## WALSH BOAT LANDING PUBLIC MEETING

*Your input is needed!*

The Austin Parks and Recreation Department is seeking input on future changes at Walsh Boat Landing, which is a concrete boat ramp on Lake Austin. Capacity issues at the dock have created the need to look at how access at the dock can be safely and efficiently managed for all dock users.

The second public meeting, several focus group sessions were previously held with public and commercial stakeholders on the issue of space and access at Walsh Boat Landing. The goal of these meetings was to find a way to provide equal and efficient access at the dock for all of our users.

At this time a conceptual site plan has been created as a solution to capacity issues identified at the dock. The purpose of this meeting is to present the findings from phase one and gain input on the proposed site plan.
