Austin Rule Posting Process

Brian Van De Walle, PE PTOE | Consulting Engineer | July 28, 2022

2022 Q4 Rule Posting

- Standard Detail Sheets and Specifications provide information regarding the construction and/or modification of City infrastructure.
- They are official rules required to comply with City Code and must comply with the Rule Posting Process.
- These Detail Sheets are being updated to:
 - Represent current state of the practice
 - Remove references to metric specifications
 - Provide additional details not shown in previous details
