

AUSTIN TRANSPORTATION DEPARTMENT

P.O. Box 1088, Austin, TX 78767

June 8, 2018

To Stakeholder, Property Owner, or Resident:

Opportunity to Give Input on Proposed Street Improvements

Lamplight Village Avenue, from Metric Boulevard to Parmer Lane, is being evaluated for improvements to enhance the safety and mobility of users of the street. You are receiving this notification because you rent and/or own property adjacent to this section of Woodward Street in Austin, Texas or are otherwise registered with the City as a stakeholder in the area.

How to Provide Input

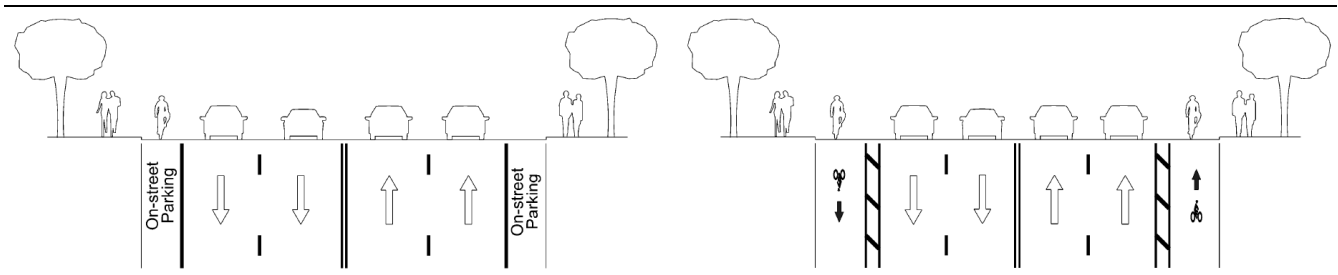

ATD is seeking feedback from people who use this street. To provide input, you may contact the project designer at Neil.Quarles@austintexas.gov. Or phone (512) 974-7657.

Changes Proposed:

- Adding buffers to bike lanes along the length of the project. The typical cross section design proposed for this section is shown in Figure 2.
- Removal of parking on Lamplight Village Avenue for the length of this project. Parking counts and aerial photography have shown that this curb parking is mostly unused due to adjacent surface lots and cross-streets with available parking. Any users of this street parking should provide input at the email or phone number above.
- New enhanced pedestrian crossing of Lamplight Village Avenue at Alderbrook Drive.
