 to 150 in FY 2016-17.

Included in ORES' budget are base cost increases that impact the City at large and that align with the goals of maintaining a competitive organization and providing a robust pay and benefits program to retain and attract the best workforce.

Finally, the Support Services program is the administrative arm of ORES and includes the office of the director and the human resources administration, budget and finance, quality assurance and quality control, council agenda coordination, records management, and IT support.

Per Council mandate, as a result of the April 2013 Real Estate Management Audit report, ORES was asked to develop a system to track all City-owned and leased real estate. ORES submitted a request for a Real Estate Inventory System (REIS) as an IT business need for FY 2015-16. This request was evaluated and recommended by each successive level of our IT Governance process and ultimately approved in the City's FY 2015-16 budget. The REIS will provide integrated real estate inventory sources citywide, integrated GIS links and layers, coordinated acquisition of properties as scheduled to include improved communications with relevant stakeholders, improved communications and community involvement, and improvements to transmit acquisitions and/or donations to the Financial Services Department. The Communications and Technology Management (CTM) department completed a detailed technical review of an existing asset management tool suitable to meet the requirements listed in the ORES business need statement and in the findings and recommendations of the City Auditor's report. ORES and CTM staff are working toward implementation of the necessary modules to meet specific department needs.

Small and Minority Business Resources

Mission and Goals for 2017

Mission

The mission of the Small and Minority Business Resources (SMBR) Department is to administer the Minority-Owned Business Enterprise/Women-Owned Business Enterprise (MBE/WBE) Procurement Program and provide development opportunities and resources for small, minority-owned and women-owned businesses so that they can have affirmative access to City procurement opportunities.

Goals

Increase number of new certified MBE/WBE businesses available to do business with the City of Austin by 100.

Administer the MBE/WBE Procurement Program and Disadvantaged Business Enterprise (DBE) Program to ensure that 100% of City-certified MBE/WBE and DBE firms meet eligibility requirements.

Administer the MBE/WBE Procurement Program and DBE Program to ensure that 100% of compliance determinations are accurate.

Provide accurate information and instructions for complying with the MBE/WBE Procurement Program and DBE Program to bidders, proposers, and internal and external customers on 100% of City solicitations.

Provide 10 outreach workshops to the small, minority-owned, and women-owned business community to:

- Increase awareness of SMBR services;
 - Educate firms on the roles and responsibilities of City staff as defined by the MBE/WBE Program ordinance and MBE/WBE program rules;
 - Provide information about other City of Austin services that are beneficial to small, minority-owned and women-owned businesses;
 - Discuss upcoming contracting opportunities; and
 - Recruit new firms for certification.
-

Small and Minority Business Resources

Message from the Director

The Small and Minority Business Resources Department (SMBR) administers the MBE/WBE Procurement Program to ensure that small, minority-owned and women-owned business enterprises have affirmative access to City procurement opportunities.

SMBR certifies minority-owned and women-owned business enterprises, and the Compliance team sets goals with respect to City of Austin procurements so that these businesses can have access to opportunities. The Compliance team reviews solicitations to determine if the solicitation process is compliant with the MBE/WBE Program and when a contract is awarded, the contract participants are monitored for continued compliance. In addition to City of Austin procurements, SMBR monitors third-party projects for compliance with the Program when the third party receives incentives from the City of Austin.

The Department is also responsible for administering the federal Disadvantaged Business Enterprise (DBE) program and the Airport Concessionaire Disadvantaged Business Enterprise (ACDBE) program and regularly submits DBE and ACDBE plans to the U.S. Department of Transportation in accordance with federal guidelines. Administration of the program includes certifying DBEs and ACDBEs, along with monitoring participation on these projects.

Many resources and outreach services are also provided to certified and non-certified businesses. SMBR has a plan room with construction plans from government entities in the local region available for review to all businesses. A bonding consultant works with certified firms to identify bonding opportunities, and SMBR provides monthly outreach sessions for businesses to learn more about this program. As a result of the work of SMBR's bonding consultant, 24 MBEs and WBEs have received bonds to date in FY 2015-16. This is the highest number of bonds received since SMBR started providing this service.

The Compliance Division's diligent work has resulted in 93% of prime contractors receiving City Council awards in FY 2015-16 achieving compliance with the MBE/WBE Program by meeting MBE/WBE goals rather than through good faith efforts. This is a significant result and is indicative of the effectiveness of the information and guidance provided by the entire department. More outreach events are being conducted to educate and inform MBEs and WBEs of upcoming opportunities. Additionally, in FY 2015-16 98% of MBEs and WBEs who attended monthly outreach events reported they were "satisfied" with the level of service from SMBR. This high percentage reflects the high number and quality of services SMBR provides to MBEs and WBEs.

In FY 2016-17 SMBR will complete its work with a consultant using a disparity study which will be the foundation of the MBE/WBE Procurement Program. The disparity study examined business utilization in the Austin-Round Rock Metropolitan Statistical Area (MSA) to determine statistical disparities by race, ethnicity and gender classification. It also examined the effect of remedial race- and gender-based efforts by the City of Austin specifically. This study will be used to guide SMBR's program development and City MBE/WBE purchasing policies. This study was completed and presented to Council during FY 2015-16. Ordinance recommendations and revised program goals will be presented to Council for consideration in the fall of 2016.

SMBR will continue to promote procurement opportunities for minority-owned and women-owned businesses and provide services to support their success.

Veronica Briseño Lara, Director

Budget Highlights

The Small and Minority Business Resources Department (SMBR) FY 2016-17 budget includes requirements of \$3,678,931 and 29 FTEs. This includes an increase of \$144,772 for wage adjustments, market studies, and growth in City contributions for health insurance.

MBE/WBE Procurement

The MBE/WBE Procurement Program encourages minority-owned and women-owned business enterprises to participate in City contracts by establishing special procurement goals. SMBR sets MBE, WBE and disadvantaged business enterprise (DBE) contracting goals with respect to construction, professional services, commodities and non-professional services.

The MBE/WBE Certification Activity is responsible for ensuring firms that meet the eligibility criteria are certified as a MBE, WBE or DBE. Only those businesses determined to be owned and controlled by minorities, women, or those who are socially and economically disadvantaged are certified. Through excellent customer service and quality processes and procedures, SMBR continues to increase the number of certified firms, graduating two firms to date in FY 2015-16.

Within the MBE/WBE Procurement Program, outreach efforts are aimed at both certified and not-yet-certified MBEs and WBEs. Certified vendors benefit from outreach efforts designed to keep them informed of changes in policies or procedures that could affect them. Outreach efforts also encourage vendors to keep their certification current and up to date. Firms that are not currently certified have the opportunity to learn what the program has to offer and how they can benefit from being a certified MBE, WBE or DBE with the City of Austin. SMBR also contracts with three minority trade associations who assist with outreach efforts regarding certification and compliance.

MBE/WBE vendors who attend monthly workshops or any event hosted by SMBR are invited to participate in a customer satisfaction survey. Satisfaction is measured by their responses related to the services provided by SMBR staff. Results are used to determine the level of vendor satisfaction and guide changes to future programming, as necessary.

In addition to certifying MBEs, WBEs, and DBEs, SMBR also certifies Small Business Enterprises (SBE) for participation in the Small Business Construction Program. These firms go through a separate certification process and are required to renew annually should they wish to continue participating in the program.

SMBR continues to monitor compliance with the MBE/WBE Procurement Program Ordinance to ensure participation goals are being met and that minority subcontractors are being utilized as outlined on the compliance plans. Compliance staff members conduct site audits on projects to verify participation.

Telecommunications and Regulatory Affairs

Mission and Goals for 2017

Mission

The mission of Telecommunications and Regulatory Affairs is to ensure that the City receives fair compensation for the private use of public rights-of-way, to bring access to the Internet and computer technology to members of the community, and to protect consumers from utility rate increases and unfair predatory lending practices so that the welfare of Austin and its citizens is protected.

Goals

Ensure the best and most remunerative use of public rights-of-way by negotiating franchise agreements, license agreements, and contracts that maximize revenue

- Right-of-way revenue collections of \$35.9 million.
-

Increase access and digital literacy skills through programs including the Grant for Technology Opportunities Program, Austin Free-Net operated computer labs and ongoing implementation of the City's Digital Inclusion Strategic Plan;

- 86% of digital inclusion programs' participants improved their basic digital skills.
-

Provide assistance to client departments in safeguarding and recovering City funds in order to maximize collections and available funds for those departments

- Number of referrals received for collection totaling 550 claims annually
-

Increase on-site reviews of credit access businesses to ensure compliance with the City's ordinance

- Two on-site reviews of credit access businesses performed annually
-

Telecommunications and Regulatory Affairs

Message from the Officer

Telecommunications and Regulatory Affairs (TARA) ensures that the City and its residents are fairly compensated for private use by utility and telecommunications providers of the public rights-of-way (ROW), protects the interests of ratepayers in utility rate cases, manages digital inclusion programs that increase access to the Internet and computer technology and training to all community members, and protects consumers from unfair predatory lending practices.

TARA manages access to the City's ROW with utility franchises and license agreements. TARA ensures the best and most remunerative use of the public ROW by negotiating franchise agreements, license agreements, and contracts that maximize revenue for the City while protecting these valuable City assets. The ROW franchise fee revenue is projected to provide \$35.9 million to the General Fund in FY 2016-17. TARA monitors the agreements and franchise fees for compliance and accuracy.

The demand for enhanced wireless and data services is driving the demand for additional wireless infrastructure of the private wireless communications companies operating in Austin. Over the course of the next year, TARA will coordinate with other City departments and wireless service providers to implement policies for a Citywide approach to install wireless antenna systems and equipment in the public rights-of-way and on City pole infrastructure.

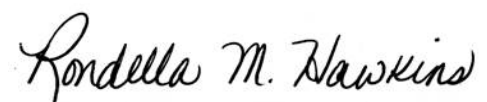

In June of 2016, TARA began review of the Texas Gas Service general rate case filed with the City of Austin. The last rate case filed by Texas Gas Service was in 2009. The City has original jurisdiction over rates charged to Austin residents by gas utilities operating within the City limits. TARA manages the review and analysis of rate filings to ensure that any proposed rate increases are just and reasonable.

TARA manages the City's Grant for Technology Opportunities Program that provides matching grant funds to Austin nonprofit organizations for projects that create digital learning opportunities and foster digital inclusion. In 2014, the City adopted a Digital Inclusion Strategy with a vision to provide every Austin resident an opportunity to be fully engaged in our digital society by accessing and making full use of digital technology. TARA coordinates implementation of the Digital Inclusion Strategic Plan with other City departments and community organizations to provide opportunities for underserved residents and improve their connectivity to the digital world through Internet access, computer training and access to computer equipment and similar devices.

TARA monitors and enforces compliance of Credit Access Businesses (CABs) that provide payday and auto title loans to consumers in Austin. Austin was the second city in the state to implement City Ordinance No. 20110818-075, recently amended in 2015, to provide oversight to CABs' operations to reduce abusive and predatory lending practices. In addition to a registration requirement, CABs must follow lending guidelines that place restrictions on extensions of consumer credit. TARA works with consumers and the community to increase awareness of the ordinance and to process consumer complaints.

TARA administers the City's seven Public, Educational, and Governmental (PEG) Access television channels carried by the cable television providers in the City. Cable television providers contribute 5% of their gross revenues in franchise fees that go into the General Fund, and they contribute an additional 1% of gross revenues that can only be spent for capital expenses related to the PEG channel operations. TARA manages these capital funds and ensures they are spent in accordance with state and federal law.

Because the City is self-insured, the Claims Division works to recover monies due the City for damage to City property that are due to the actions of a liable third party. Claims Division staff members assist client departments in safeguarding and recovering these funds to maximize collections and available funds for those departments. The Claims Division also provides information to customers for civil judgments and judgment liens owed to the City of Austin.

Rondella M. Hawkins
Telecommunications and Regulatory Affairs Officer

Budget Highlights

As mentioned in the Message from the Officer, TARA is responsible for a variety of programs that safeguard and advocate for the welfare of Austin residents. The most visible Key Performance Indicator for the department measures right-of-way (ROW) revenue collections. Right-of-way revenue includes franchise and license fees collected from gas, electric, cable, and telecommunications providers. The fees are calculated as a percentage of gross revenues, or on the area occupied in the ROW, or on the number of telephone access lines. Factors beyond the City's control that influence the amount of revenue due the City include the number of cable subscribers, the number of land-line phone customers, and the decrease in the use of natural gas due to mild weather conditions in the winter and the cost of gas. There continues to be a market trend of consumers decreasing cable television subscriptions with increased use of video programming from an Internet streaming service and disconnecting traditional wired telephone service for cellular-only phone service. This trend of shifting to internet based video and wireless services could reduce City revenues since these services do not pay any ROW license or franchise fees to the City. Taking all known factors into consideration, TARA estimates FY 2016-17 collections of approximately \$35.9 million in revenue for the General Fund.

In FY 2015-16, TARA became a stand-alone department, having previously been an office under Management Services. The Department's FY 2016-17 Budget includes requirements of \$1.9 million and 15 full-time equivalents with increases in personnel costs related to wage adjustments and health insurance.

Funding for consultant fees was increased by \$25,000 in the Budget Stabilization Reserve Fund for rate review consulting services for Atmos Energy and CenterPoint Energy rate filings.

Volume II
Other Funds

Austin Cable Access Fund

Purpose and Nature of Fund

The Austin Cable Access Fund is a special revenue fund used to support public, educational and governmental (PEG) channel capital expenditures. The funding is provided by AT&T, Grande Communications, Time Warner Cable, and Google Fiber as required by the Texas Cable Franchising Statute.

Factors Affecting Revenue

Enacted in FY 2011-12, the Austin Cable Access Fund revenue is calculated as 1% of gross revenues of state cable television/video franchise holders. The estimated revenue for FY 2016-17 is \$1,900,000 and is restricted for capital expenditures. The Fund's FY 2016-17 inflows also include estimated interest income of \$3,000, and a General Fund transfer of \$475,000.

Factors Affecting Requirements

Austin Cable Access Fund capital expenditures are limited to the amount of revenue collected from the cable companies. For FY 2016-17, PEG-related capital expenditures are \$1,534,000. The cost of funding the operations component of the City's contract with its PEG-television operator, \$475,000, is supported by the General Fund transfer.

Austin Energy Power Supply Stabilization Reserve Fund

Purpose and Nature of Fund

The Power Supply Stabilization Reserve Fund was created and established with the City Council's adoption of the FY 2016-17 Budget. In accordance with the City's Financial Policies, the Power Supply Stabilization Reserve Fund shall be used for mitigating power supply cost volatility which causes frequent variation in the Power Supply Adjustment.

The Power Supply Stabilization Reserve shall maintain a cash equivalent of 90 days of net power supply costs. Net power supply costs shall be defined as costs eligible for inclusion in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall be funded using net revenues after meeting other obligations and consistent with the flow of funds schedule.

Factors Affecting Revenue

Revenue is generated through transfers into the fund from the Austin Energy Operating Fund and Contingency Reserve Fund (Formally Strategic Reserve Fund).

The FY 2016-17 Budget includes an \$89,235,405 transfer from the Austin Energy Contingency Reserve Fund.

Factors Affecting Requirements

Expenditure requirements in the Power Supply Stabilization Reserve Fund are related to mitigating power supply cost volatility.

The FY 2016-17 budget does not include a transfer to other funds.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Transfers In	\$0	\$0	\$0	\$0	\$89,235,405

Austin Energy Capital Reserve Fund

Purpose and Nature of Fund

The Capital Reserve Fund, previously called the Repair and Replacement Fund, was created and established with the City Council's adoption of the FY 2001-02 Budget. In accordance with the City's Financial Policies, the Capital Reserve Fund shall be used for providing extensions, additions, replacements and improvements to the electric system.

The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous fiscal year's electric utility depreciation expense.

Factors Affecting Revenue

Revenue is generated through transfers into the fund from the Austin Energy Operating Fund and Contingency Reserve Fund (Formally Strategic Reserve Fund). Inception to-date transfers from other funds total \$74,714,071.

The FY 2015-16 Budget includes a \$9,000,000 transfer from Austin Energy Operating Fund.

The FY 2016-17 Budget includes a \$3,309,442 transfer from the Austin Energy Contingency Reserve Fund.

Factors Affecting Requirements

Expenditure requirements in the Capital Reserve Fund are related to extensions, additions, and improvements to the electric system. A detail of inception to-date expenditures totaling \$74,650,000 follows:

- In FY 2003-04, \$7,650,000 was transferred to the Austin Energy Operating Fund to fund the first two years of Holly Power Plant decommissioning costs.
- In FY 2007-08, \$30,000,000 was transferred to the Austin Energy Operating Fund to begin funding additional generation peaking capacity at the Sand Hill Energy Center through the Austin Energy Capital Improvement Program.
- In FY 2008-09, an additional \$35,000,000 was transferred to the Austin Energy Operating Fund to continue funding additional generation peaking capacity at the Sand Hill Energy Center through the Austin Energy Capital Improvement Program.
- In FY 2009-10, the Budget included a \$2,000,000 transfer to the Austin Energy Operating Fund to return ending balance not needed for funding Sand Hill Energy Center.
- The FY 2011-12 through 2016-17 Budgets do not include a transfer to other funds.

Austin Energy Contingency Reserve Fund

Purpose and Nature of Fund

The Austin Energy Contingency Reserve Fund, previously called the Strategic Reserve Fund, as defined in the City's Financial Policies, shall be used for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation.

The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs.

In the event any portion of the Contingency Reserve is used, the balance will be replenished to the target funding level within two fiscal years.

Factors Affecting Revenue

The FY 2014-15 Amended Budget included a transfer from Austin Energy Operating to the Contingency Reserve Fund in the amount of \$44,000,000 and \$1,657,074 of interest earned.

The FY 2015-16 Budget includes a transfer from Austin Energy Operating to fund the Contingency Reserve Fund in the amount of \$36,000,000 and \$1,221,474 of interest earned.

The FY 2016-17 Budget does not include a transfer from Austin Energy Operating.

Factors Affecting Requirements

Requirements may include, but are not limited to, costs related to extended unplanned plant outages, insurance deductibles, unexpected costs due to revised Federal or State legislation, and liquidity support to stabilize fuel rates for customers due to unexpected changes in fuel costs or purchased power.

The FY 2016-17 Budget includes an \$89,235,405 transfer to the Austin Energy Power Supply Stabilization Reserve Fund and a \$3,309,442 transfer to the Austin Energy Capital Reserve Fund.

In compliance with the August 29, 2016 City Council approved rate settlement, Austin Energy will develop a roadmap with possible paths for ending the use of coal and starting retirement of Austin Energy's share of Fayette Power Project (FPP). As part of this agreement, Austin Energy is earmarking \$5.0 million in the Contingency Reserve Fund for the potential defeasance of outstanding debt associated with FPP, if required as a part of the retirement.

Austin Water Revenue Stability Reserve Fund

Purpose and Nature of Fund

The Austin Water Revenue Stability Reserve Fund (Water Reserve Fund) was created for the purpose of offsetting current year water service revenue shortfalls below budgeted revenue levels.

The target funding level for the Water Reserve Fund is 120 days of the budgeted water operating requirements of Austin Water, which includes operations and maintenance and other operating transfers. In the event that any portion of the Water Reserve Fund is used, the balance will be replenished to the target levels within 5 years.

The goal is to reach the target funding level of 120 days of budgeted water operating requirements within 5 years. If the fund is drawn down prior to reaching the 120 day target during the first 5-year development period, the Water Reserve Fund surcharge shall not be lower than it was during the year in which the draw down occurred until such time as the fund reaches its 120 days of operating costs. If the fund is drawn down after reaching the 120 day target, the fund will be replenished within a 5-year period.

The Water Reserve Fund shall only be used to offset a current year water service revenue shortfall where actual water service revenue is less than the budgeted level by 10% or greater. The maximum use of the Water Reserve Fund in any fiscal year is 50% of the existing balance at the time of request for Council action.

When the target levels of the Water Reserve Fund are reached, any Water Reserve Fund surcharge shall be reduced to levels sufficient to only maintain the goal of 120 days of operating requirements as may be necessitated by changes in budgeted operating costs over time.

All interest earned by the Water Reserve Fund account shall remain in the Water Reserve Fund in order to offset funding and replenishment requirements and to minimize rate impacts for water customers.

Factors Affecting Revenue

Sources of funding for the Water Reserve Fund includes a Water Reserve Fund volumetric surcharge charged to all customer classes, operating reserves in excess of 60 days of operating requirements and any available net water service revenue after meeting all obligations of Austin Water. The FY 2016-17 Budget includes projected revenue from the Water Reserve Fund volumetric surcharge.

Factors Affecting Requirements

Requirements are costs related to offsetting a current year water service revenue shortfall where actual water service revenue is less than the budgeted level by 10% or greater. The maximum use of the Water Reserve Fund in any fiscal year is 50% of the existing balance at the time of request for Council action.

The FY 2016-17 Budget does not include a transfer out from the Austin Water Revenue Stability Reserve Fund.

City Hall Fund

Purpose and Nature of Fund

The City Hall Fund is a special revenue fund that accounts for the revenue and operating expenses related to City Hall's underground parking garage, retail leases, and facility needs.

Factors Affecting Revenue

In addition to offices for the Mayor, Council Members, and City staff, City Hall houses retail and restaurant spaces and a multi-level underground parking garage.

Parking garage revenue collection began in 2006 with parking spaces leased to a private valet operator for 2nd Street retail activities. Parking fees for other users began in 2007 to coincide with increased retail, residential, and office development in the area. Economic Development agreements currently allow 2nd Street retail and restaurant businesses to provide some validated parking to encourage patronage; City Hall visitors can also receive validated parking. The fund began to receive revenue from the building's retail and restaurant leases in January 2007.

FY 2015-16 revenue from all sources is estimated at \$1,776,850. Revenue for FY 2016-17 is projected to increase to \$1,831,900 due to additional parking demand.

Factors Affecting Requirements

Garage operating expenses, including maintenance repairs, operator management costs, and utilities, are estimated at \$998,641 in FY 2015-16. Operating expenses for FY 2016-17 are expected to increase to \$1,155,000. This increase is largely driven by the increase in garage usage and repair work needed throughout City Hall. In addition, the fund transfer to the Building Services Capital Budget for City Hall renovations will decrease from \$1,000,000 to \$150,000 while a new transfer to the Public Works Capital Budget of \$500,000 will occur to fund prior investments in City Hall's Second Street District.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$1,363,097	\$1,451,681	\$1,776,850	\$1,758,774	\$1,831,900

Community Development Incentives Fund

Purpose and Nature of Fund

The Community Development Incentives Fund (CDIF) was established by the Austin City Council during adoption proceedings for the FY 2015-16 Budget. The CDIF is designed to provide short-term funding to certain new initiatives that the City Council identifies as promising. Providing this short-term funding allows the effectiveness of these initiatives to be evaluated under real-world operational conditions and facilitates the City Council's ability to make more informed decisions about whether the initiatives should be granted recurring funding in the future.

The CDIF's revenue consists of one-time transfers from the Budget Stabilization Reserve Fund and the General Fund. These transfers are made at Council's discretion and may not occur each year. Financial policies governing the use of the Budget Stabilization Reserve Fund, the number and scope of new initiatives identified by the City Council as promising, and other spending priorities will all determine whether a transfer occurs in any given year as well as the size of any transfer.

Factors Affecting Revenue

During adoption proceedings for the FY 2015-16 Budget, the City Council directed that \$939,846 in one-time funding from the Budget Stabilization Reserve Fund and \$118,859 from the General Fund be transferred to the newly created CDIF for a total of \$1,058,705. In FY 2016-17, no transferring of funds is anticipated.

Factors Affecting Requirements

During FY 2015-16 adoption proceedings, the City Council identified three specific initiatives to receive four years of funding: \$25,000 per year for the Dia de los Muertos event, \$35,000 per year for River City Youth Foundation's Summer of Safety (SOS) program, and \$15,000 per year for the "Jump On It" Teen Night event. The City Council also directed that four years of funding in the amount of \$150,000 annually be directed to new cultural contracts, as awarded by an application and evaluation procedure to be developed by the Economic Development Department. In FY 2016-17, funding for these initiatives is continuing, and an additional \$450,000 of the CDIF's ending balance is reserved for meeting City Council's commitment to providing four years of funding to these initiatives. Additionally, \$158,705 is transferring to the Budget Stabilization Reserve Fund for quality of life initiatives, bringing total requirements in FY 2016-17 to \$383,705.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Transfers In	\$0	\$0	\$1,058,705	\$1,058,705	\$0
Requirements	\$0	\$0	\$225,000	\$225,000	\$383,705

Convention Center Marketing and Promotion Fund

Purpose and Nature of Fund

An agreement exists between the City of Austin and an independent contractor to provide food and beverage catering and concession services for the Austin Convention Center Department. In FY 2007-08, the Convention Center Marketing and Promotion Fund was created to fund expenditures related to the promotion of catering and concession products and services. Two percent of the food and beverage contractor's revenue is budgeted in this fund.

Factors Affecting Revenue

Revenue deposited into this fund represents 2.0% of gross Austin Convention Center Department food and beverage catering and concession revenue generated by the contractor. Revenue in FY 2016-17 is projected to increase 16.8% over the FY 2015-16 Budget. The FY 2015-16 estimate increase is due to a few short term food and beverage events booked during the year and additional food and beverage requests from existing events. Based on the event schedule, the FY 2016-17 Budget is 3.2% lower than the increased FY 2015-16 estimate.

Factors Affecting Requirements

Expenditures from this fund include costs associated with the promotion of catering and concession services. These costs include activities and events where products are featured to potential clients, sponsorships and participation in events to market products.

Requirements are projected to increase 10.0% from the FY 2015-16 Budget and estimate. The increase in FY 2016-17 appropriations will maintain the established ending balance target of \$100,000 for the fund.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$227,889	\$261,832	\$297,799	\$246,726	\$288,176
Requirements	\$222,240	\$304,106	\$443,148	\$443,148	\$487,309

Convention Center Repair and Replacement Fund

Purpose and Nature of Fund

An agreement exists between the City of Austin and an independent contractor to provide food and beverage catering and concession services for the Austin Convention Center Department. In FY 2007-08, the Convention Center Repair and Replacement Fund was created to fund the acquisition, maintenance and repair of catering and concession equipment and furnishings. Three percent of the food and beverage contractor's revenue is budgeted in this fund.

Factors Affecting Revenue

Revenue deposited into this fund represents 3.0% of gross Austin Convention Center Department food and beverage catering and concession revenue generated by the contractor. Revenue in FY 2016-17 is projected to increase 16.8% over the FY 2015-16 Budget. The FY 2015-16 estimate increase is due to a few short term food and beverage events booked during the year and additional food and beverage requests from existing events. Based on the event schedule, the FY 2016-17 Budget is 3.2% lower than the increased FY 2015-16 estimate.

Factors Affecting Requirements

Expenditures from this fund include necessary equipment and furnishings costs that are part of the operational needs of delivering catering and concession services. Purchases of kitchen equipment, small kitchen wares, and serving items, as well as maintenance and repair costs are a few examples of the type of expenditures from this fund.

Requirements are projected to increase 58.6% from the FY 2015-16 Budget and estimate. The increased FY 2015-16 revenue estimate, coupled with unspent funds in FY 2014-15, will result in a higher amount available for appropriation in FY 2016-17.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$341,833	\$392,748	\$446,699	\$370,089	\$432,263
Requirements	\$444,886	\$678,852	\$410,734	\$410,734	\$651,549

CTM - Technology Acquisition Fund

Purpose and Nature of Fund

The Technology Acquisition Fund was established in 2012 to accumulate cash reserves to purchase large information technology (IT) resources that expand or add to existing capacity, such as servers. This fund accumulates revenue from departments based on the costs of space or storage used by each department and a division of structural costs. This facilitates even cost distribution and reduces the amount of time required to procure and install server infrastructure. Purchases are made based on category; for example, revenue received related to server use is used to acquire new servers.

Factors Affecting Revenue

This fund receives transfers from other departments based on their use of large IT resources, like servers and storage. Because it can be difficult to determine departments' server and storage needs, there is no projected revenue for FY 2016-17. Historically, the greatest share of revenue has come from the Communications and Technology Management department (CTM), and the fund typically generates a small amount of interest income. In FY 2015-16, the fund also received revenue from the Austin Public Library and Financial Services departments.

Factors Affecting Requirements

Expenditures are required when additional large IT resources are needed and are authorized when funds are available. There have been no expenditures to date. The FY 2016-17 budget includes \$300,000 for purchases of additional and expanded servers and storage.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

Requirements	\$0	\$0	\$0	\$0	\$300,000

Downtown Public Improvement District

Purpose and Nature of Fund

The Austin Downtown Public Improvement District Fund is a special revenue fund established for the purpose of operating the Austin Downtown Public Improvement District (PID), funded by an additional \$0.10 per \$100 in assessed value for properties in the District. On April 15, 1993, the Austin Downtown Public Improvement District was created by the Austin City Council at the request of property owners within the district to provide constant and permanent funding to implement downtown initiatives. The PID is a means for the Downtown Austin community to provide adequate and constant funds for quality of life improvements and planning and marketing of Downtown Austin. On October 11, 2012, the Austin City Council reauthorized the Austin Downtown Public Improvement District for ten years.

Factors Affecting Revenue

Assessment revenue and interest for FY 2016-17 is \$7,287,713. An additional \$285,000 will be transferred from the Austin Convention Center and \$75,000 will be transferred from Austin Water.

Factors Affecting Requirements

Total requirements for FY 2016-17 are \$7,647,713 for costs incurred as part of the Public Improvement District Services Plan.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$3,546,842	\$4,034,544	\$5,284,553	\$5,024,560	\$7,287,713
Transfers In	\$150,000	\$150,000	\$150,000	\$150,000	\$360,000
Requirements	\$3,740,551	\$4,136,678	\$5,182,888	\$5,182,888	\$7,647,713

East 6th Street Public Improvement District

Purpose and Nature of Fund

The East 6th Street Public Improvement District Fund is a special revenue fund established for the purpose of operating the East 6th Street Public Improvement District (PID). On August 6, 2004, the East 6th Street PID was created by the Austin City Council at the request of property owners within the District to provide additional services that supplement existing services provided by the City of Austin. Properties in the District were assessed an additional \$0.10 per \$100 in assessed value, up to a maximum value of \$500,000, to pay for the District's programs. In 2014 the Austin City Council reauthorized the East 6th Street Public Improvement District and the assessment rate was increased to \$0.19 per \$100 in assessed value for properties in the District.

Factors Affecting Revenue

Assessment revenue and interest for FY 2016-17 is \$85,903 and an additional \$35,000 will be transferred in from the Economic Development Department.

Factors Affecting Requirements

Total requirements for FY 2016-17 are \$160,903 for costs incurred as part of the Public Improvement District Service and Assessment Plan.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$79,458	\$93,860	\$98,325	\$85,691	\$85,903
Transfers In	\$35,000	\$35,000	\$35,000	\$35,000	\$35,000
Requirements	\$118,273	\$126,656	\$120,691	\$120,691	\$160,903

Employee Benefits Fund

Purpose and Nature of Fund

The Employee Benefits Fund was established to finance the City's benefits program which includes: a self-funded medical and dental program, retiree medical and dental, basic and supplemental life insurance and accidental death and dismemberment (AD&D), a short- and long-term disability program, a vision program, an employee assistance program, a wellness program, a Health Reimbursement Account benefit, a child care program, a bus pass program, unemployment benefits, and a prepaid legal program.

Factors Affecting Revenue

The programs provided through the Employee Benefits Fund are paid for by a contribution from the City and contributions of employees, retirees, and Consolidated Omnibus Budget Reconciliation Act (COBRA) participants. Revenue from participant contributions is determined by the number of participants enrolled and the type of benefits each participant selects. The City's contribution is based on a budgeted amount per eligible position.

Revenue for the Employee Benefits Fund for FY 2016-17 is \$253.1 million, which is a \$22.9 million increase from the FY 2015-16 Amended Budget. The 2016-17 beginning balance reflects a \$3.5 million decrease to \$19.8 million, \$14.5 million of which consists of stop loss and claims reserves carried forward from FY 2015-16.

Factors Affecting Requirements

Requirements for the Employee Benefits Fund for FY 2016-17 are \$268.8 million which is a \$16.8 million increase from the FY 2015-16 Amended Budget. Employee medical claims are expected to increase by \$8.8 million and retiree claims are anticipated to increase by \$6.3 million primarily due to medical cost trends, large claims and increased enrollment. Employee dental claims are expected to increase by \$0.5 million due to an increase in utilization and enrollment. The Claims Reserve and Stop Loss Reserves are expected to increase by \$0.7 million. All other program costs are projected to remain fairly level.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$187,489,055	\$203,811,989	\$229,792,249	\$230,197,082	\$253,127,713
Requirements	\$194,821,939	\$217,909,516	\$232,616,553	\$252,028,333	\$268,831,009

Estancia Hill Country Public Improvement District

Purpose and Nature of Fund

A Public Improvement District (PID) is a defined geographical area established to provide specific types of improvements, services, or maintenance within the defined area that are financed by special assessments levied against all property owners within the defined district for the life of the PID. PIDs may be created pursuant to the laws of the State of Texas (Texas Local Government Code Chapter 372) by a city or county.

The Estancia Hill Country PID is a nearly 600-acre development project located in southern Travis County west of IH 35 South, about eight tenths of a mile south of the intersection of IH 35 South and Onion Creek Parkway. This PID area is currently in the City's limited purpose jurisdiction and under development. The developer's plans for this site include a master planned, mixed-use project with residential, retail, and commercial land uses.

On June 6, 2013, the Austin City Council approved Resolution 2013606-054 authorizing creation of the Estancia Hill Country PID, which provides a financing mechanism for the construction, ownership, and maintenance of certain public improvements to support the planned community. On June 20, 2013, the Austin City Council approved an ordinance authorizing the issuance and sale of \$12,590,000 City of Austin, Texas Special Assessment Bonds, Series 2013 (Estancia Hill Country Public Improvement District). The bonds have a 15-year term, and proceeds from the bonds funded construction, acquisition or purchase of certain public improvements, capitalized interest, bond reserve funds, and costs of bond issuance.

While PID bonds are outstanding and payable, the PID's budget will be included in the City's Operating Budget and the Austin City Council will take certain annual actions regarding the PID including:

Austin City Council Action	Council Meeting
Approve an ordinance approving proposed assessment roll and setting PID's assessment rate.	Meeting #1
Approve a resolution adopting PID's service and assessment plan.	Meeting #1
Set a public hearing on PID's proposed assessment roll.	Meeting #1
Conduct a public hearing on PID's proposed assessment roll.	Meeting #2
Approve an ordinance authorizing final assessment roll and levying special assessments.	Meeting #2 or 3

Factors Affecting Revenue

Revenue is generated through the apportionment, levying, and collection of special assessments which are pledged for the repayment of PID bonds issued for the public improvements. The FY 2016-17 PID assessment revenue is estimated at \$1,745,255.

Factors Affecting Requirements

Requirements include debt service payments on the PID bonds and costs of administering the PID. The FY 2016-17 PID assessment requirements are estimated at \$1,745,255. Any penalties and interest collected will be held in the Fund and used to reduce the amounts due on the bonds in the final years.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$0	\$1,896,809	\$1,766,370	\$1,766,370	\$1,745,255
Requirements	\$0	\$612,814	\$1,766,370	\$1,766,370	\$1,745,255

General Fund Budget Stabilization Reserve Fund

Purpose and Nature of Fund

The General Fund Budget Stabilization Reserve Fund (BSRF) was established by financial policy and funded primarily through the capture of any excess revenue and unspent appropriations at the end of each fiscal year. It is designed to provide financial stability to the General Fund during economic downturns. Up to one-third of the total amount of the reserve may be appropriated to fund capital or other one-time costs each year.

Factors Affecting Revenue

The revenue for the BSRF is calculated as the positive difference between actual and budgeted revenues plus any unspent appropriations. This surplus is only realized and transferred at the end of the fiscal year once revenues and expenditures have been reconciled. Since the General Fund is budgeted in balance by financial policy, that is current revenues equal current expenditures, no surplus ending balance is projected. Therefore, transfers into the BSRF are generally budgeted at \$0. However, in FY 2016-17, the fund is receiving revenue through transfers in of \$4.8 million from the Business Retention and Enhancement Fund and \$0.2 million from the Community Development Incentives Fund.

Factors Affecting Requirements

Use of the BSRF is limited by financial policy, which states that the reserve may be appropriated to fund capital or other one-time costs. Such appropriations will not normally exceed one-third of the total amount in the reserve, with the other two-thirds reserved for budget stabilization in future years.

By the end of FY 2015-16, the BSRF is expected to have an ending balance of \$65.0 million with a transfer in from the General Fund of \$7.8 million, \$6.2 million above the budgeted transfer of \$1.6 million. In FY 2016-17, \$8.2 million will be appropriated to fund facility maintenance that has been deferred, replacement radios for public safety, a stretcher power load system for Emergency Medical Services, replacement of airpacks and other accessories for the Fire Department, a development fee study, CodeNEXT (land development code revision), the Zilker Botanical Gardens Conservancy, and multiple quality of life initiatives. The detailed list of BSRF appropriations can be found in the Supporting Documents section of Volume II of the City of Austin Budget.

Requirements	\$14,867,151	\$31,538,517	\$44,975,796	\$45,706,850	\$11,737,990

General Fund Emergency Reserve Fund

Purpose and Nature of Fund

The General Fund Emergency Reserve Fund was established by financial policy to provide for temporary financing for unanticipated or unforeseen extraordinary needs of an emergency nature. For example, costs related to a natural disaster or calamity or an unexpected liability created by Federal or State legislative action. In FY 2015-16, this policy was revised to combine this reserve with the General Fund Contingency Reserve Fund and dissolve the Contingency Reserve.

The Emergency Reserve Fund shall maintain a balance of 6% of total General Fund requirements. Funds shall be allocated from the Emergency Reserve Fund only after an analysis has been prepared by the City Manager and presented to City Council. This analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources and provide a sufficient cash balance for daily financial needs, and will address the nature of the approved expenditure and the revenue requirement in subsequent fiscal years.

Factors Affecting Revenue

Funds shall be allocated each year in the budget process to replace any use of the Emergency Reserve Fund during the preceding fiscal year at the level necessary to maintain the balance of the Fund at the minimum required by policy. In FY 2015-16, no reserve funds were utilized, so no replenishment is budgeted in FY 2016-17.

To comply with the financial policy of maintaining a minimum balance of 6% of total requirements, a total of \$3.5 million is being transferred in from the Budget Stabilization Reserve Fund.

Factors Affecting Requirements

Prior to allocating funds from the Emergency Reserve Fund, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds. Utilization of the Fund is not anticipated in FY 2016-17.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

Requirements	\$0	\$0	\$0	\$0	\$0

General Fund Property Tax Reserve Fund

Purpose and Nature of Fund

The General Fund Property Tax Reserve Fund was established to provide for the payment of refunded property taxes resulting from the outcome of District Court cases involving property tax valuation. Property owners who protest their valuations are required to pay property taxes for any given fiscal year based on the value determined by the Appraisal Review Board for the county in which the property is located. Property owners may then dispute this value in District Court. If the litigation is resolved in favor of the property owner, the property value is lowered and the City will have to refund the incremental property taxes associated with the reduction in value. Each year, financial staff calculate the projected total liability to which the City is exposed as a result of pending District Court cases related to the valuation of properties within the City. The Fund's purpose is to maintain a balance sufficient to offset this projected liability.

Factors Affecting Revenue

If the Fund's balance is not sufficient to offset the City's total projected liability from pending District Court cases concerning the valuation of properties within the City, it may be increased through a transfer from the General Fund. Financial staff estimate that the City's total projected liability from pending District Court cases concerning the valuation of properties within the City is at \$2.0 million in FY 2016-17. Since the Fund's current balance is \$4.5 million, no transfer is budgeted in FY 2016-17.

Factors Affecting Requirements

The Fund's balance is only utilized in the event that refunded property taxes due to property owners as a result of the resolution of District Court cases exceed total delinquent tax payments in any given fiscal year. This is not anticipated FY 2016-17, so there are no budgeted expenditures for the Fund.

Golf Surcharge Fund

Purpose and Nature of Fund

The Golf Surcharge Fund was established to account for the collection of surcharges for rounds of golf played at Jimmy Clay, Roy Kizer, Morris Williams, Lions, and Hancock golf courses. Proceeds are used for capital improvements and infrastructure repairs at all of the City's golf courses.

Factors Affecting Revenue

In FY 2015-16 and FY 2016-17, golf surcharge fees and interest are expected to generate \$200,000 and \$3,000 in revenue, respectively. This increase in revenue is due to the reopening of the Jimmy Clay golf course in August 2015. The golf surcharge is \$1.50 for each adult and \$1.00 for each junior and senior round played.

Factors Affecting Requirements

In FY 2016-17, the Golf Surcharge Fund is transferring \$150,000 to the Capital Budget for improvements at the City's golf courses. Current plans for the funding include bunker sand replacement, greens mix, irrigation repairs, building improvements, and cart path repairs to all of the City's golf courses. These improvements are designed to maintain a high-quality experience for the golfing public in Austin.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$166,281	\$162,876	\$203,000	\$176,500	\$203,000
Requirements	\$190,000	\$190,000	\$150,000	\$150,000	\$150,000

Green Water Treatment Plant Land Sale Proceeds Fund

Purpose and Nature of Fund

The Green Water Treatment Plant Land Sale Proceeds Fund was established in FY 2013-14 to capture the revenue proceeds arising from the sale of the City's Green Water Treatment Plant land pursuant to Ordinance 20120524-012. In 2008, the City initiated efforts to redevelop property formerly occupied by the Green Water Treatment Plant. Ordinance 20120524-012 directed the City Manager to execute a Master Developer Agreement with TC Green Water Master Developer, LLC to redevelop the property.

Factors Affecting Revenue

The executed Master Agreement with TC Green Water Master Developer, LLC includes a provision for takedowns of the four development Blocks established on the site over a period of time. The first takedown was required to occur no later than 12 months after the close of the sale of the property, with payment timelines for the other three Block takedowns stipulated from the date the first takedown occurs. The total amount the City will receive as a result of the sale of this land will be \$42,400,000. The proceeds received in FY 2013-14, FY 2014-15, and FY 2015-16 represent the takedown of Block 1, Block 23, and Block 188 of the development site, respectively. Due to the flexible timeline for repayment, revenue cannot be budgeted for FY 2016-17.

Factors Affecting Requirements

In accordance with prior Council authorizations, State law, and the City's bond ordinances regarding the use of the revenue received from the developer, proceeds received from the sale are deposited into the special Operating Fund, with restrictions on use of the proceeds. Of the total land sale amount, Austin Water will receive \$14,299,856 to reimburse for costs already incurred for the decommissioning of the Green Water Treatment Plant, Austin Energy will receive \$8,500,000 for reimbursement of costs related to the reconfiguration of the downtown substation, and the Green Infrastructure Capital Improvements Program Fund will receive \$19,600,144 to reimburse the costs of extending 2nd Street from San Antonio to West Avenue, including a new bridge, extending Nueces from Cesar Chavez to 3rd Street, and related infrastructure improvements. As with revenue, transfers cannot be budgeted for FY 2016-17 due to the flexible timeline for repayment.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$15,830,208	\$11,982,915	\$4,309,407	\$4,309,407	\$0
Requirements	\$15,830,208	\$11,982,915	\$4,309,407	\$4,309,407	\$0

Hotel Occupancy Tax Fund

Purpose and Nature of Fund

The Hotel Occupancy Tax Fund is a special revenue fund established to deposit receipts due to the City of Austin from the assessment of the Hotel Occupancy Tax and distribute those proceeds according to City Ordinance 900830-L and City Ordinance 991118.61. The City collects nine cents per dollar of qualified room occupancy rents.

Factors Affecting Revenue

Hotel Occupancy Tax receipts and associated penalties and interest are expected to be \$90.5 million in FY 2016-17, which is 14.1% higher than the FY 2015-16 Budget and 3.0% higher than the FY 2015-16 estimate. Projections are developed by comparing the actual performance of the hotel industry in the Austin metropolitan area to hotel industry market analysis reports. Actual Hotel Occupancy Tax revenue is affected by a combination of hotel occupancy rates and average room rate charges. Both occupancy rates and revenue per available room during the first six months of FY 2015-16 have increased compared to the same period in FY 2014-15. In addition to conventions and meetings that generate significant hotel room nights, large events coming to Austin, such as the South by Southwest, Formula 1 United States Grand Prix and X Games Austin, and the strong economy have contributed to the increased performance of the hotel industry.

Factors Affecting Requirements

The City receives nine cents on each dollar of qualified room occupancy rents. Four funds receive an allocation of these receipts. The distribution, per City Code, is as follows:

- 4.50 cents to the Convention Center Tax Fund to pay debt service and operating requirements related to the Austin Convention Center;
- 2.00 cents to the Venue Project Fund to pay debt service for bonds issued for the expansion of the Austin Convention Center in 2002, and a small portion of the Waller Creek Tunnel Project;
- 1.45 cents to the Tourism and Promotion Fund for contract payments to the Austin Convention and Visitors Bureau (ACVB) to promote conventions and tourism for Austin; and,
- 1.05 cents to the Cultural Arts Fund to fund contracts to artists and cultural agencies as a way to encourage, promote, and improve the arts in Austin. Cultural Arts contracts are allocated through a predetermined process involving review and recommendation by the Arts Commission and approval by the City Council.

As hotel occupancy collections increase, so do the disbursements to these funds. Disbursements in FY 2016-17 are expected to be \$90.5 million, which is 14.1% higher than the FY 2015-16 Budget and 3.0% higher than the FY 2015-16 estimates.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

I-35 Parking Program Fund

Purpose and Nature of Fund

The I-35 Parking Program is a special revenue fund that accounts for revenue, operations and maintenance requirements for two parking lots located under the I-35 overpass between East 6th and 8th Streets. These federally-owned lots fall under the City's control through an interlocal agreement with the Texas Department of Transportation (TxDOT) who oversees the lots at the request of the Federal Highway Administration. The City collects parking fees from these lots on certain evenings and during special events. Under the terms of its agreement with the state, the City must spend any and all revenue collected from these lots specifically on operating and maintaining these lots.

Factors Affecting Revenue

Revenue collection for these lots began in FY 2003-04. Estimated revenue for FY 2015-16 is \$401,000. Revenue for FY 2016-17 is projected to increase to \$435,200 due to increasing demand as the hours of operation and rates are not changing.

Factors Affecting Requirements

The estimated operating requirements for FY 2015-16 are \$410,000 to maintain and operate the parking lot, including an agreement with TxDOT to add lighting under various I-35 bridges for safety enhancements. Expenses for FY 2016-17 are increasing by \$250,000 for installation of temporary restrooms in the parking lots under the I-35 overpass between East 6th and East 8th Streets and 15th Street, pending approval by TxDOT. The FY 2016-17 fund balance is projected to end the year at a positive \$269,527.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$421,318	\$448,282	\$401,000	\$401,000	\$435,200

Indian Hills Public Improvement District

Purpose and Nature of Fund

A Public Improvement District (PID) is a defined geographical area established to provide specific types of improvements, services, or maintenance within the defined area that are financed by special assessments levied against all property owners within the defined district for the life of the PID. PIDs may be created pursuant to the laws of the State of Texas (Texas Local Government Code Chapter 372) by a city or county.

The Indian Hills PID is a mixed-use planned community of about 240 acres located west of SH 130 and south of US-290 East in east central Travis County. The PID is in the City's limited purpose annexation and extraterritorial jurisdiction and in the Desired Development Zone. The planned development includes approximately 1,200 medium density apartment units and 1.5 million square feet of office, warehouse, distribution, and neighborhood retail uses. The center portion of the site will be used for the extension of Decker Lake Road, the main thoroughfare.

On August 26, 2010, the Austin City Council approved Resolution 20100826-023 authorizing creation of the Indian Hills PID, which provides a financing mechanism for public infrastructure to support the planned community. On November 3, 2011, the Austin City Council approved an ordinance authorizing the issuance and sale of \$2,860,000 City of Austin, Texas Special Assessment Revenue Bonds, Senior Series 2011 (Indian Hills PID) and \$2,332,349.75 City of Austin, Texas Special Assessment Revenue Bonds, Subordinate Series 2011 (Indian Hills PID). The Senior Bonds have a 15-year term, while the Subordinate Bonds have a 5-year term. Proceeds from the bonds funded construction, acquisition or purchase of certain public improvements, capitalized interest, bond reserve funds, and costs of bond issuance.

While PID bonds are outstanding and payable, the PID's budget will be included in the City's Operating Budget and the Austin City Council will take certain annual actions regarding the PID including:

Austin City Council Action	Council Meeting
Approve an ordinance approving <i>proposed</i> assessment roll and setting PID's assessment rate.	Meeting #1
Approve a resolution adopting PID's service and assessment plan.	Meeting #1
Set a public hearing on PID's proposed assessment roll.	Meeting #1
Conduct a public hearing on PID's proposed assessment roll.	Meeting #2
Approve an ordinance authorizing <i>final</i> assessment roll and levying special assessments.	Meeting #2 or 3

Factors Affecting Revenue

Revenue is generated through the apportionment, levying, and collection of special assessments to support the issuance of debt for the basic infrastructure such as water, wastewater, and roads. The FY 2016-17 PID assessment revenue is estimated at \$1,659,396.

Factors Affecting Requirements

Requirements include debt service payments on the PID bonds and costs of administering the PID. The FY 2016-17 PID assessment requirements are estimated at \$1,659,396.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$0	\$1,826,391	\$1,639,805	\$1,639,805	\$1,659,396
Requirements	\$0	\$280,069	\$1,639,805	\$1,639,805	\$1,659,396

Liability Reserve Fund

Purpose and Nature of Fund

The Liability Reserve Fund was established in FY 1984-85 in response to nationwide problems associated with obtaining liability insurance. The Fund pays the City's settled claims and losses related to third-party liability for bodily injury and property damage, including contractual and professional liability.

Providing accounting standards for risks and insurance, the Governmental Accounting Standards Board (GASB) Statement Number 10 became effective during FY 1994-95. This statement requires governments to disclose potential losses and explain how they expect to fund them. The City recognizes claims expenditures when, based on the best available information, it is likely that a liability has been incurred, and the amount of the liability can be reasonably estimated. Because these amounts are estimates and not the final claims amounts, the City's financial policy is to maintain a balance in the Liability Reserve Fund sufficient to fund 75% of the total estimated claims liability.

Factors Affecting Revenue

The Liability Reserve Fund revenue is comprised of transfers from the General Fund and other operating funds, and transfers from each operating fund are based on the fund's claims history. In FY 2016-17, Austin Energy, Austin Water, and Aviation are budgeting for lawsuits and claims within their own operating funds and are not relying on the general Liability Reserve Fund. These enterprise funds have significant reserves that they can draw on in an emergency. Therefore, transfers in FY 2016-17 total \$4.1 million.

Factors Affecting Requirements

Annual costs of the Liability Reserve Fund include small claims and any claims payments that exceed reserved amounts. Although Austin Energy, Austin Water, and Aviation are no longer budgeting within the Liability Reserve Fund, the total FY 2016-17 requirements of \$4.2 million are resulting in a deficit fund balance that will be replenished in future years. The Fund still meets the City's financial policy of maintaining a balance sufficient to fund 75% of the total estimated claims liability.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$3,508	\$2,811	\$0	\$0	\$0
Transfers In	\$4,002,000	\$3,999,000	\$4,686,000	\$4,686,000	\$4,061,000

Long Center Capital Improvements Fund

Purpose and Nature of Fund

The Long Center for the Performing Arts (“Long Center”) is a \$77 million venue which opened in March 2008 and is located along Lady Bird Lake in downtown Austin. The Long Center contains two theaters including the 2,300-seat Michael and Susan Dell Hall and the flexible 240-seat Debra and Kevin Rollins Studio Theater. This venue belongs to the City of Austin; however, the building is operated pursuant to a lease agreement with Greater Austin Performing Arts Center, Inc. (GAPAC), a private nonprofit entity.

The Long Center Capital Improvements Fund was established to preserve and protect the City’s long-term investment in the Long Center facility. Recognizing that short-term maintenance and long-term repairs, replacements, and improvements to the Long Center facility are essential to its present and future condition, the City Council approved the amendment to the Restated Lease Agreement with GAPAC on February 27, 2014. Under that amendment, the City will provide an additional level of support for capital improvements.

Factors Affecting Revenue

Subject to annual appropriations by City Council, the City funds long-term capital renewal and replacements of the Long Center with \$300,000 in annual contributions.

Factors Affecting Requirements

As outlined in the amendment to the Restated Lease Agreement, funding may only be used to reimburse GAPAC for future capital improvements as the Long Center facility ages, and its use will require the approval of the City Manager or his or her designated representative and duly authorized representatives of GAPAC. Capital improvements are generally those improvements that materially add to the value of the Long Center, appreciably prolong its useful life, or allow the facility to adapt to new uses. GAPAC will continue to submit its long-term capital improvement plan for the City’s approval as required in the Lease and cooperate in long-term planning with the goal of maximizing the overall condition of the Long Center.

With additional funding from excess balances in FY 2014-15 and FY 2015-16, \$305,256 is budgeted for reimbursements to the Long Center for future for capital improvements in FY 2016-17.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$0	\$300,228	\$300,291	\$300,000	\$300,000
Requirements	\$0	\$295,263	\$300,000	\$300,000	\$305,256

Mueller Tax Increment Financing Fund

Purpose and Nature of Fund

The Mueller Tax Increment Financing Fund was established to account for property tax revenue that is collected in Mueller Tax Increment Financing (TIF) Reinvestment Zone No. 16, which was created by the City Council in December 2004. This revenue is transferred to the Mueller Local Government Corporation to be used for debt service and associated costs for bonds issued to finance the redevelopment of the former site of Robert Mueller Municipal Airport. The redevelopment project includes single- and multi-family housing as well as commercial, retail, and medical buildings.

Factors Affecting Revenue

To assist in the financing of the Mueller redevelopment project, the City of Austin formed TIF Reinvestment Zone No. 16 in accordance with State law. In a TIF, one or more political subdivisions contribute up to 100% of the property tax on the increase in value of real property in the district—the tax increment—for purposes established by the TIF Project Plan. Under the terms of TIF Reinvestment Zone No. 16, the City of Austin will contribute 100% of its tax increment. In FY 2016-17, it is projected that the TIF will generate \$4.5 million.

Factors Affecting Requirements

The Mueller redevelopment project is funded, in part, by the issuance of debt that is being repaid primarily from the tax increment revenue collected during the duration of TIF Reinvestment Zone No. 16. For FY 2016-17, \$4.5 million is the anticipated amount of the transfer to the Mueller Local Government Corporation for debt service and associated costs.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

Requirements	\$2,507,431	\$3,228,770	\$3,703,004	\$3,946,349	\$4,485,670

One Texas Center Fund

Purpose and Nature of Fund

The One Texas Center Fund accounts for revenue, operating expenses, and debt service requirements for One Texas Center, a City-owned office tower located on Barton Springs Road. This fund receives rental income from the building's tenants, collects a small amount of parking fees, and provides a transfer payment to the City's General Obligation Debt Service Fund.

Factors Affecting Revenue

One Texas Center is the location of the City's One Stop Shop for development activity and houses staff from Public Works, Watershed Protection, Development Services, Planning and Zoning, Human Resources, Communications and Technology Management, Transportation, and Fire departments. Revenue for FY 2016-17 in the amount of \$1,643,384 consists of rental payments and parking fees less operating expenditures including utilities, contract services, administration, and repairs and maintenance that are paid to Lincoln Property Company for managing One Texas Center.

Factors Affecting Requirements

Requirements for FY 2016-17 consist of a transfer payment to the City's General Obligation Debt Service Fund in the amount of \$1,583,384 and a transfer payment to the Building Services Capital Budget of \$1,500,000 to replace the existing chiller and cooling tower. This Fund is budgeted to end the year with a balance of \$241,990.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$1,988,403	\$2,567,560	\$2,255,000	\$1,751,467	\$1,643,384

Police Asset Forfeiture Funds

Purpose and Nature of Fund

Asset forfeiture is a valuable tool used by society to take back the “profits” from the criminals who illegally obtain them. Federal and state legislation provide for the civil forfeiture of property to law enforcement agencies when such property is:

“Used or intended to be used in the commission of a crime, or proceeds gained from the commission of a crime, or acquired with proceeds gained from crime.”

The Austin Police Department (APD) on its own, or in conjunction with other local, state or federal agencies, seizes property which it considers to be illegally obtained. A civil court proceeding is then initiated against the property. If the court finds the property is contraband, the court may award the property to the seizing agency or agencies. Both state and federal laws dictate that once awarded, forfeited funds be used to increase the local budget and not to supplant existing law enforcement resources; nor may the existence of an award be used to offset or decrease total salaries, expenses, or allowances that are appropriated to an agency.

Factors Affecting Revenue

Both federal and state statutes mandate that law enforcement agencies should never anticipate receiving future funds and prohibit budgeting for the expenditure of asset forfeiture funds that have not already been received, though agencies may budget for the expenditure of funds that have been received. Therefore, APD’s asset forfeiture funds do not project any forfeiture revenue. Future appropriations will be based on actual forfeiture amounts received.

Factors Affecting Requirements

The budgeted expenditures from the Federal Department of Treasury Asset Forfeiture Fund for FY 2016-17 total \$1,050,757. Planned expenditures from the fund include \$840,000 in capital purchases, \$100,000 for police commodities, and \$110,757 for contractual agreements. The budgeted expenditures from the Federal Department of Justice Asset Forfeiture Fund for FY 2016-17 total \$2,339,544 and the planned expenditures from the fund are comprised of \$1,203,544 in capital purchases and \$1,136,000 for contractual agreements, including \$1,000,000 for DNA testing of sexual assault kits.

The budgeted expenditures from the State Contraband Asset Forfeiture Fund for FY 2016-17 total \$787,838. Planned expenditures from the fund include \$578,320 in capital purchases, \$9,518 for contractual agreements and \$200,000 for police commodities.

The State Gambling Forfeiture Fund accounts for proceeds from the sale of property forfeited through the courts under the Texas Code of Criminal Procedure related to disposition of gambling paraphernalia. The budgeted expenditures from the State Gambling Asset Forfeiture Fund for FY 2016-17 total \$565,599. Planned expenditures from the fund include \$100,000 in capital purchases, \$65,599 for contractual agreements, and \$400,000 for police commodities.

Rutherford Lane Facility Fund

Purpose and Nature of Fund

The Rutherford Lane Facility Fund is a special revenue fund that accounts for revenue, operating expenses, and debt service requirements for the Rutherford Lane Facility, a City-owned site including four buildings on 33 acres of land located on Rutherford Lane. This site, purchased in January 2006, reduces the need to lease space for ongoing City operations.

Factors Affecting Revenue

The Rutherford Lane Facility houses several City departments and offices, including Austin Resource Recovery, Austin Code, Health and Human Services, Labor, Police Monitor, and Homeland Security and Emergency Management, some Austin Energy programs, some Police Department programs, and the 311 Call Center. Rent received from these City departments covers the operating and debt services costs of the facility. Historically, this fund operated at a loss due to low occupancy. However, over the past few fiscal years, occupancy has steadily increased and the fund has achieved stability. In FY 2016-17, rent revenue will decrease from previous years to \$3,488,071 due to the removal of \$250,000 for prior expenditure recovery.

Factors Affecting Requirements

In FY 2016-17, Rutherford Lane Facility operations and maintenance expenses are \$2,204,343 and debt service payments are \$1,283,728. Additionally, there is a \$600,000 transfer to the Building Services Capital Budget for drainage improvements. The fund is budgeted to end the year with a balance of \$103,795.

Seaholm Parking Garage Debt Service Fund

Purpose and Nature of Fund

Hospitality Parking and the City of Austin are co-owners of the Seaholm parking garage in accordance with the Master Development Agreement. The Seaholm Parking Garage Debt Service Fund was established to account for the City's share of the parking revenue related to the Seaholm parking garage. This revenue is to be used for debt service and associated costs for bonds issued to finance public improvements associated with the garage. The Seaholm Project includes the repurposed historic generator building and property into a multi-use space including mix of office space, condos, retail shops and restaurants, green space and the garage.

Factors Affecting Revenue

Parking garage revenue collection began in March 2014 for Second Street retail activities. FY 2016-17 parking revenue coincide with completion of construction and increased retail, residential, and office development in the area. Economic Development agreements currently allow Second Street retail and restaurant businesses to provide some validated parking to encourage patronage. All revenue collected through the Seaholm District parking garage must be used for debt service, and parking garage operations. The Seaholm Parking Garage Debt Service Fund will receive \$451,321 in FY 2015-16 and \$500,000 in FY 2016-17, the City's share of parking revenue from co-owners, Hospitality Parking.

Factors Affecting Requirements

The Seaholm District parking garage was funded, in part, by the issuance of debt that is repaid primarily through garage revenue collection. In FY 2016-17 the Seaholm Parking Garage Debt Service Fund will transfer out \$700,000 to the General Obligation Debt Service Fund.

Garage operating expenses, including maintenance repairs, operator management costs, and utilities, are paid for by Hospitality Parking.

Seaholm Tax Increment Financing Fund

Purpose and Nature of Fund

The Seaholm Tax Increment Financing Fund was established to account for property and sales tax revenue that is collected in Seaholm Tax Increment Financing (TIF) Reinvestment Zone No. 18, which was created by the City Council in December 2008. This revenue is transferred to the Seaholm TIF to be used for debt service and associated costs for bonds issued to finance public improvements associated with redevelopment of the former Seaholm Power Plant. The TIF No. 18 Project Plan includes repurposing the historic generator building and construction of a public plaza, bike/pedestrian infrastructure, and street and utility infrastructure.

Factors Affecting Revenue

To assist in the financing of the Seaholm Redevelopment Project, the City of Austin formed TIF Reinvestment Zone No. 18 in accordance with State law. In a TIF, one or more political subdivisions contribute up to 100% of the property tax on the increase in value of real property in the district—the tax increment—for purposes established by the TIF Project Plan. Under the terms of TIF Reinvestment Zone No. 18, the City of Austin will contribute 100% of its tax increment. In FY 2016-17, the TIF will generate \$894,051.

Factors Affecting Requirements

The Seaholm Redevelopment project will be funded, in part, by the issuance of debt that is repaid primarily from the tax increment revenue collected during the duration of TIF Reinvestment Zone No. 18.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$92,289	\$301,730	\$534,138	\$879,851	\$894,051
Requirements	\$0	\$0	\$0	\$816,000	\$0

Second Street Tax Increment Financing Fund

Purpose and Nature of Fund

The Second Street Tax Increment Financing (TIF) Fund was established in October 2000 to account for property tax revenue that is collected in a contiguous geographic area that includes Blocks 2, 3, 4 and 21 of the Original City Subdivision and which is generally bounded by San Antonio Street, West Cesar Chavez Street, Colorado Street and West Third Street. The purpose of the fund is to maintain the plazas, streetscapes, and other public improvements constructed and installed by the City within the Reinvestment Zone.

Factors Affecting Revenue

To assist in the maintenance of the plazas, streetscapes and other public improvements, the City of Austin formed TIF Reinvestment Zone No. 15 in accordance with State law. In a TIF, one or more political subdivisions contribute a portion of the annual incremental tax revenue from the property tax on the increase in value of real property in the zone—the tax increment—for purposes established by the TIF Project Plan. Under the terms of TIF Reinvestment Zone No. 15, the General Fund will contribute \$100,000 annually to the fund. In FY 2015-16 an additional \$600,000 was transferred in from the Budget Stabilization Reserve Fund to cover non-routine maintenance.

Factors Affecting Requirements

Maintenance of public improvements is funded by tax increment revenue collected over the duration of TIF Reinvestment Zone No. 15. In FY 2015-16 the estimated expenditures total \$166,383 for grounds maintenance and improvements, utilities, and landscaping services. The FY 2016-17 Budget includes \$600,000 to be used for Blocks 2 & 4 Wastewater Improvements and \$191,980 for grounds maintenance, landscaping, and utilities. In FY 2016-17 there will also be a transfer in the amount of \$130,961 to the General Fund.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

Requirements	\$108,480	\$149,314	\$166,383	\$600,000	\$922,941

South Congress Public Improvement District

Purpose and Nature of Fund

The South Congress Public Improvement District Fund is a special revenue fund established for the purpose of operating the South Congress Public Improvement District (PID). In 2014, property owners on South Congress Avenue petitioned the City Council to establish the South Congress PID. The property owners incorporated as a nonprofit 501(c)(6) organization as the South Congress Improvement Association (SCIA) to contract with the City to manage the PID. Over 50 % of property owners representing over 50 % of the property valuation have signed petitions to establish the PID. The SCIA will be funded by the South Congress PID, where properties are assessed an additional \$0.20 per \$100 in assessed value for properties in the District.

Factors Affecting Revenue

Assessment revenue and interest for FY 2016-17 is \$129,332 and an additional \$2,679 will be transferred in from other funds.

Factors Affecting Requirements

Total requirements for FY 2016-17 are \$132,011 for costs incurred as part of the public improvement district service and assessment plan.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$0	\$88,247	\$121,602	\$109,339	\$129,332
Transfers In	\$0	\$0	\$2,847	\$2,751	\$2,679
Requirements	\$0	\$0	\$191,515	\$191,515	\$132,011

Tourism and Promotion Fund

Purpose and Nature of Fund

The Tourism and Promotion Fund is a special revenue fund that receives 1.45 cents of the 9.0 cent Hotel Occupancy Tax, per City Code, to promote conventions and tourism for Austin through a contract with the Austin Convention and Visitors Bureau (ACVB). Hotel Occupancy Tax is governed by state statutes, bond covenants, and local ordinances and must be utilized accordingly.

ACVB's mission is to market and sell Austin as a premier business and leisure destination, enriching Austin's hospitality industry and the community's overall quality of life. Tourism directly supports additional local jobs, wages, retail sales and contributes to the taxing jurisdictions. More information about the ACVB is available at www.austintexas.org.

Factors Affecting Revenue

FY 2016-17 funding of \$14.6 million is from an allocation of Hotel Occupancy Tax receipts. Funding from this source is 14.1% higher than the FY 2015-16 Budget and 3.0% above the estimated receipts for FY 2015-16. As the Hotel Occupancy Tax collections increase, the revenue transferred to this fund will increase.

Factors Affecting Requirements

The total requirements are \$16.5 million, which is 13.8% higher than the FY 2015-16 Budget. Tourism and promotion activities are performed by ACVB through a contract with the City. ACVB concentrates its efforts and resources on national and international conventions and group sales, travel industry sales and services, historic preservation, client tours, trade shows, support of the local music and film industry and innovative marketing programs. Efforts of ACVB attract millions of visitors to the metropolitan area annually and generate billions of dollars in regional economic output through conventions, meetings and tourism. In FY 2016-17, Council approved utilizing the Tourism and Promotion Fund to pay for other promotional activities that meet the requirements of the state statutes governing Hotel Occupancy Tax usage.

Austin Energy Utility Revenue Bond – ECC Proceeds Reserve

Purpose and Nature of Fund

The Austin Energy Utility Revenue Bond – ECC Proceeds Reserve Fund will provide funding to help pay the principal and interest used to finance the purchase and remodeling of the current Austin Energy System Control Center, necessitated by the selling of the Austin Energy Energy Control Center in the amount of \$14,400,000. This sale was a component of the Seaholm District redevelopment project.

The Austin Energy Utility Revenue Bond – ECC Proceeds Reserve Fund was created per City Council Resolution 20080214-054.

Factors Affecting Revenue

The FY 2015-16 Budget includes a \$14,400,000 transfer from the Austin Energy Operating Fund less debt service payment of \$118,740.

Factors Affecting Requirements

Expenditure requirements in the Utility Revenue Bond – ECC Proceeds Reserve Fund in the amount of \$284,133 are related to the principal and interest payments for the purchase and remodeling of the current Austin Energy System Control Center.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$0	\$0	\$14,281,260	\$0	\$0
Requirements	\$0	\$0	\$0	\$0	\$284,133

Vehicle Acquisition Fund

Purpose and Nature of Fund

The Vehicle Acquisition Fund was established to fund the acquisition of new and replacement vehicles and equipment for General Fund departments. New vehicles are needed as additional staff or services are added to departments. All assigned vehicles and equipment acquired and maintained by the Fleet Services Department are targeted for replacement according to a useful life replacement guideline developed by the Fleet Services Department. Once a vehicle has reached a predetermined age, which is based on operational and historical performance data, staff reviews the unit's maintenance history and perform a physical inspection. That data, along with funding availability, determines if a vehicle will be replaced.

Factors Affecting Revenue

The Vehicle Acquisition Fund is funded by a transfer in from the Budget Stabilization Reserve Fund (BSRF). It is supplemented by grant receipts and a nominal amount of insurance receipts from General Fund vehicles that have been damaged beyond repair. Due to limited fund availability, a transfer from the BSRF will not occur in FY 2016-17.

Factors Affecting Requirements

Historically, the requirements of the fund are affected by the age and condition of the fleet. The fleet is inspected throughout the year to determine which vehicles should be replaced. Other factors affecting requirements are the availability of funds, including any grant funding that may become available. In FY 2016-17, insufficient funding is available in the BSRF to cover the purchase of new and replacement vehicles. Debt will be used to finance the necessary fleet purchases and will be accounted for in Fleet's Capital Budget.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$87,880	\$56,551	\$85,058	\$0	\$0

Requirements	\$4,503,902	\$12,684,250	\$12,247,025	\$12,247,025	\$0

Waller Creek Tunnel Reserve Fund

Purpose and Nature of Fund

The Waller Creek Tunnel Reserve Fund was established to provide reserve funding for the Waller Creek Tunnel project. The City and County tax increments, as set out in the agreement between the City of Austin and Travis County, will provide funds to pay the costs of the project over the 20-year life of Waller Creek Tax Increment Financing (TIF) Reinvestment Zone No. 17. Collection of TIF revenue began in FY 2008-09 and is scheduled to end in FY 2027-28. To reduce cash flow volatility during the early- to mid-life of the TIF, additional sources of funding for the project have been identified to supplement the available TIF revenue when needed to help cover project costs or debt service. The Fund accounts for the components of the approved financing plan.

Factors Affecting Revenue

Sources of revenue include transfers from the Waller Creek Tunnel TIF Fund, revenue from the Build America Bonds (BABs) program, and funds from Austin Convention Enterprises, Inc. Approximately \$1.2 million in revenue generated by the BABs program is anticipated in FY 2016-17. A transfer in of \$4.9 million from the Waller Creek Tunnel TIF Fund is budgeted for FY 2016-17 to be utilized for debt service payments.

The Hilton Hotel bonds were refunded in December 2006, and the resulting savings provides for the payment of net revenue from the hotel to the Austin Convention Enterprises, Inc. and ultimately to the City of Austin. This net revenue is not hotel occupancy tax revenue, but represents revenue from the hotel project. The use of this revenue strengthens the final Waller Creek Tunnel financing plan by helping to solve cash flow issues in the early years of the TIF before the tax increment has grown significantly. These funds also provide a reserve for unanticipated problems that might be encountered during the long design and construction phases. Following the Great Recession, the hotel industry has seen significant improvement. Hotel project revenues are once again supporting the project, as approximately \$2.0 million in FY 2014-15 and \$3.5 million in FY 2015-16 were received, and an additional \$2.0 million is estimated in FY 2016-17.

Factors Affecting Requirements

As outlined in the TIF project financing plan, should actual costs exceed estimated project costs, then the City of Austin will be responsible for funding those additional costs if they exceed the available TIF revenues to be contributed by the City and Travis County. The Budget includes a General Obligation debt service payment of \$6.8 million in FY 2016-17.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$3,206,603	\$3,266,339	\$4,770,463	\$3,248,486	\$3,229,630
Transfers In	\$6,696,669	\$2,103,749	\$4,069,839	\$4,069,839	\$4,924,908
Requirements	\$6,497,969	\$6,105,583	\$6,794,448	\$6,934,228	\$6,830,716

Waller Creek Tunnel Tax Increment Financing Fund

Purpose and Nature of Fund

The Waller Creek Tunnel Tax Increment Financing Fund was established to account for property tax revenue that is collected in the Waller Creek Tax Increment Financing (TIF) Reinvestment Zone No. 17, which was created by the Austin City Council in June 2007. The funds will be used for principal and interest payments and associated costs for bonds issued to develop the Waller Creek Tunnel, as well as for tunnel operations and maintenance during the term of TIF Reinvestment Zone No. 17.

The purpose of the Waller Creek Tunnel project is to provide 100-year storm event flood protection with no out-of-bank or roadway flooding for the lower Waller Creek watershed. The project will provide flood protection to existing buildings, prevent the flooding of roadway crossings, and reduce the width of the floodplain in the Reinvestment Zone area, essentially containing it within the creekbed. This reduction in floodplain area resulting from the project will increase the amount of developable land area in the lower Waller Creek watershed.

Factors Affecting Revenue

To finance the Waller Creek Tunnel project, the City of Austin formed TIF Reinvestment Zone No. 17 in accordance with State law. In a TIF, one or more political subdivisions contribute up to 100% of the property tax on the increase in value of real property in the district (tax increment) for TIF purposes. Under the terms of TIF Reinvestment Zone No. 17 and the Agreement to Participate in Tax Increment Reinvestment Zone No. 17 between the City of Austin and Travis County, the City of Austin will contribute 100% of its tax increment, and Travis County will contribute 50% of its tax increment.

The first year of tax collections occurred in FY 2008-09. In FY 2016-17, the estimated revenue generated by the City of Austin's tax increment is \$3.4 million, and the contribution from Travis County at 50% of its tax increment is projected to be roughly \$1.4 million.

Factors Affecting Requirements

The Waller Creek Tunnel project will be funded by the issuance of debt that will be repaid primarily from the tax increment revenues collected during the 20-year duration of TIF Reinvestment Zone No. 17. At the end of the 20-year TIF, the City will be solely responsible for all remaining debt and operations and maintenance expenditures. A transfer of \$4.9 million to the Waller Creek Reserve Fund is budgeted for FY 2016-17 to support debt service payments.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$1,929,452	\$2,683,584	\$3,635,504	\$3,490,468	\$4,784,636
Requirements	\$6,696,669	\$2,103,749	\$4,069,839	\$4,069,839	\$4,924,908

Whisper Valley Public Improvement District

Purpose and Nature of Fund

A Public Improvement District (PID) is a defined geographical area established to provide specific types of improvements, services, or maintenance within the defined area that are financed by special assessments levied against all property owners within the defined district for the life of the PID. PIDs may be created pursuant to the laws of the State of Texas (Texas Local Government Code Chapter 372) by a city or county.

The Whisper Valley PID is a mixed-use planned community of about 2,065 acres located east of SH 130, at FM 973, and south of US-290 East in east central Travis County. The PID is in the City's limited purpose annexation and extraterritorial jurisdiction and in the Desired Development Zone. The planned development includes approximately 7,500 single and multi-family homes and more than 2 million square feet of retail and office space. In addition, 700 acres of open space are to be dedicated to the City for use as trails and parkland.

On August 26, 2010, the Austin City Council approved Resolution 20100826-026 authorizing creation of the Whisper Valley PID, which provides a financing mechanism for public infrastructure to support the planned community. On November 3, 2011, the Austin City Council approved an ordinance authorizing the issuance and sale of \$15,500,000 City of Austin, Texas Special Assessment Revenue Bonds, Senior Series 2011 (Whisper Valley PID) and \$18,485,168.10 City of Austin, Texas Special Assessment Revenue Bonds, Subordinate Series 2011 (Whisper Valley PID). The Senior Bonds have a 15-year term, while the Subordinate Bonds have a 5-year term. Proceeds from the bond sale funded construction, acquisition or purchase of certain public improvements, capitalized interest, bond reserve funds, and costs of bond issuance.

While PID bonds are outstanding and payable, the PID's budget will be included in the City's Operating Budget and the Austin City Council will take certain annual actions regarding the PID including:

Austin City Council Action	Council Meeting
Approve an ordinance approving <i>proposed</i> assessment roll and setting PID's assessment rate.	Meeting #1
Approve a resolution adopting PID's service and assessment plan.	Meeting #1
Set a public hearing on PID's proposed assessment roll.	Meeting #1
Conduct a public hearing on PID's proposed assessment roll.	Meeting #2
Approve an ordinance authorizing <i>final</i> assessment roll and levying special assessments.	Meeting #2 or 3

Factors Affecting Revenue

Revenue is generated through the apportionment, levying, and collection of special assessments which are pledged for the repayment of PID bonds issued for the public improvements. The FY 2016-17 PID assessment revenue is estimated at \$16,698,715.

Factors Affecting Requirements

Requirements include debt service payments on the PID bonds and costs of administering the PID. The FY 2016-17 PID assessment requirements are estimated at \$16,698,715.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$0	\$8,409,237	\$16,589,050	\$16,589,050	\$16,698,715
Requirements	\$0	\$3,433,817	\$16,589,050	\$16,589,050	\$16,698,715

Wildland Conservation Fund

Purpose and Nature of Fund

The Wildland Conservation Fund is responsible for the management of the Balcones Canyonlands Preserve (BCP) which preserves over 13,000 acres of City-owned property. The preserve is where the land and ecosystem can function in its natural condition and is not disturbed for purposes of agriculture, urban, or industrial use.

Program activities for BCP are covered under a federal Endangered Species Act section 10(a) permit, issued in May 1996. An interlocal Agreement between Austin and Travis County specifies that funding for implementation of the Balcones Canyonlands Conservation Plan (BCCP) Shared Vision and the permit is shared between the City of Austin and Travis County while each entity is independently responsible for operations and maintenance of preserve lands that they own or acquire. Additionally, revenue generated through sales of BCCP Participation Certificates (mitigation credits) are split evenly between the City and County.

The BCP provides management and administration for a regional preserve system for endangered species. The preserve protects eight endangered species, two neotropical migratory songbirds (the golden-cheeked warbler and black-capped vireo), six karst-dwelling invertebrates, and twenty-seven species of concern living in western Travis County. Management of BCP also allows these areas to act as a sponge and filter, absorbing rainfall, filtering it through plants communities, layers of soil and roots, and releasing it into watershed areas.

Benefits of wildlands:

- Absorb rainfall and reduce flooding
- Protect habitat for a wide variety of wildlife
- Conserve native plants as a genetic seed bank for the future
- Enhance air quality through presence of vegetation
- Filter pollution and dilute impacts of development
- Preserve aspects of cultural history
- Serve as locations for research
- Provide access on some tracts for recreation and education
- Store and slowly release water into creeks, prolonging their flow
- Provide mitigation of public service infrastructure activities that disturb Endangered Species habitat
- Provide an alternative process for private property owners to mitigate their activities that disturb habitat
- Offer beautiful views adding to Austin's quality of life and reputation as a community that values its environment

Factors Affecting Revenue

The Wildland Conservation Fund is funded by payments of permit fees. Fees are collected when private property owners or non-signatory public entities elect to mitigate their projects through BCCP. The fees are based on a schedule established by the BCCP Coordinating Committee, City Council, Travis County Commissioners Court, and U. S. Fish and Wildlife Service.

Factors Affecting Requirements

Requirements for the maintenance of the Balcones Canyonlands Preserves are \$428,455. This year's expenditures will include \$53,455 for hiring two seasonal temporary employees to complete the United States Forest Service Research study, \$25,000 for planning and researching to develop a long-range ecosystem management plan for the Balcones Canyonlands Preserves and \$350,000 to purchase fencing.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved
Revenue	\$291,674	\$225,850	\$621,792	\$253,000	\$253,000
Requirements	\$328,431	\$599,443	\$181,105	\$428,455	\$428,455

Workers' Compensation Fund

Purpose and Nature of Fund

The Workers' Compensation Fund provides payments mandated by state law for City employees' medical expenses associated with job-related injuries and illnesses. The fund also compensates eligible individuals with indemnity payments as required by the State of Texas. In addition, the fund supports other related activities such as safety programs and the Return to Work program. Workers' Compensation expenses are funded entirely by transfers from the General Fund and other City of Austin funds.

Factors Affecting Revenue

The FY 2016-17 Workers' Compensation Fund includes Transfers In totaling \$12.5 million, remaining the same as the FY 2015-16 Amended Budget. The FY 2016-17 Budget also reflects a \$5.8 million beginning balance, a \$1.3 million increase from the FY 2015-16 Amended Budget. These sources provide sufficient funding to meet projected expenses for FY 2016-17.

Factors Affecting Requirements

Requirements for FY 2016-17 for the Workers' Compensation Fund are \$16.2 million, a \$0.3 million increase from the FY 2015-16 Amended Budget. Medical Expenses and Claims Reserve is projected to remain level at \$10.9 million and Operations and Administration is projected to increase \$0.1 million to \$3.6 million in FY 2016-17. Indemnity Payments are projected to increase by \$0.4 million to \$2.3 million, and Settlements and Impairments are projected to increase \$0.2 million to \$1.1 million. Interdepartmental and Expense Refunds are projected to increase by \$0.4 million. The Claims Reserve, which is based on claims expenditures, is projected at \$2.0 million.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

Budget

Volume II
Capital Budget

Capital Budget

The City of Austin regularly undertakes projects to improve public facilities and infrastructure assets for the benefit of its citizens. These projects, collectively referred to as the Capital Improvements Program (CIP), may include construction and renovation of recreation centers and libraries, acquisition of parkland, repaving of streets, replacement of water and wastewater lines, provision of power for residents, and the purchase of new fleet vehicles and IT networks. CIP projects are varied, so some may require years of planning and construction while others may be completed in a shorter timeframe.

Each year, the City of Austin produces a CIP Plan that outlines the various projects, and associated funding and spending plans, that will take place over the upcoming five-year period. The CIP Plan is not intended to be an all-inclusive inventory of the City's capital needs for the upcoming five years. Instead, it outlines the planned projects with available funding sources. Last, the CIP Plan serves as the basis for new appropriations included in the annual capital budget.

The Capital Budget funds major improvements and expansions of City facilities and infrastructure based on the first year needs of projects identified in the City of Austin's CIP 5-year Plan. While the Operating Budget primarily funds the operations of each Department's city business, such as personnel costs and annual facility costs, the Capital Budget primarily funds the total cost of acquiring or constructing a City asset, including design, bidding, and construction. Unlike the Operating Budget, which must make annual appropriations, Capital Budget funds are available until exhausted, over multiple years. The annual Capital Budget provides the necessary additional appropriations to continue existing projects or begin new projects. To learn more about the City's CIP five-year horizon, how the plan is developed, and how it addresses implementation of the Imagine Austin Comprehensive Plan, the FY 2016-17 CIP Five-Year Plan can be found on [Austin Finance Online](#).

Funding the CIP

The CIP is supported by a number of different funding sources, including debt, operating transfers, grants, and various other smaller revenues. The type of funding utilized for a project can vary according to the type of project as well as the department. Debt sources include public improvement bonds (voter-approved General Obligation bond programs), certificates of obligation, contractual obligations, and commercial paper. The use of debt is suitable in capital projects because it promotes intergenerational equity in bearing the costs of the projects in conjunction with enjoying the benefits.

Public improvement bonds (PIBs), certificates of obligation (COs), and contractual obligations (KOs) are all secured by the full faith and credit of the City of Austin and secured by its ad valorem taxing power. While PIBs require voter approval obtained through a bond election, COs and KOs do not. PIBs are a long-term debt instrument that allows the cost of capital investments to be repaid over a specified timeframe, typically 20 years. COs are used for real property purchase and construction, and similar to PIBs, are typically paid for over a 20 year period. KOs are a short-term debt instrument, typically 5-7 years, used to finance equipment or vehicles. To avoid incurring debt and borrowing costs until cash is actually needed, cities can begin the preliminary phases of a project and reimburse the costs incurred with the sale of bonds at a later date through the use of a reimbursement resolution. To save issuance costs the City of Austin's debt issuance is normally sold once each year. In FY 2016-17, \$53.9 million of new appropriations are supported by a reimbursement resolution for General Obligation debt. Another \$178.4 million of new appropriations are supported by a reimbursement resolution for Aviation Revenue Bonds.

The City's priority is to seek voter approval for most tax supported debt. However, adopted financial policies allow for use of COs and KOs if the capital expenditure is urgent, unanticipated, necessary to prevent an economic loss to the City, revenue generating, or is the most cost-effective financing option. The commercial paper (CP) program is utilized by Austin Energy and Austin Water only. CP is very short-term debt, usually due within 30 to 45 days, and utilized as an interim financing mechanism for capital expenditures that provides for lower interest costs and flexibility.

The City's Council adopted financial policies ensure that the City's financial resources are managed in a prudent manner. These policies are reviewed annually for compliance, and changes and additions to the policies are submitted for Council consideration from time to time. Several of the policies have a direct relation to the financing of capital projects. For example, a General Government capital contingency of at most 3% of capital expenditures, but not less than \$2.0 million, is to be budgeted annually. The City also has a financial policy related to the timing of general obligation bond elections that states elections shall be determined by the inventory of current authorized unissued bonds remaining to be sold and an estimated 2 years of authorized unissued bonds shall remain before an election will be held. A complete listing of the City's financial policies is available in the supporting documents section of this document.

Capital Budget

FY 2016-17 Capital Budget Appropriations and Spending

The Capital Budget is a multi-year spending authorization and as a result, there is a distinction between what the City plans to spend in the next fiscal year and the new appropriations required to be approved in the budget. In addition, full appropriations for capital projects are required for contract awards to ensure adequate funding even though that appropriation will most likely not be fully spent in the same fiscal year. New FY 2016-17 CIP appropriations total \$1,116.2 million. The total CIP spending plan for FY 2016-17 is \$862.8 million. The following graphs illustrate a five-year history of Capital Budget appropriations and spending and the various funding sources for FY 2016-17 new appropriations. The increase in spending between FY 2015-16 and FY 2016-17 is due to the implementation of the 2012 and 2013 Bond Programs as well as projects associated with Austin Energy and the Aviation Department. The size and nature of the Austin Energy, Austin Water and Aviation Department projects are very significant and account for \$0.9 billion, or 84.0%, of total new capital appropriations. For more detail about the planned spending for each department, please see the associated Appropriation and Spending Plan Detail pages.

Capital Budget

Bond Program Update

The City currently has four active major bond programs, including 2006, 2010, 2012, and 2013. When a bond program is approved by the voters, the full authorized amount is not appropriated all at once. Instead, it is appropriated in installments in accordance with the prioritization, coordination, and timing of projects over the life of the bond program.

The 2006 Bond Program was approved by the voters on November 7, 2006, and includes seven propositions for a total of \$567.4 million in authorization. Proposition one authorized \$103.1 million in funding for various transportation projects, such as street reconstruction, bicycle and pedestrian infrastructure, and traffic signals. Proposition two authorized \$145.0 million in funding for the design and construction of drainage facilities to improve flood control, erosion control, water quality, and stormwater drainage, as well as the acquisition of open space. Proposition three authorized \$84.7 million in funding for various parks and recreation projects, such as renovation and improvements to existing parks and facilities, trails, swimming

Capital Budget

pools, and parkland acquisition. Proposition four authorized \$31.5 million in funding for community and cultural facilities, including the Zachary Scott Theatre, the African American Cultural and Heritage Facility, the Asian American Resource Center, the Austin Film Studios, the Emma S. Barrientos Mexican American Cultural Center, and the Mexic-Arte Museum. Proposition five authorized \$55.0 million in funding for various affordable housing projects, including rental, home ownership, and home repair. Proposition six authorized \$90.0 million in funding for a new Central Library to replace the Faulk Central Library. Last, proposition seven authorized \$58.1 million in funding for public safety facilities including a joint public safety training facility, a police station, an Emergency Medical Services (EMS) facility, a municipal courthouse, and an animal services center. The last major projects for the program include the new Central Library and a new Municipal Courthouse/Police Substation facility. The Central Library began construction in FY 2012-13 and is projected to open in spring 2017. The Municipal Courthouse/Police Substation project is exploring space planning and location options.

The 2010 Bond Program was approved by the voters on November 2, 2010, and includes one proposition for a total of \$90.0 million in authorization. The focus of the 2010 Bond Program is to enhance mobility in the region through a variety of projects and programs such as street reconstruction, pedestrian, ADA, and bikeway improvements, signals and intersection improvements, and partnership projects. The full \$90.0 million has been appropriated and over 96% has been spent or encumbered to date.

The 2012 Bond Program was approved by the voters on November 6, 2012, and includes six propositions for a total of \$306.6 million in authorization. The 2012 Bond Program was developed in alignment with many of the priority programs of the Imagine Austin Comprehensive Plan, such as investing in a compact and connected Austin, growing and investing in Austin's creative economy, and using green infrastructure. Proposition twelve authorized \$143.3 million in funding for transportation and mobility projects including street improvements, sidewalks, bridge, bikeways, signals, and facilities. Proposition thirteen authorized \$30.0 million for open space and watershed protection acquisition. Proposition fourteen authorized \$77.7 million for parks and recreation projects, including citywide park improvements, facility improvements, and cemetery renovations. Proposition sixteen authorized \$31.1 million in funding for public safety facility improvements. Proposition seventeen authorized \$11.1 million for health and human services facility improvements. Proposition eighteen authorized \$13.4 million in funding for library, museum, and cultural arts facilities improvements including interior and exterior renovations at numerous branch libraries and funding for the Austin Film Studios. The FY 2016-17 Budget includes the last remaining available appropriation of \$10.1 million in the 2012 Bond Program.

The 2013 Bond Program was approved by the voters on November 5, 2013, and included one proposition for \$65.0 million in authorization to support affordable housing which includes rental housing, homeownership, and home repair. The projects and programs are projected to be implemented over a six-year period. The FY 2016-17 Budget includes an additional appropriation of \$14.0 million.

Capital Budget

The table below provides an overview of the various bond program authorizations and activity as of June 30, 2016.

2006 Bond Program

Prop.	Authorization	Expenditures	Encumbrances	Available

Fiscal Year 2016-17 Capital Budget Highlights

The projects included in the FY 2016-17 Capital Budget reflect the City's values and priorities, the community's vision expressed in the Imagine Austin Comprehensive Plan, and the commitment to being the Best Managed City in the country. The City is already making progress on implementing Imagine Austin through its capital investments, such as completing transportation gaps, investing in parks and open space, and financing the development of affordable housing. Sustainability measures are integrated into projects throughout the CIP, including new facility construction and renovations, construction methods, as well as CIP projects that support the City's water and energy conservation and resource recovery programs.

Animal Services. The Animal Services Office will carry out the design phase of the kennel addition project at the Austin Animal Center. Each new building will provide approximately 40 additional kennel runs. The design phase is expected to be complete in fall of 2016 and the bid/construction phases will begin immediately thereafter.

Capital Budget

Austin Convention Center. The work plan includes building improvements projects to better serve its customers, such as escalator improvements, construction of a new elevator in the 2nd Street parking garage, security access upgrades, lighting automation upgrades, garage repairs, construction of a new tasting kitchen converting underutilized areas into event space, and needed IT upgrades at Palmer Event Center (PEC).

Austin Energy. Austin Energy's planned spending includes projects for continued upgrades at the Fayette Power Project to meet federal emission standards for mercury and other toxins, installation of the Domain Plant cooling tower, and the District Cooling Plant 3 construction. AE will also add direct current fast charging stations, transmission and distribution upgrades at various substations, and implement the Avaya Telephony upgrade project.

Austin Public Library. The Library's FY 2016-17 Capital Budget focuses on continued construction of the new Central Library planned to open in spring 2017. In addition, the Department will carry out renovations and improvements at various branches and other facilities, including the University Hills, Pleasant Hill, Will Hampton, Southeast Austin Community, and Willie Mae Kirk Branch locations, as well as at the Zaragoza Warehouse and Austin History Center. The FY 2016-17 Capital Budget for Library has a total of \$6.5 million of new appropriation, of which \$5 million is Certificates of Obligation for the New Central Library.

Austin Transportation. The Austin Transportation Department will further implement components of its signals programs, including additional Pedestrian Hybrid Beacons at various locations throughout the city. Bicycle and pedestrian projects will include completion of 40 miles of new or improved facilities. The Department will also advance multiple mobility improvement projects, including East 51st Street and the IH-35 Capital Corridor Project.

Austin Water. AW projects emphasize replacement and rehabilitation of critical assets throughout the water and wastewater systems, which consist of horizontal assets (pipes, valves, etc.) and vertical assets (treatment plants, pump stations, reservoirs, lift stations, etc.). Furthermore, the work plan continues to emphasize the growth of reclaimed water assets. The focus on rehabilitation and replacement of older assets can reduce operating costs by increasing the efficiency of the system. From FY 2012-16 AW has averaged \$23.7 million in annual appropriations, while spending down prior appropriation to accomplish average annual spending of over \$200 million from FY 2012-15. In FY 2012-13, AW started to limit spending in the CIP due to loss of revenue in the operating fund related to drought conditions. With drought relief in FY 2015-16 more projects are moving forward and a significant appropriation is needed to support the multi-year nature of CIP projects.

Aviation Department. As part of its spending plan of \$276.1 million, the terminal building expansion will begin in fall of 2016. Additionally, the design phase will continue for the Parking Garage – West Lot A, which will provide much needed parking capacity while reducing the development's footprint. Finally, a master plan update providing planning and development guidance to address landside, terminal, and airside facilities for the next 20 years will continue its preliminary phase.

Building Services. The primary focus will be reducing the risk of operational disruptions due to system failures by addressing infrastructure repairs and replacements, including addressing the backlog of deferred maintenance. The plan also includes improvements at One Texas Center, Rutherford Lane, various fire stations, the Public Safety Training Center, and replacement of a chiller at the Rebekah Baines Johnson (RBJ) Center, as well as repairs at multiple City facilities to meet current Americans with Disabilities Act (ADA) compliance requirements.

Communications and Technology Management. Spending will include replacement or upgrades to critical IT infrastructure and to implement IT projects that will help departments meet business needs. Various initiatives include upgrades to the AMANDA case management system, a storage expansion and refresh for the Combined Transportation, Emergency, & Communications Center (CTECC) and public safety, the replacement of public safety radios, and a real estate inventory system. In partnership with the Austin Police Department, CTM will support the deployment of body cameras on police officers. The Department will also continue the replacement of the existing court case management system.

Economic Development. The Economic Development Department will continue work on the Seaholm District Redevelopment, a public-private partnership. The redevelopment will combine cultural and community needs in a unique mixed use setting. City of Austin responsibilities include roadway improvements, the Bowie Underpass, a parking garage, extensive utility work, and the extension of 2nd Street. The Department will also continue managing the partnership between

Capital Budget

the City and Austin Film Society for the development and construction of facilities at Austin Studios, a 2012 Bond Program project.

Fire. The Department will begin construction of the new Onion Creek Fire Station with completion expected in 2018. The Department will continue to work on phase 5 of the women's locker room additions project that includes extensive renovations to the six stations included in the phase.

Fleet. The Department will purchase General Fund and Support Services Fund vehicles, which were previously acquired through the Vehicle Acquisition Fund. In addition, there is funding to support improvements to the Compressed Natural Gas facilities to prevent uninterrupted service and upgrades to the lubrication systems.

Health and Human Services. The Health and Human Services Department will focus on 2012 Bond Program funded facilities projects, including the renovation and expansion of the Women and Children's Shelter. The Women and Children's Shelter project includes renovations to the fire suppression system, expansion of the dining room, ADA upgrades, additional sleeping quarters, expanded child care facilities, expanded parking, and various site improvements.

Parks and Recreation. The Parks and Recreation Department (PARC) will begin on improvements to Eilers, Little Stacy, and Ponciana Neighborhood Parks, redevelopment of Republic Square, development of portions of the Walnut Creek Trail system, and the restoration of the Chapel at Oakwood Cemetery. Additionally, design will continue for a number of interrelated projects planned for Zilker Metro Park, improvements to Wooldridge Square, Phase 1 improvements to Onion Creek Metropolitan Park, Montopolis Recreation and Community Center (with ongoing community input), two new pool renovation projects at Govalle District Park and Shipe Neighborhood Park, and Austin Memorial Park Caretaker's Complex Restoration. The final phase of work will begin for Town Lake Park, including the completion of the Alliance Children's Garden, which will sit directly adjacent to the Liz Carpenter Fountain.

Planning and Zoning. The Planning and Zoning Department will continue its efforts for the zoning code update (CodeNEXT) and Great Streets Program implementation. The CodeNEXT project is a key component of the implementation of the Imagine Austin Comprehensive Plan by updating and simplifying the City's zoning code.

Police. The Austin Police Department has several projects funded by the 2012 Bond Program it will continue implementing in FY 2016-17, including the new Mounted Patrol Facility and Park Patrol/Park Rangers Joint Use Facility. The department is reallocating funds from the Northeast Substation project to allow the Mounted Patrol Facility to move through construction.

Public Works. Public Works will finalize engineering for projects included in the 2012 Bond Program, such as the Upper Boggy Creek Trail and the Country Club Creek Trail Phase 1. Projects included in this work plan address Americans with Disabilities Act-related improvements and sidewalk improvements, the design and construction of the Violet Crown Trail, and the completion of the MoPac mobility bridge over Loop 360. Street construction and rehabilitation projects are underway at the following locations: Colorado Street from 7th to 10th street, 2nd Street Phase 4, Rio Grande from 24th to 29th Street, and Justin Lane from Burnet Road to Reese Lane. The Safe Routes to Schools program will continue efforts to improve transportation networks associated with school routes. The Neighborhood Partnering Program projects include a trail segment to connect Davis Lane to Slaughter Lane, Austin's Baseball Legacy project at Historic Downs Field, and the EM Franklin Green Street project. Finally, the Department will partner with the Economic Development Department (EDD) to initiate the Business Partnering Program, part of EDD's Soul-y Austin Business District Incubator initiative, which will include design and construction of infrastructure improvements adjacent to business districts.

Watershed Protection. Watershed Protection will continue its buyout program of homes in the Onion Creek area. The Department will also implement various water quality projects, such as the Lake Austin – Bulkhead Demonstration Project at Emma Long to showcase a bank stabilization method between the boat ramps at the park while improving the biological function of the shoreline.

In addition to the departmental narrative summaries and appropriation detail pages, de-appropriations are provided. De-appropriations remove budget were revenue did not materialize or is no longer available to the project.

How to Read the Capital Budget

- **Appropriation Category**— The Capital Budget Appropriation Pages give detail on all projects or programs that are receiving new or additional appropriations in FY 2016-17. Departments often receive appropriation by program to allow for multiple, similar projects to receive funding. To review a detailed listing of department projects, please refer to the CIP Plan located on [Austin Finance Online](#).
- **Appropriation**— The Capital Budget, as adopted by City Council, includes appropriations to support the approved capital projects. The appropriation listed is for Council’s approval for FY 2016-17. Unlike the Operating Budget, which authorizes expenditures for only one fiscal year, Capital Budget appropriations are multi-year. They last until the funds are expended, unavailable, or cancelled.
- **2016-17 Spending Plan**— The Capital Budget is a multi-year spending authorization, and as a result, there is a distinction between what the City plans to spend in the next fiscal year and the new appropriations required to be approved in the budget. In addition, full appropriations for capital projects are required for contract awards to ensure adequate funding even though that appropriation will most likely not be fully spent in the same fiscal year. Spending is associated with the department providing the funding for each project. For example, a street reconstruction project is the responsibility of the Public Works Department, yet these projects often include the participation of Austin Water as they take the opportunity of the opened street to replace water and wastewater lines. To show the true cost of a department’s capital program, the AW funding for the project is included in the AW budget.
- **Appropriation Detail**— The Appropriation Detail provides the accounting and funding sources for each new 2016-17 appropriation. In order to finance capital expenditures, various City funds transfer current revenue to the Capital Budget as well as utilize grants and other outside sources. The City also issues debt to finance projects. To avoid incurring debt and borrowing costs until cash is actually needed, cities can begin the preliminary phases of a project and reimburse the costs incurred with the sale of bonds at a later date through the use of a reimbursement resolution.

FY 2016-17 Capital Budget

Appropriations and Spending Plan Summary

Department	FY 2016-17 Appropriation	FY 2016-17 Spending Plan
Animal Services	\$0	\$3,800,000
Austin Convention Center	\$50,065,104	\$9,238,412
Austin Energy	\$189,180,000	\$178,233,032
Austin Public Library	\$6,480,000	\$6,210,477
Austin Resource Recovery	\$8,114,696	\$9,682,196
Austin Transportation	\$4,993,100	\$8,264,754
Austin Water	\$545,238,208	\$164,898,166
Aviation	\$203,329,892	\$276,081,224
Building Services	\$4,848,000	\$7,337,860
Communications and Technology Management	\$16,637,923	\$32,189,809
Development Services	\$1,000,000	\$1,060,828
Economic Development	\$0	\$8,923,837
Emergency Medical Services	\$0	\$1,891,066
Fire	\$600,000	\$5,552,930
Fleet	\$17,930,000	\$7,779,813
Health and Human Services	\$2,900,000	\$5,902,321
Neighborhood Housing and Community Development	\$14,061,080	\$17,536,216
Parks and Recreation	\$13,205,247	\$22,761,720
Planning and Zoning	\$1,228,385	\$2,092,574
Police	\$0	\$3,795,523
Public Works	\$3,563,284	\$44,006,199
Watershed Protection	\$32,828,995	\$45,537,773
Total CIP	\$1,116,203,914	\$862,776,730

Department Summaries and Appropriation Detail

Animal Services Office

Background

The Austin Animal Services Office (ASO) provides sheltering, enforcement and prevention services for Austin and the unincorporated areas of Travis County. In partnership with community organizations, Animal Services provides a safety net for lost and homeless pets and is committed to sustaining Austin's No Kill goal of finding live outcomes for at least 90% of the companion animals that enter the shelter each year.

The Capital Improvement Program (CIP) includes the kennel addition project that will increase ASO's capacity to serve the increasing number of animals being brought into the Austin Animal Center annually and maintain a very public and safe facility.

Prior Year Accomplishments

The Animal Service Center Rehabilitation project is in its final construction phase, with the final HVAC control upgrades completed by the end of FY 2015-16. The Animal Center Kennel Expansion project completed the preliminary phase at the end of the FY 2014-15 and is currently in the design phase.

FY 2016-17 Spending

The Fiscal Year 2016-17 work plan includes the construction of the new adoption kennels at the Austin Animal Center. The current center capacity has 56 fewer large dog kennels than TLAC and has caused the center staff to make use of 60 runs at the old TLAC facility. The construction project will also allow additional space for potential adopters to interact with animals and improve the adoption process, making it more likely that a potential adopter will not walk out without an adopted animal.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of ASO's planned capital improvements.

Funding Sources

All current ASO capital funds utilize Certificates of Obligation.

Austin Convention Center

Background

The Austin Convention Center Department (ACCD) manages the Austin Convention Center (ACC), the Palmer Events Center (PEC), and three parking garages. The mission of ACCD is to “provide outstanding event facilities and services to our customers so they can have a positive experience.” Building enhancements contained within the Capital Improvements Program (CIP) help achieve this mission, including optimizing areas within the facilities for client event space. A Long-Range Master Plan, which recommends expanding the ACC, has been presented to Council for their consideration. If expansion plans were approved by Council, substantial future capital expenditures would be needed. The ACCD CIP realizes the importance of strategic financial planning, and incorporates transfers into the capital budget from operating funds to allow for optimal long-term financing options for capital requirements anticipated, given the age and current state of our facilities. ACCD projects include facility improvements, renovations, expansions and technology.

Prior Year Accomplishments

Projects recently completed at the Convention Center include: sidewalk concrete replacement; Cesar Chavez site improvements, which created new outdoor venue space; and cash room upgrades at the Convention Center and garages. There are many projects anticipated to be completed or to reach milestone phases in FY 2015-16. The most significant of these projects are escalator/elevator upgrades, 2nd Street Garage elevator construction, Waller Pavilion development, the In-Vision tasting kitchen, and PEC electrical upgrades.

FY 2016-17 Spending

For the ACCD, escalator repair is a top priority to improve pedestrian flow and move large numbers of attendees safely. The work plan also includes other projects such as construction of a new elevator in the 2nd Street parking garage, security access upgrades, lighting automation upgrades, garage repairs, construction of a new tasting kitchen converting underutilized areas into event space, and needed IT upgrades at PEC.

Operations and Maintenance Impact

Nearly all of the planned capital improvements will result in no additional operating and maintenance costs in FY 2016-17. The newly constructed 2nd Street garage elevator will have minimal costs through future maintenance agreements.

Funding Sources

The funding sources typically utilized by the ACCD for CIP projects include cash transfers from operating funds.

Austin Convention Center

Account	Funding Source	Appropriation
Palmer Events Center (PEC) Improvements		
Facility improvement and renovation projects that may include technological upgrades.		
8900 8207 0055	PEC Operating Fund	\$2,972,333
Convention Center Improvements		
Planned improvement and renovation projects for the Austin Convention Center that may include parking garage upgrades and repairs, security access upgrades, lighting automation, and construction of a new tasting kitchen converting underutilized areas into event space.		
8900 8207 4003	Convention Center Operating Fund	\$35,507,043
Convention Center North Side Improvements		
Planned improvement and renovation projects for the Austin Convention Center that may include major escalator repair and replacement, security access upgrades, lighting automation upgrades, and acoustic upgrades.		
8900 8207 5000	Venue Project Fund	\$11,585,728
Total New Appropriation		\$50,065,104

Austin Energy

Background

Austin Energy's mission is to safely deliver clean, affordable, reliable energy and excellent customer service. The Capital Improvements Program (CIP) of Austin Energy complements its mission by providing the infrastructure and system assets necessary to do so.

Austin Energy formulates the CIP plan based on several factors including economic growth, customer needs, aging infrastructure, generation resource planning, technology improvements and regulatory requirements. One important factor is the annual update and analysis of AE's system load requirements which takes into consideration economic growth in AE's service territory as well as large customer requests for service. Consideration is also given to internal schedules for replacement of aging infrastructure and technology improvements.

Prior Year Accomplishments

The FY 2015-16 CIP included upgrades to the Sand Hill Energy Center control systems as well as the purchase of an additional gas turbine. At the Fayette Power Project (FPP), work continues on additional environmental controls to address mercury toxins. At the South Texas Project (STP), of which AE owns a 16% share along with two other utilities, work was done on various upgrades to the plant including the security systems and a transformer replacement. There were no major alternative energy projects completed in the fiscal year. In FY 2015-16, the On-site Generation program's major projects included the installation of a new chiller at the Domain plant and piping projects most notably for the Downtown Chiller plant to Brazos loop extension and customer connections for various hotels in the downtown area. In the Customer Service and Metering category, the major project started in FY 2015 and continuing through FY 2016 was the replacement of the Avaya telephony system which will continue into FY 2017. In the Transmission and Distribution category, work continues to meet system load growth and provide reliability and upgrades to the system. Major projects completed include the Gilleland to Tech Ridge transmission circuit 1030 and substation upgrades. Other major projects started or continuing in FY 2015-16 were the Dunlap 123 and Kingsbery 123 substation unit additions, one-way meter replacements, the automated distribution system/outage management system upgrade, and distribution telecom make-ready pole replacements. In the Support Services area, major projects started included data storage technology and cybersecurity enhancements to AE's networks as well as the upgrade to the Openlink market trading software. Completed projects were the Power Plan budget module upgrade and fixed asset analytics software.

FY 2016-17 Spending

The spending plan for FY 2016-17 includes new projects, but the focus will be on completing several on-going projects from prior fiscal years. The projects will enhance system reliability, provide needed infrastructure for growth, and upgrade current systems. There will be continuing upgrades to various systems at the Sand Hill Energy Center, including improvements to the river intake embankment and completion of a water filtration system. There are also upgrades at the Fayette Power Project (FPP) to help meet federal emission standards for mercury and other air toxins, and continued plant upgrades at the South Texas Project. Work will continue on the installation of the chiller replacement and new cooling tower at the Domain plant and the District Cooling Plant #3 construction.

The major Alternative Energy projects in FY 2016-17 will be to continue installing direct current (DC) fast charging stations throughout the AE service territory to expand availability of charging for electric vehicles. There will also be work done in coordination with the Shines Grant – Sustainable and Holistic Integration of Energy Storage and Solar PV (SHINES) Battery Storage Program. Transmission upgrades to the Burleson, Hi-cross, Jett, McNeil and Salem Walk substations will begin. Construction will also begin on a new Gilleland Creek to Techridge 138 kilovolt (kV) line along with work on the McNeil to Mag Plant circuit 977 reconductor and the Techridge to Howard Lane circuit upgrade. FY 2017 will also be the start of the construction on the new Rinard Creek substation. To coincide with the Transmission substation upgrades, there will be Distribution Substation upgrades to Sprinkle unit 123, and upgrades to McNeil 456 and Salem Walk 789. There will also be

major projects continuing for replacement and upgrades of automated two-way meters throughout the system. Other major projects include a 1.6 Megawatt battery storage project at the Mueller development as part of the SHINES project, and continuing work on the Conservation Voltage Reduction program. This is in addition to projects to keep up with growth in the system, pole replacements for new attachments from outside vendors, and other projects within the network to increase reliability.

The only Customer Service and Metering project will be completion of the Avaya telephony upgrade project. The focus of FY 2016-17 will be information technology projects in order to implement the strategic technology roadmap. Projects for this will include improvements to internal networks, data storage, cybersecurity, an upgrade to the MAXIMO work management and inventory system and an Enterprise Management Financial Data System. Other major facilities projects include a new HVAC system for Town Lake Center building, the build out of the System Control Center building and security improvements.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of Austin Energy's planned capital improvements.

Funding Sources

Austin Energy's financial policies, approved by the City Council, outline the funding requirements for its CIP projects. According to these policies, a mixture of current revenue and debt provide funding resources for CIP projects.

Austin Energy

Account	Funding Source	Appropriation
Power Production		
Power production projects include additions and improvements to the generation plants.		
3220 1107 7101	Current Revenue	\$25,740,000
Transmission		
Projects include circuit upgrades and the addition of various transmissions substations.		
3230 1107 2900	Current Revenue	\$10,710,000
3230 1107 2900	Debt - Commercial Paper	\$24,210,000
Distribution & Distribution Substation		
Projects include additions and improvements to and extension of the existing distribution system and substations.		
3250 1107 3101	Current Revenue	\$39,420,000
3250 1107 3101	Debt - Commercial Paper	\$76,680,000
Support Services		
Facility, fleet, security improvement, and information technology system projects will improve Support Services.		
3290 1107 5101	Current Revenue	\$12,420,000
Total New Appropriation		\$189,180,000

Austin Public Library

Background

The Austin Public Library Capital Improvements Program (CIP) supports the department mission to provide easy access to books and information for all ages, through responsive professionals, engaging programs, and state of the art technology in a safe and friendly environment. The Austin Public Library's CIP is organized into two basic categories of projects: 1) new and expanded facilities to meet increasing demand for services from the growing Austin area and 2) facility renovations to maintain the department's inventory of property, equipment, and infrastructure.

Prior Year Accomplishments

The department made progress toward completing the New Central Library project during FY 2014-15 and FY 2015-16. Important project milestones reached include a Topping Off Ceremony on May 22, 2015 as the topmost structural member was set, the building being dried-in or made impermeable to water through the building envelope on September 15, 2015, and the provision of permanent electrical power to the building on December 10, 2015. Substantial completion of construction is anticipated in spring 2017.

Other FY 2015-16 accomplishments include the Pleasant Hill Branch Library Roof Replacement and HVAC Upgrade Project architectural modifications made feasible by the planned relocation of the building's mechanical equipment from interior spaces to a new rooftop location, the Milwood Branch Library entering the construction phase, design development for Austin History Center interior and exterior improvements, Zaragoza Warehouse fire sprinkler upgrade, and renovation of the Will Hampton Branch Library at Oak Hill.

FY 2016-17 Spending

Construction, equipment, and books the New Central Library are the major component of the FY 2016-17 spending plan. Facilities projects from the 2012 Bond Program contribute to projected spending, which include construction of the University Hill Branch Library parking lot, construction to replace the Pleasant Hill Branch Library roof and HVAC, Austin History Center interior and exterior improvements, Zaragoza Warehouse fire sprinkler upgrade, and renovation of the Will Hampton Branch Library at Oak Hill. Finally, spending is planned for improvements to the Southeast Austin Community Branch Library and foundation repairs to the Willie Mae Kirk Branch Library.

Operations and Maintenance Impact

With the opening of the New Central Library to the public, new funding to operate the landmark building is estimated at \$7.2 million for personnel and contractual and commodities plus 68.25 full-time equivalents (FTEs). The additional resources are being added to the Department's operating budget over the three year period of FY 2015-16 through FY 2017-18. The Library Department received \$1.8 million in FY 2015-16 and the remaining appropriations are projected at \$4.2 million in FY 2016-17 and \$1.2 million in FY 2017-18.

Funding Sources

The funding sources typically utilized by the Austin Public Library for CIP projects are General Obligation bonds and transfers from operating funds. In addition to these sources, appropriations in FY 2015-16 toward the New Central Library's construction include funds from certificates of obligation.

Austin Public Library

Account	Funding Source	Appropriation
Building Improvements		
Funding to acquire, design, construct, improve, and equip library facilities. This includes new and expanded facilities and facility renovations.		
8118 8507 A002	2012 GO Bonds P18 <i>Reimbursement Resolution</i>	\$1,405,000
8160 8507 NEW	Austin Resource Recovery Fund	\$75,000
New Central Library		
A new central library constructed to replace the existing, Faulk Central Library. The grand opening is expected in spring 2017.		
8410 8507 0417	Certificates of Obligation <i>Reimbursement Resolution</i>	\$5,000,000
Total New Appropriation		\$6,480,000

Austin Resource Recovery

Background

The mission of the Austin Resource Recovery Department (ARR) is to achieve Zero Waste by providing excellent customer services that promote waste reduction, increase resource recovery and support the City of Austin's sustainability efforts. The Department's Capital Improvements Program (CIP) is guided by the ARR Master Plan, the City's climate protection goals, and federal law. The ARR Master Plan establishes the framework for promoting and implementing programs to minimize environmental impacts and enhance resource conservation opportunities for ARR and Austin citizens for the next 30 years. Major ARR project categories include capital equipment, landfill closures and environmental remediation, and new facility completion.

Prior Year Accomplishments

Accomplishments include repairing flood damage to the FM 812 landfill prior to final closure and heavy- and light-duty equipment acquisitions.

FY 2016-17 Spending

Spending for FY 2016-17 will be for heavy- and light-duty equipment acquisition, carts and equipment purchases for the first phase expansion of the curbside organics collection program, fleet technology upgrades, and facility improvements.

Operations and Maintenance Impact

Along with the purchase of required vehicles, carts and equipment for the organics program expansion, there are anticipated operations and maintenance costs of \$9.1 million over the next five years for 55.0 new positions, fuel, vehicle maintenance, education and outreach expenses.

Funding Sources

ARR's primary funding mechanism for capital projects is debt and transfers from its operating fund. ARR debt service requirements are met through transfers into the General Obligation Debt Service Fund.

Austin Resource Recovery

Account	Funding Source	Appropriation
Vehicles and Equipment		
Provides for vehicle and equipment improvements, upgrades, and replacements for Austin Resource Recovery programs. Vehicles and equipment may range from collection carts to trucks to technology improvements and may include replacements or additions.		
4800 1507 0100	Austin Resource Recovery Fund	\$5,094,696
4800 1507 NEW	Contractual Obligations	\$3,020,000
	<i>Reimbursement Resolution</i>	
Total New Appropriation		\$8,114,696

Austin Transportation

Background

The Austin Transportation Department (ATD) is responsible for general mobility, including the planning, operation and management of the Austin transportation system. The Department's mission is to deliver a safe, reliable and sustainable transportation system that enhances the economic strength of the Austin region. The ATD Capital Improvements Program (CIP) focuses on core areas of multimodal mobility by incorporating regional mobility improvements, arterial congestion and crash risk mitigation, corridor mobility improvements, and demand management (reducing single occupant driving).

Prior Year Accomplishments

Projects completed in the prior year include 220 closed-circuit television cameras and 884 traffic signals added to the Advanced Transportation Management System (ATMS), 4 Pedestrian Hybrid Beacons (PHBs) installed, selection of the top 5 intersections for the Safety Improvement Program, participation in the Vision Zero Action Plan, and the 3rd Street protected bicycle lane that runs from Shoal Creek to Trinity Street. The Department also completed a preliminary engineering report for South Lamar Boulevard.

FY 2016-17 Spending

Mobility improvements projects will include E. 51st Street, the IH-35 Capital Corridor Project, and neighborhood traffic calming projects throughout the city. Arterial congestion and crash mitigation projects will include installation of signals and PHBs at various locations throughout the city, conducting an off-peak traffic signal timing study, and installation of the wireless school flasher system. The active transportation programs will focus on removing key barriers to the bicycle and pedestrian network and continue buildout of the All Ages and Abilities Bicycle Network. The Department will also continue implementation of the corridor studies for North Lamar Boulevard/Burnet Road, Riverside Drive, and South Lamar Boulevard and continue development of the preliminary engineering report for the Guadalupe Street corridor.

Operations and Maintenance Impact

Sustaining the expanding signal system will require up to \$0.5 million yearly for signal retiming studies and regular maintenance. Furthermore, full Advanced Traffic Management System (ATMS) implementation will require up to \$1.0 million annually related to staff and ongoing maintenance costs to address the region's growing multi-modal mobility needs. Active Transportation will require an additional full-time equivalent position to oversee the planning process and implementation of short-term goals. Traffic Engineering will need 6 additional staff to implement Vision Zero Action Plan and Local Area Traffic Management (LATM) projects and address safety concerns.

Funding Sources

Capital funding for ATD projects comes primarily from general obligation bonds and transfers from ATD's operating funds. Supplementary funding sources also include Federal and State grant funds, funds from the Surface Transportation Program and Metropolitan Mobility program (a Federal funding source administered by the Capital Area Metropolitan Planning Organization), and the Capital Metro Build Greater Austin Program.

Austin Transportation

Account	Funding Source	Appropriation
Mobility Improvements		
Funding to design and implement projects intended to improve mobility, including partnership with other agencies in major corridors. May include operational and connectivity projects, reconstruction, intersection improvements, signage, striping, streetscape, pedestrian accessibility, and installation of bicycle facilities.		
8112 2507 A002	2012 GO Bonds P12 <i>Reimbursement Resolution</i>	\$3,650,000
Arterial Congestion and Crash Mitigation		
Funding for design and implementation of intersection improvements to reduce traffic congestion and improve safety, including upgrading existing traffic signals, signal timing, installation of new signals, pedestrian beacons and roundabouts.		
8400 2507 NEW	Parking Fund	\$500,000
Local Area Traffic Management		
The Local Area Traffic Management Program is a request-based program to improve the quality and safety of neighborhood streets by installing traffic calming devices along requested street segments. Projects can be entirely publicly funded, privately funded or through public/private partnership.		
8400 2507 1028	Private Contribution	\$2,100
8400 2507 1030	Private Contribution	\$6,000
Parking Initiatives		
Funding for new pay stations for expansions, major repair and replacement of parking pay stations.		
4730 2507 Various	Parking Fund	\$225,000
Vehicles and Equipment		
Funding for heavy and light duty vehicles and equipment to perform street and transportation system maintenance.		
4720 2507 NEW	Contractual Obligations <i>Reimbursement Resolution</i>	\$430,000
West Campus Parking		
Funding to provide improvements to the West Campus neighborhood streets and sidewalks, and traffic calming.		
4730 2507 NEW	Parking Fund	\$180,000
Total New Appropriation		\$4,993,100

Austin Water

Background

Austin Water's (AW) vision is to be recognized as the best water utility in the best managed city in the country. AW is committed to achieving this goal, while providing safe, reliable, high quality, sustainable, and affordable water services to our customers so that all community needs for water are met while protecting the environment through sustainable practices.

Reliable water and wastewater service is essential to the health and welfare of the community. Continued investment in the utility system is a prerequisite for economic growth and prosperity in the future. AW is a very capital-intensive enterprise, which requires continuous investment in extensive above and below ground infrastructure necessary to serve new growth, ensure system reliability, comply with regulatory requirements, and accommodate the roadway improvements in AW's service area. AW has been recognized for excellence of its services and management practices but faces important challenges in continuing to serve the community. These challenges include financial stability, implementation of a capital improvement program (CIP), and the revenue and cost impacts resulting from increased water conservation.

AW has three utility systems: Water, Wastewater, and Reclaimed. The AW's capital program includes projects defined as rehabilitation of existing infrastructure or new infrastructure, and is organized into thirteen project types which include the following: annexed area, lift station, pump station, rehabilitation, relocation, reservoir, Service Extension Request (SER) reimbursements, transmission/distribution, treatment plant, vehicles and equipment, water reclamation initiative, wastewater collection, and other.

Prior Year Accomplishments

AW spent approximately \$120 million on infrastructure improvements in FY 2014-15 compared to \$202 million in FY 2013-14. AW anticipates spending approximately \$154 million in FY 2015-16 with significant progress in the Treatment Plant, Wastewater Collection, and Water Reclamation project types including the renewal and enhancement of the aging Medium Service Pump Station and electrical infrastructure at the Davis Water Treatment Plant. Wastewater project type milestone accomplishments include the Parmer Lane Interceptor project, which involves the installation of over two miles of large diameter wastewater pipeline along Parmer Lane between Anderson Mill and McNeil roads. AW continued to expand the reclaimed water system in FY 2014-15, starting construction on the reclaimed water main that will serve the downtown area, including the Capitol Complex, Waterloo Park, Austin Community College, and various State of Texas office buildings.

FY 2016-17 Spending

The FY 2016-17 work plan emphasizes replacement and rehabilitation of critical assets throughout the water and wastewater systems, which consist of horizontal assets (pipes, valves, etc.) and vertical assets (treatment plants, pump stations, reservoirs, lift stations, etc.). Furthermore, the work plan continues to emphasize the growth of reclaimed water assets. The focus on rehabilitation and replacement of older assets can reduce operating costs by increasing the efficiency of the system.

Operations and Maintenance Impact

The operating and maintenance costs of the CIP program to the AW FY 2016-17 operating budget are minimal.

Funding Sources

AW Capital Improvements Program projects are financed largely by issue of commercial paper that is later refinanced with long-term debt serviced by AW's revenues. From FY 2012-16 AW has averaged \$23.7 million in annual appropriations, while spending down prior appropriation to accomplish average annual spending of over \$200 million from FY 2012-15. In FY 2012-

13 AW started to limit spending in the CIP due to loss of revenue in the operating fund related to drought conditions. With drought relief in FY 2015-16 more projects are moving forward and a significant appropriation is needed to support the multiyear nature of CIP projects. The construction industry has also seen an increase in construction cost index of 11% from 2011 to 2015. In FY 2016-17 AW is appropriating \$545.2 million that will cover estimated expenses and encumbrances over the next 3-5 years. Future annual appropriations are expected to be more in alignment with annual spending.

The funding source for \$167.2 million of the \$545.2 million is from the Texas Water Development Board (TWDB). The appropriation request to cover TWDB estimated encumbrance provides AW the option to apply for a low interest loan through TWDB's State Water Implementation Fund for Texas (SWIFT) program. This option allows AW to convert current and future project expenditures normally financed with 30-year revenue bonds to a 20-year low interest loan with a reduction in interest rates based on TWDB's AAA bond rating with a 35% discount applied to their market interest rate. The interest rate reductions will save ratepayers financing costs for the funding of projects as compared to the traditional revenue bond financing. Council authorized approval to submit a multi-year loan application to TWDB in April of 2016. AW will bring forward the authorization to execute and negotiate a financing agreement to Council in August 2016 and approval of the loan transaction to Council in November 2016.

AW's CIP is reviewed annually by the Water and Wastewater Commission and Budget Subcommittee of the commission. The Budget Subcommittee meets approximately five times per year to review AW's 5-year financial forecast, proposed budget (if available), and detailed proposed 5-year CIP plan. The Budget Subcommittee will make a recommendation to the full commission for approval of the annual proposed budget. Additionally, the Water and Wastewater Commission recommends approvals for Drinking Water Protection Zone (DWPZ) projects to be included in the proposed 5-year CIP plan as part of our Financial Policies and are briefed on major CIP projects throughout the year.

Aviation

Background

The Aviation Department's mission and vision are to deliver an Austin style service experience while providing the community global access. In order to ensure the long-term success for the business and the community, the Austin-Bergstrom International Airport (ABIA) has fully embraced a model since 2010 that follows four pillars of sustainability: customer and community value, economic sustainability, operational excellence, and environmental stewardship. The Aviation Capital Improvements Program (CIP) complements Imagine Austin and the Department's mission, vision, and these four pillars of sustainability by ensuring that campus facilities are improved, renovated, and expanded to achieve an exceptional level of safety, security, and efficiency in cost-effective and socially responsible ways.

Prior Year Accomplishments

ABIA has experienced record-breaking growth and has accordingly expanded its CIP to address the various facility, infrastructure, and technology needs to meet the related increasing service demands. Construction on the LEED Silver Consolidated Rental Car Facility (CONRAC) was completed, becoming operational on October 1, 2015. Also, construction was completed on the base scope of work on the Terminal East Infill Project, adding approximately 55,000 square feet to the east end of the terminal building, which includes a new large security checkpoint and a greatly expanded federal inspection space for international arrivals. Lastly, construction was completed on the extension of Taxiway Alpha, adding taxiway pavement on the east runway/taxiway system to allow greater traffic flow for aircraft on the east side of the airfield.

FY 2016-17 Spending

As part of the larger Apron and Terminal Expansion and Improvements project, the Apron Expansion project will expand the existing terminal apron to support the terminal building expansion, which will add nine airplane gates to permit additional and larger aircraft access to and from the terminal building. The first of three phases began in early 2016 and apron construction will continue through summer of 2019. The terminal building expansion will begin in fall of 2016. Additionally, the design phase will continue for the Parking Garage – West Lot A, which will provide much needed parking capacity while keeping the development in a smaller footprint. Finally, a master plan update that provides planning and development guidance to address landside, terminal, and airside facilities for the next 20 years will continue its preliminary phase.

Operations and Maintenance Impact

Additional operating and maintenance costs are anticipated in FY 2016-17 as a result of ABIA's planned capital improvements. Expenses are expected to increase \$8.5 million, with \$3.2 million of that total covering new staff to address passenger growth, construction projects, and ABIA's newest facilities.

Funding Sources

The Aviation Department funds its CIP using a combination of cash, revenue bonds, passenger facility charge (PFC) revenue, and Federal Aviation Administration (FAA) grants. PFC revenue is designated for FAA-approved PFC projects and currently pays for debt service on bonds issued to fund the original airport construction. Federal grants are funds that are used for FAA-approved projects, and certain criteria must be met when an application for a project is submitted to the FAA.

Aviation

4910 8107 4050	Airport Capital Fund	\$2,436,750
Total New Appropriation		\$203,329,892

Building Services

Background

The Building Services Department's (BSD) mission is to provide services that support reliable, efficient and sustainable City facilities so that departments can accomplish their missions. The BSD Capital Improvements Program (CIP) focuses on major repairs, remodeling, renovation and replacement of equipment for general government facilities. BSD is aligning its work with the 2012 Strategic Facilities Plan to make immediate and long-term planning decisions regarding the organization's 260 facilities.

BSD divides its CIP for facilities into two categories: major facility repairs and renovations/remodels. Major facility repair projects repair or replace existing building systems, roofs, driveways, parking lots, and other equipment necessary for facility and occupant operations. This category requires funding the Capital Rehabilitation Fund established in the City's financial reserve policies in order to address a significant backlog of deferred maintenance. Renovations and remodels are improvements that reconfigure spaces to suit the needs of occupants or meet sustainability targets.

Prior Year Accomplishments

BSD completed deferred maintenance and refit of Austin Fire Department Stations #7 and #5. There were also various improvements to other fire stations including: electrical panels, roofs, and driveways. The first phase of HVAC improvements were started at The Austin Animal Service Center. The HVAC upgrades are providing improved temperature control and equipment reliability in the Animal Center kennels and main lobby. BSD, in partnership with Public Works and Austin Energy, implemented a strategy to prioritize City buildings that are the best candidates for Retro-Commissioning, a systematic process applied to existing buildings that ensures the building systems are designed, installed, operated and maintained to meet operational needs. BSD began at the Technicenter as a pilot for the Retro-Commissioning process to identify and execute no cost or low cost actions for improving the buildings operational and maintenance.

FY 2016-17 Spending

The BSD FY 2016-17 CIP will be focused on reducing the risk of operational disruptions due to systems failures by addressing infrastructure repairs and replacements with the greatest impact on reliability, including: various improvements at Austin Fire Department stations, One Texas Center, the Public Safety Training Center, replacement of a small chiller at RBJ center, Rutherford Lane facility improvements, Rosewood Zaragoza Neighborhood Center repairs to bring entrances and parking accesses to meet current ADA compliancy, and Municipal and RBJ buildings bathroom repairs to bring them to current ADA compliancy.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of BSD's planned capital improvements.

Funding Sources

BSD typically utilizes transfer from operating funds and debt to fund its CIP projects. In prior years, BSD has received appropriation funded through 2012 Bond Program Propositions 16 and 17 for public safety facilities and health and human services facilities and through transfers from the Support Services Fund, General Fund, and the Budget Stabilization Reserve Fund. The Department will fund some projects outside of the typical transfer through One Texas Center Fund and Rutherford Lane Fund available balance.

8560 7507 NEW	Rebekah Baines Johnson Center Rental Revenue	\$108,000
8560 7507 NEW	Rutherford Lane Fund Transfer	\$600,000
8560 7507 1040	One Texas Center Fund Transfer	\$1,500,000
Total New Appropriation		\$4,848,000

Communications and Technology Management

Background

Communications and Technology Management's (CTM) mission is to provide an excellent customer experience and deliver innovative business technology solutions so that our business customers can deliver city services to residents of the community and the region.

The department's Capital Improvements Program (CIP) is divided into four categories: enterprise business initiatives, department-specific business initiatives, critical technology replacement, and IT infrastructure. Collectively these represent technology improvements for the City. Since FY 2010-11 the City has used an Information Technology (IT) Governance program to prioritize General Fund and Support Services departments' technology related initiatives. Through this process, City business and technology leaders review and prioritize requests for technology projects each year that drive CTM's capital budget.

Prior Year Accomplishments

The Extract/Transform/Load (ETL) tool continues to support the creation of master data sets to enhance the Open Government initiative for the City. Additional functionality to Business Intelligence (BI) was added for Police, EMS, Financial Services, and Human Resources departments as well as for the AMANDA application to provide for faster research, data analysis, reporting, dashboards, and performance analysis. Implementation of an enterprise service bus (ESB) system will continue to reduce failure risks and speed the implementation and upgrade of new Citywide applications. A new public portal has been implemented for the AMANDA Case Management System. Citizens can apply for some permits online and pay fees via credit card, and further expansion for additional permit types is underway. Public safety radio replacements continued for radios which are scheduled for end-of-service by December 2017. A second internet connection was installed to provide additional capacity and resiliency. The project includes internet service from two separate carriers, new network and security infrastructure, and the ability to balance incoming and outgoing traffic.

The Department also continued two major efforts: the Greater Austin Travis County Regional Radio System (GATRRS) and City of Austin Telecommunications Network (COATN) upgrades. The Regional Radio System life-cycle refresh project is nearing completion of Phase 3 (of six), replacing dispatch consoles at CTECC for Austin Fire, Austin-Travis County EMS, and Travis County Sheriff. In Phases 4 through 6, repeaters and antennas will be replaced at communication towers, and the system's operating firmware will be updated. Completion of the project is scheduled for late 2018. The upgrade of COATN provides capacity, reliability, and stability that City applications and systems require, along with improved performance and responsiveness as the network grows. This effort is resulting in a ten-fold increase in network backbone performance, exceptional expandability, and fault tolerance. This project is in its final phase.

FY 2016-17 Spending

The CTM CIP plan for FY 2016-17 includes ongoing projects from the FY 2015-16 prioritized IT Governance project portfolio list along with new projects approved through IT Governance for FY 2016-17, which include:

- AMANDA Upgrade – this project continues to enhance system capabilities and provide improved mobile operability, expansion of online services to citizens, and integration with other enterprise systems.
- Business Intelligence – this software allows the ability to produce reports with dashboards by translating data into meaningful and useful information.
- Enterprise Service Bus – this system provides multiple City departments the ability to design and implement data interchange communications between mutually interacting software applications.
- CTECC & Public Safety Storage Expansion and Refresh – storage consolidation to most efficiently utilize storage units
- Body-Worn Cameras – implementation of body-worn cameras for Austin police officers

- CTECC Video Wall Replacement (Phase 2) – Austin Police, Austin Fire, Austin/Travis County EMS, Travis County Sheriff and TxDOT use the traffic camera video display wall in daily operations.
- Single Electronic Health Management System (Health and Human Services) – project to provide an integrated electronic health records system designed for public health to manage single case files across various programs and services.
- Community Connections (Google Fiber) – upgrades to various City of Austin facilities to be able to utilize Google Fiber
- Emergency Operations Center (EOC) Audio Visual replacement – replacement of audio equipment in the emergency operations center that is end of life or support is no longer available
- Permitting GIS Integration (Austin Transportation) – this application is an interface that allows applicants to reserve street segments for construction, utility coordination, events, and others in the right-of-way.
- Special Events Permitting (Austin Transportation, Fire, Police, Austin Resource Recovery, Economic Development, EMS, Health and Human Services, Parks and Recreation, Planning and Zoning, and Development Services) – consolidated database for special event related permits
- Security Event Management – implementation of a system to monitor and detect security events on the network with execution of the proper responses to those events
- Data Center Relocation – The design effort for will continue for the City’s primary data center that has reached end of life and needs to be re-located to provide adequate disaster recovery and resilient infrastructure support
- Real Estate Inventory (Office of Real Estate Services) – system to track all City-owned and leased real estate
- JEMS court case management system (Municipal Court) – replacement of existing court case management system

The CTM work plan for FY 2016-17 also includes continuing infrastructure and critical replacement projects, such as the GATRRS public safety radio replacements.

Operations and Maintenance Impact

Additional operating and maintenance costs in FY 2016-17 as a result of CTM’s planned capital improvements include \$100,000 for the APD Body Camera Project. This amount is included in the CTECC and Wireless Budgets.

Funding Sources

The majority of CTM’s CIP funding source is cash transfers from operating funds. Larger projects, such as COATN, have been funded with debt. Some additional funding is also provided through grants, and outside agency partnership contributions, etc.

Communications and Technology Management

Account	Funding Source	Appropriation
Technology Improvements		
Technology Improvements fund critical replacements, infrastructure projects, and enterprise and departmental IT initiatives to assure that technology can be replaced as it ages and/or is no longer supported, including upgrades to citywide systems.		
8641 5607 Various	CTM Fund	\$8,518,763
	CTECC Fund Transfer	\$2,276,485
	Wireless Fund Transfer	\$5,592,675
	Budget Stabilization Reserve Fund Transfer	\$250,000
Total New Appropriation		\$16,637,923

Development Services

Background

The mission of the Development Services Department (DSD) is to provide comprehensive development review and inspection services to build a better Austin. The DSD Capital Improvements Program (CIP) focuses on projects that support improving development review services through technological enhancements.

Prior Year Accomplishments

Improvements made in FY 2015-16 include expansion of services through the online Austin Build+Connect portal. The portal has a large selection of the permits available for online application, which will allow DSD to phase out fax submission for permits, which averaged almost 100 per day in 2014. Additionally, DSD initiated development of a new online signup solution, Qless, which allows customers to “get in line” from their home, office, or mobile device before arriving, including the ability to manage their place in the queue using a smartphone or the web. DSD also continued electronic plan review (ePlan Review) program development. When fully implemented, these improvements will save the City and applicants substantial time, money, and resources by reducing the number of paper plans and providing an online central “hub” for project groups to communicate and collaborate simultaneously. Finally, DSD initiated migration of the underground storage tanks and fiscal surety legacy applications to the Application Management and Data Automation (AMANDA) platform.

FY 2016-17 Spending

In FY 2016-17, DSD will continue to expand and improve development services through technological enhancements. The projects will be dedicated to adding services available through the Austin Build+Connect portal and electronic plan review. Internally, upgrading and enhancing the use of the AMANDA application for permitting and case management will continue, which will include moving to version 7 when released in 2017.

Operations and Maintenance Impact

As a result of the planned capital spending for technology improvements, DSD will likely incur additional operating costs for contractals and commodities, including ongoing maintenance and licensing for each new software or enterprise system.

Funding Sources

Funding sources for the DSD CIP come from the development surcharge fee.

Development Services

Account	Funding Source	Appropriation
Technology Improvements		
Funding for technology improvements and automation systems to support and improve the development review process.		
8405 6807 5000	Development Surcharge	\$1,000,000
Total New Appropriation		\$1,000,000

Economic Development

Background

The purpose of the Economic Development Department (EDD) is to increase the prosperity of all our citizens, businesses and entrepreneurs, and neighborhoods and communities. The goal is to enhance livability and economic viability in a manner that preserves the character of Austin and its environment. EDD's Capital Improvements Program (CIP) complements the Department's purpose by supporting redevelopment projects with public infrastructure and providing fiscal and contract management of the Arts in Public Places (AIPP) Program related to other departments' CIPs.

Prior Year Accomplishments

The EDD CIP project milestones include the completion of the Seaholm Power Plant Redevelopment Project; completion and opening of the first phase of the Nueces Street and 2nd Street extensions within the former Green Water Treatment Plant (GWTP) site; sale of GWTP Block 188 and initiation of construction; completion of the Block 1 apartment tower; sale of Block 24 (former Austin Energy Control Center) and initiation of construction of the condominium tower; and in coordination with the Mueller Redevelopment Project, a preliminary engineering report for the East 51st Street mobility improvements project. Numerous AIPP projects were completed, including 19 new public art projects, 7 donation/loans, and 7 art works repairs.

FY 2016-17 Spending

The Seaholm Redevelopment District Projects construction will continue. Projects include the Green Water Treatment Plan Redevelopment project, the railroad underpass at Bowie Street, and former Austin Energy Control Center. EDD Redevelopment will continue to coordinate two new projects that were approved in the 2012 Bond program: a development agreement between the City and Austin Film Society for design, construction, and project management to renovate the former National Guard Armory; and the East 51st Street mobility improvements project to implement a coordinated vision for East 51st Street between IH 35 and Berkman Drive, consistent with the City's Complete Street policy.

EDD AIPP staff is currently managing 50 artwork projects that are funded by other department's CIP projects. In addition, there are repairs slated for at least 7 existing artworks in FY 2016-17.

Operations and Maintenance Impact

No additional operating or maintenance costs are anticipated in FY 2016-17 as a result of EDD's planned capital improvements.

Funding Sources

EDD funds its redevelopment and art projects through a combination of debt and grant funding. Proposition 18 of the 2012 Bond Program includes funding for the design and construction of improvements for Austin Studios.

Emergency Medical Services

Background

The mission of Austin-Travis County Emergency Medical Services Department (EMS) is to provide excellent patient care to anyone, any time, any place, and its vision is to be valued as a collaborative healthcare provider to decrease suffering, improve the health of the community, and save lives. The EMS Capital Improvements Program (CIP) complements this mission and vision by ensuring that the Department can improve and expand service and support capacity. The primary goal of the CIP is to ensure that EMS has adequate infrastructure to continue to provide superior service to the city of Austin and Travis County in an environment that is experiencing increases in population, service volume, and traffic congestion.

Prior Year Accomplishments

In FY 2015-16, EMS completed the construction documents and awarded the bid for construction of the expansion of truck bays at EMS Stations 2, 8, and 11.

FY 2016-17 Spending

In FY 2016-17, EMS will continue the Truck Bays and Facility Improvements project for EMS stations 2, 8, and 11. The project includes building modifications that are needed to accommodate the larger vehicles in the current ambulance fleet and the renovation and expansion of crew quarters as well as improvements to comply with the Americans with Disabilities Act and fire code standards. During FY 2016-17, the project will be under construction.

Operations and Maintenance Impact

The current EMS Truck Bays and Facility Improvements project will increase some utility costs but overall should not have a large impact on EMS's operating budget. The Austin Fire Department's Onion Creek fire station project, which includes an EMS station and is expected to be completed in spring of 2018, will have an impact for staffing and equipment in FY 2017-18.

Funding Sources

The funding for EMS CIP projects is typically from voter-approved bonds. Proposition 16 of the 2012 Bond Program supports public safety facility renovations, improvements, and new construction.

Fire

Background

The Austin Fire Department's (AFD) mission is to create safer communities through prevention, preparedness, and effective emergency response. To assist with this mission, the Department plans to meet its response time goal of arrival on scene in less than 8 minutes from when the call is received 90% of the time. AFD's Capital Improvements Program (CIP) will help the Department meet this and other goals by including the building and maintenance of fire stations, which is the most certain method of reducing response times in areas of the city where the standard of coverage is lacking.

Prior Year Accomplishments

In FY 2015-16, AFD will have completed 85% of the Pleasant Valley and Shaw Lane drill field and tower renovations, the replacement of two driveways in the Fire Station Driveway Replacements project, and the design phase for the the Women's Locker Room Additions Phase 5 project. Additionally, the bid/award/execution phase of the Onion Creek fire station will have begun.

FY 2016-17 Spending

AFD's CIP is project specific and responds to identified needs related to improving firefighter health and safety, maintaining service levels at existing facilities, improving response times in new service areas, and maintaining facilities. The projects are organized into two categories: New Facilities and Facility Modifications.

New Facilities projects involve replacements for existing buildings and new buildings that are additions to the existing inventory. Construction of the Onion Creek Fire Station is underway and projected to be completed in spring of 2018.

Facility Modifications projects involve renovations and additions to existing facilities.

- Shaw Lane / Pleasant Valley Drill Field & Tower Renovation: The remaining 15% of the Pleasant Valley and Shaw Lane Drill Field & Tower renovations will be completed.
- Fire Station Driveway Replacements: The replacement of the remaining five driveways will be completed.
- Women's Locker Room Additions Phase 5: Renovations will be underway and completed in spring of 2018.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of the Facility Modifications projects. The Onion Creek fire station project is expected to be complete in spring 2018 and will add an impact to the Department's budget for staffing, equipment, and utilities in FY 2017-18.

Funding Sources

The funding for AFD CIP projects is typically from voter-approved bonds. Proposition 16 of the 2012 Bond Program authorized funding to support public safety facility renovations, improvements, and new construction including the Onion Creek fire station, driveway replacements, drill field/tower repairs and renovations, and women's locker room additions.

Fire

Fleet Services

Background

The mission of the Fleet Services Department is to provide fleet management services to the City of Austin, to continue building and maintaining positive working relationships while exceeding expectations; and to provide exceptional service in a safe, efficient, environmentally responsible, and ethical manner. Services include managing the full life cycle of all city vehicles and equipment including vehicle and equipment acquisitions, fueling, maintenance, repair, and disposition.

The purpose of Fleet Services' Capital Improvements Program (CIP) is to renovate and upgrade current facilities, ensure environmental compliance, update technology to enhance operations, and to plan for future facility sites.

Prior Year Accomplishments

Service Center & Administrative Facilities

In FY 2015-16, Fleet Services performed general shop repairs and retooling to adequately support on-going operations at its existing facilities. Specific areas of focus included replacing and relocating the air conditioner units at Service Center #8 and repairing the surface of the parking lot that Service Center #6 shares with Fleet's administrative offices. The renovation of the conference room at Fleet Services' administration building was also completed.

Fuel Facilities

In FY 2015-16, Fleet Services completed the installation of Diesel Exhaust Fluid (DEF) storage tanks and dispensers at major fueling sites. DEF is an emissions reduction fluid added at various-fueling intervals. This additive is required by Environmental Protection Agency standards on diesel vehicles models 2010 or newer. These dispensers have allowed the Department to purchase the fluid at a reduced bulk price, as well as integrate the ability to order, receive, track, and manage the fluid as part of its product management system.

Information Technology

Fleet Services expanded its fleet management software by adding a capital asset module that will greatly improve the processing of vehicle requisitions, vehicle replacement eligibility, and tracking. The new module is currently in a testing environment with plans for integration in FY 2016-17.

FY 2016-17 Spending

Service Center & Administrative Facilities

Due to growth and deterioration, many of Fleet Services' facilities need substantial improvements. The Department plans to address multiple issues in FY 2016-17. Plans include repairing water drainage issues and leasing a portable building to serve as office space and a parts room at Service Center #13, and installing an electronic gate and removing mold at Service Center #8. The Department also plans to upgrade and improve lubrication dispensing systems at all service facilities.

Fuel Facilities

Fleet Services plans to purchase and install additional equipment and controls for the Compressed Natural Gas (CNG) fuel facility located at Todd Lane. These new additions will decrease the likelihood of unplanned outages, as well as allow for continued operations in the event of interrupted service. Accessibility issues with the CNG facility will also be addressed by expanding the entryway that leads to the fueling station.

Information Technology

Fleet Services will pilot the replacement of stationary bay terminals at service facilities with mobile tablet devices. The goal is to increase mobility, efficiency, automation, and convenience amongst technicians.

Vehicles and Equipment

In FY 2016-17, the Budget Stabilization Reserve Fund had insufficient funding to cover the purchase of new and replacement vehicles through the transfer to the Vehicle Acquisition Fund. Debt will be used to finance the necessary fleet purchases and will be accounted for in Fleet's Capital Budget. New vehicles are needed as additional staff or services are added to departments. All assigned vehicles and equipment acquired and maintained by the Fleet Services Department are targeted for replacement according to a useful life replacement guideline developed by the Fleet Services Department.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of Fleet Services' planned capital improvements.

Funding Sources

Fleet Services typically funds its CIP projects through transfers from its operating budget and grants.

Fleet Services

Account	Funding Source	Appropriation
Fleet Facility Improvements		
Projects support improvements, repairs, and retooling of existing facilities, as well as the development of future facilities. Projects also support additions, upgrades, and automation of existing fuel infrastructure and development of future fuel sites.

8870 7807 0279	Fleet Services Fund	\$1,250,000
Vehicles and Equipment		
Funding for the acquisition of vehicles and equipment for General Fund and Support Services Fund departments. New vehicles are needed as additional staff or services are added to departments. All assigned vehicles and equipment acquired and maintained by the Fleet Services Department are targeted for replacement according to a useful life replacement guideline developed by the Fleet Services Department.		
8870 7807 NEW	Contractual Obligations	<i>\$16,470,000</i>
Total New Appropriation		\$17,930,000

Health and Human Services

Background

The mission of the Austin/Travis County Health and Human Services Department (HHSD) is to prevent disease, promote health and protect the well-being of our community. HHSD's Capital Improvement Program (CIP) supports this mission by enhancing the ability to provide services, redeveloping and improving infrastructure to accommodate increased demand, and repairing existing facilities. HHSD focuses on project-specific capital improvement plans as there is no ongoing CIP function within the daily operations of the department; however, projects are typically grouped as either a new facility or a facility modification. Projects included in this plan identify needs related to improving community health and increasing or maintaining service levels at existing facilities.

Prior Year Accomplishments

The design phase was completed for the Women's and Children's Shelter and Far South and Montopolis Parking Lot Expansion projects. The Betty Dunkerley Campus (BDC) Infrastructure Improvements and the Animal Center Kennel Expansion project completed the preliminary phase at the end of FY 2014-15 and are currently in the design phase. The Montopolis Recreation and Community Center Request for Qualifications was approved at the end of FY 2014-15 and design meetings with the architects began in the fall. The project is currently in the design phase.

FY 2016-17 Spending

The FY 2016-17 work plan includes several projects that were funded during the 2012 Bond Program:

The Betty Dunkerley Campus (BDC) Infrastructure Improvements will upgrade and widen the interior ring road, address drainage issues, upgrade signage and lighting, create additional parking and create a second entrance to the campus from Gardner Road. This project was combined with the Animal Services Office Kennel Expansion project through a design build in FY 2015-16.

The Women & Children's Shelter Renovation and Expansion will address capacity, renovation, and repair needs for this site, including safety and ADA compliance issues. This facility provides continuous emergency shelter, specialized counseling, basic needs, childcare, and educational services for single women and women with dependent children. The construction phase is scheduled to begin in the fourth quarter of FY 2015-16.

The Montopolis Community Building – Neighborhood Health Center is a project which will develop and construct a new full-service neighborhood recreation center joint use facility in cooperation with the Parks and Recreation Department. The project is currently in the design phase with construction scheduled to begin in FY 2017-18.

Operations and Maintenance Impact

No additional operating or maintenance costs are anticipated in FY 2016-17 as a result of HHSD's planned capital improvements.

Funding Sources

HHSD's capital projects are primarily funded through voter approved bonds. Proposition 17 of the 2012 Bond Program supports design, construction, improvements, and the equipping of health and human services facilities. In FY 2016-17 Certificates of Obligations are being appropriated in the amount of \$2.9 million for the Women & Children's Shelter Renovation and Expansion.

Health and Human Services

Account	Funding Source	Appropriation
Women and Children's Shelter Renovation and Expansion		
Additional funding for design and construction of the Women and Children's Shelter Renovation and Expansion.		
8570 9107 NEW	Certificates of Obligation <i>Reimbursement Resolution</i>	\$2,900,000
Total New Appropriation		\$2,900,000

Neighborhood Housing and Community Development

Background

The mission of the Neighborhood Housing and Community Development (NHCD) Department is to provide housing, community development, and small business development services to benefit eligible residents so they can have access to livable neighborhoods and increase their opportunities for self-sufficiency. The NHCD Capital Improvements Program (CIP) supports affordable housing development in the city through three project categories: Rental Housing, Homeownership, and Home Repair.

Prior Year Accomplishments

Homestead Oaks Apartments: 2013 Bond Program and funds from the FY 2012-13 mid-year General Fund transfer were used by the non-profit Foundation Communities to acquire and construct an affordable 140-unit multi-family development.

GO! Repair Program: 118 low-income homeowners received home repair services through the GO! Repair Program.

FY 2016-17 Spending

Major projects include the Guadalupe-Jeremiah Housing development, the Chicon Corridor development, and the construction of a 50-unit "Housing First" permanent supportive housing facility that will be owned and operated by Austin Travis County Integral Care (ATCIC). A portion of the 2013 Bond Program funds will also be reserved in the event one or more Austin projects receive an award of Low Income Housing Tax Credits from the State.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of NHCD's planned capital improvements.

Funding Sources

The funding for NHCD CIP projects is typically from voter-approved bonds. A small portion of the FY 2016-17 capital budget is from the Domain sales tax remittance. As part of the original Chapter 380 Agreement with the Domain, an additional 2% of the City's one cent sales tax revenue collection from the Domain in the previous year is remitted to the City for deposit to the Austin Housing Finance Corporation to be used for affordable housing.

Total New Appropriation		\$14,061,080

Parks and Recreation

Background

The mission of the Parks and Recreation Department (PAR) is to provide, protect, and preserve a premier park system that promotes quality recreational, cultural, and outdoor experiences for Austin's citizens and visitors. To aid this mission, the PAR Capital Improvements Program (CIP) seeks to implement the goals, objectives, and recommendations set forth within the PAR Long Range Plan and the Department's Business Plan for FY 2016-17 and future years. PAR's CIP consists of both project-specific budgets and program-level funding under the following categories: park improvements, facility renovations and improvements, parkland acquisition and development, cemetery renovations, and Waller Creek district improvements.

Prior Year Accomplishments

PAR reached a number of project milestones throughout FY 2015-16. Master plans were finalized for Emma Long Metro Park, Lamar Beach, Holly Shores/Edward Rendon Sr. Park, and Pease District Park, while the Mexican American Cultural Center began a master plan update. Design was completed for Colony District Park, Ricky Guerrero and Eilers Neighborhood Parks, the renovation of Republic Square, the Veloway Connection Trail, the Oakwood Cemetery Chapel Restoration, various improvements to the Austin Memorial Park Administration Building, and a series of playscape replacement projects funded through one-time capital funding provided in FY 2015-16. Construction was completed for Northwest District Park Pool, the Shoal Creek Greenbelt 15th to 28th Street Restoration, and Sparky Pocket Park.

PAR's CIP is structured to address the most urgent and critical needs for safety, comply with the Americans with Disability Act (ADA), and extend the useful life of existing facilities. PAR has also updated its ADA Transition Plan, which will become part of the Department's overall Asset Management Program and will inform future capital funding requests. Finally, in collaboration with a broad consortium of internal and external partners, PAR was the recipient of a Cities Connecting Children to Nature Planning Grant from the National League of Cities in FY 2015-16.

FY 2016-17 Spending

In FY 2016-17, PAR will see an increased volume of work for projects funded under the 2012 Bond Program as many of these projects will move through preliminary and design phases and into construction. Construction will begin for improvements to Eilers, Little Stacy, and Ponciana Neighborhood Parks, redevelopment of Republic Square, portions of the Walnut Creek Trail system, and the restoration of the Chapel at the Oakwood Cemetery. Additionally, design will continue for a host of interrelated projects planned for Zilker Metro Park, improvements to Wooldridge Square, phase 1 improvements to Onion Creek Metropolitan Park, Montopolis Recreation and Community Center with ongoing community input, two new pool renovation projects at Govalle District Park and Shipe Neighborhood Park, and Austin Memorial Park Caretaker's Complex Restoration. Lastly, the final phase of work for Town Lake Park will begin, including the completion of the Alliance Children's Garden that will sit directly adjacent to the Liz Carpenter Fountain.

Operations and Maintenance Impact

Additional operating and maintenance costs are anticipated in FY 2016-17. Projects such as Circle C Metro Park Veloway Trail improvements, Duncan Neighborhood Park redevelopment, and Georgian Acres Park development will add an estimated \$0.2 million and two FTEs to the Department's budget for staffing, contractals, and commodities.

Funding Sources

The predominant funding source for PAR's CIP is a combination of 2006 and 2012 Bond Programs. Other funding sources include grants, Parkland Mitigation, Parkland Dedication, donations, cash, and various other revenue.

Parks and Recreation

Account	Funding Source	Appropriation
Facilities		
The facilities program is used to construct, renovate, or address critical facility needs for infrastructure such as facilities, athletic fields, playscapes, sport courts, and trails.		
8114 8607 A075	2012 GO Bonds P14 <i>Reimbursement Resolution</i>	\$1,300,000
Golf Course Improvements		
Golf course improvements include a variety of projects for golf courses citywide. These can include improvements for drainage, turf, course buildings, irrigation, and any course-related need.		
8760 8607 9950	Golf Surcharge	\$150,000

Total New Appropriation		\$13,205,247

Planning and Zoning

Background

The purpose of the Planning and Zoning Department (PAZ) Capital Improvements Program (CIP) is to conduct major planning initiatives implementing the Imagine Austin Plan; to implement public improvements identified in the Imagine Austin Comprehensive Plan and small area plans, including neighborhood plans and master plans; and to review, coordinate, and implement public and private streetscape projects through the Great Streets Program. Within Downtown, streetscape improvements are guided by the Great Streets Master Plan and designed according to the Great Streets streetscape standards.

Prior Year Accomplishments

Projects completed in the prior year include implementing 8.5 block faces of Great Streets projects and development of the South Central Waterfront small area plan and implementation report. Finally, PAZ coordinated small area plan priority projects with other departments, such as corridor studies for the South Lamar Boulevard, Congress Avenue, and Guadalupe Street corridors, installation of traffic calming devices and pedestrian hybrid beacons, and projects contributing to the continued reinvestment of the Waller Creek District and Seaholm District.

FY 2016-17 Spending

In FY 2016-17, PAZ will continue to partner with the development community to implement projects under the Great Streets Development Program, work with consultants on the CodeNext land development code revision project, and coordinate with other departments to implement small area plan priority projects approved for funding under the 2012 Bond Program.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of PAZ's planned capital improvements.

Funding Sources

Funding sources for the PAZ CIP typically come from parking meter revenue, Capital Metro, and operating transfers.

Planning and Zoning

The Great Streets program allows the City to leverage above and below ground streetscape improvements made by private developments to share the cost to implementing Great Streets streetscape standards enhancements that go above and beyond the City's minimum requirements.		
8405 6807 2000	Parking Meter Revenue	\$728,385
Total New Appropriation		\$1,228,385

Police

Background

The mission of the Austin Police Department (APD) is to keep you, your family, and our community safe. The Capital Improvements Program (CIP) supports this mission by adding strategically-located police facilities in the city that enhance community-based policing, which in turn build partnerships that foster public trust.

Prior Year Accomplishments

Several APD CIP projects were in progress during FY 2015-16. Additionally, APD started the design-bid-build process to renovate an existing City facility near Festival Beach for the Park Patrol/Park Rangers Joint Use Facility. Finally, the Department began work with the Office of Real Estate Services on site acquisition for a Northwest Substation.

FY 2016-17 Spending

The FY 2016-17 CIP Plan for APD includes various facilities projects from the 2012 Bond Program. Construction lasting approximately 21 months will begin on the Mounted Patrol Facility, which will quarter and provide training space for the animals that support the officers assigned to the unit. Also, the design phase will continue for the Park Patrol/Park Rangers Joint Use Facility, and the Department will complete renovation of an existing facility located at the Public Safety Training Academy for APD Recruitment. Finally, preliminary planning is scheduled to begin for the Northwest Substation.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of APD's planned capital improvements. However, as the new facilities open over the next five years, each one may require additional costs for contractals and commodities, including utilities and ongoing maintenance.

Funding Sources

APD typically funds its CIP projects with voter-approved bonds. Proposition 16 of the 2012 Bond Program supports designing, constructing, improving and equipping police, fire, and emergency medical services facilities. The Department will fund some projects outside of the typical bond projects through grants and a transfer from its operating funds.

Proposition 7 of the 2006 Bond Program provided funding toward constructing, renovating, improving and equipping public safety facilities. As part of Proposition 7, the Municipal Court and Austin Police Department partnered to acquire a site for a new Municipal Court facility and Northeast Police Substation. In 2016 the City started taking a different approach to funding and building new facilities of this nature therefore the unobligated funds can now be used for other projects. FY 2016-17 includes a reallocation utilizing the available balance of the Northeast substation project to facilities for the Mounted Patrol project. The Mounted Patrol project was funded through the 2012 bond program but was severely underfunded to meet the needs of the project. This reallocation is necessary to allow this high priority project to move forward.

Police

Account	Funding Source	Appropriation
Reallocations		
8607 8707 0040	2006 GO Bonds - Northeast Substation	(\$3,298,413)

Net Reallocations		\$0

Public Works

Background

The Public Works Department (PWD) has an organizational mission to provide an integrated approach to the development, design, construction, and maintenance of the City's infrastructure systems and facilities. The nature of the Department's work touches almost every aspect of daily life, and is reflected in PWD's vision statement, **Public Works Connects You All Around Austin**. The Department's Capital Improvements Program (CIP) contains programs that support delivery of services in managing the City's right-of-way, (such as street reconstruction and rehabilitation), as well as programs such as the construction and rehabilitation of urban trails and sidewalks, neighborhood partnering program, and facility improvements.

Prior Year Accomplishments

Projects completed in the prior year included: steady progress complying with the Americans with Disabilities Act (ADA) and sidewalk improvements throughout the city; the Urban Trails program completed the JJ Seabrook stream restoration, rain garden, and urban trail project as well as the MoPac mobility bridge trail over Barton Creek Street improvements were completed at Del Robles Drive in a partnership with Capital Metro; 3rd Street completed two more additional phases; and Harris Branch Parkway was completed to include adding new sidewalks, curb ramps, and curb and gutters. The Neighborhood Partnering Program completed construction on a number of community projects, including community gardens for Cherry Creek and Adelphi Acre, a traffic circle at the intersection of Salina Street and East 22nd Street, and multiple sidewalk segments throughout the city.

FY 2016-17 Spending

PWD will finalize engineering for projects included in the 2012 Bond Program, such as the Upper Boggy Creek Trail and the Country Club Creek Trail Phase I, so they can move into construction in FY 2016-17. As general obligation bond projects are being completed, PWD will see a decrease in overall capital spending from previous years. In the past two years PWD has had an average spending of \$53.2 million, however in FY 2016-17 PWD plans to spend \$44.0 million. Projects included in this work plan are ADA and sidewalk improvements, design and construction of the Violet Crown Trail, and completion of the MoPac mobility bridge trail over Loop 360. Street reconstruction and rehabilitation projects are underway at the following locations: Colorado Street from 7th to 10th street, 3rd Street Phase 4, Rio Grande from 24th to 29th Street, and Justin Lane from Burnet Road to Reese Lane. The Safe Routes to Schools program will continue efforts to improve transportation networks associated with school routes. The Neighborhood Partnering Program projects include a trail segment to connect Davis Lane to Slaughter Lane, Austin's Baseball Legacy project at Historic Downs Field, and the EM Franklin Green Street project. Finally, the Department will partner with Economic Development Department (EDD) to initiate the Business Partnering Program (part of EDD's Soul-y Austin Business District Incubator initiative), which will include design and construction of infrastructure improvements adjacent to business districts.

Operations and Maintenance Impact

No additional operating and maintenance costs are anticipated in FY 2016-17 as a result of PWD's planned capital improvements.

Funding Sources

PWD capital improvements are typically funded through the City's general obligation bond program. The Department will also fund some projects through a transfer from its operating funds.

Public Works

Total New Appropriation		\$3,563,284

Watershed Protection

Background

The mission of the Watershed Protection Department (WPD) is to protect lives, property and the environment. WPD's Capital Improvements Program (CIP) plan supports this mission by addressing the City's most problematic flood, erosion and water quality tissues through storm drain system upgrades, erosion stream bank stabilization, and creek drainage system upgrades. Development of the CIP plan is guided by the WPD Master Plan which was approved by City Council in 2001. Project categories include erosion control, flood control, land acquisition, master planning, capital vehicles and equipment, Waller Creek, and water quality protection.

Prior Year Accomplishments

Some of the notable accomplishments for the WPD CIP include creek flooding mitigation and localized flooding mitigation projects such as the Waller Creek Reilly Pond and the Shoal Creek Ridglea Storm Drain improvements. Additional accomplishments in water quality protection include the Stream Stability Index project that was undertaken to determine what parameters are effective indicators of stream stability and the Barton Creek Zilker Metro Park Disc Golf project which is a joint partnership between the Parks Department and Watershed Protection.

FY 2016-17 Spending

The FY 2016-17 work plan includes water quality projects such as the Retrofit Right of Way with Green Infrastructure project which will coordinate with City departments such as Public Works and Austin Transportation to implement green infrastructure in city right-of-way areas. The Department will also implement flood control projects like Walnut Creek – Flood Mitigation for February Drive Homes which proposes to pursue buyouts for five houses on February Drive that are at high risk of flooding during heavy storm events and will continue the Onion and Williamson Creek neighborhood home buyouts. The department will also initiate various storm drain improvements and alleviate localized flooding.

Operations and Maintenance Impact

The remainder of WPD's planned capital improvements will not result in additional operating and maintenance costs in FY 2016-17.

Funding Sources

WPD utilizes a combination of voter-approved bonds, drainage fees, fee in lieu programs, grants, and Certificates of Obligation to fund its CIP.

The Drainage Utility Fund (DUF) is funded by commercial and residential drainage fees. The DUF supports a variety of WPD activities, including flood hazard mitigation, infrastructure and waterway maintenance, stream restoration, and water quality protection.

The Urban Watersheds Ordinance (UWO) was passed by Austin City Council in 1991. The UWO requires water quality controls on sites being developed or redeveloped within the urban watersheds. A specific provision allows for the payment of a fee in lieu of building on-site water controls when approved by the director of the Watershed Protection Department. Proceeds from fee in lieu payments are deposited in the Urban Watersheds Structural Control Fund and are used for the design and construction of regional water quality facilities in the urban watersheds.

The Regional Stormwater Management Program (RSMP) was established by the Watershed Engineering Division in 1984 as a means of mitigating stormwater runoff from development sites. Instead of building an on-site detention pond, developers have the option of paying a fee to the RSMP-dedicated fund. The RSMP Fund supports a watershed-wide approach to analyzing potential flooding problems, identifying mitigation measures, and selecting sites and designs for regional drainage improvements.

Proposition 2 of the 2006 Bond Program authorized funding for designing, constructing, and installing improvements and facilities for flood control; erosion control; water quality and stormwater draining; and acquiring land, open spaces and interests in land and property necessary to do so. Proposition 13 of the 2012 Bond Program authorized funding to purchase land in the Barton Springs Watershed contributing and recharge zones for water quality protection. The funding also allows the City to work with landowners to create water quality management areas by purchasing conservation easements.

Watershed Protection

GO Bond Schedule

Capital Budget

General Obligation Bond Schedule

The City of Austin recognizes that capital improvements are an investment in the future of the community. As such, emphasis is placed on anticipating capital needs well in advance and integrating them with service and financial projections.

General Government capital expenditures are largely driven by General Obligation Bonds; therefore the City's ability to issue and service general obligation debt is a key component of the City's capital planning process and the CIP Plan. Public improvement bonds are secured by and payable from ad valorem taxes and require voter approval. The City generally uses these bonds to purchase land or make improvements to real property. Certificates of obligation may be issued with or without voter approval and are used similarly to public improvement bonds. State law requires publication of a notice of intent to issue certificates. Contractual obligations do not require voter approval and there is no provision in state law for notice or petition. Contractual obligations may only be issued for the purchase of personal property. The City generally limits contractual obligations to property with a minimum life expectancy of 5 years. Additional information on the City's debt and how the decisions are made to borrow, as well as schedules of the City's outstanding debt can be found in the Supporting Documents section of this document

In November 2006, voters approved \$567.4 million of General Obligation Bonds in seven propositions. The following table provides the details for those seven propositions.

Proposition	2006 Bond Program Propositions	Amount
1	Transportation	\$ 103,100,000
2	Drainage & Water Quality Protection	\$ 145,000,000
3	Parks Facilities & Parkland	\$ 84,700,000
4	Community & Cultural Facilities	\$ 31,500,000
5	Affordable Housing	\$ 55,000,000
6	Central Library	\$ 90,000,000
7	Public Safety Facilities	\$ 58,100,000
TOTAL		\$ 567,400,000

In November 2010, voters approved \$90.0 million of General Obligation Bonds in one proposition focused on transportation and mobility. The following table provides the details of the components of the proposition.

Proposition	2010 Bond Program	Amount
1	Pedestrian/ADA/Bikeways	\$ 42,935,000
1	Street Reconstruction	\$ 19,185,000
1	Mobility Enhancements	\$ 23,680,000
1	Signals	\$ 4,200,000
TOTAL		\$ 90,000,000

In November 2012, voters approved \$306.6 million of General Obligation Bonds in six propositions. The following table provides the details for those six propositions. The first installment of funds was appropriated in FY 2012-13 and departments continue to implement the various projects and programs supported by the Bond Program.

Capital Budget

Proposition	2012 Bond Program	Amount
12	Transportation and Mobility	\$ 143,299,000
13	Open Space Open Space and Watershed Protection	\$ 30,000,000
14	Parks and Recreation	\$ 77,680,000
16	Public Safety	\$ 31,079,000
17	Health and Human Services	\$ 11,148,000
18	Library, Museum and Cultural Arts Facilities	\$ 13,442,000
TOTAL		\$306,648,000

In November 2013, voters approved \$65.0 million of General Obligation Bonds in one proposition focused on affordable housing. The bond program supports the City's efforts related to rental housing (including permanent supportive housing), homeownership, and home repair programs.

Proposition	2013 Bond Program	Amount
1	Affordable Housing	\$ 65,000,000
TOTAL		\$65,000,000

The following pages include two schedules: the bond sale schedule for FY 2016-17 and the five-year general obligation bond sale schedule. Most of the FY 2016-17 bond sale is supported by reimbursement resolutions which were approved in conjunction with prior capital budgets. As a result, the total general obligation bond sale in a fiscal year is not the same as the total new appropriations in that same year. The five-year schedule provides the plan for how the various bond programs will be implemented over time. It lists projects and programs by responsible departments. The schedule also reflects when appropriation will be included in the capital budget, as well as when the bonds will be sold to support the appropriation in accordance with the City's cash management and financial policies. This schedule is updated each year as part of the CIP Plan and Annual Budget.

General Obligation Bond Sale Schedule, Series 2016 (\$000s)

ORDINANCE NO. 20160914-012**AN ORDINANCE LEVYING MUNICIPAL PROPERTY (AD VALOREM) TAXES FOR THE CITY OF AUSTIN, TEXAS, FOR FISCAL YEAR 2016-2017.****BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

PART 1. The City Council levies, approves, and orders to be assessed and collected for the Fiscal Year 2016-2017, and for each subsequent calendar year until otherwise ordained, on all property in the limits of the City of Austin that is not exempt from taxation, a property (ad valorem) tax at the rate of \$0.4418 per \$100 of taxable value. The tax rate consists of two components, each of which are separately approved by Council: \$0.1019 per \$100 of taxable value, the rate that, if applied to the total taxable value, will impose the total amount published under Section 26.04(e)(3)(C) of the Texas Property Tax Code (Tax Code), less any amount of additional sales and use tax revenue that will be used to pay debt service; and \$0.3399 per \$100 of taxable value, the rate that, if applied to the total taxable value, will impose the amount of taxes needed to fund maintenance and operation expenditures of the City for the coming year.

PART 2. The Council adopts the following property tax exemptions as further described in Exhibits "A" and "B-1" and "B-2":

Agriculture	Exhibit A
Disabled Veterans	Exhibit A
Straight Disability Local Option	Exhibit A
Elderly Homestead	Exhibit A
Residence Homestead	Exhibit A
Historic – State Landmarks	Exhibit B-1
Historic – City Landmarks	Exhibit B-2

Council finds that all of the properties identified in Exhibit B-1 are designated as Recorded Texas Historic Landmarks or as state recorded archeological landmarks in accordance with Section 11.24(1) of the Tax Code.

Council finds that all of the properties identified in Exhibit B-1 are designated as Recorded Texas Historic Landmarks or as state recorded archeological landmarks in accordance with Section 11.24(1) of the Tax Code.

Council finds that all of the properties identified in Exhibit B-2 are designated as a historically or archeologically significant site in need of tax relief to encourage its preservation pursuant to Section 11.24(2) of the Tax Code.

The exemption amounts for the properties identified in Exhibit B-1 and B-2 shall be determined as set forth in City Code Section 11-1-22.

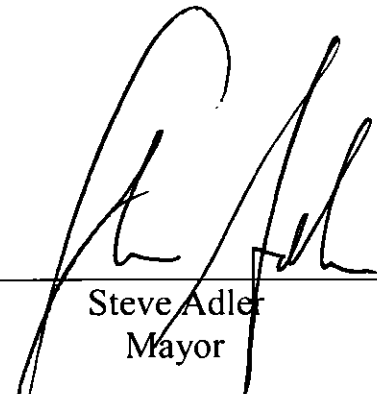

PART 3. THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE.

PART 4. THE TAX RATE WILL EFFECTIVELY BE RAISED BY 8.0 PERCENT AND WILL RAISE TAXES FOR MAINTENANCE AND OPERATIONS ON A \$100,000 HOME BY APPROXIMATELY \$25.10.

EXHIBIT A

AUSTIN PROPERTY TAX EXEMPTIONS

AGRICULTURE = Variable per acre of farmland / tax exempt

Agriculture - Confirmed agricultural property is taxed on the basis of a special valuation of the use (productivity) of the land. The area location (school district) and agricultural classification (dry crop, improved pasture or native pasture) determines the taxable value per acre of land.

DISABLED VETERANS = Variable based on percent of disability

Partially disabled veterans exemptions range from \$5,000 to \$12,000 based on the following schedule:

% Disability	Exemption
10-29	\$5,000
30-49	\$7,500
50-69	\$10,000
70-99	\$12,000

Disabled veterans with a 100 percent disability are entitled to a tax exemption of the total appraised value of the residence homestead.

RESIDENCE HOMESTEAD = 8 percent

Persons with a residence homestead are entitled to a 8 percent tax exemption of the assessed valuation of their home.

STRAIGHT DISABILITY LOCAL OPTION = \$82,500

Disabled persons (unable to hold a job) on social security or forced retirement can apply for and receive an \$82,500 tax exemption.

ELDERLY HOMESTEAD = \$82,500

Persons 65 years and older can apply for and receive an \$82,500 tax exemption on their home.

ORDINANCE NO. 20160914-003

AN ORDINANCE AUTHORIZING FEES, FINES, AND OTHER CHARGES TO BE SET OR CHARGED BY THE CITY FOR FISCAL YEAR 2016-2017 BEGINNING ON OCTOBER 1, 2016, AND ENDING ON SEPTEMBER 30, 2017.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The City Council authorizes the fees, fines, and other charges listed in the attached Exhibit "A" to be set or charged by the City for Fiscal Year 2016-2017 beginning on October 1, 2016, and ending on September 30, 2017.

PART 2. To the extent that a previous ordinance conflicts with this ordinance, the earlier ordinance is repealed.

PART 3. Except as otherwise specifically provided in Exhibit "A," this ordinance takes effect on October 1, 2016. A fee, fine, or other charge for which a specific effective date has been established in Exhibit "A" takes effect on the specified effective date.

PART 4. Council waives fees and reimburses costs for City co-sponsored events listed in Exhibit "B" and identified through the following Council actions:

- Resolution No. 20021003-040
- Resolution No. 20040226-040
- Resolution No. 20050324-040B
- Resolution No. 20070308-033
- Resolution No. 20100408-034
- Resolution No. 20100624-080
- Resolution No. 20111208-077
- Resolution No. 20120927-081
- Ordinance No. 20130808-057
- Ordinance No. 20131212-140
- Ordinance No. 20141106-057

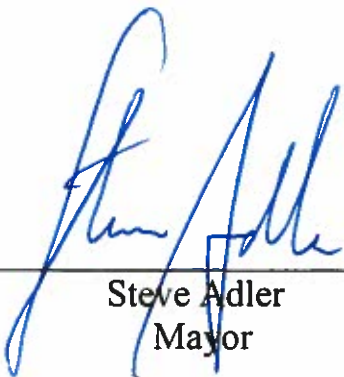

These events are Council-approved co-sponsored events, which serve documented public purposes as set forth in the actions of Council noted above. Each event must

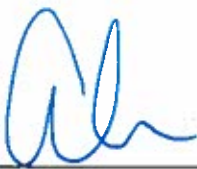

annually provide reasonable documentation to the City Manager that the event brings a value to the City that is at least roughly equivalent to the fees waived or reimbursed by this action.

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Fire				
License/Use Permits				
Carnival, Fair, Festival Operational Permit	\$100.00	\$100.00		\$0.00
<i>Permit required for outdoor events with expected attendance of > 75 people with some exceptions granted.</i>				
Explosives/Blasting Agents Permit Fees				
<i>An operational permit is required to use explosives or blasting agents at a named location for a specified period, reflected below.</i>				
Blaster license annual renewal	\$135.00	\$135.00		\$0.00
Class A	\$1,100.00	\$1,100.00		\$0.00
Class B	\$2,500.00	\$2,500.00		\$0.00
Class C	\$5,500.00	\$5,500.00	minimum	\$0.00
Class D	\$335.00	\$335.00		\$0.00
Nes licenses	\$270.00	\$270.00		\$0.00
Fire Protection System Permit	\$20.00	\$20.00	per system, \$80.00 maximum	\$0.00
<i>Annual permit to ensure that life-safety systems including sprinkler systems, alarm systems, stand-pipe systems, and hood systems, have been inspected by a third party.</i>				
Fireworks Discharge Permit Fee	\$200.00	\$200.00		\$0.00
Hazardous Materials Permit Fee	\$90.00	\$90.00		\$0.00
<i>Fees paid once every 3 years. Note: Range based on number of gallons of liquid, pounds of solid, and cubic feet of gas.</i>				
High Piled Storage	\$100.00	\$100.00		\$0.00
Mobile Incinerator				
Annual permit renewal	\$130.00	\$130.00		\$0.00
Each site inspection/annual re-inspection	\$40.00	\$40.00	per site	\$0.00
Initial application and incinerator inspection	\$130.00	\$130.00		\$0.00
Public Assembly, Annual Permit	\$200.00	\$200.00		\$0.00
<i>Annual permit requirement for nightclubs.</i>				
Temporary Change of Use Permit	\$100.00	\$100.00		\$0.00
<i>Permit issued for hosting public events of > 50 people in a non public event structure.</i>				
Temporary Helistop Permit	\$200.00	\$200.00		\$0.00
<i>Permit is required to ensure temporary helistop is in compliance with City of Austin adopted International fire code and NFPA 25 Standpipe System Flow and Hydrostatic Test.</i>				
Tents/Temporary Membrane Structure Permit	\$50.00	\$50.00		\$0.00
<i>Permit required for tents walled on any side in excess of 400 sq. ft. or any tent which exceeds 700 sq. ft. in area. Permit also required for temporary membrane structures.</i>				
Theatrical Performance w/ Open Flame	\$150.00	\$150.00		\$0.00
Trade Show/Exhibit Permit	\$75.00	\$75.00		\$0.00
<i>Permit required for all events classified as trade shows, exhibits, or garden shows.</i>				
Trench Burner Permit Fee	\$570.00	\$570.00		\$0.00

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Fire				
Printing/Copies				
Inspection Reports	\$0.10	\$0.10	per page	\$0.00
System Plans and Calculations	\$15.00	\$15.00	per hour plus copying costs	\$0.00
Professional Services/Analysis				
Access Control and Egress Impact Systems Review	\$75.00	\$75.00		\$0.00
<i>Per system submitted. There is no additional charge for identical buildings on the same project that are not and do not need to be separately drawn.</i>				
Alcohol Permit Inspection	\$155.00	\$155.00		\$0.00
Annual State Short-Term Occupancy Inspections	\$100.00	\$100.00		\$0.00
<i>Includes Daycare, Foster Care, Adoption, Halfway Houses, Group Care, MHMR, Adult Daycare, or other short term.</i>				
Clean Agent Extinguishing System				
1-50 heads	\$206.00	\$206.00		\$0.00
> 50 heads	\$200.00	\$206.00	plus \$0.50 per head over 50, \$2,000.00 maximum	\$6.00
Dry Chemical Systems, Wet Chemical Systems, and Clean Agent Systems	\$75.00	\$75.00		\$0.00
Review				
<i>Per system submitted. There is no additional charge for identical buildings on the same project that are not and do not need to be separately drawn.</i>				
Environmental Assessments	\$50.00	\$50.00		\$0.00
Fire Alarm Remodel				
1-5 devices	\$37.00	\$37.00		\$0.00
101-200 devices	\$220.00	\$220.00		\$0.00
201+	\$200.00	\$220.00	plus \$0.25 per device over 200, \$1,000.00 maximum	\$20.00
26-100 devices	\$148.00	\$148.00		\$0.00
6-25 devices	\$74.00	\$74.00		\$0.00
Fire Alarm System Review				
<i>Per system submitted. There is no additional charge for identical buildings on the same project that are not and do not need to be separately drawn.</i>				
<i>"Alarm devices" include individual pieces of equipment such as initiating devices, signaling devices, fire alarm panels, and power extenders.</i>				
1-20 alarm devices	\$37.00	\$37.00		\$0.00
100+ alarm devices	\$55.00	\$110.00	plus \$50.00 for each additional 100 sprinklers or fraction thereof	\$55.00
21-75 alarm devices	\$75.00	\$75.00		\$0.00
76-100 devices	\$110.00	\$110.00		\$0.00
Charge for drawings to a scale other than 1/8"=1'	\$25.00	\$25.00		\$0.00

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Fire				
Fire Final (Certificate of Occupancy) Inspection				
0-10,000 sq. ft	\$31.00	\$31.00		\$0.00
over 10,000 sq. ft.	\$31.00	\$31.00	plus \$1.00 per each additional 1,000 sq. ft., maximum \$500.00 per hour	\$0.00
Fire Inspection (Special Assignment)	\$123.00	\$123.00		\$0.00
Fire Pump Test	\$300.00	\$300.00		\$0.00
High Rise Smoke Management Systems Review When Detailed Drawings and Calculations are not Included in the Building Permit Submittals	\$400.00	\$400.00		\$0.00
Hospitals or Other Similar Occupancy Inspections	\$200.00 - \$1,500.00	\$200.00 - \$1,500.00	\$3.00 per bed	\$0.00 - \$0.00
Hydrant Flow Testing Reports				
Actual flow test performed, first hydrant	\$200.00	\$200.00		\$0.00
Each additional hydrant	\$125.00	\$125.00		\$0.00
Pulled from files	\$0.00	\$0.00		\$0.00
Kitchen Extinguishing Hood System Test	\$150.00	\$150.00		\$0.00
Mobile Food Vendor Inspection (Liquefied Petroleum Gas) <i>Inspection of use, storage, handling and transportation</i>	\$125.00	\$125.00		\$0.00
New Fire Alarm System				
1-10 devices	\$110.00	\$110.00		\$0.00
11-25 devices	\$165.00	\$165.00		\$0.00
201+	\$200.00	\$220.00	plus \$0.50 per device over 200, \$2,000.00 maximum	\$20.00
26-200 devices	\$220.00	\$220.00		\$0.00
New Fire Sprinkler System Review Or Sprinkler Renovations Review Requiring Hydraulic Calculations <i>Per system submitted. There is no additional charge for identical buildings on the same project that are not and do not need to be separately drawn.</i>				
1-20 sprinklers	\$55.00	\$55.00		\$0.00
101-200 sprinklers	\$220.00	\$220.00		\$0.00
200+ sprinklers	\$220.00	\$220.00	plus \$55.00 for each additional 100 sprinklers or fraction thereof	\$0.00
21-50 sprinklers	\$80.00	\$80.00		\$0.00
51-100 sprinklers	\$110.00	\$110.00		\$0.00
Charge for drawings to a scale other than 1/8"=1'	\$25.00	\$25.00	per sheet	\$0.00

FY 2016-17 Fee Schedule

Fire	FY 2015-16	FY 2016-17	Note	Change
New Sprinkler System				
1-10 heads	\$110.00	\$110.00		\$0.00
11-25 heads	\$165.00	\$165.00		\$0.00
201+	\$220.00	\$220.00	plus \$0.50 per head over 200, \$2,000.00 maximum	\$0.00
26-200 heads	\$220.00	\$220.00		\$0.00
Nursing Home or Other Similar Occupancy Inspections	\$50.00 - \$100.00	\$50.00 - \$100.00	\$1.00 per bed	\$0.00 - \$0.00
Preliminary Review Fee	\$75.00	\$75.00	/hour, 1-hour minimum	\$0.00
<i>Charged to the customer for staff time needed to provide code consultations, code interpretations, and preliminary design input for new architectural and engineering designs.</i>				
Re-inspection Fee (Construction Sites)	\$150.00	\$150.00		\$0.00
<i>Fee will be charged when previously identified violations have not been corrected.</i>				
Re-submittal Fee				
2nd-5th resubmittals	\$110.00	\$110.00		\$0.00
6th and subsequent resubmittals	\$220.00	\$220.00		\$0.00
Renovated or Remodeled Sprinkler System Reviews that Do Not Require Hydraulic Calculations				
<i>Per system submitted. There is no additional charge for identical buildings on the same project that are not and do not need to be separately drawn.</i>				
1-20 sprinklers that require drawings	\$55.00	\$55.00		\$0.00
101-200 sprinklers	\$220.00	\$220.00		\$0.00
200+ sprinklers	\$220.00	\$220.00	plus \$55.00 for each additional 100 sprinklers or fraction thereof	\$0.00
21-50 sprinklers	\$80.00	\$80.00		\$0.00
51-100 sprinklers	\$110.00	\$110.00		\$0.00
Charge for drawings to scale other than 1/8" -1'	\$25.00	\$25.00	per sheet	\$0.00
Spray Paint Booths	\$206.00	\$206.00	installation per booth	\$0.00
Sprinkler Modification				
1-20 heads	\$37.00	\$37.00		\$0.00
101-200 heads	\$148.00	\$148.00		\$0.00
201+ heads	\$148.00	\$148.00	plus \$0.25 per head over 200, \$1,500.00 maximum	\$0.00
21-100 heads	\$74.00	\$74.00		\$0.00
Standby/Special Service Fee	\$250.00	\$250.00	per hour, 2-hour minimum	\$0.00
Standpipe Flow Test				
Additional tests	\$103.00	\$103.00	each	\$0.00
First test	\$206.00	\$206.00		\$0.00

FY 2016-17 Fee Schedule

Recreational Use/Entry Fees

Additional Fee Waiver Information

Fees are as listed below, unless specifically waived as part of a Parkland Use Agreement.

Aquatics

Cancellation Fee Policy for Instructional Swim Classes

A full refund of registration fee is given if the City cancels or reschedules a class. If a participant cancels at least 48 hours before late registration, a full refund less a \$10.00 cancellation fee is charged. If the participant cancels after this time period, no refund will be given (except for medical reasons).

The Parks and Recreation Department Director may offer free pool admission on certain days and dates as recommended by the Aquatics Division.

Austin Analytical Services				

Austin Analytical laboratory services can benefit other customers as well as the City of Austin. The laboratory is equipped to provide PCB, lead, asbestos, and other environmental and analytical testing to customers.

FY 2016-17 Fee Schedule

Austin Energy	FY 2015-16	FY 2016-17	Note	Change
Construction/Installation				
<p>This service consists of pole or tower construction and conduit installation for electric or communications companies.</p>				
Distributed Generation				
<p>This service provides on-site analysis for large industrial or commercial customers to assess opportunities for on-site electrical generation for these customers for peak shaving or emergency outage situations. If circumstances for on-site generation are favorable, Austin Energy may provide or assist customers in obtaining distributed generation equipment. Austin Energy may own, operate, and/or maintain such equipment.</p> <p>District Heating and Cooling Service</p> <p>Austin Energy may provide district cooling service to customers under long-term service contracts. A contract shall be required to receive service, and Austin Energy may enter into such contracts to the extent system capacity is available. The customer's capacity and consumption charges shall be determined by the utility and imposed to recover connection costs over a period not to exceed fifteen-years; capital costs and a rate of return; fixed and variable operation, maintenance, replacement, power, and administrative costs, both specific to the customer and attributable to the customer's proportionate share of over-all system cost-of-service.</p>

Educational Services				
<p>This service provides information and education on utility and competitive issues such as safety, power quality, planning, and energy services.</p>				
Electric Reliability Council of Texas Wholesale Market Services				
<p>These services may be offered to eligible parties desiring to participate in the Electric Reliability Council of Texas (ERCOT) wholesale market. Austin Energy is currently registered as a Qualified Scheduling Entity in ERCOT and, as such, may provide scheduling, dispatching, communication, and a broad range of other services related to the ERCOT wholesale market.</p> <p>Energy Management Services</p> <p>Services include energy audits, feasibility studies, cost estimates, project management, providing, installing, and/or maintaining energy-efficient equipment, and arranging for project financing for governmental, commercial, and industrial customers.</p>				

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
<p>Austin Energy</p>				
<p>Green Building Program</p>				
<p>The Green Building Program is a voluntary building rating system that encourages environmentally sound building, remodeling, and building maintenance practices. This program includes those services connected with providing “green building” practices: professional consulting, educational and informational “green building” services, and marketing of the same, all connected with providing and promoting environmentally sound building practices and systems (“green building”). Green Building services are available to individuals and business outside the City of Austin’s electric service area as well to businesses within the service area boundary.</p>				
<p>Lighting Products and Services</p>				
<p>This service includes the supply and installation of lights or poles for commercial facilities and residences. Lights and poles may be owned and maintained by the Utility.</p>				
<p>Maintenance Contracts for Customer-Owned Medium-Voltage Equipment</p>				
<p>This service provides specific maintenance contracts for customers requesting assistance in repairing or providing maintenance on medium-voltage equipment (over 600 volts). A maintenance contract will be prepared for each customer.</p>				
<p>Power Quality or Reliability Contracting</p>				
<p>This service provides contracts to improve customer power quality or reliability through the sale, lease, installation and maintenance of electrical devices. The final product or service offering will be based on that customer’s specific needs.</p>				
<p>Pricing Guidelines for Electric Utility Products and Services</p>				
<p>The pricing of electric products and services shall be derived from a competition-based pricing strategy. Competition-based pricing, also known as going-rate pricing, shall correlate prices for Austin Energy electric utility products and services to those of competitors for like goods and services in Austin, Texas or similar marketplaces. By including market-based surveys in the pricing process, competition based pricing includes within the pricing calculation the consumer’s perception of the value of the product or service. The competition-based prices for products and services shall be selected by combining two standard pricing data sets and using pricing based on marginal cost.</p>				
<p>(1) The first pricing data set is the price range between the average lowest and average highest prices of the product or service. This price range shall be determined by researching the prices of the product or service in the current marketplace. Both internal and external market price surveys may be used. This range becomes the competition-based price range as established by competition in the market place.</p>				
<p>(2) The second pricing data set is the internally computed marginal cost of the product or service. Marginal cost is calculated by combining the determined total fixed and total variable costs to establish the floor of the profit margin.</p>				
<p>(3) The final price of the product or service shall not be offered below the marginal cost of the product or service and must be within the determined competition-based price range.</p>				
<p>(4) Calculation of the final price shall assume a product life cycle (to be determined for each product) for the purposes of determining the number of units or amount of service that will be sold.</p>				
<p>(5) The final price for a particular product or service shall be a ratio of the sum of the marginal cost and targeted profit to the anticipated number of units to be sold.</p>				
<p>Competition-based pricing assumes that the selected price represents the collective pricing wisdom of the electric utility product and service marketplace. It reflects a price that affords a fair profit in a competitive marketplace.</p>

FY 2015-16	FY 2016-17	Note	Change
Austin Energy			
Pulse Metering, Submetering, and Interval Load Data Services			
<i>This service provides installation of pulse metering, submetering, or interval load data recorders at a customer's facility, and electronic collection of relevant data from a customer's facility, and provides customers with timely operating data to assist with the efficient operation of its equipment and facility.</i>			
Surge Protection			
<i>This service provides whole building and point-of-use surge protection from voltage spikes. These products will be suitable for residential and commercial establishments. Customers have the option of choosing either whole building surge protection installed at the meter or high quality surge protection strips for individual or grouped devices, or both.</i>			

CITY OF AUSTIN – ELECTRIC RATE SCHEDULES

Residential Service**Application:**

The rate tables below reflect rates with effective dates of November 1, 2016, for pass-through charges and January 1, 2017, for base charges.

Applies to all electric service for domestic purposes in each individual metered residence, apartment unit, mobile home, or other dwelling unit whose point of delivery is at and secondary voltage less than 12,470 volts nominal line to line located within the limits of Austin Energy’s service territory.

The appropriate General Service schedule applies where a portion of the dwelling unit is used for either: a) conducting a business, or other non-domestic purposes, unless such use qualifies as a home occupation pursuant to City Code Chapter 25-2-900 or b) for separately-metered uses at the same premises, including, but not limited to: water wells, gates, barns, garages, boat docks, pools, and lighting.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer’s premises and measured through one meter unless, at Austin Energy’s sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and allow reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see “Glossary of Terms” at the back of this tariff.

Discounts:

Residential customers who receive, or who reside with a household member who receives, assistance from the Comprehensive Energy Assistance Program (CEAP), Travis County Hospital District Medical Assistance Program (MAP), Supplemental Security Income Program (SSI), Medicaid, Veterans Affairs Supportive Housing (VASH), the Supplemental Nutritional Assistance Program (SNAP), the Children’s Health Insurance Program (CHIP), or the Telephone Lifeline Program are eligible for a discount under the Customer Assistance Program (CAP).

Eligible residential customers will be automatically enrolled in the discount program through a third-party matching process, with self-enrollment also available directly through Austin Energy. Such enrollment shall occur within 60 days of application or automatic data match.

Customers enrolled in the discount program are exempt from the monthly Customer Charge and the CAP component of the Community Benefit Charge and shall receive a 10 percent bill reduction on kilowatt-hour-based charges. Customers enrolled in the discount may be eligible for bill payment assistance through arrearage management. Additionally, customers in the discount program, as well as other low income and disadvantaged residential customers, may be eligible for bill payment assistance through Plus Land for free weatherization assistance.

CITY OF AUSTIN
ELECTRIC TARIFF

Rider Schedules:

Service under this rate schedule is eligible for application of GreenChoice® Rider, Community Solar Rider, and Value-Of-Solar Rider. Customer receiving service under the Community SolarRider can not combined services with either the Value-of-Solar Rider or GreenChoice® Rider.

Standard Rates

This is the default rate option under this schedule.

CITY OF AUSTIN
ELECTRIC TARIFF

General Service

Application:

The rate tables below reflect rates with effective dates of November 1, 2016, for pass-through charges and January 1, 2017, for base charges.

Applies to all metered, non-residential secondary voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. These rates apply to secondary voltage less than 12,470 volts nominal line to line.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this are unaffected by the application of any rider

All demand (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor and load factor corrections.

When power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the actual recorded power factor during the interval of greatest use.

For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 13.5 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 14.0 kW ($13.5 \text{ kW} \times 0.90 / 0.867$ power factor).

If a customer is receiving service under a secondary voltage rate schedule with demand greater than 10kW, and the customer's monthly load factor is below 20 percent, the Billed kW will be reduced to the value required to result in an effective load factor of 20 percent.

Load factor is calculated as metered energy divided by Billed kW multiplied by number of hours within the billing month. For example, assuming a customer had metered energy of 1,152 kWh, Billed kW of 16 kW, and 720 hours in the billing month, the load factor would be 10 percent [$1,152 \text{ kWh} \div (16 \text{ kW} * 720 \text{ hours})$]; therefore, to equal a 20 percent load factor the Billed kW would need to be reduced to 8 kW [$1,152 \text{ kWh} \div (20 \text{ percent load factor} * 720 \text{ hours})$].

Load factor is used only for determining a customer's Billed kW, not a customer's placement within the proper rate schedule and is calculated after the power factor adjustment.

Discounts:

For any Independent School District, Military accounts as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Electric service provided to a “religious sanctuary,” a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public, is eligible for the House of Worship Discount.

To be eligible for the House of Worship Discount, a customer must be a tax-exempt 501(c)(3) organization for federal tax purposes and a tax-exempt religious organization under Sections 151.310, 156.102 and 171.058 of the Texas Tax Code. The House of Worship Discount is not available for electric service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

For a customer eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays, excluding weekends, during the current billing month as determined by metering equipment installed by Austin Energy, adjusted for power factor as described above in Terms and Conditions.

The customer’s total monthly electric charges billed pursuant to these rate schedules for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the temporary transition cap rate specified below, but shall not be less than the applicable Customer Charge. The temporary transition cap rate shall adjust at the beginning of each fiscal year (October 1st) and the House

CITY OF AUSTIN
ELECTRIC TARIFF

of Worship Discount will terminate at the end of fiscal year 2020 (September 30, 2020), though Billed kW shall continue to be based upon weekday use.

Effective Dates	Transition House of Worship Rates (\$/kWh)
<i>October 1, 2016</i>	\$0.13250
<i>October 1, 2017</i>	\$0.13750
<i>October 1, 2018</i>	\$0.14250
<i>October 1, 2019</i>	\$0.14750

Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider.

Secondary Voltage (Demand less than 10 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months did not meet or exceed 10 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

Secondary Voltage (Demand greater than or equal to 10 kW but less than 300 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 10 kW but did not meet or exceed 300 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy's determination that customer's average summer (June through September) metered peak demand level places customer in this rate class. The twelve month requirement may be waived by Austin Energy if a customer has made significant changes in their connected load, which prevents the customer from meeting or exceeding the minimum-metered demand threshold of this rate schedule, and Austin Energy has verified these changes.

CITY OF AUSTIN
ELECTRIC TARIFF

Large General Service

Application:

The rate tables below reflect rates with an effective date of November 1, 2016, for pass-through charges and January 1, 2017, for base charges.

Applies to all primary voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. These rates apply to primary voltage between 12,470 and 69,000 volts nominal line to line.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

All demand (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor corrections.

When the power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying the metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the actual recorded power factor during the interval of greatest use.

For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 10,350 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 10,744 kW (10,350 kW x 0.90 / 0.867 power factor).

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Time-Of-Use Rates (Suspended):

Austin Energy has administratively suspended availability of this time-of-use rate option to additional customers. Customers who are already receiving the Time-Of-Use Rates in lieu of the Standard Rates have elected to receive those rates for a term of no less than twelve consecutive billing months. Additionally, customers who are receiving the time-of-use rates are not eligible to participate in levelized billing.

Discounts:

For any Independent School District, Military accounts as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider.

Primary Voltage (Demand less than 3,000 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months did not meet or exceed 3,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

CITY OF AUSTIN
ELECTRIC TARIFF

High Load Factor Primary Voltage (Demand greater than or equal to 20,000 kW)

This rate applies to any customer whose average monthly billed demand for power met or exceeded 20,000 kW and has an annual average monthly load factor of at least 85 percent.

Contract Term:

For a term ending at the end of the billing month that includes October 31, 2024, the customer shall enter into an exclusive sole supplier agreement to purchase its entire bundled electric service requirements for the facilities and equipment at the account service location, with an exception for on-site back-up generation and up to 1 MW of on-site renewable generation capacity. The City Manager or his designee may establish and agree to terms and conditions for a service contract.

Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the customer's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the customer's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the customer may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

Minimum Bill:

The minimum monthly bill is the highest billed demand established during the most recent 12-month billing period multiplied by the Summer Demand Charge, in addition to any associated fuel, power supply, or block pricing charges.

Maximum Community Benefit Charges:

During the term of a service contract, Customer Assistance Program charges shall not exceed \$200,000 during any fiscal year of October 1 through September 30 (prorated for any partial fiscal year). Charges for Service Area Lighting (SAL) and Energy Efficiency Services (EES) do not apply under this rate schedule.

Terms and Conditions:

This schedule is effective through the end of the customer's billing month that includes October 31, 2024. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. The customer is ineligible for participation in energy efficiency, retail demand response, and renewable energy incentive programs. Billed amounts due and owing shall incur a penalty of one percent per month until paid.

Average annual monthly load factor is the sum of the customer's load factor percentages for the previous twelve billing months divided by twelve. Verified reductions in energy consumption made in response to

CITY OF AUSTIN
ELECTRIC TARIFF

a request for Emergency Response Service or another demand response program operated by ERCOT shall be credited in calculating load factor. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

Standard Rates

Basic, energy, demand, and community benefits charges will be fixed for the initial contract period ending October 31, 2018, at which time, they are reset to the most recent cost of service study unity rates. The Austin City Council may amend these charges to be fixed for the period November 1, 2018, through October 31, 2021, and again for the period November 1, 2021, through October 31, 2024.

If, during the initial contract period ending October 31, 2018, the City Council adopts new base electric rates for customers receiving service at primary voltage based upon a comprehensive cost-of-service study, the customer may opt to have its contract rates adjusted to any applicable new rates during the initial contract term.

Regulatory charge will remain fixed for the initial contract period ending October 31, 2018. For each subsequent three-year period, the regulatory charge will be reset and fixed in accordance with the regulatory charge schedule, plus an adjustment for any over- or under-recovery of regulatory charges from the previous three-year period. The regulatory charge may be adjusted during any three-year period if an over-recovery of more than 110 percent or an under-recovery of less than 90 percent of costs occurs.

<i>All Billed kW</i>	\$3.27	\$3.27

CITY OF AUSTIN
ELECTRIC TARIFF

Transmission Service

Application:

The rate tables below reflect rates with effective dates of November 1, 2016, for pass-through charges and January 1, 2017, for base charges .

Applies to all transmission voltage electric service at 69,000 volts or above nominal line to line, and whose point of delivery is located within the limits of Austin Energy’s service territory.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer’s premises and measured through one meter unless, at Austin Energy’s sole discretion, additional metering is required.

Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer’s side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

All demand (kW) is referred to as “Billed kW” and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy’s metering equipment, adjusted for power factor corrections.

When the power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the actual recorded power factor during the interval of greatest use.

For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 31,000 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 32,180 kW (31,000 kW x 0.90 / 0.867 power factor).

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see “Glossary of Terms” at the back of this tariff.

Discounts:

For any Independent School District, Military accounts as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Rider Schedules:

Service under this rate schedule is eligible for application of the GreenChoice® Rider.

CITY OF AUSTIN
ELECTRIC TARIFF

Transmission Voltage

These rates apply to any customer whose metered demand is at 69,000 volts or above nominal line to line.

Standard Rates

This is the default rate option under this schedule.

High Load Factor Transmission Voltage (Demand greater than or equal to 20 MW)

This rate applies to any customer whose average monthly billed demand for power met or exceeded 20,000 kW and has an annual average monthly load factor of at least 85 percent.

Contract Term:

For a term ending at the end of the billing month that includes October 31, 2024, the customer shall enter into an exclusive sole supplier agreement to purchase its entire bundled electric service requirements for the facilities and equipment at the account service location, with an exception for on-site back-up generation and up to 1 MW of on-site renewable generation capacity. The City Manager or his designee may establish and agree to terms and conditions for a service contract.

CITY OF AUSTIN
ELECTRIC TARIFF

Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the customer's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the customer's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the customer may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

Minimum Bill:

The minimum monthly bill is the highest billed demand established during the most recent 12-month billing period multiplied by the Summer Demand Charge, in addition to any associated fuel, power supply, or block pricing charges.

Maximum Community Benefit Charges:

During the term of a service contract, Customer Assistance Program charges shall not exceed \$200,000 during any fiscal year of October 1 through September 30 (prorated for any partial fiscal year). Charges for Service Area Lighting and Energy Efficiency Services (EES) do not apply under this rate schedule.

Terms and Conditions:

This schedule is effective through the end of the customer's billing month that includes October 31, 2024. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. The customer is ineligible for participation in energy efficiency, retail demand response, and renewable energy incentive programs. Billed amounts due and owing shall incur a penalty of one percent per month until paid.

Average annual monthly load factor is the sum of the customer's load factor percentages for the previous twelve billing months divided by twelve. Verified reductions in energy consumption made in response to a request for Emergency Response Service or another demand response program operated by ERCOT shall be credited in calculating load factor.

Standard Rates

Basic, energy, demand, and community benefits charges will be fixed for the initial contract period ending October 31, 2018, at which time, they are reset to the most recent cost of service study unity rates. The Austin City Council may amend these charges to be fixed for the period November 1, 2018, through October 31, 2021, and again for the period November 1, 2021, through October 31, 2024.

If, during the initial contract period ending October 31, 2018, the City Council adopts new base electric rates for customers receiving service at transmission voltage based upon a comprehensive cost-of-service study, the customer may opt to have its contract rates adjusted to any applicable new rates during the initial contract term.

CITY OF AUSTIN
ELECTRIC TARIFF

Regulatory charge will remain fixed for the initial contract period ending October 31, 2018. For each subsequent three-year period, the regulatory charge will be reset and fixed in accordance with the regulatory charge schedule, plus an adjustment for any over- or under-recovery of regulatory charges from the previous three-year period. The regulatory charge may be adjusted during any three-year period if an over-recovery of more than 110 percent or an under-recovery of less than 90 percent of costs occurs.

	Summer (June through September)	Non-Summer (October through May)
Basic Charges		
<i>Customer (\$/month)</i>	\$21,120.00	\$21,120.00

<i>All Billed kWh</i>	\$0.02829	\$0.02727

City of Austin - Owned Outdoor Lighting

This rate applies to electric service to non-metered outdoor lighting owned and operated by the City of Austin other than Service Area Lighting.

	Summer (June through September)	Non-Summer (October through May)
Fixture Charges (\$/fixture/month)		
<i>100 Watt or Less (Billable 35 kWh)</i>	\$7.03	\$7.03
<i>101 - 175 Watt (Billable 60 kWh)</i>	\$12.05	\$12.05
<i>176 - 250 Watt (Billable 90 kWh)</i>	\$18.07	\$18.07
<i>251 Watt or Greater (Billable 140 kWh)</i>	\$28.12	\$28.12
Power Supply Adjustment Charge (\$/kWh)		
<i>All Billed kWh</i>	\$0.02829	\$0.02727

Service Area Lighting

This rate applies to electric service for illumination and the operation of traffic signals on all public streets, highways, expressways, or thoroughfares; other than non-metered lighting maintained by the Texas Department of Transportation. Revenues received through the Service Area Lighting component of the Community Benefit Charge are applied to offset these charges inside the City of Austin.

	Summer (June through September)	Non-Summer (October through May)
Energy Charges (\$/kWh)		
<i>All Billed kWh</i>	\$0.23219	\$0.23219
Power Supply Adjustment Charge (\$/kWh)		
<i>All Billed kWh</i>	\$0.02829	\$0.02727

CITY OF AUSTIN
ELECTRIC TARIFF

Power Supply Adjustment

Application:

The rates for this pass-through charge are effective November 1, 2016.

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated.

Character of Service:

The Power Supply Adjustment (PSA) provides for the recovery of the preceding year's expenditures for (PSA Costs):

- Electric Reliability Council of Texas (ERCOT) Settlements – charges and credits from ERCOT, other than the Administrative Fees.
- Fuel Costs – costs for fuel, fuel transportation, and hedging gains and losses.
- Net Purchased Power Agreement Costs – costs and offsetting revenues (such as, bilateral sales and GreenChoice) associated with short- and long-term purchased power agreements, and costs for distributed generation production.

As part of the City of Austin's annual budgeting process, which includes a public hearing, the PSA is determined by calculating the sum of all net power supply costs divided by the historical twelve month period service territory sales, plus any existing over- or under-recovery of PSA Costs balance divided by projected service territory sales preceding the effective date of the PSA. This results in an annual uniform system rate per kWh that is adjusted for voltage level and applied to each of the customer classes. The PSA is adjusted by the following voltage level factors:

Voltage Level	Voltage Adjustment Factor
<i>Secondary</i>	1.0049
<i>Primary</i>	0.9821
<i>Transmission</i>	0.9696

At least once each year, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA by system voltage level. The PSA Cost calculation will break out Fuel Costs, ERCOT Settlements, and Net Purchased Power Agreement Costs; it will also show the extent of over- or under-recovery of PSA Costs for the previous twelve months.

From the effective date of the last PSA adjustment, the PSA may be adjusted to eliminate any over- or under-recovery if the balance of net PSA Costs recovered is either over or under 10 percent of the actual PSA Costs incurred during such period. If such over- or under-recovery is projected to remain either over or under 10 percent after 12 months from the effective date of the last PSA adjustment, then the PSA shall be adjusted to eliminate the amount of the over- or under-recovery balance within the next 12 months. Within 30 days of any adjustment of the PSA to eliminate over- or under-recovery of PSA Costs, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA, both pre- and post-adjustment by system voltage level.

CITY OF AUSTIN
ELECTRIC TARIFF

The PSA is seasonally adjusted to reflect Austin Energy's summer peaking nature, ERCOT market constraint, and stresses during summer months using historical PSA Cost percentages. The seasonal PSA Cost percentage are:

PSA Cost Periods	Seasonal Adjustment Factor
<i>Summer</i>	40.8%
<i>Non-Summer</i>	59.2%
<i>Total</i>	100.0%

The seasonal PSA charges by voltage level are:

Voltage Level	Adjustment Factor	Summer Power Supply Rate (\$/kWh)	Non-Summer Power Supply Rate (\$/kWh)
<i>System Average</i>	1.0000	\$0.02815	\$0.02714
<i>Secondary</i>	1.0049	\$0.02829	\$0.02727
<i>Primary</i>	0.9821	\$0.02765	\$0.02666
<i>Transmission</i>	0.9696	\$0.02730	\$0.02632

CITY OF AUSTIN
ELECTRIC TARIFF**Community Benefit Charge****Application:**

The rates for this pass-through charge are effective November 1, 2016.

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated.

Character of Service:

The Community Benefit Charge recovers certain costs incurred by the utility on behalf of Austin Energy's service area customers and the greater community. This charge is determined through the City budget process and applied by system voltage level. The charge includes three specific programs and services provided to customers.

1. Service Area Lighting (SAL) recovers the cost of street lighting (other than lighting maintained by Texas Dept. of Transportation), the operation of traffic signals located inside the city limits of Austin, and certain lights owned by the City of Austin and operated on behalf of the City's Parks and Recreation Department. Customers whose point of delivery is located outside the city limits of Austin are not subject to the Service Area Lighting component of the Community Benefit Charge.
2. Energy Efficiency Services (EES) recovers the cost of energy efficiency rebates and related costs, solar incentives, and the Green Building program offered by Austin Energy throughout its service area.
3. The Customer Assistance Program (CAP) funds projects that help qualifying low-income and other disadvantaged residential customers through bill discounts, payment assistance (Plus 1), arrearage management (available only for customers receiving the CAP discount), and free weatherization services. Funding for CAP is provided through the CAP component of the Community Benefit Charge and unexpended and re-appropriated funds.

Information regarding CAP shall be made available quarterly, including the number of residential customers enrolled automatically and through self-enrollment, the total and average amount of benefits provided, and the number of residential customers referred to the low-income weatherization program. With Council approval, funds unspent at the end of a fiscal year shall be rolled over to the next fiscal year's budget for the CAP program.

CITY OF AUSTIN
ELECTRIC TARIFF**Regulatory Charges****Application:**

The rates for this pass-through charge are effective November 1, 2016.

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated.

Character of Service:

The Regulatory Charge recovers the following costs, excluding any costs recovered through the closed Fuel Adjustment Clause: 1) ERCOT transmission service charges and credits; 2) NERC/TRE regulatory fees and penalties; 3) the ERCOT Nodal and Administrative Fees; and 4) other material regulatory fees or penalties specific to the electric industry. The Regulatory Charge is applied by system voltage level on either an energy or demand basis and may be adjusted to eliminate any over- or under-recovery on a system basis. Changes to the Regulatory Charge shall be determined after notice and public hearing as required by City code.

Voltage Level	Regulatory (Energy) (\$/kWh)	Regulatory (Demand) (\$/kW)
<i>Secondary</i>	\$0.01343	\$3.75

CITY OF AUSTIN
ELECTRIC TARIFF

Standby Capacity

Application:

These rates apply to electric service for standby power provided by Austin Energy during a scheduled or unscheduled outage of customer's production facilities whose point of delivery is located within the limits of Austin Energy's service territory.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

The Standby Capacity will be equivalent to the maximum demand of the load to be served by Austin Energy during a scheduled or unscheduled outage of the customer's power production facilities or as stipulated in the contract between Austin Energy and the customer.

Customer will be assessed a monthly Minimum Bill equal to the Standby Capacity Rate times the Standby Capacity.

Voltage Level	Monthly Standby Capacity Rate (\$/kW)
<i>Primary</i>	\$2.80
<i>Transmission</i>	\$2.60

CITY OF AUSTIN
ELECTRIC TARIFF**Rider Rate Schedules****Application:**

These rider rates apply to electric service whose point of delivery is located within the limits of Austin Energy's service territory.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

CITY OF AUSTIN
ELECTRIC TARIFF

Non-Residential Distributed Generation from Renewable Sources Rider

Application:

This Rider is available to any non-residential customer who owns or hosts an on-site generating system powered by a renewable resource with a capacity of not more than 20 kW-ac that is interconnected with Austin Energy's electric system. Non-residential customers who own or host an on-site generating system powered by a renewable resource with a capacity of more than 20 kW-ac shall not be subject to this rider, and instead will be subject to the terms and conditions of the rate schedule under which the customer receives service, for all energy delivered by Austin Energy.

Renewable energy technologies include those that rely on energy derived directly from the sun, wind, geothermal, hydroelectric, wave, or tidal energy, or on biomass or biomass-based waste products, including landfill gas. A renewable energy technology does not rely on energy resources derived from fossil fuels, waste products from fossil fuels, or waste products from inorganic sources.

Terms and Conditions:

All charges, character of service, and terms and conditions of the rate schedule under which the customer receives service apply except as expressly altered by this rider.

The customer shall comply with applicable Austin Energy interconnection requirements, including submitting all required interconnection applications and signed agreements. The customer is responsible for the costs of interconnecting with Austin Energy's electric system, including transformers, service lines, or other equipment determined necessary by Austin Energy for safe installation and operation of the customer's equipment. The customer is responsible for any costs associated with required inspections and permits.

Metering under this rider shall be by a single master meter capable of registering the flow of electricity in both directions to determine the customer's net energy flow. Other meters may be required to track renewable energy generation for regulatory compliance or incentive purposes, or as otherwise required by Austin Energy's Interconnection Guidelines and Design Criteria.

The customer's billed kilowatt-hour (kWh) shall be the customer's monthly net energy (kWh) use, which is the energy delivered by Austin Energy to the customer less any energy received from the customer's system to the Austin Energy distribution system during the billing month. If in any billing month the customer's monthly net energy use is negative, the customer's electric bill shall be credited as follows:

- If the Power Supply Adjustment applies, the monthly credit equals the monthly net energy times the Power Supply Adjustment (¢/kWh).
- If the GreenChoice® Rider applies, the monthly credit equals the monthly net energy times the Power Supply Adjustment (¢/kWh).

Any charges not collected on a kWh basis are not altered by this credit. Any credit shall be applied to the customer's bill for electric service. Any credit in excess of the customer's total charges for electric service, excluding the customer charge, shall be carried forward and applied to the customer's next electric bill.

CITY OF AUSTIN
ELECTRIC TARIFF

GreenChoice® Rider

Subscriptions under the GreenChoice® program support Austin Energy's inclusion of renewable fuel sources in its power generation portfolio. This energy cannot be directed to any one particular destination on the Electric Reliability Council of Texas electric grid, including participant's premises.

Application:

This rider applies to electric service to a customer subscribed to the City of Austin's GreenChoice® program.

Terms and Conditions:

A customer's account must be in good standing. In addition, some subscriptions allow for the qualification of accolades. If in the event of a conflict with this rider, the terms of a subscription contract in effect shall prevail. The general manager of Austin Energy shall develop the contract terms and conditions for subscriptions.

Unless otherwise specified in a subscription contract in effect on September 30, 2013, for Batches 5 or 6 subscriptions, the GreenChoice® Charges will be applied to 100 percent of the customer's energy usage through the Batch's end date. Batches 5 and 6 are closed to additional subscriptions.

For a limited time period, from September 1, 2016, to November 1, 2016, Batch 5 or 6 non-residential accounts can convert to the new portfolio pricing charges (i.e., Energizer or Patron 17) effective January 1, 2017; otherwise customers will remain on their current Batch subscription. A non-residential account that has been subscribed to Batch 5 or 6 may not be re-subscribed under new terms before the subscription Batch's end date, excluding the limited time transfer period previously noted.

For Residential SmartCents or Commercial BusinessCents subscriptions, the GreenChoice® Charges will be applied to 100 percent of the customer's energy usage. Both SmartCents and BusinessCents are non-contract subscriptions with no penalty for unsubscribing.

For Commercial Energizer subscription, the GreenChoice® Charge will be applied to 100 percent of the customer's energy usage. Energizer is a 12-month contract subscription that converts a month-to-month subscription after the contracts end date; after this term expiration the customer may re-subscribe to a new subscription product.

For all Commercial Patron 14, 15, or 17 subscriptions, the GreenChoice® Charges will be applied to each customer's account for a specified amount of energy usage of at least 100,000 kilowatt-hours per billing month, up to 100 percent of the customer's energy usage. Any commercial customer is eligible with a minimum of 1.2 MWh annually load on one or a combination of accounts. Patron subscriptions are written contracts with specific end dates at a fixed charge; after the expiration the customer may re-subscribe to a new subscription product. Customers may not unsubscribe from the program at any time prior to the expiration of their contract.

GreenChoice® Charges:

While subscribed to the GreenChoice® program, a customer will be billed GreenChoice® Charge in lieu of the Power Supply Adjustment (PSA) that would otherwise apply to the customer's subscribed energy usage, unless otherwise noted in the appropriate rate schedule.

CITY OF AUSTIN
ELECTRIC TARIFF

Value-Of-Solar Rider

Application:

Applies to any Residential Service account that has an on-site solar photovoltaic system interconnected with Austin Energy's distribution system behind the master meter.

Terms and Conditions:

Billable kilowatt-hour shall be based on metered energy delivered by Austin Energy's electric system and the metered energy consumed from an on-site solar system; also known as, the total metered energy consumption during the billing month. All non-kWh-based charges under the Residential Service rate schedule shall remain unaffected by the application of this rider.

For each billing month, the customer shall receive a non-refundable, non-transferable credit equal to the metered kilowatt-hour output of the customer's photovoltaic system multiplied by the current Value-of-Solar Rate plus any carry-over credit from the previous billing month. Credits are applicable to the customer's total charges for Residential Service in the customer's name on the same premise and account where the on-site solar photovoltaic system is interconnected. Any remaining credit amount shall be carried forward and applied to the customer's next electric service bill. In the event of service termination, any credit balance will be applied to the Power Supply Adjustment (PSA) to reduce net purchased power costs.

The Value-of-Solar Rate is a tariff rider that is set annually through the Austin Energy budget approval process. The Value-of-Solar is re-assessed each year using the calculations outlined in Appendix A of this tariff. The Value-of-Solar rate is based on the average of the annual Value-of-Solar assessment of the prospective year and the previous 4 years' Value-of-Solar assessments. The resultant Value-of-Solar Rate is effective January 1 of the following calendar year.

Effective Date	Value-of-Solar Assessment (\$/kWh)	Value-of-Solar Rate (\$/kWh)
<i>October 1, 2012</i>	\$0.12800	\$0.12800
<i>January 1, 2014</i>	\$0.10700	\$0.10700
<i>January 1, 2015</i>	\$0.10000	\$0.11300
<i>January 1, 2016</i>	\$0.09700	\$0.10900
<i>January 1, 2017</i>	\$0.09700	\$0.10600

CITY OF AUSTIN
ELECTRIC TARIFF

Community Solar Rider

Application:

Applies to any Residential Service account that subscribes to a community solar program, and is available on a first-come, first-served basis, until the program is fully subscribed. Once fully subscribed, no new customers will be allowed to take service under this rider until additional community solar projects are added to the program.

Terms and Conditions:

Customer subscription must be for 100 percent of the customer's master revenue meter's monthly energy usage. Customers may unsubscribe at any time; however, a customer that unsubscribes may not re-subscribe for Community Solar Rider for a period of 12 months. Service under this rider is considered portable within Austin Energy's service territory, meaning that if a customer subscribes at one premise and moves to another, the customer may remain a subscriber. Subscriptions supports Austin Energy's inclusion of local community solar photovoltaic systems in its power generation portfolio.

Customer receiving service under the Community Solar Rider can not combined services with either the Value-of-Solar Rider or GreenChoice® Rider.

Community Solar Charges:

While subscribed to the Community Solar program, a customer will be billed a Community Solar Adjustment in lieu of the Power Supply Adjustment (PSA) that would otherwise apply to the customer's subscribed energy usage.

Effective Date	Community Solar Adjustment (\$/kWh)
January 1, 2017	\$0.04270

Load Shifting Voltage Discount Rider

Application:

Applies to any non-residential customer who, at a minimum, shifts 30 percent of the customer's normal annual monthly average on-peak billed demand using storage technologies (*e.g.*, thermal energy storage) and whose point of delivery is located within the limits of Austin Energy's service territory. "Normal on-peak billed demand" is defined as the maximum-billed demand recorded prior to taking service on this discount rider rate schedule, and corresponding energy, during the last 12-month period, or as may be determined by Austin Energy.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

The load shifting voltage discount rider rate schedule will be applied to the underlying rates within the standard rate schedules for which the customer's load and voltage would qualify. Customer shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

The Billed kW used to determine the Electric Delivery, the Demand, and Regulatory Charges shall be based on the highest 15-minute metered demand recorded during the Load Shifting on-peak period and adjusted for power factor. The Energy Charge shall be based on all energy consumption during the Load Shifting on-peak period. All other Charges (*i.e.*, PSA, CBC, etc.) will be billed at the underlying rates schedules based on all consumption.

The load shifting on-peak period load shall be shifted, not eliminated, nor replaced by the use of alternative fuels. There is no load forgiveness for operations during on-peak periods. For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Load Shifting Periods

	Time Periods	Annual

ELECTRIC TARIFF

Residential Service Pilot Programs

Application:

The rate tables below reflect rates with effective dates of November 1, 2016 for pass-through charges and January 1, 2017 for base charges.

These pilot programs' rate schedules apply to electric service for domestic purposes in each individual metered residence, apartment unit, mobile home, or other dwelling unit whose point of delivery is located within the limits of Austin Energy's service territory. The appropriate General Service schedule applies where a portion of the dwelling unit is used for either: a) conducting a business or other non-domestic purposes, unless such use qualifies as a home occupation pursuant to City Code Chapter 25-2-900; or b) for separately-metered uses at the same premises, including, but not limited to: water wells, gates, barns, garages, boat docks, pools, and lighting. These rates apply to secondary voltage less than 12,470 volts nominal line to line.

Each rate schedule will be limited to a participation of 100 individual meters on a first-come, first-served basis, unless stated otherwise on their applicable rate schedule. At any time, Austin Energy may administratively suspend availability of these pilot programs or modify the number of individual meters that will be allowed to participate.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required. In case of a conflict, the terms and conditions for each of the pilot programs as laid out in their appropriate rate schedules govern.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under these rate schedules are unaffected by the application of any rider.

Pilot programs availability is contingent upon Austin Energy's operational feasibility, system configuration, availability of appropriate meters, and the customer's premise. Customers selecting these rate options are not eligible to participate in levelized billing. For information on rates (*i.e.*, power supply adjustment, community benefit, and regulatory) prior to this effective date, please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Customers are advised to conduct their own independent research before deciding to participate in a pilot program because of the availability of these temporary pilot programs. If a customer elects to participate in any of the programs, the customer also agrees to participate in Austin Energy's load research efforts by allowing the customer's data to be collected. Austin Energy's use of such load research data will be strictly limited to the provision of electric service. Austin Energy will not disclose, share, rent, lease, or sell such data to any third party or affiliate for any other purpose, without the customer's express written consent.

Discounts:

CITY OF AUSTIN
ELECTRIC TARIFF

Residential customers who receive, or who reside with a household member who receives, assistance from the Comprehensive Energy Assistance Program (CEAP), Travis County Hospital District Medical Assistance Program (MAP), Supplemental Security Income Program (SSI), Medicaid, Veterans Affairs Supportive Housing (VASH), the Supplemental Nutritional Assistance Program (SNAP), the Children's Health Insurance Program (CHIP), or the Telephone Lifeline Program are eligible for a discount under the Customer Assistance Program (CAP). Eligible residential customers will be automatically enrolled in the discount program through a third-party matching process, with self-enrollment also available directly through Austin Energy. Such enrollment shall occur within 60 days of application or automatic data match.

Customers enrolled in the discount program are exempt from the monthly Customer Charge and the CAP component of the Community Benefit Charge and shall receive a 10 percent bill reduction on kilowatt-hour-based charges, unless stated otherwise on their applicable rate schedule, and may be eligible for arrearage management. Customers in the discount program, as well as other low income and disadvantaged residential customers, may be eligible for bill payment assistance through Plus 1 and for free weatherization assistance.

Rider Schedules:

Services under these rate schedules are eligible for application of GreenChoice® Rider, Community Solar Rider, and Value-Of-Solar Rider, unless stated otherwise on their applicable rate schedule. Application of GreenChoice® Rider and Community Solar Rider will be applied to all energy consumption in addition to applicable power and fuel charges. Customer receiving service under the Community Solar Rider can not combined services with either the Value-of-Solar Rider or GreenChoice® Rider.

Time-Of-Use Rates

In lieu of the Standard Rates under the Residential Service rate schedule, customers receiving service under the Residential Service rate schedule may choose the following time-of-use charges to be applied for a term of no less than 12 consecutive billing cycles. If a customer elects to stop receiving service pursuant to this rider, an early termination fee of \$250.00 will be applied; at Austin Energy's sole discretion the fee could be waived.

Plug-In Electric Vehicle Charging Rates***Application:***

For a separate residential meter circuit (installed at the customer's expense) attached to an in-home electric vehicle level 1, or higher, charging station for charging a plug-in electric vehicle (PEV).

Customers receiving service under this rate schedule may choose the following electric vehicle charges to be applied for a term of no less than 12 consecutive billing cycles. If the customer elects to terminate participation in the program, the customer must pay an early termination fee of \$200.00. Austin Energy may, in its sole discretion, elect to waive this termination fee. This rate schedule includes unlimited customer access to public electric vehicle charging station under the Electric Vehicle Public Charging rate schedule.

Terms and Conditions:

These charges are in addition to any other services the premise might be receiving. Customers served under this rate schedule will be provided separate primary meter billing amounts and PEV meter billing amounts in their electric bills. The customer's primary metered usage is billed according to the primary rate schedule selected by the customer. The customer's PEV usage is billed according to this residential PEV schedule. The PEV meter billed amount will be based upon data delivered to Austin Energy.

CITY OF AUSTIN
ELECTRIC TARIFF

To the extent possible, all in-home electric vehicle charging must be done during off-peak periods. If energy consumption during on-peak periods is greater than 10 percent of the total monthly energy consumption, all energy consumption will be multiplied by Fuel Charges.

A one-time enrollment payment of \$150 will be applied.

Customers receiving PEV charging station service are not eligible for any discounts and the Value-Of-Solar Rider rate schedule (if the customer has Value-Of-Solar it would be attached to the residential primary meter account, not the PEV meter account), under this rate schedule. Application of GreenChoice® Rider and Community Solar Rider will be applied to all energy consumption from the PEV meter in addition to Fuel Charges.

Time Periods:

Weekdays	
<i>Off-Peak</i>	7:00 P.M. – 2:00 P.M.

CITY OF AUSTIN
ELECTRIC TARIFF

Closed Rate Schedule

Application:

THIS RATE SCHEDULE IS CLOSED TO NEW CUSTOMERS. This rate schedule applies to electric service whose point of delivery is located within the limits of Austin Energy's service territory.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule shall remain unaffected by the application of a rider(s).

Large Service Contract (Closed)

Application:

These rates are only available to the State of Texas and apply to a large service contract (LSC) customer that executed a separate contract for this service on or after October 9, 2006, in form and substance acceptable to Austin Energy, but before May 24, 2012. The contract requires the customer to remain a full requirements customer of Austin Energy through May 31, 2017, on which date the customer's contract and the terms of this rate schedule shall terminate. If Austin Energy subsequently adopts a rate schedule that provides more favorable rates, terms, or conditions than provided by this rates schedule and which describes a customer class for which the customer's large service contract accounts qualify, then the customer may terminate its contract and receive service pursuant to such subsequent rate schedule. Austin Energy enters and executes the contract and assumes its obligation in its proprietary capacity as the owner and operator of a utility enterprise increasingly in competition with other power suppliers for the attraction and retention of industrial loads, and in order to induce customer to remain a customer of Austin Energy. This rate schedule shall be effective through May 31, 2017, for all contracts between Austin Energy and the State of Texas.

Terms and Conditions:

Services under this rate schedule are eligible for application of Time-Of-Use Rates and Thermal Energy Storage Rider attached to them.

The LSC rates begins on the first day of the customer's billing cycle following the date that a separate contract has been executed between Austin Energy and the State of Texas, and shall be in effect for a period of 36 months thereafter.

Not earlier than the first day of the thirty-seventh month after the effective date and not later than the last day of the seventy-second month after the effective date, a most favored nations clause applies (which clause does not apply to a rate paid by a governmental entity of the State of Texas, that is mandated by Federal or State law, the Public Utility Commission, a judicial body, or a retail pilot program affecting a customer of Austin Energy). It is the intent of this provision that the most favored nations clause will not

CITY OF AUSTIN
ELECTRIC TARIFF

apply unless Austin Energy voluntarily charges a lower rate to another LSC customer (who receives power at 12,500 volts or higher and has a demand for power that meets or exceeds 3,000 kW for any two months within the previous twelve months). If Austin Energy is required by Federal or State law, the Public Utility Commission, or a judicial body to charge a lower rate to a customer or group of customers, then the most favored nations clause does not apply.

For the remainder of the term of the contract after the seventy-second month after the effective date, Austin Energy may keep customer loads on-system by exercising a continuing right of first refusal to match the best offer of any competing suppliers. Austin Energy shall have until the later of 60 months from the effective date, or 75 days from the date it receives proper notice from Customer to exercise its right of first refusal. All such alternative proposals may be disclosed to Austin Energy on a confidential trade secret basis to the extent permitted by law, and shall be supported by a sworn affidavit signed by a corporate officer of the customer involved.

For the remainder of the term of the contract after the seventy-second month after the effective date, provided that retail competition in the electric utility industry in Texas is allowed and is available in Austin, Texas, Austin Energy shall not be obligated to charge the customer the service contract rates. In the event that retail competition is not allowed in Texas, or is not available in Austin, Texas, the customer shall continue to take power from Austin Energy at the LSC rates and be subject to extended application of the most favorable nations clause, until the end of the term of the contract.

These service contract rate schedules do not obligate Austin Energy to match the best offer of any competing supplier. In addition, nothing herein shall obligate Austin Energy to match any portion of an offer or other consideration not directly related to the supply of electric energy (i.e. generation, transmission and distribution) to the customer's facilities in the Austin area. In other words, Austin Energy would be required to match the total delivered cost of electric energy to the customer.

Contracts entered into under the provisions of these service contract rate schedules shall protect the integrity and enforceability of the City's right of first refusal. After a customer commences to purchase electric generation from a competing supplier (and Austin Energy fails to exercise its right of first refusal or to match the offer of a competing supplier), provision of generation service by Austin Energy to that portion of customer's total load removed from Austin Energy Electric System shall thereafter be at the sole option of Austin Energy. However, Austin Energy shall have a continuing obligation to provide transmission and distribution services, including ancillary services if needed, pursuant to its tariffs and the Public Utility Commission's Substantive Rules or other applicable laws and regulations.

A customer may not submit bids or offers received from competing suppliers, and thereby cause or require Austin Energy to exercise its right of first refusal in accordance with the terms of this tariff, more than once every twelve months.

Nothing in these service contract rate schedules or a contract under these service contract rate schedules shall operate to prevent, prohibit, or delay Austin Energy from recovering "stranded" costs from the customer, to the extent authorized by law, including those described in the Public Utility Regulatory Act.

If, notwithstanding the foregoing paragraph, any subsequent legislation would in any way operate to prevent, prohibit or delay recovery of the full amount, otherwise authorized by law, of "stranded" costs through any surcharge or additional charge or any new or revised rate level or element solely because of the existence or contents of these service contract rate schedules or the contract then the contract rates specified in these service contract rate schedules for energy, demand and fuel shall be deemed to be changed by an amount designed to exactly equal the revenue Austin Energy would otherwise recover but for the existence or contents of these service contract rate schedules or contract. Any such change shall

CITY OF AUSTIN
ELECTRIC TARIFF

take effect on the same date that the surcharge, additional charge or new or revised rate level or element would otherwise go into effect. If necessary the change may take the form of a one-time charge, assessable prior to or after customer switches generation suppliers. To the extent possible, while still allowing full recovery of the otherwise authorized amount, the change shall be incorporated into prospective monthly recurring charges.

The contract to be signed by customer shall explicitly incorporate the terms of the preceding two paragraphs, and also provide that the results contemplated by such paragraphs are essential and non-severable terms of the contract.

Notwithstanding any provision of these special contract rate schedules, neither customer nor Austin Energy shall be precluded from challenging the legal validity of any statute, regulations, or other provisions of law.

This rate schedule shall be extended to all of an LSC customer's accounts having a maximum demand of at least 500 kW.

Upon request, customers receiving service under these service contract rate schedules will be provided dual feed service with reserve capacity and maintenance under the 10 year long contract provisions of the Service Contract Rider, except that the customer will be responsible for the initial assessment fee, customer requested changes to the initial assessment, and facilities design and construction costs, as established in the fee schedule. Dual feed service with reserve capacity is electric service provided to the customer's premise(s) through two (or more) independent distribution feeders, with one feeder in normal service and the other in back-up service, capacity is reserved for the second feeder, and is placed into service upon an outage of the primary feeder.

If it is determined at any time by Austin Energy that the customer violated the provisions of these special contract rate schedules or the contract implementing this tariff, then the customer will be immediately billed on the LSC rate schedule, or as amended, from the date service was first commenced under these special contract rate schedules. The difference, plus interest at one percent (1%) per month, or the maximum allowable legal interest rate, whichever is less, from the date service was first commenced under these special contract rate schedules, shall immediately become due by customer to Austin Energy.

The contract executed under these special contract rate schedules shall address the rights of the City and the customer relating to the transfer or assignment of rights under these special contract rate schedules.

Definitions:

- Full Requirement Service – means generation, transmission, and distribution, (i.e., “bundled”) service as presently supplied by City of Austin to customer, provided however, that the customer may self-generate up to 500 kW of its requirements from customer-owned, on-site renewable energy technology, subject to the terms and conditions of Austin Energy's Non-Residential Distributed Generation from Renewable Sources Rider.
- Best Offer – means the cost of generation of a competing supplier, plus other costs, fees or expenses that a customer incurs in order to bring the generation to its point of service, including but not limited to: 1) transmission wheeling costs to Austin Energy Electric System; 2) transmission and distribution wheeling costs to the customer's point of service; and 3) costs to install or construct any on-site generation, interconnection or metering facilities.

CITY OF AUSTIN
ELECTRIC TARIFF

- **Competing Suppliers** – includes, but is not limited to, a provider of generation services, energy services, and ancillary services, whether or not the supplier is located inside Austin Energy’s current service territory, to the extent that the provider is permitted by law to serve the customer load.
- **Billing Demand** – the kilowatt demand during the fifteen-minute interval of greatest use during the current billing month as indicated or recorded by metering equipment installed by Austin Energy. When customer’s power factor during the interval of greatest use is less than 85 percent, Billing Demand shall be determined by multiplying the indicated demand by 85 percent and dividing by the lower peak power factor; provided, however, the power factor adjustment specified in this paragraph shall be superseded by any subsequent rate schedule or ordinance governing power factor that may be enacted or amended by Austin Energy from time to time.
- **Power Supply Adjustment (PSA)** – plus an adjustment for variable costs, calculated according to the Power Supply Adjustment rate schedule, multiplied by the billable kWh.

Time-Of-Use Periods

	On-Peak Hours	Off-Peak Hours
Summer (May through October)		
Monday – Friday	1:00 P.M. – 9:00 P.M.	9:00 P.M. – 1:00 P.M.
Saturday, Sunday, and Holidays ¹	None	12:00 A.M. – 12:00 A.M.
Non-Summer (November through April)		
Monday – Friday	8:00 A.M. – 10:00 P.M.	10:00 P.M. – 8:00 A.M.
Saturday, Sunday, and Holidays ¹	None	12:00 A.M. – 12:00 A.M.

Monthly Charges:

Customer will be assessed a monthly minimum bill of \$12.00, if the below calculation result in a charge of less than \$12.00.

Standard Rates

	Summer (May through October)	Non-Summer (November through April)
Demand Charges (\$/kW)		
All kW	\$12.54	\$11.40
Energy Charges (\$/kWh)		
All kWh	\$0.01110	\$0.01110
Power Supply Adjustment (\$/kWh)		
All kWh (Secondary Voltage)	\$0.02829	\$0.02727
All kWh (Primary Voltage)	\$0.02765	\$0.02666
All kWh (Transmission Voltage)	\$0.02730	\$0.02632

¹ U.S. National Holidays are Memorial Day, Independence Day, and Labor Day.

CITY OF AUSTIN
ELECTRIC TARIFF

Time-Of-Use Rates

At the option of the customer, a separate agreement may be entered into between the City and the customer for a time-of-use incentive rate.

Billed demand will be based on the fifteen-minute interval of greatest use during an on-peak period for the current billing month. All other adjustments will be included as described above (See Definition: Billing Demand).

	Summer (May through October)	Non-Summer (November through April)
Demand Charges (\$/kW)		
<i>All kW</i> s	\$12.54	\$11.40
Energy Charges (\$/kWh)		
<i>Off-Peak</i>	\$0.00560	(\$0.00290)
<i>On-Peak</i>	\$0.02410	\$0.01710
Power Supply Adjustment (\$/kWh)		
<i>All kWhs (Secondary Voltage)</i>	\$0.02829	\$0.02727
<i>All kWhs (Primary Voltage)</i>	\$0.02765	\$0.02666
<i>All kWhs (Transmission Voltage)</i>	\$0.02730	\$0.02632

Thermal Energy Storage Rider

Application:

This rate is applicable to any LSC customer who, through the use of Thermal Energy Storage technology, shifts to off-peak time periods no less than the lesser of 20 percent of the customer's normal on-peak Summer Billed Demand or 2,500 kW. The normal on-peak Summer Billed Demand shall be the maximum Summer Billed Demand recorded prior to attaching this rider, or as determined by Austin Energy.

Terms and Conditions:

At the option of the customer, a separate agreement may be entered into between the City and the customer for a Thermal Energy Storage Rider incentive rate. The on-peak load shall be shifted to off-peak, not eliminated, nor replaced by the use of alternative fuels. The customer shall continue to be billed under the time-of-use rates and in accordance with the following provisions:

- For Summer (May through October), the Summer Billed Demand shall be the highest fifteen-minute demand recorded during the on-peak period.
- For Non-Summer (November through April), the Non-Summer Billed Demand shall be the highest fifteen-minute demand recorded during the month, or 90 percent of the Summer Billed Demand set in the previous summer; whichever is less.

Time-Of-Use Periods

	Summer (May through October)	Non-Summer (November through April)
On-Peak Hours		
<i>4:00 P.M. – 8:00 P.M.</i>	Monday – Friday	None

CITY OF AUSTIN
ELECTRIC TARIFF

Off-Peak Hours

<i>8:00 P.M. – 4:00 P.M.</i>	Monday – Friday	Everyday
<i>12:00 A.M. – 12:00 A.M.</i>	Saturday, Sunday, and Holidays ²	Everyday

² U.S. National Holidays are Memorial Day, Independence Day, and Labor Day.

Appendix A

Value-Of-Solar Assessment

The following value components are calculated annually as part of the Value-Of-Solar Assessment, which is then incorporated into the Value-Of-Solar Rate as a five-year rolling average with the previous 4 years' assessments:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from ERCOT wholesale market price data and future natural gas prices.	$\left[\frac{\sum (\text{Implied Heat Rate} * \text{Gas Price} * \text{PV Production} * \text{Risk Free Discount Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount actor})} \right] * (1 + \text{Loss Factor})$
Plant O&M Value	Estimated avoided cost associated with natural gas plant operations and maintenance by meeting peak load through customer-sited renewable resources.	$\left(\frac{\sum (\text{O \& M Cost} * (1 + \text{Inflation})^{\text{year}} * \text{PV Capacity} * \text{Risk Free Discount Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})} \right) * (1 + \text{Loss Factor})$
Generation Capacity Value	Estimated avoided cost of capital by meeting peak load through customer-sited renewable resources, inferred from ERCOT market price data.	$\frac{\sum (\text{Annual Capital Carrying Cost} * \text{PV Capacity} * \text{Risk Free Discount Factor}) * \text{Load Match} * (1 + \text{Loss Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})}$
Transmission and Distribution Value	Estimated savings in transmission costs resulting from the reduction in the peak load by locally-sited renewable resources, and savings or costs related capital investments to distribution grid.	$\left(\frac{\sum (\text{Transmission Cost} * \text{PV Capacity} * \text{Risk Free Discount Factor}) * \text{Load Match} * (1 + \text{Loss Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})} \right)$ <ul style="list-style-type: none"> - where Transmission Cost is Austin Energy's contribution to ERCOT TCOS. - N.B.: Distribution value is currently not calculated, but will need further review as solar penetration increases.
Environmental	Estimated avoided cost to	Set at \$0.02 per kWh based on average premium paid in voluntary green power purchasing programs in Texas when

CITY OF AUSTIN
ELECTRIC TARIFF

Compliance Value	comply with environmental regulations and local policy objectives.	VOS was implemented.
------------------	--	----------------------

CITY OF AUSTIN – ELECTRIC RATE SCHEDULES

Glossary of Terms

The purpose of this section is for customers to have a better understanding of the terminology used within the electric industry.

Adjustment Clauses

A provision in Austin Energy's tariff that provides for periodic changes in charges or credits to a customer due to increases or decreases in certain costs over or under those included in base rates.

Base Rate

That portion of the total electric rate covering the general costs of doing business, except for fuel, purchased power, and other pass-thru expenses.

Billed Demand

The demand upon which billing to a customer is based, as specified in a rate schedule or contract, metered X demand or billed demand may be the metered demand adjusted for power factor as specified in the rate schedule. It may also be based on the contract year, a contract minimum, or a previous maximum that does not necessarily coincide with the actual measured demand of the billing period.

Customer

A meter, individual, firm, organization, or other electric utility that purchases electric service at one location under one rate classification, contract, or schedule. If service is supplied to a customer at more than one location, each location shall be counted as a separate customer unless the consumptions are combined before the bill is calculated.

Customer Charge

Customer Charge is a monthly charge to help Austin Energy recover the customer-related fixed costs that reflect the minimum amount of equipment and services needed for customers to access the electric grid. Such costs are billing, metering, collections, customer service, service drops, cost of meters, meter maintenance, and other customer-related costs; these costs vary with the addition or subtraction of customers. These costs do not vary with usage; therefore, it is appropriate to recover these costs in the Customer Charge, rather than Energy Charges.

Customer Class

The grouping of customers into homogeneous classes. Typically, electric utility customers are classified on a broad category of customer service: residential, general service (commercial), large general service (industrial), lighting, or contract. Some electric systems have individual customers (large users) with unique electric-use characteristics, service requirements, or other factors that set them apart from other general customer classes and thus may require a separate class designation.

Delivery (Distribution) Charges

The charges on an electric customer's bill for the service of delivering or moving of electricity over the distribution system from the source of generation to the customer's premise; sometimes referred to as Electric Delivery.

Demand Charges

That portion of the charge for electric service based upon the electric capacity (kW or kVa) consumed and billed based on billing demand under an applicable rate schedule. The cost of providing electrical

CITY OF AUSTIN ELECTRIC TARIFF

transmission and distribution equipment to accommodate the customer's largest electrical load during a given period of time.

Demand (kW)

The rate at which electricity is being used at any one given time. Demand differs from energy use, which reflects the total amount of electricity consumed over a period of time. Demand is often measured in Kilowatts, while energy use is usually measured in Kilowatt-hours. The term "load" is considered synonymous with "demand."

Electric Meter

A device that measures the amount of electricity a customer uses.

Electric Rate

The price set for a specified amount of electricity in an electric rate schedule or sales contract.

Electric Reliability Council of Texas (ERCOT)

An independent system operator that schedules power for the region, which represents about 90 percent of the State of Texas's electric load.

Energy Charges

That portion of the charge for electric service based upon the electric energy consumed or billed. Electrical energy is usually measured in kilowatt-hours (kWh), while heat energy is usually measured in British thermal units (Btu).

Energy Efficiency Programs

Programs sponsored by utilities or others specifically designed to achieve energy efficiency improvements. Energy efficiency improvements reduce the energy used by specific end-use devices and systems, typically without affecting the services provided. These programs reduce overall electricity consumption. Such savings are generally achieved by substituting technically more advanced equipment to produce the same level of end-use services (e.g. lighting, heating, motor drive) with less electricity. Examples include high-efficiency appliances, efficient lighting programs, high-efficiency heating, ventilating and air conditioning (HVAC) systems or control modifications, efficient building design, advanced electric motor drives, and heat recovery systems.

Energy Efficiency Service Charge

Charge assessed to customers to offset the cost of energy efficiency program services offered by Austin Energy.

Fuel Adjustment (PSA)

A rate schedule that provides for an adjustment to the customer's bill for the cost of power supply.

Green Pricing (GreenChoice)

An optional Austin Energy service that allows customers an opportunity to support a greater level of Austin Energy's investment in and/or purchase of power from renewable energy technologies. Participating customers pay a premium on their electric bill to cover the incremental cost of the additional renewable energy.

Inverted Rate Design

A rate design for a customer class for which the unit charge for electricity increases as usage increases.

CITY OF AUSTIN ELECTRIC TARIFF

Kilowatt-hour (kWh)

The basic unit of electric energy equal to one kilowatt of power supplied to or taken from an electric circuit steadily for one hour. One kilowatt-hour equals 1,000 watt-hours. The number of kWhs is used to determine the energy charges on your bill.

Load Factor

The ratio of the average load in kilowatts supplied during a designated period to the peak or maximum load in kilowatts occurring in that period. Load factor, in percent, is derived by multiplying the kilowatt-hours in the period by 100 and dividing by the product of the maximum demand in kilowatts and the number of hours in the period.

Load Profile

Shows the quantity of energy used by a class of customers at specific time intervals over a 24-hour period.

Load Shifting

Involves shifting load from on-peak to mid- or off-peak periods. Popular applications include use of storage water heating, storage space heating, cool storage, and customer load shifts to take advantage of time-of-use or other special rates.

Megawatt (MW)

One megawatt equals one million watts or 1,000 kWhs.

Megawatt-hour (MWh)

One megawatt-hour equals one million watt-hours or 1,000 kWhs.

Minimum Bill

A minimum charge to a customer during the applicable period of time, which is typically the customer charge. A provision in a rate schedule stating that a customer's bill cannot fall below a specified level. A minimum charge is similar to a customer charge because it is designed to recover fixed costs of services such as meter reading, billing and facilities maintenance. Although this charge does not generally recover the full cost of these services, it does give the customer a price signal that these costs do exist.

Off-Peak

Period of time when the need or demand for electricity on AE's system is low, such as late evenings, nights, weekends, and holidays.

On-Peak

Period of time when the need or demand for electricity on AE's system is high, normally during the late afternoons and early evening hours of the day from Monday through Friday, excluding holidays.

Peak Load Pricing

Pricing of electric service that reflects different prices for system peak periods or for hours of the day during which loads are normally high.

Peak Season Pricing

Pricing of electric service that reflects different prices for system peak seasonal periods.

Power Factor

CITY OF AUSTIN ELECTRIC TARIFF

The ratio of real power (kW) to apparent power (kVA) at any given point and time in an electrical circuit. Generally, it is expressed as a percentage ratio.

Power Factor Adjustment

A clause in a rate schedule that provides for an adjustment in the billing if the customer's power factor varies from a specified percentage or range of percentages.

Primary Voltage

The voltage of the circuit supplying power to a transformer is called the primary voltage, as opposed to the output voltage or load-supply voltage, which is called secondary voltage. In power supply practice the primary is almost always the high-voltage side and the secondary the low-voltage side of a transformer, except at generating stations.

Public Street and Highway Lighting

Electricity supplied and services rendered for the purpose of lighting streets, highways, parks, and for other public places; or for traffic or other signal system service for municipalities, or for other divisions or agencies of State or Federal governments.

Rate Schedule

A statement of the rates, charges, and terms and conditions governing the provision of electric service that has been accepted by a regulatory body with established oversight authority.

Rate Structure

The design and organization of billing charges to customers. A rate structure can comprise one or more of the rate schedules defined herein.

Seasonal Rates

Rate schedules that are structured for the different seasons of the year. The electric rate schedule usually takes into account demand based on weather and other factors.

Secondary Voltage

The output voltage or load-supply voltage of a transformer or substation. In power supply practice secondary voltage is generally the low-voltage side of a transformer, except at generating stations.

Single-Phase Service

Service where facility (e.g., house, office, warehouse) has two energized wires coming into it. Typically serves smaller needs of 120V/240V. Requires less and simpler equipment and infrastructure to support and tends to be less expensive to install and maintain.

Special Contract Rate Schedule

An electric rate schedule for an electric service agreement between Austin Energy and another party in addition to, or independent of, any standard rate schedule.

Standby Service

Service that is not normally used but that is available through a permanent connection in lieu of, or as a supplement to, the usual source of supply.

Tariff

CITY OF AUSTIN ELECTRIC TARIFF

A published collection of rate schedules, charges, terms of service, rules and conditions under which the Austin Energy provides electric service to the public.

Thermal Energy Storage

Is a technology that stocks thermal energy by heating or cooling a storage medium so that the stored energy can be used at a later time for heating and cooling applications and power generation.

Three-Phase Service

Electric energy that is transmitted by three or four wires to the customer. Relatively high voltage customers usually receive three-phase power.

Time-of-Use (Time-of-Day) Rates

A rate structure that prices electricity at different rates, reflecting the changes in the AE's costs of providing electricity at different times of the day. With time-of-use rates, higher prices are charged during the time when the electric system experiences its peak demand and marginal (incremental) costs are highest. Time-of-use rates better reflect the cost of providing service, sending more accurate price indicators to customers than non-time-of-use rates. Ultimately, these rates encourage efficient consumption, conservation and shifting of load to times of lower system demand.

Value of Service

A utility pricing concept in which the usefulness or necessity of a service to a customer group replaces or supplements cost factors as a major influence on the rates charged to the group. In ratemaking, this means that the price charged reflects the service's value to the customer rather than its cost to the producer. Value of service need not equal the cost of service; for example, Austin Energy's Value-of-Solar is such a product.

Volt

The unit of electromotive force or electric pressure analogous to water pressure in pounds per square inch. It is the electromotive force that, if steadily applied to a circuit having a resistance of one ohm, will produce a current of one ampere.

Watt

The electrical unit of real power or rate of doing work. The rate of energy transfer equivalent to one ampere flowing due to an electrical pressure of one volt at unity power factor. One watt is equivalent to approximately 1/746 horsepower, or one joule per second.

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Austin Water - Water Utility Operating Fund				
Professional Services/Analysis				
Descaling Permit Fee	\$669.00	\$669.00		\$0.00
<i>Annual fee used to recoup the costs incurred in performing the tasks associated with regulating companies performing temporary descaling activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications and reports, monitoring and inspecting sites where temporary descaling activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Descaling Permit Fee is prorated by quarter if the descaling company is in its first year of operation. Subsequent years of operations are charged at the full annual rate.</i>				
Engineering Review & Inspection Fee				
Fee based on percentage of total cost of construction project <i>In every case where a subdivision requires City inspection of the construction of streets, drainage, water or wastewater facilities, either singularly or in any combination, the Utility shall assess a fee based on the engineer's construction estimate of the improvements as calculated by the Utility in accordance with the following table:</i>				
Engineer's Estimate of Total Cost of Construction Project Value				
Less Than \$6,000.00	\$403.00			Inactivated
6,000.01 - 200,000.00	7.00%			Inactivated
200,000.01 - 250,000.00	6.75%			Inactivated
250,000.01 - 300,000.00	6.50%			Inactivated
300,000.01 - 350,000.00	6.25%			Inactivated
350,000.01 - 400,000.00	6.00%			Inactivated
400,000.01 - 450,000.00	5.75%			Inactivated
450,000.01 - 550,000.00	5.50%			Inactivated
550,000.01 - 650,000.00	5.25%			Inactivated
650,000.01 - 750,000.00	5.00%			Inactivated
750,000.01 - 1,000,000.00	4.75%			Inactivated
1,000,000.01 - 1,250,000.00	4.50%			Inactivated
1,250,000.01 - 1,500,000.00	4.25%			Inactivated
1,500,000.01 - 2,000,000.00	4.00%			Inactivated
2,000,000.01 - 2,500,000.00	3.75%			Inactivated
2,500,000.01 - 3,000,000.00	3.50%			Inactivated
3,000,000.01 - 5,000,000.00	3.25%			Inactivated
More Than 5,000,000.01	3.00%			Inactivated
Fee for processing of the plat through final plat approval <i>In every case where a subdivision does not require construction of streets, drainage, water or wastewater facilities or improvements to existing water and wastewater facilities.</i>	\$67.00			Inactivated

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Austin Water - Water Utility Operating Fund				
Minimum total fee (for processing of the plat through final plat approval)	\$403.00			Inactivated
<i>In every case where a subdivision requires City inspection of water or wastewater facilities with an estimated construction cost of \$6,000.00 or less.</i>				
Minimum total fee (for processing of the plat through final plat approval)	\$208.00			Inactivated
<i>In every case where a subdivision with public water and/or wastewater improvements greater than \$10,000 that require City of Austin review for compliance with City of Austin standards but no City of Austin inspection.</i>				
Laboratory Services Testing Fees

FY 2016-17 Fee Schedule

Austin Water - Water Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Total Coliform + E. coli (Colilert - MPN)	\$19.60	\$19.60		\$0.00
Miscellaneous Laboratory Services				
Bottle washing/maintenance per bottle	\$2.60	\$2.60		\$0.00
Organic Analyses				
Acid & Base Neutral Extractable Organic Compounds by GCMS	\$484.00	\$484.00		\$0.00
BTEX	\$54.75	\$54.75		\$0.00
Total Trihalomethanes (TTHM)	\$70.50	\$70.50		\$0.00
Volatile Organic Compounds by GCMS	\$205.00	\$205.00		\$0.00
Site/Plan Reviews				
Distribution Walk-Through Re-inspection Fee	\$225.00	\$225.00		\$0.00
<i>Fee charged to contractors to recover the cost of returning to projects where the initial inspection findings and secondary inspection findings have not been remediated.</i>				
Utility Development Services Engineering Plan Review-Meter Upsizing Only				
<i>This fee will be charged for engineering plan reviews by Austin Water.</i>				
Fourth Review (which also covers subsequent reviews if necessary)	\$536.25	\$536.25		\$0.00
Initial Review (which also covers a second and third review if necessary)	\$214.50	\$214.50		\$0.00
Withdrawal and resubmittal of engineering plans for review		\$107.25		New
Utility Development Services Meter Upsizing Plan Review		\$69.50		New
<i>This fee applies to the review and approval of plans that involve an increase in the size of the water meter. Such plans do not include any modification to the City's water service line or mains.</i>				
Utility Development Services Tap Plan Review				
<i>This fee will be charged for tap plan reviews by Austin Water.</i>				
Fourth Review (which also covers subsequent reviews if necessary)	\$214.50	\$214.50		\$0.00
Initial Review (which also covers a second and third review if necessary)	\$107.25	\$107.25		\$0.00
Withdrawal and resubmittal of tap plans for review		\$53.62		New

Utility Charges/Rates

Addition to System Fee

Water tap fees for all second connections, increases to the existing installed meter, and/or water meters larger than two inches (2") are calculated on the total labor costs, transportation and equipment costs, materials and supply costs, plus indirect and overhead costs for the connection.

Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection.

If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.

FY 2016-17 Fee Schedule

Austin Water - Water Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Auxiliary Water Fee for Lake or Natural Auxiliary Water Sources Only	\$60.00	\$60.00		\$0.00
<i>Annual fee charged to AWU customers with an active lake or other natural water auxiliary water source. Fee will be used to recoup some of the costs incurred to implement, manage, and enforce this program that is designed to ensure that the public water supply is adequately protected and, if applicable, alternate wastewater billing is applied according to approved standards. The fee is per AWU customer site with an active lake or other natural auxiliary water source. This fee does not apply to AWU customer sites where the only auxiliary water source is from a rainwater harvesting system or AWU-provided reclaim water. This fee is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.</i>				
Backflow Prevention Compliance Fee-BPAs Tested Annually	\$31.20	\$31.20		\$0.00
<i>Annual fee the that AW charges to its potable and reclaimed water high hazard customers or fire sprinkler systems that have backflow prevention assemblies (BPAs) on their plumbing systems that are required by the State of Texas or City of Austin regulations to be tested. The results of the tests are required to be reported back to the AWU on at least an annual basis to help the utility ensure that its customers are protected from possible contamination or pollution due to a backflow event. Fee is per BPA and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.</i>				
BPAs required to be tested and reported on at least biennially		\$15.60		New
Conservation Based Fees				
Irrigation Seminars				
Eight Hour Seminar	\$56.00	\$56.00		\$0.00
Two to Four Hour Seminar	\$28.00	\$28.00		\$0.00
Water Use Management Violations Administrative Fines (Irrigation /Water Use Violations)				
Commercial				
Alternative Compliance (6-4-32) Base Fee	\$500.00	\$500.00		\$0.00
Each additional site visit	\$125.00	\$125.00		\$0.00
Connection to Available Reclaimed Water Line [6-4-30 (H)]	\$100.00	\$100.00		\$0.00
Facilities Regulated				
Documentation Submittal / Violation	\$200.00	\$200.00		\$0.00
Late Submittal Fine (per day)	\$25.00	\$25.00	per day	\$0.00
First event in 12-month period				
Appeal Fee				
5% of fine; \$5 minimum				
Conservation Stage	\$150.00	\$150.00		\$0.00
Drought Response Stage 1	\$150.00	\$150.00		\$0.00
Drought Response Stage 2	\$200.00	\$200.00		\$0.00
Drought Response Stage 3	\$300.00	\$300.00		\$0.00
Drought Response Stage 4	\$2,000.00	\$2,000.00		\$0.00
Fourth event in 12-month period				
Appeal Fee				
5% of fine; \$5 minimum				

FY 2016-17 Fee Schedule

Austin Water - Water Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Conservation Stage	\$500.00	\$500.00		\$0.00

Drought Response Stage 4	\$1,250.00	\$1,250.00		\$0.00
Emergency Repair Cut Off/On Fee	\$13.40	\$13.40		\$0.00
Fee added to Utility Bills for customer requests for Utility to cut off/on service to water meter for repairs or other miscellaneous reasons.				
Evaporative Loss Credit Application and Processing Fee	\$187.50	\$187.50		\$0.00
Non-refundable application and processing fee; customer is responsible for reporting timely and accurate meter readings each month. If customer reports an erroneous meter read or fails to meet the monthly reporting deadline, the Utility can waive the deadline for one instance in a twelve month period.				
Fire Hydrant Meter Fees				
Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest, and will be refunded to the customer upon return of the meter and equipment to the Utility, after verification that the meter and equipment is in good working condition, and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be deducted from the deposit, if applicable. Refer to City Ordinance No. 20051020-005.				

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Austin Water - Water Utility Operating Fund				
Fire Hydrant Initiation Fee

FY 2016-17 Fee Schedule

Austin Water - Water Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
<p>Fees for lots that were platted on or after January 1, 2014. For lots platted prior to this date see previous fee schedules.</p>				
Wastewater	\$2,200.00	\$2,200.00		\$0.00
Water	\$5,400.00	\$5,400.00		\$0.00
<p>Interest on Capital Recovery Fee - Payment Agreements</p>				
Annual interest rate	7%	7%		\$0.00
<p>Interest on Private Lateral Repair - Payment Agreements</p>				
Annual interest rate	10%	10%		\$0.00
Leak and Administrative Adjustment Water Discount Rate	\$5.62	\$5.62		\$0.00
<p><i>The discounted water rate for single-family residential customers receiving a water leak adjustment as well as the single-family residential customers qualifying for an administrative water adjustment.</i></p>				
<p>Tap & Reconnection Fee</p>				
<p><i>Meter Tap & Reconnection Fees (not to exceed meter size 5/8" plus actual cost of meter fees) shall be waived for the installation of a water meter solely for a City-Supported Community Garden as defined in Chapter 14-7 of the City Code.</i></p>				
<p>The fees for wastewater connections and manholes performed by the City are as follows:</p>				
<p>Connection Size and Zone:</p>				
6-inch or less - Zone 1	\$403.00	\$403.00		\$0.00
6-inch or less - Zone 2	\$469.00	\$469.00		\$0.00
6-inch or less - Zone 3	\$535.00	\$535.00		\$0.00
<p>The fees for water and reclaimed water connections/reconnections performed by contractors in accordance with City connection procedures are as follows:</p>				
<p>Meter Size:</p>				
3" or 4" plus actual cost of meter	\$535.00	\$535.00		\$0.00
5/8" through 2" plus actual cost of meter	\$168.00	\$168.00		\$0.00
6" or larger plus actual cost of meter	\$802.00	\$802.00		\$0.00
<p>The fees for water and reclaimed water connections/reconnections performed by the City are as follows:</p>				
<p>Meter Size:</p>				
1" plus actual cost of meter	\$595.00	\$595.00		\$0.00
1-1/2" plus actual cost of meter	\$975.00	\$975.00		\$0.00
2" plus actual cost of meter	\$1,167.00	\$1,167.00		\$0.00
3/4" plus actual cost of meter	\$524.00	\$524.00		\$0.00
5/8" plus actual cost of meter	\$501.00	\$501.00		\$0.00
<p>Tap Inspection Fee</p>				
<p><i>Fee charged for additional water tap inspection(s) after initial inspection has failed to be in compliance with standard meter detail of City of Austin code requirements. This fee must be paid in order to schedule a follow up inspection.</i></p>				

FY 2016-17 Fee Schedule

Austin Water - Water Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Cost per inspection:				
Re-Inspection Fee (Tap)	\$33.50	\$33.50		\$0.00
Water and Reclaimed Water Meter sizes 2" or less	\$67.00	\$67.00		\$0.00
Tap Installation Cost Estimate Fee				
<i>Cost estimates for certain tap connections are calculated based on total labor, transportation, equipment, materials, supplies and indirect or overhead costs. Preparation of cost estimates requires research of records, a field trip and calculations by Taps Office staff. The fee would be applied toward the purchase of services if purchased within a 90 day period from the date of the estimate.</i>				
Fee per Cost Estimate	\$53.00	\$53.00		\$0.00
Utility Diversion Charge				
Charge for administrative and field review (per incident).	\$155.00	\$155.00		\$0.00
<i>Additional charges billed based on the extent of labor required, equipment damages and the cost of metering equipment and appurtenances.</i>				
Utility Meter Re-testing Fee	\$310.00	\$310.00		\$0.00
<i>Fee assessed to customer requesting a meter accuracy test on meters when the Utility has performed a meter accuracy test on the same meter during the preceding 36-month period. Fee will only be assessed if the meter passes the additional requested accuracy tests.</i>				
Utility Piping Permit	\$655.00	\$655.00		\$0.00
<i>Annual fee used to recoup the costs incurred in performing the tasks associated with regulating the chemical providing companies performing temporary utility piping activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary utility piping activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Utility Piping Permit fee is prorated by quarter if the chemical provider company is in its first year of operation. Subsequent years of operation are charged at the full annual rate.</i>				
Utility Special Service Billings				
The Utility charges the following hourly rates for these special service requests:				
Flusher Truck	\$100.00	\$100.00		\$0.00
Hydrostatic Test	\$88.00	\$265.00		\$177.00
<i>This fee includes up to four hours of labor. Subsequent labor will be billed at \$88.00 per hour.</i>				
Mini Camera	\$167.00	\$167.00		\$0.00
Rodding Machine	\$167.00	\$167.00		\$0.00
Smoke Test	\$100.00	\$100.00		\$0.00
TV Inspection Unit	\$167.00	\$167.00		\$0.00
Vactor Truck	\$167.00	\$167.00		\$0.00
Water Drought Rate Surcharge:				
<i>Surcharge enacted for all retail and wholesale customer classes during Stage 3 and Stage 4 of drought-response water restrictions to ensure financial stability to the Austin Water Utility. These surcharges will take effect the next monthly billing cycle following the declaration of Stage 3 or Stage 4 water restrictions, and will continue until directed by the City Manager.</i>				
Stage 3 Volume Rate per 1,000 gallon	\$1.00	\$1.00	per 1,000 gallons	\$0.00
Stage 4 Volume Rate per 1,000 gallons	\$3.00	\$3.00	per 1,000 gallons	\$0.00

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Austin Water - Water Utility Operating Fund				
Water Revenue Stability Reserve Fund Surcharge - Retail: <i>Fee charged to all retail water customers per 1,000 gallons of water billed for the billing period to fund the Revenue Stability Reserve Fund.</i>	\$0.19	\$0.19	per 1,000 gallons	\$0.00
Water Revenue Stability Reserve Fund Surcharge - Wholesale <i>Fee charged to all wholesale water customers per 1,000 gallons of water billed for the billing period to fund the Revenue Stability Reserve Fund.</i>	\$0.10	\$0.10		\$0.00
Water Service Rates				
<i>For all bills and charges rendered on or after November 1, 2016, these rates are applicable to all sales or service of water to customers served by the City of Austin.</i>				
Commercial Monthly Minimum Charge				
<i>This fee is charged in addition to the Retail Monthly Meter Equivalent Minimum Charge.</i>				
<i>Commercial customers will be assessed a monthly minimum fixed charge for each meter when consumption has registered, or for service of at least 10 days of the monthly billing period based on meter size.</i>				
Meter Size:				
5/8"	\$10.85	\$10.80		(\$0.05)

FY 2016-17 Fee Schedule

Austin Water - Water Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Sunset Valley, City of	\$4.24	\$4.24		\$0.00
Travis Co. WCID #10	\$3.97	\$2.75		(\$1.22)
Village of San Leanna	\$4.06	\$4.06		\$0.00
Wells Branch MUD - N.A.G.C.	\$3.46	\$2.60		(\$0.86)
Water Well Fee	\$90.00	\$90.00		\$0.00
<p><i>Annual fee the Austin Water Utility (AWU) charges customers with water wells to recoup the costs incurred to implement, manage, and enforce the new Water Well Program that is designed to ensure that the public water supply is adequately protected and, if applicable, alternate wastewater billing is applied according to approved standards. The requirement to register AWU customers with certain types of active water wells is in Chapter 15-12 of the Austin City Code. The fee is per AWU customer site with active water well(s) that are required to be registered under Ch. 15-12. This fee is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.</i></p>				
<p>Watercraft and Marinas Program Fees</p>				
Boat Pump-Out Facility	\$60.00	\$60.00		\$0.00
<p><i>Annual permit fee that AW charges customers with a boat pump-out facility operated on or adjacent to the surface waters of the City's water supply. This permit is required in accordance with Chapter 6-5, Article 3 (Watercraft and Marinas) of the Austin City Code.</i></p>				
Excursion Boat with Marine Sanitation Device	\$24.00	\$24.00		\$0.00
<p><i>Annual permit fee that AW charges customers with a marine sanitation device on a watercraft operated or intended for operation on the surface waters of the City's water supply.</i></p>

FY 2016-17 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
License/Use Permits				
Liquid Waste Hauler's Fees				
After Hours Receiving Station Fee	\$284.00	\$284.00		\$0.00
<i>Fee to recover the costs incurred by AW in order to open and operate the hauled waste receiving station after normal business hours for a minimum of at least 2 hours. This fee applies to each 2 hour interval that the hauled waste receiving station is requested and authorized to be opened after hours.</i>				
Disposal and Treatment Fee				
Volume Basis: Vehicle Storage Capacity	100%	100%		\$0.00
Volume: Charge per 1,000 gallons of liquid waste	\$44.50	\$44.50		\$0.00
Permit Fee	\$92.00	\$92.00	each	\$0.00
<i>The Permit Fee can be prorated by month if the Liquid Waste Hauler is in its first year of operation. Subsequent years of operation are charged at the full annual rate. For all the Liquid Waste Haulers the Permit Fee can be prorated by month when the annual Liquid Waste Hauler permit renewal date is adjusted.</i>				
Trip Ticket Book	\$10.00	\$10.00		\$0.00
Vehicle Inspection or Re-inspection	\$44.50	\$44.50		\$0.00
Wastewater Discharge Permit Base Fee				
<i>Permit Base Fees for Category I General and Category V Dental Industrial Users are charged on a monthly basis at 1/12 of the respective fee shown above. These Category I and Category V Permit Base Fees are only charged during the month(s) the General or Dental Industrial User's account is active. For all other Industrial Users (e.g. significant industrial users, categorical industrial users, major industrial users, other political subdivision industrial users, etc.) Permit Base Fees are charged on an annual basis at one of the rates shown above for Categories II through IV. This annual Permit Base Fee is prorated by quarter if the Industrial user is in its first year of operation. Subsequent years of operation are charged at the full annual rate. Analytical costs will be determined by the amount of Water Laboratory cost associated with each Industrial User. The Category V Permit Fee for Dental Industrial Users will only be applied when the federal categorical standards stipulated in 40 CFR 441 become effective.</i>				
Annual Permit Fee				
Category I	\$162.00	\$162.00		\$0.00
Category II	\$669.00	\$669.00		\$0.00
Category III	\$669.00	\$669.00		\$0.00
Category IV	\$876.00	\$876.00		\$0.00
Category V	\$64.80	\$64.80		\$0.00
Professional Services/Analysis				
Metered Wastewater Billing Application Fee	\$330.00	\$330.00		\$0.00
<i>Fee to determine the feasibility of wastewater metering.</i>				
On-Site Sewage Facility (OSSF) & Alternative Wastewater System Fees				
Alternative Wastewater System Design Change Fee	\$264.00	\$264.00		\$0.00
<i>The fee covers the cost of reviewing changes to submitted engineering designs of alternative wastewater collection systems.</i>				
Alternative Wastewater System Fee	\$601.00	\$601.00		\$0.00

FY 2016-17 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Emergency Holding Tank Fee				
Non-Single Family	\$425.00	\$425.00	each	\$0.00
Single-Family Residential Inspection	\$217.00	\$217.00	each	\$0.00
Lake Sanitation				
OSSF Tank Abandonment				
Private sewage facility cutover to sewer Permit Review	\$53.75	\$53.75	each	\$0.00
License Amendment or Design Change Fee	\$269.00	\$269.00	each	\$0.00
Minor Re-permit Changes	\$300.00	\$300.00		\$0.00
On-Site Sewage Facility Permit Fee (Permit to Construct/License to Re-inspection	\$601.00	\$601.00	each	\$0.00
Site/Lot Evaluation	\$80.00	\$80.00	each	\$0.00
State OSSF Surcharge	\$80.00	\$80.00	each	\$0.00
Subdivision Review	\$10.00	\$10.00	each	\$0.00
Review of subdivisions served by private sewage facilities				
For each additional lot	\$6.80	\$6.80	Each additional lot	\$0.00
For the first 20 lots	\$167.00	\$167.00	First 20 lots	\$0.00
Private Wastewater Lateral Evaluation Fee	\$112.00	\$112.00		\$0.00
<i>This fee covers the cost of providing site elevation analysis on City-identified private wastewater laterals that are defective and under enforcement activities by the City.</i>				
Re-Sampling Fee	\$202.00	\$202.00		\$0.00
<i>This re-sampling fee is used to recoup the costs associated with the sampling and analysis of wastewater discharge samples that are used to derive a wastewater surcharge for industrial users that request such a re-sample as authorized under Chapter 15-10 (Wastewater Regulations). A minimum of two samples per outfall per industrial user site are required. The re-sampling fee applies to each sample required to be collected in order to derive a wastewater surcharge. Industrial user customers may gain approval for only one re-sampling event per calendar year.</i>				
Safety and Technical Training				
<i>The courses below are offered to both City of Austin employees and any other interested persons:</i>				
Activated Sludge	\$200.00	\$200.00		\$0.00
Basic Wastewater	\$200.00	\$200.00		\$0.00
Basic Water	\$200.00	\$200.00		\$0.00
Chlorinator Maintenance	\$200.00	\$200.00		\$0.00
Pre-Utility Calculations	\$150.00	\$150.00		\$0.00
Pump and Motor Maintenance	\$200.00	\$200.00		\$0.00
Surface Water Production Part 1	\$200.00	\$200.00		\$0.00
Surface Water Production Part 2	\$200.00	\$200.00		\$0.00
Utility Calculations	\$150.00	\$150.00		\$0.00

FY 2016-17 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
Valve and Hydrant Maintenance	\$200.00	\$200.00		\$0.00
Wastewater Collection	\$200.00	\$200.00		\$0.00
Wastewater Treatment	\$200.00	\$200.00		\$0.00
Water Distribution	\$200.00	\$200.00		\$0.00
Water Utility Safety	\$200.00	\$200.00		\$0.00
Utility Charges/Rates				
Addition to System Fee				
<i>Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection.</i>				
<i>If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.</i>				
Industrial Waste Surcharge				
Surcharge unit charges in dollars per pound				
BOD	\$0.50	\$0.50	exact fee is 0.5043	\$0.00
COD	\$0.22	\$0.22	exact fee is 0.2242	\$0.00
Suspended Solids	\$0.11	\$0.11	exact fee is 0.1087	\$0.00
Meter Processing Fee				
<i>Fee for overhead costs of processing new meters for sale to other Utilities outside of the city. Cost of meter is not included in the fee.</i>				
Meters 3" to 6"	\$53.25	\$53.25	per meter	\$0.00
Meters less than 3"	\$6.75	\$6.75	per meter	\$0.00
Post-Annexation Water and Sewer Fees				
<i>Customers within the following areas pay an additional monthly post-annexation water and sewer rate as provided below:(1) The former Southland Oaks Municipal Utility District based on meter size - until November 6, 2021:</i>				
Meter Size				
5/8"	\$25.21	\$25.21		\$0.00
3/4"	\$37.82	\$37.82		\$0.00
1"	\$63.03	\$63.03		\$0.00
1 ¼"	\$78.15	\$78.15	Inactivated	\$0.00
1 ½"	\$126.05	\$126.05		\$0.00
2"	\$201.68	\$201.68		\$0.00
3"	\$378.15	\$378.15		\$0.00
4"	\$630.25	\$630.25		\$0.00
6"	\$1,260.50	\$1,260.50		\$0.00
8"	\$2,016.80	\$2,016.80		\$0.00

FY 2016-17 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
10"	\$3,940.32	\$3,940.32		\$0.00
12" or larger	\$5,629.14	\$5,629.14		\$0.00
Private Fire Hydrant (PFH) Fee	\$28.08	\$28.08		\$0.00
<p><i>Annual fee that AW charges to its customers with private fire hydrants (PFHs) for the tracking of locations, testing, inspections, and maintenance of PFHs, as well as the tester's certifications and credentials. The requirement to inspect, test and maintain private hydrants is in Chapter 25-12 of the Austin City Code as described in § 25-12-172 (Local Amendments to International Fire Code - 508.5.3 Private Fire Service mains and water tanks). This annual inspection, testing and maintenance of PFHs must be done in accordance with the National Fire Protection Association (NFPA) 25 and American Water Works Association (AWWA) Manual M-17, Installation, Field Testing and Maintenance of Fire Hydrants. This annual inspection, testing and maintenance ensures PFHs will operate properly in emergency situations, identifies and helps quantify the amount of water lost due to leaking systems and misuse, and improves the City of Austin's mapping systems, assisting both the AWU and the Austin Fire Department (AFD). Fee is per private hydrant and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.</i></p>				
<p>Service Extension Request with Administrative Approval</p>				
Cost per acre served	\$8.00	\$8.00	per acre served	\$0.00
Maximum Charge	\$400.00	\$400.00		\$0.00
Minimum Charge	\$160.00	\$160.00		\$0.00
<p>Service Extension Request with Council Approval</p>				
Cost per acre served	\$32.00	\$32.00		\$0.00
Maximum Charge	\$640.00	\$640.00	No Maximum minimum	\$0.00
Minimum Charge	\$640.00	\$640.00		\$0.00
<p>Wastewater Discharge from Boats on Lake Austin</p>				
Fee per ten minutes of pumping. per 10 min	\$0.50	\$0.50		\$0.00
<p>Wastewater Service Rates</p>				
<p><i>For all bills and charges rendered on or after November 1, 2016 these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge for retail customers will be based on their wastewater average.</i></p>				
<p>Wastewater Service Rates for Retail Customers:</p>				
<p>Existing Customers:</p>				
<p>(A) Retail Customers with Water Service</p>				
<p><i>These rates are applicable to all retail customers who have metered water connections. Wastewater billing is based on the average water usage during the designated three (3) month wastewater averaging period; or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. If there is zero usage for two or all three months of the averaging period, a default wastewater average of 5,000 gallons will be assigned for residential customers until the next wastewater averaging period. For all other retail customers if there is zero usage for two or all three months of the averaging period, the monthly wastewater volume will be based on actual metered water usage monthly until the next wastewater averaging period.</i></p>				

FY 2016-17 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	FY 2015-16	FY 2016-17	Note	Change
<p>(B) Wastewater Billing for Domestic Alternate Water Sources</p> <p>Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.</p> <p>(C) Non-Residential Customers with associated Irrigation Meters (Multifamily, Commercial, Large Volume and Wholesale)</p> <p>For those non-residential customers that have a separate City of Austin irrigation water meter for irrigation or alternative irrigation water source on the property other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base wastewater billing for domestic usage on actual monthly water consumption. Any property that has an irrigation meter requirement will base wastewater billing for domestic usage on actual monthly water consumption.</p> <p>(D) Non Residential Customers without irrigation needs or requirements on the property</p> <p>Non Residential Customers without irrigation needs or requirements on the property will base wastewater billing for domestic usage on actual monthly water consumption.</p> <p>New Customers:</p> <p>(A) Residential</p> <p>The City will impute a wastewater average of 5,000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water Utility or the Director's designee has the discretion to adjust the 5,000 gallon average when the customer has had an established wastewater average at another City of Austin service address.</p> <p>(B) Non-Residential Customers without irrigation meter(s) (Multifamily, Commercial, Large Volume and Wholesale)</p> <p>(1) Except as provided by subsection (2), if a non-residential customer establishes a new account at a service location where an earlier account established a wastewater average, the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.</p> <p>(2) If in the judgment of the Director of the Austin Water Utility or the Director's designee, the new customer will place a substantially different demand on the wastewater collection and treatment system, the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non-residential customer has established a wastewater average.</p> <p>(C) Wastewater Billing for Domestic Alternate Water Sources.</p> <p>Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.</p> <p>(D) Non-residential Customers with associated Irrigation Meters. (Multifamily, Commercial, Large Volume and Wholesale)</p> <p>If a new non-residential customer has installed a separate City water irrigation water meter or alternative irrigation source on the property, other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.</p>				

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
<p>Austin Water - Wastewater Utility Operating Fund</p>				
<p>The criteria and procedures for an existing commercial customer or a new large volume customer to qualify as a large volume customer are as follows:</p>				
<p>Existing Commercial Customers:</p>				
<p>(A) Criteria</p>				
<p>An existing commercial customer of the Austin Water Utility must purchase more than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. The Austin Water Utility will annually monitor water consumption to determine if any existing customers have exceeded the 85.0 million gallon level.</p>				
<p>(B) Procedures</p>				
<p>On verification of the 85.0 million gallon purchase or consumption requirement in fiscal year one, the Austin Water Utility will include this customer as a large volume customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two, and will set rates that are to be effective November 1 of fiscal year three. The Austin Water Utility will verify the water consumption in fiscal year two, before the rate change on November 1 of fiscal year three, to determine if the commercial customer has maintained the 85.0 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 85.0 million level, the City will change the rates for the commercial customer to the large volume customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 85.0 million gallon level in the second fiscal year, the customer will remain at commercial class rates.</p>				
<p>The criteria and procedures for an existing large volume customer to continue to qualify as a large volume customer are as follows:</p>				
<p>Existing Large Volume Customers with Reduced Volume:</p>				
<p>(A) Criteria</p>				
<p>Existing large volume customers of the Austin Water Utility must purchase 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. The Austin Water Utility will annually monitor water consumption for all existing large volume customers to determine whether the minimum 85.0 million gallon level has been met.</p>				
<p>(B) Procedures</p>				
<p>On verification of fiscal year water use below the 85.0 million gallon consumption requirement the Strategic Resource Services Division of the Austin Water Utility will notify the customer in writing of the shortfall. If the customer falls below the 85.0 million gallon level for a second consecutive year, a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status, the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed.</p>				
<p>(C) Procedures</p>				
<p>Large volume customers that have implemented an Austin Water Utility approved conservation initiative that causes the water consumption to fall below the 85 million gallons threshold may continue to receive the large volume rate provided that the annual water consumption remains above 65 million gallons and the reduced usage does not create a peaking factor that would be greater than the commercial class peaking factor.</p>				

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Austin Water - Wastewater Utility Operating Fund				
Existing Large Volume Customers with Major Process Changes:				
(A) Criteria				
An existing large volume customer of the Austin Water Utility who has major process changes (e.g. sells off parts of the company, business changes with lower use projections, etc.) and the original business plans to purchase less than 85.0 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus.				
(B) Procedures				
Upon notification of a major process change that reduces water use projections below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resources Services Division of the Austin Water Utility will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which water use is reduced.				
New Large Volume Customers:				
(A) Criteria				
New large volume customers that have requested connection to the water and wastewater system must submit water use projections to the Austin Water Utility as part of the service extension process. The Austin Water Utility will review the water use projections to verify that the customer would consume more than 85.0 million gallons within a fiscal year at a single service address or campus.				
(B) Procedures				
After the customer has provided the Austin Water Utility with water use projections, the Austin Water Utility will verify and approve the projections. On approval, the City will classify the customer as a large volume customer and charge the appropriate rate on connection to the City's water and wastewater system. If the Austin Water Utility does not approve the customer's water use projections as being above the 85.0 million gallon level, the City will classify the customer appropriately.				
Retail Monthly Customer Charges:	\$10.30	\$10.30		\$0.00
Customer Assistance Program (CAP) customers may qualify for a waiver of the monthly customer charge.				
Volume Unit Charge				
All Volumes (Unit Cost Per 1,000 Gallons)				
Non-Residential:				
Commercial	\$9.26	\$9.48		\$0.22
Large Volume				
Freescale	\$8.52		Inactivated	
NXP Ed Bluestein (Formerly Freescale)		\$8.93	New

General Information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour after 12 midnight and before 6AM. A non-refundable application fee of \$100.00 may be required to process the application. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

FY 2016-17 Fee Schedule

FY 2015-16	FY 2016-17	Note	Change
------------	------------	------	--------

Austin Convention Center - Operating Fund

The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by customers who represent significant local economic impact, hotel occupancy tax or substantial facility revenue; provided, however, that the direct dollar impact from all sources must not be below the operating cost of each area or facility used by customers. The Director may use the following formula to calculate the direct dollar impact of facility use by customers:

Delegate Spending [# of Attendees: ___ x \$974 (amount per stay)] + Exhibit Company Spending [# of Exhibiting Companies ___ x \$7,004 (amount per stay)] = Direct Dollar Impact \$ _____

The source of the Direct Dollar Impact Formula is Destination Marketing Association International (DMAI). This formula is based on the DMAI ExPact Study. DMAI periodically updates the formula's amount per stay multiplier. The Director may update this multiplier so it reflects the current DMAI multiplier.

All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the base rate. Changes made within five (5) days of the event are subject to reset fees.

At the Austin Convention Center, all food and beverage is exclusive to the in-house food and beverage management company.

The standard rate applies for show management orders when complete event requirement or specifications are received thirty (30) days or less from first completion day. An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day.

The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.

The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.

Pre-Function Space and Outside Area Rental

Outside areas and pre-function space may not be used for exhibits unless the area is contracted as such and has prior approval by the Director. The Minimum Daily Rental is charged per booth versus \$2.00 per gross square foot per day, whichever is greater is charged. Pre-function space and lobbies are generally used for pedestrian traffic or registration; therefore, the Department may be unable to reserve on an exclusive basis.

Column Wrap	\$500.00	\$500.00	per outdoor column	\$0.00
Outdoor Areas - Food & Beverage Events	\$1.00	\$1.00	per sq. ft.	\$0.00

General information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour after 12 midnight and before 6AM. A non-refundable application fee of \$100.00 may be required to process the application. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by customers who represent significant local economic impact, hotel occupancy tax or substantial facility revenue; provided, however, that the direct dollar impact from all sources must not be below the operating cost of each area or facility used by customers. The Director may use the following formula to calculate the direct dollar impact of facility use by customers:

Delegate Spending [# of Attendees: ___ x \$974 (amount per stay)] + Exhibit Company Spending [# of Exhibiting Companies ___ x \$7,004 (amount per stay)] = Direct Dollar Impact \$ _____

The source of the Direct Dollar Impact Formula is Destination Marketing Association International (DMAI). This formula is based on the DMAI ExPact Study. DMAI periodically updates the formula's amount per stay multiplier. The Director may update this multiplier so it reflects the current DMAI multiplier.

FY 2016-17 Fee Schedule

FY 2015-16	FY 2016-17	Note	Change
------------	------------	------	--------

Austin Convention Center - Palmer Events Center Revenue Fund

When an outside entity is utilized for food and beverage at the Lester E. Palmer Events Center, equipment and services are charged accordingly. Facility rental does not include equipment. Food and beverage service is exclusive to the in-house food and beverage management company in the Palmer Events Center meeting rooms 1-5.

Short term rental of Palmer Events Center meeting rooms 1-5, without the rental of an exhibit hall, is available within a ninety (90) day window.

All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the standard rate. Changes made within five (5) days of the event are subject to reset fees.

Requests received from Show Management thirty-one (31) days or more from the first contract day for labor services, security services, equipment, waste management services, audio recording services and utility services will be charged the listed rate (incentive rate). An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day.

The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.

The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.

Meeting Room Use General Session Use

Charged at the Daily Rental per show day and includes one (1) single-level head table for four (4) people. Equipment and services are additional expenses and are not included in meeting room rental rate. One (1) move-in or move-out day is charged at one-half (1/2) the daily rental rate.

Food Function Use

Charged at daily rental rate, includes one (1) head table for four (4) people. Move-in and move-out days are charged at one-half (1/2) the daily rental rate.	
Meeting Room 1	\$275.00 per day \$0.00
Meeting Room 2	\$275.00 per day \$0.00
Meeting Room 3	\$275.00 per day \$0.00
Meeting Room 4	\$275.00 per day \$0.00
Meeting Room 5	\$275.00 per day \$0.00

Outdoor Rental Space

Canopy Pricing Structure: Price discounts on catered food and beverage are less service charge and tax.

If a total of \$30,000 is spent on food and beverage, then the entire Facility Rental is waived.

If a total of \$25,000 is spent on food and beverage, then fifty percent (50%) of the Facility Rental is waived.

South Canopy Pricing Structure: Price discounts on catered food and beverage are less service charge and tax.

If a total of \$15,000 is spent on food and beverage, then the entire Facility Rental is waived.

If a total of \$10,000 is spent on food and beverage, then fifty percent (50%) of the Facility Rental is waived.

If a total of \$5,000 is spent on food and beverage, then twenty-five (25%) of the Facility Rental is waived.

Rooftop Overlook Pricing Structure: Price discounts on catered food and beverage are less service charge and tax.

If a total of \$25,000 is spent on food and beverage, then the entire Facility Rental is waived.

Stage Performance Rental				
<i>Ticketed Stage, Performance Use</i>				
<i>A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.</i>				
<i>Other Event Use</i>				
<i>Does not include equipment; equipment is charged accordingly. One (1) move-in or move-out day is provided at no charge for each two (2) show days, not to exceed two (2) days at no charge. All other move-in and move-out days are charged at one-half (1/2) the Maximum Daily Rental. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.</i>

Standard Labor Rates				
<i>All subject to availability.</i>				
<i>Credit will not be given for services ordered and not used. Unscheduled labor may be subject to overtime charges of one (1) and one-half (1/2) the regular rate. Final determination of the number and type of personnel required for an event will be made by the Department. A four (4) hour minimum may be charged unless otherwise specified. Charges will be made in one-half (1/2) hour increments after the initial four (4) hour minimum. Call-back charges will be a minimum of two (2) hours. Room resets beyond the initial set includes labor and additional equipment costs. The Standard Rate applies for Show Management orders when complete event requirements or specifications are received thirty (30) days or less from the first contract day. An approximate discount of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more from the first contract day.</i>

Watershed Protection				
Utility Charges/Rates				
Chapter 245 Review				
<i>Development Services Surcharge fee not applicable.</i>				
Commercial Pond Non-compliance Fee	\$840.00	\$840.00		\$0.00
<i>Determined by annual inspection and requiring reinspection.</i>				
Commercial Pond Re-inspection Fee	\$500.00	\$500.00		\$0.00
<i>Development incentives in Smart Growth Zones</i>				
<i>Fees for projects in areas where development is encouraged are discounted. The percentage of the applicable fee to be charged is described below.</i>				
1. The portion of the Desired Development Zone that is located in the extraterritorial jurisdiction.	80%	80%		\$0.00
2. Except as provided in number (3) below, the portion of the Desired Development Zone located in the city limits.	70%	70%		\$0.00
3. Urban watersheds.	50%	50%		\$0.00
Regional Stormwater Management Participation Fees (RSMP)				
<i>Each Regional Stormwater Management Program (RSMP) agreement is mutually exclusive. No credit will be given for impervious cover paid for in previous RSMP agreements for subsequent phases of development. However, applicants may combine all related phases of a development into one RSMP agreement and remit the associated total fee at the time the permit for the first phase is approved.</i>				
<i>NOTE: Requirements for participation in the Regional Stormwater Management Program are located in Section 8.2.2.D. and Appendix D of the Drainage Criteria Manual.</i>				
<i>The RSMP fee consists of two components; the construction cost component (CCC) and the land cost component (LCC). The two components are calculated independently for single-family developments and multi-family / commercial developments. Below are the details of how to calculate the fees.</i>				
1. RSMP Construction Cost Component (CCC)				
<i>The number of impervious acres is used to determine this part of the fee. The number of impervious acres is based on the maximum allowable impervious acreage as allowed by the more restrictive of zoning or watershed ordinance for subdivisions. Site plans may use the actual impervious cover for the site. The construction cost component will be adjusted annually by using the "Engineering News Record" construction cost index with the base construction cost index being referenced to October 2002.</i>				
Commercial & Multi-family Residential Development				
<i>Number of Impervious Acres:</i>				
a) 0.00 - 1.00	\$60,000.00	\$60,000.00	per impervious acre	\$0.00
b) 1.01 - 2.00	\$18,000.00	\$18,000.00	per impervious acre	\$0.00
c) 2.01 - 5.00	\$8,000.00	\$8,000.00	per impervious acre	\$0.00
d) 5.01 - 10.00	\$6,000.00	\$6,000.00	per impervious acre	\$0.00
e) 10.01 - 20.00	\$5,000.00	\$5,000.00	per impervious acre	\$0.00
f) 20.01 - 50.00	\$4,000.00	\$4,000.00	per impervious acre	\$0.00
g) 50.01 +	\$2,500.00	\$2,500.00	per impervious acre	\$0.00

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Watershed Protection				
Single-family Residential Development				
Number of Impervious Acres:				
a) 0.00 - 1.00	\$35,000.00	\$35,000.00	per impervious acre	\$0.00
b) 1.01 - 2.00	\$15,000.00	\$15,000.00	per impervious acre	\$0.00
c) 2.01 - 5.00	\$10,000.00	\$10,000.00	per impervious acre	\$0.00
d) 5.01 - 10.00	\$7,000.00	\$7,000.00	per impervious acre	\$0.00
e) 10.01 - 20.00	\$5,000.00	\$5,000.00	per impervious acre	\$0.00
f) 20.01 - 50.00	\$3,000.00	\$3,000.00	per impervious acre	\$0.00
g) 50.01 to 100.00	\$2,000.00	\$2,000.00	per impervious acre	\$0.00
h) 100.00 +	\$1,500.00	\$1,500.00	per impervious acre	\$0.00
2. RSMP Land Cost Component (LCC)				
<i>The land cost component (LCC) is calculated separately for each type of development, in conjunction with the construction cost component.</i>				
<i>Land Cost Component = Land Cost per Acre x Land Cost Area</i>				
<i>where:</i>				
<i>Land Cost per Acre = Appraisal District (appraised value /appraised area) x 0.05</i>				
<i>OR = Capped value x 0.05</i>				
<i>Capped Land Cost per Acre</i>				
<i>Development Type Capped Value</i>				
<i>Single-Family \$ 40,000 per acre</i>				
<i>Multi-Family / Commercial \$120,000 per acre</i>				
<i>Land Cost Area =</i>				
<i>New Development = Gross Site Area – Deductible Areas</i>				
<i>Redevelopment = Limits of construction – Deductible Areas</i>				
<i>Deductible Areas = (Drainage Easements, Water Quality Easements, and Conservation Easements)</i>				
<i>Note: Impervious cover areas within easements cannot be deducted from the land cost area.</i>				
<i>Land costs will be based on the land valuation. This may be established by a certified appraiser or by Appraisal Districts. The RSMP applicant must provide the parcel identification number for each parcel within the proposed development prior to RSMP approval. Upon RSMP participation approval, the applicant must provide dated copies of either a certified appraisal or the appraisal district's valuation for each parcel within the proposed development. Properties that are not appraised by Appraisal Districts, such as property owned by a governmental entity, may choose to use the capped land cost per acre values for RSMP participation. The land cost will be determined by the appraised value at the time of payment of the RSMP fee, not when the site is approved for participation in the RSMP. The effective date for Appraisal District valuations is the first of October for the current City of Austin fiscal year.</i>				
<i>If a development encompasses more than one tax parcel, the land cost per acre will be based on the arithmetic mean of the land valuation from all parcels.</i>				

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
--	------------	------------	------	--------

Watershed Protection

3. RSMP Total Cost = (CCC) _____ + (LCC) _____ = \$ _____

Exceptions:

(!) Development Incentives in Smart Growth Zones

Fees for projects in areas where development is encouraged are discounted. The percentage of the applicable fee to be charged is described below. Note that development projects that have had fees determined by the Smart Growth Matrix are not eligible for the below reductions.

1. The portion of the Desired Development Zone that is located in the	80%	80%		\$0.00
2. Except as provided in number (3) below, the portion of the Desired	70%	70%		\$0.00
3. Urban watersheds.	50%	50%		\$0.00

All Developments

For sites that are in more than one watershed, the calculated RSMP fee will be apportioned by the percentage of the site in each watershed.

Single Family

Single-family developments may restrict the allowable impervious cover by plat note or by a legally recorded separate instrument if the plat was previously approved.

Fee Reductions for Certain Single Family Developments with Less Than 20% Impervious Cover:

Greater than or equal to 2 acres but less than 5 acres	50%	50%	reduction of total cost	\$0.00
Greater than or equal to 5 acres	25%	25%	reduction of total cost	\$0.00

Urban Forestry Replenishment Fund

Tree mitigation to compensate trees removed for development.

Off-Site Tree Planting Fee

\$75.00	\$75.00		per caliper inch	\$0.00
---------	---------	--	------------------	--------

Urban Water Quality Structure Control Fund

Payment in lieu of Structural Water Quality Controls

$$\text{Payment} = (\$32,000 \times A1 + \$18,000 \times A2 + \$11,000 \times A3 + \$8,000 \times A4 + \$6,000 \times A5) \times E + \$0.10 \times B + C \times D$$

Where:

A1 = increment of impervious cover from 0 to 1.0 acres,

A2 = increment of impervious cover from 1.01 to 2.0 acres,

A3 = increment of impervious cover from 2.01 to 10.00 acres,

A4 = increment of impervious cover from 10.01 to 20.00 acres,

A5 = impervious cover greater than 20.0 acres,

B = the gross square footage of the building excluding the first floor,

C = the site area in acres,

D = \$6,000 per acre for sites developed for commercial/multi-family use, or

\$4,000 per acre for sites developed for single family or duplex residences, and

E = Construction cost adjustment factor. The construction cost adjustment factor must be calculated annually using the Engineering News Record (ENR)

FY 2016-17 Fee Schedule

	FY 2015-16	FY 2016-17	Note	Change
Watershed Protection				
<p>20 city average Construction Cost Index with the base index being the ENR construction cost index of October 2002 (6597). For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost Index divided by the October 2002 Construction Cost Index. This new construction cost adjustment factor shall be applied to all fees collected during that fiscal year.</p> <p>Impervious cover is the area for which water quality treatment is required pursuant to Section 1.9.2 of the Environmental Criteria Manual. For the purpose of this calculation, impervious cover shall be measured to the nearest 0.01 acre.</p>				
Development Services Surcharge	4%	4%		\$0.00
<p>This surcharge applies to the following development fee groups: Protected Tree Removal, Zoning, Subdivision, Site Plan, and Processing Management</p>				
Monthly Drainage Charge				
<p>A credit of up to a 50% reduction in the square feet of impervious cover may be provided for voluntary stormwater control measures as established by administrative rule.</p>				
<p>Fee (all properties) = Impervious Cover (sqft) X Monthly Base Rate X Adjustment Factor</p>				
<p>Monthly Base Rate: \$0.00498 per square foot of impervious cover.</p>				
<p>% of Impervious Cover = Impervious Cover / Property Size</p>				
<p>Adjustment Factor (AF) unique to each property: $AF = (1.5425 \times \% \text{ Impervious cover}) + 0.1933$</p>				
<p>Monthly Drainage Charge = %Impervious Cover x Monthly Base Rate x Adjustment Factor</p>				
<p>Single Family Discount under 15-2-7 of City Code expires Oct. 1, 2016</p>				
<p>The reduction that is available to qualified residential users under Section 15-2-14 of the City Code is 50% based on need.</p>				
<p>Note: The City will not assess a drainage charge on a benefited property with a total impervious area less than 300 square feet or a total property area less than 1,200 square feet unless it has been combined with another benefited property under City Code 15-2-5 (C)</p>				
<p>Processing Management (!) Development in Smart Growth zones may be eligible for reduced fees.</p>

300-600 minutes		\$1.00	\$1.00	per hour	\$0.00
Parking Rates for City Facilities					
<p><i>The City Manager may set a rate for public use of a City parking facility in an amount not to exceed the following rates. The rate must be commercially reasonable with respect to the location of the facility and comparable business practices in the vicinity of the facility;</i></p> <p><i>provided, however that a parking rate may be waived or modified by the City Manager:</i></p> <p><i>(1) To avoid financial hardship to a member of the public in an emergency situation, enhance public convenience, safety, or improve efficiency of a parking facility;</i></p> <p><i>(2) To comply with the terms of a parking contract authorized by the City Council;</i></p> <p><i>(3) To facilitate public access to City officials and meetings; or,</i></p> <p><i>(4) To reduce street congestion during significant public events attracting large numbers of people at a venue in the vicinity of a parking facility.</i></p> <p><i>Note: These authorized parking charges apply to City parking facilities unless a fee for a specific event or location is otherwise prescribed in this fee schedule or other ordinance.</i></p>					
Day-time contract parking rates		\$300.00	\$300.00	per month	\$0.00
Day-time rates		\$25.00	\$25.00	per day	\$0.00
Evening rates		\$10.00	\$10.00	per vehicle in/out	\$0.00
Residential Parking Permit		\$15.00	\$15.00	per permit per year	\$0.00
Residential Parking Permits – Day Pass		\$1.00	\$1.00	per pass	\$0.00
<p><i>The cost of the Residential Permit Parking (RPP) service continues to increase with the growing amount of permitted areas each year. Currently every homeowner/renter in a RPP area can request up to 20 day passes per special event on their restricted street free of charge. Due to the influx in requests, cost of permits and staff time, the Austin Transportation Department is requesting to add a \$1.00 fee for each day pass requested from eligible residents. ATD has issued a little over 3,000 day passes in FY 2015-16 thus far and plan to issue over 4,000 by the end of the FY 2015-16 budgeted year.</i></p>

ORDINANCE NO. 20160914-004

AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE FIRE DEPARTMENT; CREATING CERTAIN POSITIONS; ESTABLISHING PAY RATES; AND REPEALING ORDINANCE NO. 20150908-004 RELATING TO FIRE DEPARTMENT CLASSIFICATIONS AND POSITIONS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The Council makes the following findings:

- (A) The City adopted Texas Local Government Code Chapter 143 (*Municipal Civil Service*), which applies to members of the classified service in the Fire Department.
- (B) Chapter 143 (*Municipal Civil Service*) provides that the City Council shall establish the classifications for the Fire Department and the number of positions in each classification.
- (C) The Fire Department recommends the creation of certain classified positions to improve delivery of fire services and to increase efficiency.

PART 2. The civil service classifications of the Fire Department and the number of positions in each classification are established as follows:

- | | |
|---------------------|-----|
| (A) Assistant Chief | 5 |
| (B) Division Chief | 8 |
| (C) Battalion Chief | 34 |
| (D) Captain | 71 |
| (E) Lieutenant | 191 |
| (F) Fire Specialist | 205 |
| (G) Firefighter | 636 |

PART 3. The number of positions in the civil service classification of Firefighter in Part 2 of this ordinance is an increase of three (3) from the number in existence immediately before the effective date of this ordinance. Three (3) new Firefighter positions are being created effective October 1, 2016 as approved in the FY 2016-2017 Budget in order to staff four (4) Firefighters on an apparatus, up from three (3) Firefighters on an apparatus, at the Austin Bergstrom International Airport.

PART 4. Ordinance 20150908-004 is repealed.

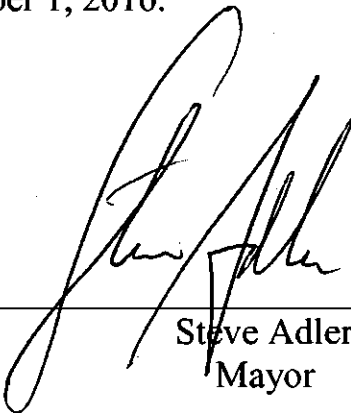

PART 5. This Ordinance does not affect or amend the Collective Bargaining Agreement between the City of Austin and the Austin Firefighters Association, Local 975 of the International Association of Firefighters, effective on June 4, 2015, which shall continue to apply to all civil service classifications except as specified in that Agreement.

PART 6. The Base Salary Schedules attached to the Collective Bargaining Agreement ratified on June 4, 2015 are adopted for each civil service classification except Assistant Chief.

PART 7. This Ordinance takes effect on October 1, 2016.

ORDINANCE NO. 20160914-005

AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE POLICE DEPARTMENT; CREATING CERTAIN POSITIONS; ESTABLISHING PAY RATES; REPEALING ORDINANCE NO. 20150908-005 RELATING TO POLICE DEPARTMENT CLASSIFICATIONS AND POSITIONS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The Council finds:

- (A) The City adopted Texas Local Government Code Chapter 143 (*Municipal Civil Service*), which applies to members of the classified service in the Police Department.
- (B) Chapter 143 (*Municipal Civil Service*) provides that the City Council shall establish the classifications for the Police Department and the number of positions in each classification.
- (C) The Police Department recommends the creation of certain classified positions to improve the delivery of police services and increase efficiency in the Police Department.

PART 2. The following civil service classifications of the Police Department and the number of positions in each classification are established as follows:

(A) Assistant Chief	6
(B) Commander	18
(C) Police Lieutenant	69
(D) Police Sergeant	185
(E) Police Corporal/Police Detective	383
(F) Police Officer	1247

PART 3. The number of positions in the civil service classification of Police Officer in Part 2 of this ordinance is an increase of ten (10) from the number in existence immediately before the effective date of this ordinance.

PART 4. The number of positions in the civil service classification of Police Corporal/ Police Detective in Part 2 of this ordinance is an increase of one (1) from the number in existence immediately before the effective date of this ordinance. This position will become effective on January 1, 2017.

PART 5. The number of positions in the civil service classification of Police Sergeant in Part 2 of this ordinance is an increase of one (1) from the number in existence immediately before the effective date of this ordinance. This position will become effective on January 1, 2017.

PART 6. This Ordinance does not affect or amend the Meet and Confer Agreement between the City of Austin and the Austin Police Association effective on October 1, 2013, nor does it affect or amend the Amendments to that Agreement effective on December 10, 2015, both of which shall continue to apply to all civil service classifications except Assistant Chief, as specified in that Agreement.

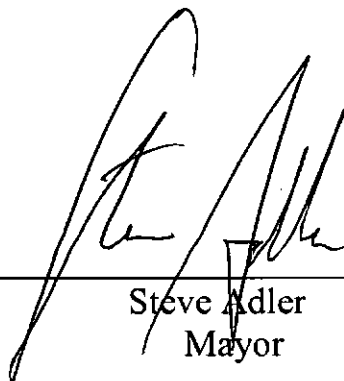

PART 7. The Base Salary Schedules attached to the Meet and Confer Agreement ratified on June 27, 2013 are adopted for each civil service classification except Assistant Chief.

PART 8. Ordinance No. 20150908-005 is repealed.

PART 9. This Ordinance takes effect on October 1, 2016, except as provided in Part 4 and 5.

ORDINANCE NO. 20160914-006**AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE EMERGENCY MEDICAL SERVICES DEPARTMENT; CREATING CERTAIN POSITIONS; ESTABLISHING PAY RATES; AND REPEALING ORDINANCE NO. 20160128-071 RELATING TO EMERGENCY MEDICAL SERVICES DEPARTMENT CLASSIFICATIONS AND POSITIONS****BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:****PART 1.** The Council finds:

- (A) In accord with the procedures in Subchapter K of Texas Local Government Code Chapter 143 (*Civil Service Status of Emergency Medical Services Personnel in Certain Municipalities*) the City has adopted Chapter 143, which applies to certain employees in City's Emergency Medical Services Department.
- (B) Subchapter K of Chapter 143 provides that the City Council shall establish the classifications for the Emergency Medical Services Department and the number of positions in each classification.
- (C) The Emergency Medical Services Department recommends the creation of certain classified positions to improve the delivery of emergency medical services and increase efficiency in the Emergency Medical Services Department.

PART 2. "Emergency Medical Services Department" means the Austin-Travis County Emergency Medical Services Department.

PART 3. The Emergency Medical Services Department shall be divided into three Divisions designated as the Field Division, Communications Division, and Operations Division. The number of positions in each civil service classification within each Division is established as follows:

Field Division:

- | | |
|-----------------------|-----|
| (A) Commander - Field | 33 |
| (B) Captain - Field | 69 |
| (C) Medic II - Field | 243 |

Medic I – Field	167
-----------------	-----

Communications Division:

(A) Commander – Communications	4
(B) Captain – Communications	11
(C) Medic II – Communications	24
(D) Medic I - Communications	14

Operations Division:

(A) Assistant Chief	3
(B) Division Chief	6

PART 4. The number of positions in the civil service classification of Medic I – Field in Part 3 of this ordinance is an increase of twenty-six (26) from the number in existence immediately before the effective date of this ordinance. Twenty (20) of the positions are 12-months funded in the FY 2016-2017 Budget effective October 1, 2016. The remaining six (6) positions are 9-months funded becoming effective January 1, 2017.

PART 5. The number of positions in the civil service classification of Medic II – Field in Part 3 of this ordinance is an increase of twenty-six (26) from the number in existence immediately before the effective date of this ordinance. Ten (10) of the positions are 9-months funded in the FY 2016-2017 Budget effective January 1, 2017. The remaining sixteen (16) positions are 6-months funded becoming effective April 1, 2017.

PART 6. The number of positions in the civil service classification of Captain – Field in Part 3 of this ordinance is an increase of one (1) from the number in existence immediately before the effective date of this ordinance.

PART 7. This Ordinance does not affect or amend the Meet and Confer Agreement between the City of Austin and the Austin-Travis County EMS Employees Association effective on October 1, 2013, which shall continue to apply to all civil service classifications except Assistant Chief, as specified in that Agreement.

PART 8. The Pay Scales attached to the Meet and Confer Agreement ratified on September 26, 2013 are adopted for each civil service classification except Assistant Chief.

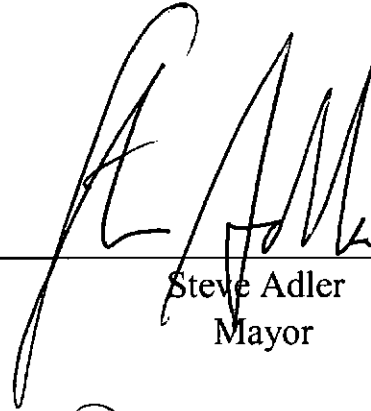

PART 9. Ordinance 20160128-071 is repealed, except as provided in Part 4 and Part 5.

PART 10. This Ordinance takes effect on October 1, 2016.

Grants

Grants

Overview

The City of Austin's operating budget, staffing and services provided to the community are significantly supplemented each year by funds granted to the City by the Federal, State and county governments, other local entities and private organizations.

In FY 2016-17, the City expects to be awarded \$53.9 million in grants. These funds support 266 FTEs and provide an array of services including health services like tuberculosis outreach and control, special nutritional services for women, infants, and children, and refugee health services and public safety services such as emergency preparedness and services to assist victims of violent crimes. Other grants provide additional resources to the City for alternative energy programs, community development activities that benefit low- and moderate-income families, programs to assist the airport with legally mandated passenger screenings, and sub-granting cultural contracts. Because of the broad and substantial impact to the City that grant funds have, departments will continue to be actively engaged in identifying new grant opportunities in FY 2016-17 and dedicate the resources necessary to manage existing grants.

New Grants

In FY 2016-17, the City has a reasonable expectation of receiving \$3.7 million in funding from the following new grants:

Austin Resource Recovery

- 2016 Brownfields Revolving Loan Fund Grant – The grant funds will assist property owners in the cleanup of contaminated properties in the East Austin area by providing loans at favorable terms to eligible entities. The repayments and interest will be used for future loans. A small portion of this funding will be in the form of grants for nonprofit organizations.

Economic Development

- National Endowment for the Arts - Art Works – The City of Austin will transform public spaces through temporary artistic interventions, inviting residents and visitors to rediscover their environment and connect with the people around them. The Playable City Summit is a public event and exhibition open to residents and tourists, comprising some or all of the following: design competition with funding to temporarily install the winning piece, education presentations, workshops and panel discussions, art showcases featuring projects from global cities, and public showcase and networking events.

Library

- Serving Individuals with Limited English Language Skills – The grant funds will be used to implement the Austin Public Library's Language Access Plan for serving individuals with limited English language proficiency across the library system. The plan addresses ways the Austin Public Library can better serve speakers and readers in multiple languages. This grant proposes implementation of additional methods of providing library service for individuals and families with limited English language skills including additional Language Line interpretation services, translation services, web page design and translation, and collaboration with other departments in this area of need.

Grants

Police

- Austin SPI: Strategic Recruiting Best Practices Project – This grant will provide funds for the analysis of existing recruiting efforts and the testing of new innovative strategies in collaboration with a research partner.
- Body-Worn Camera Expansion Project – This grant will provide funds for the purchase of 500 additional body-worn cameras for sworn personnel.
- Central Texas Regional Hub Project – This project will allow for the local and regional implementation of the Training Academy's E-Learning program.
- Community Policing Development: Measure Austin Project – This grant will provide funds for APD to employ citizen-generated performance measure tracking centered on community policing. This project will increase Citywide awareness of the District Representative Program.
- HOST-Austin Homelessness Outreach Street Team Project – This is a jail, hospital, and EMS diversion project that will focus on the top 20% of individuals using local mental health-related services.

Watershed Protection

- February Drive Home Buyout – The grant funds will be used for the acquisition and demolition of two flood-prone single-family homes in the February Drive Home Buyout Project Area. The project area is located in the Four Seasons Summer Section subdivision in the Walnut Creek Watershed. The existing homes will be demolished and residual lands will be returned to their natural state. The owners and occupants will be provided with relocation assistance by the City to secure housing outside of the flood hazard areas. Both of these properties sustained major damage during the May 25, 2015 flood event and are on the FEMA repetitive loss list.
- Texas Water Development Board Application for Flood Protection – The grant funds will be used for programming enhancements to the public facing www.atxfloods.com, the real-time reporting website of flooded roads in Central Texas. Enhancements are also included on the administrator side of the website so that it can handle the increase in traffic during storms. Enhancements include traffic load balancing of the dashboard, a better mobile interface, audible alerts for drivers, a database of road closures, better organization of the dashboard closures, and maintenance of the open source data feed.

Homeland Security and Emergency Management Grants

Homeland security and emergency management grants need this notice due to Federal and the State of Texas Office of the Governor's requirements:

The Director of Homeland Security and Emergency Management, the City Manager, the Mayor, or his designee, is hereby authorized to execute any and all necessary documents to effectuate homeland security and emergency management grant awards, to include accepting, rejecting, altering, or terminating the grant on behalf of the City of Austin.

Whereas, the Austin City Council finds it in the best interest of the citizens of Austin that the following projects be funded for the 2016-2017 Fiscal Year; and

Whereas, the Austin City Council agrees to provide applicable matching funds for the following projects as required, with the understanding that the following projects require \$0 in matching funds for 2016-2017; and

Whereas, the Austin City Council agrees that in the event of loss or misuse of the Office of the Governor funds, the lost or misused funds will be returned to the Office of the Governor in full.

Now therefore, be it resolved that the Austin City Council approves submission of the grant application for the following projects to the Office of the Governor, Homeland Security Grants Division (HSGD):

Homeland Security Projects

City of Austin -APD Air Unit- Regional Microwave Downlink Project

City of Austin -APD EOD- Robot

Grants

City of Austin- A/TCEMS -MCI Mannequins

Unbudgeted Special Revenue Funds

Unbudgeted Special Revenue Funds

Overview

According to Statement No. 54 of the Governmental Accounting Standards Board, “Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.” City financial policies allow for unbudgeted funds whose revenue source is primarily donations or contributions from the public. The City has identified 23 funds that qualify as Unbudgeted Special Revenue funds and the intention of this section of the Approved Budget is to highlight what these Funds are and how they’re used throughout the City.

Major special revenue funds are covered in the “Other Funds” and “Financial Summaries” sections of this document. Unbudgeted Funds are covered in the “Financial Policies” section and are assigned to departments to ensure that accounts in the fund are used in accordance with the fund’s stated purpose. The source of revenue for the majority of these funds are donations or contributions from the public and these funds are limited to very specific uses.

The City had \$7.4 million in Unbudgeted Special Revenues funds available at the beginning of FY 2015-16. Throughout the year, City departments have a reasonable expectation of collecting \$3.7 million primarily through donations and expect to spend \$5.0 million on

Fund-specific items and initiatives. The City therefore expects to have an ending balance of \$6.2 million which will be available for use at the beginning of FY 2016-17. The following sections include details about the various Unbudgeted Special Revenue Funds throughout the City. Some of these funds were determined to be significant enough to be included on their own, while the rest are summarized at the Department level.

Stand-alone Funds

- **Volunteer Utility Assistance Fund** – The Austin Energy Volunteer Utility Assistance Fund coordinates donations made by the City of Austin utility customers to the Customer Assistance Program. Customer donations are tax-deductible. Each month, some of our customers need help paying their utility bills. The Customer Assistance Program is designed to assist those City of Austin utility customers who are having financial difficulties and are unable to pay their utility bill due to unexpected emergencies. The City of Austin has partnered with local churches and non-profits to help identify assistance recipients.
- **Urban Forest Replenishment Fund (UFRF)** – The UFRF was established in 2003 to assist with satisfying specific mitigation requirements (in instances of permitted tree removal but on-site mitigation cannot be performed). Expenditures from the fund are limited to off-site tree planting, tree maintenance, promoting tree care and preservation, urban forest conservation, and enforcement of City of Austin’s tree protection and mitigation regulations.
- **Mueller Development Fund** – The Mueller Development Fund is a special revenue fund established to account for the Project Administrative Fee payable to the City in accordance with the Mueller Master Development Agreement with Catellus Corporation. This fee will be used by the City to cover the costs of overseeing the project. In addition, the agreement provides that other costs, such as legal costs, may be reimbursed by Catellus. In the event that the City incurs costs in excess of the project administrative fee, the City will be reimbursed its actual costs, up to a reasonable limit. Annually \$250,000 is anticipated to be collected. FY 2016 is anticipated to be the first year for the collections to occur.

Unbudgeted Special Revenue Funds

- Auto Theft Interdiction Seizure Fund – The Auto Theft Interdiction Seizure Fund (also known as Auto Theft Program Income fund) is funded by program income generated as a result of utilizing Automobile Burglary and Theft Prevention Authority (ABTPA) grant funded equipment or personnel. ABTPA is an annual grant funded through the Texas Department of Motor Vehicles. Program income refers to money generated through the program by utilizing ABTPA funded equipment or personnel. Some examples of this revenue include seized or forfeited assets that are sold; interest income on funds in the account; fees received using grant funded personnel or equipment; and proceeds from the sale of equipment or other assets originally purchased with grant funds. This revenue can only be used for specific ABTPA program initiatives related to the source of the revenue and must be reported on quarterly financial expenditure reports.
- ARIC Sustainability Fund – The Austin Regional Intelligence Center (ARIC) is an all-crimes information analysis center that uses a collaborative approach to identify, prevent, disrupt, and respond to criminal threats to the safety and security of the Austin-Round Rock metropolitan area. The funding is provided by participating local area law enforcement partnering agencies. The funds are used for hardware and software maintenance and also for various services and memberships to access data that will help the center detect suspicious and/or terroristic activity.

Other Funds (summarized at department level)

- Austin Energy Miscellaneous Special Revenue Funds – includes the Science Fest fund which is used by Austin Energy and Austin Science Education Foundation to fund the Austin Energy Regional Science Fest. The primary sources of revenue for this fund are generated through sponsorship and scholarship awards as well as staff and facility support.
- Management Services Miscellaneous Special Revenue Funds – includes the City Manager/HSEM miscellaneous Fund. This fund is used for the production of the Home Safe calendar. The primary sources of revenue for these funds are generated through sales of the Home Safe calendar.
- Development Services Miscellaneous Special Revenue Funds – includes the Planting for the Future Fund which is used for purpose of “planting one million trees,” general education and preservation of trees. The primary source of revenue for this fund is generated through voluntary contributions made via the utility bill.
- Fire Miscellaneous Special Revenue Funds – Includes the Fire Miscellaneous Fund which is used for primarily public education purposes. Some of these initiatives include providing smoke alarms and pet air masks, fire safety education, and building wilding wildlife habitats at the Fire Department Headquarters. The primary source of revenue for this fund is generated through donations.
- Library Miscellaneous Special Revenue Funds – Includes the Special Library, Austin History Center, and Friends of APL Funds. These funds are used for materials and equipment for children’s programming, supporting the Austin History Center, and for dispersing the revenue generated from the Recycled Reads bookstore for various Library needs. The primary sources of revenue for these funds are generated through donations, estate gifts, and sales from the Recycled Reads bookstore.
- Parks and Recreation Miscellaneous Special Revenue Funds – Includes the Townlake Fund, Tennis Leagues Fund, Adaptive Programs Fund, Senior Nutrition Fund, Republic Square Fund, Austin Creeks and Trails Fund, Teen Activity Fund, Rifle Class Fund, Summer Musical Fund, and PARD Miscellaneous Fund. These various funds are used to support multiple initiatives as their fund titles suggest. The primary source of revenue for this fund is generated through donations.
- Animal Services Miscellaneous Special Funds – Includes the Animal Services Fund which is used to enhance current Animal Services Programs and provide animal enrichment items such as training equipment, medical treatments, and pet supplies for low-income pet owners.

Unbudgeted Special Revenue Funds

Unbudgeted Special Revenue Funds Summary Page

The following pages summarize each fund by department for the FY 2016-17 Budget. The "FY 2016 Beginning Balance" references the estimated available cash in the fund as of the beginning of the fiscal year. The "FY 2016 Estimated Collections" references the amount the fund expects to collect through donations and gifts over the fiscal year. The "FY 2016 Estimated Expenditures" references the amount that is expected to be spent from the fund over the fiscal year. The "FY 2016 Estimated Ending Balance" references the expected balance of the fund at the end of the fiscal year after all collections and expenditures.

Budget Process

Budget Process

The City of Austin Charter mandates that a budget be adopted no later than September 27th for the new fiscal year beginning October 1st. The process leading to the budget adoption is participatory and includes a communications plan that encourages input from citizens, boards and commissions, City departments, and the City Council. The budget process focuses on identifying funding levels necessary to continue basic municipal services, address Council priorities, and meet community goals. Throughout the budget process, the City Manager provides the City Council with projected revenue collections and funding requirements for the upcoming fiscal year. This information enables the City Council to provide policy direction in developing the new budget.

The City Manager is required by the City Charter to present proposed operating and capital budgets to the City Council at least 30 days prior to the October 1 beginning of the City's fiscal year. The Budget contains a detailed allocation of projected revenue and expenditures for all City funds and a summary of the City's debt position. The City Manager also includes an executive summary that outlines the essential elements of the financial plan. The Proposed Budget is released near the end of July, well in advance of the City Charter requirement, with departmental presentations and public hearings occurring in August and, occasionally, September. There is also a formal Council budget question process, with the questions and answers posted on austintexas.gov/finance.

Budget Calendar for FY 2016-17	
<i>Important dates as the Budget is reviewed and analyzed prior to adoption</i>	
October – December	Development of departmental business plans
January – April	Development of the 5-Year Financial Forecast and Capital Improvements Program (CIP) Plan
April	Publication of the Annual Performance Report; 5-Year Financial Forecast presented to Council
May – June	Council work sessions
May – July	Public input on budget and priorities; Boards and Commission meetings; Proposed budget development
July 27	City Manager presents the Proposed Budget to Council
Aug. 3, 10, 17, 24 & 31	Budget work sessions; Council deliberations
Mid-August	Bilingual Budget Highlights available online and published in area newspapers
Aug. 18 & Sept. 1	Public hearings on the Budget and the Tax Rate
Sept. 12 – 14	Budget Adoption and Tax Rate Adoption readings

Communications Plan

Stakeholder input plays a pivotal role in the City's budget decision-making process. In the spirit of open government and increased transparency, the budget process for the last five years has been marked by unprecedented levels of community outreach and stakeholder engagement. Outreach this year includes:

- A citizen survey to acquire satisfaction and priority levels of City services;
- Nineteen public meetings with the City's various Boards and Commissions;
- The award-winning Budget Basics video on austintexas.gov/finance;
- The Austin Budget Simulator, which was offered in English and Spanish and provided input on 47 City services from 1626 submissions at 28 community events and online;
- Five City Council Town Hall staff-facilitated Austin Budget Simulator sessions;
- A Bilingual Budget Highlights document published in area newspapers and available online;
- Access to the Proposed Budget at the Austin Public Library system; and,
- Access to budget documents and related reference materials online at austintexas.gov/finance.

Budget Process

The Budget and Document Structure

The Budget document is published in two volumes. The details of each volume are summarized below.

Volume 1

- Transmittal Memo from the City Manager;
- Executive Summary which includes a high-level overview of the FY 2016-17 Budget; detail regarding the Budget's inclusion of Council policy preferences; Citywide performance measurement results; a funding and expenditure overview for the City as a whole and for the General Fund, specifically; and the major operating and capital budget highlights of each department.
- Adopted Budget Reconciliation, showing the changes the Austin City Council made to the Proposed Budget during budget adoption;
- Budget Directions, outlining any special instructions from the City Council with regard to specific budget items;
- Departmental discussions in the major service areas of: community services, development, infrastructure/transportation, public safety, and utility/other major enterprises. The departmental discussions are presented alphabetically within the tabbed major service areas and include:
 - Overview of departmental revenue and expenditures shown through pie charts and a summarized table that includes two years of prior year actuals, the estimate for the current fiscal year, and the budgets for the current and next fiscal years;
 - Summarized organizational chart of major departmental programs and activities;
 - The departmental mission and goals, including measureable targets;
 - Message from the department director;
 - Expenditure and revenue budget highlights;
 - Significant budgetary changes from the current year to the next fiscal year;
 - Activity pages with funding requirements, staffing levels, and performance targets;
 - Funding summaries of requirements and staffing by program and activity; and
- The City's summary of personnel and the financial summaries of all budgeted funds, which show two years of prior year actuals, the estimate for the current fiscal year, and the budgets for the current and next fiscal years.

Volume 2

- Departmental discussions of the internal services and support services departments, with the same information as listed above;
- Discussion of other non-departmental funds;
- Capital Budget details;
- Budget ordinances and the Fee Schedule arranged by department;
- Other supporting documents to the Budget, including:
 - Grants;
 - Special Revenue;
 - The budget process and budget calendar, including the dates of upcoming public hearings;
 - Integrated planning;
 - The long-range economic outlook;
 - A list of items to be purchased through Budget Stabilization Reserve Fund appropriations;
 - Debt position and bond indebtedness;
 - Financial policies.
- The Acronym list and Glossary.

Other plans incorporated into the budget document are further described below.

Five Year Financial Forecast

The budget process begins with the Financial Forecast presentation in April. The Forecast contains an economic outlook for the Austin/Travis County area. It is also used as a basis to project revenue and expenditures for the coming budget year, as well as the next five-year period. Economic trends are analyzed to project the needs of the City and the means to fund those

Budget Process

needs. The Forecast includes the General Fund and departmental enterprise funds, with expected changes to revenue and expenditures for the period. Included in this analysis is the determination of the financial impacts that capital improvement projects will have on departmental operations. Copies of the Financial Forecast and the related documents presented to the City Council can be found on the City of Austin website at austintexas.gov/finance.

Business Planning

In the City of Austin, business plans are updated annually in conjunction with the City's budget process. Departmental missions, goals, programs, activities, services and performance measures identified through the planning process are integrated into the budget document. The business plans provide the information necessary for making decisions on the allocation of resources and establishing accountability for achieving results with those resources. The end results of this process are departmental business plans that focus on the results to be achieved in the next one to five years and outline the way those results can be measured. The performance measures included in the budget document provide valuable information needed to sustain service levels, strive for excellence, and continue improvement. Performance measures provide departmental staff and management with the critical operating information they need to assess the quality of service delivery. Measures provide City management key decision-making information for resource allocation, process improvements and other management decisions. In addition, measures provide the City Council comprehensive data on each department's primary operating functions and services. More information on the City's performance measures can be found online via the online performance measures database found on the City's website at www.austintexas.gov.

Capital Improvements Program (CIP) Plan

Produced annually, the CIP Plan outlines the City's projected major capital improvements over the next five years, based on reasonably anticipated revenue. The CIP Plan is the basis for the development of the Capital Budget in order to provide appropriations necessary for continuing and new projects in the upcoming fiscal year. City Council does not take any formal action on the CIP Plan itself. Instead, Council takes action on the Capital Budget, as part of the overall budget process, wherein Council provides the legal authority (appropriation) to fund projects. The Five-Year CIP Plans are found online at austintexas.gov/finance. The annual Capital Budget including new appropriations and spending for FY 2016-17 is found in Volume 2 of the budget document.

Process for Adoption & Amendment of the Operating Budget

Budget Adoption

As stated in Article VII Section 6 of the City Charter:

“At least thirty (30) days prior to the beginning of each budget year, the City Manager shall submit to the Council a Proposed Budget in the form required by the City Charter. At the meeting of the Council at which the budget is submitted, the Council shall order a public hearing on the budget and shall cause to be published, at least ten (10) days prior to the date of such hearing, the time and place thereof. At the time and place so advertised, the Council shall hold a public hearing on the Budget as submitted, at which all interested persons shall be given an opportunity to be heard. The Budget shall be finally adopted not later than the twenty-seventh day of the last month of the fiscal year. Upon final adoption, the Budget shall be in effect for the fiscal year, and copies thereof shall be filed with the City Clerk, the County Clerk of Travis County, and the State Comptroller of Public Accounts. The final Budget shall be reproduced and sufficient copies shall be made available for use of all offices, departments, and agencies of the City, and for the use of interested persons.”

Budget Amendment

General Fund Financial Policy #3 states that non-emergency amendments to the Adopted Budget (other than amendments that are fully offset by new revenue resulting from the initiative) shall be accomplished in one mid-year Council Meeting.

In keeping with the above General Fund financial policy, the process for amending all budgets and funds is outlined below.

1. The originating department submits a preliminary request to the Budget Office for review and discussion. The Budget Office and originating department determine final requirements. Amendments to increase appropriations and/or transfer appropriations and/or Full Time Equivalents (FTEs) from one department or fund to another require City Council approval.
2. The originating department presents the proposed amendment to the appropriate Assistant City Manager for review and approval to proceed with an action item.
3. The originating department prepares a Request for Council Action (RCA) via the agenda management system to place the item on the Council agenda, uploading required back-up materials into the system.
4. Once approved by the originating department director, the agenda management system notifies the appropriate reviewing authorities, such as Law, Financial Services, Human Resources, Small Minority Business Resources, and other affected departments. Reviewing authorities are departments involved in the preparation of support material for the RCA or affected by the action proposed in the RCA. The originating department is responsible for ensuring that all other departments affected by the proposed action approve the RCA.
5. If the reviewing authorities approve the RCA, the Law Department will prepare the appropriate ordinance or resolution and the Budget Office will prepare a fiscal note or other required back-up material. The reviewing authority department director (or designee) will sign off on the RCA via the agenda management system.
6. After receiving approval from all reviewing authorities, the agenda management system will queue the RCA to the City Manager’s Office for placement on the appropriate Council agenda.
7. The item is presented to the City Council for review and approval.

Integrated Planning

Integrated Planning

Aligning Vision, Strategy & Performance

The diagram above visually represents our approach to being a strategic-focused organization. The planning process is dynamic and evolving with adaptive strategies to be responsive to an ever-changing environment.

In the summer of 2016, the City Council held a multi-day workshop to set the stage for strategic priorities that will allow for improved organizational alignment and impact. Council priorities inform strategic planning for the City, complemented by departmental annual business plans that outline how departments will carry out strategic priorities and their core mission. This work is synced with budgeting, performance goals, and evaluation.

Vision: Most Livable

The City of Austin's vision of being the most livable city in the country means that Austin is a place where all residents participate in its opportunities, its vibrancy, and its richness of culture and diversity. Austin residents share a sense of community pride and a determination that the City's vision is not just a slogan, but a reality for everyone who lives here. Local government plays a critical role in determining a city's quality of life. When Austin is viewed by others, it consistently receives high marks. Austin's rankings reflect a City government that keeps its vision in the forefront while planning for the future.

Mission: Best Managed

To achieve the vision, the City of Austin has a mission to be the best managed city in the country. Having received numerous awards, the City continues to implement its mission through transparent business practices, excellence in public service, innovation across the organization, and providing services that are reliable, safe, efficient, and above national standards. Corporate planning processes help tie department efforts together into a cohesive inventory of plans that achieve specific purposes, yet also meld to support the City's overarching vision of livability and mission of being best managed.

Integrated Planning

New Performance Management Focus

In December 2015, the City launched a new Office of Performance Management. The mission of the Office of Performance Management is to champion strategic planning, performance, and continuous improvement for the City to achieve customer-focused operational excellence. Housed within the Financial Services Department, this Office is building a stronger link between the City’s long-range, strategic and shorter-range planning efforts and working with departments to strengthen how the City performs and serves residents.

Long-Range Planning

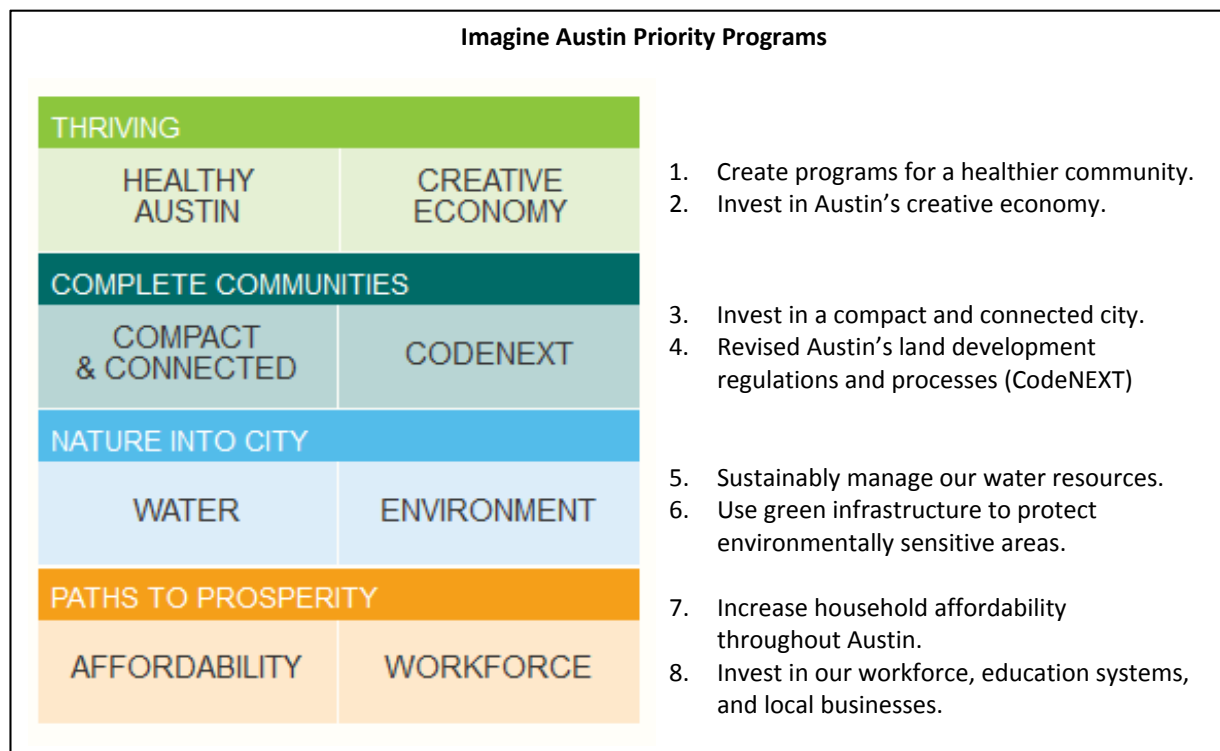

Imagine Austin, the City’s comprehensive plan for Austin’s future, calls for a city of “complete communities” where life’s necessities are accessible for all residents. This principal theme governs the City’s planning processes for land use, transportation and economic vitality. Managing physical growth and preserving the environment are key components of the community vision for Austin.

Imagine Austin was adopted unanimously by the City Council in 2012. The plan defines where the city is today and where the community wants it to go, setting a framework to guide decision-makers for the next 30 years. This plan took more than two years to develop with tens of thousands of Austinites helping to shape it throughout the public process. This process has been identified as a best practice of public engagement by the National League of Cities and the Texas Transportation Institute.

The planning and engagement included four rounds of community input, including:

- 21 public meetings
- 57 traveling team events
- 5 surveys
- 189 Meetings-in-a-Box
- 112 speaking events, and
- 100-plus meetings of the 38-member Citizens’ Advisory Task Force.

By City Charter, the plan is formally assessed every five years. Imagine Austin implementation is organized around cross-departmental teams for 8 priority programs:

The image on the following page shows how Imagine Austin’s values funnel into these Priority Programs.

Integrated Planning

IMAGINEAUSTON

Our plan for the future. In action today.

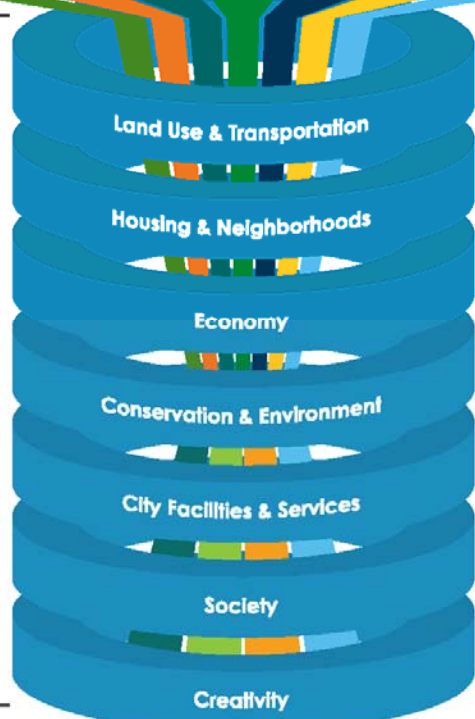

As it approaches its 200th anniversary, Austin is a beacon of sustainability, social equity and economic opportunity; where diversity and creativity are celebrated; where community needs and values are recognized; where leadership comes from its citizens and where the necessities of life are affordable and accessible to all.

WHY?

Because we have a community vision for the type of place we want Austin to be in 2039. That vision includes...

BUILDING BLOCKS
These Building Blocks are the foundation of Imagine Austin's policies.

HOW & WHO?
PRIORITIES
Imagine Austin's 8 priority programs can be boiled down into 4 easy-to-remember themes. There are 8 inter-departmental teams championing these initiatives.

- Invest in a compact and connected Austin.
- Revise Austin's development regulations and processes (CodeNEXT).

- Sustainably manage our water resources.
- Use green infrastructure to protect environmentally sensitive areas.

- Invest in our workforce, education systems, entrepreneurs, and local businesses.
- Invest in Austin's creative economy.

- Increase household affordability throughout Austin.
- Creative programs for a healthier community.

imagineaustin.net

Integrated Planning

A major planning project underway is **CodeNEXT** to revise and modernize the City's land development code, which determines how land can be used throughout the city – including what can be built, where it can be built, and how much can (and cannot) be built. This is a priority program of Imagine Austin (www.austintexas.gov/codenext).

Transit-Oriented Development (TOD). TOD is an intentional mixing of land use and transit through the creation of compact, walkable, mixed-use communities within walking distance of a transit stop or station. The goal of TOD is to bring people, jobs, and services designed in such a way to make it efficient, safe, and convenient to travel in a variety of methods. TOD has been incorporated into the Imagine Austin Comprehensive Plan, and it is one tool for growing a compact and connected city.

Small-Area Planning. Small-Area planning provides an opportunity for residents to take a proactive role in the planning process and decide how their neighborhoods will move into the future. The process brings together members of the community to address local issues and concerns that affect them, their families, and their neighbors. All stakeholders of the neighborhood are invited to participate in the process – business owners, renters, residents, property owners, and various community organizations and institutions.

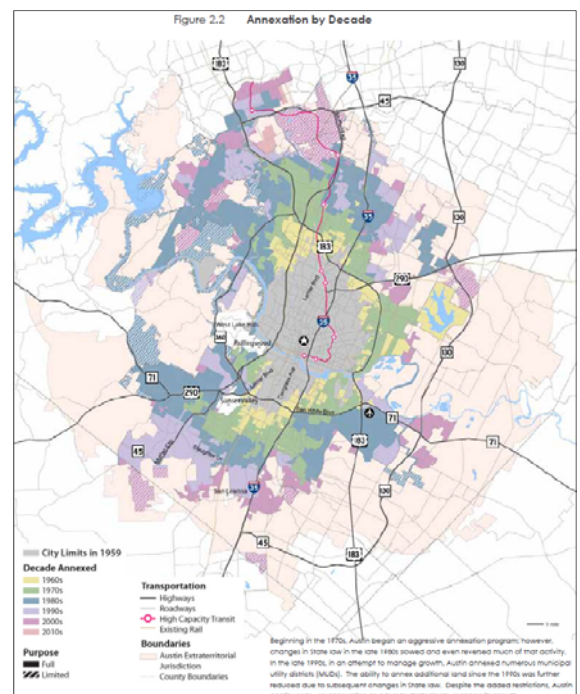

The process addresses land use, zoning, transportation, and urban design issues. It results in the creation of a future land use map, which is a graphical representation of recommendations for future growth patterns, and it depicts where different types of development should occur. Special use options available through the neighborhood planning process allow a greater diversity of housing types than currently found in many urban core neighborhoods.

Neighborhood plans are reviewed by the Planning Commission and then adopted by City Council. Zoning changes that implement the land use recommendations in each neighborhood plan take place concurrently through the creation of a neighborhood plan combining district. Much of the city's core has been through the neighborhood planning process. These plans were integrated and reconciled with the Imagine Austin Comprehensive Plan to ensure that both plans depict a cohesive future for each of Austin's neighborhoods. Visit <http://austintexas.gov/department/long-range-planning>.

Annexation. The City's Annexation Program manages expansion of the city's boundaries. The long-term well-being of cities and regions in Texas relies on annexation as an important tool to increase efficiency in service delivery to urbanizing areas, minimize the negative effect of development at the city's fringes, and add to the tax base to support the cost of providing services.

The City of Austin adopted its **Municipal Annexation Plan (MAP)** in 1999 in accordance with Texas law and has amended it several times, most recently in 2010. The MAP helps manage and plan for growth beyond the City limits in a fiscally prudent way by evaluating the ability of the City to serve an area with the need to expand the City's boundaries.

The annexation process is designed to give property owners and residents of an area proposed for annexation input in determining the types and levels of services that they will receive upon annexation. The City's planning staff monitor developing areas where some municipal services and infrastructure are already in place or can be provided efficiently, taking advantage of the proximity to existing facilities. The plan includes an extensive, long-range financial analysis of the proposed areas under consideration for annexation. This same extensive financial model is used to evaluate unique or significant developments that occur in Austin. The results of this analysis help the City plan for needed infrastructure and general government services that result

Integrated Planning

from significant development projects. More information on the City's annexation program can be found online at <http://austintexas.gov/departments/annexation-extraterritorial-jurisdiction-planning>.

Long-Range Financial Planning

Managing physical growth and enhancing the tax base through strategic economic development initiatives help ensure the City's ability to stay on track to sustain structural budget balance and maintain adequate reserves.

Financial Policies. The City Council has adopted a comprehensive set of financial policies to govern the management of major City funds and provide the foundation for financial sustainability. The financial policies seek to achieve sustainable financial health. These policies cover accounting, auditing, financial planning, reserves, and debt management. The City developed financial policies to ensure that its financial resources were managed in a prudent manner and to achieve long-term financial stability for the Austin community with a structurally balanced budget. These policies continue to position the City to invest in its future economic development, infrastructure needs, and quality of life. The financial policies are crucial in maintaining the City's favorable bond ratings. The Government Finance Officers Association cites Austin's financial policies as an example of best practices in their budget training materials. The financial policies can be found further in the Supporting Documents section of Volume 2 of the budget document.

Five-Year Financial Forecast. Each year, the annual budget process begins with the 5-Year Financial Forecast, which contains an economic outlook for the Austin/Travis County area that is used to project revenue and expenditures for the coming budget year, as well as the next five-year period. More information on the long-range financial forecast can be found in the Economic Outlook section, under Supporting Documents, of Volume 2 of the budget document.

Five-Year Capital Improvement Program (CIP) Plan. Also each year, there is a systematic citywide process to incorporate departmental capital projects into the budget through the development of the 5-year CIP Plan. The 5-year CIP plan represents the community's capital "to do" list and is used as the basis for developing the capital budget. More information on the new capital appropriations and spending plan for FY 2016-17 can be found in the Capital Budget section of Volume 2. Visit https://www.austintexas.gov/financeonline/finance/financial_docs.cfm?ws=1&pg=1#CIPPLANS to see the most recent and archived CIP plans.

Long-Range Economic Development

The Economic Development Department was created to manage and implement the City's economic development policies and to promote and facilitate sustainable growth in the Desired Development Zone, in partnership with the community and project developers. The goal is to enhance livability and economic viability in a manner that preserves the character of Austin and its environment. Economic viability is a key component to achieving the City's vision of most livable city.

Economic Development Policy. The City's economic development policy was adopted by the City Council in the fall of 2004 and strives to influence economic development resulting in an improved quality of life for its citizens. The incentive policy guides the evaluation of companies either expanding or establishing new locations in the city. The firm must be located in the Desired Development Zone and must comply with current water quality regulations on all projects throughout the term of the incentive agreement. Each company is evaluated using a scoring system to ensure that the City's investments match the region's competitive advantages and result in viable opportunities for the local workforce and economy. Part of this process is a comprehensive financial analysis of the proposed investment and its corresponding benefits. This process ensures that the City is making the best business decisions for economic development incentives. The scoring criteria considered when evaluating new companies or business expansions include the following:

Integrated Planning

- Overall economic and fiscal impact
- Local linkages to the Austin economy
- Infrastructure impact and green building initiatives
- Labor force practices
- Cultural and quality of life considerations
- Extraordinary economic impact

The Economic Development Department recently released its Strategic Plan, “Resetting the Intelligence Economy,” that lays out the department’s vision and strategies for moving Austin to the next level economic performance. For more information about the Economic Development Department, visit: <http://www.austintexas.gov/edd>.

Long- and Mid-Range Service Plans

Both long-range and mid-range service plans are key components of many departments in the City of Austin. Below is a sample of the City’s strategic plans. For additional information on the City’s departments, including planning efforts, see <http://austintexas.gov/departments>.

Clean Energy and Climate Protection. The City of Austin has focused on climate protection for many years. In 2003, the City Council directed the city-owned electric utility, Austin Energy, to develop and incorporate strategies that will ensure Austin remains a national and international leader in the development and use of clean energy, including progressive and ambitious renewable energy and energy conservation programs. As a result, the City Council adopted the Austin Climate Protection Plan in 2007 to build a more sustainable community and support Council’s 2020 goal of achieving at least 20% of the energy in its portfolio mix from renewable sources and increasing energy efficiency by 15%. In 2011, the City’s first Sustainability Officer was hired and the Office of Sustainability was created and charged with providing updates on the progress of Council’s climate goals. In 2014, the City Council passed a resolution establishing a new long-term goal of reaching net zero community-wide greenhouse gas emissions by 2050, and in June 2015, the City Council adopted the Austin Community Climate Plan, which includes strategies to meet that new goal. See <http://austintexas.gov/department/sustainability> for more information.

Austin Resource Recovery Master Plan and Zero Waste Strategic Plan

Plan. On December 15, 2011, the Austin City Council unanimously approved adoption of the Austin Resource Recovery Master Plan, which incorporates the Council’s directives of reducing by 20% the per capita solid waste disposal to landfills by 2012, diverting 75% of waste from landfills and incinerators by 2020 and diverting 90% by 2040. This plan, and the Zero Waste Strategic Plan, took two years to develop. More information can be found at <http://www.austintexas.gov/department/austin-resource-recovery-master-plan-documents>.

Facilities Planning. In October 2012, the City completed a first-ever citywide analysis of city facilities and logistical operations and developed a roadmap plan to guide how the City’s portfolio of more than 250 facilities – a total asset value of more than \$1.5 billion – should be managed. This roadmap gives the organization a strategy to meet the City’s facility needs over the next 15 years. Recommendations included consolidating dispersed and inefficient buildings, replacing or abandoning buildings beyond useful life, and aligning service crews to more efficiently meet operational demands. As a result of this study, facilities planning is now centralized so that interdepartmental connectivity and logistics are considered in addition to individual departmental needs. The roadmap will serve as a basis to create a set of implementable, near-term action plans for administrative space, public safety needs and service crew logistics.

Integrated Planning

Parks and Recreation Long-Range Plan for Land, Facilities and Programs. In November 2010, the City Council adopted the long-range plan for the Parks and Recreation Department. This plan is used as a guide for future growth and development of Austin’s parks and recreation system, replacing the 1998 plan. It includes recommendations for trails, parkland acquisition, and park development based on surveys, demographic studies, and existing neighborhood plans. More information can be found at <http://www.austintexas.gov/page/parks-recreation-long-range-plan-land-facilities-and-programs-lrp-adopted-november-2010>.

Affordable Housing. Affordable housing is a critical equity issue facing many communities today, including Austin. The five-year consolidated plan, prepared by the Neighborhood Housing and Community Development Department, describes community needs, resources, and priorities for the City's housing and community development activities that are funded primarily with grants from the U.S. Department of Housing and Urban Development (HUD).

The action plan is developed annually and outlines how best to use limited public resources to increase the supply of decent, affordable, accessible housing, revitalize economically distressed neighborhoods, and expand economic opportunities. The action plan includes funding recommendations for the upcoming fiscal year, which generally includes a combination of HUD funds, additional monies from the Austin Housing Trust Fund, and program income. Development of the consolidated and action plans involves participation and input from community members, nonprofits, the private sector, and government agencies. For more information regarding affordable housing, visit <http://www.austintexas.gov/housingplan>.

Strategic Mobility Plan. The City is developing a new city-wide transportation plan that will expand the vision of the Imagine Austin Comprehensive Plan into actionable mobility-related goals and objectives to guide Austin’s near- and long-term transportation investments. This plan will replace the current Austin Metropolitan Area Transportation Plan (AMATP) that was adopted in 1995. The plan’s most recent amendments were in 2003 before Imagine Austin was implemented. The planning process to develop the Austin Strategic Mobility Plan will be coordinated with other mobility planning initiatives of the City of Austin and regional transportation partners. Opportunities for public engagement will be provided throughout the planning process with plan adoption targeted for 2018. For more information on transportation planning, visit <http://austintexas.gov/departments/2025-austin-metropolitan-area-transportation-plan>.

Digital Inclusion Strategic Plan. In March 2014, the City Council requested the development of a digital inclusion strategic plan to help achieve the priority of every Austin resident having an opportunity to be fully engaged in a digital society. The Digital Inclusion Strategic Plan was adopted on November 20, 2014. It is a dynamic plan of 25 action items that utilizes community assets to overcome barriers, ensuring all residents have access to the skills and devices necessary to engage in a digital society. For more information on this plan, visit: <http://austintexas.gov/page/digital-inclusion-strategic-plan>.

Short-Term and Annual Plans

Annual plans and those with a planning horizon of less than five years include the City’s award-winning Managing for Results performance management program, continuous improvement, annual department work plans, and annual operating and capital budgets. These plans are updated regularly, which allows the City of Austin the flexibility to make changes and adjustments in response to fluctuating environments and situations. However, these plans are still anchored to the City vision, mission, Council Priorities and long-range comprehensive plans. Planning services and service delivery is a critical component of being a best-managed city.

Information on Austin and Its Economy

Information on Austin and Its Economy - 2016-17

City Government

Date of Incorporation	Dec. 27, 1839
Date first Charter adopted	Dec. 27, 1839
Date present Charter adopted	Jan. 31, 1953
Form of Government	Council-Manager
Number of Employees(Full-time equivalents)	13,371 in FY16

Fire Protection

Number of sworn & civilian employees	(in FY16)	1,304
Number of stations		45
Total incidents responded to in 2015		89,563

Police Protection

Number of sworn & civilian employees	(in FY16)	2,616
Sworn officers per 1,000 population		2.0
Total incidents responded to in 2015		572,623
Crime rates per 1,000 population for 2015		
Part I Violent Crime		4.05
Part II Crime		90
Property Crime		40.68

City-Owned Business Enterprises (as of Sept. 30, 2015)

Number of passengers arriving at airport	5,769,778
Number of events at convention center	274
Renewable power as a % of consumption	23%
Daily gallons of water pumped per person	122
Combined Utility Revenue Bond Ratings	Aa1, AA

Information on Austin and Its Economy - 2016-17

Long-Range Economic Outlook

Long Range Economic Outlook

Austin Area Economy

When measured by growth in jobs, Austin has been one of the fastest growing major metropolitan areas in the country over the past year, with 41,800 net new jobs representing 4.1% growth. The private sector accounts for the vast majority of this growth, with a gain of about 40,000 net new jobs. Additionally, most of this growth is found in the commercial sectors of the economy, in part reflecting population increases. Unsurprisingly, Austin's unemployment rate, which fell to an all-time low of 2.9% in April 2016, bests the national measure by more than two percentage points.

Other indicators tell a similar story. For example, consumer spending growth (as measured by sales tax collections) reflects strong population and economic growth, remaining consistent with long-term trend levels. Local venture capital was also solid during 2015, as the production side of the economy continues its transition toward soft-tech and bioscience. Tourism continues to be a rapidly growing element of the local economy, as once again, 2015 was another record year for hotel revenue and occupancy. Meanwhile, housing markets remain tight, reflecting both strong demand and diminishing excess supply.

The Austin metro area remains arguably the strongest regional economy among major metros across the nation, as aggregate indicators show growth at a high level during 2015, a status that should not change in the near future. Economic performance is forecasted to remain strong in 2016, though growth rates are expected to ease slightly as a result of measurement against an improved base. Austin economic consulting firm Texas Perspectives (TXP) projects the creation of 41,000 net new jobs in 2016, followed by 42,500 during 2017. Personal income should continue to expand in the 7-8% range.

Long Range Economic Outlook

National and Economic Outlook

In the wake of tepid performance over the past several years, national economic growth is showing signs of future slowing, as leading production indicators such as factory orders and the purchasing manager's index are weak. Overall, the forecast for 2016 shows growth in the 2.5% range. The economy is at near full employment, as jobs lost during the recession have finally been replaced. Additionally, there are signs of wages - which have fallen in the past few years - improving. However, the global economy has a potentially negative influence as the demand for oil has decreased while the supply has increased.

Meanwhile, overall inflation is near zero, even with the removal of inflation from food and energy. There are no signs of this changing, as commodity prices are still weak. Interest rates are slowly beginning to increase; however, there has been little market impact from the first round of raising rates. Furthermore, there is a reduced level of interest rate action in some major economies, such as the Bank of Japan, who are moving to negative rates.

Looking forward, the expectation is that relative prosperity will be the norm for some time. According to the Congressional Budget Office (CBO):

“CBO anticipates that the economy will expand solidly this year and next. Increases in demand for goods and services are expected to reduce the quantity of underused labor and capital, or “slack,” in the economy—thereby encouraging greater participation in the labor force by reducing the unemployment rate and pushing up compensation. That reduction in slack will also push up inflation and interest rates. Over the following years, CBO projects, output will grow at a more modest pace, constrained by relatively slow growth in the nation's supply of labor. Nevertheless, in those later years, output is anticipated to grow more quickly than it has during the past decade.”

Debt Position

Debt Position

Types of Debt

The City sells bonds to finance a major portion of its capital improvement plan. *General obligation (GO) bonds* fund improvements such as streets, police and fire stations, health clinics, and parks and libraries, and are repaid from property taxes.

Revenue bonds fund improvements for the City's enterprise activities. Revenue bonds are used to finance capital projects for the utilities, and also have been used to build the new convention center and to fund construction of the Austin-Bergstrom International Airport. Revenue bonds are repaid from revenue of the enterprise and not from property taxes.

The City's outstanding debt from all sources as of June 30, 2016, is as follows:

Debt Position

GO Bonds

Public Improvement Bonds	\$1,057,860,000	
Certificates of Obligation	210,910,000	
Public Property Finance Contractual Obligations	<u>90,500,000</u>	\$1,359,270,000
Less: Revenue Supported GO Bonds ⁽¹⁾		(252,627,922)
Less: GO Debt Service Fund Balance		<u>(113,650,553)</u>
Net Total GO Debt		<u>\$992,991,525</u>

Revenue Bonds and Commercial Paper

Electric Utility Revenue Bonds	\$1,251,544,954	
Water and Wastewater Utility Revenue Bonds	2,310,135,901	
Electric Utility Commercial Paper	62,380,000	
Water and Wastewater Utility Commercial Paper	<u>0</u>	\$3,624,060,855
Water and Wastewater Assumed MUD		4,902,727
Watershed Protection Assumed MUD		<u>2,754,267</u>
Total Debt Payable from Utility Systems Revenue		\$3,631,717,849
Convention Center Revenue Bonds (payable from hotel/motel occupancy taxes and rental car tax)		160,000,000
Airport Revenue Bonds (payable from airport system revenue)		<u>519,908,000</u>
Total Revenue Debt		<u>\$4,311,625,849</u>

⁽¹⁾ Revenue supported general obligation bonds are subtracted from debt payable from property taxes because the respective enterprises and General Fund departments transfer funds to support the necessary debt service payments.

Debt Service Requirements ⁽²⁾ – 2016-17

GO Bond Debt	\$148,503,274
Utility Revenue Bond Debt	330,875,420
Airport Revenue Bond Debt	22,855,478
Airport Variable Rate Bond Debt	10,166,866
Town Lake Park Community Venue Bond Debt	3,041,900
Hotel Tax Revenue Bond Debt	<u>15,106,422</u>

Total \$530,549,360

⁽²⁾ For bonds outstanding on June 30, 2016.

Debt Position

Current Bond Ratings

A bond rating is a measure of a city's ability to repay its debt. Several factors are considered when assigning a rating, including the local economy and the strength of the city's financial and administrative management as well as various debt ratios. GO net debt per capita is an important ratio and is calculated by dividing the net outstanding general obligation bond principal by the population. As of September 30, 2015, Austin's GO net debt per capita was \$1,567.52. The amount of debt owed by jurisdictions with boundaries overlapping the City's is also considered. The City's overlapping net debt per capita ratio is higher at \$4,244.92 because the debt of Travis County, the Austin Independent School District, and other local entities is considered in the calculation. The City's GO bond ratings are the highest ranking given among all three agencies (Moody's Investors Services, Standard & Poor's Services, and Fitch).

Revenue bonds are different from GO bonds in that debt service is paid by ratepayers both inside and outside the city. Factors considered when rating revenue bonds include financial performance of the enterprise activity, long range planning for capital improvements and the process of setting rates and fees.

The level of revenue debt is dependent upon the number of enterprise activities within the city. Because the City of Austin owns its own electric, water, and wastewater utilities along with an airport and convention center, revenue debt issued by the City will exceed that issued by many municipalities of comparable size that do not provide those services. The GO and combined utility systems' revenue bond debt ratings are listed in the table below.

The City of Austin's bond ratings as of June 30, 2016 are:

Rating Agency	General Obligation	Prior First Combined Utility Systems	Prior Subordinate Combined Utility Systems
Moody's Investors Services	Aaa	Aa1	Aa2
Standard & Poor's	AAA	AA	AA
Fitch	AAA	AA	AA-

Annual Bond Sales

The City of Austin's Financial Policies include policies regarding remaining authorized but unissued general obligation bonds and the timing of bond elections. An estimated two years of authorized but unissued bonds shall remain before an election will be held. In addition, the total dollar amount of bond election propositions recommended to the voters shall not exceed the city's estimated ability to issue the bonds within a six-year period. This six-year period was recommended by the Austin City Council's Audit and Finance Committee on June 24, 1998 and is included in the City's Financial Policies.

These policies will assist the City in completing projects approved by the voters in a reasonable amount of time.

Authorized but Unissued GO Bonds

Transportation/Street Improvements	\$ 58,959,000
Parks and Recreation	52,872,000
Drainage Improvements	0
Central Library	0
Public Safety	20,959,000
Health and Human Services	5,003,000
Cultural Arts & Library	18,222,000
Affordable Housing	<u>45,000,000</u>
Total	\$201,015,000 ^{(1) (2)}

⁽¹⁾ As of June 30, 2016

⁽²⁾ Brackenridge 2000 bond authority of \$9,215,000 is excluded due to the lease of hospital to Seton.

Debt Position

Financial Policies

Financial policies adopted by the City Council guide the City's debt management. Discussion and status of selected policies are summarized in the following graphs.

GO Debt

The ratio of GO net debt to total assessed valuation shall not exceed 2%. This ratio is calculated by dividing GO debt (net of debt service fund balance and self-supporting debt) by total assessed valuation.

As of September 30, 2015, this ratio is 1.43% and is below the 2% policy requirement.

GO Net Debt as a Percent of Assessed Valuation

Austin Energy

Debt service coverage of a minimum of 2.0x shall be targeted.

The anticipated debt service coverage ratio on a budgetary basis for FY 2016-17 is 3.37x.

Total FY 2015-16 Proposed Revenue		\$ 1,310,014,411
Less:		
Power Supply	\$	360,473,005

Total Debt Service Requirement			<u>23,176,716</u>
Debt Service Coverage Ratio			<u>1.78</u>

Note: Debt requirements do not include an anticipated bond sale in FY 2016-17. The actual debt coverage calculation will be performed according to rate covenants included in the Official Statements of those bonds backed by Airport revenue.

Debt Position

How Does Austin Compare?

The following graphs compare the City of Austin to other Texas cities. The first graph uses one of the City's adopted financial policies for debt management. The second graph is presented based on net debt per capita. The first graph compares the ratio of Austin's GO net debt as a percentage of assessed valuation to other Texas cities.

GO Net Debt as a Percentage of Assessed Valuation

Source: City of Austin and Entity CAFRs - Financial Services

The following graph compares Austin's GO net debt per capita to other Texas cities. This statistic represents the rate of debt retirement versus debt issuance as well as growth in population.

GO Net Debt Per Capita

Source: City of Austin and Entity CAFRs - Financial Services

Debt Position

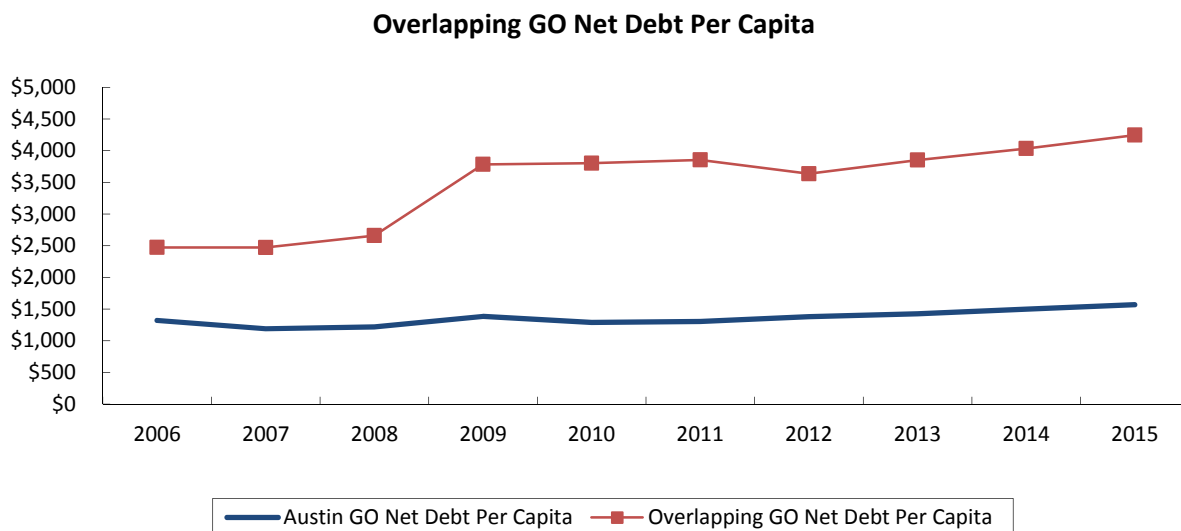

Overlapping Debt

The following graphs reflect the additional debt burden imposed by other governmental units in the area, including Travis County, Austin Independent School District, and Austin Community College.

Source: City of Austin - Financial Services

While citizens of Austin are impacted through individual tax rates of these entities, the City of Austin does not have the authority to impose restrictions on the other jurisdictions borrowing power.

Source: City of Austin – Financial Services

Conclusion

Because of the implementation and adherence to its debt management financial policies, Austin has been able to retain its excellent bond ratings even during periods of economic stress. As a consequence, the City will continue to receive competitive interest rates when entering the bond market.

Bond Indebtedness

General Obligation Debt Service Fund

Purpose and Nature of Fund

The General Obligation Debt Service Fund pays the principal and interest associated with general obligation bonds that the City sells to finance capital improvements projects. As of September 30, 2016, total outstanding General Obligation (G.O.) debt will total \$1.359 billion, of which \$252.6 million is self-supported, leaving a net of \$1.106 billion in tax supported debt. The full faith and credit of the City is pledged to secure G.O. debt.

Factors Affecting Revenue

The main source of revenue for the G.O. Debt Service Fund is property taxes paid by property owners. The amount of debt issued by the City, the City's assessed property valuation, and the tax collection rate determine the tax rate necessary to raise the required amount of revenue. In FY 2016-17, the approved property tax rate is 44.18 cents per \$100 assessed valuation, of which 10.19 cents is dedicated to debt service requirements. Assessed valuation increased 13.6% compared to FY 2015-16 and total property tax revenue is budgeted at \$127.1 million. Additionally, \$36.6 million will be transferred into the G.O. Debt Service Fund from the various Enterprise Funds and Support Service Departments that have issued G.O. debt. Interest earned on the Debt Service Fund balance comprises an additional revenue source for the fund and supplements the taxes necessary to pay debt service.

Factors Affecting Requirements

The requirements for the G.O. Debt Service Fund are based on the amount of outstanding general obligation bonds and related debt service costs.

The City's financial policies require the G.O. Debt Service Fund to maintain a fund balance of at least 10% of total G.O. debt service requirements. The fund balance provides a contingency reserve that helps to ensure the City's ability to meet debt service payments. The FY 2016-17 ending balance maintains compliance with the policy.

	2013-14 Actual	2014-15 Actual	2015-16 Estimated	2015-16 Amended	2016-17 Approved

Airport Revenue Bond Redemption Fund

Purpose and Nature of Fund

The Airport Revenue Bond Redemption Fund pays the principal and interest payments on debt issued for the City's Airport System. The ordinance authorizing the bonds requires that revenue of the Airport System, after operation and maintenance expenses, be pledged to repay the debt before revenue is used for any other purpose.

Factors Affecting Revenue

The fund receives transfers from the Airport Fund and the Passenger Facility Charges Fund. Due to requirements of loans completed in FY 2012-13 and FY 2015-16, the fund will receive capitalized interest revenues for the next few fiscal years to satisfy interest payment requirements.

Factors Affecting Requirements

The requirements of the Airport Revenue Bond Redemption Fund are the debt service payments of the outstanding bonds and the associated paying agent/registrars fees. Debt service includes the principal and interest on outstanding and anticipated bond issues and is scheduled for payment in May and November of each year.

Airport Variable Rate Bond Debt Service Fund

Purpose and Nature of Fund

The Airport Variable Rate Bond Debt Service Fund pays the principal and interest payments on variable rate debt issued for the City's Airport System.

The Series 2005 Variable Rate Revenue Refunding Bonds are "Revenue Bonds" as defined in the ordinance and are secured by a lien on the net revenue that is senior to the lien on net revenue securing the subordinate lien bonds. The 2005 Bonds bear a variable interest rate which currently resets every seven days. In connection with the issuance of the bonds, the City entered into an interest rate swap agreement to enable the City to accrue substantial savings over the life of the bonds and to fix its interest obligation on the debt represented by the bonds.

Factors Affecting Revenue

The fund receives transfers from the Airport Fund and the Passenger Facility Charge Fund.

Factors Affecting Requirements

The requirements of the Airport Variable Rate Bond Debt Service Fund are the debt service payments on the outstanding notes and the associated paying agent/registrar fees. Debt service includes the principal and interest on outstanding and anticipated note issues, and is scheduled for monthly payment. Fund requirements are estimated since repayment is based on a floating rate that is reset weekly.

Combined Utility Revenue Bond Redemption Fund

Purpose and Nature of Fund

The Combined Utility Revenue Bond Redemption Fund is used to make the principal and interest payments for debt issued for the City's electric, water and wastewater utilities. The ordinance authorizing these bonds requires that net revenue, after meeting operations and maintenance requirements, be pledged to repay the debt before it is used for any other purpose. The utilities transfer the funds needed to make annual debt service payments to the Combined Utility Revenue Bond Redemption Fund.

Factors Affecting Revenue

The source of revenue for the fund is transfers from the utilities and interest earnings. Debt service payments are made twice each year; the obligation, however, is accrued on a monthly basis for the entire fiscal period.

In 2002, the City obtained the required consent from the bondholders of outstanding Combined Utility System Revenue Bonds to amend the Bond Ordinance provisions for the Revenue Bond Retirement Reserve Fund. The amendment allowed funding for all or a portion of the required reserve with a surety bond or insurance policy issued by an insurance company rated in the highest rating category by the various rating agencies. Subsequently, the City acquired the necessary insurance policy. As a result of the financial market distress in 2008 and 2009, there were no insurance companies that met the rating requirements and the City had to fund a cash reserve instead.

Factors Affecting Requirements

The requirements of the Combined Utility Revenue Bond Redemption Fund are the debt service payments for the outstanding bonds and miscellaneous fees associated with issuance costs. Debt service consists of the principal and interest on outstanding and anticipated bond issues, and is scheduled for semi-annual payments. The first semi-annual payment is generally substantial, so the fund carries a large ending balance to ensure sufficient funds are available. The fund requirements are generally predictable since once a bond sale is closed, the requirements can only be altered by a future bond sale for new money, or a refunding.

Convention Center Hotel Occupancy Tax Revenue Bond Redemption Fund

Purpose and Nature of Fund

The Convention Center Hotel Occupancy Tax Revenue Bond Redemption Fund pays the principal and interest payments on bonds issued for the City's Convention Center. The Hotel Occupancy Tax Revenue Bonds are special obligations of the City and are payable and secured by the Pledged Hotel Occupancy Tax Revenue (Pledged Revenue).

Factors Affecting Revenue

The fund receives transfers from the Convention Center Tax Fund and the Venue Tax Fund. The funding source for the transfers is hotel/motel occupancy taxes.

Factors Affecting Requirements

The requirements of the Convention Center Hotel Occupancy Tax Revenue Bond Redemption Fund are debt service payments on the outstanding bonds and all bank charges and other costs and expenses relating to the payment. Debt service includes the principal, interest, and redemption premiums on the outstanding bond issues, and is scheduled for semi-annual payment.

Convention Center Town Lake Park Venue Project Bond Redemption Fund

Purpose and Nature of Fund

The Convention Center Town Lake Park Venue Project Bond Redemption Fund pays the principal and interest payments on bonds issued for the construction and development of the Town Lake Park Community Events Center Project, which includes parkland development and the construction of parking facilities. The Town Lake Park Venue Project Bonds are a special obligation of the City and are payable and secured by a five percent (5%) tax on short-term motor vehicle rentals.

Factors Affecting Revenue

The fund receives a transfer from the Town Lake Park Venue Project Fund. The funding source for the transferred funds is pledged short-term motor vehicle rental taxes authorized by Austin voters in November 1998.

Factors Affecting Requirements

The requirements of the Convention Center Town Lake Park Venue Project Bond Redemption Fund are debt service payments on the outstanding bonds and all bank charges and other costs and expenses relating to the payments. Debt service includes the principal, interest and redemption premiums on the outstanding bond issues, and is scheduled for semi-annual payment.

HUD Section 108 Loan Debt Service Fund

Purpose and Nature of Fund

The Housing and Urban Development (HUD) Section 108 Loan Debt Service Fund pays the principal and interest payments on debt related to the East 11th and 12th Street Redevelopment Program, the Neighborhood Commercial Management Program, and the Family Business Loan Program.

Factors Affecting Revenue

The sources of revenue to the HUD Section 108 Loan Debt Service Fund are Community Development Block Grant (CDBG) funding and loan repayments from the Section 108 Family Business Loan Program.

Factors Affecting Requirements

The requirements of the HUD Section 108 Loan Debt Service Fund are the semi-annual debt service payments of the outstanding loans and bank charges or other costs relating to these payments.

How to Read Debt Service Schedules – FY 2016-17

Principal debt service payments occur semi-annually for fixed rate transactions and monthly for variable rate demand bonds. Interest payments occur twice each year for each individual fixed rate bond issue and monthly for each individual variable rate bond issue. The principal repayments result in the reduction of the total debt outstanding and occur once each year for most bond issues.

General Obligation Debt – FY 2016-17

As of September 30, 2016, the City of Austin will have \$1,359,270,000 in outstanding General Obligation (GO) bonds, consisting of Certificates of Obligation (COs), Contractual Obligations (KOs), and Public Improvement Bonds (PIBs). These bonds were issued to fund capital improvements such as streets, bridges, parks, libraries, fire and police stations, vehicle service centers, health clinics, and neighborhood centers.

GO debt is supported by the full faith and credit of the City and is repaid from ad valorem property taxes collected from both current and future property owners throughout the term of the debt.

Schedule of Authorized but Unissued GO Debt

The City Charter requires that the voters authorize the amount of all GO Debt issued by the City. However, the City does not immediately issue all of the debt that is authorized. The amount of debt issued each year depends upon the cash flow needs of the Capital Improvements Program, the City's debt issuance capacity, and bond market conditions. The following table shows the status of all voter authorized general obligation bonds.

Authorized but Unissued GO Bonds as of Jul 1, 2016

PURPOSE	DATE AUTHORIZED	AMOUNT AUTHORIZED	AMOUNT

Combined Utility Systems Revenue Debt

As of September 30, 2016, the City of Austin will have \$146,845,856 in outstanding Combined Utility Systems Revenue Bonds. These revenue bonds were issued to fund utility capital improvements such as electric power generation plants, water and wastewater treatment plants, transmission and distribution systems, and collection systems.

Utility Systems Revenue debt is supported solely by a pledge of combined net revenues of the Electric Utility and the Water and Wastewater Utility Systems. The City currently has both Prior Lien Bonds and Subordinate Lien Bonds. In the unlikely event that the City were to default on payment of the bonds, the holders of the Prior Lien Bonds have first priority to claim for repayment.

Electric Utility Separate Lien Debt

As of September 30, 2016, the City of Austin will have \$1,169,050,000 in outstanding Electric Utility Separate Lien Revenue Refunding Bonds. These revenue bonds were issued to fund Austin Energy capital improvements.

Electric Utility Separate Lien Revenue debt is supported solely by a pledge of net revenues of the Electric Utility System, and the pledge is on parity with the outstanding Combined Utility Systems Subordinate Lien Bonds. In the unlikely event that the City were to default on payment of the utility bonds, the holders of the Combined Utility Systems Prior Lien Bonds have first priority to claim for repayment.

Water and Wastewater Separate Lien Debt

As of September 30, 2016, the City of Austin will have \$2,245,785,000 in outstanding Water and Wastewater Separate Lien Revenue Refunding Bonds. These revenue bonds were issued to fund utility capital improvements such as water and wastewater treatment plants.

Water and Wastewater Separate Lien Revenue debt is supported solely by a pledge of net revenues of the Water and Wastewater Utility System, and the pledge is on parity with the outstanding Combined Utility Systems Subordinate Lien Bonds. In the unlikely event that the City were to default on payment of the utility bonds, the holders of the Combined Utility Systems Prior Lien Bonds have first priority to claim for repayment.

City of Austin Water & Wastewater Separate Lien Bonds
Includes 2002A Refunding, 2004A Refunding, 2006 Refunding, 2006A
Refunding, 2007 Refunding, 2009 Refunding, 2009A Refunding, 2010

Schedule of Authorized but Unissued Revenue Debt – FY 2016-17

The City Charter requires that the voters authorize a substantial portion of GO and Revenue Bonds issued by the City. However, the City does not immediately issue all of the debt that is authorized. The amount of debt issued each year depends upon the cash flow needs of the Capital Improvements Program, the City's debt issuance capacity, and bond market conditions. The following table shows the status of all voter authorized revenue bonds as of July 1, 2016.

Authorized but Unissued Revenue Bonds as of Jul 1, 2016 (in 000s)

Financial Policies

Financial Policies – 2016-17

CITY OF AUSTIN, TEXAS

FINANCIAL POLICIES

Prepared by
Financial Services Department

Financial Policies – 2016-17

OVERVIEW OF FINANCIAL POLICIES

In June 1989, the City Council developed financial policies to ensure that the City's financial resources are managed in a prudent manner. These policies are reviewed annually for compliance. Changes and additions to these policies are approved by Council from time to time.

The following changes were made to the Financial Policies:

- Under General Obligation Debt, policies #9 and #10 were combined to read: The use of reimbursement resolutions shall be encouraged as a cash management tool for general obligation debt funded projects. Reimbursement resolutions may be used for any project which is on the bond sale schedule for the following year or is revenue supported;
- Under Austin Energy, policies #11, #12, #13, #15, and #16 were changed and policy #22 was added. These changes addressed the reserve policies, General Fund transfer, and operating cash equivalent. The changes were:
 - Austin Energy Financial policy #11 was changed so that the operating cash equivalent is stated as a minimum amount and was increased to include 60 days of budgeted cash equivalent and an amount of additional monies required to bring the sum of all Austin Energy's reserves to no less than 150 days of operating and maintenance expense.
 - Austin Energy Financial policy #12 was changed to remove the phrase "such as working capital" and will include an additional sentence: Once these obligations have been met, any remaining net revenues will be deposited in the following order into Austin Energy's reserve funds until each reserve reaches its minimum funding level: Working Capital, Contingency Reserve, Power Supply Stabilization Reserve, and then Capital Reserve. The sum of the four reserves shall be the cash equivalent of no less than 150 days of operating and maintenance expense.
 - Austin Energy Financial policy #13 was changed to read: The General Fund transfer shall not exceed 12% of Austin Energy three-year average revenues less power supply costs and on-site energy resource revenue, calculated using the current year estimate and the previous two years' actual revenues less power supply costs and on-site energy resource revenue from the City's Comprehensive Annual Financial Report.
 - Austin Energy Financial policy #15 was changed to read: The Capital Reserve shall be created and established for providing extensions, additions, replacements and improvements to the Electric System. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's electric utility depreciation expense.
 - Austin Energy Financial policy #16 was changed to read: The Contingency Reserve shall be created and established for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. Additionally, in the event any portion of the Contingency Reserve is used, the balance will be replenished to the targeted funding level within two (2) fiscal years.

Financial Policies – 2016-17

- Austin Energy Financial policy #22 was added and reads: The Power Supply Stabilization Reserve shall be created and established for mitigating power supply cost volatility which causes frequent variation in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall maintain a cash equivalent of 90 days of net power supply costs. Net power supply costs shall be defined as costs eligible for inclusion in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall be funded using net revenues after meeting other obligations and consistent with the flow of funds schedule.

The City of Austin is in compliance with 100 of the 106 financial policies, as approved. Unless otherwise noted, the FY 2016-17 Budget has been used to determine the current status of the financial policies.

For example, the City:

- Prepared a 5-year financial forecast for fiscal years 2016-17 through 2020-21;
- The City shall use competitive procurement methods to select professional firms used in the bond issuance process; and,
- Managed the City's investment portfolio in alignment with the policies governing capital preservation, liquidity, asset security, portfolio diversification and return on investment.

The City is not currently in compliance with:

- The City shall establish and maintain a Capital Rehabilitation Fund to support major rehabilitation and betterment of non-enterprise department facilities. A target budgeted annual transfer equal to 25% of the annual depreciation expense for building and improvements related to governmental activities as reported in the prior year Comprehensive Annual Financial Report in Footnote 5 Capital Assets and Infrastructure.

Uses of this fund may include non-bond funded projects including facility rehabilitation and betterment related to:

- Safety and security;
- Significant large maintenance projects that extend the asset's useful life;
- Energy efficiency improvements;
- Renovations to improve space utilization;
- Temporary closure of facilities due to unforeseen conditions;
- Technology innovations; or
- Other projects that result in the betterment of the asset.

This fund will not be available for expenditures of a general or routine maintenance nature.

- To improve financial planning and control, budget amendments should be infrequent and limited to cases where:
 - a. Funding is required to address extraordinary circumstances resulting from a natural disaster, a public health emergency, or other similar critical need that could not have been reasonably anticipated when the budget was adopted; or

Financial Policies – 2016-17

- b. There is verifiable evidence of significant costs or risks associated with delaying funding until the next budget cycle; or
- c. Errors or omissions in the Council Approved Budget require correction.

Prior to City Council consideration of any budget amendment, the Budget Office will review all department and fund budgets to first determine if the new funding requirements can be met within existing appropriation limits or other appropriate revenue sources. Reserves should only be used when no other funding sources can be identified. Budget amendments resulting in recurring expenses should generally not be funded with one-time sources or revenue.

- The Capital Reserve shall be created and established for providing extensions, additions, replacements and improvements to the Electric System. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's electric utility depreciation expense.
- The Airport shall maintain a ratio of current assets plus operating reserve to current liabilities of at least 1.5 times. Source of information shall be the Comprehensive Annual Financial Report.
- The Austin Resource Recovery Fund shall establish and fund a reserve to provide for the closure and monitoring of the City's landfills in compliance with federal regulations.

Financial Policies – 2016-17

Policy	Current Status
General Topics	
<i>Accounting, Auditing, and Financial Planning</i>	
1. The City will establish accounting practices that conform to generally accepted accounting principles as set forth by the authoritative standard-setting body for units of local government.	In compliance
2. An annual audit will be performed by an independent certified public accounting firm and an official comprehensive annual financial report (CAFR) shall be issued no later than 6 months following fiscal year-end.	In compliance
3. The independent certified public accounting firm shall present to the Audit and Finance Committee the results of the annual audit no later than 60 days from the issuance of the City's CAFR.	In compliance
4. A 5-year financial forecast shall be prepared annually projecting revenues and expenditures for all major operating funds. This forecast shall be used as a planning tool in developing the following year's operating budget.	In compliance
5. The City Auditor's Office shall be responsible for conducting financial and performance audits as set forth in the annual work plan. This work plan will be submitted to the Audit and Finance Committee of the Council for approval. The City Manager shall be responsible for establishing a process to ensure timely resolution of audit recommendations.	In compliance
6. The City shall provide its share of contributions to the City's three retirement systems in accordance with the State statutes establishing each system.	In compliance
7. At the direction of the City Council and City Manager, City operations will be performed at the most economical cost while maintaining desired service levels. As one alternative to meet this goal, the City will initiate a competitive process that will allow for periodic analysis of proposals from City departments and from the private sector for purposes of evaluating the cost of performing selected municipal services. All such proposals will be evaluated through an orderly process that will include verification and appropriate classification of all costs.	In compliance for FY 16
8. Investments shall be made in conformance with the City's investment policy, with the primary objectives of:	In compliance
· Preservation of capital and protection of principal.	
· Maintenance of sufficient liquidity to meet operating needs.	
· Security of City funds and investments.	
· Diversification of investments to avoid unreasonable or avoidable risks.	
· Maximization of return on the portfolio.	

Financial Policies – 2016-17

Policy	Current Status
9. All grants and other Federal and State funds shall be managed to comply with the laws, regulations, and guidance of the grantor, and all gifts and donations shall be managed and expended according to the wishes and instructions of the donor.	In compliance
10. The City shall establish and maintain a Capital Rehabilitation Fund to support major rehabilitation and betterment of non-enterprise department facilities. A target budgeted annual transfer equal to 25% of the annual depreciation expense for building and improvements related to governmental activities as reported in the prior year Comprehensive Annual Financial Report in Footnote 5 Capital Assets and Infrastructure.	Not in compliance for FY 16
Uses of this fund may include non-bond funded projects including facility rehabilitation and betterment related to:	
<ul style="list-style-type: none"> · Safety and security; · Significant large maintenance projects that extend the asset’s useful life; · Energy efficiency improvements; · Renovations to improve space utilization; · Temporary closure of facilities due to unforeseen conditions; · Technology innovations; or · Other projects that result in the betterment of the asset. 	
This fund will not be available for expenditures of a general or routine maintenance nature.	
11. Maintenance and replacement funding will be prioritized each year to ensure that capital facilities and equipment are sufficiently maintained to avoid service disruptions.	In compliance
12. The City shall require adequate financial controls to be included in the City’s standard contract terms so as to provide assurance of minimum risk of and access to review compliance. Among these controls are the right to audit all provisions of contracts, the right to require appropriate levels of insurance, the right to review any financial/escrow accounts, bank letters of credit or other credit instruments, and the right to require complete financial reports if appropriate for the solicitation.	In compliance

Reserves

13. The City shall maintain a Liability Reserve Fund with a balance sufficient to fund 75% of anticipated claims expense and resulting liabilities, other than those for health benefits and workers' compensation. The Fund will be used to pay and account for such claims expense and liability, which will be identified in accordance with guidelines established by the Governmental Accounting Standards Board. Contributions from each operating fund shall be made in accordance with the fund's pro-rata share of claims expense, determined in accordance with the above mentioned guidelines.	In compliance
---	---------------

Financial Policies – 2016-17

Policy	Current Status
<p>Payments in excess of departmental spending authority must be approved by the City Council. Payments for accrued claims will be paid from the Fund's reserve balance, which will have been appropriated by the City Council. Payments for unaccrued claims will be made against the Fund's current year appropriations. Payments in excess of current year appropriations for any unaccrued claims must be appropriated by the City Council at the time the payment is approved.</p>	
14. The Workers' Compensation Fund shall maintain a budgeted claims reserve equal to 25% of budgeted claims and settlement expenses.	In compliance
15. An individual-specific stop-loss policy shall be maintained for the City Health Plan. In addition, the Employee Benefits Fund will maintain a stop-loss reserve in an amount recommended by the City's actuary. Further, the Employee Benefits Fund will maintain a cash balance equal to anticipated end-of-year claims incurred but not paid and other current liabilities.	In compliance

Debt Refinancing

- | | |
|---|---------------|
| 16. An advance refunding of outstanding debt shall only be considered when present value savings of at least 4.25% of the principal amount of the refunded bonds are produced, unless (1) a debt restructuring is necessary or (2) bond covenant revisions are necessary to facilitate the ability to provide services or to issue additional debt. The same requirements will normally apply to municipal utility district tax and revenue refunding bond issues approved by the City of Austin. Savings from general obligation and district bond refundings will be distributed to lessen the impact of debt service requirements in future years. | In compliance |
|---|---------------|

Refundings will be done in accordance with City debt management practices, including the interest rate exchange policy approved through Resolution 20050623-014.

The following policies shall be established for the management of the City's investment pool:

- | | |
|--|---------------|
| 17. Funds having negative balances in the centralized cash pool will not be charged interest. | In compliance |
| 18. Operating and capital funds incurring a sustained negative cash balance exceeding \$1 million over the course of one year, for which City management has not identified a repayment plan, will be brought to Council for direction on implementing a repayment plan. | In compliance |
| 19. Funds on a repayment plan will be expected to repay their debt to the pool through revenue and/or assistance from other funds. | In compliance |

Unbudgeted Funds

- | | |
|---|---------------|
| 20. The following types of funds will not be included in the City's annual budget: | In compliance |
| <p>a. Funds whose revenue source is primarily donations or contributions from the public. Examples:</p> <ul style="list-style-type: none"> · <i>Animal Services Donation Fund</i> – accounts for donations and expenditures for Animal Center operations and animal services programs. | |

Financial Policies – 2016-17

Policy	Current Status
---------------	-----------------------

- *Friends of APL Fund* – accounts for donations and expenditures for the Austin Public Library’s book store.
- b. Funds used to account for escrow or performance deposits. Examples:
- *Fiscal Surety – Land Development Fund* – escrow funds received from contractors for improvements for environmental, health, safety controls, and public infrastructure.
- c. Funds controlled by another legal entity. Examples:
- *Housing Assistance Fund* – accounts for proceeds from residual equity bonds issued by the Austin Housing Finance Corporation.
 - *Waller Creek Local Government Corporation Fund* – accounts for the administrative costs related to the Waller Creek Local Government Corporation.
- d. Funds used to account for the repayment of certain loans. Examples:
- *Housing Loan Fund* – accounts for Affordable Housing loan activities.

Any fund not included in the annual budget will have a stated purpose and will be assigned to a responsible department that will ensure that accounts in the fund are used in accordance with the fund's stated purpose.

Letters of Credit

21. A City department may accept letters of credit for less than \$10,000 from any bank or savings and loan if the total City-wide exposure for that institution is less than \$250,000. In compliance

A City department may accept any letter of credit that is 110% collateralized by an acceptable investment instrument registered in the City's name. The Treasurer's Office must receive safekeeping receipts for all collateral before the letter of credit is accepted. If the value of the collateral falls below 105% of the letter of credit value, the Treasurer's Office will make a margin call.

Letters of credit that are not collateralized, and are \$10,000 or more, which are issued by an institution whose total City-wide exposure is \$250,000 or more, may be accepted only if the issuer meets the following criteria:

Banks

- Equity capital of at least \$2 million;
- Highland Data rating of ten (10) or higher, or core capital as a percent of total assets of at least 6.0%; and,
- Total letters of credit held by the City at each bank totaling no more than 50% of the bank's equity capital.

Financial Policies – 2016-17

Policy	Current Status
--------	----------------

Savings and Loan Associations

- Tangible capital (excluding reserves) of at least \$2 million;
- Highland Data rating of ten (10) or higher, or tangible capital (excluding reserves) as a percent of total assets of at least 3%; and,
- Total letters of credit held by the City at each savings and loan totaling no more than 50% of the savings and loan's capital (excluding reserves).

The City of Austin will draw on any letter of credit if a bank or savings and loan no longer meets the criteria. The City will not accept new letters of credit issued by institutions that do not meet these criteria.

Each department will provide the Treasurer's Office with a quarterly report listing dollar values, by institution, of that department's letter of credit. The Treasurer's Office will prepare a quarterly report indicating total City-wide exposure at each financial institution.

General Fund Financial Policies

- | | |
|---|-----------------------------------|
| 1. Current revenue, which does not include the General Fund beginning balance, will be sufficient to support current expenditures (defined as "structural balance"). Unreserved fund balances in excess of required shall normally be used to fund capital items in the operating and capital budget. However, if projected revenue in future years is not sufficient to support projected requirements, an unreserved ending balance may be budgeted to achieve structural balance. | In compliance |
| 2. Fiscal notes provided to Council shall include initial costs of a program/project and the operations costs for a minimum of five years. Unbudgeted items would require identification of savings necessary to fund needs. Fiscal notes for reimbursement resolutions shall require the fiscal impact to debt service both in real dollars and tax rate for a minimum of five years. | In compliance for
FY 16 |
| 3. To improve financial planning and control, budget amendments should be infrequent and limited to cases where: | Not in
compliance for FY
16 |
| <ul style="list-style-type: none"> a. Funding is required to address extraordinary circumstances resulting from a natural disaster, a public health emergency, or other similar critical need that could not have been reasonably anticipated when the budget was adopted; or b. There is verifiable evidence of significant costs or risks associated with delaying funding until the next budget cycle; or c. Errors or omissions in the Council Approved Budget require correction. | |

Financial Policies – 2016-17

Policy	Current Status
<p>Prior to City Council consideration of any budget amendment, the Budget Office will review all department and fund budgets to first determine if the new funding requirements can be met within existing appropriation limits or other appropriate revenue sources. Reserves should only be used when no other funding sources can be identified. Budget amendments resulting in recurring expenses should generally not be funded with one-time sources or revenue.</p>	
4. Tax Increment Financing (TIF) Policy	
a. Tax Increment Financing zones should be established where revenues will recover the public cost of debt with adequate safety margin.	In compliance
b. No more than 5% of the City's tax base will be in Tax Increment Financing zones.	In compliance
<u>Capital and Debt Management</u>	
c. All Public Improvement District (PID) and TIF proposals, even "pay-as-you-go" projects, will be evaluated for service impact. A five-year fiscal note must accompany any request to establish a PID or TIF including repayment terms of any interfund borrowing.	In compliance
d. All approved PID or TIF debt issuances supported by a district's revenues are subject to the following criteria:	In compliance
i. Coverage Tests - The project should provide for revenues, net of overlapping taxes, of 1.25 times maximum annual debt service requirement. The issuance of TIF bonds may be considered prior to achieving coverage ratio of 1.25 if a developer or property owner provides a credit enhancement such as a letter of credit or bond insurance from an AAA rated financial institution for the entire amount of the debt issue.	
ii. In the event that there is insufficient TIF increment revenues to retire TIF bonds, which event consequently requires that the credit enhancement mechanism be called upon to service the TIF bonded indebtedness, contingent liability to reimburse a credit-enhancer would be the sole liability of the developer or its affiliates.	
iii. In the event that there are changes in the rating of the financial institution providing credit enhancement, then that institution shall be replaced with a "AAA" rated financial institution within 90 days; and in the event that no replacement of a "AAA" rated institution is provided, no further TIF bonds in advance of the 1.25 coverage ratio will be provided for any additional TIF projects undertaken by the developer or its affiliates.	
iv. Additional Bonds Test - The project should include an additional bonds test parallel to the coverage test.	
v. Reserve Fund - The project should include a debt service reserve fund equal to the maximum annual debt service requirements.	

Financial Policies – 2016-17

Policy	Current Status
<p>vi. Limitations on Amount of PID/TIF Bonds - The total amount of PID/TIF indebtedness will be included and managed as part of the City's overlapping debt and the total amount of PID/TIF debt outstanding should generally not exceed 20% of the City's outstanding general obligation indebtedness.</p>	
<p>vii. PID bonds should be limited to those projects which can demonstrate the ability to support the debt either through its own revenues or another pledge source other than ad valorem taxes. PID/TIF bond authorizations should remain in effect for no more than five years from the date of City Council approval.</p>	
<p>e. All approved PID or TIF debt issuances must mature on or before the termination date of the respective PID or TIF district, and, further, all bonds must also conform to the district's Financial Plan by maturing on or before the Plan's projected date by which all district expenses would be paid, including repayment of bonds.</p>	In compliance
<p>f. The City will not propose the issuance of any unrated, high-yield PID/TIF bond that could be labeled a "high risk bond" except for small (less than \$5 million) private placements coordinated with the City's Financial Advisor.</p>	In compliance
<p>All projects must be carefully evaluated for credit worthiness and meet the criteria above whether or not a credit rating is obtained.</p>	
<p>g. The City should use PID/TIF bonds only when other options have been considered.</p>	In compliance
<p>5. A tax abatement ordinance and policy will be established, as necessary, according to State law and in accordance with Council guidelines and criteria for economic development. There is currently no tax abatement ordinance in effect.</p>	In compliance
<p>6. Debt will not be used to fund current expenditures.</p>	In compliance
<p>7. Each year, the City Manager's Budget shall reflect an ad valorem tax rate that helps sustain existing core service levels. The year-to-year increase of actual revenue from the levy of the ad valorem tax shall generally not exceed 8%:</p>	In compliance
<p>a. excluding taxable value gained through annexation or consolidation;</p>	
<p>b. excluding the value gained through new construction;</p>	
<p>c. excluding expenditure increases required for General Obligation Debt Service; and</p>	
<p>d. not excluding the valuation gained or lost through revaluation or equalization programs.</p>	

Financial Policies – 2016-17

Policy	Current Status
8. As part of the annual budget process, the City Council shall adopt by resolution a maximum approved ad valorem tax rate that the Council may consider for the upcoming fiscal year consistent with State law. The resolution will establish the date(s) the Council will adopt and levy the ad valorem tax rate. The actual tax rate adopted by the City Council after its budget deliberations may be lower than the approved rate, but it will not be higher.	In compliance
9. Property values shall be appraised, at a minimum, every two years.	In compliance
10. The City shall encourage the Tax Assessor-Collector to follow an aggressive policy of collecting property tax revenues. An average collection rate of at least 98% of current levy shall be maintained.	In compliance for FY 16
11. Charges for services and other revenues shall be examined at a minimum of once every five years and adjusted as deemed necessary to respond to changes in cost of service.	In compliance

Reserves

12. A General Fund Emergency Reserve Fund of 6% of total fund requirements shall be budgeted annually. The Emergency Reserve Fund shall be used to provide for temporary financing for unanticipated or unforeseen extraordinary needs of an emergency nature; for example, costs related to a natural disaster or calamity or an unexpected liability created by Federal or State legislative action.	In compliance
--	---------------

Funds shall be allocated from the Emergency Reserve Fund only after an analysis has been prepared by the City Manager and presented to City Council. The analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources and provide a sufficient cash balance for daily financial needs. The analysis shall address the nature of the approved expenditure and the revenue requirement in subsequent budget years. Prior to allocating funds from the Emergency Reserve Fund, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds.

Funds shall be allocated each year in the budget process to replace any use of the Emergency Reserve Fund during the preceding fiscal year to maintain the balance of the Emergency Reserve Fund at the level set above.

13. A General Fund Reserve for Budget Stabilization shall be maintained to provide financial stability for the General Fund during economic downturns through the capture at each fiscal year end of any excess revenue and unspent appropriations. During the annual budget process, up to one-third of the total amount of this reserve may be appropriated to fund capital items or other one-time costs each year.	In compliance
14. Combined, the Emergency Reserve and Budget Stabilization Reserve should be at least 12% of total fund requirements.	In compliance
15. A General Government Capital Contingency of at most 3% of capital expenditures, but not less than \$2,000,000, shall be budgeted annually.	In compliance

Financial Policies – 2016-17

Policy	Current Status
---------------	-----------------------

General Debt Management Policies

- | | |
|--|---------------|
| 1. The City shall use several methods of debt issuance, including selling bonds competitively, by negotiated sale, or through private placement. The City may issue bonds by negotiated sale when appropriate, based on prevailing market conditions, size or structure of the planned issuance, or other factors. The City shall use the competitive sale method when issuing general obligation bonds, unless a negotiated sale or private placement would be more advantageous. | In compliance |
| 2. The City shall use competitive procurement methods to select professional firms used in the bond issuance process. | In compliance |
| 3. The City's financial advisor must be a firm that is independent of banking, underwriting, or other interests to assure that the selected financial advisor can effectively represent the City in negotiations with bankers, underwriters, and other service providers needed for the issuance of debt. | In compliance |

General Obligation Debt Financial Policies

- | | |
|---|---------------|
| 1. A fund balance for the General Obligation Debt Service Fund of at least 10% of total general obligation debt service requirements shall be maintained to ensure the City's ability to meet debt service payments in spite of tax revenue shortfalls or fluctuations in interest rates. | In compliance |
| 2. The term of long-term debt generally shall not exceed the expected useful life of the capital asset being financed and in no case shall it exceed 20 years. | In compliance |
| 3. The ratio of net debt (total outstanding tax supported general obligation debt less G.O. Debt Service Fund balance) to Total Assessed Valuation shall not exceed 2.0%. This excludes debt of overlapping jurisdictions. The City shall structure its bond issuance to achieve and maintain a debt-to-assessed-value of 2.0% or less. | In compliance |
| 4. The ratio of Debt Service to Total Expenditures (operating expenditures and debt service combined) shall not exceed approximately 20%. | In compliance |
| 5. Bond sales shall be structured to achieve level debt service payments. | In compliance |
| 6. Interest earnings from bond proceeds for general government projects (excluding projects for enterprise funds) shall be deposited in and retained by the debt service fund (preferred practice) unless otherwise required by bond ordinance or used to fund future CIP projects. | In compliance |
| 7. Timing of general obligation bond elections shall be determined by the inventory of current | In compliance |
| 8. The total dollar amount of bond election propositions recommended to the voters shall not exceed the City's estimated ability to issue said bonds within a normal 6 year period. | In compliance |

Financial Policies – 2016-17

Policy	Current Status
9. The use of reimbursement resolutions shall be encouraged as a cash management tool for general obligation debt funded projects. Reimbursement resolutions may be used for any project which is on the bond sale schedule for the following year or is revenue supported	In compliance
10. It is the City's priority to fund capital expenditures with cash or voter-approved debt. However, non-voter-approved debt may be used for capital expenditures as an alternative to lease/purchase or other financing options if the capital expenditure is: <ul style="list-style-type: none"> · Urgent; · Unanticipated; · Necessary to prevent an economic loss to the City; · Results in an economic gain to the City within a reasonable time; or · Non-voter approved debt is the most cost effective financing option available. 	In compliance
11. The average maturity of non-voter approved debt shall not exceed the average life of the capital items financed.	In compliance
12. Capital items financed with non-voter approved debt shall have a value of at least \$10,000 and a life of at least four years.	In compliance

Austin Energy Financial Policies

1. The term of debt generally shall not exceed the useful life of the asset, and in no case shall the term exceed 30 years.	In compliance.
2. Capitalized interest shall only be considered during the construction phase of a new facility if the construction period exceeds 7 years. The time frame for capitalizing interest may be 3 years but not more than 5 years. Council approval shall be obtained before proceeding with a financing that includes capitalized interest.	In compliance. Austin Energy does not use Capitalized Interest
3. Principal repayment delays shall be 1 to 3 years, but shall not exceed 5 years.	In compliance
4. Austin Energy shall maintain either bond insurance policies or surety bonds issued by highly rated ("AAA") bond insurance companies or a funded debt service reserve or a combination of both for its existing revenue bond issues, in accordance with the Combined Utility Systems Revenue Bond Covenant.	In compliance

Financial Policies – 2016-17

Policy	Current Status
<p>5. A debt service reserve fund shall not be required to be established or maintained for the Parity Electric System Obligations so long as the “Pledged Net Revenues” of the System remaining after deducting the amounts expended for the Annual Debt Service Requirements for Prior First Lien and Prior Subordinate Lien Obligations is equal to or exceeds one hundred fifty per cent (150%) of the Annual Debt Service Requirements of the Parity Electric Utility Obligations. If the “Pledged Net Revenues” do not equal or exceed one hundred fifty per cent (150%) of the Annual Debt Service Requirements of the Parity Electric Utility Obligations, then a debt service reserve fund shall be established and maintained in accordance with the Supplemental Ordinance for such Parity Electric System Obligations.</p>	In compliance
<p>6. Debt service coverage of a minimum of 2.0x shall be targeted for the Electric Utility Bonds. All short-term debt, including commercial paper, and non-revenue obligations will be included at 1.0x.</p>	<p>In compliance. Debt service coverage for the FY 2016-17 Budget is 3.3x.</p>
<p>7. Short-term debt, including commercial paper, shall be used when authorized for interim financing of capital projects and fuel and materials inventories. The term of short-term debt will not exceed 5 years. Both Tax-Exempt and Taxable commercial paper may be issued in order to comply with the Internal Revenue Service Rules and Regulations applicable to Austin Energy. Total short-term debt shall generally not exceed 20% of outstanding long-term debt.</p>	In compliance
<p>8. Commercial paper may be used to finance capital improvements required for normal business operation for Electric System additions, extensions, and improvements or improvements to comply with local, state and federal mandates or regulations. However, this shall not apply to new nuclear generation units or conventional coal generation units.</p>	In compliance
<p>Commercial paper will be converted to refunding bonds when dictated by economic and business conditions. Both Tax-Exempt and Taxable refunding bonds may be issued in order to comply with the Internal Revenue Service Rules and Regulations applicable to Austin Energy.</p>	
<p>Commercial paper may be used to finance voter approved revenue bond projects before the commercial paper is converted to refunding bonds.</p>	
<p>9. Ongoing routine, preventive maintenance should be funded on a pay-as-you-go basis.</p>	In compliance
<p>10. Austin Energy shall maintain a minimum quick ratio of 1.50 (current assets less inventory divided by current liabilities). The source of this information should be the Comprehensive Annual Financial Report.</p>	In compliance
<p>11. Austin Energy shall maintain a minimum operating cash equivalent (also known as Working Capital) of 60 days of budgeted operations and maintenance expense, less power supply costs, plus the amount of additional monies required to bring the sum of all Austin Energy's reserves to no less than 150 days of operating and maintenance expense.</p>	In compliance

Financial Policies – 2016-17

Policy	Current Status
12. Net Revenue generated by Austin Energy shall be used for General Fund transfers, capital investment, repair and replacement, debt management, competitive strategies, and other Austin Energy requirements. Once these obligations have been met, any remaining net revenues will be deposited in the following order into Austin Energy's reserve funds until each reserve reaches its minimum funding level: Working Capital, Contingency Reserve, Power Supply Stabilization Reserve, and then Capital Reserve. The sum of the four reserves shall be the cash equivalent of no less than 150 days of operating and maintenance expense.	In compliance
13. The General Fund transfer shall not exceed 12% of Austin Energy three-year average revenues less power supply costs and on-site energy resource revenue, calculated using the current year estimate and the previous two years' actual revenues less power supply costs and on-site energy resource revenue from the City's Comprehensive Annual Financial Report.	In compliance
14. Capital projects should be financed through a combination of cash, referred to as pay-as-you-go financing (equity contributions from current revenues), and debt. An equity contribution ratio between 35% and 60% is desirable.	In compliance
15. The Capital Reserve shall be created and established for providing extensions, additions, replacements and improvements to the Electric System. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's electric utility depreciation expense.	Not in compliance
16. The Contingency Reserve shall be created and established for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the targeted funding level within two (2) fiscal years.	In compliance
17. Electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to support (1) the full cost (direct and indirect) of operations including depreciation, (2) debt service, (3) General Fund transfer, (4) equity funding of capital investments, (5) requisite deposits of all reserve accounts, (6) sufficient annual debt service requirements of the Parity Electric Utility Obligations and other bond covenant requirements, if applicable, and (7) any other current obligations. In addition, Austin Energy may recommend to Council in the budget directing excess net revenues for General Fund transfers, capital investment, repair and replacement, debt management, competitive strategies and other Austin Energy requirements such as working capital.	In compliance

In addition to these requirements, electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to ensure a minimum debt service coverage of 2.0x on electric utility revenue bonds.

Financial Policies – 2016-17

Policy	Current Status
A rate adequacy review shall be completed every five years, at a minimum, through performing a cost of service study.	
18. A decommissioning trust shall be established external to the City to hold the proceeds for moneys collected for the purpose of decommissioning the South Texas Nuclear Project. An external investment manager may be hired to administer the trust investments.	In compliance
19. The master ordinance of the Parity Electric System Obligations does not require a debt service reserve fund. Austin Energy will maintain a minimum of unrestricted cash on hand equal to six months debt service for the then outstanding Parity Electric System Obligations.	In compliance
20. Current revenue, which does not include the beginning balance, will be sufficient to support current expenditures (defined as “structural balance”). However, if projected revenue in future years is not sufficient to support projected requirements, ending balance may be budgeted to achieve structural balance.	In compliance
21. A Non-Nuclear Plant Decommissioning Fund shall be established to fund plant retirement. The amount set aside will be based on a decommissioning study of the plant site. Funding will be set aside over a minimum of four (4) years prior to the expected plant closure.	In compliance
22. The Power Supply Stabilization Reserve shall be created and established for mitigating power supply cost volatility which causes frequent variation in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall maintain a cash equivalent of 90 days of net power supply costs. Net power supply costs shall be defined as costs eligible for inclusion in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall be funded using net revenues after meeting other obligations and consistent with the flow of funds schedule.	In compliance

Financial Policies – 2016-17

Policy	Current Status
--------	----------------

Austin Water Financial Policies

- | | |
|--|--|
| 1. The term of debt generally shall not exceed the useful life of the asset, and shall not generally exceed 30 years. | In compliance |
| 2. Capitalized interest shall only be considered during the construction phase of a new facility, if the construction period exceeds 7 years. The time frame for capitalizing interest may be 3 years but not more than 5 years. Council approval shall be obtained before proceeding with a financing that includes capitalized interest. | In compliance.
Austin Water does not use Capitalized Interest |
| 3. Principal repayment delays on revenue bonds shall be 1 to 3 years, but shall not exceed 5 years. | In compliance |
| 4. Each utility shall maintain a fully funded debt service reserve for its existing revenue bond issues and future issues, in accordance with the Combined Utility Systems Revenue Bond Covenant. | In compliance |
| 5. Debt service coverage of at least 1.50x shall be targeted. | In compliance |
| 6. Short-term debt, including tax-exempt commercial paper, shall be used when authorized for interim financing of capital projects. The term of short-term debt shall not exceed 5 years. Commercial paper will be converted to refunding bonds when appropriate under economic and business conditions. Total short-term debt shall generally not exceed 20% of outstanding long-term debt. | In compliance |
| 7. Commercial paper may be used to finance new water and wastewater plants, capital expansions, and growth-related projects as well as to finance routine capital improvements required for normal business operation. Commercial paper for the necessary amount may also be used to finance improvements to comply with local, state and federal mandates or regulations. | In compliance |
| 8. Capital improvement projects for new water and wastewater treatment plants, capital expansions, and growth-related projects that are located in the Drinking Water Protection Zone (DWPZ) will be identified and submitted, as part of the annual budget process, to the following Boards and Commissions: Water and Wastewater Commission, Resource Management Commission, Environmental Board, Planning Commission, and the Zoning and Platting Commission. | In compliance |

These Boards and Commission will review growth-related DWPZ capital projects spending plans, obtain Board and Commission and citizen input, review consistency with Imagine Austin Comprehensive Plan, review effect on growth within the DWPZ, and make recommendations on project approval for inclusion in Austin Water Utility's 5-year capital spending plan.

A public hearing will be held during the City's annual budget review process to provide citizens an additional opportunity to comment on growth related projects located within the DWPZ.

- | | |
|---|---------------|
| 9. Ongoing routine, preventive maintenance should be funded on a pay-as-you-go basis. | In compliance |
|---|---------------|

Financial Policies – 2016-17

Policy	Current Status
10. Capital projects should be financed through a combination of cash, referred to as pay-as-you-go financing (equity contributions from current revenues), and debt. An equity contribution ratio of at least 20% is desirable.	In compliance
11. The Austin Water Utility shall maintain a minimum quick ratio of 1.50 (Current Assets less inventory divided by Current Liabilities). Source of information shall be the Comprehensive Annual Financial Report.	Not in compliance. Quick ratio is 1.49 based on 2014 CAFR.
12. The Austin Water Utility shall maintain operating cash reserves equivalent to a minimum of 60 days of budgeted operations and maintenance expense.	In compliance
13. Revenue generated by the Austin Water Utility from Debt Service Coverage requirements shall be used for General Fund transfers, capital investment, or other Austin Water Utility requirements such as working capital reserve or non-CIP capital.	In compliance
14. Austin Water Utility rates shall be designed to generate sufficient revenues to support the full cost (direct and indirect) of operations and debt, provide debt service coverage and meet other revenue bond covenants, if applicable, and ensure adequate and appropriate levels of working capital.	In compliance
15. The General Fund Transfer shall not exceed 8.2% of the Austin Water Utility three-year average revenues, calculated using the current year estimate at March 31 and the previous two years' actual revenues.	In compliance
Revenue collected from the Reserve Fund Surcharge will be included in the General Fund Transfer calculation, however any use or transfer of the reserve fund back into the operating fund in the future due to revenue loss will not be included in the total revenues to calculate the General Fund Transfer.	
16. A Water Revenue Stability Reserve Fund shall be created and established for the purpose of offsetting current year water service revenue shortfalls below budgeted revenue levels.	In compliance
The target funding level for the Reserve Fund is 120 days of the budgeted water operating requirements of Austin Water Utility, which includes operations and maintenance, and other operating transfers, but excludes debt service and other transfers. In the event that any portion of the Reserve Fund is used, the balance will be replenished to the target level within 5 years.	
Upon creation of the Reserve Fund, the goal to reach the target funding level of 120 days of budgeted water operating requirements will be no later than 5 years. If the fund is drawn down prior to reaching the 120 day target during the first 5-year development period, the reserve fund surcharge shall not be lower than it was during the year in which the draw down occurred until such time as the fund reaches its 120 days of operating costs.	

Financial Policies – 2016-17

Policy	Current Status
<p>Sources of funding for the Reserve Fund may include a Reserve Fund volumetric surcharge charged to all customer classes, operating reserves in excess of 60 days of operating requirements, and any available net water service revenue after meeting all obligations of the Austin Water Utility.</p> <p>The City Council must approve all Reserve Fund utilization of funds through a separate action during the year. The Reserve Fund shall only be used to offset a current year water service revenue shortfall where actual water service revenue is less than the budgeted level by 10% or greater. The maximum use of the Reserve Fund in any fiscal year is 50% of the existing balance at the time of request for Council action.</p> <p>When the target levels of the Reserve Fund are reached, any Reserve Fund Surcharge shall be reduced to levels sufficient to only maintain the goal of 120 days of operating requirements as may be necessitated by changes in budgeted operating costs over time.</p> <p>All interest earned by the Reserve Fund account shall remain in the Reserve Fund in order to offset funding and replenishment requirements and to minimize rate impacts for water customers.</p>	

Airport Financial Policies

1. Debt service coverage shall be targeted at a minimum of 1.25x.	In compliance
2. The debt service reserve shall be funded at the same time long-term debt is issued (typically equal to 1 year's average debt service requirement).	In compliance
3. The term of long-term debt shall not exceed the expected useful life of the capital asset being financed, and in no case shall the life of the debt exceed 30 years.	In compliance
4. Capitalized interest during construction shall generally not exceed 5 years. Council approval shall be obtained before proceeding with a financing that includes capitalized interest.	In compliance
5. The Airport shall maintain a ratio of current assets plus operating reserve to current liabilities of at least 1.5 times. Source of information shall be the Comprehensive Annual Financial Report.	Not in compliance. The Ratio is 1.46 based on 2015 CAFR
6. The Aviation Fund shall maintain working capital that is equivalent to 60 days of budgeted operations and maintenance expense, in accordance with bond ordinance provisions. (Current assets plus operating reserve less current liabilities.)	In compliance

Drainage Utility Fund Financial Policies

1. A Drainage Utility Fund will be established to account for all revenues and all operational expenses related to this activity.	In compliance
---	---------------

Financial Policies – 2016-17

Policy	Current Status
2. The department that manages the Drainage Utility Fund shall recommend to Council in the budget setting rates sufficient to pay all requirements including debt service and to maintain a fund balance which is equivalent to 30 days of budgeted operations and maintenance.	In compliance

Austin Resource Recovery Financial Policies

1. The Austin Resource Recovery Fund shall establish and fund a reserve to provide for the closure and monitoring of the City's landfills in compliance with federal regulations.	Not in compliance. ARR utilizes CIP and operating budgets.
2. The department that manages the Austin Resource Recovery Fund shall recommend to Council in the budget setting rates sufficient to pay all requirements including debt service and to maintain a fund balance which is equivalent to 30 days of budgeted operations and maintenance.	Not in compliance. Anticipate compliance by FY 2018-19.

Fleet Services Financial Policies

1. Fleet Services Department shall maintain, in a separate Fleet Fuel Reserve Fund (Reserve Fund), an amount that may be drawn upon in the event significant fuel losses occur in a given fiscal period. The maximum ending balance of the fund shall not exceed 20% of total budgeted fuel costs or \$3 million, whichever amount is less.	In compliance
---	---------------

Funding shall consist of a fixed price per gallon (with the exception of compressed natural gas and propane) to be charged to each user department as determined each budget year. Fleet Services Department is responsible for calculating the annual per gallon fixed price during the City's annual budget process. The amount collected each fiscal year is to be deposited in the Fleet Fuel Reserve Fund in the same year as collected.

Upon determination that fuel costs exceeded fuel revenues in any given year in an amount greater than \$500,000, the Reserve Fund may be utilized to fund the deficiency.

Austin Convention Center Financial Policies

1. Debt service reserves shall be funded in accordance with the respective bond covenants for Austin Convention Center's Hotel Occupancy Tax Revenue bonds and Palmer Events Center's Town Lake Community Events Center Venue Project bonds.	In compliance
2. The term of long-term debt shall not exceed the expected useful life of the asset, and shall not generally exceed 30 years.	In compliance
3. Capitalized interest during construction shall not exceed 5 years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.	In compliance

Financial Policies – 2016-17

Policy	Current Status
<p>4. The Austin Convention Center shall maintain an operating reserve that is equivalent to 180 days of operating and maintenance expenses for both the Austin Convention Center and the Palmer Events Center operating funds (as required by its Town Lake Community Events Venue bond covenants) .</p> <p>In the event that operating reserves drop below the policy, and to the extent that respective facility funds allow (i.e., Austin Convention Center facility revenue and Hotel Occupancy Tax pledged toward the related bonds, and Palmer Events Center revenues pledged toward Town Lake Community Events Venue bonds), the balance will be replenished to the target level within 5 years. The operating reserve fund will only be used to offset a current year revenue shortfall where actual revenue is less than the budgeted level by 10% or greater.</p>	In compliance
<p>5. A capital reserve shall be maintained that is equivalent to 50% of the annual depreciation expense as reported in the prior year Comprehensive Annual Financial Report. The reserve may be used for capital projects that provide additions, replacements and improvements to Austin Convention Center facilities.</p>	In compliance
<p>6. Ongoing routine, preventative maintenance should be funded on a pay-as-you-go basis.</p>	In compliance

City of Austin
2016-17
Approved
Budget

Volume II
Glossary

Glossary

ACCRUAL BASIS

Method of accounting that recognizes revenue when earned, rather than when collected. Expenses are recognized when incurred rather than when paid. Proprietary funds use the full accrual basis of accounting. Governmental funds use a modified accrual basis.

ACTIVITY

A set of services performed by a department grouped together by a common purpose, which produces outputs and results. It is the lowest level presented in the Budget.

ADMINISTRATIVE SUPPORT (See also COST ALLOCATION PLAN)

Funding transferred from the General Fund and enterprise funds for specific central administrative functions that benefit those funds, such as the City Manager's Office, the Financial Services Department, Communications and Public Information, and the Human Resources Department.

AD VALOREM TAX (Also known as PROPERTY TAX)

The ad valorem tax is payable at a rate per \$100 of taxable property value. The City Council sets the ad valorem tax rate every year as part of the budget process. A portion of the tax funds General Fund operations. The remaining portion funds General Obligation Debt Service.

ADJUSTMENT TO GAAP

A bookkeeping entry made at the end of the fiscal year to assign income and expenses to a different year. These entries are made according to Generally Accepted Account Principles (GAAP) and under the accrual accounting systems in order to correctly reflect the timings of income and expenditures.

AMORTIZATION

The process of accounting for an amount over a period of time.

AMENDED BUDGET

Amended budget, as used throughout the budget document, represents the original adopted budget plus any amendments passed by the City Council during the fiscal year. This figure does not include prior year encumbrances or re-appropriations.

APPROPRIATION

The legal device by which the City Council authorizes the spending of City funds for specific purposes. Appropriations are usually limited in the amount and timeframe for expenditure.

APPROVED BUDGET

Approved budget, as used in fund summaries and department and program summaries within the budget document, represents the budget as originally adopted by the City Council.

ASSESSED VALUATION

A government sets a valuation upon real estate or other property as a basis for levying taxes. An assessed valuation represents the appraised valuation less any exemptions.

BACKCHARGE (See also EXPENSE REFUND)

An expense reimbursement budgeted in one department for service costs charged to another department.

BAD DEBT

The U.S. Comptroller of the Currency, Administrator of National Banks defines a bad debt as an unsecured debt for which interest or payment is past due and unpaid for six months (and which is not in process of collection). Some businesses set aside a reserve on their books to offset losses from bad debts.

BALANCED BUDGET (See also STRUCTURAL BALANCE)

A budget in which planned expenditures can be met by current income from taxation and other central government receipts.

BASIS OF ACCOUNTING

When revenue and expenditures are recognized in the accounts and reported in the financial records of the City, regardless of the measurement focus applied. Accounting records for governmental fund types are maintained on a modified accrual basis, with revenue being recorded when available and measurable, and expenditures being recorded when services or goods are received and the liabilities are incurred. Accounting records for proprietary fund types and trust funds are maintained on an accrual basis.

BASIS OF BUDGETING (See also MODIFIED ACCRUAL)

The City of Austin's basis for budgeting is the modified accrual basis for governmental funds, including the General Fund. Proprietary funds, which includes enterprise and internal service funds, are budgeted essentially on the full accrual basis, with the exceptions of compensated absences and debt service payments. Encumbrances are recognized by both governmental and proprietary funds since encumbrances represent a commitment of funding for goods and services. The City budgets for payments that are expected to be paid during the fiscal year.

Glossary

BEGINNING BALANCE

The residual non-restricted funds brought forward from the previous fiscal year's ending balance.

BONDS

Debt instruments that require repayment of a specified principal amount on a certain date (maturity date), together with interest at a stated rate or formula for determining the interest rate.

BOND ELECTION

Election held at various times to authorize the issuance of long term general obligation debt for capital improvements. The taxing authority of the city backs G.O. Bonds (General Obligation Bonds).

BOND SALE

Process where the City sells bonds as a means of borrowing capital for projects. The City then repays this debt to the lender over a period of time similar to the manner in which a homeowner pays a mortgage.

BUDGETARY CONTROL

The management of a government or enterprise in accordance with an approved budget for the purpose of keeping spending within available appropriations and available revenue.

BUDGETARY EXPENDITURES

Decreases in net assets. In contrast to conventional expenditures, budgetary expenditures do not include amounts represented by non-current liabilities.

BUDGET

A plan of financial operation showing proposed expenditures and the means of financing them.

BUSINESS PLAN

Plans developed by all City departments, which have a 1-5 year horizon and are revisited annually. Business plans do three things: 1. improve business decisions by focusing on measureable goals and objectives; 2. focus the culture of government to manage for results; and 3. integrate planning with the performance budget.

CAPITAL BUDGET

A plan of proposed capital outlays and the means of financing them. The annual capital budget is the primary means by which most of the acquisition and construction activities for facilities and major improvements of a government are controlled.

CAPITAL EXPENDITURES

Funds used to acquire or improve long-term assets.

CAPITAL IMPROVEMENTS PROGRAM (CIP)

A comprehensive program that projects the capital needs of a community. Generally, it is a cyclical process that estimates the needs for a set number of years. Capital Improvements Program Plans are essential for sound infrastructure and financial planning.

CAPITAL OUTLAY

An item costing more than \$5,000 and having a useful life of more than one year.

CERTIFICATE OF OBLIGATION (CO)

A certificate of obligation is used to obtain quick financing. The full faith and credit of the City secures it. Under the State Act, the intent to issue a certificate must be published in the local newspaper 30 days in advance. Voter approval is not required unless 5% of the qualified voters sign a petition and file it with the City Clerk. A certificate can be used for real property purchase and construction.

COMMERCIAL PAPER (CP)

Short-term, unsecured promissory notes, usually due within 30-45 days. Generally, the notes are backed by a line of credit with a bank.

COMMODITIES

Consumable goods such as asphalt, concrete, office supplies, small tools, and fuel.

CONTRACTUAL OBLIGATION (KO)

A short-term debt instrument which does not require voter authorization, used to finance the purchase of items such as equipment and vehicles.

COST

The amount of money or other consideration exchanged for property, services, or an expense.

Glossary

COST ALLOCATION PLAN (See also ADMINISTRATIVE SUPPORT)

The documentation identifying and allocating centralized administrative support costs based on the level of centralized support provided by the City to each of its departments and agencies.

CURRENT

Designates the present fiscal period, as opposed to past or future periods. It usually means items likely to be fully utilized or converted into cash within one year.

CYE (CURRENT YEAR ESTIMATE)

The level of revenue, expenditures or performance data projected to be received, spent, or achieved by the end of the current fiscal period.

DEBT SERVICE

The amount of money required for interest and principal payments on an outstanding debt in any given year.

DEBT SERVICE COVERAGE

An indicator of the financial strength of the project financed by revenue bonds. The calculation is net revenue divided by the debt service. Net revenue is total revenue less operating and maintenance expenses, and debt service is annual principal and interest payments on debt.

DEBT SERVICE FUND

Also called a SINKING FUND—a fund established to account for the accumulation of resources for the payment of principal and interest on long term debt.

DEBT SERVICE RESERVE

A fund that may be used to pay debt service for revenue bonds if the sources of the pledged revenue do not generate sufficient funds to satisfy the debt service requirements. The reserve fund is either funded in whole or in part from the proceeds of the bonds or is allowed to gradually accumulate over a period of years through required payments from the pledged revenue. If the reserve fund is used in whole or in part to pay the debt service, the issuer usually is required to replenish the reserve fund from the first available funds or revenue. A typical reserve requirement might be the maximum annual debt service requirement for any year remaining until the bonds reach maturity.

DEFICIT

The excess of expenditures over revenue during an accounting period or, in the case of proprietary funds, the excess of expense over income during an accounting period.

DEPRECIATION

A reduction in the value of an asset with the passage of time, due in particular to wear and tear.

EFFECTIVE RATE

The effective tax rate is a calculated rate that would provide the taxing unit with about the same amount of revenue received in the year before, on properties taxed in both years. If property values rise, the effective tax rate will go down and vice versa. The effective tax rate is generally equal to the prior year's taxes divided by the current taxable value of properties that were also on the tax roll in the prior year.

ENCUMBRANCES

Obligations in the form of purchase orders, contracts, or other commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or actual liability is set up, at which point they become expenditures.

ENCUMBRANCE CARRIED FORWARD

When contractual commitments of funds are made, those funds are encumbered and no longer available for expenditure. As actual expenses occur, the encumbrance is reduced. When the fiscal year ends, the remaining encumbrance is "carried forward" and added to the budget approved by the City Council for the new fiscal year.

ENDING BALANCE (See also FUND BALANCE)

The dollars remaining after current expenditures for operations and debt service are subtracted from the sum of the beginning fund balance and current resources. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances.

ENTERPRISE FUNDS

Account for operations that are financed and operated in a manner similar to private business enterprises. Costs are financed or recovered primarily through user charges. Major enterprise funds include: Austin Water Utility, Austin Energy, and Airport Fund. Non-major business-type activities include: Convention Center and public events; environmental and health services, public recreation and urban growth management.

Glossary

EXPENDITURES

Decreases in net financial resources. They include current operating expenses that require the current or future use of net current assets, debt service, and capital outlay.

EXPENSE REFUND (See also BACKCHARGE)

A cost reimbursement from other departments. It is usually associated with some service provided by one department on behalf of another. Because these reimbursed costs are incurred activity costs, they are shown as activity requirements in the budget document.

EXPENSES

Decreases in net total assets. They represent the total cost of operations during a period, regardless of the timing of related expenditures.

FEES

Charges for services.

FIXED ASSETS

Fixed assets are of long-term character and are intended to continue to be held or used. Examples are land, buildings, and machinery and equipment.

FIXED COST

A cost, such as rent, that does not change with increases or decreases in the amount of services provided.

FTE

A full-time equivalent authorized position, filled or vacant.

FULL ACCRUAL

The accounting and budgeting basis the City of Austin uses for proprietary funds, with the exception of compensated absences and debt service payments. Full accrual reports income when earned and expenses when incurred, as opposed to cash basis accounting, which reports income when received and expenses when paid.

FUND

A fiscal and accounting entity with a self-balancing set of accounts. It records cash and other financial resources, all related liabilities, residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE (See also ENDING BALANCE)

The dollars remaining after current expenditures for operations and debt service are subtracted from the sum of the beginning fund balance and current resources. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances.

FUND CATEGORY

The components of a high-level way to organize revenue and expenditures for a citywide view of the budget. The fund categories used for the citywide budget overview include, General, Enterprise, Reserves, Internal Service, Special Revenue, and Debt Retirement.

FUND SUMMARY (FINANCIAL SUMMARY)

A financial forecasting statement for any period of time that combines beginning and ending balances, including estimated revenue.

FUNDING SOURCE

The specifically identified dollars allocated to meet budgeted requirements.

GENERAL FUND

The primary operating fund of the City. It is used to account for all financial resources that are not required to be accounted for in another fund. It includes the following activities: general government; public safety; transportation, planning, and sustainability; public health; public recreation and culture; and urban growth management.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP)

The uniform minimum standards of, and guidelines to, financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define the accepted accounting practices at a particular time. They include both broad guidelines of general application and detailed practices and procedures. GAAP provide a standard by which to measure financial presentations.

GENERAL OBLIGATION BONDS (G.O. BONDS)

Bonds that are secured by the full faith and credit of the issuer. G.O. bonds issued by local units of government are secured by a pledge of the issuer's ad valorem taxing power. They are usually issued to pay for general capital improvements such as parks and streets.

Glossary

GOVERNMENTAL ACCOUNTING

The composite activity of analyzing, recording, summarizing, reporting and interpreting the financial transactions of government.

GOVERNMENTAL FUNDS

Funds generally used to account for tax-supported activities. There are five different types of governmental funds: general, special revenue, debt service, capital projects, and permanent funds.

GRANT

A contribution by outside governments or agencies to the City. The contribution is usually made to aid in a specified function (for example, education), but it is sometimes also for general purposes.

INDIRECT COST

An expense necessary for the functioning of the organization as a whole that cannot be directly assigned to one service.

INDIRECT COST REFUND

The mechanism for recovering expenses not directly associated with individual department's operations and maintenance.

INTERDEPARTMENTAL SERVICES

Budgeted expenses for services provided by another department.

INTERNAL SERVICE FUNDS

Account for the financing of goods or services provided by one city department or agency to other city departments or to other governmental units on a cost-reimbursement basis. These activities include, but are not limited to, capital projects management, combined emergency center operations, employee health benefits, fleet services, information services, liability reserve (city-wide self insurance) services, support services, wireless communication services, and workers' compensation coverage.

KEY INDICATOR

A performance measure that has been determined by the department during its business planning process to be an important measure that indicates the department's success.

MAJOR FUNDS

Major funds for the city of Austin are: the General Fund, Austin Energy Fund, Austin Water Utility Fund, and the Airport Fund.

MODIFIED ACCRUAL

City of Austin governmental funds are budgeted using the modified accrual basis, with revenue recognized when they become measurable. Revenue is "measurable" when the amount of the transaction can be reasonably determined. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred and is expected to be liquidated within 60 days.

NOMINAL RATE

The same set rate as the prior year, regardless of changes in assessed property value.

NON-PERSONNEL

A budget category consisting of contractual, commodity, and indirect costs.

NON-RECURRING REVENUE

A one-time windfall that is budgeted only for one fiscal year.

NOTE

A written, short-term promise of the issuer to repay a specified principal amount on a certain date, together with interest at a stated rate, or according to a stated formula, payable from a defined source of anticipated revenue. Notes usually mature in fewer than five years.

OBJECT

As used in expenditure classification, object applies to the article purchased or the service obtained. Examples are wages, electricity, rental, maintenance, travel, office supplies, and computer hardware.

OBJECT CLASS/CATEGORY

The expenditure classification according to the types of items purchased or services obtained; for example, personnel, services, materials or supplies, and equipment.

OPERATING EXPENSES (see also PROGRAM REQUIREMENTS)

Proprietary fund expenses that directly relate to the fund's primary service activities.

Glossary

ORDINANCE

A formal legislative enactment by City Council. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the City's boundaries.

OVERHEAD

The element of cost necessary for the production of an article or the performance of a service which is of such a nature that the amount applicable to the product or service cannot be determined readily. Usually, overhead relates to those objects of expenditures that do not become an integral part of the finished product or service such as rent, heat, light, supplies, and management.

PERFORMANCE BUDGET

The City's performance budget was developed as a way to tie appropriations of City funding to the results achieved by programs. Departments develop the performance budget by determining the cost of activities, which are aggregated together into program budgets.

PERFORMANCE MEASURES

Measurable information regarding the work performed within an activity. They can be represented in counts, costs, or percentages. They help to make good business decisions.

PUBLIC IMPROVEMENT BOND (PIB)

A voter-approved bond issued by the City that is secured by and payable from ad valorem taxes to finance the cost of purchasing land or making improvements to real property for the purpose of public improvement within the municipality. Examples of tax-supported PIBs include street, signal and pedestrian improvements, parkland and parks or cultural facility improvements, library facility improvements and affordable housing.

PROGRAM

A major line of business or division within a department. It consists of a group of common activities that provide services and produce results for citizens.

PROGRAM REQUIREMENTS (see also OPERATING EXPENSES)

Expenses that directly relate to the fund's primary service areas, or programs.

PROPRIETARY FUNDS

Funds that consist of enterprise funds and internal service funds. Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principle ongoing operations, such as providing electric or water-wastewater services. Other revenue or expenses are non-operating items.

RE-APPROPRIATION

By City Council action, an Operating Budget spending authorization lapses on September 30 of each fiscal year. Any authorization not expensed or encumbered is illegal for expenditures, and the dollars associated with the authorization "fall to the ending balance." Those items that are deemed important are brought to the City Council to be re-appropriated in the new fiscal year.

REFUNDING

Issuing new bonds to refinance an outstanding bond issue. There are two major reasons for refunding: to reduce the issuer's interest costs or to remove a burdensome or restrictive covenant imposed by the terms of the bonds being refinanced. The proceeds of the new bonds are either deposited in escrow to pay the debt service on the outstanding obligations when due, or they are used to immediately retire the outstanding obligations. The new obligations are referred to as the "refunding bonds" and the outstanding obligations being refinanced are referred to as the "refunded bonds" or the "prior issue."

REPLACEMENT COST

The cost of a property, as of a certain date, which can render similar service as the property to be replaced. The replacement need not be of the same structural form as the original.

REQUIREMENTS

Expenses of a fund, department, program or activity.

RESERVE

An account in which a portion of the fund balance is segregated for a future use and which is, therefore, not available for further appropriation or expenditure. A reserve for inventories equal in amount to the inventory of supplies on the balance sheet of the general fund is an example of such a reserve.

Glossary

RESOLUTION

A special or temporary order of a legislative body requiring less legal formality than an ordinance or statute.

REVENUE BONDS

Bonds payable from a specific source of revenue, which do not pledge the full faith and credit of the issuer. Revenue bonds are payable from identified sources of revenue and do not affect the ad valorem tax rate. Pledged revenue may be derived from operation of the financed project, grants, excise, or other specified non-ad valorem tax.

REVENUE

Revenue is (1) an increase in a governmental fund net current assets from other than expenditure refunds and residual equity or (2) an increase in a proprietary fund net total assets from other than expense refunds, capital contributions, and residual equity transfers.

ROLLBACK RATE

The rollback rate is a calculated maximum rate allowed by law without voter approval. The rollback rate provides the City entity authority with about the same amount of tax revenue it spent the previous year for day-to-day operations, plus an extra 8 percent increase for those operations, in addition to sufficient funds to pay debts in the coming year. If a City entity authority adopts a tax rate higher than the rollback rate, voters in the City can circulate a petition for an election to limit the size of the tax increase.

SERVICES

Deliverables given to customers, either internal departments or citizens.

SINKING FUND

An account into which a debt issuer makes periodic deposits to ensure the timely availability of sufficient monies for the payment of debt service requirements. The revenue to be deposited into the sinking fund and payments from the fund are determined by the terms of the bond contract.

STRUCTURAL BALANCE

The state at which current revenue sufficiently supports current expenditures.

TAXES

Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits, such as special assessments, or charges for services rendered, such as wastewater service.

TAX RATE

The amount of tax levied for each \$100 of assessed valuation.

TAX INCREMENT FINANCING (TIF)

Tax increment financing is a tool that local governments can use to publicly finance needed structural improvements and enhanced infrastructure within a defined area. TIFs are portions of property tax collections and/or sales tax revenue dedicated to specific improvements within an established Reinvestment Zone. They are not separate taxes. The City of Austin has established active TIF Reinvestment Zones for approved infrastructure improvements to the Mueller, Seaholm, and Waller Creek developments.

TRANSFERS

The authorized exchanges of cash or other resources between funds.

WORKING CAPITAL

Excess of current assets over current liabilities.
