Austin Core Transportation Plan

Plan Background and Draft Scope

Downtown Working Group September 3, 2019
Agenda

• Purpose and Background
• Draft Scope
• Project Schedule
• Major Deliverables
Purpose

- The ACT Plan is an update to the 2002 Downtown Access and Mobility Plan and Downtown Austin Plan’s 2008 Transportation Framework Plan.

- Since then, there have been significant developments in:
  - transit and bicycle planning,
  - highway improvements serving downtown,
  - changes in national best practices on urban street design, and
  - disruptions to traditional mobility.

- The ACT Plan will align the many projects and initiatives downtown under one actionable plan to achieve a unified vision for downtown and the goals in the Austin Strategic Mobility Plan.
A strong foundation

DOWNTOWN GREAT STREETS MASTER PLAN
Background

• Great Streets Master Plan, 2001
  • The goal of the Great Streets program is to provide a master plan as an instrument to pursue this vision of streets for people

• Downtown Access and Mobility Plan, 2002
  • The emphasis of the access and mobility study was on modeling and simulating intersection traffic operations and determining existing and future levels-of-service and improvement needs

• Downtown Transportation Framework, 2008
  • The Downtown Transportation Framework Plan builds on the Great Streets Master Plan, further developing the system of “priority streets by mode”, and developing more detailed streetscape cross sections of all of the different street types and variations

• Downtown Austin Plan, 2011
  • Established the vision to develop a multimodal transportation system that improves access to and mobility within the Downtown
Recent projects and initiatives

Austin Strategic Mobility Plan

LONG TERM VISION PLAN

THE STORY OF MOPAC AND EXPRESS LANES In Central Texas

2018

Our CONGRESS AVENUE

2018

Adopted April 31, 2019
Background

• New policy
  • The Austin Strategic Mobility Plan (ASMP) aspires to achieve a 50/50 mode share where 50% of commuters use means other than driving alone to get to work in 2039

• Transit planning
  • The Project Connect Long Term Vision Plan established a High-Capacity Transit System and was adopted as an element of the ASMP

• Managing demand
  • Transportation Demand Management programming, parking, and curb management are becoming critical strategies to manage congestion

• New street design
  • The Congress Avenue Urban Design Initiative shows how to reimagine the allocation of space

• Many projects and studies downtown
  • 2016 Mobility Bond, Rainey Mobility Study, transit improvements, highway improvements...
Draft Scope

• Phase 1: Data Collection (Complete)
  • Multimodal Cordon Line Study
  • Project Database
  • TDM Workshop

• Phase 2: Plan Development
  • Task 1: Data Collection and Review
  • Task 2: Existing and Future Conditions Assessment
  • Task 3: Policy Review
  • Task 4: Plan Development
  • Task 5: Plan Compilation
  • Task 6: Public Engagement
  • Task 7: Optional advanced Tasks
    • Advanced Renderings
    • Advanced Modeling
Project Schedule

Technical Team Meetings – ongoing
Downtown Working Group Meetings – to be determined
Public Engagement (PE) – three phases, Fall 2019, Spring 2020, and Summer 2020

*First major public event expected in Fall 2019
Major Deliverables

• Plan Document
  • Supporting text and policy framework

• Comprehensive List of Projects
  • An aspirational list of projects in varying stages of project development

• Signature Projects
  • The most transformative and effective projects in achieving the vision for downtown and the city

• Modeling and Visualizations
  • Updated analysis of the street network and visualizations of recommendations
