

You Said-We Did

You Wanted	Accepted	Modified	We Did	Rationale
Year round irrigation restrictions	X		Year round irrigation restrictions: Conservation Stage 30 hours (twice) Stage 1 -20 hours /week (twice) Stage 2 -10 hours /week (once) Stage 3- 6 hours/week (once)	
Exempt hand watering, drip, tree watering with bubbler, soaker, single-fill container	X		Exempt Conservation Stage through Stage 3; Prohibited in Stage 4	
Irrigation of athletic fields on same irrigation schedule		X	Exempt irrigation of athletic fields	Irrigation of athletic fields is necessary to protect the health and safety of the players and game officials. The frequency and severity of injuries increases with the playing substrate is hardened
Facility Irrigation assessments	X		Required on properties 1 acre or greater in size, every two years	
Regulate hotel water use	X		Hotels & motels will be required to offer overnight guests towel and linen reuse option	
Restaurants serve water only when requested	X		Year round requirement	
Patio Mistlers to have limited operation	X		Conservation Stage through Stage 2 4:00 p.m. to midnight; Stage 3 4:00 p.m. to 8:00 p.m.; Prohibited Stage 4	
Fountains restricted only in latter drought stages	X		Larger fountains prohibited in Stages 2 through 4	
Commercial Nurseries restricted in latter drought stages	X		Stage 4 spray irrigation prohibited	Nurseries will hand water as needed to augment spray irrigation days
Car washing equipment certified as efficient	X		Require certification of efficient equipment performed by licensed plumber submitted to AWU annually	
Charity car washes held at car washing facilities	X		Allowed through Stage Two, Prohibited in Stages 3 and 4	
Power Washers fitted with recycling unit		X	Power washers will be fitted with a nozzle that uses 3.5 gallons per minute and has trigger shut-off	Power Washing recycling units generate hazardous waste which must be disposed of in a hazardous waste disposal site with appropriate permitting Likewise automobile dealerships/rental companies managing inventory cannot stretch booms around inventory lots. Rather rely on the stormwater management system to handle and pretreat runoff
Recreational Water use unrestricted	X		Splash Pad use and filling of spas prohibited in Stage 3 and 4 Filling swimming pools and ponds in Stage 4 is prohibited	
Exempt Foundation Watering	X		Exempted until Stage 4 Allowed with variance in Stage 4
