VETERANS' RESOURCES DIRECTORY

A City of Austin Veterans Program Initiative

To our National Guard Members, Reservists, Veterans and their Families,

This resource directory is a “road map” provided by the City of Austin Office of Civil Rights Veterans Administrator; it serves as a token of appreciation for the selfless service of all the men and women who have served in our nation’s armed forces. As a City and as a community, we want to continue to do our very best to support our service members; past and present. We are and will remain grateful to all service members for their honorable service to our nation and want to help make their re- entry into our community as effortless as possible.

We also hope this directory will assist employers, counselors, nonprofits and faith-based organizations serving our valuable veterans. This is just one aspect of our commitment shared by our national, state and local nonprofits to serve our Veterans, returning Service Members and their Families.

If you are having a crisis and in need of immediate help, please dial 988 as you are important to us.

We thank you for your service and to our partners, for your efforts.

Most respectfully yours,

Jesus T. Simental
City of Austin
Veterans Administrator

Disabled Veteran License Plates and Parking Placards

Disabled Veteran license plates feature "DV" as part of the license plate number.

To qualify:

- You must be a veteran of the U.S. Armed Forces, with a service-connected disability of at least 50 percent, or at least 40 percent due to the amputation of a lower extremity.
- You must be receiving compensation from the U.S. government as a result of such disability.
- Proof of eligibility may be provided with signed approval by the U.S. Department of Veterans Affairs on an [Application for Disabled Veteran License Plates and Parking Placards \(Form VTR-615\)](#), or a letter from Veterans Affairs stating eligibility.
- Texas cities may provide parking privileges, such as free parking at the airport. Check with your local city officials. For information about campus parking privileges, please contact the institution of higher education.

In addition to the Disabled Veteran plate, certain military honors license plates are also eligible for exemptions from payment of certain parking fees, including:

- Air Force Cross
- Air Medal
- Air Medal with Valor
- Army Distinguished Service Cross
- Bronze Star
- Bronze Star with Valor
- Congressional Medal of Honor
- Defense Superior Service Medal
- Distinguished Flying Cross
- Distinguished Service Medal
- Former Prisoner of War
- Legion of Merit
- Legion of Valor
- Medal of Honor
- Navy Cross
- Pearl Harbor Survivor
- Purple Heart
- Silver Star
- World War II Veterans

Once you have your DV plates, visit <https://www.txtag.org/txtagstorefront/en/registration> and request your TXTag. Your TXTag will work on other toll roads across Texas as well (Dallas, Houston, Tyler, Brownsville, and El Paso).

There are TWO main organizations that administer the fees (or, for disabled veterans, no fee/reduced fee) for the toll roads in Central Texas. When you enroll in the TXTag portal, and provide your DV plate number, it will allow you to drive on Loop 1, SH 45N, SH 45SE, and most of SH 130, however, the toll roads for 183A, 183 Toll, 290 Toll, 71 Toll, 45SW, and MoPac Express Lanes are administered by the Central Texas Regional Mobility Authority (CTRMA). So, when you have both your DV plates and your TXTag, visit their website at <https://www.mobilityauthority.com/veterans> and enroll with them as well. NOTE: The MoPac Express Lane is not eligible for the veteran discount program as price is determined by demand.

Blue Placard: Please review Texas SB792 that took effect January 1, 2022. A blue placard is required when parking in a handicap space if the handicap emblem is not on the plates. It's so easy – complete your portion of this form: Application for Disabled Veteran License Plates and/or Parking Placards (Form VTR-615) (txdmv.gov) and send as an attachment via secure message to your VA PCM with a note asking for the prescription for the blue placard, they will complete their portion and mail it to you. You then take that to your county office where you pay your vehicle registration, and they will issue your blue placard.

Veteran Affairs Health Care

With VA health care, you're covered for regular checkups with your primary care provider and appointments with specialists (like cardiologists, gynecologists, and mental health providers). You can access Veterans health care services like home health and geriatric (elder) care, and you can get medical equipment, prosthetics and prescriptions. Find out how to apply for and manage the health care benefits you've earned.

TRICARE

Health care program of the United States Department of Defense Military Health System.[1]

Tricare provides civilian health benefits for U.S Armed Forces military personnel, military retirees, and their dependents, including some members of the Reserve Component. Tricare is the civilian care

component of the Military Health System, although historically it also included health care delivered in military medical treatment facilities.

Website: <https://www.tricare.mil/>

CHAMPVA

Are you the spouse or surviving spouse of—or a child of—a Veteran with disabilities or a Veteran who has died? If you don't qualify for TRICARE (the Department of Defense's health care program for active-duty and retired service members and their families), you may be able to get health insurance through the Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA). Through this program, we cover the cost of some of your health care services and supplies. This is called cost sharing.

You may only be eligible for health care through CHAMPVA if you don't qualify for TRICARE and at least one of these descriptions is true for you.

At least one of these must be true:

- You're the spouse or child of a Veteran who's been rated permanently and totally disabled for a service-connected disability by a VA regional office, or
- You're the surviving spouse or child of a Veteran who died from a VA-rated service-connected disability, or
- You're the surviving spouse or child of a Veteran who was at the time of death rated permanently and totally disabled from a service-connected disability, or
- You're the surviving spouse or child of a service member who died in the line of duty, not due to misconduct (in most of these cases, family members qualify for TRICARE, not CHAMPVA).
- A service-connected disability is a disability that we've concluded was caused—or made worse—by the Veteran's active-duty service. A permanent disability is one that's not expected to improve.

Note: A Veteran who's the qualifying CHAMPVA sponsor for their family may also qualify for the VA health care program based on their own Veteran status. If 2 spouses are both Veterans who qualify as CHAMPVA sponsors for their family, they both may now qualify for CHAMPVA benefits. Each time they need medical care, they may choose to get care through the VA health care program or using their CHAMPVA coverage.

The CHAMPVA Supplemental Insurance Plan, when combined with your CHAMPVA benefits, is designed to provide you with the protection you need when you need it. The plan will pay your cost share for both covered inpatient and outpatient medical expenses after you satisfy the calendar year plan deductible of \$250 per person, \$500 family maximum. Heroes Below (Underwater Stress Reduction and Relaxation)

Heroes Below is not just a non-profit organization that provides underwater stress reduction and relaxation to Active Duty Military, Veterans, and First Responders in Central Texas; it is also a place to learn new skills, find camaraderie, healing, challenge, and excitement.

Through the experience of donning scuba equipment and going beneath the surface of the water, participants can experience a new world; one that offers new perspectives. The simplicity of the Heroes Below program is that you don't need to know how to swim because all we do is float.

Studies have confirmed that recreational diving appears to be greater than the practice of other sports in reducing stress and improving well-being. SCUBA has also been found to restore neurological and psychological function in paraplegics. The most striking impact was seen in PTSD symptoms, which decreased by 80 percent.

How Can I Be Part of Heroes Below?

Heroes Below is a COST-FREE program offered in Central Texas to all Active Duty Military, Veterans, and First Responders; male and female, able-bodied and disabled. The pool time, SCUBA gear, SCUBA instructor's time is all donated. The only cost to any Active Duty Military, Veterans, and First Responders is your time. Several Heroes Below SCUBA instructors are "Classified Diver" certified and have worked with military veterans with disabilities.

How the Program Works

Through the use of basic SCUBA gear and confined pool settings, Heroes Below offers an underwater zero gravity experience, floating in 6-8 feet of water while listening to your bubbles.

What to Expect

Heroes Below can accommodate:

- 1-6 participants per session.
- The end goal of relaxation/stress reduction starts in the shallow end of the pool and we work our way into the deep end; but, the real goal is to experience the magic between the shallow end and the deep end!

Session 1 (1.5 hours):

- An introduction to the SCUBA gear and how all of the equipment works.
- You will learn how to breathe from the SCUBA tank through a regulator that rests in your mouth.
- Subsequent sessions will last approximately 1 hour. We will progress to the deep end of the pool ONLY when you feel comfortable enough to move forward.

And, there is so much more once you have experienced it!

Big Austin

For 25 years, BiG has been at the heart of Central Texas economic growth and small business development. BiG has watched the Austin and Central Texas economy experience a fundamental transformation in the latter part of the 20th century, fueled by an increase from the City's traditional base of government and large manufacturing, to high tech and entertainment relocation's to the region. This increase was related to global economic shifts that continue today as manufacturing activities move overseas and then replaced by a knowledge and service-based economy.

Vocational Rehabilitation and Employment (Chapter 31)

If you have a service-connected disability, of at least 10%, that limits your ability to work or prevents you from working, the VA Vocational Rehabilitation and Employment can help. This program helps veterans with service-connected disabilities find meaningful, sustainable careers and connect you with training or other opportunities to help you reach your employment goals.

You're eligible to apply for VR&E benefits and services if you meet both of these requirements:

All of these must be true:

- You didn't receive a dishonorable discharge, **and**
- You have a service-connected disability rating of at least 10% from VA

When we receive your VR&E application, we'll schedule your initial evaluation with a Vocational Rehabilitation Counselor (VRC). The VRC will determine if you're entitled to receive VR&E benefits and services.

If you were discharged from active duty before January 1, 2013, your basic period of eligibility ends 12 years from one of these dates, whichever comes later:

- The date you received notice of your date of separation from active duty, **or**
- The date you received your first VA service-connected disability rating

The basic period of eligibility may be extended if a VRC finds that you have a serious employment handicap (SEH). Having an SEH means your service-connected disability significantly limits your ability to prepare for, obtain, and maintain suitable employment (a job that doesn't make your disability worse; is stable; and matches your abilities, aptitudes, and interests).

If you were discharged from active duty on or after January 1, 2013, the 12-year basic period of eligibility doesn't apply to you. There's no time limit on your eligibility.

NETWORKING/ SOCIAL GROUPS

Team Rubicon

Serves communities by mobilizing veterans to continue their service, leveraging their skills and experience to help people prepare, respond, and recover from disasters and humanitarian crisis. Through continued service, Team Rubicon seeks to provide veterans with three things they lose after leaving the military: a purpose, gained through disaster relief; community, built by serving with others; and identity, from recognizing the impact one individual can make. Coupled with leadership development and other opportunities, Team Rubicon looks to help veterans transition from military to civilian life.

Team RWB (Red, White & Blue)

To enrich lives of America's veterans by connecting them to their community through physical and social activity. Every year, more than 250,000 active duty service members transition out of the military, joining the 3.5 million post 9/11 veterans already living in communities nationwide. They face many challenges including isolation, weight gain, lack of purpose and other health issues. Team Red, White & Blue is the antidote to the isolation and health challenges they face. Together, we strive to make tomorrow better and together we will increase mental and physical health and find strength and success. Chapters deliver local, consistent, and inclusive opportunities for veterans and the community to connect through physical and social activity. Volunteers host regular fitness activities, social gatherings and community service events, and facilitate building strong local connections with members and organizations within the community.

BURIAL BENEFITS

Veterans Land Board (VLB) Cemeteries

Texas State Veterans Cemeteries are built through a partnership between the state of Texas and the U.S. Department of Veterans Affairs (VA) and are managed by the Texas Veterans Land Board. They complement the four national cemeteries in San Antonio, Houston, Dallas-Fort Worth and El Paso, Texas. Burial benefits at Texas State Veterans Cemeteries are identical to those for VA National Cemeteries.

Eligibility requirements for a Texas State Veterans Cemetery are the same as for a U.S. Department of Veterans Affairs (VA) National Cemetery. For detailed eligibility requirements, please visit the [VA Website](#) or call the VA toll-free burial benefits number at **1-800-827-1000**. If you have any questions about eligibility, please call us at the Texas Veterans Land Board toll-free at **800-252-8387**.

Texas State Veterans Cemetery burials are a benefit earned by Veterans, their spouses, and eligible dependents for their dedicated service to our country. There is no charge for interment of Veterans, their spouses and eligible dependents. The burial benefit includes military honors for Veterans, grave plot, opening and closing of the grave, a concrete grave liner for casketed burials, a headstone or marker, burial flag presentation to the next of kin, a Presidential Memorial Certificate, playing of Taps, a gun salute and perpetual care of the grave. The funeral home will obtain a burial flag to accompany the Veteran's casket or urn and will assist with requesting military honors.

The burial benefit for Veterans, their spouses and eligible dependents does not cover funeral home charges such as the cost of a casket, cremation, viewing, flower cars, or transportation of the remains and family. However, if the Veteran dies of a service-connected cause of death, the family may be eligible for reimbursement from the VA for some of the funeral home costs up to \$2,000.

VA Geriatrics and Extended Care

The shared purpose of all Geriatric and Extended Care programs is to prevent or lessen the burden of disability on older, frail, chronically ill patients and their families/caregivers, and to maximize each patient's functional independence. Because the course of chronic illness varies, the health care needs of the chronically ill patient also change, requiring the services of one, some, or all Geriatrics and Extended Care services over time. Community Residential Care, VA Community Living Centers, Community Nursing Homes, and State Veteran Homes assist Veterans who are not able to live independently.

Geriatric Research Education and Clinical Centers support the advancement and integration of research, education, and clinical achievements. Geriatric Evaluation & Management, Geriatric Primary Care, and Inpatient Respite offers interdisciplinary inpatient or outpatient services to elderly patients. Hospice and Palliative Care offer a continuum of comfort-oriented and supportive services provided in the home, community, outpatient, or inpatient settings for persons with advanced illness.

The Office of Geriatrics and Extended Care advances quality care for aging and chronically ill Veterans by providing policy direction for the development, coordination, and integration of geriatrics and long-term care clinical programs, and for the advancement of geriatrics and long-term care through research, education, and evaluation of new clinical models.

Comfort Crew

The Comfort Crew Programs combine customized in-person live experiences, animated DVD's, guided journals, and an online web-portal to help kids through the unique situations they experience as a military kid in an extremely efficient and effective manner. Each Comfort Crew piece uses a unique blend of humor and personal stories to open kids up to talking about the "tough stuff." These unique edutainment experiences allow us to talk about serious subjects in a way that is accessible to children. Our experiences of impacting over 100,000 children in the past 2 years alone, and receiving hundreds of letters from kids, counselors, and parents ([Click Here To See Them For Yourself](#)) show that what we're doing is working and we're excited that with the help of people like you, together we can make these resources available to every military kid in need.

Home Repair and Architectural Barrier Removal is for low income homeowner clients who face serious structural issues with their homes resulting in a decline in health and safety.

Through our Home Repair program, we provide major home safety repairs and accessibility modifications for eligible seniors. Our home repair model is holistic home repair rather than a patch job. That's because the home repair program started as a result of our core mission to enable our clients to age in place. One can't age in place when their home has barriers that make it impossible to live there. This program is currently serving the following counties: Travis, Williamson, Bastrop, Caldwell, Hays, Burnet, Blanco and Fayette.

Texas Ramp Project (TRP)

The Texas Ramp Project is a 501(c)(3) nonprofit that provides free wheelchair ramps to low-income older adults and people with disabilities identified by local health care providers. Ramps are built exclusively with volunteer labor, keeping costs to a minimum. Ramps are built without regard to race, religion, ethnicity, age or gender.

How to Get a Ramp

TRP does not accept direct referrals from clients or their families. Referrals must come from a third-party health care provider via the TRP website. (The provider qualifies the client as being in financial need.) The provider fills out the online referral form available on the “Request A Ramp” page of the TRP website. The form is sent to the region coordinator. A trained surveyor will visit the client and design a ramp at the preferred entry/exit that is appropriate in length, slope and direction. Based upon the survey, a volunteer construction crew led by a trained leader will then implement the design in four to five hours.

The Travis County Veterans Court Program

Eligible veteran-defendants will be diverted from traditional or other specialty courts to a specialized criminal court docket specifically crafted for them via a 12- to 24- month program. Participating veterans must suffer from a traumatic brain injury, post-traumatic stress disorder, or other mental disorder, including victims of military sexual trauma that occurred during or resulted from the defendant's military service and affected the defendant's criminal conduct at issue in the case. The court substitutes a treatment-based problem-solving model for traditional court processing in conjunction with the Veterans Treatment Court team.

ELIGIBILITY CRITERIA

Eligible veterans are those who find themselves in trouble with the criminal justice system because of criminal behavior resulting from their physical and mental injuries from combat and/or military service which has materially affected their conduct. In Travis County, eligible veterans are identified through self-identification, screening and assessments. Participation is voluntary on the part of the veteran-defendant subject to the consent of the attorney representing the state and the Veterans Treatment Court team.

APPLICATION PROCEDURE

- The Veteran will submit the Veterans Court application to the Veterans Court Program Manager via his/her attorney.
- Upon receipt of the completed application, the Program Manager will consult with the Veterans Justice Outreach Specialist (VJOS) to determine eligibility.
- The Program Manager will also determine if the veteran has been evaluated for Post-Traumatic Stress Disorder (PTSD), a traumatic brain injury (TBI), or other mental health disorder.
- If the veteran has met the basic criteria, the application is forwarded to the County and/or District Attorney based on the level of offense.
- The County and District Attorney's Office will then review the cases to determine if they are willing to accept the veteran into the program.

PROGRAM LENGTH

The Veterans Court Program is a 12 to 24-month program. The exact length of time in the program is determined by each participant's needs, progress toward successful implementation of the SAP and the nature of the offense.
