

CHANGES COMING TO CITY HALL GARAGE

Beginning July 27, 2015, people parking at the Austin City Hall garage will enter the garage from Guadalupe Street and exit the garage on Lavaca Street. This configuration is the opposite of what currently exists and will provide a better opportunity for vehicles to exit safely.

Once inside the parking structure, all people will proceed into the parking area through the current employee/contract side of the garage, and exit the parking area from the current public side. City Hall employee parking will be reserved during business hours on P3.

The reversal process will begin the first week of July 2015 and will include the replacement/relocation of gates, signage, markings, access technology and pay stations. Once completed on July 27, staff will be stationed at the entrance and exit of the garage helping to direct traffic.

RATES: EFFECTIVE JULY 1
