

Beverly S. Sheffield Northwest Park

Vision Plan

Community Meeting #2
June 15, 2021, 5:30 p.m.

Zoom Meeting Chat

01:00:03 Marisa Zappone: Can you remind us of poll location

01:00:09 Roy Falik: It's not showing up. Am I the only one?

01:00:13 PARD Justin Schneider: Poll Everywhere: <https://PollEv.com/AustinParks512>

01:00:23 Natalie Poulos: it is not showing up for me either. it says that we are waiting for presentation to begin

01:00:29 Roy Falik: Same.

01:00:34 Roy Falik: There we go!

01:00:42 PARD Justin Schneider: Thank you! I forgot to hit "activate"!

01:02:51 Natalie Poulos: i do not see my response - although i could have missed it

01:03:17 PARD Community Engagement: Poll Everywhere: <https://PollEv.com/AustinParks512>

01:03:18 DENISE GOETZ: Can you put the address in the chat?

01:03:21 DENISE GOETZ: tanks

01:03:31 Darcy Nuffer: Poll Everywhere: <https://PollEv.com/AustinParks512>

01:18:20 Marisa Zappone: What does it mean to remove impervious cover?

01:18:59 Darcy Nuffer: it means to take away concrete and replace it with vegetation

01:21:31 Carri Crowe: Is it correct that this concept A increases the size of the pond?

01:21:50 Darcy Nuffer: yes

01:23:45 Jennifer Goetz: Does the plan to improve lighting include solar options?

01:25:55 Darcy Nuffer: Hi Jennifer - that level of detail will come later in the process, so potentially yes

01:27:01 Jennifer Goetz: I figured but thought I'd ask

01:27:41 Glenn Meter: What effect would the boardwalk have on wildlife?

01:28:02 Carri Crowe: I'd also like to ask for consideration of shielded lighting to help with dark skies. We live close by and like to use our telescope, but park lights interfere. The court lights also shine right into our neighbor's homes where trees don't block the lights.

01:35:22 Carri Crowe: Where is the bike pump track on Concept B? I don't see it on the list of features.

01:49:26 Randi White: Splash pad is missing

01:49:42 Glenn Meter: Fenced-in dog park.

01:54:58 Glenn Meter: Are there plans to better use the space along Shoal Creek just S of Greenlawn? That seems like an obvious meeting place for cyclists, etc.

01:55:41 Roy Falik: I think the pump track is a fantastic idea.

01:56:26 Carri Crowe: Thank you Darcy, Justin & Drew - I appreciate your hard work on this project

01:56:57 Roy Falik: I also didn't see mention of any hydration locations. Is this just a given?

02:02:57 Natalie Poulos: You may not have the answer for this, but the timeline for the pool makes me anxious. Do you know if this planning and renovation is the next time it would be open?

02:03:30 Natalie Poulos: yes.

02:03:59 Natalie Poulos: Thank you!

02:04:25 Michael Dziak: Nice work, thanks!

02:05:06 PARD Community Engagement: SpeakUp Austin page:
<https://www.speakupaustin.org/sheffieldnwpark>

02:05:20 PARD Justin Schneider: Follow-up survey to complete and share with neighbors will also be posted on SpeakUp page before 8 p.m.
