

BECOME A COMMUNITY AMBASSADOR!

Austin Water is seeking participants to serve as Community Ambassadors to provide input to Water Forward 2024, Austin's 100- year Integrated Water Resource Plan. Leading with equity, this group will assist with developing and incorporating community values into an Equity and Affordability Road Map and Tool for the plan.

Participants must be willing to work with diverse members of their community (with a focus on outreach to groups most impacted), attend equity trainings, and commit to being a Community Ambassador for a full year, beginning in February. People belonging to communities historically underrepresented are encouraged to apply (e.g. communities of color, LGBTQIA+ identities, people with past records or returning citizens, etc.).

Time Commitment and Compensation

- Participants must be willing to dedicate at least 5 hours/month and commit to serving a full year
- Optional compensation (\$1,500) is available for participants that are willing to register as vendors with the City of Austin. Those not able or unwilling may be able to explore alternate compensation.
- Please note that most if not all gatherings of Community Ambassadors will be virtual until further notice

Applications will be accepted until
January 7th, 2022.
