EAST 51ST STREET IMPROVEMENTS
A 2012 Mobility and Transportation Bond Project

Mueller Neighborhood Association Update
Saturday, January 21, 2017

Project Area
Adjacent East 51st St. Corridor Projects

**E. 51st Street Safety and Mobility Improvements (completed)**

**Berkman Drive Study from E 51st to 290 (underway)**

**Mobility 35 Improvements to I-35 at 51st Street (underway)**
East 51st Street
Vision Plan
April 2012
• Promote coordinated redevelopment for both sides of the corridor
• Support from Working Group and various community stakeholders
• Plan endorsed by Council on April 26, 2012
• Added to the 2012 Bond Program as a Community-Based Project
51st Street is a multi-modal urban street that accommodates safe pedestrian and bicycle movement as well as calm vehicular traffic.

51st Street is lined with buildings that promote a safe, interesting and lively pedestrian environment, with strong linkages and an appropriate scale transition to the Windsor Park neighborhood.
Buildings within the existing urban reserve should be no higher than 60 feet.
East 51st Street
Preliminary Engineering Report
Cameron Road to Berkman Drive
July 2015
Typical Existing E. 51st St. Cross-Section
Proposed: West of Lancaster Typical Section

Preliminary Design, not final
Proposed: East of Lancaster Typical Section

Preliminary Design, not final
Operational Improvements

- Improved multi-modal access
- Reduced queue lengths
- Reduced left turn conflicts
- Improved speed control

- Improved bicycle facilities
- Complete pedestrian connectivity
- Improved transit access
