

Q1 What are your first impressions of the draft Brush Square Master Plan?

Answered: 62 Skipped: 7

#	RESPONSES	DATE
1	I love the idea of preserving the fire station... I have an special story there, my first new year with my husband in this city we took the train to downtown and we received 2014 with a kiss just in front of that fire station.	12/1/2018 2:38 AM
2	Brush Square Master Plan Phase 2 is significantly better than Brush Square Master Plan Phase 1. It is important the city moves quickly out of Phase 1, so everyone can access the park. I love the inclusion of the band shell, and I hope the city puts it to good use. I think there should be a few more trees on the festival lawn to help with shade in the summer.	11/29/2018 10:44 PM
3	Ambitious, particularly eliminating the fire station/parking lot	11/27/2018 2:46 PM
4	I like. Glad the fire station building will be purposed.	11/20/2018 11:41 PM
5	very urban, not reflective of Austin's natural environment	11/20/2018 9:44 PM
6	I like it very much	11/19/2018 9:58 AM
7	Beautiful way to maximize the spaces potential to improve the area, and downtown in general.	11/15/2018 1:59 PM
8	I like it all	11/15/2018 1:48 PM
9	We have got to get rid of that parking lot on Brush Square.	11/14/2018 8:34 PM
10	I would definitely visit.	11/14/2018 8:33 AM
11	Does the Phase 1 parking lot need to be that large?	11/13/2018 12:08 PM
12	I am worried the bathrooms might not be opened 24/7	11/13/2018 9:34 AM
13	Amazing. More park space, more integration with the 4th street plaza, more space for PEOPLE rather than cars - I love it.	11/13/2018 9:31 AM
14	At first, I questioned the parking lot existing, but its removal in phase 2 seemed like a good answer. This looks great. Making these original small parks really wonderful is a great way to celebrate and stay connected to Austin's history.	11/13/2018 9:23 AM
15	Some of the forms seem trivial. Putting water features in a park is not wise. A water wall under a heritage tree, within the CRZ is not practical- in fact it is a very bad idea. How are the heritage trees being addressed? I recall one of them has a crack and needs supporting. Will the DAA also maintain this park?	11/13/2018 7:35 AM
16	There is a lot going on in a small space. I do like the intentions laid out in this plan for full utilization of the park.	11/12/2018 12:00 PM
17	Option 1 is better. The fire station needs to stay where it is.	11/10/2018 9:01 PM
18	Nice	11/10/2018 8:00 PM
19	I love it! I am excited.	11/9/2018 12:53 PM
20	I wish there was more features for children - the water feature in phase 2 is great but phase 1 has nothing new to offer beyond what is already there today.	11/9/2018 12:19 PM
21	Love it; seems like it will make great use of the space. Looking forward to Phase II completion!	11/8/2018 6:58 PM
22	I think both phases are practical and serve the identified needs of the community. I feel that the parking area for the fire department has expanded in phase I and wonder if that is necessary. Based on some common standards for parking lot design a maximum width needed for 90 degree stalls and 2-way traffic in the aisle is 58 feet. This could free up approximately 50' more space in the event lawn of phase I while maintaining the same amount of parking within the station.	11/8/2018 12:50 PM

Brush Square Master Plan Final Survey

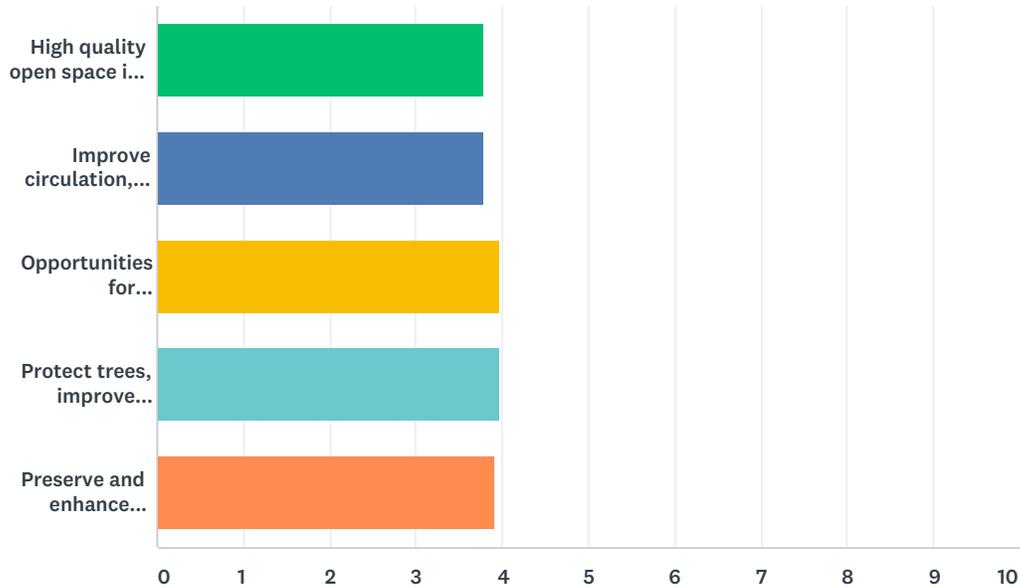

23	Don't waste money on underground parking. the money would be better used towards building a new fire station so Phase II can be built.	11/8/2018 9:01 AM
24	I am pleased to see so many amenities in one park, yet it seems spacious, not overcrowded. I am also very, very pleased to see that there are plans in future phases to move the parking lot and use that space for the public!	11/8/2018 8:41 AM
25	I am glad the cut is saving the fire station and other historic structures.	11/7/2018 11:01 PM
26	A bunch of features that will rarely or ever be used.	11/7/2018 9:40 PM
27	Phase 2 is very exciting. I'm a fan.	11/7/2018 6:58 PM
28	There is a lot of stuff crammed into a small space...a lot of fussy features that will require a lot of maintenance.	11/7/2018 4:38 PM
29	nice use of space. hurry up and complete the restoration of a rare park in downtown	11/7/2018 3:54 PM
30	The city of Austin should spend their money helping eradicate the homeless population in the area first. I would never visit the area for that reason. I don't feel safe there at all	11/7/2018 12:11 PM
31	The 4th St. Plaza and water features are great additions to the square, and the overall plan is excellent.	11/6/2018 9:33 PM
32	I think it is well thought out and a good use of the space.	11/6/2018 2:28 PM
33	i like it.	11/6/2018 2:09 PM
34	It needs more seating	11/6/2018 10:41 AM
35	that's a big parking lot at the fire station. Great to have all that GREEN in the city. I like the event lawn and the idea of music or shows there.	11/6/2018 9:29 AM
36	please leave it the way it is	11/6/2018 8:44 AM
37	It's nice but a bit bland, there's no feature that really draws a pedestrian into the space.	11/6/2018 8:34 AM
38	Awesome!	11/5/2018 4:10 PM
39	Don't think visitor's center is necessary - rather see more green space	11/5/2018 3:36 PM
40	Don't like it. Too pat, too glitzy, just plasticized impersonal design which ignores Austin as she has always been. Why spend public tax money on architect "concepts"? Ask native Austinites (not newcomers, who have no idea of what Austin is or how she has developed) what should and should not be done here on the Square. This silly little plan tries to make Austin like Houston or Dallas, who have already been plasticized.	11/5/2018 3:13 PM
41	Since downtown Austin only has 3 public squares, and only 1 on the Eastern side, I think this plan lacks ambition. Besides new grass, walk ways, and a stage that will be used occasionally, what interactive features will activate this park besides the occasional performance on the stage? What would draw young families with kids? What would draw tourists? Austin should strive for something amazing and spectacular, like the Nice France's "Promenade du Paillon" that draws tons of life & tourists. Or the amazing "Maggie Daley Park" in Chicago's Millennium Park. Or San Antonio's Hemisfair Park Playground with CommonWealth coffee occupying historical old house.	11/5/2018 2:43 PM
42	I love the connectivity and open sight lines below the trees. The festival lawn looks useful, but being downtown and hot, I would love additional trees on the perimeter so folks could get shade and still see the action.	11/5/2018 2:38 PM
43	Positive - very glad the museums are not going to be moved. Unsure about building out the Fire Station as Phase II disassembles it and parking lot.	11/5/2018 2:34 PM
44	We need to keep the fire station in place, renovate the station, and add underground parking and underground visitor's center	11/5/2018 10:02 AM
45	I thank it is great	11/4/2018 10:04 PM
46	I love it, this is exactly what Brush Square needs. Can't wait for Phase 2 when the historic fire station becomes a cafe and visitor center!	11/4/2018 11:02 AM
47	Not impressed that the park is not prioritized. There is no reason that the parking cannot be removed in phase one. There are hundreds of city owned parking spaces within blocks, an easy walking distance.	11/4/2018 10:04 AM
48	I like the phase 2 plan to replace the surface parking lot with green space.	11/4/2018 9:17 AM

Brush Square Master Plan Final Survey

49	Wonderful! Great reimagination of the space.	11/2/2018 3:50 PM
50	How long until the fire station can be moved?	11/2/2018 2:31 PM
51	It looks and feels exactly like Republic Square and that is not good. Austin is a city of individuals - please give Brush it's own identity!	11/2/2018 1:46 PM
52	Poor. Strongly against the idea of concept 2. Concept 1 seems unnecessary.	11/2/2018 11:48 AM
53	It is a spectacular people-oriented park! The art sculptures are extremely important, and the terraces and planting areas make it wonderfully appealing!	11/2/2018 11:28 AM
54	Phase II looks good. Phase I has too much parking. Need more shade in the festival lawn area.	11/2/2018 10:19 AM
55	well thought out, good planned use of the space	11/2/2018 9:11 AM
56	I am very glad to see the use of the space for seating while allowing for a large grassy area to remain for waling pets. I am even more excited to see water features as part of the plan. I am disappointed to see a "Band Shell". There are four event centers, a hotel and a convention center along with hundreds of bars for music. This park does not need to be an entertainment venue. It is a neighborhood park.	11/2/2018 7:41 AM
57	Well done. Good mixture of shade, art, nice walking paths and flexible event space for programming.	11/1/2018 6:16 PM
58	Fantastic! The location is perfect for a public restroom and the bandstand is a great idea.	11/1/2018 4:52 PM
59	I am so glad you are getting rid of the parking lot. thank you. And re purposing the old firehouse is great and removing the annex is also welcome. thank you.	11/1/2018 4:14 PM
60	Very thoughtful layout and design. The illustrated views have a similar style to Republic Square and it would be better if the signage and other features have it's own Brush Square identity, that is different. Not branded to be the same.	11/1/2018 3:51 PM
61	Postive. I like keeping the fire station in current location.	11/1/2018 2:53 PM
62	Parking in Phase 1 is still a bummer, Phase 2 can't come soon enough!	11/1/2018 8:54 AM

Q2 How well does the preferred concept achieve the design principles for the Brush Square Master Plan?

Answered: 65 Skipped: 4

	DOES NOT ACHIEVE THE DESIGN PRINCIPLE	PARTIALLY ACHIEVES THE DESIGN PRINCIPLE	MODERATELY ACHIEVES THE DESIGN PRINCIPLE	ACHIEVES THE DESIGN PRINCIPLE WELL	PERFECTLY ACHIEVES THE DESIGN PRINCIPLE	TOTAL	WEIGHTED AVERAGE
High quality open space in befitting historic stature	6.35% 4	6.35% 4	15.87% 10	46.03% 29	25.40% 16	63	3.78
Improve circulation, pedestrian experience, reduce parking lot impact	7.81% 5	10.94% 7	10.94% 7	35.94% 23	34.38% 22	64	3.78
Opportunities for celebrations and more day-to-day uses	7.69% 5	4.62% 3	9.23% 6	38.46% 25	40.00% 26	65	3.98
Protect trees, improve ecological health and beauty	9.52% 6	0.00% 0	9.52% 6	46.03% 29	34.92% 22	63	3.97
Preserve and enhance existing museums and provide new programming	6.25% 4	6.25% 4	14.06% 9	37.50% 24	35.94% 23	64	3.91

Q3 What features of the Brush Square Master Plan do you like or dislike? Are there park amenities you wish were included?

Answered: 62 Skipped: 7

#	RESPONSES	DATE
1	I would like one or two towers (the towers are fitted with solar panels, hanging gardens and rainwater catches and display plants from across the globe.)on each side of the band shell like an small version of the Gardens By The Bay Park in Singapore so melts with the natural trees and I can imagine during shows they can play with the lights of the towers... but they suppose to be solar.	12/1/2018 2:38 AM
2	I dislike the parking lot in Brush Square Master Plan 1. I hope the city proceeds speedily towards Brush Square Master Plan 2. We do not need to give up park space to cars.	11/29/2018 10:44 PM
3	Like: pathways, protecting trees, water wall, seating dislike: parking lot and west side of park still seem disjointed Amount of seating area unclear - need to be places to sit and tables for eating, etc.	11/27/2018 2:46 PM
4	i like all the design principles. I especially like the focus on more day to day use focus. Lacking park amenities - 1. bike parking? - 2. Educational or historical signage, it seems like a good location with all the potential convention center traffic. -3. Infrastructure for food vendors	11/20/2018 11:41 PM
5	parking lot needs to go in phase 1. public bathroom is nice	11/20/2018 9:44 PM
6	I like the circulation, I like the tree preservation, the children's area, the preservation of the historic structures and compliments to them	11/19/2018 9:58 AM
7	The only issue would be phase one not having as much green space due to the parking lot, but as long as phase two happens thats not a big deal in the long run.	11/15/2018 1:59 PM
8	It is a great design	11/15/2018 1:48 PM
9	I don't like how the parking lot is being removed in Phase 2. It should be removed in Phase 1! Also, I think there are too many structures on the park. The smaller structures should be moved.	11/14/2018 8:34 PM
10	A cafe or food court/trailers.	11/14/2018 8:33 AM
11	It's wonderful having so much green space in the middle of this high-pedestrian-traffic area.	11/13/2018 12:08 PM
12	24 hour bathrooms	11/13/2018 9:34 AM
13	Lots of place to sit! More benches, more tables, the better!	11/13/2018 9:31 AM
14	A few play features focused on kids might be nice. Not a full-on playscape, but just some installations that subtly imply that kids should play in that area and to spur imaginative play along with universal things like sticks or whatever. I'm not sure about the museums or what's cool about them. I've lived here my whole life and never been. Some way to help visitors understand why they might want to go into one of the museums would be cool.	11/13/2018 9:23 AM
15	I understand the schedule of the rail station upgrade is driving this study but it seems shortsighted to improve the park before the parking lot can be removed. Why spend so much to improve the park now when the real impact is not realized for a number of years. It would seem more prudent to 1) fix the edges of the park - this is mostly a great street challenge 2) implement a tree care program for the heritage trees and 3) implement a lawn care program that makes what we have functional, in the interim. Doing water features in a park - especially a park that is historic, has a history of low maintenance and where fountains (without identifying a source of reclaimed water) fly in the face of Austin's wise water program.	11/13/2018 7:35 AM
16	There doesn't seem to be seasonal planting areas for plant color, insect habitat and migration, etc.	11/12/2018 12:00 PM
17	That the fire station doesn't move.	11/10/2018 9:01 PM
18	Like the visitor center and café; unsure about the band shell as we already have heavy use of the square planned without another outdoor music venue.	11/10/2018 8:00 PM
19	I love everything.	11/9/2018 12:53 PM

Brush Square Master Plan Final Survey

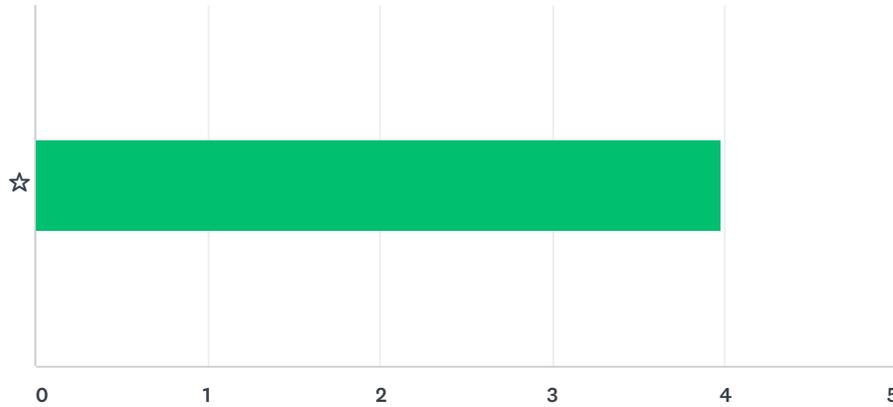

20	Children play feature (doesn't have to be a typical playscape) but something for them is needed. The large open lawn area will probably be empty most of the time (seems solely included for events which is a very limited scope). Its also too bad the historic homes are limited to stay where they are. At the very least it would be nice to move the O. Henry closer to 5th street to align with the other buildings and create a more open opportunity within brush square.	11/9/2018 12:19 PM
21	I love the great lawn/band shell that will be coming during phase 2, and I like the layout and forthcoming art installations.	11/8/2018 6:58 PM
22	I would like to see, in final site plans and built environment, a dedicated load-in path with reinforced turf to allow for moderate staging and equipment load-in.	11/8/2018 12:50 PM
23	Move the active fire station, keep the fire museum.	11/8/2018 9:01 AM
24	I like that there will eventually be a water feature, but I would like to see it added as part of Phase 1. A water feature - a splash pad-type amenity that can help cool us down - would be perfect. It could also be aesthetically pleasing.	11/8/2018 8:41 AM
25	I like the bandshell and rehabilitated station.	11/7/2018 11:01 PM
26	It's intended for tourists, not the many locals that live nearby. Dogs and homeless are the biggest current users. The homeless will be sleeping in and peeing in the bandshell that will be used once a year, if that, a during SXSW. Dogs and their many taxpaying owners get nothing.	11/7/2018 9:40 PM
27	I like the effort to preserve trees and the large lawn. Not too sure about the features such as water feature, water wall, seat wall, band shell. All of these will require funds to maintain. Seems like the department is already strapped for funds for maintenance.	11/7/2018 4:38 PM
28	turn the fire station into a cafe and outdoor. visitor centers are worthless. They are usually full of brochures and garbage. no one uses visitor centers anymore. study midtown park and market square park in houston for urban parks with concessions and al fresco restaurants.	11/7/2018 3:54 PM
29	The Fire Department station is a historic site but you are eliminating that building in lieu of another historic building that you moved to the site. Nice move!	11/7/2018 12:11 PM
30	I think it would be super cool to incorporate palm trees into at least one of our parks. They add a really interesting aesthetic and something we don't have at any of our parks at this time. Especially around the water feature! In addition to this, perhaps some shaded tables or benches.	11/6/2018 2:28 PM
31	visitor center, great lawn and band shell	11/6/2018 2:09 PM
32	More stuff for children like at Klyde Warren Park in Dallas	11/6/2018 10:41 AM
33	hopefully, there will be a bathroom! Will there be a place to buy food or drinks?	11/6/2018 9:29 AM
34	please leave it the way it is it is perfectly fine and has been that way for decades	11/6/2018 8:44 AM
35	The visitor center doesn't seem very well tied into the main open space. Would love to see some extended shade structures and landscaping that make that connection/transition more apparent.	11/6/2018 8:34 AM
36	I think the phased changes are brilliant.	11/5/2018 4:10 PM
37	delete visitors center - more green picnic space and small vendors.	11/5/2018 3:36 PM
38	We do not need "amenities". Just space and for cat's sake leave rhe historic character of the square alone. It is a 19 th century concept. Leave it be.	11/5/2018 3:13 PM
39	Like: Improved walkways if I'm passing through park. Dislike: there is nothing to make me go out of my way to go here -- I would drive all the way to San Antonio just to hang out at Hemisphere Park, but even though I work only 1 block away i don't see many things to make me want to walk to this square. I would like something for families (splashpad, playground, ...), convert the historical fire station into a food artisan market (think The Source in Denver), and some public art that is engaging (think The Bean in Chicago) and encourages a central point where people can interact	11/5/2018 2:43 PM
40	Restrooms for public? More seating opportunities, even seat walls (may be plenty, hard to tell). What purpose does the plaza serve? Fire access? Would it be shaded by the convention center? Seems it would be hot.	11/5/2018 2:38 PM
41	Keeping the fire department in Phase I. If it is ultimately going to be moved - then seek to move earlier?	11/5/2018 2:34 PM

Brush Square Master Plan Final Survey

42	I like the shaded paths to cut across the block diagonally. I like the water feature for phase two. I'd like seating area to include tables for picnics, etc. I'd like to know what lighting will be in the space at night. I think for summer heat, electricity outlets to later on install fans/misters would be ideal. Important to design a park that people want to use in summer.	11/5/2018 2:06 PM
43	We need to keep the fire station in place, renovate the station, and add underground parking and underground visitor's center	11/5/2018 10:02 AM
44	Tables and chares or Benches.	11/4/2018 10:04 PM
45	The ultimate creation of a bandstand and great lawn is a perfect addition to Brush Square. I like the idea of a water wall to create soothing background noise in the downtown environment. The deck around the trees obviously reminds me of the one in Republic Square and that works very well, so I was happy to see one implemented in the Brush Square plan.	11/4/2018 11:02 AM
46	Eliminate parking in phase one. Those people can walk a couple of blocks from existing city parking structures (convention center).	11/4/2018 10:04 AM
47	I like additional green space.	11/4/2018 9:17 AM
48	Play area for kids!	11/2/2018 3:50 PM
49	Public rest rooms	11/2/2018 2:31 PM
50	The fire station currently appears to have room for expansion. I'd preserve that.	11/2/2018 2:24 PM
51	The more we can do to lessen the impact of the parking lot, the better. I would also welcome the green space being extended into the plaza (former street).	11/2/2018 1:22 PM
52	I don't like any of the proposed changes. Outside of the drug users and transients, I think that the park in its existing condition is fine.	11/2/2018 11:48 AM
53	I very much like the wall seating spaces and the elevated seating areas.	11/2/2018 11:28 AM
54	It's beautiful but this is the park we most frequent take our dog so an enclosed section for dogs to be off leash would be ideal.	11/2/2018 11:23 AM
55	More shade in the lawn area. Parking should be minimized. I don't know what those museums contain, but I don't think they have many visitors. I like the history of the buildings, but maybe Parks Dept. could add more exhibits. Otherwise, it looks good, pretty.	11/2/2018 10:19 AM
56	Like the water features. Like the walkways with access making it more inviting. I hope the water features are a place for kids to play. This park needs amenities for kids. It does not need a band shell.	11/2/2018 7:41 AM
57	Could the side walk along 4th be a little more shaded? Maybe a little more interesting with seating like they are trying to do congress. Will there be food trucks that permanently can park themselves in the park?	11/1/2018 6:16 PM
58	The moments of shade, open space and public/private programming - love it all!	11/1/2018 4:52 PM
59	I would love to see the planting of another heritage tree with enough room to grow and provide some shade - maybe the southwestern corner?. If there's anything that can be done with the back side of the band shell - like a mural or light feature, that would also be welcome. Also - I hope that the cafe in the old firehouse is not just an afterthought to the visitor's center but a place that Austinites would like to go to.	11/1/2018 4:14 PM
60	It's hard to tell what the "play area" would include. But this is important to have fun spaces for children in this park.	11/1/2018 3:51 PM
61	I like keeping the fire station, having a water feature. I like placement of rest rooms on Trinity in concept one. I do not like having a band shell.	11/1/2018 2:53 PM
62	Maybe simpler park renovations (fewer water features that might not be maintained). Cafe is great and lawn would be wonderful.	11/1/2018 8:54 AM

Q4 The report provides future programming ideas based on public feedback for adapting the historic fire station building should the station itself be relocated in the future. These ideas include a visitor center with a cafe and public restrooms. Do you agree that these would be good uses for the historic fire station building in the future?

#	RESPONSES	DATE
1	I'm agree with the project if and only if they conserve the integrity of the fire station building.	12/1/2018 2:38 AM
2	I cannot wait to use this park. I look forward to it's unveiling.	11/29/2018 10:44 PM
3	strongly agree the parking lot and fire station should be relocated, but should not delay phase 1 park improvements	11/27/2018 2:46 PM
4	If fire station building does become visitor center/cafe/public restrooms, then it will be important for it to equally address both the sweet and the park.	11/20/2018 11:41 PM
5	clearly is not a park for Austinites they cannot get there on public transportation easily. But those from Leander and take the heavily subsidized commuter train	11/20/2018 9:44 PM
6	Thank you for a tasteful, place based plan	11/19/2018 9:58 AM
7	None to add thank you	11/15/2018 1:48 PM
8	Will the festival lawn/museum plaza be available to rent?	11/14/2018 8:33 AM
9	Please just keep the bathrooms open for the homeless people and runners	11/13/2018 9:34 AM
10	Please reclaim MORE city space / streets and continue to plant trees to reduce heat island effect. Shadier places in the summer make a huge difference! Also for the structures in the park, it may be best to orient them with the prevailing winds and create a sunken space between them to create a dogtrot. Free air conditioning!	11/13/2018 9:31 AM
11	I would love it if the café idea for after the fire station moves would be something local and ideally not-for-profit. Or maybe if it made a profit but donated them to local charities supporting social justice. I super wouldn't want it to be a Starbucks.	11/13/2018 9:23 AM
12	Who is going to fundraise this park? Republic sq was only possible with nearly 5millikn raised by APF yet this park is not on the long range plan for APF. Pard cannot even fund completion of projects such as Duncan park so what is the strategy to fund this park? Who is paying for the O&M. Has anyone addressed whether having the ohenry house and the other relocated house on this square is the best course of action for the future vision of the square? The squares are a vital visual representation of what austin presents as a city. Brush, moreso than any of the other squares should be a celebration of gathering and arrival to the city. I question whether relocated houses should trump a green space that exemplifies Austin's core values of urban ecology, sustainability, the role and importance of the urban forest and, given the proximity to the convention center, the role and importance of gathering - music - public activities. It will be vital to plan this park with a legitimate plan and timeline for moving the fire station. If this cannot be done then I recommend just maintaining the existing park better and allocating resources to one of the countless other "shovel ready" or master planned projects that are less incumbered and or unfunded.	11/13/2018 7:35 AM
13	The bandstand may be an empty place when it is not programed. There needs to be thought about how this shell is part of the daily experience of the park.	11/12/2018 12:00 PM
14	In addition to minimizing the parking area and opening up ~6000 square feet of open space, adding a reinforced turf load-in path I would like to see utilities relocated and some consideration for event services - specifically waste mgmt and additional power (generator) - which is currently difficult for events of any moderate size.	11/8/2018 12:50 PM
15	Keep the Fire Museum as part of the visitor center	11/8/2018 9:01 AM
16	Thank you for your wonderful work!	11/8/2018 8:41 AM
17	no visitor center. look at the wasteful televisions installed at the convention center. this stuff sounds good on paper but never translates into reality.	11/7/2018 3:54 PM

Brush Square Master Plan Final Survey

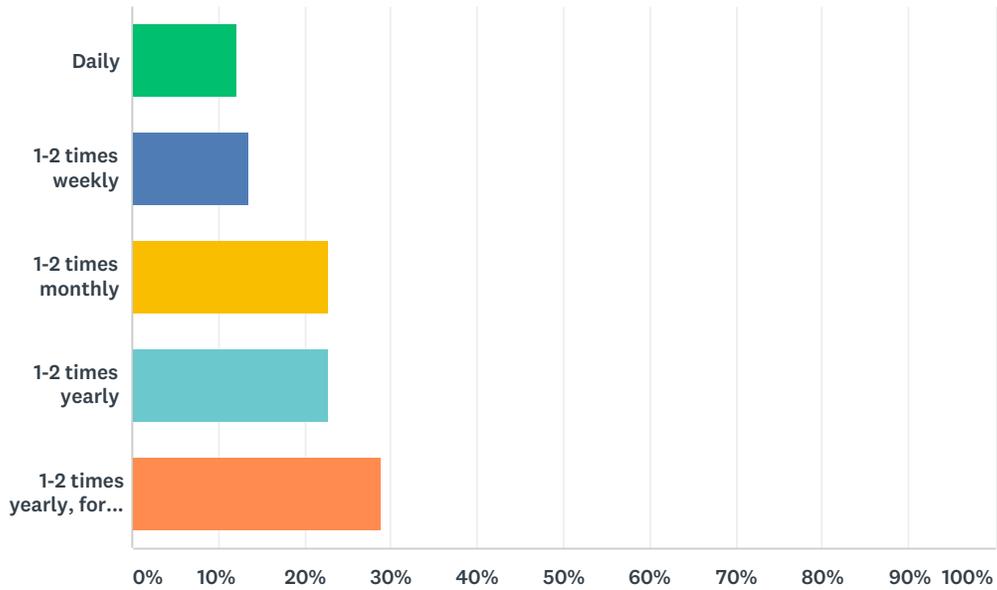

18	Until the station is relocated there should be a snack shop/public restrooms included on the site to make it welcome and encouraging for people to hang out in the space.	11/6/2018 8:34 AM
19	move fire station and then let that be the public restroom area	11/5/2018 3:36 PM
20	I really do not know from which planet you backers hail.	11/5/2018 3:13 PM
21	I want my hometown of Austin to have a spectacular public space that would be on the top of my "you have to go here" if you visit our city. No trip to Chicago would be complete without visiting Millennium Park. With the convention center next door & tons of tourists in this area, let's make Austin public spaces astounding. If the budget for this project is not enough to do more, maybe private donors, or make use of the Hotel Occupancy Taxes (HOT) to improve something that is easily demonstrable tourists would use. If we can elevate this space, and elevate the experience along Waller Creek, the vibrancy of the space between Rainey & 6th Street will be greatly improved. Let's think big!	11/5/2018 2:43 PM
22	Great work. The design doesn't seem "historic" but seems very functional for today's needs and uses.	11/5/2018 2:38 PM
23	There is the visitor center a few blocks away at 4th/Red River. I would want another visitor center here. It's be a better community center. A place to rent out for events. I do feel a coffee shop would be great. I'm thinking of San Antonio's CommonWealth coffee area by Hemisphere Park. I love that space. Very lively, community and kid focused. Use as inspiration!	11/5/2018 2:06 PM
24	We need to keep the fire station in place, renovate the station, and add underground parking and underground visitor's center	11/5/2018 10:02 AM
25	Don't tank forever finishing it wants you start it finish it don't take forever like they did on Republic Sq. park.	11/4/2018 10:04 PM
26	The sooner the better on this! My only additional feedback is adding some kind of monument to the O Henry Pun Off. Perhaps a statue of O Henry with a plaque on the base listing the names of the annual champions.	11/4/2018 11:02 AM
27	Insurance programming is always open to the public. Do not use this park as extension of convention center that can be rented for private events. Would the proposed visitor center relocate the existing facilities? No reason to duplicate this.	11/4/2018 10:04 AM
28	Downtown needs more green space so implementing phase 2 elimination of surface parking lot should be a priority.	11/4/2018 9:17 AM
29	Would love to see the fire station relocated!	11/2/2018 3:50 PM
30	Public restrooms will attract the homeless.	11/2/2018 2:31 PM
31	Public restrooms appeal in the planning but are maintenance nightmares, honey to drug addicts and prostitutes. Don't go there.	11/2/2018 2:24 PM
32	Make sure the 'band shell' is a flexible space that can be used in a variety of ways.	11/2/2018 1:46 PM
33	I'm not sure a visitor's center really adds much value. Is there a better use for the indoor space?	11/2/2018 1:22 PM
34	You have an Austin Visitors Center two blocks away at 4th and Red River! Who would go to a cafe inside a visitor's center when there is already an abundance of quality cafes in the area? Leave Brush Square and the FD alone. All of the ideas presented are of poor thought and quality.	11/2/2018 11:48 AM
35	I would like to see the fire station preserved with a portion of it devoted to an historical pictograph of Austin's past fire stations and rolling stock.	11/2/2018 11:28 AM
36	We would really like to have a place to let our dogs off leash to play and do their business!	11/2/2018 11:23 AM
37	Public restrooms a good idea, but they need to be kept clean. Ensure safe pedestrian crossing of the streets around the square.	11/2/2018 10:19 AM
38	Whatever is done, there needs to be sufficient resources dedicated to ensuring public safety and security in and around the park. This cannot be a homeless magnet	11/2/2018 9:11 AM
39	The historic fire station could make a great museum for kids with an Austin gift shop or the ACVB using this to kick off tours.	11/2/2018 7:41 AM

Brush Square Master Plan Final Survey

40	If we get to the point of using the firestation, I suspect it's big enough for a visitor center and maybe an art collaborative- shopping experience. If the Visitor Center does move from 4th street, we need a street cut out or organized staging area for all the ground tour operators such as the ducks, Austin Detours, double decker bus, etc.	11/1/2018 6:16 PM
41	Keep up the good work!	11/1/2018 4:52 PM
42	Improving the area between the historic homes and 4th street might be nice. It's pretty ugly right now. Maybe a little bit of information or interpretation of the old railway and market that used to be next door?	11/1/2018 4:14 PM
43	Great job, thanks!	11/1/2018 8:54 AM

Q6 How often do you visit Brush Square?

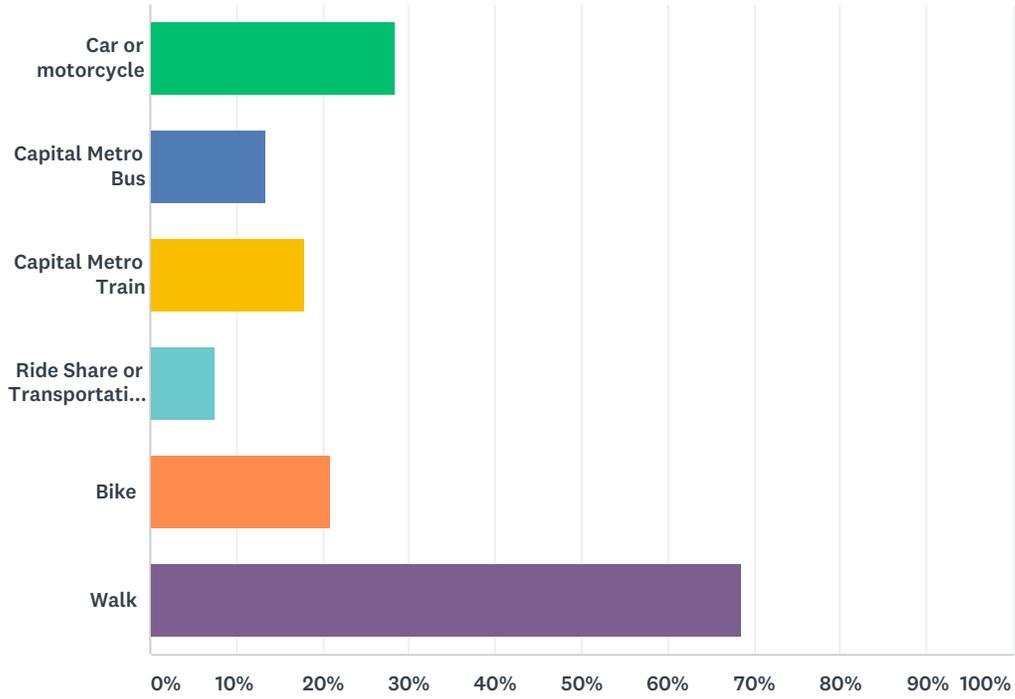

Answered: 66 Skipped: 3

ANSWER CHOICES	RESPONSES	
Daily	12.12%	8
1-2 times weekly	13.64%	9
