Nature or complaint: Improper Police Procedure	
Austin Police Officers Involved:	Unknown: ☒
Complaint: The complainant alleges: He and his service dog were walking into HEB when a customer began yelling at them threatening them and trying to get him to go outside. The two officers working at HEB came over and started telling the complainant to get out of the store. One of the officers pushed a shopping cart into him and he pushed it back into the officer. The officer kept telling him to get out of the store. Finally, he started to leave. The officer did not want to hear what happened and just kept telling him to leave. He could not get the paperwork to sue HEB. He told the officers to arrest him, and the officers said they would not arrest him but if he did not get off the property, they would mace him and his service dog, which is illegal. Cops are garbage. He cursed them out and called them every racist thing in the damn book. They are all racist and the police officers were acting like animals not professional. They did not come over and ask what the problem was and ask them to go outside they just came over and said get the hell out of here. What are you doing hiring psychopaths?

Complaint: The complainant alleges: He has had an ongoing situation with APD sitting in front of his house in unmarked cars, and they are also sending drones over his home. He does not have a lot of traffic coming to his house, only his friends and they have been coming around for years. He has a bad history with APD, and it makes him nervous. He is on medication, and he does not know if APD is going to shoot him, kill him, or what. It makes him very uncomfortable in his own home.

Complaint: The complainant alleges: The first police officer who came out on the 29th recommended she call a locksmith and have her locks changed. She changed her locks, but her receipt disappeared from her bedroom. They just go shopping in her apartment. They have a key. She told the officer that she was sick of these people and the officer questioned if she was feeling anxious, overwhelmed, or depressed. She had twelve tumblers in her cabinet and now there are only two. If the police would come out, they would see what is happening. It is an ongoing nightmare. She testified before the Austin Mayor and Council, and it is still going on. The chief gave her phone number, but she never called. She is a survivor of several illnesses and is being robbed. She does not understand how the police can say they protect and serve. APD never comes out and questions anyone and no one cares. The police asked her if she felt like she was going to blow a top. She told the officer she was doing all she could not to become a victim and start being a person who goes downstairs with her baseball bat or her mop handle and clean house because she is sick of these people. The officer told her to call 311 if she felt like she was going to lose it. APD is allowing her to be victimized and if she feels like she is going to retaliate, call 311, and then APD will come out and take her to the nut house or whatever they do. What about prevention? The officers that came to her apartment were very nice. She does not understand how the city can allow this type of victimization on city-owned property. She does not understand how anyone can allow a 74-year-old person to be consistently victimized. Things are disappearing out of her bedroom. There have been over 58 complaints out of the apartments where she lives. Medications have been stolen and people are being victimized. She buys food and puts it in the freezer and when she gets back from church it is gone. What is she supposed to do about people stealing from her?

Complaint: The complainant alleges: He was evicted from his apartment well under 90 days and his very expensive shaving kit is missing and he cannot find a replica of it anywhere. It was a very traumatic event. The police showed up with shields and a ram for his door even though he had not committed any crime or hurt anyone. The shaving kit that he collected over time is gone. He would like to have his shaving kit back. The only crime he committed was that he was not able to pay his rent and it is not fair for people to take his things. The shaving kit was an heirloom gift from his belated mother. When he got out of the clinic, he could not find it in the boxes that they took out of his apartment when he was being evicted so he tried to re-purchase the same shaving kit but could not find it at any stores. He does not know what to do and it is a very frustrating situation.

Complaint: The complainant alleges: An APD officer had his lights on but turned them off when he went through the red light. The officer went into his neighborhood, so he followed him because it was weird, he did not have his lights on and was not driving fast so it did not seem like a big situation that was occurring. He followed the officer around the neighborhood. The officer went back out to the main road heading to 1431. He thinks the officer knew he was following him. The officer headed back to the main road and turned into a QT gas station and circled the gas station. The complainant followed the officer and rolled down his window and asked the officer to stop. He asked the officer why he turned his lights on to run the red light and then turned his lights off. The complainant believes the officer responded, "I don't have to answer your questions" and got confrontational. The officer was on duty because he had his gun on him but was in plain clothes, maybe a detective at lunch or something. The officer got out of his car and started taking pictures of the complainant's car. The complainant does not know if it was a work phone or the officer's personal phone. The complainant has an issue with that. The biggest issue is what the officer did and how he handled the confrontation, and it was not right for him to do that. He called Round Rock and found out the officer was APD. The officer should not have been doing anything that he did in the Round Rock Area. He wants to know who the officer was.

Complaint: The complainant called the police right after midnight because her boyfriend's ex was causing a big scene, pounding on the door and destroying property outside. The officer arrived and parked right next to the ex, who was sitting in her car. The officer flashed his light in her car but did not talk to her or anything. The officer came up to the door to speak with the complainant, and while he was there, the ex drove away. The ex was drunk and had a [REDACTED] year-old in the car. The officer said he would let nearby units know and give a description of the vehicle. The officer left and didn't seem concerned even though the complainant was stressing that there was a child in the car. Once the officer left, the ex came back, smashed the complainant's windshield, and drove off. She called the officer back, but another officer showed up and said they couldn't do anything since the ex was no longer there. After the incident, the complainant asked the police to do a welfare check on the child and asked for updates. She gave them all of her contact information and no one called them back with any updates. When she called them back the next day, they said there was no report at all. They had the wrong address. After a search, they finally found a report and let the complainant know there was contact made, but no information about the welfare of the child was shared. The complainant is not sure if this was TSCO or APD, or a combination of both departments. The complainant provided a case number for the harassment report: 23-3590051 Officer Description: Bald, older white male, heavy set; she thinks he had glasses on The second officer to show up was a Sheriff's Deputy, but it is unclear if the first person was TSCO or APD

Complaint: The complainant called the police to do a welfare check for her elderly aunt, [REDACTED], after receiving pictures of injuries from [REDACTED]'s acquaintance. The police called her back and let her know that they knocked on the door, and no one answered. The complainant states that the officers on the earlier shift were supposed to do the welfare check and believes it was negligent of them to wait that long. Multiple family members have called and reported elderly abuse and the police have seen the injuries, know about the elderly abuse and are not doing anything to help her aunt.

Complaint: The complainant was woken up to officers banging on her door and flashlights shining into her living room. There were more than 5 police officers outside. She opened the door; then the officers told her they got an alarm about an electrical panel being opened. Once she said she was fine, they left. She went to her apartment manager and contacted the courtesy officer and her neighbors; no one knows what that was about. The apartment manager told her there was nothing wrong with her electricity and that the police wouldn't have been the ones to respond to that. The complainant wants to know why they were there. She was traumatized. She has videos of this which she will send to OPO via email.

Complaint: The complainant alleges: She realizes there is a shortage of traffic police. She travels on Mopac quite a bit and since there have not been police hanging out in the hot spots, she is having to drive 80mph to keep up with the flow of traffic. She has been in three or four near misses where people get upset with each other and try to drive around one another very quickly. With school being out everyone is just flying on the road, and it feels extremely dangerous and anxiety-provoking. She has heard the same from her adult children who are on the road quite a bit. She has been seeing a lot more accidents and having to sit for hours in traffic because there is probably an investigation because the accidents are fatal. Her biggest complaint is not seeing or observing APD on the road. There was an incident where an APD officer driving next to her, not chasing anyone and he started going 80-85mph in and out of traffic and she felt it was just all over at that point. She appreciates APD officers, and it would just be nice if there were more police officers on the road.

She has not been able to call 311 because her ex is blocking her calls. Whenever she gets a call from APD her ex blocks the calls. Complaint: The complainant alleges: My name is [REDACTED]. My family was abducted and murdered sometime with blood gang and police impersonators. They had me taking to jail for reporting my family and kids missing 6 times in 2 different counties. They even turned some of my folks against me by feeding them lies to target me and more people. They had my mom compromise my cell phone account at Walmart with my stolen ID and my online Internet completely went bogus in order to keep me from reporting them to actual law enforcement. They had both the gang members in uniform and also deputy and FBI impersonators to proceed with kidnapping and robbing.y folks. After the last time I went to jail both my attorneys were abducted murdered. My mom was drugged and beaten by [REDACTED] every day and even out in public. She did nothing but lie to me and threatened to evict me or send me back to jail. About a week ago I found out that a old friend of mine was acting strange after I had a conversation with him at the specs on airport and 2222. I was walking home and noticed he walked down into the creek bed for some strange reason. I don't wanna make any assumptions but I just recently heard that's where my friend daughter body was dumped. Between December 15 the 2023 and January 10, 2024 The suspects had my mom sent to Seton medical center and claim she had COVID. They drugged and abused her a whole week and 2 days why I stayed home and noticed maintenance man and other blood gang members pushing what appeared to be body bags to the 2 and floor dumpster. I even heard they burned a few body"s there . [REDACTED] They also had my family and kids locked up in the storage rooms in the parking garage. And 231,227,329 They been drugging and trafficking my family and kids also at the mental on airport. Detective Delgado asked for his evidence, so he uploaded videos showing the assault from start to finish and he has confirmation of the upload. He was told a BOLO was put out. He has seen the individual every single day since the incident. There has been no communication to him that the person has been identified so he can come in and identify him and file the charges. The detective stopped communicating with him. He followed up and no one got back to him. The detective told him he would get back to him in 14 days, but he never did. Complaint: On Saturday night at Trinity street south of 6th st, about 230 am Sgt Yarger again put a spotlight on me from his SUV while I was filming him. This is known as flaring or ghost flaring a camera lens and is considered a violation of the 1st amendment to the Constitution of Texas and the U.S.A. Constitution as well. And a clear retaliation and deprivation of rights under Turner v Driver and other Federal Case law. It is also a violation under section 302 of the APD Policy. As well as other parts of the police policy, general orders, and the Oath that this officer took. He is continually allowed to do criminal acts against me and others by the police department and has a long history of abusing the public and committing heinous crimes under color of law. To date the City/OPO/IA/SUI/APD have not reassigned him to a desk, have not investigated or disciplined this bad cop. And that is causing unrest on the streets. This officer and others are starting micro riots and civil disobedience through their criminally abusive acts against both members of the Press and members of the Public realm. When police are allowed to commit crimes, what would you expect but the people to react to your lack of oversight? This is your fault. You are paid and charged with police oversight, and you do nothing. If you fail to do your duty to discipline and fire and charge bad cops like Sgt. Yarger, the resulting unrest will be on your hands due to your malfeasance under law. You won't be able to blame anyone but yourselves. We are watching this unfold every day. And we have been filing complaints that go un-answered for years. No email received with confirmation and case numbers are sent by this office. Your Director lies and says that they cannot give us our own information and data to track our complaints. Yet your web site says that you track and store data. The office of Police Oversight is a sham. So is APD's internal affairs and SUI. Useless. You and they both cover for bad cops, even murdering cops. We have heard the testimony already. We saw SIU cover for [REDACTED] and help all the witness officers write lies in their sworn statements, on record, under Oath. Perjury is also a felony. And we watched many of your officers perjure themselves under Oath. Unacceptable criminal activity, a blue wall of silence. The people of Austin deserve better than you have given. Expect to be held accountable on the streets, when you cannot hold your officers to the law and their Oath. Remember you work for us. Not for your own selfish needs to use force and lights to stop the Press from filming you. We also demand that you release the list of complaints that I have filed immediately. As promised. And as I have asked repeatedly for 2 years now.

Complaint: The complainant had questions for an officer after being in a situation she'd never been in before regarding a car getting towed. The officer gave her incorrect information about the tow company, so the complainant went back to ask for the correct information. The officer then threatened to arrest her if she didn't back off. She said she was just asking for information. It was alarming how aggressive the officer was when she was only asking for information. The officer's badge number is 4578.

Complaint: I work in Asset Protection in the Walmart at Anderson Lane. Today I made a call about a shoplifter that was concealing over \$100.00 of merchandise. The subject passed all points of sale with the items. PD arrived at that moment and I went towards them to point out the subject in the parking lot. The officer asked me what did the subject do and I told him. The exact thing he said was "we are not going to chase him for \$100.00". I did not get the officer name or number. The call to 911 was made with my number [REDACTED] for a black subject wearing a black jacket.

Complaint: The complainant alleges: On October 31st, 2022 at an unknown time I was detained downtown Austin. During this review of arrest I explained the circumstances and nature of my defense 105.1 to understand the purpose and scope from my account of the facts to known and unknown responding officers who ambushed me . Explaining to the reviewing officer #7804 of the initial witness negligence at the door and he isn't to be accounted for in his testimony through his dishonesty and observation of not checking every patron entering the establishment but ensuring to #officer 7804 he did . officer #7804 proceeded to write a false report in writing and concealed my testimony as "rambling" affidavit (D1DC22207194). In dishonesty officer #7804 violated multiple general orders including 402.2.4 (b) (c) given to the Austin police department. Officer #7804 did not place me in handcuffs nor did the officer #7804 frisk me, but wrote in the arrest affidavit he did. Officer #7804 continued to distort facts in his arrest affidavit not telling the facts of the matter being dishonest 900.4.3 (a) (b) (c) . Four officers ambushed me, cuffed, frisked and removed my weapon before I ever encountered officer #7804. one officer was a chubby, white, female officer last name Collins in which she was present in a arrest earlier in the year where officers ambushed me once before. Collins and unknown officers proceeded to detain and sat me in an unknown squad car. Moments later initially encountering officer #7804 who initially violated general orders specifically 105.2 sections (A) (B) (C). the officer #7804 did not show any respect or consideration of the light in my testimony. I believe this resulted from the officers unknown and officer Collins who ambushed me had a prejudice and motive of a previous arrest. In a event of this involving a persons with a weapon officer #7804 and all officers who touched me should have initiated their body worn camera per 303.3.1 (A) which is also in the general orders for the Austin police Department to prove this matter of dishonesty and false report writing violating 900.3 (a1) (c) and 900.3.2 (b) (c) as all unknown and known officers who took apart of this unjust and unlawful arrest. Committed multiple Austin police department general order violations. Officer Description: White Male Stephen Johnson #7804 01/16/2024 01:38 PM The complainant alleges *con't from OPO form:

on October 31st, 2022 at an unknown time initial witness on the police affidavit [REDACTED] was working at the entrance door of toulouse a private owned establishment downtown Austin. I stood near the entrance for about 5-10 minutes. I observed [REDACTED] let individuals in the establishment with no attempt of searching them. any cameras at the entrance or public safety cameras will prove this fact. As the rain started to come down Lamont Lucas invited me into the establishment. He began to search and frisk as I attempted to refuse the search he continued in a hostile harassing frisking manner to say he can't "let that in". Being unaware of the 51% establish to the side of the door hidden in the unknown of the establishment foresight. Out of the line I continued to observe [REDACTED] continue to let patrons in the establishment with no search continuing only frisking and searching people of dark color in the establishment. I then asked [REDACTED] what did those people have to be let in the club with no search or frisking. Do I need to give you money ? it's my birthday? why are you discriminating & not being firm & fair . [REDACTED] infringed and got the attention of about four officers who ambushed me from behind as I stood to the side of the establishment . [REDACTED] should not be in a position of gate keeping safety protocols downtown in a matter of discrimination and dishonesty. if to his knowledge knew the establishment was 51%. That should be held for everyone entering to be searched and frisked properly and those in the unknown . Not " I can't let that in" or "those my people", but holding integrity for the safety and perseverance of all patrons lives entering the establishment enforcing the establishment is 51% acknowledging the law and sign hidden in the side of the establishment blind to patrons entering from the street not the side as myself. In conclusion [REDACTED] was dishonest in his witness statement to officer #7804 and negligent in a position of safety and preserving life.

Complaint: The complainant alleges: From email titled, "Case #233151368 assault case mishandled" Hello, I currently have a black eye from being assaulted by two different people and was told there was nothing that can be done about this because the people stated a different occurrence than what actually happened. This does not make sense, since when do people who have warrants and give someone a black eye not get arrested for assault? I searched up the Detective on the case and was notified of his previous mismanagement on a domestic violence case that ended with the victim getting shot. The FBI suggested reaching back out to internal affairs regarding this new case. this is regarding investigator "Ok Sinn" who handled a case where I was physically assaulted by [REDACTED] and when the investigator called me to discuss the situation, he laughed at me when I stated I had a black eye after he said "there was no proof of an assault". Complaint: The complainant alleges: I made contact with an individual that had a negative experience with an officer in a position of superiority, F780 (Mark Dale). The individual called 911 to report her neighbors leaving their dog outside in 17 degree weather. This was her 3rd call to 911 this evening because she did not feel as if her concerns were initially addressed due to the dog still being outside for several more hours. Corporal Dale contacted the complainant and began laughing at the complainant as she expressed her concerns. It was stated by Corporal Dale, "Don't you think it would be a waste of city resources and money if officers responded to these type of calls?" Corporal Dale went onto to continuously question the complainant and said this was her 3rd time calling and that it was a bit "excessive." He proceeded to say that officers had previously responded "several" times earlier in the day and that he didn't feel the need to go by again and make contact. Corporal Dale's interaction with this complainant made her feel invalidated and hesitant to call police in the future. After speaking with the complainant, she indicated that the 2 previous officers were extremely helpful and understanding of her concerns, however, Corporal Dale came across as disrespectful, belittling, and insincere.

Complaint: The complainant alleges: On January 19, 2024 at 0038 hours there was an incident that took place at 11001 S 1st St involving a minor (16 yo Female) and 3 police officers. I witnessed 3 police officers hold her down half outside of a police vehicle and inject something into her butt through her clothing. I am very aware that this is unlawful practice if there are no paramedics present. The girl was crying for help and to see her mother and the police officers were man handling her and injecting her without proper medical staff present.

Austin Police Officers Involved (If known): Lyons, Wade (retired)	
Complaint: Commander Wade Lyons resigned, in lieu of termination, from the Austin Police Dept after a lengthy sexual misconduct investigation involving a civilian co-worker. The Dept. DID NOT follow up with TCOLE to have Lyons' peace officer license revoked. Lyons is now in the application process for leadership positions at other agencies/depts. The Austin Police Dept is knowingly allowing a sexual predator to continue to seek employment in law enforcement by neglecting their responsibility to appeal for the revocation of Lyons' license. The Austin Police Dept has had other Officers' licenses revoked for much less severe offenses resulting in resignation. The Austin Police Dept has a history of protecting Officers of rank (Lt., Cmdr, AC) while punishing those of only "Officer" rank.

Complaint: On December 19, 2023, a Travis County grand jury indicted Officer Daniel Sanchez for third-degree felony deadly conduct for his role in the shooting death of [REDACTED]. After Sanchez shot Mr. [REDACTED] he and two other officers, Markert and Brito, failed to immediately render aid. The officers' failure to render aid is the basis of this complaint. While it is our understanding that the Office of Police Oversight always assigns a representative to monitor cases involving the use of deadly force by police officers, we are filing this complaint out of an abundance of caution to ensure that attention is paid not only to the use of deadly force, but also to the officers' critical failure to render aid. All three officers approached Mr. [REDACTED] after he collapsed. Although Mr. [REDACTED] was alive, he was bleeding profusely and unable to move due to multiple gunshot wounds in his chest, back, abdomen, and thighs. At that time, it was objectively clear that Mr. [REDACTED] posed no threat to the officers and desperately needed medical attention. As Officer Sanchez approached Mr. [REDACTED] he told him to "roll over on your stomach, buddy, so we can help you." Officer Markert noted that Mr. [REDACTED] was "having trouble" as he remained motionless and struggled to maintain consciousness. Officer Sanchez then forced Mr. [REDACTED] onto his stomach. However, none of the officers provided aid to Mr. [REDACTED] through immediate life-saving cardiopulmonary resuscitation (CPR). Rather, Officer Markert told Officer Sanchez to "book Mr. Moonesinghe. Officer Sanchez then handcuffed Mr. [REDACTED] arms behind his back. Officer Brito failed to intervene to ensure Mr. [REDACTED] received emergency medical attention. The officers then searched Mr. [REDACTED] house while he remained handcuffed on his porch, dying. Other APD officers arrived on the scene several minutes later. One of the APD officers attempted to perform CPR on Mr. [REDACTED] but was unable to provide such aid because of the handcuffs. The officer explicitly told Officer Markert, Officer Brito, and Officer Sanchez that they "have to uncuff [Mr. [REDACTED]] You can't do CPR with him in cuffs." Despite the officer's attempts, Mr. [REDACTED] remained handcuffed for a critical additional two minutes until several emergency medical technicians (EMT) arrived. It was only then that a senior officer ordered Mr. [REDACTED] to be taken out of the handcuffs for him to receive medical attention. In total, after Officer Sanchez shot Mr. [REDACTED] five times, he remained handcuffed and did not receive any medical attention for six (6) minutes. During this time, Mr. [REDACTED] was bleeding profusely because one of the officer's bullets pierced the femoral artery in his leg and no officer applied a tourniquet to attempt to stop the bleeding. Tragically, Mr. [REDACTED] died from his injuries shortly afterward. Therefore, the purpose of this complaint is to ensure that

every effort is taken to ensure that this does not happen again and that officers act quickly to preserves lives like Mr. [REDACTED] after they are subjected to deadly force by the Austin Police. Although Sanchez was indicted, this incident is still being reviewed by the Travis County District Attorney's Office; therefore, it could be presented to another grand jury. Consequently, criminal proceedings against them remain ongoing.

The mother of the child called the police. At least four APD officers showed up at the complainant's house and tried to open the door before even knocking on the door. The complainant believes they wouldn't have done that in a better area of town. One of the officers started screaming in the complainant's face. Complaint: The complainant alleges: Officer Peña of the child abuse department created a completely factually inaccurate report from beginning to end, which appears cut and pasted from a highly redacted, edited, and inaccurate account of a 311 call made by the family of the victim in the case. The false information includes fake dates, fake sleeping arrangements, fake additional beds that don't exist, victim blaming of a 6 year old child who has no concept of consent or sexual assault, and a total omission of all of the concerning predatory behaviors of the offender. The officer even fictitiously listed the victim's parent as an "offender" in his false investigation and report. The only contact the officer ever had with the victim and victim's family in this "investigation" was a 30 second phone call to advise he had already closed the case without investigating or speaking to the victim or victim's parents. The events listed in the report were never obtained by the officer. The 1st grader who is a victim in this case was formally assessed by her MD and was found to have [REDACTED] as a result of being [REDACTED], even while unconscious and in her sleep- facts which were all completely omitted from the report, leaving the community and future children highly at risk because the offender will not receive any treatment for their criminal and predatory behavior. I can remember a white, chubby, blonde female officer being on the scene last name collins, along with officer #8428 arriving lastly who was white, blonde, with a long shaggy hairstyle and clean shaven face. At this time in the arrest I was still in handcuffs. Officers completed my vehicle, gun, and insurance searches which all came back of good standing. In the initial encounter of the unknown officer removing me from my vehicle he did not close my vehicle which remained ajar while I was in handcuffs. Officer #8428 began to peer into and go through my car finding marijuana in my car. Officer #8428 began to question me and I declined answering any questions. During this arrest officers committed many violations of the Austin police department. Officer #8428 wrote a false report in writing concealing the two unknown officers identities who walked up to my vehicle at gun point. Officer #8428 was dishonest in his entire affidavit distorting the facts of this case and being dishonest violating 900.3.1 and 900.3.2. Officer #8428 never placed handcuffs on me and nor did he talk me out of my vehicle. I was forced out of my vehicle by an unknown officer who was tall, white, dark hair and dark beard at gun point. Officer #8428 was only factual of peering into my vehicle against my will as I declined him of doing. Resulting in my physical remembrance of him at the scene lastly and his actions. Officer #8428 and the two unknown officers violated many general orders set forth the Austin police department. During this unlawful arrest and unjustly arrest. Violating 914.3.2 (B) creating a hostile environment having produced no identification with weapons drawn. Violating 900.3.1 and 900.3.2, Officer #8428 refrained from speaking truth in his report in writing off his placement and actions as he did not place me in hand cuffs nor talk me out of my vehicle. Officer #8428 distorted the facts and concealed the

identities of the two unknown officers who approached my vehicle at gun point in a execution style manner in a dark area. Destroying my public confidence in the department as these officers thwarted together to possibly influence great harm and an actual criminal investigation based off a non hazardous traffic violation. Officer #8428 and the unknown officers if bestowed upon should have all had on body worn cameras during this pursuit and arrest, which will suffice in officer #8428 dishonesty who was not initially on the scene as though he placed himself on his false report and officer collins whose body worn camera might can help identify the two unknown officers ,according to 303.3.1,.The officers showed no courtesy and imposed impartial attitudes neglecting duty, showing very ill purpose and scope. Officer #8428 violated many general orders along with the unknown officers resulting in this unlawful and unjust arrest. In which officers are supposed to respect the rights of individuals and perform their services with honesty, sincerity, courage and sound judgement. Whom all failed to do so during this fearful and unlawful arrest having weapons pointed at me and hostility all awhile not knowing the identities of these officers and officer #8428 concealing the facts as a public official and being dishonest on a affidavit ...,

OFFICE OF POLICE OVERSIGHT

Complaint Number: 2024-0069	Date of Complaint: 1/24/2024
Complainant's Name (if given): [REDACTED] Anonymous ☐	
Nature or complaint: Bias Based Policing	
Austin Police Officers Involved: Doss AP9224 Unknown: ☐	
Complaint: The complainant alleges: I drove the wrong way down a one way with improper signage that was blocked by construction equipment on Guadalupe street. I pulled over into a garage opening at 9:37pm & stopped my car so I could turn around. While I was pulled over already the police came up to my car for no reason. They told me I turned down a one way and I said I know that is why I pulled over to turn around. I told Sarah Doss that someone hit & run my car the other day when I was coming out of my apartment parking garage & I asked her to check to see when I would be getting my 14 day non emergency call back. She told me she couldn't find it so I asked her if she could make a new report. I gave her the address of the incident which was davis street on the corner of [REDACTED] in front of the [REDACTED]. I gave her the date & time which was a few days before the traffic stop. She did not give me my report number. I needed this for my insurance company. She asked for my ID & I reached into a bag under my seat to grab my purse. I had a closed 6 pack of seltzers in my car & a completely closed bottle of wine. I wasn't drinking the wine it was just leftover trash from a professional event I was working at 11:00 am. All of this was put away in a bag underneath my seat. Sarah Doss only saw it because I had to get my purse. She assumed my ID was fake & that I was underaged then she ran my ID. She gave it back then made me do a field sobriety test. I had to walk in a line & take 9 steps but she did a demonstration only taking 3 steps pivoting then taking 3 more. I started doing the line test then I stopped on step 3 to ask if I was supposed to do 6 like she did in the demo or 9 like she said in the beginning. She said I failed the test & that I was drunk because I asked a reasonable question. She made me stand on one foot but I requested a reasonable disability accomodation. I told her I have flat feet & I have never been able to stand on one foot. I go to Yoga & I have to hold onto something. She forced me to take the one foot test while already knowing that my physical disability made it impossible for me to stand on one foot which isn't fair. After this she shined a light in my pupils then said I look drunk but I did not have anything to drink. She asked if I drank anything & I said I had 3 5oz glasses of wine at noon. The traffic stop was at 9:37 5/28/22 so my BAC was zero. She illegally arrested me because I said I drank 3 glasses of wine at noon. This is legal & proves I was driving sober at 9:37. She didn't read me my miranda rights. I demanded a breathalyzer &	

OFFICE OF POLICE OVERSIGHT

she refused at first because she was racist. She violated my civil rights. I am the victim of a racist hate crime. She finally breathlyzed me and I blew a 0.00 then she wrote that the breathlyzer was broken when it was fully functional. She told me that even though I blew zero she was going to arrest me. This is a racist hate crime. I told her that I demanded a new breathalyzer but she put me in handcuffs.

Since she had no proof I was drinking & driving, a 0.00 BAC, and closed containers in my vehicle under the back seat she placed me under arrest with no warrant or probable cause. This is police brutality, a civil rights violation, and a racist hate crime.

I offered to take a 24 hour urine test the next day at noon to prove I drank no alcohol from May 28th 12:01pm-May 29th 12:01 pm but they kept me in jail for 24 hours but they kept me in jail from May 28th 11pm-May 29th 9pm so that I couldn't take the pee test to prove I was innocent. While I was in jail they refused to let me contact an attorney. They took my cell phone away. I asked to go to sleep & they made me sleep on a bench. I did not get my own room or a bed until 3:30AM. I asked for food, water, a book & they didn't feed me. They placed me in solitary confinement with no food, water, or book. They wouldn't let me take my birth control or adhd medication. They wouldn't let me shower.

There were 3 white people who were booked the same time as me. All of them got to meet with a judge before I did at 11am. I didn't get to meet with a judge until 4pm. The judge told me that I had a BAC of over 0.15 but I blew 0.00 on the field breathlyzer.

This is not fair. I met with a judge at 4 & asked him to release me so I can take a urine test to prove I had no alcohol in 24 hours from May 28th 4pm -May 29th 4pm. He wouldn't let me leave until 7pm just so I could not prove my innocence. They are trying to frame me.

Sarah Doss lied on the incident report & said that I had a collision at the traffic stop which is not true. The body camera footage shows my car was pulled over with no vehicles present.

1.I told Sarah Doss at the stop that I was in a collision on 5/23/22 at [REDACTED] intersection because someone hit & run me at the [REDACTED] when trying to move around a commercial vehicle. My car was at a complete stop so they are at fault.

2.Sarah doss lied that this collision I already reported to 311 several days prior happened on 5/28 so she could try to get me arrested. I requested an ALR hearing on May 30th by calling the number on the bond paperwork. I did not recieve my hearing date so I won the hearing. Sarah Doss did not show up to the hearing.

3.I was pulled over in an illegal traffic stop because my car was stopped in a garage opening & they had no reason to approach me while my car was stopped with hazards on. I was not in the road.

4.I had closed containers in my car put away under the back seat then forced to take a field sobriety test. Sarah Doss did not accuse me of drinking until she saw the alcohol under the seat. She was just looking for any reason to arrest me because I'm black

5.I took the field sobriety walking test & she demonstrated 6 steps but said 9 so I asked for clarification. Stopping to ask the question proves I was sober because I didn't want to fail the test.

6.My pupils have been the same my entire life there was nothing different about them on 11/23

7.I told Sarah Doss that I cannot stand on one foot because of my disability. I have flat feet with bumps on the side of my feet because I was abused & not given any shoes that fit when I was younger. She denied me a reasonable accommodation. This is the same as asking someone in a wheelchair to walk then arresting them for not being able to walk. There is no excuse for this & this is disability discrimination.

OFFICE OF POLICE OVERSIGHT

8. She asked me if I drank & I said not while driving. Drinking over 21 is not probable cause that I was drinking & driving. She placed me under arrest with no probable cause. She didn't read my miranda rights either. I demanded a breathalyzer & she refused at first. This proves that she was being racist & trying to arrest me for no reason.

9. I demanded a breathalyzer but she was refusing. She finally gave me one I blew a 0.00 so she kept making me retake the breathalyzer. She lied & said it was broken then arrested me with a 0.00 reading

10. She lied that I blew above a 0.15 and got in a collision on the police report. There was no collision & she stopped me when I was pulled over. The body camera footage shows I was not collided with anything.

11. She placed me in handcuffs & was behaving aggressively, made the handcuffs too tight, and yelled at me. This is police brutality.

12. I was not allowed to call any attorneys or anyone else in jail. They took my phone away so I couldn't call anyone.

13. I asked to take a pee alcohol test to prove I wasn't guilty but they refused to release me for 24 hours just so I could not take the test.

14. You are supposed to go home immediately in jail as soon as you pay to leave. They would not let me meet with the judge for 24 hours.

15. I was not given a bed or water for 5 hours. There was no water in my cell. I was placed in solitary confinement. I was not given any food, water, adhd medication, or birth control for 24 hours. I was denied a book. All of the white people got to go in & out of their cell at their leisure. There was two white people in jail with prior offenses & they got to leave before I did for free. This is jail brutality.

After I left there were lawyers & ignition interlock device companies emailing me without my consent. My license was not suspended. I called three days later to re [REDACTED] aring to keep my license. I was not given a hearing so my li [REDACTED] ve & I should get to keep my hearing.

I retained Hayden Bordeaux at Stephen T Bowling & Associates telling them this information. I told them I was not guilty & they guaranteed to get my case dismissed as well as represent me for the ALR hearing.

I requested the hearing myself within 14 days & then I called them. They said they were waiting on the date & time & that they would let me know when the hearing was but I haven't heard from them so I get to keep my license. I asked Hayden to ask them when it was & he said I didn't have one yet. I still have not been given my hearing. It has been 2 years so I should get to keep my license.

They are delaying my hearing on purpose just so to be racist & suspend my license.

Hayden lied to me & told me that I was on probation before my first court date so I could not drink. I haven't drank in 2 years. It turns out I was not on probation the entire time. He said the court ordered me to take a MADD class before my first court date but they did not. He said my case would be dismissed if I took a MADD class so I took the MADD class. I am not guilty & if this wasn't court ordered I want a refund.

After I took the MADD class I gave him a certificate of completion & he said my case could only be dismissed with 6 months of alcohol monitoring. He tried forcing me to plead guilty & I refused. I told him I was not guilty so I wanted to plead not guilty.

OFFICE OF POLICE OVERSIGHT

I told him that my primary care doctor is racist & refused to see black patients unless they take monthly drug tests. My insurance wouldn't cover these drug tests because they aren't medically necessary. These drug tests also test for alcohol & I have several of them that prove I don't drink regularly. My primary care doctor still treats black patients who drink he just won't treat black patients who do drugs recreationally which is racist.

He prescribes adderall for my adhd so that shows up on the drug test but he doesn't treat patients who do any other drugs. The adderall is amphetamines. I told Hayden to give the drug/alcohol tests to the court since I already had to pay for them to receive primary care & I explicitly said to mention that the amphetamine is my adhd medication. If Hayden is lazy & forgets to say that they would assume it was the use of methamphetamine which is illegal so this was important for him to say. If they needed proof that I was prescribed this I also told him I could provide that.

Hayden did not give my drug tests to the prosecutor at all & he overcharged me. I bought a hair alcohol test that detects alcohol use in any amount for 60-90 days & I had to pay out of pocket for this. I took one & it came back negative. Hayden didn't give this to the prosecutor either.

I have no idea what he said to them in court because I wasn't required to appear but I want my case dismissed immediately. I was stopped at an illegal traffic stop, had closed containers in my car, was not in any collision, and the officer refused to breathalyze me. I blew a 0.00 on the field breathalyzer so I should not have been arrested. I was required to spend 24 hours in jail so I couldn't get a pee test to prove I didn't drink & drive.

Sarah Doss lied on the police report & said I had a collision + above 0.15 BAC when the body camera footage shows I had a 0.00 BAC.

Nature or complaint: Improper Police Procedure	
Austin Police Officers Involved: Dyess, James Unknown: ☐	
Complaint: The complainant alleges: She called the police in Clairemont, Texas, and the Austin police because someone went in person to a hotel in Austin and tried to use her credit card which she did not authorize. She named people in Austin in her report just to identify people that she knew in Austin but not to be investigated. Information was sent to the Austin Police Department from the Clairemont Police Department. After August 30th she supplied information that was requested by APD. When she observed the information that she and the Clairemont Police Department had provided to APD the information had been altered. It appeared to have been auto-populated. She requested that the information be corrected. Someone named James Dyess with the APD Financial Crime Unit stated it could not be changed. Eventually, James Dyess indicated he could change it. She knows he delayed it because he did not want the unit to be perceived as altering the report. Within the report, there were other identity changes. It is a matter of public safety. She has concerns.

Complaint: The complainant alleges: Patrick Talley & Paul O'Brien put ransomware on my computer. They ported my business emails using Google takeout then started threatening me for payment on 6/19. I did not ask either of them for IP or customer protection. I did not agree to work with Patrick at all. Patrick Talley was impersonating an insurance agent without a license. On 6/21 I called 911 several times & Patrick Talley answered the phone. He said his name is Craig Fairbrother. A girl named Megan from Integral care came to my house with 3 police officers. They said they were his friend & started threatening me. They kidnapped me, handcuffed me, and took me to Dell Seton. They said they wanted my brain. I am demanding the body camera footage & phone recordings. Here is my medical record from Dell Seton. It says that EMCOT took me there on POED. At Dell Seton there was a medical device replaced without my consent. Part of my skull was removed. I want this neuralink chip removed from my brain. I am miserable & it hurts. It gives me headaches, causes loss of sleep, and I want it taken out now for free. Patrick Talley needs to go to jail.

Mr. [REDACTED] said the [REDACTED] Apartments contracted with a service to trim the trees that border the apartments property line and backs up to his home. Mr. [REDACTED] said the contractor, a Hispanic male in his mid-forties (40) began trimming the trees resulting in the branches falling onto his property. Mr. [REDACTED] said there is a wire fence that separates the two properties. Mr. [REDACTED] said he and his partner confronted the contractor about the tree branches falling on his property. Mr. [REDACTED] said the contractor became irate and began taunting him and his partner to climb the fence onto the side where he was located. Mr. [REDACTED] said he wanted to avoid any further confrontation between the contractor and him. Mr. [REDACTED] said he initially called 3-1-1 who directed him to call 9-1-1. Mr. [REDACTED] said an Officer Win responded to his residence. Mr. [REDACTED] said the Officer responded in approximately ten (10) to twenty (20) minutes after he called 9-1-1 (12:26 pm). Mr. [REDACTED] said he doesn't recall the Officer Win's badge number or patrol vehicle identification number. Mr. [REDACTED] said he told Officer Win that he would like to have the contractor cited for illegal dumping on his property. Mr. [REDACTED] said Officer Win went and spoke to the contractor who volunteered to come to his property and retrieve the fallen branches. Mr. [REDACTED] said he declined the contractors offer because he didn't want him to come onto his property, injure himself and then sue them. Mr. [REDACTED] said he asked Officer Win if he could issue the contractor a citation for illegal dumping. Mr. [REDACTED] said Officer Win told him that he wasn't sure if he had the authority to cite the contractor and would have to check with his supervisor. Mr. [REDACTED] said Officer Win called his supervisor who advised him that he would have to call the City's Code Department who had the authority to cite the contractor. Mr. [REDACTED] said on this date, January 26, 2024, he called the Code Department who dispatched a Code Enforcement Officer to his property. Mr. [REDACTED] said the Code Enforcement Officer responded to his residence at about 1:30 PM. Mr. [REDACTED] said the Officer's first name was "Gavin." Mr. [REDACTED] said the Code Enforcement Officer informed him that he had not authority to cite someone for dumping on private property, and that he

I want to inform you that I had an accident on 10-16-2021 Saturday night, the girl who hit me from the back of my truck was drunk and also she was on the phone I have her on the video, I am contacting you because the two officers showed up in the scene and they did nothing to the girl no breathalyzer no investigation no citation nothing and they left with out even gave me a report number so I have to call the next day to get the report number 212891335 and The unit number for the police is F608609. we need a clear answer why the police officer didn't do their job when they showed up to the scene. As we know when cops show up to the scene they have to do their investigation it was so weird the cops showing without do anything also it was weekend (Saturday night) as we know cops alert on weekends because a lot of people driving under the influence on the weekend. I already submitted complaint online and I am looking forward to talk to someone about this . Police Report # 212891335 Police unit # F608609 EMS case # 21-2891335 and you can call the EMS phone number 21148164 to get more details about the Injury. We are waiting your response
