At the community meeting held on March 6, 2013, various lap pool options were presented based on previous input from the community:

Option 1: deepens the end of the existing lap pool design to a seven feet (7'-0") depth which also provides a diving edge opportunity

Option 2: includes a twelve foot (12'-0") depth deep end including a diving board

Option 3: illustrates a diving well off the deep end, creating the 'L' shape configuration to the lap pool design

Based on input from the community, option 3, the 'L' shape pool, received the most support. In addition, options 2 and 3, including the preferred 'L' shaped option, provide four swim lanes, and the lap pool will be heated to extend the swim season.

The next community input meeting will be held on **March 20, 2013 at Blanton Elementary School from 6:30 to 7:30pm**. At this meeting, PARD staff and the design team will present a further developed 'L' shaped lap pool design including the program opportunities provided by this particular design. This meeting will also provide an updated construction schedule for the completion of the pool based on the desired pool design.

Entry at the new pool facility.

View proposed alternatives presented on March 6, 2013 on pages 2, 3 and 4.

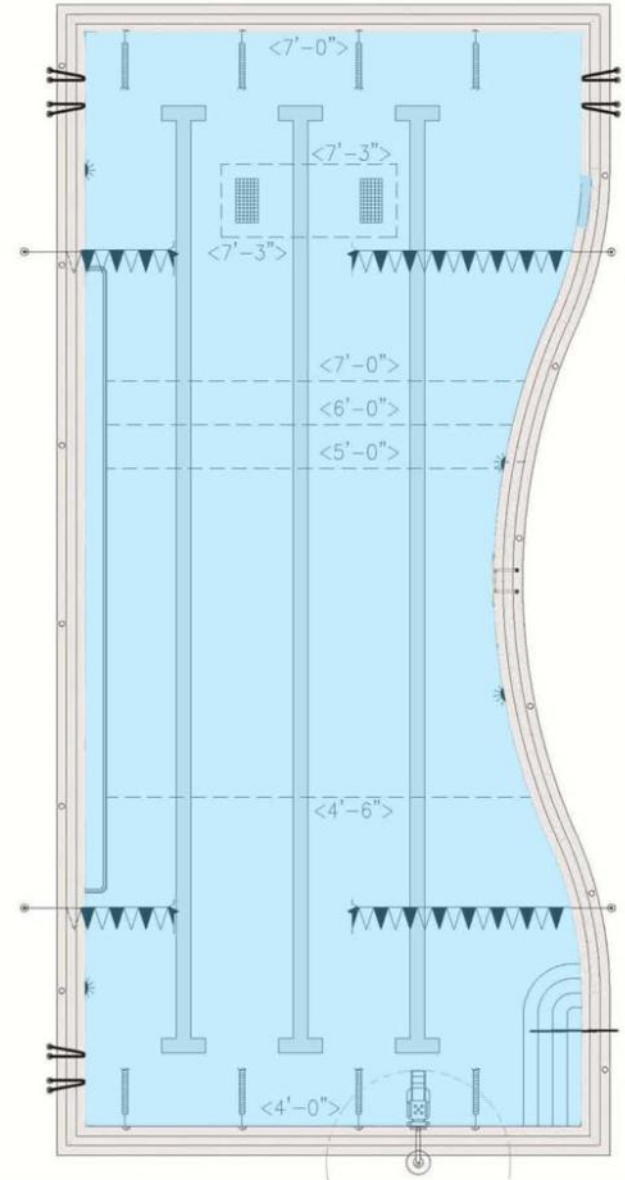

EDGE DIVING

POOL DEPTH 3'-6" – 7'-0"

POOL SIZE: 2,550 sq. ft.

ALLOWS DIVING FROM EDGE

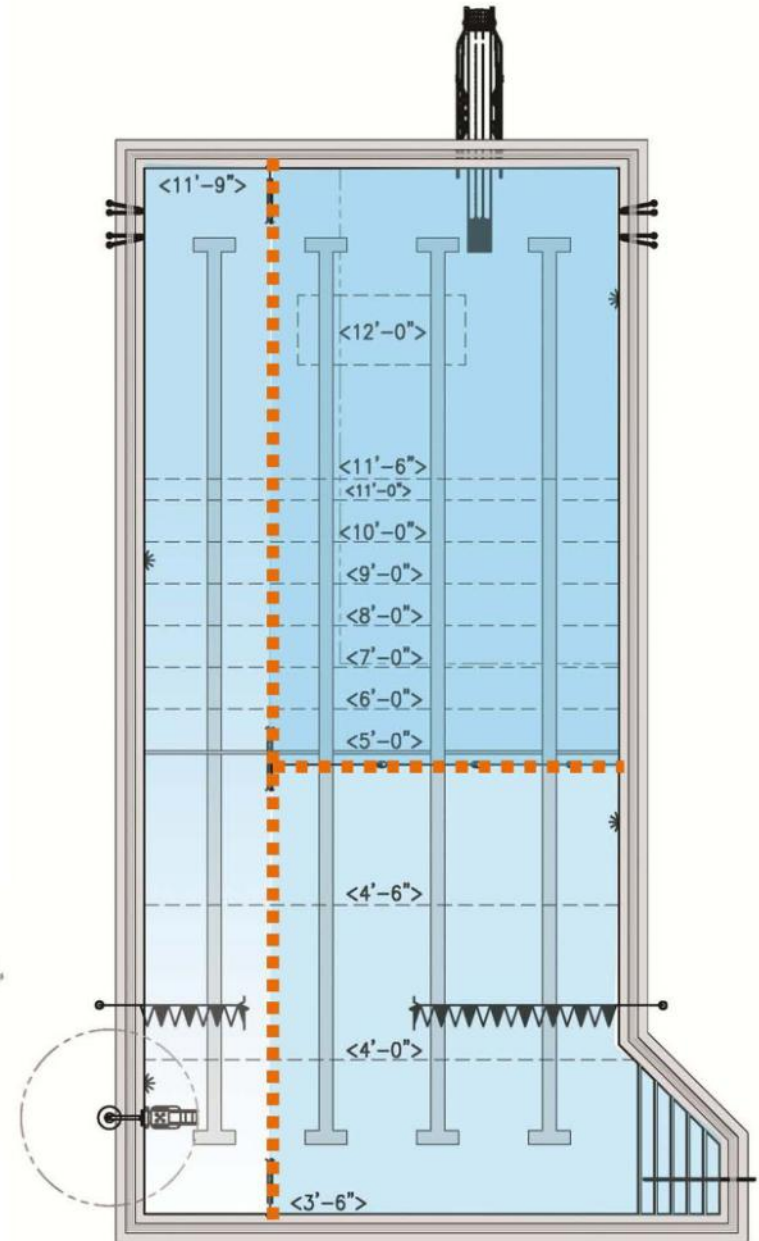

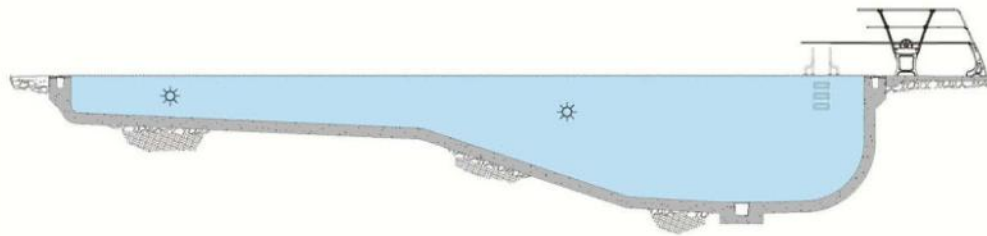

ADD DIVING BOARD

POOL DEPTH: 42" – 12'-0"
POOL SIZE: 2,550 sq. ft.

**COMBINED USE ALLOWS
 FOR ONE LAP LANE**

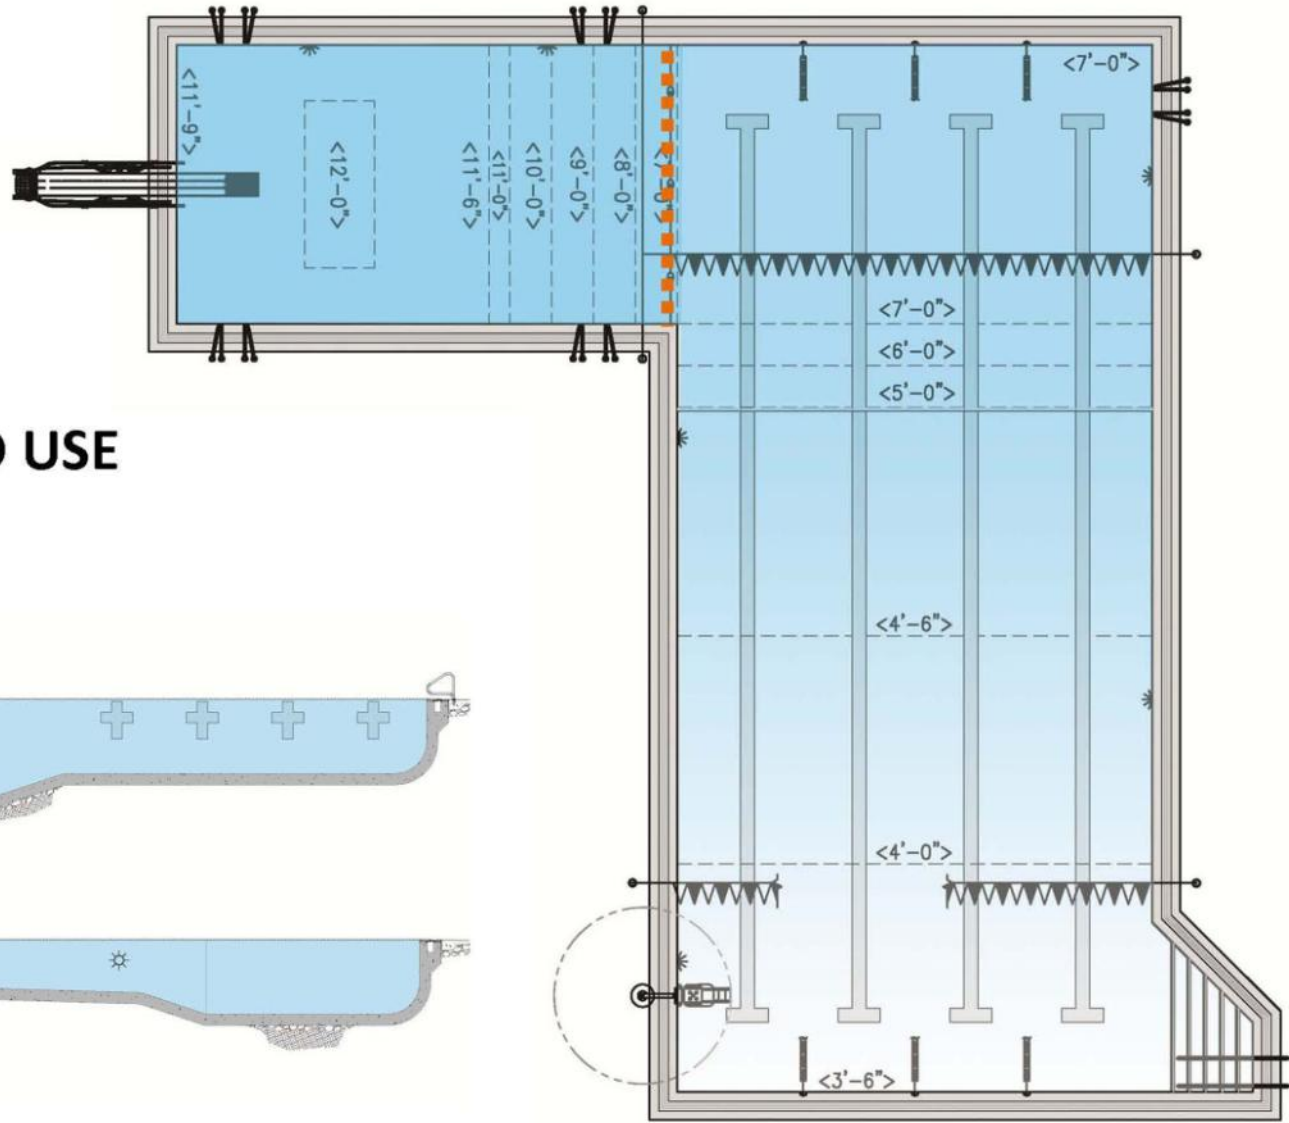

LAP: 675 sq. ft.
DIVING: 1,075 sq. ft.
PROGRAM: 800 sq. ft.

L-SHAPE POOL

POOL DEPTH:
42" – 12'-0"

POOL SIZE:
3,270 sq. ft.

FULL COMBINED USE
