Attachment 1 - Project Narrative

(A brief narrative overview of the proposed development. Specify the TDHCA Target Population, whether Supportive Housing, elderly, or general.)

Project Narrative

Foundation Communities (FC) is collaborating with a 60-year-old nonprofit service and housing provider Mary Lee Foundation (MLF) to rehab, preserve, redevelop, and eventually expand its existing Austin campus, located along the South Lamar transit corridor, for people with significant disabilities. The multi-building Lamar Square campus currently provides housing to over 250 residents, the majority of whom have very or extremely low incomes and special needs.

During the first phase of this re-development, we will rehab and preserve 105 existing units and redevelop under-performing housing with 70 newly constructed units. Most of these existing 175 households are living with disabilities, principally intellectual or developmental disabilities. During Phase 1, we will continue housing these existing residents. While we are constructing the new Phase 1 building, we will also perform emergency work orders on remaining homes so that residents are living in safe, functional dwellings in the interim. These residents will eventually be re-housed on-site in the newly built homes. All units will be restricted for individuals and households at or below 30%-60% AMI, and we will continue to target households living on low to extremely low and very low incomes with disabilities. This development will meet the TDHCA definition of Supportive Housing.

We will also redevelop Mary Lee's 41-unit Intermediate Care Facility (ICF) and Day Habilitation Center, which serve individuals with significant developmental and mental health disabilities. Because these uses are not tax credit eligible uses, they will be excluded from basis and funded by non-tax credit sources.

This location meets several of the City's preferences for affordable housing, as it is 1) located within a high opportunity area, 2) located within the Lamar Blvd. Activity Corridor and South Lamar Mobility Bond Corridor, 3) located within ¼-mile of high-frequency transit, and 4) rehabbing an existing affordable housing community. Residents will also be close to jobs and retail along South Lamar, South Congress, and downtown.

In addition to having safe, healthy, and affordable apartments to call home, residents will benefit from case management and free resources right at their doorsteps to improve their health, education, and financial stability. Wraparound services include healthy food pantries, adult education, counseling, referrals and connections to community resources, and emergency rental assistance. FC will provide property management and resident services to most of the residents while Mary Lee continues to serve the ICF and Day Hab clients. We also partner with more than 50 nonprofits and community groups to offer additional services.

About **Foundation Communities**

Foundation Communities is a nationally recognized nonprofit founded in 1990 with a mission to provide quality affordable housing and supportive services to low-income families and individuals. Our vision for strong families and communities involves more than just providing a roof over peoples' heads. By combining affordable housing and free on-site services, we empower low-income residents with the tools they need to achieve long-term stability and self-sufficiency.

We own and manage over 3,800 apartments across 25 properties in Austin, three in North Texas, and two opening in 2024. Over 7,000 residents call our communities home. We are the lifetime owner, developer, property manager, and services provider to our Austin portfolio. We invest upfront in high quality design, materials, and green building strategies for our new properties, and we invest heavily in capital repairs, maintenance, and green upgrades at our older properties.

All FC residents have access to health amenities and resources including fitness, cooking and nutrition, food pantries, gardens, and disease management/prevention services. To support families coming out of homelessness, we created the Children's HOME Initiative (CHI). These 173 units, integrated throughout our family properties, provide reduced rents and case management to help families move from crisis to long-term stability.

On-site Learning Centers give over 600 children of working parents academic and enrichment support, including the Green and Healthy Kids program. 85% of students maintain or improve their grades in our free out-of-school time programs. Adult education is also a priority and includes job and computer skills, English as a Second Language, and digital and financial literacy. College Hub deepens FC's decade-long commitment to serving non-traditional students, providing intensive support and academic opportunities for low income and first-generation college students.

Operations: **Experience**

- **Experienced lifetime owner and property manager**

We have 30 years of experience managing our properties. We perform all leasing, maintenance, accounting, compliance, and other property management functions for our 26 properties and earn property management and asset management fees that help support the overall nonprofit mission. Our staff have the experience, training, and upper management support to excel in their jobs, as well as competitive salaries and benefits. FC invests heavily in our staff as well as preventive maintenance as this saves time and money in the long-term, instills a sense of pride in the residents, and generally provides a positive example of affordable housing.

- **Blended Management Model**

Property management and services staff use a blended management approach to collaborate closely to maintain residents' housing stability. Balcones Terrace will be crewed and managed by a Community Manager, Assistant Community Manager, Front Desk Administrator, Front Desk Clerks, and 2 - 3 Maintenance staff, who will work together to ensure the site's smooth operation and deliver optimal services to residents. Property management staff must have practical experience with at least two years in the industry and receive annual training in Fair Housing and tax credit compliance.

- **Robust Asset Management and Preventive Maintenance**

Our team monitors portfolio health, tracks each project monthly, and aggregates detailed performance metrics at the portfolio level for review by the CFO. FC also has a well-funded Central Reserve and robust Asset Management program to keep properties in good condition and eliminate unforeseen capital/repair expenses that would undermine FC's organizational and financial strength. The success of our property management is demonstrated through its high occupancy (97% in 2021), low turnover, and healthy investment in capital repairs and upgrades to existing portfolio (\$680/unit in 2021).

Service: **Experience**

- **Foundation Communities will be the primary service provider**
Foundation Communities has over 25 years of experience in the provision of supportive services to its residents. Supportive services are an integral part of all FC properties and are included in the planning process for every new community from inception. The majority of supportive services will be provided by Foundation Communities staff and volunteers. We do, however, partner with more than fifty nonprofits and community groups to provide additional services.
- **We currently house over 600 formerly homeless households**
Our support services model is intensive, holistic, and carries 20 years of lessons learned serving households that are formerly homeless. Using a trauma-informed and harm reduction approach, our housing-plus-services model prevents eviction and builds healthy and safe communities. Our blended management approach to providing housing + services has empowered thousands of households establish long-term housing and financial stability, healthier lifestyles, educational success, and personal goals.
- **Long track record of fundraising**
FC has long history of fundraising to cover the cost of services, which are delivered free to FC residents and community members. Funding for operations, staff, and services come from a combination of cash flow, grants, and fundraising from private foundations, corporations and individuals. This is the same method used to fund the supportive service programs at all our existing properties and Prosper Centers. FC has deep relationships with the donor community, a well-funded Central Reserve, and maintains a healthy portfolio contributing strong ongoing revenue to the organization. FC has raised approximately \$43 million over the past 5 years to fund services at our existing properties in Austin.

Attachment 8 – Resolution from County

(If the proposed development is located in the ETJ of Austin, please include the executed resolution from the applicable County Commissioners' Court, as required by TDHCA)

**Attachment 9 – Rents by Unit Type: Before and After Rehabilitation
(if applicable)**

(If the proposed development involves the rehabilitation of a currently occupied development, attach an Excel table of the current rents by unit type and the proposed rents by unit type following the completion of rehabilitation)

Rents

Attached is a breakdown of current rents with notes on which units are vacant and which units have vouchers. As we take over management and ownership of these units we will fill vacancies at higher rents, request higher rents from the housing authority on units with vouchers, and slowly and very modestly increase rents on occupied non-voucher units. Our primary goal to retain tenants and improve their quality of housing while keeping rents as low as possible.
