

**City of Austin | Austin Water**

P.O. Box 1088 Austin, TX 78767

AustinWater.org

December 15, 2021

Dear Customer:

Austin Water is planning improvements to water and wastewater lines in your area. The project, known as the Medical Arts Water and Wastewater System Renewal Project, is in the bidding phase and construction is expected to begin in early 2022 and take about 11 months to complete.

The project is part of Austin Water's efforts to replace and upgrade aging water and wastewater lines, which helps avoid further expenditures to maintain water lines that have broken frequently and improves reliability for customers. The project will replace or renew 1,822 linear feet of water lines and 3,325 linear feet of wastewater lines. Please refer to the attached map for the project locations.

A public meeting for the project will be scheduled before construction begins to provide more details and answer questions about what to expect during construction. The attached map and fact sheet provide more information about the project. Please visit the project website at **[austintexas.gov/medicalarts](http://austintexas.gov/medicalarts)** to sign-up to receive email updates about the project.

If you have any questions in the meantime, please feel free to reach out to us.

Sincerely,

Larry Mendez
