

## AUSTIN WATER AMANDA UPDATE WAIVER FORM

Submitting this waiver form directly to Austin Water Pipeline Engineering, allows the applicant to submit the current update to their site development application, **without submitting a set of plans and redlines for Austin Water review** (waived only per use of this update waiver form). "AWU-Pipeline Engineering" will still receive a process in AMANDA for this update. The applicant understands that this will result in an automatic rejection in the AMANDA system by "AWU-Pipeline Engineering" on the current submittal.
