Hydrant Mounted Meter Permit Process

A. Fire hydrant-mounted meter and backflow protection:

    I. Renewal of fire hydrant-mounted water meter

      1. The permittee is required to submit a Renewal application in Salesforce within thirty days of the permit expiration date to arrange for meter renewal.

      2. A copy of a new backflow prevention assembly (RPZ) inspection certificate is required with a Renewal request.

☑ **By submitting this form, I confirm that I've read and understood the information provided and agree to the terms and conditions.**

Hydrant Mounted Water Permit

The permit is valid for 1 year from installation and will automatically expire. If water is still needed, the customer must reapply for a hydrant water meter prior to this permit expiration. The City requires that an approved reduced pressure backflow prevention assembly (RPZ) be installed and certified by a State of Texas-licensed backflow prevention assembly tester (BPAT) registered with Austin Water prior to obtaining water from a fire hydrant-mounted meter.

Sign off, upload RPZ (for Hydrant renewals), and Submit.

Signatory Requirements -

This permit must be signed by an authorized representative of the Applicant as described herein. For a corporation, this permit shall be signed by a responsible corporate officer. A responsible corporate officer means a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation. For a partnership or sole proprietorship, this permit shall be signed by a general partner or the proprietor, respectively.

In signing, I certify that I am an authorized representative of the Applicant:

*Applicant Signature	*Title	Date
AUTHENTIC SIGNATURE	AUTHORIZED REP	Jun 17, 2025

Signature releases the City of Austin and applicant agrees to hold harmless and defend the City of Austin from any claims from any and all liability and losses for personal injury or property damage resulting from applicant's use of a fire hydrant. This form becomes the permit upon signature by the applicant and assignment of a billing account by Austin Water personnel. The permit holder must keep a copy of the permit in any vehicle used to withdraw the water. The permittee is liable for any damages to the City hydrant or infrastructure due to misuse or improper operation of the hydrant.
