1	I'd love to see much of the flooring and wall tile preserved OR moved / re-used in some other area of the dressing area.	10/31/2018 4:44 PM
2	Too complicated	10/31/2018 9:14 AM
3	No. This survey is too complicated. However, Plan 3 does the best to restore, reopen, and improve user experience. Love, Cannatti	10/31/2018 8:43 AM
4	The women's restroom really needs more private changing areas. Put doors on the ones that are behind the shower bank. Keep showers where they are and add two more toilets that are side by side with the ones that are public.	10/30/2018 3:55 PM
5	Increasing the usefulness of this space to meet the needs of women using this facility is what will make this effort a success.	10/24/2018 12:07 PM
6	I think concept three is the best option because it allows the women's dressing area to be more similar to the men's. The more open and green the space could be the better because as a women, it is sometime terrifying going into a dark, cramped public space.	10/19/2018 10:16 AM

3	An extremely poorly designed survey. It put load of understanding too many options on unskilled public. Skip the values Ask what we like and don't like. Can we have access to the rotunda exhibits from inside the pool area?	10/31/2018 9:01 AM
4	The entry needs to go into the men's and women's equally	10/30/2018 3:57 PM
5	The men's bathroom is light, airy and has a feel to it that everyone agrees is the most important thing to preserve. It is also a space that is over sized for the amount of traffic that it sees. The challenge is to preserve the feel yet take advantage of any areas that could be used for other purposes.	10/24/2018 12:17 PM

2	PLEASE, PLEASE, PLEASE put a bathroom on the South side of the springs. You have absolutely wasted money on the springs project I call the lazy river with a Fort Knox style fence around it. I have NOT ONCE heard how great or even good it looks. We need a bathroom on the south side. I think around 70% of the annual traffic at the springs visits the south hill. I personally am handicapped and along with everyone else have to walk 1/4 of a mile to go to the bathroom (there and back). I have seen lifeguards and booth staff using the tall grass to relief themselves because they cant make it to the bathhouse. You will be able to reduce wear and tear on the bathhouse by installing a bathroom on the south side (not to mention people actually using the springs to relieve themselves...) We are getting more and more people every year and need to be proactive on the bathroom accommodations. I feel the people that make these major decisions do not actually go to the springs. At least put in a small bathroom or even portable ones and see how fast they need to be emptied on the south side. I have had a season pass for 15 years and am tired of being nice about this situation. Thank you for your time.	10/31/2018 2:53 PM

5	It's very hard to tell by the photos/drawings. The needs are not too much privacy for changing but more toilets, no more shower curtains that blow and stick to us. Keep the outdoor showers please.	10/31/2018 9:19 AM
6	The women's dresseing room need privacy doors to the changing areas do not change the grass area. Leave showers the way the are. Like the extra family rooms at entrances to men's and women's and on the exterior of the men's changing room. Entrances are needed at both changing rooms. Use rotunda as cashier stand. Change doors in women' restrooms to add more space between toilet and open door. MORE Lockers some for use with locks other change 25 cents or a dollar!	10/30/2018 4:12 PM
