

Checking in on the Strategic Housing Blueprint after Three Years

In 2017, Austin City Council adopted the Austin Strategic Housing Blueprint detailing goals to reach 135,000 housing units over the next ten years (2018-2028). The Blueprint includes District-specific goals to ensure that there is affordable housing throughout the city, as well as overall goals for the construction of 135,000 housing units affordable to households at all income levels. This Progress to Date scorecard provides a snapshot of Austin's overall progress during the past 3 years toward achieving its 10-year affordability goals outlined in the Blueprint. While considerable progress has been made toward constructing middle- and high-income housing units, Austin will not meet its goals to build 60,000 units affordable to households earning 80% median family income (MFI) or below at the current rate of housing production.
