Austin Police Officers Involved: Crawford AP2473	Unknown: <input type="checkbox"/>
Complaint: <p>"Officer Crawford badge 2473 pulled me over for expired registration. He pulled me over in a privately owned lot, and not sure why he even ran my plates or tag if I was obeying traffic laws. He didn't explain why I've been pulled over just asked for my ID.</p> <p>I said I didn't want to give him my information without knowing what I had done. He got visibly frustrated at me and finally explained after I give him my ID and he failed to pronounce my last name that he was pulling me over for my expired registration. I told him that the car had been primarily out of commission until recently, and that I explained that my attitude was and part due to my grandma's recent passing (literally had funeral flowers in the car). That did not explain his attitude.</p> <p>Citizens deserve to know why they're being pulled over before they give out their information to a complete stranger. It is a police officers duty to protect and serve the people (not serve their own ego). If a police officer cannot handle his emotions he should not be on duty. If you got that upset pulling me over a expired registration I cannot imagine how this man handles a real stressful situation.</p> <p>Yes the incident was today 6/7 around 2:30pm off MLK in a P. Terry's parking lot, but it seems the officer conducts themselves in this manner often by his easy. He also stated he wanted to know who he was talking to multiple times like it would make a difference in his condition, all humans deserve equal treatment no matter their name, sex, gender, etc. For him to come in so aggressively when I was asking to have my basic rights met was absolutely absurd. I don't know any job that allows individuals to yell at those they serve.</p> <p>I've actually had very positive experiences with APD, and this was surreal. Officers like this give cops a bad wrap and I hope you manage your bad apples before they harm innocent lives. Again this was a minor traffic stop I cannot imagine how he would manage a real emergency and I would NOT want any officer who behaves like this responding to mental health calls or domestic abuse."</p>

Austin Police Officers Involved: Olson	Unknown: <input type="checkbox"/>
<p>Complaint: "Hello, I was just at the Animal Shelter and had a poor interaction with a city employee apparently using the handicapped electric car charging spot as a personal parking space. When I alerted her that she parked with no permit, told me she"s a city employee and basically to ""mind my own business"". She appears to work at APH. It felt that she was flexing her authority to abuse the space and laws. I tried to call Transportation (no answer) and then 311 for assistance. They said a police officer would be dispatched. A good while later, Olson came to the scene. I tried to explain the situation about the illegal parking with no permit, showed her the international towing sign and let her know others have been ticketed or given a warning here. She claimed that EV and parking rules were too complicated and asked what I wanted done. She said it"s her choice to ticket anyone and essentially that she would let the city worker who had bullied me for the handicap parking spot to stay. I feel we should better educate officers around EV charging spots and tow/ticketing law for ADA spaces. She was later speaking with the offender and essentially seeming to say I was in the wrong to complain about handicap parking abuse. This doesn"t help citizens regain trust with police. Now we have an emboldened handicap parking abuser and good citizens afraid of asking for code to be enforced. What the corrupt city employee did also by parking illegally was to have the charge rate halve at the same price for the innocent party. I didn"t have enough charge to get home and she wanted to get to the full 200/300 miles just because she could. Thank you, [REDACTED]</p>	

OFFICE OF POLICE OVERSIGHT

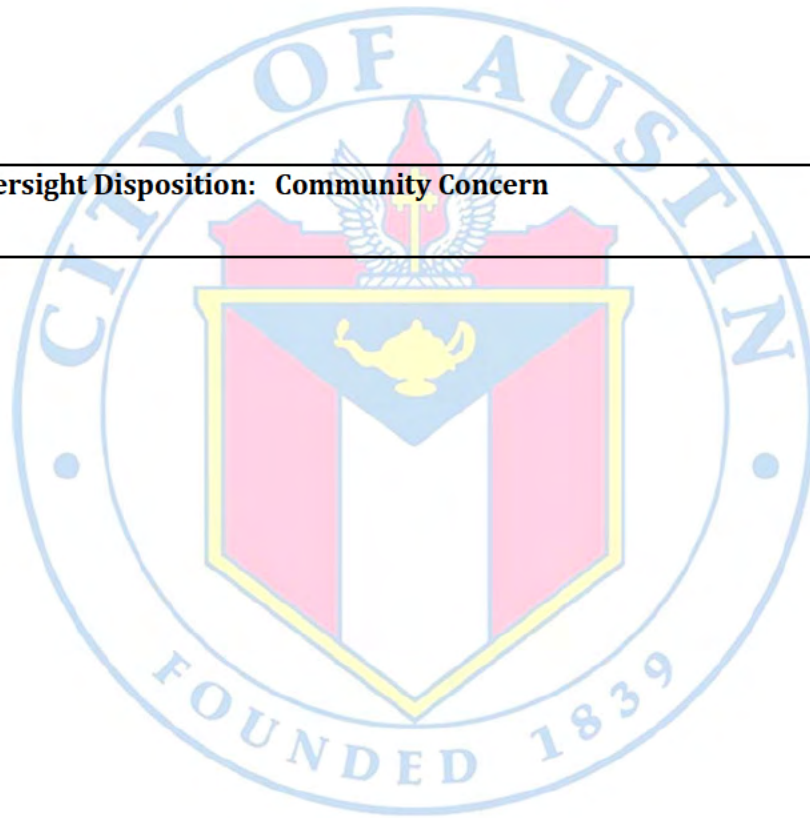

This happened just now and her unit number was 3530. I felt unsafe to ask for her contact for this report.

She also said ""I don't see any handicapped trying to park in the (illegally blocked) handicapped space."" I reminded her that we wouldn't know as they now had nowhere now to park.

She said warning/ticketing was at her discretion and that she wouldn't do it.

Thank you"

<p>Complaint: "Hello,</p> <p>I'm writing to you because I have a serious grievance against Detective Briton Taylor #8615. On August 26, 2023, I was arrested on two charges, one class B misdemeanor for a terroristic threat and a third-degree felony for obstruction or retaliation. This is extremely scary to me for the following reasons and should be prevented with proper procedure of investigation.</p> <p>On July 26th, two weeks after the alleged video in the affidavit. The complainant is somebody who has been cyber and physically stalking me ever since 2007. I've tried to lodge numerous complaints against her, but to no avail. APD has done nothing to stop this situation, despite my attempts at outreach. On this day, she decided to inform Detective Taylor of an alleged threatening video and made it a point to illustrate my supposed violent past.</p> <p>Detective Taylor, therefore decided to do an investigation that was totally incomplete and very presumptive. He said in the arrest affidavit that this was a threat against a neighbor who has not been my neighbor for a couple of months as I moved out of that neighborhood in 2023. I had also changed the address on my driver's license he deliberately overlooked that fact and just decided that doing a Versadex lookup is sufficient to bring charges. I'm willing to be that he never asked the supposed "victimized neighbor" about any interaction which never happened.</p> <p>He made a hostile conclusion based on assumptions rather than facts. It was nothing short of the former soviet model o, "Show me the man, and I'll show you the crime". This is a flagrant abuse of power that does not afford equal protection under the law, especially when my accuser is known to have an extensive history of mental illness. He never even asked why this person was so interested in stalking and monitoring me when I chose to have nothing to do with her. The same lack of desire to interact with said "neighbor" is also the same.</p> <p>In addition, if I was such a threat, why would it take a whole additional month to arrest me? Wouldn't it be logical to assume that if I wanted to do something that I would have done it already? This makes no sense whatsoever. I assert that because I have a past, I've been marginalized and been treated differently than others due to unfounded bias. This is not equal protection under the law, especially when the facts are not objectively pursued. If the right thing was done, I would not be writing this letter, because I would not have been arrested under false and inaccurate pretenses.</p>	

OFFICE OF POLICE OVERSIGHT

What Detective Talyor has done is not only unconstitutional with regards to violation of my fourth, fifth, and fourteenth amendment rights, but is also unlawful. Yet, I'm the one who is under charge and having to spend thousands of dollars on legal fees. This is patently unfair and this needs to be rectified immediately.

Sincerely,

██████████."

As the A/C company & complainant arrived and started working on the A/C, the tenant then showed up and started yelling at them to leave. The complainant stated that she had the right to be there because a broken A/C is an emergency. The complainant states that the tenant then became more aggressive, so she proceeded to call the police. APD then showed up and spoke to the complainant briefly and then spoke to the tenant. APD then came back to talk to the complainant, and he asked her why she didn't just leave. The complainant stated that she felt like he was being unfair and also giving bad advice. The complainant stated that she cannot just leave, because the a/c is still broken, and it's hot and if something happens to the tenant she will be liable and she would feel terrible if something happened to them because she didn't fix the A/C. The APD officer then left the scene. A few weeks later when the rent was due the tenant refused to pay it. He spoke to a woman there and had a cordial conversation. He was in need of someone to talk to to figure out how to get out of his situation. Complaint: <p>"I was hit by another driver on 6/7 in Austin, TX who ran a red light and struck my vehicle on my driver side. At the scene, the Austin Police Department let me know that the other driver's vehicle had temporary plates from January of 2024, and they were unable to gather his insurance information. However, the police told me they would be following him to the hospital to retrieve that information.</p> <p>Today, I received the crash report from the Austin Police Department and was very concerned with the report. While the police ruled the accident to be his fault, there were no notes about attempts to collect his insurance information and the section was left blank. The report also stated that the driver is unlicensed. My main concern was that the police stated drug and alcohol tests were "not applicable" for the driver. This was my first concern at the scene of the accident as this driver ran through a solid red light at a very high speed. Lastly, no citations were issued to the driver including but not limited to: driving unlicensed, driving with expired plates/tags, and running a red light.</p> <p>It is absolutely unacceptable that the Austin Police did not issue citations to this driver, nor order a toxicology report of the driver who hit me. This driver, who broke many, many laws should be deemed unsafe to drive on our roads. Failing to cite him and failing to test him for drugs and alcohol means he is likely on our roads again.</p> <p>I am requiring that my crash report be re-opened and reexamined for failure to report appropriate information and fields."</p>

Instead, they broke into her apartment by breaking the window locks and removing property from her window ledge. They refused to leave. She told them she was fine, and that her mother made up a story. They were there from approximately 7:00 pm - 9:00 pm trying to gain entry. She said she didn't want to let them in if she wasn't under arrest and they didn't have a warrant. <p>Complaint: "On 6/5/24 after a hotel manager would not tell me why I was being kicked out of the Wyndham Hotel on S-IH35 around 1:30pm. I will attach the video of the hotel manager telling me that I needed to leave. When officers arrived, one African American cop and one Caucasian officer (I will be obtaining the body cam footage of both officers) but I was asked what was the problem. I told him the hotel manager said I could not reserve another night but that since my friend [REDACTED] reserved the room for me that she couldn't tell me why I was being kicked out. The officer has me call [REDACTED] who then the officer took the phone and asked him to come to the hotel so I could get my things out of the room. Room 237. [REDACTED] said he would come to hotel.</p> <p>The black officer asked me my name and told me he was going to his car and upon coming back he immediately handcuffed me and said I had a warrant out for a broken fire appliance that I received a ticket for in November 2023 after the family the [REDACTED] who were living above me in unit [REDACTED]. This family [REDACTED] used to be a police officer and they are the reason I have been harassed. I'm going through an organized harassment campaign and this family has been spending the last almost four years illegally bugging and surveillance my apartment.</p> <p>They have gang stalked me and used electronic harassment and remote electronic harassment with the use of a hair dryer and Taser gun, high powered laser pointers that are green and they point at my feet which have caused severe burns. They have used magnetic wands possible TMS wand and a Brain Computer Interface and Artificial Intelligence voices to mimic my voice, their voices and voices of celebrities and directional speakers they had mounted everywhere I stay. They use their law enforcement credentials to say to hotels that they need a room either above me or around me or sit in their car and gave falsely incriminated me saying im a pedophile. I've been falsely blacklisted and this is why I've faced countless violations of my civil and human rights.</p> <p>I did a background check and see the Pattersons may live now at [REDACTED]</p> <p>As I was being handcuffed and taken to the patrol car, the white male officer patted me down and took my purse off of me. He placed my purse on the trunk and took a pipe I had out of it. I saw the officer test the substance which is pure caffeine not drugs.</p>	

OFFICE OF POLICE OVERSIGHT

After he tested the substance, the officer placed everything including the pipe back in my purse and walked away with it. When I got to the police station the officer said to me that he gave my purse to my friend [REDACTED]

I was being booked and told by the woman booking officer that I would only be in jail for about a couple hours. I heard the woman officer say "" One person had to ruin it for the rest of us"". They had me give them my fingerprints, a mugshot was not taken, I was told to change clothes and taken to booking area. I sat there for three and a half hours and then told I'm being released. I was never taken to a jail cell.

[REDACTED] had went to the hotel and got my things out of the hotel room but stated that no officer gave him my purse. I believe him as this is a trusted friend and not financially strapped and would not need to lie. My purse with all of my things is missing. I never got my purse back and the Patterson family stated over directional speakers that Kelly had my purse and had taken all of my things. I need to see body cam footage from both officers. The name of the arresting officer in the form I was given to sign says Perez#4217. However this is not the officer who arrested me as I remember seeing his name and despite not remembering it now I know it was not Perez. I believe this white officer and APD put that name in order to cover up what they were trying to do which is get me arrested by leaving the hotel luck me out for no reason, say I had a warrant which may be true but then thought they were going to get me [REDACTED] use. After officer tested the substance and placed the pipe back in my purse he still did not give it back to me.

This [REDACTED] family has abused their power as a family of law enforcement who may have been using a mimiced voice of Elon Musk(yes I understand this [REDACTED] how this is what I've experienced and believe [REDACTED] pay me to make sure they get paid by the property [REDACTED] who they said offered them \$100,000 to destroy my life. [REDACTED] is covering up massive fraud against tenants for illegally charging them for water which I was calling out them for and they retaliated and then tried to evict me. The Patterson's who lived above me and had at least two APD officers living in unit 2408 were offered money and this property has been funding this families attempts to silence me)

The date this happened was 6/5/24 and at approximately was 1:30pm at Wyndham Hotel on S-IH35. I have video footage of the hotel manager and will attach it to this report. I need answers and help to get this family away from me. I have received no real help at all from the over one hundred times I've called APD to get help. This is corruption and an abuse of power and for 13 months straight I've been experiencing these heinous acts from this [REDACTED] I am pleading for someone to help me as this is a slow killing of someone. The fact that tools and devices can be used to harm someone who doesn't have to be in the same room as you is a nightmare."

It appears the man resisted arrest which then causes the officer to lose his temper and verbally indicate while also smirking, that he would punch him in the face. The man continued to resist which then causes the officer to beat the man who is on the ground at this point on his stomach while other officers are restraining his arms and hands. The officer strikes the man over 10 times in the face and head during this interaction. This video is similar to the Rodney King beating. With the current state of public appeal of police in America, this only deepens the bad rep officers receive. I can only hope that after reviewing the video the officer is reprimanded or atleast sent to training for de-escalation, take down tactics and anger management. Complaint: "Officers were speeding through his neighborhood going 70mph in a 30mph zone, going on the opposite side of the road, turning blind corners at 70 mph. The complainant stated the lights and sirens were on but had there been a pedestrian or obstacle in their way, they wouldn't have had time to stop and its very dangerous. The complainant stated he has had a different experience of the police in this neighborhood compared to what he's seen in other nicer neighborhoods."

Complaint: [REDACTED] Greetings On Thursday 27 June 2024 around 4:20 PM I was stopped by what appeared to be a two vehicle accident at Lake Creek Parkway and Lakeline Mall Boulevard At least two Austin Police vehicles were present and all they did was block various lanes with their vehicles They made no attempt at all to direct traffic and get the situation under control exposing the pedestrians and motorists in the area to a VERY dangerous situation We could have gotten more professionalism from the Keystone Cops My wife and I agree this is inexcusable and unacceptable Thanks [REDACTED] Supporter Army Veteran - Proud Vegan - Speciesism Fighter"

Complaint: "I was violently assaulted by a WHITE MALE and the police were called because I was screaming for help because the white male was causing for blood to come out of my body. The police arrived and the white male who assaulted me was coerced to make up a lie because the police would not leave him alone. The lie caused for the police to show up at the hospital where I was being treated for my wounds to arrest me. This was RACIST. I AM HISPANIC AND a WHITE person assaulted me. You DO NOT put a HISPANIC VICTIM IN JAIL FOR THE CRIME THAT THEY ARE A VICTIM OF!!! YOU FUCKING SICK FUCKS!!! MANY WHITE CHILDREN WILL BE RAN OVER JUST BECAUSE YOU DID this!!! No mercy on them!" May they understand that the racism that their own race puts on HISPANICS is the reason they were run over! Screaming for help!!! Bleeding !!! all over the body!" Because a WHITE PERSON caused them harm!!! you are SICK!!!! MAY THE WHITE CHILDREN I RUN OVER GIVE YOU FORGIVENESS!!!"

Complaint: "On Thursday June 20th I was arrested and tase by Austin PD. I was on public sidewalk & property while APD stop another individual. I was letting officers know they didn't have a right to stop that young man he was on public sidewalk. I was using my rights as I do have the rights of freedom of speech. I guess they didn't like what I saying and then launch at me telling me I'm under arrest. Not telling me why I'm under arrest I got tase by officer Edwards #8390 and again by Officer McIntosh #8416. I don't know what officer tase me again while I was already on the ground handcuffed by I have witnesses and a video of me getting tase while already on the ground. I also have pictures on my bruises and picture of the prong from the tase that was left in my skin while I was in intake. Travis County Sheriff also saw that prong still left on me and thought that was crazy. I will be getting a lawyer soon.... once again my name is [REDACTED] my number: [REDACTED] I haven't been arrested since I was 17 and I feel like that was unnecessary user force all because they didn't like how I was talking In response to OPOs request for a location: Off of oltorf & Burton drive"
