39	40	Install additional drinking fountains at Barrington Park.	# Not Ranked	Not Yet Initiated	7/2013 (PARD): The fountain itself costs about \$2500, and the installation will vary on access to existing supply lines and drains. A typical installation will be from \$5000 - \$8000. 1/2011 (PARD): This is a shared facility with AISD. Drinking fountains currently exist at Barrington near the playground area. PARD welcomes the recommendation of the neighborhood suggestion as to the feasibility of adding a water fountain on the north boundary of the park. PARD will take this suggestion into consideration and coordination will be required from AISD and Cap Metro. Funding will need to be identified for this as well.	Priority 4 Georgian Acres FY 2011-12; 12/2010 (Contact Team): Yes, we do realize that the Barrington School Park is a shared facility of PARD and Austin ISD. Other resources for the park's maintenance and development include neighborhood and sports associations. The neighborhood planning team looks forward to the opportunity for a complete discussion with all interested parties as far as the park's ongoing operations and future improvements. Barrington Park is well-designed to provide distinct recreation areas for many different park users. Smaller children and young families picnic and use the playscapes near the existing water fountains. Older children play soccer on the open area at the west of the park and youths use the multipurpose court for basketball. Each of these groups can move into the picnic area to reach the drinking fountains there. However, by far the largest number of park users are adults, mostly men, on the track, exercise equipment, and especially the soccer field. The new drinking fountains are intended to provide water for this group, more in their own area of the park. We are imagining that the exact placement of the new drinking fountains will be determined after considering the location of water lines. We anticipate that this means the new fountains would be located near the north wall of the school building. They might be near the entrance from the Slayton Dr. parking lot, midway the building near the bleachers, or closer to the northwest corner. If it were possible to provide a drinking fountain somewhere on the north edge of the park, where it would be available to Capital Metro users walking from the heavily used North Lamar/Rundberg stops that would be a tremendous asset to the neighborhood. With a MetroRapid stop scheduled to begin service at this intersection in 2012, the number of	PARD	AISD

						pedestrians along the perimeter of Barrington Park will be increasing. 8/2011 (NPCT): Rundberg tree planting, anticipated fall 2012, will include irrigation component. Investigate if feasible to install permanent tap/water fountain. 7/2012 (NPCT): PARD notified of Georgian Acres subdivision applications and neighborhood's intent that parkland dedication fees be used in the neighborhood		
42	40	Investigate ways to improve access to Brownie Playground.	# Not Ranked	Underway	6/2016: Longspur and Brownie to be connected to provide neighborhood access to park and school. 3/2016 (PAZ): Acquisition of additional parkland contiguous to Brownie Park will improve access by opening it up to the west. 7/2013 (PARD): This could be accomplished with a decomposed granite trail which would be approximately 550 lf and 6' wide. These trails can usually be constructed for around \$5/sf, this trail would be approximately \$16,500. 03/24/10 (PARD): This location has limited access due to its location at the end of a dead-end street. An opportunity to increase access may be possible if and when the adjacent vacant lot is developed into a residential use.	7/2010 (NPCT): Land donation to connect park with Longspur 2/2012 (NPCT): Watershed Protection consultation on riparian restoration of drainage easement, improvement of footpath. 4/2013 additional acre of donated land transferred, to provide access from Longspur	PARD	Public Works
43	40	Examine strategies that will promote wider usage of the Brownie Playground. Such strategies could include improved lighting and the placement of emergency call boxes	# Not Ranked	Planned Project	12/2017: PARD acquired 5.8 additional acres to expand Brownie Park. Master Planning process is underway. 7/2013 (PARD): We would suggest that additional lights be installed by Austin Energy by installing an additional pole with one fixture towards the park and two additional light heads towards the park on the existing poles on Brownie Drive. We do not have a cost figure on this proposal. Presently PARD does not typically support or promote area lights in parks. Presently PARD does not support or encourage the installation of the emergency call boxes in parks. History has proven that these are prime targets for vandalism and non-emergency use. There is also a monthly fee assigned to the phone usage. The rationale currently is due to the high number of cell phones, these call boxes are becoming obsolete. 03/24/10 (PARD): Lighting in close proximity to residential uses is a compatibility issue. Both suggestions are high maintenance issues that the department does not recommend.	6/2016 (NPCT): Ongoing contact team conversations with IDEA. 8/2015: PARD/IDEA conversations on additional park land and connectivity with new school site. 8/2011: APD says not included in Scanning, Analysis, Response, Assessment (SARA). 7/2011: Brownie Park event (slip-n-slide). Donated basketball goal installed. 5/2011 (NPCT): Brownie Park event (Lanier flag corps) and adopt-a-park application. 3/2011: It's My Park Day. 2/2011: UT Project 2011 cleanup of park and easement. 9/2010: SWS removal of dumpsters from sidewalks. Code Compliance installation of No Dumping signs. 6/2010: PARD agrees to provide regular maintenance (mowing and trash collection). Ongoing graffiti patrols and dumping ticketing	PARD	Austin Energy

49	43	Incorporate into the park's design a gazebo or other performance-type venue that will allow for a variety of culturally-related performances, including music and dance.	# 2 Georgian Acres, FY 2014-15	Not Yet Initiated	6/2017 (PARD): During the master plan process for Georgian Acres Neighborhood Park, a performance-type venue did not arise as a neighborhood priority. 1/2014 (PARD): Recommendation for gazebo or performance venue will be considered for inclusion of future design of Brownie Park, but there is currently no funding for either design or construction. 7/2013 (PARD): Cost will depend heavily on final design but could be \$50,000 - \$100,000. 1/2011 (PARD): As the result of land donation, PARD will be acquiring an additional 1.189 acres adjacent to Brownie Pocket Park (located at 10000 Brownie Drive N.E. 0.036 acres).	8/2011: Per receiver, expected to be cleared within 90 days. Says "oversight" in reporting to federal court will be corrected in net report. 6/2011: Adopt-A-Park application submitted. No response to application of follow-up calls or emails. Priority 6 North Lamar FY 2011-12. Previous lien on land promised as donation in exchange for zoning. Per receiver in private communication, expected to be cleared late July 2011. Per receivers' report to federal court, no commitment to COA, entire parcel for sale. 4/2011: Home Depot materials estimate \$2000. Per Kelly Snook briefing to CIP committee, would not be eligible for TPWD funding. Unresponsive on PLD funds. (Note that North Lamar planning area not included in PARD Long Range Plan, through "oversight." 3/2011: Land donation adjacent to Brownie playground is expected to be complete in June 2011.	PARD	Economic Development Department
50	44	Provide restroom facilities for park users.	# Not Ranked	Not Yet Initiated	7/2013 (PARD): Not supported by PARD in pocket and neighborhood parks, \$250,000 - \$350,000. 03/24/2010 (PARD): Restroom facilities will be provided where feasible and appropriate.		PARD	
51	44	Provide adequate parking for park visitors.	# Not Ranked	Not Currently Feasible or Recommended	03/24/2010 (PARD): Parking is not included with pocket or neighborhood size parks.	6/2016 (NPCT): PARD continuing work on ADA transition plan for all parks.	PARD	
70.A.	52	Construct new sidewalks along: the south side of Applegate Drive, between North Lamar Boulevard and Brownie Drive.	# Not Ranked	Not Yet Initiated	6/2016: Very high from North Lamar to Georgian Dr. and Medium priority from Georgian Dr. to Brownie Dr. in 2016 Sidewalk Masterplan. 6/2011 (PDR): Planning Commission CIP Subcommittee recommended project without ranking for the FY 2011-12 CIP 5-Year Plan. 1/2011 (Public Works): 2,800 linear feet at \$24/SF or \$120 lineal foot for the average 5' sidewalk. Sidewalk Matrix Score: Medium/High. All estimates are at today's construction costs and subject to change in the future. 03/17/2010 (PW): A small portion of the sidewalk is considered "high priority." Build-out of the sidewalk network depends upon availability of funds.	Priority 1 North Lamar FY 2011-12; 9/2011 (NPCT): Mark Cole Will recalculate priority scoring to include N Lamar as Core Transit Corridor, neighborhood plan inclusion, and 311 request. 1/2012 (NPCT) Included in initial project listing for 2012 bond package. 11/2012 Bonds passed 2013-ongoing design	Public Works

70.B.	52	Construct new sidewalks along: North Lamar Boulevard (several locations)	# 2 North Lamar, FY 2014-15	Underway	11/2017: sidewalks under construction 6/2016: TxDOT grant funds to (re)construct sidewalks from Parmer to 183. 1/2014 (PDRD): The North Lamar/Burnet Road Corridor Study recommends 6' to 7' sidewalks along North Lamar, among many other improvements. A portion of the improvements recommended by the study will be funded by the 2012 bond. 03/17/2010 (PW): As N. Lamar is a major arterial roadway, it would have high priority ranking and would be constructed when funding becomes available.	June 2015 PW has completed environmental phase of required TxDOT approval process for CAMPO grant-funded sidewalks. 8/2012 Included in Nov 2012 bond package. 12/2011 (NPCT): The City of Austin received a \$1.5 million grant from CAMPO to complete ADA-compliant sidewalks along Lamar from 183 to Parmer. See 12/12/11 blog post at http://nlct.wordpress.com and http://campotexas.org/pdfs/FactSheetBP9.pdf for more details. 6/2011 (NPCT): Site visit ATD, TxDOT. General approach of completing highest priority segments, balanced with expense of work. TxDOT complete stormwater infrastructure, COA can proceed with sidewalks in areas that don't need other improvements. Possibilities of private property paths/pocket parks.	Public Works	
70.C.	52	Construct new sidewalks along: the west side of Brownie Drive, between West Applegate Drive and East Grady Drive.		Not Yet Initiated	6/2016: Medium priority in 2016 Sidewalk. /17/2010 (PW): Not included in the scope of the PIMS tool.		Public Works	
70.D.	52	Construct new sidewalks along: the north side of West Grady Drive, between North Lamar Boulevard and Georgian Drive.	# Not Ranked	Not Yet Initiated	6/2016: High priority in 2016 Sidewalk Masterplan. 03/17/2010 (PW): Not included in the scope of the PIMS tool. 1/2011 (Public Works): 950 linear feet at \$24/SF or \$120 lineal foot for the average 5' sidewalk. Sidewalk Matrix Score: Medium. All estimates are at today's construction costs and subject to change in the future. 6/2011 (PDR): Planning Commission CIP Subcommittee recommended project without ranking for the FY 2011-12 CIP 5-Year Plan.	Priority 2 North Lamar FY 2011-12; 8/2010 (NPCT): Safe Route to School	Public Works	
70.F.	52	Construct new sidewalks along: the south side of East Lola Drive.	# Not Ranked	Not Yet Initiated	6/2016: Very high priority in 2016 Sidewalk Masterplan. 03/17/2010 (PW): High priority. Dependent upon availability of funds.	8/2010 (NPCT): Very low priority until community garden established on COA property	Public Works	
70.I.	54	Construct new sidewalks along: the south side of Diamondback Trail between Brownie Drive and the I-35 frontage road.	# Not Ranked	Not Yet Initiated	6/2016: High priority in 2016 Sidewalk Masterplan. 03/17/2010 (PW): Not included in the scope of the PIMS tool.		Public Works

71.A.	54	Repair or improve sidewalks along: Georgian Drive, between US Highway 183 and Rundberg Lane	# Not Ranked	Partially Complete	3/2018: Segment from Oertli Ln to E Fawnridge Dr. planned. 12/2017: sidewalk construction planned for west side of Gerogian Dr from Deen to E. Fairlawn Dr. 6/2016: Ranked high priority in 2016 Sidewalk Masterplan. 7/2015 (PAZ): Last week, Public Works completed the sidewalk along Georgian from Wonsley down to the bus stop on the east side. 7/2014 (PDRD): Sidewalks and bus stop pads have been installed at several locations in this corridor. In addition, sidewalk ramps have been installed at the intersection of Georgian Drive and Rundberg Lane. There are still gaps on the west side of the street. 03/17/2010 (PW): High-moderate priority. Dependent upon availability of funding. 9/2010: A 311 request was made and Jason Fialkoff met with a member of the contact team concerning this segment, and a City report was generated.	8/2010 (NPCT): ATD site visit. Low priority to add on both sides of street, No priority to align curb cuts or crosswalks with existing foot traffic routes. Need property owner buy-in for Fawnridge segment to Barrington. 12/2011 (NPCT): Recalculation of PIMS shows missing segments in Wonsley area now high priority.	Public Works	
71.C.	54	Repair or improve sidewalks along: Slayton Drive.	# Not Ranked	Partially Complete	7/2014 (PDRD): Improvements have been made to sidewalks near Barrington Elementary, including sidewalk ramps at the intersection of Slayton Drive and Cooper Drive and a new sidewalk on the west side of Slayton Drive at Barrington Elementary. If there are additional locations that need repair, please call 311 to report the exact location where repair is needed (street address or intersection).	8/2010 (NPCT): ATD site visit; Safe Routes to School. ADA	Public Works	
72	54	Explore the possibility of constructing a sidewalk or paved path from Ferguson Drive to Little Walnut Creek Elementary School to provide a safe route to school for students.	# 4 North Lamar, FY 2014-15	Not Yet Initiated	03/17/2010 (PW): Needs lighting and work with AISD. Owner rumored to be developing the land, but has since gone bankrupt. Could eliminate as many as 5 buses.	1/2011 (NPCT): Lotus Village (300 Ferguson) water and wastewater permits issued. 6/2012 (NPCT): Conversations with St Mark UMC and Lotus Village. Interest in foot route to school, but not an active project at this time.	Public Works	
73	55	Consider establishing bike lanes on Rundberg Lane to connect the NLCNPA to other areas of the City via Bicycle Route #14.	# 4 Georgian Acres, FY 2017-18	Not Yet Initiated	11/2015 (ATD): Shared lane markings, also known as "sharrows," were installed on Rundberg between IH-35 and Metric. 03/17/2010 (PW): Bicycle lanes for Rundberg are included in the Bike Plan.	June 2015 Sharrows added for shared bike/vehicle lane from I35 to N Lamar Blvd. 1/2012 (NPCT): Bike path through new elementary campus connecting north-south route without going on Rundberg.	Austin Transportation Department

86	59	Study the feasibility of constructing pedestrian refuge islands, such as raised medians, along North Lamar Boulevard.	# 5 Georgian Acres, FY 2014-15	Partially Complete	6/2017: Raised medians constructed at Rundberg/Lamar intersection. 6/2016: Safety improvements to N Lamar/Rundberg intersection planned; exact improvements to be defined and may include raised medians. 1/2014 (PDRD): The North Lamar/Burnet Road Corridor Study recommends installing a raised median along North Lamar from US 183 to Meadowlark and from Rundberg to Braker, among many other improvements. A portion of the improvements recommended by the study will be funded by the 2012 bond. ATD will be finalizing the list of improvements to be constructed by spring 2014. 5/2011 (ATD): While ATD agrees with the need for safer pedestrian accommodations, the N. Lamar request is problematic because it is TxDOT jurisdiction. ATD spoke with TxDOT about the potential of islands and TxDOT was opposed to their installation.	Priority 5 Georgian Acres FY 2011-12; 8/2010 (NPCT): Study already conducted by Texas Transportation Institute. Installation in areas such as Powell and Rundberg with existing striped (vehicle excluded) medians. 6/2011 (NPCT): Raised median outside of TxDOT highway standards. Other refuge options; Site visit ATD, TxDOT. 1/2012 (NPCT): Preliminary design from Lamar Corridor Mobility Study.	Austin Transportation Department	TxDOT
87	61	Develop a plan and implementation strategies that reduce the number of curb cuts along North Lamar Boulevard.	# 2 North Lamar, FY 2017-18	Planned Project	1/2014 (PDRD): The North Lamar/Burnet Road Corridor Study recommends driveway consolidation, among other improvements. A portion of the improvements recommended by the study will be funded by the 2012 bond. ATD will be finalizing the list of improvements to be constructed by spring 2014.	4/2016 (NPCT): N. Lamar Blvd. economic corridor study to include public/private opportunities for this type of transportation/commerce improvement. 6/2011 (NPCT): Temporary barriers to test design; Site visit ATD, TxDOT	Austin Transportation Department

Lamar Blvd. 6/2015 (PAZ): New sidewalk was constructed on north side of E. Powell Ln. from Sam Rayburn to IH 35. 4/2013 (PDRD): New sidewalk was constructed on the North side of Powell from Sam Rayburn to Georgian Dr. in 2008.	Priority 2 Georgian Acres FY 2011-12; 8/2010 (NPCT): ATD site visit. Would require extensive stormwater control – rough estimate \$1.5 million, in addition to sidewalk cost. Suggest amend neighborhood plan to include stormwater improvements. 9/2010 (NPCT): Watershed says not an issue for them, since no flooding. Will inspect bar ditches and improve if needed. Drainage system to north pre-annexation, so no City drainage easements. 7/2012 (NPCT): Improvements at S-curve following undercutting of road.	Public Works	
70.G.	52	Construct new sidewalks along: the entire north side of Deen Avenue.	# Not Ranked	Complete	7/2018: Sidewalk completed May 2018. 12/2017: Construction planned to begin in next 30 days. 6/2016: Very high priority in 2016 Sidewalk Masterplan. 03/17/2010 (PW): High priority. Dependent upon availability of funds.		Public Works	
70.H.	52	Construct new sidewalks along: the entire north side of Carpenter Avenue.	# Not Ranked	Complete	6/2016: Very high-High priority in 2016 Sidewalk Masterplan. 03/17/2010 (PW): High-Moderate priority. Dependent upon availability of funds.		Public Works	
70.N.	54	Construct new sidewalks along: the south side of East Wonsley Drive, between Georgian Drive and the I-35 frontage road.	# Not Ranked	Complete	11/2015 (PAZ): This sidewalk was completed this summer. 7/2015 (PAZ): This sidewalk is under construction. 1/2011 (Public Works): 2,100 linear feet at \$24/SF or \$120 lineal foot for the average 5' sidewalk. Sidewalk Matrix Score: High.	8/2015: Completed July 2015. 8/2010 (NPCT): ATD site visit. Would require stormwater control as well. Priority 3 Georgian Acres FY 2011-12.	Public Works	
71.B.	54	Repair or improve sidewalks along: Oriole Drive.	# Not Ranked	Complete	7/2015 (PAZ): In 2014, the Public Works Department repaired sidewalks and installed ramps along Oriole Drive near Rock Hollow Lane to help families walk safely to the new Guerrero-Thompson Elementary School.	8/2012 (NPCT): Repairs of collapsed sidewalks, buried utilities. 7/2011 (NPCT): This item was completed before the Neighborhood Plan was completed.	Public Works
