The following data provides information required to determine if a Development Site is located in a place or county with more than twice the state average of units per capita supported by Housing Tax Credits (HTC) or private activity bonds. Pursuant to §11.3 of the Qualified Allocation Plan, as well as §2306.6703(a)(4) of the Texas Government Code, Applicants may be required to obtain a Governing Body Resolution in order for Developments located in certain census tracts to be eligible for funding.

The population figures are from the 2017-2021 ACS. The tax credit units data is derived from the Department's inventory of tax credit developments (as of November 2023 TDHCA Board meeting, last worksheet in this spreadsheet). Applicants are encouraged to independently verify the information provided herein. In some instances Developments have been found to be located in an ETJ of a city rather within the city limits and such information could change the results. Please contact dominic.deniro@tdhca.state.tx.us with any questions. Note that place population from the ACS is only an estimate and may have margin of errors

(A brief narrative overview of the proposed development. Specify the TDHCA Target Population, whether Supportive Housing, elderly, or general.)	

Project Narrative

5900 Airport Blvd is the current site of FC's Prosper Center, which houses our popular financial, tax and health insurance enrollment programs. Our Prosper Center programs have outgrown the space at this location, and we are re-envisioning this site as FC's 11th permanent supportive housing community for single adults. Highland Studios will be the new construction of up to 106 studios, with space for amenities such as computer lab, laundry, fitness room, community room, and community kitchen, as well as offices for on-site property management, maintenance, and services staff.

The apartments will include individual bathrooms and kitchens with low-flow and Energy Star appliances. All utilities will be paid by FC. The first floor will house several on-site amenities including a secure single point-of-entry, 24-hour front desk staffing, computer room, food pantry, exercise room, community kitchen and gathering space, TV room, and a secure landscaped courtyard. Offices will also be provided for on-site for property management, maintenance, and supportive services.

This location meets several of the City' preferences for affordable housing as it is 1) located within the Airport Activity and Mobility Corridor and the Highland Mall Activity Center, 2) located within a Displacement Risk area, 3) located within 1/4 mile of high frequency transit, 4) located less than 1 mile from healthy food, and 5) committing 25% of units to the Continuum of Care. Residents will also be close to educational opportunities at ACC Highland and have proximity to retail and jobs near Mueller, along Lamar and Guadalupe, and downtown.

This development will meet the TDHCA definition of Supportive Housing. The target population for this community is very low-income individuals, persons transitioning out of homelessness, persons at-risk of homelessness, persons with physical, intellectual, and/or developmental disabilities, youth aging out of foster care, persons transitioning out of institutionalized care, persons unable to secure permanent housing elsewhere due to various barriers, and/or persons with special housing needs. Foundation Communities has been providing services and housing to this target population for over 15 years. We will commit 25% COC units, depending on availability of project based rental assistance.

In addition to having safe, healthy, and affordable apartments to call home, new residents will benefit from intensive case management and free resources right at their doorsteps to improve their health, education, and financial stability. Wraparound services include 24-hour staffing, supported employment, healthy food pantries, adult education, counseling, referrals and connections to community resources, onsite medical supports, an onsite registered nurse, and emergency rental assistance. Most supportive services are provided by FC staff and volunteers. We do, however, partner with more than fifty nonprofits and community groups to offer additional services.

About Foundation Communities

Foundation Communities is a nationally recognized nonprofit founded in 1990 with a mission to provide quality affordable housing and supportive services to low-income families and individuals. Our vision for strong families and communities involves more than just providing a roof over peoples' heads. By combining affordable housing and free on-site services, we empower low-income residents with the tools they need to achieve long-term stability and self-sufficiency.

We own and manage over 3,800 apartments across 25 properties in Austin, three in North Texas, and two opening in 2024. Over 7,000 residents call our communities home. We are the lifetime owner, developer, property manager, and services provider to our Austin portfolio. We invest upfront in high quality design, materials, and green building strategies for our new properties, and we invest heavily in capital repairs, maintenance, and green upgrades at our older properties.

All FC residents have access to health amenities and resources including fitness, cooking and nutrition, food pantries, gardens, and disease management/ prevention services. To support families coming out of homelessness, we created the Children's HOME Initiative (CHI). These 173 units, integrated throughout our family properties, provide reduced rents and case management to help families move from crisis to long-term stability.

On-site Learning Centers give over 600 children of working parents academic and enrichment support, including the Green and Healthy Kids program. 85% of students maintain or improve their grades in our free out-of-school time programs. Adult education is also a priority and includes job and computer skills, English as a Second Language, and digital and financial literacy. College Hub deepens FC's decade-long commitment to serving non-traditional students, providing intensive support and academic opportunities for low income and first-generation college students.

Operations: **Experience**

• Experienced lifetime owner and property manager

We have 30 years of experience managing our properties. We perform all leasing, maintenance, accounting, compliance, and other property management functions for our 26 properties and earn property management and asset management fees that help support the overall nonprofit mission. Our staff have the experience, training, and upper management support to excel in their jobs, as well as competitive salaries and benefits. FC invests heavily in our staff as well as preventive maintenance as this saves time and money in the long-term, instills a sense of pride in the residents, and generally provides a positive example of affordable housing.

• Blended Management Model

Property management and services staff use a blended management approach to collaborate closely to maintain residents' housing stability. Balcones Terrace will be crewed and managed by a Community Manager, Assistant Community Manager, Front Desk Administrator, Front Desk Clerks, and 2 - 3 Maintenance staff, who will work together to ensure the site's smooth operation and deliver optimal services to residents. Property management staff must have practical experience with at least two years in the industry and receive annual training in Fair Housing and tax credit compliance.

Robust Asset Management and Preventive Maintenance

Our team monitors portfolio health, tracks each project monthly, and aggregates detailed performance metrics at the portfolio level for review by the CFO. FC also has a well-funded Central Reserve and robust Asset Management program to keep properties in good condition and eliminate unforeseen capital/repair expenses that would undermine FC's organizational and financial strength. The success of our property management is demonstrated through its high occupancy (97% in 2021), low turnover, and healthy investment in capital repairs and upgrades to existing portfolio (\$680/unit in 2021).
