

This list of **Onsite Water Reuse System Designers, Builders and O&M Vendors** is provided as a convenience only. The City of Austin neither recommends nor endorses any of the service providers, products or technology identified in this list. If your company would like to be added to this list, please contact AW_OnsiteReuse@austintexas.gov.

Company Name	Alternate Water Source Systems	General Info	Design	Build	O&M
Aquacell by Phoenix	Blackwater, graywater, stormwater, rainwater	Aquacell builds & operates water recycling plants. The company has systems that can be retrofitted to existing structures or integrated into a new development.	X	X	X
AquaHarvest Technologies	Graywater, rainwater, stormwater, & other sources	AquaHarvest Technologies designs & delivers single source integrated water reuse systems to capture & treat water for a variety of beneficial reuse applications.	X	X	
AquaPoint	Graywater, blackwater, & other sources	AquaPoint has a portfolio of fixed-film treatment technologies to address a wide variety of alternate water sources & treatment standards.	X	X	
BIOCLERE	Graywater, blackwater, & other sources	BIOCLERE is a biological wastewater treatment plant which can be used for single family homes and sites with a population of up to 2000 people.	X	X	
Biohabitats	Graywater, blackwater, rainwater, stormwater, & other sources	Biohabitats offers integrated water management strategies that embrace regenerative design.	X	X	X
ChemsearchFE	Rainwater, stormwater, graywater, foundation drainage, & other sources	ChemsearchFE acts as Treatment System Managers for reclaimed water systems. This includes maintenance such as changing filters/UV lamps, along with chemically treating the water if required, testing the water, and submitting mandatory monthly and annual reports.			X

Conservation Technology	Rainwater, stormwater, graywater, foundation drainage, & other sources	Conservation Technology offers fully integrated, custom solutions for any type of non- potable water reuse. We design and manufacture pre- filtration, storage, pumping, treatment, and control systems.	X	X	
Epic Cleantec	Rainwater, condensate, stormwater, graywater, blackwater, & other sources	Epic Cleantec (“Epic”) is a full-service water technology company that deploys decentralized wastewater treatment and reuse systems into buildings—including greywater, blackwater, rainwater, and condensate—offering a one-stop-shop for the design, engineering, permitting, project financing, and ongoing operations of onsite water reuse technology for the built environment.	X	X	X
Exergy	Industrial wastewater	Exergy provides water and material recycling technologies that recycle process water back into the production process while minimizing the need for water treatment and disposal costs.	X	X	
Greyter	Graywater & rainwater	Greyter’s greywater & rainwater harvesting systems are custom designed to meet the needs of buildings with a wide range of water uses.	X	X	
Ecovie	NSF 350 graywater, rainwater, stormwater, & other sources	UL508A custom control panels with extended remote monitoring and open protocol BMS integration. Flexible water reclamation systems with low power consumption available for 500-20,000+ GPD.	X	X	
Natural Systems Utilities	Graywater, blackwater, rainwater, & other sources	Natural Systems Utilities plans, designs, builds, owns, & operates on-site, ecologically based water systems. We create & run fully integrated water supply, wastewater treatment, & reuse systems for a variety of scales.	X	X	X
NEXTera	Graywater, blackwater, rainwater, stormwater, & other sources	Sustainable Water offers turn- key project development services for water reclamation and reuse projects. Sustainable Water also provides comprehensive operation services and expertise for our reclaimed water facilities.	X	X	X

Organica	Graywater, blackwater, & other sources	Organica systems treat and recycle wastewater using Integrated Fixed Film Activated Sludge (IFAS). Organica offers a variety of products and services to help customers build and operate space and energy efficient biological wastewater treatment plants.	X	X	X
Ovivo	Blackwater, graywater	Ovivo delivers conventional to highly technological water treatment solutions for the industrial and municipal markets and leverages its large installed base of equipment around the world to offer parts and services to its customers.	X	X	
PERC Water	Graywater, blackwater, rainwater, stormwater, & other sources	PERC Water Corporation develops, designs, builds, operates, and manages water and wastewater infrastructure throughout the U.S. Our unique project approach results in certainty of cost, risk management, schedule and water quality for our clients.	X	X	X
RainHarvest Systems	Rainwater & stormwater	RainHarvest Systems is an e-commerce engine that sources products from the leading manufacturers & purchases them in volume quantities so we can pass the discount on to our customers & dealers.			
Rainwater Management Solutions	Rainwater, stormwater & graywater	Rainwater Management Solutions offers design and consulting services to develop turnkey solutions for rainwater, stormwater, and graywater systems.	X	X	
Suez	Graywater, blackwater, & other sources	With a simple & expandable building-block design, Suez packaged plants feature scalable treatment capacities (from 50 gallons to 5 million gallons per day) that can be increased as wastewater treatment demand grows.	X	X	

Triple-T	Graywater, blackwater & other sources	Simple, reliable and affordable reuse. Triple-T's TAYA solutions deliver top-tier performance, integrated seamlessly and sustainably into the community, from 10,000 GPD to over 1 MGD.	X	X	
Cougar USA representing Wahaso	Graywater, rainwater, condensate, stormwater, & other sources	Cougar USA is a water control systems provider that utilizes Wahaso's complete design/build water harvesting solutions for the commercial market. Systems include cooling condensate, rainwater, stormwater, and graywater systems certified to NSF/ANSI 350 and IAPMO 324 standards.	X	X	
WaterSprout	Graywater, rainwater & stormwater	WaterSprout designs, installs, manufactures & maintains advanced greywater & rainwater systems.	X	X	X
Water Control Corporation	Graywater, blackwater, rainwater, stormwater, & other sources	Water Control builds packaged, turnkey solutions for commercial and institutional water treatment. They assist with conception, commissioning, service, and upkeep.	X	X	X
Watts	Rainwater, stormwater, & other sources,	WATTS offers rainwater systems & related equipment to support individual project plans for homeowners, contractors, or designers.	X	X
