

# INTERSECTION SAFETY IMPROVEMENTS

Barton Springs Road and South 1<sup>st</sup> Street

**austin**  
MOBILITY BONDS

## OVERVIEW

Austin Transportation Department is developing a project to improve safety and mobility at the intersection of Barton Springs Road and South 1<sup>st</sup> Street. This project is designed to reduce crashes for all transportation modes, increase safety, and improve mobility and accessibility for those walking, riding bicycles or taking transit.

## PLANNED IMPROVEMENTS

Project improvements include:

- A new raised concrete median on the west side of Barton Springs Road for improved access management.
- Upgraded pedestrian infrastructure, including restriping of high-visibility crosswalks and new Americans with Disabilities (ADA) accessible curb ramps.
- Relocated on-street bicycle lanes to new protected bicycle lanes on both sides of Barton Springs Road at the southeast and northwest corners of the intersection with enhanced visibility treatments.
- New bicycle facilities on the north and south side approaches of S. 1<sup>st</sup> St. to connect to new eastbound and westbound bicycle facilities.
- Driveway modifications to improve safety for drivers turning in and out of driveways.
- Signal infrastructure upgrades and signal timing upgrades to improve operations.
- An improved Capital Metro bus stop at the northwest corner for safer and improved access to transit.

## TIMELINE

The project is estimated to begin in Winter 2022, barring no weather delays or other unforeseen circumstances.

## FUNDING

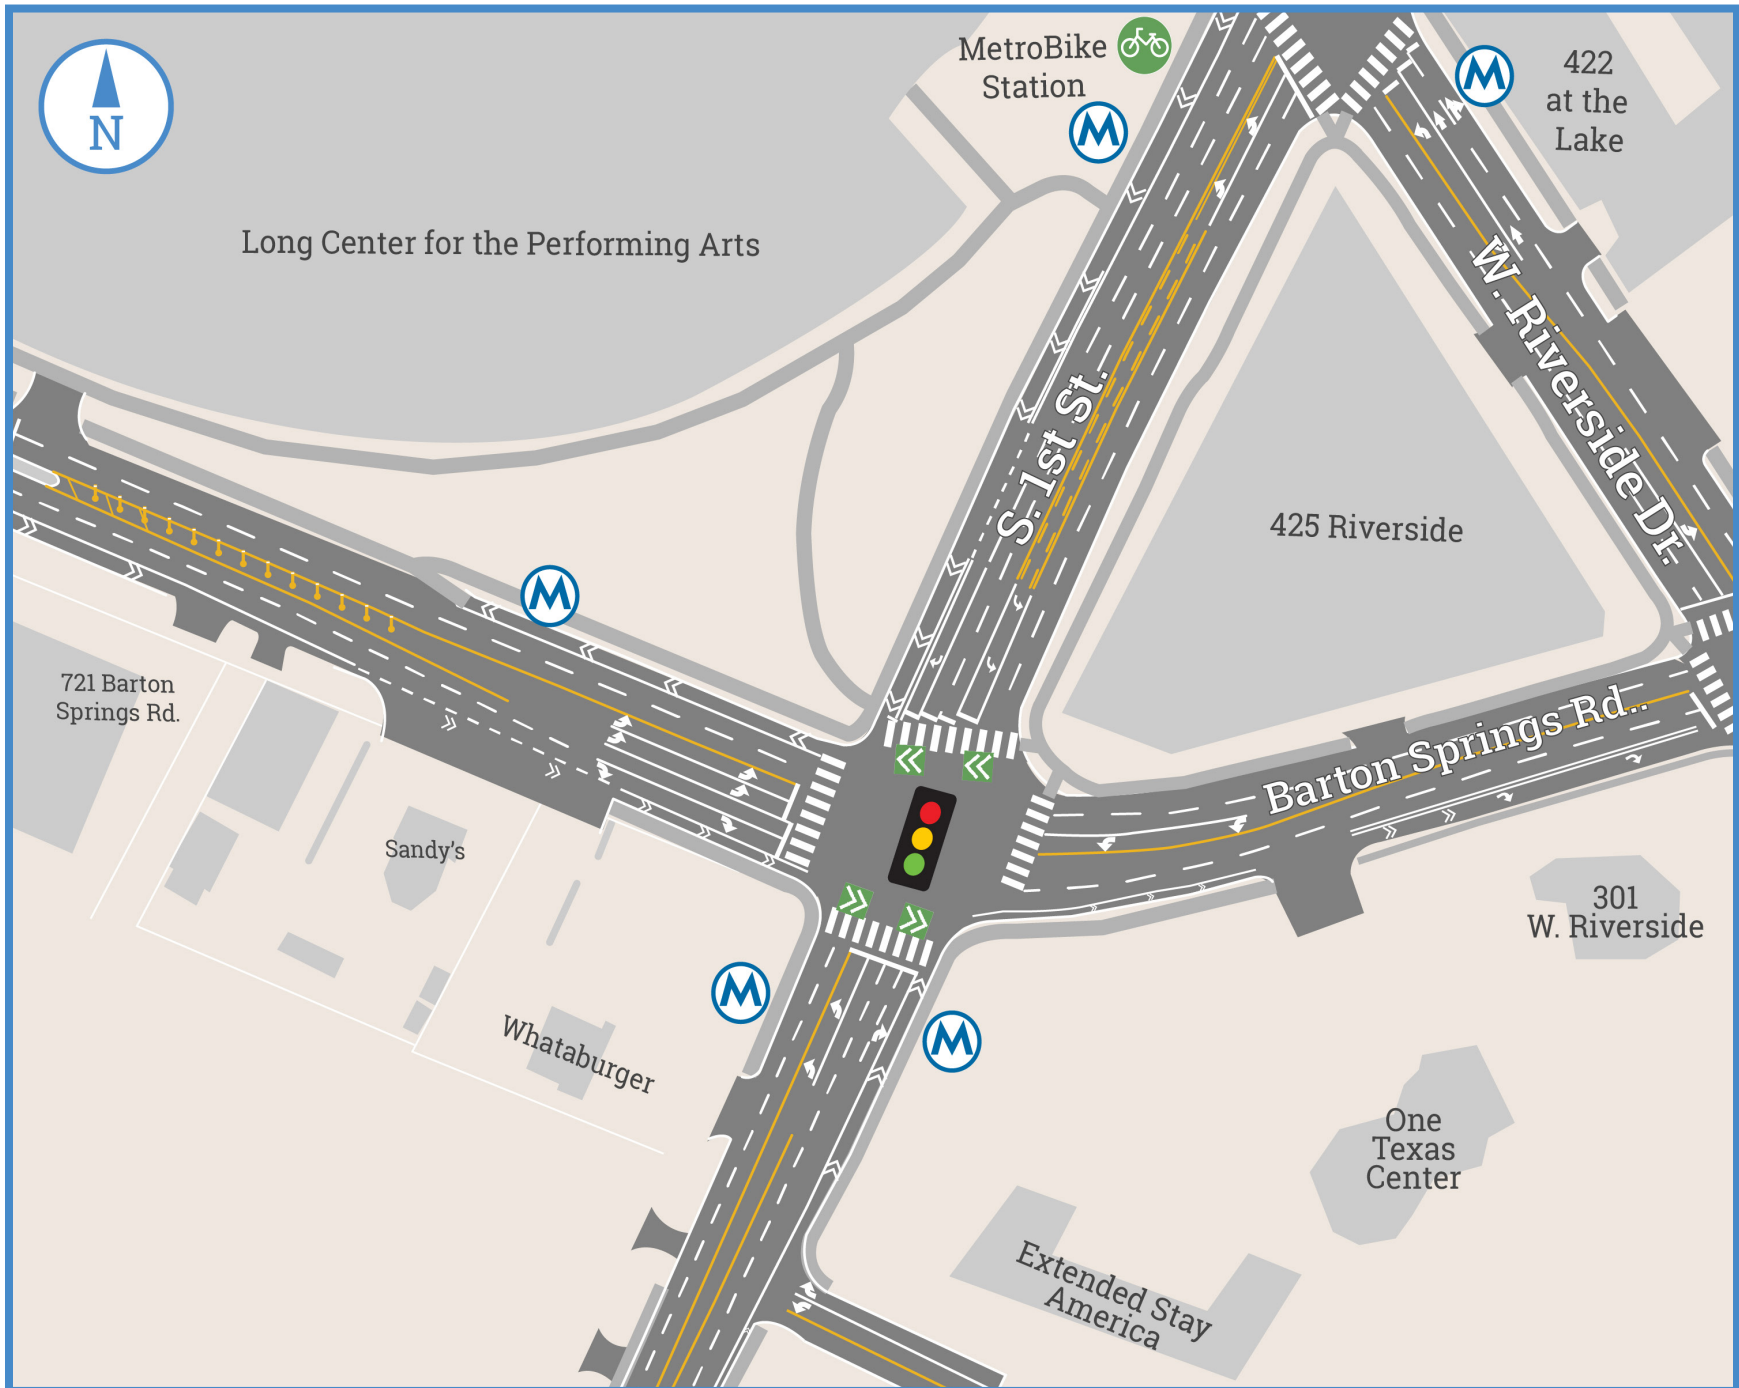

This project is funded by the 2016 Bond Intersection Safety and Bikeway Programs.
