

# ZILKER PARK

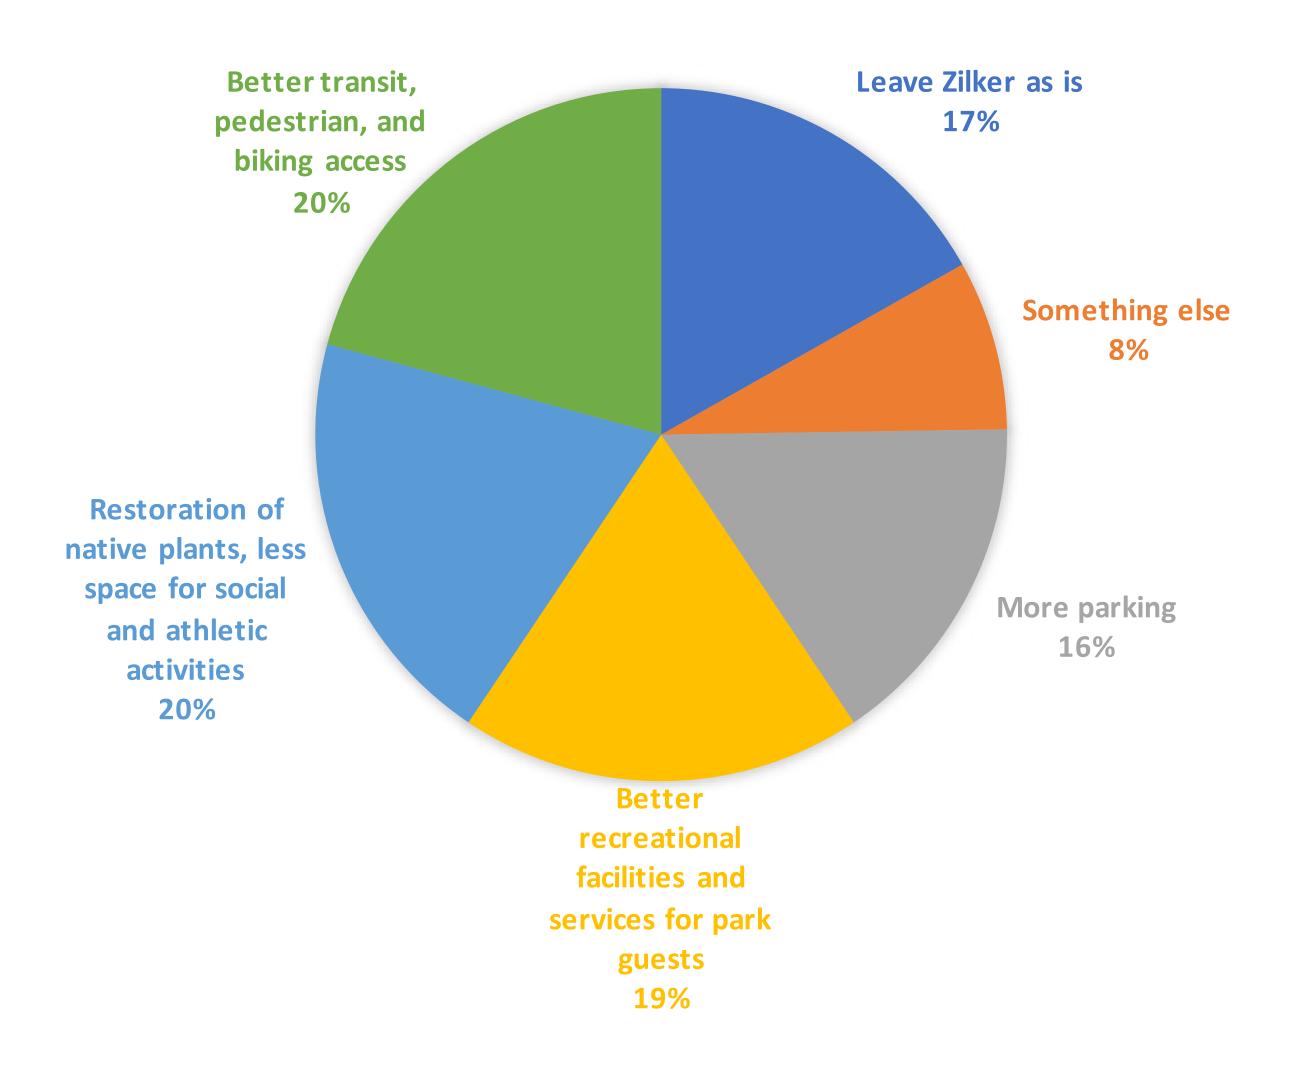

# Notley/Monitor Poll: Austinites can't agree on greatest park challenges or solutions

WEDNESDAY, FEBRUARY 15, 2023 BY NINA HERNANDEZ

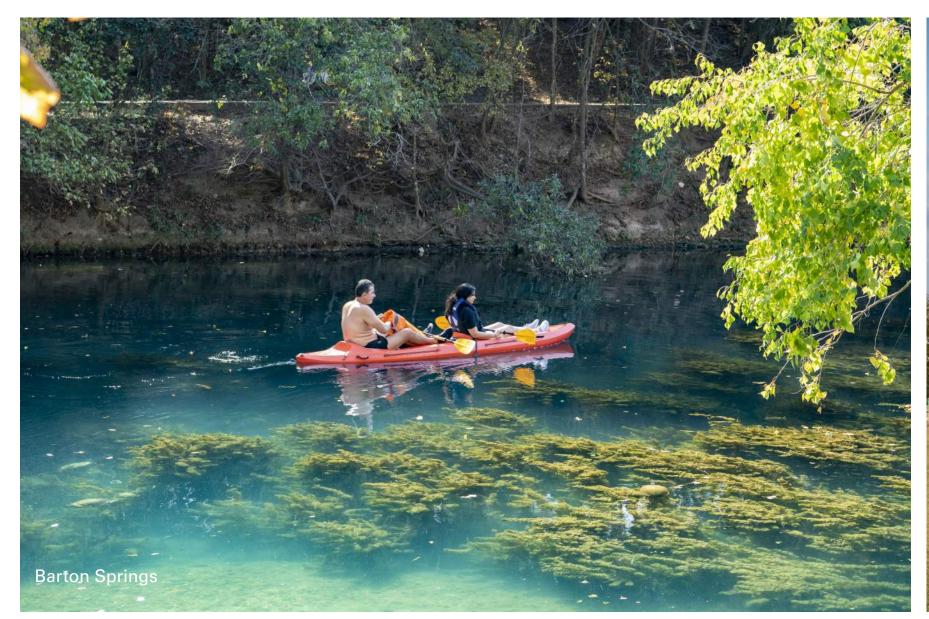

Austin residents regularly use city parks but are divided over how they should be maintained, according to a January/February poll of 429 voters commissioned by Notley and conducted by national pollster Change Research for the Austin Monitor.

The poll comes as Austin leaders continue to focus on parks and open space and projects like the Texas Capitol Complex and the Waterloo Greenway, and as the city considers its role in the Interstate 35 Capital Express project. The city is working with the Texas Department of Transportation to incorporate open and park space into the designs for the section that will run through Austin.

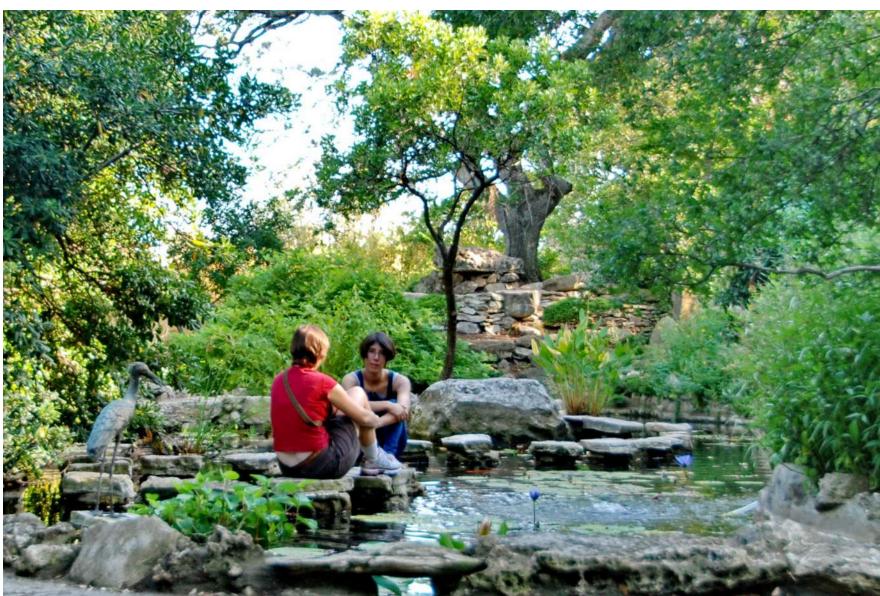

Zilker Park is undergoing a planning process called the Zilker Metropolitan Park Vision Plan. What do you think is the most critical improvement that can be made to Zilker Park?

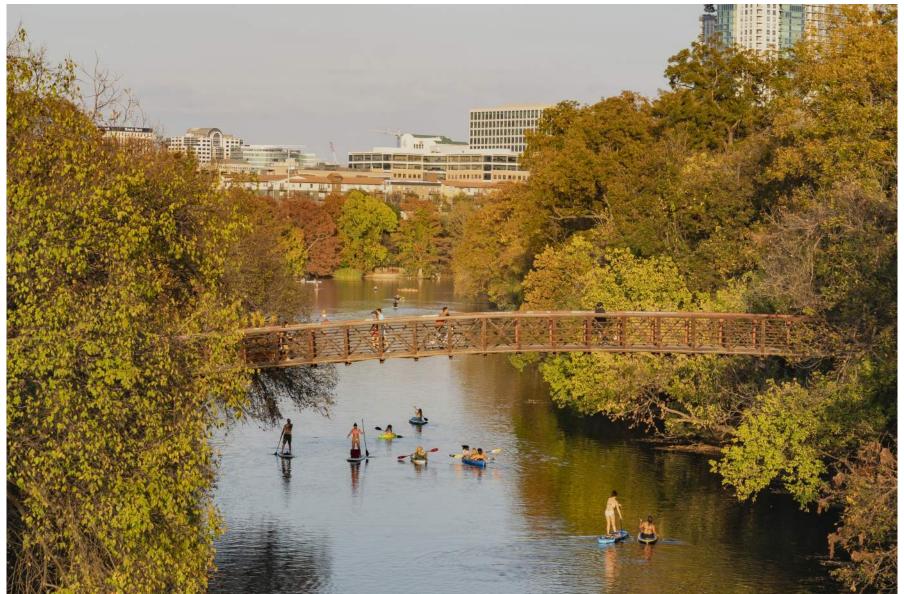

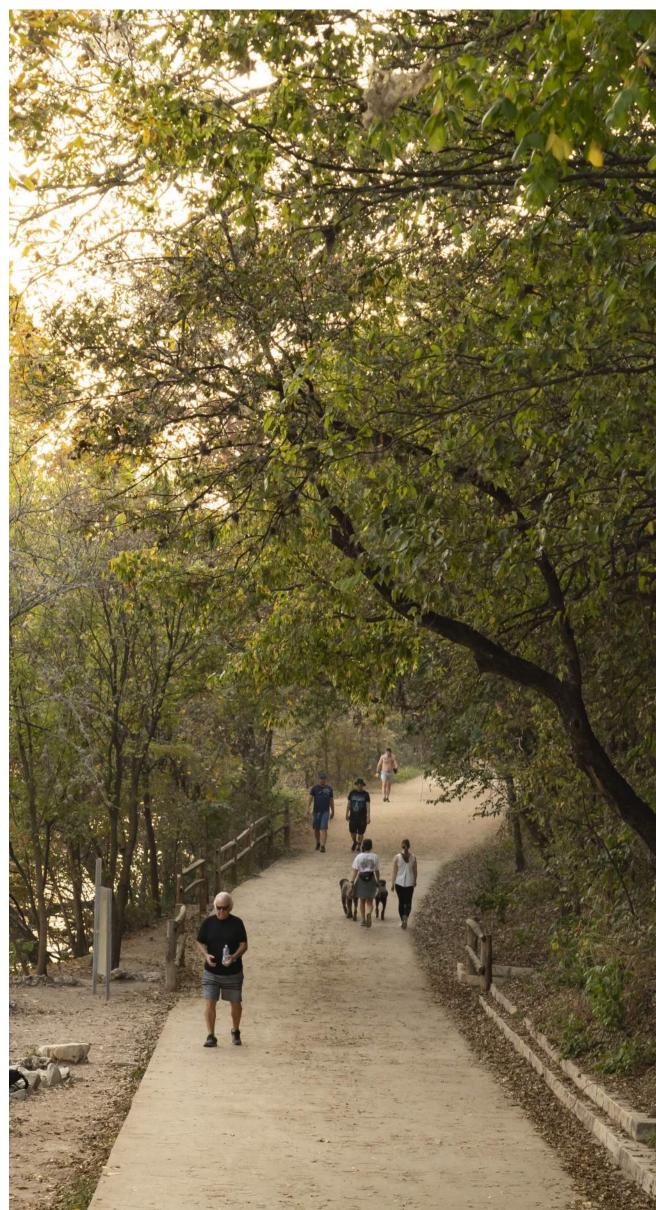

# ZILKER PARK: AN AUSTIN TREASURE

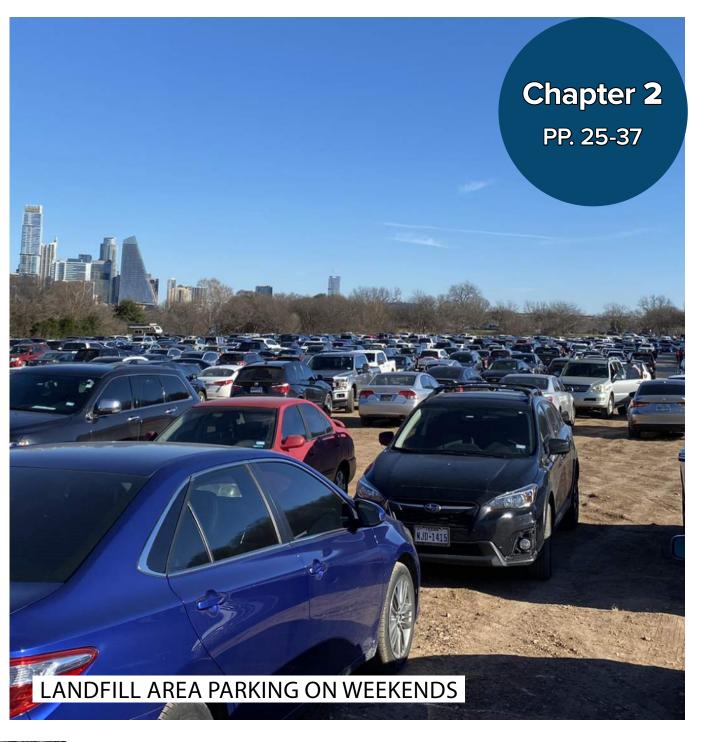

# CALL TO ACTION

History and Culture

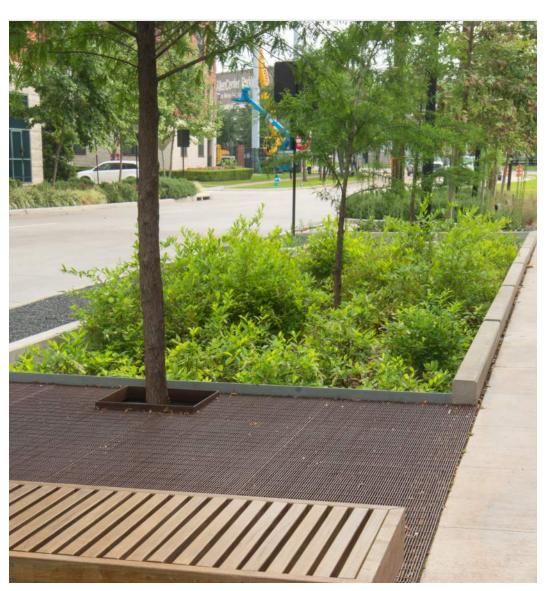

#### WHAT ABOUT CAPACITY?

There is often concern about reducing the capacity of a four-lane undivided roadway in half by converting it to a two-lane with a turn lane cross section. Practitioners have found some cases of the four-lane undivided road operating as a de facto two-lane with a turn lane roadway due to turning movements and driver behavior. Therefore, the effective capacity reduction is much less than the theoretical reduction assumed before implementation.
