

## General Comments on Transect area for Travis Heights area

Hello,

Recently learned about the changes that are up for vote today I believe. These comments are for the Travis Heights neighborhood that will be impacted by the transect area code.

This will destroy the neighborhood of Travis Heights which is one of the oldest neighborhoods in Austin. It multiple housing units are able to go on one property what will happen to neighborhood feel, there will not be one in this area.

A multiple housing structure is already going up on Woodland and I-35 which is enough for this neighborhood to hold.

Please preserve this neighborhood and don't destroy it by turning it to multiple condos.

Kind regards,

Maria Mangiardi
