**WATER AND WASTEWATER
SERVICE EXTENSION
REQUEST FOR
CONSIDERATION**

Name : Cameron Road Waterline Project

Service Requested : Water

S.E.R. No. : 2262

Date Received : 04/16/2003

Location : Robert Mueller Airport

Acres : 67.36

Land Use : Other

Alt. Utility Service or S.E.R. Number : No2263 Administrative Approval

Quad1 : L-24,25

Quad2 : K-25,26

DDZ : Yes

Drainage Basin : Boggy Creek

Pressure Zone : North

DWPZ : No

Flow : (Estimated Peak Hour Flow, Gallons per Minute) 1980 gpm

% Within City Limits : 100

Cost Participation : \$683,100.00

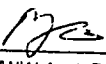

% Within Limited Purpose : 0

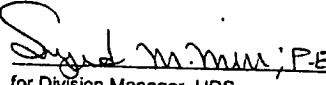

Description of Improvements:

Phase One North Water Pressure Zone Water Improvements (limited to 903 lues)
 Applicant will construct approximately 3,300 feet of 16-inch North Water Pressure Zone water line from the existing 16-inch North Water Pressure Zone water line in Cameron Road at Corona Drive, south along Cameron Road to East 51st Street and east along East 51st Street to the existing 6-inch North Water Pressure Zone water lines at Lancaster Court. Applicant will also connect the proposed 16-inch North Water Pressure Zone water line to the existing North Water Pressure Zone water lines as indicated on the attached map exhibit (East 53rd Street, East 52nd Street, East 51st Street and Lancaster Court). Applicant will also abandoned a portion of existing 6-inch North Water Pressure Zone water line in Cameron Road at East 51st Street (between East 52nd Street and East 51st Street). The proposed internal 16-inch North Water Pressure Zone water line will be dedicated to the City of Austin for ownership, operation and maintenance, and will be eventually "looped" through the redevelopment of Robert Mueller Airport by the applicant.

Completion and acceptance of the improvements described above and the conditions set forth below:

- 1) Construction of all Service Extensions are subject to all environmental and planning ordinances.
- 2) Service Extensions are subject to the guidelines established in the Land Development Code, Section 25-9, Water and Wastewater Utility Service.
- 3) The level of service approved by this document does not imply commitment for land use.
- 4) Approval of a site plan that meets the Fire Department requirements for fire control.
- 5) The proposed water (within right-of-ways or public easements) improvements will be dedicated to the City of Austin for ownership, operation, and maintenance.
- 6) The approved Service Extension will automatically expire 120 days after date of approval unless a development application has been accepted by the Watershed Protection and Development Review Department. The Service Extension expires on the date the development expires, or if approved, on the date the development application approval expires.
- 7) Approval by the City Council.

Name : Airport Road Wastewater Project (NW WW Phase One-1B)

Service Requested : Wastewater

S.E.R. No. : 2263

Date Received : 04/16/2003

Location : Robert Mueller Airport

Acres : 67.36

Land Use : Other

All. Utility Service or S.E.R. Number : No\2262 Council Approval

Quad1 : L-24,25

Quad2 : K-25,26

Drainage Basin : Boggy Creek

Pressure Zone : North

DDZ : Yes

Flow : (Estimated Peak Wet Weather Flow, Gallons per Minute) 328 gpm

DWPZ : No

Cost Participation : \$0.00

% Within City Limits : 100

% Within Limited Purpose : 0

Description of Improvements:

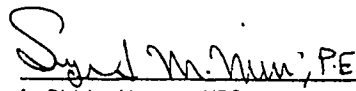

Northwest Wastewater Phase One - 1B (proposed wastewater improvements will serve up to 471 lues)
Applicant will construct approximately 2,000 feet of 15-inch gravity wastewater line (min. grade of 0.5%) from the old Robert Mueller Airport site at Wilshire Boulevard and Airport Boulevard, south along Airport Boulevard in an appropriately sized wastewater easement to the existing 8-inch gravity wastewater line (C-89-522 manhole station 7+68.8). The proposed 15-inch gravity wastewater line must be constructed with sufficient depth to serve additional area within the airport site.

Completion and acceptance of the improvements described above and the conditions set forth below:

- 1) Completion and acceptance of the improvements described above.
- 2) Construction of all Service Extensions are subject to all environmental and planning ordinances.
- 3) Service Extensions are subject to the guidelines established in the Land Development Code, Section 25-9, Water and Wastewater Utility Service.
- 4) The level of service approved by this document does not imply commitment for land use.
- 5) Engineering Report submitted to Utility Development Services detailing the proposed wastewater improvements.
- 6) The proposed (within right-of-ways or public easements) improvements will be dedicated to the City of Austin for ownership, operation, and maintenance.
- 7) The approved Service Extension will automatically expire 120 days after date of approval unless a development application has been accepted by the Watershed Protection and Development Review Department. The Service Extension expires on the date the development expires, or if approved, on the date the development application approval expires.

Project Name : **Mueller Phase Two North WPZ Improvements**

S.E.R. No. : **2277**

Service Requested : **Water**

Location : South of East 51st Street and north of Airport Boulevard

Description of Improvements Required To Provide Service:

Approximately 570 feet of 16-inch water line from the proposed 16-inch water improvements to be constructed under the 45th Street Reconstruction Project CIP No. 3960-227-7394 at 45th Street and Bennett Avenue, north along Bennett Avenue to East 46th Street. Approximately 1,200 feet of 36-inch water line from the proposed 16-inch water line at Bennett Avenue and East 46th Street, east along East 46th Street to the eastern right-of-way of I.H. 35 North at Bentwood Road.

Option One

If Option One is used. Approximately 835 feet of 36-inch water line from the proposed 36-inch at I.H. 35 North and Bentwood Road, north along the right-of-way of I.H. 35 North (within an appropriately sized water easement) to the Mueller site, and approximately 765 feet of 16-inch north along I.H. 35 North to the proposed internal water improvements (by others) constructed within the Mueller site. Approximately 3,500 feet of 36-inch water line from the end of the 36-inch water line at I.H. 35 North and the Mueller site, east and south through the Mueller site to the proposed internal water improvements (by others) within the Mueller site at Airport Boulevard and Wilshire Boulevard.

Option Two

If Option Two is used. Approximately 1,600 feet of 16-inch water line from the proposed 36-inch at I.H. 35 North and Bentwood Road, north along the right-of-way of I.H. 35 North (within an appropriately sized water easement) to the proposed internal water improvements (by others) constructed within the Mueller site. Approximately 3,200 feet of 36-inch water line from the proposed 36-inch at I.H. 35 North and Bentwood Road, east along Bentwood Road, south along Elwood Road, east along Fernwood Road and Airport Boulevard to the proposed internal water improvements (by others) within the Mueller site at Airport Boulevard and Wilshire Boulevard.

Phase of Development Served by this Connection: IA, IB, II, III, XI

Total estimated LUE's available from this Project: 1142

NOTE: Phase information taken from Living Unit Equivalent (LUE) exhibit prepared by Bury + Partners dated 2/27/04. Water project may not serve the entire phase noted.

Project Schedule For Improvements Described Above:

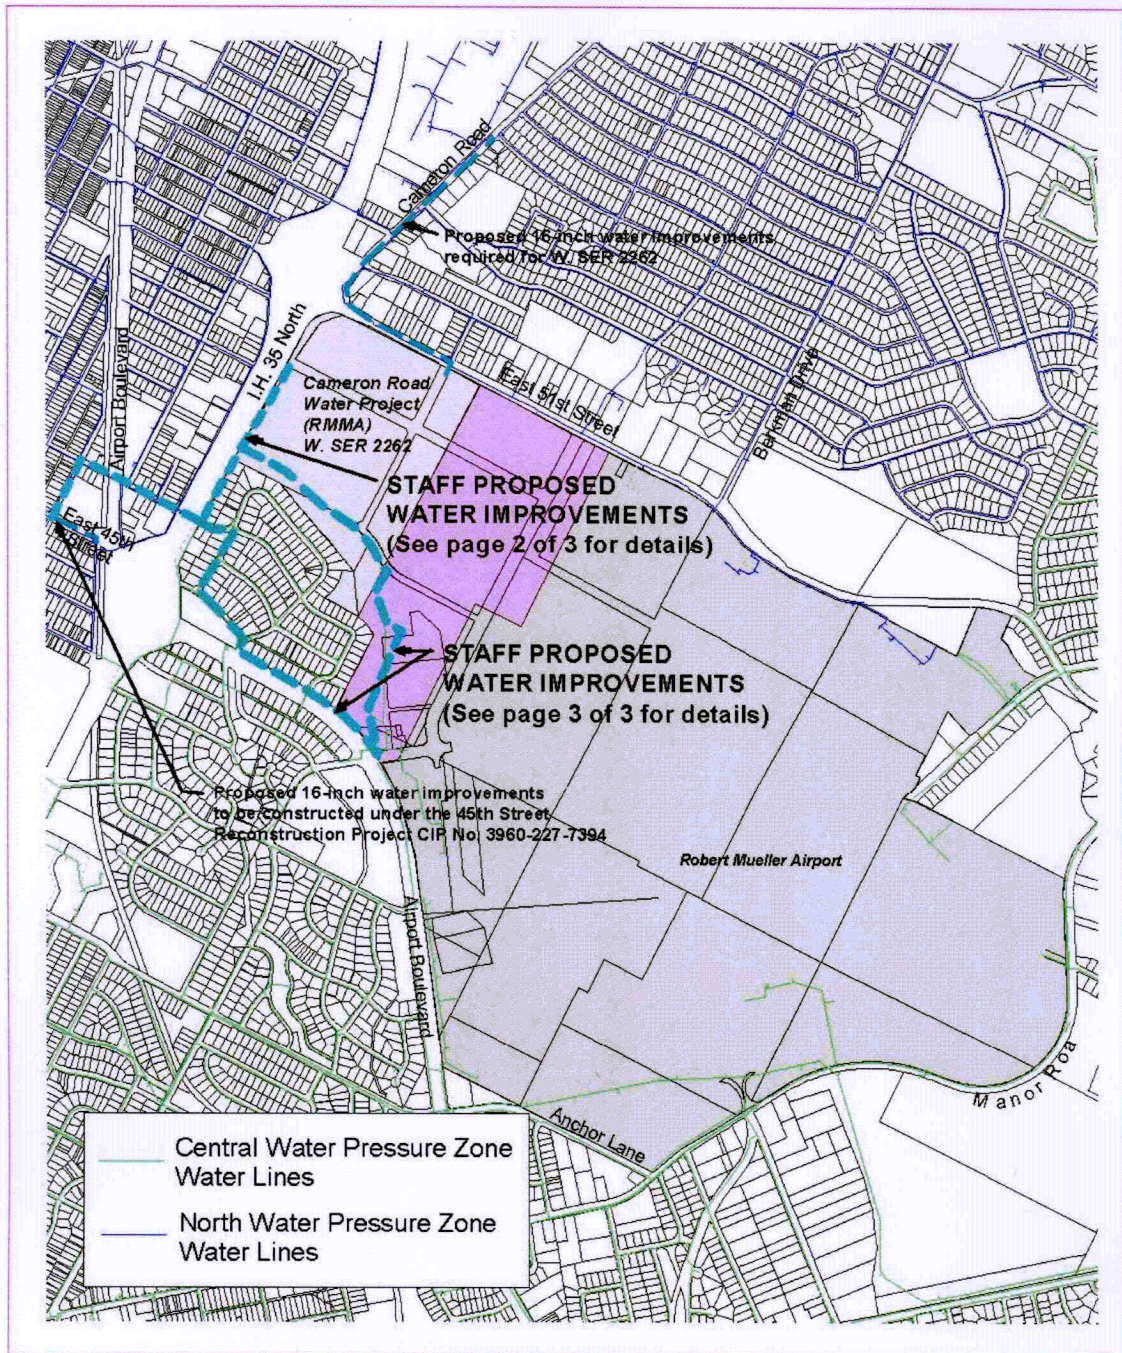

Date for Notice to Initiate Project: 1st Quarter 2004

Design Start Date: 1st Quarter 2005

Construction Start Date: 4th Quarter 2004

Construction Completion Date: 3rd Quarter 2006

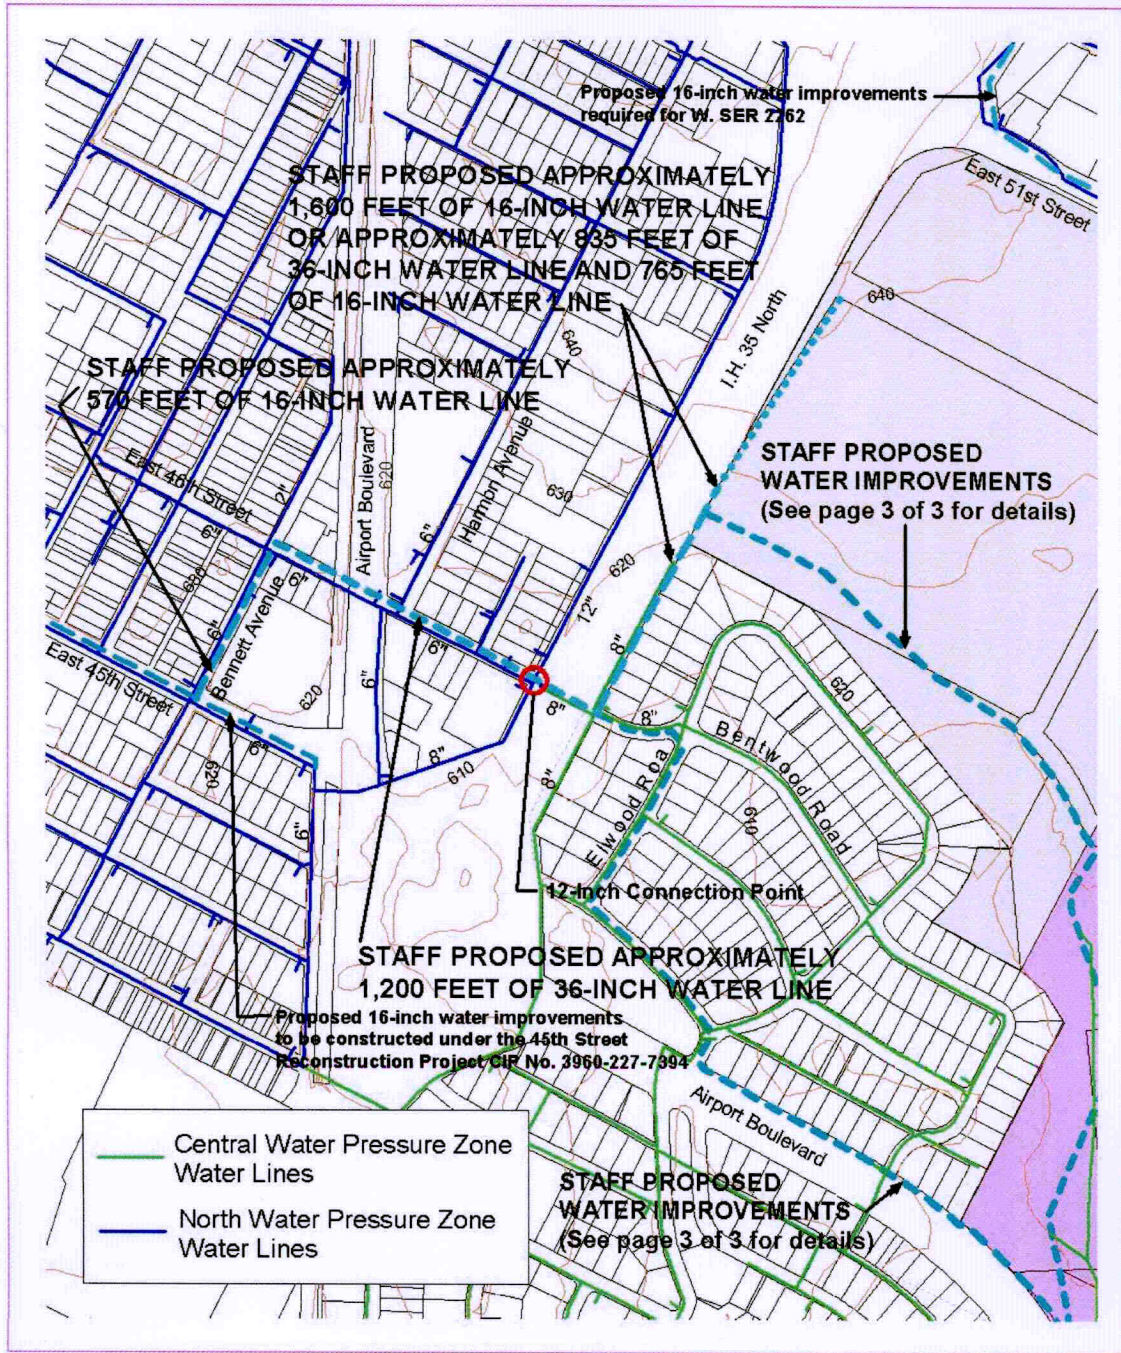

NOTE: Date for Notice to Initiate Project, Design Start Date and Construction Start Date assumes beginning of Quarter. Construction Completion Date assumes the end of the Quarter.
