ReStore Energy Efficiency

ReStore Diversions

Did you know?

Our solar panels produce 254 kilowatts of energy each day. That's over 800 miles in an electric car!

ReStore Diversions

**Over
21 million tons**

of material has been diverted since 1992

ReStore Diversions

1,337,446 lbs

diverted through May 2017

Our 2017
projected
diversion:

3,209,868

That's an average of

267,489 lbs a month!

88%

YTD Diversion Rate

ReStore Diversions

\$4,166

of tax payer dollars saved
through paint recycling
from May 1–June 20th

- Windows
- Doors
- Lumber
- Paint
- Cabinets
- Furniture
- Lighting
- Appliances
- Hardware
- Home Goods
- Tile
- Flooring
- Piping
- Insulation
- Your excess!

A collection of various lamps in a room, with a central lamp in focus. The central lamp has a white, tapered shade and a dark, patterned base. To its left is a lamp with a black shade featuring a grid of small, glowing yellow circles. To its right is a lamp with a plain white shade and a dark base. In the background, other lamps and a green wall are visible, creating a warm, cozy atmosphere.
