# Taxpayer Impact Statement

## ESTIMATED ANNUAL IMPACT OF APPROVED RATE AND FEE CHANGES ON A "TYPICAL" RESIDENTIAL RATEPAYER

	FY 2017-18 Yearly Rate	FY 2018-19 Approved Rate	Annual Dollar Change	<i>Typical Ratepayer Defined as:</i>
Austin Energy	\$1,044.00	\$1,040.64	(\$3.36)	Residential customer usage of 860 Kwh.
Austin Water	\$970.92	\$969.48	(\$1.44)	Residential customer usage of 5,800 gallons of water and 4,000 gallons of wastewater
Austin Resource Recovery	\$291.60	\$291.60	\$0	Residential customer using a 64-gallon cart
Clean Community Fee	\$107.40	\$107.40	\$0	Per single-family home
Transportation User Fee	\$138.24	\$153.48	\$15.24	Per single-family home
Drainage Utility Fee	\$141.60	\$141.60	\$0	Residential customer with 3,100 sq. ft./37% of impervious cover
Property Tax Bill	\$1,250.20	\$1,317.07	\$66.87	FY 2018 median non-senior homestead assessed value of \$332,366; homestead exemption increase from 8% to 10%
<b>TOTAL YEARLY IMPACT</b>	<b>\$3,943.96</b>	<b>\$4,021.27</b>	<b>\$77.31</b>	<b>Combined projected increase of 2.0%</b>

### DEFINITIONS

**Effective Tax Rate** – The tax rate that would generate the same amount of property tax revenue as in the prior year when applied to properties taxed in both years, net of certain state-mandated adjustments.

**Rollback Tax Rate** – The tax rate that would generate the same amount of operations and maintenance property tax revenue as in the prior year when applied to properties taxed in both years (net of certain state-mandated adjustments), plus 8%, and plus the additional tax rate necessary to generate sufficient revenue for debt service requirements.

### NON-SENIOR HOMESTEADS

- General Homestead Exemption increase from 8% in FY 2018 to 10% in FY 2019

<i>Property Valuation</i>		<i>Property Tax Bill (Annual)</i>				
FY 2019 Assessed Value	Percent Growth*	Current Tax Bill	Approved Tax Rate \$0.4403	Dollar Change from Previous Year	Effective Tax Rate \$0.4137	Rollback Tax Rate \$0.4482
\$100,000	8.9%	\$375.89	\$396.27	\$20.38	\$372.33	\$403.38
\$200,000	9.0%	\$750.92	\$792.54	\$41.62	\$744.66	\$806.76
\$400,000	6.1%	\$1,543.26	\$1,585.08	\$41.82	\$1,489.32	\$1,613.52
\$800,000	6.3%	\$3,079.06	\$3,170.16	\$91.10	\$2,978.64	\$3,227.04

### SENIOR/DISABLED HOMESTEADS

- General Homestead Exemption increase from 8% in FY 2018 to 10% in FY 2019
- Senior/Disabled Homestead Exemption increase from \$85,500 to \$88,000 in FY 2019

<i>Property Valuation</i>		<i>Property Tax Bill (Annual)</i>				
FY 2019 Assessed Value	Percent Growth*	Current Tax Bill	Approved Tax Rate \$0.4403	Dollar Change from Previous Year	Effective Tax Rate \$0.4137	Rollback Tax Rate \$0.4482
\$100,000	9.2%	\$0	\$8.81	\$8.81	\$8.27	\$8.96
\$200,000	9.4%	\$367.47	\$405.08	\$37.61	\$380.60	\$412.34
\$400,000	7.3%	\$1,145.79	\$1,197.62	\$51.83	\$1,125.26	\$1,219.10
\$800,000	6.9%	\$2,682.27	\$2,782.70	\$100.43	\$2,614.58	\$2,832.62

\*percent growth derived from Travis Central Appraisal District data for homesteads at different levels of property valuation.

# City of Austin

---

## MESSAGE FROM THE MANAGER

Dear Mayor, Mayor Pro Tem, and members of the City Council:

It is with great pleasure that I present you with the Proposed Budget for Fiscal Year 2018-19. This document represents a significant milestone in the reshaping of our city government around the shared values and vision set forth in your newly adopted *Strategic Direction 2023* plan for Austin. The document you are about to review looks very different than those of years past. Gone is the heavy emphasis on incremental changes to individual department budgets and minutiae-laden performance data focused largely on individual department inputs and outputs. In their place you will find a document that has been entirely restructured to better present the City's budget in the context of your six adopted strategic outcomes. And it's not only the budget's presentation that has changed—the manner in which staff went about crafting this year's budget recommendation has been refreshingly different as well. From the very beginning of this year's budget development process the thrust of our efforts has been on soliciting and addressing the Council's policy priorities. From increased funding for public health programs and Quality of Life initiatives to the second-lowest operating tax increase in the past eight years, this budget is truly a reflection of your values.

The All Funds budget for FY 2018-19 is \$4.1 billion, a \$156 million increase over the prior year. This amount includes the staffing and resources necessary to keep pace with the service demands of our rapidly growing city. Since 2008, an astounding 216,000 more individuals call Austin home. That equates to nearly a 30 percent increase in population over the past decade. It is critical to the ongoing success of our community that we continue to “right-size” the organization to meet the service demands of our growing population. In total, this budget includes 407 new positions, spread across the six strategic outcomes, to not only keep pace with the demands of growth but also to provide the staffing capacity necessary to advance many of your policy priorities.

The General Fund budget for FY 2018-19 of \$1.0 billion is balanced and structurally sound at a tax rate increase that is 4.9 percent above the State-defined effective operations and maintenance rate. What this means is that taxpayers should expect to pay about 4.9 percent more in taxes to the City this year, for operations and maintenance expenses, than they did in the prior year. The truth is, many taxpayers will see an even smaller increase due to Council's action in June to increase the general homestead exemption from 8 percent to 10 percent of eligible property value. Taking this exemption into account, staff projects the tax bill for a non-

## City of Austin

---

senior owner of a median-valued home in Austin will increase by \$5.12 per month. It is worth noting that more than half of this year's projected tax increase is the result of rising debt service requirements from voter-approved bond programs. Looking to our enterprise departments, the Transportation User Fee is increasing \$1.27 per month while all other enterprise base rates are remaining flat. In total, a typical Austinite is projected to experience a slight 2 percent bill increase for City services in FY 2018-19.

Earlier this year, the City Council participated in a facilitated work session to establish budget priorities for the next 2-3 years. Your top ten funding priorities organized by outcome were:

### **Economic Opportunity & Affordability**

- Housing
- Homelessness
- Skills and capability of our community workforce (including education)

### **Health & Environment**

- Accessibility to quality health care services, both physical and mental
- Climate change and resilience
- Accessibility to quality parks, trails, and recreational opportunities

### **Mobility**

- Accessibility to and equity of multi-modal transportation choices

### **Safety**

- Fair administration of justice

### **Culture & Lifelong Learning**

- Vibrancy and sustainability of creative industry ecosystem

### **Government that Works**

- Condition of City facilities and infrastructure and the effective adoption of technology

The budget before you makes meaningful investments in each of these crucial service areas that I am confident will result in tangible performance improvements. In the Economic Opportunity and Affordability Outcome, \$40.2 million will be spent by Neighborhood Housing and Community Development in FY 2018-19, which includes fully funding the transfer to the Housing Trust Fund at \$5.3 million for the first time since Council last revised the calculation. The budget builds upon the \$26.3 million in on-going expenditures in service of individuals experiencing homelessness and invests an additional \$3.1 million in bringing assistance to this vulnerable community. In

## City of Austin

---

In addition, renovations in progress at the Women and Children's Shelter are planned to be completed in FY 2018-19 at a total cost of \$7.0 million. The Health and Environment Outcome includes an additional \$4.5 million for public health services and social service contracts. Our pools and aquatic programs will also be receiving a much needed and long overdue influx of funding totaling \$1.8 million that will greatly improve pool maintenance and programming. In regards to Government that Works, major accomplishments include funding for facility maintenance at the full amount of \$6.5 million called for in our financial policies and \$8.0 million for the continued implementation of a new human capital management system. The Culture and Lifelong Learning Outcome includes \$1.4 million for building renovations at Austin Studios and \$400,000 for the Art Space Assistance Program. These highlights and many more are described in more detail in the *Budget Overview* section of the budget.

Another important directive from Council that significantly influenced the development of this budget was a complete rethinking of how we incorporate recommendations from our Quality of Life Commissions. Staff and the commissions met this task head-on with enthusiasm and I am pleased to report that this new collaboration has tremendously advanced our understanding of the many Quality of Life issues affecting the daily lives of communities that have waited too long for their concerns to be prioritized by their local government. In total, this budget includes \$6.2 million of new funding for Quality of Life initiatives compared to only \$827,000 in FY 2017-18. Moreover, the majority of funds included in this year's budget are part of the City's recurring operating budget as opposed to the predominant application of one-time funds last year. This means that this year's funding will continue into future budgets as a starting point, where it can be built upon as we learn more about which Quality of Life programs prove to be the most successful.

This budget continues to invest heavily in public safety services with funding for 33 additional police officers and 16 additional fire fighters that are needed for the opening of the new Onion Creek fire station later this year. Since the first 10-ONE Council took office in January 2015, the budgets for our three public safety departments have increased by a collective \$107.6 million, or 18% percent. During this time we have added a total of 83 police officers, 68 fire fighters, and 67 paramedics to our sworn ranks. Taking a look ahead, the budget includes funding for the expedited development of two much-needed fire stations at Moore's Crossing and Travis Country. These stations have been identified by the Austin Fire Department and Austin Fire Association as the two highest-priority fire stations in the City. One final note with regard to public safety: I firmly believe that a longer-term conversation about police staffing levels needs to occur in the near future. However, that conversation must be informed by a successful

## City of Austin

---

conclusion to the ongoing labor negotiations process. The plain fact of the matter is that the number of officers we as a City can afford to hire is inextricably linked to the level at which those officers are compensated.

With planned spending of nearly \$1.0 billion in FY 2018-19, our capital improvements program is an essential part of how we fulfill your vision of Austin being the most livable city in the nation. For the second year in a row, two-thirds of our capital spending is concentrated in three departments; Aviation, Austin Energy, and Austin Water. The Aviation Department's passenger growth continues to drive the need for facility expansion to meet customer and airline demands. Spending on the 2016 voter-approved Mobility Bond is also accelerating. Initial design work is underway on nine critical corridors and preliminary engineering on eight more, as addressed in the adopted Corridor Construction Program. Substantial increases in spending on regional and local Mobility Bond program projects are projected over the next two to three fiscal years. Additionally, a potential \$925 million General Obligation Bond election in November 2018 could further increase capital spending later in FY 2018-19 and beyond as Council considers major new investments across seven propositions: Affordable Housing, Transportation Infrastructure, Parks and Recreation, Flood Mitigation and Open Space, Libraries and Cultural Centers, Health and Human Services, and Public Safety.

This budget represents a significant departure from the business model of the past. Our business and financial decisions are now laser-focused on advancing the strategies and metrics outlined in *Strategic Direction 2023*, with the end in mind of our entire community quickly experiencing tangible improvements across each of the six outcomes. I want to express my sincere gratitude to the City Council, community members, City Boards and Commissions, and City staff for embracing this new strategic vision and for their enthusiasm and hard work in reimagining our budget process to support that vision. The budget before you is a critical first step on the path to transforming the inner-workings of our local government in service of a better Austin for everyone. But this is just the beginning. As we move forward more changes will come that will restructure the organization in ways that further operationalize your strategic priorities. I am excited by the opportunities that lie ahead for Austin and I very much look forward to working with each of you on transforming your collective vision for the City into a reality.

Respectfully submitted,

Spencer Cronk  
City Manager

Budget

Greetings from Austin

# Greetings from Austin!

# Welcome to Austin

Austin is known by many names: Live Music Capital of the World, City of the Violet Crown, Silicon Hills, or its unofficial tagline, “Keep Austin Weird;” but what makes Austin special is not its nicknames, it is the people who live here, lovingly dubbed “Austinites,” who are always pursuing the Austin state of mind.

Located in Central Texas, Austin is the capital of the state of Texas, the Lone Star State. Since 2011, Austin has received more than 50 local and national rankings, and it is easy to see why. Austin’s warm climate allows you to enjoy outdoor activities virtually year round, with 300 days of bright sunshine to guide you through its gorgeous natural vistas and greenspaces, like Lady Bird Lake, Mount Bonnell, Barton Springs, and Zilker Park. World-famous festivals, such as South by Southwest or Austin City Limits, along with countless live music acts showcase the city’s vibrant entertainment and culture. And one cannot forget about the food, whether it is breakfast tacos, barbeque, chips and queso, or all the delicious edibles that spring from Austin’s 1,000 food trucks.

# Austin's History

With its humble beginnings as a small village called Waterloo, Austin became the capital of the new Republic of Texas in 1839 and was renamed after Stephen F. Austin, "the father of Texas." A new town plan included a hilltop site for a capitol building, advertised as the "7th largest building in the world" when it was completed in 1888. In 1893, the construction of the Great Granite Dam on the Colorado River contributed to the city's growth by stabilizing the river, providing electricity, and attracting manufacturers.

After the Great Depression, several research laboratories and think tanks were founded, drawing innovators and high-tech companies to the area, which continues to this day. The 1970s also brought substantial changes: rapid growth contributed to more political activity, creating strong environmental, historic preservation, and neighborhood communities; and a musical rebirth drew national attention and more musicians to the city because of artists such as Stevie Ray Vaughan and Willie Nelson.

# Population & Demographics

Austin is the fourth-most populous city in Texas and the 11th in the nation. Austin's population has almost tripled since 1980, while the five-county area of Travis, Hays, Bastrop, Caldwell, and Williamson counties has almost quadrupled. The Austin area is expected to continue to grow in the near future, but growth most likely will not reach these previous levels. To the right is an overview of population growth actuals and projections in the Austin area since 1980.

Demographically speaking, Austin continues to experience profound change. Keeping up with how these demographic shifts affect the city is essential to successful operations and planning. Austin's demographic transformation continues to revolve around the major themes of sustained job and population growth, and increasing demographic diversification. However, this demographic change is being curbed by price increases in the city's housing market. The pie charts to the right break out Austin's current race and age group demographics.

**3.1%**  
**Unemployment Rate**

# Austin's Economy

Austin continues to have strong economic growth, exhibited by its 3.1% average unemployment rate in 2017, lower than the 4.4% national average. The largest employers are the State of Texas, The University of Texas, and the City of Austin, which Forbes ranked as the ninth best employer in the nation in 2017, and many technology companies, such as Apple, Google, and Samsung. The pie chart on the left details Austin's employment by industry. The chart below shows that Austin has consistently exceeded the nominal (not including inflation) median household income in Texas and the U.S. from 2007 to 2016.

## Employment Industries

## Nominal Median Household Income (in thousands)

# City Government

The City of Austin's charter establishes a council-manager form of government. This means that the elected officials, or the City Council in Austin's case, are the legislative body that approves the budget and passes ordinances and regulations. The City Council appoints a city manager, who is responsible for the day-to-day operations of the organization and for implementing ordinances. Also, the City Council appoints boards and commissions members, who provide an advisory role.

On November 6, 2012, Austin voters approved an amendment to the City's charter, converting the City Council from six at-large councilmembers and one at-large mayor to ten district-representing councilmembers and one at-large mayor. This system is known as 10-ONE and has been in effect since the inauguration of the Council on January 6, 2015. The single-member district map, shown to the right, was drawn by an independent citizens redistricting commission that will adjust the boundaries of the districts after each decennial U.S. census is taken.

# City Services & Amenities

The City of Austin is committed to providing its citizens with world-class services and amenities through its vision of making Austin the most livable City in the country. The City can pursue this commitment with investments in community, public safety, development, infrastructure and transportation, and utility and other enterprise services. The following are FY 2016-17 data for some of these City-provided services and amenities, though this list is far from comprehensive.

City of Austin  
2018-2019  
Approved  
Budget

**Budget Overview**

## CITY OF AUSTIN STRATEGIC DIRECTION

### OUR VISION

Austin is a beacon of sustainability, social equity, and economic opportunity; where diversity and creativity are celebrated; where community needs and values are recognized; where leadership comes from its community members, and where the necessities of life are affordable and accessible to all (from Imagine Austin).

### OUR STRATEGIC OUTCOMES

Together we strive to create a complete community where every Austinite has choices at every stage of life that allow us to experience and contribute to all of the following outcomes:

#### ECONOMIC OPPORTUNITY & AFFORDABILITY

Having economic opportunities and resources that enable us to thrive in our community.

#### MOBILITY

Getting us where we want to go, when we want to get there, safely and cost-effectively.

#### SAFETY

Being safe in our home, at work, and in our community.

#### HEALTH & ENVIRONMENT

Enjoying a sustainable environment and a healthy life, physically and mentally.

#### CULTURE & LIFELONG LEARNING

Being enriched by Austin's unique civic, cultural, ethnic, and learning opportunities.

#### GOVERNMENT THAT WORKS FOR ALL

Believing that city government works effectively and collaboratively for all of us—that it is equitable, ethical and innovative.

## STRATEGIC ANCHORS

### ACROSS OUR OUTCOMES

Values that Support Quality of Life in Austin.

#### EQUITY

To advance equitable outcomes, the City of Austin is leading with a lens of racial equity and healing. Race is the primary predictor of outcomes and it is time to recognize, understand, and address racism at its various levels: personal, institutional, structural, and systemic. Equity is the condition when every member of the community has a fair opportunity to live a long, healthy, and meaningful life. Equity embedded into Austin's values system means changing hearts and minds, transforming local government from the inside out, eradicating disparities, and ensuring all Austin community members share in the benefits of community progress.

#### AFFORDABILITY

Austinites deserve to experience the necessities of life as affordable and accessible. Simply put, this means a household can afford rent or mortgage, transportation, child care expenses, utilities, and taxes. This strategic direction lays out strategies to increase economic opportunities and affordable choices across Austin, so that Austinites, families, businesses, City employees, and all generations can thrive.

#### INNOVATION

In Austin, we define innovation as any project that is new to you with an uncertain outcome. Aimed at addressing pressing challenges that affect our community, human-centered innovation means a new approach to exercising authority and decision-making that starts with the needs, behaviors, and experiences of our community, and continues through a process of questioning assumptions, engaging with empathy, stewarding divergent thought, reflecting, and learning. Innovation is future-oriented around what outcomes could be created together, rather than an analysis of already formed alternatives.

#### SUSTAINABILITY AND RESILIENCY

Being a sustainable and resilient community requires proactive steps to protect Austin's quality of life now, and for future generations. A sustainable city finds a balance among three goal areas: (1) prosperity and jobs, (2) conservation and the environment, and (3) community health, equity, and cultural vitality. Resiliency is the capacity of individuals, communities, institutions, businesses, and systems to survive, adapt, and grow from difficult times. In Austin, we bounce back stronger.

#### PROACTIVE PREVENTION

The City of Austin embraces the dual responsibility of being responsive to emerging challenges while also dialing up efforts to prevent problems on the front end. For example, this translates into addressing social determinants of health outcomes, rather than only treating the disease. This means investing in preventative maintenance of public assets like bridges, service vehicles, and community facilities. An intentional focus on prevention today leads to a brighter future.

#### COMMUNITY TRUST AND RELATIONSHIPS

Austin is a place where leadership comes from the people. We believe in honoring the spirit and soul of Austin and creating opportunities for civic engagement that are easy, meaningful, and inclusive, and that lay a foundation for lasting relationships. Trust must be earned and through strengthening partnerships with the community, we will make more progress together to advance these six outcomes.

## STRATEGIC PLANNING RECAP

### INTRODUCTION

The City of Austin is focused on improving quality of life and civic participation in the Austin community. This strategic direction guides the next three to five years and outlines imperatives to advance equitable outcomes across Austin.

### IMPETUS FOR STRATEGIC DIRECTION

Research conducted in 2017, a few years into the City's new 10-1 system of geographic district representation, concluded four areas for the organization to address:

1. Lack of clear, shared citywide priorities
2. Shared sense that City is not dealing with critical issues that will determine its future
3. Effective governance has been a challenge
4. Inadequate feedback and learning loops

As a single playbook for the City of Austin, this strategic direction addresses these areas of opportunity and establishes a framework for effective governance going forward.

### STRATEGIC DIRECTION 2023

Strategic Direction 2023 is inspired by Imagine Austin, which flourished from an extensive community engagement process that laid out a 30-year vision for our community. (View the Imagine Austin Dashboard, highlighting its eight Priority Programs and related indicators, at [austintexas.gov/imagineaustin/indicators](http://austintexas.gov/imagineaustin/indicators).)

This strategic direction sets six strategic outcomes for the next three to five years. Utilizing an outcome-based approach to setting priorities and budgeting enables the City to proactively address multiple time horizons, more thoughtfully assess performance, and improve community outcomes.

### STRATEGIC DIRECTION 2023 INCLUDES:

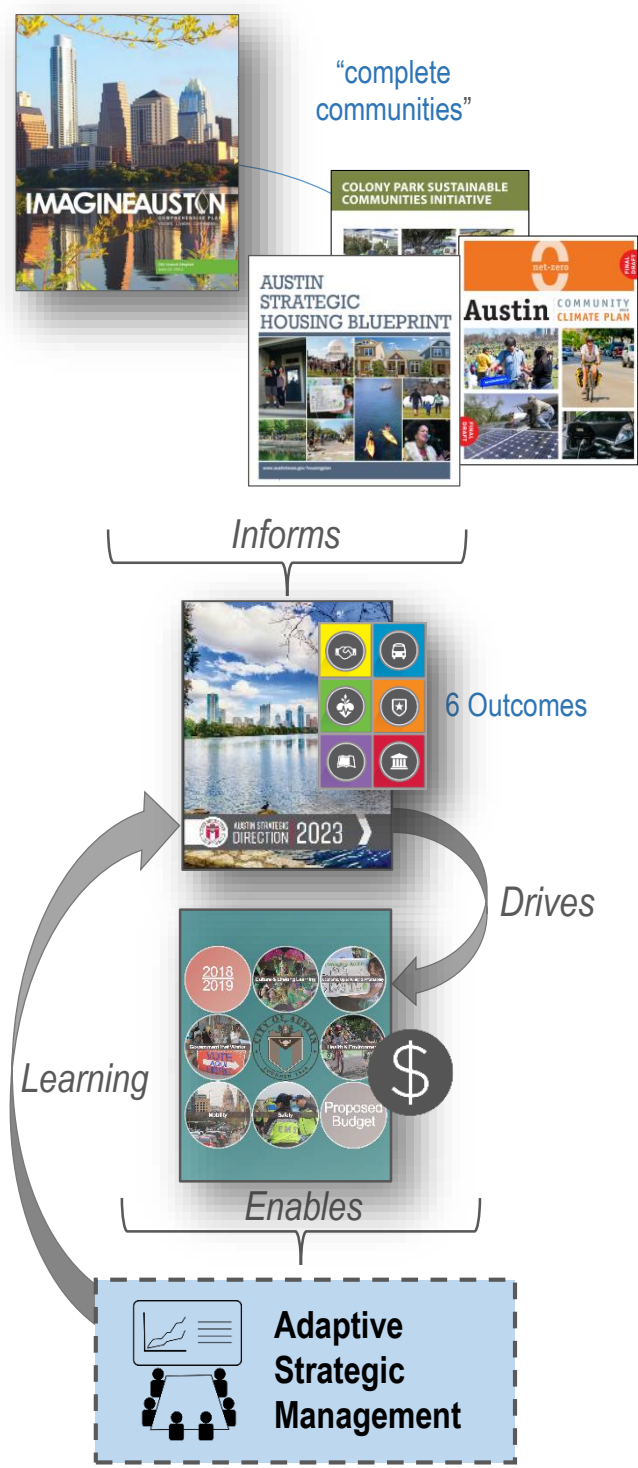

- **Vision** - an aspirational community vision for Austin.
- **Outcomes** - results we seek the Austin community to experience.
- **Challenge Statements** - evidence-based diagnoses of critical issues facing the Austin community. "How might we...?" phrasing sets a basis for a variety of solutions.
- **Indicators and Metrics** - to assess to what degree the outcome is being achieved. Each indicator category has a series of metrics to track and report whether Austin is making progress on that outcome. These are a combination of community indicators of progress and specific contributions made by the City.
- **Strategies** - actions the City of Austin will take to address identified challenges and "move the needle" on indicators and metrics for that outcome.

### OUR JOURNEY

- 5 City Council strategy workshops to set the direction for Austin.
- 6 Outcome Teams spearheaded non-traditional community engagement and internal cross-departmental collaboration to complete a series of milestones: (1) desk and field research, (2) insights, (3) challenge statements, (4) indicators and metrics, and (5) strategies.
- 8 All-Outcome strategic planning workshops and 20+ All-Outcome "huddles" to collaborate across outcomes on cross-cutting issues, such as applying the City's equity tool.
- 4 Department Director Summits and Workshops, and a series of strategic planning touchpoints with City executives and department leadership.
- Acknowledged recent community engagement results and incorporated recommendations from 125-plus City and regional plans. Outcome Teams took stock of rich insights from what the Austin community has said and integrated into cohesive results-driven strategies.

# Strategic Alignment

Austin Strategic Direction 2023 outlines priorities set by City Council. Informed by long-range goals and master plans, this direction is brought to life through the City budget, department operations, and an adaptive strategic management system focused on delivering results and improving community outcomes.

# BUDGET BY OUTCOME

The City of Austin is focused on improving the quality of life and civic participation in the Austin community. In March 2018 the City Council adopted a new strategic plan to guide the City's budget and day-to-day operations for the next three to five years. During development of the plan, Council and staff identified four key areas that needed to be addressed: 1) A lack of clear, shared citywide strategic priorities; 2) A shared sense that the City is not dealing with significant issues that will determine its future in the most efficient possible manner; 3) Challenges in establishing an effective governance structure; and 4) Inadequate feedback and learning loops. The new plan, named *Strategic Direction 2023*, addresses each of these areas of opportunity and in so doing establishes a clear decision-making framework for the future of Austin.

The five-year strategic plan was developed within the guidelines of *Imagine Austin*, which flourished from an extensive community engagement process that laid out a 30-year vision for our community. In order to further the City's long-term vision and aspiration of being one of the most unique, thriving, and livable cities in the country, in the spring of 2018 the City Council chose to focus City operations and budgets around six strategic outcomes: Mobility, Economic Opportunity & Affordability, Safety, Health & Environment, Culture & Lifelong Learning, and Government That Works. The City is committed to fostering a complete community where every Austinite has choices at every stage of life that allow all of its residents to experience and contribute to each of these outcomes.

Recrafting the City’s budget document to align with *Strategic Direction 2023* and integrating Council’s strategic priorities into the City’s budget decision-making framework was a cornerstone of the FY 2018-19 budget process. On April 4, 2018 Council embraced the task of selecting their budget policy priorities through a discussion centered on the 35 indicators of success defined within the strategic plan. A facilitated work session with the City Council resulted in the prioritization of ten of these indicators across the six strategic outcomes. These ten indicators were selected by the City Council as the areas in which the City most needs to improve over the next two to three years.

### FY 2019 Council Priority Setting by Indicator

<b>Economic Opportunity &amp; Affordability</b>
Housing
Homelessness
Skills and capability of our community workforce (including education)
<b>Health &amp; Environment</b>
Accessibility to quality health care services, both physical and mental
Climate change and resilience
Accessibility to quality parks, trails, and recreational opportunities
<b>Mobility</b>
Accessibility to and equity of multi-modal transportation choices
<b>Safety</b>
Fair administration of justice
<b>Government that Works</b>
Condition/quality of City facilities & infrastructure and effective adoption of technology
<b>Culture &amp; Lifelong Learning</b>
Vibrancy and sustainability of creative industry ecosystem

In addition to prioritizing its top ten strategic indicators, the City Council also set several other priorities for the FY 2018-19 budget. These included:

- An operating and maintenance property tax increase of 6% or less to fund built-in budget cost drivers as well as to address new City Council funding priorities;
- Modest increases in charges for services assessed by General Fund departments to help offset rising program costs; and,
- Reducing the percentage of the General Fund budget allocated to public safety services (67% as of FY 2017-18), thereby providing a larger share of budget resources for community services such as parks, public health, neighborhood housing, and libraries.

## All Funds Operating Budget by Strategic Outcome

Depicted below is an overview of the City's \$4.1 billion All Funds budget mapped to the six strategic outcomes. Note that transfers to departments' Capital Improvement Programs (CIP) and debt service payments totaling \$981.2 million are excluded from the chart. These funds are instead aligned to the six outcomes over time via the CIP budget as specific expenditures on capital projects are scheduled. The CIP budget alignment is shown separately later in this section.

The largest outcome category for the operating budget is Safety at \$965.9 million. The budget for the Safety outcome is primarily comprised of expenditures from the City's three public safety departments: Police, Fire, and Emergency Medical Services. The next largest portion of the Safety outcome comes from the two municipal utilities, Austin Energy and Austin Water, for services related to the maintenance and operation of critical utility infrastructure, such as power generation facilities and water treatment plants. Other significant components of the Safety outcome include flood mitigation efforts of the Watershed Protection Department and the maintenance and upkeep of the regional public safety communications system.

The operating budget for the Government That Works outcome is \$779.6 million. Government That Works is the only outcome comprised of expenditures from substantially all City departments. Major cost centers for this outcome include Austin Energy and Austin Water in support of the City's customer care and billing system, the 3-1-1 call center, maintenance of the energy and water distribution systems, portions of pass-through expenses for power supply costs, and required payments to the Electric Reliability Council of Texas for build-out of the Texas electrical grid. Corporate support functions such as Financial Services, Human Resources, and Management Services, comprise the other significant component of the Government That Works outcome.

Significant investments in social services contracts, public health programs, and the parks system have increased funding for the Health & Environment outcome to \$539.9 million in FY 2018-19. Additional contributors to the total funding for this outcome include green energy initiatives, residential recycling and trash collection, litter abatement, wastewater treatment, and water quality programs.

Economic Opportunity & Affordability is focused on ensuring that residents have the opportunities and resources to thrive in our community. Austin Energy, at \$287.0 million, is the largest contributor to this outcome for a variety of services including: power plant, chiller and energy market operations; green building, multifamily rebates, weatherization, and customer assistance programs; and portions of pass-through expenses for power supply costs and required payments to the Electric Reliability Council of Texas (ERCOT) for build-out of the Texas electrical grid. Another large cost driver for this outcome includes the operation and maintenance of the Austin Convention Center including spending on tourism and promotion. This outcome also includes funding related to addressing affordable housing through the Neighborhood Housing and Community Development budget. Finally, the Economic Development Department contributes to this outcome through its business recruitment and expansion services, support for small businesses, and workforce development programs.

The Mobility outcome comprises \$238.0 million of the City's total budget for FY 2018-19. The largest component of the Mobility outcome is the \$61.2 million budget for the Public Works Department followed by the Aviation and Fleet Services departments at \$59.8 million and \$55.1 million, respectively. It is important to note that these amounts are only representative of the City's operating budget. Funding for mobility-related capital improvement projects, including the voter-approved \$720.0 million 2016 Mobility Bond, is reflected in the following section.

Lastly, the Culture & Lifelong Learning outcome, at approximately \$78.0 million of the total operating budget, is primarily comprised of library services, cultural arts contracts, and educational programs. Additional contributors to the total funding for this outcome include the Historic Preservation Fund, which was established to promote tourism through preservation, restoration, and rehabilitation of historic properties.

## Capital Improvements Program Budget by Strategic Outcome

The City’s Capital Improvements Program (CIP) is comprised of more than 2,400 active projects with current appropriations of over \$7.0 billion. This amount includes spending authorized by the City Council in prior fiscal years, but does not include any bond propositions which may be incorporated into potential future elections. The capital budget differs from the operating budget significantly in that appropriations do not expire at the end of a fiscal year. Capital appropriations remain in effect until depleted and any unexpended funds are repurposed to address other CIP needs. Projects included as active may actually be complete and in service but remain as active projects throughout their warranty periods. The New Central Library is an example of this type of active project.

In light of the multi-year nature of capital budget appropriations, a better way to consider the capital improvements program is through a multi-year spending plan. The chart that follows highlights the City’s planned CIP spending by strategic outcome for fiscal years 2019-2023. In total, spending on CIP projects over this five-year period is estimated at \$5.6 billion, ranging from a high of \$1.2 billion in FY 2020-21 to a low of \$1.0 billion in FY 2018-19. Average annual CIP expenditures over these five years are projected at \$1.1 billion.

The largest component of the five-year spending plan is the Mobility outcome at \$3.0 billion over this period. In FY 2018-19, Citywide CIP spending totals \$1.0 billion, with Mobility as the largest element at \$388.6 million. The 5-year spending for Aviation includes \$1.5 billion for a new terminal/concourse to accommodate increased airline and passenger traffic. Plans for the new terminal include 10 to 20 gates, apron and taxiway expansions, a new departure hall, and a ground transportation center. The departure hall will allow for baggage handling, ticketing, and security areas to expand to support the projected growth in passengers. Spending in FY 2020-21 will increase significantly due to this project. Included in the FY 2018-19 Aviation capital spending plan are design and construction costs of \$120.2 million for the new parking garage for passengers and administration building to house Department staff. The consolidated maintenance facility to support multiple Aviation Department divisions accounts for \$23.6 million in FY 2018-19 planned spending. Project spending related to the 2016 Mobility Bond program remains in developmental stages and is expected to increase substantially within the next two to three fiscal years, which contributes to the large increase in the Mobility portion of the foregoing chart beginning in FY 2021-22.

The Government That Works outcome includes five-year spending expected at \$1.1 billion. This outcome includes projects funded by the two City-owned utilities, Austin Energy (AE) and Austin Water (AW). Examples of major projects driving this total are the AE satellite chiller plant location for the Highland Campus at Austin Community College, relocation and replacement of electric distribution services, and residential and commercial energy services. Prominently featured projects with anticipated spending in this time frame include AE's new headquarters, continued decommissioning of the Decker Power Plant, and implementation of advanced water metering infrastructure. An estimated \$262.7 million is scheduled to be expended for Government That Works in FY 2018-19.

CIP spending for the Economic Opportunity & Affordability outcome is anticipated at \$203.7 million over the next five years. Austin Energy and the Austin Convention Center Department's FY 2018-19 combined planned capital spending accounts for 71% of the total capital planned spending of \$63.5 million aligned to the Economic Opportunity & Affordability outcome.

Safety encompasses more than merely emergency response from Fire, Police, and EMS Departments. The Watershed Protection Department is performing considerable work on flood mitigation buyouts and Waller Creek Tunnel improvements. Additionally, Communications and Technology Management is continuing purchases of critical equipment, such as radio replacements and upgrades, along with

wireless vehicle equipment necessary for public safety communications. Lastly, ongoing water and wastewater treatment plant infrastructure improvements ensure safe and reliable drinking water for all community members and visitors. The five-year water utility spending plan aligned to the Safety outcome includes \$291.1 million, of which \$65.4 million is planned for FY 2018-19.

Capital plans for the Health & Environment outcome largely concentrate on the many shared-use areas distributed throughout the city. Overall, \$513.5 million in spending is projected for the next five years with \$111.1 million occurring in FY 2018-19, which includes scheduled CIP projects such as the first phase of Waller Creek District creek and trail improvements, Austin Resource Recovery

vehicles, and South Austin Regional Wastewater Treatment Plant electrical, critical component, and infrastructure rehabilitative work. Community centers, recreation centers, and City park improvements are also planned, including design and construction of a new recreation center at Montopolis, creation of the Alliance Children's Garden at Town Lake Park, and a long-term solution at Roy G. Guerrero Park to stabilize the creek channel, replace the pedestrian bridge, and prevent further loss.

Culture & Lifelong Learning is the smallest outcome component in terms of spending and project scope. This outcome's CIP program is projected to expend \$12.8 million over the next five years and \$9.3 million in the FY 2018-19 budget. Major areas of emphasis include building improvements at various branch libraries, such as roof replacements, foundation repairs, HVAC systems, and upgrades to the interior infrastructure to improve the customer experience. The Parks and Recreation Department museums and cultural facilities will likewise receive funding for restorative and rehabilitative work. Notable projects scheduled for improvements are the O. Henry Museum, Millennium Youth Entertainment Center, Elisabet Ney Museum, and Oakwood Cemetery Chapel. Art in Public Places components of projects are aligned to the Culture & Lifelong Learning outcome, as well.

## Strategic Outcome Overviews and Highlights

This budget represents a transformative first step to refocus funding decisions in support of the City Council's strategic direction. The FY 2018-19 Budget includes many targeted investments aimed at supporting the successful pursuit of the City Council's six strategic outcomes and ten priority indicators. In the sections that follow, department programs and initiatives are highlighted within each outcome area. Key performance data are referenced and illuminated graphically where applicable. To facilitate the reader's review, the following labels are used throughout the narrative to flag budget recommendations that are in alignment with various budget considerations:

<b>FC</b>	<b>Initiatives related to an Item from Council resolution</b>
<b>EQUITY</b>	<b>Initiatives with a positive impact on equity</b>
<b>TOP TEN</b>	<b>Initiatives aligned to one or more of Council's top ten indicator priorities</b>
<b>QoL</b>	<b>Initiatives associated with recommendations from one or more of the Quality of Life Commissions</b>

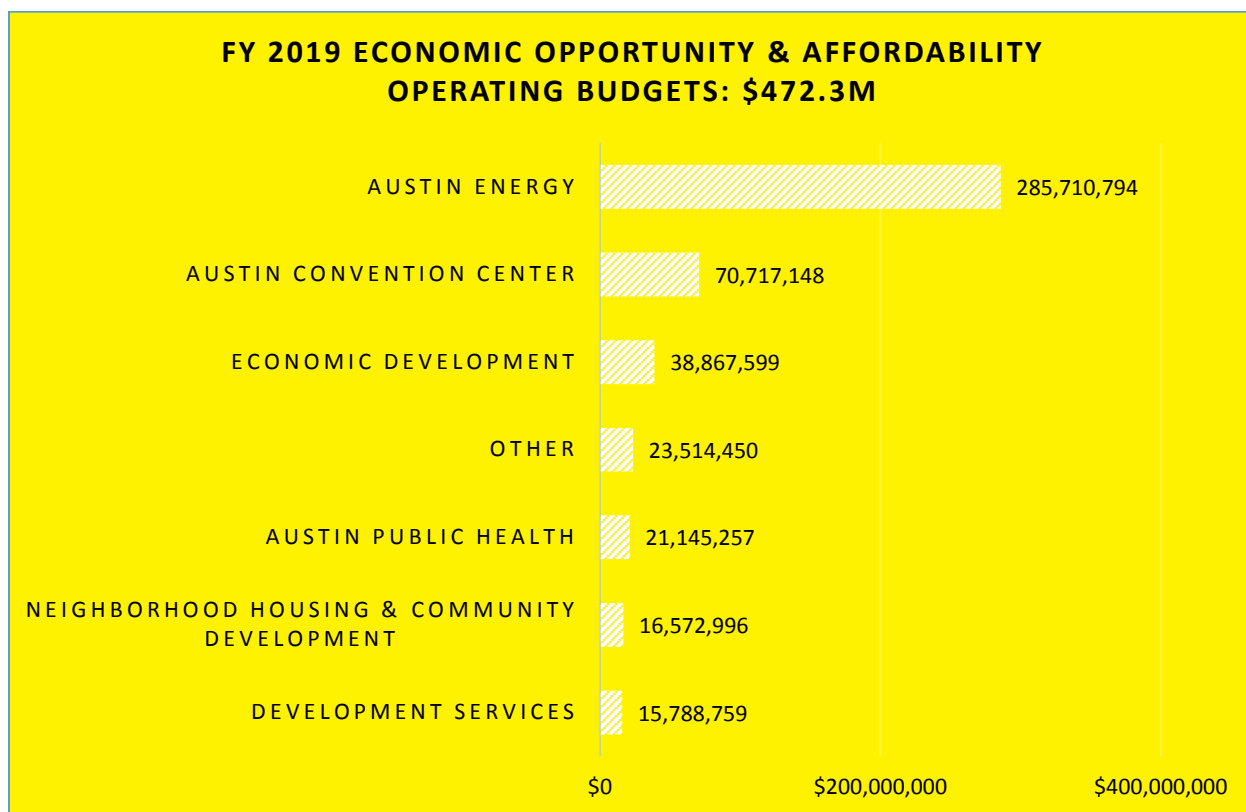

The Economic Opportunity & Affordability outcome is aimed at ensuring that every Austinite has access to economic opportunities and resources that enable them to thrive in our community, and that the necessities of life are affordable and accessible to all. Overall, \$472.3 million of the FY 2018-19 operating budget supports this outcome. Council established seven indicator categories for measuring success in the Economic Opportunity & Affordability outcome:

- Employment
- Income equality
- Cost of living compared to income
- Housing TOP TEN
- Homelessness TOP TEN
- Skills and capability of our community workforce TOP TEN
- Economic mobility

The largest contribution for the Economic Opportunity & Affordability outcome comes from Austin Energy (AE), which comprises \$285.7 million of the total outcome. AE's management of market operations, power generation, and fuel supply helps keep Austin affordable by keeping rates as low as possible for all AE customers. Additionally, green building, multifamily rebates, small business rebates, weatherization, and customer assistance programs provide bill and energy efficiency assistance for AE customers, including those participating in AE's Customer Assistance Programs (CAP).

The next largest components are the Austin Convention Center Department (ACCD) and the Economic Development Department (EDD), with funding for the Economic Opportunity & Affordability outcome of \$70.7 million and \$38.9 million, respectively. Other contributors to the Economic Opportunity & Affordability outcome include Austin Public Health (APH), Austin Resource Recovery (ARR), Austin Water (AW), Aviation, Development Services (DSD), Financial Services (FSD), Human Resources (HRD), Neighborhood Housing & Community Development (NHCD), Planning & Zoning (PAZ), Small and Minority Business Resources (SMBR), and Telecommunications and Regulatory Affairs (TARA).

Within the Economic Opportunity & Affordability outcome portion of the Capital Improvement Program (CIP) budget, planned spending totals \$63.5 million in FY 2018-19. The largest component of the outcome's CIP spending is AE with \$31.0 million, which supports the construction of a new district cooling plant and other infrastructure improvements. As Austin's downtown continues to grow,

AE is working to increase the number of downtown buildings that can use chilled water for their air conditioning systems. A district cooling system provides an efficient and environmentally-friendly way to cool multiple buildings. District cooling systems are common in major cities in this country and throughout the world, particularly in cities that boast a dense urban core.

Facility improvements at the Austin Convention Center and the Palmer Events Center, including repair and replacement of aging infrastructure, is the second largest component within the Economic Opportunity & Affordability outcome's CIP. A total of \$14.2 million is included in the FY 2018-19 spending plan. These improvements will allow the two facilities to maintain top-quality services for vendors and visitors.

Neighborhood Housing and Community Development is the third largest component at \$10.9 million. Major project expenditures are related to development of affordable and mixed-income, multi-family rental units; construction of new units for Permanent Supportive Housing (PSH) to be occupied by chronically homeless persons or families meeting PSH criteria; and, for the acquisition, rehabilitation, construction, and development of affordable ownership housing.

Other capital spending includes Austin Water, Austin Public Health, Watershed Protection, Economic Development, Planning and Zoning, and Austin Transportation.

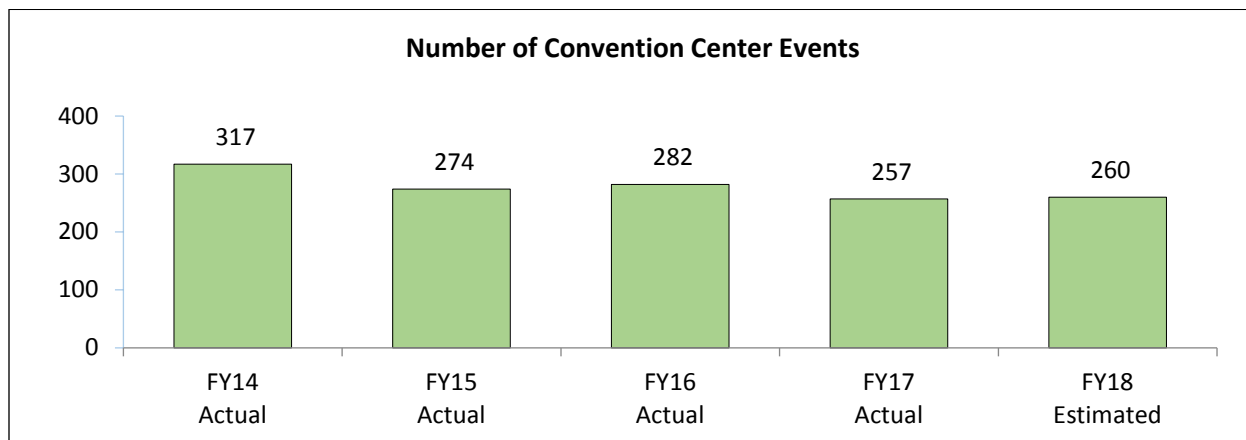

## ECONOMIC OPPORTUNITY & AFFORDABILITY OUTCOME – OVERVIEW

### AUSTIN CONVENTION CENTER

The Austin Convention Center Department (ACCD) budget of \$70.7 million aligns to the Economic Opportunity & Affordability outcome by increasing economic opportunities and resources for the residents of Austin and within the hospitality industry. ACCD’s facilities and services attract out-of-town visitors to the community, which has a positive impact on the local economy. A healthy tourism industry has allowed local businesses to thrive and has created employment opportunities within that sector, which contributes to building a vibrant, resilient, and diverse economy as envisioned by the *Imagine Austin Comprehensive Plan*. A higher level of employment increases family income, further fueling economic growth within the city.

In addition to providing direct benefits to local businesses and local employment opportunities, visitors generate significant revenue from the Hotel Occupancy Tax (HOT), vehicle rental tax, and General Fund taxes, including sales tax and alcohol beverage tax. General Fund tax revenue contributions from visitors help pay for basic City services, such as emergency services, streets, parks, and libraries, which reduces the local tax burden on citizens.

**AUSTIN ENERGY**

*“Austin Energy must be financially sound, the cost of electric service must be affordable for all classes of customers (with particular attention to the low income and underserved customers), and rates must be competitive to ensure the retention and attraction of businesses for a strong local economy.” – Austin Energy Resource, Generation and Climate Protection Plan to 2025*

Austin Energy (AE) is the municipally-owned electric utility serving 480,000 customer accounts in the city of Austin and surrounding communities. With funding of \$285.7 million, AE is the largest portion of the Economic Opportunity & Affordability outcome. The FY 2018-19 budget keeps AE on a continued path toward financial health and business excellence while meeting all financial policies and affordability measures. The budget will enable AE to serve customers and the community by keeping up with system growth and investing in energy efficiency, peak load shifting, vehicle electrification, smart grid technologies, and renewable energy resources, while continuing to maintain excellent reliability of service.

Customers on low- or fixed-incomes who participate in certain state, federal, or local assistance programs can benefit from the City of Austin’s Customer Assistance Program (CAP) Discounts. CAP Discounts can help reduce utility bills an average of \$650 a year. Austin Energy also offers no-cost home energy improvements to qualifying customers with low-to-moderate incomes. The improvements reduce energy costs and enhance indoor comfort while improving indoor air quality. Based on the home’s energy assessment results and available funding, AE can provide no-cost home weatherization improvements, such as: attic insulation, minor duct repair and replacement, air infiltration, home envelope and duct work sealing, weather stripping on doors, solar screens, window air conditioner replacement (for qualifying customers), installation of carbon monoxide and smoke detectors, high-efficiency lighting, water conservation improvements, such as faucet aerators and low-flow showerheads, and AC equipment inspection and cleaning.

Affordability is an overarching goal for Austin Energy. AE’s affordability goals are:

1. Maintain system average rates at or below 2% compound annual growth rates that began October 2012; and
2. Average system rates to be in the lower 50th percentile, statewide.

Austin Energy is currently meeting the first affordability goal, but as of 2016, when data was most recently collected, Austin Energy rates were just slightly above the 50<sup>th</sup> percentile within the Texas average system rate. However, that comparison does not include Austin Energy’s \$42.5 million base rate reduction that went into effect in 2017.

### Forecasted System Average and 2% Council Affordability Line

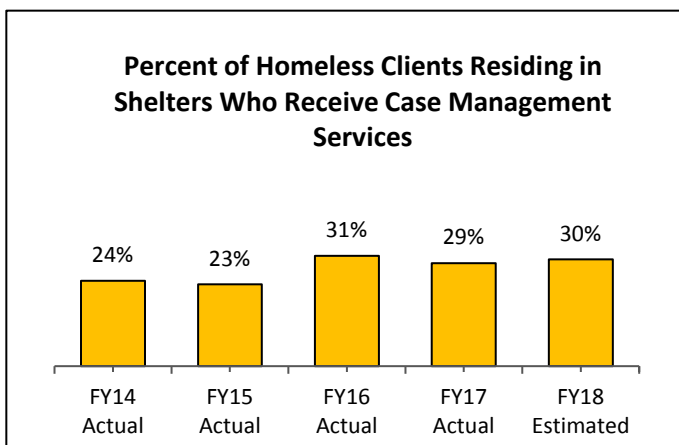

### 2016\* Weighted Average System Rate (¢/kWh)

\*For published rates of other Texas cities, 2016 is the latest data.

**AUSTIN PUBLIC HEALTH**

With \$21.1 million budgeted within Economic Opportunity & Affordability, Austin Public Health (APH) is the fourth-largest contributor to this outcome and assists people in achieving stability and self-sufficiency. The Community Services program provides direct services to clients and links them to services throughout the community. At neighborhood centers, APH provides basic needs, case management, and other essential services to low-income persons in order to meet their immediate needs. APH expects that 50% of individuals who are enrolled in employment support will obtain employment, and 70% of clients enrolled in self-sufficiency case management will report a reduction or elimination of income barriers.

Additionally, social services contracts totaling \$16.0 million funded through and administered by APH include an array of social services, such as basic needs, behavioral health, health equity, child and youth services, HIV, homelessness, community planning efforts, and workforce development. These social services provide stable housing and other essential services for low-income persons, mental health and substance abuse services for eligible

individuals, training and technical assistance to childcare program providers and early education and care services, and comprehensive treatment and support for HIV-infected individuals. Through social services contracts, APH anticipates that 20,000 clients will receive basic needs services, 3,416 individuals will receive homeless services, and 1,700 clients will receive workforce development services.

**DEVELOPMENT SERVICES**

The Development Services Department (DSD) supports the Economic Opportunity & Affordability outcome through the provision of plan reviews, building inspections, urban forestry services, and general land permits. On average, DSD performs about 275,000 inspections, completes 12,000 residential plan reviews, and issues 3,700 land use review

permits every year. Free permitting guidance services allow residents and developers to better and more efficiently plan their development, which is expected to ultimately lower the cost to consumers. With resources of \$15.8 million, DSD is the sixth-largest contributor to this outcome.

One of DSD’s goals for FY 2017-18 was to provide more extensive reviews to facilitate a more efficient review process overall. The commercial review process now includes a more thorough review with enhanced commentary from staff resulting in a reduced need for additional plan review cycles for the customer. As a result, the percentage of commercial projects that require more than two review cycles is 21%, compared to 32% in FY 2016-17. Furthermore, improvements have also been realized in the percentage of on-time reviews for new residential building plans. The Residential Plan Review team has increased work capacity by redirecting preliminary plan reviews and some residential building plan reviews to the highly skilled Expedited Plan Review team. As a result, DSD’s FY 2017-18 on-time performance has shown positive results, with a current year estimate of 70% on-time reviews compared to the FY 2017-18 goal of 45%.

**ECONOMIC DEVELOPMENT**

With \$38.9 million across nine funds, the Economic Development Department (EDD) is the City’s third-largest contributor to the Economic Opportunity & Affordability outcome. The Department’s purpose is twofold: increase the commercial tax base of the City in order to reduce financial pressure on residents and to pay for the city’s rapid growth, while also reducing poverty and its associated costs and subsidies by creating new pathways to good jobs and well-paying careers. EDD supports Austin’s small businesses, including artists and creative businesses, by providing business training; one-on-one technical assistance; special informational events; and assistance navigating the City permitting process, microloans, and low-interest family business loans that help qualified small businesses expand and create new jobs. The Family Business Loan Program (FBLP)

targets low- and moderate-income individuals, including veterans and those with barriers to employment.

Chapter 380 of the Local Government Code authorizes municipalities to offer incentives designed to promote economic development such as commercial and retail projects. Specifically, it provides loans and grants of City funds or services to promote state and local economic development and to stimulate business and commercial activity. The Department's most direct job-creation methods are City Council-authorized Chapter 380 economic performance-based agreements with targeted companies, small business services, and low-interest loans for small business expansions. These services not only create jobs, but also increase the City's tax base, diversify the local economy, and provide a strong economic foundation for all residents.

In FY 2015-16, the Media Production Development Zone Program successfully nominated Certain Affinity, which created more than 300 new jobs, with a renovation investment of \$6.9 million in the Highland area. The 2017 Chapter 380 agreement with Merck, a premier research-intensive biopharmaceutical company will invest \$28.7 million and create 600 high-paying IT jobs, most of which require a college degree. The City Council's policy priorities focus on inclusive economic growth with an equity lens that supports a re-visioning of the City's use of Chapter 380 agreements and the creation of a new economic development policy framework. The Economic Development Fund will also continue to provide \$2.7 million to help lift working adults out of poverty and into living wage careers through training and education.

#### **NEIGHBORHOOD HOUSING & COMMUNITY DEVELOPMENT**

The Neighborhood Housing and Community Development (NHCD) Department budget includes \$16.6 million within the Economic Opportunity & Affordability outcome. These programs encompass homebuyer assistance, homeowner assistance, renter assistance, housing developer assistance, financial empowerment, homeless and special needs, and small business assistance. NHCD capital programs within the Economic Opportunity & Affordability outcome support rental housing, homeownership, and home repair. Funding sources that support these operating and capital programs include the General Fund, Housing Trust Fund, University Neighborhood Overlay Fund,

General Obligation bonds, and federal U.S. Department of Housing and Urban Development entitlement funding, including Community Development Block Grants and HOME Partnership funds.

NHCD anticipates a significant increase in the number of Permanent Supportive Housing (PSH) units in Rental Housing Development Assistance (RHDA) Program-funded developments in FY 2018-19 as the Housing First Oak Springs Project is completed. In the adopted Strategic Housing Blueprint, NHCD's goal was to support the production of 50 PSH units each year, with half of those being Housing First.

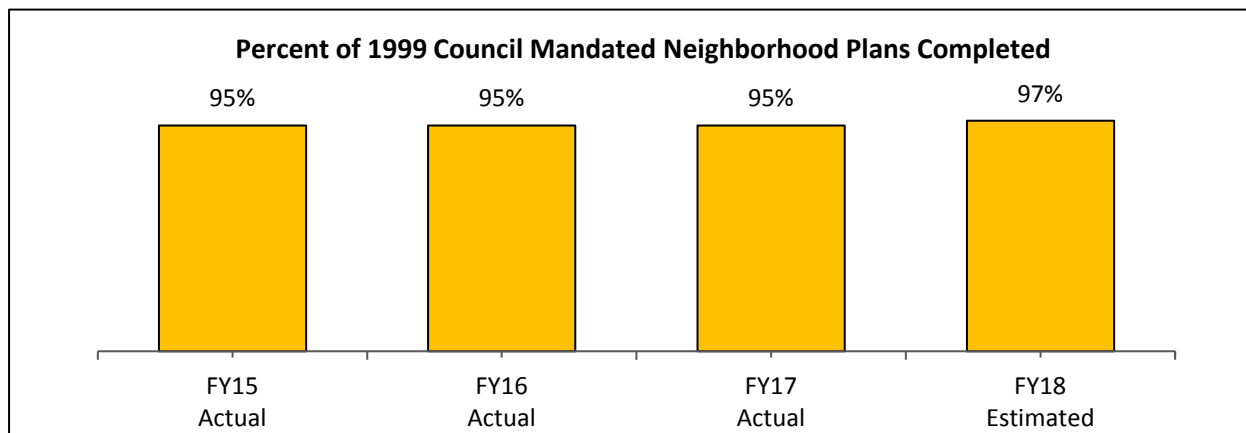

### PLANNING AND ZONING

The Planning and Zoning (PAZ) Department budget of \$7.2 million supports the Economic Opportunity & Affordability outcome by providing current planning, long-range planning, and urban design services. Through its Long-Range Planning Program, PAZ develops, maintains, and implements *Imagine Austin*, the City's Comprehensive Plan; develops small area plans; and provides planning support services, such as demographic/economic projections and analysis. Through its Current Planning Program, PAZ processes zoning map amendments, interprets zoning ordinances, and develops and maintains the City's three-year municipal annexation plan. PAZ also supports the

enrichment of Austin’s unique civic and cultural opportunities by protecting and enhancing sites and structures that reflect our cultural, social, economic, political, and architectural history. In addition, PAZ works in collaboration with consultants and other City departments on the rewrite of the Land Development Code, and designs and constructs public spaces that create economic, environmental, and community value through its Urban Design Program.

**SMALL AND MINORITY BUSINESS RESOURCES**

The Small and Minority Business Resources (SMBR) Department budget includes \$3.5 million within the Economic Opportunity & Affordability Outcome. Through its Minority-Owned Business Enterprise/Women-Owned Business Enterprise (MBE/WBE) Procurement Program, SMBR provides development opportunities and resources to small, minority, and women-owned businesses participating in City contracting. On average, SMBR supports over 900 City-certified MBE/WBEs and reviews 84% of compliance plans within seven business days every year. SMBR is working with the Communications and Technology Management Department and its vendor B2GNow on implementing a new certification and compliance system that would allow vendors to electronically submit compliance and certification documentations and improve operational efficiencies.

**OTHER ECONOMIC OPPORTUNITY & AFFORDABILITY OUTCOME PROGRAMS**

Numerous other City offices and departments play smaller roles in supporting the Economic Opportunity & Affordability outcome. These functions include:

- Expenses and administrative costs for the Whisper Valley, Indian Hills, and Estancia Hill Country Public Improvement Districts, funded by special assessment tax revenues, which cover basic infrastructure to support the community's development and enhance the local economy (\$4.2 million);
- Austin Water's rebates, incentives, and conservation activities geared at reducing consumer costs through demand reduction (\$3.6 million);
- Aviation's Business Development and Property Management which solicits and manages concessions and real estate contracts (\$3.2 million);
- Telecommunications and Regulatory Affairs monitors and enforces the City of Austin's Credit Access Business Ordinance, which was put in place to reduce predatory lending practices within city limits (\$105,000);
- The Community Technology Initiative provides opportunities to ensure underserved residents have access to public digital literacy training, internet connectivity and computer devices that enable them to fully engage in our digital society (\$447,000); and
- The Austin Cable Access Fund supports public, educational, and governmental channel capital expenditures using funding provided by cable service providers (\$681,000).

## ECONOMIC OPPORTUNITY & AFFORDABILITY OUTCOME – NOTABLE CHANGES & HIGHLIGHTS

**ACCD FACILITY IMPROVEMENTS & REPLACEMENTS:** The Austin Convention Center Department's (ACCD) FY 2018-19 capital budget includes planned spending for the following significant projects:

- 2nd Street Garage Elevator Addition (\$3.5 million): Installation of two new elevators on the northeast corner of the 2nd Street garage will reduce wait times for Convention Center attendees.
- Rigging Improvements (\$2.5 million): Improvements to increase rigging capacity for events at the Austin Convention Center.
- Portable Seating (\$1.6 million): Replacement of seating arrangements at the end of their useful lives will provide a premium experience for visitors.
- Marquees (\$1.9 million): Replaces several outdated marquees with new innovative advance technology and marquee design on the Trinity Street side of the Austin Convention Center and at the Palmer Events Center.

**AFFORDABLE HOUSING DATABASE:** Neighborhood Housing and Community Development's budget includes \$450,000 for a software contract for the development of an affordable housing database and a web-based data intake form for applicants to submit eligibility information for affordable housing units that have been incentivized by the City of Austin. 

**AUSTIN ENERGY GROWTH:** Austin Energy is increasing operating funding within the Economic Opportunity & Affordability strategic outcome by \$5.8 million to \$285.7 million in FY 2018-19. Economic Opportunity & Affordability programs within AE include power generation, energy market operations, green building programs, weatherization and multifamily rebates, customer assistance programs and 50% of power supply adjustment and ERCOT expenses.

**BUSINESS EXPANSION PROGRAM PORTFOLIO:** The Economic Development Department's new Business Expansion Program Portfolio will address the values and priorities identified in a year-long public engagement and stakeholder feedback process by providing incentives to employers in three categories to address specific community needs and apply appropriate requirements:

- Existing local expansions to service existing, local, small, heritage businesses;
- Opportunity for employment to help catalyze job creation and provide a career path for those who experience economic or socio-economic barriers to employment, including paid internships, apprenticeships and full time positions; and
- External relocations to attract the right businesses to Austin who not only provide jobs and investment for the creation of prosperity, generate tax revenue for the City, and maintain the City's competitive position in the global marketplace, but also provide a revenue stream to pay for the previous programs.

The goals of the Business Expansion Program Portfolio are to provide compensation for middle-skilled workers, jobs for "hard-to-employ" and/or "economically disadvantaged" individuals, address the needs of the local business base and provide support, and generate business expansions that yield benefits to the community beyond local tax base contributions. To administer this new program, EDD will add \$265,000 in funding for incentives and a new manager for program delivery at a cost of \$119,000. 

**CITIES SUPPORTING A STRONG PRENATAL TO AGE 3 (PN-3) AGENDA GRANT:** Additional funding is included for the second year of the Cities Supporting a Strong Prenatal to Age 3 (PN-3) Agenda grant from the National League of Cities. The second year of this grant funding will continue to enhance the work already done through the Austin/Travis County School Readiness Action Plan, which aims to strengthen support for families of young children and improve early childhood education and services.

**CITYWIDE HOMELESS CAMP CLEANUP CONTRACT:** The Watershed Protection Department (WPD) is working on a citywide homeless camp cleanup contract at a cost of up to \$1.0 million. The contract may include elements to satisfy community service resolution for affected constituents, utilizing defendants and probationers who are court ordered to complete community service. While WPD has been involved in homeless camp cleanups in the past with its own field operations resources, additional support will ensure that workers are not taken away from routine, high-priority, health and safety-related work, directly impacting flooding, erosion and water quality. 

**CODENEXT:** The FY 2018-19 budget continues a proactive approach to engaging a growing community on laws, policies, and practices impacting housing and land use. CodeNEXT, the City's initiative to revise the Land Development Code, will utilize \$600,000 in funding for educational messaging associated with the anticipated new code, \$500,000 for AMANDA system upgrades, \$250,000 for temporary employee staffing, as well as \$300,000 in one-time funding to extend the consultant's contract. **FC**

**COMMUNITY PIPELINE OF SKILLED LABOR PILOT PROGRAM:** In collaboration with the Economic Development Department and the Equity Office, Austin Public Health (APH) will fund a new youth services coordinator position in FY 2018-19, at a cost of \$124,000, to implement a new pilot program to provide twelve high school students from Eastside Memorial High School an opportunity to gain experience in the public health profession, thereby strengthening Austin's community pipeline of skilled labor. **TOP TEN EQUITY**

**CUSTOMER SERVICE IMPROVEMENTS AT THE AUSTIN CONVENTION CENTER AND PALMER EVENTS CENTER:** The FY

2018-19 budget adds 4.25 new positions, at a cost of \$396,000, to support event and attendee needs within the sales, security and IT areas. Competition within the convention industry is strong, and ACCD must provide exemplary facilities and customer service in order to effectively compete with other sites. Each of the new positions is necessary to meet customers' high expectations, which supports future ACCD business opportunities, increased visitor spending, and a

positive economic impact to the residents of Austin.

**DISPARITY STUDY UPDATE:** The Small and Minority Business Resources (SMBR) Department administers the City of Austin's Minority-Owned and Women-Owned Enterprise (MBE/WBE) Procurement Program. In addition, SMBR also administers both the federal Disadvantaged Business Enterprise and Airport Concession Disadvantaged Business Enterprise Programs. The FY 2018-19 budget includes an increase of \$1.0 million for a new disparity study, which will examine the participation and disparity of businesses owned by minorities and women in public sector contracting over the last several years in a wide variety of areas including construction, professional and consulting services and other goods and services, and will form the basis of the MBE/WBE Procurement Program.

**DISTRICT COOLING PLANT #3:** Austin Energy is building a new district cooling plant at 812 West 2nd Street (also known as Electric Drive) adjacent to the Gables Park Tower and the future Bowie Underpass in Austin's Downtown Seaholm EcoDistrict. The project makes use of a small, infill parcel that is considered undevelopable for other uses, and creates a municipal purpose that serves the public downtown. The downtown District Cooling Plant #3 (DCP3) will provide an additional 10,000 tons of cooling capacity utilizing four 2,500-ton water-cooled centrifugal chillers and nine cooling tower cells. This third downtown plant will allow AE to expand chilled water services to Austin's burgeoning downtown development and increase the efficiency, redundancy, and reliability of the overall system and provide a more affordable way for customers to meet cooling needs. Planned spending for FY 2018-19 totals \$13.1 million.

**DIVERSIFY AND STRENGTHEN THE CITYWIDE RESPONSE TO HOMELESSNESS:** Additional funding is added to Austin Public Health's budget to better coordinate the City's response to homelessness, including \$1.0 million for rapid rehousing, housing security protection and eviction prevention, revitalization and safety of the ARCH and surrounding area, and navigation outreach services; \$760,000 for social service contracts to support alternatives to panhandling, expand community-based homeless services, and provide services for youth experiencing homelessness; \$369,000 for four positions to provide social services contract monitoring and oversight; and \$315,000 for three positions to coordinate homelessness services citywide. 

**EXPANDING AFFORDABLE CHILDCARE SERVICES AND ACCESS TO PRE-K:** In partnership with area school districts and in order to leverage state funding, the City of Austin will spend \$128,000 on one-time start-up costs for new pre-K classes. The City will also work with area partners and a consultant to study potential incentive programs and public-private partnerships that could be effectively implemented in Austin around quality child care. The cost is estimated at \$75,000. These items were recommended by the Early Childhood Council. 

**FACILITATED REVIEW AND CAPACITY-BUILDING FOR AFFORDABLE HOUSING:** The Strategic Housing Blueprint found that inability to obtain expedited review has resulted in a decreased utilization of some incentive programs that have historically provided a substantial amount of affordable housing units, such as the City of Austin's S.M.A.R.T. Housing Program. To remedy this, a new project consultant will be added, at a cost of \$148,000, to resolve site plan problems or roadblocks for developers creating income-restricted affordable units, and to help expedite the review process. The position will be funded by the Neighborhood Housing and Community Development Department, but will be housed and supervised by the Development Services Department. The departments will collaborate on an accountability matrix to ensure NHCD goals are addressed. 

**HISTORIC PRESERVATION OFFICE STAFF AND TRAINING:** The Planning and Zoning Department oversees the Historic Preservation Office, which continues to facilitate implementation of local historic districts, process historic zoning cases, and issue demolition and other permits within historic districts. A new planner position will assist with existing workload and reduce overall customer wait times. Added funding for the Historic Landmark Commission and supplemental staff training on historic preservation principles and policies is also provided. The total net impact from these items is \$117,000.

**HOST TEAM EXPANSION:** The Homelessness Outreach Street Team (HOST) represents a new collaborative initiative in Austin's Central Business District to proactively address the needs of people living on the streets. HOST brings together the **FC** expertise of police officers, behavioral health specialists, a paramedic, and outreach social workers. This multidisciplinary team helps bridge the gaps between social services and public safety where hard-to-reach populations get stuck in the revolving door of emergency shelters, justice systems, and emergency services. In FY 2018-19, a total of \$1.0 million will be added to the budget to make this pilot program permanent. Emergency Medical Services (EMS) will add two administrative support positions to enhance HOST services for \$139,000: a new administrative assistant will coordinate follow-up services and referrals with partner organizations and set up initial appointments for the HOST team; and a new administrative specialist will focus on reporting and data gathering for the team to meet reporting and data requirements. Additionally, the Downtown Austin Community Court (DACC) will add three case managers to provide comprehensive, wrap-around services to include bio-psycho-social assessment, outreach, case monitoring, crisis intervention, employment assistance, and linkage to social service contracts at a cost of \$267,000. An additional vehicle will be funded via the capital budget to accommodate the new staff. Also, funding for rehabilitative services will increase by \$573,000, allowing for greater client support. **FC TOP TEN**

**HOUSING TRUST FUND:** The Housing Trust Fund (HTF) helps the City of Austin reach income-restricted affordable housing goals adopted in the Austin Strategic Housing Blueprint over the next ten years. In FY 2015-16 Council passed two resolutions directing staff to increase the property tax revenue transferred to the HTF. The first change raised the percent of property tax captured from targeted properties to 100% from 40%. The second resolution broadened the targeted properties from only those that were formerly owned by the City, to all properties that were previously classified as tax-exempt. With a combined transfer of \$5.3 million from the General Fund and the Budget Stabilization Reserve Fund, FY 2018-

19 marks the first year that the budget will fully fund the HTF according to Council's direction. In addition, direction was given to staff in the form of a budget rider in 2016 to avoid using the HTF for salaries and ongoing expenses, so \$311,000 was added to Neighborhood Housing and Community Development's operating budget to shift the costs of three positions out of the HTF and into the General Fund, freeing up that funding to be used to provide more housing opportunities for Austinites. 

**IMPLEMENTATION OF THE NEW CHAPTER 380 AGREEMENTS POLICY:** In March 2017, the City Council passed a resolution to initiate a stakeholder consultation process and develop recommendations to revise the City of Austin's current Chapter 380 Performance-Based Contracts Policy. On May 8, 2018, after a year of community engagement, community leadership consultation, best practice analysis, and program development, the City Council heard recommendations for a new Economic Development policy that reflects economic conditions and addresses existing community challenges. The new policy promotes support of small businesses, incentives for employers seeking to hire economically disadvantaged individuals, and a focus on recruiting external businesses that provide community benefits beyond jobs. To implement the new policy, and in anticipation of Council approval, the Economic Development Department will add a new manager to focus on program enhancements and delivery as well as \$1.2 million in funding for Chapter 380 agreements. 

**INCREASE THIRD-PARTY MONITORING SERVICES:** Both funded and incentivized housing developments require significant monitoring on a regular basis to fulfill federal and local requirements and to increase credibility and maintain trust. In FY 2018-19, the Neighborhood Housing and Community Development department will add \$150,000 for a contract with a third party to provide monitoring services. 

**INNOVATION OFFICE GRANT FUNDING:** This budget includes five grant positions that are fully-funded by a Bloomberg Philanthropies Grant to continue work on homelessness prevention. This Bloomberg Philanthropies "i-team" aims to reduce the number of people experiencing homelessness, while also focusing on the social determinants of homelessness. Through performing quantitative and qualitative research, the "i-team" has anticipated outcomes of defining and enacting the City's response to homelessness by focusing on efficient and effective use of resources to address disparities, prevent homelessness, and support housing stability. 

**REDEVELOPMENT OF CITY-OWNED LAND:** The Economic Development Department will continue to focus on managing the redevelopment of City-owned land and offer professional expertise to redevelop more than a dozen City-owned tracts in various areas in Austin. In FY 2018-19, EDD will add \$413,000 for redevelopment initiatives and \$148,000 to hire a new Redevelopment Project Manager to coordinate these efforts.

**RESTORE FUNDING FOR AUSTIN INDEPENDENT SCHOOL DISTRICT (AISD) PROGRAMS:** Funding of \$290,000 is added to Austin Public Health's budget to restore funding for AISD Parent Support Specialists to previous levels to support parents with development and engagement with their child's education. Additionally, \$150,000 is added to restore previous levels of funding for the AISD Prime Time

program, which is the largest free afterschool program in the city of Austin and focuses on keeping students engaged in productive activities in a safe, relaxed, and supervised environment.

**STRATEGIC HOUSING BLUEPRINT:** Neighborhood Housing and Community Development’s budget includes \$500,000 for studies necessary to implement the adopted Strategic Housing Blueprint. **FC QoL EQU**

**STREAMLINED PERMITTING PROCESSES TO PROMOTE NEW DEVELOPMENT:** The Development Services Department (DSD) will accelerate permitting of single-family and multi-family homes by adding 30 new positions, at a cost of \$3.2 million, including two residential ombudspersons and two small business ombudspersons to assist homeowners and small businesses through the development process. DSD is also restructuring certain programs for efficiency. Streamlining the review, inspection, and permitting process is one of the “highest potential impact” actions from Austin’s Strategic Housing Blueprint and should significantly reduce the wait time for plan reviews and inspections. This realized efficiency and mitigation of time-hold costs will reduce overall costs of development, producing more units available sooner and at lower prices. Additional staffing in support services will improve communication of the Department’s timeline and fee structure, which will aid developers with time and cost projections throughout the permitting and construction process. DSD’s FY 2018-19 budget also includes 22 additional positions at a cost of \$3.1 million. Of these, ten are aligned to Government That Works; seven are aligned to Safety; four are aligned to Mobility; and one position is aligned to Health & Environment. In all, DSD’s FY 2018-19 budget includes a total of 52 new positions at a cost of \$6.3 million.

**TENANT RELOCATION AND DEMOLITION NEXUS STUDIES:** Neighborhood Housing and Community Development’s budget includes \$165,000 for a tenant relocation nexus study and a demolition nexus study. The tenant relocation nexus study will help develop an appropriate tenant relocation fee based on the impacts of displacement to tenant communities. The demolition nexus study will help explore the feasibility of establishing a fee that property owners would pay to the City to demolish single-family and multi-family residential structures. **FC**

**TRANSIT ORIENTED DEVELOPMENT:** The City of Austin has designated several areas in the city for Transit-Oriented Development (TOD), which is an intentional mixing of land use and transit through the creation of compact, walkable, mixed-use communities within walking distance of a transit stop or station. In FY 2018-19, Watershed Protection has planned capital spending of \$525,000 to identify and provide strategic improvements needed to address inadequate stormwater conveyance in or downstream of the TOD Districts.

**WRAPAROUND SERVICE PROGRAM AT LIBRARIES:** Austin Public Library (APL) will offer new support services at identified branch libraries to persons experiencing homelessness. To support this program, APL

will add two social workers in the amount of \$178,000. Major services that will be provided include identifying those in need that enter libraries, helping people in all life stages cope with and solve everyday problems, advocating for and developing plans to improve clients' well-being, researching and referring clients to community resources, working with Austin Public Health, Integral Care, and HOST to schedule services at library locations, responding to clients in crisis situations, and assisting with job search and resume writing. 

The Health & Environment outcome is aimed at ensuring that every Austinite enjoys a sustainable environment and a healthy life, physically and mentally. Overall, \$535.0 million of the total FY 2018-19 operating budget supports the Health & Environment outcome. Council established six indicator categories for measuring success in the Health & Environment outcome:

- Healthy conditions among individuals
- Accessibility to quality health care services, both physical and mental **TOP TEN**
- Accessibility to quality parks, trails, and recreational opportunities **TOP TEN**
- Environmental quality
- Climate change and resilience **TOP TEN**
- Food security and nutrition

By far, the largest cost driver for Health & Environment is Austin Energy at \$234.8 million, or 44% of the total outcome. Austin Resource Recovery and the Parks and Recreation Department contribute more than \$65.0 million each toward the outcome, while Austin Public Health, Austin Water, and Emergency Medical Services allocate a combined \$116.9 million. These five departments represent 47% of the total budgeted funds within the Health & Environment outcome.

The Capital Improvements Program (CIP) budget for the Health & Environment outcome supports planned spending of \$111.1 million for FY 2018-19. Austin Water is the largest component at \$57.6 million, or 52%, for upgrades and improvements in water and wastewater treatment plants, buildout of the reclaimed water system, and pipe network improvements. The most notable projects include the Parmer Lane Interceptor, the Dessau Wastewater Treatment Plan (WWTP) expansion, the Montopolis reclaimed water reservoir and pump station, and the Hornsby Bend Side Stream Treatment Plant relief and thickener complex rehabilitation.

Parks and Recreation ranks second with \$21.8 million, or 20%, in planned spending in aquatics, parks, trails, and facility improvements. Parks and Recreation planned spending in FY 2018-19 on the Waller Creek District is planned at \$4.0 million; renovations at Govalle, Shipe, and Rosewood neighborhood pools are anticipated to cost \$2.8 million in FY 2018-19; and \$3.2 million will be spent on the Montopolis Recreation and Community Center. In addition, the Department is planning on spending \$3.1 million next year on the Alliance Children's Garden.

Austin Resource Recovery's planned CIP spending related to the Health & Environment outcome for FY 2018-19 is projected at \$18.6 million, or 17%, for the purchase of new vehicles for the expanded curbside composting program, replacement vehicles for existing programs, new trash and recycling containers, and fleet technology upgrades. Finally, Watershed Protection, with planned spending of \$11.3 million, equates to 10% of the total outcome with the majority of the spending for drainage, erosion control, flood control, and water quality protection. In addition,

Watershed Protection plans to spend \$4.0 million on the Waller Creek District. The remaining 2% of the outcome comprises projects for Austin Public Health, EMS, Building Services, and Communications and Technology Management (CTM). The chart below summarizes the spending discussed in this section.

## HEALTH & ENVIRONMENT OUTCOME – OVERVIEW

### ANIMAL SERVICES

Animal Services supports the Health & Environment outcome through \$6.3 million for the provision of prevention, placement, protection, and veterinarian services in the city of Austin and the unincorporated areas of Travis County. In partnership with community organizations, Animal Services provides a safety net for lost and homeless pets and is dedicated to sustaining Austin’s no-kill commitment of achieving live outcomes for at least 97% of the companion animals that enter the shelter each year.

FY 2017-18 marked the completion of the much-needed \$5.8 million kennel expansion project, providing air-conditioned living spaces for 44 medium-to-large dogs. The new facility also includes a real-life room to assess dog behavior in a simulated home environment.

Throughout the year, the Austin Animal Center is the temporary home to more than 17,000 animals. With the assistance of fulltime and temporary staff and volunteers, the Austin

Animal Center averages a daily intake of approximately 50 animals. Animal care staff clean, feed, and care for an average inventory of 600 animals each day, while customer service staff help to facilitate positive outcomes for nearly 16,000 companion animals annually. Veterinary personnel perform thousands of spay/neuter and emergency surgeries each year, in addition to providing preventative and diagnostic medical care for every animal that enters the Center. In total, nearly 11,000 community animals are served through low- and no-cost spay/neuter surgery, vaccinations, and free microchips.

**AUSTIN ENERGY**

Austin Energy (AE) is the municipally owned electric utility serving 480,000 customer accounts in the city of Austin and surrounding communities. At \$234.8 million, Austin Energy is the largest portion of the Health & Environment outcome, demonstrating the Utility’s commitment to the quality of our environment.

Austin Energy’s commitment to renewable power began in the 1990s, when they blazed a trail by purchasing power from the state’s first commercial wind plant. Since then, AE has continued to responsibly build a renewable portfolio, with plans to continue well into the future. Despite rapid

population growth and a steady increase in peak demand in the Austin Energy service area, the Utility’s total carbon dioxide emitting capacity in 2012 was nearly the same as it was in 1990. This

Renewable Power Generation Comparison Chart				
Austin Energy	Texas (ERCOT)	CPS Energy (San Antonio)	USA	World
23%	10.21%	14.52%	13%	21%

Source: U.S. Energy Information Administration

achievement reflects the effectiveness in managing carbon dioxide emissions through renewable energy.

Responsible management of AE's traditional fuel assets and encouraging the use of alternative fuel sources reduce AE's reliance on higher-polluting traditional fuel sources to help maintain the Health & Environment outcome. The FY 2018-19 Austin Energy budget includes \$219.9 million for the purchase of more sustainable fuel sources.

In 2007, Austin Energy kicked off a new goal with the Austin Climate Protection Plan to achieve 800 megawatts (MW) of energy efficiency and demand response by 2020 and an incremental 100 MW of demand response to achieve a total of at least 900 MW of Demand Side Management (DSM) by 2025. Austin Energy's strategy to reach 800 MW of peak demand savings by 2020 involves a targeted mix of energy efficiency products and services, including demand response programs for residential and commercial customers. Through FY 2016-17, the efforts of the Energy Efficiency Services and Green Building programs resulted in 659 MW of demand savings.

Austin Energy's solar programs provide rebates and incentives to home owners and businesses to encourage the installation of solar photovoltaics systems, and the Utility's FY 2018-19 budget includes \$7.5 million for these programs. As of October 2017, Austin Energy supports more than 6,250 residential solar energy systems, 335 commercial projects, 44 school projects, and 60 municipal projects. Residential customers can also choose solar energy with Austin Energy's Community Solar Program. With this new option, customers can go solar and meet 100% of their electricity needs with energy supplied from local Community Solar projects which include the 185 kilowatt community solar array at the Palmer Events Center and the 2.6 MW La Loma community solar farm northeast of Airport Boulevard and Springdale Road. Unlike fossil fuels, the sun provides clean and renewable energy day after day, with no fuel costs, noise, or pollution. The use of renewable solar power reduces Austin's carbon footprint and helps protect the environment.

Austin Energy's Green Building team began rating homes for energy efficiency and sustainable building practices over 20 years ago. As the first of its kind in the United States, it was the impetus for the creation of the U.S. Green Building Council and Leadership in Energy and Environmental Design (LEED) ratings. It has twice won awards from the United Nations, including the Scroll of Honour, considered the most prestigious human settlements development award in the world.

Austin Energy's commitment to environmental excellence can also be found in its environmental management programs ensuring compliance with environmental regulations and helping to reduce the Utility's impact on air, water, and land quality.

**AUSTIN PUBLIC HEALTH**

The role of Austin Public Health (APH) is to promote community well-being and self-sufficiency, and to protect the community from infectious diseases, epidemics, and environmental or social hazards. To achieve these goals, Austin Public Health provides a range of programs and services that promote healthy behaviors, prevent diseases, provide food protection, offer life-saving immunizations, prepare and respond to public health emergencies, and help people navigate through crises. With \$44.5 million budgeted within the Health & Environment outcome, the Austin Public Health Department is the fourth largest contributor to this outcome.

The Health Equity and Community Engagement program, which encompasses the Quality of Life program (QoL), Departmental Planning and Development, HIV Resources Administration, and Social Services Policy, works to improve health outcomes based on the social determinants of health. In FY 2016-17, QoL staff provided almost 5,700 preventative screenings and served 3,900 clients.

The Epidemiology and Public Health Preparedness program provides epidemiology and health statistics; emergency preparedness for bioterrorism, nuclear, and chemical threats; and vital records for the community. In FY 2016-17, the program investigated almost 2,600 cases of infectious diseases, including potential outbreaks, such as Zika; conducted or participated in 18 emergency preparedness drills citywide; and issued almost 48,000 birth and death records.

The Disease Prevention and Health Promotion (DPHP) program provides services through the Communicable Disease and Community Health activities. These activities focus on services that screen for and prevent illnesses and other health issues, include testing for HIV, Sexually Transmitted Diseases, and chronic diseases; as well as counseling, outreach, and education.

The Environmental Health Services (EHS) program provides protection and enforcement services to the public in order to minimize environmental and consumer public health hazards. This program issued almost 15,000 food permits and certifications in FY 2016-17. Through its inspection and re-inspection programs, EHS expects that 90% of Austin’s retail and food service fixed establishment routine inspections will result in a “substantially compliant” score.

### AUSTIN RESOURCE RECOVERY

Austin Resource Recovery (ARR) supports the Health & Environment outcome by providing reliable and integrated waste management services. Sanitation is essential to the health and well-being of our citizens and our environment, and it remains a key focus for all collections and remediation services. ARR provides a broad range of services, including a residential curbside compost collection program; curbside collection of trash, recycling, and yard trimmings; Central Business District trash collection;

collection of brush and bulk items; education and outreach; Brownfields remediation; street sweeping; litter abatement; household hazardous waste collection; and dead animal pickup. To provide these services in a professional and efficient manner, ARR operates six different facilities throughout the city. With \$69.7 million of their budget allocated to Health & Environment, they represent the second largest component of the outcome.

Zero Waste and affordability are the guiding principles for the way in which ARR provides services. The 2009 Zero Waste Strategic Plan provides the policy foundation while the ARR Master Plan provides implementation strategies for future programs and services. The ARR Master Plan serves as the Department's roadmap for investing in the necessary programs, resources, and infrastructure needed to achieve the diversion goals established by Council and guides in the development of the annual budget.

While ARR is on track with most metrics, a significant variance still exists between the goal of 75% waste diversion by 2020 as set by the current Master Plan and the projected FY 2017-18 result of 38%. ARR continues to implement programs identified in the Master Plan to bridge this gap. In FY 2018-19, ARR is expanding the curbside compost program to include approximately 52,000 additional households, which should increase overall diversion. The FY 2018-19 budget also includes \$300,000 for a consultant to review and update the Master Plan. This update will evaluate existing programs and policies, identify opportunities for increasing diversion, and provide guidance for achieving the 2040 Zero Waste goal. The scope of work includes an evaluation of methods to increase recycling, including expanding curbside collection from biweekly to weekly collection.

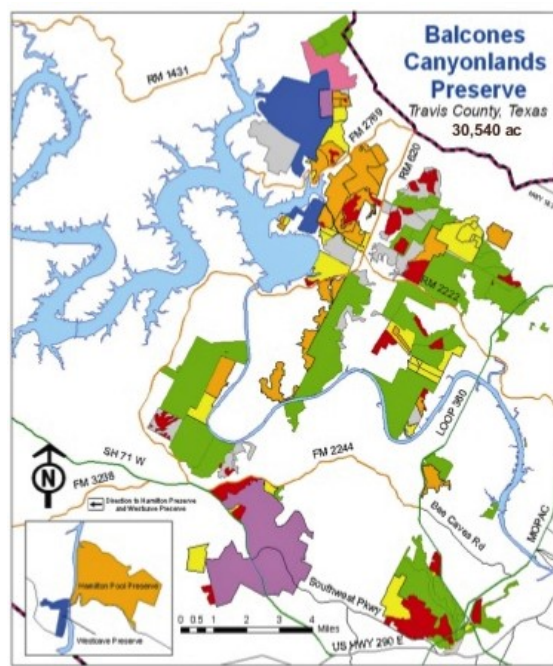

In FY 2018-19, the Universal Recycling Ordinance reaches its final phase where 5,500 additional commercial properties will be included in the organics diversion requirement. The Business Outreach Team within the Strategic Initiatives Division provides guidance and education to all commercial property owners (those previously impacted and newly impacted) and assists them with their Annual Diversion Plan submittals.

### AUSTIN WATER

Austin Water invests substantial resources into achieving ambitious sustainability goals and preserving the quality of the environment and availability of natural resources. In FY 2018-19, \$38.7 million of the budget aligns to Health & Environment for programs geared toward water conservation, wastewater treatment, and wildlands management.

In July 2018, Austin Water received Platinum Certification from The Alliance for Water Efficiency for excellence in water conservation program operation and management, becoming the third in the nation to achieve Platinum Certification.

Austin Water has also joined the Water Utility Climate Alliance to share best practices and stay at the forefront of climate adaptation strategies while also developing customer guidance for onsite reuse of rainwater, laundry water, and other water sources.

Austin Water continues to expand its reclaimed water system infrastructure by including \$10.8 million in the FY 2018-19 capital spending plan, which will allow more customers to connect for irrigation, cooling towers, and industrial uses. Other major environmental initiatives include the management of 43,000 acres of wildlands for drinking water protection and endangered species habitat, allowing for public access to these uniquely pristine areas.

### **BUILDING SERVICES**

The FY 2018-19 Building Services Department (BSD) budget includes \$6.2 million, primarily for custodial services that align with the Health & Environment outcome. Staff provide cleaning services to ensure City facilities meet or exceed sustainable cleanliness standards so that employees and citizens enjoy clean, healthy, and orderly environments. In FY 2015-16, BSD was the first department within a municipality in the nation to achieve Green Seal certification and serves as a model for other municipalities. Green Seal certification is a strenuous process requiring BSD to maintain specific green-initiative standards in cleaning products, training programs, and recycling procedures. BSD is reviewed by a third-party auditor who will visit one BSD site annually to ensure that Green Seal guidelines are being followed.

### **DEVELOPMENT SERVICES**

Through the work done by the City Arborist, Urban Forestry, and Environmental Inspections, the Development Services Department (DSD) seeks to ensure environmentally sound development practices are followed and the health of the urban forest is maintained. To this end, DSD aligns \$12.7 million of its budget to the Health & Environment outcome. The City Arborist and Urban Forestry program implement long-range plans, manage interdepartmental coordination, formulate partnerships, and administer tree ordinances. The Community Tree Preservation work group advances community health by protecting, nurturing and renewing Austin's green infrastructure through the preservation of the city's forest. A thriving tree canopy provides shade, reduces obesity and heart disease, cleans air and water, creates oxygen, and minimizes flooding. The Site and Subdivision Review division focuses on compliance with the Land Development Code (LDC) to preserve Austin's urban forest and ensure environmental regulations are present in site plan and subdivision plans. The Environmental Inspections unit provides regular worksite visits to validate proper environmental controls are in place to mitigate debris runoff and environmental contamination. In addition, the Environmental Inspections unit performs water quality tests for retention ponds to ensure they are properly maintained.

### DOWNTOWN AUSTIN COMMUNITY COURT

With a budget of \$4.7 million, services provided by the Downtown Austin Community Court (DACC), a function of the Municipal Court system, predominantly support the Health & Environment outcome. DACC works collaboratively to address the quality of life and public nuisance issues of all residents in the Downtown Austin, West Campus, and East Austin communities through swift and creative sentencing and by providing offenders with the means and encouragement to address the underlying issues of their criminal behavior through rehabilitation and community service restitution.

DACC seeks to identify and engage a group of individuals designated as Frequent Offenders, defined as individuals who have had 25 or more legal cases with the court and at least one active case in the last two years. DACC offers an intensive case management program for these Frequent Offenders, which includes an outreach component focused on providing wrap-around services in collaboration with other community partners. Through the community service restitution program, DACC staff supervise defendants completing community service in lieu of having to pay fines, as well as Travis County probationers. These individuals are transported throughout the city and remove brush, trash, and graffiti, which helps to keep Austin's environment clean and healthy.

### EMERGENCY MEDICAL SERVICES

Emergency Medical Services (EMS) serves an important role in the healthcare community as a "safety net" organization. EMS responds to over 110,000 requests for medical services each year, many of which are conditions affected by social determinants of health and barriers to accessing healthcare. Accounting for \$33.8 million within the Health & Environment outcome, the distribution of health resources are integrated with other health care providers, public health agencies, and public safety partners to assist in providing a more comprehensive community-based health management system.

The Health & Environment services provided by EMS include the Mobile Integrated Healthcare and Community Health Paramedic Program which provide place-based assessment, care, referrals, and enrollment services in home, on the street, and at other various venues such as the Homeless Outreach Street Team (HOST) and the Pop-up Resource Centers (PURCs). As a Mobile Integrated Healthcare provider, EMS cares for people in their homes, work places, shelters, parks, and open spaces. Through clinical assessments and environmental scans, Community Health Paramedics (CHP) identify barriers to healthcare and provide navigation and referral services that improve access to medical care, mental health services, food, clothing, medications, and other essential services. An extensive network of service providers collaborate with CHPs to deliver services.

EMS provides numerous injury and illness prevention education programs to thousands of Austin residents every year. The Community Relations and Injury Prevention program manages various community outreach efforts. This program provides health- and safety-related information, as well as CPR training and first-aid classes to the community at-large. Through the Child Passenger Safety program, EMS staff provided car seats, booster seats, baby-boxes, and community education to participants at the 72 scheduled events in FY 2017-18. The program anticipates reaching 38,500 people in the coming year through all public education programs. Programs like child safety seat instruction, infant sleep safety, cardiopulmonary resuscitation (CPR), automated external defibrillator (AED), and other programs help prevent needless injuries and deaths in our community.

Also included within the Health & Environment outcome are the clinical service aspects of responding to emergency and non-emergency incidents, and collecting and sharing standardized performance data to support improvements in patient care. Providing care that is respectful of, and responsive to, individual patient preferences, needs and values continues to be a priority for EMS and is monitored by an array of measurements including measures that directly capture the administration of medical care to patients exhibiting signs of stroke or heart attack. The Department's goal is to administer blood glucose tests or aspirin to these patients 100% of the time to ensure system-wide response remains at optimal levels. The "Percent of Cardiac Arrest Patients Delivered to a Medical Facility with a Pulse" measure is one of the best indications of the direct effectiveness of pre-hospital emergency care.

**PARKS AND RECREATION**

The Parks and Recreation Department (PAR) proudly operates an extensive park system that provides public access to leisure and recreational opportunities for thousands of community

members and visitors daily. PAR’s commitment to encouraging a healthy community and environment is evidenced by the stewardship of over 20,000 acres of land, 227 miles of parks and trails, 12 off-leash dog areas, six public golf courses, 20 community recreation centers, three senior activity centers, 51 aquatic facilities, three nature centers, and 10 extreme sports facilities. The majority of PAR’s budget, \$66.2 million, supports these services.

Austin is known as “a city within a park,” and for good reason. As of FY 2016-17, there were 19.7 acres of parkland per 1,000 residents and over 65% of Austin residents living within the urban core live within ¼ mile of a park. Zilker Park alone is 351 acres and boasts more than 3 million annual visits as the City’s most popular park. In general, parks are open for public use each day from 5 a.m. to 10 p.m., unless otherwise posted.

The National Recreation and Park Association recommends a ratio of 10 park acres per 1,000 residents for cities in Austin’s population range. PAR excels with a high parkland acres ratio per 1,000 residents, and its goal is to achieve a ratio of approximately 24 acres of parkland for every 1,000 citizens of Austin. As the population increases, park acres must also increase in order to maintain the target ratio of 24. Austin’s population has increased 20% since FY 2010-11, from approximately 800,000 to nearly 960,000 in FY 2017-18. PAR generally acquires land using four funding sources: General Obligation Bonds, parkland dedication, grants, and donations. In FY 2016-17, 68 acres of new parkland were purchased of which 45 acres were acquired through parkland dedication. This is up overall from FY 2015-16 levels, when 56 acres were purchased of which 38 acres were acquired through dedication.

According to the 2017 Citizen Survey, Austin’s Parks and Recreation Department ranked second of large U.S. cities in the category of “Satisfaction with Overall Quality of Parks and Recreation.” The Department’s overall satisfaction rating of 76% is 13 percentage points higher than the national average for large cities. The FY 2018-19 budget continues the trend of supporting Parks and Recreation’s ability to maintain a park system that exceeds the national standard by reflecting the values of the Austin community.

### WATERSHED PROTECTION

The mission of the Watershed Protection Department (WPD) is to protect lives, property and the environment of our community by reducing flood risk, restoring erosion-damaged stream channels, and protecting water quality. WPD primarily supports the Health & Environment outcome through programs focused on water quality evaluation, stormwater compliance, stream restoration, environmental policy, green infrastructure maintenance, the Waller Creek District, and Lady Bird Lake upkeep with a budget of \$11.0 million.

WPD protects and improves the water quality in Austin’s creeks, lakes and aquifers for the community and aquatic life by preventing, evaluating, and reducing water pollution. WPD constructs stormwater treatment facilities that remove over 2 million pounds of pollution from urban runoff. To monitor and assess water quality, staff maintains a network of 29 stormwater monitoring stations and 117 creek monitoring stations, and monitors three Austin reservoirs. The spills response team conducts

approximately 1,100 investigations annually to find and remediate water pollutant sources. The program also works collaboratively with other City departments, non-profit partners, and the community to restore riparian areas to improve water quality, reduce erosion and maintenance demands and to help achieve climate protection goals. Water Quality Protection staff are now expanding the program to also include small-scale green stormwater treatment installations in parks and public school grounds to alleviate drainage problems and enhance water quality.

WPD uses the percent of Austin streams and lakes that meet healthy water quality goals to indicate the progress being made within the Health & Environment outcome. The ultimate goal for Austin's creeks and lakes is 100% achievement of healthy water quality goals, however, due to variation in weather and the dynamic nature of the urban environment achieving this goal is not always possible, as was the case in 2016.

The Environmental Integrity Index (EII) is a program designed to continuously monitor and assess the chemical, biological, and physical integrity of Austin's creeks and streams. Currently, all watersheds are monitored on a two-year rotating basis. Water chemistry data from multiple sites within each watershed is collected quarterly while biological and physical surveys are conducted annually.

Watershed Protection also positively impacts the environment through stream restoration—which improves a stream's ecological health—and riparian zone restoration. The riparian zone is the transition area between the aquatic environment and the terrestrial environment. Healthy riparian buffers with mature vegetation provide a wide range of critical ecological and water quality services.

Watershed Protection's Salamander Conservation Program was awarded a 2016 Recovery Champions Award by the U.S. Fish and Wildlife Service. The award recognizes efforts to promote the recovery of the endangered Barton Springs and Austin blind salamanders. These efforts include habitat protection and restoration, research and monitoring, and community outreach and education.

#### **OTHER HEALTH & ENVIRONMENT OUTCOME PROGRAMS**

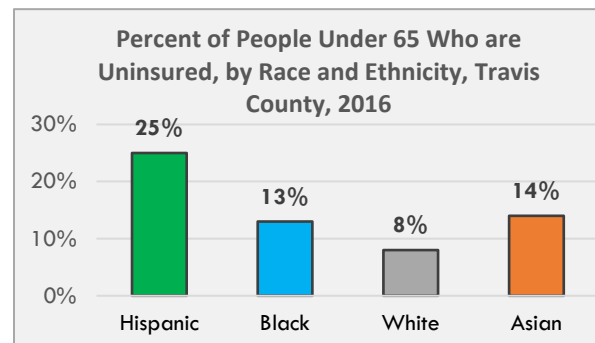

Numerous other City offices and departments play smaller roles in supporting the Health & Environment outcome. These functions include:

- The City of Austin Air Quality Program aims to improve air quality throughout Central Texas as a member of Clean Air Coalition of Central Texas and Clean Air Force of Central Texas (\$318,000);

- The Americans with Disabilities Act Office which supports disabled residents obtaining access to recreation and other amenities (\$73,000);
- The Office of Sustainability aims to achieve community-wide net-zero greenhouse gas emissions by 2050 and promote a healthy and just local food system, resource-efficient strategies for municipal operations, tangible projects that demonstrate sustainability, and a resilient and adaptive city (\$605,000).
- The Victim Services Division of the Austin Police Department responds to psychological and emotional needs of victims/families, community members, and first responders experiencing trauma (\$1.4 million);
- The Child Safety Program which serves approximately 100 schools in seven school districts with crossing guards and safety education (\$1.7 million), and;
- The Airport's Environmental Affairs activity which implements regulatory-driven compliance programs and innovative green initiatives in order to reduce the airport's impacts on the natural environment (\$2.0 million).

## HEALTH & ENVIRONMENT OUTCOME – NOTABLE CHANGES & HIGHLIGHTS

**AFRICAN AMERICAN MENTAL HEALTH AND HEALTHCARE OUTREACH SERVICES:** The uninsured rate for communities of color is significantly higher than the rate for the Caucasian population in Travis County, and black adults in Travis County are more likely to report poor mental health. In an effort to improve Austin's African American community's quality of life, \$500,000 has been provided to Austin Public Health to provide enhanced mental health and healthcare outreach services. 

**AMERICANS WITH DISABILITIES ACT (ADA) COMPLIANCE:** \$382,000 has been added to the Parks and Recreation Department (PARD) budget to facilitate implementation of PARD's Americans with Disabilities Act (ADA) Transition Plan, which outlines ADA projects required to bring the department into compliance. This funding will support one full-time position, temporary staff, and supplies. 

**ANIMAL ENRICHMENT:** Funding of \$179,000 has been added to continue the animal shelter enrichment programs to relieve stress-related behaviors. Enrichment programs increase and maintain the adoptability of pets during their stay in the shelter environment.

**AQUATIC MAINTENANCE:** The Parks and Recreation Department Aquatics Division is charged with managing 51 public aquatic facilities, most of which were built between 1927 and 1990 and have an average age of over 50 years. To address maintenance costs associated with this aging system, \$1.75 million has been added to the PARD budget. This budget will enable ongoing preventative maintenance, whereby staff can service more pumps and motors prior to the start of the season to reduce pool closures; establish a preventative replacement cycle for pool cleaning equipment; fund minor tile, gutter and valve repairs and replacements to reduce ongoing leaks; and begin a limited inventory of mechanical pool components to reduce the length of pool closures for unplanned repairs. Much of this increase will be offset by an additional \$1.1 million in revenue collected from increasing pool entrance fees by \$1 to \$2.

TOP  
TEN EQUITY

**CLIMATE URBAN FOREST PLAN:** Since trees are a valuable component of the community's infrastructure, \$300,000 has been included in the Development Services Department to mitigate the negative impacts associated with climate change and other threats to the City's urban forest through enforcement of the City's tree code. This includes one new environmental compliance specialist senior position along with funding for a third party contract to investigate and enforce the City's tree code.

TOP  
TEN

**COMMUNITY HEALTH NAVIGATOR:** Funding of \$150,000 for a community health navigator has been added in FY 2018-19. The community health navigator will promote health and well-being for communities with high rates of chronic disease and high-risk behaviors who lack access to services and support initiatives that can connect those seeking wellness and medical care with the appropriate providers.

TOP  
TEN QoL EQUITY

**CURBSIDE COMPOST COLLECTION PROGRAM:** The expanded curbside compost collection began in FY 2016-17, with planned annual increases in the number of customers served. There are currently around 90,000 customers in the service area, with a planned increase of approximately 52,000 additional homes in FY 2018-19. The required carts and equipment are included in Austin Resource Recovery's FY 2018-19 capital budget at a cost of \$5.8 million. The incremental impact to the operating fund is \$1.4 million and includes the addition of two positions. Curbside compost collection is expected to be available to all remaining homes (approximately 58,000) by the end of FY 2019-20.

**ENHANCED HEALTH SERVICES:** An additional \$175,000 has been included in Austin Public Health for a Community Health Worker training program to develop the skills and knowledge of the community members to serve as part of the region's health workforce. Another \$50,000 is added to provide health equity services for individuals affected by physical and mental health disparities. Funding of

\$50,000 supports insurance outreach and an enrollment campaign to get hard-to-reach populations to enroll in health insurance coverage. 

**EXPANDED MOBILE CRISIS OUTREACH TEAM (EMCOT) FUNDING:** To maintain services provided by Integral Care's EMCOT program, \$1.1 million is added to Austin Police Department's budget. EMCOT consists of mental health professionals who help adults and children experiencing a mental health crisis, connecting them to local resources for ongoing care and recovery support.

**FM812 LANDFILL REPAIRS AND CLOSURE:** Storm damage in recent years has resulted in the need for repairs to storm drainage structures on site which must be completed prior to official closure. This repair work in the amount of \$730,000 is included in the Austin Resource Recovery FY 2018-19 spend plan. Closure of the site is anticipated in FY 2019-20.

**GROUNDS AND FACILITIES MAINTENANCE:** An increase of \$411,000 is included in the Parks and Recreation Department budget to fund five new positions and supplies to provide necessary service and maintenance at trailheads and parks, recreation center renovations, and adding new amenities to existing facilities. One million dollars is being transferred to the Parks capital program for deferred maintenance. 

**GUS GARCIA HEALTH CLINIC FEASIBILITY STUDY:** One-time funding of \$150,000 has been added to Austin Public Health's budget to study the feasibility of building a new health care clinic in the Rundberg/Lamar area that would increase the accessibility to quality health care services.

**HEALTH EQUITY AND QUALITY OF LIFE DIRECT SERVICE:** Additional support of \$585,000 and six positions is added to support and strengthen Quality of Life (QoL) initiatives. The goal of health equity and QoL is to reduce disparate health outcomes among vulnerable African American, Asian American, and Hispanic populations by developing and implementing community-based, culturally specific, and risk-reduction intervention models. With the additional budget and personnel, Austin Public Health will work to increase the percentage of QoL clients who follow through with referrals to a healthcare provider or community resource. 

**HEAVY- AND LIGHT-DUTY VEHICLES AND EQUIPMENT:** Austin Resource Recovery annually purchases heavy- and light-duty vehicles, equipment, and carts to support continued operations and meet customer needs. The ARR FY 2018-19 CIP planned spending includes \$8.1 million to replace existing vehicles with the goal of reducing overall maintenance costs and to add new capacity associated with the curbside compost program expansion.

**IMMIGRANT LEGAL SERVICES:** To provide dedicated immigrant legal services to low-income Asian immigrants and others in Austin to address the rising number of individuals seeking services for deportation defense and consultations, \$150,000 has been added in FY 2018-19. 

**INCREASE FUNDING FOR AUSTIN PUBLIC HEALTH DEPARTMENTAL NEEDS:** To better support Austin Public Health's mission of preventing disease, promoting health, and protecting the well-being of the community,

an additional \$1.1 million, including six positions, are added to Austin Public Health's budget for chronic disease prevention, IT support, public health preparedness, Environmental Health Services vehicles, and translation services.    

**INCREASE FUNDING FOR WASTEWATER TREATMENT AND WATER CONSERVATION:** An increase of \$2.0 million is added to cover the shortage in alkalinity required at the Walnut Creek Wastewater Treatment Plant, which has increased to over 40,000 pounds per day in 2018. Additionally, \$150,000 is added for plumbing fixture repairs through the Low Income Direct Assistance Program, funded by the Community Benefit Charge Fund.

**INCREASE IN IMMUNIZATION GRANT SUPPORT:** Since grant funding for immunizations has not kept pace with costs drivers, mainly personnel and medication, an additional \$262,000 is being added to Austin Public Health.  

**LITTLE BEAR CREEK RECHARGE ENHANCEMENT FACILITY:** This capital project will divert storm flows from Little Bear Creek into the Stoneledge Quarry to recharge the Edwards Aquifer and help maintain flow at Barton Springs. The \$940,000 of spending in FY 2018-19 will be used to complete design and construction.

**LOWER ONION CREEK PROJECT SUPPORT:** In September 2016, the United States Army Corps of Engineers (USACE) executed a contract to initiate the design phase of the recreation and ecosystem restoration components of the Lower Onion Creek Project. The Parks and Recreation Department is adding \$316,000 for two staff, supplies, and equipment to prepare the site for public use and for ongoing maintenance. 

**PARK PLANNING SUPPORT:** The Parkland Dedication (PLD) Ordinance was revised in 2016. Changes to the ordinance increased the requirements for accepting parkland, which resulted in an increase in revenue from fee collections. This revenue increase will offset an additional \$293,000 in the Parks and Recreation Department budget for three positions to address the demand for PLD services and keep pace with the Development Service Department's goals for reducing permit review time.

**PLAYGROUND MAINTENANCE:** The Parks and Recreation Department maintains 363 playgrounds at 104 sites, some of which are over 25 years old. The FY 2018-19 budget adds \$200,000 for a contract for annual replacement of the playgrounds' safety surfaces, which is required to maintain accessibility standards for these facilities.  

**SENIORS:** Funding of \$125,000 has been added to address a lack of access to physical health care, mental health care, and dental care for low-income seniors. Another \$94,000 for one position has been added to Austin Public Health to coordinate implementation of the Age-Friendly Austin Action Plan. The position will focus on the successful implementation of the Plan goals and strategies through coordination with other City departments, and where necessary, other units of government and outside agencies. These items were recommended by the Commission on Seniors.  

**WALLER CREEK IMPROVEMENTS:** In May 2018, the City Council approved expanding construction projects within the Waller Creek District to include parks, stream, and trail improvements. To support these ongoing projects, three positions are being added to PARD. The total cost for the new staff is \$326,000 with 25% being funded by the operating budget and the other 75% through the capital budget. 

The Mobility outcome is aimed at getting us where we want to go, when we want to get there, safely and cost-effectively. Overall, \$238.0 million of the FY 2018-19 operating budget supports the Mobility outcome. Council established five indicator categories for measuring success in the Mobility outcome:

- System efficiency and congestion
- Transportation cost
- Accessibility to and equity of multi-modal transportation choices 
- Safety
- Condition of transportation-related infrastructure

The largest cost drivers for the Mobility outcome within the operating budget come from the Public Works, Aviation, Fleet Services, and Austin Transportation Departments. Collectively, these service areas comprise \$223.6 million, or 94% of the total Mobility outcome. The next largest component comes from the Austin Police Department, with funding for the Mobility outcome of \$8.7 million, primarily related to the enforcement of traffic laws. Other smaller contributors to the Mobility outcome include Austin Energy, Austin Water, Development Services, and Parks and Recreation. Each of these service areas are described in more detail later in this section.

Within the Capital Improvements Program (CIP) budget for the Mobility outcome planned spending totals \$388.6 million for FY 2018-19. Aviation is the largest component at \$260.2 million, or 67%. The largest projects include construction of the new parking garage and administrative building, scheduled to be complete by summer 2019. Other significant spending includes construction of a consolidated maintenance facility to centralize maintenance functions currently housed at locations throughout the airport property, which is scheduled to be complete by summer 2020. Finally, the spending plan includes ongoing construction of the apron and nine-gate terminal expansion project, scheduled to be complete in spring 2019 and initial planning for another ten-gate expansion to accommodate passenger growth over the next decade.

The Austin Transportation (ATD) and Public Works (PWD) Departments represent 17% and 8% of overall Mobility outcome planned CIP spending, respectively, for a combined total of \$98.4 million. Initial design work for the Corridor Construction Program as part of the 2016 Mobility Bond represents nearly 35% of this intended spending. Continued work on other 2016 Mobility Bond projects makes up another 18% of planned spending. The remaining spending includes matching funds for projects awarded by the Capital Area Metropolitan Planning Organization (CAMPO) for extensions of Lakeline Boulevard and Braker Lane, construction of multi-modal improvements to East 51<sup>st</sup> Street, and continued work on Quarter Cent projects in each Council district. Other departments with planned capital spending in this outcome include Austin Water, CTM, Parks and Recreation, Planning and Zoning, and the Watershed Protection Department. The chart that follows summarizes CIP spending on the Mobility outcome for FY 2018-19. More information about the City's Capital Improvements Program can be found in the sections below and on [Austin Finance Online](#).

## MOBILITY OUTCOME – OVERVIEW

### AUSTIN TRANSPORTATION

The Austin Transportation Department (ATD) supports the Mobility outcome with \$47.5 million to deliver a safe, reliable, and sustainable multi-modal transportation system that enhances the environment and economic strength of the region for our residents, businesses, and visitors. ATD is responsible for the following aspects of transportation, mobility, and safety: roadway signage and markings, traffic engineering, traffic and pedestrian signals, ground transportation service regulation, on-street parking, parking meters, City-owned parking lots and garages, transportation systems planning, the active transportation network, permitting and coordination of special events in the City's right of way, permitting and coordination of construction and maintenance in the City's right of way, traffic calming, and implementation of the Corridor Construction Program as part of the 2016 Mobility Bond.

One of ATD's goals is to continue increasing the percent of residents "satisfied" or "very satisfied" with the traffic signal timing and traffic flow on major City streets. As expected, residents of Austin are frustrated with recurring traffic congestion on our transportation networks caused by over a decade of economic expansion and growth in the region. Because there are limited options to expand capacity, ATD focuses on completing missing links in the roadway network and providing travel alternatives so that residents, visitors, and businesses can find alternatives within the available

networks for mobility. In support of this goal, ATD operates the Advanced Transportation Management System (ATMS) housed within the Transportation Management Center to monitor congestion and enhance signal timing. In the last two years, ATD has added more staff to achieve the national best practice of retiming approximately one third of the City's more than 1,000 signals each year. As a result, citizen satisfaction with signal timing has begun to rebound from the FY 2015-16 low of 35%.

With planned capital spending related to the Mobility outcome for FY 2018-19 of \$67.7 million, ATD will continue implementation of projects as part of the 2012 and 2016 Bond Programs. Initial design work on the nine corridors within the Corridor Construction Program accounts for \$34.0 million, or 50%, of ATD's projected spending. Other project highlights include installation of bikeway infrastructure, safety improvements to intersections with high crash occurrences, improvements to East 51<sup>st</sup> Street, and partnership funding for a Texas Department of Transportation (TxDOT) regional roadway project at RM 620/RM 2222. The remaining spending encompasses routine installation of new and replacement traffic signals, pedestrian hybrid beacons, and traffic calming devices.

### AVIATION

The Aviation Department operates the Austin-Bergstrom International Airport, which opened in 1999 and has seen passenger growth at an annual rate of almost twice the national average since that time. The current Barbara Jordan Terminal has exceeded its capacity of 11 million annual passengers and work is underway on an additional nine-gate terminal expansion that will increase capacity to 15 million annual passengers. The FY 2018-19 budget supports the Mobility outcome through funding of \$59.8 million for operating and maintaining the various terminal and parking facilities at the airport.

The airline cost per enplaned passenger is one of the Aviation Department's key indicators and a key indicator of the airport industry. This measure is a function of airport costs and enplanement

trends. As the airport has grown, the Department has been able to maintain costs per enplaned passenger at or below the national average to remain competitive.

In keeping up with passenger growth and to prepare for future growth, airport capital spending in FY 2018-19 is \$260.2 million for terminal, airfield, and parking services expansions. More than 46% of the planned spending is related to construction of a new parking garage and administrative building. Scheduled to open by summer 2019, this six-story garage will add 6,000 parking spaces while keeping the development in a smaller footprint as compared to surface parking facilities. The

structure will also incorporate a consolidated administration facility for Aviation staff, thereby allowing the existing mezzanine level within the terminal to be converted into revenue-generating concessions and services for passengers. Another major project, construction of the over 200,000-square-foot, nine-gate terminal expansion, is in progress and is also anticipated for completion in 2019. The new terminal will allow additional and larger aircraft access to and from the terminal building and increase domestic and

international travel capacity. Finally, the design phase is underway to consolidate the various maintenance and facility functions at the airport into a single location. These functions are currently located at various locations among the entire airport campus and are currently not sufficient in size or conditions for a comfortable, efficient maintenance operation. Construction of the consolidated maintenance facility will begin in 2019 and is scheduled to be complete in summer of 2020.

### **FLEET SERVICES**

Fleet Services is the third largest component of the Mobility outcome, with total funding of \$55.1 million. Fleet Services provides a full range of fleet-related services to City departments in support of their missions serving the residents of Austin. The service centers comprise 56% of Fleet's operating budget. Fleet Services is responsible for the acquisition, maintenance, fueling, and disposal of approximately 6,500 vehicles and other related equipment utilized by the City. Fleet

Services' goal is to implement transformational strategies that optimize fleet costs and sizing to meet the mobility needs of City of Austin departments and employees.

Fleet Service's FY 2018-19 capital planned spending totals \$21.8 million. Fleet's capital program primarily focuses on vehicle and equipment purchases and reinvestment in Fleet service centers and fueling facilities, as well as upgrading and implementing information technology that will allow for improved services and working relationships. As part of Fleet Services' green fleet optimization strategies, Fleet is investing in alternative fueling infrastructure which includes electrification, compressed natural gas, and bio-diesel.

**PUBLIC WORKS**

The Public Works Department (PWD) supports the Mobility outcome with a \$61.2 million budget. PWD provides a range of services, including maintenance of streets, bridges, sidewalks, and urban trails. In support of the "condition of transportation-related infrastructure" indicator, work crews patch potholes, resurface streets, repair utility cuts, maintain the City's medians, manage right-of-way maintenance of trees, and respond after storms. The Department uses various treatments and applications in order to improve the roadway surface and increase the lifespan of streets, with the goal of maintaining 80% of the City's 7,800 lane miles in fair or better condition. Scheduled preventative maintenance helps prolong the life of the streets by protecting the surface from the effects of aging, cracking, deterioration, and water infiltration. The percent of City streets that are in fair to excellent condition has been in slow decline since FY 2014-15 due to aging infrastructure.

The Department also operates the Neighborhood Partnering Program, which provides opportunities for community and neighborhood organizations to effect public improvements by sharing in the costs of those efforts with the City of Austin government. Projects completed in the previous year include sidewalks, community gardens, murals, and trail lighting.

With planned capital spending in the Mobility outcome for FY 2018-19 of \$30.7 million, PWD's main focus is on capital renewal of the City's aging mobility infrastructure, which includes streets, bridges, and sidewalks, but also addresses growing needs in urban trails and infrastructure to support safe routes to school. Project highlights include design of the extension of Meadow Lake Boulevard and Jain Lane, construction of the Upper Boggy Creek Trail Phase 1, design for the Red Bud Trail Bridge over Lady Bird Lake, and curb ramp and bus stop improvements at various locations across the city.

#### OTHER MOBILITY OUTCOME PROGRAMS

Other City departments play smaller roles in supporting the Mobility outcome. These functions include:

- Austin Police Department funding of DWI enforcement and 'No Refusal' weekends, motorcycle patrol for school zones and major highways, and traffic control (\$8.7 million);
- Austin Energy's electric vehicle program, which provides charging stations throughout the city, incentives for purchasing electric vehicles, and education and outreach to individuals and businesses (\$2.0 million);
- Development Services inspection of site/subdivision plans to estimate traffic impact and to ensure new transportation infrastructure meets City requirements (\$1.5 million); and
- Parks and Recreation maintenance of trails within City parkland (\$1.2 million), parking management (\$589,000) and provision of senior transportation services (\$106,000).

## MOBILITY OUTCOME – NOTABLE CHANGES & HIGHLIGHTS

**AIRPORT PARKING GARAGE & ADMINISTRATIVE BUILDING:** Construction will continue on a new parking garage and administrative building at Austin–Bergstrom International Airport (ABIA) with spending of \$120.2 million in FY 2018-19.

Scheduled to open by summer 2019, this six-story garage will add 6,000 parking spaces while keeping the development in a smaller footprint as compared to surface parking facilities. The structure will also incorporate a consolidated administration facility for Aviation staff, thereby allowing the existing mezzanine level

within the terminal to be converted into revenue-generating concessions and services for passengers. To accommodate the expanded parking services, the vendor contract is increasing by \$1.4 million.

**AIRPORT TERMINAL EXPANSION (CURRENT):** The ABIA Barbara Jordan Terminal has surpassed its original design capacity of 11 million annual passengers. In FY 2016-17, the airport handled 13.4 million total passengers. This terminal and apron expansion is designed to accommodate up to 15 million passengers with the construction of over 200,000 square feet, and is anticipated for completion in summer 2019. The nine-gate terminal and apron expansion will allow additional and larger aircraft access to and from the terminal building and increase domestic and international travel capacity. The budget includes \$4.7 million for 49 new positions in the Aviation Department to accommodate growing passenger traffic, including 12 new positions to staff the new terminal.

**BICYCLE SAFETY AND BIKEWAY IMPROVEMENTS:** Austin Transportation plans to improve bikeways along the I-35 corridor, Rio Grande Street, Nueces Street, Jones Road, and Speedway north of the University of Texas. These projects will benefit all commuters in the city by improving safety and mobility options for bikers while simultaneously decreasing the number of vehicles on the roadways. Most of these improvements are slated to begin in 2019, with many of them reaching completion by the end of 2020, and spending in FY 2018-19 is projected to be \$4.1 million. The entirety of the planned programs will be completed by 2023. **TOP TEN**

**CAPITAL AREA METROPOLITAN PLANNING ORGANIZATION (CAMPO) MATCHING GRANT PROJECTS:** Austin Transportation's FY 2018-19 capital spending includes \$9.5 million in a match for CAMPO grants for work that will add roadway capacity, increase Intelligent Transportation Systems capabilities, improve pedestrian safety, provide recreational and active transportation facilities, and fund programs for Travel Demand Management. **TOP TEN**

**CITYWIDE PEDESTRIAN SAFETY DEVICES:** The Austin Transportation Department has \$1.7 million in planned capital spending in FY 2018-19 for installing pedestrian safety devices at locations across the city. The construction phase of these projects began in 2017 and should to be completed in September of 2019. **TOP TEN**

**CORRIDOR CONSTRUCTION PROGRAM:** Austin Transportation's FY 2018-19 capital program anticipates spending \$34.0 million for the initial design work on the nine corridors within the Corridor Construction Program and continuing preliminary engineering on the eight corridors not identified for construction funding. This program is being administered by the Corridor Program Office. **FC**

**CORRIDOR PROGRAM OFFICE LEASE AND WORK CREWS:** Austin Transportation has \$1.3 million added in FY 2018-19 for a new lease for the Corridor Program Office (CPO) and work crew costs.

**EAST 51<sup>ST</sup> STREET IMPROVEMENTS:** Austin Transportation's FY 2018-19 capital spending includes \$2.3 million for projects along East 51<sup>st</sup> Street from Interstate 35 to Berkman Drive adjacent to the Mueller Development. These improvements will enhance mobility and safety in the corridor using the Complete Streets guidelines, improving commutes for people traveling by car, bicycle, public transit, or as pedestrians. Construction is slated to begin in early 2019 and be completed by the middle of 2020. **TOP TEN**

**ENHANCED FLEET STAFFING:** The FY 2018-19 Fleet Services' budget includes funding for ten positions to support service expansion and improving customer service, quality control, and implementing emerging technology into Fleet's operations.

**ENHANCED TRANSPORTATION STAFFING:** Nine positions and \$1.9 million are being added to the Austin Transportation Department budget in FY 2018-19 to provide additional planning, analysis, maintenance, management, and support services.

**FLEET ELECTRIFICATION INFRASTRUCTURE:** The FY 2018-19 Fleet Service's capital program includes \$522,000 in planned spending for the installation of electric vehicle-charging stations to support the planned electrification of over 300 vehicles in the City's fleet by 2020. This is in alignment with Fleet Service's green fleet strategy and Council's goals related to increasing electrification and use of other alternative fuels. In addition, this is part of Fleet's role in a smart city strategy, which includes connected vehicles, electrification, car-sharing, shuttle service, and other initiatives designed to optimize service to residents and minimize cost in an environmentally responsible manner. **IFC**

**FLEET FACILITY RENOVATIONS:** The FY 2018-19 Fleet Service's capital program includes \$2.1 million in planned spending to begin renovating aging facilities to ensure adequate working conditions and to make fuel infrastructure improvements and modernizations. **TOP TEN**

**INTELLIGENT TRANSPORTATION SYSTEM AND TRAFFIC SIGNAL OPTIMIZATION UPGRADES:** Austin Transportation's FY 2018-19 capital program provides \$2.7 million in spending for upgrades to the intelligent transportation system and traffic signal infrastructure. Upgrades to the systems began in 2017 and are expected to be completed by fall 2021. **TOP TEN**

**LOCAL AREA TRAFFIC MANAGEMENT (LATM) FUNDING:** Austin Transportation has \$1.6 million in capital spending planned in FY 2018-19 for the LATM Program, which will be used to install traffic calming devices in neighborhoods that request assistance. These devices include median slow points,

roundabouts, speed cushions, speed humps, and curb bulb outs. The bulk of these projects will be completed by the end of 2020.

**NEW 2017 AIRPORT MASTER PLAN:** In 2017 the airport began developing a new master plan to replace the outdated 2003 master plan based on passenger growth, which substantially exceeded original growth projections. In order to accommodate this continuing high growth in passengers, the master plan will serve as a strategic plan and provide long-term guidance for future airport improvements required to satisfy regional aviation demands. This master plan will address the development of landside, terminal, and airside facilities for the next twenty years.

Based on the master plan, which will be submitted to City Council in October 2018 for approval, the FY 2018-19 Aviation spending plan includes \$16.8 million to begin planning for a new terminal and concourse to accommodate increased airline and passenger traffic. The new terminal will plan for 10 to 20 gates, apron and taxiway expansions, a new departure hall, and ground transportation center. The departure hall will allow for baggage handling, ticketing, and security areas to expand to support the projected growth in passengers.

**PARKING MANAGEMENT:** Twelve new positions and \$1.1 million is being added to the Austin Transportation Department budget for enforcement, maintenance, and support services related to managing the City's parking infrastructure. The additional staffing includes six parking enforcement officers and two parking meter technicians to cover residential parking program expansions and additional parking garages. The remaining four positions are needed to support the overall growth of the parking programs.

**PERMANENT DOWNTOWN PUBLIC RESTROOMS:** Following a successful pilot program this year, Austin Transportation Department is moving forward with the planning and implementation phases to provide permanent public restrooms in the downtown corridor. Using field-tested information from the pilot programs, two potential locations have been selected: East 7<sup>th</sup> Street and Southbound I-35 Frontage Road and the 500 Block of Brazos Street. In addition, a semi-permanent facility on Trinity Street near Brush Square Park is being recommended. Included in the Parking Management Fund's FY 2018-19 budget is \$500,000 for the implementation of the proposed plan. **IFC**

**RIGHT OF WAY MANAGEMENT:** Five additional positions and \$450,000 are being added in ATD to address increased permitting activity in the Right of Way Management program. One of the positions, a permit and license review analyst, will encourage and support community-driven uses of public space in the public right of way by providing management services that are aligned with national best practices and the outcomes desired by our community.

**RM 620 AT RM 2222 IMPROVEMENTS:** Austin Transportation Department's FY 2018-19 capital spending plan includes the remaining \$2.3 million of a \$7.5 million project to complete improvements at the intersection of RM 620 and RM 2222 near Steiner Ranch to include enhancements for pedestrian, bicycle, and vehicular traffic. The preliminary and design phases are already underway and construction is slated to be completed by the end of 2019. **TOP TEN**

**SAFETY IMPROVEMENTS AT I-35 AND BRAKER LANE:** Early in 2019 work will begin on safety improvements at the intersection of Interstate 35 and Braker Lane. Planned improvements include raised medians, ADA-compliant pedestrian ramps, sidewalks, and associated signing, striping, and paving. Total spending in FY 2018-19 is projected at \$605,000. **TOP TEN**

**SLAUGHTER LANE IMPROVEMENTS:** The FY 2018-19 ATD capital program is expected to spend \$2.0 million for improvements along Slaughter Lane at South 1<sup>st</sup> Street, Manchaca Road, and Cullen Lane. These improvements include new dual left-turn lanes, upgraded pedestrian ramps, high-visibility crosswalks, and new traffic signals. Implementation of these intersection improvements are expected to begin in early 2019 and be completed by 2022. **TOP TEN**

**SMART MOBILITY AND SMART TRIPS PROGRAMS:** ATD has \$295,000 in spending planned during FY 2018-19 for the Smart Mobility Program. This program deploys new technologies that move people and goods through the city in faster, safer, cleaner, more affordable, and more equitable ways. Additionally, \$600,000 is planned in spending during FY 2018-19 for the Smart Trips Program. This program aims to reduce single-occupant vehicle trips and increase transit by foot, bike, bus, or shared car. **TOP TEN**

**TRANSPORTATION DEMAND MANAGEMENT:** Austin Transportation Department's budget includes an additional \$600,000 and two positions for expansion of its Transportation Demand Management program to encourage sustainable modes of travel and relieve traffic congestion in Austin and its regional neighbors. The program promotes solutions that move trips to off-peak hours or shift drive-alone trips to other forms such as public transit, walking, biking, teleworking, carpooling, and vanpooling. **TOP TEN**

**TRANSPORTATION INFRASTRUCTURE MAINTENANCE:** The FY 2018-19 Public Works budget includes \$415,000 for 3.5 new positions and \$6.5 million in investments in street preventive maintenance, sidewalk improvements, and ADA ramp, curb, and gutter improvements to address deteriorating infrastructure and improve accessibility. This budget also includes \$768,000 for the first year of a three-year contract to inventory and record the condition of the City's transportation infrastructure assets. **TOP TEN**

**VEHICLE ACQUISITION:** Fleet Services plans on contracting to purchase 322 vehicles and related equipment in FY 2018-19, with 86% attributable to public safety departments, with a total cost of \$22.5 million. Most notably, the Austin Police Department is replacing 130 patrol vehicles (\$5.4

million); the Austin Fire Department is replacing two pumper trucks, one ladder truck, one brush truck, and one rescue truck (\$4.0 million); and Emergency Medical Services is replacing 11 ambulances (\$3.5 million). The fleet will also be increasing by 61 vehicles at a cost of \$4.0 million to enhance APD and AFD's reserves and to outfit new officers and inspectors within AFD. This purchase is supported by a reimbursement resolution for the future issuance of Contractual Obligations.

**VISION ZERO:** Austin Transportation Department has \$300,000 budgeted in FY 2018-19 for the operating costs related to Vision Zero. Vision Zero is a multinational movement that aspires to reduce the number of people killed or seriously injured in traffic crashes to zero. Austin strives to reach this goal by 2025. Also included is \$500,000 to reimburse the Austin Police Department for costs incurred with Vision Zero enforcement. **FC**

**WALLER CREEK DISTRICT:** PARD plans to spend \$2.0 million, funded through Certificates of Obligation backed by the Waller Creek Tax Increment Financing Reinvestment Zone, for design and construction of trail improvements in the Waller Creek District. Funding will be leveraged with Waller Creek Conservancy and implemented according to the project prioritization plan. **TOP TEN**

The Safety outcome is aimed at ensuring that every Austinite feels safe at home, at work, and in our community. Overall, \$966.0 million of the FY 2018-19 operating budget supports the Safety outcome. Council established five indicator categories for measuring success in the Safety outcome:

- Success of emergency response
- Community compliance with laws and regulations (actual and perceived)
- Emergency prevention, preparedness, and recovery
- Quality and reliability of critical infrastructure
- Fair administration of justice 

The largest cost drivers for the Safety outcome come from the three public safety departments: Police, Fire, and half of Emergency Medical Services (EMS). Collectively, these service areas comprise \$563.4 million, or 58% of the total Safety outcome. The next largest component comes from the City's two utilities, Austin Water and Austin Energy, with combined funding for the Safety outcome of \$234.9 million, primarily related to the maintenance and operations of water and wastewater treatment plants, electric substations, and the electric transmission system. Watershed Protection helps keep Austin safe through \$35.9 million supporting flood mitigation, watershed management, storm water pond safety, and stream restoration programs. Other key contributors to the Safety outcome include Animal Services, Austin Code, Aviation, Communications and Technology Management, Development Services, Municipal Court, and Parks and Recreation. Each of these service areas are described in more detail later in this section.

The Capital Improvements Program (CIP) budget for the Safety outcome supports planned spending of \$162.0 million in FY 2018-19. Austin Water is the largest component at \$65.4 million, or 40%. Major project expenditures are related to upgrades and improvements to the South Austin Regional Wastewater, Walnut Creek Wastewater, and Davis Water Treatment Plants. Communications and Technology Management (CTM) and the Watershed Protection Department each represent 17% of overall Safety outcome planned CIP spending for a combined total of \$55.4 million. Flood hazard mitigation and upgrades to public safety mobile data communications and the Greater Austin-Travis County Regional Radio System (GATRRS) constitute nearly 45% of this intended spending.

Following is Austin Energy with \$18.4 million, or 11% of planned spending. This funding supports numerous programs that are essential to the safe and uninterrupted delivery of electric services, including downtown substations, District Cooling Plant No. 3, as well as distribution relocation, replacement, growth, and network improvements. Finally, in the Police and Fire Departments, work continues on the new mounted patrol facility and three fire stations, with \$6.0 million in planned spending on these projects. The chart on the next page summarizes CIP spending on the Safety outcome for FY 2018-19. The “Other” chart category includes planned capital spending for Aviation, Building Services, and Emergency Medical Services.

## SAFETY OUTCOME – OVERVIEW

### ANIMAL SERVICES

Animal Services supports the Safety outcome through \$5.4 million for the provision of prevention, placement, protection, and veterinarian services for the City of Austin and the unincorporated areas of Travis County. In partnership with community organizations, Animal Services provides a safety net for lost and homeless pets and is dedicated to sustaining Austin’s no-kill commitment of achieving live outcomes for at least 97% of the companion animals that enter the shelter each year.

Throughout the year, Animal Protection Officers serve the community by protecting threatened animals; working closely with law enforcement to contain or help aggressive animals; assisting other agencies with wildlife, such as coyotes, deer, bats and rodents; and ensuring the City’s animal ordinances are followed. In FY 2016-17, Animal Protection responded to over 33,000 calls County-wide, including calls involving loose dogs, animal bites, and dangerous dogs.

**AUSTIN CODE**

At \$18.3 million, the largest portion of Austin Code’s budget supports the Safety outcome. Services include case investigations, licensing and registration compliance, and public education. The Case Investigations unit responds to and investigates more than 25,000 code complaints annually with approximately 23% of investigations resulting in notices of violation being issued.

The Licensing and Registration unit ensures that billboards, hotels, motels, rooming and boarding houses, private waste haulers, mobile home parks, short-term rentals, and “repeat offenders” are properly licensed or registered and in compliance with City code. In FY 2017-18, Austin Code estimates issuing 3,900 licenses and registrations, including 1,975 short-term rental licenses.

Voluntary compliance and education continues to be an area of focus for Austin Code. Austin Code provides education and customer focused services for Austin residents to improve community awareness and basic understanding of local code requirements. The Department also operates the Code Connect phone line to respond to property owners' technical code information requests throughout the life of a case and to build an informed community through community outreach and education, thereby resulting in improved voluntary compliance.

**AUSTIN ENERGY**

Austin Energy is the municipally owned electric utility serving 480,000 customer accounts in the city of Austin and surrounding communities. With funding of \$177.5 million, Austin Energy is the second largest portion of the Safety outcome after the Austin Police Department. AE's business operations of transmission and substation maintenance, transmission system line clearance, and emergency management are essential services that contribute to the safety of the community by keeping power and energy service safe and reliable for everyone. Ensuring the City's energy services operate efficiently and with minimal disruption is critical to protecting a community and its economy.

Two key reliability metrics, the System Outage Duration Index (SAIDI) and the System Outage Frequency Index (SAIFI), remain below industry benchmarks. SAIDI defines the average outage duration for each customer served during the fiscal year. It is a direct measure of the reliability of the distribution system. The SAIDI numbers are expected to improve in FY 2018-19 as a result of line clearance and maintenance programs that are focused on improving system reliability.

With planned capital spending related to the Safety outcome for FY 2018-19 of \$18.4 million, Austin Energy will be making numerous infrastructure upgrades. The majority of this spending is for routine infrastructure maintenance but three noteworthy projects are:

- A third cooling plant for downtown that will add 5,000 to 10,000 tons of additional chilled water capacity (\$6.6 million);
- Residential phase improvements required to serve 120-volt residential customers (\$3.4 million); and
- Updated chiller equipment for the Domain District to modernize the cooling plant through replacement of outdated infrastructure (\$818,000).

**AUSTIN FIRE DEPARTMENT**

The Austin Fire Department (AFD) FY 2018-19 budget supports the Safety outcome with \$172.1 million in funding. AFD serves the residents of Austin with 107 fire apparatus and 49 fire stations supporting a service territory of 277 square miles. AFD responds to approximately 87,000 incidents per year and roughly 70% of these responses are medical in nature. AFD’s goal is to have the first arriving frontline unit reach the emergency location within 8 minutes of call receipt in 90 percent of emergency incidents. This target aligns with the national benchmark for fire departments to meet the 90th percentile for emergency response times. While AFD strives to provide the best service delivery throughout all areas of the city, challenges to maintain adequate unit response times continue to grow as the city expands geographically. To begin addressing this need, a new fire station is on track to open in the Onion Creek area later this year and design work will begin on two additional stations to be located in the areas of Del Valle and Travis Country.

AFD's Arson Investigations Division is responsible for investigating the origin, cause, and circumstances of a fire, and determining whether it was accidental or criminal in nature. AFD consistently exceeds the national percentage of arson cases cleared by arrest. The national percentage of arson cases cleared by arrest ranges from 18 to 21%. In FY 2017-18 AFD projects a 45% cleared by arrest rate for all arson cases.

The Wildfire Division anticipates roughly 40 "Firewise" community presentations per year and treats roughly 1,800 acres of land annually for wildfire prevention. The Wildfire Division continues to collaborate with various organizations, including Fish and Wildlife, Nature Conservancy, Parks and Wildlife, and Austin Water to perform wildfire mitigation throughout the County and surrounding areas.

AFD's prevention and education programs play a critical role in reducing the likelihood that an Austin resident will perish in a fire. AFD's goal is to achieve zero fire deaths through a coordinated effort of prevention, education, and fire response activities.

As a result of the City's outstanding fire service, the Insurance Services Office (ISO) recently raised Austin's ISO rating from a Class 2 to a Class 1 (1 is the best on a scale of 1 to 10). The Class 1 designation represents superior fire protection, a classification conferred on only 204 cities throughout the United States.

### AUSTIN POLICE DEPARTMENT

The Austin Police Department (APD) is the largest component of the Safety outcome with \$349.7 million in aligned funding. Austin is consistently ranked as one of the safest large cities in the nation to work and live and this standard is strengthened through the dedication of our public safety personnel. This budget continues our commitment to safety through funding of 1,929 sworn police personnel, 731.25 civilians, 24 canines, and 16 horses. The Department responds to more than 580,000 incidents on average every year.

APD provides quality police services to the residents of Austin, Texas, in a variety of ways. Officers assigned to patrol and field operations respond to calls for service, provide traffic control, and assist citizens in solving neighborhood problems to enhance their quality of life. Highway Enforcement officers conduct investigations of serious injury collisions, special traffic initiatives, abandoned vehicle removal, and DWI enforcement. APD has a number of specialized units committed to keeping Austin safe, including Gang Suppression, Auto Theft Interdiction, Child Abuse, Financial Crimes, Digital Forensics, Homicide, Special Events, Training, and Recruiting. The Department also has civilian support units including Forensics, Crime Analysis and Crime Records, Human Resources, Financial Management, and 9-1-1 Communications, as well as units that provide community outreach through the Police Activities League and Police Explorer Post, Citizens' Police Academy, Blue Santa, and the National Night-Out Program.

<b>Austin Police Department (Key Performance Indicators)</b>	<b>FY14 Actual</b>	<b>FY15 Actual</b>	<b>FY16 Actual</b>	<b>FY17 Actual</b>	<b>FY18 Estimated</b>
<i>Part I property crime rate per 1,000 population</i>	41.42	37.71	35.09	34.25	30.82
<i>Part I violent crime rate per 1,000 population</i>	3.96	3.73	4.08	4.26	4.58
<i>Part II (quality of life) crime rate per 1,000 population</i>	91	85	79	82	72

Reducing violent and property crime rates are central in the safeguarding of our communities and city. Last year, the City ranked as the fifth safest U.S. large city for violent crime and thirteenth for property crime. In recent years, however, violent crime statistics have been on the uptick while property crime rates have dropped nearly 20%.

The Neighborhood-Based Policing program—comprised of Patrol, Patrol Support, Community Partnerships, Specialized Patrol and Events Planning, and Traffic Enforcement activities—represents nearly one-half of APD’s FY 2018-19 budget. The Patrol regions use directed patrols and tactical teams to supplement regular patrols in order to address emerging crime “hot spots” quickly and to prevent ongoing crime issues. Hot spots and other emerging trends are identified by crime analysts using data analysis to link call volume and crime patterns. Patrol Support, which includes district representatives and detectives, are often used in the crime reduction/prevention strategies as well.

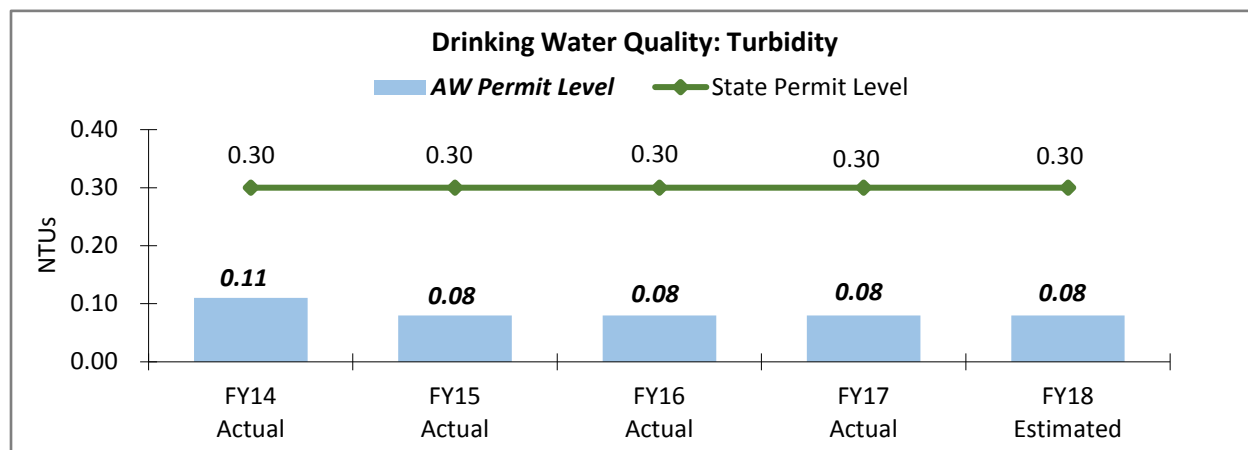

Ensuring that enforcement practices and justice processes are accountable, fair, equitable, impartial, and transparent is an essential component of building community trust. In support of these efforts, the Police Department is committed to enhancing the academy training model for cadets to focus on diversity and plans to incorporate additional diversity training that will include community members participating in the class with cadets. The Police Chief has also initiated Department-wide conversations about expectations related to officer conduct, focusing on newly offered de-escalation trainings and an increased emphasis on guardian-style policing, in which officers are working alongside and building trust with the community.

**AUSTIN WATER**

With \$57.3 million of total funding for the Safety outcome, Austin Water (AW) works to ensure a safe and healthy water supply for the community through its water and wastewater treatment activities. AW draws water from the Colorado River into three regional water treatment plants that have a combined maximum capacity of 335 million gallons per day. Drinking water is pumped from the plants into Austin’s water distribution system, which has a total reservoir storage capacity of approximately 170 million gallons. Wastewater is treated into high-quality effluent that is either safely returned to the Colorado River to augment environmental flows or recycled into reclaimed water. More than a billion gallons of high-quality effluent was reclaimed during FY 2016-17 for outdoor irrigation, industrial cooling, manufacturing, and other uses.

One way to assess drinking water quality is to examine its turbidity, or the relative clarity of a liquid. Turbidity is measured in Nephelometric Turbidity Units (NTU) and is an excellent measure of plant optimization to ensure maximum public health protection. NTUs of 1.0 or less generally are not detected by the naked eye. Per the Safe Water Drinking Act, the permit level for drinking water turbidity is less than 0.30 NTUs 95% of the time. The graph on the previous page shows the consistency with which AW has exceeded the national standard.

The quality level of treated wastewater effluent is likewise assessed. AW compares the actual level of Carbonaceous Biochemical Oxygen Demand (CBOD), in milligrams per liter (mg/L), to the permitted level mandated by the Environmental Protection Agency (EPA) and the Texas Commission on Environmental Quality (TCEQ). Austin's wastewater treatment measures have historically been well below the permitted level of 10.00 mg/L. AW projects CBOD for FY 2017-18 at 3.0 mg/L.

AW's capital spending on projects related to the Safety outcome for FY 2018-19 is estimated at \$65.4 million. Project highlights include upgrades to electrical systems, replacement of aging infrastructure, and updates to the computerized operations system (SCADA) to ensure resiliency, prevent redundancy, and improve efficiency. This spending emphasizes replacement and rehabilitation of critical assets throughout the water and wastewater systems, including pipes, valves, treatment plants, pump stations, reservoirs, and lift stations. The focus on rehabilitation and replacement of older assets can reduce operating costs by increasing the efficiency of the system. In recent years, Austin Water has aggressively increased its efforts to cash fund its capital improvements, which in turn has proven to be the most effective way to keep retail rates low because of the decreased debt service costs.

#### **COMMUNICATIONS AND TECHNOLOGY MANAGEMENT**

Communications and Technology Management (CTM) is the City of Austin's principal information technology (IT) department and focuses on the delivery and operations of vital IT infrastructure network and telecommunications services, continuous service improvement, and solutions to enable customer success. Ever-increasing demands for information drive requirements for technology support, system upgrades, increased data storage and bandwidth, project management, public

safety support, web and mobile services, and interoperability of communication services. CTM has worked to meet these demands while sustaining and improving service. CTM works in partnership with IT groups from other departments to deliver and sustain technology solutions across the City. With 325 staff housed in six locations and a Safety outcome budget of \$37.5 million, CTM provides support for the Combined Transportation, Emergency and Communications Center (CTECC) call center infrastructure, public-safety-related information technology, wireless communication infrastructure, mobile data computing, electronic vehicular equipment, and body worn cameras.

The budget for CTECC supports requirements for the City of Austin, as well as its partner agencies—Travis County, Capital Metro and the Texas Department of Transportation. Costs for CTECC are also shared among these various agencies. The FY 2018-19 budget for CTECC includes \$600,000 for replacing storage for APD in-car video systems, \$526,000 for additional public safety data storage, \$550,000 to replace network devices at the CTECC facility, \$450,000 for public safety back-up systems, and \$1.1 million for replacement of other critical public-safety-related technology infrastructure.

The Wireless Communication Services division is responsible for maintaining a high measure of reliability for users of the regional radio system within Austin/Travis County, Williamson County and other jurisdictions as well as the installation and repair of voice radios, mobile data computers, data radios, sirens, emergency lighting, and automatic vehicle location devices on public safety vehicles. Included in the Wireless budget for FY 2018-19 is \$3.0 million for replacement of public safety hand-held radios, \$2.1 million for replacement of mobile data computers used by public safety departments, and \$2.4 million for replacement of various other critical public-safety-related technology infrastructure.

#### **DEVELOPMENT SERVICES DEPARTMENT**

Approximately \$11.6 million of the Development Services Department's (DSD) FY 2018-19 budget tracks to the Safety outcome through the provision of plan reviews, building inspections, urban forestry services, and general land permits. On average, DSD performs about 275,000 inspections, completes 12,000 residential plan reviews, and issues 3,700 land use review permits every year.

DSD has certified commercial and residential building inspectors, electrical inspectors, and plumbing and mechanical inspectors to ensure that construction is completed in compliance with applicable City building codes, which are enforced to protect the health and safety of structures for the benefit of all. Despite the increase in inspection requests over the last few years, the Building Inspections division met its goal from FY 2013-14 to FY 2015-16 to maintain an on-time inspection rate of

90% within 24 hours of request. The Department fell just below attaining the goal in FY 2016-17, achieving 87% of on-time inspections.

Residential Plan Review provides a comprehensive review service to customers and developers to ensure that structures are in compliance with zoning and other development regulations. Some of the current development regulations include the Residential Design and Compatibility Standards (McMansion) and the Neighborhood Conservation Combining Districts (NCCD) regulation.

The Site and Subdivision Inspections division ensures that all public infrastructure, such as water, wastewater, drainage facilities, streets, and sidewalks are built safely and according to plans and specifications.

### ***EMERGENCY MEDICAL SERVICES***

Emergency Medical Services' (EMS) FY 2018-19 budget supports the Safety outcome through funding of \$41.6 million. The Department provides essential health care and public safety services to 1.2 million people across 1,043 square miles of Austin/Travis County.

EMS operates 36 full-time ambulance units and 6 demand units, responding to more than 130,000 incidents per year. EMS services associated with the Safety outcome include emergency ambulance response, standby support for special events, special rescue services, and plan development for disaster preparedness. In addition, the Department continues to capture response times for all priority calls throughout the system. In FY 2017-18, EMS will continue striving to meet or exceed an on-time rate of 90% for Priority One incidents (potentially life threatening calls) within the city of Austin.

**MUNICIPAL COURT**

The Municipal Court and Downtown Austin Community Court constitute the judicial branch of the City of Austin municipal government. They provide all magistration services for the Travis County jail and handle class ‘C’ misdemeanor cases filed by a number of City departments and outside agencies, such as Austin Independent School District (AISD), Capital Metro, and the Texas Alcoholic Beverage Commission. Cases filed in these courts include: traffic, City ordinance, State law, parking, and red light camera violations.

The Municipal Court’s FY 2018-19 budget includes \$17.0 million in support of Municipal Court’s large role in protecting the safety of the community. In FY 2018-19, Municipal Court projects seeing over 300,000 cases filed, 80,000 cases arraigned, and over 55,000 warrants prepared, all while maintaining a high level of customer satisfaction.

**WATERSHED PROTECTION**

The Watershed Protection Department (WPD) contributes to the Safety outcome via an operating budget of \$35.9 million in support of programs focused on flood risk reduction, watershed management, infrastructure maintenance, stormwater pond safety, and stream restoration.

Flood risk reduction is one of WPD's core mission areas and its importance has been brought to light by recent historic flooding events and natural disasters. The purpose of this program is to reduce flood risks to protect lives and property, and maintain regulatory code and design criteria for new development to protect lives and property from the impact of floods. Continuing buyouts of properties at risk of catastrophic flooding in the Onion Creek and Williamson Creek watersheds is

crucial to this, thereby providing the financial means for families to relocate to safer locations and removing these hazardous properties from the City's housing stock. To date, 85% of at-risk properties within identified project areas in these watersheds have been acquired.

The Infrastructure and Waterway Maintenance program is responsible for maintaining the stormwater conveyance system, which consists of creeks and waterways, storm drain pipes, and structural controls such as detention ponds. In FY 2016-17, WPD crews cleared five miles of open channels, cleaned over 14 miles of storm drains, and removed over 1,600 tons of debris from the Waller Creek Tunnel Inlet Facility.

The purpose of the Stream Restoration program is to decrease property loss, reduce safety hazards, and protect infrastructure from eroding stream banks, while improving stream ecological health and increasing the beneficial uses of waterways by implementing sustainable stream stabilization and restoration projects. This includes stream improvement projects within the urban core and those to protect residential properties from the impacts of creek erosion. In FY 2016-17, the Stream Restoration program restored more than 5,300 linear feet of streams through in-house and capital projects.

Planned capital spending by WPD in support of the Safety outcome for FY 2018-19 is estimated at \$27.0 million. Active capital improvement projects include planning efforts for the stream restoration surface improvements in the Waller Creek District, design for the stabilization of Country Club Creek in southeast Austin to protect parkland assets, and design for the reduction of flood risk in the Oak Park and Oak Acres subdivisions.

#### **OTHER SAFETY OUTCOME PROGRAMS**

Numerous other City offices and departments play smaller roles in supporting the Safety outcome. These functions include:

- Austin Bergstrom International Airport funding for air/fire rescue, airport security, and police operations at the airport (\$21.7 million);

- Parks and Recreation maintenance of the safety of City-owned facilities and play structures, park rangers, and youth swimming lessons (\$12.8 million);
- Building Services' provision of hazardous materials mitigation and facilities security services (\$2.7 million);
- Office of Homeland Security and Emergency Management delivery of emergency preparedness and recovery services to all of Austin (\$1.8 million);
- Office of the Medical Director provision of comprehensive clinical oversight of all out-of-hospital emergency care provided in the Austin-Travis County Emergency Medical Services system (\$1.8 million);
- Office of the Police Monitor review of concerns and complaints of administrative violations of Austin Police Department policy (\$562,000); and
- Law Department civil litigation and prosecution activities (\$480,000).

## SAFETY OUTCOME – NOTABLE CHANGES & HIGHLIGHTS

**ANIMAL PROTECTION OFFICERS:** The budget includes two Animal Protection Officers and related resources for \$133,000 in ongoing funding and \$195,000 in one-time funding to assist the public with education and compliance with animal regulations, improve field response to residents, and allow for greater proactive resolutions to animal issues. These additional resources are needed because of the increases in Austin and Travis County's population that require Animal Protection services.

**APD MENTAL HEALTH ISSUES STUDY:** The Austin Police Department budget includes \$75,000 in funding to support mental health reform efforts. In FY19 the Police Department will form a steering committee for the APD Mental Health Stakeholder's group that will address findings from an audit report that addressed how Austin Police Department receives and responds to incidents involving people with mental health or other specialized needs.

**AUSTIN-BERGSTROM INTERNATIONAL AIRPORT POLICE OFFICERS:** The Aviation department has experienced enormous passenger and facility expansion in the past several years. But, this enviable growth comes with challenges, particularly in emergency response. Therefore, the FY 2018-19 Aviation budget includes funding for six additional officers dedicated to Airport Patrol. Sworn positions responsible for Airport Patrol are authorized as part of the Police Department budget and funded by Aviation, resulting in no General Fund impact.

**COMBINED TRANSPORTATION, EMERGENCY, AND COMMUNICATIONS CENTER (CTECC) SECURITY UPGRADES:** This centralized multi-jurisdictional regional public safety facility is adding \$820,000 for security information encryption for federal Criminal Justice Information Services (CJIS) related networks.

**DEL VALLE AND TRAVIS COUNTRY FIRE STATIONS:** In June 2018, City Council approved an expedited development timeline and funding for the design and land acquisition for two additional fire stations

to be located in the Del Valle and Travis Country neighborhoods. FY 2018-19 initial CIP spending on these two stations is projected at \$5.4 million. These stations are expected to reduce emergency response times in the outer areas of the city difficult to reach from current locations. The following chart shows a five-year history of Fire Department response times in these areas. 

**90<sup>th</sup> Percentile Response Times for Emergency Incidents Only (in minutes) \***

Two New Stations	FY14	FY15	FY16	FY17	FY18 Estimated
Del Valle/Moore's Crossing	12:12	12:34	13:00	12:50	13:30
Travis Country	11:15	12:02	11:18	12:16	11:48

\* AFD's goal is to respond to 90% of emergency incidents in 8 minutes or less

**FIRE DEPARTMENT LOCKER ROOM PROJECT:** Presently in phases 5 and 6, these improvements include locker room and restroom additions to address existing gender inequities as well as other upgrades. Phase 6 will continue in FY 2018-19 with planned spending of \$5.0 million to begin work on the most challenging and difficult tasks remaining. To date, \$6.2 million has been spent on all phases of this project.

**FIRE DEPARTMENT OVERTIME REDUCTION:** In recent years, an additional \$6.5 million was appropriated to the Austin Fire Department to address rising overtime expenses. AFD began an aggressive recruiting and hiring process to fill vacant positions, which ultimately reduced the need to utilize overtime to fill vacant spots. As a result, a \$2.6 million reduction was made in FY 2017-18 and an additional \$3.0 million reduction will be made in FY 2018-19. AFD will continue to review the impact of maintaining a lower vacancy rate and changes in nonproductive overtime made through the labor agreement, which could result in future reductions to the sworn overtime budget.

**FIRE INSPECTIONS:** Four civilian positions are being added to the Prevention Division of AFD in FY 2018-19, which will allow the unit to meet new demands and increase the number of fire inspections performed. The addition of these civilian positions will allow for the redeployment of three existing sworn positions to manage the sharp increase in the number of required fire inspections in recent years. These costs \$823,000 in additional costs, of which \$100,000 is one-time funding, will be fully offset by increased inspection fee revenue. 

**FLOOD RISK REDUCTION:** Five new positions are included in the budget to support flood risk reduction efforts and to provide design capabilities for the small projects program in the amount of \$577,000. The small projects program will implement infrastructure repair and replacement projects for more locations throughout the city. Additionally, a \$1.3 million grant is anticipated for cost increases related to the purchase and demolition of single-family residences in the Bayton Loop and Burrough Cove area.

**MOUNTED PATROL FACILITY:** Capital spending of \$500,000 is included in the FY 2018-19 budget for construction of the Mounted Patrol Facility, which will quarter and provide training space for the animals that support police officers who patrol Sixth Street and the downtown area, providing security and crowd control services.

**MUNICIPAL COURT CASE MANAGEMENT SYSTEM:** The current case management system has reached end of life and must be replaced. The budget includes \$1.7 million in capital spending for a new, state-of-the-art case management system, which will store all case records for the Municipal and Downtown Austin Community Courts. Accompanying this is funding for operations and maintenance of the new system for \$400,000. **TOP TEN**

**MUNICIPAL COURT FACILITY LEASE:** A long-standing challenge confronting the Municipal Court has been the insufficient space and poor condition of the existing court facility. The FY 2018-19 budget includes \$2.8 million in lease costs plus utilities for a new Municipal Court building located at 7000 Metropolis Drive. The 96,000 square foot facility is 41,000 square feet larger than the current courthouse and will house over 170 employees spanning the Austin Municipal Court main courthouse, the Cherry Creek substation, and the Criminal Prosecution Division of the Law Department. The new facility will contain 5 courtrooms, one more than the current courthouse. Municipal Court expects to be fully moved into the building by June 2019. **IFC TOP TEN**

**ONION CREEK FIRE STATION:** Construction of the new \$9.8 million Onion Creek fire station is scheduled to be completed in FY 2018-19. Included in the budget is \$1.7 million to fund 16 sworn fire personnel and the required equipment to support this station. Emergency Medical Services will be collocated in this facility. Sworn EMS personnel that were previously

stationed at a Travis County station will be moved to Onion Creek. When completed, this station will respond to approximately 1,500 to 2,000 calls per year and is projected to lower the time in which 90% of those calls are responded to from 12 minutes to less than 9 minutes.

**OTHER WATERSHED PROTECTION STAFFING ENHANCEMENTS:** WPD is adding an additional 15 new positions in order to increase the capacity of a variety of services such as asset management, the floodplain office, operations of the Waller Creek Tunnel, design and construction of infrastructure improvements, and infrastructure inspection and maintenance. Some of these positions are currently staffed by temporary employees. Three of these positions are added to create a small-call response and asset inspection crew, which will improve customer response times related to debris removal, 3-1-1 service requests, and storm preparation and responsiveness.

**POLICE BODY CAMERA MAINTENANCE FUNDING:** Fair and equitable treatment for all people who have encountered the City's enforcement and judicial processes is another fundamental Council indicator. Body cameras for sworn personnel are one mechanism used to preserve these principles. The FY 2018-19 budget includes \$193,000 in operating funding and \$50,000 in grant funding to purchase an additional 401 body cameras and maintain body cameras purchased over the last two years, bringing the total number of body cameras used by the Police Department to over 1,900. **TOP TEN**

**POLICE STAFFING:** Included in this budget are 15 new police officers and two new civilian positions plus funding for 12 unfunded sworn positions added in the FY 2016-17 budget. In total, this will result in an additional 27 officers available for duty following an extensive training program. With the addition of these officers, APD anticipates seeing continued improvement in the amount of uncommitted time, which is an important part of effective community policing. The total annual cost for these 27 officer positions is \$3.2 million plus an additional \$1.6 million in FY 2018-19 for vehicles and equipment. The two civilian positions are for an administrative support position and a staff psychologist. The staff psychologist position is aligned to the Government that Works outcome and is addressed more fully in that section. **IFC EQUITY**

**POLICE TRAINING FUNDS:** The FY 2018-19 Police budget includes \$10,000 for de-escalation training and \$82,000 for racial equity training for APD command staff.

**POLICE VICTIM SERVICES COUNSELORS:** The budget includes three additional victim services counselors as well as funding to convert a temporary counselor to permanent, bringing the total number of authorized positions in the Victim Services unit to 31. This increase partially addresses the budget recommendation from the Commission on Women. The budget also includes authorization for three additional Victim Services grant positions, bringing the total Victim Services grant positions to seven. The Victim Services team is also partially aligned to the Health & Environment outcome.

**PUBLIC SAFETY FACILITY IMPROVEMENTS:** Building Services plans to spend \$2.0 million for various public safety facility projects using funds from the reallocation of 2006 Public Safety bonds. These capital funds, which originated from the 2006 Bond Program, were intended for a new Municipal Court facility. On May 5, 2018, the Austin City Council approved a ten-year lease for a new Municipal Court building. These funds will be used on Public Safety departments for the public purposes of constructing, renovating, improving, and equipping public safety facilities. **TOP TEN**

**PUBLIC SAFETY TECHNOLOGY UPGRADES:** The Communications and Technology Management wireless program is providing \$7.5 million in support for the replacement of public safety hand-held radios, mobile data computers, and other critical public safety infrastructure. **TOP TEN**

**RELATIONSHIP VIOLENCE PREVENTION:** The Austin Police Department budget includes \$130,000 in contract funding to support relationship violence prevention efforts.

**STANDARDS GROUP AND ASBESTOS MITIGATION:** \$237,000 is being added for one business process specialist and one project manager to address asbestos mitigation efforts and support the standards and quality assurance team. These positions will strengthen the Building Services Department's ability to plan and address crucial maintenance and asbestos mitigation projects. **TOP TEN**

**TEXAS RIO GRANDE LEGAL AID:** In FY 2018-19, Austin Code will increase its reimbursement to Austin Public Health for their contract with Texas Rio Grande Legal Aid's Residents' Advocacy Program by \$110,000 from \$350,000 to \$460,000.

**UPPER UNION CREEK FLOOD RISK REDUCTION BUYOUTS:** This capital project addresses properties at risk of flooding in the Pinehurst and Wild Dunes areas of Upper Union Creek. A feasibility study has been completed and concluded that acquisition of flood prone structures in this area is the most effective strategy for reducing flood risk and protecting residents and property from the threat of flooding. An additional \$2.0 million of appropriations in FY 2018-19 will be used to continue property buyouts. **FC**

**WATER AND WASTEWATER INFRASTRUCTURE UPGRADES AND MAINTENANCE:** Significant capital spending of \$12.6 million for the Davis Water Treatment Plant water discharge system and a power distribution upgrade is planned in the Safety outcome. Additional capital spending will upgrade electrical systems, replace aging infrastructure, and update the computerized operations (SCADA) system to ensure resiliency, prevent redundancy, and improve efficiency.

**WILDFIRE PREVENTION:** A service contract of \$50,000 to provide community brush pick-up services that will lower wildfire risks for the residents in the City's Extra Territorial Jurisdiction (ETJ), including Emergency Services District #4, is included in the budget of the Austin Fire Department (AFD). **EQUITY**

**GOVERNMENT THAT WORKS FOR ALL**

*Believing that city government works effectively and collaboratively for all of us—that it is equitable, ethical and innovative.*

The Government That Works outcome is aimed at promoting the belief that our City government works effectively and collaboratively for all of us and that it is equitable, ethical, and innovative. Overall, \$778.0 million of the FY 2018-19 operating budget supports Government That Works. Council established seven indicator categories for measuring success in this outcome area:

- Financial cost and sustainability of City government
- Condition/quality of City facilities and infrastructure and effective adoption of technology TOP  
TEN
- Satisfaction with City services
- Employee engagement
- Stakeholder engagement and participation
- Equity of City programs and resource allocation
- Transparency and ethical practices

The largest operating expenditures in support of the Government That Works outcome come from the City's two utilities, Austin Energy and Austin Water. Collectively, these service areas comprise \$455.6 million, or 59%, of the total outcome budget due generally to operational, facility, and asset management; utility customer care and the 311 call center; crucial computer operations and data applications; and security services. The next largest component comes from the City's Support Services departments, including Financial Services and Human Resources, with combined spending of \$140.5 million. Other key contributors to the Government That Works outcome include Aviation, Communications and Technology Management, Development Services, and Public Works. The

service areas within these departments that drive success across the Government That Works outcome are described in more detail later in this section.

The Capital Improvements Program (CIP) budget of the Government That Works outcome supports planned spending of \$262.7 million for FY 2018-19. Austin Energy is the largest component at \$146.3 million, or 56%, while Austin Water ranks second with \$65.9 million, or 25% of planned spending. The majority of this funding will support maintenance of and upgrades to the City's electric and water and wastewater infrastructure.

The Communications and Technology Management (CTM) and Aviation Departments each represent about 4% of overall Government That Works-aligned planned CIP spending for a combined total of \$21.0 million. CTM's spending plan will replace critical technology hardware and software and establish a new data center, while Aviation will replace aging information technology infrastructure to meet the demands associated with skyrocketing passenger traffic and new construction at the airport.

The Building Services, Parks and Recreation, and Public Works Departments plan to expend a total of \$21.6 million on Government That Works capital projects, primarily consisting of improvements or additions to City facilities, parkland, and streetscapes.

Other departments include the Watershed Protection, Planning and Zoning, the Development Services, and the Financial Services. The chart on the next page summarizes planned CIP spending for the Government That Works outcome in FY 2018-19.

## GOVERNMENT THAT WORKS OUTCOME – OVERVIEW

### AUSTIN ENERGY

Austin Energy (AE) supports the Government That Works outcome with \$316.0 million to support a variety of functions generally centered on customer care and relations, information technology, and the management of the Utility as a whole. Though they touch on each of the Government That Works indicators, these functions represent a particular opportunity for AE to move the needle on the “condition/quality of City facilities and effective adoption of technology” and “satisfaction with City services” indicators.

The Corporate Services unit is responsible for management and oversight, including the recruitment and retention of a high-performing, ethical workforce. Customer Care and Customer Account Management staff provide equitable customer support for all AE customers and stakeholders. One of the key drivers of success for the “satisfaction with City services” indicator, the 311 call center provides front-line information and support in a transparent manner to all City residents, while the 911 backup center adds a crucial layer of redundancy to the City’s emergency response system. The System Control Center is responsible for the management and coordination of the Utility’s assets, enabling AE to be a responsible steward of resources and provide reliable energy services to the community. The Distribution System and Network Maintenance unit is responsible for regular maintenance of the AE system, reducing the frequency and duration of unplanned outages. Finally, the Regulatory, State, and Federal Government Affairs team ensure AE’s compliance with all applicable state, federal, and regulatory laws to provide industry-leading energy services to AE customers.

Half of the Electric Reliability Council of Texas (ERCOT) expenses and 25% of the power supply adjustment expenses are allocated to the Government That Works outcome as well. These work units ensure access to a reliable fuel supply, allowing AE to minimize fluctuations in fuel costs and keep costs low for its customers.

AE’s FY 2018-19 CIP includes \$146.3 million in spending allocated to the Government That Works outcome. These expenditures include the Austin Community College Chiller Satellite Plant project at Highland Mall, with its estimated 6,000-ton capacity plant and 1.8 million gallon storage tank. The large majority of the remainder of this spending will fund routine maintenance and infrastructure upgrades, including meter replacements, residential and commercial additions and upgrades, utility pole replacements, information technology infrastructure, and various other electrical infrastructure maintenance required throughout the City. These planned expenditures will ensure continued incremental improvement to the condition and quality of a crucial component of the City’s infrastructure.

### **AUSTIN WATER**

Consisting of \$139.6 million in funding in FY 2018-19, the Government That Works-aligned budget of Austin Water (AW) is dedicated to ensuring a reliable and sustainable stream of safe drinking water and the environmentally responsible treatment of wastewater. By striking an appropriate balance between funding timely infrastructure investments, maintaining affordability for all customer classes, managing regulatory requirements, and providing excellent customer service, AW has an important role to play in driving success across the full range of Government That Works indicators, primarily “condition/quality of City facilities and effective adoption of technology,” “satisfaction with City services,” and “equity of City programs and resource allocation.”

Gallons of water pumpage per capita per day (GPCD) measures the impact of Austin's conservation efforts over time and drives the Utility's revenue. Austin Water's long-range conservation efforts preserve environmental flows in the Colorado River and delay additional water supply costs, with the Council-adopted goal of lowering total water use to 140 GPCD by 2020. Austin Water achieved this goal early in FY 2012-13 when GPCD reached 136, and the Utility continues to exceed this goal through enhanced conservation efforts. In FY 2016-17, GPCD is at 126, as shown in the following graph.

Austin Water's planned FY 2018-19 capital spending on projects related to Government That Works is \$65.9 million. Of particular note is the Advanced Metering Infrastructure for Potable & Reclaimed Water Services project. Representative of AW's commitment to the effective adoption of technology, this project will update customer meters and meter boxes so that meter reads will no longer be collected manually, but instead by cellular or radio transmission. This will improve data collection, providing more accurate, detailed, and timely data, along with fewer re-reads, which will improve customer service and satisfaction, allow customer notification of potential customer-side leaks, and allow better system diagnostics through more effective leak detection. As part of its continual efforts to improve the condition and quality of the City's facilities and infrastructure, AW will also undertake the major rehabilitation or replacement of critical facilities at the Davis Water Treatment Plant, Walnut Creek Wastewater Treatment Plant, South Austin Regional Wastewater

Treatment Plant, and the Parmer Lane Interceptor, as well as myriad smaller repairs and improvements to the City’s water delivery and wastewater treatment infrastructure.

### **AVIATION**

\$29.7 million of the Aviation Department’s operating budget aligns with the Government That Works outcome by funding the administrative, managerial, and financial support necessary to operate one of the nation’s fastest-growing and best-regarded airports. Most notably, these funds support the Department’s efforts to acquire and maintain the information technology upgrades necessary to create a positive passenger experience—contributing to Government That Works’ “satisfaction with City services” metric—and to ensure that the airport is in compliance with Transportation Safety Administration’s standards. The Aviation Department monitors customer experience through the Airport Service Quality Survey. In FY 2017-18, the Aviation Department projects 45% of the passengers will report “Excellent” in their overall satisfaction with the airport.

With planned FY 2018-19 capital spending related to the Government That Works outcome of \$10.1 million, Aviation’s main focus is on capital renewal of its aging information technology, network security and communication center infrastructure, as well as on the technological needs associated with copious new construction at the airport, all of which will support improvement with regard to the “condition/quality of City facilities and infrastructure and effective adoption of technology” metric.

### **COMMUNICATIONS AND TECHNOLOGY MANAGEMENT**

With a Government That Works-aligned budget of \$59.4 million, the Communications and Technology Management Department (CTM) provides and maintains the essential information technology (IT) infrastructure, both hardware and software, that keeps the City of Austin’s government working. One of the primary levers of success with respect to the “effective adoption of technology” indicator, CTM also has an important role to play in driving innovation that results in increased satisfaction with City services, facilitating employee and stakeholder engagement and participation, and reducing the financial cost of City government while increasing its sustainability. CTM’s most visible ambassadors are the front-line staff that assist departments with all levels of IT assistance, from simple help desk requests to larger projects requiring customized software

applications or department-specific contracts. This includes negotiating large software contracts for multiple departments, like the contract for Microsoft software services and the PC refresh program that replaces desktop and laptop computers on a replacement schedule according to industry best practices. CTM also provides consultation and assists with the development of departments' online services and the City's web presence generally, which contributes to the public's satisfaction with City services by enhancing their efficiency and promoting ease of access. CTM prides itself on its customer-centric approach to supporting other City departments, a pride which is evidenced by the consistently high rankings it receives from these customers and illustrated by the graph below.

Less visibly, the Department maintains the City's IT network and data center, which enable secure access to the City's data through hardwired connections for on-site employees and mobile connections for employees who work remotely. The team supporting Geospatial Information System (GIS) services ensures the availability and accuracy of location data for all departments. CTM's project management group helps to implement new Citywide technology initiatives such as those approved by the IT Governance process, which has been in place since FY 2010-11 to review departmental requests for IT resources. This process supplies departments with the IT functionality they need, sometimes through cooperative acquisition arrangements or by connecting them with existing IT assets, and is a key component of the City's efforts to promote the cost-effective adoption of technology.

CTM's FY 2018-19 CIP spending plan is designed to drive success with respect to the "condition/quality of City facilities and infrastructure and effective adoption of technology" indicator. CTM will spend \$3.2 million of its \$10.9 million Government That Works-aligned FY 2018-19 capital spending plan on critical technology replacement, a program that refreshes the City's essential technology hardware after it reaches or exceeds its maintainable life. The Department is also spending \$2.0 million to relocate the City's data center to a secure site where it will be collocated with other data centers and will have the capacity to expand dynamically in response to the City's growing need for data storage. Other large projects include \$1.5 million for the City of Austin Telecommunications Network (COATN) and \$1.0 million for AMANDA, the City's case management software. Remaining spending in FY 2018-19 will support smaller enterprise-wide and department-specific IT initiatives, including an upgrade to CTM's help desk system and a system to track the City's real estate inventory.

### **DEVELOPMENT SERVICES**

The Development Services Department (DSD) supports Government That Works with \$15.3 million of aligned operating funding in FY 2018-19. Of these expenditures, \$11.4 million represent a 25% alignment of DSD's operating units with the Government That Works outcome; these units are discussed in greater detail in the Economic Opportunity & Affordability and Safety outcome sections. Funding for DSD functions completely or primarily aligned with the Government That Works outcome totals \$3.9 million and supports the Service Center and the Technology Surcharge unit. Strongly tied to the satisfaction with City services indicator, the Service Center issues building permits and applicable trade permits, provides permit payment services, and registers licensed contractors to perform work. The Technology Surcharge unit promotes the effective adoption of new technologies across the Department with funding provided by a dedicated surcharge applicable to most of the Department's fees.

One initiative that promotes success with respect to both the "satisfaction with City services" and "effective adoption of technology" indicators is DSD's ongoing effort to facilitate the issuance of a greater number of permits through an online portal. While great progress has been made since the roll out of this initiative in FY 2014-15, driving continued and meaningful increases in this measure is a high priority for the Department in FY 2018-19 and into the future.

### **PUBLIC WORKS**

The Public Works Department (PWD) supports the Government That Works outcome through operating funding of \$40.9 million. The majority of this budget is attributable to the Capital Projects Delivery program, which manages the City's capital projects through all phases of design, construction, and inspection. This includes quality management oversight, design and permitting for civil engineering projects in the public right-of-way, as well as architectural expertise. While most directly aligned with improving the condition and quality of City facilities and infrastructure, this program is also pivotal in driving efficiencies and innovations across the organization's capital project delivery system that can lead to a lower overall cost of City government.

PWD has \$6.1 million in planned capital improvement spending related to the Government That Works outcome. Primary expenditures include \$2.9 million in renovations and improvements to City buildings and \$2.8 million for the Sabine Street Promenade in the Waller Creek District. The

Promenade will include space for cyclists and pedestrians, allowing events to take place without disrupting vehicular traffic.

### **SUPPORT SERVICES DEPARTMENTS**

#### ***Building Services***

In FY 2018-19, the Building Services Department (BSD) supports the Government That Works outcome through aligned expenditures of \$12.6 million, which represent a majority of its operating budget. One of the front-line drivers of success with respect to the “condition/quality of City facilities and infrastructure” indicator, BSD delivers a wide spectrum of general maintenance, electrical, plumbing, heating, ventilation, and air conditioning (HVAC) services as well as provides building management, project management, and maintenance contract management support for many City facilities. BSD is also responsible for many administrative facility costs including electric, water, wastewater, and mail services.

Planned FY 2018-19 CIP spending in support of Government That Works totals \$8.5 million and includes the large Elevator Modernization project at One Texas Center, tilt-wall and parking lot repairs at the Technicenter building, parking and drainage repairs and improvements at the Rutherford Lane Campus, parking and sidewalk repairs at the Rosewood-Zaragosa Neighborhood Center, and roof replacement projects at the South Austin Neighborhood Center and other sites. In addition, Building Services will continue to replace end-of-life plumbing, electrical, HVAC, and other facility infrastructure across a host of City facilities.

#### ***Communications and Public Information Office***

With FY 2018-19 funding for Government That Works of \$3.8 million, nearly all of the Communications and Public Information Office (CPIO)’s budget is aligned with this outcome. CPIO has four primary functions, each of which strongly impact the City’s efforts to increase stakeholder engagement and participation and contribute to increasing satisfaction with the City’s services overall.

The ATXN team maintains a core focus on video production services but also provides significant support to the City’s wider communications efforts. In addition to coverage of meetings, the team’s role includes provision of public service announcements and issues-driven coverage, on-demand streaming access to video, and the widespread integration of video into many of the City’s communications, social media, and engagement initiatives. The web services and graphic design group has primary responsibility for the City’s visual and content brand and image, which includes the City’s web properties, printed collateral, and other communications materials. The media relations staff provides media guidance and support across the organization and maintains primary responsibility for many of the City’s social media channels, which continue to grow in number, complexity, and

activity. Finally, the community engagement team plays a critical role in driving meaningful dialogue with residents and other stakeholders, with a recent emphasis on extending connections with minority and foreign-language populations, as well as others that might have limited access to government.

### **Financial Services**

With \$38.1 million dedicated to the Government That Works outcome, the Financial Services Department (FSD) maintains the financial integrity of the City by providing comprehensive and integrated financial management, administration, and support services to City departments and other customers. FSD works to support Government That Works through six operating programs, all of which are 100% aligned with Government That Works and support the outcome in complementary ways:

- The Budget Office provides an annual budget and analysis of financial information to City departments, management, and Council so that they can make informed decisions;
- The Capital Contracting Office leads the procurement of professional and construction services critical to delivering capital improvement projects;
- The Controller's Office provides fiscal information to City management, processes payments to vendors and employees on behalf of City departments, and manages the City's financial and payroll systems;
- The Office of Performance Management focuses on strategic planning, data-driven decision making, and continuous improvement for the City;
- The Purchasing Office provides procurement-related activities and services in a timely and cost-effective manner to City departments so that they have the resources they need to do their jobs; and
- The Treasury Office effectively manages the City's cash and investments in order to optimize investment income and financial resources, along with effectively managing and servicing the City's debt to minimize financing costs.

Perhaps the most holistic measure of FSD's strong support of the Government That Works outcome is the City of Austin's General Obligation (GO) bond ratings. A bond rating is a measure of an entity's ability to repay its debt, and in assigning a rating to the City of Austin's debt issues, ratings agencies consider the performance of the local economy, strength of the City's financial and administrative management, and various debt-ratio measurements. All three ratings agencies continue to assign the City of Austin's GO debt, which pays for publicly used capital improvements, their highest possible ratings.

#### **City of Austin GO Bond Ratings**

	FY14 Actual	FY15 Actual	FY16 Actual	FY17 Actual	FY18 Estimated
Fitch Investors	AAA	AAA	AAA	AAA	AAA
Moody's	Aaa	Aaa	Aaa	Aaa	Aaa
Standard & Poor's	AAA	AAA	AAA	AAA	AAA

### **Human Resources**

The Human Resources Department (HRD) supports the Government That Works outcome through \$32.7 million in expenditures, which comprise nearly the entirety of its FY 2018-19 operating budget. HRD promotes employee engagement by collaborating with and supporting more than 14,000 City staff, offering guidance to Human Resources personnel stationed in individual departments, and supporting the business needs of executive leadership. HRD helps define competitive benefit and compensation levels, provides employee development opportunities, sponsors initiatives aimed at promoting an inclusive and diverse organizational culture, and manages an award-winning wellness program. Healthcare represents one of the City's primary cost drivers, and HRD leverages the wellness program to promote the symbiotic goals of a happy and healthy workforce and a more sustainable financial future for the organization. In pursuit of these entwined goals, HRD has aggressively promoted and incentivized the annual health assessment, which provides employees with a snapshot of their current state of health and encourages them to take proactive steps to maintain or improve their wellbeing.

### **Law**

Nearly all of the Law Department's \$19.0 million FY 2018-19 budget is aligned with the Government That Works outcome. Law Department staff draft and review contracts, ordinances, resolutions, interlocal agreements, and a myriad of other legal documents. The Department represents the City and its employees in hundreds of litigation matters and pre-litigation claims, and prosecutes all Class C misdemeanors filed in Municipal Court. In addition, the Department provides training across the City on a variety of matters, including ethics, diversity, employment issues, witness preparation, and municipal legal issues.

### **Management Services**

\$10.1 million of the Management Services Department's FY 2018-19 budget is aligned with the Government That Works outcome, primarily associated with the Office of the City Manager, Intergovernmental Relations Office, Labor Relations Office, Equity Office, Innovation Office, and the Office of the Police Monitor. The City Manager and Assistant City Managers oversee ongoing City operations and the implementation of City Council policy directives. The Intergovernmental

Relations Office works to ensure that the City's interests are protected and enhanced through active involvement in the legislative process and strong intergovernmental relationships. The Labor Relations Office negotiates and administers labor contracts for the City with its various public employee unions. Launched in FY 2016-17, the Equity Office is tasked with leading organizational efforts to succeed with respect to the "equity of City programs and resource allocation" indicator and provides leadership, guidance, and insight aimed at improving the quality of life for all of Austin's communities. The Innovation Office examines challenges and opportunities to surface better ideas and solutions that make a lasting, positive impact on City services through diverse, inclusive teams. The Office of the Police Monitor reviews complaints within the Police Department and provides recommendations for resolution when applicable.

### ***Mayor and City Council***

The Mayor and City Council provide leadership, governance, and policy guidance to the entire City by enacting ordinances and resolutions, adopting budgets, and appointing the City Manager. Nearly the entirety of Mayor and Council's FY 2018-19 budget is aligned with the Government That Works outcome, with \$6.3 million in funding for salaries and office expenses for the Mayor, Councilmembers, and their staff.

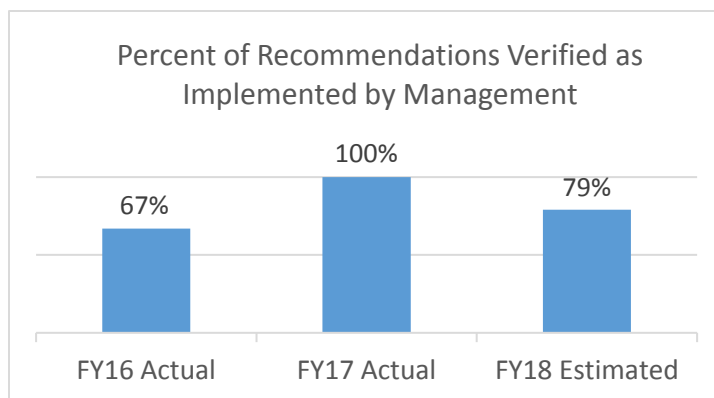

### ***Office of Real Estate Services***

As the City's economy and population growth continue to soar, the Office of Real Estate Services (ORES) continues to manage increased demand for professional real estate services such as requests for surveys, property valuations, rent studies, reports, and consultations related to City building and land needs. ORES also administers the lease of City property to third parties and occasionally makes properties available for sale through a public bid process, coordinates the release of public easements on private property, manages applications from third parties to use portions of the public right-of-way for private purposes, and processes applications for encroachments and street and alley vacations within the City's jurisdiction. \$5.5 million of ORES's expenditures are aligned with the Government That Works outcome, almost the entirety of its FY 2018-19 budget. One concrete example of ORES's positive impact on the "condition/quality of City facilities and infrastructure" indicator is its recent collaboration with FSD to develop an exclusive negotiation agreement model with third-party contractors. Creation of this model represents an innovative way of replacing aging City facilities that is significantly cheaper and faster than prior methods. ORES and FSD are leveraging this model in their acquisition and development of the Highland Center site for the City's One Stop Shop, which is expected to be officially acquired in the spring of 2020.

### ***Office of the City Auditor***

The Office of the City Auditor (OCA) assists the City Council in establishing accountability and continuous improvement in Austin City government and is primary champion of the "transparency and ethical practices" indicator. OCA's FY 2018-19 operating budget aligns almost entirely with

Government That Works. With \$4.0 million dedicated to this outcome, OCA provides independent and objective information and recommendations to City Council and management to improve the performance of City services with respect to results, efficiency, and compliance, and to strengthen accountability for that performance. OCA strives to help

departments improve service delivery by designing practical audit recommendations. To track the value the OCA adds to the city, the percent of recommendations verified as implemented by management measure shows the positive actions taken by responsible parties as a result of audit recommendations. In FY 2017-18, OCA projects 79% of recommendations will be implemented.

### **Office of the City Clerk**

The Office of the City Clerk's FY 2018-19 operating budget is nearly entirely aligned with Government That Works, contributing \$5.0 million in support of this outcome. The Office supports City Council meetings; coordinates all aspects of the Boards and Commissions system; confirms that ordinances, resolutions, and minutes accurately reflect City Council action; codifies and publishes ordinances; and provides research services for City Council-approved records. The Records and Information Management function within the Office provides comprehensive services that promote efficient, compliant, and transparent governance and administration of the City's information resources. The Office's Elections function supports voters, petitioners, City departments, media, and candidates, so they can effectively participate in the election process.

### **Telecommunications and Regulatory Affairs**

The FY 2018-19 budget for the Office of Telecommunications and Regulatory Affairs (TARA) includes \$2.2 million in expenditures that align with the Government That Works outcome. TARA manages utility franchises and license agreements to ensure optimal use of public rights-of-way, maximize revenue, and protect these valuable City assets. TARA also reviews rate increases presented by Atmos Energy, Bluebonnet Electric, CenterPoint Energy, Pedernales Electric, Oncor Electric and Texas Gas Service to ensure that they are just and reasonable. Finally, TARA oversees the City's seven public, educational, and governmental access television channels.

### **OTHER GOVERNMENT THAT WORKS OUTCOME PROGRAMS**

Numerous other City offices and departments play smaller roles in supporting the Government That Works outcome. These functions include:

- The Other Requirements unit for the vast majority of all City departments, which is used to budget for administrative costs such as accrued payroll, fire insurance, appraisal services, debt service payments, and costs related to the 311 customer service call center (\$14.3 million);

- Several units of Austin Public Health, including its social services policy planning, contract management, planning and development, and facilities management functions (\$5.8 million);
- The water quality planning, watershed modeling and analysis, infrastructure management, and stormwater compliance units of the Watershed Protection Department (\$4.5 million);
- The internal affairs division of the Austin Police Department, as well as its internal health services and public information units (\$2.2 million); and
- The red light camera administration and parking violation units of the Municipal Court (\$1.5 million).

## GOVERNMENT THAT WORKS OUTCOME – NOTABLE CHANGES & HIGHLIGHTS

**AUSTIN POLICE DEPARTMENT STAFF PSYCHOLOGIST:** The Austin Police Department is adding an additional staff psychologist position to support the Training Academy's Health Services unit. This position will assist with applicant interviews, play an active role in supporting the Department's peer support program, and conduct advanced evaluations and counseling, providing valuable assistance to personnel in training and in the field.

**ASBESTOS OPERATIONS AND MAINTENANCE PLAN:** Austin Water is adding one new position and \$107,000 to coordinate asbestos-related work, including maintaining all asbestos surveys and inspection records and conducting employee training concerning work safety around asbestos-containing materials, all of which mark a significant improvement to the safety, condition and quality of its facilities. 

**AUSTIN ENERGY TEMPORARY-TO-PERMANENT CONVERSIONS:** Austin Energy is adding 25 new positions in the FY 2018-19 budget, 23 of which are temporary to full-time, permanent position conversions. Of these, 16 positions align to the Government That Works outcome, including ten customer solutions coordinators, four IT systems administrators, one senior IT business systems analyst, and one utility account analyst. Five of the 25 new positions align to Economic Opportunity & Affordability, and four positions align to Safety.

**AUSTIN WATER'S ADMINISTRATIVE SERVICE DEMANDS:** Austin Water's growing service area and customer base have resulted in increasing workloads throughout the Utility and an associated need for additional support services staff. Six new positions and \$795,000 are being added to support the Utility's customer satisfaction, employee development, financial management, procurement, and records management functions.

**CAPITAL CONTRACTING PROCESS IMPROVEMENTS:** An additional \$336,000 and two positions in FSD will support the Capital Contracting Office's efforts to enhance the quality of capital contracting services and improve the efficiency of capital delivery, which facilitates the timely completion of infrastructure that improves residents' quality of life.

**CITY FACILITY MAINTENANCE:** The General Fund will transfer \$3.8 million and the Budget Stabilization Reserve Fund an additional \$2.7 million to the Capital Rehabilitation Fund of the Building Services and Parks and Recreation Departments in order to fund a long-standing backlog of deferred and preventive maintenance of City facilities. The total transfer of \$6.5 million equals 25% of the annual depreciation expense for building and improvements related to governmental activities, as outlined in the City's financial policies. To more quickly leverage this new funding and put it to work in the service of improving City facilities, Building Services is adding two new project manager positions. **TOP TEN**

**CODENEXT IMPLEMENTATION:** The Communications and Technology Management Department (CTM) is adding \$912,000 and one position to support technology implementations necessitated by the anticipated passage of a new land development code. These funds will support enhancements to AMANDA, the City's case management system, as well as its Geographic Information System (GIS). CTM will also purchase additional GIS hardware to support implementation of technology updates to the City's permitting systems. **TOP TEN**

**COMMUNITY ENGAGEMENT:** The Communications and Public Information Office is adding \$89,000 to convert a temporary video production specialist position to full-time and \$24,000 to support a Community Engagement Online Platform and other engagement-focused software improvements.

**CONTRACT MONITORING & INVESTMENT PORTFOLIO SUPPORT:** Adding \$286,000 and three positions, the Purchasing Office will create a contract monitoring team to ensure City departments are adequately managing their contracts. Also, the Treasury Office will increase administrative support for cash, investment, and debt management with the addition of \$139,000 for a new position. These additions to Financial Services' budget will strengthen financial stewardship of the City's policies and practices that ensure financial integrity.

**DEVELOPMENT SERVICES OPERATIONS & SUPPORT POSITIONS:** Development Services is adding \$1.0 million for ten new positions aligned with the Government That Works outcome in order to supplement critical support functions in finance and human resources, as well as implement new technology solutions for online customers and expand customer support. These new positions include two

accounting positions, two information technology positions, two business consultant positions, a technical writer, a human resources assistant, a customer solutions coordinator, and a senior occupational health and safety specialist. 

**EQUITY ACADEMY:** Management Services is adding \$257,000 for the creation of an Equity Academy to support the rollout of the annual Equity Assessment Tool and to give staff the skills and capability to effectively advance racial equity in their work. The Academy will make workshops available to staff to incorporate a shared analysis of definitions for the City to operate with urgency, prioritize community needs, and to be accountable for its decisions. In completing this training, staff will be better equipped to constructively critique the programs and services of their department and complete the Equity Assessment Tool. This budget addition includes one full-time position to manage the program along with funding for six Undoing Racism trainings. 

**EQUITY OFFICE NEIGHBORHOOD LIAISON:** In response to a recommendation from our Quality of Life Commissions, the Equity Office is adding \$82,000 for a neighborhood liaison position to support and increase collaboration among the four Quality of Life advisory commissions. 

**FEE INCREASES TO KEEP PACE WITH CITY COSTS:** In the budget priority-setting work session on April 4<sup>th</sup>, Council expressed support for investigating moderate fee increases across several General Fund departments. Financial staff conduct periodic reviews of the City's costs of providing fee-based services, which promotes the financial sustainability of City government by ensuring that we maintain an appropriate balance between general tax revenue contributed by the community as a whole, and fee revenue paid by end-users of certain specific services. As a result of this analysis, the following fee and revenue adjustments are included in the FY 2018-19 budget:

- License, permit, and inspection fees collected by the Austin Fire Department are being increased to their full cost-of-service levels, generating an additional \$1.4 in General Fund revenue;
- Three alarm permit-related fees charged by the Austin Police Department are increasing moderately in FY 2018-19 to more closely approach full cost-of-service levels, generating an additional \$1.4 million in General Fund revenue. In order to maintain the incentive for residents and businesses to keep their security systems armed, the fee for false alarms is not increasing;
- Pool entrance fees are being increased by \$1 to \$2, including raising the fee for non-residents to its full cost-of-service level. This change will generate an additional \$1.1 million in revenue, which will be dedicated to addressing a longstanding maintenance backlog at our aquatics facilities; and
- The Austin Public Health Department is restructuring its food establishment permit process and the associated fees, which, along with moderate increases in some fees for temporary food permits to full cost-of-service levels, is generating an additional \$314,000 in General Fund revenue. In order not to adversely impact events sponsored by small community groups, the temporary food permit for "one day/one booth" is not increasing.

**FINANCIAL & ADMINISTRATIVE TECHNOLOGY IMPROVEMENTS:** With the addition of \$2.6 million and three positions, the Controller's Office will begin implementation of workforce management and human capital management systems and assume the responsibilities for Citywide check printing. The Office will also provide increased support for other Citywide systems by documenting and facilitating data extraction, transformation, and transmission while ensuring data integration and quality assurance. 

**IMPROVING CITYWIDE EFFICIENCY:** The Office of Performance Management is adding \$251,000 and four positions to expand the Lean Six Sigma Continuous Improvement program geared toward improving the efficiency of City processes. Lean Six Sigma is a best practice framework for problem-solving, coaching, and management that many organizations – both public and private – have adopted worldwide. It helps organizations develop people at all levels to improve their work and deliver value to customers, the benefits from which include reduced operating costs, increased employee engagement, and greater customer satisfaction.

**INCREASE IN THE SENIOR PROPERTY TAX EXEMPTION:** The City Council increased the property tax exemption for senior and disabled homeowners by \$2,500 to total of \$88,000. This change will save the typical senior/disabled homeowner \$11.01 in fiscal year 2018-19.

**INCREASED LAW SUPPORT:** The Law Department is adding \$419,000 for new public information software and three positions to assist with increased workload from mobility bonds, construction projects, and tax increment financing projects.

**INCREASING CAPITAL PROJECTS MANAGEMENT CAPACITY:** The Public Works Department (PWD) is adding 29 new positions, 22 of them in Capital Projects Delivery, to keep pace with projected workload. PWD is also investing \$1.0 million in facility expansion and renovation to house these new employees.

**INFORMATION SECURITY:** In order to support information security operations, CTM is adding \$3.6 million in FY 2018-19. These funds will support a security operations center and enhance the City's information security architecture, assuring the availability of critical services through proactive monitoring, alerting, and containment of cyber threats. 

**LEARNING AND RESEARCH CENTER RELOCATION:** The Human Resources Department is adding \$630,000 in ongoing funding and \$500,000 in one-time funding for the relocation of the Learning and Research Center (LRC) to a new facility. This facility will be equipped with modern technology and provide additional space for eLearning training, hearings for civil service and municipal civil service, and professional development trainings. 

**LGBTQ QUALITY OF LIFE STUDY:** In response to a Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Quality of Life Advisory Commission recommendation, \$200,000 is added for a one-time quality-of-life study focusing on Austin's LGBTQ communities and residents, to be performed in

collaboration with community partners. Due to a lack of data and information regarding the prevalence and concerns of Austin's LGBTQ communities, a community study and the development of a final report is critical to better understand and address the challenges faced by these communities. 

**PAID SICK LEAVE IMPLEMENTATION AND ENFORCEMENT:** The budget includes \$250,000 in one-time funding for the implementation of the Paid Sick Leave Ordinance, passed by Council in February 2018. Funds will be used for education, outreach, and staffing to support enforcement of the Ordinance. 

**REAL ESTATE SERVICES STAFFING:** The Office of Real Estate Services (ORES) is adding \$598,000 and six positions to meet greatly increased demand for its services. More specifically, ORES will add one real estate services agent, one senior property agent, and one records analyst to support implementation of projects associated with the 2016 Mobility Bond; one petty agent and one business process consultant to assist with the land management and support services workload; and one property agent position to help manage numerous projects connected to the Waller Creek Tax Increment Reinvestment Zone. 

**SMALL CELL DEPLOYMENT:** Telecommunications and Regulatory Affairs is adding \$140,000 and one position to support shortened timelines for permit review, processing, and approval associated with small cell deployment in the public right-of-way, as outlined in legislation recently passed by the State of Texas, and on City buildings.

**SUPPORT METERING INFRASTRUCTURE:** Austin Water (AW) is adding five new positions and \$421,000 in operating funding for proactive meter replacement. Additionally, one new position and \$157,000 is added to implement and maintain the Advanced Metering Infrastructure technology program, which will provide customers with more timely notice of potential leaks and signals to help lower water consumption, while also enabling AW to reduce system-wide water loss and improve billing accuracy and meter asset management. 

**VALVE MAINTENANCE:** Austin Water is adding three positions at a cost of \$257,000 to maintain valves throughout its system to ensure proper functioning during repairs and for water pressure management.

**WATERSHED STAFFING:** The Watershed Protection Department's (WPD) Policy and Planning division is adding three new positions to enhance the Government That Works outcome. These positions will coordinate capital and programmatic planning activities within WPD and with other departments and help integrate and coordinate flood, erosion, and water quality activities to deliver services to customers in the most efficient manner possible.

The Culture & Lifelong Learning outcome supports Austin's unique civic, cultural, ethnic, and learning opportunities. In total, \$78.3 million of the FY 2018-19 operating budget supports the Culture & Lifelong Learning outcome. Council established five distinct indicator categories for measuring success in the Culture & Lifelong Learning outcome:

- Quality, accessibility, and diversity of civic and cultural venues, events, programs, and resources
- Vibrancy and sustainability of creative industry ecosystem **TOP TEN**
- Appreciation, respect, and welcoming of all people and cultures
- Honoring and preservation of historical and ethnic heritage
- Lifelong learning opportunities

Many essential community facilities and programs are housed within the Culture & Lifelong Learning outcome. The largest cost component is the Austin Public Library at \$46.3 million, or 59%. Portions of the Economic Development Department (EDD) and Parks and Recreation Department (PARD) also roll up to this outcome and total \$27.5 million. The remaining nine departments which align to Culture & Lifelong Learning amount to a combined \$4.5 million, less than 6% of the overall outcome.

The chart on the following page illustrates the FY 2018-19 operating budget for this outcome.

Culture & Lifelong Learning has planned capital spending of \$9.3 million for FY 2018-19. The majority is for Austin Public Library (APL), constituting \$3.1 million. APL continues work on renovations and repairs of its branch library locations across the city. These include foundation repairs, roof replacements, HVAC and sprinkler upgrades, and parking lot expansions. The Economic Development Department (EDD) is next with \$2.1 million dedicated toward existing project expansion and redevelopment services.

Aviation follows with \$1.9 million in combined spending for constructing works of art for public spaces for all residents and visitors to our City to enjoy. Other routine spending includes museum, recreation, and community center restoration, and site improvements for Parks and Recreation Department facilities, and watershed infrastructure retrofits and repairs.

The following chart highlights CIP spending by department for this outcome. The “Other” capital spending shown on the graph includes planned spending for Animal Services, Austin Public Health, Fire, Police, and Watershed.

**CULTURE & LIFELONG LEARNING OUTCOME – OVERVIEW**

***AUSTIN PUBLIC LIBRARY***

The Austin Public Library has \$46.3 million, or 89%, of its budget aligned to the Culture & Lifelong Learning outcome and is dedicated to providing customers access to a wide variety of resources, programs, and services at the Central Library, branch locations, and the Austin History Center. Library staff provide visitors with an array of services, including reference assistance, public internet computers, online reserves and renewals, free meeting rooms, book clubs, programs for youth and adults, computer training courses, and Talk Time sessions, which are facilitated conversations that allow new English learners to practice speaking in a safe, non-threatening environment.

FY 2017-18 began with excitement for the enthusiastic opening of the New Central Library (NCL). The NCL is six floors and 200,000 square feet of public space housing over 180 staff members with a total operating budget of \$11.2 million. Also included are 140 public use computers, 150 self-check electronic devices, and 14 shared learning rooms that can be used for classes, workshops, meetings, and co-working, among other users.

FY 2018-19 is also ushering in new initiatives for the Library organization. These priorities were established to guide the organization as it moves forward and directly supports the Cultural and Lifelong Learning outcome. The six priorities are:

- Literacy Advancement;
- Workforce and Economic Development;
- Digital Inclusion, STEM, and Computer Training;
- Outreach and Community Engagement;
- Equity, Diversity, and Inclusion; and
- Staff Development.

APL manages 22 branch libraries citywide. More than 3.2 million customers visit these locations, the Central Library, and the Austin History Center annually. Over 9 million items are circulated at these locations and are available to visitors or one of the over 239,000 active card holders alike. Additionally, more than 180,000 adult and youth program attendees are estimated to participate in library-sponsored programs during the current year.

Gauging visitor and customer impressions by surveying the level of citizen satisfaction with services offered is important for measuring success. Material selection, library quality, and cleanliness are crucial factors in the customer experience. In FY 2017-18, satisfaction levels with library services are anticipated to equal or surpass the highest point over this five-year period.

### ECONOMIC DEVELOPMENT

\$18.3 million of Economic Development's budget aligns with the Culture & Lifelong Learning outcome. The Cultural Arts Fund represents the majority of this outcome with \$12.6 million and offers support to individual artists and arts organizations to increase cultural tourism and professional and artistic development. EDD manages funding for programs to provide financial support to organizations and individuals through a competitive application and review process. A majority of

the funds for cultural arts services contracts are derived from a portion of the revenues from the City’s Hotel Occupancy Tax (HOT).

Other programs and activities supporting this outcome include cultural development and contracting services, the African American Heritage Facility, heritage tourism, and music and entertainment activities. The Community and Creative Industry Services unit provides preservation and promotional services to Austin's arts

and creative industries in order to strengthen the role of the arts. This unit has a budget of \$1.4 million to assist with contract management and coordination of the Arts in Public Places Program, the Cultural Arts Fund, and the Historic Preservation Fund. Cultural arts funding supports projects and activities in all disciplines that provide quality arts and cultural programming to the Austin community, serving over 6 million audience members through cultural contracts. Additionally cultural arts funding will provide 675 contracts to art professionals and organizations to increase cultural tourism and professional artistic development.

The Music and Entertainment activity helps develop and execute initiatives that help accelerate the growth of the music industry infrastructure by focusing on job creation, talent export, trade development, and industry revenue growth.

In FY 2017-18, the Department expects to complete 225 sound impact evaluations.

**PARKS AND RECREATION**

The Parks and Recreation Department, with \$9.2 million in funding, is the third largest contributor to this outcome. All City museums, the Zilker Hillside Theater, and the Umlauf Sculpture Garden are captured here due to their correlation with the five Council indicator categories for this outcome. Cultural and arts centers, such as the Emma S. Barrientos Mexican American Cultural Center and the Dougherty Arts Center, are fully counted here as well. This outcome also contains funding for half of the Austin Nature & Science Center, Asian American Resource Center, Zilker Botanical Garden, Camacho Activity Center, and the Totally Cool Totally Art Program.

More than 226,000 visitors will attend these educational and cultural facilities with 97% of program participants reporting an improvement to their quality of life. Moreover, 336 free cultural special events will be sponsored by these museums and cultural centers. Additionally, new participants enrolled in environmental education programs at Zilker Botanical Garden, Austin Nature Science Center, and Camacho Activity Center are expected to reach nearly 800 by year end.

**OTHER DEPARTMENTS**

Nine other departments comprise the remaining \$4.5 million of this outcome. The Watershed Protection Department utilizes \$1.6 million to deliver education services concerning the water quality, erosion, and flooding issues to adults and youth. Approximately 85% of AISD elementary schools participate in these youth education programs during the school year.

Half of the Austin Transportation Department's (ATD) Special Events budget, or \$507,000, supports approximately 200 special events. Telecommunications and Regulatory Affairs (TARA) applies half of the Community Technology Initiative to this outcome due to the Digital Inclusion program that provides computer training and instruction. Lastly, Austin Energy's Community Support unit

contributes \$431,000 through advertising and publication funding in support of community foundations, citywide events, programs, and chambers of commerce.

**CULTURE & LIFELONG LEARNING OUTCOME – NOTABLE CHANGES & HIGHLIGHTS**

**ART SPACE ASSISTANCE PROGRAM:** Economic Development is continuing and expanding the Art Space Assistant Program (ASAP) with one-time funding of \$400,000 in FY 2018-19, which offers much-needed relief to nonprofit arts groups being displaced. Added funding provides grants to support non-profits facing permanent displacement, those

**ASAP: Art Space Assistance Program**

previously displaced, or those facing lease renewals at substantially higher rates amidst a volatile real estate market. **FC** **TOP TEN** **QoL** **EQ** **ITY**

**AUSTIN STUDIOS EXPANSION:** Austin Studios is a City-owned facility leased and operated by the Austin Film Society for film and creative media production. Planned capital spending of \$1.4 million in FY 2018-19 will continue essential building renovations and rehabilitation for their workspace. **TOP TEN**

**DUAL-USE RECYCLING RECEPTACLES IN CITY PARKS:** The Parks and Recreation Capital Budget was increased by \$1,185,000 to include funding for the purchase and installation of 800 dual-use recycling receptacles to be placed in City-owned park spaces.

**GRANTS FOR TECHNOLOGY OPPORTUNITIES:** The Grant for Technology Opportunities Program (GTOPs) is a grant administered by the Digital Inclusion Program directed at improving the community's ability to fully participate in the digital society. The program is in its 19<sup>th</sup> year and grant applications are reviewed and assessed by a panel of qualified community representatives appointed by the Community Technology and Telecommunications Commission. Managed by Telecommunications and Regulatory Affairs (TARA), an increase of \$175,000 is included in the FY 2018-19 budget to reflect full program cost. Austin Energy has previously provided this amount of funding. **QoL**

**GREEN WATER TREATMENT PLANT REDEVELOPMENT:** A one-time contribution of \$525,000 from the developer supports music performances and an art installation within the Green Water Treatment Plant Redevelopment. The public music performances and art will draw visitors to the newly-opened public spaces. The installation “Kempelen’s Owls” will be completed in early FY 2018-19.

**HISTORIC PRESERVATION FUND:** The Historic Preservation Fund was established in FY 2017-18 to promote tourism through preservation, restoration, and rehabilitation of historic properties and through the promotion of arts, culture, and heritage-based events. In FY 2018-19, \$11.2 million will be transferred into the fund from the Hotel Motel Occupancy Tax Fund. This equates to 15% of the HOT funds received. Expenditures include \$1.5 million to offset PARD general fund expenses from the Elisabet Ney, Susanna Dickinson, and O. Henry cultural museums; \$474,000 approved last year for PAZ Historic Survey; \$157,000 for a new position in EDD to manage the Historic Preservation Fund; and \$500,000 to maintain the Heritage Grants program at the current funding level. A recommendation for the allocation of the remaining funds will be brought forward subsequent to budget adoption. **FC**

**LIBRARY MATERIALS:** The Library’s FY 2018-19 budget includes increased funding of \$138,000 for library material costs and population growth. This ensures information and materials in a variety of

formats are available to enable citizens to continue their lifelong learning experience. This results in overall funding increasing from \$3.9 million to \$4.1 million.

**NEW STAFF FOR PARKS AND RECREATION HISTORIC SITES, MUSEUMS, AND CULTURAL CENTERS AND OUTREACH:** Funding in the amount of \$387,000 has been added to the Parks and Recreation and Austin Public Health Departments' budgets for five positions and supplies to support events, exhibits, and transportation to the City's museums and cultural centers and support of the Restore Rundberg initiative. An additional \$300,000 has been added to the Parks and Recreation Department's budget to update the master plan for the George Washington Carver Museum and Cultural Center. Funding for an additional four positions, temporary staff, and supplies to support the Oakwood Chapel Visitors Center, historic sites, museums, and cultural centers will be provided by the Historic Preservation Fund. [QoL](#)

**PLEASANT HILL LIBRARY:** This South Austin branch library requires repairs to restore the integrity of the building against water penetration and restore interior climate control. Spending in the amount of \$776,000 is planned for FY 2018-19 to replace the original roof and HVAC system, with the total project cost estimated at \$1.2 million.

# BUDGET IN BRIEF

The City of Austin is a large organization with diverse operation ranging from the standard functions generally associated with city government such as police, fire, parks, health services, libraries, and street maintenance to more independent concerns like Austin Energy and the Austin Bergstrom International Airport. The City of Austin also operates its own water and drainage utilities and convention center and has robust public works, transportation and code departments. Structurally, these functions are broken into major fund categories with the non-self-supporting operations housed within the City's General Fund. Departments that generate sufficient revenue to fully fund operations are categorized as enterprise funds. Supporting functions like human resources, financial services, law, capital project management, information technology, and fleet are considered internal services funds since their primary source of funding comes from other City departments. In addition to the differentiations by department and fund type, the City's budget is further segregated into the Operating Budget, which encompasses daily activities, and the Capital Budget, which includes major improvement projects.

## Operating Budget

In FY 2018-19 the City's plans on spending \$4.1 billion on operations. The chart below gives a broad overview of the major expenditures for the City's operating budget. It is evident from this Uses of Funds chart that the City's enterprise departments account for most of the expenditures with the largest two departments being Austin Energy and Austin Water at 31% and 14% of the total City's operating budget, respectively. The General Fund with expenditures of \$1.0 billion comprises 24% of the citywide operating budget. Reserve, debt retirements, internal services, and other enterprise funds constitutes the remaining 31% of the budget.

Narrowing our focus, let's take a closer look at the General Fund—the general operating fund for the City of Austin—and the departments it supports. For FY 2018-19, expenditures, or uses of funds, total \$1,030.1 million, reflecting an increase in overall department expenditures offset by a reduction caused by moving the Development Services Department into the newly created Development Services Fund. The result is a 0.3% change from the FY 2017-18 Amended Budget.

General Fund departments' operating expenditures total \$986.0 million, representing 95.7% of the total General Fund budget. As shown in the chart, there are ten City departments that make up the General Fund. Public safety functions—the City's police, fire, and emergency medical services—account for 68.4% of the General Fund, or \$704.1 million. Community services ranging from court services, animal services, and family health services to managing the City's libraries and parks account for 25.7% of the General Fund, or \$265.1 million in FY 2018-19. Neighborhood planning and affordable housing efforts provided by Neighborhood Housing and Community Development and the Planning and Zoning Department account for 1.6% of the General Fund, or \$16.8 million in FY 2018-19.

The Transfers and Others Requirements category accounts for 4.3% of the total General Fund requirements. This \$44.1 million covers economic development activities including property tax rebates associated with incentive agreements and other transfers to the Economic Development Department; facility maintenance and renovations; transfers to Austin Energy and Austin Water to cover the 311 Call Center and management expenses for the Balcones Canyonlands Nature Preserve; and transfers to other funds such as the Child Safety Fund, the Transportation Fund and the Austin Cable Access Fund to cover a variety of general governmental services.

The \$4.1 billion budget is the net total expenditures of all the City's budgeted funds. The amount is reduced by transfers made from one budgeted operating fund to another. Transfers are used to pay for such items as debt requirements and services performed by one department for another to avoid double counting of funds. The city-owned Austin Energy and Austin Water also transfer funding to the General

Fund. This transfer reflects payments that private utilities would otherwise have to make in the form of property taxes, franchise fees and dividend payments to shareholders. This transfer amount in FY 2018-19 is \$110 million from Austin Energy and \$47.6 million from Austin Water.

### Expenditures by Fund Category—Citywide Operating Budget in Thousands

Fund Category	FY 2017-18 Amended	FY 2018-19 Approved	Percent Change
General Fund	\$1,027,128	\$1,030,110	0.3%
General Fund and Enterprise Reserve Funds	\$70,779	\$83,081	17.4%
Enterprise Funds (i.e. Austin Energy, Austin Water Utility, Aviation)	\$2,668,057	\$2,797,042	4.8%
Internal Service Funds (i.e. Support Services, CTM, Employee Benefits)	\$632,464	\$684,335	8.2%
Special Revenue Funds (i.e. Hotel/Motel Occupancy Tax)	\$232,529	\$229,842	(1.2%)
Debt Retirement Funds (i.e. GO Debt, Utility debt service)	\$676,602	\$619,548	(8.4%)
Less transfers made between budgeted city operating funds	(\$1,407,651)	(\$1,394,945)	(0.9%)
<b>NET TOTAL REQUIREMENTS</b>	<b>\$3,899,908</b>	<b>\$4,049,012</b>	<b>3.8%</b>

The tables above and below show total spending by fund category and expense type. Total expenditures citywide are increasing \$149.1 million, or 3.8%, over the FY 2017-18 Budget. On average, department expenditures are growing at that same rate primarily due to increases in wages and from the additional staff needed to address population- and service-driven demand. The most notable increases, which occur in Austin Transportation, Public Works, and Aviation are a result of increased capital projects to address traffic issues, improve the transportation network, and to right-size the airport. The Development Services Department is also experiencing significant growth as it continues to meet its commitment to provide more extensive and timely reviews.

Expenditure growth at the department level is also a function of the local real estate market. Lease costs for office space are increasing 46% over FY 2017-18. Internal service funds are experiencing higher-than-average growth due to technology enhancements, such as a new Human Capital Management System, and rising information technology costs. The increase in reserves spending in FY 2018-19 is attributable to additional funds available in the General Fund Budget Stabilization Fund for one-time critical needs. These expenditures are in accordance with the financial policy regulating the use of the reserve.

### Expenditures by Expense Type—Citywide Operating Budget in Thousands

Expense Type	FY 2017-18 Amended	FY 2018-19 Approved	Percent Change
Personnel (i.e. wages, health insurance, overtime, retirement, taxes)	\$1,499,960	\$1,567,511	4.5%
Contractuals (i.e. rent, electricity, contracted services)	\$1,543,678	\$1,659,532	7.5%
Commodities (i.e. office supplies, fuel, asphalt, library books)	\$1,132,618	\$1,160,012	2.5%
Non-CIP Capital (i.e. vehicles, equipment)	\$12,059	\$11,105	(7.9%)
Expense Refunds (reimbursements of work performed for other depts.)	(\$171,679)	(\$182,263)	6.2%
Indirect Costs/Transfers Out to operating, non-budgeted, CIP city funds	\$1,291,374	\$1,228,060	(4.9%)
Less transfers made between budgeted city operating funds*	(\$1,407,651)	(\$1,394,945)	(0.9%)
<b>NET TOTAL REQUIREMENTS</b>	<b>\$3,899,908</b>	<b>\$4,049,012</b>	<b>3.8%</b>

\*Includes health insurance costs shown in Personnel and contractual costs charged by Internal Service funds to other City funds

## Wages

The FY 2018-19 budget includes funding to increase the City's minimum living wage for both regular and temporary employees to \$15.00 per hour, at a cost of \$1.9 million Citywide and \$1.5 million in the General Fund. The City has been working towards a \$15.00 per hour minimum living wage, as recommended by the Living Wage Stakeholder group, over multiple budget cycles. The FY 2018-19 budget achieves this goal one year ahead of schedule.

The FY 2018-19 budget also includes a 2.5% wage increase for civilian employees at a cost of \$18.5 million Citywide and \$4.7 million in the General Fund. Finally, the Service Incentive Pay program, an annual lump-sum payment to civilian employees based on tenure, is maintained in the Budget.

### Salary Budget Increase by State for Texas

Year	Results	Mean	Median
2014	Actual	3.1%	3.0%
2015	Actual	3.0%	3.0%
2016	Actual	2.9%	3.0%
2017	Actual	3.0%	3.0%
2018	Projected	3.1%	3.0%

Source: WorldatWork Salary and Budget Survey

### Other Texas Entities Wage Increases

Entity	2019
Dallas	3.0%
Fort Worth	3.0%
Houston	3.0%
San Antonio	1.0%
Travis County	2.0%
AISD	1.5%

Sworn employees of the City's three public safety departments receive wage increases in accordance with negotiated labor contracts. Under the current contract approved in FY 2017-18, sworn Fire personnel will receive a 0.5% wage increase in FY 2018-19. Sworn Emergency Medical Services personnel will receive a 2.0% wage increase in FY 2018-19. The City is currently in negotiations with the Austin Police Association as of the writing of this budget.

## Health Insurance

In FY 2018-19, the City will maintain the cost of premiums at \$10 a month for employees enrolled in the Preferred Provider Organization (PPO) employee-only coverage; a \$20 per month premium for Health Maintenance Organization (HMO) employee-only coverage; and no cost for employees that enroll in the Consumer Driven Health Plan (CDHP). Likewise, there will be no premium increases for spouse and family plans for the PPO, HMO, or CDHP. Premiums for retirees will also remain flat in FY 2018-19. The City is committed to meeting the challenge of maintaining cost-effective and sustainable benefits and therefore continues to expand its wide-ranging wellness programs encouraging healthy behaviors and early disease detection.

### Health Insurance Premium History and Change

Employee and Retiree Monthly Premiums (PPO)	FY 2017 Premium	FY 2018 Premium	FY 2019 Premium	FY 2019 \$ Change	FY 2019 % Change
Employee Only	\$10.00	\$10.00	\$10.00	\$0.00	0.0%
Employee + Spouse	\$365.08	\$382.24	\$382.24	\$0.00	0.0%
Employee + Children	\$268.95	\$281.60	\$281.60	\$0.00	0.0%
Employee + Family	\$612.92	\$641.74	\$641.74	\$0.00	0.0%
<b>Retiree Premiums</b>					
Retiree Only Pre-65	\$166.17	\$190.43	\$190.43	\$0.00	0.0%
Retiree + Family Pre-65	\$760.04	\$871.00	\$871.00	\$0.00	0.0%

### Total Contributions to the Employee Benefits Fund (millions)

Contributor	FY 2018 Amended Budget	FY 2019 Approved Budget	Change
City of Austin	\$202.4	\$206.7	\$4.3
Active Employees	\$44.2	\$44.7	\$0.5
Retirees	\$22.9	\$23.0	\$0.1
<b>TOTAL</b>	<b>\$269.5</b>	<b>\$274.4</b>	<b>\$4.9</b>

## Retirement Benefits

The FY 2018-19 Budget projects financial stability in all three of the City's retirement systems: the Employees' Retirement System (ERS), the Police Retirement System (PRS), and the Firefighters' Retirement System (FRS). The City's contribution rates to these systems are currently 18%, 21.313% and 22.05% of employees' salaries, respectively. Sworn EMS and all civilian employee contributions to the ERS remain fixed, at 8% of salary; police officers contribute 13% to the PRS; and Firefighters contribute 18.7% to the FRS.

### Contribution Rates and Funding Status of Retirement Systems

Retirement System	Employee Contributions	City Contributions	Total Contributions	Funding Level	Amortization Period
City of Austin	8%	18%	26%	68.3%	30 years
Police	13%	21.313%	34.313%	65.8%	35 years
Fire	18.7%	22.05%	40.75%	88.3%	17 years

The City of Austin retirement system provides civilian and EMS employees with a monthly pension payment that uses a predetermined formula based on length of service, salary history and payout options. There are two groups in this plan. Employees hired prior to January 1, 2012 are eligible to retire at any age after 23 years of service, at age 55 with 20 years of service, or at 62 with 5 years of service. The annual retirement benefit is calculated by multiplying the number of years of service by the average of the 3 highest earning years out of the last 10 years worked. This amount is then multiplied by 3.0 percent. Employees hired on or after January 1, 2012 follow a similar structure with modified factors: retirement eligibility occurs at age 62 with 30 years of service or at 65 with 5 years and the multiplier is 2.5 percent.

The plan changes creating the second group were implemented in order to address long term structural imbalances in the plan.

The members of the Austin Police Retirement System include all cadets upon enrollment in the Austin Police Academy, commissioned law enforcement officers employed by the City of Austin Police Department, and full-time employees of the System. The System provides retirement, death, and disability benefits to plan members and their beneficiaries. Benefits are vested after 10 years. Retirement benefits are paid in the form of a monthly life annuity and are based on the years of service times the highest 36 months of salary in the last 10 contributing years of service. A multiplier of 3.2 percent is applied to the years of service. Eligibility occurs with 23 years of creditable service, or at age 55 with 20 years of service, or at age 62.

The Austin Firefighters Pension Fund is structured similarly to the Police system with a few differences. Members—meaning commissioned and Texas state-certified employees of the fire department—are eligible to retire at 50 years of age with at least 10 years of service credit or with at least 25 years of service credit at any age. Retirement benefits are paid in the form of a monthly life annuity based on years of service times the highest 36 months of salary during the member’s contributing years of service. The multiplier for the Fire system is 3.3 percent. The Fire system also provides early retirement options.

#### City’s 5 Year Contribution History to Retirement Systems (millions)

Retirement System	FY15 Actual	FY16 Actual	FY17 Actual	FY18 Budget	FY19 Budget
City of Austin	\$97.4	\$102.6	\$108.9	\$122.5	\$133.2
Police	\$32.9	\$33.1	\$34.7	\$37.0	\$37.7
Fire	\$18.3	\$19.1	\$19.1	\$21.6	\$22.0
<b>TOTAL</b>	<b>\$148.6</b>	<b>\$154.8</b>	<b>\$162.7</b>	<b>\$181.1</b>	<b>\$192.9</b>

## Personnel Changes

The FY 2018-19 operating and grant budgets include funding for 14,449 full-time equivalent positions. Overall, the net change in positions citywide is an increase of 411, or 2.9%. Within the General Fund, 107 positions are being added for park maintenance, expanding services at cultural centers and museums, greater capacity for community policing, staffing the Onion Creek Fire Station, and resources to address health inequities and quality of life initiatives. In a continuing effort to provide the community with timely services, Development Services is adding 52 new positions. To better manage increasing workload, the FY 2018-19 budget includes funding for the conversion of 41 temporary and independent contract employees to permanent City employees within Austin Energy and the Watershed Protection Department. The remaining positions are necessary to keeping pace with demands related to population growth, enhance service delivery or address a new service or program demand. A summary of the personnel changes by fund type is shown on the following page.

### Personnel Summary (Full-Time Equivalent Positions)

Personnel by Fund Type	FY 2017-18 Amended	FY 2018-19 Proposed	Percent Change
General Fund (i.e. Police, Fire, EMS, Library, Parks and Recreation)	6,378	6,485	1.7%
Internal Service Funds (i.e. Financial Services, Info. Technology)	1,642	1,711	4.2%
Enterprise Funds (i.e. Austin Energy, Austin Water Utility, Aviation)	5,612	5,826	3.8%
Special Revenue Funds (i.e. Economic Development, Golf)	129	139	7.7%
Grant Funds (i.e. Health and Human Services, Neighborhood Housing)	276	288	4.3%
<b>TOTAL CITYWIDE FULL-TIME EQUIVALENT POSITIONS</b>	<b>14,038</b>	<b>14,449</b>	<b>2.9%</b>

## Revenue

The City of Austin is a multi-faceted municipal operation, and its revenue sources reflect the many businesses that make up City operations. Roughly speaking, charges for services from the City's two utilities account for half of the revenue generated, taxes account for a quarter, and the remaining quarter is a mix of fines, fees, permits, other charges for service, interest, and other revenue. The chart below shows the percentage of each major revenue source for the City as a whole.

Total citywide revenue for FY 2018-19 is budgeted at \$4.1 billion. Austin Energy utility charges total \$1.4 billion, which includes base revenue of \$566.2 million, \$426.0 million in fuel revenue, \$306.6 million in transmission and regulatory revenue, and \$93.6 million in community benefit and other revenue. Water, wastewater, and reclaimed water sales are projected at \$564.1 million including the Community Benefits Charge. With a property tax rate of 44.03 cents per \$100 dollars of valuation, total property tax revenue for operations, maintenance, and debt service is anticipated at \$665.0 million. Additional tax revenue includes \$236.2 million from city sales tax, \$95.8 million from hotel/motel occupancy tax, and \$23.1 million from taxes assessed on alcoholic beverages, vehicle rentals, and bingo. Charges for services and goods include revenue collected from garbage and recycling collection cart rates; clean community, drainage, and transportation user fees; emergency medical services charges; and airport rents and fees. Other significant revenue collections include \$83.6 million for permits, licenses, and inspections, which

encompasses \$52.6 million collected by Development Services' One Stop Shop; \$37.5 million in franchise fees for cable, gas, and telecommunications usage; and \$16.6 million for parking, traffic, and other fines.

### Major Operations & Maintenance Funding Sources by Revenue Type (in Thousands)

Revenue Type	FY 2017-18 Amended	FY 2018-19 Approved	Percent Change
Utility Charges (electric, water, wastewater, reclaimed water sales)	\$1,914,268	\$1,927,873	0.7%
Taxes (property, sales, Hotel/Motel Occupancy Tax, vehicle rental)	\$954,998	\$1,019,974	6.8%
Charges for Goods & Services	\$536,700	\$585,090	9.0%
Net Transfers In and Billings to Depts. (includes GO bond proceeds)	\$143,453	\$259,131	80.6%
Interest & Other (parking, airport bond proceeds, rental income)	\$134,815	\$157,174	16.6%
Fees, Fines, Permits, Licenses, & Inspections	\$130,987	\$137,691	5.1%
<b>NET TOTAL AVAILABLE FUNDING</b>	<b>\$3,815,221</b>	<b>\$4,086,933</b>	<b>7.1%</b>

Total citywide revenue is projected to increase by 7.1% from FY 2017-18 budgeted levels. Over 20% of this increase is due to of a one-time accounting adjustment. Prior to FY 2018-19, reserves for capital projects were recorded in the capital budget. With the creation of the Convention Center Capital Fund (CCCF), \$60.2 million was transferred into the operating budget from the capital budget creating a non-recurring spike in the transfers category. Transfers are also experiencing year-over-year growth as the City continues to enjoy sustained economic prosperity, translating to funds being moved in to reserve funds per financial policy guidance.

While the base rates for electric service remain unchanged, and Austin Water retail rates are decreasing by 4.8%, total revenue from utility charges is increasing slightly as a result of population growth. A growing customer base is also increasing the revenue from trash and recycling charges, the Clean Community Fee and the Drainage Utility Fee, which fund the operations of the Austin Resource Recovery, Code Compliance, and Watershed Protection departments. The Transportation User Fee will increase by \$1.27, or 11%, which in combination with population growth, will generate additional revenue for the Austin Transportation and Public Works departments.

Austin continues to be a top destination spot for business travel and tourism as evidenced by Austin-Bergstrom International Airport's revenue growth of 18.2% from terminal rents, airline landing fees and parking charges and continued, if moderating, gains in Hotel Occupancy tax receipts. Continued population influxes and tourism activity also contribute to robust year-over-year growth in tax revenue bolstered by sharply rising property values and steady consumer demand. A thriving local economy is also driving an enduring frenzy of construction activity. Combined with annual fee adjustments that ensure this elevated demand is paying for itself, this activity is projected to generate a 7.0% increase in development-related revenue citywide.

## Major Revenue Sources

### Utility Charges

**Austin Energy's rates** are composed of base rates and adjustable or pass-through rates. Base rates cover basic utility infrastructure such as power plants, distribution lines, customer service and the related operation and maintenance. Adjustable rates cover costs which may be more variable and are assessed

by others or provide additional services. Both base and adjustable rates vary slightly depending on whether a customer is located within or outside the city of Austin. Total revenue from Austin Energy utility charges is budgeted at \$1.4 billion for FY 2018-19, an increase of \$26.3 million, or 1.9%, over the FY 2017-18 Amended Budget.

Austin Energy's (AE) base rates, which consist of fixed charges, consumption based charges, customer charges, electric delivery charges, energy charges and demand charges, will not change in FY 2018-19. Base rates only change as a result of a cost of service study.

AE's adjustable rates include the power supply adjustment (PSA), regulatory charge, and community benefit charge. These rates are reviewed and adjusted each year through the budgetary process to reflect the actual cost of these items and are applied to a customer's consumption, or, in the case of the regulatory charge, the large commercial customers' demand level, as measured in kilowatt-hours (kWh). The PSA recovers dollar-for-dollar net power supply (fuel) costs and is reflected as a line item on the electric portion of the bill. The PSA is typically adjusted beginning with November bills by utilizing actual costs from the most recent twelve-month period. This historical data is used to set the power supply adjustment for the next twelve-month period. However, historical data will never perfectly match future actual costs that the utility incurs, so a true-up is included in the calculation. A true-up is an adjustment to rates by which under-recovered costs are collected by the utility or over-recovered costs are returned to customers. A decrease of 2.2% in the power supply adjustment is approved for FY 2018-19, representing a \$0.55 decrease for the monthly average residential bill.

The regulatory charge recovers dollar-for-dollar AE's share of the statewide costs of managing and using the transmission grid, as well as its expansion and upkeep. It includes the Electric Reliability Council of Texas (ERCOT) charges and fees that are based on AE's share of the summer statewide peak demand which is about four percent of the statewide total. Statewide transmission costs are reviewed, approved and apportioned by the Public Utility Commission of Texas (PUCT). Other non-discretionary regulatory costs may also be included. Changes to the regulatory charge continue to be driven primarily by increases to the state-wide transmission cost of service that is charged to all customers in the ERCOT region. Those costs have increased significantly in recent years due to the completion of the multi-year effort to improve the Texas transmission system and allow greater access to wind and solar resources in West Texas. The regulatory charge for FY 2018-19 will decrease \$0.17 for the monthly average residential bill from the FY 2017-18 rate.

The Community Benefit Charge (CBC) recovers certain costs incurred by AE as a benefit to AE's customers across its entire service territory. There are three components of the community benefit charge: (1) funding to provide utility bill assistance, weatherization, and discounts through the Customer Assistance Program (CAP) for qualifying customers; (2) the cost of AE's distributed solar and Energy Efficiency Services (EES); and (3) the cost to provide Service Area Lighting (SAL) throughout the city of Austin. For customers outside the city of Austin, the CBC excludes the service area lighting component and the CAP component is reduced for residential customers. The community benefit charge is billed on a kWh basis to all customer classes and may be adjusted as costs change. In FY 2018-19, additional revenue can be attributed to increased kWh sales and an increase in the Energy Efficiency Services (ESS) rate. Thus, the average monthly residential bill will see a slight increase in the Community Benefit Charge in FY 2018-19.

The following table reflects the average residential customer bill impact for FY 2018-19. The FY 2017-18 versus FY 2018-19 rate comparison is based on an average residential customer using 860 kWh of energy. The FY 2018-19 average monthly bill includes the impact of the approved changes in the Community Benefit Charge, regulatory charge and PSA.

### Average Residential Customer Bill Impact

Unbundled 5-Tier Inclining Block Energy Rate (Inside City of Austin Customer)

Average Monthly Bill	Energy kWh	FY 2017-18 Amended Budget Rate	FY 2018-19 Approved Budget Rate	\$ Change	% Change
Customer Charge		\$ 10.00	\$ 10.00	\$ 0.00	0.0%
Base Electricity Charge	860	\$ 35.01	\$ 35.01	\$ 0.00	0.0%
Power Supply Adjustment (PSA)	860	\$ 25.45	\$ 24.90	(\$ 0.55)	(2.2%)
Community Benefit Charge (CBC)	860	\$ 4.83	\$ 5.27	\$ 0.44	9.1%
Regulatory Charge	860	\$ 11.71	\$ 11.54	(\$ 0.17)	(1.5%)
<b>Total Monthly Bill</b>	<b>860</b>	<b>\$ 87.00</b>	<b>\$ 86.72</b>	<b>(\$0.28)</b>	<b>(0.3%)</b>
<b>Total CAP Customer Discounted Bill</b>	<b>860</b>	<b>\$ 67.97</b>	<b>\$ 67.86</b>	<b>(\$0.11)</b>	<b>(0.2%)</b>

Austin Energy customers also have the opportunity to support 100% renewable energy for an average cost of a few dollars per month by signing up for Green Choice®. The Green Choice® adjustable premium will remain at 0.75 cents in FY 2018-19. In addition, AE offers customers a Residential Value-of-Solar (VOS) Rider that enables AE to credit customers for their solar production at a rate equivalent to the value of solar assessment. The VOS non-demand rate is 0.97 cents per kWh.

**Austin Water's rates** are based on cost allocations among customer classes in order to ensure that water and wastewater services are both self-sustaining and resulting in equitable cost recovery. In FY 2017-18, Austin Water completed an 18-month cost-of-service process, which included significant stakeholder participation in the review of Austin Water's cost-of-service methodologies. As a result, City Council approved a 4.8% system-wide retail customer rate reductions mid-year in FY 2017-18, effective May 1, 2018, and will remain in effect in FY 2018-19. Additionally, Austin Water implemented a Community Benefit Charge (CBC) in FY 2017-18 to fund its the Customer Assistance Program (CAP). The fee to fund this program is \$0.15 per 1,000 gallons for all retail customers. All retail customer volumetric rates were reduced by the same amount to ensure a rate neutral implementation. As a result of this rate decrease, total Austin Water FY 2018-19 revenue from rates and charges is projected to fall by \$10.3 million from FY 2017-18 budgeted levels, a decrease of 1.8%.

### Charges for Goods & Services

**Austin Resource Recovery (ARR)** utilizes both a **base rate** and **cart rates** to fund its operations. In FY 2018-19, both the base rate and cart rates will remain unchanged from the FY 2017-18 rates. One of the main principles of the Zero Waste concept is a focus on reducing waste and increasing recycling. In an effort to encourage residents to further embrace this concept, ARR adjusted trash cart rates to a per-gallon structure in FY 2012-13. The FY 2018-19 rates will remain at 16 cents per gallon for the 24-, 32- and 64-gallon carts, and 30 cents per gallon for the 96-gallon cart. The per-gallon rate system is

intended to create a financial incentive for customers to decrease their trash volume by recycling more items and downsizing their trash cart size. As a result of growth in its customer base, ARR revenue from rates and charges is budgeted at \$90.5 million in FY 2018-19, an increase of \$1.7 million, or 1.9%, over the prior year budget.

The **Clean Community Fee (CCF)** is a fixed fee charged to residential and commercial utility customers to fund Austin Code and services such as litter abatement, street cleaning, and dead animal pickup within ARR. Residential customers pay \$8.95 per month, and commercial customers pay \$20.75. Although both fees will remain unchanged in FY 2018-19, anticipated growth in customer base means CCF revenue is projected at \$49.0 million in FY 2018-19, representing 3.3% growth over FY 2017-18 budgeted levels.

The **Transportation User Fee (TUF)** is a fee assessed to residents and businesses based on the traffic levels generated by each dwelling unit or business and funds street maintenance and repair, annual street overlay and striping, and traffic management activities with the Public Works and Austin Transportation Departments. To better manage workload and enhance service delivery, the TUF rate will increase by 11% in FY 2018-19. Following this increase, single-family homes will pay \$12.79 per month. The result of this change, and the added effect of population growth, is FY 2018-19 revenue that is projected to grow by \$9.4 million to \$80.8 million, representing 13.1% growth over the prior year.

In FY 2018-19, **Aviation** revenue from charges for services and goods is projected at \$138.5 million, a \$21.3 million, or 18.2%, increase from the prior year's budget. This upsurge can be attributed to continued explosive growth in passenger traffic at the Austin Bergstrom International Airport and the anticipated opening of the nine-gate Barbara Jordan Terminal expansion in the spring of 2019, with projected growth of 33.1% in terminal rents and related fees, 10.9% in additional airline landing fees, and 8.6% in parking revenue.

The **Emergency Medical Services** Department assesses charges for its services projected to total \$40.3 million in FY 2018-19, an amount nearly identical to the budgeted level for the prior year. Net revenue from Travis County is increasing by approximately \$500,000 over the prior year as the result of a renegotiated cost-sharing agreement. These gains are being offset, however, by a small decrease in anticipated transport revenue and a \$226,000 reduction in a payment for Community Health Paramedic program services from the Travis County Healthcare District due to the cessation of Medicaid 1115 Waiver funding from the federal government.

## **Taxes**

The City's General Fund receives 47.1% of its total revenue, \$485.0 million, from **property tax**, its largest and most stable source of revenue. Property tax revenue derives from the interplay between growth in taxable property valuations and the property tax rate, which is established annually during the City's budget process.

This Budget sets the overall property tax rate at 44.03 cents per \$100 of assessed property valuation, a decrease of 0.45 cents from the fiscal year 2017-18 tax rate of 44.48 cents. The property tax rate of 44.03 cents consists of two parts, the operating rate and the debt service rate. For FY 2018-19, the approved operating rate is 33.08 cents per \$100 of assessed valuation, revenue from which will be collected and deposited into the City's General Fund to pay for the ongoing costs of City services and for maintenance expenses. The remaining 10.95 cents is the debt rate, revenue from which will be

deposited into the Debt Service Fund to make payments related to general obligation bonds. General obligation bonds provide funds for infrastructure projects such as major street improvements and purchasing or improving parks.

The proposed tax rate is based on the certified tax rolls from the Travis Central Appraisal District, the Williamson Central Appraisal District, and the Hays Central Appraisal District. The Budget reflects a taxable valuation of \$152.6 billion, which represents an increase of 9.9% over last year's valuation. New property is valued at \$3.8 billion and is primarily driven by the construction of residential, multi-family, and commercial properties, as well as annexed areas being added to Austin's tax roll for the first time.

The table below provides a twenty-year history of the City's property tax rates, culminating in the approved tax rate for fiscal year 2018-19. This is the tax rate needed to maintain a balanced budget in an environment of increasing cost drivers—such as the increased demand for services that accompanies population growth, employee bargaining agreements, and health insurance and pension costs—while also providing additional resources for new initiatives. The Austin community has provided consistent feedback encouraging the City to continue to expand its services, while respecting the need to maintain affordability, and the City Council has expressed its desire to take aggressive action with respect to improving outcomes across six major strategic areas. As in prior years, we weighed this feedback, along with the need to ensure the City's sustainable future financial health, carefully in crafting the FY 2018-19 Budget. For comparison purposes, this table also shows the effective maintenance and operations property tax rate, which is the rate that would generate the same amount of maintenance and operations tax revenue as in the prior fiscal year from properties taxed in both years.

#### Historical Property Tax Rates, Per \$100 of Taxable Value

Fiscal Year	Effective Maintenance & Operations	Maintenance & Operations	Debt	Total
2000	0.3133	0.3222	0.1812	0.5034

2014	0.3668	0.3856	0.1171	0.5027

<b>Fiscal Year</b>	<b>Effective Maintenance &amp; Operations</b>	<b>Maintenance &amp; Operations</b>	<b>Debt</b>	<b>Total</b>
2015	0.3523	0.3691	0.1118	0.4809
2016	0.3285	0.3527	0.1062	0.4589
2017	0.3148	0.3399	0.1019	0.4418
2018	0.3145	0.3393	0.1055	0.4448
2019	0.3137	0.3308	0.1095	0.4403

The median assessed value in Austin of an owner-occupied home, or homestead, not receiving the property tax exemption for seniors or the disabled is \$332,366 in fiscal year 2018-19. After incorporating the effect of the City's homestead exemption of 10% of assessed value—which in June was increased from 8% by the City Council—applying the approved property tax rate to this median home value yields an annual property tax bill of \$1,317.07. This represents a net increase of \$66.87 over FY 2017-18, when the median assessed homestead value of \$305,510, 8% homestead exemption, and property tax rate of 44.48 cents yielded a property tax bill of \$1,250.20. While tax increases are never popular, they are the consequence of inflationary pressure on prices and on property values, and of our community's consistent support of our high level of service delivery. In the most recent Community Survey, Austin residents ranked the overall quality of the City's customer service at 26 percentage points higher than the national average for other large cities, and the quality of our fire, EMS, parks and recreation, library, code enforcement, and street maintenance services all at least 14 percentage points higher than the national average. The increase in the tax bill for a typical homeowner included in this budget was necessary in order to continue this high level of service while maintaining a structurally balanced budget in the face of escalating base cost drivers, annualization expenses for prior-year initiatives, and an expansion of funding for Council-identified priorities in support of improving strategic outcomes.

One way to track residents' ability to pay their tax bills over time is by calculating the percentage of median family income that a resident who owns a median-value home pays in property taxes and comparing it to that of other major cities in Texas. With the lowest tax rate and the highest median family income, Austin ranks very competitively with its peers in Texas when it comes to the value received for a resident's tax dollar, even before factoring in the quality of the City of Austin's services, which consistently rank above national norms. Indeed, the percentage of its income a typical Austin family commits to City property taxes has declined or remained flat for the past three fiscal years, evidencing the high priority the City places on providing superlative value to our residents.

Each year, the property tax payment due date is January 31. All taxes paid after this date are subject to delinquent penalty and interest charges. Delinquent tax bills are assessed a 6% penalty with additional penalties accruing each month until July, when the total penalty reaches 12%. Interest accrues at 1% per month until the taxes are paid. Property taxes remain due for each tax year they are billed until they are paid. Delinquent taxes are remitted to the City when payment is received by the tax collector. The FY 2018-19 budget for delinquent taxes and for penalty and interest due is \$1.3 million. A history of prior year property tax collections and delinquent taxes due is shown on the following page.

**Sales tax** is levied on the sale, lease, or rental of all taxable goods and services within the Austin city limits. Certain foods and drugs as well as governmental purchases are exempted from the sales tax. Sales tax is collected by businesses at the time of the sale and paid periodically to the Texas Comptroller of Public Accounts. The Comptroller then remits the portion due to the locality where the business is located. In the city of Austin, the State collects 8¼ cents for every dollar spent on retail sales. Of this amount, the State keeps 6¼ cents, 1 cent is paid to the City and 1 cent is paid to the Capital Metropolitan Transportation Authority.

Sales tax revenue is budgeted at \$236.2 million in FY 2018-19, which represents projected growth of 3.5%, or \$8.1 million, above estimated FY 2017-18 collections. Informed by regional economic forecasts from consulting firm TXP, this growth rate reflects financial staff's assessment that the explosive growth in consumer activity Austin has experienced thus far this decade shows evidence of tapering to a more sustainable level.

### Property Tax Summary

Fiscal Year	Taxable Valuation	Tax Levy	Collected Within the Fiscal Year	% of Levy Collected Within the Fiscal Year	Delinquent Taxes Due <sup>1</sup>	Delinquent Taxes Outstanding As a % of Tax Levy
2007-08	\$68,736,790,926	\$277,284,215	\$275,112,436	99.2%	\$405,775	0.1%
2008-09	\$76,752,007,737	\$307,929,055	\$306,705,757	99.6%	\$507,605	0.2%
2009-10	\$80,960,540,976	\$340,762,917	\$337,354,157	99.0%	\$554,399	0.2%
2010-11	\$77,619,349,384	\$354,798,046	\$351,742,824	99.1%	\$591,426	0.2%
2011-12	\$79,219,780,879	\$381,126,366	\$378,721,688	99.4%	\$598,459	0.2%
2012-13	\$83,294,536,493	\$418,888,224	\$415,311,666	99.1%	\$690,303	0.2%
2013-14	\$88,766,098,160	\$446,227,175	\$442,973,562	99.3%	\$775,420	0.2%
2014-15	\$98,652,179,430	\$474,418,331	\$471,100,533	99.3%	\$867,587	0.2%
2015-16	\$110,526,026,399	\$507,203,935	\$505,053,147	99.6%	\$978,907	0.2%
2016-17	\$125,371,654,656	\$553,891,970	\$551,445,394	99.6%	\$1,499,998	0.3%
2017-18 <sup>2</sup>	\$138,775,986,481	\$617,275,588	\$612,559,547	99.2%	\$4,832,337	0.8%
2018-19 <sup>3</sup>	\$152,567,772,772	\$671,755,904	\$661,679,565	98.5%	-	-

<sup>1</sup>Delinquent taxes due as of June 30, 2018.

<sup>2</sup>Certified taxable property value for the tax year 2017; tax levy and collections are estimated.

<sup>3</sup>Certified taxable property value for the tax year 2018 net of projected impact of senior/disabled homestead exemption; tax levy and collections are estimated.

Total Delinquent Taxes FY 2008-2018	\$12,302,217
Total Delinquent Taxes FY 1948-2007	\$7,162,575
<b>TOTAL DELINQUENT TAXES DUE</b>	<b>\$19,464,792</b>

The City receives nine cents on each dollar of qualified room occupancy rents through the **Hotel Occupancy Tax**. Per City Code, the tax is distributed as follows:

- 4.50 cents to the Convention Center Tax Fund to pay debt service and operating requirements related to the Austin Convention Center;
- 2.00 cents to the Venue Project Fund to pay debt service for bonds issued for the expansion of the Austin Convention Center in 2002, and a small portion of the Waller Creek Tunnel Project;
- 1.05 cents to the Cultural Arts Fund to fund contracts to artists and cultural agencies as a way to encourage, promote, and improve the arts in Austin. Cultural Arts contracts are allocated through a predetermined process involving review and recommendation by the Arts Commission and approval by the City Council;
- 1.05 cents to the Historic Preservation Fund to promote arts, culture, and heritage-based tourism and events; and,
- 0.40 cents to the Tourism and Promotion Fund, primarily for contract payment to Visit Austin to promote conventions and tourism for Austin; annual requirements are budgeted in total, with allocation between recipients to be determined by City Council to be used for allowable uses of Hotel Occupancy Tax as defined under Chapter 351 of the State of Texas Tax Code.

Growth in Hotel Occupancy Tax collections are anticipated to moderate to a more sustainable level. In FY 2018-19, Hotel Occupancy Tax revenue is projected at \$95.8 million, or 0.8%, above FY 2017-18 budgeted levels.

Other taxes include a 5% **vehicle rental tax** approved by voters in 1998 to fund the \$40-million Palmer Events Center, and a parking garage; a **mixed drink tax**; and a **bingo tax**. Total revenue from these taxes is projected to total \$23.1 million in FY 2018-19, an increase of \$1.3 million, or 5.9%, from the prior year.

## Change in Fund Balances

The change in fund summary balances for all funds in the aggregate for FY 2018-19 is an increase of \$233.7 million, or 17%, from FY 2017-18. The largest fund balance increase is the result of a new Convention Center Capital Fund (CCCF) created as a reserve for future operating expenses. The ending balance of \$82.4 million is primarily the result of a one-time accounting adjustment as funds were transferred in to the CCCF from Convention Center capital funds. Since the capital funds are segregated, this transfer appears as a spike in the City's operating balances.

The upward movement of fund balances is also being influenced, to a lesser degree, by enterprise operations expecting to end FY 2018-19 with \$50.1 million more in cash balances than planned due to conservative forecasting practices. As a result, the majority of rates and fees for the City's operations will not be increasing in FY 2018-19 as departments utilize the built up balances to fund increasing requirements.

Austin Energy continues its replenishment of reserves depleted prior to the last rate increase. In FY 2018-19, the utility's three reserves grow by \$44.1 million, combined. Austin Energy anticipates its reserves will be in full compliance with financial policies by FY 2021-22.

Finally, in FY 2017-18, the new Historic Preservation Fund was established to use 15% of the Hotel Motel Occupancy Tax receipts to promote tourism through preservation, restoration, and rehabilitation of historic properties. The \$11.5 million increase in ending balance reflects transfers into the fund that are available for capital projects and other eligible expenses.

For more detailed information, a summary of citywide revenue and expenditures by type and fund category for FY 2018-19 can be found in the Funds section. This is immediately followed by a summary of all City funds, which shows the balances, the total revenue, and total requirements of each budgeted fund, including two years of prior year actuals, FY 2017-18 budget and current year-end estimate and the FY 2018-19 projected amounts. Departmental budgets which include information on both the operating and capital budgets are provided in the following section.

## Capital Budget

The City of Austin regularly undertakes projects to improve public facilities and infrastructure assets for the benefit of its citizens. These projects, collectively referred to as the Capital Improvements Program (CIP), may include construction and renovation of recreation centers and libraries, acquisition of parkland, repaving of streets, replacement of water and wastewater lines, provision of power for residents, and

the purchase of new fleet vehicles and information technology equipment. CIP projects vary in scope, so some may require years of planning and construction while others may be completed in a shorter timeframe.

Each year, the City of Austin produces a CIP Plan that outlines the various projects, with associated funding and spending plans, that will take place over the upcoming five-year period. The CIP Plan is not intended to be an all-inclusive inventory of the City's capital needs for the upcoming five years. Instead, it outlines the planned projects with available funding sources and serves as the basis for new appropriations included in the annual Capital Budget. The FY 2018-19 Five-Year CIP Plan can be found on [Austin Finance Online](#).

The Capital Budget funds major improvements and expansions of City facilities and infrastructure, while the Operating Budget primarily funds the ongoing operations of each department, including personnel and programmatic costs. The Capital Budget funds the total cost of acquiring or constructing a City asset, including design, bidding, and construction. Unlike the Operating Budget, which appropriates funding annually, Capital Budget funds are available until expended, typically over multiple years. The annual Capital Budget provides the additional appropriations necessary begin new, or continue existing, projects.

## Funding CIP

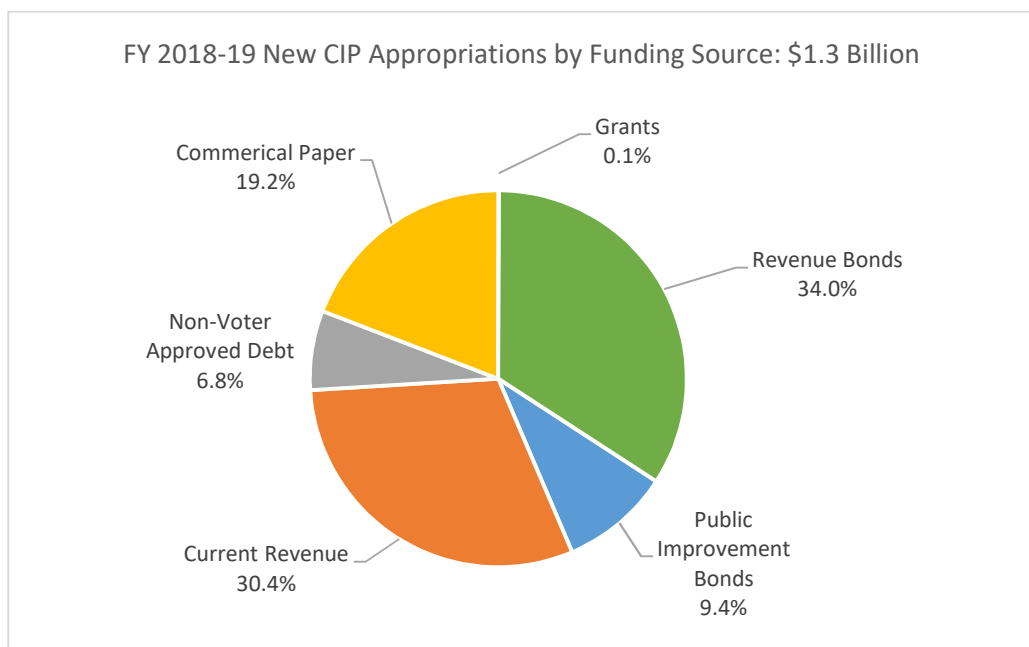

CIP is supported by a number of different funding sources, including debt, operating transfers, grants, and various other smaller revenue. The type of funding utilized for a project can vary according to the type of project as well as the department. Debt sources include public improvement bonds (voter-approved General Obligation bond programs), certificates of obligation, contractual obligations, and commercial paper. The use of debt is suitable in capital projects because it promotes intergenerational equity in bearing the costs of the projects as well as enjoying the benefits.

Public improvement bonds (PIBs), certificates of obligation (COs), and contractual obligations (KOs) are all General Obligation bonds that are secured by the full faith and credit of the City of Austin and its ad valorem taxing power. While PIBs require voter approval that is obtained through a bond election, COs and KOs do not. PIBs are a long-term debt instrument that allows the cost of capital investments to be repaid over a specified timeframe, typically 20 years. COs are used for real property purchase and construction, and similar to PIBs, are typically paid for over a 20-year period. KOs are a short-term debt instrument, typically 5 to 7 years, used to finance equipment or vehicles. To avoid incurring debt and borrowing costs until cash is actually needed, cities can begin the preliminary phases of a project and reimburse the costs incurred with the sale of bonds at a later date through the use of a reimbursement resolution. To save issuance costs the City of Austin's debt issuance is normally sold once each year. In FY 2018-19, \$199.1 million of new appropriations are supported by a reimbursement resolution for General Obligation debt. Another \$431.3 million of new appropriations are supported by a reimbursement resolution for Aviation Revenue Bonds.

The City's priority is to seek voter approval for most tax-supported debt. However, adopted financial policies allow for use of COs and KOs if the capital expenditure is urgent, unanticipated, necessary to prevent an economic loss to the City, revenue generating, or is the most cost-effective financing option. The commercial paper program is utilized by Austin Energy and Austin Water only. Commercial paper is

very short-term debt, usually due within 30 to 45 days, and utilized as an interim financing mechanism for capital expenditures that provides for lower interest costs and flexibility. Commercial paper issued in the short term is periodically converted or refunded into long-term bonds.

The financial policies adopted by Council ensure that the City's financial resources are managed in a prudent manner. These policies are reviewed annually for compliance, and changes and additions to the policies are submitted for Council consideration from time to time. Several of the policies have a direct relation to the financing of capital projects. A complete listing of the City's financial policies is available in the supporting documents section of this document.

## Bond Program Update

The City currently has three active major bond programs: 2012, 2013, and 2016. When a bond program is approved by the voters, the full authorized amount is not appropriated all at once. Instead, appropriations are made in installments in accordance with the prioritization, coordination, and timing of projects over the life of the bond program. Active bond programs are defined as those with more than 5% of authorized funding to be obligated and with more than 10% to be spent.

The 2012 Bond Program was approved by the voters on November 6, 2012, and includes six propositions for a total of \$306.6 million in authorization. The 2012 Bond Program was developed in alignment with many of the priority programs of the Imagine Austin Comprehensive Plan, such as investing in a compact and connected Austin, growing and investing in Austin's creative economy, and using green infrastructure. Proposition 12 authorized \$143.3 million in funding for transportation and mobility projects, including street improvements, sidewalks, bridge, bikeways, signals, and facilities. Proposition 13 authorized \$30.0 million for open space and watershed protection acquisition. Proposition 14 authorized \$77.7 million for parks and recreation projects, including citywide park improvements, facility improvements, and cemetery renovations. Proposition 16 authorized \$31.1 million in funding for public safety facility improvements. Proposition 17 authorized \$11.1 million for health and human services facility improvements. Proposition 18 authorized \$13.4 million in funding for library, museum, and cultural arts facilities improvements,

including interior and exterior renovations at numerous branch libraries and funding for the Austin Film Studios.

The 2013 Bond Program was approved by the voters on November 5, 2013, and includes one proposition for \$65.0 million in authorization to support affordable housing, which includes rental housing, homeownership, and home repair. The projects and programs are projected to be implemented over a five- to six-year period.

The 2016 Bond Program was approved by voters on November 8, 2016, and includes one proposition for a total of \$720.0 million in authorization for local, corridor, and regional transportation and mobility improvements. This mobility bond program provides improvements for intersections, sidewalks, bicycle facilities, urban trails, and the Safe Routes to School Program.

The table below provides an overview of the various bond program authorizations and activity as of June 30, 2018.

Bond Program	Voter Approved	Obligated	% Obligated
2012 – Prop 12: Transportation and Mobility	143,295,000	102,881,647	71.8%
2012 – Prop 13: Open Space and Watershed Protection	30,000,000	29,804,226	99.3%
2012 – Prop 14: Parks and Recreation	77,680,000	46,868,262	60.3%
2012 – Prop 16: Public Safety	31,075,000	19,570,444	63.0%
2012 – Prop 17: Health and Human Services	11,145,000	7,775,740	69.8%
2012 – Prop 18: Library, Museums, and Cultural Arts Facilities	13,440,000	4,811,179	35.8%
<b>2012 Bond Total</b>	<b>306,635,000</b>	<b>211,711,498</b>	<b>69.0%</b>
2013 – Prop 1: Affordable Housing	65,000,000	49,882,674	76.7%
<b>2013 Bond Total</b>	<b>65,000,000</b>	<b>49,882,674</b>	<b>76.7%</b>
2016 – Prop 1: Transportation and Mobility	720,000,000	60,268,607	8.4%

<b>Bond Program Total</b>	<b>1,091,635,000</b>	<b>321,862,780</b>	<b>29.5%</b>

## FY 2018-19 Capital Budget Appropriations and Spending

The Capital Budget is a multi-year spending authorization, and as a result, there is a distinction between what the City plans to spend in the next fiscal year and the new appropriations required to be approved in the Budget. In addition, full appropriations for capital projects are required for contract awards to ensure adequate funding even though that appropriation will generally not be fully spent in the same fiscal year. New FY 2018-19 CIP appropriations total \$1.3 billion, while the total CIP spending plan for FY 2018-19 is \$1.0 billion. The size and nature of Austin Energy, Austin Water, and Aviation projects are significant and account for \$958.1 million, or 76%, of total new capital appropriations and \$663.7 million, or 67%, of planned spending in FY 2018-19. The table and graphs on the following pages illustrate FY 2018-19 new appropriations and planned spending by departments and programs. For more detail about the planned spending for each department, please see the associated department budget pages in this document.

<b>FY 2018-19 Appropriations and Spending Plan Summary</b>			
<b>Department</b>	<b>Operating Appropriation</b>	<b>Capital Appropriation</b>	<b>Capital Spending Plan</b>
Animal Services	\$13,911,617	\$0	\$50,165
Austin Code	\$24,593,801	\$0	\$0

# FIVE-YEAR FINANCIAL FORECASTING

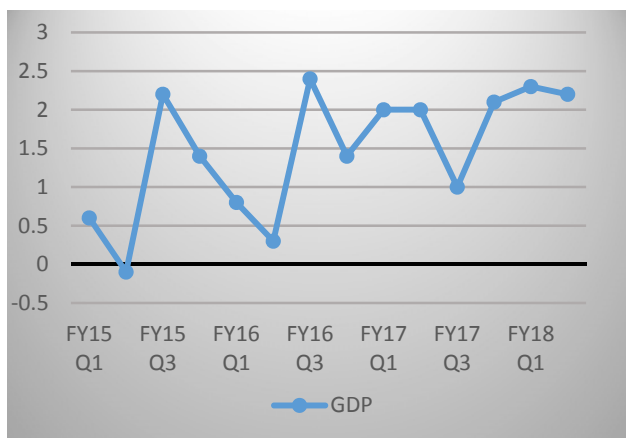

The City of Austin prepares a five-year financial forecast annually as a tool to guide policy and programmatic decisions. By surveying and evaluating current economic and fiscal conditions, staff can identify important trends that may impact future revenue or expenditure levels and thus provide necessary information for policy and decision makers to agilely adjust to changing conditions. Metrics monitored range from national, such as GDP, to department specific, like number of residential building permits issued, in order to create the most robust picture of the financial climate in which the City and its enterprises will be operating.

## Economic Indicators - National

Economic activity in the United States picked up over the course of 2017, a situation expected to continue for much of this year as the impact of cuts in business and individual taxes ripples through the economy. However, disposable income is rising more slowly than spending, causing the savings rate to drop. In the near term, lower tax bills and repatriation of business profits (which can translate to consumption) will provide short-term stimulus. For businesses, the tax plan delivers not only lower rates, but ability to immediately deduct investment spending from tax payments for the next five years. Higher profitability will also provide more resources for companies to invest, although rising wage costs could partially offset the positive impact of greater investment.

On the monetary policy side, tension around inflation fears and higher federal deficits (which will tend to increase interest rates over time) combine with tax cuts and strong current economic growth to create a Fed orientation toward tightening (perhaps three times this year). Meanwhile, the situation on trade is in flux, although early indications are that the more protectionist policy stance may be substantially offset by carve-outs and “strategic exceptions.”

### National GDP Growth

Data Source: Bureau of Economic Analysis, U.S. Department of Commerce

### Consumer Confidence Index - National

Data Source: Bureau of Labor Statistics (Texas Workforce Commission), TXP

## Economic Indicators - City of Austin & Austin MSA

The rate of growth (in both absolute and percentage terms) in the Austin metro area (MSA) fell slightly during 2017, but the pace and level remain among the most expansive among major metro areas in the country. Job growth (as measured by the employer survey) was slightly slower last year; with 32,300 net new jobs added, the growth rate of 3.2% was off from 3.8% during 2016. Most of this growth remains found in the commercial sectors of the economy, reflecting continued population increases, while consumer spending has stabilized in recent quarters.

## Conclusions

The Austin area remains among the regional economic stars in the United States, with most recent employment revisions suggesting the slowdown was not as severe as initially reported. Nevertheless, overall growth is slowing, a trend expected to continue. The forecast is for the overall creation of 30,900 net new jobs in 2018, followed by 28,700 during 2019. Personal income should expand in the 6% range. Services of all kinds are where the majority of the new jobs will be found, along with other consumer sectors.

All major private sector industry segments will grow, with manufacturing expected to continue the trend started last year of modest job expansion. The slowest growing major sector of the economy is also the largest, as government employment likely will expand at a pace slower than population growth. Austin remains highly prosperous overall, but cost pressures and uneven and unequal distribution of that prosperity are increasingly of concern.

## General Fund Forecast

### General Fund Revenue

FY 2018-19 revenue for the General Fund totals \$1,030.1 million, which balances to budgeted expenditures and is generated from four major sources: property tax, sales tax, transfer payments from the City's two utilities, and other revenue consisting of fees, fines, permits, licenses, charges for services, and interest income. Total General Fund revenue is increasing by approximately \$3 million in comparison with the FY 2017-18 Amended Budget, as increasing taxable property valuations and projected growth in sales tax revenue is being offset by the loss of revenue being moved to the newly created Development Services Fund. The nearby graph displays the total amount of budgeted revenue attributable to each major revenue category as well as each category's relative share of total budgeted General Fund revenue in FY 2018-19.

### Property Tax

Property tax revenue is derived through a complex interplay between properties' taxable valuation—based on the certified tax rolls from the Travis Central Appraisal District, the Williamson Central Appraisal District, and the Hays Central Appraisal District; new development; City requirements; and a State-imposed revenue cap. The Budget reflects a taxable valuation of \$152.6 billion, which represents an increase of 9.9% over last year's valuation. New property is valued at \$3.8 billion and is primarily driven by the construction of residential, multi-family, and commercial properties, as well as annexed areas being added to Austin's tax roll for the first time.

Looking ahead, City financial staff expect the robust recent growth in property value to continue, if at a more moderate pace. More specifically, total taxable valuation in Austin is currently projected to rise by 8% in fiscal years 2019-20 before leveling off to a 6% annual growth rate in fiscal years 2020-21 through 2022-23. The value of new property added to the tax roll is expected to decline over the medium-term from today's elevated levels, with a forecasted drop to \$2.8 billion in FY 2019-20 and a further reduction to \$2.4 billion by FY 2022-23. Nevertheless, it is expected that the City will be able to generate sufficient property tax revenue to balance forecasted expenditure increases while remaining at rates below the current State-defined rollback threshold.

### Sales Tax

Sales tax collections are volatile since they are related to the well-being of the local and national economy, employment and real income levels, and the impact of tourism and business travel. The chart below tracks the growth in Austin’s sales tax collections over the past decade. The one year in which sales tax declined corresponds to the economic contraction in fiscal year 2008-09.

In fiscal year 2009-10, as the local economy strengthened, sales tax collections recovered. Year-over-year growth has persisted in the intervening years, with a recent peak in FY 2011-12 of 8.6% annual growth. More recent years have seen the strength of the uptrend abate toward a more sustainable level as a result of lackluster gains in real income growth and the competitive challenge presented by the expansion of retail developments in Austin's neighboring communities, with annual growth reaching an eight-year low of 2.9% in FY 2016-17. Taxable sales have recovered somewhat in the current year, concomitant with improved state of the national economy, with estimated FY 2017-18 collections estimated to increase by 4.2% from the prior year.

Prudent sales tax projections require thoughtfulness and restraint. What is known is that sales tax revenue will drop again; what is unknown is when. From the perspective of sound fiscal management, it is far more important to ensure that ongoing services and costs are not added to the Budget on the basis of a cyclical peak or an ephemeral upturn in a variable revenue source than it is to attempt to predict the exact rate of growth in sales tax payments in any given fiscal year. Projections for sales tax revenue must remain cautious as a result of the asymmetrical consequences of actual growth failing to align with projections. In other words, while actual sales tax receipts falling short of budgeted levels can have severe repercussions with respect to maintaining a balanced General Fund budget, there are no corollary consequences should this revenue exceed projections.

Accordingly, sales tax revenue is budgeted at \$236.2 million in FY 2018-19, which represents projected growth of 3.5%, or \$8.1 million, over estimated FY 2017-18 collections. Informed by regional economic forecasts from consulting firm TXP, this growth rate reflects financial staff's assessment that the explosive growth in consumer activity Austin has experienced thus far this decade shows evidence of tapering to a more sustainable level. Similar considerations condition current forecasts for the longer-term growth of City sales tax receipts.

### ***Utility Transfer to the General Fund***

The City of Austin owns both its electric and water utilities and transfers from these utilities to the General Fund reflect expenses—such as property taxes, franchise fees, and owners' return on equity—that private utilities would otherwise have to incur. The transfer policy was revisited by Council in fiscal year 2012-13 at which time rates were set at 12% of average gross non-fuel revenue for Austin Energy (AE), with a minimum transfer of \$105 million, and at 8.2% of average gross revenue for Austin Water. In accordance with these average revenue calculations, the transfers for FY 2018-19 are calculated based on a rolling average of actual revenue from fiscal years 2015-16 and 2016-17 and estimated revenue in FY 2017-18. Bond ratings agencies have taken a favorable view of the City's transfer policy with respect to both its methodology and to the fact that as General Fund revenue has increased over time, the relative amount of the transfer has steadily declined. Over the next five years, total utility transfer revenue is projected to grow at a compound annual growth rate of 1.3% as the effects of continued population growth and an associated increase in customer accounts are tempered by intensifying conservation efforts and the effect of a recently adopted decrease in Austin Water's retail rates.

The chart on the following page displays the actual or projected combined utility transfer as a percentage of actual or projected General Fund revenue.

### Utility Transfers to General Fund

### Other General Fund Revenue

Remaining General Fund revenue consists of fees, fines, charges, interest and other taxes and is budgeted at \$151.4 million for FY 2018-19, an increase of \$8.7 million over the prior year largely attributable to adjustments to Austin Public Health, Fire, Parks and Recreation, and Police fees to keep pace with the City’s cost of providing services; the cessation of the Parks and Recreation Special Events Fund; and an increase in the payment received from Travis County for health services. Overall growth in Other Revenue is forecasted at a 2.4% compound annual rate over the five-year forecast period primarily due to the expectation that population growth will continue to drive moderately increased demand for fee-based services.

### General Fund Expenditures & Outlook

In crafting the City’s budget, financial staff endeavor not only to ensure that the budget is balanced in the current fiscal year but, equally importantly, that it is structurally sound and sustainable into the future. The graphic below compares projected expenditure growth in the General Fund over the next five fiscal years to projected growth in revenue. Expenditure projections reflect all known and anticipated cost increases including: wages, health insurance, fuel, utilities, annexations, and new facilities. The revenue forecast is informed by economic and demographic analysis and conservatively estimated. As depicted in the graph on the next page, the General Fund is projected to remain in comfortably in balance over the course of the five-year forecast horizon while remaining below the State-mandated rollback rate threshold.

### Five-Year General Fund Outlook FY 2019-23

## Austin Code Forecast

The Austin Code Department (ACD) receives approximately 91% of its revenue from the Clean Community Fee (CCF). The purpose of the CCF is to provide funding for code enforcement services that protect residential and commercial properties throughout the city and to recover the cost of enforcement of property maintenance, land use, and nuisance code violations. An additional 7% of revenue is comprised of licensing and registration fees collected from the Short-Term Rental (STR), Waste Hauler, and other licensing programs, while revenue from monetary fines and penalties comprise the remaining 2% of revenue generated by the Department.

ACD projects the CCF to remain at its current level for the next five years with a five-cent increase expected in FY 2022-23. Austin continues to be a high-growth city and ACD projects a conservative 4% increase in the number of utility customer accounts resulting in a \$0.67 million increase in CCF revenue in FY 2018-19 and a \$3.8 million increase by FY 2022-23.

The addition of seven positions to the STR enforcement team in FY 2017-18 enhanced the Department's ability to proactively identify STRs operating without a license. The Department expects these positions, coupled with escalated enforcement protocols, to increase the number of active STR licenses. In FY 2016-17, the total number of registered STR licenses was 1,696. In FY 2017-18, the total number of registered licenses increased by 20% to 2,040 licenses. Similarly, the Waste Hauler licensing program is also escalating enforcement activities to increase the number of licensed operators. Therefore, ACD projects a \$150,000 increase in Licensing and Registration revenue in FY 2018-19 and \$230,000 increase by FY 2022-23 due to a projected increase in the number of licenses issued.

ACD also increased its enforcement efforts in other divisions, resulting in a forecasted increase in other revenue sources including collections of fines and penalties assessed through the Building and Standards Commission (BSC) and the Administrative Hearing process. In FY 2016-17, ACD collected \$9,179 in code enforcement penalties. In FY 2017-18, ACD collected \$226,786, which is an increase of \$217,607 and 2,371% over the previous year. By FY 2022-23, ACD expects to collect \$362,998.

ACD is projecting a budget increase in FY 2018-19 of \$1.3 million, or 6%, from FY 2017-18. Expenditure assumptions for FY 2019-23 include:

- \$500,000 for five Investigations and Compliance positions added between FY 2019-20 and FY 2022-23.
- \$500,000 in FY 2018-19 for increased rent due to relocations related to the redevelopment of the Rebekah Baines Johnson campus. Consolidating Department personnel and resources into one central location, instead of maintaining separate south and north locations, will offer better community access, increased productivity, optimized training space, and increased supervisory monitoring for improved case management. Several other City departments will be co-located in the same building, which will result in positive synergies and opportunities for collaboration. The site is accessible by public transportation and provides the adequate parking and operational space needed to administer services to the public in an efficient manner.
- \$97,000 in FY 2018-19 in anticipation of CodeNEXT's major rewrite of Austin's land development codes, which will require an exhaustive update in the AMANDA case management database system. The changes will result in mapping, reports, and dashboard tools required for operations to successfully implement the new Land Development Code and zoning changes. Without these critical changes, staff would be prohibited from enforcing the Land Development Code.

Moving forward in FY 2018-19, the department seeks to continue strengthening its FY 2017-18 progress on key metrics set in the Austin Strategic Direction 2023-Safety Outcomes. A major focus for FY 2018-19 will be the development of a Department strategic plan.

The Department projects that FY 2018-19 will be a year of expanded capacity in customer service through enhanced code education tools and resources, proactive community partnerships and initiatives, extended code enforcement hours for evenings and Saturdays, greater capacity for licensing, registration and enforcement of STRs, Repeat Offender Program (ROP) properties, rooming and boarding houses, and improved capability to move cases progressively through the enforcement process. We also expect this momentum to continue through FY 2019-2023 Together, we can and will continue our work to make Austin a safe place to live, work, play and vacation!

Fund Summary (in millions)

	<b>FY 18 Estimated</b>	<b>FY 19</b>	<b>FY 20</b>	<b>FY 21</b>	<b>FY 22</b>	<b>FY 23</b>
Beginning Fund Balance	1.0	1.4	1.1	0.6	0.3	0.0

Change in Fund Balance	0.4	(0.4)	(0.5)	(0.3)	0.0	0.0
Ending Fund Balance	1.4	1.1	0.6	0.3	0.0	0.0
Average Monthly Bill (Residential Customer) – Code's Portion of the CCF	\$4.25	\$4.25	\$4.25	\$4.25	\$4.25	\$4.30
FTEs	146.00	146.00	148.00	149.00	150.00	151.00

## Austin Convention Center Department Forecast

Austin Convention Center facilities provide customer-friendly meeting spaces to attract out-of-town visitors to the City of Austin, thereby contributing to a prosperous Austin economy. In FY 2016-17, there were 35 new events, of which 21 were new conventions. The money spent by visitors while in the City of Austin translates into increased retail sales for local businesses and generates additional sales and Hotel Occupancy Tax (HOT) revenue. FY 2018-19 total revenue is projected to increase 5% over the FY 2017-18 budget and 2% over the FY 2017-18 estimate. FY 2018-19 revenue is below FY 2016-17 actuals due to a large one-time event in FY 2016-17.

HOT revenue is the largest single revenue source for the Austin Convention Center. In FY 2016-17 HOT revenue contributed to 58% of the overall revenue for the Austin Convention Center Department (ACCD). Current collections show a steady growth trend and HOT revenue is projected to increase 1% annually during the forecast period.

Contractor revenue increased significantly in FY 2016-17, primarily due to revenue received by ACCD’s catering and concession services contractor. This was due to a one-time special event that had food and beverage services valued at \$4.3 million. Contractor revenue is projected to increase significantly in FY 2018-19 due to several large food & beverage events booked at the Austin Convention Center. Future year projection growth rates of 1% to 3% are based on event bookings and sales projections.

Vehicle Rental Tax revenue is the largest single revenue source for the Town Lake Park Venue funds that includes the Palmer Events Center. Town Lake Park Vehicle Rental Tax collection has remained steady due to other transportation options available to travelers. This revenue stream is projected to increase 1% annually for the forecast period.

Facility, parking and other revenue has remained steady and is projected to increase slightly for the forecast period based on the event booking schedule.

The Austin Convention Center and Palmer Events Center must operate within an extremely competitive market. The facilities must be well-maintained, with continual building improvements and technological investments made.

Major expenditure categories include:

- **Debt service and other transfers:** Debt service transfers remain substantially the same with the exception of a \$3.9 million decrease in FY 2019-20, reflecting the final payment for Series 2004 bonds for the Convention Center.
- **Capital Investments:** In FY 2018-19, a new Capital Fund has been created. A one-time transfer of available balances from the Capital Improvement Program (CIP) budget will be made to this fund. Additionally, the Convention Center operating funds will annually transfer excess available funds over total requirements, including funding required for ongoing and future planned CIP projects, less financial policy reserve requirements, into the fund. Usage of funds are subject to the governing instruments applicable for each of the distinct funding streams, including the Texas Tax Code, bond covenants, and City Ordinances. Those distinct funding streams include Convention Center Hotel Occupancy Tax, Convention Center Venue Hotel Occupancy Tax, and the Town Lake Venue Vehicle Rental Tax. Funds approved for utilization, adhering to those defined parameters, will be transferred out of the Convention Center Capital Fund into the fund from which they ultimately will be expended.
- **Operational Requirements:** FY 2018-19 budget includes 4.25 new positions to support event and attendee needs within the sales, security and IT areas.

Convention Center Fund Summary (in millions)

	<b>FY18 Estimated</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	32.7	25.6	33.0	36.0	38.2	38.8

Change in Fund Balance	(7.2)	7.4	3.0	2.2	0.6	0.9
Ending Fund Balance	25.6	33.0	36.0	38.2	38.8	39.7
FTEs	295.75	300.00	300.00	300.00	300.00	300.00

## Austin Energy Forecast

Austin Energy (AE) receives about 90% of its revenue from sales of electric service to retail customers. Base revenue, which supports operating costs, and pass-through revenue, which recovers specific costs with no return to AE, each make up about 50% of electric service revenue. Base revenue is derived from the number of customers, usage levels and base rates. Other revenue includes transmission revenue, infrastructure rental, chilled water services, customer fees, and interest income.

Throughout the forecast horizon, AE's energy sales in kilowatt hours (kWh) are projected to increase at a compounded annual growth rate of 0.6% based on expected customer growth. Consequently, base revenue remains relatively flat, increasing only \$5.3 million from FY 2018-19 through FY 2020-21. Base revenue increases by approximately \$44.0 million in FY 2021-22 primarily due to an anticipated rate review, which is forecasted to remain within the 2% affordability goal.

Changes in pass-through revenue are driven by rising power supply costs and wholesale transmission costs. These costs are generally attributed to a change in power supply sources and increasing wholesale transmission costs from the Electric Reliability Council of Texas (ERCOT) market. Pass-through revenue is expected to increase from approximately \$610.1 million in FY 2018-19 to \$707.4 million in FY 2022-23.

Other revenue, including transmission and interest revenue, will increase by \$16.0 million to \$167.0 million by FY 2022-23 due to increases in transmission revenue, chiller revenue, and revenue for infrastructure attachments from private corporations. In the chart below, the gigawatt hours (GWh) sold trend line indicates stable, and slightly increasing, energy sales over the forecast period.

Austin Energy's major expenditures are power supply costs, wholesale transmission costs, operating and maintenance expense, debt service, investment in capital improvements, and transfers to the City and the General Fund. For the period of FY 2019-23:

- Power supply costs increase from \$413.0 million in FY 2018-19 to \$501.5 million in FY 2022-23. These costs remain relatively flat through FY 2020-21 and increase in the later years, as generation units are retired at the Decker Power Plant in FY 2020-21 and the Fayette Power Plant in FY 2022-23, coupled with the acquisition of additional renewable power supply. Austin Energy recovers these costs through the Power Supply Adjustment charge.
- Wholesale transmission costs, recovered through the regulatory charge, increase an average of \$3.0 million per year rising to \$157.0 million in FY 2022-23. These costs are the result of investment and on-going maintenance by transmission service providers of the wholesale transmission grid that is coordinated by ERCOT.
- Controllable operating and maintenance expenses are forecasted to increase an average of 2% per year. From FY 2018-19 to FY 2022-23, operating and maintenance expenses, excluding power supply and regulatory pass-through costs, increase approximately \$50.0 million to \$485.0 million.
- The Capital Improvement Program (CIP) includes continued investment in infrastructure and technology to secure the Utility's grid and remain in compliance with all state and federal guidelines, as well as new plants for increased chilled water capacity and the new Bluff Springs Substation. The five-year spending plan is projected at \$1.0 billion. Cash transfers to CIP average approximately \$102.6 million per year and total \$513.0 million from FY 2018-19 to FY 2022-23.
- Annual debt service increases from \$103.0 million in FY 2018-19 to \$143.0 million in FY 2022-23. The increase is attributed to financing about 50% of AE's CIP.
- The General Fund transfer is \$110.0 million for FY 2018-19, increasing to \$118.0 million by FY 2022-23.
- Other City transfers and payments average \$60.0 million per year over the time period, increasing from \$54.0 million in FY 2018-19 to \$67.0 million in FY 2022-23.
- \$40.0 million will be transferred to the Contingency Reserve, Power Supply Stabilization Reserve, and Capital Reserve funds in FY 2018-19. The reserves will be fully funded by FY 2021-22 to comply with the financial policies.

Austin Energy will add 25 full-time positions (FTEs) in FY 2018-19 to replace existing temporary and contract staffing to meet current program requirements. Looking into the future, the Utility is projecting an annual staffing increase of 10 FTEs for the support of programs and continued customer growth.

The following table reflects the fund's financial forecast and the bill impact of a typical residential customer using 860 kWh per month for FY 2018 – FY 2023.

Fund Summary (in millions)

	<b>FY18 Estimated</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	\$370.8	\$403.7	\$404.9	\$379.2	\$259.8	\$271.8
Revenue & Transfers In	\$1,373.7	\$1,392.3	\$1,405.3	\$1,407.5	\$1,485.7	\$1,560.7
Expenditures & Transfers Out	\$1,340.8	\$1,391.2	\$1,431.0	\$1,526.9	\$1,473.7	\$1,554.4
Change in Fund Balance	\$32.9	\$1.1	(\$25.7)	(\$119.4)	\$12.0	\$6.3
Ending Fund Balance	\$ 403.7	\$404.9	\$379.2	\$259.8	\$271.8	\$ 278.1
Residential Monthly Bill (Typical Rate Payer uses 860 kWh)	\$87.00*	\$86.72*	\$86.72*	\$86.72*	\$89.42*	\$89.42*
FTEs	1,749.00	1,774.00	1,784.00	1,794.00	1,804.00	1,814.00

\*The Typical Residential Monthly Bill reflects changes to the base rates only from FY 2020 through FY 2023. The numbers do not reflect changes to the PSA, Regulatory Charge, or Community Benefit Charge since those are unknown at this time.

## Austin Resource Recovery Forecast

Austin Resource Recovery (ARR) funds programs and services through three major user fees: base customer fee, trash cart fee (varies by trash cart size), and the Clean Community Fee. These fees comprise roughly 94% of ARR's total revenue. ARR also has various rates for miscellaneous special services. The FY 2018-19 budget will not include rate increases for the Department's three major user fees.

The base customer and trash cart fees paid by residential curbside customers comprise the majority (64%) of all ARR revenue. Curbside collection service customers are mostly residents of the City of Austin living in single-family homes and multi-family residences of four or fewer units.

The residential component of ARR revenue is driven by the number of customers, base customer fee amount, and trash cart fee amount, which varies by trash cart size. In FY 2018-19, \$1.0 million in projected additional residential revenue, as compared to the FY 2017-18 budget, is related to an increase in the projected number of ARR residential customers. Current customer growth assumptions are based on projected population growth, which is then adjusted to estimate growth in number of households likely to require ARR residential services.

Residential curbside customers pay the base customer fee and a trash cart fee. The trash cart revenue is budgeted based on the projected distribution of cart sizes across the customer base multiplied by the associated cart fee amount. Customers can choose from four trash cart sizes and pay less per month for smaller cart sizes. The base customer charge and trash cart fees cover the direct expenses of the following ARR programs: trash collection; recycling collection; yard trimmings and curbside compost collection; brush collection and processing; and bulk collection.

ARR also services around 2,000 commercial customers. Since January 1, 2015, commercial premises have been required to be serviced by a licensed private collection service provider, known as a "private hauler." Commercial customers serviced by ARR prior to that date may continue to receive ARR services. Therefore, commercial revenue is expected to continually decrease as this class of customers diminishes.

Clean community services benefit all residential and commercial customers in the ARR service area and include: street sweeping, dead animal collection, citywide litter control, landfill closure and post closure

requirements, citywide bulk collection and Clean Austin program, Zero Waste program development, and Brownfields remediation. Residential Clean Community Fee customers receive the included benefit of access to the Household Hazardous Waste facility within the Recycle & Reuse Drop-off Center. Additionally, implementation of the Universal Recycling Ordinance and ARR's business outreach team are funded by the commercial Clean Community Fee exclusively. The FY 2018-19 budget includes an increase in revenue of \$911,000 as compared to FY 2017-18 budget from these fees due to anticipated customer base growth.

Over the next five years ARR's capital spending, projected at a total of \$66.8 million over that period, will focus largely on the regular replacement of vehicles and carts along with vehicle fleet technology upgrades. Program expansion efforts are expected to include curbside compost expansion completion. ARR also continues to work towards the repair of storm damage and subsequent closure of the former FM812 landfill.

The major expenditure categories within ARR's operating costs are: staffing, fuel purchases, maintenance of vehicles, debt service payments, landfill and recycling processing contracts, as well as transfers to capital funds and support services transfers. Major expenditure changes impacting revenue included in the FY 2018-19 through FY 2022-23 Forecast are:

- The expansion of curbside compost services to an additional 52,000 households in FY 2018-19 at a cost of approximately \$1.4 million and the addition of two positions. The final expansion phase will conclude in FY 2019-20 with an additional roll out to the remainder of the ARR service area. Associated new vehicles will be purchased with debt.
- Increase in the cash transfer in FY 2018-19 by \$2.5 million for a total transfer of \$10.1 million from ARR's operating fund to the capital fund for the purchase of replacement vehicles and equipment.
- The vehicle fleet technology upgrade project is well underway and scheduled for completion in FY 2019-20. With this increase in capabilities, the Department will add six new positions and \$800,000 to manage this system and the additional data it will produce upon full implementation.
- The Resource Recovery Center will be increasing staff in FY 2019-20 in order to open another drop off location for customers. This will require four new positions at a cost of \$300,000.
- Reserve balances will be used to defer rate increases necessitated by new positions and incremental operational costs until FY 2020-21. ARR projects a \$0.20 increase to the base fee at that time to be followed by another \$1.00 increase to the base fee in FY 2021-22 and again in FY 2022-23. Cart rates are also projected to increase in FY 2021-22 by approximately \$0.02 per gallon for the 96 gallon cart size; all other sizes will see an approximately \$0.01 per gallon increase.

In FY 2018, staff has focused on cost containment measures and made a concerted effort across the Department to reduce expenditures. This will result in a larger ending balance and enable the Department to avoid rate increases in FY 2018-19. The FY 2018-19 Budget will take advantage of that ending balance and therefore will show expenses about \$3.2 million greater than revenue. ARR will still meet the requirement to retain a reserve equivalent to 1/12<sup>th</sup> of annual operating expenses.

## Fund Summary (in millions)

	<b>FY18 Estimated</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	12.0	14.4	11.2	8.4	6.0	6.3
Revenue & Transfers In	93.3	93.9	96.5	98.1	102.2	105.4
Expenditures & Transfers Out	90.9	97.1	99.3	100.5	101.8	104.3
Change in Fund Balance	2.4	(3.2)	(2.8)	(2.4)	0.4	1.1
Ending Fund Balance	14.4	11.2	8.4	6.0	6.3	7.4
Average Monthly Bill (Typical Rate Payer)	\$24.30	\$24.30	\$25.35	\$25.55	\$27.20	\$28.20
Average Monthly Bill (Typical Rate Payer)	\$4.70	\$4.70	\$4.70	\$4.70	\$4.70	\$4.70
FTEs	462.00	464.00	485.00	490.00	492.00	496.00

## Austin Transportation Department Forecast

Revenue from the Austin Transportation Department's (ATD) portion of the Transportation User Fee (TUF), which is shared with the Public Works Department (PWD), is forecasted to increase by \$3.0 million in FY 2018-19 and 50% over the forecast period. ATD is projecting an increase to the residential portion of the TUF of \$0.44 per month in FY 2018-19, along with increases of \$0.85 per month in 2019-20 and \$0.40 per month in FY 2021-22. Over half of the FY 2018-19 increase will be for the annualized cost of ten positions and associated office lease costs for the Corridor Program Office (CPO), which transferred to ATD's operating budget in FY 2017-18 and was initially covered by a one-time draw-down of the fund ending balance. The remaining TUF increase will be used for additional ATD staff and various program enhancements.

Revenue from right-of-way and development fees is estimated to come in almost 20% higher than budgeted in FY 2017-18 due to higher than anticipated development activity. Revenue for the remainder of the forecast period is projected to remain flat.

Revenue from pay stations, parking meters, and permitting ground transportation providers is estimated to increase by 13% or \$1.6 million over the forecast period due to increases in taxicab, street valets and downtown parking in core areas, and expansion of parking districts in West Campus, East Austin, and Mueller.

The major expenditure categories within ATD include operating and maintenance of the signal system and active transportation network, long-range transportation planning, right-of-way management and special events, transportation engineering, parking management, and transfers to fund capital improvements.

Expenditure assumptions for the FY 2015-19 Financial Forecast include:

- \$600,000 related to the Smart Trips program and transportation demand management programming;

- \$400,000 for technology contract support related to the AMANDA billing system to further assist in upgrades, including providing an online payment portal;
- \$300,000 to help implement and construct small-scale mobility and safety projects, such as curb ramps, operational improvements at intersections, curb work, and sidewalk gaps;
- \$300,000 for a staff augmentation contract to create outreach and education/promotional materials to support ATD's Smart Mobility initiatives;
- \$200,000 for a contract with Capital Metro to assist with transit speed and reliability; and
- \$200,000 for implementing an ADA transition plan for signals and crossing.

ATD is projecting additional 29 positions in FY 2018-19 across the Department. 12 of these positions will be covered by parking meter revenue and will address parking enforcement expansions throughout the city, the Smart Mobility and Mobility Electric/Autonomous Vehicles programs, and development of the Shared Mobility Services Plan (EV/AV). Seven positions will be funded by ROW fees and will address both the growing workload related to development in dense areas of the city and for projects spanning larger geographic areas (Google Fiber, small cell regulatory changes, Smart City technologies, etc.). The remaining ten positions will be covered by the TUF and will work on other initiatives such as traffic signal performance and maintenance, signs and markings implementation, development of the Austin Strategic Mobility Plan (ASMP), transportation demand management, Traffic Impact Analysis (TIA) review, special events, and support services.

Looking forward, ATD is projecting an annual staffing increase of 13 positions over the remaining forecast period to make continued investment in the transportation network and to keep pace with workload demand.

Mobility Fund (*in millions*)

	<b>FY18 Estimated</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	12.4	9.8	3.6	3.5	2.7	3.4

Expenditures & Transfers Out	38.2	44.9	44.5	45.4	46.4	47.4
Change in Fund Balance	(2.6)	(6.3)	0.0	(0.8)	0.7	(0.3)
Ending Fund Balance	9.8	3.6	3.5	2.7	3.4	3.1
Average Monthly Bill (Typical Rate Payer)	\$3.67	\$4.11	\$5.14	\$5.14	\$5.54	\$5.54
FTEs	205.00	222.00	232.00	242.00	252.00	262.00

Parking Management Fund (*in millions*)

	<b>FY18 Estimated</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	4.8	4.3	0.9	0.5	0.5	0.6
Revenue & Transfers In	13.4	13.7	14.2	14.5	14.8	15.1
Expenditures & Transfers Out	13.8	17.2	14.6	14.5	14.7	15.1
Change in Fund Balance	(0.4)	(3.5)	(0.4)	0.0	0.1	(0.1)
Ending Fund Balance	4.3	0.9	0.5	0.5	0.6	0.5
FTEs	67.50	79.50	82.50	85.50	88.50	91.50

The five-year spending on capital improvements is projected at \$501.4 million, which includes significant spending on the nine corridors in the Corridor Construction Program, regional mobility partnerships with TxDOT, and various bikeway and intersection safety improvement projects as part of the 2016 Mobility Bond.

## Austin Water Forecast

Austin Water receives approximately 98% of its non-transfer revenue from sales of water and wastewater services to retail and wholesale customers. Of this, water service revenue generally accounts for about 50% of total non-transfer revenue, wastewater service revenue accounts for 46%, and reclaimed service revenue and other revenue accounts for the remaining 4%. The projected number of accounts, total billed water consumption during a billing period, total billed wastewater flows during a billing period, and the appropriate rates drive service revenue.

The FY 2017-18 total revenue current-year estimate includes the system-wide water and wastewater rate reduction budget amendment approved by Austin City Council on March 8, 2018, which became effective on May 1, 2018. As a result of the approved rate reduction, FY 2018-19 operating revenue is declining by \$5.9 million, or 1.0%, as compared to the FY 2017-18 estimated rate. This reduction is the result of the 18-month 2016 Cost of Service Rate Study, which included significant stakeholder participation in the review of Austin Water's cost-of-service methodologies. Future years also project revenue with the assumption that the rate reduction remains in place until the next-planned rate increase in FY 2020-21.

Additionally, Council approved another substantial operating budget amendment on May 10, 2018, that was in direct relation with the previous amendment that reduced rates. This May 10 amendment increased the transfers in from capital recovery fees and reclaimed CIP by \$2.4 million and \$4.0 million, respectively. The amendment also increased the operating transfer out for debt defeasance by \$26.9 million, allowing Austin Water to pay off certain maturities and remove \$68.0 million of debt from its books, which improved debt service coverage and reduced scheduled debt service payments over the next five years. Austin Water's total requirements are decreasing by \$38.9 million in FY 2018-19, largely because no operating transfer out for debt defeasance is planned. Overall, Austin Water's continued debt management efforts are a key factor in slowing the growth in retail rates through FY 2022-23.

The chart on the next page shows the impact of Austin Water's debt management efforts, exemplified by the March 8 and May 10 budget amendments. Austin Water's debt service requirements (represented by the blue bars) have declined from an actual \$214.0 million in FY 2014-15 to \$188.0 million in FY 2018-19 and a projected \$177.1 million in FY 2022-23. Over the same period, debt service requirements as a percentage of the utility's total requirements (represented by the orange line) are projected to decrease considerably, from an actual 42.5% in FY 2014-15 to 30.8% in FY 2018-19 and a projected 26.5% in FY 2022-23.

Austin Water's major expenditure categories include operating and maintenance costs, debt service payments, and transfers to other City funds, including the General Fund, utility billing support, and administrative support transfers. Expenditure assumptions for FY 2018-19 through FY 2022-23 include:

- A \$4.1 million decrease in debt service requirements from FY 2017-18 current-year estimates to FY 2018-19, and another \$10.9 million decrease from FY 2018-19 to FY 2022-23, all attributable to Austin Water's ongoing debt management efforts;
- A stable General Fund transfer throughout the five-year period, ranging from \$47.6 million in FY 2018-19 to \$48.0 million in FY 2022-23; and

- A modest staffing increase throughout the five-year period, adding 16.0 positions in FY 2018-19 and 9.0 positions in FY 2019-20.

### Fund Summary (in millions)

	FY18 Estimated	FY19	FY20	FY21	FY22	FY23
Beginning Fund Balance	\$214.8	\$191.7	\$195.5	\$194.2	\$202.3	\$209.3
Revenue & Transfers In	\$615.7	\$613.1	\$622.4	\$641.2	\$650.4	\$670.3
Expenditures & Transfers Out	\$638.8	\$609.4	\$623.6	\$633.1	\$643.5	\$668.0
Change in Fund Balance	(\$23.0)	\$3.7	(\$1.2)	\$8.0	\$7.0	\$2.3
Ending Fund Balance	\$191.7	\$195.5	\$194.2	\$202.3	\$209.3	\$211.5
Average Monthly Bill (Typical Rate Payer)*	\$80.91	\$80.79	\$80.79	\$82.37	\$82.37	\$83.98
FTEs	1,185.00	1,201.00	1,210.00	1,210.00	1,210.00	1,210.00

\*The Average Monthly Bill includes the Reserve Fund Surcharge and Community Benefit Charge.

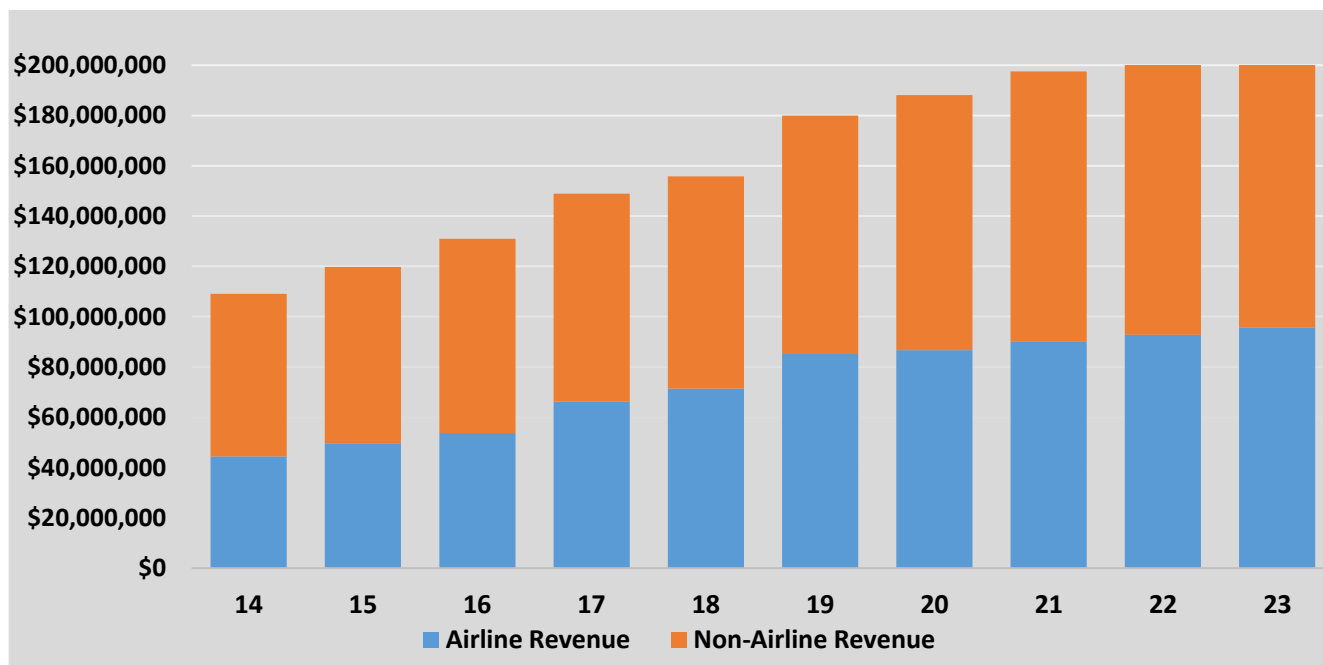

Austin Water's five-year CIP spend plan balances renewal and replacement of critical infrastructure and investments in new technology, including smart meter technology and system expansion, and is focused on capital investments to build and improve water and wastewater treatment facilities and wastewater collection facilities. Total planned spending from FY 2018-19 through FY 2022-23 is \$912.6 million, with \$194.9 million planned for FY 2018-19. Noteworthy projects for water and wastewater treatment facility improvements are the Treated Water Discharge System and Power Distribution Upgrade for the Davis Water Treatment Plant, Trains A&B Blower Replacement and Tertiary Filter Improvements for the South Austin Regional Wastewater Treatment Plant, and the Tertiary Filter Rehabilitation for the Walnut Creek Wastewater Treatment Plant. Additionally, the Parmer Lane Interceptor project will focus on constructing new wastewater infrastructure. All of these projects are currently in the construction phase.

## Aviation Forecast

Austin-Bergstrom International Airport (ABIA) operates as an enterprise fund of the City of Austin and is self-sustaining; therefore, the Aviation Department does not receive tax revenue. Austin's airport has operated in this fashion since 1982. Funding to finance operating expenses and development is generated by fees and rent paid by airlines, concessions, and passengers. In addition, ABIA receives grants, including federal Airport Improvement Program (AIP) grants. In order to comply with federal regulations and to ensure ABIA is eligible to receive AIP funds, all airport revenue is retained to fund the capital and operating costs of the airport.

Passenger traffic in the United States has historically been correlated with the nation's economy. During economic contractions, there is a notable decline in passenger volumes while during the subsequent economic expansions there is significant growth in passenger volumes. Therefore, the airline cost per enplaned passenger is one of the Aviation Department's key indicators of the airport industry and measurement of airplane costs and revenue trends. The FY 2018-19 goal for airline cost per enplaned passenger is \$11.52, a 9% increase over the FY 2017-18 goal of \$10.54. The increase is primarily due to increased operating expenses allocated to airline cost centers. Providing quality facilities while controlling costs is critical to maintaining a reasonable cost per enplaned passenger. See the Mobility Strategic Outcome section for more information.

The Aviation Department receives approximately 48% of its total revenue from airlines and 52% from non-airline fees in includes parking, concessions, rentals and miscellaneous fees. Landing fees and terminal lease revenue are projected to increase 23%, while non-airline revenue is expected to increase 14%. Passenger traffic is projected to increase 5% annually over the next five fiscal years. Aviation's goal is to generate at least \$12.86 of non-airline revenue per enplaned passenger in FY 2018-19.

The FY 2018-19 forecast includes airline payments of \$35.1 million in landing fees and \$52.9 million in terminal rent and other fees. The airlines' landing fees are based on the estimated landed weight of commercial and cargo carriers and are set to recover the City's costs for the construction, operation, and maintenance of the airfield. Terminal rents are paid by the airlines and are intended to recover the capital, operating, and maintenance costs associated with the airlines' use of the terminal.

Major adjustments to revenue include the Terminal Expansion and the West Lot A Parking Garage and other planned capital improvements.

- The Terminal Expansion is part of the larger Apron and Terminal Expansion and Improvements project, which will add nine airplane gates to the existing terminal, permitting additional and larger aircraft access to and from the terminal building and increasing domestic and international travel capacity. The terminal expansion includes construction of over 200,000 square feet of space and is scheduled to be complete in spring of 2019.
- The parking structure will provide much needed parking capacity while keeping the development in a smaller footprint, as compared to surface parking facilities. The structure will also incorporate a consolidated administration facility for Aviation administration and staff, thereby allowing the existing mezzanine level within the terminal to be converted into revenue-generating concessions and services for our passengers. Construction of the two lower levels of the garage is expected to be complete by Thanksgiving 2018. The remaining levels of the garage and the administration building are scheduled for completion in spring of 2019 and summer 2019.

Expenditure assumptions for the FY 2018-23 Financial Forecast include:

- \$7.9 million for 86 additional positions over the next five years to accommodate airport growth, including staffing the new terminal and parking garage;
- \$10.5 million in additional debt service payments starting in FY 2018-19 and increasing gradually over the next five years related to the completion of the terminal expansion, parking garage, and various other projects at the airport; and
- \$6.2 million in various contractuals and commodities related to overall growth at the airport over the next five years.

Aviation is forecasting an additional 49 positions in FY 2018-19 to keep pace with the airport's record growth, while concentrating on filling existing vacant positions. Looking into the future, the Department is projecting an additional 37 positions over the remaining five-year forecast period. The growth in expenditures and additional positions tracks the projected increase in enplaned passengers over the next five years, as shown in the graph on the next page.

The estimated Austin Enplaned Passengers is projected with an average annual growth rate of 5.0% (2019-2023)

Airport Operating Fund Summary (in millions)

	FY18 Estimated	FY19	FY20	FY21	FY22	FY23
Beginning Fund Balance	0	0	0	0	0	0
Revenue & Transfers In	\$168.0	\$193.8	\$198.7	\$209.0	\$217.8	\$227.1
Expenditures	\$139.0	\$164.7	\$175.7	\$184.5	\$189.8	\$194.8
Transfer to Airport Capital Fund	\$29.1	\$29.1	\$23.0	\$24.5	\$28.0	\$32.3
Change in Fund Balance	0	0	0	0	0	0
Ending Fund Balance	0	0	0	0	0	0
FTEs	489.00	538.00	555.00	566.00	575.00	575.00

The five year spending on capital improvements, which includes completion of the Terminal Expansion and the Parking Garage and Administration Building in FY 2018-19 and a Consolidated Maintenance Facility in FY 2019-20, is projected at \$1.3 billion. The Department is also considering an additional terminal and infill project on the west side once the current east terminal expansion is complete to accommodate continued passenger growth over the coming years.

## Development Services Forecast

Development Services (DSD) receives 100% of its revenue from the development review, inspection, and permitting process associated with residential and commercial development which covers 90% of the FY 2018-19 expense budget. On an annual basis, DSD conducts a full cost of service study and as a result, all fees are adjusted every year to reflect the true cost of service delivery, thus eliminating the need for development activity to be subsidized by taxpayer dollars. Incorporated into the annual fee updates are economic factors, staffing and resource needs, and volume projections. DSD fees are set at full cost recovery; therefore, as DSD expenses increase due to Citywide and departmental cost drivers, revenue will similarly increase.

Approximately 10% of DSD's budget is funded through a General Fund transfer. This is for items that cannot be covered through cost of service fees, including telecom permitting, fee waivers, and the Urban Forestry program.

Development activity is as strongly tied to the health of the local economy as is the consumer demand that drives sales tax revenue, although it is subject to even more volatile swings. Such rapid growth in demand requires that the City be responsive in allocating resources to ensure the timely processing of permits, applications, and inspections. At the same time, we must remain cognizant of how quickly this demand can evaporate and strive to maintain the flexibility—for instance through the use of contract and temporary employees—to quickly scale back operations when circumstances warrant. A recent forecast report by Capitol Market Research projected the demand for review of applications in the Development Services Department is expected to grow slowly over the next few years. The report shows projected mixed growth in permitting through FY 2022-23 with site plan and subdivision review activity increasing by 20% and 28%, respectively. The overall impact to site plan and subdivision land use permitting through FY 2022-23 is a 23.1% increase.

\*Site Plan and Subdivision Permits are a significant metric for DSD as the volume reacts quickly to economic conditions and serves as an early indicator of changes in the development market.

DSD's primary budget cost driver is personnel, with the FY 2018-19 personnel budget totaling 72% of the \$63.8 million expense budget. DSD expects similar budget distributions through FY 2022-23 with personnel costs as the leading contributor to the expense budget. Citywide cost drivers are increasing steadily year over year and, as a result, the Department's expense budget is expected to continue to grow 3% per year through FY 2022-23. DSD is proactively planning for the implementation of CodeNEXT to address code changes in a timely manner and best serve the homeowner and development

community. For FY 2018-19, DSD has budgeted \$1.4 million for training, implementation, and system updates related to reform of the land development code. In addition, the completion of the Planning and Development Center at Highland Mall in FY 2019-20 will result in an annual debt service payment of \$9.8 million, with a total debt service of \$196.6 million over 20 years.

In FY 2018-19, DSD will be incorporating a multi-faceted approach to resourcing the Department. The budget increase of \$10.4 million will consist of 52 new full-time positions, additional temporary staff funding, and funds for third-party services. The 52 positions include field staff to help improve on-time performance, as well as information technology, finance, and human resources staff. DSD will be adding \$527,000 to the Department's temporary staffing funds. These additions to the DSD's budget will help foster service enhancements in the Department in the following ways:

- New technology solutions for online customers, expanded customer support, and training to encourage the use and adoption of new technologies;
- Increased citywide resiliency to climate change and increased tree canopy cover;
- Increased performance in the development review and inspection processes; and
- Critical support positions in finance and human resource functions, including safety oversight for all DSD employees

DSD will continue to evaluate service levels paired with permitting and application volume to identify Departmental resource gaps. DSD will address the gaps by modifying service level goals and by increasing positions (subject to Council approval), temporary staff, and third-party contracts. This multi-faceted approach to resource allocation and staffing is intended to fully satisfy the service level needs and responsibly utilize Department resources to alleviate any financial stress that may occur due to potential economic downturns. In addition to examining service levels, DSD also monitors the financial impact to the development and home owner community. DSD has projected the rate payer increase for a typical residential addition within the City of Austin. The following table reflects the fund's financial forecast.

Fund Summary (in millions)

	FY19	FY20	FY21	FY22	FY23
Beginning Fund Balance	\$0.0	\$8.9	\$9.3	\$9.7	\$10.1
Revenue & Transfers In	\$72.7	\$72.7	\$74.5	\$76.8	\$79.0
Expenditures & Transfers Out	\$63.8	\$72.3	\$74.1	\$76.4	\$78.6
Change in Fund Balance	\$8.9	\$0.4	\$0.4	\$0.4	\$0.4
Ending Fund Balance	\$8.9	\$9.3	\$9.7	\$10.1	\$10.5
FTEs**	414.00	414.00	414.00	414.00	414.00
Typical Residential Addition***	\$1,755.80	\$1,850.18	\$1,835.82	\$1,825.91	\$1,837.62

\*\*At this time, DSD is not making any staffing assumptions for future years, staffing levels are tentative and may change due to economic factors and increased permitting volume.

\*\*\*A Typical Residential Addition consists of an addition to an existing home. The addition in this exercise is 1,000 square feet or smaller with no heritage tree reviews involved. Fees assessed in this example include the Combined Building Plan Review, Building Permit, Electrical Permit, Mechanical Permit, Plumbing Permit, and Energy Permit. All fees include the 4% Development Surcharge. This example assumes that the home addition is located within Austin's city limits, where building plan review authority exists.

## Public Works Department Forecast

The Public Works Department (PWD) works for all Austinites by building and maintaining our streets, bridges, sidewalks, and urban trails; delivering City capital and neighborhood partnering improvement projects; and providing safe routes to school. As a leading public works agency PWD paves the way to being the best maintained and most livable city in the country. This forecast is focused on core services following PWD guiding principles to remain dependable and devoted towards providing quality value to our citizens and customers.

PWD revenue is derived from a portion of the Transportation User Fee (TUF), which is shared with the Austin Transportation Department (ATD), direct charges to capital projects and a cost-recovery allocation to sponsor departments, and collections from a child safety trust fund defined by Local Government Code, Section 106.002.

The forecast includes an additional 33 positions in FY 2018-19 across various divisions. Eight of these positions will be covered by the TUF and will address growing workload with managing contracted street maintenance efforts, asset management, and support services. The Capital Projects Management Fund (CPMF) is adding 25 new positions, which will be covered by direct charges to capital projects and a cost-recovery allocation to sponsor departments to address the growing capital delivery workload from other City departments, including Austin Water, Aviation, and ATD as part of the 2016 Mobility Bond. Looking forward, the Child Safety Fund is estimating a need of 2.75 additional positions in the future to support program growth in education needs and safe routes to school.

Revenue from the TUF, is forecasted to increase by 5.3% or \$3.7 million in FY 2018-19 and another 28.9% over the remaining forecast period. The impact to the typical ratepayer of this increase is an additional \$0.83 per month in FY 2018-19, along with increases of \$1.85 per month in 2019-20, and \$0.55 per month increases annually in FY 2021-23.

Revenue from the CPMF is forecasted to increase by 21% or \$5.4 million in FY 2018-19 and another 12.9% over the remaining forecast period. The Child Safety Fund (CSF) revenue is forecasted to remain stable in FY 2018-19 and over the remaining forecast period. Keeping pace with growing program costs necessitates a \$500,000 increase in the General Fund transfer to the CSF in FY 2018-19 and another \$1.3 million over the remaining forecast period.

The major expenditure categories within PWD include street preventive maintenance and repair, bridge maintenance, right-of-way maintenance, sidewalks, urban trails, infrastructure management, capital delivery, safety education, and school crossing guards. Expenditure assumptions for the FY 2019-23 Financial Forecast are to support core operations, which include:

- \$3.0 million for contracted asphalt overlays;
- \$1.5 million for in-house overlay ADA ramp, curb, and gutter improvement program;
- \$1.0 million per year for street preventative maintenance; and
- \$1.0 million per year for sidewalk repair work

## Transportation Fund Summary (in millions)

	<b>FY18 Estimate</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>

## Child Safety Fund Summary (in millions)

	<b>FY18 Estimate</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	\$0.2	\$0.1	\$0.1	\$0.1	\$0.1	\$0.2
Revenue & Transfers In	\$2.3	\$2.9	\$3.4	\$3.6	\$4.0	\$4.2
Expenditures & Transfers Out	\$2.4	\$2.9	\$3.4	\$3.6	\$3.9	\$4.2
Change in Fund Balance	(\$0.1)	(\$0.0)	\$0.0	\$0.0	\$0.1	\$0.0
Ending Fund Balance	\$0.1	\$0.1	\$0.1	\$0.1	\$0.2	\$0.2
FTEs	14.25	14.25	17.00	17.00	18.00	18.00

Five year spending on capital improvements is projected at \$160.1 million, which includes spending on street reconstruction, projects associated with the Capital Metro Quarter Cent program and Neighborhood Partnering Program, and various projects as a part of the 2016 Mobility Bond, including sidewalks, urban trails, and Safe Routes to Schools.

## Watershed Protection Department Forecast

Watershed Protection receives about 97% of its revenue from the Drainage Utility Fee (DUF). The DUF is calculated individually for each property, both residential and commercial, based on the amount and percent of impervious cover. Less impervious cover means a lower drainage charge.

Impervious cover includes:

- Rooftops
- Patios
- Driveways
- Parking lots
- Other surfaces that do not absorb rainfall.

Impervious cover has a significant impact on stormwater. It increases the amount and speed of stormwater runoff. It also increases the amount of pollutants in stormwater. The DUF pays for a wide variety of programs to help mitigate flooding, erosion and water pollution across Austin. Crews clean trash and debris from Lady Bird Lake, maintain our drainage infrastructure, and respond to more than 3,000 service requests annually. Watershed Protection staff respond to the pollution hotline about environmental spills and emergencies 24-hours a day. Staff also coordinate numerous projects to help reduce the risk of flooding and erosion.

Increases in projections for the DUF revenue are related to increases in impervious cover due to new development across the city. Other department revenue includes inspection and development review fees related to Watershed Protection programs.

The major operating expenditure categories within WPD include Flood Risk Reduction, Water Quality Protection, Infrastructure and Waterway Maintenance, Stream Restoration, Watershed Policy & Planning, and Support Services. Additional expenditures include payments for previously issued debt and transfers to fund capital improvements and shared City services.

Expenditure assumptions for the FY 2019-23 Financial Forecast include:

- A \$3.1 million increase in FY 2018-19 for 28 additional full-time positions. Many of these positions will replace existing temporary positions providing the Department with the stability of full-time staff in key positions. Positions related to computer-aided design modeling, engineering design and geospatial analysis will support the core mission of the Department. Staffing increases and contractual services are also projected in FY 2019-20 through FY 2022-23 to meet growing demands for drainage infrastructure operations and maintenance;
- A \$2.0 million increase in FY 2018-19 for contractals and commodities, including legal services, testing, engineer and survey services, garbage and debris removal;
- Capital investment of \$35.0 million projected each year for the next five years. This investment will provide the community with design and construction of essential projects to reduce flood risks and improve water quality. Some large projects include: Little Walnut Creek – Jamestown Drive Storm Drain Improvements, Walnut Creek – North Acres Storm Drain Improvements, West Bouldin Creek – Del Curto Storm Drain Improvements, and Citywide – General Stormwater Infrastructure Maintenance Projects;
- Fleet maintenance increases of 5% and fuel increases of 4% for heavy equipment and other vehicles utilized by the Department; and
- Administrative support transfer increases of 5% for City-shared services.

Drainage Utility Fund Summary (in millions)

	<b>FY18 Estimated</b>	<b>FY19</b>	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>	<b>FY23</b>
Beginning Fund Balance	\$16.4	\$15.4	\$9.8	\$6.2	\$5.4	\$4.7

Budget

Departments

# ANIMAL SERVICES

The mission of Animal Services is to provide a safety net for lost and homeless animals, work to achieve live outcomes for at least 97 percent of sheltered pets, enforce animal-related ordinances, and connect residents with resources to care for animals in the community.

## Operating Programs

**Animal Services Office** provides an array of animal control, animal sheltering, rabies prevention, and pet owner services to the public in order to protect the bond between humans and animals and to promote the humane treatment of animals.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. The project included in this category is Austin Animal Center Dog Kennel Addition project that addressed the need to expand kennel capacity, specifically for medium-to-large dogs, with a building design includes 44 air-conditioned dog kennels.

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2009	Percent response to priority calls completed	98	98	98	100	100
2011	Percent of shelter live outcomes	97.3	97.8	97	97	98
2011	Percent of sheltered animals returned-to-owner	18.62	16.2	19	19	20
2011	Shelter intake per 100 residents.	1.39	1.3	1.3	1.3	1.2

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# AUSTIN CODE

The mission of Austin Code Department is to provide effective community education and fair and equitable enforcement of local property maintenance, land use, and nuisance codes in order to gain and maintain compliance, so that Austin will be safe and livable.

## Operating Programs

**Investigations and Compliance** maintains compliance with local property maintenance, land use and nuisance codes through fair and equitable inspections and investigations.

**Involuntary Code Enforcement (Involuntary Quasi-Judicial/Judicial Enforcement)** facilitates code compliance through the Administrative Hearing, Building & Standards Commission, and/or Court processes.

**Support Services** provide administrative and managerial support to the Department in order for employees to deliver effective code enforcement services to the City of Austin.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

# AUSTIN CONVENTION CENTER

The mission of the Austin Convention Center is to provide outstanding event facilities and services to our customers so that they can have a positive experience.

## Operating Programs

**Event Operations** provides event services, such as sales and contracting, planning and coordination, security and safety, facility and event set-up and operations, parking management, and utility and technology services to users of the facility to ensure their event is successful.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service and Other Requirements** accounts for transfers and other departmental requirements.

## Capital Programs

**Convention Center Improvements:** Improve and renovate Austin Convention Center facilities. Improvements include the elevator addition on the northeast corner of the 2<sup>nd</sup> Street garage to facilitate client foot traffic; rigging improvements to increase rigging capacity for events; replacement of portable seating; lighting automation; garage, and building improvements.

**Information Technology:** Infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications. Improvements include replacement of marquees at the Austin Convention and the Palmer Events Centers with innovative advance technology and marquee design.

**Palmer Events Center:** Improve and renovate Palmer Events Center facilities. Improvements include replacement of portable seating and restroom upgrades to better serve Convention Center's clients.

# AUSTIN ENERGY

The mission of Austin Energy is to safely deliver clean, affordable, reliable energy, and excellent customer service.

## Operating Programs

**Customer Care** provides excellent customer service and information to all City of Austin Utility customers pertaining to billing, service, and City code.

**Customer Energy Solutions** develops, implements, maintains, and promotes the Austin Energy renewable energy and conservation programs in accordance with the Austin Climate Protection Plan in order for Austin Energy to become a leader in the campaign to address global climate change.

**Electric Service Delivery** builds, operates, and maintains the transmission and distribution systems in the Austin Energy service territory in order to provide clean, reliable, and affordable electric service to our customers.

**Power Generation, Market Operations & Resource Planning** provides operations, maintenance and engineering services of Utility-owned power generation plants, including chiller plants, in order to produce clean, affordable, and reliable energy for sale into the Electric Reliability Council of Texas (ERCOT) wholesale market. Market Operations ensures that adequate power supply is available to meet customer demand through scheduling and analysis all while ensuring that Austin Energy is in compliance with all federal, state, and local laws pertaining to system generation, sale, and purchase of power. Resource planning ensures compliance with Austin Energy's resource generation plan to 2025.

**Power Supply Adjustment (PSA)** purchases the commodities necessary to operate the Austin Energy-owned and co-owned power plants in order to provide sufficient electric services to Austin Energy customers.

**Support Services** provides administrative and managerial support to the Utility.

**Transfers, Debt Service, and Other Requirements** for Austin Energy primarily comprises transfers to debt service, a General Fund transfer, reserves transfers, and transfers for services that Austin Energy receives from other City departments. Other departmental requirements includes bad debt expense, debt service, and commercial paper administrative expenses.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities.

**Distribution and Distribution Substation:** Includes the infrastructure that moves electricity from the generating facilities to industrial, commercial, and residential customers. Installation of the Chilled Water Satellite Plant for the first phase of the Austin Community College (ACC) campus at Highland Mall will build an estimated 6,000 ton capacity plant with a 1.8-million-gallon storage tank.

**Information Technology:** Information technology infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

**Other:** This category includes capital improvement projects that do not fit into other categories, and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects. This category specifically includes design and construction of the new Downtown District Cooling Plant #3 that will be located at the Crescent Tract Property, 812 1/2 W 2<sup>nd</sup> Street, and will provide additional chilled-water capacity.

**Power Production:** Power production facilities include facilities owned by Austin Energy, such as the Decker and Sand Hill plants, and jointly owned generating facilities, such as the Fayette Power Project (FPP) and the South Texas Nuclear Project.

**Transmission:** Transmission includes higher-voltage line infrastructure that transports energy from power plants to Austin Energy's service territory for distribution at lower voltage to retail customers. The Bluff Springs Substation project will construct one unit transformer and two distribution circuits and cut into the Lytton Springs-Slaughter Lane transmission line.

**Vehicles and Equipment:** This category accounts for the acquisition of new and replacement vehicles and equipment to support operations.

2007	System Average Interruption Frequency Index (SAIFI) (electricity outage frequency)	0.68	0.8	0.85	0.85	0.75
2007	Renewable Energy Load Offset	29.8	36.4	37.1	40.9	40
2009	Peak Megawatt (MW) demand savings	584.4	649.92	714.1	779.1	800

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# AUSTIN PUBLIC HEALTH

The mission of Austin Public Health (APH) is to prevent disease, promote health, and protect the well-being of our community.

## Operating Programs

**Community Services** builds strong communities by enriching quality of life for individuals and families.

**Disease Prevention & Health Promotion** provides disease monitoring and preventive health services for the public in order to optimize their health and well-being.

**Environmental Health Services** provides protection and enforcement services to the public in order to minimize environmental and consumer health hazards.

**Epidemiology and Public Health Preparedness** minimizes the public's exposure to infectious and foodborne illnesses, and provides emergency response actions to prevent, respond to, and rapidly recover from public health threats, both natural and manmade.

**Health Equity and Community Engagement** reduces disparate health outcomes.

**One Stop Shop** consolidates the process of land development permitting and assistance into a single location in order to create a more efficient development process for the community.

**Social Service Contracts** provides an array of social services that promote self-sufficiency for eligible individuals and households and improve their quality of life.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Buildings and Improvements:** In FY 2017-18, Austin Public Health anticipates completion of the Austin Shelter for Women and Children renovation and addition project, which provides continuous emergency shelter, specialized counseling, basic needs, childcare, and educational services for single women and women with dependent children. The Shelter includes 20 to 30 bed spaces. Additionally, the Montopolis Recreation and Community Center, which includes design and construction of a new recreation center and community building for both Austin Public Health and Parks and Recreation Departments, is estimated to be completed in FY 2019-20.

2016	Percent of Quality of Life (QoL) clients who followed through with referrals to a healthcare provider or community resource	63	69.62	75	85	90

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# AUSTIN PUBLIC LIBRARY

The Austin Public Library is committed to providing easy access to books and information for all ages, through responsive professionals, engaging programs, and state-of-the-art technology in a safe and friendly environment.

## Operating Programs

**Public Services** provides materials, reference services, and programs to the Austin area community to meet their information and reading needs.

**Materials Management Services** provides quality Library collections to Library customers so they can access and borrow material to meet their information and recreational needs.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Austin Public Library department primarily comprises citywide administrative and information technology support.

## Capital Programs

**Building Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. Improvement projects for the Austin Public Library include renovations of the Windsor Park Branch, Hampton Branch at Oak Hill, and Cepeda Branch, a roof replacement and mechanical upgrades at the Pleasant Hill Branch, and a parking lot expansion for the University Hills Branch. Additionally, minor modifications will be made to the New Central Library to achieve better compliance with Americans with Disabilities (ADA) requirements.

# AUSTIN RESOURCE RECOVERY

The mission of Austin Resource Recovery is to provide excellent customer services that promote waste reduction, increase resource recovery, and support the City's sustainability efforts so that Zero Waste goals may be achieved.

## Operating Programs

**Collection Services** provides diversion opportunities and waste collection services to ARR customers. Primary goals include minimizing landfill impacts and providing efficient material management. This program is comprised of the Bulk Collection, Trash Collection, Organics Collection, and Processing and Recycling Collection activities.

**Litter Abatement** removes litter and garbage materials from residential streets and thoroughfares, clears debris from illegal dump sites, removes dead animals from public right of ways, and provides street cleaning to prevent contaminants from polluting Austin's creeks and waterways. This program contains the Clean Austin, Street and Boulevard Sweeping, Dead Animal Collection, and Litter Control divisions.

**Remediation** provides activities associated with final closure and post-closure of the City's former FM 812 Landfill as well as brownfields redevelopment citywide. It also ensures the City is in compliance with regulations governing the landfill's permit as issued by the State and to ensure that closed landfills do not adversely impact local environmental or public health.

**Waste Diversion** provides disposal and waste diversion services to the Austin community in order to ensure materials are disposed of in a manner that protects the environment and conserves resources. This program contains the Business Outreach, Zero Waste Program Development, Recycling Economic Development, Resource Recovery Center, and Household Hazardous Waste Facility divisions.

**Operations Support** provides timely request responses to ARR customers and technical assistance to ARR employees to improve efficiency and service quality. This program is comprised of the Safety, Training, Cart/Container Maintenance, ARR Service Contracts, Routing, and Service Request divisions.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. Austin Resource Recovery is pursuing design work related to the future construction of both a new landfill office and a North East Service Center (NESC).

**Landfills:** This category includes projects for site assessment, remedial alternative development, design, and redevelopment of landfill sites. Currently, the former FM 812 Landfill is awaiting official closure due to ongoing repairs from recent flood damage.

**Vehicles and Equipment:** Accounts for the acquisition of new and replacement vehicles and equipment, such as carts and specialty trash and recycling containers for public spaces, to support operations. Additional vehicles and carts are needed to rollout the Curbside Compost Collection program Citywide.

# AUSTIN TRANSPORTATION

The mission of the Austin Transportation Department is to deliver a safe, reliable, and sustainable multi-modal transportation system that enhances the environment and economic strength of the region for our residents, businesses, and visitors while conducting business in a customer focused and transparent manner.

## Operating Programs

**Corridor Program Office** prioritizes, designs, and constructs corridors that support mobility, livability, and other outcomes as outlined by the Austin City Council for the 2016 Mobility Bond Program.

**One Stop Shop** consolidates the process of land development permitting and assistance into a single location in order to create a more efficient development process for the community.

**Parking Enterprise** provides City on-street parking management and enforcement of parking policies for the community in order to meet its parking needs.

**Traffic Management** installs and maintains transportation control devices for the safe and efficient travel of goods and people.

**Transportation Project Development** provides for the safe and efficient movement of people and goods.

**Support Services** provides administrative and managerial support to the Department.

**Transfers, Debt Service, and Other Requirements** for the Austin Transportation Department primarily comprises Accrued payroll; 311 Call Center support; Property and liability insurance; Capital Improvements Program; Citywide administrative and information technology support; General obligation debt; Workers' compensation; Liability reserve; Utility billing system support.

## Capital Programs

**Bikeways:** Build improvements to the City’s bicycle and pedestrian network, including separated and/or protected bicycle facilities, bicycle detection and signal equipment, and other on street bicycle facilities, such as bike lanes.

**Parking:** Improve parking lots, parking meters, and infrastructure immediately adjacent to the parking areas.

**Streets – Capacity:** Design and implement future projects intended to improve mobility, including partnership with other agencies in major corridors, and may be used for connectivity projects, reconstruction, intersection improvements, signage, striping, streetscape, and pedestrian accessibility. Projects include the Corridor Construction Program and RM 620 at FM 2222 Improvements as part of the 2016 Mobility Bond, E. 51<sup>st</sup> Street Improvements, and matching funds for extensions of Lakeline Blvd and Braker Lane.

**Streets – Safety:** Support traffic flow and safety with a variety of infrastructure improvements, including traffic calming and intersection safety improvements. Projects include improvements to intersections at Slaughter/South 1<sup>st</sup>, South Congress/Oltorf, and IH-35/Braker.

**Traffic Signals and Systems:** Improvements include computerized signal systems, signal modifications and upgrades, new signals and pedestrian hybrid beacons, warrant studies, and other infrastructure to support traffic signals.

2017	Percent of arterial center-line miles restriped		53	51	53	55
2017	Percent reduction in crashes at all locations with completed safety program improvements		50	50	51	52

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# AUSTIN WATER

The mission of Austin Water is to provide safe, reliable, high-quality, sustainable, and affordable water services to customers so that all community needs for water are met.

## Operating Programs

**Engineering Services** provides effective engineering, project delivery, management, and technical support services for Austin Water's treatment facilities, water distribution, and wastewater collection infrastructure systems to deliver safe, reliable, high-quality, sustainable, and affordable water and wastewater services to customers.

**Environmental Affairs & Conservation** leads the Utility in conserving water and land, protecting water quality, and providing the necessary managerial, administrative, regulatory, and technical support services for the Utility's programs to meet community needs and regulatory requirements for drinking water, wastewater effluent, and biosolids.

**Operations** provides reliable and sustainable operational, maintenance, and regulatory support of treatment, distribution, collection, and reclaimed water infrastructure, which together delivers safe, high-quality, and affordable community water services.

**Other Utility Program Requirements** properly accounts for the Utility's department-wide expenditures, such as debt administrative and commission charges, general liability, legal services, and bad debt to ensure the appropriate level of financial reporting.

**Reclaimed Water Services** provides effective planning, engineering, project delivery, managerial, administrative, regulatory, and technical support services for Austin Water's reclaimed water program to deliver safe, reliable, high-quality, sustainable, and affordable reclaimed water services to customers and to increase reclaimed water usage.

**Support Services** provides administrative and managerial support to the Utility.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

**Water Resources Management** provides engineering, technical, managerial, enforcement, and administrative services to reduce water leaks and continuously deliver safe and adequate supplies of drinking water from the treatment plants to customers, to reduce wastewater overflows, and to safely convey wastewater from customers to the treatment plants.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities.

**Information Technology:** Infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

**Lift Station:** Improve or construct lift stations, which pump wastewater from a low to a high elevation.

**Other:** This category includes capital improvement projects that do not fit into other categories, and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

**Pump Station:** Improve or construct pump stations, which pump water from one place to another.

**Reclaimed Water Network:** Develop facilities to reclaim treated wastewater and distribute the reclaimed water for appropriate uses.

**Reservoir:** Improve and construct reservoirs, which are used for water storage.

**Vehicles and Equipment:** Accounts for the acquisition of new and replacement vehicles and equipment to support operations.

**Wastewater Pipe Network:** Improve and construct the pipe network that transports wastewater to and from wastewater treatment facilities. The Parmer Lane Interceptor project includes the construction of 12,000 linear feet of a 42-inch gravity interceptor west of Parmer Lane and the demolition of components of the Lake Creek and Rattan Creek Sewer Lift Stations.

**Wastewater Treatment Plant:** Improve and construct wastewater treatment facilities. Projects included in this capital program are the South Austin Regional Wastewater Treatment Plant Trains A&B Blower Replacement and Tertiary Filter Improvements projects. These projects involve renewal and enhancement of the aeration blower equipment and the aging filtration infrastructure at the South Austin Regional Wastewater Treatment Plant (WWTP). Additionally, the Walnut Creek Wastewater Treatment Plant Tertiary Filter Rehabilitation Project involves the renewal and enhancement of aging infrastructure in the Walnut Creek WWTP Tertiary Filter building.

**Water Pipe Network:** Improve and construct the pipe network that transports water to and from water treatment facilities.

**Water Treatment Plant:** Improve and construct water treatment facilities. This capital program includes the Davis Water Treatment Plant Treated Water Discharge System and Power Distribution Upgrade projects, which involve the renewal and enhancement of the aging medium service pump station and electrical infrastructure at the Davis Water Treatment Plant (WTP).

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2002	Drinking Water Quality: Turbidity	0.08	0.08	0.08	0.08	0.1
2004	Wastewater Quality: Carbonaceous Biochemical Oxygen Demand (CBOD)	2.16	2.21	3	3	3
2007	Percent Invested in Capital Improvements Program (CIP) Projects compared to Planned Spending via the CIP Budget	72.65	94.6	83	80	80
2010	Percent of Average Annual Residential Bill to Median Household Income	1.55	1.61	1.55	1.5	1.5
2011	Percent of priority 1 leaks responded to within 3 hours	94.19	93.91	90	90	90
2012	Number of reportable wastewater overflows per 100 miles of wastewater lines per year	2.9	1.74	2.5	2.9	3
2012	Credit rating for separate-lien water utility revenue bonds	AA	AA	AA	AA	AA

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# AVIATION

The mission of the Aviation Department is to connect our community to the world with an Austin-style experience.

## Operating Programs

**Facilities Management, Operations and Airport Security** maintains and operates a clean, safe and secure airport environment for the traveling public, business partners and other patrons of the airport.

**Airport Planning & Development** plans, designs and constructs facilities for users of the airport to ensure a safe and secure environment. This program also manages the environmental activities aimed at providing a sustainable airport and overseeing air quality, waste diversion, aircraft noise and water quality issues.

**Business Services** manages concession contracts, leases and parking services for the Department of Aviation in order to maximize the airport's concession revenue.

**Support Services** provides administrative, managerial and financial support to the department so that it may operate in an effective and efficient manner.

**Transfers, Debt Service, and Other Requirements** for the Aviation Department primarily comprises Citywide administrative and technology support; Workers' compensation; Liability reserve; Airport Operating reserve; Accrued payroll; General Obligation debt; Airport Revenue Bond debt; Airport Variable Rate Notes debt; and Airport Capital Fund.

## Capital Programs

**Airport:** Improvements and renovations to facilities and equipment at the Austin-Bergstrom International Airport. Projects include: construction of the new parking garage and administrative building, scheduled to be complete by summer 2019; construction of a consolidated maintenance facility to centralize the various maintenance functions currently housed at various locations throughout the airport property, scheduled to be complete by summer 2020; ongoing construction of the apron and nine-gate terminal expansion project, scheduled to be complete in spring 2019; and initial planning for another ten-gate expansion to accommodate passenger growth over the next decade.

**Information Technology:** Infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

**Planning/Studies:** Efforts that enhance the ability to move forward with focused project direction that results in capital assets. This includes an infrastructure master plan for future expansion.

**Vehicles and Equipment:** Accounts for the acquisition of new and replacement vehicles and equipment to support Airport operations.

Parking Garage and Administrative Building

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2002	Lost Time Injury Rate Per the Equivalent of 100 Employees	0.59	1.59	0.62	1	1
2007	Non-Airline revenue per enplaned passenger	12.51	12.28	12.42	12.86	None
2007	Percentage of passengers ranking overall satisfaction with the airport "Excellent" in the Airport Service Quality Survey	49	47.5	45	45	50
2008	Airline cost per enplaned passenger	8.39	8.86	10.1	11.52	None
2015	Terminal Recycling Rate	25	26	28	27	32

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# BUILDING SERVICES

The mission of the Building Services Department (BSD) is to provide services that support reliable, efficient, and sustainable City facilities so that departments can accomplish their missions.

## Operating Programs

**Building Services** manages building operations and maintenance activities, including Plumbing, Electrical, Heating, Ventilation, Air Conditioning, Custodial Services, and Security for the City of Austin to maintain and improve the City's infrastructure.

**Support Services** provides operational support, planning, and leadership to the department that are necessary to achieve the goals and objectives of the Department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Buildings and Improvements:** These include major facility repairs and projects that repair or replace existing building systems, roofs, driveways, parking lots, and other equipment necessary for facility and occupant operations. Notable projects include the Rutherford Lane Center Parking Improvements Project; the Rosewood Zaragoza Neighborhood Center parking lot, front entrance and Americans with Disabilities Act (ADA) projects; various HVAC system replacements; and various roof repairs and replacements. There are other various renovations required throughout the City that aim to reconfigure spaces to suit the needs of occupants or meet sustainability targets. Notable projects are continued deferred maintenance at Austin Fire Stations, ingress/egress improvements at the Rebekah Baines Johnson Facility, and One Texas Center ADA standards updates.

# COMMUNICATIONS AND PUBLIC INFORMATION

The mission of Communications and Public Information is to provide communications consultation, tools, and resources that enhance the City's engagement with residents and employees so that they can make informed decisions and actively participate in City government.

## Operating Programs

**Communications** provides timely and meaningful opportunities to know about, engage with and participate in City of Austin programs and services.

**Video Production Services** ensures transparency by making the City of Austin's public meetings and community events accessible to the public via cable television broadcast and streaming video, and by providing electronic media production services for internal customers and intergovernmental partners.

**Web Services and Graphic Design** ensures that information about the City's programs and services are available, accessible, user-centric and easy to find across both traditional and digital platforms.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

# COMMUNICATIONS AND TECHNOLOGY MANAGEMENT

The mission of the Communications and Technology Management (CTM) Department is to provide an excellent customer experience and deliver innovative business technology solutions so that our business customers can deliver city services to residents of the community and the region.

## Operating Programs

**Communications and Technology Management** provides information technology infrastructure, applications, information security, and enterprise-wide solution and project management services to other City of Austin departments so they can deliver services to residents of the community and the region.

**Combined Transportation, Emergency and Communication Center (CTECC) and Public Safety IT Support** supports the operations of shared critical emergency communications and transportation management for City departments and regional partners so that they can improve emergency response coordination and cooperation.

**Wireless Communication Services** provides cost effective communication infrastructure and maintenance services to City departments and regional partners in support of voice radio communication, mobile data communication and electronic vehicular equipment.

**Support Services** provides administrative and managerial support to the department.

**Transfers and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Information Technology:** Acquire, implement, and maintain the City's information technology infrastructure, including desktop computers, servers, networks, IT security, radio and telephone systems, and software applications. This infrastructure includes public-safety-related technology. Projects include enterprise business initiatives that Communications and Technology Management manages in order to provide a Citywide benefit, department-specific IT initiatives and projects, critical capital hardware and software replacement required to maintain standard information technology operations in the City, and major Citywide IT infrastructure initiatives such as the network upgrade and back-up data center.

# DEVELOPMENT SERVICES

The mission of the Development Services Department is to provide high quality, positive, timely, and facilitative development review and inspection services to build a better and safer Austin.

## Operating Programs

**Building Inspections and Trade Permits** are a vital part of the built environment. Conducting building and trade inspections during the various stages of construction safeguards the public's life, health, safety and welfare. Keeping track of permits along with a contractor's license and registration also provides safety to the public.

**Building Plan Review** provides comprehensive review services to citizens and developers to ensure that structures are in compliance with zoning, meet other development regulations, and meet minimum health and safety standards.

**Community Tree Preservation** cultivates a relationship between Austin residents and their trees by fostering a resilient community forest.

**Development Assistance Center** evaluates development proposals for potential applicants and concerned citizens on behalf of the community to ensure that development is designed and built in accordance with the City of Austin's rules and regulations.

**Land Use Review** provides comprehensive review services for citizens and developers to ensure that applications are in compliance with the Land Development Code.

**Site and Subdivision Inspections** ensures that all public infrastructure, such as water, wastewater, drainage facilities, streets, and sidewalks are built according to approved plans, City rules, regulations, and specifications to meet the minimum health and safety standards.

**Strategic Operations** establishes the framework for strategic planning, performance, and continuous improvement for the Department to maximize operational efficiency and improve customer satisfaction.

**Support Services** provides administrative and managerial support to the Department.

**Technology Surcharge** implements new departmental technology initiatives funded by a development surcharge that is used explicitly for technology projects to improve Department operations.

**Transfers, Debt Service, and Other Requirements** for the Development Services Department primarily comprises Citywide administrative and information technology support, worker's compensation, liability reserve, and accrued payroll.

## Capital Programs

**Information Technology:** Information Technology can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications. Some technology improvement projects include enhancing the proprietary AMANDA permitting software, an electronic plan review, and a build-out of information technology infrastructure at the new facility at 5202 East Ben White Boulevard.

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2002	Percent of building inspections performed within 24 hours of request	91	87	75	90	90
2012	Percent of on-time subdivision and site plan reviews (includes external review partners)	31.52	28	28	26	90
2014	Percent of on-time initial new residential reviews (includes external review partners)	33	54	70	75	90
2014	Percent of commercial projects that require more than two review cycles	36	31.7	21	20	10
2015	Percent of residential projects that require more than two review cycles	7	6.5	7	6	5
2015	Percent of site plan projects that require more than five review cycles	7	8	8	5	5
2015	Percent of on-time new commercial reviews (includes external review partners)	28.65	37	54	65	90
2015	Percent of permits issued online	27.1	41.03	41.6	45	60

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# ECONOMIC DEVELOPMENT

The mission of the Economic Development Department (EDD) is to develop and lead innovative programs that increase the prosperity of Austinites and to create a cultural and economic environment that enhances the vitality of the community.

## Operating Programs

**Cultural Arts and Contracts** nurture, preserve, and promote Austin's arts and creative industries to strengthen and sustain Austin's dynamic cultural vitality.

**Global Business Recruitment and Expansion** manages the City's economic development policies and programs and promotes and facilitates sustainable growth in the Desired Development Zone to enhance livability and economic viability in a manner that preserves the character of Austin.

**Music and Entertainment Division** develops and executes initiatives that help accelerate the growth of the music industry by focusing on job creation, talent export, trade development, and revenue growth.

**Redevelopment** provides project management, implementation, and information services for project and community stakeholders to catalyze mixed-use redevelopment in the Imagine Austin Activity Center and Corridors.

**Small Business Program** fosters job creation and supports the growth of new and existing businesses by providing capacity building information resources and tools.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Economic Development department primarily comprises citywide administrative and information technology support, accrued payroll, legal services, 311 Call Center support, and workers' compensation.

## Capital Programs

**Bridges, Culverts, and Structures:** Improvements include the replacement or rehabilitation of existing structures that address any deficiencies for the structures and/or safety barrier features, and either create new or enhance existing multi-modal connections. The Seaholm District-Bowie Underpass project will provide a safe undercrossing of the Union Pacific Railroad and a bicyclist and pedestrian facility, continuing from the Pfluger Bridge and Gables development.

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. This includes the Austin Studios Expansion project, which is renovating and rehabilitating a City-owned facility leased and operated by the Austin Film Society as part of a public/private venture.

**Other:** This category includes capital improvement projects that do not fit into other categories, and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects. Projects included are artwork restoration, or long-term conservation and repair of cultural assets acquired through the City's public art program, donations, and inherited artworks; and wayfinding, or signage that draws tourists to two key cultural districts in central Austin, the Red River Cultural District, and Six Square African American Cultural District and Heritage District.

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# EMERGENCY MEDICAL SERVICES

The mission of the Austin-Travis County Emergency Medical Services Department is to provide excellent patient care to anyone, any time, and any place to decrease suffering, improve the health of the community, and save lives.

## Operating Programs

**Billing Services** facilitates patient billing and insurance reimbursement and offers payment plans to extend patient care and reduce the cost of EMS operations.

**Community Relations and Injury Prevention's** purpose is to improve health, prevent injuries, and reduce illness through public education and to provide coordination of EMS participation in community events.

**Emergency Communications** provides for effective and efficient call triage for incoming 9-1-1 requests for EMS assistance, dispatches the appropriate emergency response, provides pre-arrival instructions when necessary, and coordinates interagency response to facilitate rapid access to care.

**Employee Development and Wellness** exists to prevent and reduce the impact from personal injury and exposure to infectious diseases and to provide new employee training, continuing education, and staff development for the EMS Department in order to produce and maintain competent field and communications personnel.

**Operations** provides emergency ground ambulance response throughout the community, specialized rescues, standby EMS services, and runs the Community Health Paramedic program.

**Safety and Performance Improvement** oversees the daily clinical performance of the department, thoroughly and objectively investigates any concern or inquiry about our clinical practice, and works with all areas of the department to continually improve knowledge, performance, and safety.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the EMS department primarily comprises citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

## Capital Programs

**Building Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. Facility improvements include renovation expansion of truck bays and crew quarters at EMS stations 2, 8, and 11, as well as improvements to comply with American with Disabilities Act (ADA) and fire code standards.

2015	Percentage of patients who are satisfied or very satisfied with EMS customer service	96.85	97.8	97.71	96	95
2015	Percent reduction of EMS transport to hospitals of enrolled CHP Clients	53	56	33	40	57

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# FINANCIAL SERVICES

The mission of Financial Services is to maintain the financial and economic integrity of the City and to provide comprehensive and integrated financial management, administration, and support services to City departments and other customers.

## Operating Programs

**Budget Office** provides an annual budget and analysis of financial information to City departments, management, and Council so that they can make well-informed financial decisions.

**Capital Contracting Office** administers the procurement of professional and construction services, and executes and manages contracts essential for the delivery of efficient capital improvements so that all Austin residents can have an improved quality of life.

**Controller's Office** provides internal controls, financial oversight and guidance, financial information, and payments to City employees and vendors so that departments may manage their business and meet their financial reporting needs.

**Office of Performance Management** champions strategic planning, performance, and continuous improvement for the City to achieve customer-focused operational excellence.

**Office of the Chief Financial Officer** provides administrative, managerial support, and analysis to Financial Services and client departments in order to provide more effective services.

**Purchasing Office** provides procurement-related activities and services in a timely and cost-effective manner to City departments so that they can have the resources they need to do their jobs.

**Treasury Office** provides cash, debt, and investment services to City departments by overseeing the City's comprehensive cash management program, coordinating debt issuances, ensuring compliance with bond ordinances and disclosure requirements, and managing the investment portfolios in compliance with the Texas Public Funds Investment Act and City of Austin Investment Policy.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Information Technology:** Infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications. Citywide implementation of the Human Capital Management System (HCMS) begins in FY 2018-19. This single enterprise Human Resources (HR) system will decrease costs, increase access to information, and increase compliance with Citywide HR policies.

# FINANCIAL SERVICES

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2002	Awarded Government Finance Officers Association's (GFOA) Certificate of Achievement for Excellence in Financial Reporting	Yes	Yes	Yes	Yes	Yes
2002	Comprehensive Annual Financial Report (CAFR) awarded "clean opinion"	Yes	Yes	Yes	Yes	Yes
2002	Receiving Government Finance Officers Association Distinguished Budget Presentation Award	Yes	Yes	Yes	Yes	Yes
2004	Percentage of employees who believe they have the performance information they need to carry out their role or function effectively	59	62	66	70	85
2007	COA GO Bond Rating from Moody's	Aaa	Aaa	Aaa	Aaa	Aaa
2007	COA GO Bond Rating from Standard & Poor's	AAA	AAA	AAA	AAA	AAA
2007	COA GO Bond Rating from Fitch Investors	AAA	AAA	AAA	AAA	AAA
2014	Awarded the Achievement in Excellence Procurement Award from the National Procurement Institute	Yes	Yes	Yes	Yes	Yes
2015	Percentage of all procurements that meet the established schedule from solicitation to execution	86.7	81.2	70	85	90

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# FIRE

The Austin Fire Department is committed to creating safer communities through prevention, preparedness and effective emergency response.

## Operating Programs

**Fire/Emergency Response** aims to control and extinguish fires in the shortest amount of time with minimal loss of life or property, as well as provide first-in medical response, rescue services and hazardous materials response.

**Emergency Prevention** works to prevent and investigate loss of property and life due to fire by conducting community outreach in fire prevention and wildfire fuel mitigation, ensuring fire code compliance in buildings and venues, investigating arson cases.

**One Stop Shop** provides plan review and inspection of new construction and assists the citywide effort to provide consolidated, efficient and effective development services.

**Operations Support** exists to prevent and reduce the occurrence of personal injury through maintenance and testing of rescue tools and to provide new employee training, continuing education, and staff development for the Austin Fire Department in order to produce and maintain competent field and communications personnel.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** accounts for transfers and other departmental requirements.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. Projects include the construction of the Onion Creek Fire Station to serve residents in south Austin; construction of two additional fire stations to serve the residents of Del Valle/Moore's Crossing and Travis Country, which will begin in FY 2018-19; and renovations of locker and bathroom facilities for all fire fighters continue to ensure equitable with the final two phases, Phase V and Phase VI of the Austin Fire Department Locker Room Project.

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# FLEET SERVICES

The mission of the City of Austin's Fleet Services Department is to provide customer departments with safe and reliable vehicles and equipment in a timely, cost-effective, and environmentally responsible manner so that they can complete their missions.

## Operating Programs

**Fleet Service Centers** provides maintenance, repair, and other services so City vehicles keep rolling.

**Operational Services** provides responsive records and system administration, facility management, and city-wide fuel support services at a reasonable cost.

**Support Services** provides operational support to departments so they have the necessary tools to perform their jobs.

**Transfers, Debt Service, and Other Requirements** for the Fleet Services department primarily comprises Citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

**Vehicle Services** provides responsive, quality auction, rental, taxi, and vehicle life cycle management services at reasonable cost.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities, including additions, upgrades, and automation of existing fuel infrastructure and development of future fuel sites. Projects include over 100 additional electric vehicle-charging stations to support the planned electrification of over 300 vehicles in the City's fleet, which is in alignment with council resolutions, reduction of carbon footprint, and expansion of mobility options to employees and additional equipment and controls for the Compressed Natural Gas (CNG) fuel facility located at Todd Lane.

**Information Technology:** Infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

**Vehicles and Equipment:** Accounts for the acquisition of new and replacement vehicles and equipment to support operations. Fleet Services purchases additional and/or replacement vehicles and equipment for all City departments.

## LAW

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2002	Percent of civil lawsuits that are resolved in favor of the City or within established settlement range	97	100	95	95	100
2002	Percent of clients reporting advice provided by attorneys was clear, relevant, and communicated effectively	97	94	98	98	100
2004	Percent of clients reporting legal advice received was timely	84	94	85	85	100
2010	Percentage of employees familiar with the ethics policies	81	83	85	85	100
2013	Overall Job Satisfaction	72	85	90		90

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# MANAGEMENT SERVICES

The mission of the Management Services Department is to ensure that all City Council priorities, policies, and programs are successfully implemented and effectively managed.

## Operating Programs

**City Manager's Office** oversees daily and on-going City operations, and implementation of City Council policy directives.

**Equity Office** provides leadership, guidance, and insight on equity to improve the quality of life for Austin communities.

**Homeland Security and Emergency Management** better prepares our community for special events and coordinates the Citywide response to, and recovery from, large-scale emergencies and disasters in order to protect life and property.

**Innovation Office** helps diverse and inclusive teams examine challenges and opportunities to surface better ideas and solutions that make a lasting, positive impact on City services.

**Intergovernmental Relations Office** ensures that the City's interests are protected and enhanced through active involvement in the legislative process and strong intergovernmental relationships.

**Labor Relations Office** negotiates and administers labor contracts for the City with its various public employee unions.

**Office of the Medical Director** provides comprehensive medical oversight, credentialing standards, infection control programs, training and quality assurance coordination, and program development for Austin/Travis County EMS system providers in order to assure the public's health and safety.

**Office of the Police Monitor** reviews complaints within the Police Department and provides recommendations for resolution when applicable.

**Support Services** provides operational support to the Department, so staff have the necessary tools to perform their jobs.

**Sustainability Office** provides leadership, technical assistance, engagement, and innovative projects to City departments and the Austin community in order to measure progress towards Austin as a net-zero carbon, food-secure, and resilient community.

**Transfers, Debt Service, and Other Requirements** for the Management Services Department primarily comprises Citywide administrative and information technology support, liability reserve, and accrued payroll.

# MAYOR AND COUNCIL

The City of Austin has a Council-Manager form of government established through the City Charter. The Mayor and Council Department was created in Article II of the Austin City Charter. On November 6, 2012, citizens voted to change when and how the City Council is elected. The approved propositions moved the Council elections from May to November in even numbered years and increased the number of Council members from six, elected at-large, to 10, elected within districts. The Mayor continues to be elected at-large. Finally, the Council terms were lengthened from three years to four.

## Operating Programs

**Mayor / Council** is comprised of the Mayor's Office and 10 City Council Member Offices.

**Transfers, Debt Service, and Other Requirements** for Mayor and Council comprises information technology support, liability reserve, and accrued payroll.

# MUNICIPAL COURT

The mission of the Municipal Court department is to impartially administer justice in a fair and efficient manner so that trust and accountability is exemplified to the public we serve.

## Operating Programs

**Court Judiciary's** purpose is to administer effective and impartial justice to all persons with business before the court.

**Municipal Court Operation's** purpose is to process citations for the public in order to facilitate the swift administration of justice.

**Downtown Austin Community Court's** purpose is to provide creative and individualized sentencing options to offenders so that they are held accountable for their actions, reduce their recidivism rate, restore the debt they owe to the community as a result of their offenses, and to provide supportive services to assist them with modifying their offending behavior.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Other:** In FY 2018-19, \$7.3 million is being deappropriated from Municipal Court's capital budget and will be reallocated to the Building Services Department. These capital funds, which originated from the 2006 Bond Program, were intended for a new Municipal Court facility. On May 5, 2018, the Austin City Council approved a 10-year lease for a new Municipal Court building. These funds will be used on Public Safety departments for the public purposes of constructing, renovating, improving, and equipping public safety facilities.

# NEIGHBORHOOD HOUSING AND COMMUNITY DEVELOPMENT

The mission of Neighborhood Housing and Community Development (NHCD) Department is to provide housing and community development services to benefit eligible residents so they can have access to livable neighborhoods and increase their opportunities for self-sufficiency.

## Operating Programs

**Community Development** provides financial and technical assistance to eligible individuals, households and organizations in order to stabilize people's financial lives and improve the economic viability of an area. Activities include Neighborhood and Community Revitalization, Renter Assistance Counseling, Financial Empowerment, Small Business Assistance, and Homeless/Special Needs.

**Housing** provides financial assistance and information to low- and moderate-income residents and developers so that the City can achieve its affordable housing goals. It includes Homebuyer Assistance, Housing Developer Assistance, Homeowner Assistance, and Renter Assistance activities.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Neighborhood Housing and Community Development department primarily comprises Citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

## Capital Programs

**Affordable Housing:** Capital improvements include activities related to neighborhood and/or community housing and development, such as rental housing, homeownership, and home repair. Notable rental housing projects include Housing First Oak Springs and The Jordan, ownership housing projects include The Chicon and Tannehill, and home repair features the Go!Repair Program.

**Planning/Studies:** Efforts that enhance the ability to move forward with focused project direction that results in capital assets, and supports work on departmental and Citywide planning initiatives, with a focus on short-term and long-range planning for increasing housing affordability in Austin.

# OFFICE OF REAL ESTATE SERVICES

The mission of the Office of Real Estate Services is to provide professional real estate expertise to acquire all real property rights for City purposes, lease property required by various City departments, administer land management activities, and engage in other real estate services that result in improved quality of life for all City of Austin residents.

## Operating Programs

**Office of Real Estate Services** provides timely leasing, property, and land management services to City departments and external customers so they can meet their operational needs.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. The Planning and Development Center will provide office space for Development Services, Planning and Zoning, and co-located staff from other departments that would house a “one-stop shop” for all of the City’s development-related regulatory functions.

# OFFICE OF THE CITY CLERK

The mission of the Office of the City Clerk is to promote an environment throughout Austin City government that encourages efficiency, compliance, and transparency by implementing progressive policies and procedures that foster effective sharing of information with the City Council, City staff, candidates, voters, media, and citizens.

## Operating Programs

**Austin Records and Information Management** provide comprehensive services that promote the efficient, compliant, and transparent governance and administration of the City's information resources.

**Elections** provide election services to voters, petitioners, City departments, media and candidates so they can participate in the election process.

**Support Services** produce effective and efficient services to support Council meetings, to coordinate all aspects of the boards and commissions system, confirm that ordinances, resolutions and minutes accurately reflect Council action, codify and publish the ordinances, provide research services for Council-approved records and for the administrative and managerial support of the department.

**Transfers, Debt Service, and Other Requirements** for the Office of the City Clerk primarily comprises Citywide administrative and information technology support, liability reserve, and accrued payroll.

# PARKS AND RECREATION

The mission of the Parks and Recreation Department is to provide diverse programs and experiences to the public by creating sustainable natural spaces and public places in order to inspire Austin to learn, play, protect and connect.

## Operating Programs

**Community Services** provides safe, life-enhancing experiences to the Austin community in order to increase educational and leisure opportunities.

### **Parks, Planning, Development & Operations**

provides Parks and Recreation development, design, construction, and facility improvements to increase the availability of recreation opportunities; to provide planning, construction and preservation services for the Austin community in order to have safe, properly maintained Parks and Recreation facilities and natural resources; and to provide resource preservation, horticultural practices and delivery of environmental education programs to the Austin Community in order to protect and foster stewardship of the natural world.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** primarily comprises transfers and other departmental requirements at the fund or agency level.

## Capital Programs

**Aquatics:** Build, improve, and maintain the City's aquatic facilities, such as municipal pools, neighborhood pools, wading pools, and splash pads.

**Athletics:** Build, improve, and maintain the City's athletic facilities to provide youth and adult recreational opportunities.

**Buildings and Improvements:** Capital projects may include expansions or renovations to an already-existing facility or facilities and all activities related to the construction of a new facility or facilities. Increased user demand at existing recreation centers such as Dove Springs, Rosewood, and Montopolis has prompted much-needed building renovation, expansion, or full redevelopment.

**Cemeteries:** Preserve and enhance historical and cultural cemetery facilities.

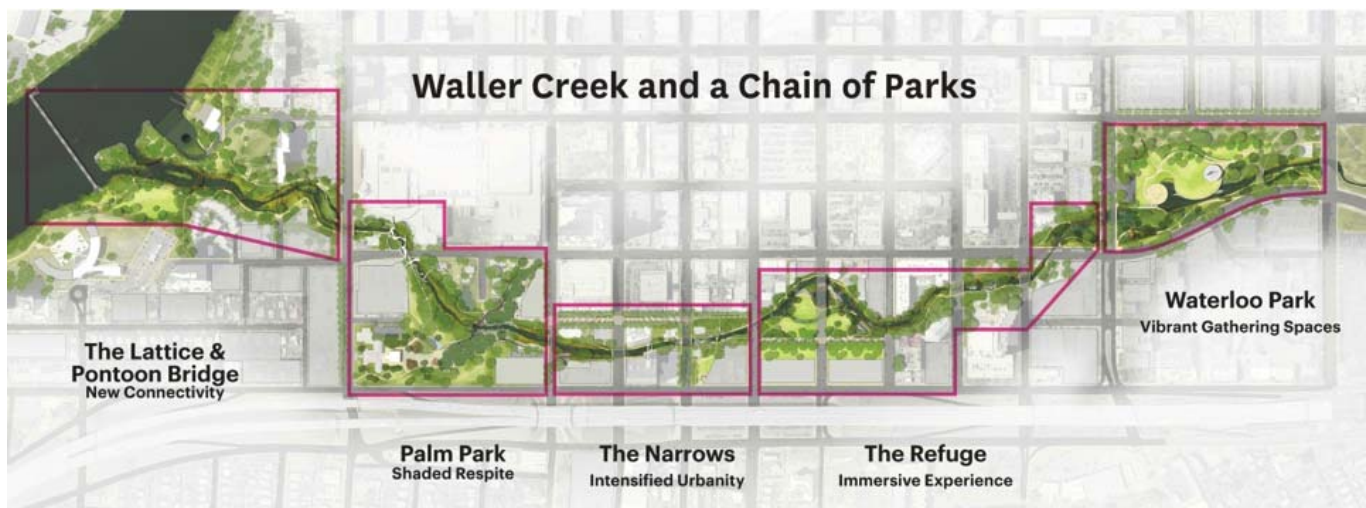

**Golf:** Acquire land and improve and maintain public golf courses and associated facilities.

**Land Acquisition:** Capital improvements may include activities related to the purchase or acquisition of land, including but not limited to park land, open spaces, or land on which to build new facilities. Various acquisitions are currently being pursued and negotiated with an emphasis on decreasing the percentage of Austin classified as parkland deficient.

**Parks:** Develop and improve metropolitan parks, district parks, neighborhood parks, pocket parks, greenbelts and preserves, and special parks. Early efforts are underway to bring parkland and open space to the emerging Waller Creek District in downtown Austin.

**Playscapes:** Build, renovate, and replace playscapes and play equipment in public parks to provide safe, accessible, and high-quality recreational opportunities for children.

**Trails:** Construct and rehabilitate non-motorized, multi-use trails and connections to those trails, which provide important accessible routes for transportation and recreation needs.

2015	Percent of the City of Austin that is classified as parkland deficient	36.9	33.54	34	34	25
2018	Five-year average of private investment and grant funds as a percent of five-year average CIP expenditures			10	15	20

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# PLANNING AND ZONING

The mission of the Planning and Zoning (PAZ) Department is to educate, advocate, and provide planning services so that Austin is beautiful and a great place for all.

## Operating Programs

**Current Planning** manages the zoning process and interprets the Land Development Code, manages the annexation process, and protects neighborhoods, buildings, and sites that reflect the elements of Austin's cultural, social, economic, political and architectural history.

**Long Range Planning** provides a comprehensive planning program to guide and manage future development. The purpose of the program is to maintain and monitor the status of the Imagine Austin Comprehensive Plan and to develop and implement a variety of long range small area plans including neighborhood plans, corridor plans, and other plans in order to create complete communities.

**Urban Design** shapes and enhances public spaces that are functional, sustainable, safe, and attractive, and manages the rewrite of the Land Development Code in order to implement the City's Comprehensive Plan.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Planning and Zoning department primarily comprises Citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

## Capital Programs

**Streetscapes:** Downtown Austin streetscape improvements built according to the adopted Great Streets Standards include wider sidewalks, street furnishings, shade trees, public art, and new street light system. Planning and Zoning partners with the development community in exchange for additional development entitlements, or as reimbursement to private developers who opt-in to the Great Streets Reimbursement Program. Planning and Zoning also works closely with Public Works and other City Departments to assure Great Streets standards are being implemented as part of street reconstruction and other CIP projects in downtown Austin, including two blocks of Sabine Street. To the extent Great Streets funds are not utilized by private developers, Planning and Zoning will utilize the funds to assist public projects implementing the Great Streets improvements as described in the COA Great Streets Master Plan.

**Planning/Studies:** Efforts that enhance the ability to move forward with focused project direction that results in capital assets. Planning and Zoning continues to work on the implementation of CodeNEXT, Austin's new Land Development Code, and with Public Works Department in support of the Congress Avenue Urban Design Initiative. Planning and Zoning also coordinates with other departments to implement small area plan priority projects approved for funding under the 2012 and 2016 Bonds. Projects include implementation of connectivity needs identified in various adopted neighborhood plans, improvements to multiple corridors North Lamar Boulevard, North Burnet Road, Airport Boulevard, MLK, East Riverside, Guadalupe, and William Cannon Drive, implementation of park improvements projects, and implementation of neighborhood projects through Neighborhood Partnering Program.

# PLANNING AND ZONING

Tracked Since	Key Performance Indicators	2015-16 Actual	2016-17 Actual	2017-18 Estimated	2018-19 Projected	Goal
2015	Percent of 1999 Council mandated neighborhood plans completed	95	95	97	100	100
2017	Percent of planned neighborhood outreach and educational events hosted		100	100	100	100
2018	Percent of block faces with Great Streets improvements completed by developers within program boundaries			80	80	80
2018	Percent of participants who were satisfied with information from the Imagine Austin Speaker Series events			90	90	90
2019	Percent of COA employees educated and trained on CodeNEXT				50	100
2019	Percent of zoning case recommendations approved by Council				95	95

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# POLICE

The mission of the Police Department is to keep you, your family and our community safe.

## Operating Programs

**Neighborhood-Based Policing** provides immediate police service, criminal investigations, and collaborative problem solving initiatives to the community so the community can feel safe and be safe.

**Investigations** provides an impartial and complete investigation of cases that require a particularly high level of expertise to area commands, victims, suspects, external members of criminal justice agencies, and the public in order to protect victims and the public and deter criminal activity.

**Operations Support** provides intake and processing of police calls for service, forensic analysis, victim services, and fleet, equipment and facility maintenance services to Austin Police Department (APD) employees and the public so that police service can be delivered effectively.

**Professional Standards** the purpose of the Professional Standards program is to provide ethical, professional direction and training to APD employees so that employees perform according to the guiding principles of policing and the community has trust and confidence in the department.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Austin Police Department are primarily comprised of Citywide administrative and information technology support; Workers' Compensation; Liability Reserve; and Accrued Payroll.

## Capital Programs

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. Projects for the Austin Police Department include design and construction of a Mounted Patrol Facility.

**Land Acquisition:** Capital improvements may include activities related to the purchase or acquisition of land on which to build new facilities. The Austin Police Department is currently working with the Office of Real Estate Services to acquire a site for the planned Northwest Substation.

# PUBLIC WORKS

The mission of the Public Works Department is to provide an integrated approach to the development, design, construction, and maintenance of the City's infrastructure systems that supports an exceptional quality of life in a sustainable manner.

## Operating Programs

**Bridge Maintenance** provides safe and efficient use of the City's bridges and structures to all citizens of Austin, ensuring the movement of people, goods and services throughout the City.

**Capital Projects Delivery** implements infrastructure projects for City departments so they can deliver programs and services to the public.

**Child Safety (Safe Routes to School)** provides a safe pedestrian and bicycle environment for Austin's students en route to and from school.

**Infrastructure Management** provides all management of operations, pavement management, engineering support and administrative support for the Public Works Operations group.

**Minor Construction and Repair** repairs and maintains sidewalks, ramps, curbs, and gutters for the community and City departments so they can have their construction project requests met in a timely and cost-effective manner.

**Neighborhood Partnering Program** provides cost-sharing opportunities for community and neighborhood organizations so that they may affect public improvements.

**Right-of-Way Maintenance** maintains items within the right-of-way other than pavement and bridges.

**Sidewalk Infrastructure Program** plans and constructs bicycle, pedestrian and road projects where appropriate and to work with TxDOT, Travis County and CAMPO on multi-modal facilities.

**Street Preventive Maintenance** applies preventive maintenance strategies in order to extend the useful life of the street inventory.

**Street Repair** maintains streets for the traveling public in order to keep the infrastructure in a safe and drivable condition.

**Urban Trails** implements the Urban Trails Master Plan so that Austinites have access to non-motorized, shared-use pathways for bicycle and pedestrian transportation and recreation.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Public Works Department primarily comprises Accrued payroll; 311 Call Center support; Bad debt expenses, Property and liability insurance; Capital Improvements Program; Citywide administrative and information technology support; General obligation debt; Workers' compensation; Liability reserve; Utility billing system support.

## Capital Programs

**Bridges, Culverts, and Structures:** Improvements include the replacement or rehabilitation of existing structures that address any deficiencies for the structures and/or safety barrier features, and either create new or enhance existing multi-modal connections. Projects include design for the Redbud Trail/Emmett Shelton Bridge over Lady Bird Lake, preliminary work for Barton Springs Road over Barton Springs, and preliminary work on the William Cannon Railroad Overpass.

**Buildings and Improvements:** Capital improvements may include improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities. This may include street maintenance, bridge maintenance, and sidewalk repair and maintenance. Projects include renovations to service centers at Harold Court Nichols Building, Dalton Lane, and St. Elmo Cheatham Building.

**Sidewalks:** Includes the construction of new sidewalks and curb ramps, as well as rehabilitation and replacement of existing sidewalks and curb ramps. This program is for the implementation of the Sidewalk Master Plan, according to the requirements of the Americans with Disabilities Act and guidance from the Department of Justice.

**Streets – Renewal:** Includes street reconstruction, street rehabilitation, streetscape improvements, utility participation projects, and conversions from asphalt to concrete. Projects include improving the condition of existing streets, constructing ADA-compliant sidewalks, and installing bike lanes, drainage improvements, utility adjustments, street tree plantings, and other elements to meet the City’s Complete Streets Policy.

**Streets – Safety:** Support traffic flow and safety with a variety of infrastructure improvements, including the Safe Routes to School Program, a partnership with local school districts to address safety concerns of school routes and encourage children and families to bike or walk to school. Improvements include sidewalks, curb ramps, bikeways, and crossing improvements such as signalized pedestrian hybrid beacons.

**Trails:** Construct and rehabilitate non-motorized, multi-use trails and connections to those trails, which provide important accessible routes for transportation and recreation needs. The City’s Urban Trails Master Plan is the guiding document for identifying priority projects, and projects include the Violet Crown Trail North, Southern Walnut Creek Trail Renovations, and the Upper Boggy Creek Trail Phase 1.

# SMALL & MINORITY BUSINESS RESOURCES

The mission of the Small & Minority Business Resources (SMBR) Department is to administer the Minority-Owned Business Enterprise/Women-Owned Business Enterprise (MBE/WBE) Procurement Program and the Disadvantaged Business Enterprise (DBE) Program and provide development opportunities and resources for small, minority-owned, women-owned, and disadvantaged businesses so they can have affirmative access to City procurement opportunities.

## Operating Programs

**MBE/WBE Procurement Program** provides information to the City of Austin necessary to provide development opportunities to small, minority and women-owned businesses participating in City contracting.

**Support Services** provides administrative and managerial support to the department.

**Transfers, Debt Service, and Other Requirements** for the Small & Minority Business Resources department primarily comprises Citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

2002	Percent of applications, re-certification applications, annual reviews and denials processed within 60 days	80	77	97	100	100
2007	Number of City-certified Minority/Women-Owned Businesses MBE/WBE	857	924	997	1,050	1,100
2009	Percentage of MBE/WBEs surveyed who reported "satisfied" with the level of service from SMBR	98	97	97	97	97
2014	Number of clients that received bonding	15	18	18	17	17

The Projected value is the result expected in the upcoming year based on historical data. The Goal represents the result the department is working toward over the next 3 to 5 year period.

# TELECOMMUNICATIONS AND REGULATORY AFFAIRS

The mission of the Telecommunications and Regulatory Affairs (TARA) Department is to provide consumer protection, provide access to technology resources and generate revenue to support City services.

## Operating Programs

**Telecommunications and Regulatory Affairs** advocates for the welfare of citizens by ensuring the City receives fair compensation for the private use of public rights-of-way, by bringing access to the Internet and computer technology to all members of the community through digital inclusion programs, and by protecting consumers from utility rate increases and unfair predatory lending practices.

**Transfers, Debt Service, and Other Requirements** for the Telecommunications and Regulatory Affairs department primarily comprises Citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

# WATERSHED PROTECTION

The mission of the Watershed Protection Department (WPD) is to protect the lives, property, and environment of our community by reducing the impact of flooding, erosion, and water pollution.

## Operating Programs

**Capital Management Program** manages the design, construction, and lifecycle maintenance of the WPD capital program.

**Data Management** manages and processes geospatial, geologic, and drainage data for the WPD.

**Flood Risk Reduction** reduces existing flood hazards to protect lives and property and maintains regulatory code and design criteria for new development.

**Infrastructure and Waterway Maintenance** provides on-site maintenance services to property owners and other affected citizens to save lives, reduce flooding, repair erosion, and improve the quality of stormwater.

**Stream Restoration** creates a stable stream system by implementing localized stabilization and stream channel restoration projects on affected citizens' and public property in order to decrease property loss from erosion and increase beneficial use of waterways.

**Support Services** provides operational support to the department so they have the necessary tools to perform their jobs.

**Transfers, Debt Service, and Other Requirements** for the Watershed Protection department primarily comprises Citywide administrative and information technology support, workers' compensation, liability reserve, and accrued payroll.

**Watershed Policy and Planning** coordinates the integration of flood, erosion, and water quality activities for City staff and policy makers so they have the information to develop, prioritize, and implement cost effective, integrated solutions.

**Water Quality Protection** protects and improves water quality in Austin's creeks, lakes, and aquifers for our community and aquatic life by preventing, detecting, evaluating, and reducing water pollution.

## Capital Programs

**Drainage:** Improve stormwater conveyance and construct or repair related infrastructure. Projects include improvements to Little Walnut Creek – Jamestown Dr. Storm Drain, Walnut Creek – North Acres Storm Drain, and W. Bouldin Creek – Del Curto Storm Drain, which will alleviate the flooding of roadways, buildings, and yards through an upgraded storm drain system.

**Erosion Control:** Stabilize creek banks and prevent damage resulting from creek erosion. The Boggy Creek – Hwy 183 to Delwau Ln Channel Stabilization project will use re-directive flow techniques to train the stream and stabilize the lateral movement of meander bends, and the Country Club West – Catalina Drive Bank Stabilization project will focus on stabilizing the bed and banks of approximately 2,000 feet of a headwater tributary to Country Club West.

**Flood Control:** Reduce flood risk to properties, roadways, and public safety. Projects include the Barton Creek – Gaines Tributary Floodplain Study & Flood Risk Reduction Project, which will assess potential solutions for flooding in the Oak Park and Oak Acres subdivisions and implement solutions that reduce the risk of flooding in these areas; and the Onion Creek – Upper Onion Creek Flood Risk Reduction Buyouts, which will address properties at risk of flooding in the Pinehurst and Wild Dunes areas of Upper Onion Creek.

**Information Technology:** Infrastructure can include desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

**Planning/Studies:** Efforts that enhance the ability to move forward with focused project direction that results in capital assets and support departmental planning efforts, including technical studies and assessments.

**Vehicles and Equipment:** Accounts for the acquisition of new and replacement vehicles and equipment to support operations.

**Water Quality Protection:** Reduce water quality pollution in creeks, lakes, rivers, and aquifers. The Little Bear Creek – Recharge Enhancement Facility project will divert storm flows from Little Bear Creek into the Stoneledge Quarry to recharge the Edwards Aquifer and help maintain flow at Barton Springs.

Approved  
Budget

Funds

# FUNDS SUBJECT TO APPROPRIATION

The City of Austin has established a series of funds to track the expenditures of separate activities. A fund is a fiscal and accounting entity that records cash, revenue, expenditures, and balances relating to specific activities. The City of Austin uses funds that are divided into the following categories: General, Enterprise, Internal Service, Special Revenue, Debt Retirement, and Capital Projects. Below is a list of the funds that are budgeted for the upcoming fiscal year. Fund summaries for each fund can be found by clicking on the fund name that acts as a link.

## General Fund and General Fund Reserves

- The **General Fund** is the general operating fund for the City of Austin. This fund accounts for revenue and expenditures for general government services. The General Fund is supported by taxes, fees, fines, permits, licenses, charges for services, and interest income. The General Fund also includes transfers from other funds including Austin Water and Austin Energy.
- The **General Fund Emergency Reserve Fund** was established by financial policy to provide for temporary financing for unanticipated or unforeseen extraordinary needs of an emergency nature. Examples include, costs related to a natural disaster or calamity or an unexpected liability created by Federal or State legislative action. The Emergency Reserve Fund shall maintain a balance of 6% of total General Fund requirements. Funds shall be allocated from the Emergency Reserve Fund only after an analysis has been prepared by the City Manager and presented to City Council. This analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources and provide a sufficient cash balance for daily financial needs, and will address the nature of the approved expenditure and the revenue requirement in subsequent fiscal years.
- The **General Fund Budget Stabilization Reserve Fund** was established by financial policy and is funded primarily through the capture of any excess revenue and unspent appropriations at the end of each fiscal year. It is designed to provide financial stability to the General Fund during economic downturns. Up to one-third of the total amount of the reserve may be appropriated to fund capital or other one-time costs each year. The sum of the two General Fund reserve accounts, Budget Stabilization and Emergency, should equal 12% of General Fund requirements. A detailed list of General Fund Budget Stabilization Reserve Fund appropriations can be found at the end of this section.
- The **General Fund Property Tax Reserve Fund** was established to provide for the payment of refunded property taxes resulting from the outcome of District Court cases involving property tax valuation. Property owners who protest their valuations are required to pay property taxes for any given fiscal year based on the value determined by the Appraisal Review Board for the county in which the property is located. Property owners may then dispute this value in District Court. If the litigation is resolved in favor of the property owner, the property value is lowered and the City will have to refund the incremental property taxes associated with the reduction in value. Each year, financial staff calculate the projected total liability to which the City is exposed as a result of pending District Court cases related to the valuation of properties within the city. The Fund's purpose is to maintain a balance sufficient to offset this projected liability.

## Enterprise Funds and Enterprise Reserves

Enterprise funds account for the acquisition, operations, and maintenance of the City's facilities and services that are entirely or predominantly supported by user charges. They may also be funds for which the City has decided that the revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. All activities necessary to provide services are accounted for in these funds including, but not limited to, administration, operations, and maintenance. The two largest enterprise funds are the Austin Energy and Austin Water Funds. Enterprise funds are divided into two categories: Enterprise Operating and Enterprise Reserves.

### Enterprise Operating

- The **Austin Energy Fund** is the operating fund for the electric utility. The primary source of revenue is the sale of electricity to customers. Revenue supports operations and maintenance of the electrical distribution system.
- The **Austin Water Community Benefit Charge Fund** was created to account for community benefit volumetric surcharge revenue that is used to fund Austin Water's Customer Assistance Program. The Customer Assistance Program provides assistance, including discounted utility service rates, to qualifying low-income and disadvantaged residential customers in the Austin Water service territory.
- The **Airport Operating Fund** is the operating and maintenance fund for the Austin-Bergstrom International Airport. Revenue sources include airline fees and non-airline revenue such as parking and concession fees.
- The **Austin Code Fund** accounts for expenditures of the City's code compliance efforts, including property abatement, zoning, and dangerous housing and buildings code compliance. Revenue sources include the Clean Community Fee and license and registration fees.
- The **Austin Resource Recovery Fund** accounts for activities of the Austin Resource Recovery department, including garbage, recycling, and hazardous waste collection and zero waste initiatives.
- The **Austin Water Operating Funds** account for the operating requirements for the water, reclaimed water, and wastewater systems of Austin Water, which are supported primarily by water, reclaimed water, and wastewater sales.
- The **Convention Center Operating Fund** is one of the operating funds for the Austin Convention Center and accounts for convention center activities. Primary sources of funding are the hotel occupancy tax, contractor and facility revenue, and parking fees.
- The **Convention Center Tax Fund** is part of the operating budget for the Austin Convention Center Department. The primary source of revenue is the collection of 4.5 cents of the 9.0 cents of Hotel Occupancy Tax collected by the City of Austin.
- The **Convention Center Venue Project Fund** is part of the operating budget for the Austin Convention Center Department. The primary source of revenue is the collection of the 2.0 cents of the 9.0 cents of Hotel Occupancy Tax collected by the City of Austin.
- The **Drainage Utility Fund** accounts for drainage and watershed protection activities and is the operating fund for the Watershed Protection Department. Revenue is primarily comprised of the monthly Drainage Utility Fee.

- The **Development Services Fund** accounts for activities of the Development Services Department, which includes facilitating development review and inspection services. The primary sources of revenue are building safety and development fees.
- The **Golf Fund** accounts for golf activities as part of the Parks and Recreation Department. The City of Austin owns six golf courses that provide affordable golf for Austin's citizens and visitors through green fees, athletic sales, and cart fees.
- The **Golf Surcharge Fund** was established to account for the collection of surcharges for rounds of golf played at Jimmy Clay, Roy Kizer, Morris Williams, Lions, and Hancock golf courses. Proceeds are used for capital improvements and infrastructure repairs at all of the City's golf courses.
- The **Mobility Fund** accounts for transportation planning, right-of-way management, and traffic management activities and is one of two operating funds for the Austin Transportation Department. The main revenue sources for the Fund are the residential and commercial Transportation User Fees and Right-of-Way fees.
- The **Palmer Events Center Garage Fund** is part of the operating budget for the Austin Convention Center Department. Primary source of funding are parking fees.
- The **Palmer Events Center Operating Fund** is one of the Austin Convention Center's operating funds and account for public events activities. Primary source of funding is the Town Lake Park vehicle rental tax.
- The **Palmer Events Center Revenue Fund** is part of the operating budget for the Austin Convention Center Department. Primary sources of funding are Palmer Events Center facility revenue and contractor revenue generated from catering and concession services.
- The **Parking Management Fund** accounts for parking and transportation permitting activities and is one of two operating funds for the Austin Transportation Department. The Fund realizes all its revenue from pay stations, parking meters, and transportation permitting from taxicabs, chauffeurs, and limousines. Revenue realized by the Fund is reinvested back into the parking system and into various system improvements in the downtown area.
- The **Transportation Fund** accounts for the development, design, construction, and maintenance of the City's transportation infrastructure and is one of three operating funds for the Public Works Department. The Fund derives its revenue from the Transportation User Fee (TUF), utility excavation repair charges, and miscellaneous other revenue sources.

## Enterprise Reserves

- The **Airport Capital Fund** was established in September 1989 by an ordinance authorizing the issuance of \$30 million of Airport System Prior Lien Revenue Bonds for new airport development. As specified in the ordinance, the Airport Operating Fund is required to transfer the excess of available funds over total requirements, less a reserve for future operating expenses, to the Airport Capital Fund on an annual basis. These funds may be used only for lawful purposes related to the airport system, including expenditures associated with the Airport Capital Improvements Program (CIP).

- The **Austin Energy Capital Reserve Fund**, previously called the Repair and Replacement Fund, is used for providing extensions, additions, replacements, and improvements to the electric system. Per financial policy, the fund shall maintain a minimum cash equivalent of 50% of the previous fiscal year's electric utility depreciation expense. Revenue is generated through transfers from the Austin Energy Operating Fund and Contingency Reserve Fund.
- The **Austin Energy Contingency Reserve Fund**, previously called the Strategic Reserve Fund, is used for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the target funding level within two fiscal years.
- The **Austin Energy Power Supply Stabilization Reserve Fund** is used for mitigating power supply cost volatility which causes frequent variation in the Power Supply Adjustment. The fund shall maintain a cash equivalent of 90 days of net power supply costs, defined as costs eligible for inclusion in the Power Supply Adjustment. Funding comes from the utility's net revenues after meeting other obligations and consistent with the flow of funds schedule.
- The **Austin Water Revenue Stability Reserve Fund** was created for the purpose of offsetting current-year water service revenue shortfalls below budgeted revenue levels. The target funding level for the Water Reserve Fund is 120 days of the budgeted water operating requirements of Austin Water, which includes operations and maintenance and other operating transfers. In the event that any portion of the Water Reserve Fund is used, the balance will be replenished to the target levels within five years.
- The **Convention Center Capital Fund** was created to transfer the excess of available funds over total requirements, less a reserve for future operating expenses, from the operating funds of the Convention Center on an annual basis. Usage of funds are subject to the governing instruments applicable to each of the distinct funding streams, including the Texas Tax Code, bond covenants, and City Ordinances. Those distinct funding streams include Convention Center and Venue Hotel Occupancy Taxes and the Town Lake Venue Rental Tax.
- The **Convention Center Marketing and Promotion Fund** was created to fund expenditures related to the promotion of catering and concession products and services. An agreement exists between the City of Austin and an independent contractor to provide food and beverage catering and concession services for the Austin Convention Center Department. Two percent of the food and beverage contractor's revenue is budgeted in the Fund.
- The **Convention Center Repair and Replacement Fund** was created to fund the acquisition, maintenance and repair of catering and concession equipment and furnishings. Three percent of the food and beverage contractor's revenue is budgeted in this fund.

## Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department to other City departments and other agencies on a cost-reimbursement basis.

- The **Capital Projects Management Fund** accounts for the project delivery costs of project management, design engineering, construction inspection, and quality management for the City of Austin's Capital Improvement Program (CIP) and is one of three operating funds for the Public Works Department. It is funded through a combination of project charges and a cost allocation plan.
- The **Combined Transportation, Emergency, and Communication Center Fund** accounts for the operation of shared emergency communications and transportation management for the region and serves as one of three operating funds for the Communications and Technology Management department. Revenue is primarily derived from interlocal agreements and allocations to City departments of costs associated with the Emergency Operations Center, the use of Computer Aided Dispatch, and other Public Safety IT systems.
- The **Communications and Technology Management Fund** includes the City's information technology efforts and serves as one of three operating funds for the Communications and Technology Management department. Revenue is primarily derived from the General Fund and enterprise funds based on a cost allocation model related to delivery and operations of vital IT infrastructure network and telecommunications services.
- The **Communications and Technology Management Technology Acquisition Fund** was established in 2012 to accumulate cash reserves to purchase large information technology resources that expand or add to existing capacity, such as servers. The Fund accumulates revenue from departments, based on the costs of space or storage used by each department and a division of structural costs. This funding mechanism facilitates even cost distribution and reduces the amount of time required to procure and install server infrastructure.
- The **Employee Benefits Fund** was established to finance the City's benefits program, which includes a self-funded medical and dental program, a retiree medical and dental program, a supplemental life insurance program, and many other benefits to employees and retirees.
- The **Fleet Services Fund** includes vehicle and equipment services and serves as the operating fund for the Fleet Services Department. Revenue is primarily derived from a departmental allocation that is based on the fuel and fleet maintenance usage by each department.
- The **Liability Reserve Fund** was established in 1985 in response to nationwide problems associated with obtaining liability insurance. The Liability Reserve Fund pays the City's settled claims and losses related to third-party liability for bodily injury and property damage, including contractual and professional liability. Transfers from each fund are based on the three-year rolling average of the department's lawsuit claims history plus an amount based on the number of employees in each department. Austin Energy, Austin Water, and Aviation do not contribute to the fund, opting instead to cover claims independently.
- The **Support Services Fund** includes the operating activities of the various support services departments that provide assistance to the City of Austin and its citizens. These services include providing objective analysis of the adequacy of the City's management systems, maintaining the financial integrity of the entire City government, providing a liaison between the City and other governmental entities and legislative bodies, managing the City's human resources, and overseeing

the implementation of all programs and services. The Support Services Fund receives revenue from the General Fund and enterprise funds based on an annually updated cost allocation plan.

- The **Vehicle Acquisition Fund** was established to fund the acquisition of new and replacement vehicles and equipment for General Fund departments. All assigned vehicles and equipment acquired and maintained by the Fleet Services Department are targeted for replacement according to a useful life replacement guideline developed by the Fleet Services Department.
- The **Wireless Communication Services Fund** provides services to users of the Regional Radio System within Austin/Travis County, Williamson County and other jurisdictions and serves as one of three operating funds for the Communications and Technology Management department. Revenue is primarily derived from a departmental cost allocation model that is based on the radio network and wireless maintenance usage of each department.
- The **Workers' Compensation Fund** provides payments mandated by State law for City employees' medical expenses associated with job-related injuries and illnesses. The fund also compensates eligible individuals with indemnity payments as required by the State of Texas.

## Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

- The **Austin Cable Access Fund** is a special revenue fund used to support public, educational, and governmental (PEG) channel capital expenditures. The funding is provided by AT&T, Grande Communications, Spectrum (formerly known as Time Warner Cable), and Google Fiber as required by the Texas Cable Franchising Statute.
- The **Austin Water Wildland Conservation Fund** contributes to the management of the Balcones Canyonlands Preserve (BCP), which preserves over 13,000 acres of City-owned property. The BCP provides management and administration for a regional preserve system for endangered species and also allows these areas to act as a sponge and filter, absorbing rainfall; filtering it through plant communities, layers of soil, and roots; and releasing it into watershed areas. The Wildland Conservation Fund is funded by payments of permit fees which are collected when private property owners or non-signatory public entities elect to mitigate their projects through BCCP. The fees are based on a schedule established by the BCCP Coordinating Committee, City Council, Travis County Commissioners Court, and U.S. Fish and Wildlife Service.
- The **Barton Springs Conservation Fund** was established to promote conservation and research that benefit the federally endangered Barton Springs Salamander, Barton Springs, and the Barton Springs watershed. The funds may be used to study Eurycea salamander biology, captive breeding and refugium populations, watershed dynamics, and potential maintenance techniques for Barton Springs Pool. The funds may also be used for development of educational tools or land acquisition.
- The **Business Retention and Enhancement Fund** accounts for funds to retain and enhance downtown businesses. This fund was dissolved in FY 2016-17, and the remaining fund balance will be transferred into the Budget Stabilization Reserve Fund.
- The **Child Safety Fund** receives revenue from vehicle registrations and from traffic violations that occur in school zones. It is used to provide crossing guards and school zone safety improvements and

fund related safety education activities for school-aged children. It is one of three operating funds for the Public Works Department.

- The **City Hall Fund** accounts for the revenue and operating expenses related to Austin City Hall's underground parking garage, retail leases, and facility needs. In addition to offices for the Mayor, Council Members, and City staff, City Hall houses retail and restaurant spaces and a multilevel underground parking garage. Parking garage revenue collection began in 2006 and was expanded in 2007 to coincide with increased retail, residential, and office development in the area.
- The **Community Development Incentives Fund** was established by the City Council during adoption proceedings for the FY 2015-16 Budget. The Fund provides short-term funding to certain new initiatives that the City Council identifies as promising. Providing this short-term funding allows the effectiveness of these initiatives to be evaluated under real-world operational conditions and facilitates the City Council's ability to make more informed decisions about whether the initiatives should be granted recurring funding in the future.
- The **Cultural Arts Fund** receives 1.05% of tax receipts from the Hotel Occupancy Tax Fund, which are used to fund cultural contracts through a predetermined peer panel process, review and recommendation by the Arts Commission, and allocation approval by City Council. The Texas Tax Code allows Hotel Occupancy Tax revenue to be used to encourage, promote, and improve the arts, including expenditures for administrative costs incurred directly in the promotion and servicing of the arts.
- The **Downtown Public Improvement District Fund** was established on April 15, 1993 for the purpose of operating the Austin Downtown Public Improvement District (PID), funded by an additional tax assessment for properties in the District. The PID is a means for the Downtown Austin community to provide adequate and constant funds for quality of life improvements and planning and marketing of Downtown Austin.
- The **East 6th Street Public Improvement District Fund** was established on August 26, 2004 for the purpose of operating the East 6th Street Public Improvement District (PID). The East 6th Street PID was created by the Austin City Council at the request of property owners within the District to provide additional services that supplement existing services provided by the City of Austin. Properties in the District are assessed an additional property tax assessment, up to a maximum value of \$500,000, to pay for the District's programs.
- The **Economic Development Fund** provides funding for the Economic Development Department so that it can leverage Austin's cultural, economic, and business assets to create economic prosperity for all citizens while preserving our culture and environment. The primary revenue sources are transfers from the General Fund, Austin Energy, Austin Water and Austin Resource Recovery.
- The **Economic Incentives Reserve Fund** provides incentive grants and other economic incentive agreements established on the grounds that they provide higher levels of employment, economic activity, and stability. Funding comes from a transfer from the General Fund. The City is currently servicing agreements with Samsung, the Domain, Apple, HID Global, Hanger, Advisory Board Company Software Center, VISA, and Troublemaker Studios.
- The **Estancia Hill Country Public Improvement District Fund** provides a financing mechanism, through the issuance and sale of special assessment revenue bonds, for basic infrastructure to support the Estancia Hill Country Public Improvement District (PID). The Estancia Hill Country PID is a nearly 600-acre development project located in southern Travis County west of IH 35 South, about eight-tenths of a mile south of the intersection of IH-35 South and Onion Creek Parkway.

- The **Historic Preservation Fund** was established to promote tourism through preservation, restoration, and rehabilitation of historic properties. The Historic Preservation Fund receives 1.05 cents on each dollar from the Hotel Occupancy Tax Fund, which is used to promote arts, culture, and heritage-based tourism and events.
- The **Homestead Preservation Tax Increment Financing (TIF) Fund** was established in December 2015 to account for property tax revenue that is collected in the City of Austin Homestead Preservation Reinvestment Zone No. 1, generally located north of the Colorado River, east of Interstate 35, west of Airport Boulevard and Springdale Road, and south of 38 ½ Street. The purpose of the fund is to promote the ability of the City to increase home ownership, provide affordable housing, prevent the involuntary loss of homesteads by existing low-income and moderate-income homeowners living in disadvantaged neighborhoods, and provide the City with a means to expand and protect the homestead interests of low-income and moderate-income families living within the Reinvestment Zone.
- The **Hotel Occupancy Tax Fund** accounts for the receipt and distribution of hotel/motel occupancy tax revenue. The City receives nine cents on each dollar of qualified room occupancy rents. Per City Code, the tax is distributed as follows: 4.50 cents to the Convention Center Tax Fund, 2.00 cents to the Convention Center Venue Project, 1.05 cents to the Cultural Arts Funds, 1.05 cents to the Historic Preservation Fund, and 0.40 cents to the Tourism and Promotion Fund.
- The **Housing Trust Fund** is dedicated to preserving and creating reasonably priced housing in the city of Austin by leveraging federal funds to plan and develop affordable housing projects. The Fund is managed by the Austin Housing Finance Corporation (AHFC), a part of the Neighborhood Housing and Community Development Department. Revenue is generated through a transfer from the City's General Fund.
- The **HUD Section 108 Family Business Loan Program Fund** creates jobs and revitalizes communities by providing low-interest loans to qualified Austin small business owners that are ready to expand and create jobs for low- and moderate-income citizens. FBLP is a public-private partnership between the City and private banks and community lenders. Each partner finances a portion of an expansion project, with the City's portion provided by a U.S. Department of Housing and Urban Development (HUD) Section 108 loan guarantee. FBLP borrowers are required to create at least one full-time job for every \$35,000 in loan funds borrowed, and at least 51% of jobs created must be offered to low/moderate income Austin residents.
- The **I-35 Parking Program Fund** accounts for revenue, operations, and maintenance requirements for two parking lots located under the I-35 overpass between East 6th and 8th Streets. The City collects parking fees from these lots on certain evenings and during special events. Under the terms of its agreement with the state, the City must spend any and all revenue collected from these lots specifically on operating and maintaining these lots.
- The **Indian Hills Public Improvement District Fund** provides a financing mechanism, through the issuance and sale of special assessment revenue bonds, for basic infrastructure to support the Indian Hills Public Improvement District (PID). The Indian Hills PID is a mixed-use planned community of about 240 acres located west of SH 130 and south of US-290 East in east central Travis County.
- The **Long Center Capital Improvements Fund** was established to preserve and protect the City's long-term investment in the Long Center facility. Recognizing that short-term maintenance and long-term repairs, replacements, and improvements to the Long Center facility are essential to its present and future condition, the City Council approved an amendment to the Restated Lease Agreement with

Greater Austin Performing Arts Center on February 27, 2014, that provides an additional \$300,000 annually through a transfer from the General Fund for capital improvements.

- The **Mueller Tax Incrementing Financing Fund** was established to account for property tax revenue that is collected in the Mueller Tax Increment Financing (TIF) Reinvestment Zone No. 16, which was created by the City Council in December 2004. This revenue is transferred to the Mueller Local Government Corporation to be used for debt service and associated costs for bonds issued to finance the redevelopment of the former site of Robert Mueller Municipal Airport. The redevelopment project includes single- and multi-family housing as well as commercial, retail, and medical buildings. The TIF is set to end on December 31, 2045, or whenever all debt is retired.
- The **Municipal Court Building Security Fund** provides funding for courthouse security personnel, security enhancements, and training. Revenue is derived from a \$3.00 security fee that is paid by a defendant convicted of an offense or receiving deferred disposition. Collected revenue is directly related to the number of convictions and deferred dispositions that result with compliance in Class 'C' misdemeanor cases filed. The Fund is supplemented by the General Fund as needed to provide adequate security.
- The **Municipal Court Juvenile Case Manager Fund** was established to provide for the administration of juvenile dockets and to assist with the provision of alternative sentencing for youth. The case manager program is designed to hold youth offenders accountable for their actions and enhance public safety. Revenue is derived from a \$4 fee that is paid by defendants convicted of fine-only misdemeanors.
- The **Municipal Court Technology Fund** was created to finance the purchase and maintenance of technological enhancements for municipal courts. Revenue is derived from a \$4 technology fee that is paid by a defendant convicted of a misdemeanor offense or receiving deferred disposition. Revenue collected is directly related to the number of convictions and deferrals resulting from Class 'C' misdemeanor charges.
- The **Municipal Court Traffic Safety Fund** was created along with the Civil Red Light Administration Program, which operates 10 cameras at key intersections across the city. The City's portion of the revenue from the \$75 penalty for each violation, as well as a \$25 late fee for violations not paid within 30 days, may be used to fund traffic safety programs. State law requires half of the net revenue generated by a Red Light Camera Program be sent to the state.
- The **Music Venue Assistance Program Fund** provides low-interest loans to qualifying music venues to assist with implementing sound mitigation technologies and reduce the number of sound-related complaints. The goal of the program is to use sound mitigation technologies to reduce sound levels that impact nearby residents, significantly improving the acoustics inside music venues and reducing the number of sound-related complaints. Per Council resolution, the General Fund will transfer \$100,000 annually into the fund until a funding level of \$750,000 has been reached. The final transfer of \$50,000 is scheduled to occur in Fiscal Year 2019-20.
- The **Neighborhood Housing University Neighborhood Overlay Fund** is managed by the Austin Housing Finance Corporation (AHFC), a part of NHCD. The UNO District was established by Council on September 2, 2004 to increase the amount of rental housing available to households at or below 50% of the median family income in the area generally west of the University of Texas campus. Revenue is generated from a fee-in-lieu from developers who choose not to participate in the UNO district density bonus program.

- The **One Texas Center Fund** accounts for revenue, operating expenses, and debt service requirements for One Texas Center, a City-owned office tower located on Barton Springs Road. This fund receives rental income from the building's tenants and collects a small amount of parking fees.
- The **Parks and Recreation Parking Fund** accounts for revenue collected through parking meters at Parks and Recreation sites that charge parking fees. This fund reimburses the Transportation Department for expenses associated with maintaining and servicing the parking meters. It also funds the purchase of new parking meters and capital improvements to the parking areas.
- The **Parks and Recreation Special Events Fund** accounts for revenue generated by and expenditures pertaining to specific special events that utilize Austin's parkland. The Fund accounts for the collection of revenue received by the Parks and Recreation Department (PARC) for these events through the number of tickets sold and supplements departmental special events expenses. Although event sites require year-round maintenance to provide park patrons everyday utilization and ensure the sustainability of the aesthetic of park grounds, any revenue received is used for expenditures related to maintenance and equipment needed to sustain park grounds at acceptable standards for special events. Parks and Recreation Department special event revenue will be accounted for in PARC's General Fund budget as of FY 2018-19.
- The **Pay for Success Reserve Fund** was established by the City Council during adoption proceedings for the FY 2017-18 Budget to provide a reserve that supports services and program costs for a Pay for Success initiative. Pay for Success is a financing model that pays for positive social impact, which is measured through agreed-upon metrics between the entity paying for the achievement of the outcome and the organizations responsible for implementing a given intervention. Through this model, the City plans to provide additional supportive housing that can create positive outcomes for a particular target population, such as persons who are experiencing homelessness and are consistent utilizers of crisis systems of care.
- The **Police Asset Forfeiture Funds** account for the collection of contraband awarded to the agency by the courts. Funds may only be used to increase law enforcement resources. Both state and federal laws dictate that once awarded, forfeited funds may be used to increase the local budget and not to supplant existing law enforcement resources; nor may the existence of an award be used to offset or decrease total salaries, expenses, or allowances that are appropriated to an agency.
- The **Rutherford Lane Facility Fund** accounts for revenue, operating expenses, and debt service requirements for the Rutherford Lane Facility, a City-owned site including four buildings on 33 acres of land located on Rutherford Lane. This site, purchased in January 2006, reduces the need to lease space for ongoing City operations. Rent received from City departments housed at the facility covers the operating and debt service costs.
- The **Seaholm Tax Increment Financing Fund** was established to account for property and sales tax revenue that is collected in Seaholm Tax Increment Financing (TIF) Reinvestment Zone No. 18, which was created by the City Council in December 2008. This tax revenue is transferred to the Seaholm TIF for debt service and associated costs for bonds issued to finance public improvements associated with redevelopment of the former Seaholm Power Plant. The TIF Project Plan includes repurposing the historic generator building and construction of a public plaza and adding bike, pedestrian, street, and utility infrastructure. The TIF is scheduled to end September 30, 2043 or when all project costs including debt repayments have been paid.
- The **Second Street Tax Increment Financing Fund** was established in October 2000 to account for a portion of property tax revenue that is collected in a contiguous geographic area that includes Blocks 2, 3, 4, and 21 of the Original City Subdivision and which is generally bounded by San Antonio

Street, West Cesar Chavez Street, Colorado Street, and West Third Street. The purpose of the fund is to maintain the plazas, streetscapes, and other public improvements constructed and installed by the City within the Reinvestment Zone. Under the terms of TIF Reinvestment Zone No. 15, the General Fund contributes \$100,000 annually to the Fund.

- The **South Congress Public Improvement District Fund** was established for the purpose of operating the South Congress Public Improvement District (PID). In 2014, property owners on South Congress Avenue petitioned the City Council to establish the South Congress PID and incorporated as a nonprofit 501(c)(6) organization as the South Congress Improvement Association (SCIA) to contract with the City to manage the PID. The SCIA is funded by the South Congress PID, where properties within the District are assessed additional property tax.
- The **Tourism and Promotion Fund** receives 0.40 cents of the 9.0 cent Hotel Occupancy Tax, per City Code, to promote conventions and tourism for Austin through a contract with the Austin Convention and Visitors Bureau. Hotel Occupancy Tax is governed by state statutes, bond covenants, and local ordinances and must be utilized accordingly.
- The **Town Lake Park Vehicle Rental Tax Fund** accounts for the levy of a short-term motor vehicle rental tax.
- The **Waller Creek Reserve Fund** was established to provide reserve funding for the Waller Creek Tunnel project, the purpose of which is to provide flood mitigation for the lower Waller Creek watershed. Funding comes from property tax via the Waller Creek Tunnel Tax Increment Financing Fund, Build America Bond interest subsidy, and a payment from Austin Convention Enterprise, Inc. for revenue earned by the Hilton Austin Convention Center Hotel. Expenditures include principal and interest payments, bond issuance costs, and tunnel operations and maintenance during the term of the TIF.
- The **Waller Creek Tax Increment Financing Fund** was established to account for property tax revenue that is collected in the Waller Creek Tax Increment Financing (TIF) Reinvestment Zone No. 17, which was created by the Austin City Council in June 2007. The City and County tax increments, 100% and 50%, respectively, provided funds to pay the costs of the project over 20 years. The funds are transferred into the Waller Creek Reserve fund for principal and interest payments and associated costs for bonds issued to develop the Waller Creek Tunnel, as well as for tunnel operations and maintenance during the term of the TIF. In May 2018, City Council approved amendments to the TIF's project and financing plan to include surface-level improvements known as Waller Creek and the Chain of Parks, increase the duration of the TIF to end in September 2041, and provide updated cost estimates for new projects and revenue growth.
- The **Whisper Valley Public Improvement District Fund** provides a financing mechanism, through the issuance and sale of special assessment revenue bonds, for basic infrastructure to support the Whisper Valley Public Improvement District (PID). The Whisper Valley PID is a mixed-use planned community of about 2,065 acres located east of SH 130, at FM 973, and south of US-290 East in east central Travis County.

## Debt Retirement

Debt retirement funds are used to account for the accumulation of resources for, and the payment of, general long-term debt.

- The **Airport Bond Interest Holding Fund** holds a portion of revenue bond proceeds, called capitalized interest, to offset a portion of upcoming debt service payments on capital projects until those projects are completed and revenue-generating. The fund receives proceeds from the Airport System Revenue Bond sale and will make monthly transfers to the Airport Revenue Bond Redemption Fund until the funds are exhausted.
- The **Airport Revenue Bond Redemption Fund** pays the principal and interest payments on debt issued for the City's Airport System. The ordinance authorizing the bonds requires that revenue of the Airport System, after operation and maintenance expenses, be pledged to repay the debt before revenue is used for any other purpose. The Fund receives transfers from the Airport Fund, the Passenger Facility Charge Fund, and the Airport Bond Interest Holding Fund.
- The **Airport Variable Rate Bond Debt Service Fund** pays the principal and interest payments on variable rate debt issued for the City's Airport System. The Fund receives transfers from the Airport Fund and the Passenger Facility Charge Fund.
- The **Austin Energy Utility Revenue Bond – ECC Proceeds Reserve Fund** was created per City Council Resolution 20080214-054 to provide funding to help pay the principal and interest used to finance the purchase and remodel of the current Austin Energy System Control Center, necessitated by the selling of the Austin Energy Control Center in the amount of \$14,400,000. This sale was a component of the Seaholm District redevelopment project.
- The **Combined Utility Revenue Bond Redemption Fund** is used to make the principal and interest payments for debt issued for the City's electric, water, and wastewater utilities. The ordinance authorizing these bonds requires that net revenue, after meeting operations and maintenance requirements, be pledged to repay the debt before it is used for any other purpose. The utilities transfer the funds needed to make annual debt service payments to the Combined Utility Revenue Bond Redemption Fund.
- The **Convention Center Hotel Occupancy Tax Revenue Bond Redemption Fund** pays the principal and interest payments on bonds issued for the City's Convention Center. The Hotel Occupancy Tax Revenue Bonds are special obligations of the City and are payable and secured by the Pledged Hotel Occupancy Tax Revenue. The Fund receives transfers from the Convention Center Tax Fund and the Venue Tax Fund.
- The **Convention Center Town Lake Park Venue Project Bond Redemption Fund** pays the principal and interest payments on bonds issued for the construction and development of the Town Lake Park Community Events Center Project, which includes parkland development and the construction of facilities. The Town Lake Park Venue Project Bonds are a special obligation of the City and are payable and secured by a five percent (5%) tax on short-term motor vehicle rentals. The Fund receives a transfer from the Town Lake Park Venue Project Fund.
- The **General Obligation Debt Service Fund** pays the principal and interest associated with General Obligation (GO) Bonds that the City sells to finance capital improvements projects. The full faith and credit of the City is pledged to secure GO debt. The main source of revenue for the GO Debt Service Fund is property taxes paid by property owners. The amount of debt issued by the City, the City's

assessed property valuation, interest rates, and the tax collection rate determine the tax rate necessary to raise the required amount of revenue.

- The **HUD Section 108 Loan Debt Service Fund** pays the principal and interest payments on debt related to the East 11th and 12th Street Redevelopment Program, the Neighborhood Commercial Management Program, and the Family Business Loan Program. The sources of revenue to the HUD Section 108 Loan Debt Service Fund are Community Development Block Grant (CDBG) funding and loan repayments from the Section 108 Family Business Loan Program.
- The **Seaholm Parking Garage Revenue Fund** was established to account for the City's share of the parking revenue related to the Seaholm parking garage, part of the Seaholm Projects. This revenue pays for debt service and associated costs for bonds issued to finance public improvements associated with the garage. The Seaholm Projects include the repurposed historic generator building and property into a multi-use space, including a mix of office space, condos, retail shops and restaurants, green space, and the parking garage.

## Capital Projects Funds

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds and trust funds. Below are the groups of funds that include additional budget for the upcoming fiscal year related to the capital improvement program:

- 2016** Funds authorized November 8, 2016, for local, corridor, and regional transportation and mobility improvements.
- Other** Funds established for various purposes that use funding sources other than authorized bonds

# GRANTS

## Overview

The City of Austin's operating budget, staffing and services provided to the community are significantly supplemented each year by funds granted to the City by the federal, state and county governments, other

local entities and private organizations. In FY 2018-19, the City expects to be awarded \$65.5 million in grants. These funds support 288 full time equivalent positions (FTEs) and provide an array of services, such as health services including tuberculosis outreach and control; special nutritional services for women, infants, and children; refugee health services; and public safety services, including juvenile justice, delinquency prevention, and services to assist victims of violent crimes. Grants also provide additional resources to the City for alternative energy programs, community development activities that benefit low- and moderate-income families, programs to assist the airport with legally mandated passenger screenings, and cultural

contracts. Because of the broad and substantial impact on the City that grant funds have, departments will continue to be actively engaged in identifying new grant opportunities in FY 2018-19 and dedicate the resources necessary to manage existing grants.

## New Grants

In FY 2018-19, the City expects to receive \$10.8 million in funding from the following new grants:

### Austin Energy

- Alternative Fueling Facilities Program - Texas Commission on Environmental Quality (TCEQ): The objective of this grant is to ensure alternative fuel vehicles have access to fuel and to build the foundation for a self-sustaining alternative fuel market across the region served by Austin Energy. These funds will also support infrastructure technology designed to increase fuel diversification as well as promote the adoption of clean transportation technologies through community-based partnerships.

### Austin Public Health

- Racial and Ethnic Approaches to Community Health (REACH): The purpose of this grant is to reduce tobacco use, improve safe opportunities for physical activity, and improve clinical-community linkages among African Americans/Blacks and Hispanic Americans in Austin and Travis County. This project addresses the City of Austin Strategic Direction outcomes of Health and Environment and Mobility. The project will focus on the Eastern Crescent of Austin and Travis County. Deliverables will include evidence-based tobacco prevention and control strategies such as tobacco-free worksite policies, smoke-free multi-unit housing policies, and media interventions. This grant will also lead to the completion of four Complete Communities Plans through the Planning and Zoning Department to improve connectivity and opportunities for physical activity over the five-year project period. The project will implement community-clinic linkage programs and a comprehensive referral service to reduce the gaps between health resources available to and resources utilized by community members.

### **Economic Development**

- **ATX+EGY: Launch - U.S. Embassy in Egypt Entrepreneurship:** This grant is similar to the award granted by the U.S. Embassy in Islamabad, Pakistan granted last year. The ATX+EGY: Launch program will implement several programming initiatives between Austin and Egypt. Entrepreneurs will travel to Austin for the ATX+EGY: Launch sessions and participants will receive one-on-one coaching as well as group training and development from leading entrepreneurship experts and mentor investors tailored to their specific business needs.

### **Fleet**

- **Clean Transportation Triangle Grant:** The Clean Transportation Triangle Grant, awarded by the Texas Commission on Environmental Quality, will be used for the installation of a biodiesel fuel tank at the new Onion Creek Fire/EMS facility.

### **Management Services**

- **Bloomberg Mayor's Challenge:** In August 2018, the Innovation Office submitted evidence from the first phase of the Bloomberg Mayor's Challenge to test the use of blockchain technology for people experiencing homelessness. Bloomberg will award four grants of \$1 million and one grant of \$5 million to the five cities with the best proposals. If awarded, these grant funds will be used to implement the blockchain concept to address homelessness across the City.
- **Policies for Action – Policy and Law Research to Build a Culture of Health:** Policies for Action was created to help build the evidence base for policies that can help build a “Culture of Health.” This grant will aid the City in learning how national, state, and local policies can promote lifelong health and health equity for individuals, families, and communities, as well as what enabling factors promote the adoption and spread of good policies.

### **Parks and Recreation**

- **Outdoor Recreation Legacy Partnership Program:** This grant will fund the development and renovation of 9.3 acres of recently dedicated parkland at Edward Rendon Sr. Metro Park in the Holly neighborhood. Improvements will be guided by the recommendations of the Holly Shores/Edward Rendon Sr. Park at Festival Beach Master Plan, which was approved by City Council in 2014.

### **Police**

- **Comprehensive Opioid Abuse Site-Based Program:** This grant, awarded by the U.S. Department of Justice's Bureau of Justice Assistance, will be used to support multi-disciplinary opioid response partnerships.
- **COPS Community Policing Development:** This grant, awarded by the U.S. Department of Justice's Bureau of Justice Assistance, will be used to assist the capacity of law enforcement to implement community policing strategies.
- **Critical Incident Stress Debriefing Program:** This grant, awarded by Texas' Office of the Governor, will provide services and critical indecent stress debriefing to peace officers who experience critical incidents while performing official duties.
- **First Responder Mental Health Resiliency Program:** This grant, awarded by Texas' Office of the Governor, will provide services and assistance directly to peace officers and first responders to address direct and indirect trauma that occurs in the course of their normal duties.
- **Violence Against Women Investigative Project (VAWA):** This grant will help improve the local criminal justice response to violent crimes against women and to assist violent crime victims, survivors, and their families recover more quickly and completely from the effects of victimization. This grant will allow Austin Police Department to conduct targeted investigations, complete sexual assault case data entry, and provide training opportunities for sworn investigators.

## Homeland Security and Emergency Management Grants

Homeland security and emergency management grants need this notice due to Federal and the State of Texas Office of the Governor's requirements:

The Director of Homeland Security and Emergency Management, the City Manager, the Mayor, or his designee, is hereby authorized to execute any and all necessary documents to effectuate homeland security and emergency management grant awards, to include accepting, rejecting, altering, or terminating the grant on behalf of the City of Austin.

Whereas, the Austin City Council finds it in the best interest of the citizens of Austin that the following projects be funded for the 2018-2019 Fiscal Year; and

Whereas, the Austin City Council agrees to provide applicable matching funds for the following projects as required, with the understanding that the following projects require \$0 in matching funds for 2018-2019; and

Whereas, the Austin City Council agrees that in the event of loss or misuse of the Office of the Governor funds, the lost or misused funds will be returned to the Office of the Governor in full.

Now therefore, be it resolved that the Austin City Council approves submission of the grant application for the following projects to the Office of the Governor, Homeland Security Grants Division (HSGD):

Homeland Security Projects	Grant Number
APD SWAT Night Vision Goggles	3571301
APD Bomb Electronic Define and Defeat EDD kit	3574201
APD SWAT Bounce Imaging Equipment	3573401
APD Bomb Underwater Diving Interoperable Communications Equipment	3574501
APD Bomb Nano X-Ray	3573101
APD Bomb XR150 X-Ray Source	3573701
AFD CBRNE Monitor Maintenance	3575401
AFD AreaRae Replacement	3575001
AFD Polymerase Chain Reaction PCR System	3576801
AFD Level A Suit Replacement	3576501
ARIC/Regional Fusion Center	2955804
CAPCOG - WebEOC	3550201
APD - Air - WesCam Thermal Imager	3577701
HSEM - Resilience Exercise	3577901
Austin Urban Area Planning and Coordination	2956604

## Grants Summary and Detail Page

The following pages summarize each grant award by department for the FY 2018-19 Budget. The "2018-19 Approved Authorization" column consists of existing multi-year grants and new grants departments have a high expectation of receiving for the FY 2018-19 Budget. The list includes the grant name, the total amount approved to be authorized and the number of positions associated with each grant.

# UNBUDGETED SPECIAL REVENUE FUNDS

## Overview

According to Statement No. 54 of the Governmental Accounting Standards Board, “Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.” City financial policies allow for unbudgeted funds whose revenue source is primarily donations or contributions from the public. The City has identified 26 funds that qualify as unbudgeted special revenue funds and the intention of this section of the Budget is to highlight these Funds and specify how they are used throughout the City.

Major special revenue funds are covered in the “Other Funds” and “Financial Summaries” sections of this document. Unbudgeted funds are covered in the “Financial Policies” section and are assigned to departments to ensure that accounts in the fund are used in accordance with the fund’s stated purpose. The source of revenue for the majority of these funds are donations or contributions from the public and these funds are limited to very specific uses.

The City had \$9.9 million in unbudgeted special revenue funds available at the beginning of FY 2017-18. Throughout this year, City

departments expect to collect a total of \$6.0 million and expect to spend \$5.2 million on fund-specific items and initiatives. The City therefore expects to have a total ending balance across all unbudgeted special revenue funds of \$10.7 million, which will be available for use in FY 2018-19. The following sections include details about the various unbudgeted special revenue funds throughout the City. Some of these funds were determined to be significant enough to be included on their own, while the rest are summarized at the department level.

## Stand-alone Funds

- **Volunteer Utility Assistance Fund** – The Austin Energy Volunteer Utility Assistance Fund receives a transfer from the Austin Energy Fund as well as tax-deductible donations made by City of Austin utility customers to the Customer Assistance Program. Each month, some customers need help paying their utility bills. The Customer Assistance Program is designed to assist those City of Austin utility customers who are unable to pay their utility bills due to unexpected emergencies. The City of Austin has partnered with local churches and non-profits to help identify assistance recipients.
- **Urban Forest Replenishment Fund (UFRF)** – The UFRF was established in 2003 to assist with satisfying specific mitigation requirements in instances where tree removal has been approved, but on-site mitigation requirements have not been met. Revenue is generated from fees developers pay for these mitigation services. Expenditures from the fund are limited to off-site tree planting, tree maintenance,

promotion of tree care and preservation, urban forest conservation, and enforcement of the City of Austin's tree protection and mitigation regulations.

- **Mueller Development Fund** – The Mueller Development Fund is a special revenue fund established to account for the Project Administrative Fee payable to the City in accordance with the Mueller Master Development Agreement with Catellus Corporation. This fee will be used by the City to cover the costs of overseeing the project. In addition, the agreement provides that other costs, such as legal costs, may be reimbursed by Catellus.
- **Auto Theft Interdiction Seizure Fund** – The Auto Theft Interdiction Seizure Fund (also known as Auto Theft Program Income Fund) collects program income generated as a result of utilizing Automobile Burglary and Theft Prevention Authority (ABTPA) grant-funded equipment or personnel. ABTPA is an annual grant funded through the Texas Department of Motor Vehicles. Program income refers to money generated through the program by utilizing ABTPA- funded equipment or personnel. Some examples of this revenue include proceeds from forfeited assets that are sold, interest income on funds in the account, and proceeds from the sale of grant-funded equipment. This revenue can only be used for specific ABTPA program initiatives related to the source of the revenue and must be reported on quarterly financial expenditure reports.
- **ARIC Sustainability Fund** – The Austin Regional Intelligence Center (ARIC) is an all-crimes information analysis center that uses a collaborative approach to identify, prevent, disrupt, and respond to criminal threats to the safety and security of the Austin-Round Rock metropolitan area. The funding is provided by participating local area law enforcement partnering agencies. The funds are used for hardware and software maintenance and also for various services and memberships to access data that will help the center detect suspicious and/or terroristic activity.

## Other Funds (summarized at department level)

- **Animal Services Miscellaneous Special Funds** – Includes the Animal Services Fund, which is used to assist current Animal Services programs in fulfilling their missions. It provides animal enrichment items such as training equipment, medical treatments, emergency response, and fencing assistance and pet supplies for low-income pet owners.
- **Austin Energy Miscellaneous Special Revenue Funds** – Includes the Science Fest Fund, which is used by Austin Energy and the Austin Science Education Foundation to fund the Austin Energy Regional Science Fest. The primary sources of revenue for this fund are generated through sponsorship awards as well as staff and facility support.
- **Austin Public Library Miscellaneous Special Revenue Funds** – Includes the Special Library, Austin History Center, and Friends of APL Funds. These funds are used for materials and equipment for children's programming, supporting the Austin History Center, and for dispersing the revenue generated from the Recycled Reads bookstore for various Library needs. The primary sources of revenue for these funds are generated through donations, estate gifts, and sales from the Recycled Reads bookstore.
- **Development Services Miscellaneous Special Revenue Funds** – Includes the Planting for the Future Fund, which was founded by the Austin City Council in 1991 and is used to fund tree planting, materials, and education. Contributions to the Planting for the Future Fund include voluntary utility bill contributions, public tree mitigation fees, and donations.

- Fire Miscellaneous Special Revenue Funds – Includes the Fire Miscellaneous Fund, which is primarily used for public education purposes. Some of these initiatives include providing smoke alarms and pet air masks, fire safety education, and building wildlife habitats at the Fire Department Headquarters. The primary source of revenue for this fund is donations from the public.
- Economic Development – Includes the City Hall Retail Tenant Improvement Fund which is used to account for revenue and operating expenses related to City Hall’s retail leases and underground parking garage. The source of revenue for this fund was a one-time grant received from a developer in 2006 as well as interest revenue.
- Parks and Recreation Miscellaneous Special Revenue Funds – Includes the Townlake Fund, Tennis Leagues Fund, Adaptive Programs Fund, Senior Nutrition Fund, Republic Square Fund, Austin Creeks and Trails Fund, Teen Activity Fund, Rifle Class Fund, Summer Musical Fund, and PARD Miscellaneous Fund. The primary source of revenue for these funds is donations.

## Unbudgeted Special Revenue Funds Summary Page

The following pages summarize each unbudgeted revenue fund by department. The “FY 2017-18 Beginning Balance” references the available cash in the fund as of the beginning of FY 2017-18. The “FY 2017-18 Estimated Collections” references the amount the fund expects to collect through donations, gifts, and other sources over FY 2017-18. The “FY 2017-18 Estimated Expenditures” references the amount that is expected to be spent from the fund over the fiscal year. The “FY 2017-18 Estimated Ending Balance” references the expected balance of the fund at the end of FY 2017-18 after all collections and expenditures. This amount also represents the estimated beginning balance for these funds for FY 2018-19.

# FINANCIAL POLICIES

## Overview

The Government Finance Officers Association considers the adoption of financial policies to be a best practice in that they “are central to a strategic, long-term approach to financial management.” Specifically, well written policies can institutionalize good financial management practices, help the organization avoid unnecessary risk, support favorable bond ratings which in turn reduce the cost of borrowing, and clearly communicate the policy framework within which staff is working.

In June 1989, the City Council developed its first set of financial policies, ensuring that the City's financial resources would be managed in a prudent manner. Today, the City has over 100 policies and regularly maintains a compliance rate of 95% or greater. These policies are reviewed annually for compliance. Currently, the City of Austin is in compliance with 104 of the 106 financial policies.

The City is not currently in compliance with:

- The Airport shall maintain a ratio of current assets plus operating reserve to current liabilities of at least 1.5 times. Source of information shall be the Comprehensive Annual Financial Report.

*Note: The ratio of current assets (including operating reserve) to current liabilities decreased to less than the goal of 1.5 because of the significant increase in construction project payments which became current liabilities when billed. However, these payments are made from bond funds rather than current assets (cash). The Airport will be researching the accounting requirements and procedures to determine if a change the accounting process or the financial policy is needed to accommodate continually increasing construction project activity at the airport.*

- Austin Resource Recovery shall establish and fund a reserve to provide for the closure and monitoring of the City's landfills in compliance with federal regulations.

*Note: In lieu of a separate reserve fund, ARR uses capital and operating budgets for the closure and monitoring of the City's landfills.*

The City is currently in compliance with its financial policy regarding the timing of general obligation bond elections which states they shall be held once there are only two years of authorized unissued bonds remaining to be sold. If Council approves a bond election to be held in November 2018, the City will then be out of compliance with this financial policy.

# FINANCIAL POLICIES

## General Topics

### Accounting, Auditing, Budget Basis, and Financial Planning

1. Governmental funds, which include the General Fund, are budgeted on a modified accrual basis. Revenue is recognized as soon as it is measurable and available. Revenue is considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. Encumbrances are recognized by governmental funds in the year of commitment since they represent a commitment of funding for goods or services.

Proprietary funds, which include enterprise, internal service, and fiduciary funds, are budgeted on a full accrual basis, with the exception of compensated absences, debt service payments, and other accounting related transactions, such as depreciation, unbilled revenue, and accounting for regulated operations. For these items, the City budgets for the payments that are expected to be paid during the fiscal year and for the revenues once billed. Encumbrances are recognized by enterprise and internal service funds in the year of commitment since they represent a commitment of funding for goods or services.

Except for the differences noted above in debt service payments and compensated absences, the bases of accounting and budgeting in the City of Austin are the same: modified accrual for governmental funds and full accrual for proprietary funds. However, the fund structure of the budget differs from the Comprehensive Annual Financial Report (CAFR) of the City. As an example, the Austin Energy fund in the budget reflects only the operating activities of the electric utility, while the Austin Energy fund in the CAFR reflects the operating activities, capital project activities, debt service activities and reserve account activities. Therefore, these amounts are not comparable between the two documents.

2. The City will establish accounting practices that conform to generally accepted accounting principles as set forth by the authoritative standard-setting body for units of local government.
3. An annual audit will be performed by an independent certified public accounting firm and an official CAFR shall be issued no later than six months following fiscal year-end.
4. The independent certified public accounting firm shall present to the Audit and Finance Committee of the City Council the results of the annual audit no later than 60 days from the issuance of the City's CAFR.
5. A five-year financial forecast shall be prepared annually projecting revenues and expenditures for all major operating funds. This forecast shall be used as a planning tool in developing the following year's operating budget.

# FINANCIAL POLICIES

6. The Office of the City Auditor shall be responsible for conducting financial and performance audits as set forth in the annual work plan. This work plan will be submitted to the Audit and Finance Committee for approval. The City Manager shall be responsible for establishing a process to ensure timely resolution of audit recommendations.
7. The City shall provide its share of contributions to the City's three retirement systems in accordance with the State statutes establishing each system.
8. At the direction of the City Council and City Manager, City operations will be performed at the most economical cost while maintaining desired service levels. As one alternative to meet this goal, the City will initiate a competitive process that will allow for periodic analysis of proposals from City departments and from the private sector for purposes of evaluating the cost of performing selected municipal services. All such proposals will be evaluated through an orderly process that will include verification and appropriate classification of all costs.
9. Investments shall be made in conformance with the City's investment policy, with the primary objectives of:
  - Preservation of capital and protection of principal;
  - Maintenance of sufficient liquidity to meet operating needs;
  - Security of City funds and investments;
  - Diversification of investments to avoid unreasonable or avoidable risks; and
  - Maximization of return on the portfolio.
10. All grants and other Federal and State funds shall be managed to comply with the laws, regulations, and guidance of the grantor, and all gifts and donations shall be managed and expended according to the wishes and instructions of the donor.
11. The City shall establish and maintain a Capital Rehabilitation Fund to support major rehabilitation and betterment of non-enterprise department facilities. A budgeted annual transfer shall be targeted that is equal to 25% of the annual depreciation expense for building and improvements related to governmental activities as reported in the prior year CAFR in Footnote 5 Capital Assets and Infrastructure.

Uses of this fund may include non-bond funded projects including facility rehabilitation and betterment related to:

- Safety and security;
- Significant large maintenance projects that extend the asset's useful life;
- Energy efficiency improvements;

# FINANCIAL POLICIES

- Renovations to improve space utilization;
- Temporary closure of facilities due to unforeseen conditions;
- Technology innovations; or
- Other projects that result in the betterment of the asset.

This fund will not be available for expenditures of a general or routine maintenance nature.

12. Maintenance and replacement funding will be prioritized each year to ensure that capital facilities and equipment are sufficiently maintained to avoid service disruptions.
13. The City shall require adequate financial controls to be included in the City's standard contract terms so as to provide assurance of minimum risk of and access to review compliance. Among these controls are the right to audit all provisions of contracts, the right to require appropriate levels of insurance, the right to review any financial/escrow accounts, bank letters of credit or other credit instruments, and the right to require complete financial reports if appropriate for the solicitation.

## Reserves

14. The City shall maintain a Liability Reserve Fund with a balance sufficient to fund 75% of anticipated claims expense and resulting liabilities, other than those for health benefits and workers' compensation. The Fund will be used to pay and account for such claims expense and liability, which will be identified in accordance with guidelines established by the Governmental Accounting Standards Board. Contributions from each operating fund shall be made in accordance with the fund's pro-rata share of claims expense, determined in accordance with the above mentioned guidelines.

Payments in excess of departmental spending authority must be approved by the City Council. Payments for accrued claims will be paid from the Fund's reserve balance, which will have been appropriated by the City Council. Payments for unaccrued claims will be made against the Fund's current year appropriations. Payments in excess of current year appropriations for any unaccrued claims must be appropriated by the City Council at the time the payment is approved.

15. The Workers' Compensation Fund shall maintain a budgeted claims reserve equal to 25% of budgeted claims and settlement expenses.
16. An individual-specific stop-loss policy shall be maintained for the City Health Plan. In addition, the Employee Benefits Fund will maintain a stop-loss reserve in an amount recommended by the City's actuary. Further, the Employee Benefits Fund will maintain a cash balance equal to anticipated end-of-year claims incurred but not paid and other current liabilities.

# FINANCIAL POLICIES

## Debt Refinancing

17. An advance refunding of outstanding debt shall only be considered when present value savings of at least 4.25% of the principal amount of the refunded bonds are produced, unless (1) a debt restructuring is necessary or (2) bond covenant revisions are necessary to facilitate the ability to provide services or to issue additional debt. The same requirements will normally apply to municipal utility district tax and revenue refunding bond issues approved by the City of Austin. Savings from general obligation and district bond refundings will be distributed to lessen the impact of debt service requirements in future years.

Refundings will be done in accordance with City debt management practices, including the interest rate exchange policy approved through Resolution 20050623-014.

The following policies shall be established for the management of the City's investment pool:

18. Funds having negative balances in the centralized cash pool will not be charged interest.
19. Operating and capital funds incurring a sustained negative cash balance exceeding \$1 million over the course of one year, for which City management has not identified a repayment plan, will be brought to Council for direction on implementing a repayment plan.
20. Funds on a repayment plan will be expected to repay their debt to the pool through revenue and/or assistance from other funds.

## Unbudgeted Funds

21. The following types of funds will not be included in the City's annual budget:
- a. Funds whose revenue source is primarily donations or contributions from the public. Examples:
    - Animal Services Donation Fund – accounts for donations and expenditures for Animal Center operations and animal services programs.
    - Friends of APL Fund – accounts for donations and expenditures for the Austin Public Library's book store.
  - b. Funds used to account for escrow or performance deposits. Examples:
    - Fiscal Surety – Land Development Fund – escrow funds received from contractors for improvements for environmental, health, safety controls, and public infrastructure.
  - c. Funds controlled by another legal entity. Examples:
    - Housing Assistance Fund – accounts for proceeds from residual equity bonds issued by the Austin Housing Finance Corporation.

# FINANCIAL POLICIES

- Waller Creek Local Government Corporation Fund – accounts for the administrative costs related to the Waller Creek Local Government Corporation.
- d. Funds used to account for the repayment of certain loans. Examples:
- Housing Loan Fund – accounts for affordable housing loan activities.

Any fund not included in the annual budget will have a stated purpose and will be assigned to a responsible department that will ensure that accounts in the fund are used in accordance with the fund's stated purpose.

## Letters of Credit

22. A City department may accept letters of credit for less than \$10,000 from any bank or savings and loan if the total Citywide exposure for that institution is less than \$250,000.

A City department may accept any letter of credit that is 110% collateralized by an acceptable investment instrument registered in the City's name. The Treasurer's Office must receive safekeeping receipts for all collateral before the letter of credit is accepted. If the value of the collateral falls below 105% of the letter of credit value, the Treasurer's Office will make a margin call.

Letters of credit that are not collateralized, and are \$10,000 or more, which are issued by an institution whose total Citywide exposure is \$250,000 or more, may be accepted only if the issuer meets the following criteria:

### Banks

- Equity capital of at least \$5 million;
- Capital Evaluation Rating of Well Capitalized according to Federal Deposit Insurance Corporation capitalization thresholds for depository institutions;
- Veribanc rating of "Green"; and
- Total letters of credit held by the City at each bank totaling no more than 50% of the bank's equity capital.

### Credit Unions

- Equity capital of at least \$5 million;
- Core capital as a percent of total assets of at least 7%;
- Veribanc rating of "Green"; and,
- Total letters of credit held by the City at each credit union totaling no more than 50% of the credit union's equity capital.

# FINANCIAL POLICIES

Foreign banks do not report financial data to the Federal Deposit Insurance Corporation, which prevents financial analysis. Therefore, foreign banks are not acceptable institutions to issue letters of credit to the City of Austin, unless approved by the City Treasurer.

The City of Austin will draw on any letter of credit if a bank or credit union no longer meets the criteria. The City will not accept new letters of credit issued by institutions that do not meet these criteria.

Each department will provide the Treasurer's Office with a quarterly report listing dollar values, by institution, of that department's letter of credit. The Treasurer's Office will prepare a quarterly report indicating total City-wide exposure at each financial institution.

## General Fund Financial Policies

1. Current revenue, which does not include the General Fund beginning balance, will be sufficient to support current expenditures (defined as "structural balance"). Unreserved fund balances in excess of required shall normally be used to fund capital items in the operating and capital budget. However, if projected revenue in future years is not sufficient to support projected requirements, an unreserved ending balance may be budgeted to achieve structural balance.
2. Fiscal notes provided to Council shall include initial costs of a program/project and the operations costs for a minimum of five years. Unbudgeted items would require identification of savings necessary to fund needs. Fiscal notes for reimbursement resolutions shall require the fiscal impact to debt service both in real dollars and tax rate for a minimum of five years.
3. To improve financial planning and control, budget amendments should be infrequent and limited to cases where:
  - a. Funding is required to address extraordinary circumstances resulting from a natural disaster, a public health emergency, or other similar critical need that could not have been reasonably anticipated when the budget was adopted;
  - b. There is verifiable evidence of significant costs or risks associated with delaying funding until the next budget cycle; or
  - c. Errors or omissions in the Council-approved budget require correction.

Prior to City Council consideration of any budget amendment, the Budget Office will review all department and fund budgets to first determine if the new funding requirements can be met within existing appropriation limits or other appropriate revenue sources. Reserves should only be used when no other funding sources can be identified. Budget amendments resulting in recurring expenses should generally not be funded with one-time sources or revenue.

4. Tax Increment Financing (TIF) Policy

# FINANCIAL POLICIES

- a. Tax Increment Financing zones should be established where revenues will recover the public cost of debt with adequate safety margin.
- b. No more than 5% of the City's tax base will be in Tax Increment Financing zones.

## Capital and Debt Management

- c. All Public Improvement District (PID) and TIF proposals, even "pay-as-you-go" projects, will be evaluated for service impact. A five-year fiscal note must accompany any request to establish a PID or TIF including repayment terms of any interfund borrowing.
- d. All approved PID or TIF debt issuances supported by a district's revenues are subject to the following criteria:
  - i. Coverage Tests - The project should provide for revenues, net of overlapping taxes, of 1.25 times maximum annual debt service requirement. The issuance of TIF bonds may be considered prior to achieving coverage ratio of 1.25 if a developer or property owner provides a credit enhancement such as a letter of credit or bond insurance from a AAA rated financial institution for the entire amount of the debt issue.
  - ii. In the event that there are insufficient TIF increment revenues to retire TIF bonds, which event consequently requires that the credit enhancement mechanism be called upon to service the TIF bonded indebtedness, contingent liability to reimburse a credit-enhancer would be the sole liability of the developer or its affiliates.
  - iii. In the event that there are changes in the rating of the financial institution providing credit enhancement, then that institution shall be replaced with a AAA rated financial institution within 90 days; and in the event that no replacement of a AAA rated institution is provided, no further TIF bonds in advance of the 1.25 coverage ratio will be provided for any additional TIF projects undertaken by the developer or its affiliates.
  - iv. Additional Bonds Test - The project should include an additional bonds test parallel to the coverage test.
  - v. Reserve Fund - The project should include a debt service reserve fund equal to the maximum annual debt service requirements.
  - vi. Limitations on Amount of PID/TIF Bonds - The total amount of PID/TIF indebtedness will be included and managed as part of the City's overlapping debt and the total amount of PID/TIF debt outstanding should generally not exceed 20% of the City's outstanding general obligation indebtedness.
  - vii. PID bonds should be limited to those projects which can demonstrate the ability to support the debt either through its own revenues or another pledge source other than ad valorem taxes. PID/TIF bond authorizations should remain in effect for no more than five years from the date of City Council approval.

# FINANCIAL POLICIES

- e. All approved PID or TIF debt issuances must mature on or before the termination date of the respective PID or TIF district, and, further, all bonds must also conform to the district's Financial Plan by maturing on or before the Plan's projected date by which all district expenses would be paid, including repayment of bonds.
  - f. The City will not propose the issuance of any unrated, high-yield PID/TIF bond that could be labeled a "high risk bond" except for small (less than \$5 million) private placements coordinated with the City's Financial Advisor.  
  
All projects must be carefully evaluated for credit worthiness and meet the criteria above whether or not a credit rating is obtained.
  - g. The City should use PID/TIF bonds only when other options have been considered.
5. A tax abatement ordinance and policy will be established, as necessary, according to State law and in accordance with Council guidelines and criteria for economic development. There is currently no tax abatement ordinance in effect.
  6. Debt will not be used to fund current expenditures.
  7. Each year, the City Manager's budget shall reflect an ad valorem tax rate that helps sustain existing core service levels. The year-to-year increase of actual revenue from the levy of the ad valorem tax shall generally not exceed 8%:
    - a. excluding taxable value gained through annexation or consolidation;
    - b. excluding the value gained through new construction;
    - c. excluding expenditure increases required for General Obligation Debt Service; and
    - d. not excluding the valuation gained or lost through revaluation or equalization programs.
  8. As part of the annual budget process, the City Council shall adopt by resolution a maximum approved ad valorem tax rate that the Council may consider for the upcoming fiscal year consistent with State law. The resolution will establish the date(s) the Council will adopt and levy the ad valorem tax rate. The actual tax rate adopted by the City Council after its budget deliberations may be lower than the approved rate, but it will not be higher.
  9. Property values shall be appraised, at a minimum, every two years.
  10. The City shall encourage the Tax Assessor-Collector to follow an aggressive policy of collecting property tax revenues. An average collection rate of at least 98% of current levy shall be maintained.
  11. Charges for services and other revenues shall be examined at a minimum of once every five years and adjusted as deemed necessary to respond to changes in cost of service.

# FINANCIAL POLICIES

## Reserves

12. A General Fund Emergency Reserve Fund of 6% of total fund requirements shall be budgeted annually. The Emergency Reserve Fund shall be used to provide for temporary financing for unanticipated or unforeseen extraordinary needs of an emergency nature; for example, costs related to a natural disaster or calamity or an unexpected liability created by Federal or State legislative action.

Funds shall be allocated from the Emergency Reserve Fund only after an analysis has been prepared by the City Manager and presented to City Council. The analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources and provide a sufficient cash balance for daily financial needs. The analysis shall address the nature of the approved expenditure and the revenue requirement in subsequent budget years. Prior to allocating funds from the Emergency Reserve Fund, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds.

Funds shall be allocated each year in the budget process to replace any use of the Emergency Reserve Fund during the preceding fiscal year to maintain the balance of the Emergency Reserve Fund at the level set above.

13. A General Fund Reserve for Budget Stabilization shall be maintained to provide financial stability for the General Fund during economic downturns through the capture at each fiscal year end of any excess revenue and unspent appropriations. During the annual budget process, up to one-third of the total amount of this reserve may be appropriated to fund capital items or other one-time costs each year.
14. Combined, the Emergency Reserve and Budget Stabilization Reserve should be at least 12% of total fund requirements.

# FINANCIAL POLICIES

## General Debt Management Policies

1. The City shall use several methods of debt issuance, including selling bonds competitively, by negotiated sale, or through private placement. The City may issue bonds by negotiated sale when appropriate, based on prevailing market conditions, size or structure of the planned issuance, or other factors. The City shall use the competitive sale method when issuing general obligation bonds, unless a negotiated sale or private placement would be more advantageous.
2. The City shall use competitive procurement methods to select professional firms used in the bond issuance process.
3. The City's financial advisor must be a firm that is independent of banking, underwriting, or other interests to assure that the selected financial advisor can effectively represent the City in negotiations with bankers, underwriters, and other service providers needed for the issuance of debt.

## General Obligation Debt Financial Policies

1. A fund balance for the General Obligation Debt Service Fund of at least 10% of total general obligation debt service requirements shall be maintained to ensure the City's ability to meet debt service payments in spite of tax revenue shortfalls or fluctuations in interest rates.
2. The term of long-term debt generally shall not exceed the expected useful life of the capital asset being financed and in no case shall it exceed 20 years.
3. The ratio of net debt (total outstanding tax supported general obligation debt less G.O. Debt Service Fund balance) to Total Assessed Valuation shall not exceed 2%. This excludes debt of overlapping jurisdictions. The City shall structure its bond issuance to achieve and maintain a debt-to-assessed-value of 2% or less.
4. The ratio of Debt Service to Total Expenditures (operating expenditures and debt service combined) shall not exceed approximately 20%.
5. Bond sales shall be structured to achieve level debt service payments.
6. Interest earnings from bond proceeds for general government projects (excluding projects for enterprise funds) shall be deposited in and retained by the debt service fund (preferred practice) unless otherwise required by bond ordinance or used to fund future CIP projects.

# FINANCIAL POLICIES

7. Timing of general obligation bond elections shall be determined by the inventory of current authorized unissued bonds remaining to be sold. An estimated two years of authorized unissued bonds shall remain before an election will be held.
8. The total dollar amount of bond election propositions recommended to the voters shall not exceed the City's estimated ability to issue said bonds within a normal six-year period.
9. The use of reimbursement resolutions shall be encouraged as a cash management tool for general obligation debt funded projects. Reimbursement resolutions may be used for any project which is on the bond sale schedule or is revenue supported.
10. It is the City's priority to fund capital expenditures with cash or voter-approved debt. However, non-voter-approved debt may be used for capital expenditures as an alternative to lease/purchase or other financing options if the capital expenditure is:
  - Urgent;
  - Unanticipated;
  - Necessary to prevent an economic loss to the City;
  - Expected to result in an economic gain to the City within a reasonable time; or
  - Most effectively financed through non-voter approved debt.
11. The average maturity of non-voter approved debt shall not exceed the average life of the capital items financed.
12. Capital items financed with non-voter approved debt shall have a value of at least \$10,000 and a life of at least four years.

## Austin Energy Financial Policies

1. The term of debt generally shall not exceed the useful life of the asset, and in no case shall the term exceed 30 years.
2. Capitalized interest shall only be considered during the construction phase of a new facility if the construction period exceeds seven years. The time frame for capitalizing interest may be three years but not more than five years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.

*Note: Austin Energy does not use capitalized interest.*

3. Principal repayment delays shall be one to three years, but shall not exceed five years.

# FINANCIAL POLICIES

4. Austin Energy shall maintain either bond insurance policies or surety bonds issued by highly rated (AAA) bond insurance companies, a funded debt service reserve, or a combination of both for its existing revenue bond issues, in accordance with the Combined Utility Systems Revenue Bond Covenant.
5. A debt service reserve fund shall not be required to be established or maintained for the Parity Electric System Obligations so long as the “Pledged Net Revenues” of the System remaining after deducting the amounts expended for the Annual Debt Service Requirements for Prior First Lien and Prior Subordinate Lien Obligations is equal to or exceeds 150% of the Annual Debt Service Requirements of the Parity Electric Utility Obligations. If the “Pledged Net Revenues” do not equal or exceed 150% of the Annual Debt Service Requirements of the Parity Electric Utility Obligations, then a debt service reserve fund shall be established and maintained in accordance with the Supplemental Ordinance for such Parity Electric System Obligations.
6. Debt service coverage of a minimum of 2.0x shall be targeted for the Electric Utility Bonds. All short-term debt, including commercial paper, and non-revenue obligations will be included at 1.0x.

*Note: Debt service coverage for the FY 2017-18 Budget is 4.1x.*

7. Short-term debt, including commercial paper, shall be used when authorized for interim financing of capital projects and fuel and materials inventories. The term of short-term debt will not exceed five years. Both tax-exempt and taxable commercial paper may be issued in order to comply with the Internal Revenue Service rules and regulations applicable to Austin Energy. Total short-term debt shall generally not exceed 20% of outstanding long-term debt.
8. Commercial paper may be used to finance capital improvements required for normal business operation for electric system additions, extensions, and improvements or improvements to comply with local, State and Federal mandates or regulations. However, this shall not apply to new nuclear generation units or conventional coal generation units.

Commercial paper will be converted to refunding bonds when dictated by economic and business conditions. Both tax-exempt and taxable refunding bonds may be issued in order to comply with the Internal Revenue Service rules and regulations applicable to Austin Energy.

Commercial paper may be used to finance voter approved revenue bond projects before the commercial paper is converted to refunding bonds.

9. Ongoing routine, preventive maintenance should be funded on a pay-as-you-go basis.
10. Austin Energy shall maintain a minimum quick ratio of 1.50 (current assets less inventory divided by current liabilities). The source of this information should be the Comprehensive Annual Financial Report (CAFR).

# FINANCIAL POLICIES

11. Austin Energy shall maintain a minimum operating cash equivalent (also known as Working Capital) of 60 days of budgeted operations and maintenance expense, less power supply costs, plus the amount of additional monies required to bring the sum of all Austin Energy's reserves to no less than 150 days of operating and maintenance expense.
12. Net revenue generated by Austin Energy shall be used for General Fund transfers, capital investment, repair and replacement, debt management, competitive strategies, and other Austin Energy requirements. Once these obligations have been met, any remaining net revenues will be deposited in the following order into Austin Energy's reserve funds until each reserve reaches its minimum funding level: Working Capital, Contingency Reserve, Power Supply Stabilization Reserve, and then Capital Reserve. The sum of the four reserves shall be the cash equivalent of no less than 150 days of operating and maintenance expense.
13. The General Fund transfer shall not exceed 12% of Austin Energy three-year average revenues less power supply costs and on-site energy resource revenue, calculated using the current year estimate and the previous two years' actual revenues less power supply costs and on-site energy resource revenue from the City's CAFR.
14. Capital projects should be financed through a combination of cash, referred to as pay-as-you-go financing (equity contributions from current revenues), and debt. An equity contribution ratio between 35% and 60% is desirable.
15. The Capital Reserve shall be created and established for providing extensions, additions, replacements, and improvements to the electric system. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's electric utility depreciation expense.
16. The Contingency Reserve shall be created and established for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the targeted funding level within two fiscal years.
17. Electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to support (1) the full cost (direct and indirect) of operations including depreciation, (2) debt service, (3) General Fund transfer, (4) equity funding of capital investments, (5) requisite deposits of all reserve accounts, (6) sufficient annual debt service requirements of the Parity Electric Utility Obligations and other bond covenant requirements, if applicable, and (7) any other current obligations. In addition, Austin Energy may recommend to Council in the budget directing excess net revenues for General Fund

# FINANCIAL POLICIES

transfers, capital investment, repair and replacement, debt management, competitive strategies and other Austin Energy requirements such as working capital.

In addition to these requirements, electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to ensure a minimum debt service coverage of 2.0x on electric utility revenue bonds.

A rate adequacy review shall be completed every five years, at a minimum, through performing a cost of service study.

18. A decommissioning trust shall be established external to the City to hold the proceeds for monies collected for the purpose of decommissioning the South Texas Nuclear Project. An external investment manager may be hired to administer the trust investments.
19. The master ordinance of the Parity Electric System Obligations does not require a debt service reserve fund. Austin Energy will maintain a minimum of unrestricted cash on hand equal to six months debt service for the then outstanding Parity Electric System Obligations.
20. Current revenue, which does not include the beginning balance, will be sufficient to support current expenditures (defined as “structural balance”). However, if projected revenue in future years is not sufficient to support projected requirements, ending balance may be budgeted to achieve structural balance.
21. A Non-Nuclear Plant Decommissioning Fund shall be established to fund plant retirement. The amount set aside will be based on a decommissioning study of the plant site. Funding will be set aside over a minimum of four years prior to the expected plant closure.
22. The Power Supply Stabilization Reserve shall be created and established for mitigating power supply cost volatility which causes frequent variation in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall maintain a cash equivalent of 90 days of net power supply costs. Net power supply costs shall be defined as costs eligible for inclusion in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall be funded using net revenues after meeting other obligations and consistent with the flow of funds schedule.

# FINANCIAL POLICIES

## Austin Water Financial Policies

1. The term of debt generally shall not exceed the useful life of the asset, and shall not generally exceed 30 years.
2. Capitalized interest shall only be considered during the construction phase of a new facility if the construction period exceeds seven years. The time frame for capitalizing interest may be three years but not more than five years. Council approval shall be obtained before proceeding with a financing that includes capitalized interest.
3. Principal repayment delays on revenue bonds shall be one to three years, but shall not exceed five years.
4. Each utility shall maintain a fully funded debt service reserve for its existing revenue bond issues and future issues, in accordance with the Combined Utility Systems Revenue Bond Covenant.
5. Debt service coverage of at least 1.50x shall be targeted.
6. Short-term debt, including tax-exempt commercial paper, shall be used when authorized for interim financing of capital projects. The term of short-term debt shall not exceed five years. Commercial paper will be converted to refunding bonds when appropriate under economic and business conditions. Total short-term debt shall generally not exceed 20% of outstanding long-term debt.
7. Commercial paper may be used to finance new water and wastewater plants, capital expansions, and growth-related projects as well as to finance routine capital improvements required for normal business operation. Commercial paper for the necessary amount may also be used to finance improvements to comply with local, State and Federal mandates or regulations.
8. Capital improvement projects for new water and wastewater treatment plants, capital expansions, and growth-related projects that are located in the Drinking Water Protection Zone (DWPZ) will be identified and submitted, as part of the annual budget process, to the following Boards and Commissions: Water and Wastewater Commission, Resource Management Commission, Environmental Board, Planning Commission, and the Zoning and Platting Commission.

These Boards and Commissions will review growth-related DWPZ capital projects spending plans, obtain Board and Commission and citizen input, review consistency with Imagine Austin Comprehensive Plan, review effect on growth within the DWPZ, and make recommendations on project approval for inclusion in Austin Water's five-year capital spending plan.

# FINANCIAL POLICIES

A public hearing will be held during the City's annual budget review process to provide citizens an additional opportunity to comment on growth related projects located within the DWPZ.

9. Ongoing routine, preventive maintenance should be funded on a pay-as-you-go basis.
10. Capital projects should be financed through a combination of cash, referred to as pay-as-you-go financing (equity contributions from current revenues), and debt. An equity contribution ratio of at least 20% is desirable.
11. Austin Water shall maintain a minimum quick ratio of 1.50 (current assets less inventory divided by current liabilities). Source of information shall be the Comprehensive Annual Financial Report.
12. Austin Water shall maintain operating cash reserves equivalent to a minimum of 60 days of budgeted operations and maintenance expense.
13. Revenue generated by Austin Water from debt service coverage requirements shall be used for General Fund transfers, capital investment, or other Austin Water requirements such as working capital reserve or non-CIP capital.
14. Austin Water rates shall be designed to generate sufficient revenues to support the full cost (direct and indirect) of operations and debt, provide debt service coverage and meet other revenue bond covenants, if applicable, and ensure adequate and appropriate levels of working capital.
15. The General Fund Transfer shall not exceed 8.2% of the Austin Water three-year average revenues, calculated using the current year estimate at March 31 and the previous two years' actual revenues.

Revenue collected from the Reserve Fund Surcharge will be included in the General Fund Transfer calculation; however, any use or transfer of the reserve fund back into the operating fund in the future due to revenue loss will not be included in the total revenues to calculate the General Fund Transfer.

16. A Water Revenue Stability Reserve Fund shall be created and established for the purpose of offsetting current year water service revenue shortfalls below budgeted revenue levels.

The target funding level for the Reserve Fund is 120 days of the budgeted water operating requirements of Austin Water, which includes operations and maintenance and other operating transfers, but excludes debt service and other transfers. In the event that any portion of the Reserve Fund is used, the balance will be replenished to the target level within five years.

# FINANCIAL POLICIES

Upon creation of the Reserve Fund, the goal to reach the target funding level of 120 days of budgeted water operating requirements will be no later than five years. If the fund is drawn down prior to reaching the 120 day target during the first five-year development period, the reserve fund surcharge shall not be lower than it was during the year in which the draw down occurred until such time as the fund reaches its 120 days of operating costs.

Sources of funding for the Reserve Fund may include a Reserve Fund volumetric surcharge charged to all customer classes, operating reserves in excess of 60 days of operating requirements, and any available net water service revenue after meeting all obligations of Austin Water.

The City Council must approve all Reserve Fund utilization of funds through a separate action during the year. The Reserve Fund shall only be used to offset a current year water service revenue shortfall where actual water service revenue is less than the budgeted level by 10% or more. The maximum use of the Reserve Fund in any fiscal year is 50% of the existing balance at the time of request for Council action.

When the target levels of the Reserve Fund are reached, any Reserve Fund Surcharge shall be reduced to levels sufficient to only maintain the goal of 120 days of operating requirements as may be necessitated by changes in budgeted operating costs over time.

All interest earned by the Reserve Fund account shall remain in the Reserve Fund in order to offset funding and replenishment requirements and to minimize rate impacts for water customers.

## Airport Financial Policies

1. Debt service coverage shall be targeted at a minimum of 1.25x.
2. The Debt Service Reserve shall be funded at the same time long-term debt is issued (typically equal to one year's average debt service requirement).
3. The term of long-term debt shall not exceed the expected useful life of the capital asset being financed, and in no case shall the life of the debt exceed 30 years.
4. Capitalized interest during construction shall generally not exceed five years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.
5. The Airport shall maintain a ratio of current assets plus operating reserve to current liabilities of at least 1.5x. Source of information shall be the Comprehensive Annual Financial Report.
6. The Aviation Fund shall maintain working capital that is equivalent to 60 days of budgeted operations and maintenance expense, in accordance with bond ordinance provisions (current assets plus operating reserve less current liabilities).

# FINANCIAL POLICIES

## Drainage Utility Financial Policies

1. A Drainage Utility Fund will be established to account for all revenues and all operational expenses related to this activity.
2. The department that manages the Drainage Utility Fund shall recommend to Council in the budget setting rates sufficient to pay all requirements including debt service and to maintain a fund balance which is equivalent to 30 days of budgeted operations and maintenance.

## Austin Resource Recovery Financial Policies

1. The Austin Resource Recovery Fund shall establish and fund a reserve to provide for the closure and monitoring of the City's landfills in compliance with Federal regulations.

*Note: ARR uses CIP and operating budgets.*

2. The department that manages the Austin Resource Recovery Fund shall recommend to Council in the budget setting rates sufficient to pay all requirements including debt service and to maintain a fund balance which is equivalent to 30 days of budgeted operations and maintenance.

## Fleet Services Financial Policies

1. The Fleet Services Department shall maintain, in a separate Fleet Fuel Reserve Fund (Reserve Fund), an amount that may be drawn upon in the event significant fuel losses occur in a given fiscal period. The ending balance of the fund shall not exceed 20% of total budgeted fuel costs or \$3 million, whichever amount is greater.

Funding shall consist of a fixed price per gallon to be charged to each user department as determined each budget year. The Fleet Services Department is responsible for calculating the annual per gallon fixed price during the City's annual budget process. The amount collected each fiscal year is to be deposited in the Reserve Fund in the same year as collected.

Upon determination that fuel costs exceeded fuel revenues in any given year in an amount greater than \$500,000, the Reserve Fund may be utilized to fund the deficiency.

# FINANCIAL POLICIES

## Austin Convention Center Financial Policies

1. Debt service reserves shall be funded in accordance with the respective bond covenants for Austin Convention Center's Hotel Occupancy Tax Revenue bonds and Palmer Events Center's Town Lake Community Events Center Venue Project bonds.
2. The term of long-term debt generally shall not exceed the expected useful life of the asset, and shall not generally exceed 30 years.
3. Capitalized interest during construction shall not exceed five years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.
4. The Austin Convention Center shall maintain an operating reserve that is equivalent to 180 days of operating and maintenance expenses for both the Austin Convention Center and the Palmer Events Center operating funds (as required by its Town Lake Community Events Venue bond covenants).

In the event that operating reserves drop below the policy, and to the extent that respective facility funds allow (i.e., Austin Convention Center facility revenue and Hotel Occupancy Tax pledged toward the related bonds, and Palmer Events Center revenues pledged toward Town Lake Community Events Venue bonds), the balance will be replenished to the target level within five years. The operating reserve fund will only be used to offset a current year revenue shortfall where actual revenue is less than the budgeted level by 10% or more.

5. A capital reserve shall be maintained that is equivalent to 50% of the annual depreciation expense as reported in the prior year Comprehensive Annual Financial Report. The reserve may be used for capital projects that provide additions, replacements, and improvements to Austin Convention Center facilities.
6. Ongoing routine, preventative maintenance should be funded on a pay-as-you-go basis.

# DEBT POSITION

## Types of Debt

The City sells bonds to finance a major portion of its capital improvements program. General Obligation (GO) bonds fund improvements such as streets, police and fire stations, health clinics, parks and libraries, and are repaid by property taxes.

Revenue bonds fund improvements for the City's enterprise activities. Revenue bonds are used to finance capital projects for the utilities and also have been used to build the new convention center and to fund construction of the Austin-Bergstrom International Airport. Revenue bonds are repaid from revenue of the enterprise and not from property taxes.

The City's outstanding debt from all sources as of September 30, 2018, is as follows:

## Debt Position

### General Obligation Bonds (GO)

Public Improvement Bonds	\$1,052,240,000	
Certificates of Obligation	265,650,000	
Public Property Finance Contractual Obligations	<u>69,430,000</u>	1,387,320,000
Less: Revenue Supported GO Bonds (1)		(211,194,971)
Less: GO Debt Service Fund Balance		<u>(146,792,399)</u>
Net Total GO Debt		<u>\$1,029,332,630</u>

### Revenue Bonds and Commercial Paper

Electric Utility Revenue Bonds	\$1,168,406,299	
Water and Wastewater Utility Revenue Bonds	2,233,452,462	
Electric Utility Commercial Paper (2)	195,197,000	
Water and Wastewater Utility Commercial Paper (2)	<u>33,070,000</u>	3,630,125,761
Water and Wastewater Assumed MUD		4,509,831
Watershed Protection Assumed MUD		<u>2,395,231</u>
Total Debt Payable from Utility Systems Revenue		3,637,030,823
Convention Center Revenue Bonds (payable from hotel/motel occupancy taxes and rental car tax)		135,055,000
Airport Revenue Bonds (payable from airport system revenue)		<u>789,189,000</u>
Total Revenue Debt		<u>\$4,561,274,823</u>

(1) Revenue supported GO bonds are subtracted from debt payable from property taxes because the respective enterprises and General Fund departments transfer funds to support the necessary debt service payments.

(2) Commercial Paper outstanding as of 07/31/2018.

## Debt Service Requirements (1) – 2018-19

General Obligation Bond Debt	\$162,512,565
Utility Revenue Bond Debt	254,971,656
Airport Revenue Bond Debt	34,710,958
Airport Variable Rate Bond Debt	25,437,535
Town Lake Park Comm. Venue Bond Debt	2,533,391
Hotel Tax Revenue Bond Debt	<u>15,095,454</u>
	<u>\$495,261,559</u>

(1) For bonds outstanding on September 30, 2018.

## Current Bond Ratings

A bond rating is a measure of a city's ability to repay its debt. Several factors are considered when assigning a rating, including the local economy and the strength of the city's financial and administrative management as well as various debt ratios. GO net debt per capita is an important ratio and is calculated by dividing the net outstanding general obligation bond principal by the population. As of September 30, 2017, Austin's GO net debt per capita was \$1,614.03. The amount of debt owed by jurisdictions with boundaries overlapping the City's is also considered. The City's overlapping net debt per capita ratio is higher at \$4,437.28 because the debt of Travis County, the Austin Independent School District, as well as other local entities, is considered in the calculation. The City's GO bond ratings are the highest ranking given among all three agencies (Moody's Investors Services, Standard & Poor's Services, and Fitch).

Revenue bonds are different from GO bonds in that debt service is paid by ratepayers both inside and outside the city. Factors considered when rating revenue bonds include financial performance of the enterprise activity, long range planning for capital improvements and the process of setting rates and fees.

The level of revenue debt is dependent upon the number of enterprise activities within the City. Because the City of Austin owns its own water and wastewater utilities as well as an airport, convention center, and electric utility, revenue debt issued by the City will exceed that issued by many municipalities of comparable size which do not provide those services. The GO and combined utility systems' revenue bond debt ratings are listed in the table below.

The City of Austin's bond ratings as of September 30, 2018 are:

<u>Rating Agency</u>	<u>General Obligation</u>	<u>Prior First Combined Utility Systems</u>	<u>Prior Subordinate Combined Utility Systems</u>
Moody's Investors Services	Aaa	Aa1	Aa2
Standard & Poor's	AAA	AA+	AA
Fitch	AAA	AA	AA-

## Annual Bond Sales

The City Financial Policies include policies regarding remaining authorized but unissued general obligation bonds, and the timing of bond elections. An estimated two years of authorized but unissued bonds shall remain before an election will be held. In addition, the total dollar amount of bond election propositions recommended to the voters shall not exceed the city's estimated ability to issue the bonds within a six year period. This six year period was recommended by the Council's Audit and Finance Committee on June 24, 1998 and is included in the City's Financial Policies.

These policies will assist the City in completing projects approved by the voters in a reasonable amount of time.

### Authorized but Unissued GO Bonds

Transportation/Street Improvements	\$ 29,779,000
Parks and Recreation	18,817,000
Public Safety	8,014,000
Health and Human Services	1,598,000
Cultural Arts & Library	12,997,000
Affordable Housing	10,000,000
Mobility	<u>677,000,000</u>
Total	\$758,205,000 <sup>(1)</sup> <sup>(2)</sup>

<sup>(1)</sup> As of September 30, 2018

<sup>(2)</sup> Brackenridge 2000 bond authority of \$9,215,000 is excluded due to the lease of hospital to Seton.

## Financial Policies

Financial policies adopted by the City Council guide the City's debt management. Discussion and status of selected policies are summarized in the following graphs.

### GO Debt

The ratio of GO net debt to total assessed valuation shall not exceed 2%. This ratio is calculated by dividing GO debt (net of debt service fund balance and self-supporting debt) by total assessed valuation.

As of September 30, 2017, this ratio was 1.43% which is below the 2% policy requirement.

## Austin Energy

Debt service coverage of a minimum of 2.0x shall be targeted.

The anticipated debt service coverage ratio for FY 2018-19, on a budgetary basis, is 4.12x.

Total FY 2018-19 Revenue	\$ 1,401,324,553
Less:	
Power Supply	\$ 421,055,782
Recoverable Expenses	150,269,460
Non-Fuel O&M	318,786,287
Conservation	14,556,868
Conservation Rebates & Incentives	24,318,200
Nuclear & Coal Operating	88,084,850
Other Operating Expenses	8,068,303
	<u>1,025,139,750</u>
Net Revenue	376,184,803
Total Debt Service Requirement	<u>91,371,040</u>
Debt Service Coverage Ratio	<u>4.12</u>

Note: The actual debt coverage calculation will be performed according to rate covenants included in the Official Statements of those bonds backed by Austin Energy revenue.

## Austin Water

Debt service coverage of at least 1.50x shall be targeted.

The anticipated debt service coverage ratio for FY 2018-19, on a budgetary basis, is 1.64x.

Total FY 2018-19 Revenue		\$ 565,450,279
Less:		
Operating Expenses	\$ 237,957,324	
Administrative Support	13,446,037	
CTM Fund	4,811,624	
Regional Radio System	454,320	
CTECC Fund	12,590	
Liability Reserve Fund	-	
Workers' Compensation	1,135,888	<u>257,817,783</u>
Net Revenue		307,632,496
FY 2018-19 Debt Requirement		187,999,754
Total Debt Service Requirement		<u>187,999,754</u>
Debt Service Coverage Ratio		<u>1.64</u>

Note: The actual debt coverage calculation will be performed according to rate covenants included in the Official Statements of those bonds backed by Austin Water revenue.

## Airport

Debt service coverage shall be targeted at a minimum of 1.25x.

The anticipated debt service coverage ratio for FY 2018-19, on a budgetary basis, is 1.78x.

Total FY 2018-19 Revenue		\$ 193,783,836
Less:		
Operating Expenses	\$ 116,481,088	
Administrative Support	5,417,338	
CTM Fund	1,848,286	
CTECC Fund	212,066	
Liability Reserve Fund	-	
Regional Radio System	209,258	
CIP Mgm - CPM	2,195,522	
Workers' Compensation	468,733	<u>126,832,291</u>
Net Revenue		66,951,545
FY 2018-19 Debt Requirement		64,427,301
Less Portion Covered by PFC		18,473,448
Less Capitalized Interest		8,442,176
Total Debt Service Requirement		<u>37,511,677</u>
Debt Service Coverage Ratio		<u>1.78</u>

Note: Debt requirements do not include an anticipated bond sale in FY 2018-19. The actual debt coverage calculation will be performed according to rate covenants included in the Official Statements of those bonds backed by Airport revenue.

## How Does Austin Compare?

The following graphs compare the City of Austin to other Texas cities, using two of the City's adopted financial policies for debt management. A third comparison is also presented based on net debt per capita. The first graph compares the ratio of Austin's GO net debt as a percentage of assessed valuation to other Texas cities.

Source: City of Austin and Entity CAFRs - Financial Services

The following graph compares Austin's GO net debt per capita to other Texas cities. This statistic represents the rate of debt retirement versus debt issuance as well as growth in population.

Source: City of Austin and Entity CAFRs - Financial Services

## Overlapping Debt

The following graphs reflect the additional debt burden imposed by other governmental units in the area, including Travis County, Austin Independent School District, and Austin Community College.

Source: City of Austin - Financial Services

While citizens of Austin are impacted through individual tax rates of these entities, the City of Austin does not have the authority to impose restrictions on the other jurisdictions borrowing power.

Source: City of Austin – Financial Services

## Conclusion

Because of the implementation and adherence to its debt management financial policies, Austin has been able to retain its excellent bond ratings even during periods of economic stress. As a consequence, the City will continue to receive competitive interest rates when entering the bond market.

# BOND INDEBTEDNESS

## How to Read Debt Service Schedules

Debt service payments comprise principal and interest payments. The principal repayments result in the reduction of the total debt outstanding and occur annually for most bond issues. Interest payments occur semi-annually for each individual fixed-rate bond issue and monthly for each individual variable-rate bond issue.

## General Obligation Debt

As of September 30, 2018, the City of Austin will have \$1,387,320,000 in outstanding General Obligation (GO) bonds, consisting of Certificates of Obligation, Contractual Obligations, and Public Improvement Bonds. These bonds were issued to fund capital improvements such as streets, bridges, parks, libraries, fire and police stations, vehicle service centers, health clinics and neighborhood centers.

General Obligation debt is supported by the full faith and credit of the City and is primarily repaid from ad valorem property taxes collected from both current and future property owners throughout the term of the debt.

## Schedule of Authorized but Unissued GO Debt

The City does not immediately issue all of the debt that is authorized. The amount of debt issued each year depends upon the cash flow needs of the Capital Improvements Program, debt service tax rate considerations, and bond market conditions.

## Combined Utility Systems Revenue Debt

As of September 30, 2018, the City of Austin will have \$106,223,762 in outstanding Combined Utility Systems Revenue Bonds. These revenue bonds were issued to fund utility capital improvements such as electric power generation plants, water and wastewater treatment plants, transmission and distribution systems, and collection systems.

Utility Systems Revenue debt is supported solely by a pledge of combined net revenues of the Electric Utility and the Water and Wastewater Utility Systems. The City currently has both Prior Lien Bonds and Subordinate Lien Bonds. In the unlikely event that the City were to default on payment of the bonds, the holders of the Prior Lien Bonds have first priority to claim for repayment.

## Electric Utility Separate Lien Debt

As of September 30, 2018, the City of Austin will have \$1,097,125,000 in outstanding Electric Utility Separate Lien Revenue Refunding Bonds. These revenue bonds were issued to fund Austin Energy capital improvements.

Electric Utility Separate Lien Revenue debt is supported solely by a pledge of net revenues of the Electric Utility System, and the pledge is on parity with the outstanding Combined Utility Systems Subordinate

Lien Bonds. In the unlikely event that the City were to default on payment of the utility bonds, the holders of the Combined Utility Systems Prior Lien Bonds have first priority to claim for repayment.

## Water and Wastewater Separate Lien Debt

As of September 30, 2018, the City of Austin will have \$2,198,510,000 in outstanding Water and Wastewater Separate Lien Revenue Refunding Bonds. These revenue bonds were issued to fund utility capital improvements such as water and wastewater treatment plants.

Water and Wastewater Separate Lien Revenue debt is supported solely by a pledge of net revenues of the Water and Wastewater Utility System, and the pledge is on parity with the outstanding Combined Utility Systems Subordinate Lien Bonds. In the unlikely event that the City were to default on payment of the utility bonds, the holders of the Combined Utility Systems Prior Lien Bonds have first priority to claim for repayment.

## Assumed Municipal Utility District Bonds

As of September 30, 2018, the City of Austin will have \$6,905,062 in outstanding assumed Municipal Utility District (MUD) Bonds. The Northwest Austin MUD #1 and River Place MUD were dissolved during FY 2010 and 2018, respectively, and the outstanding debt was assumed by the City of Austin as a general obligation pledge.

The debt service payments are supported by revenue of Austin Water and the Watershed Protection Department.

## Non-Utility Revenue Debt

As of September 30, 2018, the City will have \$924,244,000 of Non-Utility Revenue Bonds outstanding. This includes \$176,100,000 of Airport System Variable Rate Revenue Bonds issued to refund previously outstanding airport bonds, \$613,089,000 of Airport System Revenue Bonds; \$82,325,000 of Hotel Occupancy Tax Subordinate Lien Revenue Refunding Bonds issued to construct the expansion of the Convention Center; \$16,020,000 Convention Center/Waller Creek Venue Project Bonds issued to construct tunnel improvements along Waller Creek in the vicinity of the Convention Center; \$9,640,000 of Hotel Occupancy Tax Revenue Refunding Bonds; and \$27,070,000 Town Lake Park Community Events Center Venue Project Bonds issued to construct a civic center and parking garage.

Airport Revenue Bonds are supported by revenue of the Aviation Department. Hotel Occupancy Tax Revenue Bonds are repaid from pledged revenue of the Hotel Occupancy Tax. Town Lake Park Venue Project Bonds are repaid from pledged short-term motor vehicle rental taxes.

## Schedule of Authorized but Unissued Revenue Debt

Voters authorized a portion of Revenue Bonds issued by the City in the past. However, the City does not immediately issue all of the debt that is authorized. Rather, the amount of debt issued each year depends upon the cash flow needs of the Capital Improvements Program, the City's debt issuance capacity, and bond market conditions. The following table shows the status of all voter authorized revenue bonds as of July 1, 2018.

## Authorized but Unissued Revenue Bonds as of Jul 1, 2018 (in 000s)

	DATE AUTHORIZED	ORIGINAL AMOUNT AUTHORIZED	ISSUED	AMOUNT PREVIOUSLY ISSUED	UNISSUED BALANCE

# BUDGET PROCESS

The City Manager is required by the City Charter to present proposed operating and capital budgets to the City Council at least 30 days prior to the October 1 beginning of the City's fiscal year. In addition, the City of Austin Charter mandates that a budget be adopted no later than September 27th for the new fiscal year beginning October 1st. The process leading to the budget adoption is participatory and includes a communications plan that encourages input from citizens, boards and commissions, City departments, and the City Council. The budget process focuses on identifying funding levels necessary to continue basic municipal services, address City Council priorities, and meet community goals, in accordance with the strategic plan adopted by City Council on March 8, 2018. Throughout the budget process, the City Manager provides the City Council with projected revenue collections and funding requirements for the upcoming fiscal year. This information enables the City Council to provide policy direction in developing the new budget.

The budget contains a detailed allocation of projected revenue and expenditures for all City funds and a summary of the City's debt position. The City Manager also includes an executive summary that outlines the essential elements of the financial plan. The Proposed Budget will be released in early August, well in advance of the City Charter requirement, and public hearings will occur in August. There is also a formal Council budget question process, with the questions and answers posted at <http://www.austintexas.gov/budget/cbq/index.cfm>.

<b>Budget Calendar for FY 2018-19</b>	
<i>Important dates as the Budget is reviewed and analyzed prior to adoption</i>	
<b>October - April</b>	Council Strategic Planning
<b>January – April</b>	Development of the 5-Year Financial Forecast and Capital Improvements Program (CIP) Plan
<b>April</b>	5-Year Financial Forecast presented to Council
<b>May – July</b>	Public input on budget and priorities; Boards and Commission meetings; Proposed Budget Development
<b>August 6</b>	Proposed Budget presented to Council
<b>August 15 &amp; 29</b>	Council Budget work sessions
<b>Mid-August</b>	Bilingual Taxpayer Impact Statement available online and published in area newspapers
<b>August 22 &amp; 30</b>	Public hearings on the Proposed Budget and the Tax Rate
<b>September 11 – 13</b>	Budget Adoption and Tax Rate Adoption

**Communications Plan.** Stakeholder input plays a pivotal role in the City's budget decision-making process. In the spirit of open government and increased transparency, the budget process includes community outreach and stakeholder engagement. Outreach this year includes:

- A citizen survey to acquire satisfaction and priority levels of City services;
- Budget recommendations from the City's various Boards and Commissions;
- The Budget video on [austintexas.gov/budget](http://austintexas.gov/budget);
- 11 City Council Town Hall staff-facilitated budget sessions that were all attended by City Manager Spencer Cronk;
- Translation of materials and interpretation services in 7 languages which were made available at all 11 Town Halls;
- Access to the Proposed Budget at the Austin Public Library system; and,
- Access to budget documents and related reference materials online at [austintexas.gov/finance](http://austintexas.gov/finance).

**Budget Amendments.** General Fund Financial Policy #3 states that non-emergency amendments to the Adopted Budget (other than amendments that are fully offset by new revenue resulting from the initiative) shall be accomplished in one mid-year Council Meeting.

In keeping with the above General Fund financial policy, the process for amending all budgets and funds is outlined below.

1. The originating department and Budget Office work together to determine necessary Council actions.
2. The originating department receives approval to proceed from the City Manager's Office.
3. The originating department prepares the formal Request for Council Action (RCA) and ensures that all other departments affected by the proposed action approve the RCA.
4. The item is presented to the City Council for review and approval.
5. Upon approval, the Budget Office updates the system of record.

**ORDINANCE NO. 20180911-001**

**AN ORDINANCE ADOPTING THE CITY OF AUSTIN BUDGET FOR FISCAL YEAR 2018-2019 BEGINNING ON OCTOBER 1, 2018, AND ENDING ON SEPTEMBER 30, 2019.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

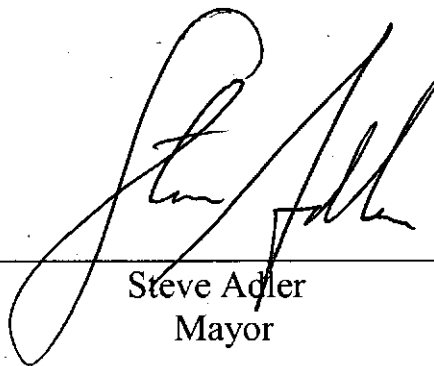

**PART 1.** The City Council adopts the attached City of Austin Budget for Fiscal Year 2018-2019 beginning on October 1, 2018, and ending on September 30, 2019.

**PART 2.** This ordinance takes effect on October 1, 2018.

**ORDINANCE NO. 20180911-012****AN ORDINANCE LEVYING MUNICIPAL PROPERTY (AD VALOREM) TAXES FOR THE CITY OF AUSTIN, TEXAS, FOR FISCAL YEAR 2018-2019.****BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

**PART 1.** The City Council levies, approves, and orders to be assessed and collected for the Fiscal Year 2018-2019, and for each subsequent calendar year until otherwise ordained, on all property in the limits of the City of Austin that is not exempt from taxation, a property (ad valorem) tax at the rate of \$0.4403 per \$100 of taxable value. The tax rate consists of two components, each of which are separately approved by Council: \$0.1095 per \$100 of taxable value, the rate that, if applied to the total taxable value, will impose the total amount published under Section 26.04(e)(3)(C) of the Texas Property Tax Code (Tax Code), less any amount of additional sales and use tax revenue that will be used to pay debt service; and \$0.3308 per \$100 of taxable value, the rate that, if applied to the total taxable value, will impose the amount of taxes needed to fund maintenance and operation expenditures of the City for the coming year.

**PART 2.** The Council adopts the following property tax exemptions as further described in Exhibits “A” and “B-1” and “B-2”:

Agriculture	Exhibit A
Disabled Veterans	Exhibit A
Straight Disability Local Option	Exhibit A
Elderly Homestead	Exhibit A
Residence Homestead	Exhibit A
Historic – State Landmarks	Exhibit B-1
Historic – City Landmarks	Exhibit B-2

Council finds that all of the properties identified in Exhibit B-1 are designated as Recorded Texas Historic Landmarks or as state recorded archeological landmarks in accordance with Section 11.24(1) of the Tax Code.

Council finds that all of the properties identified in Exhibit B-2 are designated as a historically or archeologically significant site in need of tax relief to encourage its preservation pursuant to Section 11.24(2) of the Tax Code.

The exemption amounts for the properties identified in Exhibit B-1 and B-2 shall be determined as set forth in City Code Section 11-1-22.

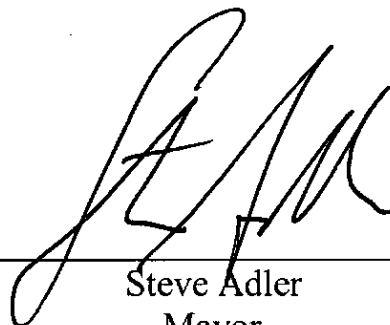

**PART 3. THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE.**

**PART 4. THE TAX RATE WILL EFFECTIVELY BE RAISED BY 5.5 PERCENT AND WILL RAISE TAXES FOR MAINTENANCE AND OPERATIONS ON A \$100,000 HOME BY APPROXIMATELY \$17.10.**

## EXHIBIT A

## AUSTIN PROPERTY TAX EXEMPTIONS

AGRICULTURE = Variable per acre of farmland / tax exempt

Agriculture - Confirmed agricultural property is taxed on the basis of a special valuation of the use (productivity) of the land. The area location (school district) and agricultural classification (dry crop, improved pasture or native pasture) determines the taxable value per acre of land.

DISABLED VETERANS = Variable based on percent of disability

Partially disabled veterans exemptions range from \$5,000 to \$12,000 based on the following schedule:

% Disability	Exemption
10-29	\$5,000
30-49	\$7,500
50-69	\$10,000
70-99	\$12,000

Disabled veterans with a 100 percent disability are entitled to a tax exemption of the total appraised value of the residence homestead.

RESIDENCE HOMESTEAD = 10 percent

Persons with a residence homestead are entitled to a 10 percent tax exemption of the assessed valuation of their home.

STRAIGHT DISABILITY LOCAL OPTION = \$88,000

Disabled persons (unable to hold a job) on social security or forced retirement can apply for and receive an \$88,000 tax exemption.

ELDERLY HOMESTEAD = \$88,000

Persons 65 years and older can apply for and receive an \$88,000 tax exemption on their home.

**ORDINANCE NO. 20180911-002**

**AN ORDINANCE AUTHORIZING FEES, FINES, AND OTHER CHARGES TO BE SET OR CHARGED BY THE CITY FOR FISCAL YEAR 2018-2019 BEGINNING ON OCTOBER 1, 2018, AND ENDING ON SEPTEMBER 30, 2019.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

**PART 1.** The City Council authorizes the fees, fines, and other charges listed in the attached Exhibit "A" to be set or charged by the City for Fiscal Year 2018-2019 beginning on October 1, 2018, and ending on September 30, 2019.

**PART 2.** To the extent that a previous ordinance conflicts with this ordinance, the earlier ordinance is repealed.

**PART 3.** Except as otherwise specifically provided in Exhibit "A," this ordinance takes effect on October 1, 2018. A fee, fine, or other charge for which a specific effective date has been established in Exhibit "A" takes effect on the specified effective date.

**PART 4.** Council waives fees and reimburses costs for City co-sponsored events listed in Exhibit "B" and identified in the following Council actions:

Resolution No. 20021003-040

Resolution No. 20040226-040

Resolution No. 20050324-040B

Resolution No. 20070308-033

Resolution No. 20100408-034

Resolution No. 2010624-080

Resolution No. 20111208-077

Resolution No. 20120927-081

Ordinance No. 20130808-057

Ordinance No. 20131212-140

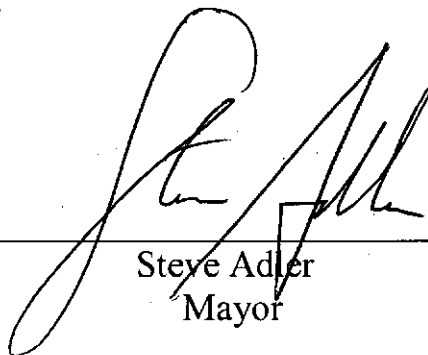

Ordinance No. 20141106-057

These events are Council-approved co-sponsored events, which serve documented public purposes as set forth in the actions of Council noted above. Each event must annually provide reasonable documentation to the City Manager that the event brings a value to the City that is at least roughly equivalent to the fees waived or reimbursed by this action.

# Exhibit “A”

## City of Austin 2018-19 Approved Fee Schedule

# Fee Schedule

## Nondepartmental Revenue/Expenses - General Fund

2018-19

Note

### Code Violations/Legal Penalties/Restitution

Return Check Charges \$30.00

*The Texas Business and Commerce Code allows the City to change a processing fee for the return of a "payment device" that is defined as any check, item, paper or electronic payment, or other payment device used as a medium for payment. The Texas Local Government Code allows a service charge for a payment by credit card that is not honored by the credit card company. The City amount of the service charge is the same as the fee charged for the collection of a check drawn on an account with insufficient funds. Note: All departments except those established in Ordinance 89-0214 (Utility Service Regulations).*

### Concessions/Sales

Convenience Fee

*Depending on the form of payment, a convenience fee could be charged.*

### Printing/Copies

Copy Charges

*The fees for copies of public information are prescribed by the Texas Attorney General's Office and approved by City Council.*

### General Information

#### Facility Rental Information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour per space after 12 midnight and before 6AM. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits, discounts and services for use of the Department facilities by customers who represent significant local economic impact, repeat business, hotel occupancy tax or substantial facility revenue, to maximize facility revenue during need period or to offset unexpected event challenges; provided, however, that the direct dollar impact from all sources must not be below the operating cost of the facility used by customers. The Director may use industry guidelines to calculate economic benefit. Contracts and contract addendums issued within thirty (30) days of the 1st contract day may be subject to unscheduled labor fees and equipment fees at the base rate. At the Austin Convention Center, all food and beverage is exclusive to the in-house food and beverage management company.

#### Labor and Equipment Information

An approximate discount rate of 25% will apply for show management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day. The standard rate applies for show management orders when complete event requirements or specifications are received thirty (30) days or less from the first contract day. An approximate 25% increase of the standard rates for labor and/or equipment may apply for unscheduled/on-site requests to add or delete equipment (a reset) or a request for an unscheduled/on-site change (a changeover). Labor and equipment fees may apply to first room set if room specifications (including setup times and equipment needs) are not received within five (5) days of the first contract day. Changes made within five (5) days of the first contracted day of the event are subject to reset fees. A scheduled request to add or delete equipment (a reset) or a request for a change (a changeover) to the first room set is subject to labor and/or equipment fees. The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply. The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.

Note

### Pre-Function Space and Outside Area Rental

*Outside areas and pre-function space may not be used for exhibits unless the area is contracted as such and has prior approval by the Director. Rental is based on the footprint of the event and maybe waived with Director approval or charged up to the Minimum Daily Rental or on a per booth basis. Pre-function space and lobbies are generally used for pedestrian traffic or registration; therefore, the Department may be unable to reserve on an exclusive basis.*

Note

### Facility Rentals

Consumer Shows-Trade Shows,  
Conferences, etc.

*The Director has the discretion to modify facility rental pricing to accommodate for food and beverage spend as well as ancillary revenue.*

#### Exhibit Use

*One (1) move-in or move-out is provided at no charge for each two show days, not to exceed two (2) days at no charge. All other move-in and move-out days are charged at one-half (1/2) the Daily Rental. A public address system is provided at no charge during event hours.*

#### General Session Use

*Equipment provided at one-half (1/2) of the equipment cost for the required set-up when used exclusively for a General Session. One move-in or move-out day is provided at no charge for each two show days, not to exceed three (3) days at no charge. A public address system is provided at no charge during event hours. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.*

#### Food Functions (Banquets, Receptions, etc.)

*Move-in or move-out days are charged at one-half (1/2) the daily rental, not to exceed the number of show days. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.*

Events Center with exhibit hall 1, daily rental	\$4,100.00 -	\$4,800.00
Events Center with exhibit hall 2, daily rental	\$2,300.00 -	\$2,900.00
Events Center with exhibit halls 1-2, daily rental	\$6,400.00 -	\$7,700.00

### General information

*Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour per space after 12 midnight and before 6AM. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.*

*The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by customers who represent significant local economic impact, repeat business, hotel occupancy tax or substantial facility revenue, to maximize facility revenue during need period or to offset unexpected event challenges; provided, however, that the direct dollar impact from all sources must not be below the operating cost of the facility used by customers. The Director may use industry guidelines to calculate economic benefit. When an outside entity is utilized for food and beverage at the Lester E. Palmer Events Center, equipment and services are charged accordingly. Facility rental does not include equipment. Food and beverage service is exclusive to the in-house food and beverage management company in the Palmer Events Center meeting rooms 1-5.*

*Short term rental of Palmer Events Center meeting rooms 1-5, without the rental of an exhibit hall, is available within a ninety (90) day window.*

*All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the standard rate.*

*Requests received from Show Management thirty-one (31) days or more from the first contract day for labor services, security services, equipment, waste management services, audio recording services and utility services will be charged the listed rate (incentive rate). An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day. Changes made within five (5) days of the first contracted day of the event are subject to reset fees. Labor and equipment fees may apply to first room set if room specifications (including setup times and equipment needs) are not received within five (5) days of the first contract day.*

*The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.*

*The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.*

### Meeting Room Use

# Fee Schedule

## Austin Convention Center - Convention Center Palmer Events Center Revenue Fund

2018-19

Note

### General Session Use

Charged at the Daily Rental per show day and includes one (1) single-level head table for four (4) people, and one (1) podium. Equipment and services are additional expenses and are not included in meeting room rental rate. One (1) move-in or move-out day is charged at one-half (1/2) the daily rental rate.

### Food Function Use

Charged at daily rental rate, includes one (1) head table for four (4) people, one (1) podium. Move-in and move-out days are charged at one-half (1/2) the daily rental rate. All food and beverage is exclusive to the in-house food and beverage management company.

Meeting Room 1	\$300.00	/day
Meeting Room 2	\$300.00	/day
Meeting Room 3	\$300.00	/day
Meeting Room 4	\$300.00	/day
Meeting Room 5	\$300.00	/day

### Outdoor Rental Space

#### Canopy Stipulations

All food and beverage is exclusive to the in-house food and beverage management company. Security may be required and is based on projected number of attendees / event type. Overhead fans are included in the Facility Rental.

#### Rooftop Overlook Stipulations

All food and beverage is exclusive to the in-house food and beverage management company. Security is required and is based on projected number of attendees / event type. Use of Rooftop Overlook is limited to food functions and receptions only and is based on Director approval. Facility protection guidelines would include the rooftop overlook. Parking is not included in the Facility Rental and is charged at the rates in effect at the time of the event.

Canopy	\$2,500.00 - \$7,500.00	/day
North Circle Drive	\$2,500.00 - \$5,000.00	
North Terrace	\$500.00 - \$2,000.00	
Rooftop Overlook (4th floor of Palmer Events Center Garage)	\$6,500.00	/day
South Circle Drive	\$2,500.00 - \$5,000.00	

### Pre-Function Space and Outside Area Rental

Pre-function space may not be used for exhibits unless the area is contracted as such and has prior approval by the Director.

Lester E. Palmer Events Center Outside Catering Fee	20.00%	assessed retail value (minimum value considered \$5)
Outside Areas	\$350.00	minimum/day/booth

### Stage Performance Rental

# Fee Schedule

## Austin Convention Center - Convention Center Palmer Events Center Revenue Fund

2018-19

Note

### Ticketed Stage, Performance Use

A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.

### Other Event Use

Does not include equipment; equipment is charged accordingly. One (1) move-in or move-out day is provided at no charge for each two (2) show days, not to exceed two (2) days at no charge. All other move-in and move-out days are charged at one-half (1/2) the Maximum Daily Rental. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.

### Standard Labor Rates

*All subject to availability.*

*Credit will not be given for services ordered and not used. Unscheduled labor may be subject to overtime charges of one (1) and one-half (1/2) the regular rate. Final determination of the number and type of personnel required for an event will be made by the Department. A four (4) hour minimum may be charged unless otherwise specified. Charges will be made in one-half (1/2) hour increments after the initial four (4) hour minimum. Call-back charges will be a minimum of two (2) hours. Room resets beyond the initial set includes labor and additional equipment costs. The Standard Rate applies for Show Management orders when complete event requirements or specifications are received thirty (30) days or less from the first contract day. An approximate discount of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more from the first contract day.*

Security, Badge Checker and Usher on Holidays	\$35.00	/hour
Security, Safety and Usher Supervisor (Excluding Holidays)	\$48.00	/hour
Security, Safety and Usher Supervisor on Holidays	\$52.00	/hour
Uniform Security Guard (Excluding Holidays)	\$37.00	/hour
Uniform Security Guard on Holidays	\$41.00	/hour

### Standard Utility and Technology Rates

The Austin Convention Center Department (ACCD) offers an Incentive Rate to customers who order services in advance unless noted. This rate is a twenty - five percent (25%) discount off the Standard Rates listed. The ACCD will charge a Floor Rate, which is fifty- percent (50%) more than the Standard Rates listed, only if customers do not place an order by the Standard Rate deadline unless noted.

Electrical cords provided are single receptacles (one plug) and provides a connection at one point only.

### Audio Visual Services

Audio Visual Technician	\$80.00	/hour
<i>Charges will be in 1/2 hour increments, with a four-hour minimum. All interfacing, connecting, patching, or other means of utilizing the three communication subsystems (fiber optic, broad band, and unshielded twisted pair wire plants) are exclusive to the Austin Convention Center Department.</i>		
Standard Web Casting Rate	\$300.00	/hour
<i>Includes single camera live stream, video capturing &amp; encoding, attendee interaction availability, index and cross linking</i>		
30-day Accessible Online Service	\$200.00	/month
Additional Camera	\$55.00	/camera
Copy of Web Casting for Editing Purposes	\$200.00	/copy

## Residential Service

### Application:

Applies to all electric service for domestic purposes in each individual metered residence, apartment unit, mobile home, or other dwelling unit whose point of delivery is at secondary voltage less than 12,470 volts nominal line to line located within the limits of Austin Energy's service territory. The rate tables below reflect rates with effective dates of November 1, 2018.

The appropriate General Service schedule applies where a portion of the dwelling unit is used for either: a) conducting a business, or other non-domestic purposes, unless such use qualifies as a home occupation pursuant to City Code Chapter 25-2-900 or b) for separately-metered uses at the same premises, including, but not limited to: water wells, gates, barns, garages, boat docks, pools, and lighting.

### Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and allow reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

### Discounts:

Residential customers who receive, or who reside with a household member who receives, assistance from the Comprehensive Energy Assistance Program (CEAP), Travis County Hospital District Medical Assistance Program (MAP), Supplemental Security Income Program (SSI), Medicaid, Veterans Affairs Supportive Housing (VASH), the Supplemental Nutritional Assistance Program (SNAP), the Children's Health Insurance Program (CHIP), or the Telephone Lifeline Program are eligible for a discount under the Customer Assistance Program (CAP).

Initially, all eligible residential customers will be automatically enrolled in the discount program through a third-party matching process, with self-enrollment also available directly through Austin Energy. Such enrollment shall occur within 60 days of application or automatic data match.

Eligible customers will be removed from the discount program in the following situations: 1) the customer's improvement homesite value, as most recently evaluated by the appropriate appraisal district, is equal to or greater than \$250,000.00, and household income is greater than 200 percent of the Federal Poverty Level (FPL) guidelines; or 2) the customer owns two or more properties within the Austin Energy service territory, and household income is greater than 200 percent of the FPL guidelines. In either situation the eligible customer must provide sufficient information to enable Austin Energy to verify that the household income is at or below 200 percent of the FPL guidelines.

Customers enrolled in the discount program are exempt from the monthly Customer Charge and the CAP component of the Community Benefit Charge and shall receive a 10 percent bill reduction on kilowatt-hour-based charges. Customers enrolled in the discount may be eligible for bill payment assistance through arrearage management. Additionally, customers in the discount program, as well as other low income and disadvantaged residential customers, may be eligible for bill payment assistance through Plus 1 and for free weatherization assistance.

***Rider Schedules:***

Service under this rate schedule is eligible for application of GreenChoice® Rider, Community Solar Rider, and Non-Demand Value-Of-Solar Rider. Customer receiving service under the Community Solar Rider cannot combine services with either the Non-Demand Value-of-Solar Rider or GreenChoice® Rider.

***Standard Rates***

This is the default rate option under this schedule.

	<b>Inside City Limits</b>	<b>Outside City Limits</b>
<b>Basic Charges (\$/month)</b>

***Time-Of-Use Rates (Suspended)***

Austin Energy has administratively suspended availability of this time-of-use rate option to additional customers. While this rate option is closed, Austin Energy offers a time-of-use option under the pilot program rate schedule.

Customers who are already receiving the Suspended Time-Of-Use Rates in lieu of the Standard Rates have elected to receive those rates for a term of no less than twelve consecutive billing months. Additionally, customers who are receiving the time-of-use rates are not eligible to participate in leveled billing.

Time-Of-Use Periods

	<b>Summer</b> (June through September)	<b>Non-Summer</b> (October through May)
<b>On-Peak Hours</b>

## General Service

### Application:

Applies to all metered, non-residential secondary voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. These rates apply to secondary voltage less than 12,470 volts nominal line to line. The rate tables below reflect rates with effective dates of November 1, 2018.

### Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this are unaffected by the application of any rider

All demand (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor and load factor corrections.

When power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 13.5 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 14.0 kW ( $13.5 \text{ kW} \times 0.90 / 0.87$  power factor).

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

### Discounts:

For any Independent School District, Military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Electric service provided to a "religious sanctuary," a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public, is eligible for the House of Worship Discount.

To be eligible for the House of Worship Discount, a customer must be a tax-exempt 501(c)(3) organization for federal tax purposes and a tax-exempt religious organization under Sections 151.310, 156.102 and 171.058 of the Texas Tax Code. The House of Worship Discount is not available for electric

service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

For a customer eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays, excluding weekends, during the current billing month as determined by metering equipment installed by Austin Energy, adjusted for power factor as described above in Terms and Conditions.

The customer's total monthly electric charges billed pursuant to these rate schedules for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the temporary transition cap rate specified below, but shall not be less than the applicable Customer Charge. The temporary transition cap rate shall adjust at the beginning of each fiscal year (October 1<sup>st</sup>) and the House of Worship Discount will terminate at the end of fiscal year 2020 (September 30, 2020), though Billed kW shall continue to be based upon weekday use.

<b>Effective Dates</b>	<b>Transition House of Worship Rates (\$/kWh)</b>
<i>October 1, 2016</i>	\$0.13250
<i>October 1, 2017</i>	\$0.13750
<i>October 1, 2018</i>	\$0.14250
<i>October 1, 2019</i>	\$0.14750
<i>October 1, 2020</i>	Expired

If a customer is receiving service under a secondary voltage rate schedule with demand greater than 10kW, and the customer's monthly load factor is below 20 percent, the Billed kW will be reduced to the value required to result in an effective load factor of 20 percent. Load factor is calculated as all energy consumption divided by Billed kW multiplied by number of hours within the billing month. For example, assuming a customer had energy consumption of 1,152 kWh, Billed kW of 16 kW, and 720 hours in the billing month, the load factor would be 10 percent [ $1,152 \text{ kWh} \div (16 \text{ kW} * 720 \text{ hours})$ ]; therefore, to equal a 20 percent load factor the Billed kW would need to be reduced to 8 kW [ $1,152 \text{ kWh} \div (20 \text{ percent load factor} * 720 \text{ hours})$ ]. Load factor is used only for determining a customer's Billed kW, not a customer's placement within the proper rate schedule and is calculated after the power factor adjustment.

*Rider Schedules:*

Service under these rate schedules is eligible for application of the GreenChoice® Rider, either Non-Demand or Demand Value-Of-Solar Riders, and Load Shifting Voltage Discount Rider. Customer receiving service under either the Non-Demand or Demand Value-Of-Solar Riders cannot combine services with the Load Shifting Voltage Discount Rider.

### **Secondary Voltage (Demand less than 10 kW)**

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months did not meet or exceed 10 kW, or unmetered small cell pole equipment attached to City of Austin property. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

For each unmetered small cell pole equipment attached to City of Austin property, the daily billable energy consumption is 2.88 kWh per amperage (amp); therefore, you would multiple the daily billable energy consumption by the equipment amperage rating and days in the billing month. For example, assuming a small cell pole attachment has a 5-amp equipment rating and there are 30 days in the billing month, then the monthly billable energy consumption would be 432 kWh [5 amps \* 2.88 kWhs \* 30 days]. A ‘small cell pole equipment’ refers to small wireless communications equipment or distributed antenna systems used to receive or transmit radio frequencies for low-powered radio access nodes consisting of radios, radio transceivers, antennas, amplifiers, switches, repeaters, or other related component equipment.

### *Standard Rates*

This is the default rate option under this schedule.

### **Secondary Voltage (Demand greater than or equal to 10 kW but less than 300 kW)**

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 10 kW but did not meet or exceed 300 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy’s determination that customer’s average summer (June through September) metered peak demand level places customer in this rate class. The twelve-month requirement may be waived by Austin Energy if a customer has made significant changes in their connected load, which prevents the customer from meeting or exceeding the minimum-metered demand threshold of this rate schedule, and Austin Energy has verified these changes.

*Standard Rates*

This is the default rate option under this schedule.

## Large General Service

### Application:

Applies to all primary voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. These rates apply to primary voltage between 12,470 and 69,000 volts nominal line to line. The rate tables below reflect rates with an effective date of November 1, 2018.

### Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

All demand (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor corrections.

When the power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying the metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 10,350 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 10,707 kW ( $10,350 \text{ kW} \times 0.90 / 0.87$  power factor).

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

### Discounts:

For any Independent School District, Military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

### Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider, Demand Value-Of-Solar Rider, and Load Shifting Voltage Discount Rider. Customer receiving service under the Demand Value-Of-Solar Riders cannot combine services with the Load Shifting Voltage Discount Rider.

### Primary Voltage (Demand less than 3,000 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months did not meet or exceed 3,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

#### Standard Rates

This is the default rate option under this schedule.

	Inside City Limits	Outside City Limits
<b>Basic Charges</b>		
<i>Customer (\$/month)</i>	\$275.00	\$275.00
<i>Delivery (\$/kW)</i>	\$4.50	\$4.50
<b>Demand Charges (\$/kW)</b>		
<i>Billed kW</i>	\$7.00	\$7.00
<b>Energy Charges (\$/kWh)</b>		
<i>Billed kWh</i>	\$0.00053	\$0.00052

### Primary Voltage (Demand greater than or equal to 3,000 kW and less than 20,000 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 3,000 kW but did not meet or exceed 20,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy's determination that customer's average summer (June through September) metered peak demand level places customer in this rate class. The twelve-month requirement may be waived by Austin Energy if a customer has made significant changes in their connected load, which prevents the customer from meeting or exceeding the minimum-metered kW threshold of this rate schedule, and Austin Energy has verified these changes. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

**Primary Voltage (Demand greater than or equal to 20,000 kW)**

This rate applies to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 20,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to their appropriate class and will be charged the corresponding appropriate rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy's determination that customer's average summer (June through September) metered peak demand level places customer in this rate class. The twelve-month requirement may be waived by Austin Energy if a customer has made significant changes in their connected load, which prevents the customer from meeting or exceeding the minimum metered kW threshold of this rate schedule and these changes have been verified by Austin Energy. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

*Standard Rates*

This is the default rate option under this schedule.

	<b>Inside City Limits</b>	<b>Outside City Limits</b>
<b>Basic Charges</b>

<b>Regulatory Charge (\$/kW)</b>		
<i>Billed kW</i>	\$3.66	\$3.66

### **High Load Factor Primary Voltage (Demand greater than or equal to 20,000 kW)**

This rate applies to any customer whose average monthly billed demand for power met or exceeded 20,000 kW and has an annual average monthly load factor of at least 85 percent.

#### Contract Term:

For a term ending at the end of the billing month that includes October 31, 2024, the customer shall enter into an exclusive sole supplier agreement to purchase its entire bundled electric service requirements for the facilities and equipment at the account service location, with an exception for on-site back-up generation and up to 1 MW of on-site renewable generation capacity. The City Manager or his designee may establish and agree to terms and conditions for a service contract consistent with this rate schedule.

#### Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the customer's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the customer's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the customer may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

#### Minimum Bill:

The minimum monthly bill is the highest billed demand established during the most recent 12-month billing period multiplied by the Summer Demand Charge, in addition to any associated fuel, power supply, or block pricing charges.

Maximum Community Benefit Charges:

During the term of a service contract, Customer Assistance Program charges shall not exceed \$200,000 during any calendar year (prorated for any partial year). Charges for Service Area Lighting (SAL) and Energy Efficiency Services (EES) do not apply under this rate schedule.

Terms and Conditions:

This schedule is effective through the end of the customer's billing month that includes October 31, 2024. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. The customer is ineligible for participation in energy efficiency, retail demand response, and renewable energy incentive programs. Billed amounts due and owing shall incur a penalty of one percent per month until paid.

Average annual monthly load factor is the sum of the customer's load factor percentages for the previous twelve billing months divided by twelve. Verified reductions in energy consumption made in response to a request for Emergency Response Service or another demand response program operated by ERCOT shall be credited in calculating load factor. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

**Standard Rates**

Basic, energy, demand, and applicable community benefits charges will be fixed for the initial contract period ending October 31, 2018, at which time, they are reset to the most recent cost of service study unity rates. The Austin City Council may amend these charges to be fixed for the period November 1, 2018, through October 31, 2021, and again for the period November 1, 2021, through October 31, 2024. PSA and Regulatory charges will be set in accordance with their appropriate rate schedules.

If, during the initial contract period ending October 31, 2018, the City Council adopts new base electric rates for customers receiving service at primary voltage based upon a comprehensive cost-of-service study, the customer may opt to have its contract rates adjusted to any applicable new rates during the initial contract term.

<b>Basic Charges</b>	
<i>Customer (\$/month)</i>	\$11,000.00
<i>Delivery (\$/kW)</i>	\$4.50
<b>Demand Charges (\$/kW)</b>	
<i>Billed kW</i>	\$10.20
<b>Energy Charges (\$/kWh)</b>	
<i>Billed kWh</i>	\$0.00000
<b>Power Supply Adjustment Charge (\$/kWh)</b>	
<i>Billed kWh</i>	\$0.02829
<b>Community Benefit Charges (\$/kWh)</b>	
<i>Customer Assistance Program</i>	\$0.00058
<b>Regulatory Charge (\$/kW)</b>	
<i>Billed kW</i>	\$3.66

## Transmission Service

### Application:

Applies to all transmission voltage electric service at 69,000 volts or above nominal line to line, and whose point of delivery is located within the limits of Austin Energy's service territory. The rate tables below reflect rates with effective dates of November 1, 2018.

### Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

All demand (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor corrections.

When the power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 31,000 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 32,068 kW ( $31,000 \text{ kW} \times 0.90 / 0.87$  power factor).

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

### Discounts:

For any Independent School District, Military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

### Rider Schedules:

Service under this rate schedule is eligible for application of the GreenChoice® Rider and Load Shifting Voltage Discount Rider.

## Transmission Voltage

These rates apply to any customer whose metered demand is at 69,000 volts or above nominal line to line.

### *Standard Rates*

This is the default rate option under this schedule.

	<b>Inside City Limits</b>	<b>Outside City Limits</b>
<b>Basic Charges</b>		
<i>Customer (\$/month)</i>	\$2,750.00	\$2,750.00
<i>Delivery (\$/kW)</i>	\$0.00	\$0.00
<b>Demand Charges (\$/kW)</b>

<b>Regulatory Charge (\$/kW)</b>		
<i>Billed kW</i>	\$3.61	\$3.61

## High Load Factor Transmission Voltage (Demand greater than or equal to 20 MW)

This rate applies to any customer whose average monthly billed demand for power met or exceeded 20,000 kW and has an annual average monthly load factor of at least 85 percent.

### Contract Term:

For a term ending at the end of the billing month that includes October 31, 2024, the customer shall enter into an exclusive sole supplier agreement to purchase its entire bundled electric service requirements for the facilities and equipment at the account service location, with an exception for on-site back-up generation and up to 1 MW of on-site renewable generation capacity. The City Manager or his designee may establish and agree to terms and conditions for a service contract consistent with this rate schedule.

### Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the customer's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the customer's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the customer may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

**Minimum Bill:**

The minimum monthly bill is the highest billed demand established during the most recent 12-month billing period multiplied by the Summer Demand Charge, in addition to any associated fuel, power supply, or block pricing charges.

**Maximum Community Benefit Charges:**

During the term of a service contract, Customer Assistance Program charges shall not exceed \$200,000 during any calendar year (prorated for any partial year). Charges for Service Area Lighting and Energy Efficiency Services (EES) do not apply under this rate schedule.

**Terms and Conditions:**

This schedule is effective through the end of the customer's billing month that includes October 31, 2024. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. The customer is ineligible for participation in energy efficiency, retail demand response, and renewable energy incentive programs. Billed amounts due and owing shall incur a penalty of one percent per month until paid.

Average annual monthly load factor is the sum of the customer's load factor percentages for the previous twelve billing months divided by twelve. Verified reductions in energy consumption made in response to a request for Emergency Response Service or another demand response program operated by ERCOT shall be credited in calculating load factor.

***Standard Rates***

Basic, energy, demand, and applicable community benefits charges will be fixed for the initial contract period ending October 31, 2018, at which time; they are reset to the most recent cost of service study unity rates. The Austin City Council may amend these charges to be fixed for the period November 1, 2018, through October 31, 2021, and again for the period November 1, 2021, through October 31, 2024. PSA and Regulatory charges will be set in accordance with their appropriate rate schedules.

If, during the initial contract period ending October 31, 2018, the City Council adopts new base electric rates for customers receiving service at transmission voltage based upon a comprehensive cost-of-service study, the customer may opt to have its contract rates adjusted to any applicable new rates during the initial contract term.

<b>Basic Charges</b>	
<i>Customer (\$/month)</i>	\$21,120.00
<b>Demand Charges (\$/kW)</b>	
<i>Billed kW</i>	\$11.15
<b>Energy Charges (\$/kWh)</b>	

<i>Billed kWhs</i>	\$0.00000
<b>Power Supply Adjustment Charge (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.02793
<b>Community Benefit Charges (\$/kWh)</b>	
<i>Customer Assistance Program</i>	\$0.00058
<b>Regulatory Charge (\$/kW)</b>	
<i>Billed kW</i>	\$3.61

## Lighting

### Application:

Applies to any customer whose point of delivery is located within the limits of Austin Energy's service territory. For non-metered lighting accounts, the supply of electricity is determined by the number of hours of operation based on hours of darkness. The rate tables below reflect rates with effective dates of November 1, 2018.

### Character of Service:

Service provided under these rate schedules are pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule remain unaffected by the application of any rider.

For information on other applicable rates (i.e., power supply adjustment, community benefit, and regulatory), please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

### Discounts:

For any Independent School District, Military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

### Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider.

## **Customer-Owned, Non-Metered Lighting**

This rate applies to non-metered electric service to the Texas Department of Transportation for sign lighting and safety illumination at various locations.

<b>Energy Charges (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.02604
<b>Power Supply Adjustment Charge (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.02895

## **Customer-Owned, Metered Lighting**

This rate applies to electric service to metered athletic field accounts whose connected load is more than 85 percent attributable to lighting, as verified by Austin Energy.

<b>Basic Charges (\$/month)</b>	
<i>Customer</i>	\$15.00
<i>Delivery</i>	\$0.00
<b>Energy Charges (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.06175
<b>Power Supply Adjustment Charge (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.02895

### City of Austin - Owned Outdoor Lighting

This rate applies to electric service to non-metered outdoor lighting owned and operated by the City of Austin other than Service Area Lighting.

<b>Fixture Charges (\$/fixture/month)</b>	
<i>100 Watt or Less (Billable 35 kWh)</i>	\$7.03
<i>101 - 175 Watt (Billable 60 kWh)</i>	\$12.05
<i>176 - 250 Watt (Billable 90 kWh)</i>	\$18.07
<i>251 Watt or Greater (Billable 140 kWh)</i>	\$28.12
<b>Power Supply Adjustment Charge (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.02895

### Service Area Lighting

This rate applies to electric service for illumination and the operation of traffic signals on all public streets, highways, expressways, or thoroughfares; other than non-metered lighting maintained by the Texas Department of Transportation. Revenues received through the Service Area Lighting component of the Community Benefit Charge are applied to offset these charges inside the City of Austin.

<b>Energy Charges (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.23219
<b>Power Supply Adjustment Charge (\$/kWh)</b>	
<i>Billed kWhs</i>	\$0.02895

## Power Supply Adjustment

### Application:

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated. The rates for this pass-through charge are effective November 1, 2018.

### Character of Service:

The Power Supply Adjustment (PSA) provides for the recovery of the preceding year's expenditures for (PSA Costs):

- Electric Reliability Council of Texas (ERCOT) Settlements – charges and credits from ERCOT, other than the Administrative Fees.
- Fuel Costs – costs for fuel, fuel transportation, and hedging gains and losses.
- Net Purchased Power Agreement Costs – costs and offsetting revenues (such as, bilateral sales and GreenChoice) associated with short- and long-term purchased power agreements, and costs for distributed generation production.

As part of the City of Austin's annual budgeting process, which includes a public hearing, the PSA is determined by calculating the sum of all net power supply costs divided by the historical twelve-month period service territory sales, plus any existing over- or under-recovery of PSA Costs balance divided by projected service territory sales preceding the effective date of the PSA. This results in an annual uniform system rate per kWh that is adjusted for voltage level and applied to each of the customer classes.

At least once each year, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA by system voltage level. The PSA Cost calculation will break out Fuel Costs, ERCOT Settlements, and Net Purchased Power Agreement Costs; it will also show the extent of over- or under-recovery of PSA Costs for the previous twelve months.

From the effective date of the last PSA adjustment, the PSA may be adjusted to eliminate any over- or under-recovery if the balance of net PSA Costs recovered is either over or under 10 percent of the actual PSA Costs incurred during such period. If such over- or under-recovery is projected to remain either over or under 10 percent after 12 months from the effective date of the last PSA adjustment, then the PSA shall be adjusted to eliminate the amount of the over- or under-recovery balance within the next 12 months. Within 30 days of any adjustment of the PSA to eliminate over- or under-recovery of PSA Costs, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA, both pre- and post-adjustment by system voltage level.

The PSA charges by voltage level are:

<b>Voltage Level</b>	<b>Adjustment Factor</b>	<b>Power Supply Rate (\$/kWh)</b>
<i>System Average</i>	1.0000	\$0.02880
<i>Secondary</i>	1.0049	\$0.02895
<i>Primary</i>	0.9821	\$0.02829
<i>Transmission</i>	0.9696	\$0.02793

## Community Benefit Charge

### Application:

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated. The rates for this pass-through charge are effective November 1, 2018.

### Character of Service:

The Community Benefit Charge recovers certain costs incurred by the utility on behalf of Austin Energy's service area customers and the greater community. This charge is determined through the City budget process and applied by system voltage level. The charge includes three specific programs and services provided to customers.

1. Service Area Lighting (SAL) recovers the cost of street lighting (other than lighting maintained by Texas Dept. of Transportation), the operation of traffic signals located inside Austin Energy's service territory, and certain lights owned by the City of Austin and operated on behalf of the City's Parks and Recreation Department. Customers whose point of delivery is located outside the city limits of Austin are not subject to the Service Area Lighting component of the Community Benefit Charge.
2. Energy Efficiency Services (EES) recovers the cost of energy efficiency rebates and related costs, solar incentives, and the Green Building program offered by Austin Energy throughout its service area.
3. The Customer Assistance Program (CAP) funds projects that help qualifying low-income and other disadvantaged residential customers through bill discounts, payment assistance (Plus 1), arrearage management (available only for customers receiving the CAP discount), and weatherization services. Funding for CAP is provided through the CAP component of the Community Benefit Charge and unexpended and re-appropriated funds.

Information regarding CAP shall be made available quarterly, including the number of residential customers enrolled automatically and through self-enrollment, the total and average amount of benefits provided, and the number of residential customers referred to the low-income weatherization program. With Council approval, funds unspent at the end of a fiscal year shall be rolled over to the next fiscal year's budget for the CAP program.

Rate Schedules	Service Area Lighting	Energy Efficiency Services	Customer Assistance Program
<b>Secondary Voltage (Residential) (\$/kWh)</b>			
<i>Inside City Limits</i>	\$0.00124	\$0.00335	\$0.00154
<i>Outside City Limits</i>	\$0.00000	\$0.00335	\$0.00106
<b>Secondary Voltage (Non-Residential) (\$/kWh)</b>			
<i>Inside City Limits</i>	\$0.00124	\$0.00335	\$0.00058
<i>Outside City Limits</i>	\$0.00000	\$0.00335	\$0.00058
<b>Primary Voltage (\$/kWh)</b>			
<i>Inside City Limits</i>	\$0.00122	\$0.00327	\$0.00058
<i>Outside City Limits</i>	\$0.00000	\$0.00327	\$0.00058
<b>Transmission Voltage (\$/kWh)</b>			
<i>Inside City Limits</i>	\$0.00120	\$0.00323	\$0.00058

<i>Outside City Limits</i>	\$0.00000	\$0.00323	\$0.00058
<b>Primary and Transmission Voltage <math>\geq</math> 20 MW @ 85% aLF (\$/kWh)</b>			
<i>Inside City Limits</i>	\$0.00000	\$0.00000	\$0.00058
<i>Outside City Limits</i>	\$0.00000	\$0.00000	\$0.00058

## Regulatory Charges

Application:

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated. The rates for this pass-through charge are effective November 1, 2018.

Character of Service:

The Regulatory Charge recovers the following costs, excluding any costs recovered through the closed Fuel Adjustment Clause: 1) ERCOT transmission service charges and credits; 2) NERC/TRE regulatory fees and penalties; 3) the ERCOT Nodal and Administrative Fees; and 4) other material regulatory fees or penalties specific to the electric industry. The Regulatory Charge is applied by system voltage level on either an energy or demand basis and may be adjusted to eliminate any over- or under-recovery on a system basis. Changes to the Regulatory Charge shall be determined after notice and public hearing as required by City code.

<b>Voltage Level</b>	<b>Regulatory (Energy) (\$/kWh)</b>	<b>Regulatory (Demand) (\$/kW)</b>
<i>Secondary</i>	\$0.01342	\$3.74
<i>Primary</i>	N/A	\$3.66
<i>Transmission</i>	N/A	\$3.61

## Standby Capacity

### Application:

These rates apply to electric service for standby power provided by Austin Energy during a scheduled or unscheduled outage of customer's production facilities whose point of delivery is located within the limits of Austin Energy's service territory.

### Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

The Standby Capacity will be equivalent to the maximum demand of the load to be served by Austin Energy during a scheduled or unscheduled outage of the customer's power production facilities or as stipulated in the contract between Austin Energy and the customer.

Customer will be assessed a monthly Minimum Bill equal to the Standby Capacity Rate times the Standby Capacity.

Voltage Level	Monthly Standby Capacity Rate (\$/kW)
<i>Primary</i>	\$2.80
<i>Transmission</i>	\$2.60

## **Rider Rate Schedules**

### **Application:**

These rider rates apply to electric service whose point of delivery is located within the limits of Austin Energy's service territory.

### **Character of Service:**

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### **Terms and Conditions:**

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

## **GreenChoice® Rider**

Subscriptions under the GreenChoice® program support Austin Energy's inclusion of renewable fuel sources in its power generation portfolio. This energy cannot be directed to any one particular destination on the Electric Reliability Council of Texas electric grid, including participant's premises.

### Application:

This rider applies to electric service to a customer subscribed to the City of Austin's GreenChoice® program.

### Terms and Conditions:

A customer's account must be in good standing. In addition, some subscriptions allow for the qualification of accolades. If in the event of a conflict with this rider, the terms of a subscription contract in effect shall prevail. The General Manager of Austin Energy shall develop the contract terms and conditions for subscriptions.

Unless otherwise specified in a subscription contract in effect on September 30, 2013, for Batches 5 or 6 subscriptions, the GreenChoice® Charges will be applied to 100 percent of the customer's energy usage through the Batch's end date. Batches 5 and 6 are closed to additional subscriptions.

For Residential SmartCents or Commercial BusinessCents subscriptions, the GreenChoice® Charges will be applied to 100 percent of the customer's energy usage. Both SmartCents and BusinessCents are non-contract subscriptions with no penalty for unsubscribing.

For Commercial Energizer subscription, the GreenChoice® Charge will be applied to 100 percent of the customer's energy usage. Energizer is a 12-month contract subscription that converts a month-to-month subscription after the contracts end date; after this term expiration the customer may re-subscribe to a new subscription product.

For all Commercial Patron 15 or 17 subscriptions, the GreenChoice® Charges will be applied to each customer's account for a specified amount of energy usage of at least 100,000 kilowatt-hours per billing month, up to 100 percent of the customer's energy usage. Any commercial customer is eligible with a minimum of 1.2 MWh annual load on one or a combination of accounts. Patron subscriptions are written contracts with specific end dates at a fixed charge; after the expiration the customer may re-subscribe to a new subscription product. Customers may not unsubscribe from the program at any time prior to the expiration of their contract.

### GreenChoice® Charges:

While subscribed to the GreenChoice® program, a customer will be billed GreenChoice® Charge in lieu of the Power Supply Adjustment (PSA) that would otherwise apply to the customer's subscribed energy usage, unless otherwise noted in the appropriate rate schedule.

<b>Subscription Type</b>	<b>GreenChoice® Charges (\$/kWh)</b>
<b>Effective Dates before October 1, 2013</b>	
<i>Batch 5 (End Date December 31, 2022)</i>	\$0.055000
<i>Batch 6 (End Date December 31, 2021)</i>	\$0.057000
<b>Effective Date January 1, 2017</b>	
<i>Residential SmartCents (No Contract)</i>	PSA amount plus \$0.00750
<i>Commercial BusinessCents (No Contract)</i>	PSA amount plus \$0.00750
<i>Commercial Energizer (12-Month Contract)</i>	PSA amount plus \$0.00750
<i>Commercial Patron 15 (End Date December 31, 2019)</i>	\$0.04400
<i>Commercial Patron 17 (End Date December 31, 2021)</i>	\$0.03800

## Value-Of-Solar Rider

### Application:

Applies to any electric service account, excluding transmission voltage and lighting accounts, that has an on-site solar photovoltaic system that has a capacity less than 10,000 kW-ac interconnected with Austin Energy's distribution system behind the master meter ("Solar Customer"); or customers recognized by Austin Energy as a "Shared Solar Customer" where an assigned portion of metered solar production from a designated on-site photovoltaic system is allocated to the Shared Solar Customer's account. The rates for this rider are effective January 1, 2018.

### Terms and Conditions:

Billable kilowatt-hour shall be based on metered energy delivered by Austin Energy's electric system and the metered energy consumed from an on-site solar system; also known as, the total metered energy consumption during the billing month. All non-kWh-based charges set out in the underlying service rate schedules shall remain unaffected by the application of this rider.

For each billing month, the Solar Customer shall receive a non-refundable, non-transferable credit equal to the metered kilowatt-hour output of the customer's photovoltaic system multiplied by the current applicable Value-of-Solar rate.

For each billing month, the Shared Solar Customer shall receive a non-refundable, non-transferable credit equal to the customer's proportional amount of the metered kilowatt-hour output of the designated photovoltaic system multiplied by the current applicable Value-of-Solar rate.

Credits are applicable to the customer's total monthly bill for electric service in the customer's name on the same premise and account where the on-site solar photovoltaic system is associated. Any remaining credit amount shall be carried forward and applied to the customer's next electric service bill. In the event of service termination, the customer will forfeit any remaining credit balance, and the credit balance will be applied to the Power Supply Adjustment (PSA) to reduce net purchased power costs.

The Value-of-Solar rates, methodology, and inputs will be re-assessed and updated during Austin Energy's cost of service study using the calculations outlined in Appendices A, B, and C of this tariff.

The Value-of-Solar rates below are tariff riders. Customers receiving service under either Non-Demand or Demand Value-Of-Solar Riders cannot combine services with the Load Shifting Voltage Discount Rider. Renewable Energy Credits (RECs) and all other renewable energy attributes for generation receiving Value-of-Solar credits are aggregated by Austin Energy. All RECs for energy consumed onsite will be retired on behalf of the solar customer.

Rate Schedule Type	Value-of-Solar Rate (\$/kWh)
<i>Non-Demand</i>	\$0.09700
<i>Demand (Solar capacity less than 1,000 kW-ac)</i>	\$0.06700
<i>Demand (Solar capacity greater than or equal to 1,000 kW-ac)</i>	\$0.04700

## Community Solar Rider

### Application:

Applies to any Residential Service account that subscribes to a community solar program, and is available on a first-come, first-served basis, until the program is fully subscribed. Once fully subscribed, no new customers will be allowed to take service under this rider until additional community solar projects are added to the program.

### Terms and Conditions:

Customer subscription must be for 100 percent of the customer's master revenue meter's monthly energy usage. Customers may unsubscribe at any time; however, a customer that unsubscribes may not re-subscribe for Community Solar Rider for a period of 12 months. Service under this rider is considered portable within Austin Energy's service territory, meaning that if a customer subscribes at one premise and moves to another, the customer may remain a subscriber. Subscriptions support Austin Energy's inclusion of local community solar photovoltaic systems in its power generation portfolio.

Customer receiving service under the Community Solar Rider cannot combine services with the Value-of-Solar Rider or GreenChoice® Rider; or participate in any time-of-use rates.

### Discounts:

Eligible residential Customer Assistance Program (CAP) participants that subscribe to community solar qualify for a reduced Community Solar Adjustment charge.

### Community Solar Charges:

While subscribed to the Community Solar program, a customer will be billed a Community Solar Adjustment in lieu of the Power Supply Adjustment (PSA) that would otherwise apply to the customer's subscribed energy usage.

<b>Subscriber Eligibility</b>	<b>Effective Date</b>	<b>Community Solar Adjustment (\$/kWh)</b>
<i>Residential Service</i>	<i>January 1, 2017</i>	\$0.04270
<i>Residential CAP Participants</i>	<i>February 1, 2018</i>	\$0.02770

## Load Shifting Voltage Discount Rider

### Application:

Applies to any non-residential customer who, at a minimum, shifts 30 percent of the customer's normal annual monthly average on-peak billed demand using storage technologies (*e.g.*, thermal energy storage) and whose point of delivery is located within the limits of Austin Energy's service territory. "Normal on-peak billed demand" is defined as the maximum-billed demand recorded prior to taking service on this discount rider rate schedule, and corresponding energy, during the last 12-month period, or as may be determined by Austin Energy.

### Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

The load shifting voltage discount rider rate schedule will be applied to the underlying rates within the standard rate schedules for which the customer's load and voltage would qualify. Customer shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

The Billed kW used to determine the Electric Delivery, the Demand, and Regulatory Charges shall be based on the highest 15-minute metered demand recorded during the Load Shifting on-peak period and adjusted for power factor. The Energy Charge shall be based on all energy consumption during the Load Shifting on-peak period. All other Charges (*i.e.*, PSA, CBC, etc.) will be billed at the underlying rates schedules based on all consumption.

The load shifting on-peak period load shall be shifted, not eliminated, nor replaced by the use of alternative fuels. There is no load forgiveness for operations during on-peak periods. Customers receiving service under this rate schedule are not eligible for any other forms of discounts; except for service to a facility owned and operated by the State of Texas or the Board of Regents of the University of Texas System. In addition, customer receiving service under Load Shifting Voltage Discount Rider cannot combine services with either Non-Demand or Demand Value-Of-Solar Riders. For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

### Load Shifting Periods

	Time Periods	Annual
<b>Demand</b>		
<i>On-Peak</i>	3:00 P.M. – 6:00 P.M.	Everyday
<i>Off-Peak</i>	6:00 P.M. – 3:00 P.M.	
<b>Energy</b>		
<i>On-Peak</i>	7:00 A.M. – 10:00 P.M.	Everyday
<i>Off-Peak</i>	10:00 P.M. – 7:00 A.M.	

## Electric Vehicle Public Charging Program

### Application:

This service area program rate schedule applies to electric service whose point of delivery is located within the limits of Austin Energy's service territory.

### Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

### Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

This rate schedule applies to electric service to a customer using a public electric vehicle charging station under the Electric Vehicle Public Charging program. For subscription members, charging is a fixed six-month fee that allows unlimited charging on all charging station types (*e.g.*, Level 2 or DC Fast). For non-subscription members, charging is based on the charging station type, for which, a per minute rate is applied for the entire duration that the electric vehicle is connected to the charging station, referred to as 'plug-in to plug-out'.

<b>Subscription Members</b>	
<i>Unlimited Charging (\$/six-months)</i>	\$23.095
<b>Non-Subscription Members: Plug-in to Plug-out</b>	
<i>Level 2 Charging (\$/minute)</i>	\$0.03
<i>DC Fast Charging (\$/minute)</i>	\$0.21

## **Pilot Programs**

### **Application:**

Each individual pilot program described in this rate schedule will be limited to a participation of 100 individual meters on a first-come, first-served basis, unless stated otherwise on the applicable rate schedule. At any time, Austin Energy may administratively suspend availability of these pilot programs or modify the number of individual meters allowed to participate.

The pilot time-of-use power supply rates will be applied to the underlying standard rate schedules for which the customer's characteristics, load, and voltage would qualify, but with the time based power supply charge identified below in lieu of the power supply adjustment rates. All character of services, terms, conditions, and discounts from the underlying standard rate schedule apply, unless specifically modified by the terms of the pilot program.

### **Terms and Conditions:**

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under these rate schedules are unaffected by the application of any rider.

Pilot programs availability is contingent upon Austin Energy's operational feasibility, system configuration, availability of appropriate meters, and the customer's premise. Customers selecting these rate options are not eligible to participate in levelized billing. For information on rates (*i.e.*, power supply adjustment, community benefit, and regulatory) prior to this effective date, please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Customers are advised to conduct their own independent research before deciding to participate in a pilot program. By participating in a pilot program, the customer also agrees to participate in Austin Energy's load research efforts by allowing the customer's data to be collected. Austin Energy's use of such load research data will be strictly limited to the provision of electric service. Austin Energy will not disclose, share, rent, lease, or sell such data to any third party or affiliate for any other purpose, without the customer's express written consent.

At Austin Energy's sole discretion, during extreme unforeseen circumstances, the customer may be allowed to prematurely stop receiving service pursuant to these riders without being back billed or have the termination fee waived.

## **Residential Service**

### **Application:**

These pilot programs' rate schedules apply to electric service for domestic purposes in each individual metered residence, apartment unit, mobile home, or other dwelling unit whose point of delivery is located within the limits of Austin Energy's service territory.

### **Rider Schedules:**

Services under these rate schedules are eligible for application of GreenChoice® Rider, Community Solar Rider, and Non-Demand Value-Of-Solar Rider, unless stated otherwise on their applicable rate schedule. Application of GreenChoice® Rider and Community Solar Rider will be applied to all energy consumption in addition to applicable power and fuel charges. Customer receiving service under the

Community Solar Rider cannot combine services with either the Non-Demand Value-of-Solar Rider or GreenChoice® Rider.

### *Time-Of-Use Rates*

Customers receiving service under the Residential Service rate schedule may choose the following time-of-use power supply charges in lieu of the normal power supply adjustment rates to be applied for a term of no less than 12 consecutive billing cycles. If a customer elects to stop receiving service pursuant to this rider before the conclusion of the initial 12 consecutive billing cycles, Austin Energy will calculate what the customer's bills would have been using the Residential Service power supply adjustment rates. If the application of these rates result in a higher bill, the customer will be back billed for difference between this higher amount and the amount paid pursuant to this rider.

#### Power Supply Periods:

<b>Weekdays</b>	
<i>Off-Peak</i>	10:00 P.M. – 7:00 A.M.
<i>Mid-Peak</i>	7:00 A.M. – 3:00 P.M., 6:00 P.M. – 10:00 P.M.
<i>On-Peak</i>	3:00 P.M. – 6:00 P.M.
<b>Weekends</b>	
<i>Off-Peak</i>	Entire Day

#### Time-Of-Use Power Supply Charges

	<b>Summer</b>		<b>Non-Summer</b>	
	(June through September)		(October through May)	
<b>Power Supply Charges (\$/kWh)</b>				
<i>Weekdays</i>				
	<i>Off-Peak</i>	\$0.02893		\$0.02732
	<i>Mid-Peak</i>	\$0.02915		\$0.02952
	<i>On-Peak</i>	\$0.05867		\$0.03196
<i>Weekends</i>				
	<i>Off-Peak</i>	\$0.02893		\$0.02732

### *EV360<sup>SM</sup> Plug-In Electric Vehicle Charging Rates*

#### Application:

For a separate residential meter circuit (installed at the customer's expense) attached to an in-home electric vehicle level 1, or higher, charging station for charging a plug-in electric vehicle (PEV).

Customers receiving service under this rate schedule may choose the following electric vehicle charges to be applied for a term of no less than 12 consecutive billing cycles. If the customer elects to terminate participation in the program, the customer must pay an early termination fee of \$200.00. This rate schedule includes unlimited customer access to public electric vehicle charging station under the Electric Vehicle Public Charging rate schedule.

Terms and Conditions:

These charges are in addition to any other services the premise might be receiving. Customers served under this rate schedule will be provided separate primary meter billing amounts and PEV meter billing amounts in their electric bills. The customer's primary metered usage is billed according to the primary rate schedule selected by the customer. The customer's PEV usage is billed according to this residential PEV schedule. The PEV meter billed amount will be based upon data delivered to Austin Energy.

All in-home electric vehicle charging must be done during off-peak periods; otherwise, any energy consumption during on-peak periods will be multiplied by Power Supply Charges.

A one-time enrollment payment of \$150 will be applied.

Customers receiving PEV charging station service are not eligible for any discounts under this rate schedule. Application of GreenChoice® Rider and Community Solar Rider will be applied to all energy consumption from the PEV meter in addition to Power Supply Charges.

Time Periods:

<b>Weekdays</b>	
<i>Off-Peak</i>	7:00 P.M. – 2:00 P.M.
<i>On-Peak</i>	2:00 P.M. – 7:00 P.M.
<b>Weekends</b>	
<i>Off-Peak</i>	Entire Day

PEV Charging Station Charges

	<b>Summer</b> (June through September)	<b>Non-Summer</b> (October through May)
<b>Basic Charges (\$/month)</b>		
<i>Delivery</i>		
<i>Demand (&lt; 10 kW)</i>	\$30.00	\$30.00
<i>Demand (≥ 10 kW)</i>	\$50.00	\$50.00
<b>Power Supply Charges (\$/kWh)</b>		
<i>Weekdays</i>		
<i>Off-Peak</i>	\$0.00000	\$0.00000
<i>On-Peak</i>	\$0.40000	\$0.14000
<i>Weekends</i>		
<i>Off-Peak</i>	\$0.00000	\$0.00000

## General Service

### Application:

Applies to all metered, non-residential voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. Service is available to all secondary voltage general service, and primary voltage large general service with demand less than 3,000 kW.

### Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider and either Non-Demand or Demand Value-Of-Solar Riders. Application of GreenChoice® Rider will be applied to all energy consumption in addition to applicable time based power supply charges.

### *Time-Of-Use Rates*

Customers receiving service under the Standard Rates under the General and Large General Service rate schedules may choose the following time-of-use power supply charges in lieu of the normal power supply adjustment rates to be applied for a term of no less than 12 consecutive billing cycles. If a customer elects to stop receiving service pursuant to this rider before the conclusion of the initial 12 consecutive billing cycles, Austin Energy will calculate what the customer's bills would have been using the applicable General and Large General Service power supply adjustment rates. If the application of these rates result in a higher bill, the customer will be back billed for difference between this higher amount and the amount paid pursuant to this rider.

### *Nights and Weekends*

#### Power Supply Periods:

<b>Weekdays</b>	
<i>Off-Peak</i>	10:00 P.M. – 7:00 A.M.
<i>On-Peak</i>	7:00 A.M. – 10:00 P.M.
<b>Weekends</b>	
<i>Off-Peak</i>	Entire Day

#### Time-Of-Use Power Supply Charges

		<b>Year-round</b>
<b>Power Supply Charges (\$/kWh)</b>		
<i>Weekdays</i>		
	<i>Off-Peak</i>	\$0.00000
	<i>On-Peak</i>	\$0.03994
<i>Weekends</i>		
	<i>Off-Peak</i>	\$0.00000

### *Critical Peak Pricing*

Power Supply Periods:

<b>Weekdays</b>	
<i>Off-Peak</i>	6:00 P.M. – 4:00 P.M.
<i>On-Peak</i>	4:00 P.M. – 6:00 P.M.

<i>Weekdays</i>			
	<i>Off-Peak</i>	\$0.02840	\$0.02643
	<i>On-Peak</i>	\$0.06573	\$0.04128
<i>Weekends</i>			
	<i>Off-Peak</i>	\$0.02840	\$0.02643

## State of Texas Contract Service

Beginning June 1, 2017, this rate applies to service to a facility owned and operated by the State of Texas or the Board of Regents of the University of Texas System (collectively “State”) that receives service at secondary or primary voltages with a demand equal to or greater than 500 kilowatts. A State account may be included under the service contract if: 1) it qualifies for service under the Large Service Contract schedule on May 31, 2017; or 2) at the start of the first billing month after it has reached a monthly peak demand of at least 500 kW twice during the preceding 12 billing months.

### Contract Term:

To receive service under this rate schedule the State must enter into an exclusive sole supplier service contract to purchase its entire bundled electric service requirements within Austin Energy’s service area, with an exception for on-site back-up generation and up to one megawatt of on-site renewable generation capacity or entirety self-generation for standby rates. The contract term shall run from June 1, 2017, through the billing month that includes August 31, 2026. The City Manager or his designee may establish and agree to terms and conditions for a service contract consistent with this rate schedule.

### Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the State’s service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the State’s satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the State may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

### Community Benefit Charges:

Rebates received by the State for energy efficiency measures may be applied at the State’s option as a reduction to the monthly electric bill for the facility that implemented the measures. The State’s service contract may provide for additional engineering and staff support from Austin Energy for the identification of energy efficiency projects at State facilities. Charges for Service Area Lighting (SAL) and Customer Assistance Program (CAP) do not apply to service under this rate schedule.

### Terms and Conditions:

This schedule is effective through the end of the State’s billing month that includes August 31, 2026. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. Dual Feed Service charges are not applicable to a facility receiving service under this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

If the State is required by state or federal law to act in a manner inconsistent with the terms of this rate schedule or its service contract, then the State may upon prior written notice to Austin Energy cancel, or modify in whole or in part, this Service Contract as necessary to comply with state or federal law.

For purposes of this rate schedule the State does not include a conservation and reclamation district created pursuant to Article XVI, Section 59 of the Texas Constitution. The State may opt to terminate its service contract if the City adopts a rate schedule that offers more favorable rates, terms, or conditions than provided by this rate schedule and that describes a customer class for which the State's secondary or primary voltage service accounts qualify. The State may exercise this option by providing written notice of its intent to Austin Energy and by executing the written agreement, if any, required to receive service under the new tariff.

### *Standard Rates*

Basic, energy, demand, and applicable community benefits charges will be fixed for the initial service contract period ending August 31, 2021, as set forth in Ordinance No. 20160829-004. The Austin City Council may amend these charges to be fixed for the period September 1, 2021, through August 31, 2023, and again for the period September 1, 2023, through August 31, 2026. PSA charge will be set in accordance with the appropriate rate schedule.

If, during the initial service contract period ending August 31, 2021, the City Council adopts new base electric rates for State accounts receiving service contract at secondary, primary, or transmission voltages based on a comprehensive cost-of-service study, the State may opt to have its contract rates adjusted to any new rate for which an account would qualify during the initial contract term.

Regulatory charge will remain fixed for the initial contract period ending August 31, 2021. For the periods of September 1, 2021, through October 31, 2023, and September 1, 2023, through August 31, 2026, the regulatory charge will be reset and fixed in accordance with the regulatory charge schedule, plus an adjustment for any over- or under-recovery of regulatory charges from the previous contract period. The regulatory charge may be adjusted during any two-year period if an over-recovery of more than 110 percent or an under-recovery of less than 90 percent of costs occurs. Regulatory charges may vary in accordance with executed contracts.

## Appendices

### Appendix A

#### *Non-Demand Value-Of-Solar Assessment*

The Non-Demand Value-of-Solar, previously known as the “Value-of-Solar Rider,” is a rate schedule rider that has historically been set annually through Austin Energy’s budget approval process. The rate is based on the average of the annual Value-of-Solar assessment of the prospective year and the previous four years’ Value-of-Solar assessments based on the following methodology. Starting on January 1, 2018, the rate will be held constant; the methodology and inputs will be reviewed and updated during regular Austin Energy cost of service studies using the calculations outlined below, and any changes will be proposed through subsequent rate case proceedings:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from forward projections of ERCOT wholesale price based on future natural gas prices.	$\left[ \frac{\sum (\text{Implied Heat Rate} * \text{Gas Price} * \text{PV Production} * \text{Risk Free Discount Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount actor})} \right] * (1 + \text{Loss Factor})$
Plant O&M Value	Estimated avoided cost associated with natural gas plant operations and maintenance by meeting peak load through customer-sited renewable resources.	$\frac{(\sum (\text{O \& M Cost} * (1 + \text{Inflation})^{\text{year}} * \text{PV Capacity} * \text{Risk Free Discount Factor})) * (1 + \text{Loss Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})}$
Generation Capacity Value	Estimated avoided cost of capital by meeting peak load through customer-sited renewable resources, inferred from ERCOT market price data.	$\frac{(\sum (\text{Annual Capital Carrying Cost} * \text{PV Capacity} * \text{Risk Free Discount Factor})) * \text{Load Match} * (1 + \text{Loss Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})}$
Transmission and Distribution Value	Estimated savings in transmission costs resulting from the reduction in the peak load by locally-sited renewable resources, and savings or costs related capital investments to distribution grid.	$\frac{(\sum (\text{Transmission Cost} * \text{PV Capacity} * \text{Risk Free Discount Factor})) * \text{Load Match} * (1 + \text{Loss Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})}$ <ul style="list-style-type: none"> <li>- Where <b>Transmission Cost</b> is Austin Energy’s contribution to ERCOT Transmission Cost of Service (TCOS).</li> <li>- <i>N.B.:</i> Distribution value is currently not calculated, but will need further review as solar penetration increases.</li> </ul>
Environmental Value	Estimated avoided emissions cost to comply with local policy objectives.	Set at \$0.015 per kWh based on estimated avoided emissions at Austin Energy emission rate and priced at the societal cost of carbon.

### Historical Values

Effective Date	Value-of-Solar Assessment (\$/kWh)	Value-of-Solar Rate (\$/kWh)
October 1, 2012	\$0.12800	\$0.12800
January 1, 2014	\$0.10700	\$0.10700
January 1, 2015	\$0.10000	\$0.11300
January 1, 2016	\$0.09700	\$0.10900
January 1, 2017	\$0.09700	\$0.10600
January 1, 2018	\$0.08500	\$0.09700

### Appendix B

#### Demand Value-Of-Solar Assessment: Capacity less than 1,000 kW-ac

The methodology and inputs will be reviewed and updated during regular Austin Energy cost of service studies using the calculations outlined below; and any changes will be proposed through subsequent rate case proceedings:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from forward projections of ERCOT wholesale prices based on future natural gas prices and scarcity premium using ERCOT historical wholesale market prices.	$\left[ \frac{\sum (\text{Effective Implied Heat Rate} * \text{Gas Price} * \text{PV Production} * \text{Risk Free Discount Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})} \right] * (1 + \text{Loss Factor})$ <p>- Where <i>Effective Implied Heat Rate</i> = <i>Forward Implied Heat Rate</i> + <i>Scarcity Premium</i></p>
Transmission and Distribution Value	Estimated savings in transmission costs resulting from the reduction in the peak load by locally-sited renewable resources, and savings or costs related capital investments to distribution grid.	$\frac{(\sum (\text{Transmission Cost} * \text{PV Capacity} * \text{Risk Free Discount Factor})) * \text{Load Match} * (1 + \text{Loss Factor})}{\sum (\text{PV Production} * \text{Risk Free Discount Factor})}$ <p>- Where <b>Transmission Cost</b> is Austin Energy's contribution to ERCOT Transmission Cost of Service (TCOS).  - N.B.: Distribution value is currently not calculated, but will need further review as solar penetration increases.</p>
Environmental Value	Estimated avoided emissions cost to comply with local policy objectives.	Set at \$0.015 per kWh based on estimated avoided emissions at Austin Energy emission rate and priced at the societal cost of carbon.

## Appendix C

### *Demand Value-Of-Solar Assessment: Capacity greater than or equal to 1,000 kW-ac*

The methodology and inputs will be reviewed and updated during regular Austin Energy cost of service studies using the calculations outlined below; and any changes will be proposed through subsequent rate case proceedings:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from forward projections of ERCOT wholesale prices based on future natural gas prices and scarcity premium using ERCOT historical wholesale market prices.	$\left[ \frac{\sum(\text{Effective Implied Heat Rate} * \text{Gas Price} * \text{PV Production} * \text{Risk Free Discount Factor})}{\sum(\text{PV Production} * \text{Risk Free Discount actor})} \right] * (1 + \text{Loss Factor})$ <p>- Where <i>Effective Implied Heat Rate</i> = <i>Forward Implied Heat Rate</i> + <i>Scarcity Premium</i></p>
Environmental Value	Estimated avoided emissions cost to comply with local policy objectives.	Set at \$0.015 per kWh based on estimated avoided emissions at Austin Energy emission rate and priced at the societal cost of carbon.

## Glossary of Terms

The purpose of this section is for customers to have a better understanding of the terminology used within the electric industry.

### Adjustment Clauses

A provision in Austin Energy's tariff that provides for periodic changes in charges or credits to a customer due to increases or decreases in certain costs over or under those included in base rates.

### Base Rate

That portion of the total electric rate covering the general costs of doing business, except for fuel, purchased power, and other pass-thru expenses.

### Billed Demand

The demand upon which billing to a customer is based, as specified in a rate schedule or contract, metered demand or billed demand may be the metered demand adjusted for power factor as specified in the rate schedule. It may also be based on the contract year, a contract minimum, or a previous maximum that does not necessarily coincide with the actual measured demand of the billing period.

### Customer

A meter, individual, firm, organization, or other electric utility that purchases electric service at one location under one rate classification, contract, or schedule. If service is supplied to a customer at more than one location, each location shall be counted as a separate customer unless the consumptions are combined before the bill is calculated.

### Customer Charge

Customer Charge is a monthly charge to help Austin Energy recover the customer-related fixed costs that reflect the minimum amount of equipment and services needed for customers to access the electric grid. Such costs are billing, metering, collections, customer service, service drops, cost of meters, meter maintenance, and other customer-related costs; these costs vary with the addition or subtraction of customers. These costs do not vary with usage; therefore, it is appropriate to recover these costs in the Customer Charge, rather than Energy Charges.

### Customer Class

The grouping of customers into homogeneous classes. Typically, electric utility customers are classified on a broad category of customer service: residential, general service (commercial), large general service (industrial), lighting, or contract. Some electric systems have individual customers (large users) with unique electric-use characteristics, service requirements, or other factors that set them apart from other general customer classes and thus may require a separate class designation.

### Delivery (Distribution) Charges

The charges on an electric customer's bill for the service of delivering or moving of electricity over the distribution system from the source of generation to the customer's premise; sometimes referred to as Electric Delivery.

### Demand Charges

That portion of the charge for electric service based upon the electric capacity (kW or kVa) consumed and billed based on billing demand under an applicable rate schedule. The cost of providing electrical transmission and distribution equipment to accommodate the customer's largest electrical load during a given period of time.

#### Demand (kW)

The rate at which electricity is being used at any one given time. Demand differs from energy use, which reflects the total amount of electricity consumed over a period of time. Demand is often measured in kilowatts, while energy use is usually measured in kilowatt-hours. The term "load" is considered synonymous with "demand."

#### Electric Meter

A device that measures the amount of electricity a customer uses.

#### Electric Rate

The price set for a specified amount of electricity in an electric rate schedule or sales contract.

#### Electric Reliability Council of Texas (ERCOT)

An independent system operator that schedules power for the region, which represents about 90 percent of the State of Texas's electric load.

#### Energy Charges

That portion of the charge for electric service based upon the electric energy consumed or billed. Electrical energy is usually measured in kilowatt-hours (kWh), while heat energy is usually measured in British thermal units (Btu).

#### Energy Efficiency Programs

Programs sponsored by utilities or others specifically designed to achieve energy efficiency improvements. Energy efficiency improvements reduce the energy used by specific end-use devices and systems, typically without affecting the services provided. These programs reduce overall electricity consumption. Such savings are generally achieved by substituting technically more advanced equipment to produce the same level of end-use services (e.g. lighting, heating, motor drive) with less electricity. Examples include high-efficiency appliances, efficient lighting programs, high-efficiency heating, ventilating and air conditioning (HVAC) systems or control modifications, efficient building design, advanced electric motor drives, and heat recovery systems.

#### Energy Efficiency Service Charge

Charge assessed to customers to offset the cost of energy efficiency program services offered by Austin Energy.

#### Fuel or Power Supply Adjustment (PSA)

A rate schedule that provides for an adjustment to the customer's bill for the cost of power supply.

#### Green Pricing (GreenChoice)

An optional Austin Energy service that allows customers an opportunity to support a greater level of Austin Energy's investment in and/or purchase of power from renewable energy technologies. Participating customers pay a premium on their electric bill to cover the incremental cost of the additional renewable energy.

Inverted Rate Design

A rate design for a customer class for which the unit charge for electricity increases as usage increases.

Kilowatt-hour (kWh)

The basic unit of electric energy equal to one kilowatt of power supplied to or taken from an electric circuit steadily for one hour. One kilowatt-hour equals 1,000 watt-hours. The number of kWhs is used to determine the energy charges on your bill.

Load Factor (LF)

The ratio of the average load in kilowatts supplied during a designated period to the peak or maximum load in kilowatts occurring in that period. Load factor, in percent, is derived by multiplying the kilowatt-hours in the period by 100 and dividing by the product of the maximum demand in kilowatts and the number of hours in the period.

Load Profile

Shows the quantity of energy used by a class of customers at specific time intervals over a 24-hour period.

Load Shifting

Involves shifting load from on-peak to mid- or off-peak periods. Popular applications include use of storage water heating, storage space heating, cool storage, and customer load shifts to take advantage of time-of-use or other special rates.

Megawatt (MW)

One megawatt equals one million watts or 1,000 kWhs.

Megawatt-hour (MWh)

One megawatt-hour equals one million watt-hours or 1,000 kWhs.

Minimum Bill

A minimum charge to a customer during the applicable period of time, which is typically the customer charge. A provision in a rate schedule stating that a customer's bill cannot fall below a specified level. A minimum charge is similar to a customer charge because it is designed to recover fixed costs of services such as meter reading, billing and facilities maintenance. Although this charge does not generally recover the full cost of these services, it does give the customer a price signal that these costs do exist.

Off-Peak

Period of time when the need or demand for electricity on AE's system is low, such as late evenings, nights, weekends, and holidays.

On-Peak

Period of time when the need or demand for electricity on AE's system is high, normally during the late afternoons and early evening hours of the day from Monday through Friday, excluding holidays.

Peak Load Pricing

Pricing of electric service that reflects different prices for system peak periods or for hours of the day during which loads are normally high.

Peak Season Pricing

Pricing of electric service that reflects different prices for system peak seasonal periods.

#### Power Factor (PF)

The ratio of real power (kW) to apparent power (kVA) at any given point and time in an electrical circuit. Generally, it is expressed as a percentage ratio.

#### Power Factor Adjustment

A clause in a rate schedule that provides for an adjustment in the billing if the customer's power factor varies from a specified percentage or range of percentages.

#### Primary Voltage

The voltage of the circuit supplying power to a transformer is called the primary voltage, as opposed to the output voltage or load-supply voltage, which is called secondary voltage. In power supply practice the primary is almost always the high-voltage side and the secondary the low-voltage side of a transformer, except at generating stations.

#### Public Street and Highway Lighting

Electricity supplied and services rendered for the purpose of lighting streets, highways, parks, and for other public places; or for traffic or other signal system service for municipalities, or for other divisions or agencies of State or Federal governments.

#### Rate Schedule

A statement of the rates, charges, and terms and conditions governing the provision of electric service that has been accepted by a regulatory body with established oversight authority.

#### Rate Structure

The design and organization of billing charges to customers. A rate structure can comprise one or more of the rate schedules defined herein.

#### Seasonal Rates

Rate schedules that are structured for the different seasons of the year. The electric rate schedule usually takes into account demand based on weather and other factors.

#### Secondary Voltage

The output voltage or load-supply voltage of a transformer or substation. In power supply practice secondary voltage is generally the low-voltage side of a transformer, except at generating stations.

#### Single-Phase Service

Service where facility (e.g., house, office, warehouse) has two energized wires coming into it. Typically serves smaller needs of 120V/240V. Requires less and simpler equipment and infrastructure to support and tends to be less expensive to install and maintain.

#### Special Contract Rate Schedule

An electric rate schedule for an electric service agreement between Austin Energy and another party in addition to, or independent of, any standard rate schedule.

#### Standby Service

Service that is not normally used but that is available through a permanent connection in lieu of, or as a supplement to, the usual source of supply.

Tariff

A published collection of rate schedules, charges, terms of service, rules and conditions under which the Austin Energy provides electric service to the public.

Thermal Energy Storage (TES)

Is a technology that stocks thermal energy by heating or cooling a storage medium so that the stored energy can be used at a later time for heating and cooling applications and power generation.

Three-Phase Service

Electric energy that is transmitted by three or four wires to the customer. Relatively high voltage customers usually receive three-phase power.

Time-of-Use (TOU) or Time-of-Day Rates

A rate structure that prices electricity at different rates, reflecting the changes in the AE's costs of providing electricity at different times of the day. With time-of-use rates, higher prices are charged during the time when the electric system experiences its peak demand and marginal (incremental) costs are highest. Time-of-use rates better reflect the cost of providing service, sending more accurate price indicators to customers than non-time-of-use rates. Ultimately, these rates encourage efficient consumption, conservation and shifting of load to times of lower system demand.

Value of Service

A utility pricing concept in which the usefulness or necessity of a service to a customer group replaces or supplements cost factors as a major influence on the rates charged to the group. In ratemaking, this means that the price charged reflects the service's value to the customer rather than its cost to the producer. Value of service need not equal the cost of service; for example, Austin Energy's Value-of-Solar is such a product.

Volt (V)

The unit of electromotive force or electric pressure analogous to water pressure in pounds per square inch. It is the electromotive force that, if steadily applied to a circuit having a resistance of one ohm, will produce a current of one ampere.

Watt (W)

The electrical unit of real power or rate of doing work. The rate of energy transfers equivalent to one ampere flowing due to an electrical pressure of one volt at unity power factor. One watt is equivalent to approximately 1/746 horsepower, or one joule per second.

# Fee Schedule

## Austin Energy - Austin Energy Fund

	2018-19	Note
<b>Concessions/Sales</b>		
Austin Energy Logo Items (available for AE employees only)		
Shirts- Denim	\$19.00	
Shirts- Moonlight Tower	\$10.55	
Shirts- Polo	\$22.00	
<b>Existing Facilities/Construction/Right of Way Fees</b>		
Construction/Installation		
After Hours Outage	\$800.00	Up to 2 hours
<i>Requested by customer outside of normal working hours. Normal working hours 8 a.m. to 4 p.m. Monday through Friday, excluding City recognized holidays.</i>		
Each Additional Hour	\$400.00	
Constructing Electrical Facilities for Primary Metered Customers		cost plus 15%
Constructing Overhead Distribution or Secondary Circuits to Underground (or vice versa)		cost plus 15%
Distributed Resource Interconnect Study Fee	\$6,000.00	per site
Dual Feed Service		
Capacity Reservation & Maintenance Fee	\$1,600.00	per MW per month
<i>Unless customer is served under the State of Texas Large Service Contract, Primary Voltage &gt;3 MW or High Load Factor Transmission Voltage rates.</i>		
Customer Requested Changes to the Initial Assessment	\$2,000.00	per change
Facilities Design and Construction		cost plus 15%
Initial Assessment Fee	\$6,000.00	per site
Excess Facilities		
Customer requested work beyond the standard of service delivery required of AE, and that is only performed by AE on our electric system.		
Hit and Damaged Pad Mount Transformer	\$7,130.00	
Hit and Damaged Streetlight Pole	\$3,650.00	
Hit and Damaged Utility Pole	\$8,270.00	
Impacted Streetlight Pole (without replacement)	\$430.00	per pole
Impacted Utility Pole (without replacement)	\$930.00	per pole

# Fee Schedule

Austin Energy - Austin Energy Fund		
	2018-19	Note
Installation of and Billing for Meter Totalization <i>Except when required by Austin Energy.</i>		cost plus 15%
Installing Customer Conduit in the Vicinity of Austin Energy Facilities		cost plus 15%
New Banner Linker Locations	\$925.00	
New Banner Site Evaluations	\$75.00	
Re-inspection Fee for Conduit in the Vicinity of Austin Energy Facilities	\$75.00	
Relocating Existing Distribution or Secondary Circuits		cost plus 15%
Repair to Damaged Austin Energy Facilities		at cost
Setting and Removing Single-Phase Voltage Recorder	\$150.00	
Setting and Removing Three-Phase Voltage Recorder	\$200.00	
Special Locates of Underground AE Electric Facilities	\$250.00	up to 2 hours
Each Additional Hour	\$125.00	
Temporary Service		cost plus 15%
Transformer Oil Testing (secondary pad mounted only)	\$800.00	per transformer, first 2 hours
Each Additional Hour	\$150.00	
<b>Professional Services/Analysis</b>		
Green Building		
Research Real Estate Easements and Maps	\$75.00	per hour plus expenses
Tree Trimming Consultation	\$100.00	
<b>Special Events</b>

3 Days or More	\$700.00	per day
Production Days: Working Power Plant or Hazardous Facility (interior)		
1 Day	\$2,500.00	per day
2 Day	\$1,500.00	per day
3 Days or More	\$1,000.00	per day
Security or AE Personnel Costs (in excess of 10 hours/day)		at cost
Site Modifications / Returning Site to Prior Conditions		at cost
Public Service Announcements, Documentaries & Student Film Productions	\$100.00	per project
<b>Utility Charges/Rates</b>		
Cell Tower and Other Transmission and Substation Services		
Annual Usage and Occupancy Charge		per contract
Austin Energy Support Personnel and Engineers (Internal)		direct costs plus overhead /g&a
Building Rooftop Fee	\$100.00	per square foot
Engineering / Design (External)		direct costs plus 15%
Equipment Upgrade Filing Fee	\$2,000.00	
Escort for high voltage/secure areas		direct costs plus overhead/g&a
Field Work / Construction / Site Maintenance (External)		direct costs plus 15%
Field Work / Construction / Site Maintenance (Internal)		direct costs plus overhead / g&a
Ground Space Fee	\$50.00	per square foot
High Voltage Clearance Lose of Use Fee	\$400.00	per hour
New Site Filing Fee	\$1,800.00	
Vehicle / Equipment Use (external)		direct costs plus 15%
Vehicle / Equipment Use (Internal)		direct costs
Customer Call Center		
Account Records Fee	\$25.00	per hour
<i>To research and or compile customer records, account information or billing information.</i>		

# Fee Schedule

Austin Energy - Austin Energy Fund		
	2018-19	Note
Automated Meter Opt Out (monthly manual read fee)	\$10.00	
Automated Meter Opt Out (switch to manual meter)	\$75.00	
Broken Seal Fee	\$25.00	
<i>To replace a broken meter seal; charged to the customer who could reasonably be expected to benefit from service received through the meter; may be waived one time if no other tampering is found.</i>		
Construction Loop Fee	\$25.00	
<i>To install an electric meter for construction purposes only.</i>		
Continuous Service Program Disconnect Fee	\$20.00	per disconnect
<i>To disconnect service at the meter for owners and apartment managers participating in the continuous service program.</i>		
Continuous Service Program Initiation Fee	\$20.00	per unit, one-time charge upon joining the program
<i>For owners and apartment managers to enroll in the continuous service program.</i>		
Customer Requested Meter Test Fee	\$25.00	
<i>To test a meter upon a customer's request when a test at the address was performed during the preceding 36 months &amp; over-registration is not in excess of industry standards.</i>		
Initiation Fee	\$20.00	
<i>To initiate new utility service; except for participants in the continuous service program.</i>		
Meter Tampering Fee	\$850.00	
<i>Tampered meters / Customer Initiated Unsafe Conditions - Residential</i>		
Meter Tampering Fee	\$2,400.00	
<i>Tampered Meters / Customer Initiated Unsafe Conditions - 1 Phase Non-Residential</i>		
Meter Tampering Fee	\$3,700.00	
<i>Tampered Meters / Customer Initiated Unsafe Conditions - 3 Phase Non-Residential</i>		
Meter Tampering Fee		Require 90-days worth of usage deposit
<i>Tampering Fee for Repeaters</i>		
Non-Scheduled Disconnect (non-emergency)	\$250.00	
<i>Trips requested by customers for emergency service disconnections that are determined to be non-emergency by an AE employee responding to the request.</i>		
Re-Initiation of Service Fee	\$25.00	
<i>To re-initiate utility service at an address where a customer had previous service at the same address.</i>		
Return Trip/Customer Initiated Trip Fee	\$250.00	
<i>For:</i>		
<i>1) Follow-up trips required due to customer and or electricians actions that prevent AE from completing scheduled work on the first trip.</i>		
<i>2) Trips requested by customers and or electricians for service problems that are determined not to be the responsibility of AE.</i>		
Returned Payment Fee	\$30.00	

# Fee Schedule

## Austin Energy - Austin Energy Fund

2018-19

Note

*To process account payments that are returned, dishonored or denied by a bank, lender or third party payer.*

### Utility Diversion Charges

1 Phase Meter		direct costs plus 15%
Automated Meter (using radio wave transmission)		direct costs plus 15%
Broken Glass		direct costs plus 15%
Broken Test Seal		direct costs plus 15%
Burnt Meter Blocks - 1		direct costs plus 15%
Burnt Meter Blocks - 2		direct costs plus 15%
Damaged A-Base Adapter		direct costs plus 15%
Damaged Lid		direct costs plus 15%
Damaged Lock		direct costs plus 15%
Damaged Lockring		direct costs plus 15%
Damaged Meter Base		direct costs plus 15%
Damaged Sealing Ring		direct costs plus 15%
Latch Kit		direct costs plus 15%
Meter Can		direct costs plus 15%
Meter Test and Repairs		direct costs plus 15%
Missing Blank Off		direct costs plus 15%
Other Utility Diversion Charges		direct costs plus 15%

### Distribution Design

Additional Electric Facility Design(s) Due to Customer Changes		cost plus 15% per design
--	--	--------------------------

### Prepare Customer Requested Cost Estimates for:

#### New Install

Large Commercial or Subdivision (over 350 amps)	\$200.00	
Single Resident	\$30.00	
Small Commercial or Subdivision (under 350 amps)	\$100.00	

#### Overhead to Underground Conversion

Maximum	\$500.00	
Per 300ft	\$75.00	

#### Relocations

Overhead	\$25.00	per removed pole
Underground	\$75.00	per 300 ft

#### Service Upgrades

# Fee Schedule

Austin Energy - Austin Energy Fund		
	2018-19	Note
Large Commercial or Subdivision (over 350 amps)	\$100.00	
Single Resident	\$15.00	
Small Commercial or Subdivision (under 350 amps)	\$25.00	
<b>Infrastructure Rental</b>		
Engineering / Design (External)		direct costs plus 15%
Engineering / Design (Internal)		direct costs plus overhead / g&a
Field Work / Construction / Site Maintenance (External)		direct cost plus 15%
Field Work / Construction / Site Maintenance (Internal)		direct costs plus overhead / g&a costs
Make Ready Assessment / Inspection (External)		direct costs plus 15%
Make Ready Assessment/Inspection (Internal)		direct costs plus overhead & general/administrative costs
<b>Pole Attachments</b>		
Annual Usage and Occupancy Charge		per contract
Pole Attachment Filing Fee	\$25.00	per pole
Small Cell Networks – Network Node Application Fee	\$500.00	for the first five network nodes on an application
Additional Node	\$250.00	each, up to 30 per application
Node Pole	\$1,000.00	each
Wireless Attachments to Streetlighting (or other non-distribution service poles)	\$20.00	per year
<i>Attachments to distribution poles will be billed at the FCC calculated rate.</i>		
Transferring Licensee's Attachments (External)		direct costs plus 15%
Transferring Licensee's Attachments (Internal)		direct costs plus overhead / g&a
Vehicle / Equipment Use (External)		direct cost plus 15%
Vehicle / Equipment Use (Internal)		direct Cost
<b>Service Extensions / Switchovers</b>		
Customer Switchover		at cost
<i>For customers in a dually certified area all costs of disconnecting service shall be paid in advance of switchover, and customers must pay all current balances owed.</i>		
Distributed Generation Application Fee	\$100.00	
Electric Service Application Fee	\$100.00	

# Fee Schedule

## Austin Energy - Austin Energy Fund

2018-19

Note

Line Extension Fee (facilities to establish new service) at estimated cost

### Utility Information

#### Austin Analytical Services

*Austin Analytical laboratory services can benefit other customers as well as the City of Austin. The laboratory is equipped to provide PCB, lead, asbestos, and other environmental and analytical testing to customers.*

#### Construction/Installation

*This service consists of pole or tower construction and conduit installation for electric or communications companies.*

#### Distributed Generation

*This service provides on-site analysis for large industrial or commercial customers to assess opportunities for on-site electrical generation for these customers for peak shaving or emergency outage situations. If circumstances for on-site generation are favorable, Austin Energy may provide or assist customers in obtaining distributed generation equipment. Austin Energy may own, operate, and/or maintain such equipment.*

#### District Heating and Cooling Service

*Austin Energy may provide district cooling service to customers under long-term service contracts. A contract shall be required to receive service, and Austin Energy may enter into such contracts to the extent system capacity is available. The customer's capacity and consumption charges shall be determined by the utility and imposed to recover connection costs over a period not to exceed fifteen-years; capital costs and a rate of return; fixed and variable operation, maintenance, replacement, power, and administrative costs, both specific to the customer and attributable to the customer's proportionate share of over-all system cost-of-service.*

Additional Meter Fee - On-Site Energy Resources - Domain	\$50.00	per month

### Educational Services

*This service provides information and education on utility and competitive issues such as safety, power quality, planning, and energy services.*

### Electric Reliability Council of Texas Wholesale Market Services

*These services may be offered to eligible parties desiring to participate in the Electric Reliability Council of Texas (ERCOT) wholesale market. Austin Energy is currently registered as a Qualified Scheduling Entity in ERCOT and, as such, may provide scheduling, dispatching, communication, and a broad range of other services related to the ERCOT wholesale market.*

### Energy Management Services

*Services include energy audits, feasibility studies, cost estimates, project management, providing, installing, and/or maintaining energy-efficient equipment, and arranging for project financing for governmental, commercial, and industrial customers.*

### Green Building Program

*The Green Building Program is a voluntary building rating system that encourages environmentally sound building, remodeling, and building maintenance practices. This program includes those services connected with providing "green building" practices: professional consulting, educational and informational "green building" services, and marketing of the same, all connected with providing and promoting environmentally sound building practices and systems ("green building"). Green Building services are available to individuals and business outside the City of Austin's electric service area as well to businesses within the service area boundary.*

### Lighting Products and Services

*This service includes the supply and installation of lights or poles for commercial facilities and residences. Lights and poles may be owned and maintained by the Utility.*

### Maintenance Contracts for Customer-Owned Medium-Voltage Equipment

*This service provides specific maintenance contracts for customers requesting assistance in repairing or providing maintenance on medium-voltage equipment (over 600 volts). A maintenance contract will be prepared for each customer.*

### Power Quality or Reliability Contracting

*This service provides contracts to improve customer power quality or reliability through the sale, lease, installation and maintenance of electrical devices. The final product or service offering will be based on that customer's specific needs.*

### Pricing Guidelines for Electric Utility Products and Services

# Fee Schedule

## Austin Energy - Austin Energy Fund

2018-19

Note

*The pricing of electric products and services shall be derived from a competition-based pricing strategy. Competition-based pricing, also known as going-rate pricing, shall correlate prices for Austin Energy electric utility products and services to those of competitors for like goods and services in Austin, Texas or similar marketplaces. By including market-based surveys in the pricing process, competition based pricing includes within the pricing calculation the consumer's perception of the value of the product or service. The competition-based prices for products and services shall be selected by combining two standard pricing data sets and using pricing based on marginal cost.*

*(1) The first pricing data set is the price range between the average lowest and average highest prices of the product or service. This price range shall be determined by researching the prices of the product or service in the current marketplace. Both internal and external market price surveys may be used. This range becomes the competition-based price range as established by competition in the market place.*

*(2) The second pricing data set is the internally computed marginal cost of the product or service. Marginal cost is calculated by combining the determined total fixed and total variable costs to establish the floor of the profit margin.*

*(3) The final price of the product or service shall not be offered below the marginal cost of the product or service and must be within the determined competition-based price range.*

*(4) Calculation of the final price shall assume a product life cycle (to be determined for each product) for the purposes of determining the number of units or amount of service that will be sold.*

*(5) The final price for a particular product or service shall be a ratio of the sum of the marginal cost and targeted profit to the anticipated number of units to be sold.*

*Competition-based pricing assumes that the selected price represents the collective pricing wisdom of the electric utility product and service marketplace. It reflects a price that affords a fair profit in a competitive marketplace.*

### Pulse Metering, Submetering, and Interval Load Data Services

*This service provides installation of pulse metering, submetering, or interval load data recorders at a customer's facility, and electronic collection of relevant data from a customer's facility, and provides customers with timely operating data to assist with the efficient operation of its equipment and facility.*

### Surge Protection

*This service provides whole building and point-of-use surge protection from voltage spikes. These products will be suitable for residential and commercial establishments. Customers have the option of choosing either whole building surge protection installed at the meter or high quality surge protection strips for individual or grouped devices, or both.*

300-600 minutes	\$1.00	per hour

### Parking Rates for City Facilities

The City manager may set a rate for public use of a City parking facility in an amount not to exceed the following rates. The rate must be commercially reasonable with respect to the location of the facility and comparable business practices in the vicinity of the facility; provided, however that a parking rate may be waived or modified by the city manager:

(1) To avoid financial hardship to a member of the public in an emergency situation, enhance public convenience, safety, or improve efficiency of a parking facility;

(2) To comply with the terms of a parking contract authorized by the City Council;

(3) To facilitate public access to city officials and meetings; or,

(4) To reduce street congestion during significant public events attracting large numbers of people at a venue in the vicinity of a parking facility.

Note: These authorized parking charges apply to City parking facilities unless a fee for a specific event or location is otherwise prescribed in this fee schedule or other ordinance.

Day-time contract parking rates	\$300.00	/month
Day-time rates	\$25.00	/day
Evening rates	\$10.00	/vehicle in/out

## Austin Water - Austin Water Water Utility Operating Fund

2018-19

Note

### Utility Charges/Rates

#### A. Water Service Rates

For all bills rendered on or after November 1, 2018, these rates are applicable to all sales or service of water to customers served by the City of Austin.

#### Retail Customers

##### A. Minimum Charge Rates-Retail

##### 1. Retail Monthly Meter Equivalent Minimum Charge-All Retail Classes

Customers will be assessed a monthly meter equivalent minimum charge for each meter when water consumption has registered or for service of at least 10 days of the monthly billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the Retail Monthly Meter Equivalent Minimum Charge.

##### Meter Size

a. 5/8"	\$7.25
b. 3/4"	\$10.60
c. 1"	\$13.60
d. 1 1/2"	\$15.50
e. 2"	\$25.40
f. 3"	\$75.10
g. 4"	\$124.80
h. 6"	\$253.80
i. 8"	\$482.20
j. 10"	\$760.20
k. 12"	\$998.40

##### 2. Single-Family Residential Monthly Tiered Minimum Charge:

This fee is charged in addition to the Retail Monthly Meter Equivalent Minimum Charge. The residential monthly tiered minimum charge is applied based on the total billed consumption for the billing period as it falls within a rate block, not as a volumetric charge per 1,000 gallons.

Residential customers will be assessed a monthly tiered minimum charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period based on billed consumption for the billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the Monthly Tiered Minimum Charge.

Tier 1: 0 - 2,000 Gallons	\$1.25
Tier 2: 2,001 - 6,000 Gallons	\$3.55
Tier 3: 6,001 - 11,000 Gallons	\$9.25
Tier 4: 11,001 - 20,000 Gallons	\$29.75
Tier 5: 20,001 - Over Gallons	\$29.75

##### 3. Multifamily Monthly Minimum Charge:

This fee is charged in addition to the Retail Monthly Meter Equivalent Minimum Charge. Multifamily customers will be assessed a monthly minimum fixed charge for each meter when consumption has registered, or for service of at least 10 days of the monthly billing period based on meter size.

##### Meter Size

a. 5/8"	\$12.50
b. 3/4"	\$21.00
c. 1"	\$33.00
d. 1 1/2"	\$42.00
e. 2"	\$83.00
f. 3"	\$292.00
g. 4"	\$500.00
h. 6"	\$1,042.00

# Fee Schedule

# Fee Schedule

## Austin Water - Austin Water Water Utility Operating Fund

	2018-19	Note
Community Benefit Charge	\$0.15	Per KGals
<i>Fee charged per 1,000 gallons of water and wastewater billed for the billing period to fund the Customer Assistance Program (CAP).</i>		
Water Revenue Stability Reserve Fund Surcharge - Retail	\$0.05	Per KGals
<i>Fee charged to all retail water customers per 1,000 gallons of water billed for the billing period to fund the Revenue Stability Reserve Fund. Effective May 1, 2018, rate amended per Ordinance No. 20180308-035.</i>		
Water Drought Rate Surcharge:		
<i>Surcharge enacted for all retail and wholesale customer classes during Stage 3 and Stage 4 of drought-response water restrictions to ensure financial stability to Austin Water. These surcharges will take effect the next monthly billing cycle following the declaration of Stage 3 or Stage 4 water restrictions, and will continue until directed by the City Manager. Effective May 1, 2018, Customer Assistance Program (CAP) Customers will be exempt from the Water Drought Rate Surcharge.</i>		
Stage 3 Volume Rate per 1,000 gallons	\$1.00	Per KGals
Stage 4 Volume Rate per 1,000 gallons	\$3.00	Per KGals
Water Service Rates-Shady Hollow Customers (Effective April 2, 2018 through December 31, 2020)		
I. Monthly Water Rates Per Water Connection (Minimum monthly rate based on size of customer's water connection)		
a. First 2,000 gal or less per month (minimum flat rate per connection for all or any part of a month)		
b. 5/8" connection up to but not including 1 1/2" connection		
In-District	\$21.15	
Out-of-District	\$27.00	
c. 1 1/2" connection		
In-District Rate - Set by District		
Out-of-District Rate - Set by District		
d. Over 1 1/2" connection		
In-District Rate - Set by District		
Out-of-District Rate - Set by District		
e. Over 2,000 gal and up to 50,000 gal per month		
In-District	\$4.93	Per KGals
Out-of-District	\$5.18	Per KGals
f. Over 50,000 gal and up to 70,000 gal per month		
In-District	\$6.43	Per KGals
Out-of-District	\$6.55	Per KGals
g. Over 70,000 gal per month		
In-District	\$7.93	Per KGals
Out-of-District	\$8.43	Per KGals
II. Monthly Water Rates for Shady Hollow Homeowners Association		
First 2,000 gal or less per month	\$21.15	

# Fee Schedule

Note

7. Fees for lots that were platted on or after October 1, 2018. For lots platted prior to this date see previous fee schedules.

All Areas-Water

\$4,700.00

Capital Recovery Fees-Calculation of Service Units: Service Units are determined on rated continuous flow of the meter purchased at sale of tap. (AWWA Standards)

*Calculation of the impact fee in accordance with the Local Government Code requires the use of "Service Units" a standardized measure of consumption, use, generation, or discharge attributable to an individual unit of development.*

### Meter Size-Meter Type

- a. 5/8" Positive Displacement 1 Service Unit
- b. 3/4" Positive Displacement 1.5 Service Units
- c. 1" Positive Displacement 2.5 Service Units
- d. 1 1/2" Positive Displacement 5 Service Units
- e. 1 1/2" Turbine 9 Service Units
- f. 2" Positive Displacement 8 Service Units
- g. 2" Turbine 16 Service Units
- h. 3" Compound 17.5 Service Units
- i. 3" Turbine 35 Service Units
- j. 4" Compound 30 Service Units
- k. 4" Turbine 65 Service Units
- l. 6" Compound 67.5 Service Units
- m. 6" Turbine 140 Service Units
- n. 8" Turbine 240 Service Units
- o. 10" Turbine 350 Service Units
- p. 12" Turbine 440 Service Units
- q. 6X2" Fire Service Based on Domestic Demand
- r. 8X2" Fire Service Based on Domestic Demand
- s. 10X2" Fire Service Based On Domestic Demand

### C. Other Fees

Addition To System Fee

# Fee Schedule

## Austin Water - Austin Water Water Utility Operating Fund

2018-19

Note

*Water tap fees for all second connections, increases to the existing installed meter, and/or water meters larger than two inches (2") are calculated on the total labor costs, transportation and equipment costs, materials and supply costs, plus indirect and overhead costs for the connection.*

*Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection.*

*If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.*

Auxiliary Water Fee for Lake or Natural  
Auxiliary Water Sources Only \$60.00

*Annual fee charged to AWU customers with an active lake or other natural water auxiliary water source. Fee will be used to recoup some of the costs incurred to implement, manage, and enforce this program that is designed to ensure that the public water supply is adequately protected and, if applicable, alternate wastewater billing is applied according to approved standards. The fee is per AWU customer site with an active lake or other natural auxiliary water source. This fee does not apply to AWU customer sites where the only auxiliary water source is from a rainwater harvesting system or AWU-provided reclaim water. This fee is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.*

### Conservation Based Fees

#### I. Irrigation Seminars

a. Two to Four Hour Seminar \$28.00  
b. Eight Hour Seminar \$56.00

#### II. Water Use Management Violations Administrative Fines (Irrigation /Water Use Violations)

##### A. Residential

##### 1. First event in 12-month period

1.1 Conservation Stage \$25.00  
1.2 Drought Response Stage

<i>Fee added to Utility Bills for customer requests for Utility to cut off/on service to water meter for repairs or other miscellaneous reasons. Customers requesting meter flow tests whose outcomes determine that a low pressure issue was not found to be occurring on the City side will be assessed an Emergency Cut-off Fee.</i>		
Fire Hydrant Meter Fees		

# Fee Schedule

## Austin Water - Austin Water Water Utility Operating Fund

2018-19

Note

*Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest, and will be refunded to the customer upon return of the meter and equipment to the Utility, after verification that the meter and equipment is in good working condition, and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be deducted from the deposit, if applicable. Refer to City Ordinance No. 20051020-005.*

<b>Meter Processing Fee</b>		
<i>Fee for overhead costs of processing new meters for sale to other Utilities outside of the city. The cost of the meter is not included in the fee.</i>		
a. Meters less than 3"	\$7.05	
b. Meters 3" to 6"	\$55.65	
<b>Private Fire Hydrant (PFH) Fee</b>		
	\$29.28	
<i>Annual fee that AW charges to its customers with private fire hydrants (PFHs) for the tracking of locations, testing, inspections, and maintenance of PFHs, as well as the tester's certifications and credentials. The requirement to inspect, test and maintain private hydrants is in Chapter 25-12 of the Austin City Code as described in § 25-12-172 (Local Amendments to International Fire Code - 508.5.3 Private Fire Service mains and water tanks). This annual inspection, testing and maintenance of PFHs must be done in accordance with the National Fire Protection Association (NFPA) 25 and American Water Works Association (AWWA) Manual M-17, Installation, Field Testing and Maintenance of Fire Hydrants. This annual inspection, testing and maintenance ensures PFHs will operate properly in emergency situations, identifies and helps quantify the amount of water lost due to leaking systems and misuse, and improves the City of Austin's mapping systems, assisting both the AW and the Austin Fire Department (AFD). Fee is per private hydrant and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.</i>		
<b>Safety and Technical Training</b>		
<i>The courses below are offered to both City of Austin employees and any other interested persons:</i>

<b>Service Extension Request with Council Approval</b>		

# Fee Schedule

## Austin Water - Austin Water Water Utility Operating Fund

	2018-19	Note
Cost per acre served	\$32.75	
1. Minimum Charge	\$670.00	
2. Maximum Charge		No Maximum
<b>Tap &amp; Reconnection Fee</b>		
<i>Meter Tap &amp; Reconnection Fees (not to exceed meter size 5/8" plus actual cost of meter fees) shall be waived for the installation of a water meter solely for a City-Supported Community Garden as defined in Chapter 14-7 of the City Code.</i>		
The fees for water and reclaimed water connections/reconnections performed by contractors in accordance with City connection procedures are as follows		
Meter Size:		
a. 5/8" through 2" plus actual cost of meter	\$172.00	
b. 3" or 4" plus actual cost of meter	\$548.00	
c. 6" or larger plus actual cost of meter	\$822.00	
The fees for water and reclaimed water connections/reconnections performed by the City are as follows:		
Meter Size:		
a. 5/8" plus actual cost of meter	\$513.00	
b. 3/4" plus actual cost of meter	\$537.00	
c. 1" plus actual cost of meter	\$609.00	
d. 1-1/2" plus actual cost of meter	\$1,000.00	
e. 2" plus actual cost of meter	\$1,196.00	
<b>Tap Inspection Fee</b>		
<i>Fee charged for additional water tap inspection(s) after initial inspection has failed to be in compliance with standard meter detail of City of Austin code requirements. This fee must be paid in order to schedule a follow up inspection.</i>		
Cost per inspection:		
Tap Re-Inspection Fee	\$34.00	
Water and Reclaimed Water Meter sizes 2" or less	\$68.50	
<b>Tap Installation Cost Estimate</b>		
<i>Cost estimates for certain tap connections are calculated based on total labor, transportation, equipment, materials, supplies and indirect or overhead costs. Preparation of cost estimates requires research of records, a field trip and calculations by Taps Office staff. The fee would be applied toward the purchase of services if purchased within a 90 day period from the date of the estimate.</i>		
Fee per cost estimate	\$53.00	
<b>Utility Development Services Engineering Plan Review</b>		
<i>This fee will be charged for engineering plan reviews by Austin Water.</i>		
1. Initial Review (covers a second and third review if necessary)	\$219.00	
2. Fourth Review ( covers subsequent reviews if necessary)	\$547.50	

# Fee Schedule

	2018-19	Note
3. Withdrawal and resubmittal of engineering plans for review	\$109.50	
Utility Development Services Meter Upsizing Plan Review	\$71.00	
<i>This fee applies to the review and approval of plans that involve an increase in the size of the water meter. Such plans do not include any modification to the City's water service line or mains.</i>		
Utility Development Services Tap Plan Review		
<i>This fee will be charged for tap plan reviews by Austin Water.</i>		
1. Initial Review (covers a second and third review if necessary)	\$109.50	
2. Fourth Review (covers subsequent reviews if necessary)	\$219.00	
3. Withdrawal and resubmittal of tap plans for review	\$54.75	
4. Tap Plan Review Corrections (changes to previously approved tap plans)	\$73.50	Per Review
Utility Diversion Charge		
Charge for administrative and field review (per incident)		
<i>Additional charges billed based on water consumption, the extent of labor required, equipment damages and the cost of metering equipment and appurtenances.</i>		
a. Existing Single-Family Residential	\$250.00	
b. Existing Non-Residential (Includes Multi-Family, Commercial & Large Volume Customers)	\$500.00	
c. New Construction Single-Family Residential	\$400.00	
d. New Construction Non-Residential (Includes Multi-Family, Commercial & Large Volume Customers)	\$800.00	
Utility Meter Re-testing Fee	\$324.00	
<i>Fee assessed to customer requesting a meter accuracy test on meters when the Utility has performed a meter accuracy test on the same meter during the preceding 36-month period. Fee will only be assessed if the meter passes the additional requested accuracy tests.</i>		
Water Protection Program-Back Flow Prevention Compliance Fee		
<i>Annual fee AW charges to its potable and reclaimed water customers that have backflow prevention assemblies (BPAs) on their plumbing systems that are required by the State of Texas or City of Austin regulations to be tested. The results of the tests are required to be reported back to AW on a periodic basis to help the utility ensure that its customers are protected from possible contamination or pollution due to a backflow event. Fee is per BPA and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.</i>		
a. Backflow Prevention Compliance Fee-BPAs Tested Annually	\$31.20	
b. Backflow Prevention Assemblies (BPA's) required to be tested and reported on at least biennially	\$15.60

2018-19

Note

Water Well Fee

\$94.20

*Annual fee Austin Water (AW) charges customers with water wells to recoup the costs incurred to implement, manage, and enforce the new Water Well Program that is designed to ensure that the public water supply is adequately protected and, if applicable, alternate wastewater billing is applied according to approved standards. The requirement to register Austin Water customers with certain types of active water wells is in Chapter 15-12 of the Austin City Code. The fee is per Austin Water customer site with active water well(s) that are required to be registered under Ch. 15-12. This fee is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.*

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

### Utility Charges/Rates

#### A. Wastewater Service Rates

For all bills rendered on or after November 1, 2018, these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge for retail customers will be based on their wastewater average.

Wastewater Service Rates for Retail Customers:

##### Existing Customers

##### (A) Retail Customers with Water Service

These rates are applicable to all retail customers who have metered water connections. Wastewater billing is based on the average water usage during the designated three (3) month wastewater averaging period; or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. If there is zero usage for two or all three months of the averaging period, a default wastewater average of 5,000 gallons will be assigned for residential customers until the next wastewater averaging period. For all other retail customers if there is zero usage for two or all three months of the averaging period, the monthly wastewater volume will be based on actual metered water usage monthly until the next wastewater averaging period.

##### (B) Wastewater Billing for Domestic Alternate Water Sources

Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.

##### (C) Non-Residential Customers with associated Irrigation Meters (Multifamily, Commercial, Large Volume and Wholesale)

For those non-residential customers that have a separate City of Austin irrigation water meter for irrigation or alternative irrigation water source on the property other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base wastewater billing for domestic usage on actual monthly water consumption. Any property that has an irrigation meter requirement will base wastewater billing for domestic usage on actual monthly water consumption.

##### (D) Non-Residential Customers without irrigation needs or requirements on the property

Non-Residential Customers without irrigation needs or requirements on the property will base wastewater billing for domestic usage on actual monthly water consumption.

##### (E) Criteria and procedures for existing Commercial customers to qualify as a Large-Volume customer

###### Criteria

An existing commercial customer of Austin Water must purchase more than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption to determine if any existing customers have exceeded the 85.0 million gallon level.

###### Procedures

Upon verification of the 85.0 million gallon purchase or consumption requirement in fiscal year one, Austin Water will include this customer as a large volume customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two, and will set rates that are to be effective November 1 of fiscal year three. Austin Water will verify the water consumption in fiscal year two, before the rate change on November 1 of fiscal year three, to determine if the commercial customer has maintained the 85.0 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 85.0 million gallon level, the City will change the rates for the commercial customer to the large volume customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 85.0 million gallon level in the second fiscal year, the customer will remain at commercial class rates.

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

(F) Criteria and procedures for existing Large Volume customers with reduced volume

### Criteria

*An existing Large Volume customer of Austin Water purchases less than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption for all existing large volume customers to determine whether the minimum 85.0 million gallon level has been met.*

### Procedures

*Upon verification of fiscal year water use below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing of the shortfall. If the customer falls below the 85.0 million gallon level for a second consecutive year, a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status, the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed. Large volume customers that have implemented Austin Water approved conservation initiatives that causes their water consumption to fall below the 85 million gallons threshold may continue to receive the large volume rate provided that the annual water consumption remains above 65 million gallons and the reduced usage does not create a peaking factor that would be greater than the commercial class peaking factor.*

(G) Existing Large Volume Customers with Major Process Changes

### Criteria

*An existing Large-Volume customer of Austin Water who has major process changes (e.g. sells off parts of the company, business changes with lower use projections, etc.) and the original business plans to purchase less than 85.0 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus.*

### Procedures

*Upon notification of a major process change that reduces water use projections below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which water use is reduced.*

## New Customers

### (A) Residential

*The City will impute a wastewater average of 5,000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water Utility or the Director's designee has the discretion to adjust the 5,000 gallon average when the customer has had an established wastewater average at another City of Austin service address.*

(B) Non-Residential Customers without irrigation meter(s)  
(Multifamily, Commercial, Large Volume and Wholesale)

*(1) Except as provided by subsection (2), if a non-residential customer establishes a new account at a service location where an earlier account established a wastewater average, the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.*

*(2) If in the judgment of the Director of the Austin Water Utility or the Director's designee, the new customer will place a substantially different demand on the wastewater collection and treatment system, the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non-residential customer has established a wastewater average.*

(C) Wastewater Billing for Domestic Alternate Water Sources.

*Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.*

(D) Non-residential Customers with associated Irrigation Meters.  
(Multifamily, Commercial, Large Volume and Wholesale)

*If a new non-residential customer has installed a separate City water irrigation meter or alternative irrigation water source on the property, other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.*

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

(E) Criteria and Procedures for new Large-Volume Customers

### Criteria

*New large volume customers that have requested connection to the water and wastewater system must submit water use projections to Austin Water as part of the service extension process. Austin Water will review the water use projections to verify that the customer would consume more than 85.0 million gallons within a fiscal year at a single service address or campus.*

### Procedures

*After the customer has provided Austin Water with water use projections, Austin Water will verify and approve the projections. On approval, the City will classify the customer as a large volume customer and charge the appropriate rate upon connection to the City's water and wastewater system. If Austin Water does not approve the customer's water use projections as being above the 85.0 million gallon level, the City will classify the customer appropriately.*

Retail Monthly Customer Charges: \$10.30

*Customers will be assessed a retail monthly charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the monthly customer charge.*

Community Benefit Charge	\$0.15	Per KGals
--------------------------	--------	-----------

*Fee charged per 1,000 gallons of water and wastewater billed for the billing period to fund the Customer Assistance Program (CAP).*

Volume Unit Charge-Retail (All Volumes Unit Cost per 1,000 Gallons)

### I. Residential

#### a. Single-Family Residential

0 - 2,000 Gallons	\$4.85	Per KGals
2,001 - over Gallons	\$9.94	Per KGals

#### b. Customer Assistance Program

0 - 2,000 Gallons	\$4.46	Per KGals
2,001 - over Gallons	\$8.78	Per KGals

### II. Non-Residential:

a. Multifamily	\$8.93	Per KGals
----------------	--------	-----------

Samsung	\$7.75	Per KGals
Skorpios Technologies (Formerly Novati)	\$7.74	Per KGals
University of Texas	\$8.95	Per KGals

Wastewater Service Rates for Wholesale Customers:

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

(A) *Application.* For all bills and charges rendered on or after November 1, 2018, the City will charge the following rates for wholesale customers.

These charges are applicable to wholesale wastewater service customers of the City of Austin who are water districts, municipal utility districts, or other utilities which have metered water connections. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge will be based on the average water usage during the designated three (3) month wastewater averaging period, or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. For new customers who have not established an average water usage during the December, January, and February billing period, the City will use the actual water consumption figure or the measured sewage volume to establish the wastewater billing.

(B) *New Customers.* The volume rate for any wholesale customer that is not listed above will be based on a weighted cost of service average of all Wholesale customers. That rate will remain in effect until the new customer establishes a full 12 month's consumption history. After that time, the Austin Water Utility will establish an individual rate and seek approval of that rate by the City Council.

Volume Unit Charge: All Volumes  
(Unit Cost Per 1,000 Gallons)

Average Wholesale Wastewater Rate	\$5.66	Per KGals
Manor, City of	\$5.64	Per KGals
Mid-Tex Utilities (Avana Subdivision)	\$5.66	Per KGals
North Austin MUD #1	\$4.23	Per KGals
Northtown MUD	\$4.15	Per KGals
Rollingwood, City of	\$5.67	Per KGals
Sunset Valley, City of	\$5.71	Per KGals
Travis Co. WCID #17 - Comanche Canyon	\$3.98	Per KGals
Travis Co. WCID #17-Steiner Ranch	\$3.80	Per KGals
Wells Branch MUD - N.A.G.C.	\$4.14	Per KGals
West Lake Hills, City of	\$5.68	Per KGals

Wholesale Monthly Customer Charge \$10.30

*Customers will be assessed a wholesale monthly charge for each meter when water consumption has registered or for service of at least 10 days of the monthly billing period.*

North Austin MUD #1	\$51.00
Northtown MUD	\$60.00
Wells Branch MUD - N.A.G.C.	\$51.00

Wastewater Service Rates-Shady Hollow Customers (Effective April 2, 2018 through December 31, 2020)

III. Monthly Wastewater Rates Per Wastewater Connection

A. For a residential customer having a water connection 3/4" or less in size (flat rate per month)

In-District	\$50.25
Out-of-District	\$65.95

B. For a non-residential customer or a customer having a water connection larger than 3/4", the charge shall be as set by the District.

C. Anything herein to the contrary notwithstanding, no wastewater service charge will be made based on water usage through Special Connections authorized as provided in Section 2.06 of this Chapter 2.

# Fee Schedule

C. Other Fees

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

### Addition to System Fee

Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection. If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.

### Connections and Manholes

The fees for wastewater connections and manholes performed by the City are as follows:

Connection Size-Location	
6-inch or less-Zone 1-East	\$422.00
6-inch or less-Zone 2-Central	\$490.00
6-inch or less-Zone 3-West	\$560.00

Descaling Permit Fee \$685.00

Annual fee used to recoup the costs incurred in performing the tasks associated with regulating companies performing temporary descaling activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary descaling activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Descaling Permit Fee is prorated by quarter if the descaling company is in its first year of operation. Subsequent years of operations are charged at the full annual rate.

### Dillo Dirt Sales

1-199 Cubic Yards	\$12.00
200-499 Cubic Yards	\$11.00
500 Cubic Yards and above	\$10.00

Evaporative Loss Credit Application and Processing Fee \$196.00

Non-refundable application and processing fee; customer is responsible for reporting timely and accurate meter readings each month. If customer reports an erroneous meter read or fails to meet the monthly reporting deadline, the Utility can waive the deadline for three instances in a twelve month period.

### Industrial Waste Surcharge

Surcharge unit charges in dollars per pound

Ammonia-Nitrogen	\$1.55	exact fee is 1.559
------------------	--------	--------------------

Rate is \$1.559 per pound of ammonia-nitrogen discharged into Austin Water's wastewater system by an Industrial User when the ammonia-nitrogen concentration is in excess of 35 mg/l. The surcharge fee for ammonia nitrogen will be charged to an Industrial User that uses or produces ammonia-nitrogen in a manufacturing process. The surcharge fee for ammonia-nitrogen will be determined by calculating the difference between the average concentrations discharged from such an Industrial User and the 35 mg/l threshold as described in the formula below:

Surcharge fee for ammonia-nitrogen = Volume of wastewater discharged (in millions of gallons) X 8.34 pounds per gallon x [\$1.559 per pound x (Industrial User's average ammonia-nitrogen (in mg/l) - 35 mg/l)]

BOD	\$0.50	exact fee is 0.5043
COD	\$0.22	exact fee is 0.2242
TSS	\$0.11	exact fee is 0.1087

On-Site Sewage Facility Permit Fee (Permit to Construct/License to Operate)	\$630.00	each
Re-inspection	\$84.00	each
Site/Lot Evaluation	\$84.00	each
State OSSF Surcharge	\$10.00	each
Subdivision Review		
<i>Review of subdivisions served by private sewage facilities.</i>		
a. For the first 20 lots	\$175.00	First 20 lots
b. Each additional lot	\$7.10	Each additional lot

Post-Annexation Water and Sewer Fees

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

Customers within the following areas pay an additional monthly post-annexation water and sewer rate as provided below:(1) The former Southland Oaks Municipal Utility District based on meter size - until November 6, 2021:

### Meter Size

a. 5/8"	\$25.21
b. 3/4"	\$37.82
c. 1"	\$63.03
d. 1 1/2"	\$126.05
e. 2"	\$201.68
f. 3"	\$378.15
g. 4"	\$630.25
h. 6"	\$1,260.50
i. 8"	\$2,016.80
j. 10"	\$3,940.32
k. 12" or larger	\$5,629.14

Private Wastewater Lateral Evaluation Fee \$116.00

*This fee covers the cost of providing site elevation analysis on City-identified private wastewater laterals that are defective and under enforcement activities by the City.*

Re-Sampling Fee \$212.00

*This re-sampling fee is used to recoup the costs associated with the sampling and analysis of wastewater discharge samples that are used to derive a wastewater surcharge for industrial users that request such a re-sample as authorized under Chapter 15-10 (Wastewater Regulations). A minimum of two samples per outfall per industrial user site are required. The re-sampling fee applies to each sample required to be collected in order to derive a wastewater surcharge. Industrial user customers may gain approval for only one re-sampling event per calendar year.*

### Safety and Technical Training

*The courses below are offered to both City of Austin employees and any other interested persons:*

Activated Sludge	\$210.00
Basic Wastewater	\$210.00
Chlorinator Maintenance	\$210.00
Pre-Utility Calculations	\$157.00
Pump and Motor Maintenance	\$210.00
Utility Calculations	\$157.00
Wastewater Collection	\$210.00
Wastewater Treatment	\$210.00

### Sale of Reports/Publications

Decentralized Wastewater System Video	\$14.00	Ea.
WW Collection System Long Range Planning Guide	\$28.00	Ea.
WW Collection System Long Range Planning Guide Summary	\$2.80	Ea.

Service Extension Request with Administrative Approval

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

	2018-19	Note
a. Cost per acre served	\$8.20	Per acre served
1. Minimum Charge	\$168.00	
2. Maximum Charge	\$420.00	
Service Extension Request with Council Approval		
b. Cost per acre served	\$32.75	Per acre served
1. Minimum Charge	\$670.00	Minimum
2. Maximum Charge		No Maximum
Utility Piping Permit Fee	\$670.00	
<p><i>Annual fee used to recoup the costs incurred in regulating the chemical providing companies performing temporary utility piping activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary utility piping activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Utility Piping Permit fee is prorated by quarter if the chemical provider company is in its first year of operation. Subsequent years of operation are charged at the full annual rate.</i></p>		
Utility Special Service Billings		
The Utility charges the following hourly rates for these special service requests:		
Flusher Truck	\$102.00	
Hydrostatic Test	\$271.00	
<i>This fee includes up to four hours of labor, subsequent labor will be billed at \$90.00 per hour.</i>		
Mini Camera	\$171.00	
Rodding Machine	\$171.00	
Smoke Test	\$102.00	
TV Inspection Unit	\$171.00	
Vactor Truck	\$171.00	
Wastewater Discharge from Boats on Lake Austin		
Fee per ten minutes of pumping.	\$0.50	Each 10 minute interval
Wastewater Discharge Permit Base Fee		
<p><i>Permit Base Fees for Category I General and Category V Dental Industrial Users are charged on a monthly basis at 1/12 of the respective fee shown below. These Category I and Category V Permit Base Fees are only charged during the month(s) the General or Dental Industrial User's account is active. For all other Industrial Users (e.g. significant industrial users, categorical industrial users, major industrial users, other political subdivision industrial users, etc.) Permit Base Fees are charged on an annual basis at one of the rates shown below for Categories II through IV. This annual Permit Base Fee is prorated by quarter if the Industrial user is in its first year of operation. Subsequent years of operation are charged at the full annual rate. Analytical costs will be determined by the amount of Water Laboratory cost associated with each Industrial User. The Category V Permit Fee for Dental Industrial Users will only be applied when the federal categorical standards stipulated in 40 CFR 441 become effective.</i></p>		
Annual Permit Fee		
Category I - General Industrial Users	\$169.50	
Category II - Significant Industrial Users	\$700.00	
Category III - Major Industrial Users	\$700.00	
Category IV - Categorical Industrial Users	\$916.75	
Category V - Dental Industrial Users	\$66.25	

# Fee Schedule

## Austin Water - Austin Water Wastewater Utility Operating Fund

2018-19

Note

### Watercraft and Marinas Program Fees

Boat Pump-Out Facility \$61.50

*Annual permit fee that AW charges customers with a boat pump-out facility operated on or adjacent to the surface waters of the City's water supply. This permit is required in accordance with Chapter 6-5, Article 3 (Watercraft and Marinas) of the Austin City Code.*

Excursion Boat with Marine Sanitation Device \$24.50

*Annual permit fee that AW charges customers with a marine sanitation device on a watercraft operated or intended for operation on the surface waters of the City's water supply.*

# Fee Schedule

## Austin Water - Austin Water Reclaimed Water Utility Operating Fund

2018-19

Note

### Utility Charges/Rates

#### Reclaimed Water Service Rates

*For all bills and charges rendered on or after November 1st, 2018, these rates are applicable to all sales or service of reclaimed water to retail customers served by the City of Austin. Customers will be assessed a monthly charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period. Reclaimed water used for domestic, cooling, or other non-irrigation purposes will be treated the same as potable water as it relates to wastewater billing.*

#### a. Monthly Customer Charges:

##### Meter Size:

a. 5/8"	\$8.00
b. 3/4"	\$9.00
c. 1"	\$10.00
d. 1 1/2"	\$14.00
e. 2"	\$19.00
f. 3"	\$31.00
g. 4"	\$45.00
h. 6"	\$84.00
i. 8"	\$131.00
j. 10"	\$186.00
k. 12"	\$271.00

#### b. System-wide Volume Unit Charge:

Mandatory Connections (Volume Unit Cost Per 1,000 Gallons)	\$4.20	Per KGals
--	--------	-----------

*New developments or redevelopments within 250 feet of an existing reclaimed main*

Non-Mandatory Connections (Volume Unit Cost Per 1,000 Gallons)	\$2.82	Per KGals
--	--------	-----------

*Customers with a site plan submitted prior to May 1, 2015, potable water conversion customers and customers with reclaimed main extensions greater than 250 feet.*

#### c. Austin Energy Sandhill Power Plant

*In April 2036, the fixed charge will end and the volumetric rate will revert to the system wide retail rate*

Monthly Fixed Capital Charge	\$10,690.00	
Volume Unit Charge per 1,000 Gallons:	\$1.47	Per KGals

#### d. Parkland Reclaimed Water Rates:

*Rates for reclaimed water use at City-owned parkland and golf courses*

All Volumes (Unit Cost Per 1,000 Gallons)	\$1.32
---	--------

### Tap & Reconnection Fees

*Meter Tap & Reconnection Fees (not to exceed meter size 5/8" plus actual cost of meter fees) shall be waived for the installation of a water meter solely for a City-Supported Community Garden as defined in Chapter 14-7 of the City Code.*

The fees for water and reclaimed water connection/reconnections performed by contractors in accordance with City connections procedures are as follows:

##### Meter Size:

a. 5/8" through 2" plus actual cost of meter	\$172.00
--	----------

# Fee Schedule

## Austin Water - Austin Water Reclaimed Water Utility Operating Fund

2018-19

Note

b. 3" through 4" plus actual cost of meter	\$548.00
c. 6" or larger plus actual cost of meter	\$822.00

The fees for water and reclaimed water connections/reconnections performed by the City are as follows:

Meter Size:

a. 5/8" plus actual cost of meter	\$513.00
b. 3/4" plus actual cost of meter	\$537.00
c. 1" plus actual cost of meter	\$609.00
d. 1 1/2" plus actual cost of meter	\$1,000.00
e. 2" plus actual cost of meter	\$1,196.00

### Tap Inspection Fee

*Fee for inspection of water tap set-up to verify compliance with the standard meter detail of City of Austin code requirements.*

Cost Per Inspection:

Water and Reclaimed Water Meter sizes 2" or less	\$68.50
Tap Re-inspection Fee	\$34.00

*Fee charged for additional water tap inspection(s) after initial inspection has failed to be in compliance with standard meter detail of City of Austin code requirements. This fee must be paid in order to schedule a follow up inspection.*

# Fee Schedule

## Aviation - Airport Operating Fund

2018-19

Note

### Concessions/Sales

Permit to Conduct Business at Austin-Bergstrom International Airport

*These fees are negotiated individually through an agreement (Rental agreement, lease agreement, concessions agreement and/or permits/fees).*

## Public Works-Transportation - Transportation Fund

2018-19

Note

### Existing Facilities/Construction/Right of Way Fees

#### Street Damage Recovery Fees

##### Classification:

Medium (Flexible Pavement)	\$40.00	per square yard
Thick (Flexible Pavement)	\$47.00	per square yard
Thin (Flexible Pavement)	\$33.00	per square yard

#### Utility Cut Cost Recovery

*NOTE: Utility Cut Cost Recovery Fees determined necessary shall be waived for any utility cuts associated with the installation of a water meter solely for a City-Supported Community Garden as defined in Chapter 14-7 of the City Code.*

##### Asphalt Pavement

Asphalt Base Repair Using Blade (4" minimum)	\$1.60	per inch-thick sq. ft.
Asphalt Repair Using Patch Truck	\$4.50	per inch-thick sq. ft.
Asphalt Saw Cutting	\$2.00	per linear foot
Asphalt Surface Repair Using Lay Down Machine	\$0.70	per inch-thick sq. ft.
Mobilization Asphalt Blade Crew	\$1,362.00	per ticket
Mobilization Asphalt Lay Down Crew	\$2,819.00	per ticket
Mobilization Asphalt Patch Truck Crew	\$439.00	per ticket
Mobilization Milling Crew	\$1,894.00	per ticket
Mobilization Saw Cut Crew	\$118.00	per ticket
Surface Milling	\$0.50	per inch-thick sq. ft.

##### Concrete Pavement and Miscellaneous Concrete Items

ADA Ramps	\$3,197.00	each
Concrete Driveway, includes curb returns	\$25.80	per square foot
Concrete Pavement Repair	\$14.40	per inch-thick sq. ft.
Concrete rip-rap		quoted price per square foot
Concrete Saw Cutting	\$11.00	per linear foot
Concrete Sidewalk, special finish		quoted price per square foot
Concrete Sidewalk, standard finish, 4" thick	\$25.80	per square foot
Inlet top	\$2,154.00	each
Mobilization Saw Cut Crew	\$118.00	per amount
Standard Concrete Curb and Gutter	\$36.20	per square foot

#### Temporary Repairs

# Fee Schedule

Public Works-Transportation - Transportation Fund		
	2018-19	Note
Mobilization Asphalt Repair Crew	\$439.00	per request
Temporary Cold Mix Repairs	\$4.50	per inch-thick sq. ft.
Trench Back-Fill	\$18.70	per cubic yard
<b>Printing/Copies</b>		
GIS Plots-Ortho Maps		
Austin Bicycle Route Map	\$1.00	each
Contractor's License	\$50.00	per calendar year
Signs		
"No Idling" signs	\$55.00	per sign
<i>Sold to local businesses to display at loading docks.</i>		
Sundry - Current Services

	2018-19	Note
Planned Development Area (PDA)	\$9,699.00	Full Cost
Planned Unit Development (PUD)	\$33,177.00	Full Cost

### Regional Stormwater Management Participation Fees (RSMP)

*Each Regional Stormwater Management Program (RSMP) agreement is mutually exclusive. No credit will be given for impervious cover paid for in previous RSMP agreements for subsequent phases of development. However, applicants may combine all related phases of a development into one RSMP agreement and remit the associated total fee at the time the permit for the first phase is approved.*

*NOTE: Requirements for participation in the Regional Stormwater Management Program are located in Section 8.2.2.D. and Appendix D of the Drainage Criteria Manual.*

*The RSMP fee consists of two components; the construction cost component (CCC) and the land cost component (LCC). The two components are calculated independently for single-family developments and multi-family / commercial developments. Below are the details of how to calculate the fees.*

#### 1. RSMP Construction Cost Component (CCC)

*The number of impervious acres is used to determine this part of the fee. The number of impervious acres is based on the maximum allowable impervious acreage as allowed by the more restrictive of zoning or watershed ordinance for subdivisions. Site plans may use the actual impervious cover for the site. The construction cost component will be adjusted annually by using the "Engineering News Record" construction cost index with the base construction cost index being referenced to October 2002.*

#### Commercial & Multi-family Residential Development

##### Number of Impervious Acres:

a) 0.00 - 1.00	\$60,000.00	per impervious acre
b) 1.01 - 2.00	\$18,000.00	per impervious acre
c) 2.01 - 5.00	\$8,000.00	per impervious acre
d) 5.01 - 10.00	\$6,000.00	per impervious acre
e) 10.01 - 20.00	\$5,000.00	per impervious acre
f) 20.01 - 50.00	\$4,000.00	per impervious acre
g) 50.01 +	\$2,500.00	per impervious acre

#### Single-family Residential Development

##### Number of Impervious Acres:

a) 0.00 - 1.00	\$35,000.00	per impervious acre
b) 1.01 - 2.00	\$15,000.00	per impervious acre
c) 2.01 - 5.00	\$10,000.00	per impervious acre
d) 5.01 - 10.00	\$7,000.00	per impervious acre
e) 10.01 - 20.00	\$5,000.00	per impervious acre
f) 20.01 - 50.00	\$3,000.00	per impervious acre
g) 50.01 to 100.00	\$2,000.00	per impervious acre
h) 100.00 +	\$1,500.00	per impervious acre

#### 2. RSMP Land Cost Component (LCC)

# Fee Schedule

**Watershed Protection - Drainage Utility Fund** **2018-19** **Note**

The land cost component (LCC) is calculated separately for each type of development, in conjunction with the construction cost component.

Land Cost Component = Land Cost per Acre x Land Cost Area

where:

Land Cost per Acre = Appraisal District (appraised value /appraised area) x 0.05  
OR = Capped value x 0.05

Capped Land Cost per Acre	
Development Type	Capped Value
Single-Family	\$ 40,000 per acre
Multi-Family / Commercial	\$120,000 per acre

Land Cost Area =

New Development = Gross Site Area – Deductible Areas

Redevelopment = Limits of construction – Deductible Areas

Deductible Areas = (Drainage Easements, Water Quality Easements, and Conservation Easements)

Note: Impervious cover areas within easements cannot be deducted from the land cost area.

Land costs will be based on the land valuation. This may be established by a certified appraiser or by Appraisal Districts. The RSMP applicant must provide the parcel identification number for each parcel within the proposed development prior to RSMP approval. Upon RSMP participation approval, the applicant must provide dated copies of either a certified appraisal or the appraisal district's valuation for each parcel within the proposed development. Properties that are not appraised by Appraisal Districts, such as property owned by a governmental entity, may choose to use the capped land cost per acre values for RSMP participation. The land cost will be determined by the appraised value at the time of payment of the RSMP fee, not when the site is approved for participation in the RSMP. The effective date for Appraisal District valuations is the first of October for the current City of Austin fiscal year.

If a development encompasses more than one tax parcel, the land cost per acre will be based on the arithmetic mean of the land valuation from all parcels.

3. RSMP Total Cost = (CCC)  
\_\_\_\_\_ + (LCC)  
\_\_\_\_\_ = \$ \_\_\_\_\_

All Developments

For sites that are in more than one watershed, the calculated RSMP fee will be apportioned by the percentage of the site in each watershed.

Single Family

Single-family developments may restrict the allowable impervious cover by plat note or by a legally recorded separate instrument if the plat was previously approved.

Fee Reductions for Certain Single Family Developments with Less Than 20% Impervious Cover:

Greater than or equal to 2 acres but less than 5 acres	50.00%	reduction of total cost
Greater than or equal to 5 acres	25.00%	reduction of total cost

Urban Forestry Replenishment Fund

Tree mitigation to compensate trees removed for development.

Off-Site Tree Planting Fee	\$75.00	per caliper inch
----------------------------	---------	------------------

Site Plan

Boat Docks

Floodplain Modification Review	\$1,153.00	Full Cost

## Urban Water Quality Structure Control Fund

# Fee Schedule

## Watershed Protection - Drainage Utility Fund

2018-19

Note

### Payment in lieu of Structural Water Quality Controls

$$\text{Payment} = (\$32,000 \times A1 + \$18,000 \times A2 + \$11,000 \times A3 + \$8,000 \times A4 + \$6,000 \times A5) \times E + \$0.10 \times B + C \times D$$

Where:

A1 = increment of impervious cover from 0 to 1.0 acres,

A2 = increment of impervious cover from 1.01 to 2.0 acres,

A3 = increment of impervious cover from 2.01 to 10.00 acres,

A4 = increment of impervious cover from 10.01 to 20.00 acres,

A5 = impervious cover greater than 20.0 acres,

B = the gross square footage of the building excluding the first floor,

C = the site area in acres,

D = \$6,000 per acre for sites developed for commercial/multi-family use, or

\$4,000 per acre for sites developed for single family or duplex residences, and

E = Construction cost adjustment factor. The construction cost adjustment factor must be calculated annually using the Engineering News Record (ENR) 20 city average Construction Cost index with the base index being the ENR construction cost index of October 2002 (6597). For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost index divided by the October 2002 Construction Cost index. This new construction cost adjustment factor shall be applied to all fees collected during that fiscal year.

Impervious cover is the area for which water quality treatment is required pursuant to Section 1.9.2 of the Environmental Criteria Manual. For the purpose of this calculation, impervious cover shall be measured to the nearest 0.01 acre.

### Water Quality Basin

Maintenance Fee	\$80.00	per lot
Monitoring Fee	\$60.00	per lot

Note: Fees for Water Quality Basins were established under City Ordinance 840726-LL.

### Water Quality Controls

#### Annual Operating Permit for Water Quality Controls

Level One Application Fee		
Additional application fee per additional water quality	\$75.00	10% late charge applies
Base permit application fee for one water quality control	\$625.00	10% late charge applies
Maximum annual fee	\$775.00	10% late charge applies

**ORDINANCE NO. 20180911-004**

**AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE FIRE DEPARTMENT; CREATING CERTAIN POSITIONS; AND REPEALING ORDINANCE NO. 20171012-030 RELATING TO FIRE DEPARTMENT CLASSIFICATIONS AND POSITIONS.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

**PART 1.** The Council makes the following findings:

- (A) The City adopted Texas Local Government Code Chapter 143 (*Municipal Civil Service*), which applies to members of the classified service in the Fire Department.
- (B) Chapter 143 (*Municipal Civil Service*) provides that the City Council shall establish the classifications for the Fire Department and the number of positions in each classification.
- (C) The Fire Department recommends the creation of certain classified positions to improve delivery of fire services and to increase efficiency.

**PART 2.** The civil service classifications of the Fire Department and the number of positions in each classification are established as follows:

- (A) Assistant Chief                    5
- (B) Division Chief                    8
- (C) Battalion Chief                    37
- (D) Captain                            71
- (E) Lieutenant                        201
- (F) Fire Specialist                    214
- (G) Firefighter                        661

**PART 3.** The number of positions in the civil service classification of Battalion Chief in Part 2 of this ordinance is an increase of one (1) from the number in existence immediately before the effective date of this ordinance.

**PART 4.** The number of positions in the civil service classification of Lieutenant in Part 2 of this ordinance is an increase of three (3) from the number in existence immediately before the effective date of this ordinance.

**PART 5.** The number of positions in the civil service classification of Fire Specialist in Part 2 of this ordinance is an increase of three (3) from the number in existence immediately before the effective date of this ordinance.

**PART 6.** The number of positions in the civil service classification of Firefighter in Part 2 of this ordinance is an increase of nine (9) from the number in existence immediately before the effective date of this ordinance.

**PART 7.** This Ordinance does not affect or amend the Collective Bargaining Agreement between the City of Austin and the Austin Firefighters Association, Local 975 of the International Association of Firefighters, effective on October 1, 2017, which shall continue to apply to all civil service classifications except as specified in that Agreement.

**PART 8.** The Base Salary Schedules attached to the Collective Bargaining Agreement ratified on September 28, 2017 are adopted for each civil service classification except Assistant Chief.

**PART 9.** Ordinance 20171012-030 is repealed.

(A) Assistant Chief	<u>6</u>
(B) Commander	<u>18</u>
(C) Police Lieutenant	<u>69</u>
(D) Police Sergeant	<u>187</u>
(E) Police Corporal/Police Detective	<u>390</u>
(F) Police Officer	<u>1259</u>

**PART 3.** The number of positions in the civil service classification of Police Sergeant in Part 2 of this ordinance is an increase of two (2) from the number in existence immediately before the effective date of this ordinance.

**PART 4.** The number of positions in the civil service classification of Police Corporal/Police Detective in Part 2 of this ordinance is an increase of seven (7) from the number in existence immediately before the effective date of this ordinance. Two (2) of these positions will become effective upon adoption of this ordinance and five (5) will become effective April 1, 2019.

**PART 5.** The number of positions in the civil service classification of Police Officer in Part 2 of this ordinance is an increase of twelve (12) from the number in existence immediately before the effective date of this ordinance.

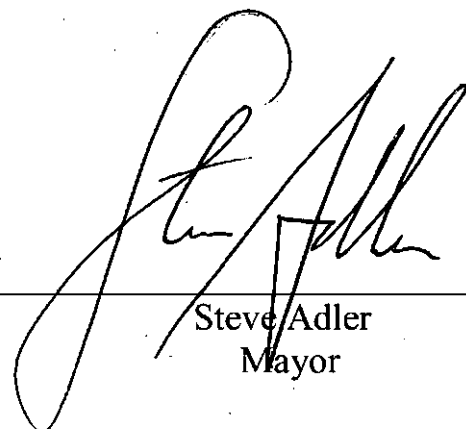

**PART 6.** Ordinance No. 20170913-004 is repealed.

**PART 7.** This Ordinance takes effect on October 1, 2018, except as provided in Part 4.

**ORDINANCE NO. 20180911-006**

**AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE EMERGENCY MEDICAL SERVICES DEPARTMENT; CREATING CERTAIN POSITIONS; AND REPEALING ORDINANCE NO. 20170913-005 RELATING TO EMERGENCY MEDICAL SERVICES DEPARTMENT CLASSIFICATIONS AND POSITIONS.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

**PART 1.** The Council finds:

- (A) In accord with the procedures in Subchapter K of Texas Local Government Code Chapter 143 (*Civil Service Status of Emergency Medical Services Personnel in Certain Municipalities*) the City has adopted Chapter 143, which applies to certain employees in City's Emergency Medical Services Department.
- (B) Subchapter K of Chapter 143 provides that the City Council shall establish the classifications for the Emergency Medical Services Department and the number of positions in each classification.
- (C) The Emergency Medical Services Department recommends the creation of certain classified positions to improve the delivery of emergency medical services and increase efficiency in the Emergency Medical Services Department.

**PART 2.** "Emergency Medical Services Department" means the Austin-Travis County Emergency Medical Services Department.

**PART 3.** The Emergency Medical Services Department shall be divided into three Divisions designated as the Field Division, Communications Division, and Operations Division. The number of positions in each civil service classification within each Division is established as follows:

**Field Division:**

- |                                 |            |
|---------------------------------|------------|
| (A) Commander - Field           | <u>33</u>  |
| (B) Captain - Field             | <u>68</u>  |
| (C) Clinical Specialist - Field | <u>227</u> |

(D) Medic - Field 166

**Communications Division:**

(A) Commander - Communications 4

(B) Captain - Communications 11

(C) Clinical Specialist - Communications 24

(D) Medic - Communications 14

**Operations Division:**

(A) Assistant Chief 3

(B) Division Chief 6

**PART 4.** This Ordinance does not affect or amend the Meet and Confer Agreement between the City and the Austin-Travis County EMS Employees Association effective on September 16, 2018, which shall continue to apply to all civil service classifications except Assistant Chief, as specified in that Agreement.

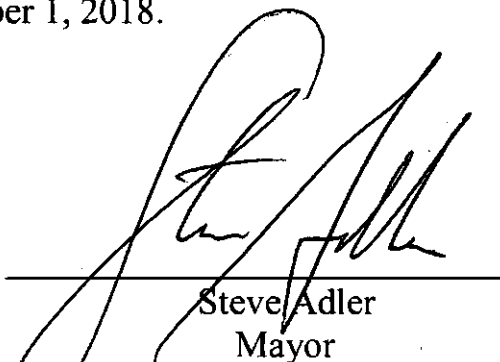

**PART 5.** Ordinance 20170913-005 is repealed.

**PART 6.** This ordinance takes effect on October 1, 2018.

# Adopted Budget Reconciliation

---

The Austin City Council made changes to the FY 2019 Proposed Budget during its consideration on September 11, 2018. These changes, which are described below, have been incorporated into the FY 2019 Approved Budget document.

## Staff Recommended Changes:

### Operating Budget:

- Move the Food Access position and \$83,793 from Austin Public Health (APH) to the Economic Development Department and increase the transfer from the General Fund to the Economic Development Fund by the same amount.
- Move the Community Engagement Specialist for Restore Rundberg and \$117,305 from the Parks and Recreation Department to the Austin Public Health Department.
- Reduce Austin Energy's power supply revenues and other revenues by \$8,990,603 to reflect updated Power Supply Adjustment (PSA) rate.
- Reduce Austin Energy's power supply expenditures by \$8,015,867 to reflect updated PSA rate
- Increase Mayor & Council budgets by \$325,100 with savings from the FY 2018 Year-end estimated amount.
- Increase amount awarded to APH from STD-HIV Control grant by \$97,000.
- Increase the amount awarded from Housing Opportunities for Persons with AIDS grant by \$170,000.
- Add \$54,925 in Fleet Department grant budget for a biodiesel fueling station at the new Onion Creek Fire/EMS facility.
- Add \$75,000 in APH for a second year of Cities Supporting a Strong Prenatal to Age 3 Agenda grant.
- Decrease property tax revenue for the Downtown Public Improvement District by \$514,483 and decrease expenditures by \$560,296.
- Decrease property tax revenue for the South Congress Street Public Improvement District by \$13,894 and increase expenditures by \$4,447.
- Increase property tax revenue for the East Sixth Street Public Improvement District by \$1,151 and increase expenditures by \$10,202.

### Fee Schedule:

- Amend the fee schedule to align with Councils actions taken during adoption of the FY 2018-19 operating budget.
- Amend Austin Energy's Power Supply Adjustment Charge as shown in the *City of Austin Fiscal Year 2019 Electric Tariff* handout.
- Amend the Citywide (Non-departmental) fee schedule to include the following disclaimer:
  - "Depending on the form of payment, a convenience fee could be charged."
- Amend the Parks & Recreation Department fee schedule to include the following disclaimers:
  - Entrance fees to the Zilker Botanical Garden may be waived as part of a membership program for the Zilker Botanical Garden Conservancy, up to the limit established by contract, but not to exceed the amount established by Ordinance No. 2018628-036. Funds raised by the Conservancy through a membership program will be utilized for additional educational and operational support of the Zilker Botanical Garden.
  - Building, facility, and grounds use fees/rentals may be waived for the purpose of educational programs and fundraising activities for the Zilker Botanical Garden Conservancy, up to the limit established by contract, but not to exceed the amount established by Ordinance No. 20180628-036. Revenues generated through programs and activities will be used for educational and operational support of the Zilker Botanical Garden.
- Amend the Fire Department fee schedule to remove the following disclaimers:
  - Re-inspection Fee ~~(Construction Sites)~~
    - ~~Fee will be charged when previously identified violation have not been corrected.~~
  - Fire Sprinkler System Inspection
    - ~~(There is no additional charge for identical buildings on the same project that are not and do not need to be separately drawn)~~

## Staff Recommended Changes:

### Fee Schedule:

- Amend the Planning and Zoning Department fee schedule to include the following disclaimer:
  - Document Sales
    - Document Sales are not eligible for refunds, *but are subject to tax.*
- Amend the Austin Public Health Department Food Establishment Permit Fees, effective November 1, 2018.
 

<u>Austin Public Health</u>	<u>FY 19 Proposed</u>	<u>FY 19 Approved</u>
○ 1A-Low Risk/Large	\$301.00	\$416.00
○ 1B-Low Risk/Medium	\$263.00	\$378.00
○ 1C-Low Risk/Small	\$225.00	\$359.00
○ 2A-Medium Risk/Large	\$597.00	\$684.00
○ 2B-Medium Risk/Medium	\$521.00	\$608.00
○ 2C-Medium Risk/Small	\$445.00	\$532.00
○ 3A-High Risk/Large	\$937.00	\$896.00
○ 3B-High Risk/Medium	\$822.00	\$782.00
○ 3C-High Risk/Small	\$708.00	\$601.00
- Amend the Austin Transportation Department fee schedule to add two new Vehicle Immobilization Service Fees, per Council Ordinance No. 20180823-075
  - Vehicle Immobilization Service License, \$50
  - Replacement or Revised Vehicle Immobilization Service License, \$11
- Amend the Austin Police Department fee schedule to increase the Vehicle Immobilization Fee to \$100, per Council Ordinance No. 20180823-75.
- Amend the Development Services fee schedule:
 

<u>Development Services Department</u>	<u>FY 19 Proposed</u>	<u>FY 19 Approved</u>
○ 1.04 Planned Unit Development PUD Creation per acre over 250 acres	\$1,376.00	\$132.00
○ 1.06 Planned Development Area PDA Creation per acre over 250 acres	\$1,376.00	\$132.00
○ 1.07 Environmental Re-inspection <ul style="list-style-type: none"> <li>▪ A Tier 1 (Verbal) \$90.00 \$181.00</li> <li>▪ B Tier 2 (Written) \$181.00 \$362.00</li> <li>▪ C Tier 3 (Stop Work Order) \$0.00 \$543.00</li> </ul>		
○ 1.08 Landscape Inspections <ul style="list-style-type: none"> <li>▪ A Inspection Fee               <ul style="list-style-type: none"> <li>• a &lt;=1 Acre \$195.00 per phase \$195.00 per inspection</li> <li>• b &gt;1 Acre \$390.00 per phase \$390.00 per inspection</li> </ul> </li> <li>▪ B Re-inspection Fee               <ul style="list-style-type: none"> <li>• a &lt;=1 Acre \$146.00 \$146.00 per inspection</li> <li>• b &gt;1 Acre \$292.00 \$292.00 per inspection</li> </ul> </li> </ul>		

# Adopted Budget Reconciliation

---

## Council Changes:

### Operating Budget:

- Increase the General Fund net revenue by \$2,225,986 for an increase of the tax rate to \$0.4403 offset by an increase to the Senior exemption by \$2,500.
- Increase the General Fund transfer to the Budget Stabilization Reserve Fund in the amount of \$231,480.
- Increase the General Fund transfer to Economic Development Department in the amount of \$319,000 for workforce development.
- Decrease the transfer from the General Fund to the Economic Development Department in the amount of \$130,000 for a reduction in the Chapter 380 allocation to fund a Police Department Prevention and Crisis Response contract.
- Increase Austin Public Health budget by \$290,000 for AISD parent support specialists and \$150,000 for AISD Prime Time afterschool program.
- Increase the Austin Public Health budget by \$1,000,000 to provide intervention services for those experiencing homelessness.
- Increase the Police Department budget by \$170,000 and 2.0 full-time equivalents for victim services counselors and sexual assault counseling.
- Decrease funding in the amount of \$1,727,488 in the Municipal Court Department due to a building lease contract delay.
- Increase the Parks and Recreation Department by \$300,000 for the Carver Museum Master Plan.
- Increase the Police Department in the amount of \$1,147,229 to support funding for EMCOT.
- The Austin Public Health Department budget increase in the amount of \$150,000 for a Gus Garcia Health Clinic Feasibility study.
- Increase funds by \$160,000 to Lifeworks for services directed at youth experiencing homelessness.
- Management Services Department budget increase by \$75,000 for Mental Health Issues study for Austin Police Department.
- Increase Development Services Department by \$221,000 and 2.0 full-time equivalents for Small Business Ombudspersons.
- Austin Code budget increase by \$110,000 for a Building and Strengthening Tenant Action contract.
- Increase appropriations by \$88,089 in the Urban Forestry Replenishment fund to support the Austin Environmental Heroes, and Remove and Replace Programs.

### Capital Budget:

- Increase Parks and Recreation Department budget by \$1,185,000 to purchase recycling receptacles in the parks through certificate of obligations (KOs).
- Reallocate \$1,000,000 to the Parks and Recreation Department CIP from the Budget Stabilization Reserve Fund for facility maintenance and decrease from Building Services by the same amount.

# GLOSSARY

## **ACCRUAL BASIS**

Method of accounting that recognizes revenue when earned, rather than when collected. Expenses are recognized when incurred rather than when paid. Proprietary funds use the full accrual basis of accounting. Governmental funds use a modified accrual basis.

## **ACTIVITY**

A set of services performed by a department grouped together by a common purpose, which produces outputs and results. It is the lowest level presented in the Budget.

## **ADJUSTMENT TO GAAP**

A bookkeeping entry made at the end of the fiscal year to assign income and expenses to a different year. These entries are made according to Generally Accepted Accounting Principles (GAAP) and under the accrual accounting systems in order to correctly reflect the timing of income and expenditures.

## **ADMINISTRATIVE SUPPORT** (See also COST ALLOCATION PLAN)

Funding transferred from the General Fund and enterprise funds for specific central administrative functions that benefit those funds, such as the City Manager's Office, the Financial Services Department, Communications and Public Information, and the Human Resources Department.

## **AD VALOREM TAX** (Also known as PROPERTY TAX)

The ad valorem tax is payable at a rate per \$100 of taxable property value. The City Council sets the ad valorem tax rate every year as part of the budget process. A portion of the tax funds General Fund operations. The remaining portion funds General Obligation Debt Service.

## **AMENDED BUDGET**

Amended budget, as used throughout the budget document, represents the original adopted budget plus any amendments passed by the City Council during the fiscal year. This figure does not include prior year encumbrances or re-appropriations.

## **AMORTIZATION**

The process of accounting for an amount over a period of time.

## **APPROPRIATION**

The legal device by which the City Council authorizes the spending of City funds for specific purposes. Appropriations are usually limited in the amount and timeframe for expenditure.

## **APPROVED BUDGET**

Approved budget, as used in fund summaries and department and program summaries within the budget document, represents the budget as originally adopted by the City Council.

## **ASSESSED VALUATION**

A government sets a valuation upon real estate or other property as a basis for levying taxes. An assessed valuation represents the appraised valuation less any exemptions.

## **BACKCHARGE** (See also EXPENSE REFUND)

An expense reimbursement budgeted in one department for service costs charged to another department.

## **BAD DEBT**

Unsecured debt for which interest or payment is past due and unpaid for six months (and which is not in process of collection). Some businesses set aside a reserve on their books to offset losses from bad debts.

## **BALANCED BUDGET** (See also STRUCTURAL BALANCE)

A budget in which planned expenditures can be met by current income from taxation and other central government receipts.

## **BASIS OF ACCOUNTING**

When revenue and expenditures are recognized in the accounts and reported in the financial records of the City, regardless of the measurement focus applied. Accounting records for governmental fund types are maintained on a modified accrual basis, with revenue being recorded when available and measurable, and expenditures being recorded when services or goods are received and the liabilities are incurred. Accounting records for proprietary fund types and trust funds are maintained on an accrual basis.

## **BASIS OF BUDGETING** (See also MODIFIED ACCRUAL)

The City of Austin's basis of budgeting is the modified accrual basis for governmental funds, including the General Fund. Proprietary funds, which include enterprise and internal service funds, are budgeted essentially on the full accrual basis, with the exceptions of compensated absences and debt service payments. Encumbrances are recognized by both governmental and proprietary funds since encumbrances represent a commitment of funding for goods and services. The City budgets for payments that are expected to be paid during the fiscal year.

## **BEGINNING BALANCE**

The residual non-restricted funds brought forward from the previous fiscal year's ending balance.

## **BOND ELECTION**

Election held at various times to authorize the issuance of long term general obligation debt for capital improvements. The taxing authority of the city backs General Obligation Bonds (G. O. Bonds).

## **BONDS**

Debt instruments that require repayment of a specified principal amount on a certain date (maturity date), together with interest at a stated rate or formula for determining the interest rate.

**BOND SALE**

Process where the City sells bonds as a means of borrowing capital for projects. The City then repays this debt to the lender over a period of time similar to the manner in which a homeowner pays a mortgage.

**BUDGET**

A plan of financial operation showing proposed expenditures and the means of financing them.

**BUDGETARY CONTROL**

The management of a government or enterprise in accordance with an approved budget for the purpose of keeping spending within available appropriations and available revenue.

**BUDGETARY EXPENDITURES**

Decreases in net assets. In contrast to conventional expenditures, budgetary expenditures do not include amounts represented by non-current liabilities.

**BUSINESS PLAN**

Plans developed by all City departments, which have a 1-5 year horizon and are revisited annually. Business plans do three things: 1. improve business decisions by focusing on measureable goals and objectives; 2. focus the culture of government to manage for results; and 3. integrate planning with the performance budget.

**CAPITAL BUDGET**

A plan of proposed capital outlays and the means of financing them. The annual capital budget is the primary means by which most of the acquisition and construction activities for facilities and major improvements of a government are controlled.

**CAPITAL EXPENDITURES**

Funds used to acquire or improve long-term assets.

**CAPITAL IMPROVEMENTS PROGRAM (CIP)**

A comprehensive program that projects the capital needs of a community. Generally, it is a cyclical process that estimates the needs for a set number of years. Capital Improvements Program Plans are essential for sound infrastructure and financial planning.

**CAPITAL OUTLAY**

An item costing more than \$5,000 and having a useful life of more than one year.

**CERTIFICATE OF OBLIGATION (CO)**

A certificate of obligation is used to obtain quick financing. The full faith and credit of the City secures it. Under the State Act, the intent to issue a certificate must be published in the local newspaper 30 days in advance. Voter approval is not required unless 5% of the qualified voters sign a petition and file it with the City Clerk. A certificate can be used for real property purchase and construction.

**COMMERCIAL PAPER (CP)**

Short-term, unsecured promissory notes, usually due within 30-

45 days. Generally, the notes are backed by a line of credit with a bank.

**COMMODITIES**

Consumable goods such as asphalt, concrete, office supplies, small tools, and fuel.

**CONTRACTUAL OBLIGATION (KO)**

A short-term debt instrument which does not require voter authorization, used to finance the purchase of items such as equipment and vehicles.

**COST**

The amount of money or other consideration exchanged for property, services, or an expense.

**COST ALLOCATION PLAN** (See also ADMINISTRATIVE SUPPORT)

The documentation identifying and allocating centralized administrative support costs based on the level of centralized support provided by the City to each of its departments and agencies.

**CURRENT**

Designates the present fiscal period, as opposed to past or future periods. It usually means items likely to be fully utilized or converted into cash within one year.

**CURRENT YEAR ESTIMATE (CYE)**

The level of revenue, expenditures or performance data projected to be received, spent, or achieved by the end of the current fiscal year.

**DEBT SERVICE**

The amount of money required for interest and principal payments on an outstanding debt in any given year.

**DEBT SERVICE COVERAGE**

An indicator of the financial strength of a project financed by revenue bonds. The calculation is net revenue divided by the debt service. Net revenue is total revenue less operating and maintenance expenses, and debt service is annual principal and interest payments on debt.

**DEBT SERVICE FUND** (See also SINKING FUND)

A fund established to account for the accumulation of resources for the payment of principal and interest on long term debt.

**DEBT SERVICE RESERVE**

A fund that may be used to pay debt service for revenue bonds if the sources of the pledged revenue do not generate sufficient funds to satisfy the debt service requirements. The reserve fund is either funded in whole or in part from the proceeds of the bonds or is allowed to gradually accumulate over a period of years through required payments from the pledged revenue. If the reserve fund is used in whole or in part to pay the debt service, the issuer usually is required to replenish the reserve fund from the first available funds or revenue. A typical reserve requirement might be the maximum annual debt service requirement for any year remaining until the bonds reach maturity.

**DEFICIT**

The excess of expenditures over revenue during an accounting period or, in the case of proprietary funds, the excess of expense over income during an accounting period.

**DEPRECIATION**

A reduction in the value of an asset with the passage of time, due in particular to wear and tear.

**EFFECTIVE RATE**

The effective rate is a calculated tax rate that would provide the taxing unit with about the same amount of revenue received in the year before, on properties taxed in both years. If property values rise, the effective tax rate will go down and vice versa. The effective tax rate is generally equal to the prior year's taxes divided by the current taxable value of properties that were also on the tax roll in the prior year.

**ENCUMBRANCE CARRIED FORWARD**

When contractual commitments of funds are made, those funds are encumbered and no longer available for expenditure. As actual expenses occur, the encumbrance is reduced. When the fiscal year ends, the remaining encumbrance is "carried forward" and added to the budget approved by the City Council for the new fiscal year.

**ENCUMBRANCES**

Obligations in the form of purchase orders, contracts, or other commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or actual liability is set up, at which point they become expenditures.

**ENDING BALANCE** (See also FUND BALANCE)

The dollars remaining after current expenditures for operations and debt service are subtracted from the sum of the beginning fund balance and current resources. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances.

**ENTERPRISE FUNDS**

Account for operations that are financed and operated in a manner similar to private business enterprises. Costs are financed or recovered primarily through user charges. Major enterprise funds include: Austin Water Utility, Austin Energy, and Airport Fund. Non-major business-type activities include: Convention Center and public events; environmental and health services, public recreation and urban growth management.

**EXPENDITURES**

Decreases in net financial resources. They include current operating expenses that require the current or future use of net current assets, debt service, and capital outlay.

**EXPENSE REFUND** (See also BACKCHARGE)

A cost reimbursement from other departments. It is usually associated with some service provided by one department on behalf of another. Because these reimbursed costs are incurred activity costs, they are shown as activity requirements in the budget document.

**EXPENSES**

Decreases in net total assets. They represent the total cost of operations during a period, regardless of the timing of related expenditures.

**FEES**

Charges for services.

**FIXED ASSETS**

Fixed assets are of long-term character and are intended to continue to be held or used. Examples are land, buildings, and machinery and equipment.

**FIXED COST**

A cost, such as rent, that does not change with increases or decreases in the amount of services provided.

**FULL-TIME EQUIVALENT (FTE)**

A full-time equivalent authorized position, filled or vacant.

**FULL ACCRUAL**

The accounting and budgeting basis the City of Austin uses for proprietary funds, with the exception of compensated absences and debt service payments. Full accrual reports income when earned and expenses when incurred, as opposed to cash basis accounting, which reports income when received and expenses when paid.

**FUND**

A fiscal and accounting entity with a self-balancing set of accounts. It records cash and other financial resources, all related liabilities, residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

**FUND BALANCE** (See also ENDING BALANCE)

The dollars remaining after current expenditures for operations and debt service are subtracted from the sum of the beginning fund balance and current resources. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances.

**FUND CATEGORY**

The components of a high-level way to organize revenue and expenditures for a citywide view of the budget. The fund categories used for the citywide budget overview include, General, Enterprise, Reserves, Internal Service, Special Revenue, and Debt Retirement.

**FUNDING SOURCE**

The specifically identified dollars allocated to meet budgeted requirements.

**FUND SUMMARY** (Also known as FINANCIAL SUMMARY)

A financial forecasting statement for any period of time that combines beginning and ending balances, including estimated revenue.

**GENERAL FUND**

The primary operating fund of the City. It is used to account for all financial resources that are not required to be accounted for in another fund. It includes the following activities: general government; public safety; transportation, planning, and sustainability; public health; public recreation and culture; and urban growth management.

**GENERALLY ACCEPTED ACCOUNTING PRINCIPLES** (GAAP)

The uniform minimum standards of, and guidelines to, financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define the accepted accounting practices at a particular time. They include both broad guidelines of general application and detailed practices and procedures. GAAP provide a standard by which to measure financial presentations.

**GENERAL OBLIGATION BONDS** (G.O. BONDS)

Bonds that are secured by the full faith and credit of the issuer. G.O. bonds issued by local units of government are secured by a pledge of the issuer's ad valorem taxing power. They are usually issued to pay for general capital improvements such as parks and streets.

**GOVERNMENTAL ACCOUNTING**

The composite activity of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of government.

**GOVERNMENTAL FUNDS**

Funds generally used to account for tax-supported activities. There are five different types of governmental funds: general, special revenue, debt service, capital projects, and permanent funds.

**GRANT**

A contribution by outside governments or agencies to the City. The contribution is usually made to aid in a specified function (for example, education), but it is sometimes also for general purposes.

**INDIRECT COST**

An expense necessary for the functioning of the organization as a whole that cannot be directly assigned to one service.

**INDIRECT COST REFUND**

The mechanism for recovering expenses not directly associated with individual departments' operations and maintenance.

**INTERDEPARTMENTAL SERVICES**

Budgeted expenses for services provided by another department.

**INTERNAL SERVICE FUNDS**

Account for the financing of goods or services provided by one city department or agency to other city departments or to other governmental units on a cost-reimbursement basis. These activities include, but are not limited to, capital projects management, combined emergency center operations, employee health benefits, fleet services, information services, liability reserve (city-wide self insurance) services, support

services, wireless communication services, and workers' compensation coverage.

**KEY INDICATOR**

A performance measure that has been determined by the department during its business planning process to be an important measure that indicates the department's success.

**MAJOR FUNDS**

Major funds for the city of Austin are: the General Fund, Austin Energy Fund, Austin Water Utility Fund, and the Airport Fund.

**MODIFIED ACCRUAL** (See also BASIS OF BUDGETING)

City of Austin governmental funds are budgeted using the modified accrual basis, with revenue recognized when they become measurable. Revenue is "measurable" when the amount of the transaction can be reasonably determined. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred and is expected to be liquidated within 60 days.

**NOMINAL RATE**

The same set ad valorem tax rate as the prior year, regardless of changes in assessed property value.

**NON-PERSONNEL**

A budget category consisting of contractual, commodity, and indirect costs.

**NON-RECURRING REVENUE**

A one-time windfall that is budgeted only for one fiscal year.

**NOTE**

A written, short-term promise of the issuer to repay a specified principal amount on a certain date, together with interest at a stated rate, or according to a stated formula, payable from a defined source of anticipated revenue. Notes usually mature in less than five years.

**OBJECT**

As used in expenditure classification, object applies to the article purchased or the service obtained. Examples are wages, electricity, rental, maintenance, travel, office supplies, and computer hardware.

**OBJECT CLASS/CATEGORY**

The expenditure classification according to the types of items purchased or services obtained; for example, personnel, services, materials or supplies, and equipment.

**OPERATING EXPENSES** (see also PROGRAM REQUIREMENTS)

Proprietary fund expenses that directly relate to the fund's primary service activities.

**ORDINANCE**

A formal legislative enactment by City Council. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the City's boundaries.

**OVERHEAD**

The element of cost necessary for the production of an article or the performance of a service which is of such a nature that the amount applicable to the product or service cannot be determined readily. Usually, overhead relates to those objects of expenditures that do not become an integral part of the finished product or service such as rent, heat, light, supplies, and management.

**PERFORMANCE BUDGET**

The City's performance budget was developed as a way to tie appropriations of City funding to the results achieved by programs. Departments develop the performance budget by determining the cost of activities, which are aggregated together into program budgets.

**PERFORMANCE MEASURES**

Measurable information regarding the work performed within an activity. They can be represented in counts, costs, or percentages. They help to make good business decisions.

**PROGRAM**

A major line of business or division within a department. It consists of a group of common activities that provide services and produce results for citizens.

**PROGRAM REQUIREMENTS** (see also OPERATING EXPENSES)

Expenses that directly relate to the fund's primary service areas, or programs.

**PROPRIETARY FUNDS**

Funds that consist of enterprise funds and internal service funds. Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principle ongoing operations, such as providing electric or water-wastewater services. Other revenue or expenses are non-operating items.

**PUBLIC IMPROVEMENT BOND** (PIB)

A voter-approved bond issued by the City that is secured by and payable from ad valorem taxes to finance the cost of purchasing land or making improvements to real property for the purpose of public improvement within the municipality. Examples of tax-supported PIBs include street, signal and pedestrian improvements; parkland and parks or cultural facility improvements; library facility improvements; and affordable housing.

**RE-APPROPRIATION**

By City Council action, an Operating Budget spending authorization lapses on September 30 of each fiscal year. Any authorization not expensed or encumbered is illegal for expenditures, and the dollars associated with the authorization "fall to the ending balance." Those items that are deemed important are brought to the City Council to be re-appropriated in the new fiscal year.

**REFUNDING**

Issuing new bonds to refinance an outstanding bond issue. There are two major reasons for refunding: to reduce the

issuer's interest costs or to remove a burdensome or restrictive covenant imposed by the terms of the bonds being refinanced. The proceeds of the new bonds are either deposited in escrow to pay the debt service on the outstanding obligations when due, or they are used to immediately retire the outstanding obligations. The new obligations are referred to as the "refunding bonds" and the outstanding obligations being refinanced are referred to as the "refunded bonds" or the "prior issue."

**REPLACEMENT COST**

The cost of a property, as of a certain date, which can render similar service as the property to be replaced. The replacement need not be of the same structural form as the original.

**REQUIREMENTS**

Expenses of a fund, department, program or activity.

**RESERVE**

An account in which a portion of the fund balance is segregated for a future use and which is, therefore, not available for further appropriation or expenditure. A reserve for inventories equal in amount to the inventory of supplies on the balance sheet of the general fund is an example of such a reserve.

**RESOLUTION**

A special or temporary order of a legislative body requiring less legal formality than an ordinance or statute.

**REVENUE**

Revenue is (1) an increase in a governmental fund net current assets from other than expenditure refunds and residual equity or (2) an increase in a proprietary fund net total assets from other than expense refunds, capital contributions, and residual equity transfers.

**REVENUE BONDS**

Bonds payable from a specific source of revenue, which do not pledge the full faith and credit of the issuer. Revenue bonds are payable from identified sources of revenue and do not affect the ad valorem tax rate. Pledged revenue may be derived from operation of the financed project, grants, excise, or other specified non-ad valorem tax.

**ROLLBACK RATE**

The rollback rate is a calculated maximum ad valorem tax rate allowed by law without voter approval. The rollback rate provides the City entity authority with about the same amount of tax revenue it spent the previous year for day-to-day operations, plus an extra 8 percent increase for those operations, in addition to sufficient funds to pay debts in the coming year. If a City entity authority adopts a tax rate higher than the rollback rate, voters in the City can circulate a petition for an election to limit the size of the tax increase.

**SERVICES**

Deliverables given to customers, either internal departments or citizens.

**SINKING FUND** (See also DEBT SERVICE FUND)

An account into which a debt issuer makes periodic deposits to ensure the timely availability of sufficient monies for the payment of debt service requirements. The revenue to be deposited into the sinking fund and payments from the fund are determined by the terms of the bond contract.

**STRUCTURAL BALANCE** (See also BALANCED BUDGET)

The state at which current revenue sufficiently supports current expenditures.

**TAXES**

Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits, such as special assessments, or charges for services rendered, such as wastewater service.

**TAX INCREMENT FINANCING (TIF)**

Tax increment financing is a tool that local governments can use to publicly finance needed structural improvements and enhanced infrastructure within a defined area. TIFs are portions of property tax collections and/or sales tax revenue dedicated to specific improvements within an established Reinvestment Zone. They are not separate taxes. The City of Austin has established active TIF Reinvestment Zones for approved infrastructure improvements to the Mueller, Seaholm, Second Street, and Waller Creek developments.

**TAX RATE**

The amount of tax levied for each \$100 of assessed valuation.

**TRANSFERS**

The authorized exchanges of cash or other resources between funds.

**WORKING CAPITAL**

Excess of current assets over current liabilities.
