Rainey Street

Green space; adequate drainage of storm water into ground (replace asphalt surface)

QR

There are no children's playgrounds in the area:
 My proposal: Nature history theme
 colors playground or children's activity area within an outdoor theme *2
 References:
 1 metal art
 2 historical markers on placards, not pavement.
 3 mural paintings on the building
 4 Restating art
 5 Park benches + shade. (keep low vegetation to a minimum due to traffic moving area as toilet area + # of children increasing. No playground exists here or anywhere in any better part also grass/pavers like here, * no high walls or enclosing fencing.

Pat Verge 9/29/22

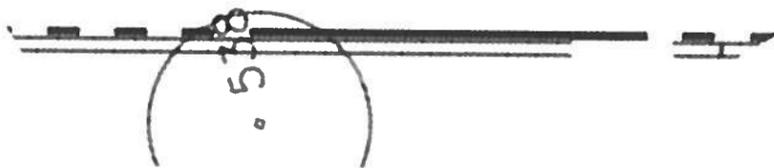

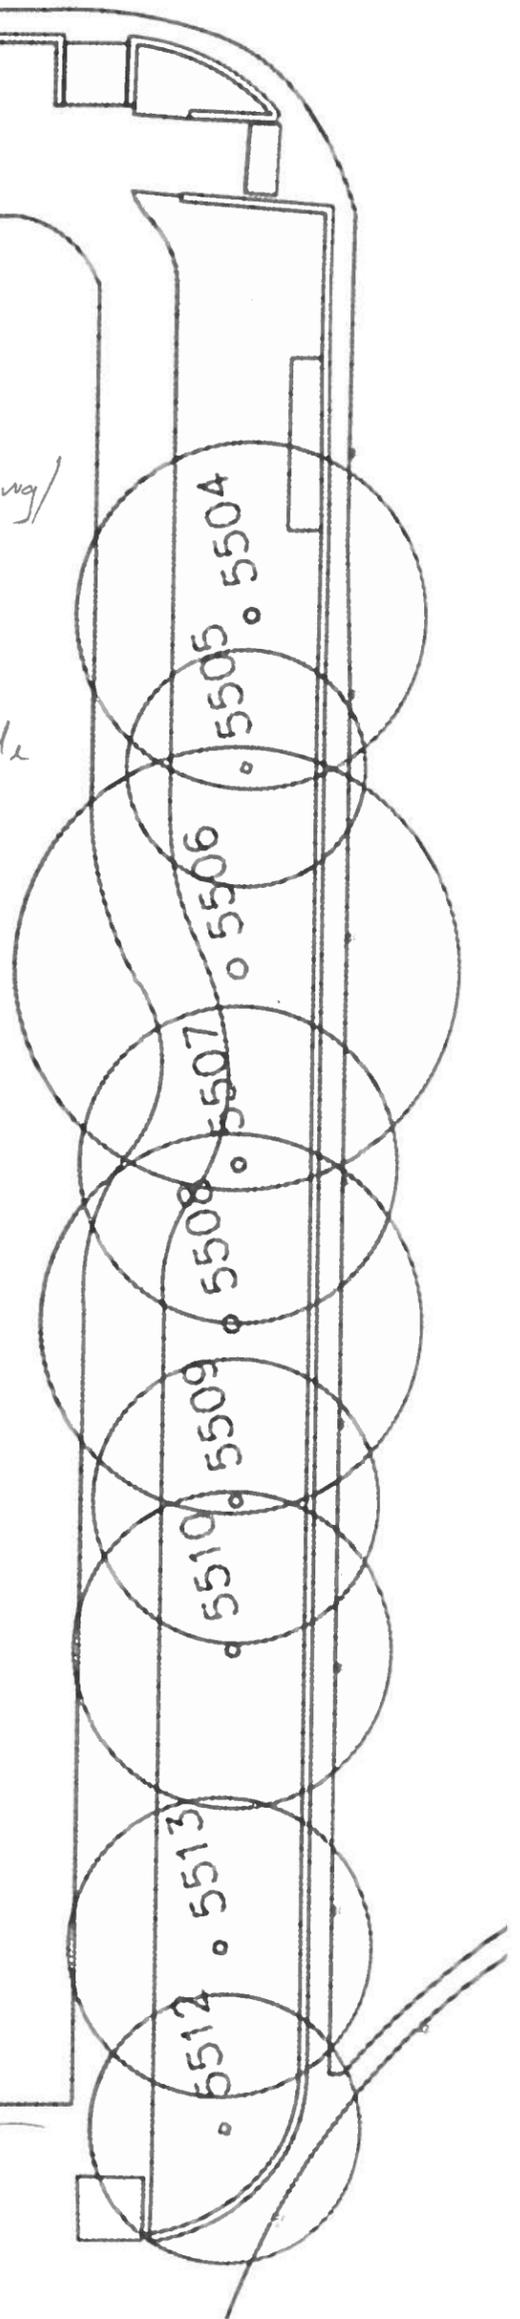

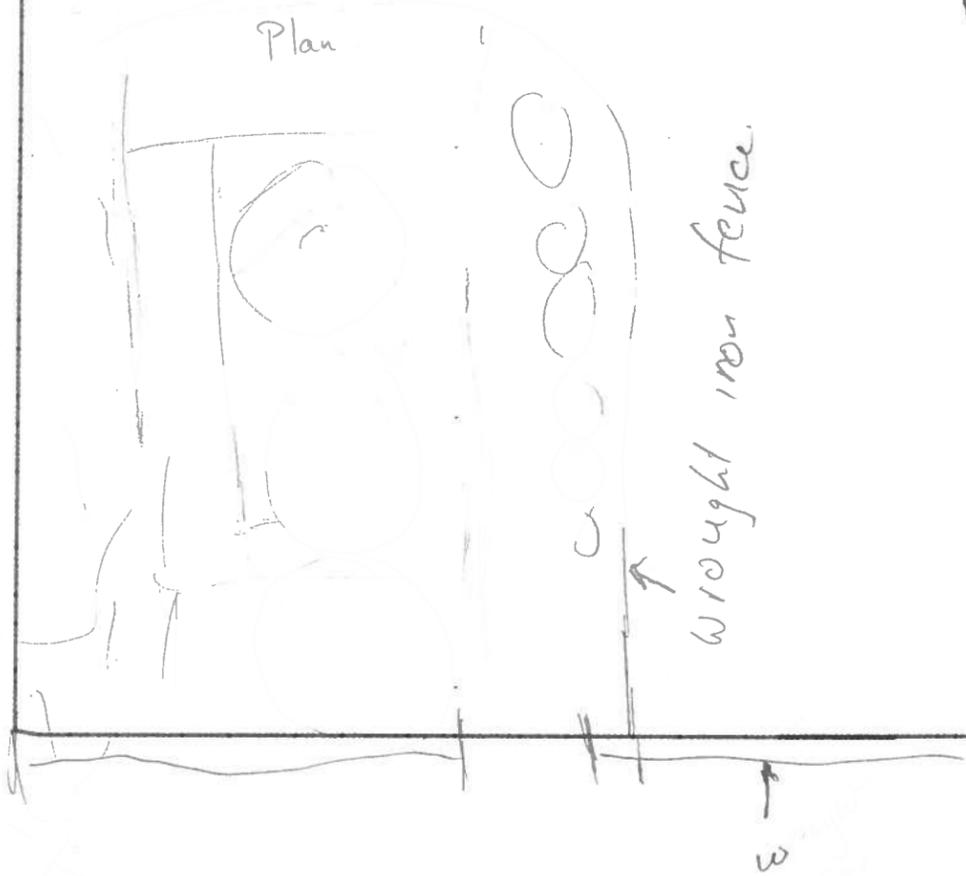

Key element 1) TALL Shade Trees, Greenery

Rainey Street

2) Configurable art space to allow showcasing local art.

Would like to see basic infrastructure (example paving/terraces) that would be used as base to provide semi-temporary spaces to highlight art for various periods of every 6-12 m.

Priority

- (1) Historical Murals
- (2) Metal Papel Picado
- (3) Art + Storytelling Elements

Hold off

Grand Entrance → Alley / Circle?
Mural(s) on the Sub Station

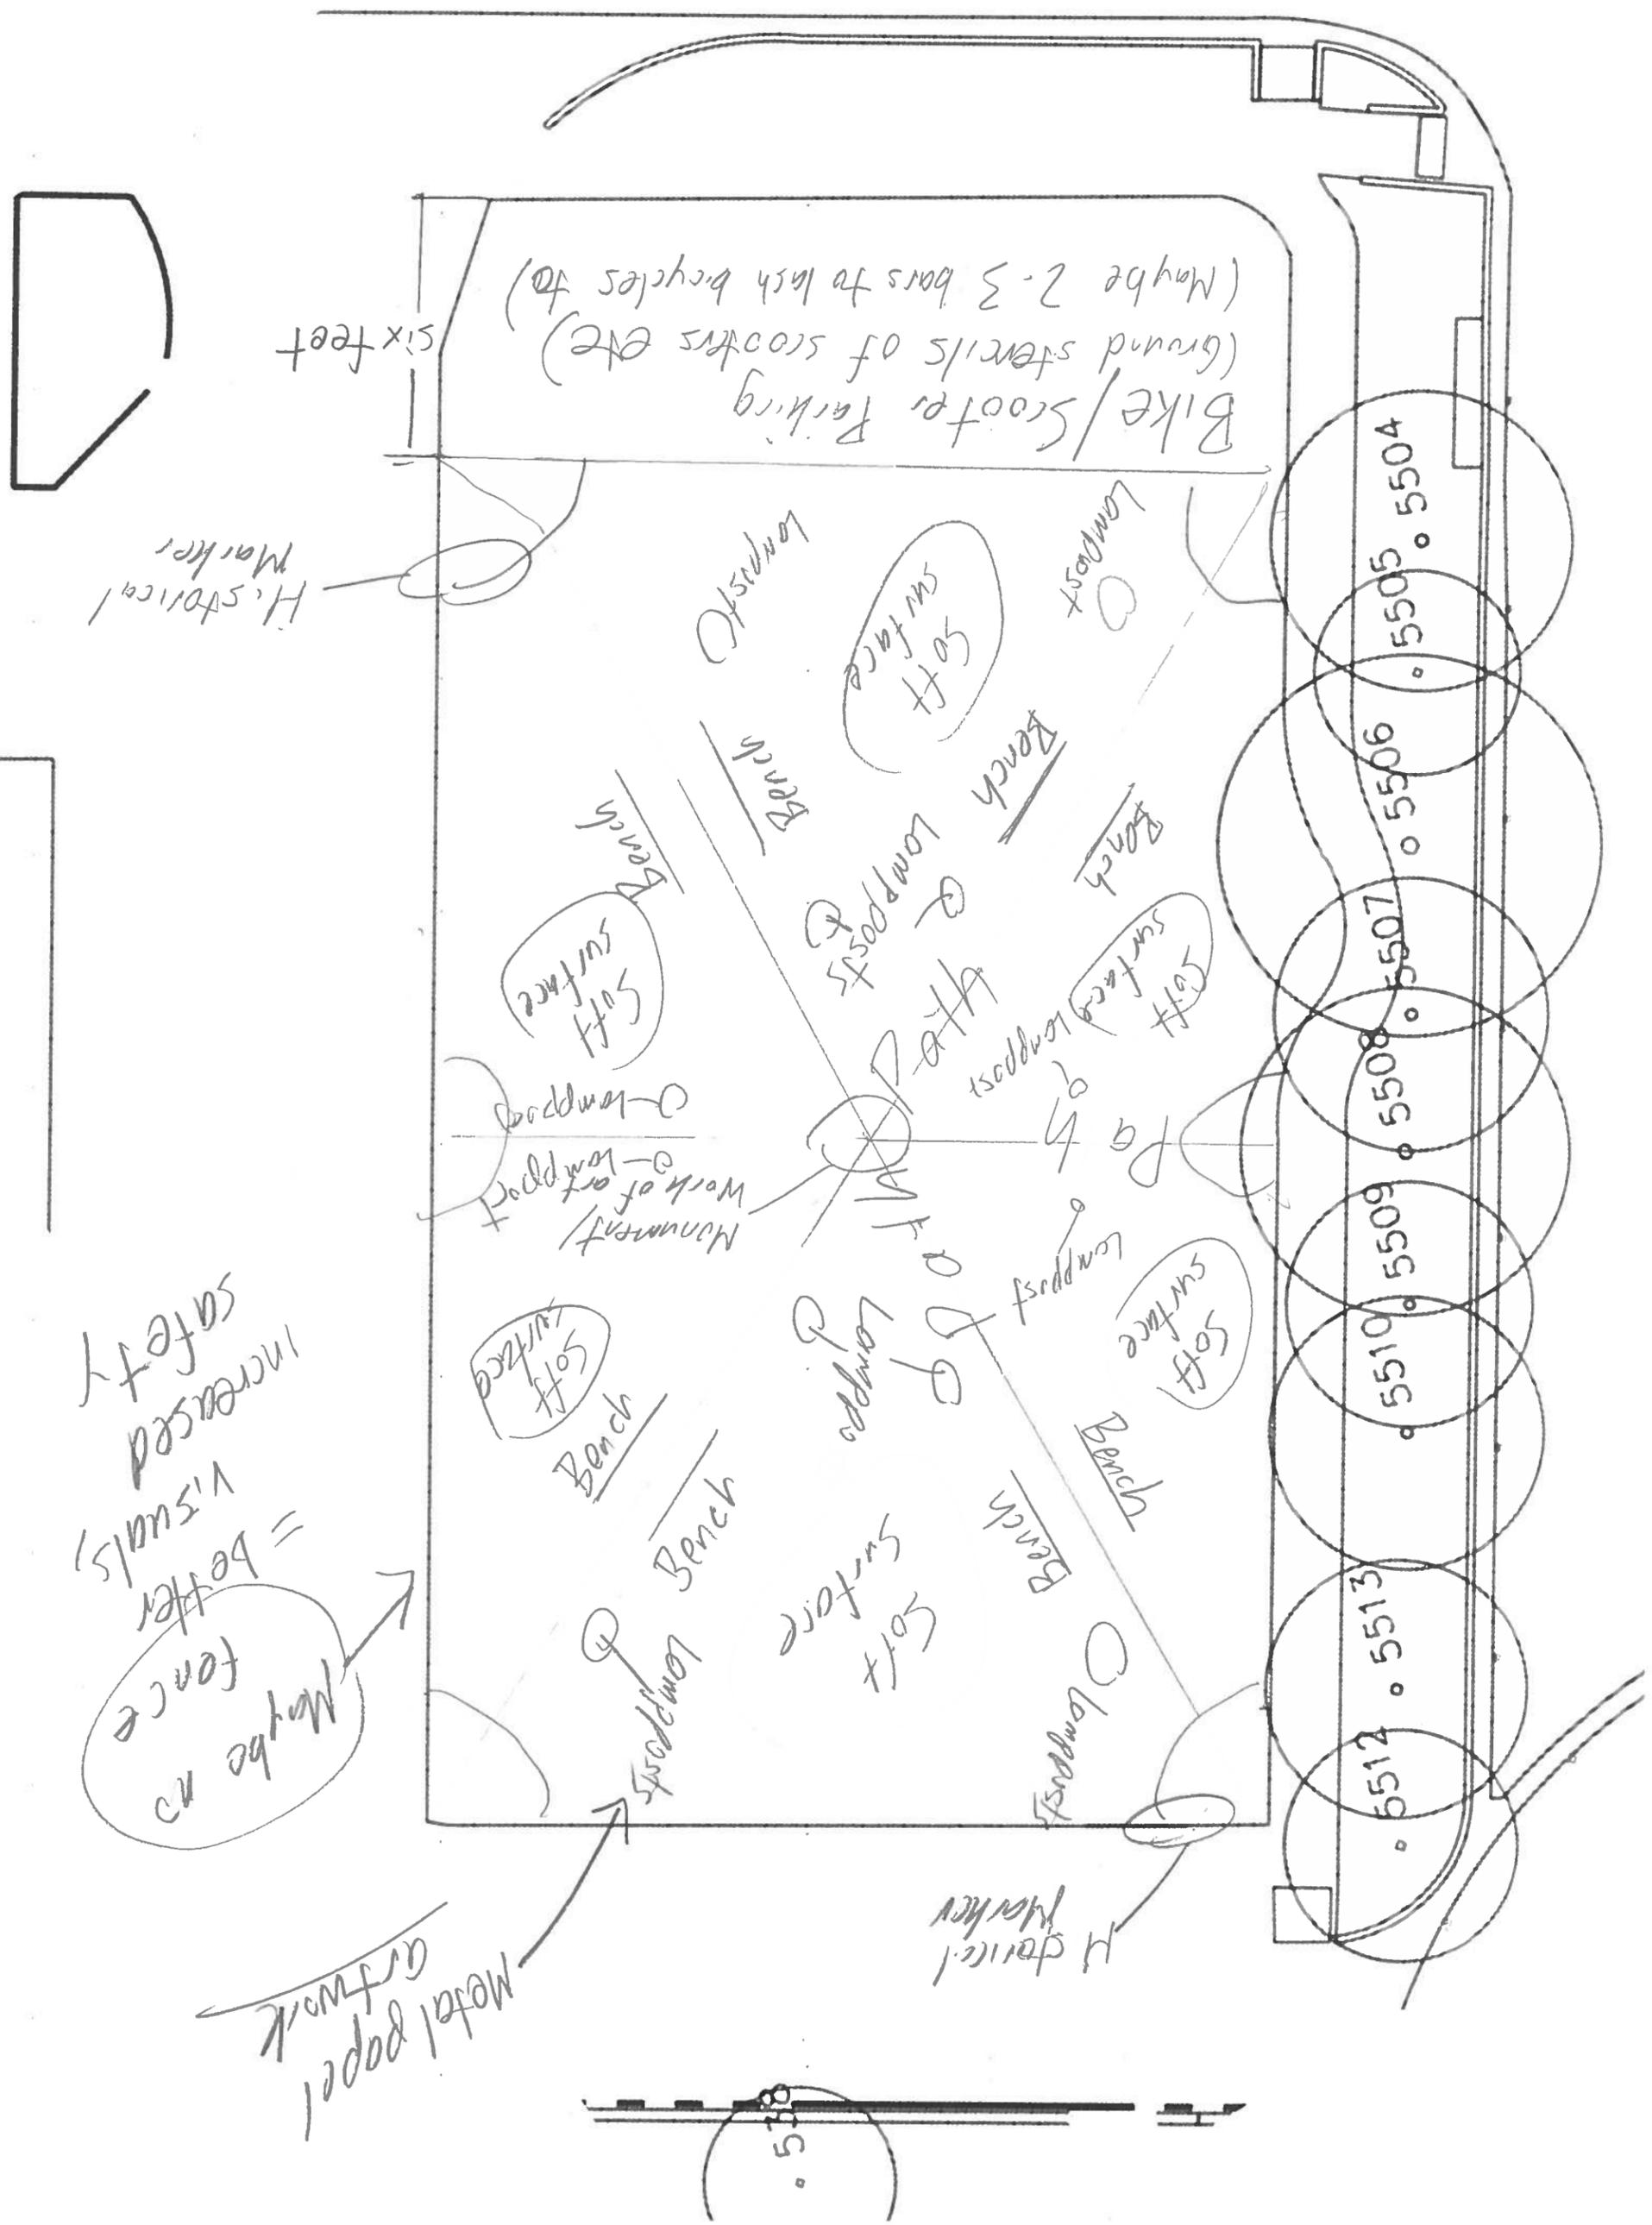

✓ after Construction

Issues

Party goers using the Bathroom

— fence — throw trash over it
Enclosure —

Rainey Street

Maybe no fence = better visuals, increased safety
