Dear Customer:

As part of our commitment to provide high quality and reliable water and wastewater service, Austin Water will replace water and wastewater lines in your area. Construction is expected to begin around July of 2019 and should take about 18 months.

We recognize that the construction period will bring disruptions and are working hard to be a good neighbor during the project.

To learn more, please join us for an informational meeting. There will be a brief presentation at the beginning of the meeting and staff will be available to talk with customers and answer questions throughout the meeting time.
