September 19, 2022

Dear Customer:

Austin Water is planning improvements to water, wastewater and stormwater pipelines in your area. The Garden Villa Lane Water and Wastewater Renewal Project, is in the design phase. Construction is expected to begin around Summer 2023 and take about 17 months to complete.

This project is part of Renewing Austin, an Austin Water program to replace and upgrade aging water lines. Austin Water is protecting our city's water infrastructure by investing in upgrades and repairs of the existing water lines. Water line breaks are well documented in this area and the project is necessary to avoid further expenditures to maintain water lines that have broken frequently and to improve reliability for customers. Wastewater lines and stormwater lines also will be replaced.

A public meeting for the project will be scheduled before construction starts in 2023 to provide more details and answer questions about what to expect during construction. The attached map and fact sheet provide more information about the project. Please visit the project website at **austintexas.gov/gardenvilla** to sign-up to receive email updates about the project.

If you have any questions in the meantime, please feel free to reach out to us.

Sincerely,

Micheal Singleton, P.E.
