

This is a list of the current Utility Piping Systems (UPS) permitted providers. These providers are permitted by Austin Water to discharge wastewater from cleaning, passivating, flushing, and/or draining existing or new piping systems, such as chilled water loops, hot water loops, condensers, cooling towers, boilers, and etc. This program covers discharges from industrial and/or commercial properties. Projects use a variety of methods including chemical cleaning, conditioning, descaling, passivation and etc.

Company	Permit Number	Expiration Date
Apollo Water Services, LLC	744UPS0000015	6/30/2026
Aqualogic Water Consulting, LLC	744UPS0000003	6/30/2026
