

Site Inspections^{1,2,3}

Friday, July 20, 2007

1. The timeline of this process differs depending on the contractor and the size of the project. It is not regulated by COA code.
2. In the case of site inspections, the environmental inspector takes the lead of the project due to the fact that more of the inspections involve the environmental aspect.
3. The tab used for any necessary testing is assigned by Public Works based on a rotation of available vendors.
