

## Questions from COA Tunneling Projects Contractor Open House:

### 6943.031 Williamson Creek Wastewater Interceptor

Q1. Is there a current cost estimate for each project? Additionally, would an attendees list be available from today's call?

A: Engineer's cost estimate is \$105 million dollars. Yes, the attendees list is available on the project website.

Q2. Is there a way to access the drawings and specs in a preliminary way? Even if they are not complete.

A: Drawings and specifications will be released when the project's solicitation is advertised.

Q3. When will it bid and under what delivery? The Upcoming Project spreadsheet shows alternative delivery: Competitive Sealed proposal. Is this right?

A: The solicitation advertisement date is estimated to be in early 2025 via Competitive Sealed Proposal.

Q4. Is the budget still \$105.2M?

A: Please see response to Question #1.

Q5: Do you have any current information about when this will be open for bidding?

A: Please see response to Question #3.
