

Appendix 6- Alternatives and Review Comments

Parking Lot	Love the downsizing of impervious cover
Parking Lot	Too large an area for a quality feature, Delivery trucks use this area, Don't dig for rain garden- use some of the area to plant trees
Parking Lot	Add WQ (water quality) for net added imperv. cover. Do not design to retrofit unless runoff goes into the pool itself.
Parking Lot	I support improvement to move asphalt away from trees but dedicate some of the improvement to the trees, meaning don't replace asphalt with DG but add good soil and mulch for trees.
Parking Lot	Why include tree maintenance plan in a construction project? Due to funding? Will tree maintenance be provided for years?
Parking Lot	Love the idea of H2O quality feature as part of design
Site Plan Funded Projects	Plant trees and keep trees in Pecan Grove with decks to minimize soil compacting so that trees can grow and survive
Site Plan Funded Projects	Barton creek both sides fix creek bank erosion issues
Site Plan Funded Projects	Pecan grove, improve water quality issues, plant more trees
Site Plan Funded Projects	Playscape parking area improve water quality issue
Site Plan Funded Projects	Don't move the SPLASH center
Site Plan Funded Projects	Improve parking by removing all parking lots and build large multistory with direct access to Mopac
Site Plan Funded Projects	Cap Barton Springs RD to increase park size
Potential Projects	A- Has better view B- Has better location for engagement with childrens area
Potential Projects	Don't move the SPLASH center
Bathroom Repairs	These passage ways are too indirect (through bathhouse)
Bathroom Repairs	Need to reopen women's dressing area
Bathroom Repairs	Too cheap and uninspired
Bathroom Repairs	Overall, this concept is too short-sighted, will not address # of visitors
Bathroom Repairs	Carve out space for staff and storage from men's bathrooms
Bathroom Repairs	Why don't you have aquatics in (barker?) area like in the option where Sheffield/Splash is moved?
Potential Projects	BS Pool parking improve water quality issue
Potential Projects	Egress path away from full (crz?) of pecan in median and other trees
Potential Projects	Don't move Splash Exhibit/Sheffield
Potential Projects	Move Splash and Sheffield to location B. Much improved!
Bathroom Rehabilitation	Move and <u>improve</u> Splash/Sheffield
Bathroom Rehabilitation	Use basket room/rotunda as entrance path to comply with flood plain
Bathroom Rehabilitation	Even if Splash/Sheffield moves, maintain interpretive exhibits on site at the bathhouse
Bathroom Rehabilitation	These could be flood proof
Bathroom Rehabilitation	Keep rotunda pink area open for public

Appendix 6- Alternatives and Review Comments

Bathhouse Rehabilitation	Yes- move Sheffield to higher ground
Bathhouse Rehabilitation	Not ok to move exhibit to put a new multipurpose room
Bathhouse Rehabilitation	Don't move Sheffield/Splash exhibit
Bathhouse Rehabilitation	No Brainer! Move Splash and parking lot peace
Water Quality	Like water feature at Barton Springs (mode?)
